## TURKEY'S COMPLETE VICTORY OVER WORLD DIPLOMATS TALK OF ALL NATIONS

NEVERTHELESS TREATY IS  
LOOKED UPON AS BE-  
ING GOOD ONE

### MODEL OF JUSTICE

And Generosity Says London  
Times But Telegraph Takes  
a Gloomy View

(By The Associated Press)  
LONDON, July 25.—The outstanding note of all comment of today's newspapers on signing of the Near East peace treaty at Lausanne yesterday is frank admission of Turkey's complete diplomatic victory over allies. The new treaty nevertheless is regarded by some commentators as a good one. The Times describe the document as a model of generosity and justice while the Daily Telegraph, which takes a gloomy view expresses the opinion if the treaty of Sevres had been ratified settlement created thereby would very soon have been shattered.

LAUSANNE, July 25.—American diplomatic representatives, headed by Joseph C. Grew, minister to Switzerland, were prominent in all sessions of the conference. As observers they played a dominant role in the last sessions. They succeeded in getting into the treaty clauses enforcing the application of the principles of the open door and equal opportunity.

Attempting to gain preferential treatment in the way of economic contracts for foreign countries was defeated as was the effort to validate disputed British claims to the petroleum fields of Mesopotamia.

Turkey has been at war for twelve consecutive years and conclusion of the Lausanne negotiations gives her sorely needed opportunity for a period of national construction and development.

Turkey's constructed armies had completely routed the Greek forces. The Turko-Greek war, produced a great soldier, Ismet Pasha, who in the negotiations here had shown himself to be one of the great statesmen of Europe. Ismet worsted the celebrated Lord Curzon, British secretary of Foreign Affairs, at the Lausanne conference.

Ismet constantly played two cards: Europe's ambition to restore peace in the Near East at almost any price and the exaggerated importance Turkey possessed as a world power through her geographical position.

Annexed to the treaty of Lausanne is a special Straits convention whereby the waterways linking the Mediterranean and Black Seas henceforth are thrown open to both the warships and merchantmen of all nations. It is an unanimous verdict that Soviet Russia's last minute decision to adhere to this agreement stands out as the most significant single feature of the Lausanne conference; Bolshevik Russia probably has committed Russia for all time to open the straits to men of war.

Though Lord Curzon was unable to be present at the second sitting of the conference, he continued to be the directing mind in shaping its course.

Underlying all of the weary, endless daily struggles, one thought dominated all discussion. It was that Turkey should be brought back to Europe and not be forced by ostracism to cast her lot with Mohammedan people of the East—Egypt, India, Persia, Arabia and Afghanistan.

The general treaty formally ending the state of war, was signed by Great Britain, France, Italy, Japan, Greece, Rumania and Turkey. Jugo Slavonia announced at the last minute her refusal to sign on the ground that to do so would be harmful to her national interests. The treaty distributes the Ottoman debt among countries like Jugo Slavia (correct) which acquired parts of the former Ottoman empire.

Volusia county made a bird sanctuary by recent act of legislature and is likely to become popular with the feathered songsters who will repay their friends with unmatched melodies in which will be abundant praise.

The Herald for first class job work.

## SOUTHERN AND NORTHERN METHODISTS ARE CONSIDERING GETTING TOGETHER AGAIN

Joint Committee Would Iron Out All Old Time Differences

(By The Associated Press)  
CLEVELAND, July 25.—A plan for the reunion of the Northern and Southern divisions of the Methodist Episcopal church was taken under consideration by the joint commission on unification last night after having been approved by members representing both branches at separate meetings.

The plan drafted by a joint committee of sixteen, was adopted unanimously by the northern members at a meeting yesterday afternoon. At its meeting last night the Southern members made a few changes in the wording of the plan which was then submitted to the joint commission.

Confident that the differences in the wording of the plan would be ironed out and the breath which arose in 1845 over the question of slavery would be healed, was expressed by members of the joint commission as they went into session.

Approval of the plan means the possibility of a united church by 1925, according to Dr. A. W. Harris, general secretary of the board of education of the northern branch and secretary of its unification committee. If reunion occurs, the Methodist Episcopal will be the first of the great protestant denominations which divided over the question of slavery to become reconciled.

The plan, Dr. Harris said, provides only that each church change its constitution so that instead of holding separate conferences every four years the two general conferences will be merged. Details of the unification of the various missionary, educational

## ALL FLORIDA TRAFFIC LEAGUE PROPOSED AT ORLANDO TUESDAY WOULD TAKE CARE OF SHIPPERS

Orlando Chamber of Commerce Took Up Matter  
Yesterday With Local Shippers

(By The Associated Press)  
The Orlando Chamber of Commerce at its weekly luncheon yesterday voted in favor of the formation of an All-Florida Traffic League, which will be instrumental in combating the railroads in the passing of exorbitant freight rates and other measures detrimental to the best interests of Florida.

S. J. Sligh, chairman of the transportation committee of the Chamber of Commerce, Frank Kay Anderson, of the American Fruit Growers, and Karl Lehmann, all spoke in favor of forming such a body and the members of the Chamber of Commerce discussed at length the necessity for such a move by Florida organizations.

S. J. Sligh, in his report, made several statements concerning the attitude of the railroads which caused those present to be actively concerned with the problem. He made a very telling point when he contrasted the things which the railroads have gained from the state and the seeming indifference of the railroads toward the interests of the state. He proved his point by showing that in the last two months the railroads entering and leaving the state have done a record business, and then he asked the question, "What are the railroads doing for the state?" He then showed that not only were they quite indifferent to furthering the best interests of the state, but they showed antagonism to the things calculated to advance Florida's prosperity.

He declared that there were three freight rate increases impending now which will go into effect within thirty days. One of these is the increase in refrigeration rates, against which the shippers will meet in Orlando on August 3rd for protest. Another increase in rates is that of the 20 per cent increase on citrus boxes which are not bound with the third hoop. The third increase impending is the rate on cement and building materials, which will seriously cripple the building industry in Florida.

"If the railroad rates had been the same this past season as they were in 1917," added Mr. Sligh, "Florida fruit

## Weekly Weather and Crop Review, Southern Crops

Temperature Below Normal and Considerable Cloudy Weather.

(By The Associated Press)  
WASHINGTON, July 25.—Weekly weather crop review issued by the department of agriculture contains the following on southern crops:

Cotton—Temperature below normal during most of the week and considerable cloudy weather prevailed in central portion. In general progress and condition good to very good in northern portion. In Florida the condition of crop generally very poor due to shedding, rust and weevil. Early cotton short and open on highlands; some marketed.

Citrus Trees—Doing well in Florida with fruit developing nicely; holding well.

Sugar Cane—In Everglades region suffered too much, rain, otherwise crop in good condition.

## Grand Jury Meets On Peters Case at White Plains

Slaying of Peters Brought Millionaires Son Into It.

(By The Associated Press)  
WHITE PLAINS, N. Y., July 25.—The extraordinary grand jury which had been expected to report today results of its investigation of the slaying of Clarence Peters of Haverhill, Mass., for which Walter S. Ward, wealthy banker's son once was indicted, but never brought to trial, adjourned at noon without acting, will meet again tomorrow.

## Convicted Miner Will Get Sentence Tomorrow Pomeroy

Killed Man Who Went to Him for Testimony

(By The Associated Press)  
POMEROY, O., July 25.—James Miller, was convicted of man slaughter here today for the slaying of Edw. Reynolds, West Virginia coal miner, who had gone to see Miller concerning testimony in armed march case in West Virginia. Miller formerly lived in West Virginia. The jury recommended mercy. The sentence will be passed tomorrow.

Special Thursday offerings at Piggly Wiggly will bring them running to take advantage of the big savings in all groceries and canned goods. Specials on sugar, butter, flour, milk, etc. One pound of bulk coca free with each \$2.00 purchase.

## BERLIN NEWSPAPER REPORT GERMAN POLICE ARRESTED FRENCH EMBASSY COURIER

IMPORTANT DOCUMENTS INTENDED FOR COMMANDER FRENCH ARMY

## IN RUHR SECTION

Some Indication of German Authorities Collaborating With the French Officials

(By The Associated Press)  
LONDON, July 25.—A run on German Reichs bank began soon after opening today, according to Central News dispatch from Berlin which gives cause as insufficiency of bills of large denominations to satisfy other banks.

