Hospital Equipment Costs Much Money But Will Be Bought

People Are Rallying to the Call

OPEN SATURDAY

OF THE NEEDS AND WHAT THE ASSOCIATION HAS BEEN DOING

A gentleman asked a member of the hospital association the other day why he ever thought the hospital was a business to make money out of. He was sadly mistaken. Hospitals are not a business unless they are heavily subsidized and it is a constant struggle for existence and only the most careful attention to details and the best of business management can keep them from showing a deficit at the end of each fiscal year.

The hospital will be like every other hospital. It will house charity patients and paying patients and we expect to take patients who have plenty of money to pay for the actual expenses of the hospital which will help the institution to get down the deficit. We expect to pay the expense of operating the hospital on the board expects the hospital to make money although it will eventually pay more than expenses and then the surplus will be used in equipment and building to take care of the fast growing city.

Our hospital is not a money making scheme. It is for the benefit of the community and the association will operate with the eye for the benefit of those who are sick and suffering and the many people who heretofore were obliged to make long trips to distant cities to take care of their loved ones who were ill. Our hospital will have the equipment necessary to perform difficult operations and simple operations and best of all it will be one of the most comfortable hospitals in this part of the south. The physicians here and those from other cities who have viewed our hospital say that it is one of the finest buildings for its purpose in the state and with very little expense can be made better and better each year. Just as the campaign is on for supplies and funds and just a few items that are not purchased aside from the actual equipment will give one some idea of the needs:

- Hospital operating table, \$350.
- Wheel stretcher, \$35.00.
- Berlitz, \$500.
- Instrument cabinet, \$275.00.
- Base operating set, \$125.00.
- 1 Glass top tables, \$20.00.
- Examining table, \$15.00.
- Delco light set, \$320.00.
- Balston Drill set, \$10.00.
- Intubation set, \$30.00.
- Cystoscope set, \$110.00.
- Blood pressure meter, \$12.50.
- Brain operating set, \$68.00.

These articles are to be purchased from the government at less than the actual cost and must be purchased in the set or not at all thus taking the Delco light equipment to be set or sold.

Aside from this set of instruments there are many more such as the special light for the operating room that will cost \$125.00 and many other articles that are necessary. The necessary repairs to the building the installation of an elevator and many other improvements to make this hospital a real hospital all taken care of and then after the building is ready it will cost a tidy sum to carry on the work. The association has been proceeding slowly and carefully and trying to save money on everything and at the same time get the hospital ready at once.

The big hearted people of Seminole county have responded nobly to humanity's call and are doing more than their share toward equipping the hospital and when they see it opened next Saturday they will be rewarded by the sight of this fine building and the work of the association—a great work for a great cause.

Gonzalez For President

Malin, Mexico, Jan. 14.—Pablo Gonzalez, formerly general of a division in the Mexican army, tonight accepted the presidential nomination before the convention of the Democratic league which had selected him for its standard bearer. Gen. Gonzalez is the second candidate to announce himself. Gen. Alvaro Obregon having opened his presidential campaign last June with the issuance of a manifesto from his home in the state of Sonora.

In accepting the nomination, Gen. Gonzalez issued a manifesto in which he said, relating to foreign relations: "To assure exterior peace upon a basis of respecting the legitimate rights of foreigners, taking into consideration that almost all international differences result through interpretation and lack of mutual understanding, a pledge myself to develop vigorously not only official relations with other countries, particularly the United States, but also commercial and intellectual interchange."

Governor Names Three For Epileptic Board

Tallahassee, Jan. 15.—The governor today appointed Dr. Robert L. Harris of Jacksonville, Sidney V. Hough of Grotina and Mrs. Edgar Lewis of Fort Pierce to be members of the board of the Florida Farm Colony for Epileptic located at Gainesville for the respective terms of three, two and one year from January 14. The governor also named Gainesville as the first place of meeting. The meeting will be held in the parlors of the Whitehouse hotel, January 22 and 23.

EARTHQUAKE LOSSES MUCH IN MEXICO

REPORTS FROM PUEBLA SHOW MORE THAN THREE THOUSAND DEATHS

Mexico City, Jan. 15. (By Associated Press) Reports from Puebla state tell of the terrible loss of life that region experienced as the result of the earthquake January 3rd. In Vera Cruz state the death toll seems growing and reports from Coutzlan declaring that the number in that city and nearby towns is more than three thousand.

PRIZE HOG SELLS FOR BIG PRICE

POLAND CHINA HOG IN INDIANA SELLS FOR \$15,000

Noblesville, Ind. Jan. 15. (By Associated Press) Chief's Best, spotted Poland China hog sold today for thirty five thousand dollars a new record price for one hog.

German Wage Increase

Cologne, Jan. 14.—The average daily wage of workmen in Germany has increased 241 percent, and of women 263 percent since 1914, according to the Imperial Workers' Gazette of Germany. The greatest increase was in the case of the electrical industry. According to an article in a recent issue of the Cologne Gazette the expenses of maintaining a family of four persons totals 240 marks a week, or 12,480 a year.

Orlando Lineman Dies

Orlando, Jan. 14.—Harry W. Kessler, who was severely burned while repairing electric light wires on a pole here yesterday, died at the Orange General hospital this afternoon. The body will be shipped to the deceased's home at Maryville, N. Y., tomorrow accompanied by his friend, Ballas Tuttle.

BLIZZARD SWEEPS MICHIGAN

SCORES OF TOWNS ARE ISOLATED BY BLIZZARD AND SNOWSTORM

Traverse City, Mich. Jan. 15. (By Associated Press) Scores of northern Michigan towns are isolated today by the worst blizzard in years. Zero temperatures and impassible snowdrifts put several communities in a serious predicament on account of the coal shortage. Practically all railroad traffic is suspended since late Tuesday.

LEAGUE OF NATIONS ON TOMORROW

COMES INTO BEING AND AMERICA WILL NOT BE A PARTY TO MEETING

Paris, Jan. 15. (By Associated Press) The League of Nations comes into being tomorrow at the public ceremony of the French Foreign office. Leon Bourgeois the French representative will preside and make the opening address. The American Ambassador Wallace and the American representatives at the Peace Conference will not attend. Press comment on the meeting dwells principally upon the absence of the United States. Most of the newspapers predict the absence will not be long say, "The League of Nations cannot be complete until America is represented."

AMERICAN SAILORS RELEASED

ARRESTED AT MAZATLAN FOR ASSAULT AND SENTENCED

Washington, Jan. 15. (By Associated Press) The two American sailors arrested at Mazatlan Mexico on the charge of assaulting Mexican citizens and sentenced to two months imprisonment were released today the state department was advised.

SILVER STAR FOR NAVY WOUNDED

DEPARTMENT ANNOUNCES THE DISTRIBUTION OF THIS MEDAL

Washington, Jan. 15. (By Associated Press) Distribution of the silver victory star to men wounded in the naval service during the war will begin immediately the navy department announced today.

EMPLOYEES COUNCIL Communist Manifesto Issued in Germany

Berlin, Jan. 15. (By Associated Press) A Communist manifesto issued today urges immediate election of the revolutionary employees councils in all the industrial establishments.

First Car of Celery Is Shipped Today From This Section

TURKISH MINISTER IS ACTIVE

IN STIRRING UP THE ANIMALS IN ASIA MINOR AND INDIA

Geneva, Jan. 15. (By Associated Press) Enver Pasha, former Turkish minister of war recently elected King of Kurdistan has started a bolshevik revolution in Turkestan, Afghanistan and Belucistan according to Baku agencies. Enver said to be directing his energies against the British prestige in Southwestern Asia his ultimate aim being India.

ENGLAND FEARS FOR BERLIN RIOT

TROUBLE MAY SPREAD THROUGH GERMANY AND AUSTRIA

London, Jan. 15. (By Associated Press) Fears are expressed in diplomatic dispatches received here that the Berlin troubles may spread throughout Germany and even to Vienna through the agency of the Communists, this element using the recent Berlin disorders to inflame the masses by representing those killed as martyrs to the cause of the people.

BERLIN IS QUIET

Lull After The Storm of Riot and Killing

London, Jan. 15. (By Associated Press) Berlin is quiet Wednesday according to wireless despatches from there.

ITALY WILL CELEBRATE THE VICTORY

UNSETTLED CONDITION SPREADS BUT WILL NOW BREAK OUT

Rome, Jan. 15.—Italy has not yet had its victory celebration. The ceremonies which were to have taken place early this month had to be postponed because of the d'Annunzio incident and the unsettled political conditions. But preparations continue and when the palms of victory are handed to the heroes of the great war early next spring it will be a celebration not excelled since the most glorious days of the Roman Empire.

Workmen are now engaged in making highways by which the troops may pass along exactly the route followed by the forces of Titus and Constantine when they returned to Rome along the Appian Way and made their way thro the Roman Forum to the capitol. The victorious army will march under the famous arch of Constantine, through the arch of Titus, past the ruins of the Colosseum, which Titus built after his conquest of Jerusalem, through the historic ruins of the Roman Forum past what remains of the Temple of the Vestal Virgins, up the Capitoline Hill to the Altar of the Father and, the monument erected to the illustrious Victor Emanuel 11.

Since the days of the Empire the center of Rome has undergone many changes and it will require much temporary reconstruction to make it possible for troops to follow the ancient course of victors. Steps have replaced the ancient highway leading from the Roman Forum to the capitol. Consequently it will be necessary to build wooden roads over these to accommo-

date the cavalry and artillery. Part of this road has already been constructed and rises generally from the ruins of the tribune where Marc Antony delivered the funeral oration over Julius Caesar to the level of the approaches leading to the capitol steps.

