

Hurley Shouts "You Can't Call Me Liar" As He Leaves Quiz

War Secretary Hurlburt Defy At Senators When They Attempt To Disparage Him

WASHINGTON, Feb. 13.—(A.P.)—Secretary Hurlburt today walked out of the Senate committee hearing on Philippine independence asserting he would not "remain to be called a liar." Hurlburt left the meeting after Senator King told the secretary he represented an untrue statement the War Department had made.

His voice shaking with emotion Hurlburt leaped to his feet and asserted with vigorous gestures "You can run your star chamber proceedings here and call me a liar and browbeat witnesses but you can't compel me to remain here and take it."

The incident climaxed two stormy sessions of the Senate Insular committee. At the previous one Hurlburt became engaged in an angry dispute with Democrats who advocated freeing the islands, Hurlburt expressing the administration's viewpoint that the islands should not be given their independence until their economic independence is assured.

He questioned mounting anger under questioning by Senators Cutting and King who have measures before the Senate for independence.

"Just this minute you tried to answer before the question was asked," King said. "You have absolutely nothing to say for what I said," Hurlburt replied. "I repeat that as untrue as some of your statements have been," King replied. It was then that Hurlburt left the room.

Harry Papworth's Resolution On Fly Losses Is Adopted

Legislation which will benefit the growers of Florida who suffer losses by government action in the control of the Mediterranean fruit fly some months ago was brought in a resolution prepared by H. M. Papworth, Sanford, presented to the Committee of Fifty, meeting at Mt. Dora recently, and adopted by that group.

The resolution was one of two adopted during the monthly meeting of the group which has a membership recruited from every citrus producing section in Florida. It reads as follows: "Resolved that this Committee of Fifty of the Florida Citrus Growers' Clearing House Association respectfully request the attention of our representatives in Washington for their early consideration on legislation pending for the benefit of growers who suffered terrible losses by governmental action in control of the Mediterranean fruit fly."

Earlier in the meeting Mr. Papworth had reported that the next meeting of the group was to have been held in Clearwater, with Sanford and Cocoa scheduled as the following meeting places. Upon discussion, it was decided that the next meeting should be held in Lakeland, and that the Clearwater, Sanford, and Cocoa meetings be not held one month each.

After the group had heard Dr. P. Phillips, Orlando, plead that some concerted action be taken to relieve the tangerine situation, which he termed as "practically a dead issue," the chairman of the meeting appointed a committee of three men, including Mr. Papworth, to study the situation, and present a program which would bring about a practical solution of the tangerine marketing problem.

MURRAY OPENS DRIVE
THE MOINES, Feb. 12.—(A.P.)—First state headquarters in a presidential campaign for Governor Murray of Oklahoma have opened here yesterday. George A. Stephens, who managed "Alvin Karpis" gubernatorial campaign, officially opened the

FARMERS ARE HEARTENED BY NEWS ON RATE

Farm Club Learns Of Proposed Official Changes In Celery Data For 14 Years

Local celery growers and shippers who have been conducting a thorough investigation into the circumstances surrounding the recent rise in freight rates on celery from Florida were said to have been heartened over the contents of a letter explained to the Seminole Agriculture Club at its weekly meeting Thursday night.

The letter, from Paul L. Koenig, senior agricultural statistician, division of crop and livestock estimates of the United States Department of Agriculture at Washington, is taken by many growers to indicate that as soon as the department has revised its existing records on celery returns since 1918, it may be possible that the facts thus established can form the basis for a re-evaluation of the farmers' claims before the Interstate Commerce Commission.

The letter was written to W. C. Hutchinson, traffic manager for Chase and Co., in answer to one he had written Mr. Koenig. Mr. Hutchinson explained the farmers' situation in detail, told Mr. Koenig that the celery prices mentioned in "Crops and Markets" for December, 1921, a weekly statistical bulletin published by the Department, were too high, asked how this information is compiled and from what sources, and whether the average price mentioned in the bulletin and or did not include the freight rate.

In his letter, Mr. Koenig said: "I am glad to have your letter of Jan. 10. Although I am not able to give you complete information on the question you raise, I believe possibly you may be able to assist us in reviewing these historic price data on Florida celery."

"The issue of 'Crops and Markets' from which you secured your data contains information that has since been revised. I am enclosing a mimeographed table on celery production from 1918 to 1927, in which changes have been made in most of the Florida prices quoted in your letter. These changes were based upon a review of the reports received from the field which were found to be based on a different sized container than we use as standard in our reports. In other words, our prices were reported to us for half-size crates which, to conform to the standard accepted for our reports, had to be converted to a two-thirds crate basis."

"In making these corrections, (Continued on Page Two)

Address To Be Given On "Safe Motoring"

Mayor T. L. Dumas, chairman of the Jacksonville District Safety Committee today called the attention of the radio listeners of Sanford to an address on "Safe Motoring" which will be delivered by Milton Bacon, prominent Jacksonville automobile dealer, over WJAX tonight at 8:30 o'clock. Mr. Bacon is on the air twice weekly broadcasting a feature known as "Florida Air Dispatch." He has suggested that he will speak on "Safe Motoring" tonight, and Mayor Dumas, who heads the safety committee in this community, urges all interested persons to listen in on this short address.

Hoover Charged With Probing Roosevelt

ALBANY, N. Y., Feb. 13.—(A.P.)—President Hoover was charged today by a New York Democratic leader with planning the Republican legislative investigation of the Democratic administration of Governor Franklin Roosevelt, possible opponent of Hoover in the presidential election. John D. Sullivan, chief of the Democratic forces in the upper legislative house, declared the new slogan of the Republican party is "beat Roosevelt now. Instead of in November." Hoover's supporters in the Legislature, Dunnigan said, intended to rip apart in a ruthless manner every state department in an attempt to get something on Roosevelt.

"Big Dollars"

A Little Chat With The Secretary Of The Seminole County Chamber Of Commerce

Seminole County dollars are worth \$1.34 today as compared with their purchasing power one two and three years ago.

There has not been a time in recent years when a dollar would buy as much food, clothing, shoes, amusements, fuel, rent, etc., as it will buy today. A dollar is worth more than it was at any other time in recent years and while wages and interest and dividends on investments have decreased, in reality, THEY ARE HIGHER than they were a year ago. One needs only to compare prices of groceries, meats, breads and other necessities of life in January 1932 with the same prices twelve months ago to realize the increased purchasing value of dollars.

The dollar spent for necessities in Seminole County continues to circulate within this county and helps everyone into whose hands it falls. The laborer gets his wage dollar, he spends it with the grocer, the grocer buys clothing, the clothier buys shoes, the shoe man purchases drugs, the druggist buys amusements or transportation and so the dollar keeps circulating. It eventually gets back into the hands of the man who pays wages and the day laborer gets his own dollar back and starts spending it again. This is true as long as the dollar circulates at home, but when it is spent elsewhere, it is removed from the circle of trade within this community and ceases to have value in developing this community. Keep your dollars working for you in and for your community.

ROOSEVELT MEN TAKE CHALLENGE OF HIS ENEMIES

Nation-Wide Push Is Being Planned To Check Opposition

WASHINGTON, Feb. 13.—(A.P.)—The Democratic supporters of Franklin D. Roosevelt took up militantly yesterday the challenge of the anti-Roosevelt brigade, while the Republican manager for Herbert Hoover and the insurgent friends of William Johnson decided alike to stand aside from a primary contest in early-voting North Dakota.

These three developments, among the many produced by a day of far-flung political action, cast significant shadows into the presidential year 1932.

The rally here of the Roosevelt forces, led by Homer Cummings of Connecticut and 11 Democratic senators, signified the beginning of an aggressive nation-wide push against the wall of opposition which several party leaders are seeking to rear between the New York governor and the nomination.

The Hoover decision not to enter the North Dakota primary of Mar. 16 indicated a conviction among his managers that his renomination is assured without the disagreeable necessity of battling for disputed states—particularly the states where the party is largely in the hands of the insurgents.

Senator Johnson's refusal to go into North Dakota, on the other hand, indicated a conviction (Continued From Page Two)

Proclamation Issued By Mayor T.L. Dumas

With every community in the nation planning to assist in the observance of Parent-Teachers Day on Feb. 17, Mayor T. L. Dumas has today, upon request of the several Parent-Teachers organizations in this county, issued a proclamation calling upon residents of this county to participate in any meeting, gatherings, or other affairs which may be scheduled on that day.