BERLIN, July 25.—Berlin newspapers report German police have arrested French courier belonging to the French Embassy in Berlin in express train near Hagan on the edge of the Ruhr. Important documents intended for the commander of the French Ruhr army were seized, it is said.

DUESSELDORF, July 25.—Further indication of collaboration of German authorities with the French in keeping order in the Ruhr was given Monday when the French announced the resumption of German police service in several important towns including Recklinghausen. Gelsen-

## FINE PROGRAM FOR BAND CONCERT AND MUSICAL DAY AT LAKE MARY TOMORROW

## JULY COTTON SHOWS BREAK FORTY POINTS

July Sold as Low as  
\$22.50 and Was Under  
October Contract

(By The Associated Press)  
NEW YORK, July 25.—A break of one hundred and forty points in July cotton contracts was recorded on New York exchange shortly after opening this morning. July positions sold as low as twenty-two fifty and at one time were five points under October contracts, which were supported by dry weather news from southwest. A few weeks ago July cotton was at a premium of three hundred and seventy-five points over October. The drop in July was due to receipt of hundred and fifty notices that traders who had agreed to deliver cotton on contracts were prepared to do so.

## PICKED MEN WILL GUARD COURT HOUSE

At Cumberland to Be  
Present at Murder  
Trial of Garretts

(By The Associated Press)  
PETERSBURG, Va., July 25.—Five picked men from local police force will be sent to Cumberland Court House tonight to serve as part of contingent of special officers to be present at the murder trial of Robert and Arkin Garrett, prominent county officials. The men are being sent under instructions of the governor. Eight members of Portsmouth police force also will be sent.

The Daily Herald, 15c per week.

## BASEBALL, BATHING SUIT PARADE, ATHLETICS, DANCING, ETC.

## PROGRAM IN FULL

In Article Below and Grand Time Will Be Enjoyed by the People of Four Counties

Chairman of various committees in charge of arrangements for Musical Carnival Day to be held tomorrow at Lake Mary, report everything in readiness for what promises to be one of the biggest affairs ever held in Seminole county.

A baseball game between the semi-pro teams of Sanford and DeLand will be staged during the afternoon, in addition to the numerous athletic and water contests. An excellent diamond has been prepared and fans can look forward to a real treat when these teams cross bats.

Moving pictures will be taken of all events, a wire to this effect having been received from the representative of the Fox News at the request of the Chamber of Commerce. The bathing suit parade will be held at the conclusion of the athletic events, and it is hoped that a large number of local girls will participate. Handsome prizes will be awarded contestants by Sanford merchants. This feature last year was pronounced one of the best ever held in the state. Miss Allie Gillon together with Mrs. Howard Overlin will be glad to receive applications up to the hour of the parade from girls desiring to enter.

The Tennessee 6 Orchestra has been engaged for the big moonlight dance. This musical aggregation has but recently come to Florida, and the reputation brought with them as one of the best orchestras in the country is confirmed in Tampa where they created a furore.

The Seminole Athletic Association will have full charge of the various athletic events as follows:

- Musical Carnival Day Events. Massed band concert at 2:00 p. m.
- Running Events. 50 yard dash (14 years and under.) Girls' and Ladies potato race. Two legged race. Men's 100 yard dash. Men's 220 yard dash.
- Jumping Events. Running Jump. Standing broad jump. Running broad jump. Hop, skip, and jump. Two fifteen minute wrestling bouts. Two four-round boxing exhibitions. Baseball—Sanford vs. DeLand. Target casting (artificial bait). Ladies' diving contest. Ladies' 50 yard swimming race. Boys' diving contest. Boys' 50 yard swimming race (14 years and under).
- Men's 50 yard swimming race. Men's diving contest. Men's plunge for distance. Moonlight dances starts 8:15 p. m. Musical Carnival Day has been extensively advertised not only locally, but in adjacent communities. The Seminole Athletic Association, through its president, Victor Check, has distributed posters and hand bills in all communities in Lake, Orange, Seminole and Volusia counties and a large number of out-of-town people are expected to be present. The band also made a trip through Lake and Orange counties advertising the affair, and were assured at the time it was the intention of a great many individuals in those sections to be present. The bands of Eustis, Orlando and Sanford will all be present and give a concert during the afternoon.

The casting contest with artificial bait at targets, for accuracy and distance is first of its kind ever held in Seminole county and a large number of fishermen from all sections have stated their intentions of competing. Refreshments can be gotten on the grounds as the Woman's Club have arranged to serve a tempting meal all during the affair. The proceeds of the day will go to the 154th Infantry, F. N. G. Band.

The Herald delivered six times a week for 15c.

# SOCIETY

MRS. FRED DAIGER, Society Editor  
Phone 217-W

**SOCIAL CALENDAR**  
Friday—Informal house warring of the Woman's Club from 8:30 to 11 p. m.

W. J. Morrison, of Tampa, spent the week end here with his family.

Tampa was represented here yesterday by B. J. Mays and W. L. Wilson.

Miss Nora Walker spent the week end most delightfully in Oviedo as the guest of Misses Young.

Mrs. J. C. Bennett and children will leave Thursday for North Carolina where they will spend the summer.

Mr. and Mrs. John Hayes announce the birth of a daughter Sunday evening at their home on Myrtle avenue.

F. E. Roumillat, D. L. Thrasher and George Speer are spending the day at Daytona Beach and other points, fishing.

Mrs. A. W. Smith and daughter, Joanita, are spending this week in Jacksonville as the guests of the former's sisters.

Mrs. Grover Sperring and mother Mrs. E. L. Brown returned home yesterday from Daytona Beach where they have spent the past month.

Mrs. E. D. Wager and Mrs. Rynal Wager, of Titusville, are the guests of Mrs. Joe Lee at her apartments in the Lee building.

Miss Helen Gonzales will return home this afternoon from Orlando where she has been the guest of her aunt, Mrs. LaRue Bliss.

Mr. and Mrs. L. I. Frazier returned home Saturday from North and South Carolina where they have been visiting relatives for the past two months.

Mr. and Mrs. Joe Lee and Mr. and Mrs. Donald Smith were a congenial party motoring to Daytona Beach on Sunday where they spent the day most delightfully.

C. A. Brown and M. A. Kelley, of Jacksonville, were among the arrivals here yesterday and made their headquarters at the Montezuma while in the city on business.

Mr. and Mrs. W. Morton Thigpen and son Billie, leave tomorrow for Edgecomb county, North Carolina, where they will visit relatives of his former.

Phone Mrs. G. D. Bishop for reservations for the subscription bridge party to be given tomorrow (Wednesday) afternoon at 3:30 p. m. at the Parish House. The party is given to raise funds for play ground equipment for the primary school. This is a worthy cause and it is hoped that it will be met with a hearty response.

### ROBSON-REDMOND

The many friends of Alfred Robson and Miss Ola Redmond will be interested to learn of their marriage, which took place last evening at Daytona. Miss Redmond is from Gainesville, Ga., and is a very talented young woman and has made hosts of friends by her charming personality. Mr. Robson is the eldest son of Dr. and Mrs. J. N. Robson, of this city, and holds a responsible position in Orlando where they will make their future home. The many friends of Mr. Robson will join in wishing both he and his lovely bride every future happiness.

### CLASS OF HOME HYGIENE AND CARE OF THE SICK

The classes in Home Hygiene and care of the sick, the local chapter of the Red Cross has been holding, will leave a "marching time" record of good benefit to our community, when they are closed. There has been a splendid course in short cuts to nursing, in the home, under a teacher who has through her experience, ability and deep enthusiasm developed lessons that the chapter shall at all times be more than glad to have given to the women of Sanford, Oviedo, Geneva and surrounding points. Seven classes in all totals the work, and surely Sanford is to be congratulated. The motto of the work is "Pass it on" and it is hoped each member will "pass it on" to help her neighbor and in that way double, even triple the good benefit of this course.

### PICNIC AT CORNADO BEACH

An event of great interest and enjoyment was the picnic given at Cornado Beach Sunday by the Order of Railway Conductors of Division No. 682 of Sanford. There were about one hundred and fifty present including a number of honored guests from the New Smyrna lodge division. All reported a wonderful time. Ice cold lemonade was served throughout the day, and if there is any truth in the old saying, "The way to a man's heart is through his stomach," then all the wives of these many men surely touched that spot. Eats, oh boy, it would be hard to find anything to excel the spread these ladies had prepared. There was everything from roast chicken and dressing, fried chicken, and all that goes with it down to every kind of cake and pie.