Cannon and ammunition carts and motor lorries will replace the chariot and mortars dragged up the famous Capitoline Hill centuries ago. There will be no elephants and camels, no prisoners in chains. But aircraft will hover over the ceremony and attest modern man's conquest of the air, even though he has never been able to equal the art achievements of pagan Rome when it was capitol of the entire known world and all discovered portions of Europe, Asia and Africa were ruled from the very spot. Italian soldiers will receive their palms.

In 30 Foot Boat

Hull, Jan. 15.—George Stout, a ship's boatswain, and Williams McNew, a ship's rigger, are planning to cross the Atlantic in a 30-foot lifeboat this winter and they expect to cover the 3,500 miles in about three months.

Hamburg Shrinks

Hamburg, Jan. 15.—Hamburg no longer ranks in the class of cities having population of 1,000,000 and more. The war and the blockade have reduced its number of inhabitants to 985,000 as compared with 1,035,000 recorded in the last year before the war.

METHODISTS WILL UNITE ONE CHURCH

BIG MEETING AT LOUISVILLE WILL WIPE OUT MASON AND DIXON LINE

Louisville, Jan. 15. (By Associated Press) Clergymen and laymen representing six millions Methodists of the country attending the meeting which began here today of the joint Commission of the Methodist Episcopal Churches, North and South to discuss the unification of the two churches. Delegates considered it a foregone conclusion that the merger would be immediately agreed upon.

PEACE CONDITIONS

Will Be Handed To Hungarian Delegation Today

Paris, Jan. 15. (By Associated Press) Peace conditions will be handed late today to the Hungarian delegation. A summary of the terms will be made public tonight.

Princeton, Jan. 14.—Advocates of the compromise program won a sweeping victory today in Princeton's poll on the League of Nations question. Of the 1,596 votes cast, 800 favored a compromise between the Lodge and democratic reservations.

RAILWAY MEN ARE SATISFIED

GOVERNMENT SETTLES STRIKE LABOR QUESTION SATISFACTORILY

London, Jan. 15. (By Associated Press) Delegates of the Railwaymen's Union have accepted the government offer in the settlement of the wage scale demands in lower grades of the service.

Weather Report

For Florida fair tonight probably light frost north portion. Friday fair and warmer in north portion. Gentle winds mostly northeast.

Chas. E. Henry Sends Out First Car

BRINGS \$4 PER CRATE

LOOKS LIKE SANFORD WILL HAVE ANOTHER RECORD BREAKER

Sanford's first car of celery was shipped today. Chas. E. Henry has the distinction of being the first shipper of the celery season in the year of 1920 and the car is good stuff and we understand brought the price of \$4 per crate. The first of the celery being shipped means that Sanford's great money crop will soon be going forward at a great rate and all signs point to a most prosperous season as the first car going out at this price and the buyers offering \$4 a crate here and making contracts spell prosperity with a great big letter.

The celery is from the farm of A. G. Purvis who sent two stalks of the first celery to the Herald office. The celery is being packed in the new Zachary-Tyler crates also a Sanford product and Mr. Purvis says this crate is the real thing in carriers. The Zachary-Tyler Veneer Co., started their big mill here this fall and are making the best crates in the state.

A bad beginning makes a good ending is the old adage and the growers had a bad beginning in many instances this season as the celery after being set out had a hot season that started the worms and insects generally working with the result that much of the stuff had to be replanted. But it is all looking fine now and the cold weather has been good for the crop and all the prospects are bright.

Many of the growers are hoarding their celery now and there will be an active movement starting about the first of February at which time Sanford will be some busy place. The wise ones say there will be a slump in the market when it all starts moving but slumps occur every year and are not the bugaboo that they formerly were and even with a slump the price will get up again and from all that the people interested can learn and taking it from the former years this season will be as good as the last season which means that Sanford will be on the top of the heap when the season is over.

BERLIN IS IN THROES OF REVOLT

RECENT EVENTS ONLY PRELUDE TO OTHERS OF MORE IMPORTANCE

Geneva, Jan. 15. (By Associated Press) Recent events in Berlin said to be only a prelude to others of more importance which the Independent Socialists intend to provoke on the anniversary of the death of Karl Liebknecht, January sixteen, according to Berlin advices.

"Removed" Sheriff of Escambia Will Make Fight For His Post

Pensacola, Jan. 14.—Former Sheriff James C. Van Pelt, removed from office Nov. 25 by Governor Catts, today instituted proceedings in the supreme court to require Sheriff Curtice Whitaker to show by what right he is holding the office of sheriff of Escambia county.

Sheriff Whitaker, commenting on the case, announced that he would contest the attempt to oust him. Van Pelt charged in the proceedings that he was removed from office without warrant.

It is said that Van Pelt was removed by Governor Catts on the strength of a letter written by an agent of the government, F. J. Holloway.

County Commissioners Will Build Roads With Surface Treated Material

Fred Williams To Be The Engineer

WILL START SOON

GOOD NEWS TO THE PEOPLE WHO WANT THE ROADS STARTED AT ONCE

The board of county commissioners met yesterday in all day session and the minute of the meeting in full will be published in another issue of The Herald. Suffice to say here that they did a noble work in a very short time when they decided to get right down to business and build the good roads so badly needed and build them right now. They decided to appoint Fred Williams as the engineer in charge of the roads and this will give general satisfaction all over the county. Mr. Williams is a first class engineer and above all he is fair and square and will do the right thing for all parties concerned. The commissioners also decided to build the roads of the surface treated materials that have been explained in this paper several times and with which the people are familiar. It was up to them to take this material because it seems to be the only material that can be purchased at this time that fits the needs of the people and the pocket book at the same time.

With a certain sum of money to spend and this sum voted many months ago and the price of materials going higher all the time the board have struggled along for some time trying to get the best that their money would buy. They voted for cement grouted brick but when it came time to build these roads the money was not of sufficient proportions to touch this kind of construction and since that time they have been figuring it get the best material that their money would buy.

They are spending the people's money and they want to make it go as far as possible and still give the tax payers a good and lasting materials and they were in the same position as the thirty housewife who has a certain sum each week and who must make it go all the way round. If she can buy a certain kind of coat it is up to her to buy it with the amount she has on hand. And thus with our commissioners. They

A TWICE TOLD TALE

One of interest to our readers. Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a Sanford woman is confirmed after five years:

Mrs. J. Meisch, 600 First St., says: "The experience I had with Doan's Kidney Pills leads me to recommend them highly. They are a fine remedy for kidney trouble and if used properly, will surely do good work. I had just recovered from an attack of grip when my kidneys began to bother me and my back pained intensely. Reading an advertisement of Doan's Kidney Pills, I began to take them. I was very much pleased with the results and am glad to give this endorsement."

Hasn't Suffered Since
The above statement was given May 24, 1914, and on March 19, 1918, Mrs. Meisch said: "I have had no need for Doan's Kidney Pills since endorsing them in 1914. I think they are a wonderful remedy, for the good they did me has proven lasting."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Meisch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Vulcanizing is Economizing

No two ways about it—you can save a lot of money on your tires if you let us vulcanize those shoes and tubes you imagine are worn out and only fit for the junk pile. You'd be surprised at the money we can save you, and the long life of your tires after we fix them up for you.

KENT VULCANIZING WORKS

PHONE 17

Oak and 3rd St. Sanford, Florida

will make our money go as far as it can and they can do no more and we believe that they have decided wisely and well at their meeting yesterday.

Speaking About De Cottes

The DeLand Weekly News has received from George A. DeCottes of Sanford the formal announcement of his candidacy for State attorney, to succeed David Sholtz of Daytona, who was appointed by the governor after the Seventeenth Circuit was created. Mr. DeCottes is one of the best known attorneys in this section of Florida, is said to have a real backbone, and if nominated and appointed to the office will without doubt endeavor to make a name for himself.—DeLand News.

Geo. A. DeCottes, a prominent attorney of Sanford, is the first candidate to announce himself in the local field, declaring his candidacy for state attorney of the seventh judicial circuit in the Journal this morning. The seventh circuit is composed of the counties of Volusia, Seminole and Brevard.

David Sholtz of Daytona, is the present state attorney, and the announcement of Mr. DeCottes brings forth the interesting question as to whether or not there will be any vacancy to be filled in the primary next June. At the last session of the legislature Mr. Sholtz was appointed for a four year term, his appointment confirmed by the senate and a commission issued for the four year term.

Mr. Sholtz was out of the city Saturday and a statement of his intentions could not be obtained, but it is very probable he will take the position that there is no vacancy and that he still has more than three years to serve. Should he view the matter in this light it would not only be necessary for Mr. DeCottes to win in the primary, but he would also have to win the office in a legal contest.—Daytona Gazette

THREE DEAD IN AUTO ACCIDENT

SAD ACCIDENT AT ORANGE CITY JUNCTION AS TOLD IN DELAND NEWS

One of the most tragic accidents in the history of this section, three young boys were killed and one girl injured when the automobile in which they were driving, was struck and smashed by a freight train at Orange City Junction yesterday afternoon. Tom, age 16, son of Mr. and Mrs. T. W. Wilson, of North Boulevard. William, age 15, son of Mr. and Mrs. H. W. Mercer, of North Clara avenue. Homer, age 14, son of Mr. and Mrs. E. F. Culp, of Orange City. Helen, daughter of Mr. and Mrs. J. W. Dutton of West New York avenue.

Yesterday afternoon a party composed of Misses Julia and Helen Dutton with Francis Miller, son of Architect Miller, Bob Walters, Tom Wilson and Bill Mercer left DeLand in the Dutton's Ford for Orange City. Here they invited Miss Elizabeth Hargreaves to accompany them to Blue Springs.

