

MRS. SWANSON IS FREED AT PRELIMINARY HEARING HELD HERE YESTERDAY

State's Attorney Makes No Case Against Girl Accused of Murder

COURT ROOM FILLED

WITH CROWD OF MEN AND WOMEN WHO HUNG ON EVERY WORD OF WITNESSES

The second scene in the killing of George McDougall by his daughter, Mrs. Norman Swanson, came to an end yesterday afternoon in the court house that was crowded to suffocation with men and women eager to catch every word of the preliminary hearing. There were many children present when Judge Stringfellow called court to order but all those under twenty-one were ordered from the room and it was noticeable that many ages mounted rapidly in a few minutes.

The state was represented by State's Attorney George A. DeCottes and he was assisted by E. W. Davis, of Orlando, and John Leonardi, of this city. The defendant was represented by J. J. Dickinson and E. F. Householder.

Jr. Ralph Stevens was the first witness called and told of being called to the McDougall house about six o'clock Saturday morning by Mrs. McDougall and her daughter Frances, and upon his arrival seeing the body of McDougall, who was dead before the physician reached him, that her mother said: "Frances had to do it to save her life." That the bullet had gone into the body in the upper left scapula passed through the body coming out just under the right nipple and going into the right arm showing a downward and outward trend.

H. R. Stevens was called and as he had accompanied his son, Dr. Ralph Stevens, to the scene he was among the first to arrive and had seen the body before it was touched. Frances told him she had shot her father as he was about to cut her mother's throat at the kitchen sink. He saw a white rag on the right arm of the body, two knives in the kitchen sink and the empty shell from the pistol lying on a table and he had given it to the deputy sheriff. He said Mrs. Swanson said she was standing in the bath room door opposite the door leading from the kitchen to the porch when she fired the shot.

Norman Swanson, husband of Mrs. Swanson, said he was called on Saturday morning at the usual time and had arisen and gone to the bath room to put on his shoes and clothes as usual custom with him when McDougall had come up to him with a butcher knife in his hand and said: "I see you cut the hay yesterday," and Swanson replied that he did not cut it but he had it cut and McDougall said, "I want you to understand I am boss of this farm and you or no one else have a damn thing to do with it," and then turned and walked toward the kitchen. Said he heard a scuffle in the kitchen and getting to the door saw his wife with her right arm stretched out and heard the report of a pistol, saw McDougall with a knife in his right hand and knife dropping to the floor, saw him walk to door leading out on back porch, turn round like he was coming back in kitchen and then laid down on the floor and did not make a sound. Swanson had rushed out of the house after trying to get an officer by telephone and drove to Sanford to get the deputy sheriff. He did not see McDougall until his return and physicians had been there by that time and pronounced him dead. Did not go to body but was positive deceased had not spoken after he was shot. Was sure he had not fallen when shot but had laid down with his hands under him. Identified the 32 automatic as one belonging to a relative and one that his wife had been carrying. Said the distance between McDougall and daughter when she fired was about six feet.

Bert Long, on the stand, said he had talked with Mrs. McDougall and her daughter in town and that Mrs. Swanson had said: "I will have to kill the old man if he goes any farther as it is up to me to protect my mother, and if he lays his hands on her I will kill him."

Thomas Dunlap said Mrs. McDoug-

PROPOSAL TO PAY BONUS SPECIAL TAX

ON BANKS AND THROUGH INTEREST ON FOREIGN DEBITS

(By The Associated Press)
WASHINGTON, June 13.—Proposals to pay bonus in cash, financing to be done by means of special taxes on banks and through use of interest on foreign indebtedness was made today by Ladd, Republican, of North Dakota.

MRS. BRUNEN IS UNDER ARREST ON MURDER CHARGE

(By The Associated Press)
MOUNT HOLLY, New Jersey, June 13.—Mrs. Doris Brunen, widow of John Brunen, circus owner, who was shot and killed March 10, is under arrest here on a murder charge. Authorities said she was arrested upon information furnished by persons already under arrest in connection with the case but declined to divulge further information.

TEMPORARY INJUNCTION RESTRAINING MINERS FROM INTERFERING

(By The Associated Press)
COLUMBUS, Ohio, June 13.—A temporary injunction restraining the United Mine Workers in Harrison and Jefferson Counties from interfering with coal stripping operations in two counties was granted by the Federal Judge Sater, it became known today.

all and daughter had stopped in front of his house one evening and said Frances had remarked that "if my father ever lays hands on my mother I will kill him."