The sentiment of the men were: "There is wives and wives, but when it comes to a spread of goodies, there is no wives like the wives of the conductors of Sanford Division, No. 682."

Later in the afternoon all enjoyed a dip in the surf. Many remained till late and had clam chowder supper before leaving. After luncheon, Chief

## NEW CLUB WILL OPEN ON FRIDAY

About the Building of the House  
For the space of two years, there was more or less of discussion between those who favored selling the club property and buying a lot elsewhere, and those who felt it would be wiser to remodel, and at one time it seemed as though a sale would be made. Finally, however, after numerous conferences with Elton Moughton, it was decided to utilize the foundations of the old edifice and extend it in the rear, as this would mean an economy of two thousand dollars in the work of construction, and the club lot was quite as desirable as any other then available. The plans were submitted to the club and thoroughly explained and criticism invited, before they were accepted, and the contract offered for bids. Attractive as the blue prints appeared, they gave but slight indication of the quaintness and beauty of the house as it stands today. Mr. Moughton has given to Sanford a thing of beauty and his name brings a warm smile of pride that this town can claim an architect so original in his ideas and so clever in their development. Frank Lossing, whose bid won over that of other contractors, has correlated his part of the project perfectly with the plans of the designer and the wishes of the building committee. Mr. Gillon, of Gillon & Fry, has given personal supervision to the installation of a lighting system delightfully harmonious and suitable. The plumbing was done by Lee Brothers; exterior painting by Mr. Jackson; interior painting by Awall & Musgrave, and the stucco work by Mr. Castiglioni, of Orlando.

It would help a great deal if the society page would tell us where the mosquito family expects to spend the summer.

Conductor W. P. Brooks, gave an interesting talk on the emblem of the order, followed by others who made short talks, enjoyed by all. This was the first picnic given by the Division, but all hope not the last.—By One Who Was There.

As Chief Conductor of the Sanford Division, No. 682, of O. R. C., I want to thank the wives of the conductors and relatives, who participated in this grand picnic. I also want to thank the members of the New Smyrna lodge for the courtesy they extended towards us, particularly one certain brother who threw his house open to all brothers' wives to use as a bathing house. He also erected a tent for the benefit of the men likewise.  
W. P. BROOKS,  
Chief Conductor.

## LOCALS

Mayor Henck of Longwood was in the city today on business and calling on his many friends.

New business, new faces on the street, big improvements all make a city.

The beaches, the springs, the lakes and rivers all call to the hot and tired people to take recreation in Florida as nowhere else.

The Western Union is putting in several fire proof cases for filing letters and stationery and other supplies.

The Puleston-Brumley building will receive the next write up in the Daily Herald as soon as all the contracting firms can be reached.

Money put in the Bank soon becomes money you don't need to spend. The Seminole County Bank awaits your call.

The growers are getting busy again with the crops of lettuce and celery and many of them have planted the seed beds and the whole district will soon look like a tented city.

Mr. and Mrs. L. I. Frazier have returned from a pleasant trip to Atlanta and points in North Carolina. They made the trip by auto and report the roads as being very good in most places.

Woolworth Stores are now a beehive of industry with numbers of employees getting the store in shape for the big opening. The new building and front is up to date in every particular.

Arthur Thompson of Jacksonville is spending his vacation with his parents, Mr. and Mrs. Edgar Thompson on Park Avenue. This is his first visit to Sanford and likes the looks of the town.

The Seminole County Bank received a big steel deposit frame today that will hold additional safety deposit boxes made necessary by a greatly increased business in the Seminole. The boxes are fire proof and burglar proof.

Churchwell's Piece Good Department will appeal to you this week when a number of fine patterns in gingham, crepe, percales, and other lines will be sold cheap. Read the advertisement today and get the prices. This is the time to buy.

The Mid-Summer Clearance Sale at the Outlet on First Street, opposite the postoffice, is now on and your attention is called to the many special bargains in an advertisement today. The Outlet has the goods and the prices.

The Sanford Dry Goods Company has an advertisement today calling your attention to the big Shoe Sale in which there is one-fourth off on all shoes in this store. Also specials on silks, suitings, cretonnes, etc.

The Sanford Building and Loan Association has a statement in this issue. This Sanford institution has done a good work here in the building of many new homes. If you have money to invest put it in the Sanford Building & Loan Association.

This is Pictorial Review week and Speer & Son announce this fact today in the Herald. Four young men who want to work their way through Oglethorpe University will be here to take subscriptions for the Pictorial Review and everyone who wishes to subscribe should save the subscription for the young man when he comes around. They are duly accredited agents for the magazine and have their picture on the credential letter.

The Sanford Dry Goods Company has an ad in today's Herald calling attention to the July Clearance Sale now going on at their store at the corner of Second street and Sanford avenue. All the bargains offered in their announcement are still in effect and you can save real money on every article purchased there, as the price cuts are drastic, and now is a good time to lay in a supply of the reasonable goods offered. Watch these columns for the announcement of the big remnant sale to be put on soon.

TALLAHASSEE, July 24.—Chairman Burr, of the Florida Railroad Commission, accepted an invitation to attend a meeting of the Polk County Growers Thursday at Lakeland, called to protest against the increased refrigeration charges on shipments of vegetables from Florida.

## BIG DANCE AT LAKE MARY CASINO FRIDAY NIGHT

Wednesday night is the time and the place is Lake Mary Casino and the music is the best in the state, the famous Hartzell's Novelty Orchestra. Known from one end of the state to the other and believe us they are there with the goods when it comes to making music that will charm you. They are known for the boys with the rep and the pep. The manager of Lake Mary Casino, Mr. Sewell, has been very fortunate in securing this orchestra for this one night only as they are booked far ahead and this was the only open date that they could be had. The price is right and the dance floor is one of the best in the whole state and is one of the largest also. The big casino is built over one of the prettiest lakes in this section of the country and there you will always find a delightful breeze to cool you off. The Casino is open on all sides so that you will be on the coolest dance floor that you have ever been on in this state, and don't forget that there are plenty of bath rooms to take care of the bathers, a nice long pier extending out into the lake with spring board and diving ladders, so if you want to have a great big time be sure and visit Lake Mary Casino Wednesday evening.

## BIG MOONLIGHT DANCE—Lake Mary—Thursday, July 26th.

The Herald delivered six times a week for 15c.

### THE TEMPERATURE

JACKSONVILLE, July 24.—The maximum temperature in representative cities furnished by the weather bureau from records compiled at 9 p. m. yesterday follow:

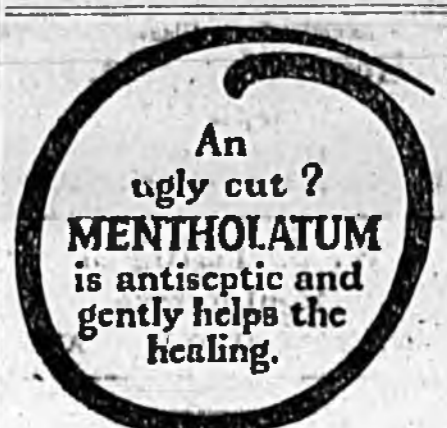

Cities	Max.	Min.
Atlantic City	72	61
Atlanta	70	66
Boston	64	58
Buffalo	71	56
Chicago	86	62
Cincinnati	86	61
Des Moines	98	71
Eastport	68	62
Kansas City	91	71
New York	76	60
Pittsburg	78	56
St. Louis	94	74
Toledo	74	68
Washington	78	68

The hen should enjoy a picnic. She has to scratch for a living anyway.

## THE WEATHER

For Florida: Partly cloudy today and tomorrow; scattered thundershowers probably.

WAYCROSS, Ga., July 24.—Marcus B. Norris and J. P. Marbery charged with the murder of Mrs. Nell Price who recently was found dead on the railroad tracks of the city limits, were freed at the conclusion of the commitment trial early Monday afternoon. The three justices sitting on the case deliberated for 20 minutes, then rendered their decision. The evidence presented by the state was held insufficient to bring them to trial.

An ugly cut? MENTHOLATUM is antiseptic and gently helps the healing.