When they reached the springs, two boats were secured and they spent a pleasant time in and around the springs. Then in spirit of mischief, Tom Wilson, Bill Mercer and Helen Dutton, who were together in one boat, landed, cranked up the car and left with the possible intention of scaring the rest of the party. Young Miller, Bob Walters and the Misses Julia Dutton and Elizabeth Hargreaves decided to walk back to Orange City. They had not gone far when they saw the Ford coming after them and they hid in the bushes. They went on their way and when they had reached the Orange City Water Works they heard the Ford coming again. They hid and after it had passed they went to Mrs. Hargreaves where they started enjoying themselves, eating candy, etc.

Those in the car returned to the Springs, still on the lookout for their friends and saw Homer Culp there, he accepting an invitation to ride back with them. Bill Mercer was driving with Tom Wilson and Helen Dutton in the front seat with him. Helen being between the two boys. Homer Culp was alone in the back seat.

As they were on their way back a freight train was seen coming. Young Mercer estimated he could cross before it reached him. The engine caught the car where the back door opens. The car was entirely demolished and its occupants were strewn along the track for a distance of about a hundred yards. Tom Wilson and Bill Mercer were killed immediately. Homer Culp

sustained terrible injuries, one leg being mangled. Helen Dutton was severely bruised and scratched about the body and face.

The only eye witness of the accident was Mrs. Guyer of Orange City, who was visiting Mrs. Laura Marshall at Orange City Junction and happened to see the entire accident.

Young Culp and Helen Dutton were first taken to Mrs. Hargreaves at Orange City. She did all that possibly could be done by anyone for their comfort. Later last night they were both moved to the DeLand hospital and this morning, a little after eight o'clock, young Culp died. Miss Dutton is still at the hospital but it is believed she is in no danger.

Pending the arrival of Mr. Mercer from Quincy and Mr. Wilson from Jacksonville, fathers of the boys, no arrangements for the funeral have been made. Both Mr. Mercer and Mr. Wilson are expected to arrive this afternoon.

All DeLand sympathizes with the parents of these boys. They were the finest of the fine. Tom Wilson and Bill Mercer were both leaders among the

boys of their age, popular everywhere they went. Both of them were enthusiastic members of the local troop of Boy Scouts and were active in all kinds of athletics. The entire city grieves with the people of these boys in their loss. It is the saddest and most tragic accident ever in this section.—DeLand News.

WANT ADS PAY

Transportation Problem Solved for the Farmer

Five years ago the Truck Farmers Industry in central Florida, especially in Sanford, was depending almost altogether upon the mule as a means of hauling fertilizer to the field and vice versa, and Lettuce and Celery to the station. The mule was a most inefficient instrument to do this work, slow and unwieldy, he plodded, iron-hoofed and complaining, a synonym of the methods of days long passed.

The hoofs of the beast bit into the decking of the street, and a trail of uncleanness marked his plodding path. With cheap labor, a sluggish market, a discouraged commission man, the mule seemed to fit into the picture with peculiar appropriateness.

But then, Ah, Ha, almost in the twinkling of an eye, the situation changed. War raised its hideous head above the Eastern horizon, the world's man-power was drawn into the conflict. The price of labor began to soar and then the great demand for hauling came. Thus was born a necessity a demand for methods, greater efficiency. And then was born a trailer on Derner's Farm to fill this urgent demand.

It was early in February 1916 when the writer paid his second visit to Sanford, seeing how the FARM LABOR walked to work from town 2, 3 4, 5 and even six miles like cattle on Celery Avenue. It impressed on my mind why a laborer in great Northern cities rides a street car for five city blocks for a nickel and here FIVE miles to get a job for a dollar a day. Those farms nearer to town had the opportunity to open their gate and pick the best as usual when he had enough he simply closed the gate. That meant "No More Farm Help Wanted." The writer's farm is five miles from town therefore nothing else was left but sorry farm-help to work with.

The consequences were: in the barn's small shop on Celery avenue we climbed into overalls and went to work and made a four-wheeled trailer. While this first trailer was more or less of an experiment and different materially from the trailer now being used it was a tremendous success from the first hour's work. In fact it was such a success that all farm help wanted to get a free-ride to the job on the trailer. Then we started to pick the best labor to work for us.

And so other farmers came into line, and haul their farm help only in autos as we did. This startling innovation, and this departure proved to many of them that here was indeed a great development and improvement over any heretofore known method of hauling farm help to and from work. Thus was the start where we began pouring farm help on 10th street and Sanford Ave., and the demand kept growing, growing steadily until this demand completely smothered the negro farm help and its augmented force of workmen to haul them to work.

But today, why overload the capacity of your car? Some of them seated on the rear fenders! And even lying down on the front fender! Till your car began bulging at the middle—the loving family treasure you possess, order one today for \$250.00 from Al Derner and your hauling problem is solved for years to come without any extra cost or overhauling.

A letter follows from the Ford Motor Co., Detroit Mich., and The Wilson & Toomer Fertilizer Co., Jacksonville, Fla.

\$250.00 f. o. b. Sanford

Dec. 31, 1919.

Mr. Al Derner, Sanford, Florida.

My Dear Mr. Derner:

This will thank you for your courtesy in remembering us with a copy of The Sanford Herald of December 19th carrying a good sized ad showing your siver and trailer at work.

As we look at the siver, we ask ourselves and ask our son "Is there no humanity left in the hearts of men?" Look how that poor little siver is bowed down with the great weight you have put upon her body, and yet, uncomplainingly she not only carries the weight herself but hauls that immense trailer. No, two big mules wouldn't carry any such load as that, and it would puzzle four big mules.

If you are trying to get the farmers in your vicinity and the produce growers, that is a splendid advertisement. We want to thank you for the compliment paid to the Ford Car, but there is no other car made in the world with which you could, with confidence, take such liberties.

FORD MOTOR COMPANY
C. A. BROWNELL
Manager of Advertising.

CAB:ADH

AL. DORNER

December-13, 1919.

Mr. Albert Derner, Sanford, Florida.

My Dear Mr. Derner:

I have received from you this morning the pictures of your big Ford and Trailer, loaded with the best stuff on earth, and if anybody had told me that you could put that much fertilizer in a Ford, I never would have believed it. You seem to have it sticking on everywhere, except on the radiator, and I expect, if the hood was lifted, you might find a small bag of fertilizer in there. With a good old Ford and a little ingenuity, which some of you at Sanford have plenty of, you will never have any troubles about transporting or moving your fertilizer and produce.

When you were up here the other day, I received your post card, and it was certainly an awful accident you witnessed when the aviator was killed. It will certainly get them all, if they stay in it long enough.

I hope everything is moving along with you in good shape, and with my very best wishes for a happy Xmas and prosperous New Year, I am,

Yours sincerely,

WILSON & TOOMER FERTILIZER CO.
BAYLESS W. HAYNES.

BWH:MEV

CIRCUIT COURT MEETS TODAY REGULAR SESSION

LIGHT DOCKET PROMISES SHORT SESSION OF THIS TERM

The regular term of the Seminole County Circuit Court of the Seventh Judicial Circuit met this morning at ten o'clock with Judge James Perkins in the chair and State Attorney David Sholtz making his first appearance here in his official capacity. There is a very light docket at this term of court but light dockets do not always spell short terms of court and one of two of the cases might draw out the term to full length although the wise heads of the Temple of Justice say that all the signs point to a very short term.

There was but little doing today other than getting the grand jury working and the petit jurics organized and the court will start grinding tomorrow in full swing. The docket and all the news of the court will be given each day in the Herald if possible. The session of court is bringing many people into the city and the city is lively with the usual gathering around the court house and the many people here that usually come in and others that transact regular business and attend court at the same time.

EMPLOYEES GET DIVIDENDS

Western Union Give Employees Part of Their Earnings

"In common with thirty two thousand of their fellow employees in other cities, the local employees of the Western Union Telegraph Company who have been six months or more in the service of the company will participate in salary increases totaling over five million dollars a year commencing January 1st. Employees who have been a year or more in the service will receive a 15 per cent increase and those who have been six months but less than a year in the service will receive 10 per cent. Only employees who receive less than \$250 per month will participate.

"Manager J. P. Hall of the local office states that these increases are in pursuance of an agreement reached some time ago between the management and the Association of Western Union Employees. The Western Union is one of the large corporations which engages in the process of collective bargaining with its employees, and this is the latest of several general increases which have been negotiated as a means of offsetting to a certain extent the increased cost of living which has fallen so heavily upon the salaried class."

Judge Householder Announces

E. F. Householder announces in the issue of the Herald his candidacy for the position of county judge aspiring to succeed himself to this office. Judge Householder has held this office for the past four years very satisfactorily and thinks the voters would be wise to return him since he has been a good and faithful servant.

Though a young man in years Judge Householder is wise in the ways of the law and he has handled this office like a man grown gray in the service. He asks for the support of the voters upon the record that he has made as County Judge of this county.

TIMES UNION SEES THE POSSIBILITIES OF ST. JOHNS RIVER ROUTE

Hon. R. J. Holly, Publisher Herald, Sanford, Fla. The Times Union of Jacksonville, keeps in close touch with the pulse of the vast majority of these of our States who are leaders in public spirit, farsightedness and movements looking to the largest and most practical projects for the development of a future Great Florida. Nor does it confine its investigations and promulgations to narrow or circumscribed limits but takes in its scope every field of promising advantage to our wonderful-in-possibilities peninsula. Water roads have latterly been receiving attention from this excellent compendium of daily news and, voicing its own conclusions as also the views of the wise and far-seeing, this is what the Florida Times Union of Saturday last, says editorially:

"For a paltry \$16,000,000 a canal can be completed across Florida by the St. Johns River route. This would be one of the greatest steps in advance that could be made by Florida and no effort or expense should be spared to put it over."

