

Now Is The Season To Find A Home On The Loam And Begin A Begonia

By HAL BOYLE

NEW YORK, Apr. 3. — (AP) — The season of airy madness is upon us. It is the time to find a home on the loam and begin a Begonia. With bulb and seed the spring gardener goes forth to sow the good earth in his backyard, and he cometh in at eventide, racked by his own growing pains and covered with topsoil.

And to save my life this is one class of citizen I cannot understand. I have a dim appreciation of why people become birdwatchers, and my soul knows a sense of sympathy for horseplayers, butterfly collectors and that strange kind of fauna that gets up before dawn to prowl beaches in search of the better seashell.

Their passion for these strange pursuits I don't share, but at least I can sense what makes them what they are. But the spring gardener—there's an odd one beyond my class comprehension.

What primordial urge each spring sends him out to duel the landscape, convinced that this year he can conquer crabgrass, gladden the heart of a gladiolus and grow a five-pound strawberry? Why does he want to duel the landscape, convinced that this year he can conquer crabgrass, gladden the heart of a gladiolus and grow a five-pound strawberry?

All I can see he does is annoy the balance of nature. There he stalks, this man without a hoe, giving hormone shots to zealots that don't want them, unbuttoning innocent potato bugs with deadly spray guns and interfering with the home life of robins.

Yes sir, from the minute the spring gardener sticks his big green thumb into the backyard there's no rest for bird, bug, tree or plant until snow flies.

By Autumn he will total up his victories and find he has raised about \$25 worth of vegetables. To do this he will have spent about \$500 in fancy tools—he needs more equipment than a paratrooper.

Hints To Housewives

By Anna Mae Sikes

Overweight is the most frequent malnutrition problem among adults in this country, many health authorities believe. To put it plainly, the Bureau of Human Nutrition and Home Economics of the U. S. Department of Agriculture says: "Many adults eat too much."

How many calories a body needs depends on its size and activity. If body weight stays about right for height and build, it's a sign that calories in the diet match body needs. But when more food is eaten than the body can use, it is stored as fat.

Up to 35 years of age, it is safer to be plump than skinny. Beyond 35, excess fat becomes a greater health liability than extreme thinness. Its such as high blood pressure and heart and kidney ailments are more common among overweight people who are thin than thin, however, tend to tire readily and may be an easy prey to infections.

For those under 20 years of age, the nutrition scientists suggest reducing only under a physician's guidance. This is a safe rule also for young mothers or those with any heart or organic troubles.

Those over the age of 35 who need to reduce are counseled to take off weight slowly—no more than a pound or two a week.

To cut calories yet have other food essentials for good health: Eat three meals a day, but don't be tempted by between-meal snacks.

Avoid high-calorie foods like the fat on meat, cooking fat, salad oil, fried foods, gravies, rich sauces, nuts, pastries, cakes, cookies, rich desserts, candies, jellies and jams. Eat sparingly of bread or cereal.

Be generous about fruits and vegetables, but take them straight—vegetables without cream sauce or fat, fruits without sugar or cream.

Be generous about protein-rich foods. For good nutrition requires plenty of lean meat, milk, eggs and lean fish.

National Parks

Conservation groups opposing the construction of 20,000 acres of new roads and trails, and \$2.4 million for parkways. The largest physical improvement project of the year was the \$500,000 renovation of the Statue of Liberty national monument.

They hailed the decision of the Interior Department to eliminate the New View dam project in Monticello, N. Y., and the Columbia River Basin Development Program.

This information is printed from the metal plates by means of an addressograph to the individual forms which must be arranged in alphabetical order and placed in the leather precinct binders.

All equipment, she stated, was moved Saturday to the basement of the Court House and two people are working full time there to get the books made up in time for election.

RED FIGHTER PLANES
TAIPEI, Formosa, Apr. 4. — (AP) — Russian planes shot down two Chinese Nationalist fighters Sunday morning over Hangchow Bay, Nationalist air headquarters announced today.

Johnson Declares

(Continued From Page One) tary chiefs had agreed to hold back information from Britain. Johnson previously had said he refused to sign the statement. He said then it had been a tribute to Shinwell for his part in the Hague meeting.

The defense secretary said at the airport today his relations with Shinwell had been very pleasant.

"He took a great part in the meeting," Johnson said. "No one took a more helpful part. He contributed much to the unanimity of the program."

Johnson returned in a U. S. Air Force Constellation plane which brought him non-stop from the Azores in 11 hours. He said he stopped about two hours in the Azores, where he saw the

Canadian defense minister on his way from the Hague meeting to Ottawa.

With Johnson were Senator Tydings (D-Md), chairman of the Senate Armed Services committee, and Gen. Omar Bradley, chairman of the U. S. Joint Chiefs of Staff. Both attended the Hague meeting with Johnson.

The U. S. Bureau of Mines says regular-price gasoline averaged 81.9 octane rating in the summer of 1949, compared with 50.1 in 1948.

Betrayal Of U.S. Charged By Senator

Jenner Accuses Secretary Of State Of Leading People Into Red Booby Traps

WASHINGTON, Apr. 4—(AP)—Senator Jenner (R-Ind) today accused Secretary of State Acheson of a "pro-Communist betrayal of the American people" in the Allied dismantling of German industrial plants.

The Indiana Republican told the Senate that Acheson has led this country "into Communist booby traps all over the world." But he centered his attack on the State Department's policies in Germany.

Jenner said the dismantling process is paralyzing any hope of restoring stability to the democratic processes in Germany.

"They are destroying the last hope of winning the enormous potential of German workers to the cause of our competing enterprise system," he added.

Jenner demanded the Senate make public confidential testimony given to the Senate Appropriations Committee on Mar. 10 by John L. McCloy, American High Commissioner for Germany.

"I believe that the conference committee agreed informally today to drop a requirement that the FBI pass on the loyalty of employees of the proposed National Security Foundation."

Senator Thomas (D-Utah) told Jenner that the conferees favored instead a provision requiring employers and scholars to swear to the military oath of allegiance.

The opinion was unanimous, Thomas reported, against having the FBI in the position of having to pass judgment on proposed employees after investigating their backgrounds.

The Justice Department had contended that the conversion of the FBI to a security agency and that such a move is "inherent with peril, not only to the bureau itself, but also to the country."

As Thomas explained the proposed changes, all employees and persons receiving scholarships for work in fields where national security is involved would be required to sign the oath.

Atomic Workers Warned

ACTING CHAIRMAN OF THE ATOMIC ENERGY COMMISSION Sumner T. Pike tells reporters in Washington that an order has been sent out to all atomic workers and consultants telling them in effect "to keep your traps shut" concerning technical information on the hydrogen bomb. Seated at the table (background, l. to r.) are: AEC members Dr. Henry D. Smyth, Gordon E. Dean, Pike and Lewis L. Strauss. (International)

Bednasek's Fate Is Put In Hands Of 12 Man Jury

Prosecution In Surprise Move Asks For Death Penalty

IOWA CITY, Ia., Apr. 4—(AP)—A jury of four women and eight men at 11:02 A. M. (EST) today began its deliberations on the fate of Robert E. Bednasek who is accused of strangling a pretty University of Iowa coed.

The state, in a surprise move last night, asked the jury to send Bednasek to the gallows. Two members of the jury told the court prior to their selection as jurors that they opposed the death penalty.

The jurors received the case from District Judge James F. Gaffney at the conclusion of lengthy instructions by him.

The judge told the jurors they could return one of four verdicts: first degree murder—which carries a sentence of death by hanging or life in prison; second degree murder—which carries a sentence of 10 years to life in prison; manslaughter which carries a mandatory 3-year prison term; or acquittal.

The judge advised the jurors that if they find the 24-year-old psychology student guilty of murder in the first degree they must recommend whether he be sentenced to death or life in prison.

Judge Gaffney also told the jurors that if they do not find "beyond any reasonable doubt" that Bednasek is guilty of any of the charges they then must find him innocent.

In closing arguments, which ended late last night, Bednasek was described by prosecutors as a "cold-blooded killer," and as an "innocent boy" by defense attorneys.

County Attorney Jack White, at the end of his final plea, demanded the "maximum penalty" for Bednasek. This penalty in Iowa for first degree murder is death by hanging.

Bednasek was tried before the jury of eight men and four women on a charge of murder in the death last Dec. 11 of Margaret Anne (Doe-Gies) Jackson, whom he claimed was his campus sweetheart.

The 20-year-old Miss Jackson also was a psychology student.

Defense Attorney Clair Hamilton told the jury as he placed a hand on the shoulder of Bednasek: "I know Bob Bednasek is innocent. I have faith in this boy as though he were my own kid."

The defendant bowed his head and wiped his eyes. Several jurors rubbed their eyes.

White declared that the beautiful, blond coed, "didn't have a chance."

The county attorney, softly quoting the familiar child's prayer, "Now I lay me down to sleep," declared: "He didn't let her get her breath. Margaret Anne Jackson didn't even have a chance to pray. He killed her brutally, viciously, in a jealous rage."

Speakers who kept the court (Continued on Page 162)

County Commission Will Donate \$150 For 2 Pool Tables

The County Commission this morning voted to donate \$150 to the Celery Cate, local youth organization, in order to aid it in financing payments on two pool tables.

M. E. Baker, head of the Seminole High School Parent-Teachers Association, told the Commissioners that inside the \$150 because due on the tables was paid, the Celery Cate would be able to purchase the tables.

Civic groups and other local organizations have not made the donation, but they have in the past donated to the Celery Cate with the exception of the Seminole High School.

County Attorney Jack White, at the end of his final plea, demanded the "maximum penalty" for Bednasek. This penalty in Iowa for first degree murder is death by hanging.

World Citizen Says He Seeks Only Rest

NEW YORK, Apr. 4—(AP)—After a four-day detention on Ellis Island, "World Citizen" Gary Davis was back on his native soil today, pleading for rest and privacy.

The 28-year-old Air Force veteran, who spent the last two years in France, extending for world government, told newsmen on his release by immigration authorities yesterday.

"Let me slip into oblivion, I really do not have anything to say. I'm here as a private person. I'm not seeking publicity, in fact, I think there has been entirely too much publicity."

As he stepped ashore, Davis was met by his father, his mother, Meyer Davis, and his 18-year-old sister, Marjorie.

Young Davis gave up his U. S. citizenship in Paris two years ago to become what he called "World Citizen No. 1."

Mississippi Votes

JACKSON, Miss., Apr. 4—(AP)—Senators in Mississippi's state rights legislative session unanimously passed a house bill today blocking pro-Communist use of the Democratic Party label in the state.

The bill, which would prohibit the party from using the Democratic Party label in the state, was passed by a vote of 54 to 10.

The bill was introduced by Sen. Fred Jones. This bill gives our State Democrats the "no-Communist treatment."

By a special provision, however, supporters of President Truman in Mississippi are not barred from participation in the August Democratic primaries.

Teen Injured

PITTSBURGH, Apr. 4—(AP)—A diversion crowd ploughed through a crowd of demonstrators, breaking through the barrier of police officers, and carrying a 15-year-old boy to a hospital.

The car crashed through the glass front of a drugstore. Two of those hurt suffered amputation of their left legs and other major injuries. They were carried in front of the store.

People Ordered To Leave Areas Raided By Huks

Red Guerrillas Raid 2 More Towns In Reign Of Terror

MANILA, Apr. 4—(AP)—Defense Secretary Ruperto Kasonig today ordered civilians to keep out of "areas of operations" as the Army pressed its campaign against Communist-led Hukbalahaps.

The Huks last night added two new raids to their seven-day reign of terror. Several villages have been burned and at least 64 persons killed.

Constabulary headquarters said 500 Huks attacked and entered Caroson Province, Luzon, 120 miles from Manila.

A 13-year-old girl was wounded during a raid on Santa Rosa village in Nueva Ecija Province. Headquarters said a former constabularyman, Salvador Ponce, and his wife fled the town. The Huks fled with much loot.

In the southern Luzon city of Batangas, Gen. Feliciano Leviste appealed for food for 15,000 refugees who fled their homes near the junction of Capiz, Laguna and Batangas provinces.

An Air Force spokesman said an unidentified Filipino was shot at Clark Field, U. S. air base. The Philippines Herald said Huk-tribes tried to enter U. S. ammunition.

The Army ordered to subdue the Huks, apparently had failed to capture the guerrillas.

Senate President Mariano J. Cuenco commented critically: "There has not been much improvement in a deteriorating situation."

President Quirino has called the raids a plot to turn the Philippines over to Communists.

Meanwhile, in Bombay, India, government officials indicated today they had smashed a plot to assassinate Prime Minister Jawahar, Nehru with the arrest of 14 leaders of Hindu extremist organizations.

Some of the men arrested had been held in the investigation of the slaying in 1948 of Mahatma Gandhi, India's man of peace and close associate of Nehru.

Among those taken into custody under the government's public security measures were an official ration inspector and several others reported to have been collecting areas to carry out the plot.

Also jailed was V. B. Sankar, Hindu leader who was once arrested for charges of conspiracy to murder Gandhi. Police also nabbed editors of two newspapers in Poona charged with inflaming anti-Muslim passions.