CLAY AWAY THE YEARS

Apply Bonicilla Beautifier cosmetic clay to your face, and rest while it dries, then remove and see and feel the wonderful difference in the color and texture of the skin.

Guaranteed to do these definite things for the face or money refunded. Clear the complexion and give it color. Lift out the lines. Remove blackheads and pimples. Close enlarged pores. Rebuild facial tissues and muscles. Make the skin soft and smooth.

You can obtain regular sizes from your favorite toilet counter. If not, send this card with 10 cents to Bonicilla Laboratories, Indianapolis, Indiana, for a trial tube.

GROUP of ambitious wideawake young men are working in this city during their summer vacation, to earn their tuition to college. One of these students will call on you within the next few days to explain to you a new plan which will make it easy for you to get Pictorial Review regularly. He will have nothing else to offer you. Each student will carry with him an official certificate like the one reproduced below, on which will appear his photograph, his description, and his signature.

### Pictorial Review Patterns

PICTORIAL REVIEW patterns are sold at the rate of 40,000,000 a year. They save from one half to one yard of material on each garment—and are famous the world over for their style, fit and ease with which they may be used. Every pattern illustrated in Pictorial Review may be secured at our pattern counter. We carry a full line.

As agents for Pictorial Review patterns, and as a store, we highly endorse the efforts of these young men in bringing to your attention America's Leading Woman's Magazine—Pictorial Review.

Latest news about the Prince of Wales says he will visit Canada "incognito." He is not the first man to visit Canada incognito although some of the others did not have the same motives for keeping their identity hidden.

We understand that the ocean was badly crowded with bathers Sunday and there was hardly room to turn around. The Republican party is responsible for this state of affairs, no doubt. The next measure before the House will be one to enlarge the ocean.

The Citrus Chronicle is thirty-one years old today. That is some age for a newspaper but there are older ones in Florida at that. When the Sanford Herald is thirty years old we will give it over into the hands of the younger generation and retire to our country estate (whatever that means) and endeavor to take a few days off fishing.

SANFORD IN THE PUBLIC EYE

Sanford is showing progress to such a degree that visitors to the city are struck with it all the more favorably impressed with it. This is one of the reasons why every citizen in Sanford should get on his toes and keep there in boosting his home town. The day is past for the man to hold back improvements that mean a big-

ger and better city. The day is past when a few people want to keep Sanford in the village class are enabled to clog the wheels of progress. All the people have seen the vision of a big city here and they will not let any pessimistic spirit hold back the improvements that are necessary. We have strained ourselves in the past to put over the big things here and we are willing to strain ourselves in the future but we want all of the men in Sanford to help and especially do we want the men with money to help. We will make them more money in the next few years than they ever dreamed of and the money spent for improvements will be returned to them one hundred fold. Some people find it difficult to see any advantage in money spent to advertise the resources of the city and county. They can not see it because they have never tried to see it. They count advertising as so much money spent with no chance to get any of it back. They never reason about the results and the many new people coming here through the advertising and from whom they are getting more new money. For instance a visitor to the city today said that he met a man on a train in Tennessee one day last week and they fell to talking about Florida. Everybody is talking about Florida now and Florida is in the mouth of more people than it has ever been before. One man said he had travelled all over the south and all over the state of Florida and he liked the appearance of Sanford better than any city he had seen in the south.

Now this is going some. It means that the busy appearance of our city has much to do with the investing of money here by a man who has investigated the entire south. It means that he found the spirit of optimism here instead of the spirit of pessimism. It means that he saw signs of prosperity and improvements that made him feel like he was in a thriving and growing city. You know what we mean and you know that the Herald has preached this doctrine for fifteen years.

Have faith in your own city and back your judgment with your last nickel and you will have a city here of twenty-five thousand people before you know it.

Have the faith and have the vision. We will have the big city. Other people say it and this means much.

WHY PAVEMENTS "EXPLODE."

The St. Cloud Tribune directs attention to a fact which should be given attention by those who have the duty of writing specifications and awarding contracts for paving—the liability of absolutely rigid pavement to explode under extreme heat. It is our understanding that much con-

crete and cement-grouted brick pavement has been seriously damaged by explosions of this character in Orange and Osceola counties in recent years.

The St. Cloud paper's very clear explanation is herewith presented:

Under the terrific heat that has prevailed generally during the last few weeks, certain types of pavements have been "exploding" with uncomfortable frequency, throwing huge slabs of concrete and paving blocks high in the air and often endangering lives of pedestrians and motorists.

This phenomenon is rare enough to make an explanation interesting, and a remedy worth while, the latter from a safety standpoint alone, to say nothing of public economy.

It is only the "rigid type of pavement" that "explodes." Rigid types are limited to concrete pavements and to black pavements in which the interstices between the blocks are filled with what is known as cement grout. The grout clings to the blocks and sets up even harder than concrete, and the result is a slab just as rigid as a plain concrete pavement.

In these types of pavements there is little or no room for expansion, that irresistible force brought about by intense heat. Even where expansion joints are provided at intervals, rigid pavements have been known to "blow up." The heat expands the rigid slab. In those cases where expansion is not held in compression, there is only one direction in which this force can expand itself, and that is upward. Pedestrians or motorists in the immediate vicinity are in more or less danger.

This is one of the reasons why engineers are more and more specifying flexible instead of rigid surfaces. In brick or stone block surfaces this is brought about by the use of asphalt between the units. This bituminous material absorbs expansion and permits contraction without "explosions" or cracked and crumbled surfaces. Such engineering design also allows for the upward thrust of a freezing subgrade and for the continuous swelling and shrinking of the earth's surface under the influences of moisture and drought.

ADVERTISING OUR RESOURCES.

California never "just grew." Where Florida has grown by leaps and bounds it never "just grew." The beauties of nature and all her wonderful resources would lie dormant a hundred years were they not touched by the hand of man. The cities and the counties in California and Florida that have advertised are the ones that have gained thereby. The places where they are holding back prosperity and are willing to let well-

enough alone as they say, are the places that are stagnant. It takes advertising and it takes pushing and it takes plenty of work to make real cities. California took the jump on Florida many years ago when backed by the railroads and other corporations they spent millions in advertising and they are still spending millions. The natural resources of Florida have attracted the people to this state and many of them have remained and bought property and helped to develop the state but there are millions more who will never look at Florida unless we bring the state to their attention through the right kind of advertising. Sanford is waking up to this fact and our many resources here will be broadcasted to the nation by advertising in the campaign to be inaugurated this fall and next spring. And in connection with that advertising Sanford should be able to call attention to the many improvements being made here now, to the bulkheaded lake shore drive, to the boat basin and pier, to miles of new roads and improvements that will bring the tourists here and make winter residents of them. Unless we go ahead and make all these improvements now we can not show them the Sanford of the future. All of the money spent on big improvements here will return to the taxpayers one hundred fold—but remember, that you can not get new people here unless you show your faith in the future of Sanford by making the improvements needed on the lake front and everywhere in Sanford. You can not make money in any line of business without spending money and this holds true of making big cities. The Jacksonville Journal says:

"You have to let the people know what you have and to do that you have to advertise. And to advertise costs money. You can reach the world but you have to pay for it and I advocate that we organize at once a definite program of publicity that will put Florida before the world. Not Orlando, or Miami, or St. Petersburg, or Jacksonville, but FLORIDA."

"This was the keynote of Telfair Stockton's address to Florida Development Board at Orlando recently. "It is something that can not be preached too often or too much. Stockton realizes it and emphasizes it. "When the word Florida truly begins to mean as much to each of us as the word Tampa does to Tampans, and Miami to Miamians, and Jacksonville to Jacksonvilleites, and so on everywhere in the state, we shall see an area of prosperity unequalled in the history of the state. "The State Development Board is seeking \$27,500 to establish a state publicity department. It is to be hoped the money will be available.

But with all due respect to the Development Board, the goal set forth is pitifully small.

"A fund of \$27,500 for state wide Florida publicity is better than nothing at all, and nothing at all has been the appropriation heretofore. But it is shamefully small for all that.

"Rich in opportunity, Florida must quit being niggardly in developing that opportunity. "Would there were a host of Telfair Stocktons to give Florida the vision it needs!"

NEGROES NOT WANTED.

A staff correspondent of the Detroit News, writing from Lansing, says the influx of negroes into Michigan from the South has become so great that the State Department of Labor and Industry and the Department of Agriculture have found it advisable to file a report with the State Administrative Board making recommendations far meeting the urgent situation.