We do not believe, especially if the forthcoming big drainage canal be utilized a part of the way, as it certainly can, that the cost would be anywhere near above estimate. At all events, it is hoped and expected that the Florida delegation in congress, in accordance with the Resolution prepared and submitted by the Jacksonville City Commission and Senator Fletcher at the last congress, will accomplish provision for an approximately accurate estimate of the actual outlay that would be required for this inestimably essential public improvement.

Very truly,
E. T. Woodruff,
Chm. Waterway Committee,
Sanford Board of Trade.

Hearing For Socialists

Albany, N. Y., Jan. 14—The first public hearing in the case of the five suspended Socialist members of the assembly will be held at the capitol next Tuesday, Jan. 20. This decision was reached by the judiciary committee which is to act as the trial court at its organization meeting this afternoon. A sub-committee consisting of Chairman Martin, Assemblyman Jenks of Broome, Republican, and Cuvillier of New York, Democrat, was adapted to draw up the rules of procedure.

Both the sub-committee and the judiciary committee will meet again tomorrow. Between now and the beginning of the public hearings the committee will be engaged in formulating the charges against the unseated Socialists summoning witnesses and making other necessary preparations.

It was decided by the assembly today that the hearings would be public and stenographic copies of all testimony would be supplied to members. An effort to have the assembly as a whole act as the trial court instead of the judiciary committee failed, however.

Representative McCure, Democrat, today asked for action in the assembly on the resolution to reconsider suspension of the five Socialist members. He gave notice that he would later move a suspension of the rules in order to have a vote on the proposal.

SANFORD MAN AFTER THE REDS

A. V. FRENCH HELPS TO ROUND UP RADICALS IN PHILADELPHIA

From the sunny zephyrs of Florida to the blizzard-swept streets of Philadelphia was some jump for two secret service men to work in and around Tampa from time to time, but the sudden change in temperature did not impair their ability to do some extra tugging on the net Uncle Sam spread over the City of Brotherly Love last Friday night when some 400 Bolsheviks, communist laborites and radicals generally were captured in raids planned by the department of justice. Details from official sources show that A. V. French, special agent in charge of the Tampa district, and Agent George Kilner of the Jacksonville district, played prominent parts in the Philadelphia raids, each being in charge of squads of government operatives and city police.

The raids all over the country had been planned for 9 o'clock last Friday night and when Agent French received his telegraphic instructions to be in Philadelphia the afternoon of Jan. 2 he had to catch the train without time to obtain either his grip or an overcoat. It was a characteristic Philadelphia winter day when he landed at the Broad St. terminal. The pavements were glazed with a frozen drizzle and a wind that congealed the very marrow kowled around corners and stung faces with icy particles of snow. Needless to say the Florida sleuth made a bee line for a clothing store before reporting to his chief.

Although Agents Kilner and French were assigned to take charge of raiding squads at points eight miles apart their operations had a peculiar relationship. One agent captured the secretary of the communist labor party and the charter of the outfit, the other agent got the official seal and membership lists of the communists, thus supplementing each other's work and obtaining a complete chain of evidence.

Agent French's squad descended upon the radical's rendezvous prepared for serious opposition but the raid was so well organized that the reds were dumfounded and had no time for resistance before government men had them lined up for the patrol wagons. This squad's captives included the notorious Sam Skaroff, secretary of the communist laborites, the charter and numerous other papers. Agent Kilner's squad was equally successful in breaking in on their quarry before there was a chance for gun play and the seal of the communists was among his booty.

Meanwhile during the exciting hour between 11 p. m. and midnight the mercury fell 10 degrees. Which was one reason the Florida representatives in the secret service forces were mighty glad when they were released from further duty in Philadelphia Monday and could hustle back to the land of sunshine and oranges. Before they left their chief advised them that already he had conclusive evidence that 20 of the arrests were deported cases.

What's the Benefit?
The tread of an English inventor's automobile tire contains numerous small pieces of steel, so inserted in the rubber that the latter does not touch the ground.

DINNER PAIL IS PASSING FROM MILLS

RESTAURANTS AND CAFETERIAS TO THE WORKMEN

Pittsburg, Jan. 14.—The dinner pail is passing from the mills and factories of the Pittsburg district. Restaurants and cafeterias are taking its place in the more important plants because executives are beginning to realize that a hot, palatable meal makes the workman more contented and more valuable than the cold, indigestible food packed away in a tin bucket.

In the Homestead mills of the Carnegie Steel company in Munhall, a few miles from Pittsburg, more than 11,000 men are fed in the cafeterias every day, and the number is constantly growing. At the plant of the Westinghouse Electric & Manufacturing company in East Pittsburgh, also a suburb, 1,200 employees get their food in the company restaurant, and a new dining hall and modern kitchen is being erected. When it is completed, the company will be able to feed 3,000 of its workers at one time.

The American Sheet and Tin Plate company has 22 cafeterias in daily operation in its different plants. It was one of the pioneers in the movement.

In the Munhall works cooked meats and vegetables are kept hot in steam tables, and served as the men desire, or as the various shifts reach their lunch or dinner hour. Pies, cakes and coffee, in fact many desserts of which the workmen seem very fond, are also available at all hours, as well as tea and milk. The men can thus buy a hot meal for 25 to 35 cents.

"Our employees are delighted with the meals served in the plant", said a woman representative of the Westinghouse company who is in close contact with the work. "They get better food for less money than they get at home, and they get it when they need it. We lose money by the arrangement, because we provide food at actual cost and give away the coffee, tea and milk. But it pays in the long run, for it satisfies everybody."

These workers dining rooms, it was explained by one company with the dining rooms which have long been in service for office forces and ozials of manufacturing concerns "Providing warm food for the 'white-collar' men was a luxury the shopmen never expected to attain," he said. "But now we are giving all our men who want it warm meals and we are glad to do it. This plant will never go back to the dinner bucket system."

Had the Idea. All Right.
Teacher asked Gertrude if she knew the difference between "man" and "men." "A man is one man and men is a lot of mans," was the child's reply.

The Best Way.
If the show of anything be good for anything, I am sure sincerity is better; for why does any man dissemble, or seem to be that which he is not, but because he thinks it good to have such a quality as he pretends to? For to counterfeit and dissemble is to put on the appearance of some real excellency. Now the best way in the world for a man to seem to be anything, is really to be what he would seem to be. —Tillotson.

COUNTY HAPPENINGS
 A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS FOR THE HERALD

GENEVA
 Hon. D. U. Fletcher has been the guest of his sister Mrs. J. H. Hudson for the past two weeks.

Mr. and Mrs. Cline of Cocoa spent the week end with Mr. and Mrs. H. B. Levy.

Mrs. J. T. McLain visited her son J. T. McLain Jr., and wife in Orlando last Thursday.

Mr. and Mrs. Charles Brumley of St. Augustine are spending the week with Mrs. Endor Curlett.

J. F. Jones is spending a few days in Geneva looking after business interests.

Mrs. R. G. Nicholson returned home Sunday after having visited her son and family at Osteen.

Mrs. Joe Brown of Riverland not only over to see her parents Mr. and Mrs. R. Q. Gresham last Sunday.

Dr. Denton of Sanford made a professional call at C. W. Culpeppers Sunday.

The friends of Mrs. S. Williams will be grieved to hear of her serious illness again.

Lester Brown is the owner of a new 1920 model Ford.

A jolly party of hunters from Sanford this week are Messrs Alex Vaughn, Hon. Schelle Malnes, John D. Jenkins and John Herby.

Mr. and Mrs. Charles Phillips motored to Orlando last Thursday.

Mrs. Aubrey Moran spent last Thursday in Sanford, the guest of Mr. W. H. Hand.

At the "Parents and Teachers" meeting last Friday, Miss May Morris favored the ladies with a

Mr. and Mrs. C. A. Raulerson were visitors in Orlando last Saturday.

reading "The Other Wise Man" which was very much appreciated. Miss Morris is a talented speaker.

CHULUOTA
 The many friends of Mrs. M. S. Averitt will be sorry to know of her illness, and hope for her speedy recovery.

Mrs. George Jacobs and attractive little daughter Evelyn are visiting in Cocoa. While there they are the guests of Mrs. Jacobs sister Mrs. Mrs. J. T. Hodges.

Mr. and Mrs. Lee Duncan were Sunday visitors at the house of W. M. Jacobs.

Miss Eva Lee has returned to Green Cove Spring, spending the holidays with her parents Mr. and Mrs. W. T. Lee.

Miss Mary Tribble spent part of last week visiting friends in New Smyrna.

Mrs. R. L. Dann entertained last week very pleasantly in honor of her mother and sister, Mrs. W. J. Davis of Brunswick Ga. and Mrs. Oliver Ponce of Jacksonville. Mrs. Ponce will be remembered by her many friends here as Miss Ruth Procter.

Mr. and Mrs. Loyd Clark of St. Augustine are guests at the Inn. Mr. Clark is the Chuluota Co. electrician.

A good roads meeting was held at J. E. Snyder's to decide whether or not Chuluota is ever to have a good road or not. We think they decided to give us a road but we don't even dare get a good breath for fear it will be a dream too good to be true. If ever a place needed a road it's Chuluota.

with it's possibilities all we need is a way to get out but it seems as if we must stay here until away from the outside world simply for the need of a good road. We voted strong for bonds and the Chuluota people think we ought to have part of what rightfully belongs to us. It has even been remembered that the necessary steps would be taken to get back into Orange Co. if we didn't get a road very shortly.

Mr. and Mrs. Edward Porterfield have returned from their honey moon and are now at home to their many friends. On last Wednesday night a party of young people serenaded them. It came as a complete surprise to Mr. and Mrs. Porterfield and they were not prepared to entertain so many so they very cordially asked that the crowd return the next evening, which they did. The crowd was royally entertained and about ten o'clock gathered around a huge bon fire where they were served heartily with chicken, pickles, crackers and later with cake and coffee.