Noted Reporter On Far East To Speak At Seminole Club

James R. Young, who for many years was without peer as a newspaperman in eastern Asia, where he served for most of the time as the chief of INS, will be the next speaker at the Seminole Dinner Club next Tuesday night at the Mayfair Inn, President Floyd Palmer announced today.

Mr. Young might equally be described as the lecturer favorite as he took on the platform during the last seven years, has been greatly admired and listened to by his colleagues as well as by hundreds of audiences from Maine to Oregon, Mr. Palmer said.

His work in East Asia caused him to be hailed as one of the outstanding news correspondents of that period and he became a familiar figure with the great and the near great in the nation's capital in those days and he is now regarded as one of the foremost newspaper men in the country on foreign lands.

Lions Club Donates \$201 For Eyeglasses

More than \$201 has been spent by the Lions Club in providing glasses for underprivileged children since July 30. W. O. Livingston, club treasurer, told the Lions today at the Yacht Club.

Henry Witte urged that Lions attend the organization's state convention in Panama City, May 21-22, and the Lions' International Convention in Chicago, July 26-27. A district zone meeting and supper will be held at the Yacht Club at 8:30 P. M. on Tuesday evening, Apr. 18, and representatives from nearby clubs are due to attend, he stated.

Clyde Ramsey was directed by King Lion Cliff Ables to investigate the cost of aiding the Celery Cate, local youth organization, in plans to gain its headquarters at the City Hall.

City Makes Plans To Aid Drainage In Colored Area

Plans for better drainage in Goldsboro and the adjacent county area were discussed last night at the meeting of the City Commission, Clifford McKibbin, city manager, declared this morning.

Mr. McKibbin was directed by the Commission to cooperate with the County Commission in determining the cost of an engineering study concerning the drainage of this area.

Much of the drainage from adjacent county land runs through the Goldsboro section of Sanford. It was pointed out, and present ditches and creeks carrying storm waters to Lake Monroe are inadequate.

In response to the request of the Sanle Harrison Chapter of the D. A. R. to build a library and museum in the Fourth Street Park City, Attorney Edwin Shiholzer expressed the opinion that this could not be legally approved due to the provisions made when the park was dedicated.

The Commission agreed to re-examine the opinion secured by John Gray of Rochester, N. Y., on lakefront land for apartment building purposes, provisions for trading to the City 15 lots in the Highland Park subdivision. Mr. Gray wanted the lots released so he could sell them, said Mr. McKibbin. Mr. Gray's request was contained in a letter from O. A. Whidden, realtor.

S. A. Allan, who had requested City assistance in financing the purchase of new buses for public transportation, was told that the City cannot enter into business associations with individuals.

The Board approved a plan presented by Fred Williams of the Redding subdivision for Negroes. This is located north of Thirteenth Street near Pennington Avenue.

CIO Invites

WASHINGTON, Apr. 4—(AP)—The CIO today asked the AFL and two big independent unions to join with it in creating a committee to cooperate on economic, legislative and political questions and to work for ultimate merger.

In addition to the AFL, the committee would be the International Shipbuilding Union and the United States Workers.

Defense Department Orders Study Made Of Arms Budget

Truman Disclaims Saucers

WASHINGTON, Apr. 4—(AP)—The Defense Department today ordered a study made of its arms budget.

Truman today disclaimed any knowledge of the existence of so-called "flying saucers."

President's Secretary Charles G. Ross and neither the President nor members of his staff knew of any such mysterious objects either as secret weapons or as any other object.

Ross said Brig. General Robert R. Lindsey, the President's air force aide, recalled that the Air Force set up a special project in December, 1947, to "investigate all rumors and reports as to flying saucers."

The project, Ross said, was carried on until last August when it was discontinued. There was nothing to substantiate reports of such objects.

The Air Force was in a fund program and the rumors were largely the result of the fact that the project was discontinued, Ross said.

The "Flying Saucer" reports were received yesterday when the Washington Post's investigation of the "Flying Saucers" by the United States Navy and World War II declared they exist and that they are an aircraft of unusual design developed in the United States, probably, by the Navy.

The Navy denied it. The Air Force previously issued a denial.

Asked about the report of a news conference, Ross said "people here know nothing about these mysterious flying objects."

Ross said he was not trying to deny himself as an authority on secret weapons.

"I'm not denying this because it is a secret weapon subject," he said. "If you think it likely that somebody here has information on such matter."

"In my time (1943-44) that there would be any secret weapon project underway without the President knowing," Ross was asked.

"I think it is entirely unlikely," the secretary said.

Harry Bridges Is Found Guilty Of Perjury In Communist Trial

SAN FRANCISCO, Apr. 4—(AP)—Harry Bridges was convicted today of perjury.

He and his two co-defendants were likewise convicted on all three counts in the federal grand jury indictment.

The co-defendants were E. R. Robertson and Henry Schmidt, both law officers of Bridges in the CIO Longshoremen's Union.

Bridges, Australian born, is president of the union.

Bridges was held for swearing falsely in his citizenship hearing in 1943 that he never was a Communist.

The other two were his witnesses at the naturalization hearing. They were indicted for conspiring to defraud the government in helping Bridges get U. S. citizenship.

The other two were his witnesses at the naturalization hearing. They were indicted for conspiring to defraud the government in helping Bridges get U. S. citizenship.

Federal Judge George R. Hays thanked the jury, you have really found the golden truth during the three months of the trial.

They had the case under trial, starting today. The trial started Nov. 11.

Bridges' wife was sitting next to the defendant today.

US Tells Marshall Plan Nations How To Rush Recovery

Plan Nations How To Rush Recovery

PARIS, Apr. 4—(AP)—The United States today gave the Marshall Plan nations new suggestions for speeding up their economic recovery with the help of U. S. dollars.

The U. S. aid program is a loan of the organization for European Economic Cooperation, and includes their own steps by abolishing their consociate groups and ordering their right member countries to meet every sixth month instead of four times a year.

The U. S. aid program is a loan of the organization for European Economic Cooperation, and includes their own steps by abolishing their consociate groups and ordering their right member countries to meet every sixth month instead of four times a year.

Hold-Up Men Grab For Cash But Are Nicked For \$18

Two hold-up men fled in flight from a filling station at Waupun last night after attempting to rob Mr. and Mrs. Sam D. Senkoff of their car, but were caught by a patrolman who had information on such matter.

"In my time (1943-44) that there would be any secret weapon project underway without the President knowing," Ross was asked.

"I think it is entirely unlikely," the secretary said.

Order Of Moose To Found Lodge Here

The local Order of Moose, national headquarters of which is at Moosehead, Ill., will institute a lodge in Sanford in the near future, John A. LaFrance, membership director, stated today.

The Moose order has 43 lodges in Florida, and 1,800 in the United States and Canada with a membership of approximately one million. It is a non-sectarian, fraternal, beneficial and social organization.

Mr. LaFrance invited those interested in joining the order to telephone 1450-B for further information, or to see John Davis at his home at 908 Catalina Drive.

Office Seeks To Determine If More Money Should Go To Navy, Air Force

WASHINGTON, Apr. 4—(AP)—Secretary of State Acheson said today Congress will be asked soon for more money for the arms and program, launched last year with a million dollars. Acheson mentioned this in a statement issued to commemorate the first anniversary of the signing of the 12-nation North Atlantic Defense Alliance. The secretary gave no indication of how much will be asked.

WASHINGTON, Apr. 4—(AP)—The Defense Department today ordered a study made of its arms budget.

Truman today disclaimed any knowledge of the existence of so-called "flying saucers."

President's Secretary Charles G. Ross and neither the President nor members of his staff knew of any such mysterious objects either as secret weapons or as any other object.

Order Of Moose To Found Lodge Here

The local Order of Moose, national headquarters of which is at Moosehead, Ill., will institute a lodge in Sanford in the near future, John A. LaFrance, membership director, stated today.

The Moose order has 43 lodges in Florida, and 1,800 in the United States and Canada with a membership of approximately one million. It is a non-sectarian, fraternal, beneficial and social organization.

Mr. LaFrance invited those interested in joining the order to telephone 1450-B for further information, or to see John Davis at his home at 908 Catalina Drive.

Office Seeks To Determine If More Money Should Go To Navy, Air Force

WASHINGTON, Apr. 4—(AP)—Secretary of State Acheson said today Congress will be asked soon for more money for the arms and program, launched last year with a million dollars. Acheson mentioned this in a statement issued to commemorate the first anniversary of the signing of the 12-nation North Atlantic Defense Alliance. The secretary gave no indication of how much will be asked.

WASHINGTON, Apr. 4—(AP)—The Defense Department today ordered a study made of its arms budget.

Truman today disclaimed any knowledge of the existence of so-called "flying saucers."

President's Secretary Charles G. Ross and neither the President nor members of his staff knew of any such mysterious objects either as secret weapons or as any other object.

Ross said Brig. General Robert R. Lindsey, the President's air force aide, recalled that the Air Force set up a special project in December, 1947, to "investigate all rumors and reports as to flying saucers."

The project, Ross said, was carried on until last August when it was discontinued. There was nothing to substantiate reports of such objects.

The Air Force was in a fund program and the rumors were largely the result of the fact that the project was discontinued, Ross said.

The "Flying Saucer" reports were received yesterday when the Washington Post's investigation of the "Flying Saucers" by the United States Navy and World War II declared they exist and that they are an aircraft of unusual design developed in the United States, probably, by the Navy.

The Navy denied it. The Air Force previously issued a denial.

Asked about the report of a news conference, Ross said "people here know nothing about these mysterious flying objects."

Ross said he was not trying to deny himself as an authority on secret weapons.

"I'm not denying this because it is a secret weapon subject," he said. "If you think it likely that somebody here has information on such matter."

"In my time (1943-44) that there would be any secret weapon project underway without the President knowing," Ross was asked.

"I think it is entirely unlikely," the secretary said.

TUESDAY, APRIL 4, 1934

If you want to make money in the newspaper business, buy your own orange grove...

An expansive article on the Florida Power & Light Co., which Fortune magazine calls "the fastest growing private company in Florida..."

City tax purchasers are declared illegal by Attorney General Richard Ervin who says what should have been fairly obvious to anyone who wanted to see the truth...

That the Negro vote is a factor which will have to be taken into increasing consideration in future Florida political wars is shown by the action of the Duval County Democratic Committee...

When one stops to consider that Senator Pepper would have lost the election in 1944 had it not been for the big vote he got in Dade county, where Miami is located...

Freedom of mankind, Pepper, we sincerely believe, will lead us to bondage under ultimate Communist control...

It is not a political campaign in which we engage. It is a patriotic campaign. As between Smathers and Pepper, we see an abyss as wide, as deep, as unbridgeable as the very universe itself...

Stuck In The Mud

Report from the Far East says that the new Communist rulers of China have stopped the continuous dredging operations which have kept ship channels open between Shanghai and the sea...

Probably this is what the Communists intend. They want to cut China off from the West, and they seem to be in a position to do so...

Many observers think they know the answer. All will watch with interest.

Police Cars

Safety experts declare that most highway accidents are the result of excessive speed. Signs indicating speed limits are ignored to a great degree...

The state of Michigan is conducting an experiment involving the use of unmarked police cars. The state police commissioner reports that eight times as many arrests have been made in this way as with plainly identified cars...

Unfortunately the critics of such tactics against speeders have a sound argument in the fact that many areas have arbitrary speed limits which are long out of date, and no longer applicable to present-day highways, vehicles and variable driving conditions...

How Lucky Are You?

How luck and merit interlink Dullard never stops to think. These lines by Goethe, if borne in mind at moments of spiritual danger, may save what is even more precious than our life—our sense of values...

Luck and Merit are indissolubly interlinked. Their interaction is essential to our navigation of life as the interaction of wind upon sail and water upon rudder are to the steering of a ship...

But there is one gain of comfort in this mysterious way which seems to attract us in the magnetic north attracts the compass needle. The longer our voyage lasts, the more often we have the opportunity to notice that the skilled hand is, seven times out of ten, the lucky hand; and that, although it may be an ideal superstition to whistle for a wind, it is plain common sense to work for one.

"Pink Pepper"

The title of this editorial is not of our manufacture. We happened to be reading some back numbers of the Saturday Evening Post...

"Be soft with Russia, he argues, and thus avoid war." That reference is to what Pepper said at that time. The article continues that...

"The Communist press whoops it up for Pepper because he has been taking Russia's side in international disputes." It states that Pepper said, speaking of the United Nations...

Freedom of mankind, Pepper, we sincerely believe, will lead us to bondage under ultimate Communist control. Smathers hits out against Northern agitators and Reds...

THE NATION TODAY

By JAMES MARLOW

WASHINGTON, Apr. 4.—(AP)—Can Congress force a President to give its confidential information the wishes kept secret?

Every time in the past when the President turned it down, Congress has let the matter drop. If any Congress had carried its fight to the Supreme Court, there might have been a final answer...

Indeed for more than two winters we have mingled with the people, meeting all from a visit in the Mayor's Office, and many places, our various churches, some schools, the City hospital, and even the County Jail...

I have enjoyed and admired your editorials, covering the whole catalog of human relationships, city and world news, and the great white Baptist Church, with 1250 members, and our good friend Dr. Brooks, the Pastor, has given the Colored Allen A. M. E. Church, Rev. A. C. Chandler, pastor \$50, on that "good will"...