The departments complain that Michigan is receiving more than its share of the negro migration, which ought to convince those migrating negroes that they are not wanted. The recommendations made are that a survey be had to determine the number of negroes in the state and their social and financial condition, to locate sections of agricultural lands upon which the negroes may settle, and—here's the significant point—to "discourage further migration north through co-operation with Southern states."

In other words, Michigan has more negroes than it wants—which is probably the case with other northern states. We have always been taught that, when one goes to a place to which he is not invited and where he is not wanted, he doesn't have a pleasant time. It follows that the negro, being unwelcome, will soon become offensive to his new-found Northern neighbors. When he becomes offensive, he will be mistreated. Then will come race trouble.

The Michigan boards further report that the negroes are being attracted there by propaganda based on extravagant claims about highly paid jobs in automobile factories awaiting them or rich farm lands to be had for the asking. Land companies have been organized in the South, they say, to encourage negroes to go north. They do not add that these companies are Northern concerns. One company told the negroes that, if they don't like farming or automobile factory work, they can make \$100 a day trapping muskrats.

Most of the land being sold these negroes is totally unfit for farming, the report says. "Also, Southern negroes are not used to Northern crops and methods. With this com-

bination, there can be only one result—failure and the obligation of the state to care for these people."

Another trouble cited by the Michigan report is the resentment of the negro citizens of that state against the newcomers. "They see their standing in the community won through adaptation to conditions jeopardized by newcomers who do not know conditions and have been induced to come North through false promises."

So, the Southern negro who goes North will soon find himself not only obnoxious to the whites but objectionable to his own race.

The Tribune wonders how many Florida negroes have been induced to go to Michigan to make \$100 a day "trapping muskrats?"—Tampa Tribune.

Germany is again in the hands of the communists and the red factions. In a riot in Berlin yesterday they killed Dr. Haas, the attorney general, and looted and demolished his residence, maltreated his wife and father and otherwise deported themselves as this class of people can be expected to do when they are turned loose on society. It looks like Germany really feels the iron hand of a Bismark to keep them quiet.

John McWhorter, development editor of the Tampa Tribune, is still on the job and last Sunday issued a special edition for Pasco county that, like all of John's editions, was first class and will bring many new people to settle in that thriving section of Florida. If John McWhorter will write up every county in the state there will be a development here such as has never been noted before. He presents facts and figures in an entertaining way that brings results.

CHURCH OF ENGLAND HAS BIG DEFICIT

(By The Associated Press) LONDON, July 25.—The Central Board of Finance of the Church of England has decided to hold a series of conferences in the autumn to deal with the deficit of £53,000 shown in the financial report of the church for the present year.

The report of the legal committee suggested that the assembly of the church should copyright various publications in connection with its work as a means of raising additional funds.

A big time for every one at the Musical Carnival Day next Thursday at Lake Mary, 100-11c

PUBLIC FORUM

SANDY ANDERSON AND THE 23RD PSALM.

Dear Mr. Sandy Anderson: Sanford is a very familiar name to me.

The memory of it runs back into the 60's, when I said to the founder, "General we are going to call the settlement 'Sanford'."

He had such influence at Washington that the postoffice was easily removed from old Mellonville to the new settlement of beautiful Lake Monroe and has remained and retained the name of "Sanford," and long may it prosper in all good things.

We congratulate our town on having a live, devoted journal. What would Sanford do without the Herald. Some of us wandering folks who are not there to participate in her good fortune can wait our best wishes for all the good things the Herald is trying to promote.

In a late copy we note a production of yours that caught our eye and held our attention.

You are evidently familiar with the 23rd Psalm—one of the most beautiful, tender, and exquisitely appealing, perhaps of all that inspired writer who little know that he was inditing immortal sentiment to console and encourage the millions to come. If weighed in the balance of soul-worth how could its value be computed!

Now, Mr. Anderson, you are too kind-hearted to voluntarily wound the feelings of your fellow-Christians by comparing a parody on their loved and sacred Psalm. You did not realize the gravity of it nor its influence. Please don't do it again. Scripture is solemnly sacred—never to be handled lightly or irreverently.

May "the goodness and mercy" of the Psalmist's prayer follow you all the days of your life and enable you to dwell in the house of the Lord forever."

—AN AGED GRANDMOTHER.

Bait Casting Contest for accuracy and distance artificial targets, Lake Mary next Thursday. 100-11c

LAKELAND, Fla., July 25.—A tentative organization of the Polk County Chamber of Commerce has been effected here, with E. L. Mack, president of the Lakeland commerce body, and T. J. Appleyard, manager of that organization, acting as managers of the new body until a permanent plan of procedure can be adopted.

Advertisement for Yowell Company featuring 'Specials For Friday and Saturday'. The ad is framed with a decorative border and contains several product categories with prices: NEW DRESS GOODS (32-inch Tissues and 36-inch Dotted Voiles, 65c); CEDAR TRUNKS (\$65 to \$75); NEW JAP PARASOL (\$1.95 to \$2.75); BAGS (\$15 to \$1.50); NEW PURSES (\$2 to \$4); COLORED VOILES (50c to 85c). At the bottom, it lists MEN'S SHIRTS (\$2.25 to \$3.50) and NECKWEAR (50c, 65c to \$1.50). The central text reads 'THE YOWELL CO. FRIDAY and SATURDAY'.

FATHER AND SON WEEK TO BE HELD IN NOVEMBER

(By The Associated Press) NEW YORK, July 25.—A change in the dates of National Father and Son Week, so as to have the observance center each year around Armistice Day, is endorsed by President Harding in a letter received at the New York office of the International Committee, Y. M. C. A., which originated the observance in 1917 and whose Boys' Work Committee continues to lead its promotion.

The change from the week of Lincoln's birthday, used for the purpose of the observance until this year, has been made in response to the desire of national and international Sunday School organizations. (The President's letter follows: "My attention has been called to the National Father and Son Movement, which is to be launched during National Father and Son Week, November 11-18. It is a great pleasure for me to commend this movement, which has as its objective to draw together in a more intimate way the fathers and sons of America, and to strengthen and develop this relationship."

"The success of this movement during the past years has won for it a distinct place. Since the movement has become world-wide in character, it is most fitting that it center around the date of world-wide significance, Armistice Day. Surely, the coming generation will need to be constantly reminded of their obligation to help maintain the peace of the world, for which millions of fathers and sons have died in past years.

"It is hoped that all individuals as well as constructive agencies, interested in the boy life of our nation, will give this week due consideration and recognition by bringing together fathers, and sons in schools, churches, clubs and other places, and assisting the boys of the community to their own inherent right of companionship with their fathers."

COWS ADDICTED TO NARCOTICS MAY BE ARRESTED IN MONTANA

(By The Associated Press) HELENA, Mont., July 25.—A cow, or any other animal, which becomes addicted to the narcotic habit in Montana, may be arrested and confined in the state sanitarium until pronounced cured by the physicians in charge, according to a new state law.

The new law, legislators say, is the result of a clerical error made in the closing days of the session. An amendment, intended to strengthen the anti-narcotic law, was tacked on to the law providing for the condemnation of stock driven insane by the eating of loco weed.

Bathing and Boating at Lake Mary Musical Carnival Day. 99-21c

According to the Miami News-Metropolis, 20 men with trucks and other road building machinery have crossed the morass between the end of the Dade county grade on the Tamiami Trail and the pine land beyond, and are at work building the 18 miles of the trial which pass through the Chevelier property.

In an election held recently in Fort Pierce inlet district voters gave a very large majority to the proposed sale of \$200,000 worth of bonds, the money to be used in improving the inlet. It is proposed to deepen the channel to fourteen feet and extend the jetties a distance necessary to protect the cut. The voters in the district were three to one in favor of the bond issue.

FLORIDA FACTS

Florida produces ferns commercially to the value of \$200,000.  
Seven thousand five hundred carloads of watermelons and 300,000 crates of cantaloupes have been shipped out in a season.  
The state has 6,250 miles of railroad and more than 5,000 miles of highways.  
Marion county possesses one of the greatest springs in the world in Silver Springs, which sends out 22,134,780 gallons of water an hour.  
Florida produced crops in 1922 having an aggregate value of \$160,000,000.  
The citrus fruit crop last year returned \$27,000,000, five and one-half times the cost of the state when the United States bought it from Spain in 1819 for \$5,000,000.