Everyone reports a big time and hope, if they are able to be entertained that way when all the Porterfield boys marry, that Carl, James, and Johnny will make haste to get married again.

Mr. and Mrs. S. F. Long are very pleasantly located in the Lafely bungalow. We are glad to welcome Sammie and his little to our city.

Mrs. J. A. Prevatt is spending a few days in Sanford this week having dental work done.

Mr. and Mrs. R. L. Dann were week-end visitors to Orlando, being called there by the illness of Mrs. Dann's brother.

Volie Williams Jan. 10th, to take the name of Volie, Jr., and we and both parents and grand-parents are elated over his arrival, as well they may be.

Mr. and Mrs. Vernon Collier of Sanford and their guests, Mr. and Mrs. Charley Rodgers and their three little ones and John York spent Sunday at the home of Mr. and Mrs. A. F. Westerlick. They all are from St. Lawrence Co., New York state where Mrs. Collier and Mrs. Westerlick were old school mates together.

Volie Williams has torn down his old barn and is having it rebuilt into a garage on the home place; A. F. Westerlick is assisting him in the work.

Rev. R. W. Edwards of Jacksonville sends word that he expects to preach at Lake Mary in the morning and Upsala in the afternoon next Sunday. Sunday School at 2:30 and service at 3:00 P. M. If a good sermon means anything to you, favor him with your presence.

Mrs. Borell read the Sunday School report and we find after all expenses were paid that the sum of \$16.00 has been set on for missionary and charitable work. We are only a small flock but we are privileged to do a little work for the Master. We were all glad to welcome Mr. and Swanson and family at the service, making it seem like old times, afterwards they visited with Mr. and Mrs. E. W. Lundquist.

Sorry to learn Mrs. Magnuson contracted a bad cold while at home.

Mrs. Sophia Peterson and two daughters Edwina and Tina of Holly Hill and her nephew, Edgar Sjoblom who is employed there in a garage, with his mother and sister of Knoxville; Tennessee motored over and spent New Years day with relatives here at the home of Mr. and Mrs. J. E. Lundquist.

Mr. and Mrs. T. O. Tyner and the young folks spent last Sunday with their relatives at Windermere, repaying the visit of Mr. and Mrs. Noah Fry of the previous Sunday.

Alfred Ericson and children and Andrew Bertleson motored to DeLand Christmas afternoon, his daughter Margaret has been having her eyes examined and treated going over again on New Years day with Mrs. Peterson's party and returning Saturday.

Mr. and Mrs. Edward Lundquist and little son Raymond were the guests of his parents, at Tiger's Bay for the holidays. They made the trip in their auto as usual; we understand that his brother, Hilmer Lundquist and wife are also located near there so we are certain they must have had an enjoyable trip.

We are glad to note that Mrs. Andrew Bertleson and the baby returned home in time for the holidays but sorry to hear that the little one was real ill for a time, being threatened with pneumonia.

Mrs. Munson of Savannah, Georgia has been the guest of relatives in this section, being entertained at the home of Mrs. J. E. Lundquist during the holidays and returning home the first of the week. She also visited with her sister, Mrs. August Swanson and at the home of her husband's brother, Emil Magnuson.

Mr. and Mrs. Magnuson left Monday to resume his work for Chase & Co., at Merritts Island.

The holidays were pleasantly spent among their relatives and friends here, who are always glad to have them with us.

We were all pleased to have Rev. Albertson and wife of DeLand with us once more on a recent Sunday for service. The word came to late to be announced, thru the paper. The board has furnished him with a larger and easier running car now and he hopes to take his wife with him for the benefit of her health and her help in the missionary work. Both are earnest workers in the Lord's vineyard.

Don't forget Sunday School meets at 2:00 p. m. now for the winter months—a warm welcome for all.

We are sorry to hear that Mrs. Faucet nee Florence Clark, of Miami was the victim of a serious auto accident and is now in the hospital there according to a letter received by her aunt, Mrs. George Clark.

Ford
 THE UNIVERSAL CAR

The Ford Model T One Ton Truck was the first low price truck to carry the worm-drive—that tremendous power delivering mechanism had previously been an exclusive feature with high priced motor trucks. In the Ford Truck, however, you get the worm-drive of manganese bronze material, absolute in strength and positive in the delivery of power, at a very low price. Come in and let us point out the many superior merits of the Ford One Ton Truck, because you need one in your work. We give prompt and efficient repair service.

C. F. WILLIAMS, Agent

Mrs. S. W. Swope, Miss Mabel Swope and Frances Swope were in Sanford on business Monday afternoon.

Mrs. Luther spent Thursday in Orlando.

Miss Ella Belle Jones is spending this week with Mrs. Clarke.

Mr. and Mrs. B. G. Smith were in Orlando Saturday night, the guests of Mr. and Mrs. H. W. Barr.

Mrs. J. W. Lawton entertained last week at a dinner party in honor of Miss Elizabeth Lawton. The guests were Misses Ruth Young, Mabel Swope, Olive Lazzette, Virginia Wright and Anna Mitchell. The dining table was beautifully decorated in green and red and a four course dinner was served.

Richard Strange, who has been quite ill during the holiday season, is greatly improved and able to sit up, tho he has not gained sufficient strength to be out.

Mr. R. W. Lawton is able to be at the store again after an illness of ten days.

Mrs. B. F. Wheeler entertained a few of Mr. Wheeler's friends last Friday night at a stag dinner.

On Friday afternoon there was a very enjoyable concert given at the Woman's Club House for the benefit of the Armenians.

Mrs. S. W. Swope entertained a few friends at six o'clock dinner Tuesday in honor of Mr. Swope's birthday.

Mrs. W. E. Argo a spent Friday in Orlando.

Mrs. Theodore Aulin entertained the C. and B Club on Thursday afternoon. A salad course and coffee were served and the afternoon was most delightfully spent.

On next Thursday afternoon the U. D. Cs will entertain at a reception at the Club House in honor of the State President who is to visit the chapter at that time.

Misses Catherine Young, Alice Brannon, Virginia Wright and Gayle Marshall were appointed as delegates to the District Christian Endeavor Convention at Oakland Jan. 10th and 11th.

East Sanford
 The Epworth League meetings will be resumed beginning Sunday evening Jan. 18th, at Moore's Station Church, all members are requested to meet at the usual hour and everyone is welcome to be present.

B. Steel has returned from his visit to Manassas, Va., and reports some very cold weather up north. Mr. Steel left his mother a trifle better.

W. W. Miller is serving on the grand jury for Seminole County this week. A son was born Saturday to Mr. and Mrs. Benvenuti, Moore Station residents.

Judge and Mrs. R. M. Platt of Wich-

ita, Kansas who have been in Sanford several days were callers at the Ellsworth home. The Judge was a visitor here two years ago and bought 20 acres on Beardall Ave which he still owns. Judge Platt was pleased to note the great amount of improvements every where to be seen. They are also visiting Miami and other points. Judge and Mrs. Platt are personal friends of Dr. and Mrs. W. A. Minick former residents here, now of Wichita.

Mr. and Mrs. C. K. Lucas have gone to Jacksonville to make their home. Mr. Lucas has resumed the ship building business with a brother who has been in that work in Jacksonville several years. Mr. Lucas leased his farm in Mecca Hammock to Mr. Eddy who came here from Indianapolis, Ind. This fall Mr. Lucas sold his car, farming equipment, stock and crops to Mr. Eddy. A sister came recently from Indianapolis to live with Mr. Eddy.

Mr. and Mrs. Lee arrived from Indianapolis, Ind., to spend the winter with Ivan Rubow who bought the Woodruff farm in Mecca Hammock. They have taken the Charles Polk house on Michigan Ave.

Mr. B. A. Howard was up from Okeechobee over Sunday with his family.

Dr. and Mrs. J. L. Sherman, Miss Kate Simmons and Roy Sherman drove over from Sasadagua on Thursday to visit at the Ellsworth home on Beardall. The Shermans have been coming to Florida for 25 years from Willoughby, Ohio. Miss Simmons is from Cleveland.

Ashley Purvie of Cameron City is cutting celery this week. 5 solid carloads we hear and has sold the same for \$4.50 per crate. We also learn Mr. Purvie has a new Hudson Six car coming next week.

Nick Zernovean has a bunch of fine pigs and some one took advantage of every one being in town last Saturday night and carried off one of Nick's nice pigs. This is the third time thieves have visited Mr Zernovean's place recently.

Mrs. Lulu Carpenter and son are leaving their home in Charlotte, N. C. on Wednesday after spending some time with Mrs. May Hasty and family.

Miss Milbanks is reported as having been ill for sometime at the home of her sister Mrs. W. H. Chandler. Dr. Denton is caring for her.

Mrs. George Braddy who was so very ill in Cameron City recently has been taken to her home near Altana, Ga. Mr. and Mrs. Braddy were here on a visit to Mr. and Mrs. Wiley Wilson and family.

Flowers In Greenland.
 Greenland, it seems, is a place of flowers as well as of ice, reports Gas Logie. Botanists have counted 120 specimens of flowering plants, growing in the land of the Smith sound Eskimo, on its northwest coast.

FERTILIZERS—SPRAYING MATERIALS—SPRAYERS
 W. P. SIMMONS, Vice-Pres. D. A. MORRISON, Jr., Sec'y & Treas.

The value of a fertilizer depends upon the quality and proper blending of the materials entering into its composition, and the care used in manufacturing. We use high grade materials and our fertilizers are backed by more than thirty years experience in their use and manufacturing. Quality is placed first and our prices are in line with quality and composition.

LONGWOOD PICK-UPS
 Miss Lillian Waits spent New Years in Orlando, the guest of her sister Mrs. Saulsbury.

Miss Olive Waits returned to Orlando to resume her studies in High School.