In his proclamation Mayor Dumas says that:

"Inasmuch as the several Parent-Teachers Associations are striving to and accomplishing much toward child welfare, aiding much to health and good citizenship of our beloved city of Sanford, I respectfully urge all citizens to observe the day, and to co-operate with the organization to pay tribute to the exalted vision of the founders of this movement. Their unselfish efforts and lofty ideals, their sincerity of purpose should ever inspire us to forget self-interest, personal glory or achievement, and keep ever in mind the rights of every child under the flag, remembering that to train the child we must also train ourselves, and in the training of the child we place the hope of our nation."

CAPONE'S HAND IS SEEN BEHIND RUM SYNDICATE

Intricate Operations Of Gigantic Organization Are Shown

NEW ORLEANS, Feb. 13.—(A.P.)—An international rum ring with the bulky form of Al Capone in the background was revealed yesterday in the handing down of 104 indictments by a federal grand jury.

An army of federal agents after months of work have gathered evidence which they said shows that two years ago the Capone gang organized a gigantic liquor syndicate to bring Canadian liquor into the United States through the New Orleans area. It began operations after the Canadian authorities had banned the shipment of liquor across the international boundary line.

Thousands of gallons of liquor have been smuggled through the Gulf Coast marshes in the last two years. Under the plan, the agents said, Canadian distilleries shipped the liquor to Belize, British Honduras, where it was picked up by "mother ships" of the syndicate and re-shipped to the Gulf Coast. Small craft would meet the ships beyond the 12-mile limit and bring the liquor either into Mississippi streams or into Louisiana bays.

Directors of the syndicate's operations made headquarters in New Orleans, and worked two gangs of boatmen, loaders, truckers and runners, one in Louisiana and one in Mississippi. The syndicate owned its own (Continued On Page Four)

Local Golf Team Defeats Rollins College Players

Sanford's four-maned golfing team took the measure of a quartet of crack Rollins College golfers at the Sanford Country Club yesterday afternoon. Under the Nassau system of scoring, the Sanford team won by a four point margin.

G. W. Spencer, No. 1 Sanford amateur, playing Fred Newton, No. 1 Rollins player, defeated him by two points. Spencer was two up on the first nine to gain a point and the second nine, and gained a point because of his victory on the first nine.

Jim Spencer defeated D. E. Ward by three points, winning the first nine one up; the second nine two up, and gaining an extra point because of his double victory.

CHINESE CRISIS BROUGHT INTO ARMS PARLEY

Yen Tells Delegates Success Of Conference Depends Upon Result Of Conflict

GENEVA, Feb. 13.—(A.P.)—W. W. Yen, Chinese delegate to the world disarmament conference, told delegates today that the conference's success or failure depends upon the outcome of the conflict between Japan and China in the Far East. If the League of Nations and the Kellogg Pact are permitted to crumble to pieces over the Sino-Japanese situation, the conference will fail. "The outcome of the present struggle to ward off external aggression in the most violent form must inevitably and largely determine the armament policy upon which the Chinese nation will pursue."

A report came out of the world disarmament conference yesterday that France and Great Britain had agreed on a meeting of the powers in June for the purpose of seeking a lasting solution to the reparations problem.

Meantime, the conference bore fruit with the resumption of direct negotiations between French and Italian delegations to settle their naval differences.

The plan was agreed to, the Havana correspondent said, by Sir John Simon, British foreign secretary, and Andre Tardieu, French minister of war and chairman of the French delegation to the conference. Other interested powers concurred in the decision, the correspondent reported.

An official communiqué, it was said, would be published today in Paris and London.

It was firmly believed that conferences now being held would lead to an extension of the London naval treaty of 1930 and provide a basis for further disarmament of all powers on the seas.

French Minister of War Andre Tardieu and Foreign Minister Dino Grandi of Italy already have met to discuss the subject and their conversations are being followed up by the French and Italian naval experts, Rene Massigli and Augusto Roas.

The negotiations are being conducted on the basis of the abortive agreement among Italy, France and Great Britain on March 1, 1930. The principal points to be worked out is the replacement of ships becoming obsolete—a point which wrecked the 1930 treaty.

The French, who have a proportionately large number of ships that will soon become obsolete, have maintained their right to re- (Continued on Page Three)

Success Continues To Attend Drive Of Democratic Women

Continued success attends the drive now being staged in the county by members of the Army of Democratic Women who are endeavoring to collect \$500 within a week for the purpose of aiding the presidential campaign of 1932. Mrs. W. T. Langley, colonel of the Army, today reported the appointment of several captains and lieutenants, many of whom had voluntarily offered their services in the fund-raising campaign.

Captains appointed are: Mrs. E. M. Carroll, Mrs. C. E. Chorpensing, Mrs. L. C. Leonard, Mrs. Vance Douglas, Mrs. D. D. Caldwell, and Mrs. E. E. Bludworth.

Lieutenants appointed are: Mrs. O. P. Herndon, Mrs. Paul Biggers, Mrs. L. M. Telford, Miss Mildred Nix, Miss Minnie Beck, Mrs. C. E. McKee, Miss Sarah Maxwell, Mrs. J. F. Praston, Mrs. T. J. Merritt, Mrs. Volle Williams, Mrs. Homer Little, Mrs. J. F. McGilchrist, Miss Georgia Hart, Mrs. Arthur Gatchel, Mrs. Clyde Byrd, Mrs. Linton Allen, Mrs. G. W. McBror, Mrs. A. J. Peterson, and Mrs. S. E. Jones.

It is the Army's aim to collect at least 10 cents from each of the 4500 registered Democratic voters in this county. Each worker has been given a list of names of persons who is expected to call upon, and during each solicitation, the worker will not only collect funds but attempt to awaken within the voter an interest in the coming campaign.

Japs Are Landing Men, Tanks, Guns From 7 Transports

STOCKS ZOOM UP IN BIGGEST JUMP IN PAST 2 YEARS

Net Gains Range From Two To 15 Points; Turnover Is Large

NEW YORK, Feb. 13.—(A.P.)—Stocks zoomed upward in one of the most spectacular rebounds in the past two years today. The abrupt upturn which greeted the proposal to increase the flexibility of the federal reserve system on Thursday was resumed at swifter pace after yesterday's holiday, as buying orders swept into the market driving the bears into a little panic all of their own.

Net gains ranged from about two to 15 points. The turnover was around 2,500,000 shares, the largest for Saturday in recent months.

Union Pacific made the extreme upsurge of 18 and one-half points, closing 12 points up. American Telephone got up 15 and a half and closed 11 and a half. The ticker fell behind the trading. The Ford Motor announcement was held an important factor in the advance.

Longwood, Geneva Evening Classes Have Motorcade

It is the consensus of opinion of members of the Longwood and Geneva Citrus Evening Classes who yesterday formed a motorcade motoring to spend the day at the Lake Alfred Citrus Experiment Station, that the affair was a decided success, and that much practical good will result from the lessons learned at Lake Alfred.

Nine automobiles, containing approximately 40 persons from all sections of the county, met at Lyman School yesterday morning at 10:00 o'clock, motored to Haines City for a luncheon stop, and spent the afternoon in and around the Experiment Station as the guest of W. R. Jeffries, superintendent of the plant.

The day's activities will be discussed at the regular meeting of the Longwood Class Monday night and the Geneva Class Wednesday night, and all persons who are not already members of the classes, as well as all persons interested in new and modern methods of citrus culture, are urged to be present.

Among those visiting Lake Alfred yesterday were: Mr. and Mrs. J. J. Matheson, Mrs. J. H. Isbell, Mrs. Kate Isbell, Miss E. A. Dunbar, Mrs. F. J. Niemeyer, Mr. and Mrs. J. A. Bittline, E. P. Zimmerman, Mr. and Mrs. H. C. Beardsley, Mrs. Lewis Slack, Mr. and Mrs. L. L. Anderson, O. H. Frain, and Noble Hale, of Longwood; Jas. L. Browne, Forest City; Theo. M. Howell, Orlando; Mr. and Mrs. George Lopez, Mr. and Mrs. S. W. Eldridge, Maitland; J. Greenman, Bayne City; Mich. E. Sutton, Mrs. A. B. MacCulloch, Mrs. J. C. Hill, Jr., Geneva; Mr. and Mrs. J. W. Grothier, Lake Mary; E. Pitt, C. Phillips, Dr. R. S. Keeler, D. L. Thrasher, Sanford, and Alex R. Johnson and C. R. Dawson, county vocational agriculture teachers.