At last, Senator Tydings, Maryland Democrat and chairman of the subcommittee, asked President Truman to let his subcommittee see the secret files of the accused people.

Truman wrote Tydings a long letter which, in effect, said "No," although nowhere in his letter did the President flatly say "No." He reasons for refusing were those given by other Presidents when they refused similar congressional requests...

At once Tydings issued a subpoena—a formal demand—for the Secretary of State, Dean Acheson, the head of the civil service commission, Harry Mitchell, and the Attorney General J. Howard McGrath to turn the files over to the subcommittee.

When one stops to consider that Senator Pepper would have lost the election in 1944 had it not been for the big vote he got in Dade county, where Miami is located...

Social Calendar

TUESDAY
The Daughters of Wesley Sunday School class of the First Methodist Church will hold its regular business and social meeting at McKinley Hall at 7:30 P.M. with Mrs. E. H. Laney's group as hostesses.

The W.C.C.S. of the Ebenezer Methodist Church will meet at 7:30 P.M. with Mrs. Rosa Steward on South Sanford Avenue.

The youth revival under the direction of the Baptist Student Union of Stetson University will continue at 8:00 P.M. at the First Baptist Church.

A pack meeting of the Cub Scouts, Pack 34 will be held at 7:30 P.M. at McKinley Hall.

WEDNESDAY
The Youth Revival will continue at the First Baptist Church at 8:00 P.M. The revival is being conducted by the Baptist Student Union of Stetson University.

The Sanford Women's Club will hold its general business luncheon at 12:30 P.M. with Mrs. Ben Wade as chairman of the luncheon. For reservations members are asked to contact Mrs. Wade, telephone 556-2. Mrs. Hamilton Blakes will conduct a Pan-American program.

THURSDAY
The Youth Revival will continue at the First Baptist Church at 8:00 P.M. The revival is being conducted by the Baptist Student Union of Stetson University.

The West Side P.T.A. will meet at 3:00 P.M. to be preceded with a social meeting at 2:30 P.M.

The South Side Parent-Teacher Association will have its regular meeting at 2:00 P.M. A short program to be held in Orlando.

Members of the church who will take part in the service are Mrs. J. A. Blaine, Mrs. William Cortright, Mrs. E. M. Galloway, Mrs. C. E. Glenn, Mrs. Lee Hunter, Mrs. Eliza Hutchison, Miss Maude Wilson, Mrs. Charles Wilke and Mrs. Frank Woodruff III, soprano.

Also include Mrs. Harris Folk, Mrs. A. C. Fort, Mrs. Roy Mann, Mrs. Rudy Sloan and Mrs. Leon Walker.

Male voices are those of J. A. Blaine, Claude Howard, Clifford McKibbin, Charles Morrison, Robert Brown, Stanley Brunier, W. M. Hoag and George Touhy.

A request has been made of those who plan to attend by 8:00 o'clock that they and others may enjoy the full service without interruption of late arrivals.

Male voices are those of J. A. Blaine, Claude Howard, Clifford McKibbin, Charles Morrison, Robert Brown, Stanley Brunier, W. M. Hoag and George Touhy.

Presbyterians To Have Easter Program

Response to last week's announcement that the church choir of the First Presbyterian Church will again present an all music program at 7:30 o'clock on Easter night was very enthusiastic, according to Rev. A. G. McInnis.

The season lends itself to rejoicing, said the minister, and this emotion can best be expressed in music. The 22 voices of the choir will sing seven anthems during the one hour period of praise, and Mrs. George Touhy will play three organ numbers as the "preparation for worship."

This unique service will include all the features of the customary order of worship of the church, but each will be presented in music rather than by the spoken word.

Members of the choir who will take part in the service are Mrs. J. A. Blaine, Mrs. William Cortright, Mrs. E. M. Galloway, Mrs. C. E. Glenn, Mrs. Lee Hunter, Mrs. Eliza Hutchison, Miss Maude Wilson, Mrs. Charles Wilke and Mrs. Frank Woodruff III, soprano.

Also include Mrs. Harris Folk, Mrs. A. C. Fort, Mrs. Roy Mann, Mrs. Rudy Sloan and Mrs. Leon Walker.

Personals

Friends will regret to learn that Mrs. A. F. Ramsay is ill and confined to the Florida Sanitarium in Orlando.

Friends will be glad to learn that Mrs. Camilla Bruce is able to be back at work at the Chamber of Commerce after being confined to her home with influenza.

Mr. and Mrs. Harold Edgerton left last week for Yale, Mich., after spending some time with Mrs. Edgerton's parents, Mr. and Mrs. E. F. Lundquist.

Mrs. W. J. Thigpen has returned to Sanford after visiting for the past three months with her daughter and son-in-law, Mr. and Mrs. Hamilton Owen in Tallahassee.

Mr. and Mrs. J. R. Sullinger and Miss Mary Manning plan to leave on Thursday to return to their home in Tennessee after being called to Sanford because of the death of Mrs. Sullinger's sister, Miss Susie Hanford.

Mrs. H. H. Pattishall Hostess To Circle

Mrs. H. H. Pattishall was hostess for the regular meeting of Circle No. 4 of the First Methodist Church held yesterday at 3:00 P.M. The chairman, Mrs. R. U. Hutchison, opened the meeting with a prayer after which Mrs. Steimweyer presented with a bouquet of white gladioluses honoring her for receiving a life membership in a Jacksonville Methodist Church.

"Prayer and Faith" was the subject of a study conducted by Mrs. Gladys Herman based on the book "Women of the Scripture." At the conclusion of the meeting refreshments consisting of ice cream and cake were served.

Those attending were Mrs. F. H. Adams, Mrs. J. C. Davis, Mr. Herman, Mrs. J. B. Crawford, Mrs. E. W. Butler, Mrs. Leslie Went, Mrs. Ruth Lundquist, Mrs. E. L. Swift, Mrs. Roy Mills, Mrs. Hutchison, Mrs. Steimweyer and Mrs. Pattishall.

Next time you stuff potatoes try folding some tiny squares of yellow cheese into the potato mixture.

Rebeka Lodge Has Covered Dish Supper

Members of Seminole Rebekah Lodge No. 43, Oddfellows and their families enjoyed a covered dish supper on Thursday night at the I.O.O.F. Hall. The invocation was pronounced by Mr. Nelson and following the supper games of Canasta, Chinese checkers and shuffleboard were played. Group singing was also enjoyed.

Those attending were Mr. and Mrs. D. C. Howard, Mr. and Mrs. Bryan Squires, Mr. and Mrs. Spittler and son, Mr. and Mrs. Nelson, Mr. and Mrs. C. Hannum, Mrs. Joe Koke, Mrs. H. E. Cordell, Mrs. J. Robow, Mrs. D. J. Allen, Mrs. C. Proctor, Jr., Mrs. W. Jameson, Mrs. Mabel Brown, Mrs. Nancy Dobbin, Mrs. Morris, Mrs. H. L. Moore, Miss Yvonne Thurston, Miss Linda Keke and Donald Howard.

RADIO PROGRAM

Miss Lila Woodard, county home demonstration agent, will tell of home demonstration work in a talk over W.T.R.R. at 8:00 o'clock Wednesday night. Miss Elsie Farley, chairman of the Radio Committee of the Business and Professional Women's Club, announced today.

HAPPY BIRTHDAY
Jar H. Beck

Youngsters enjoy making their own candy. Make it the way they do. Melt a package of semi-sweet chocolate pieces over hot water and then stir in two cups of corn flake, some raisins and some chopped dried prunes. Drop the confection onto waxed paper with a teaspoon so as to make small rounds.

Easiest way to make soft bread cubes is to stack two or three slices of bread on a board and with a sharp knife, using a sawing motion, cut the sliced bread into strips of desired width. Cut again in opposite direction to form cubes of even size.

Queen Mary Receives Best Dressed Votes

By CYNTHIA LOWRY
AP Newsfeatures Writer

One of the most cheering bits of news in the past few months was the rising of an balleta, the Dowager Queen Mary received in the voting for the world's Ten Best Dressed Women.

Queen Mary was not among the final winners—her granddaughter, who had the honor of being voted the most beautiful woman in the world, but the fact that a number of people considered her to rank very high is heartening news to many of us who have debated just what makes a Best Dressed Woman.

England's proud, handsome dowager undoubtedly was amused by her inclusion. Now in her eighties, Queen Mary has been dressing in her own style since the days when she was princess of Wales and her mother-in-law, Queen Alexandra, more or less set the vogue.

Skirts have been short and long many times since Queen Mary decided that long dresses looked best on her. Hats have been bonnets, cloche, pill-box, silly, homely and handsome in turn since the good queen determined for all times what style of hat looked best on her. Through innumerable vagaries of fashion and style, Queen Mary has pursued her own eclecticism of dress. She has always looked like Queen Mary, never has bowed to fashion and always looked every inch a queen and always well-dressed.

So now fashion has come around to her. And the obeisance in her direction by the votes of fashion "experts" all over the world brings up anew the familiar complaint of clothes designers that American women seem to want to look like each other—not like individuals. Queen Mary is a prime example of a woman who never has cared what other people looked like. She knew what she liked best on herself and she stuck to it through thick and thin, youth and age. That takes conviction, even for a queen.

It also brings up the question of just what a Best Dressed Woman dresses like. A potential inclusion, Mrs. Harrison Williams, is a fashion maker, usually in the viewpoint of more styles, the possession of inspired hair jobs, fabulous jewels and an expensive wardrobe. Mrs. Williams is also

Queen Mary Receives Best Dressed Votes

very social, and one wonders if Mrs. Williams were not the possession of a widely acclaimed reputation for fashion awareness whether she would regularly get a spot on the coveted list.

As a matter of fact, a few women have a reputation of being stylish: Mrs. Williams, the Duchess of Windsor and Mrs. William Paley, for instance. It would be poor list without their names, just as a list of the Ten Best Looking Legs would be incomplete without the names of Betty Grable and Marlene Dietrich. The latter two ladies have a reputation for becoming gossamer and get votes even from people who have never glimpsed some of them.

I'll bet dollars that there are any number of unpublished women without huge bank accounts and many small jewels who are every bit as well dressed as the Ten Best Dressed Women. I'll also bet that every city of 50,000 or more population has a baker's dozen of ladies who could give both Miss Grable and Miss Dietrich a run on the formation of nother's esteem.

Looks to me like it's just a matter of publicity, folks. All the same, I enjoy thinking that the Queen probably wears this mantle a last year's hat with new feathers and a trim line of up-to-date costume suits. Attention to the ladies who regard their lives between mirrors and handbags.

Householder

Stetson University To Send Out Interns

DeLAND, Apr. 4. (Special) Sixty-four Stetson University interns will be teaching in the public schools of 24 Florida cities and towns for the eight-week period beginning Monday, Apr. 9, according to announcement by Professor Robert J. Longstreet, director of internships at the university.

Each will do his teaching under supervision of a directing teacher selected by the local principal. This is a required part of their training program.

The student teachers spent the opening week of the spring quarter at Stetson in conferences with Professor Longstreet in final preparation for their internship. He will visit each of the schools participating in the program during the eight-week period and will conduct a seminar for the interns when they return to the campus.

Student teachers, with their school subjects, are directing teachers in Seminole High School are J. G. Angel, sciences; James E. Pelham, mathematics under Mrs. Elizabeth Lynch; Dick Pumphrey, biology under R. H. Harris, and in Southdale Primary School, Mrs. Hazel Flint, first grade under Mrs. Wilma Morgan.

Associated Press Food Editor

WEEKDAY LUNCHEON
Ham and Sweet Potato Puff
Green Peas, Baked Beans, Bread and Butter, Baked Apples, Berries.

(Recipe for Stuffed Dish Follows)
HAM & SWEET POTATO PUFF
Ingredients: 1 cup diced cooked ham, 2 eggs, 2 tablespoons fat, (malted), 1 cup mashed sweet potatoes, 1/8 teaspoon pepper, 1 1/2 cups milk, 1/4 cup toasted bread crumbs, brown sugar.

Method: Mix ham, 1 egg, melted fat, 1/2 cup milk, 1/8 teaspoon pepper, and 1 cup of the milk together well. Turn mixture into greased baking dish. Beat remaining egg, add remaining 1/2 cup milk and 1/8 teaspoon pepper. Spread over ham mixture. Sprinkle lightly with brown sugar. Bake in moderate (350 F.) oven 30 minutes. Makes 4 to 6 servings.

Long Island Oyster Grower Has 700,000 Bushels Of Bivalves

By HAL ROYLM
NEW YORK — (AP) — Royal Toner has been throwing oysters in the sea for 40 years.

“It doesn't do it for a laugh—it's his living. And it has given him sympathy for people who raise certain plants.”

“Oyster plants must be the only things more trouble to grow than corn,” he said.

Toner, who operates a 6,000-acre Long Island Bivalve ranch, spoke from his office in the Long Island Bivalve Co. building.

“Oyster raising is something like dry land farming, except you can't see your crop until it's something like running an underground hotel, except the stay longer and are more costly.”

“You get them at birth and you have to switch them to different tanks three or four times,” said Toner.