Bathing and Boating at Lake Mary, Musical Carnival Day. 11c

POULTRYMEN WILL BE ABYE TO GET VALUABLE FROM FARMERS' WEEK

(By The Associated Press) GAINESVILLE, Fla., July 25.—Commercial and backyard poultrymen will have an opportunity to get some first-hand facts and knowledge regarding various phases of raising chickens and other classes of farm fowls, if they attend Farmers' and Fruit Growers' week at the University of Florida, August 6-11.

The program will deal particularly with feeding practices, poultry diseases, marketing, profits to be made in the business, breeds and housing.

R. C. Blake and A. L. Irving, practical poultrymen, will be instructors. The program will begin Monday afternoon, August 6, and continue through Wednesday.

Extensive plans are being made to provide a thoroughly practical program of instruction for almost all phases of Florida agriculture, and to also provide plenty of fun and entertainment. Officials in charge have announced that the program will include subjects of interest to every member of the family, particularly the men and women.

Board and lodging can be obtained on the campus for a dollar a day, or just off the campus or up town at reasonable rates by those attending the school authorities say.

Another important cattle industry is about to be added to the many already in Highlands county, which ranks as seventh county in state in this industry. The new company is known as the Buck Island Cattle Company. The cattle are to be kept in the area known as Buck Island township, a few miles east of Lac Annie, and along the new state highway. This township has been fenced and the very fine prairie land making up part of this township will be utilized.

Road development in Highlands county during the ensuing six months will be of paramount interest to the entire state. The completion of State Road No. 8 will link the gulf and ocean in one continuous asphalt highway. The voting of the bond issue by Highlands county early in the year for \$600,000 worth of road building, was the first decisive step toward the culmination of this important project, and the county commissioners have since taken the necessary steps to carry out the provisions of the bond issue.

SEMINOLE COUNTY GROVE AND FARM NEWS NOTES

R. F. WHITNER, JR., COUNTY AGENT

On Saturday the County Agent can be found in his office in the basement of the Court House. At any other time he may be reached through the office of the Chamber of Commerce. Leave all calls there.

County Agricultural Agents

Everybody's football to kick around and everybody's servant to help in the solving of all kinds of problems from the simple one of curing the old gray mare's colic to the highly specialized art of making the family baby laugh, that is the job of the county agent. Few realize just how important he is. A recent editorial in the Breeder's Gazette shows, however, that people are coming around to consider Mr. County Agent something more than an unnecessary evil. The editorial reads:

"In answer to a question, all of our subscribers whose names have been on our list for several years know that The Gazette has steadfastly advocated and defended the county agricultural agent as a practical aid to farmers. . . .

"A marked improvement in the character of the service given by county agents has been registered in recent years, due to the fact that there has been an increase in the number of trained and experienced men adapted to this work, and to the further fact that the function of the county agent is better understood and more clearly defined than it has been in the past. Despite the agricultural depression, the number of county agents has increased. This in itself is a tribute to the value of their service to farmers."

"The county agent who knows his job, and has the personality and temperament which are necessary as supplements to his technical qualifications, is in daily, personal contact with farmers. He is therefore in a unique position to counsel and advise and to speak and act as their representative. Their practical problems are his. Together they are solving those which can be solved. The solution of local problems in agriculture will automatically dispose of most of the larger solvable agricultural problems of state and nation. This is working from the bottom up, rather than from the top down.

Dairy Pointers

The following dairy pointers have helped more than one dairyman to get established. They are by Prof. John M. Scott, of the Florida Experiment Station, who says that the time is not far distant when Florida will be the greatest dairy state of the South.

- 1.—The individual cow is the foundation of dairying.
- 2.—The dairy is a factory and, like all factories, the larger the production

of each cow the lower is the cost of production.  
3.—Only by keeping records of production can the value of individual cows be known.  
4.—The feeding of scrub cows and the "scrub" feeding of good cows are two of the most common mistakes in dairying.  
5.—Save all heifer calves from the best producing cows in the herd to replace the unprofitable cows.  
6.—Use a good sire, lest your herd be doomed to failure.  
7.—Get rid of unprofitable cows; the milk scales and the Babcock test will point them out.  
8.—Grow plenty of feed. Feeding from the sack takes the biggest part of the profits.  
9.—Every dairy of considerable size should have a silo.  
10.—Good milk cannot be produced in unsanitary surroundings.  
11.—Profit by the experiences of others; have the courage to change from faulty methods to better ones.

Use Head, Not Heels, Farm Woman Advises Others of Her Kind  
The problems of the farm woman are many and varied but the most vexing one is the lack of equipment to carry on the daily duties that confront her in the home. This charge was recently made by a Florida housewife to a gathering of women in a rural district of this state.

"We have few running water systems, lighting plants, oil stoves, fireless cookers, and steam pressures," she declared. "We have little knowledge of what really constitutes our profession of housekeeping, and we lack the desire to learn more about it. And what we know about thrift could be said in a dozen words. Many of us do not seem to have the desire to spend money wisely. I dare say this condition is largely due to plain, unadulterated indifference on our part."

"No doubt this is the situation all over the country, to a certain extent, but that is no excuse for its existence anywhere. Salvation lies in our putting our homes on a business basis, and in having all the modern equipment we can afford. We must use our heads instead of our heels."

"There is no excuse for our lack of information with so much good reading matter in our magazines and the free literature sent out by our state and national home demonstration workers. Then, in addition to this free literature, we may have the free services of our home demonstration

Cascades Rival The River Nile in Volume

With the wane of Pharaoh's elephants, pyramids and hieroglyphics comes the autumn rise of the Nile. The Egyptian influence has not gone, merely shifted to a less obvious and more sedate form.  
And with the disappearance of the printings come cascades of pleatings down the front and back, overflowing a narrow silhouette, just as the Egyptian river overflows its banks.  
Nothing more Egyptian in contour than this evening frock could be imagined. Some psychic influence will probably make the wearer even hold her arms akimbo in the traditional manner.  
The draped skirt laps lightly across the front. A belt which merges into the drapery of the skirt ties and falls in two long ends finished by deep cascades of pleatings. A similar decoration falls from the yoke of the waist in back to balance the effect—bands of red and blue embroidered galon run in the back from the neck to the bottom of the pleating—in the front from the end of the yoke to where the pleating begins.  
Nile green satin Panne from the looms at South Manchester makes the dress and Crepe Chantelle of the same tone, the pleating. Shoes and stockings are beginning to match the dress again for evening wear.

agents who come, at our beck and call, to our very thresholds to help us with our problems."

Some Features of the Citrus Program to Be Emphasized for Farmers and Growers' Week, Aug. 6-11  
Future of the Citrus industry in Florida.  
Prospective citrus growers.  
Citrus growing a paying industry.  
BEGINNING RIGHT.—Planting a seed bed, lining out in the nursery, root stocks.

PROPAGATION.—Budding, grafting, bud selection, scion rooting.  
CARE OF A NURSERY.—Cultivation, fertilization, insect pest and disease control, importance of nursery inspection.

THE GROVE.—Selection of the grove site, preparation of the soil, citrus varieties, planting and pruning, cultivation and cover crops.  
FERTILIZATION.—Fundamentals of fertilization, fertilizing the grove, fertilizer formulae.

MANY APPLICATIONS FOR OWNER CERTIFICATES MUST BE RETURNED

TALLAHASSEE, July 20.—Thirty per cent of the applications for certificates of ownership and automobile license tags have to be returned because applicants fail to properly answer all questions, officials of the state comptroller's department say. Payment for certificates and license tags should be made in separate checks, they say. This enables clerks to expedite action on the applications, the separate checks saving delays due to double entries in keeping accounts when single checks are sent. Funds received from certificates of ownership and those from license tags are kept in separate accounts.

The Woman's Club is preparing good "eats" to be served at Lake Mary next Thursday. 11c

JEWETT SIX PAIGE BUILT

\$1065 f. o. b. factory

A Husky Frame for the Sturdy Jewett

HERE is a frame six solid inches deep, with top flange correspondingly wide. It is a unit of tremendous strength, reinforced by in-built corner braces in front and four sturdy cross-members. This staunch construction frees the Jewett from any possible misalignment of working parts—gives unlimited endurance, genuine riding comfort.