Ban On Number "Tens" Extended For Week

With reports that practically 100 percent co-operation is being extended their efforts to stop the shipment of celery in 10 dozen sizes, the committee of farmers and shippers which has been meeting weekly for the past three weeks in this connection, last night voted to extend the ban on 10's for another week.

It was the consensus of opinion that the celery situation has been immeasurably strengthened by the action which was begun several weeks ago, and that in urging all growers and shippers to stop shipping tens for another week, further benefits will accrue. The two groups will meet at Seminole High School next Friday night at 8:00 o'clock to observe the effects of another week's co-operation of this type, and to plan for the coming week.

More Vessels Are On Way And Everything Is Being Made Ready For Extensive Push

SHANGHAI, Feb. 11.—(Sunday)—(A.P.)—Fighting along the Woosung front, the Japanese landed troops and tanks, guns, and ammunition from seven transports which moved up the Whangpoo late Saturday night. Somewhere close to the China coast on the way from Japan more transports were bringing additional men and supplies for the big push planned as soon as men and materials are ready. Saturday's fighting was limited to intermittent artillery fire. Through most of the day Woosung was protected by a blinding smokescreen from Japanese aviators, who nevertheless covered their usual patrol.

Heavy guns thundered through Shanghai at 8:05 A. M. today, their roar putting an end to a night of unfamiliar quiet, and a few moments later a squad of six Japanese airplanes trained down clusters of bombs on the Chinese positions in the ruins of Chapel.

It was a foggy, misty morning. When the bombardment started visibility was so poor it was impossible to tell where the big guns were being fired. For a brief part of all Shanghai, even to the business district, was shaken by the heaviest cannonading of the entire engagement.

When the planes appeared it was somewhat clearer over Chapel. For an hour or so they could be seen circling over the area of devastation, searching out their objectives and, as they picked them up, dropping their loads of destruction and death.

About 9:30 A. M., the bombers wheeled to the north toward the Woosung forts. Clouds of fog and smoke hung over the Whangpoo River and into these clouds the planes disappeared, leaving Chapel, for a time at least, in quiet.

These Japanese airplanes had got in their work as the Chinese waited impatiently for any squadrons of planes coming up from Canton to assist new units of fighters that were being thrown into the line in preparation for the impending Japanese push on Woosung and Chapel.

Before the guns and air bombers got into action this morning there had been several hours of inactivity by both the Chinese and (Continued on Page Three)

New Smyrna Body Invites Sanford To Attend Races

More than 20 representative men and women of New Smyrna yesterday afternoon came to Sanford, met with Mayor T. L. Dumas and other city, county, and trade body heads in a brief social meeting at the City Hall, and extended an invitation to all residents of this county, that they attend a celebration to be staged in New Smyrna on Feb. 22, the feature of which will be a series of motorboat races for important trophies.

The invitation was extended by F. D. Britley, general chairman of the Washington's Birthday Regatta committee, and was accepted by Mayor Dumas who said that he would use his best efforts to relay it to all persons in the county. "Speaking as the head of this city, I can say that it is a distinct pleasure to our people to have such a representative organization and group of persons to take the trouble to come to Sanford and invite us to meet with them on Washington's Birthday," Mayor Dumas said, "and I want to assure you, particularly the many ladies who have accompanied you, that we shall attend this Regatta in as large numbers as possible."

The outstanding features of the day's events, according to Mr. Britley, will be the races for the massive Sir Thomas Lipton trophy, and the Premier Memorial trophy. Some of the most famous drivers in America will compete for these prizes considered the most valuable offered any outboard motorboat race in the nation. The Lipton trophy valued at \$25,000.

CARSON ISSUES STATEMENT AS TO DELEGATES

Urges State To Send Competent And Un-instructed Group

PORT PIERCE Feb. 12.—Likening an instructed convention delegation to a "rubber stamp" which might be sent by mail, James M. Carson of Miami, prominent Democratic state leader urged Florida to dispatch a competent and uninstructed delegation to the forthcoming convention at a talk here in connection with the Fort Pierce Victory fund rally recently.

Commenting that the theory of party conventions pre-supposes that each state will send its most representative Democrats to the campaign meeting, Mr. Carson suggested that Florida's position at the convention this year be taken by Governor Carlton, Senator Fletcher and Trammell, another man to be chosen from the ranks for his loyalty to the party.

Mr. Carson's address follows in part:

"I have observed with a good deal of disapproval the strong tendency in certain quarters to demand that Florida send to the national Democratic convention to be held in Chicago in June, an instructed delegation. I think we will be surrendering a great advantage if instead of sending out powerful Democratic leaders with power commensurate with their responsibility, we send merely rubber stamps with instructions to deliver in person the vote of Florida which could as easily be sent by mail.

"What is the point of calling upon patriotic Democrats to spend the necessary money for expenses when they are utterly helpless to gain for their state any recognition or advantage?

"The present situation is that only a few delegates have been chosen, but it is apparent that if Governor Roosevelt of New York is nominated at all, he will be nominated practically by acclamation. In that case Florida's 14 votes will not be particularly important to him, and we need expect no selfish advantage from having supported him. If he is not nominated at all, if he is not nominated in the convention, and the Florida delegation has been instructed for him, then the delegates will be in the humiliating position of having been sent as messenger boys to do a foolish and useless thing.

"In either case, whether Governor Roosevelt is nominated or not, Florida holds the very last primary in the union for the purpose of the selection of delegates, and long before our people go to the polls, the issue will have been practically decided one way or the other. The result will be that we have kept our people stirred up for months, all to no useful purpose.

"The whole theory of political conventions is that each state shall send its best and most representative Democrats to represent it, and that they shall have power and authority commensurate with the grave responsibility which we place upon them. We ought to send the very best men and women we have. If we do that we can trust them to go uninstructed. We ought not to send any but the best, whether instructed or not. It is a shocking indictment of some of those who represented us at the convention of 1928 that they came home and took the stump in support of the Republican candidate as against the man who was nominated by the very convention to which they had been sent as delegates.

"One other point with regard to the Florida delegation. Those of you who have followed national politics will agree with me when I say that those states have the greatest influence who by custom send their highest officers as delegates. This applies particularly to the states who send their United States senators and governors as delegates to the convention. Who does not know of the influence Arkansas has exercised with its delegations led by Robinson and Caraway? Who does not know of the Old Dominion, the state of Virginia, when its delegations are led in convention by Carter Glass, Claude Swanson, and Harry Byrd?

"I could multiply illustrations without end.

"The call for the Chicago convention recognizes the right of each state to send four men and four women with half a vote each. Delegate controlling four of the votes of the state at large, could be better for Florida

than to have the state Democratic executive committee when it meets in Jacksonville on the 19th, send Senator Fletcher and Senator Trammell and Governor Carlton, as three of the four men? The fourth one could be either Ed Lambright of Tampa, or John Cooper of Jacksonville, or Jim Hodges of Lake City, or Herbert Folkel of St. Augustine, or some loyal Democrat who has always worked with and for his party organization.

"We are engaged now in a great effort for the organization of the Florida Democratic women. As a result of their campaign in behalf of the Victory fund of the Democratic party, it ought not be impossible to find four women who could represent Florida fittingly at the Chicago convention.

"I am convinced that the state committee at its meeting in Jacksonville on the 19th ought itself to choose (as it can under the law) four men and four women as delegates at large with half a vote each, and four men and four women as alternates at large; that it ought then to provide for the selection in the primaries of the remaining two delegates at large and of two delegates from each of our four congressional districts making eight district delegates in all. There would then be four votes chosen by the state committee and 10 votes chosen by the people in the primary election. Then the committee ought to vote down any resolution intended to place our delegation in a position of having to support some candidate for the nomination, regardless of his chances.

"For the first time since the War Between the States, there seems to be a strong probability that some man from the old South, perhaps Harry Byrd of Virginia, probably John Garner of Texas, may be in position to receive the nomination. Do we in Florida propose to foreclose that opportunity against ourselves?

"Politics is both an art and a science. Through its study governments are organized, are led, and carried on. If we are interested in our government, it behooves us to study and practice politics in its highest sense. It is certainly good politics for Florida to send its best Democrats as delegates to the national convention, and to send them uninstructed."

Masonic Record From Beginning Shown In Sketch

(Continued from Page One)

intentionally been overlooked. "Probably some of the most interesting documents in Sanford today, particularly to Masons, are the accounts of the preliminary meetings held to form a Masonic Lodge in Mellowville.