J. E. Phipps was shopping in Winter Park on Saturday.

Mrs. Mistello and Miss Ida Austin of Orlando were the guest of Mr. and Miss Grist on Wednesday.

Miss Margaret Allen left Saturday night for Gonzales where she will be an assistant in the graded school.

Mr. Overstreet and family were in Orlando Saturday.

Miss Ella Stewart spent the week end with her parents.

Mr. and Mrs. Dinkel and J. E. Phipp attended the Musical "Miss Blue Eyes" in Orlando Tuesday evening.

Mr. and Mrs. Charles Fedder and Mrs. McLane of Sanford were callers on J. E. Phipps Tuesday afternoon.

Mrs. C. W. Entzinger is a frequent visitor in Sanford now-a-days getting acquainted with the new grand-daughter.

The Ladies of the Civic League gave a New Years reception, serving tea, coffee and cakes for entertainment. Mrs. Dinkel introduced the Longwood Movies and Mr. Overstreet gave a reading "St. Peter at the Gate" and Mr. Hardee gave us an up to date story.

The friends of J. F. McGahey will be glad to know he is improving having been quite ill with LaGrippe.

Miss Olive Dinkel was home for the week end.

Mr. and Mrs. Fox and little daughter left Saturday for their home in North Carolina.

The Board of Trade appointed the 7th as Clean up Day.

Mr. and Mrs. Huston and Miss Mildred Huston and Mr. McLain of Sanford were calling on Longwood felends on Sunday.

Mr. John Dunbar is building an addition to his house.

Mrs. G. S. Maurey of Orlando was the guest of Mrs. Dinkel on Wednesday.

UPSALA AND GRAPEVILL
 Florida is showing us some of her beautiful weather just now for which she is noted. The orange crop here is being moved off very fast now. Today from 11A. M. we have counted 4 wagons, 1 carriage, 13 trucks and 10 autos pass one corner so you see we need the good roads that are coming. Rev. Swanson of Pierson will be here for services at the Lutheran Church next Monday evening.

Miss Eunice Tyner left the first of the week to resume her work at Leesburg, where she will room with her sister, Mrs. Krell.

A little son was born to Mr. and Mrs.

OVIEDO
 Mrs. B. F. Wheeler entertained the C. B. Club last Thursday afternoon at a New Years party. Besides the club members there many invited guests. The afternoon was most delightfully spent.

THE SANFORD HERALD

R. J. HOLLY, Editor
W. M. HAYNES, Business Manager

Published Every Friday by
THE HERALD PRINTING COMPANY

SUBSCRIPTION PRICE IN ADVANCE:
ONE YEAR \$2.00
SIX MONTHS 1.20
THREE MONTHS .50

Entered as Second-Class Mail Matter August 22nd 1908, at the Postoffice at Sanford, Florida Under Act of March 3rd, 1879

Office: Herald Building Telephone No. 18

Yes, "truth is mighty and will prevail!" But when?

Wood alcohol booze, like whiskey will go—but not until after its victims have gone.

If, as they tell us, the earth is as round as a ball, why is it we stumble over so many rough spots in life?

"Is there a Hall of Fame in America?" inquires an anxious one. Sure! Our office doors are open from 8 to 5

Now who says everybody is profiteering? Postmaster Elder will still sell you a two cent stamp for two cents.

Politicians are experts at handing out the bunk for the simple reason that the public is just as expert at swallowing it.

At any rate, the Reds do not appear to be tarred with the same brush as some of our friends at Washington. They are not yellow.

When cataloguing the frailties of your neighbor, it might be well to remember that he is probably a better brand of courtesy.

"Man is the more intellectual of the sexes, and his will must prevail", vociferously proclaimed a curbstone orator to a bunch of downtrodden browbeaten and furtive looking auditors. His wife had just died.

The son of an eastern scollage professor went to France, made a hero of himself, was decorated all over, came home, a fool if himself, forged a check, is now in jail, and died in quite a different manner.

Sir Douglas Haig says he British won the war; General Pershing insists the Americans won it, and now Marshal Foch is to the front claiming that he baffled the kaiser by the aid of divine inspiration. "Me and God" are great!

Sanford has the spirit of optimism to the ninth degree. Instead of complaining about the cold snap which has wrought such havoc in South Florida, the Sanford Herald says: "This cold weather means much to the truckers, and if our people can get a good price for their celery, this old town will go some."—Pensacola Journal.

"One ounce of wood alcohol will cause total and permanent blindness, and two or three, in most cases, will cause death." That is the verdict of most health officials. Your family doctor will tell you the same thing. Ask him. And yet this same wood alcohol is being poured into harmless liquids to give them a "kick". And on the strength of this "kick" bootleggers and other illicit dealers in intoxicants sell it to their customers. Thus far none of it, so far as we know, has reached this State. But it is said that the stuff has a kick. Yes, it has a tremendous kick. One ounce will kick you into utter darkness for the rest of your life, and two or three ounces will kick the drinker into his grave.—Orlando Evening Reporter.

FOR A REAL NEED

We are tired of drives, of organizations, of meetings, of drags, of representatives begging money and all of the hundred and one things that savor of money collecting. We are fed up on all of this and no one can blame the average American husband, or wife, or the individual citizen if he looks askance at the proposition of giving something. But there will be a drive in Seminole County starting next Tuesday and lasting only long enough to get a dollar from every person in the county at least and this drive is for the Fernald-Loughton Memorial Hospital, a hospital for the county of Seminole and for the benefit of our visitors as well.

This hospital is needed here just as much as the hotels, as the business houses, as the churches, as the lawyers, doctors, and the schools. It is needed infinitely more than any of those things for which we have strived for years. Our people have lost loved ones because there was no hospital closer than Orlando. We have spent thousands of dollars in expenses that could have been saved by having a hospital here. We have

suffered many times by separations and worry and agony over the relatives that were in some other city in a hospital when they could have been at home had Sanford boasted a hospital. There are a thousand reasons why Seminole County should have a first class hospital. None against the proposition. Therefore when the solicitor comes to you next Tuesday for a membership or for a donation give them all that you can give for this money will be spent where you can see it, feel it and appreciate it. The hospital will open officially on Monday. The drive will start Tuesday. Do your part in this great work.

THE AUTOMOBILE REPORT

Comptroller Amos has furnished the big daily papers with a tabulated report of the automobile licenses for 1919 and there are a number of interesting facts in it. There is also the basis for any number of deductions.

Naturally, we were interested in seeing where Lake stands in this list. Knowing that she stands less than halfway to the top of the list in population, twenty-ninth from the top to be exact, we were made to feel some pride when we found that she is only seventeenth from the top in the amount of automobile license money paid in for pro-rating among the counties for road maintenance. The counties that rate much higher are either very large counties or have large population and contain big cities.

One of the surprising things is that Polk County shows up 25 per cent above Escambia with the latter county containing the big city of Pensacola. Polk County is far ahead of Dade which contains Miami, and it is more than half as important on the list as Hillsborough. Orange and Marion Counties are almost together, each having about 25 per cent more than Lake. Considering population this is a pretty high compliment for Lake. Then we find that Seminole, Colusa, the rich colony of Rockledge and a dozen other towns; Leon with the state capital, Osceola in which Kissimmee is located; Putnam with Palatka and a big back country of fruit and vegetable production; St. Lucie in which is Fort Pierce, all these counties show less revenue from auto licenses than Lake. The only county with population about the same as Lake in the last census provided considerably less than half the revenue Lake did and, in proportion to population, Lake's licenses were directly in line with Polk, the two counties standing in proportion to population.—Leesburg Commercial.

Who is the ox? The brother to the ox is the man who cannot read and write. We met a poor fellow last week enroute from Georgia to Sanford, Fla., where his parents had recently moved. He had received a telegram telling of the approaching death of his mother and was hurrying to her bedside. He had purchased a ticket to Jacksonville, saying he did not know one could be bought for the entire trip, and, therefore, had to re-check his baggage at the Jacksonville terminal. He had not the slightest idea how to go about this simple task, so we assisted him. Having forty minutes between trains, we got in line, and after twenty-five minutes managed to get to the ticket window, then rushed to the baggage room and attended to the baggage, having about five minutes left in which to make the Sanford train. The ignorant one wanted to get off at every station, so anxious was he to reach his destination. He remarked that he did wish that he could "read the signs."—Plant City Courier.

HAYSEED, OR PLUTOCRAT?

Not so many years ago the term "hayseed" was jocularly applied to the American farmer. And the farmer didn't resent it—because he couldn't. He lived from hand to mouth, and often there was but little left by the time it reached the mouth. But now? Say just watch the old boy's smoke! There are no plasters on his farm. He is out of debt, with a comfortable surplus stored away. His stock is fat and of the best grade. His acres are teeming with the products of the soil and the result of his fertile brain. He comes to town in his automobile, smokes the best cigars, and his family has a college education and buys the best clothes. Once he went into the bank with his hat in his hand. Now he owns his stock, is a director, or perhaps the president. In other days he asked favors. Now he issues orders. A hayseed? Well, hardly. A plutocrat? You bet! Horse sense and opportunity did it.

COLD STORAGE PIRATES

Every thinking person knows that cold storage warehouses are a modern necessity in order to insure a proper distribution of food and prevent enormous wastage from decay. But well informed people also know that such is not the principal use to which they are now being placed. They are the means by which food pirates rob and plunder the people. Stores are cornered on the market, hid away in the cold storage warehouses, and allowed to remain there until a fictitious storage warehouses, price has been created by an apparent shortage. Then they are

dribbled out and enormous profits are made therefrom.