“Each time you have to clean them up and plant them in clean water. And they don't start a profit until they're five or six years old and ready for market. All that time your money is tied up.”

“You have to take more care of them than you do with children. A man can let his kids go to school at Coney Island, for example, but he couldn't grow oysters there.”

“The bacterial count is too high,” Toner explained. “The state would allow oyster beds that close to the shore as long as they're in shallow water, raising them about 100 feet from shore.”

“The time every oyster rancher spends most in the summer spawning time. For a few days after spawning, until they settle and anchor themselves in the mud, they're in shallow bottom, the young oysters are free-swimming larvae. They look like tadpoles under a microscope.”

“I'm as nervous as an expectant father then,” said Toner. “Any storm or sudden cold snuff can wipe out our whole year's set—the cash money we'll be counting on the next year's sale.”

“A big storm even churns up mud and smother the old oysters. The 1938 hurricane was the worst.”

“I would prohibit the Federal Power Commission from fixing the price of gas delivered to pipelines of independent producers.”

“A telegram to the President would result in a \$500,000,000 a year increase in the price of gas. The President's chief beneficiary of the legislation would be 25 independent producers who they control most of the gas production.”

“They also charged that Senator Clegg (D-Okla.), wealthy gas and oil producer who sponsored the bill, had a personal financial interest.”

“The telegram, made public in Washington, was signed by the managers of New York, Chicago, Philadelphia, Detroit, Los Angeles, Cleveland, Pittsburgh, Baltimore, St. Louis, Milwaukee, Minneapolis, Kansas City, Cincinnati, Denver, Toledo, Birmingham, Atlanta and St. Paul. They said they would pay for millions of gas users in the nation.”

“The sponsors of the legislation were blamed by President Truman for the gas shortage.”

U. N. Protest

(Continued From Page One)
called again for the United Nations to send a naval and air observation team to China.

Meanwhile, in Manila a congressional committee sought to mediate the bitter Hukbalahap strife. In nine days, hit-run raids have cost at least 83 lives, several burned villages and driven thousands in fear from their homes.

Rep. Samuel F. Byrnes, Isabella Province Liberal, said the House Committee on Un-American Activities would seek a peace meeting with Luis Tarcus, Communist leader of the Huk.

President Quirino said several days ago he had received official reports that Tarcus had died of tuberculosis. But Rep. Arseno Lacson, Nationalist Party member, received a letter from the Huk from Manila, said today he had learned.

Tarcus expressed hope that the committee on Un-American Affairs would study the problem of maintaining order “with more intelligence.” Lacson said.

The army, ordered to suppress the Huk, expressed hope that the committee on Un-American Affairs would study the problem of maintaining order “with more intelligence.” Lacson said.

The Secretary of State also said the United States favors immediate steps to include Germany in a Western European organization.

The Secretary added that this country wishes Germany would join promptly the present Council of Europe.

Acheson disclosed that the 18 nations of the North Atlantic Council have agreed this council should meet in London about May 15. He said he plans to leave for London, by way of Paris, shortly before that date.

Some officials have expressed belief the question of what to do about Germany may be one of the most critical issues to come up in the London talks. This includes the difficulty of fitting Germany into a European union in conflict at some points with British and French policies.

The agency asserted that this was proved by a series of tests made by the Food and Drug Administration at the request of the Trade Commission.

“The results of these tests,” FTC stated, “showed that the nicotine content of both the tobacco and the smoke from the individual cigarettes involved in the tests varied greatly, both in actual weight of the cigarette, not only weight and percentage by volume among the six different brands but also among the individual cigarettes of the same brand.”

In other words, FTC said, because of many variable factors in the growing, blending and processing of cigarette tobacco, “it is impossible for a manufacturer to produce a large volume of cigarettes with a standard content of nicotine and throat irritants.”

As to Old Gold, FTC said: “Lorillard is forbidden to represent that its Old Gold brand, or the smoke from these cigarettes, contains less nicotine, or less tar and resin, or is less irritating to the throat than the cigarettes of the smoke thereof, or any of the other leading brands of cigarettes.”

FTC said regarding Camels: “The Reynolds firm is prohibited from claiming that its Camel brand or the smoke from the cigarettes, contains less nicotine than the cigarettes, or the smoke thereof, or any of the four other largest selling brands of cigarettes, or that Camels or the smoke thereof will never harm or irritate the throat.”

FTC also banned advertising claims by Camels that its cigarettes “offer beneficial or not injurious to a particular bodily system or some other part of the body.”

Contrary to these representations, FTC asserted: “The record clearly shows that Camels cigarettes are physiologically injurious when smoked to excess and where the smoker is diseased.”

Wheat To China

(Continued From Page One)
Manchuria to the famine areas. Acheson said wheat both are true.

In response to other countries for help from the China Communist authorities and no change in the American attitude of withholding diplomatic recognition from the Communists at this time.

Among the questions which have arisen, he said, are those of what attitude the U. S. government should take toward private organizations that want to help—whether it should oppose the idea, consent to it or actually help.

Another question was whether the government itself should consider action. In this connection he made his observation that it was difficult to see how the U. S. government as such could do anything that would be effective.

The Secretary of State also said the United States favors immediate steps to include Germany in a Western European organization.

The Secretary added that this country wishes Germany would join promptly the present Council of Europe.

Board Member

(Continued From Page One)
agent, is to be held.

Lattimore has called McCarthy's charges a lie.

By the time Lattimore takes the stand, the committee hopes to have from McCarthy papers he says he has to back up his charges against Lattimore. McCarthy has promised to go through his files and select material that he considers valuable.

The State Department Loyalty Board is made up of nine officials that 190 of these have been “positioned in the department is that of an assistant legal adviser on political affairs.”

Snow told the Senators that from 1947 to Mar. 1, 1950 the Department Loyalty Board has determined 246 loyalty cases. He added that 199 of these have been “post-audited” by the Loyalty Review Board headed by Richardson.

The “post-audit” is a check on what the department board did.

Snow said that in the 194 cases, two employees were found to be security risks. He said five resigned while charges were pending.

Snow did not say what happened to the two employees found to be security risks.

“I have served continuously as chairman of the board,” Snow said “and have participated as a member of the panel in 85 percent of the cases. I have sat at most of the hearings.”

“I have tried to give every case my most careful and judicial consideration; I am sure that other members of the board have done likewise.”

McCarthy has given the Senate committee the names of nine persons he says he considers bad security risks although they were passed by Snow's board. McCarthy called the Snow board “either incompetent or stupid.”

Some of the persons McCarthy has named have appeared before the committee and denied his charges of pro-Communist leanings.

Senator Lodge (R-Mass), a member of the investigating committee, said in a Senate speech Monday that none of McCarthy's charges had been proved.

Snow told the committee he was not free to discuss the cases of the nine individuals mentioned by McCarthy.

“It would not be appropriate for me,” Snow said, “to discuss the individual cases mentioned by Senator McCarthy, in view of the fact that the President has committed the entire list to the Loyalty Review Board for a re-view.”

President Truman last week ordered that the cases of all those accused by McCarthy be examined again by the Presidential Loyalty Review Board headed by Richardson.

Mr. Truman issued that order when refusing to give the Senate committee access to the State Department's files, or to confidential FBI records and the data of the loyalty review board.

Catholic Priest

(Continued From Page One)
from the trial, biggest mass prosecution of churchmen since the Communist-led government enacted a law last year setting up state control over all churches.

The Czech news agency quoted the prosecutor as charging that the Vatican established an “espionage center” to train priests to spy on the Soviet Union and other Communist countries.

The news agency quoted the prosecutor as saying “the clerical order and the monasteries form a devoted army of the Vatican.”

The official news agency said Rajevsky, Bilham and Mastilak had appealed but “the others announced they were accepting the sentences.”

Rajevsky, in Berlin a drive to department's files, or to confidential FBI records and the data of the loyalty review board.

Sanford Housing

(Continued From Page One)
families were found to have annual incomes of less than \$2,000.

The Board of Commissioners of the Authority will determine of some later date the maximum number of families that will be admitted as tenants to the project to be constructed by the Authority. However, it is believed that the maximum will be less than 83,000.

Areas surveyed included Georgetown, Goldboro, Gidderville, Midway and Lake Monroe, and units in other areas were also surveyed.

Much information, said Mr. Williams, was obtained concerning each dwelling surveyed, such as number of occupants, whether owner-occupied or tenant-occupied, number of persons dwelling in unit, sanitary and electrical facilities.

Noted also were the general condition of the dwelling, its heating equipment, monthly rent paid, number of rooms, age of persons living in unit, and annual family income of persons living in each unit.

Locations in the vicinity of all areas surveyed were marked on maps, with an average annual rainfall of 55.11 inches.

The two developments brought to a head the troubles boiling up in the young United States of Indonesia since it gained independence from the Dutch last December.

Sultan Hamid was charged with being the brains behind the revolt in West Java last January by Capt. R. P. P. (Turk) Westering.

There was no immediate evidence that Hamid was directly connected with the Makassar uprising, although the purpose behind the Celebes and West Java revolts were similar—the strong central power of the U. S. I. government.

The hard hitting Huk, clamped a tight censorship on its activities. Manila newspaper correspondents said Army combat teams were on the move throughout central Luzon. They also reported the army stringing barbed wire and installing machine guns near the Sierra Madre range from which the Huk swooped down on villages.

JAKARTA, U. S. I.—The young Indonesian central government, harassed by a new revolt in a member state, rushed Sultan Hamid II of West Borneo off to jail as the master-mind of a plot to overthrow the Jakarta regime.

The latest uprising occurred in Makassar, the Celebes' wealthy city of the state of East Indonesia, where rebellious state police captured the local federal garrison in a lightning coup.

The colorful 77-year-old Sultan Hamid, a cabinet member in the central government and president of the state of West Borneo, was arrested in Jakarta a few hours before the start of the revolt.

Navy Discredits Commentators Report Of A Jet Flying Saucer

WASHINGTON, Apr. 5 — (AP) — The Navy says, in comment on the latest flying saucer report: (1) It has not developed any pancake-shaped jet planes and (2) it is not experimenting with any saucer-shaped missile.

In fact, the department reported through a spokesman, the nearest thing to a flying saucer it ever developed has not flown since 1947.

The spokesman was commenting last night on an article in U. S. News and World report which said engineers have concluded that the oft-reported saucers are jet-powered planes of a new design developed by the Navy. The magazine said the saucers may have sprung from experiments by Charles H. Zimmerman for the National Advisory Committee for Aeronautics (NACA).

At Langley Air Force base in Virginia, Zimmerman said he worked on an experimental pancake-shaped model plane during the war — this was the one the Navy said flew last in 1947 — but he denied seeing it as a forerunner to the flying saucer. To conclude that it was, he said, was "obviously the wrong conclusion."

NACA officials said the model Zimmerman developed later became a Navy craft known as the XF5U, or "Flying Pancake." The Navy said a full scale experimental model never got off the ground.

Radio commentator Henry J. Taylor said last night that many "flying saucers" really are U. S. controlled jet fighter planes. On his ABC broadcast he referred to the XF5U. He called it a "Navy experimental fighter of incredible speed." It looks and is shaped like a pancake, Taylor said.

He said a "saucer" seen over Montgomery, Ala., on July 24, 1948, by two Eastern Airlines pilots, really was an experimental jet plane. In a broadcast from Dallas, Tex., last Monday, Taylor said he thinks there are other flying saucers controlled by the U. S. He said they are of several types "but nobody is inside of them."

He said one was found on the ground in Texas.

WEDNESDAY, APRIL 6, 1950

TODAY'S BIBLE VERSE: Lack of charity of mind is a certain evidence that we do not love our brother as ourselves...

Congratulations to Orville Touchton upon his election as president of the Rotary Club.

General Eisenhower says that Alaska is the weakest link in the nation's chain of defenses.

The State of Florida, hard pressed financially despite its \$40,000,000 a year sales tax, has just fallen heir to a \$29,306 estate which will be placed in the public school fund.

As if to prove the type of men who are worming their way into public office in this country, the Miami Herald quotes from Robert Lindner, of the Maryland State Department of Penal Correction...

You can't beat him, a friend of our warm, as he suggests reprisals after Pepper's re-election, the machine is for him, not only the federal machine, but the state machine, and with their money, patronage, and political favors, they will control any election they want to control.

Senator Pepper, boasting of being a 100 percent New Dealer, is carrying the torch for FDR. He says that Roosevelt's administration has been responsible for the new and will enable us to move forward to a better America and better world.

Stir In Connecticut

The breath of new life is stirring in Connecticut state government. For years few significant changes have been made in the state constitution. Now a new body, the Connecticut State Government Organization Commission, is recommending innovations...

Breath Sampling

"Let me have a sample of your breath, please!" Such orders from police officers may be heard soon if we are to believe Thomas N. Boate, an official of the New York City Association of Casualty and Surety Companies.

Some city traffic departments have experimented with breath samplers. The technique is to set the equipment up at some point, then stop every passing car and give the test to every driver whose breath includes the aroma of alcohol.

Some such device as the breath sampler should help to make the roads safer. One driver out of every five involved in traffic accidents is reported to be under the influence of liquor.