"These documents state in part: The question of organizing and establishing a Masonic Lodge at Mellowville having been agitated for a long time, it was resolved to call a meeting for that purpose at D. C. Brookins' store, Dec. 7, 1871, when the following gentlemen were present: C. W. Jacobs, W. R. Brown, A. C. Martin, D. C. Brookins, E. R. Saws, D. C. Thomas, E. S. White, T. W. Blake, Samuel Prescott, James Spencely, W. N. Allen and W. A. Gilbert. C. W. Jacobs was appointed chairman, and W. N. Allen, secretary.

"The committee to draft resolutions were, D. C. Brookins, E. R. Saws and A. C. Martin. (Mr. Martin was the father of Mrs. E. A. Douglas and Mrs. George Fox). Another committee was appointed to estimate the probable cost of a suitable building for a Masonic Hall. The chair appointed W. R. Brown, D. C. Brookins, A. C. Martin, T. W. Blake and James Spencely.

"The next meeting was held Dec. 14, 1871, and judging by the length of the minutes, was a very important meeting. The resolutions and Building Committee reported.

"The Building Committee reported and stated: 'We find after careful investigation that it will require a building 30 by 50 feet, two stories high, well finished, with doors, sash and blinds; to be painted and thoroughly lathed and plastered, and that the same cannot be built at less than \$2500.'

"Reference was also made to the only other lodge at that time in Orange County — Orange Lodge No. 86 — stating that it was not the intention of the organizers of this meeting to do anything to contravene the interests of the fraternity, but to establish a Lodge in or near Mellowville for the convenience of the brethren living in this vicinity, and to the vast number of northern brethren, who reside here in the winter time.

"One of the resolutions stated, 'That we shall know no such word as "cast" in our project, and that

'Perseverance' shall be the order of the day.'

"It was also decided at this meeting that the name and number of the Lodge would be Mellowville Lodge No. 82. Dr. A. C. Caldwell, father of Mrs. J. N. Whitner, was appointed treasurer.

"After all the necessary preliminary work and correspondence with the Grand Lodge of Masons was finished, a warrant was granted February 15, 1872. The signatures to this warrant for the Grand Lodge were, Samuel Pasco, Grand Master; William B. Taylor, Deputy Grand Master; Charles F. Hiler, Senior Grand Warden; Henry W. Long, Junior Grand Warden and DeWitt C. Dawkins, Grand Secretary.

"The warrant was granted to Mellowville Lodge in the names of D. C. Brookins, Worshipful Master; C. W. Jacobs, Senior Warden; H. N. Allen, Junior Warden. "It is of interest to note that the present Grand Master, Samuel Pasco, is the son of the Grand Master who granted the warrant to Mellowville Lodge in 1872.

"The first regular communication of the new lodge was held March 15, 1872, with the following officers in charge: D. C. Brookins, W. M.; C. W. Jacobs, S. W.; H. N. Allen, J. W.; A. C. Caldwell, Treasurer; T. P. Kelly, Secretary; W. A. Gilbert, Senior Deacon and George W. Wyly, Junior Deacon.

"According to Brother Alex Vaughan, who was made a Mason in the old Mellowville Lodge, and who is today the oldest living member of Sanford Lodge, the meetings were held in a two-story frame building located in Mellowville, near the edge of Lake Monroe.

"While Mellowville in those days was the center of a large and thriving orange industry, there evidently was no gas nor electric lights, for in the minutes of several of the meetings, reference was made to oil lamps; also, 'That the regular communications of this Lodge will be held on Friday, on or before the full of the moon.'

"On July 2, 1880, a dispensation was received from the Grand Lodge, signed by W. A. McLean, Grand Master, and DeWitt C. Dawkins, Grand Secretary, changing the location of the Lodge from Mellowville to Sanford, in Orange County, State of Florida; but evidently, from the reading of the minutes, the name was not changed from Mellowville Lodge to Sanford Lodge, until Mar. 5,

1882. "The first meetings in Sanford were held in the old Bishop Block. The records show receipts paid to Dr. J. N. Bishop.

"The next move was to the Way Building, a two-story frame building, located at the northeast corner of First Street and Park Avenue.

"The Sanford Journal, probably the first newspaper printed in Sanford, occupied one of the lower floors, and the records also show bills from the Journal for printing, and in the very early records of Mellowville Lodge, reference was also made to a South Florida Journal.

"The minutes indicate that D. L. Way was secretary from 1870 to 1884, and his records of the meetings are perfect. In 1884 Brother Way was elected treasurer.

"The Welborn Block, located at the southeast corner of Park and Commercial, was the next home of the Lodge. From the Welborn Block to the T. J. Miller Building, Second and Magnolia, and from the Miller Building to the present Masonic Temple, located on North Park Avenue.

"According to the inscriptions on the stone marker at the entrance of the Masonic Temple the following Masons were responsible for the erection of the Temple:

"Building Committee: A. P. Connelly, John Musson, A. J. Loosing, W. C. Hill and W. M. Haynes. "Finance Committee: John Melch, James Moughton, Sandy Anderson, John D. Jinkins, D. S. Babbitt.

Elton J. Moughton, Architect. Charles H. Johnson, Contractor. S. T. Hunt, Superintendent.

"On November 25, 1924, the corner stone was laid. This ceremony was performed by Past Grand Master Silas B. Wright, assisted by the following officers of Sanford Lodge: E. B. Randall, W. M.; R. W. Chapman, S. W.; John Gove, J. W.; F. B. Adams, Secretary; James Moughton, Marshall; L. R. Phillips, Chaplain; G. W. Huff, S. D.; M. Y. Blodson, J. D.; W. A. Routh, S. S.; E. A. Brotherton, J. S. It was estimated that there were more than 100 Masons and about 500 visitors present.

"On May 5, 1925, the new Temple was opened with R. B. Chapman, Worshipful Master.

"The Master Mason's Degree was conferred on John Musson,

Jr., by Past Master James Moughton before an assembly of 225 Master Masons. Inspiring talks were made by several Masons and an added feature was the presentation of Past Masters Jewett to M. W. Lovell and J. E. Terwilliger.

"While this little Temple is somewhat plain on the outside, it is undoubtedly one of the best equipped small Masonic Lodges in the world and that is taking in a whole lot of territory. In the corner of Mellowville and Sanford Lodges there have been 44 Past Masters, several of whom have served more than one year, and are as follows: D. C. Brookins, C. W. Jacobs, W. A. Gilbert, A. J. French, A. C. Martin, E. S. White, H. C. Jones, J. J. Harris, E. B. Van Daman, King Wyly, E. B. Lord, F. H. Caldwell, W. A. Miller, E. F. Barnes, H. E. Musson, W. J. Buchan, J. E. Terwilliger, I. R. Phillips, W. S. Baldwin, Thos. E. King, M. W. Lovell, G. W. Spencer, O. L. Taylor, H. E. Tolar, F. L. Miller, C. J. Rumph, S. G. Kennedy, O. J. Miller, James Moughton, W. C. DeCoursey, John D. Jinkins, W. M. Haynes, W. T. Wheelan, D. S. Babbitt, E. B. Randall, Jr., E. B. Chapman, John D. Gove, G. W. Huff, M. Y. Blodson, W. A. Routh, A. K. Rossetter, and James O. Huff.

"The present officers are: G. E. McKay, W. M.; F. D. Braden, S. W.; A. L. Betts, J. W.; Geo. W. Huff, Treas.; F. B. Adams, Secretary; John D. Gove, Chaplain; L. B. Hodgins, S. D.; H. C. Washburn, J. D.; Rodney Cappel, S. S.; J. C. Trawick, J. S.; D. S. E. Starr, Tyler.

"The old Mellowville Lodge started with seven members; the present Lodge has 300 members. "Among the old records are to be found names connected with the present generation — R. W. Lawton, father of Prof. Lawton, who acted as Secretary pro tem on several occasions, and also signed a petition on Aug. 29, 1884, for the establishment of a new lodge at Oviedo, to be named the Ionic Lodge. This petition was also signed by Andrew Aulin, father of the Aulin Brothers of Oviedo. J. Fred Turner, who is

living on W. First Street, also took an active interest in the Lodge and was Senior Warden in 1897. J. K. Mettinger, formerly of Sanford but now living in Jacksonville, was Junior Warden in 1897 and was also secretary for several years. C. R. Walder, J. C. Rossminger, T. J. Miller, F. P. Farber, L. R. Phillips, G. W. Spencer, have also been prominently connected with the Lodge work. D. H. C. Babson, another old time Mason, is living on W. First St. in Monroe.