Things run along smoothly for the pirates in this manner, until some enterprising newspaper noses out the facts and begins to stir up the natives. Then some public officials come to life, lets out a few terrifying roars at nothing, and goes home and takes a stiff drink—if he can find it. He has performed his sacred duty to the goats who elected him. He roared, and a roar makes a big noise. Prosecute—the pirates? Piffle! They are prominent people, and have money—also votes. Often food is kept in cold storage until it is rotten, and then it is sent out for the people to eat and spread disease. In their frantic efforts to boost prices eggs are held in storage until they rattle in their shells like dry bones, and apparently the longer they remain the higher is the price when they do break bounds.

We Americans have a queer way of doing things in the present day of enlightenment. If a poor devil steals a slab of bacon to feed his hungry family, we call him a thief and send him to rot in the jail. But when food pirates milk the public of millions by their criminal manipulation of the cold storage warehouses we envy them in their greatness and leave them to keep right on plundering. In other words, we curb the little thief and give the big one a free rein. Some of the large cities of this country are rotten to their cores, and if the cores were required to stand alone they would collapse of their own decay. For it is in the cities that this wholesale piracy and plundering of the people finds its inception and protection.

Some of the county districts may not be exactly sprouting wings, but the systematic robbery which is debauching the country does not flourish where every man knows his neighbor. The public has reached the point where it is beginning to demand that Congress take the situation—and, failing this, it would be quite appropriate for it to resign and go home. The lid has a disagreeable habit of blowing off when the pressure becomes too great.

Alexander Vaughn For Tax Assessor

Among the young men who are announcing to succeed themselves Alexander Vaughn, affectionately termed "Alek" by his many friends and although he is considerably past the fifty mark he is still a young man when it comes to getting out and getting after them on the question of assessable values in Seminole county. Alexander Vaughn has lived in this part of Florida since the time when the country was wrested from the Indians and if there is any man that knows this county any better or has any more friends than this same Alek Vaughn we know him not. There is not a rumor of any opposition for Mr. Vaughn in this office. Like the Tax Collector's job the assessment of taxes is not a job that everyone cares to try and handle and it is hardly probable that either our Tax Collector or our Tax Assessor will have any opposition as the people seem well satisfied with them on their respective jobs.

POLITICAL ANNOUNCEMENTS

For County Judge
To the People of Seminole County: I beg to announce that I am a candidate for re-election to the office of County Judge of Seminole County Florida, subject to the Democratic Primary Election in June, and respectfully solicit your vote and influence in my behalf, which if given I assure you will be greatly appreciated.

E. F. HOUSHOLDER.
For The Legislature
I hereby announce my candidacy for the position of Representative for Seminole County subject to the decision of the Democratic primary. If elected to this high office it will be my duty to serve all the people of my county as their public servant.

F. P. FORSTER.
For Tax Assessor
I wish to announce that I am a candidate for re-election to the office of Tax Assessor of Seminole County, subject to the Primary to be held in June. I shall appreciate your support.

A. VAUGHAN
For Tax Collector
I am a candidate for re-election to the office of Tax Collector of Seminole County, subject to the action of the Democratic Primary, and will appreciate your support.

JNO. D. JINKINS
For Sheriff
I hereby announce my candidacy for the office of Sheriff of Seminole County subject to the decision of the Democratic Primary.

W. P. CARTER
FOR SHERIFF
Having been urged by a large number of the voters of Seminole County to become a candidate for the office of Sheriff, I hereby announce my candidacy subject to the decision of the Democratic primary.

State Press Comment

Jerusalem has its first daily newspaper. It is called The Jerusalem News, and is published by Americans.—Clearwater Sun.

St. Petersburg being a live town there are always some fights here.—St. Petersburg Independent.

Speaking about those "Stop, look and listen" signs, a man stops, looks a time, then gets a marriage license and hikes up the church aisle, and meekly listens for the rest of his life.—Bartow Record.

Texas is importing peanuts from China, and The Milton Gazette suggests that Santa Rosa county could grow enough of these toothsome dainties to supply the world.—Pensacola Journal.

A Kingston (Can.) woman is suing for a divorce because her husband prelates in getting in bed with his overalls and boots on. Good gosh Hanvn't husbands any personal rights left 'em these days?—Tampa Tribune.

The Ocala Banner says: "The octopus upon the body politics in Florida has been removed." Fine! Now, when we get rid of these durned political cooties we will have a chance to feel and appear clean.—Tampa Tribune.

Hanging is too good for the ghouls who sold wood alcohol to the poor inebriates over the country and caused so many deaths. The thirst for rum seems as great as ever among a certain class, who will swallow anything labelled "whiskey", and death is the only thing that will stop them from buying and drinking it.—Gainesville News.

Sir William Osler, the eminent physician who a number of years ago declared that men above the age of sixty were really old, and that themselves were really young, lived to be over 70 and up to the very last continued in the practice of his profession. His death the other day was a distinct loss to the medical profession which he adorned for many years, even after this piece of honor that added to his world-fame.—Time Union.

Lake Wales will be the home of a new million-dollar crate mill, which is to be erected by the Consolidated Land Company. When completed this will be the largest and most thoroughly modern mill in the United States. It will mean at least a thousand more population for Lake Wales, which will necessitate the erection of residences and will bring new business houses. Everything will be on the boom in Lake Wales.—Punta Gorda Herald.

W. D. Carrier, of the Polk County Avocado Nurseries, sends us four Trapp avocados with the compliments of the season. Some gift at this time of the year, and we thank him. I note that they are selling in box lots at 41 per single fruit at Miami. That Polk county can grow tender fruit is only another testimony added to a long list tending to show that this section of the State is practically immune from killing frosts.—The Lancer in Florida Grower.

When the greener pays more for sugar, he sells it for more; when the dry goods man pays more for his good the price per yard is raised to cover it; when the cost of living goes up, the man working for a salary demands more money; but when the price of paper goes up and the cost of every living thing goes up, the man who runs a newspaper is supposed to rock along charging the same old prices.—Monticello News.

HERO DIES OF BATTLE WOUNDS

Florida's Youngest Soldier Succumbs To Chateau Thierry Wounds
Arcadia, Jan. 12.—Raleigh Whidden, 18, hero of Chateau Thierry, died at Carlstrom Field hospital, from pneumonia resulting from a machine gun bullet in his lung.

When Company K entertained young Whidden was missing, his landlord having failed to waken him. He was very uneasy, and had a telegram sent his commanding officer, Captain Rupert Smith, explaining the delay, and followed the company on the next train.

He was discharged from service in February, 1919, and returned to Punta Gorda, but never was well. The left side of his face, including his eye, was shot away, and he received five other machine gun wounds, one bullet lodging in his lung and causing pneumonia to develop. Last Saturday he was taken to the hospital at Carlstrom Field in the hope that he would sufficient recover to have the bullet removed. Instead of recovering, he rapidly became worse and his death followed. The American Legion and members of Company K took charge of the remains, and he was laid to rest in the cemetery near Moffitt.

Daily Thought.
The great man is he who does not lose his child's heart.—Menelaus

ALL 'ROUND THE STATE

NEWS OF THE GREAT STATE OF FLORIDA

Compiled in Tabloid Form For Busy Herald Readers

The Lakeland Star says that the police and fire department of that city made a splendid record for 1919. The loss by fire was only \$8,000 during the year, and the police department lacked only \$280 in paying expenses, which is something a police department is never expected to do.

At last Hemming Park is to have a respectable band stand and with as good a band as Berry's to furnish first class music, Jacksonville, should be able to hold a lot of the passing tourists or at least make them feel that their reception in Florida is a cordial and interesting one in the gateway.—Times Union.

Lawn bowlers, mainly Canadians, who are winter residents and visitors in the Sunshine City, will have a permanent club house in Mirror Lake Park, St. Petersburg. The building will be attractive in design. Lawn bowling is a big item in St. Petersburg this winter, it is said, and the club there now numbers 200 members.

The Hillsborough high school senior class and faculty were guests of honor last night at the annual banquet tendered by the Junior class. The affair took place on the roof of the Hillsboro Hotel in Tampa. Char-

les Henderson, class president, was toastmaster, and a number of the guests responded with appropriate toasts. It was a very delightful occasion.

The people of Manatee county are in favor of good roads. They have demonstrated that many times by their votes. They demonstrated it last year in their vote on the Cortez road when the people decided they wanted a hard road. There is a great demand for this road, and every effort must be made to see that nothing stops its construction. The will of the majority of the people should be carried out. The county commissioners are to be commended for the efforts they are making to carry out the will of the people.—Bradentown Journal.

A movement is on foot in Punta Gorda to lay out a golf course along the bay front. Manager Schmidt, of the Hotel Punta Gorda has taken the initiative and has interested many of the leading citizens of the town, nearly all of whom have pledged substantial assistance.

The Russian colony located a few miles west of Miami, on the Everglades, have applied to the Dade county school board for a school there being 23 children in the colony of school age.

A colored citizen of Punta Gorda, by the name of Henry Little, started a new enterprise in that town, in front of his establishment being a large sign which tells the world that it is "Little's Dog Hotel," where dogs will be boarded and trained for tricks and hunting.

The Jacksonville Business and Professional Woman's Club will hold a supper meeting tomorrow night in the clubhouse, corner Laura and Church street, this being the first meeting since the opening of the clubhouse.

The annual Confederate ball given by Martha Reid Chapter, U. D. C. of Jacksonville, will take place this year, Monday, January 19, in the Duval county armory, in commemoration of the birthday anniversary of General Robert E. Lee. This event is always one of the interesting functions of the season.

St. Petersburg has a five-year-old swimmer who gives exhibitions in the pool at the Spa, and who is a star attraction. The child is Lucille Hayward. She does high diving and swims the length of the pool, 90 feet, with ease, and has the best known stroke at her command. She is being trained to be a star swimmer.