The Generous Huntingtons

Future generations may rise up and call the name of Huntington blessed. Archer M. Huntington, founder of New York City's Hispanic Museum, has turned over his 700-acre estate to Connecticut for a state park.

Book collecting must run in the veins of the family. A first cousin, Henry M. Huntington, who died in 1927, created the great Huntington library and museum in San Marino, California.

Such wisdom in selecting suitable material to collect, and such generosity in making it publicly available, are strong arguments for the continued encouragement of accumulations of private wealth.

Tabulation Has Revealing Figures

ST. AUGUSTINE RECORD

If anyone wonders why the cost of the Federal government is just about the most critical domestic issue we face, a tabulation recently printed by Reader's Digest will make the reason clear.

In the early days, Federal spending amounted to peanuts compared with modern standards. Washington and Adams each spent a little more than \$50,000,000.

There came the depression, President Roosevelt and the New Deal. During his first eight years in office Mr. Roosevelt's administration

cost some \$67,500,000,000. The grand total for all the Presidents through 1940 was \$179,020,000,000.

Reader's Digest leaves out the extraordinary expenditures of the World War II years—1941-46. It then lists President Truman's spending from the 1946 fiscal year to the end of September, 1948.

Here is a very revealing picture of the way the nation has gone. It is not the major cause. Pressure groups of every kind have grown infinitely more adept and powerful, and officeholders of both parties have fallen into line.

Separate But Together

Tampa Tribune

The complaint of the state CIO director that the Tribune, in a news item, attempted to "smear" CIO and the U. S. Army, is a case of "separate but together" working.

Mr. Covi says the CIO has 54 workers getting voters registered in this county news — and says, "We have made it known about it."

THE NATION TODAY

By JAMES MARLOW

WASHINGTON, Apr. 6. — (AP) — Congress doesn't seem likely to force a showdown with President Truman on his demands to see certain secret loyalty files of the government.

The demands were made by a Senate subcommittee which is investigating charges by Senator McCarthy, Wisconsin Republican, that there are Communists or pro-Communists in the State Department.

The proof against the people he has accused, McCarthy says, is in the loyalty files of the State Department, the FBI, and the Civil Service Commission.

The subcommittee asked President Truman for permission to see the files. He has declined. Why did he have to ask permission?

Under the U. S. Constitution the three branches of government — legislative, executive and judicial (the courts) — have powers separate from and independent of one another.

Having been turned down by the president, the subcommittee then took this step: It issued a subpoena — formal demand — upon the Secretary of State, Dean Acheson, the head of the Civil Service Commission, Harry Mitchell and the Attorney General, J. Howard McGrath, to turn over the secret files.

Their boss, the President, has now formally ordered them to ignore the subpoena.

What then could the committee do to force the issue and settle once for all this question: Can the Congress force the executive branch to let Congress have any secret papers it wishes to see?

The Senate's Sergeant-at-Arms would be sent to arrest the three men. The Senate then, because it has the power, could order the men kept in custody indefinitely until they could even sentence them to jail.

Couldn't the President pardon the three men immediately, since he has the power to pardon any one convicted in a federal court? He might not have that power. Authorities on the Constitution do not agree on what he could do in such a case.

But the President undoubtedly wouldn't let the situation go that far before he stepped in. Once the Sergeant-at-Arms arrested the three men, the President undoubtedly would appeal to the federal courts, to free them, before the Senate could sentence them or do anything else.

Then the whole problem would be thrown into a federal court. Under the Constitution, it would be fought all the way up to the U. S. Supreme Court for a final decision.

If the court decided against the President and he still refused to deliver the files and records from the executive branch, it would be a precedent of a kind never before set.

No Congress has ever tried to force a showdown with the executive branch on this question. Many congresses in the past have demanded files and records from the executive branch.

But, once they were turned down and 17 Presidents altogether have turned down such congressional demands, Congress let the matter drop.

This Congress is likely to do the same. Senator Connally (D-Tex.) said he doesn't believe the Senate Foreign Relations subcommittee, the committee which has the heads of the Senate would vote to cite the officials for contempt.

Anyway, a court fight might take a couple of years.

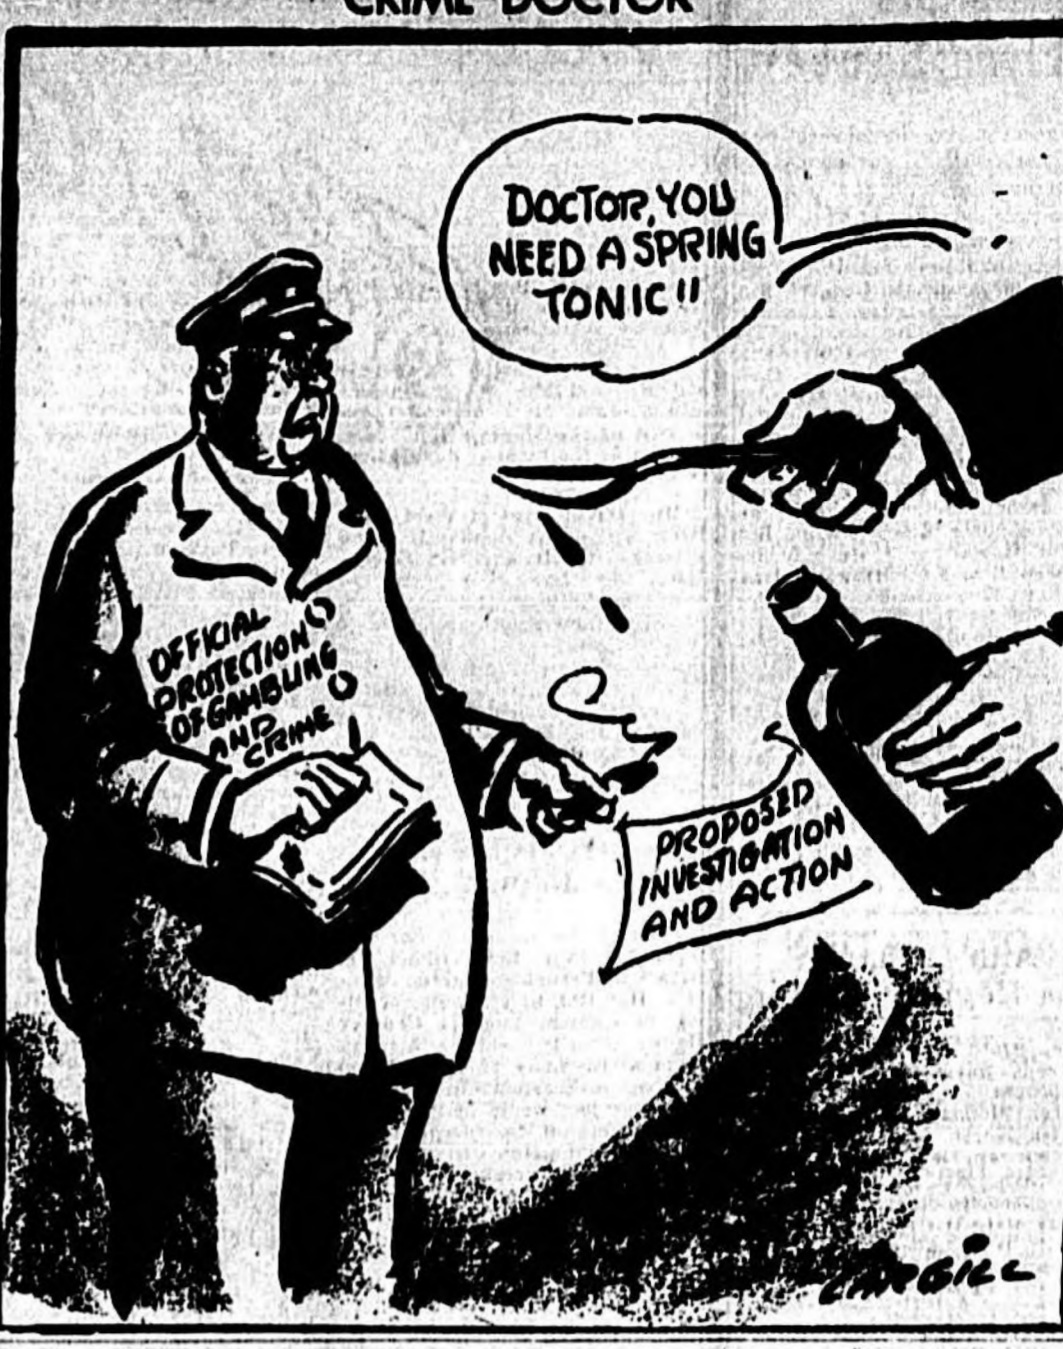

recurring Federal deficits in spite of these budgets.

A noteworthy development is the concern over our fiscal affairs which is being expressed by people who are not conservatives.

Speaking of taxes and deficits, Dorothy Thompson says "This appalling discrepancy between what the nation is asked to pay and what it receives is the highest in history."

A good deal more pressure is being put on the government to cut down on its expenditures.

CRIME DOCTOR

Too Late To Classify

By RUSSELL KAY

In the heat and fury of the battle between Pepper and Smathers for the United States Senate, a lot of voters are overlooking the fact that when they go to the polls in May they will have a number of other questions to decide.

Pepper and Smathers may get the headlines but don't lose sight of the fact that you will be called to select U. S. Congressmen, Senators and Representatives in your State Legislature, State Railroad and Public Utilities Commissioners and many minor officials.

A large percentage of the folks who registered to vote May 2, did so with but one thought in mind, the Pepper-Smathers race. A clear example of this came to my attention when a friend came to me with a dummy ballot and asked "why did all those other names on it and what did they mean?"

I explained that the "other" names were those of candidates running for other offices for Congress, the State Legislature, Railroad and Public Utilities Commission, etc.

"But they are just names," my friend said. "I don't know a single one of these people or the jobs they are seeking, so how can I vote intelligently?"

"You can't," I admitted, "unless you are willing to acquaint yourself with your government and its functions, and then consider carefully the qualifications of the various candidates who are offering for each post."

It happened that this friend had been doing a lot of squawking about the sales tax. I explained that it was the legislature that passed the law creating the sales tax and hinted that the next legislature would probably broaden it and perhaps add other forms of taxes as well.

"You are smart," I said, "you'll make it a point to learn all you can about the men who want you to send them to Tallahassee to represent you in the next legislature?"

Then he asked what the Railroad and Public Utilities Commission was and wanted to know how it affected them. He did not have the slightest idea how the Commission functioned.

I explained that its actions affected him plenty. I pointed out that this particular commission had supervised the construction of railroads, bus lines, telephones, taxis, operating industry, rail bridges and could authorize the discontinuance of service, set rates and specify the type of service that must be maintained.

He said he would make it a point to learn all he could about the men who want you to send them to Tallahassee to represent you in the next legislature?

Then he asked what the Railroad and Public Utilities Commission was and wanted to know how it affected them. He did not have the slightest idea how the Commission functioned.

I explained that its actions affected him plenty. I pointed out that this particular commission had supervised the construction of railroads, bus lines, telephones, taxis, operating industry, rail bridges and could authorize the discontinuance of service, set rates and specify the type of service that must be maintained.

Sanford Forum

The Sanford Herald, Sanford, Florida

We are residents of Arlington, Va., and very frequently come to Sanford to visit our daughter and son-in-law and little grandson. We were returning to the Inn from their home last Saturday night about 11:00 P.M. when at Fourth and Sanford Avenue we had the misfortune to run out of gas — an incident which occasionally happens in the best of regulated families.

All the stores were closed with the exception of the liquor dealers, and the sidewalks and streets were thronged with colored folks enjoying themselves. As I stepped out of the car and was trying to figure out where I could find a telephone, two very fine looking policemen stepped out of the shadows and immediately took charge of the situation.

Their courtesy and kindness in helping us to locate an available telephone to summon help is so much appreciated we should like you Sanford folks to know about it too.

Thanks again for grateful Virginia folks. Mr. and Mrs. J. Vernon Smith 310 South Glebe Road Arlington, Va.

Commission

(Continued From Page One) Soil Conservation Commission is now conducting a survey of the area extending west and north of the Smith Canal, and it is expected to await a report on water levels and drainage before taking action.

H. B. Pope was directed to work with John K. H. city administrator, and James H. in securing land for a new well park and recreation center for Negroes to replace the one recently closed at the east end of the Municipal Airport area.

A request by Edward Higgins for a \$3,500 donation to the Seminole County Chamber of Commerce for next year's budget was taken under advisement.

Miss Gleason Tells Plans For Wedding

Miss Etta Jane Gleason, whose marriage to Richard Keogh will be an event of Saturday, announced today plans for her wedding. The ceremony will be performed at 11:30 A. M. in the Lake Mary Community Church by Rev. James M. Thompson of St. Cloud and Rev. C. C. White, pastor of the Community Church.

She will be given in marriage by her father and will have as her maid of honor Miss Jacqueline Butler of Orlando. Bridesmaids will be Miss Margaret Johnson of Jacksonville, Miss Mari Jane Kolanks and Miss Janet Joiner of Orlando. Junior bridesmaid will be Mary Grace Hobbs and the niece of the bridegroom, Lynn Nursette Keogh, will serve as flower girl.