"District Deputy Grand Master R. B. Chapman and Past Masters Geo. W. Huff and James O. Huff, compose the committee in charge of the program which will commemorate the sixtieth anniversary of the founding of Masonry in this city, and which will be held in the Masonic Temple on Tuesday night, Feb. 16th, at 7:30 P. M. This Committee has arranged to have short talks from some of the older Masons and that the Secretary of the Seminole County Chamber of Commerce, Karl Lehmann, will be the principal speaker.

"The committee will also have on exhibition in the Temple a large chart showing the year, title of the station, and the name of every officer connected with the Lodge since its inception on Feb. 15, 1872, until Feb. 15, 1932.

"A very cordial invitation is extended to every resident and visiting Master Mason in this district to attend this meeting. Refreshments will be served at the conclusion of the ceremonies."

GENERAL CROWDER BETTER

HAVANA, Feb. 12.—(A.P.)—General Enoch Crowder, who was taken seriously ill several days ago, was better today although he is not yet out of danger, his doctor said.

COLORADO MAN ROBBED

MIAMI, Feb. 12.—(A.P.)—Two handily kidnaped, slugged and robbed George Katz, Denver, Colo., here early yesterday as he drove into his garage.

Western Railways Are "Going After" Small Shipments

CHICAGO, Feb. 12.—(A.P.)—Western railroads are going court-in' to regain a lot they once scorned, the odd lot traffic they lost to the trucks.

On Mar. 15 they will offer small cargo shippers of the western trunk line territory bouquets of conciliation in the form of lower rates, less red tape of classifications, speedier service and more flexible methods.

Their plan is to bring back some of the "parcel" business that railroad men call "L. C. L." (Less than carload) which in recent years has been slipping to the highways at an alarming rate and adding to the financial worries of railroad executives.

Final preparations are now making to file new tariffs with the Interstate Commerce Commission. The territory embraces Wisconsin, Minnesota, both Dakotas, Kansas, Nebraska, Missouri, Colorado and the Chicago district in Illinois.

It will be an experiment scheduled to last only until Jan. 27, 1933, and the trunk lines committee, when it approved the plan at a recent meeting, prefaced its instructions to rail traffic men with a parenthetical statement that it was intended to meet "truck competition."

Under the plan, shippers who comply with certain weight requirements will be permitted to load any kind of freight, regardless of present classifications, the sole provision being that they load it themselves and have the consignee unload it at the destination.

Japanese College Students Protest Chinese Campaign

TOKYO, Feb. 12.—(A.P.)—The first public demonstration of any moment against Japan's course in Shanghai and Manchuria took place yesterday at the Imperial University.

Twenty-five students were arrested for participating in a protest meeting at which handbills, urging the people to "stop this imperialistic war," were distributed.

Eight hundred students, assembled in front of the main lecture hall of the university, heard speeches by four of their colleagues and then attempted to parade through the streets carrying red banners. The police dispersed them and arrested the leaders.

Posters pasted on the university buildings read: "Down with the students' patriotic association!" and "Down with empire day!"

While the police pressed ahead with their investigation to determine what was behind the demonstration Tuesday of Japanese students, leader of the opposition party, it was learned that Jijuro Rihidehara, former foreign minister and the sole survivor of Japanese famous triumvirate of Meiji statesmen, was seriously ill.

COURT RELEASES FACTOR

CHICAGO, Feb. 12.—(A.P.)—Federal Judge George A. Carpenter yesterday dismissed John Factor, the former Halsted Street barber wanted in England for alleged \$7,000,000 stock swindle, holding that the charge was not a felony under Illinois law and therefore not extraditable.

Hurley Shouts "You Can't Call Me Liar" As He Leaves Quiz

War Secretary Hurls Defy At Senators When They Attempt To Disparage Him

WASHINGTON, Feb. 13.—(A.P.)—Secretary Hurley today walked out of the Senate committee hearing on Philippine independence asserting he would not "remain to be called a liar." Hurley left the meeting after Senator King told the secretary he resented an untrue statement the War Department had made.

His voice shaking with emotion Hurley leaped to his feet and asserted with vigorous gestures "You can run your star chamber proceedings here and call me a liar and browbeat witnesses but you can't compel me to remain here and take it."

The incident climaxed two stormy sessions of the Senate insular committee. At the previous one, Hurley became engaged in an angry dispute with Democrats who advocate freeing the islands. Hurley expressing the administration's viewpoint that the islands should not be given their independence until their economic independence is assured.

He registered mounting anger under questioning by Senators Cutting and King who have measures before the Senate for independence.

"Just this minute you say I tried to answer before the question was asked," King said. "And now you say I lied."

"I repeat that as untrue as some of your statements have been," King replied. It was then that Hurley left the room.

Harry Papworth's Resolution On Fly Losses Is Adopted

Legislation which will benefit the growers of Florida who suffer losses by government action in the control of the Mediterranean fruit fly some months ago, was brought to a resolution prepared by H. M. Papworth, Sanford, presented to the Committee of Fifty, meeting at Mt. Dora recently, and adopted by that group.

The resolution was one of two adopted during the monthly meeting of the group which has a membership recruited from every citrus producing section in Florida. It reads as follows: "Resolved that this Committee of Fifty of the Florida Citrus Growers' Clearing House Association respectfully request the attention of our representatives in Washington for their early consideration on legislation pending, for the benefit of growers who suffered terrible losses by governmental action in control of the Mediterranean fruit fly."

Earlier in the meeting Mr. Papworth had reported that the next meeting of the group was to have been held in Clearwater, with Sanford and Cocoa scheduled as the following meeting places. Upon discussion, it was decided that the next meeting should be held in Lakeland, and that the Clearwater, Sanford, and Cocoa meetings be not held one month each.

After the group had heard Dr. P. Phillips, Orlando, plead that some concerted action be taken to relieve the tangential situation, which he termed as "practically a dead issue," the chairman of the meeting appointed a committee of three men, including Mr. Papworth, to study the situation, and present a program which would bring about a practical solution of the tangential marketing problem.

MURRAY OPENS DRIVE

THE MOBILE, Feb. 12.—(A.P.)—First state headquarters for a presidential campaign for Governor Murray of Oklahoma were opened here yesterday. Senator A. B. Stephens, who managed "Alfalfa Bill" gubernatorial campaign, officially opened the

FARMERS ARE HEARTENED BY NEWS ON RATE

Farm Club Learns Of Proposed Official Changes In Celery Data For 14 Years

Local celery growers and shippers who have been conducting a thorough investigation into the circumstances surrounding the recent rise in freight rates on celery from Florida were said to have been heartened over the contents of a letter explained to the Seminole Agriculture Club at its weekly meeting Thursday night.

The letter, from Paul J. Koenig, senior agricultural statistician, division of crop and livestock estimates of the United States Department of Agriculture at Washington, is taken by many growers to indicate that as soon as the department has revised its existing records on celery returns since 1918, it may be possible that the facts thus established can form the basis for a re-evaluation of the farmers' claims before the Interstate Commerce Commission.

The letter was written to W. C. Hutchinson, traffic manager for Chase and Co., in answer to one he had written Mr. Koenig. Mr. Hutchinson explained the farmers' situation in detail, told Mr. Koenig that the celery prices mentioned in "Crops and Markets," for December, 1921, a weekly statistical bulletin published by the Department, were too high, asked how this information is compiled and from what sources, and whether the average price mentioned in the bulletin did or did not include the freight rate.

In his letter, Mr. Koenig said: "I am glad to have your letter of Jan. 10. Although I am not able to give you complete information on the question you raise, I believe possibly you may be able to assist us in reviewing these historic price data on Florida celery."

"The issue of 'Crops and Markets' from which you secured your data contains information that has since been revised. I am enclosing a mimeographed table on celery production from 1918 to 1927, in which changes have been made in most of the Florida prices quoted in your letter. These changes were based upon a review of the reports received from the field which were found to have been analyzed on the basis of a different sized container than we use as standard in our reports. In other words, our prices were reported to us for half-size crates which, to conform to the standard accepted for our reports, had to be converted to a two-thirds crate basis."