The annual meeting of the Woman's Missionary Union of Florida will be held in conjunction with the annual meeting of the Florida Baptist convention in Jacksonville. The opening session, which is to be a missionary mass meeting takes place tonight in the Main Street Baptist church. Business sessions will be held on the afternoon of January 13, 14 and 15. The Florida Woman's Baptist Missionary Union comprises 602 organizations.

Hon. James E. Alexander informs The News that on Saturday, January 17, he will give a free barbecue at DeLeon Springs to returned soldiers, sailors and marines, to which he has also invited the Daytona Lodge of Elks, of which Mr. Alexander is a life member. Hon. Van C. Swearingen and Hon. Doyle Carleton have been invited to be present and to deliver addresses. The DeLand band has agreed to furnish the music for the occasion complimentary to the service men. The proprietors have donated the grounds for the day. On the following Saturday, January 24, Mr. Alexander will give a barbecue for the returned colored soldiers and sailors.—DeLand Daily News.

State Chemist Rose says of the Everglades of Florida: "The stores of wealth-producing land are there and it is up to man to make the development." Dr. Rose and other chemists have examined the soil and agree that all that is necessary is to drain the land properly. He denied the statement that drainage may make the land too dry for cultivation.—DeLand News.

Early next week, probably on Tuesday afternoon, the new steel steamship, "City of Sherman," will go into the water an almost-completed steamship. This vessel on the building ways has received her engines, boilers, and even her smokestack, and when she kisses the waves in Little Bayou on the launching date, it will be the most complete vessel of her type ever launched according to steamship builders.—Pensacola News.

A unique wedding took place above Miami a few days ago when R. G. Conant, formerly with the American air forces in France, and Miss Charlotte Hamilton, aboard one of the Aero Limited planes, were united in wedlock. There was a best man and bridesmaid, and Rev. Robert Newton Ward, of the People's Congregational church, officiated. The wedding party gathered at Elser's pier, where they boarded one of the big naval bombing type seaplanes, capable of carrying six passengers. Afterwards there was a wedding dinner at one of the Miami hotels. The young woman had often taken flights with her betrothed.

The opening of the Hotel Ponce de Leon in St. Augustine, Tuesday night for the thirtieth season, was a brilliant affair. The dinner is said to have been perfect in point of cuisine and perfectly served. The big hostelry is this year lovelier than ever before, for the wonderful frescoes and mural decorations in the rotunda, dining hall and drawing rooms have all been recently retouched and the handsome woodwork refinished. The new indirect lighting system that was installed during the past summer is said to give a lighting effect indescribably soft, yet brilliant, and enhances the loveliness and the richness of the decorations.

Brevard county will vote this week on a bond issue for \$300,000 for good roads. The prospect of having a sure enough highway through the county, a road which will compare favorably with those which we find in the more settled portions of the north and east, and of the progressive countries of Europe, a road of a

generous width, one which will stand the wear and tear of time, a roadway that will reflect credit on the county and impress the outsider with the progressiveness of its citizens looks good to the average voter.

Avocados grown at Miami Beach are said to be retailing in the northern cities at \$1 each, this fancy price being the result of the September hurricane says the Miami dealers, practically all of the Dade county crop having been wiped out by that storm. The 80-acre grove of this fruit owned by the Miami Beach Improvement company, was not injured by the hurricane and fruit from it is being shipped daily and fancy prices received.

The Kentucky Military Institute reached Eau Gallie on Sunday, the 4th of January, to begin their winter session at Military Park. They came in their own special train, leaving Lyndon, Ky., Friday evening, so that no time was lost from study. Mrs. Fowler had everything ready for them at the barracks there.

There is great rejoicing in the twin towns, Eau Gallie and Melbourne, as the new electric lights were turned on in both towns on Wednesday of last week, and will give service for the present from sun down to daylight. The company has been busy installing the larger unit, when both towns will have a 24-hour service.

Florida retail clothiers will hold their first annual meeting in Jacksonville the last of February. Invitations have been sent to a number of speakers of nation-wide note to meet with the Florida clothing men.

A young Miami girl, Miss Louise Eyer, the daughter of a prominent attorney, who went to be married to Robert Ewert of Dallas, Texas, disappeared on her wedding day and her whereabouts are a mystery.

Steps are being taken to break up the highly organized liquor smuggling business between the Bahamas and Florida, known as the "Red Eye". The Bahamas are receiving liquor from Canada, according to reports.—DeLand News.

Lumber shipments during December by water from Tampa totaled approximately 2,700,000 feet, practically all of which went to Cuban ports; 200,000 feet of lumber, however was sent to New York. This month bids fair to be among the leading months.

Monday sightseeing trolley trips, personally conducted by an announcer, who will describe various points of interest, will be put into service by the Tampa Electric Company. The service is for the benefit of tourists. The cars will have a seating capacity of 50 people.

Marvelous Arcturus. Of a deep orange color and of the first order of brightness, Arcturus is a sun that makes our own pale in comparison as a fallox atop pales before an arc lamp. Indeed, it is thought to radiate 500 times as much light as our sun.—National Geographic Society Bulletin.

Voice of Envy. Betty had tight curls and her greatest grievance in life was to have her hair shampooed. When she was shown her new baby brother, she put her arm on his little bald head and said: Oh, you lucky little shampooless little.

Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

Take **CARDUI**

The Woman's Tonic

Mrs. Mary J. Irvin, of Cullen, Va., writes: "About 11 years ago, I suffered untold misery with female trouble, bearing-down pains, headache, numbness... I would go for three weeks almost bent double... My husband went to Dr. — for Cardui... After taking about two bottles I began going around and when I took three bottles I could do all my work." E-30

Jazz Stuff Discarded In Dances

OLD FASHIONED, KEEP YOUR DISTANCE DANCES TO DISPLACE THE DIZZY JAZZ

New York, Jan. 13.—Old-fashioned keep-your-distance dances, are to displace the modern Jazz steps, if the nationwide reform movement undertaken by the American National Association of Masters of Dancing proves successful. The dancing masters, it is announced here, count upon the support of mothers, fathers, daughters, sons, dance hall proprietors, dancing teachers and hostesses—if necessary the police department—to exterminate the "half Nelson", "body hold", Shimmy lock" and other imported ballroom grips which, are practiced by some dancers.

Cheap and vulgar music is also to come under the ban and, according to a circular just issued by the association, those in charge of community or public dances are urged to show their opposition to undesirable dances by distributing "You will please leave the hall" cards to those who persist in offending.

The women, it is charged are often as much to blame as their partners and, in some cases, dance hall proprietors are advised to pick out ten or a dozen objectionable couples and, if a warning is disregarded, to oust them at once.

"You will soon see", the circular reads, "that you have raised the standard of your establishment and that the loss will be more than made up by double the number of persons who have respect for you and your dances."

Some of the rules and regulations which all are urged to obey follow: "Dance music should be bright and cheerful, properly accented and the phrases well decided. Cheap, vulgar music of the extreme 'Jazz' type invites cheap, vulgar meaningless dancing. It is useless to expect refined dancing when the music lacks all refinement, for, after all, what is dancing but an interpretation of music?"

"The Association has adopted the following tempos, it being impossible the masters say, to regulate fast dancing:

- "Waltz—48 measures to minute.
 - "Two-step—54 measures to minute
 - "One-step—66 measures to minute
 - "Fox-trot—40 measures to minute
- "Dancers should assume a light, graceful position," say the masters. "There should be no jerky half-steps for these cause undesirable variations. Partners should not dance with cheeks close or touching nor should the clasp be tight. 'Neck holds' are positively unpardonable. The gentleman's arm should encircle his partner's waist, his hand resting lightly just above the waist line. The lady's left arm should not encircle her partner's shoulders or neck.

"Steps or movements that cannot be controlled should not be taught by dancing teachers. Short side steps first right, then left, when done continuously, are not conducive to refined dancing and should not be permitted. 'Shimmy dancing', a shaking of the upper part of the body while taking short steps or standing still should not be tolerated.

"The proper dancing step should be the same as a natural walking one except in exhibition dancing, which properly belongs to the stage, not the ballroom. Exceptionally long or short steps are not in good form. "Dancing should be from the waist down, not from the waist up. Copying of the extremes used on the modern stage is in bad taste. Remember that the majority of dancers desire to dance according to the best accepted standards, that is, without the slightest trace of offense to dignity or decorum."

MAY VOTE NEXT WEEK

Senate Hopes to Reach an Agreement on Reservations Soon

Washington, Jan. 14.—Prospects for ratifying the peace treaty with Germany before Friday, the date for the first meeting of the members of the League of Nations council, were abandoned today by all factions involved in the controversy. William J. Bryan, in telegrams to a number of the members of the senate, a few days ago, urged that the treaty be ratified before the league council met so that the United States might participate.

respectively speaking separately to a delegation representing various factions with regard to the peace treaty said that each side would have to make, and was willing to make, concessions.

Because of its possible effect on treaty controversies, senators on both sides of the question showed great interest today in the democratic leadership caucus set for tomorrow. Senators Underwood and Hitchcock are candidates for party leader to succeed the late Senator Martin of Virginia.

The first hole that early man made in a piece of shell or stone was by a blow of a stone hammer, which happened to strike in such a way as to knock out a small bit of the stone or shell, says Dr. Chifton Harby Levy. When this man saw the hole and noted its convenience, he slipped the snaw of a deer into the shell or stone and lung it around his neck as an ornament. Others began to ask themselves how they could make holes in things and, taking a bit of pointed stone, they worked with that until the hole was drilled.

Out of accumulated capital have arisen all the successes of industry and applied science, all the comforts and conveniences of the common lot. Upon it the world must depend for the process of reconstruction in which all have to share.
—JAMES J. HILL.

The Successful Farmer Raises Bigger Crops and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

This advertisement is published by the Association of Railway Executives

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 81 Broadway, New York.