Mr. Keogh has chosen as best man his twin brother Ralph Keogh and usher will be Lee-Ann Till-Ott. Best man, Miles Keogh and Jack Keogh. Nuptial music will be furnished by Harry Westerman, and John Miller will render vocal selections.

Personals

Mr. and Mrs. Joe V. Jamieson of New Smyrna Beach were the weekend guests of Mr. and Mrs. John D. Abrahams.

Dr. and Mrs. Ralph F. Spencer and Mr. and Mrs. S. N. Harkins of Claverack, N. J., arrived today to visit at the Mayfair Inn. Mrs. Spencer is the former Mary Elizabeth Puleston.

Mrs. David Dyal of West Palm Beach arrived on Monday to spend a week with Mr. and Mrs. George Wells. Mr. Dyal is expected to arrive on Saturday and they will return to their home on Sunday.

Leon Pearl L. Robson, RN, NCURH, has arrived from Miami to spend Easter with her parents, Dr. and Mrs. J. N. Robson. Also visiting the Robsons is their daughter-in-law, Mrs. Claude Robson of Florida.

Annual Flower Show Is Held By Garden Club At Oviedo School

The Oviedo Garden Club held its Third Annual Flower Show in the school gymnasium last Friday. Besides the sections of artistic arrangements and horticulture, there was a plant mart, a refreshment booth and several floral displays from the following florists, Violet Dell, Orlando; A. K. Rossetter, Sanford; Peggy Jaeger, Orlando; and G. A. Bacon, Oviedo. These all received special awards. Among the features was a table arrangement by a special committee which also received an award of merit.

Judges of the artistic arrangements were Mrs. Frederick Trisner, Mrs. Henry Jewett Givens, Winter Park and Mrs. L. C. Nicholson, Orlando. Judges of horticulture were Mrs. A. E. Stockard, Mrs. R. A. Wheeler, Winter Park and Mrs. E. F. Benson, Orlando.

Mrs. C. R. Clonts was sweepstakes winner in both the horticulture and arrangement divisions. She also won the tri-color in the horticulture division. Mrs. George Means won the tri-color in the artistic arrangements. The top prize was won by Mrs. C. R. Clonts, Jr.

Those winning ribbons in the horticulture divisions were Shades and tints of one color, Mrs. R. F. Kink, first; Mrs. M. L. Gary, second; Mrs. T. L. Lingo, Jr., third; Mrs. W. R. Meek, honorable mention. White flowers in white containers, Mrs. G. C. Means, first; Mrs. M. L. Gary, second; Mrs. C. R. Clonts, third; Mrs. T. L. Daniel, honorable mention. Mixed flowers, Mrs. Milton Gore, first; Mrs. B. G. Smith, second; Mrs. E. L. Lingo, third; Mrs. T. L. Lingo, honorable mention. Foliage, Mrs. Max Leinhardt, first; Mrs. Merritt Staley, second. First Memorial, Mrs. Max Leinhardt, first; Succulents, Mrs. C. R. Clonts, first; Wild flowers, Mrs. B. G. Smith, first; Mrs. C. R. Clonts, second; Mrs. C. T. Niblack, third; Mrs. Max Leinhardt, honorable mention. Flowering material with fruits or vegetables, Mrs. M. L. Gary, first; Mrs. C. R. Clonts, second. Line arrangements, Mrs. C. R. Clonts, first; Mrs. W. R. Meek, second; Mrs. G. C. Means, third; Mrs. J. H. Staley, honorable mention. Nostrays, Mrs. C. R. Clonts, Jr., second.

Those winning ribbons in the horticultural section were Annuals, Mrs. Jack Adams, first; Mrs. C. M. Aric, second; Mrs. Jack Adams, third; Mrs. C. M. Aric, third. Perennials, Mrs. E. F. King, first; Mrs. Max Leinhardt, second; Mrs. Max Leinhardt, third. Roses, hybrid teas, Mrs. W. H. Gore, first; Mrs. R. F. King, second and third. Floribundas, Mrs. B. G. Smith, first. Other types, Mrs. Young Harris, first.

Orchids, Tuberos, Mrs. C. R. Clonts, first; Mrs. John Dula, first; Mrs. C. T. Niblack, second; Mrs. Steve Mikler, third. Class 1-B, Mrs. Max Leinhardt, second; Mrs. Merritt Staley, third; Mrs. M. Leinhardt, honorable mention.

Men's Exhibit, Class 2-A, Mrs. C. R. Clonts, first and purple ribbon; Class 2-B, Mr. G. W. Morgan, first; Class 3—Gladoliol, Mr. J. Mikler, Sr., first; Mr. Bowznak, second; Dalins, Mr. G. W. Morgan, first; Roses, Mr. Paul Mikler, second; Calendulas, Mr. J. Mikler, Sr., first; Petunias, Mr. J. Mikler, Sr., first; Mr. Hozman, second; Petunias, Mr. Hozman, first; Mrs. M. A. Dain, first and purple ribbon; Petunias, Mrs. Paul Mikler, first.

Arrangements, Mr. G. W. Morgan, first and second; Potted plants, flowering, Mrs. C. R. Clonts, first; Mrs. G. S. Moon, second; Mrs. W. R. Meek, second; Mrs. W. R. Meek, third; Mrs. H. G. Smith, fourth; Mrs. H. G. Smith, honorable mention. Crotons, Mrs. C. R. Clonts, first; Mrs. H. G. Smith, second; Mrs. M. L. Gary, second; Mrs. Oron Burnett, honorable mention. Ferns, Mrs. C. R. Clonts, first; Mrs. H. G. Smith, second; Mrs. W. R. Meek, first and purple ribbon; Mrs. M. L. Gary, second.

Practising, Mrs. C. R. Clonts, first; Mrs. H. G. Smith, second; Mrs. Max Leinhardt, third; Mrs. C. R. Clonts, Jr., first; Mrs. F. W. Tall, second. Chinese Evergreen family, Mrs. C. R. Clonts, first; Mrs. H. G. Smith, second; Mrs. Max Leinhardt, third; Mrs. C. R. Clonts, Jr., first; Mrs. F. W. Tall, second. Chinese Evergreen family, Mrs. C. R. Clonts, first; Mrs. H. G. Smith, second; Mrs. Max Leinhardt, third; Mrs. C. R. Clonts, Jr., first; Mrs. F. W. Tall, second. Garden ferns, Mrs. C. R. Clonts, first; Mrs. H. G. Smith, second; Mrs. W. R. Meek, third; Mrs. F. W. Tall, third.

Feas, Class 1 Mrs. C. R. Clonts, first; Mrs. M. L. Gary, second; Mrs. F. W. Tall, third; Mrs. Tommy Moon, first.

Parish House Scene Of Chapter Meeting

St. Catherine's Chapter of the Woman's Auxiliary of Holy Cross Episcopal Church met on Monday in the board room of the Parish House. The meeting was conducted by Mrs. Hawkins Connelly who announced that the chapter will be in charge of arrangements for the Auxiliary luncheon to be held on the first Monday in May. The chapter voted to ask each person to bring her own box lunch, with St. Catherine's Chapter furnishing coffee and dessert.

Announcement was made that St. Catherine's meeting scheduled for the first Monday in May will be in the form of a covered dish luncheon at the home of Mrs. H. Coleman. Following the meeting last Monday St. Catherine's joined the other three chapters of the Auxiliary in the auditorium where hospital towels were hemmed. A program arranged by Mr. Randall Chase was presented.

Those attending were Mrs. M. D. Barber, Mrs. Margaret Barnes, Mrs. W. T. Jackson, Mrs. Chase, Mrs. George Shipp, Mrs. W. M. Morrison, Mrs. J. L. Ingle, Mrs. Ed Meisch, Mrs. George D. Bishop, Mrs. J. B. Cogburn, Mrs. Connelly, Mrs. St. Clair White, Mrs. Coleman, Mrs. Thomas Vaughan, and Mrs. R. A. Newman.

Knives with wooden handles should be washed carefully and never allowed to soak. Soaking sometimes loosens the handles.

St. Ann's Chapter Has Regular Meeting

St. Ann's Chapter of the Woman's Auxiliary of the Holy Cross Episcopal Church met at 8:00 o'clock Monday afternoon at the Parish House. A short devotional service was led by the chapter chairman, Mrs. J. Lovell, who also presided over the meeting. There were ten members present.

Mrs. W. A. Adams, chairman of the committee for the Men's Club dinner, made plans for the affair which will be held Apr. 29. Announcements were made concerning the Spring Ingathering of the United Thank Offering and the annual Auxiliary luncheon to be held May 1 at 12:30 P. M. in the Philathea club room. Circle No. 7, Mrs. B. R. Beck, chairman, in Mrs. Dixon's class room. At 12:30 o'clock a covered dish luncheon will be served in the General Assembly room and at 1:00 P. M. Circle No. 7 with Mrs. John D. Abrahams as program chairman, will direct the program. The topic will be "Presence at Work for God." All women of the church are urged to attend and visitors are welcome.

The Sunbeam Band of the Woman's Missionary Union of the First Baptist Church for children aged four to six years will meet at 11:00 A. M. in the church nursery.

Sorority Meets At Lauren Johnson Home

Plans were discussed for the formation of a Beth Sigma Phi library at Fernand Laughton Memorial Hospital, at a regular meeting of Gamma Lambda Chapter of the sorority held on Monday night at the home of Mrs. Lauren Johnson on Escambia Drive.

The project would be sponsored for patients of the hospital and Miss Ted Livingston was appointed as chairman of arrangements. She will be assisted by Mrs. Johnson, Mrs. Robert Hickson and Mrs. Charles Voderich. Miss Shirley Smith offered the use of a white painted metal utility cart upon which the books may be taken from room to room.

A discussion was also on a Founder's Day dinner to be held in the private dining room at the Anchor, with the date to be announced later. At the conclusion of business refreshments were served by Mrs. Johnson and the co-hostess, Miss Elise Hutchison. Those attending were Miss Livingston, Miss Elizabeth Dyon, Miss Hutchison, Miss Smith, Miss Nancy Colburn, Miss Dupine Connelly, Mrs. George Danglemaier, Mrs. Dale Scott, Jr., Mrs. Voderich, Mrs. Hickson and Mrs. Johnson.

Birth Announcement

Mr. and Mrs. W. E. Priddle of Lakeland announced today the birth of a daughter, Karen Len, on Mar. 28 in Lakeland. Mrs. Priddle will be remembered as the former Marjorie Jones.

Period of Lenten reading conducted by Mrs. Randall Chase, Educational Secretary of the Woman's Auxiliary.

Episcopal Chapters To Sponsor Coffee

"Tasty Bits and Coffee" will be the title of the next event to be sponsored by St. Catherine's and St. Monica Chapters of the Woman's Auxiliary of Holy Cross Episcopal Church. The coffee will be held on Apr. 13 from 10:30 A. M. to 1:30 P. M. at the Parish House.

Tea or coffee will be served with cinnamon rolls and sandwiches during the appointed hours. The hours chosen will give business women an opportunity to call at the Parish House for their lunch and the public is cordially invited to attend.

St. Agnes Chapter, with Mrs. Henry McLaughlin, Jr. as chairman, will sponsor a table of cooked foods for sale. Mrs. Hawkins Connelly is in charge of St. Catherine's Chapter and St. Monica is led by Mrs. F. A. Dyon.

Hints To Housewives

By Anna Mae Sikes

Where there's rub, there's wear eventually on any article of clothing. Even small unnoticed rubs may cause untimely and expensive wear in men's suits, according to the U. S. Department of Agriculture.

For example, keys carried every day in the hip pocket rub against chairs and before long may wear holes through both pocket and outer cloth. The habit of over-loading pockets stretches and strains them, sometimes tears corners.

Pencils and pens need clips and well-fitted tops to prevent stains and wear. Premature shine on the seat of trousers often results from lack of a pad on office chairs. Even a thin pad delays that tell-tale shine. Wide belts often cause belt loops on trousers to wear through. A narrow belt that slips through easily saves mending or replacing loops.

Trousers a little too long often wear out before their time on the lower edges of cuffs. It pays to have them half an inch above heels.

Rug "shedding" Owners of new rugs often are concerned to notice that the surface seems to be shedding when walked on or cleaned with vacuum or carpet sweeper. They frequently ask whether this means they have a poor rug or whether the cleaner is wearing out the new rug.

Reassurance is offered by textile scientists. They explain that in the making of pile rugs, such as the Axminster, Wilton, or Velvet, yarn is looped over wires, then the wires are withdrawn, leaving an uneven surface. Some of the sheerings usually are left in the rug and appear as fluff when the rug is used or cleaned. It takes a little time for all these cut fibers to come out, but then shedding trouble should be ended.

U. S. And Business Agencies Hand Out Reports On Trends

By SAM DAWSON
NEW YORK, Apr. 4. — (AP) — A handful of governmental and business agencies are out with reports today on trends. A number of them offer explanations and opinions on the question that always preoccupies them: "Whither are we going?" Looking them all over, it would seem the answer is, in several directions.

Take the job picture as reported by the census bureau and interpreted by Commerce Secretary Sawyer. The bureau believes, from such reports as it gathers, that unemployment dropped 601,000 in March, while employment increased 500,000. The labor force grows steadily, as the nation grows, and that is one of the reasons the gain in employment and the drop in unemployment are never exactly the same.