Jewett's balanced weight and husky frame do much to give it a road motion that is steady and restful. And here's a car that doesn't need nursing over bad spots. Its 2805-pound weight holds the road—its fifty-horsepower motor does the rest. Let us put a Jewett through its paces for you. Whenever you say. No obligation.

**Education Board Approves Action of Board of Control**

Appointment and Salaries Four State Institutions Stand; Approve Legislatures' Appropriation.

(By The Associated Press) TALLAHASSEE, Fla., July 24.—The state board of education yesterday approved unanimously all appointments and salaries recommended for the board of control for the four institutions of higher education in Florida for the year ending June 30, 1924.

The action carries with it approval of the appropriation of \$1,963,476.50 voted by the 1923 legislature, for the support and maintenance of the several institutions and the departments thereof, under the management of the board of control, and \$300,000 for the state plant board. A roster of the appointments was made up at the Jacksonville meeting of the board on July 9.

Items contained in the appropriation bill included: University of Florida, for salaries, equipment and operating expense, \$180,615; fire protection, \$6,250; for buildings, \$200,000; for general extension division, \$60,000; for agricultural experiment station, Gainesville, \$110,000.

State College for Women, for salaries, equipment and operating expenses, \$336,961; building and improvements, \$235,875.

For Florida School for the Deaf and Blind, salaries, equipment and operating expenses, \$180,000; building, \$60,000.

Florida A. and M. College, for salaries, equipment and operating expenses, \$50,000; building, \$40,000.

**YANKEES STAGE EIGHTH INNING RALLY AND WIN**

PHILADELPHIA, July 23.—New York staged a battery rally in the eighth inning of yesterday's game and scored enough runs to win from Philadelphia. The final score was 9 to 2. In the ninth, with two on base, Babe Ruth hit his 23rd home run of the season tying the mark of "Cy" Williams of the Phillies, who had previously led both big leagues. The ball cleared the right field wall and landed on the roof of a house across the street. The score: New York 9, Philadelphia 2. Mays and Hoffman, Schang; Rommel, Walberg and Brugg.

BOSTON, July 23.—Quinn held Washington to 3 hits yesterday, while Boston hit Mitchell hard in the early innings. The score was 6 to 1 in favor of Boston. The score: Washington 1, Boston 6. Mitchell, Sedgewick and Ruel; Quinn and Picinich.

CHICAGO, July 23.—Detroit won both games of a double header from Chicago yesterday, 4 to 1 and 9 to 6. The scores: Detroit 4, Chicago 1; Chicago 9, Detroit 6.

ST. LOUIS, July 23.—Cleveland and St. Louis divided a double header which was featured by home runs yesterday. The Browns won the first contest, 3 to 1, and the Indians annexed the second 3 to 2, in 13 innings.

ST. LOUIS, July 25.—Cleveland and St. Louis divided a double header which was featured by home runs yesterday. The Browns won the first contest, 3 to 1, and the Indians annexed the second 3 to 2, in 13 innings.

ST. LOUIS, July 25.—Cleveland and St. Louis divided a double header which was featured by home runs yesterday. The Browns won the first contest, 3 to 1, and the Indians annexed the second 3 to 2, in 13 innings.

Bait Casting Contest for accuracy and distance, artificial targets, Lake Mary, next Thursday. 99-2tc

**FIRST BALE OF COTTON IN SAVANNAH YESTERDAY CAME FROM FLORIDA**

SAVANNAH, Ga., July 24.—The first bale of new cotton crop was received at Savannah yesterday from Florida, having been grown in Lake county, and came from the point farthest south of any first bale. Last year the first bale was from Georgia, one day earlier than this year.

Experts pronounced it the finest first bale they ever saw. It graded officially as strict middling, of fine staple and preparation. It was received by Gordon & Company, and was sold at auction to Livingston Glover and Company at 56 cents. Later in the day the bale was shipped by express to New York, where it is expected to arrive in time to be present at the opening of the new building of the New York cotton exchange Monday morning. The purchasers stated that the bale will be disposed of in New York and the proceeds donated to charity.

**GEORGIA BILL WAS RETALIATION ON FLORIDA**

QUARANTINE AGAINST GEORGIA VEGETABLES ON ACCOUNT OF BRETLE

(By The Associated Press) TALLAHASSEE, July 24.—The bill introduced in the Georgia house of representatives yesterday quarantining Georgia against shipment of green peas and beans from Florida into Georgia is looked upon here as a retaliatory measure. The Florida Plant Board which controls such matters some time ago quarantined against shipment of these vegetables in pod into Central Florida from several states including Georgia. The measure adopted was said to prevent introduction into Florida of the Mexican blight which the board said was firmly established in several places in Georgia where it is said to be doing great damage.

**SMOKERS TAKE SECOND FROM DAYTONA TEAM**

DAYTONA, July 23.—Hitting when hits counted for them again paved the way for victory yesterday for the Smokers, who won the second game of the series with the Islanders by the score of 8 to 2. The score: Tampa 8, Daytona 2.

**Reds Take Last of The Cardinal Series, 4 to 7**

CINCINNATI, July 23.—Cincinnati yesterday won the last game of the St. Louis series, 7 to 4. The score: Cincinnati 7, St. Louis 4.

**BOSS THOMAS WINS CONTEST FOR GROWERS**

BRADENTOWN, July 25.—The Growers, after a gallant fight with the Highlanders, voted out a one to nothing win when Thomas singled, was sacrificed to second and scored on hits by Niehaus and Doran. It was a pitchers' battle between Fry and Camp, with the latter getting the best of it. The score: Bradentown 1, Growers 0.

**BULLDOGS BEAT SAINTS, 10 TO 4**

ORLANDO, July 25.—Under a disappointing sky the Battling Bulldogs won the second game of the series from the Saints yesterday afternoon by the score of 10 to 4. The score: Orlando 10, Saints 4.

**EDITORS OF COUNTRY COME TO FARMERS' AID**

The newspapers of the country are devoting more and more space to agriculture, that industry which feeds more than a hundred million and which gives occupation to something like thirty million Americans.

That conclusion can be drawn from the reports and discussions made at the recent meeting of the agricultural college editors of the country at New Brunswick, N. J. From almost every state came reports of the whole-hearted manner in which editors are searching for the very best agricultural (and home economics) information for the benefit of their readers.

The discussion which followed the various reports brought out the fact that this growing attitude of the newspaper owners of the country is due to a more pronounced realization on their part that agriculture is the basic industry of this country. They feel that of all the industries agriculture is the least organized and the most in need of the moral influence and assistance of the press of the land.

Too long, it was pointed out, has farming been on a hit-or-miss basis. It has been felt that a man could farm when he could do nothing else, that anybody could farm. But the time has come when the tables are reversed. No longer may the man that can do nothing else make a substantial living from the soil. Today there are thousands of insects and diseases which make agriculture a technical business. Destroyed forests no longer yield game and other food in abundance. Depleted soils require the touch of the trained hand and mind in order to yield bountifully. The march of industry and competition has placed agriculture with its back to the wall.

The agricultural college editors have learned that the newspaper makers are among the first to realize and appreciate the position of the farmer, and they feel that no other institution is doing more for the benefit of the farmer than his own community newspaper. — Agricultural News Service.

From Montverde comes information for the latest additions to the school plant. Donnelly building, now starting under the skillful hand of working students will house the carpenter shop, the wood-working machinery and the mechanical drawing department. The printing office and automobile shop and general manual training department will also be included under the new roof. It is an interesting fact, that the students make the furniture used in the buildings, and it is excellent—as neat and serviceable as could be purchased anywhere.

**LAKE COUNTY BALE FIRST ON MARKETS, MAY BE SOLD ABROAD**

TAVARES, July 25.—Thomas Hale, secretary of the New York Cotton Exchange, wires Lake County Chamber of Commerce:

"First bale of cotton, from Lake county, Florida, sold yesterday (Monday) for fifty cents a pound. Purchaser, Bond, McEany & Co. Undecided as to disposition."

This bale of cotton was the first sold in the new Cotton Exchange at its formal opening Monday. The cotton was raised by W. L. Richardson of Whitney, just west of Leesburg, an d was shipped to Savannah, where the Livingston Glover Co. bought it in at 56 cents the pound, who presented it to the New York Cotton Exchange, shipping it to New York by express, to be there at the opening of the exchange.