"In making these corrections, (Continued on Page Two)

Address To Be Given On "Safe Motoring"

Mayor T. L. Dumas, chairman of the Jacksonville District Safety Committee today called the attention of the radio listeners of Sanford to an address on "Safe Motoring" which will be delivered by Milton Bacon, prominent Jacksonville automobile dealer, over WJAX tonight at 8:30 o'clock.

Mr. Bacon is on the air twice weekly broadcasting a feature known as "Florida Air Dispatch." He has suggested that he will speak on "Safe Motoring" tonight, and Mayor Dumas, who heads the safety committee in this community, urges all interested persons to listen in on this short address.

Hoover Charged With Probing Roosevelt

ALBANY, N. Y., Feb. 13.—(A.P.)—President Hoover was charged today by a New York Democratic leader with planning the Republican legislature investigation of the Democratic administration of Governor Franklin Roosevelt, possible opponent of Hoover in the presidential election. John Dunnigan, chief of the Democratic forces in the upper legislative House, declared the new slogan of the Republican party is "Hoover's Probe." Instead of "In November," Hoover's supporters in the Legislature, Dunnigan said, intended to "rip apart" in a ruthless manner every state department in an attempt to get something on Roosevelt.

"Big Dollars"

A Little Chat With The Secretary Of The Seminole County Chamber Of Commerce

Seminole County dollars are worth \$1.31 today as compared with their purchasing power one, two and three years ago.

There has not been a time in recent years when a dollar would buy as much food, clothing, shoes, amusements, fuel, rent, etc., as it will buy today. A dollar is worth more than it was at any other time in recent years and while wages and interest and dividends on investments have decreased, in reality, THEY ARE HIGHER than they were a year ago. One needs only to compare prices of groceries, meats, breads and other necessities of life in January 1932 with the same prices twelve months ago to realize the increased purchasing value of dollars.

The dollar spent for necessities in Seminole County continues to circulate within this county and helps everyone into whose hands it falls. The laborer gets his wage dollar, he spends it with the grocer, the grocer buys clothing, the clothier buys shoes, the shoe man purchases drugs, the druggist buys amusement or transportation and so the dollar keeps circulating. It eventually gets back into the hands of the man who pays wages and the day laborer gets his own dollar back and starts spending it again. This is true as long as the dollar circulates at home, but when it is spent elsewhere, it is removed from the circle of trade within this community and ceases to have value in developing this community. Keep your dollars working for you in and for your community.

KARL LEHMANN.

ROOSEVELT MEN TAKE CHALLENGE OF HIS ENEMIES

Nation-Wide Push Is Being Planned To Check Opposition

WASHINGTON, Feb. 13.—(A.P.)—The Democratic supporters of Franklin D. Roosevelt took up militantly yesterday the challenge of the anti-Roosevelt forces, while the Republican managers for Herbert Hoover and the insurgent friends of Hiram Johnson decided alike to stand aside from a primary contest in early-voting North Dakota.

These three developments, among the many produced by a day of far-flung political action, cast significant shadows into the presidential year 1932.

The rally here of the Roosevelt forces, led by Homer Cummings of Connecticut and 11 Democratic senators, signified the beginning of an aggressive nation-wide push against the wall of opposition which several party leaders are seeking to rear between the New York governor and the nomination.

The Hoover decision not to enter the North Dakota primary of Mar. 15 indicated a conviction among his managers that his renomination is assured without the disagreeable necessity of battling for disputed states—particularly the states where the party is largely in the hands of the insurgents.

Senator Johnson's refusal to go into North Dakota, on the other (Continued From Page Two)

Proclamation Issued By Mayor T.L. Dumas

With every community in the nation planning to assist in the observance of Parent-Teachers Day on Feb. 17, Mayor T. L. Dumas has today upon request of the several Parent-Teachers organizations in this county, issued a proclamation calling upon residents of this county to participate in any meeting, gathering, or other affairs which may be scheduled on that day.

In his proclamation Mayor Dumas says that:

"Inasmuch as the several Parent-Teachers Associations are striving to and accomplishing much toward child welfare, aiding much to health and good citizenship of our beloved city of Sanford, I respectfully urge our citizens to observe the day, and to co-operate with the organization to pay tribute to the exalted vision of the founders of this movement. Their unselfish efforts and lofty ideals, their sincerity of purpose should ever inspire us to forget self-interest, personal glory or achievement, and keep ever in mind the rights of every child under the flag, remembering that to train the child we must also train ourselves, and in the training of the child we place the hope of our nation."

CAPONE'S HAND IS SEEN BEHIND RUM SYNDICATE

Intricate Operations Of Gigantic Organization Are Shown

NEW ORLEANS, Feb. 13.—(A.P.)—An international rum ring with the bulky form of Al Capone in the background was revealed yesterday in the handing over of 101 indictments by a federal grand jury.

An army of federal agents after months of work have gathered evidence which they said shows that two years ago the Capone gang organized a gigantic liquor syndicate to bring Canadian liquor into the United States through the New Orleans area.

It began operations after the Canadian authorities had banned the shipment of liquor across the international boundary line. Thousands of gallons of liquor have been smuggled through the Gulf Coast marshes in the last two years. Under the plan, the agents said, Canadian distilleries shipped the liquor to Belize, British Honduras, where it was picked up by "mother ships" of the syndicate and re-shipped to the Gulf Coast. Small craft would meet the ships beyond the 12-mile limit and bring the liquor either into Mississippi streams or into Louisiana bayous.

Directors of the syndicate's operations made headquarters in New Orleans, and worked two gangs of boatmen, loaders, truckers and runners, one in Louisiana and one in Mississippi. The syndicate owned its own (Continued On Page Four)

Local Golf Team Defeats Rollins College Players

Sanford's four-man golfing team took the measure of a quartet of crack Rollins College golfers at the Sanford Country Club yesterday afternoon. Under the Nassau system of scoring, the Sanford team won by a four-point margin.

G. W. Spencer, No. 1 Sanford amateur, playing Fred Newton, No. 1 Rollins player, defeated him by two points. Spencer was two up on the first nine to gain a point, halved the second nine, and gained a point because of his victory on the first nine.

Jim Spencer defeated D. E. Ward by three points, winning the first nine one up; the second nine two up, and gaining an extra point because of his double victory.

Lawrence Lundquist defeated J. A. Love by two points, while Raymond Lundquist lost to C. R. Knutsen by three points, to give Sanford's team a total of four points and the entire match.

CHINESE CRISIS BROUGHT INTO ARMS PARLEY

Yen Tells Delegates Success Of Conference Depends Upon Result Of Conflict

GENEVA, Feb. 13.—(A.P.)—W. W. Yen, Chinese delegate to the world disarmament conference, told delegates today that the conference's success or failure depends upon the outcome of the conflict between Japan and China in the Far East. If the event of the League of Nations and the Kellogg Pact are permitted to crumble to pieces over the Sino-Japanese situation, the conference will fail. "The outcome of the present struggle to ward off external aggression in the most violent form must inevitably and largely determine the armament policy upon which the Chinese nation will pursue."

A report came out of the world disarmament conference yesterday that France and Great Britain had agreed on a meeting of the powers in June for the purpose of seeking a lasting solution to the reparations problem. Meantime, the conference bore fruit with the resumption of direct negotiations between French and Italian delegations to settle their naval differences.

The plan was agreed to, the Havas correspondent said, by Sir John Simon, British foreign secretary and Andre Tardieu, French minister of war and chairman of the French delegation to the conference. Other interested powers concurred in the decision, the correspondent reported.

An official communiqué, it was said, would be published today in Paris and London.

It was firmly believed that conferences now being held would lead to an extension of the London naval treaty of 1930 and provide a basis for further disarmament of all powers on the seas.

French Minister of War Andre Tardieu and Foreign Minister Dino Grandi of Italy already have met to discuss the subject and their conversations are being followed up by the French and Italian naval experts, Rene Massigli and Auguste Rosen.

The negotiations are being conducted on the basis of the abortive agreement among Italy, France and Great Britain on March 1, 1930. The principal points to be worked out is the replacement of ships becoming obsolete—a point which wrecked the 1930 treaty.

The French, who have a proportionately large number of ships that will soon become overaged, have maintained their right to re-

(Continued on Page Three)

Success Continues To Attend Drive Of Democratic Women

Continued success attends the drive now being staged in the county by members of the Army of Democratic Women who are endeavoring to collect \$500 within a week for the purpose of aiding the presidential campaign of 1932.