Secretary Sawyer is encouraged by the gain of employment to 57,541,000 and the drop in the number of the jobless to 4,123,000. He says this trend away from rising unemployment came sooner than he had expected, but he admits much of it may be due to the settlement of the coal strike and normal pick-up in seasonal industries.

But there's still another factor the secretary doesn't mention. Productivity is rising, too. New machines and methods mean that more goods are being produced with fewer man hours. That factor and the growing number in the labor force puts the problem to industry to find more and more jobs, through making and selling more and more goods. Otherwise, unemployment will start rising again.

Less encouraging than the drop in unemployment are some other government reports today. Installment buying continues to rise. The Federal Reserve Board says it's now \$10.8 billion, a gain of \$2.5 billion in a year. People now owe \$3.2 billion on their automobiles alone. Some people say the national income can easily swing this rough buying on the cuff, and that the proportion of credit to total sales is far from dangerous. But others say that income and individual "liquid assets" are stabilized while installment buying goes on rising, and that can lead to danger.

The securities and exchange commission reports that liquid savings last year came to \$4.3 billion, up from \$3.5 billion the year before. The SEC raises an eyebrow, however, at the fact that "The Average American" saved only two per cent of his net income in 1949. While in 1948 he was putting away six per cent. Liquid savings include cash and bank deposits, investments in savings and loan associations, insurance, and securities.

These statements out today in New York may throw some light on this trend. Most of them show a drop in deposits. Income tax payments could account for a large part of that.

Department store sales in New York are reported today 2.5 per cent lower this March than last, but for the nation as a whole the Federal Reserve Board reports sales running neck and neck with last year. Weather conditions have a lot to do with the variations. And department store sales and total retail sales are two different things.

The companies are happy. Increasing demand has caused many rubber companies to go to a six-day week. The Ford plant in Akron, Ohio, and the General Motors plant in Flint, Mich., have operated on Sunday to meet the rush of orders. The boom in the car market is the Detroit car maker's pride and joy.

The labor and commerce departments report new construction in place during the first quarter of 1950 hit a new record of \$4.6 billion, 18 per cent higher than the first quarter last year.

But caution that comes the guess of the Commerce Department is that this industry will spend \$5 billion less in 1950 than last year. The total for 1950 is \$16.1 billion, down from the \$17.1 billion in 1949. The gain in construction comes from home and public buildings, and the loss from the other side.

The Commerce Department also reports that the labor force may be larger than the plant and equipment available to employ it.

Rural Common Sense By SPUDS JOHNSON

Grasses and legumes are destined to play an ever-increasing role in Florida farming, in the opinion of staff members of the Florida Agricultural Extension Service and Experiment Station. They provide cheap feed and help to conserve and improve the soil — major needs in Florida, as elsewhere.

Here are points the staff members mentioned recently when asked to sum up the points foreseen for a great decade of progress in Florida farming:

Florida farming: Florida has made rapid strides in its beef cattle program and is becoming more self-sufficient in dairying. Pastures have been improved, but one of the greatest needs of the animal industry in Florida is for more, better and cheaper feeds.

Improved grasses — Pangola, Pensacola, Paraguay and common Bahia, Coastal Bermuda and others — will be planted on more and more acreage to provide cheap grazing. Dixie Crimson, White Dutch and other clovers will provide more winter grazing. Increasing yields of corn will help the feed situation some. Citrus fruits may supple-

ment the feed supply. But owners of farm animals will do well to take advantage of every opportunity to increase their supplies of home-produced feeds of all kinds.

Mineral mixtures for both cattle and hogs are common now, but every farmer who does not now supply minerals to his animals probably will begin doing so during the years ahead.

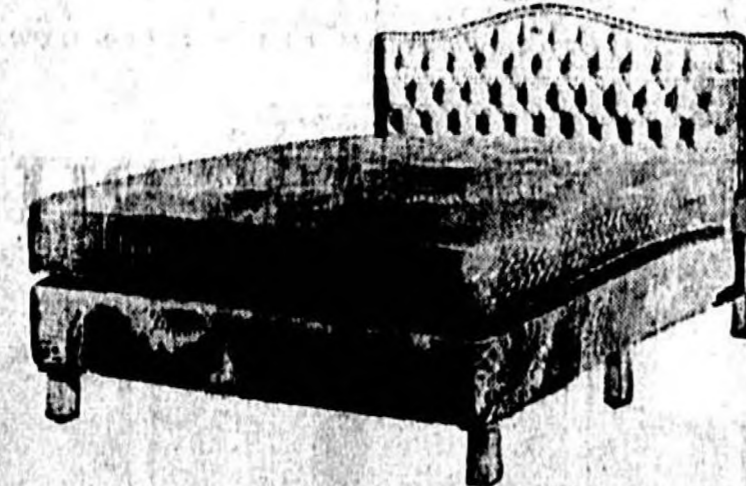

Dairymen will pay more attention to (1) use of mowers and alternate grazing to obtain maximum amount of quality feed from pastures, (2) more DHIA records for efficient management of their herds and economical use of concentrated feeds, (3) raising more replacements to assure high quality, disease-free animals, and (4) maximum use of quality sires and artificial insemination as the basis for higher quality home-grown replacements.

Surgeon (Continued From Page One) smaller arteries below the aorta. The healthorta, preserved under refrigeration in penicillin and blood plasma for five days after it was removed in a post-mortem operation, then was transplanted. Today the patient was improved enough to tell attendants that back pain, apparently resulting from pressure of the enlarged aorta against a vertebra, had disappeared following the operation. The hospital did not disclose the length of time the delicate operation required, but observers described it as lengthy. Hospital attendants expressed

Jaycees Meet (Continued From Page One) of Alvin Graham will devise stunts for the campaign. The Rev. H. L. Zimmerman will have charge of church improvements. Repairs will be directed by T. E. Tucker. The Explorer Troop of Boy Scouts will have charge of trash disposal. Homer Stoffer is chairman of the "cleanest town contest."

Colored News By LOUISE FORSTER There will be a meeting of the Colored Division of Seminole County T. B. Association, Wednesday, Apr. 5, at the Afro-American Life Insurance Co. office at 8:00 P.M. All members are requested to be present. Also persons who have tickets for the Association are asked to make their report at the meeting. Dr. J. C. Ringling, chairman, is urging all to be present as business of vital importance will be conducted. Dr. J. C. Ringling is chairman.

Owen Lattimore Raps Senator At Hearing

Far East Authority Claims McCarthy's Charges Are "Contemptible Lies"

WASHINGTON, Apr. 6.—(AP)—Owen Lattimore, accused by Senator McCarthy of being Russia's top spy in the United States, swore today that the charges are "base and contemptible lies."

He said McCarthy has "flagrant violated" his responsibility as Senator and has made unauthorized use of secret government documents.

Lattimore, an authority on Far Eastern Affairs, took note of McCarthy's contention that he can prove Lattimore is or was a Communist and declared:

"I was not and have not been a Communist spy; and I am not a Communist now."

Lattimore made his denial in testimony prepared for a Senate Foreign Relations subcommittee investigating McCarthy's charges that Communists and their sympathizers have infested the State Department.

Hitting back hard in a 10,000-word statement, Lattimore said McCarthy has violated his responsibility by making the government of the United States an object of suspicion in the eyes of the anti-Communist world, and undoubtedly the laughing stock of the Communist government.

Lattimore also declared that McCarthy has impaired the effectiveness of this government "in its relations with its friends and allies."

He accused the Wisconsin Senator of "instituting a reign of terror among officials and employees in the United States government, none of whom can be sure of their jobs from attacks by the machine gun of McCarthy's publicity in Joseph McCarthy's hands."

Lattimore is director of a school of international relations at Johns Hopkins University. He flew back to his country from the United States in 1947 after serving as a liaison officer in Afghanistan after McCarthy made his accusations.

Lattimore told the inquiry committee that McCarthy "used secret documents obtained from official government files."

"Villified citizens of the United States and accused them of high crimes without giving them an opportunity to defend themselves."

"Refused to submit alleged documentary evidence to a duly constituted committee of the Senate."

"Invited disrespect to himself and his high office by refusing to live up to his word."

As for the McCarthy charges (Continued On Page Two)

Oh, The Cost Of Congressmen

- 1 ANNUAL SALARY IS \$12,300 . . .
- 2 AND \$2,500 TAX FREE EXPENSE ACCOUNT . . .
- 3 AND 20 CENTS A MILE TRAVEL EXPENSE TO AND FROM SESSIONS . . .
- 4 AND UP TO \$700 A YEAR FOR STATIONARY . . .
- 5 AND CLERK HIRE BASE OF \$12,500, WHICH RUNS AS HIGH AS \$24,000 . . .
- 6 NEW BILL WOULD UP PHONE, TELEGRAPH ALLOWANCE FROM \$300 TO \$1,000 . . .

A CONGRESSMAN'S cost to the taxpayer is getting higher and higher. This compilation of expenses and other items indicates the Congressional Reorganization Act of 1947 added several of the items above. Latest item is bill to increase telephone and telegraph allowances. It all adds up to upwards of \$20,000 a year for each of the 435 House of Representatives members. (Continued)

U.S. Refuses To Grant Israel Arms Request

National Defense Dept. Claims US Hasn't Enough Big Guns For Europe

WASHINGTON, Apr. 6.—(AP)—The United States has tentatively rejected Israel's request for heavy American weapons such as artillery and tanks.

Informed government officials said today, however, there is still a possibility Israel may be allowed to buy light arms and perhaps some night vision jet fighters.

The National Defense Department has ruled, these officials said, that there are not enough heavy American weapons to meet the needs of Western Europe and other Communist-threatened countries.

The Israeli government submitted a detailed request for American military aid to the State Department about three months ago. The new Jewish state said the military supplies were needed to defend its borders and not for aggressive purposes.

The State and Defense Department are now agreed, officials said, that it is more important to American foreign policy to send "light military potential" from such as 105 mm. howitzers to the Atlantic Pact countries.

Israel had requested howitzers, medium-range artillery, tanks and some other weapons. The request type that are scheduled to be shipped under the \$1,000,000,000 Arms Aid Program to shore up the defenses of eight Western European nations.

2 Kansas City Mobsters Are Shot In Head

Former Pendergast Underling Is Killed In Political Club; Ex-Convict Is Dead

KANSAS CITY, Apr. 6.—(AP)—Charles Binaggio, longtime underling to the late boss Tom Pendergast, and an ex-convict were slain today in a political club.

Both men had been shot in the head. The ex-convict was identified as Charlie Gargotta.

Binaggio was head of a political faction opposing remnants of Pendergast's once powerful political organization.

The club where Binaggio was found shot was headquarters for his political group which controlled several populous northside wards.

L. Harry Nesbitt of the police homicide squad said no weapon was found in the clubroom.

Binaggio was found slumped in a chair. Lieutenant Nesbitt said Gargotta recently had tried to enter the defense and not for aggressive purposes.

The State and Defense Department are now agreed, officials said, that it is more important to American foreign policy to send "light military potential" from such as 105 mm. howitzers to the Atlantic Pact countries.

Israel had requested howitzers, medium-range artillery, tanks and some other weapons. The request type that are scheduled to be shipped under the \$1,000,000,000 Arms Aid Program to shore up the defenses of eight Western European nations.

Dulles Will Serve As Consultant To Acheson

Spirit Of West Will Be Brought To Bear On Local Cow Industry

ORLANDO, Apr. 6.—(AP)—Something of the spirit that brought order and productivity in the western wilderness is going into an attack on the problems of this cow and citrus country.

His objective is a teeming empire of beef, grapes and pine timber of nearly 150,000 acres sprawling over three east-central Florida counties.

Behind the project is a practical business group from the far western state of Utah including high placed leaders in the Church of Jesus Christ of Latter-Day Saints (Mormons).

These Mormons have turned their talents and resources to a task that has become a national obsession from what their forebears overcame a century ago in the region around Great Salt Lake.

In Deseret—which became Utah—the land was high, dry and mountainous. Here it is low, well watered and flat. The climate is subtropical.

There the settlers had sparse brush and other growth to clear away. Here it is not sparse brush but saw palmetto, a tough, fire-tolerant, but perhaps worst of all are the tough pine-needle clump from cut-over pine land.

In Deseret, the land was, at most uniformly rich in plant food minerals. It required mainly water and little fertilizer for men.

Secretary Of State And President Ask Republican Leader To Take Position

KEY WEST, Apr. 6.—(AP)—The White House said today that the appointment of John Foster Dulles as State Department consultant still leaves open Philip C. Jessup's old job as trade-shooting ambassador-at-large.

NEW YORK, Apr. 6.—(AP)—John Foster Dulles, said today he had accepted appointment as foreign policy adviser because of the need for national unity was urgent in the face of a Russian threat as grave as "any we have ever faced in a shooting war."

WASHINGTON, Apr. 6.—(AP)—The State Department said today John Foster Dulles, New York lawyer and foreign policy expert, had agreed to serve as consultant to Secretary of State Acheson.

A formal announcement said the Republic in leader was asked to take the position by both President Truman and Acheson.