This makes a total of \$1.06 a pound for the bale. It is possible that it will next be offered for sale on the exchange in Liverpool.—Tampa Tribune.

**Why Are Some Storekeepers So Obstinate?**

I am an old-fashioned buyer of the necessities for my household. I go to the store myself. To me this work is not irksome. In fact, I like it. I like to look at the shelves so full of cans and packages of so many colors. I like to do this for the same reason that I don't mind being in a crowd.

When in a crowd I look for familiar faces. When I see them I am delighted. When I am in a store I look for familiar goods and when I see them I buy. Those goods have become familiar to me through advertising and I have noticed that the grocery men who have the most of those familiar packages somehow or other seem to always go ahead.

I went into a store not of my own choosing but with a friend who, among other things, asked for a very well known article of food which is packed in a can, although she did not ask for any specific kind. I always buy — and instinctively I told her that was the kind she should ask for.

The dealer overheard me and said, "Madam, I never sell that article, I sell instead something very much better — my own brand."

Then he launched into a five-minute talk on why this article was better than the one I had named. But somehow my friend had been convinced by what I had suggested and she did not buy that can which the grocer offered.

And I thought as I walked out how stubborn and obstinate that man was. He had lost a sale, had probably taken his first step

toward losing a customer, and had certainly lost a good deal of time, especially since some other people were standing around waiting to be waited on.

If that grocer had sold advertised goods he would certainly have had the brand I suggested and he would have made a sale; incidentally, he would have bid us good day cheerily and we would have been satisfied.

Familiar faces are wonderful. To me, in my capacity as a buyer for a fairly large household, familiar things on the shelves of the stores I visit are only a little less wonderful, for those familiar things help me in doing better and more economically the job which I must work at every day.

Those advertised articles which I buy and which I always buy I know have been submitted to the criticism of both competitor and consumer. This objection to almost world-wide critical examination demonstrates to me that the manufacturer has supreme confidence in his goods. He cannot tell a falsehood about the things he makes, because there are too many in the world to find him out.

Constant advertising of any product proves that product has stood the test of scrutiny. Is it any wonder then why I, as one of several million women in my same position, prefer articles with which I am acquainted to products about which I have no knowledge and about which the manufacturer does not seem to have the courage to enlighten me?

"The story of our fruit shipments of the past season, something in the neighborhood of half a million boxes, should be a matter of great pride to every citizen of this section," declares the Cocoa Tribune. "That we can produce such a crop on the present acreage and send it to market gives an inkling of what will be done hereabouts in the near future. Truly Royal is King Orange in the Indian river country." There are thousands of acres of fine lands particularly suitable to the growing of citrus fruits in the vicinity of the Indian river.

Dr. Brown, dairy specialist of the state department, has been investigating possibilities and conditions in St. Lucia county, and is said to have reported most favorably upon plans for greater extension of the industry. "Utilization and development of home-grown feeds, pure-bred stock, tick eradication, sanitary and efficient success," according to Dr. Brown's arguments. The possibilities in the dairy business in this state are large, and the dairyman giving the matter serious attention will find that it pays handsomely and increases steadily.

A big time for every one at the Musical Carnival Day next Thursday at Lake Mary. 99-2tc

**RELIEVES RHEUMATISM**  
"I can simply say that Foley Kidney Pills gave me relief from rheumatic pains, and have not used supports for the last six weeks (had to use two). The best proof you can have that Foley Kidney Pills are effective is this, that since they cleared my system of uric acid, have been entirely free of pain and depression," writes J. W. Hunter, Los Angeles, Calif. Backache, Rheumatic Pains, Dull Headaches and tired feeling are quickly relieved by Foley Kidney Pills. Sold everywhere.—Adv.

**Baptists Are Urged Support World Peace Thru Governments**  
Support League of Nations and Cooperate in Every Way  
(By The Associated Press)  
STOCKHOLM, July 25.—Baptist churches the world over are called upon in resolutions before the Baptist World Alliance yesterday to assist in promoting world peace through urging their governments to make the maintenance of peace first aim, to support the League of Nations and to cooperate in completing the League of Nations by seeking to bring into its membership all nations which have not joined it already, thus making of it a universal agency for the promotion of world peace.

The churches were also called upon to employ their efforts in eliminating from all text books of all nations those things calculated to promote racial and national antagonisms, to quench the worship of military heroes and to kindle instead in the minds of the young an admiration for those citizens who serve the world in positive ways.

The resolutions were moved by the Rev. Dr. Frederick Spurr of Birmingham, England, pastor of the Hamstead Road Baptist church of that city and president of the National Council of the Evangelical Free Churches, incorporated, of Great Britain, and follow in full:

"The members of the Baptist World Congress, meeting in Stockholm, deplore the many signs of the continuance of war spirit. The results are disastrous to the commerce of the world, to the progress of liberty, to recovery from the exhaustion of the late world war, to the advancement of the brotherhood of man, and to the extension of the Kingdom of Christ in the world.

"The Congress first urges the members of the churches throughout the world to pray for peace, to counterwork everything likely to provoke war, to foster kind feelings, to cleanse all the text books of all the nations of all racial and national antagonisms, to quench the worship of military heroes, and to kindle admiration for all who serve the world in positive ways.

"The congress welcomes the formation of a League of Nations and the establishment of an International Tribunal for the settlement of disputes between nations; it urges the churches to support the League and to complete it by bringing all nations into it in order to avoid war and to meet the desire of the people for universal peace.

"The congress, representing very many millions of citizens, belonging to many governments, appeals to the governments of the world to make the maintenance of peace their first aim, for the sake of each nation's people and for the sake of the happiness and well being of all mankind."

**SWEATERS AND SOCKS WANTED FOR RED CROSS**  
The Red Cross, through its Volunteer Service Committee, has been asked to complete some knitting by October. Wool for about 30 sweaters and a dozen socks, has been furnished from headquarters and is now in the hands of the Volunteer Service Chairman. These sweaters and socks are for the Tubercular ex-soldiers in the Red Cross Hospitals, and the demand for same is in excess of the response. Will not those in Sanford who can knit, please apply for yarn of the Chairman as soon as possible, in order that she may report to headquarters that the work is under way and shipment can be made by the time cold weather is upon the northern states, where many of our boys are located.

MRS. E. M. GALLOWAY, Chairman Volunteer Service, Seminole County Red Cross.

**THE PERILS OF RHEUMATISM**  
The Disease That Cripples and Kills. Quickest Way to Get Well is Through New Prescription Containing Seven-teen Ingredients That Renew Every Part of Body.

Rheumatism may be caused by any number of things, and this is why it is so hard to cure. If we knew what caused any particular case of rheumatism, it could be promptly arrested. Any remedy that merely relieves the pain is not sufficient. The only sure way to relief is through a thorough systemic treatment that will reach every part of the body and all the vital organs. Then you are sure to reach the cause without guessing.

This complete treatment is found only in a prescription called Re-Cu-Ma, which contains seventeen well known and thoroughly tested medicines, so skillfully compounded that each one performs its function on the various parts of the body perfectly and harmoniously.

**TWO MEN HELD FOR \$300,000 NEW YORK JEWELRY ROBBERY**  
NEW YORK, July 25.—Albert Horowitz and Eugene Moran, arrested yesterday in Princeton, N. J., in connection with the robbery of \$300,000 in jewels from Mrs. C. P. Pigo Schoellkopf in New York last New Year's eve, were held in \$125,000 bail each today, the highest amount ever set in general sessions. Protesting their innocence the two were led away to the Tombs prison as there was no sign of \$250,000 required to give them freedom.

Fixing of bail followed their assertion that they had been living like southern gentlemen in Biloxi, Miss., when detectives once looted their trail that led through Cincinnati, New Orleans, Latonia, Columbus and Philadelphia.

**HOLDING DRIVER OF MIAMI DEATH CAR ON NEGLIGENCE CHARGE**

MIAMI, July 25.—Louis E. Cummings, driver of the touring car which Friday night was in collision with a motorcycle ridden by Elmer O. Nichols, in which accident Nichols was killed, was held by a coroner's jury on a charge of culpable negligence or manslaughter. Cummings was held in \$5,000 bail after waiving preliminary examination before a justice of the peace. Witnesses testified his car was travelling at a rate of between 40 and 50 miles an hour just prior to the accident, and that following the crash the machine jumped from the street into a vacant lot, striking a pile of logs and sending them in all directions.