Mrs. W. T. Langley, colonel of the Army, today reported the appointment of several captains and lieutenants, many of whom had voluntarily offered their services in the fund-raising campaign.

Captains appointed are: Mrs. E. M. Carroll, Mrs. C. E. Chorpene, Mrs. L. C. Leonard, Mrs. Vance Douglas, Mrs. D. D. Caldwell, and Mrs. E. E. Bludworth.

Lieutenants appointed are: Mrs. O. P. Herndon, Mrs. Paul Biggers, Mrs. L. M. Telford, Miss Mildred Nix, Miss Minnie Beck, Mrs. C. E. McKee, Miss Sarah Maxwell, Mrs. J. E. Preston, Mrs. T. J. Murff, Mrs. Volle Williams, Mrs. J. H. Little, Mrs. J. P. McCall, Miss Georgia Hart, Mrs. Arthur Gatchel, Mrs. Clyde Byrd, Mrs. Linton Allen, Mrs. G. W. McRae, Mrs. A. J. Peterson, and Mrs. B. E. Jones.

It is the Army's aim to collect at least 10 cents from each of the 4500 registered Democratic voters in this county. Each worker has been given a list of names of persons who are expected to call upon, and during each solicitation, the worker will not only collect funds but attempt to awaken within the voter an interest in the coming campaign.

Japs Are Landing Men, Tanks, Guns From 7 Transports

STOCKS ZOOM UP IN BIGGEST JUMP IN PAST 2 YEARS

Net Gains Range From Two To 15 Points; Turnover Is Large

NEW YORK, Feb. 13.—(A.P.)—Stocks zoomed upward in one of the most spectacular rebounds in the past two years today. The abrupt upturn which greeted the proposal to increase the flexibility of the federal reserve system on Thursday was resumed at swifter pace after yesterday's holiday as buying orders swept into the market driving the bears into a little panic all of their own.

Net gains ranged from about two to 15 points. The turnover was around 2,000,000 shares, the largest for Saturday in recent months.

Union Pacific made the extreme upsurge of 18 and one-half points, closing 12 points up. American Telephone got up 15 and a half and closed 11 and a half. The ticker fell behind the trading. The Ford Motor announcement was held an important factor in the advance.

Longwood, Geneva Evening Classes Have Motorcade

It is the consensus of opinion of members of the Longwood and Geneva Citrus Evening Classes who yesterday formed a motorcade motoring to spend the day at the Lake Alfred Citrus Experiment Station, that the affair was a decided success, and that much practical good will result from the lessons learned at Lake Alfred.

Nine automobiles, containing approximately 40 persons from all sections of the county, met at Lynn School yesterday morning at 10:00 o'clock, motored to Haines City for a luncheon stop, and spent the afternoon in and around the Experiment Station as the guest of W. R. Jeffries, superintendent of the plant.

The day's activities will be discussed at the regular meeting of the Longwood Class Monday night and the Geneva Class Wednesday night, and all persons who are not already members of the classes, as well as all persons interested in new and modern methods of citrus culture, are urged to be present.

Among those visiting Lake Alfred yesterday were: Mr. and Mrs. J. J. Matheson, Mrs. J. H. Isbell, Mrs. Kate Isbell, Miss E. A. Dunbar, Mrs. F. J. Niemeyer, Mr. and Mrs. J. A. Blalock, E. P. Zimmerman, Mr. and Mrs. H. C. Beardslee, Mrs. Lewis Slack, Mr. and Mrs. I. L. Anderson, D. H. Frain, and Noble Hale, of Longwood; Jas. L. Browne, Forest City; Theo. M. Howell, Orlando; Mr. and Mrs. George Loper, Mr. and Mrs. S. W. Eldridge, Maitland; J. Greenman, Bayne City, Mich.; Ed. Sutton, Mrs. A. B. MacCulloch, Mrs. J. C. Hill, Jr., Geneva; Mr. and Mrs. J. W. Grohler, Lake Mary; E. Pitt, C. Phillips, Dr. B. S. Keeler, D. L. Thrasher, Sanford, and Alex. R. Johnson and C. R. Dawson, county vocational agriculture teachers.

Ban On Number "Tens" Extended For Week

With reports that practically 100 percent co-operation is being extended their efforts to stop the shipment of celery in 10 dozen sizes, the committee of farmers and shippers which has been meeting weekly for the past three weeks in this connection, last night voted to extend the ban on 10's for another week.

It was the consensus of opinion that the celery situation has been immeasurably strengthened by the action which was begun several weeks ago, and that in urging all growers and shippers to stop shipping tens for another week, further benefits will accrue.

The two groups will meet at Seminole High School next Friday night at 8:00 o'clock to observe the effects of another week's co-operation of this type, and to plan for the coming week.

More Vessels Are On Way And Everything Is Being Made Ready For Extensive Push

SHANGHAI, Feb. 14.—(Sunday)—(A.P.)—Fighting along the Wusung front, the Japanese landed troops and tanks, guns, and ammunition from seven transports which moved up the Whangpoo late Saturday night. Somewhere close to the China coast on the way from Japan more transports were bringing additional men and supplies for the big push planned as soon as men and materials are ready. Saturday's fighting was limited to intermittent artillery fire. Through most of the day Wusung was protected by a blinding snowstorm from Japanese aviators who nevertheless covered their usual patrol.

Heavy guns thundered through Shanghai at 8:05 A. M. today, their roar putting an end to a night of unfamiliar quiet, and a few moments later a squad of six Japanese airplanes rained down clusters of bombs on the Chinese positions in the ruins of Chapai.

It was a foggy, misty morning. When the bombardment started visibility was so poor it was impossible to tell where the big guns were being fired. For a brief period all Shanghai, even to the business district, was shaken by the heaviest cannonading of the entire engagement.

When the planes appeared it was somewhat clearer over Chapai. For an hour or so they could be seen circling over the area of devastation, searching out their objectives and, as they picked them up, dropping their loads of destruction and death.

About 9:30 A. M., the bombers wheeled to the north toward the Wusung forts. Clouds of fog and smoke hung over the Whangpoo River and into these clouds the planes disappeared, leaving Chapai, for a time at least, in quiet.

These Japanese airplanes had got in their work as the Chinese waited impatiently for four squadrons of planes coming up from Canton to assist new units of infantry that were being thrown into the line in preparation for the impending Japanese push on Wusung and Chapai.

Before the guns and air bombers got into action this morning there had been several hours of inactivity by both the Chinese and (Continued on Page Three)

New Smyrna Body Invites Sanford To Attend Races

More than 40 representative men and women of New Smyrna yesterday afternoon came to Sanford, met with Mayor T. L. Dumas and other city, county, and trade body heads in a brief social meeting at the City Hall, and extended an invitation to all residents of this county, that they attend a celebration to be staged in New Smyrna on Feb. 22, the feature of which will be a series of motorboat races for important trophies.

The invitation was extended by F. D. Brittle, general chairman of the Washington's Birthday Regatta committee, and was accepted by Mayor Dumas who said that he would use his best efforts to relay it to all persons in the county. "Speaking in the head of this city, I can say that it is a distinct pleasure to our people to have such a representative organization and group of persons to take the trouble to come to Sanford and invite us to meet with them in Washington's Birthday," Mayor Dumas said, "and I want to assure you, particularly the many ladies who have accompanied you, that we shall attend this Regatta in as large numbers as possible."

The outstanding features of the day's events, according to Brittle, will be the races for the massive Sir Thomas Lipton trophy, and the Premier Lipton trophy. Some of the most famous drivers in America will compete for these prizes and the most valuable offered any outboard motorboat race in the nation. The Lipton trophy valued at \$25,000.

REPLIES RETURN FROM ANALYSES OF HANDWRITING

Example Is Given Of Examination Made By Lorne A. Milne

Replies from Lorne A. Milne, handwriting analysis expert, are being received by a number of persons who have replied to his coupons appearing in The Herald. The following is one received yesterday:

Dear R. H. H.: Enclosed you will find a 300-word personal character analysis which I have compiled after making an examination of the handwriting you submitted, and which mentions a number of outstanding characteristics.

If read as follows: "Your handwriting discloses that you are of a loving, easy going disposition, fond of pleasure and comfort for yourself, but also considerate of others."

"You are not overly anxious for work and it is merely, in your case, as a means to an end. You readily admire all things beautiful, like to be surrounded by luxuries and enjoy the pleasures of the world. For these things you will work, but you are not much inclined to work for its own sake."