Only last night, Presidential Press Secretary Charles G. Ross denied reports that Mr. Truman proposed to name Dulles to a top policy post with the rank of ambassador-at-large.

The State Department today said Dulles would solve problems in the field of foreign affairs and on specific lines of action which the government should study. It added:

"His work will not be confined to any specific area of the world. He will have a broad background and wealth of experience which will give him an understanding of problems in Europe, the Far East and other areas of the world, as well as problems affecting the work of the United States."

Mr. Dulles, whose temperament has been extremely valuable to the department in the past, will assume his duties in about two weeks after completing a brief vacation.

Dulles' appointment was worked out by the State and Senator Vandenberg after Mr. Truman had signed an Act authorizing the appointment to this position in an effort to restore real bipartisan leadership in foreign affairs.

The President, Acheson and Vandenberg finally agreed on Dulles as the best man for the job within the past few days.

Dulles' announcement made today that although he will have top rank under Acheson and the Secretary of State James Webb as has been given the formal title of ambassador-at-large, Nonetheless it appeared that he will be a spokesman for the State Department.

Mr. Smith opened the discussion by discussing the Dulles appointment and his own ability as a speaker, and based his main appeal for reelection upon his experience as a legislator. He pointed out that he has attended to the duties of the position of special advisor, declared that his record is an "open book," and pledged continued support for improvement of school facilities and to the building of good roads in Seminole County.

Vivian A. Spear cited his record of honest dealing as a merchant in Sanford for 25 years, and pointed out his record as former mayor and city commissioner of Sanford for seven years. He asserted criticism of his action as a member of the Mayfair Inn in releasing rooms to 53 visiting high school ball players, stating that he had no choice. He said that he would strive for a better school system, and pointed out that the State Road Department now handles expenditures for roads, the Legislature has money to do with the allocation of funds.

Mr. Arnold cited his business and administrative experience, plus the need of at least one legislator from outside of Sanford to represent the County. He revealed that he has served as a commissioner and as mayor of Longwood, and is (Continued On Page Three)

Food Growers See Hard Year, Says Anderson

Low Prices And High Costs Prove Detrimental To Farmer

Florida vegetable growers are having a "tough season," due to low prices brought by products and high costs of production, Sandy Anderson, manager of the Sanford State Farmers Market, told fellow Kiwanians at the Yacht Club yesterday.

"It is not only that the prices are so low, but that the fixed cost of harvesting, processing, freight commission and taxes are so high," he stated. "These fixed costs leave the grower little or nothing towards the cost of production, not taking into consideration the living costs for him and his family from July to July."

Agriculture involves the danger of risk and loss in no uncertain terms, he pointed out, and revealed that last year more than 181,000 crates of celery were abandoned in fields in Florida, due largely to market conditions. Figuring 43¢ crates to a car, this amounted to 487 carloads, he declared.

Pointing out the growth of agriculture in Florida since he arrived in the state in 1910, Mr. Anderson stated that it "had grown from a baby to a giant."

During the season of 1910-11 celery shipments from the state totaled but 2,894 cars, compared to the 18,118 cars shipped last year.

"Some people might get the impression that agricultural millionaires are common in Florida," he asserted, "but such is not the case. No honest, well informed person would make such a claim and no truthful person would attempt to substantiate it."

There is a big difference in the gross and net returns of both large and small farming operations, he stated. Millions of dollars are spent in the production of Florida crops before millions are spent by consumers for the produce.

NLRB Head Tells Senators Power Division Fails

Herzog Claims Board Supports Truman's Reorganizing Plan

WASHINGTON, Apr. 6.—(AP)—The National Labor Relations Board told Senators today that its division of powers with the board's general counsel, Robert Denham, has been a "failure." It said Denham's separate authority should be abolished.

Paul Herzog, NLRB chairman, told the board supports President Truman's plan for reorganizing the agency.

The plan calls for moving Denham's present independent authority and making him subordinate to the board. Denham was due to testify sometime after the NLRB chairman.

Herzog said in his prepared testimony that the present division of power fixed by the Taft-Hartley act has caused friction within the agency, "confusion among management and labor unions," and has provoked "uncertainty and litigation."

Witnesses representing the National Association of Manufacturers and the United States Chamber of Commerce told the committee yesterday the President's plan, if allowed to go into effect, would undermine public confidence in the board.

Senator Taft (R-Ohio), who supported a transfer of Denham's powers to the board last summer, now opposes the idea. Taft said Tuesday the President's plan to wipe out Denham's authority would make Herzog "the most powerful labor czar" in the country.

Without referring directly to Taft's contention, Herzog said the President's plan would place "all investigatory and regulatory functions" not in him as chairman, but "in the five men who comprise the entire" NLRB.

19-Year-Old Youth Admits He Choked His Girl Friend

He Said He Was Jealous

PRINCETON, N.J., Apr. 6.—(AP)—Arthur Prindle, 19, admitting the effects of 18 sleeping pills, mumbled a dramatic confession to his policeman-father last night; he strangled his pretty 18 year old sweetheart in a jealous rage.

"What did you do son?" asked Officer Leahy when the boy confessed.

"I killed Sally . . . I choked her . . . we quarreled . . . she was going out . . . with other boys," he said haltingly.

The youth and his former fiancée, Sally Ann Humphreys, were found yesterday in a car parked in a lover's lane in nearby Contra Costa County.

The girl's body was slumped in the front seat, a man's belt fastened about her neck.

In the back seat, minus his belt, was young Prindle, his wrists bleeding from the jagged slams of the car's compact.

The confession to the father was witnessed by his mother and a sheriff's officer. Afterward, Deputy District Attorney Wakefield Taylor announced the youth will be charged with murder.

US Turns Down Czech Demand For Escapees

Williams, Spear, Arnold, And Smith Discuss Their Merits

PRAGUE, Czechoslovakia, Apr. 6.—(AP)—The United States today rejected the Communist-led Czechoslovak government's demand that the eight right-leaders of the mass, serial escape of anti-Communists to Germany two weeks ago be returned for trial.

In a note to the Czech foreign ministry the American embassy here declared that the eight fugitives who plotted the escape and aided their plans are legitimate political refugees and have been given asylum in the American zone of Germany "in accordance with humanitarian principles."

In a second strongly worded note the embassy reiterated protests by the Czech government against the questioning of 58 of the Czech citizens who had been unwelcome passengers aboard the planes which carried the escapees to the American air base at Erding, Germany.

In the largest air escape since the present regime came to power a little more than two years ago, 58 Czechs were taken to the original point—decided to stay in Germany.

The Czech ministry of foreign affairs, in two notes handed to the embassy, asked that the 58 citizens of the flight to face criminal prosecution and protested against what it called the "Nazi-gestapo methods" of American authorities in questioning the 58 exiles, who were later returned to Czechoslovakia.

The latter note demanded punishment of the American officials responsible for the interrogation. The embassy's reply declared:

"The ministry will doubtless realize that no basis in law exists for making or complying with its request for extradition of the individuals named as 'common criminals for penal prosecution.'"

O. P. Herndon, Jr. To Attend Sales School

He Will Attend School For 10 Days

O. P. Herndon, Jr., who recently joined the sales force of the Sanford Motor Co., Inc., left yesterday morning for Jacksonville to attend the special sales school of the Ford Motor Co.

Mr. Herndon is married and has four children and lives at 814 Elm Avenue. He served in the Army in World War II and was stationed in Montana, Puerto Rico and Panama. After his release from the service he moved to Venezuela and worked for the W. H. Williams Construction Co., which was installing equipment for the Bland Oil Co.

"Greatest Show On Earth" Has Its Premier At Madison Square Garden

NEW YORK, Apr. 6.—(AP)—A Brooklyn bobby-soxer walked up to the steel-barred circus "cat" cage and gripped her girl friend by the elbow.

"Geeeee . . . Lookit da kowwww-ger!"

Cougar or "kow-ger" (it was really a leopard), it was past of opening night for the "greatest show on earth" at the traditional Manhattan premiere in Madison Square Garden.

Fresh from winter quarters in Florida, the Ringling Brothers and Barnum and Bailey circus filled the big sports palace from basement sidewalks to trapeze rigging last night, the roof garden.

More than 18,000 New Yorkers, who'll run to a circus as fast as anyone else, flocked into the cavernous Garden last night to see what the "big one" has to offer this season.

After a month here, the show moves on to Boston, goes under canvas for the first time in Washington, and then sign-signs west to Denver and back to Miami for November opening.

Nobody wants a circus to change much, and nobody will be disappointed. The 1950 model may have a high-gloss polish, but it's still the same old circus.

And there are loads of new fancy hats and souvenir caps and plenty of that good, rich old smell that spells out C-I-R-G-U-S for you with your eyes closed.

The high moment belonged to Harold Allens, chief of the high wire Alkanes.

Whether he was playing to the crowd, or whether he suffered from opening night roughness, he had several partial slips 48 feet above the ground—and no not.

The last eight feet of his aerial career rode with four girls slumped on his shoulders and hoisted by the extra-long leashes.

And there are loads of new fancy hats and souvenir caps and plenty of that good, rich old smell that spells out C-I-R-G-U-S for you with your eyes closed.

Also present was the sheet of "The Circus" program.

County Farm Bureau To Meet On Friday

Opening Of The New Auction Market At The Sanford State Farmers Market, Which Was Recently Postponed Due To Lack Of Local Produce Sufficient To Justify Auctions, Will Be The Main Topic Of Discussion At The Meeting Of The Seminole County Farm Bureau Friday Night At The Future Farmers Building, Orlando, Fla.

Addressing the group after the supper at 7:00 o'clock will be G. H. Hogan, representative of the State Farmers Market Bureau, T. A. Rivers, manager of the Webber Auction Market, Larry Jones, auctioneer, and Sandy Anderson, market reporter.

Mr. Matthews today termed the opening of the Auction Market a most important consideration not only for the welfare of the farmers of Seminole County, but for the future welfare of every business. All growers in the county are urged by Mr. Matthews to attend the supper and the meeting which will start at 8:00 o'clock.

Civil Air Patrol To Sponsor Breakfast

The Local Civil Air Patrol Unit Will Sponsor A Breakfast Flight School Meeting At The Municipal Airport And It Is Expected That At Least 50 Pilots Will Participate In Ball Landings And Contests, Dr. Henry M. Ladin Announced Today.

An invitation has been extended to all pilots in Central Florida to meet at the Airport Sunday morning for breakfast.

The Florida National Guard is invited to participate in the contest with their old planes.

More than 50 members of the Patrol and Cadets attended the regular meeting Wednesday night. Motion pictures of various phases of aviation were shown, including the repair and maintenance of engines and airplanes.

Ginderville House Destroyed By Fire

A Frame House In Ginderville Was Destroyed Shortly After 10:00 O'clock This Morning By Fire Caused By Children In The Home Playing With Matches.

All the possessions of John Carruthers, his wife and three small children were destroyed by the flames, which quickly spread from a plywood chest where the children had playfully lit a bonfire while their mother was in the kitchen preparing the breakfast, said the Chief Clerk here today.

Mrs. Carruthers stated that she had been out of the house about 10 minutes, sometime smoke she hurried back and found the children laughing and enjoying the fire. By the time the firemen were able to arrive the house had been leveled.

The losses included a wedding and engagement ring which Mrs. Carruthers had put in the house when she was a child, the mother of the children, and the mother of the children, and the mother of the children.

Malcolm McNeill, disaster relief chairman of the Red Cross Chapter, today appealed for donations of clothing for the affected families.

Malcolm McNeill, disaster relief chairman of the Red Cross Chapter, today appealed for donations of clothing for the affected families.

Census Taker Has Bad Time With Bull

A Census Taker Yesterday Ran Into Unexpected Opposition When He Was Chased By A Bull.

Dale Hoffmann, 24, the census enumerator, was chasing the pasture at Baker's Dairy on the old Orlando Road to interview one of the hired men when the bull, resembling this interview on his "hard rights," let out a mad bellow and took off after Mr. Hoffmann.

The census taker reached the fence first, threw his back over and dove under the fence. In making his escape, Hoffmann was scratched by one animal which was scratched by a second.

At present 15 census takers are working under the direction of Chief Clerk here today.

City Building Permits Total Nearly \$94,000

City Building Permits Issued During March Totaled \$94,781 In Estimated Value Of Construction, John Gillen Building Inspector, Reported Today.

Recent permits include two projects of the Deussen Construction Co., one for a six room concrete block home for J. W. Powell at 411 Roselle Drive, the other a dwelling of similar construction for C. L. Armstrong, Jr. at 1904 Locust Avenue.

C. A. Inglish has secured a permit to building a \$12,500 concrete block home at 1100 S. Orange Street near West Grand Street.

Perry Kenna has secured a permit for a \$10,000 home on Oakwood Drive, another on Downing Drive and a \$10,000 dwelling at 1100 S. Orange Street.

HOUSING AID

WASHINGTON, Apr. 6.—(AP)—The House approved without opposition today an expansion of almost \$4,000,000,000 in the Federal Housing Program.

The measure provides special aids for veterans housing, including a new \$180,000,000 program of direct loans for ex-GIs.

Administration leaders expected quick Senate passage to send the compromise legislation to President Truman. They expect, however, that the President will sign, although it is far from what was recommended.