"You do not seem to be as aggressive as some, and you hate to be put out in any way. Your goal is to bring all the beauty, luxury and comfort you can into your life and to do this with the least possible effort."

"Your writing shows that you are calm and self-reliant—outwardly at least—rather slow and deliberate in speech, and dislike to be obliged to hurry in any way, or to do anything on a spur of the moment; you like to take time and thought in making your decisions. You have much self-restraint. You are not as ardent or demonstrative in your affections as many, but they run deep and you are faithful and devoted."

"You are practical rather than idealistic, and having arrived at a decision through judgment and reason, you are not readily persuaded to change your mind."

"Pride and self respect are your outstanding qualities. You are naturally modest in regard to your own accomplishments, in fact, you are more likely to underestimate yourself than to show any conceit, but you disapprove of anything which might lower your dignity."

"You are unselfishly delighted at any honor or praise given any one of your family as your sense of pride is for them rather than for yourself."

"You have a somewhat retiring disposition. Your sense of honor is so fine as to be almost painful at times, and you will never do anything to degrade it whatever the cost."

Very Truly Yours,
LORNE A. MILNE,
Graphologist.

Increased Taxes Are Sited For Varied Classes

(Continued from Page One)
Crisp said difficulties were being met in finding new sources of aid he hoped the committee could report the bill to the House by May 1.

Although the committee did not make the income tax rates and new brackets public, the fact that it quickly agreed on them tentatively led to the belief that the recommendations of the Treasury were closely followed except in the proposal to lower exemptions of individual income taxes.

This would have included 1,700,000 additional tax payers, who would have paid in only 12,000,000 and would have run counter to the policy of the Democratic leadership.

The Treasury recommended an increase from 12 to 12 1/2 percent on corporate income tax, and in addition that the committee would not increase it more than one percent.

Mexico Is Seen On U.S. Side In Case Of Trouble With Japs

(Continued from Page One)
The Treasury recommended an increase from 12 to 12 1/2 percent on corporate income tax, and in addition that the committee would not increase it more than one percent.

Japs Are Landing Men, Tanks, Guns From 7 Transports

(Continued from Page One)
Japanese—An interval of rest after a flurry of firing which started at midnight.

A visit to the Japanese positions along the southern and eastern borders of Chapel this morning revealed that the troops were ready for any emergency.

So far as they were concerned yesterday's truce of mercy was a thing of the past, and there was no further talk of armistice.

Close to the Chapel battlefield sporadic rifle fire and machine gun fire could be heard. From positions that had remained virtually unchanged since a few hours after the hostilities began, both Chinese and Japanese riflemen and machine gunners tried to pick off whatever member of the enemy forces raised his head above the sandbags.

Reinforced by upwards of 20,000 soldiers, the Japanese naval command served warning with a tattoo of shells on the Wosung forts and on the Chapel ruins that they were girding for a supreme onslaught on an enemy who has held them at bay for two weeks.

The tolling of midnight was echoed by a renewal of hostilities on both fronts. Each side went in to action at Chapel, virtually cleared of non-combatants as a result of a four-hour truce yesterday, with machine guns and trench mortars shooting rockets of fire into the night.

At the same time, Japanese warships and airplanes opened up on the village and forts of Wosung, 16 miles down the Wampoo River. Destroyers and cruisers concentrated their weapons on the emplacements and pilots dropped bombs near them as they swooped low over the town.

Meeting to discuss peace, American Minister Nelson T. Johnson and the British and French ministers sat in the dining room of the Catal Hotel, situated in the heart of the settlement, and witnessed a grim entertainment. To get a better view they went to the tower on the 20-story building and used their binoculars.

The ministers had arrived from Nanking to try their hand at peace negotiations on the request of Chinese merchants and they had their first taste of battle as they passed through the narrow streets of Wosung on the way to the hotel. Two shells fell in the village, fired their eyes and started fires, while four airplanes bombed the marshes without destruction.

As their vessels, the U. S. S. Simpson and the gunboat Bridge-water, went by, the Japanese craft ceased firing momentarily and dipped their colors but soon resumed operations. The British cruiser Warwick was asked to shift her berth, and the request was taken as an indication that a severe bombardment was impending if not already under way.

Each camp accused the other of offering provocation as the conflict flared up once more and each claimed that his cannonading had claimed considerable victims. The Japanese battered away with their artillery and the Chinese replied with a sharp cross-fire from machine guns.

As the Nipponese aircraft wheeled and circled along the entire 16-mile front from the mouth of the river to the city, they used some of the 500-pound projectiles which were expected today and they were scrupulously careful to avoid crossing the settlement boundary, within which they bombed a Chinese cotton mill yesterday with great danger to American marines.

GEO. B. LOCKWOOD DIES
MUNCIE, Ind., Feb. 13.—(A.P.)—George B. Lockwood, publisher of the Muncie Evening Press and nationally known writer, died at 7 o'clock yesterday. He had suffered a heart attack last Sunday. Mr. Lockwood was 59.

In an informed Latin-American quarter that an understanding has been reached for community of interest as parties to possible treaty with Japan.

This led to further inquiries at the state department, but the matter was shifted from one official to another without any positive answer other than that no notes have passed between the governments since the opening of the present troubles in Manchuria and Shanghai.

The question was first brought to notice in the form of a question by a leading Mexico City daily, Excelsior, saying that country would side with the United States in event of any conflict with Japan. Whether this represents the attitude of the Mexican government has not been ascertained officially, but note was taken here that the Mexican authorities have not yet called upon to deny reports of an agreement in effect.

COMING TO ORLANDO

Ignace Paderewski, famed Polish pianist who will give a recital at the Municipal Auditorium in Orlando on Feb. 16, as one of many he is conducting while on another concert tour of this country.

A seventeen year old boy walked more than 300 miles and spent nearly all the money he had in the world—\$1.30—to hear Paderewski when he last played in San Antonio.

The manager of the municipal auditorium, Jean Wildenstein, noticed a dust-stained coatless figure making its way down to one of the front rows just a short time before the concert was scheduled to start. Among the most expensively dressed persons in the auditorium, the figure seemed hardly to belong. He followed the boy and suggested that he put on his coat, but the boy somewhat embarrassed said he had none, that he had just arrived from Brownsville.

Edison's Birthday Observed Quietly By 2 Old Friends

WASHINGTON, Feb. 13. (A.P.)—The birthday of the late Thomas Alva Edison, who lit the electric lights of the world, was observed quietly Thursday at a meeting in the White House of two old friends of the inventor—Herbert Hoover and Harvey Firestone.

The tire manufacturer recalled past birthdays of Edison and how he had "looked forward each year to Feb. 11."

He told of Edison's last trip to Florida, of his illness and of the inventor's reaction to the newspaper and motion picture interviews that came to be a regular feature of his anniversary.

"I am sure he made more sacrifices, worked harder and accomplished more for the benefit of mankind than any other man of all time," Firestone said, "and it would be a great satisfaction to me if his birthday would always be nationally observed."

Firestone also recalled the suggestion of another friend—Henry Ford—that Edison's birthday be observed by everyone as a "do the best you can day." The manufacturer told the President he believed some such suggestion might aid in solving the present strained financial situation.

Firestone is en route to Florida where he will spend the rest of the winter with his family at Miami Beach.

GAS PRICE PROTESTED

MIAMI, Feb. 13.—(A.P.)—A resolution protesting the prevailing price of 22 cents a gallon for gasoline here was adopted by the Miami Civic Club yesterday. L. S. Crane was appointed chairman of a committee to seek a price reduction by the oil companies.

DR. JOS. CORWIN HOWELL

Specializing in the treatment of various venereal diseases, syphilis, gonorrhea, etc. Dr. Howell has made a study of these conditions and has a method of treatment that is guaranteed to cure them. He is located at 1000 N. Orange Ave., Orlando, Fla., for consulting and treatment. He is a member of the American Medical Association and the Florida Medical Association.

WANT AD RATES

Sanford Daily Herald
Terms: Cash in Advance

Telephone ads will be received for patrons and collector sent immediately for payment.

1 Time 10¢ a line
3 Times 25¢ a line
6 Times 45¢ a line
Time rates on request.

The reduced rates are for consecutive insertions. Five words of average length are counted as a line. No ad under 3 lines accepted. All advertising is restricted to proper classification.

TO ADVERTISERS
A Herald representative thoroughly familiar with rates, rules and classification will give you complete information. And if you wish they will assist you in wording your want ad to make it more effective.