W. A. Rayner, who lives across the road from the McDougalls stated that he was out at his barn Saturday morning when he was attracted to the McDougall home by a shot from a revolver and heard an exclamation: "O, God, O, God" by McDougall. Had not gone over to house but walked into his own home with his pail of milk.

Deputy Sheriff Cleveland Jacobs identified the pistol and the bullet and Deputy Sheriff Williams said the shirt of deceased had showed powder burns but the shirt could not be produced in evidence as it had been destroyed it was said.

Scott Benton, of Waycross, Ga., a brother-in-law of Mrs. McDougall told of being wired to come here on the 24th of May. After his arrival had seen McDougall in the packing house near the barn and McDougall said if his wife and daughter would not divide up the property he "would cut their throats and spit in their faces." That he had repeated this conversation the next day in a meeting with Banker Lake and Mrs. McDougall and Mrs. Swanson when they were trying to make some arrangement to patch up the difficulties and he had remained several days trying to adjust matters. That McDougall had said his wife upbraided him before the negroes in the field and if she ever did it again he would kill her and he wished he had cut her throat when she did it.

F. C. Inman and his wife, M. A. Inman, of the Valdez Grill, were called to the stand to relate what McDougall had said in the grill. Coming in to collect a milk bill the Inman's had refused to pay it unless Mrs. McDougall signed the bill and McDougall had said: "There will be a shooting match over this yet," and on another occasion had said that he held a knife on his wife's throat and the next time he did it he would kill her.

Mrs. McDougall was then led to the stand and stated that she had been partly blind nine years, had come to the Celery avenue home some 18 years ago, that she and her husband had been having trouble for many years; that on the morning of the 10th she had arisen as usual and gone down stairs just ahead of her daughter, knew Norman was in the bath room or the kitchen, had sensed some one standing near her and had then felt an arm thrown around her

PRESIDENT HARDING WOULD HOLD A SPECIAL SESSION IF NECESSARY

Tells Chairman That Unless Ship Subsidy is Passed He Will Do So

(By The Associated Press)
WASHINGTON, June 13.—President Harding notified Chairman Campbell of the House Rules Committee that unless the ship subsidy bill passed prior to adjournment he would feel obligated to call a special session solely for its consideration. Under date of May 26th the president wrote: "So much is involved and such difficult and discouraging situation will follow if congress fails to sanction merchant marine bill that I should feel myself obligated to call congress immediately in extraordinary session to especially consider if it went over through any neglect or delay beyond the present term."

CONFRONTED WITH PROBLEMS DELEGATES TO CONVENTION TURN TO EUROPE'S AFFAIRS

American Federation of Labor Will Have Most Busy Session

(By The Associated Press)
CINCINNATI, June 13.—Although confronted with many problems the delegates to the annual convention of the American Federation of Labor turned attention today to European labor affairs, the program calling for addresses by British labor leaders sent to this country as fraternal delegates from British trade union organizations.

CINCINNATI, June 13.—The ship subsidy bill now pending in congress was condemned in a resolution adopted unanimously today by the American Federation of Labor as inimical to public interest and destructive of nation's hope for seapower. The convention voted to wire protest to congressional leaders against favorable report of bill by committees.

CINCINNATI, June 13.—Facing a fight that leaders of organized labor regards as one for the existence of unions, the American Federation here yesterday opened its forty-second annual convention, which was marked by the presentation of many issues that are to be considered during the next two weeks, and a speech by President Samuel Gompers, declaring "we do not fool ourselves in any fancied security." The issues were brought before the delegates by the report of the Federation's executive council.

MORE DECLINE EXPORT TRADE DURING MAY

DROPPED FROM 381 MILLION TO 308 MILLION DOLLARS

(By The Associated Press)
WASHINGTON, June 13.—America's export trade suffered another decline during May, dropping from the total of 381 million dollars reported for April to 308 million dollars. Imports increased in May to 254 millions compared with 217 millions for April.

Five Bandits Killed Three Are Wounded In Train Hold Up

General Rodriguez and His Aide Opened Fire on Robbers

(By The Associated Press)
NOGALES, Ariz., June 13.—Five bandits were killed, three wounded in an attempt to hold up a train of the Southern Pacific de Mexico near Rosarua, Mexico, Saturday according to the conductor who arrived here today. The men were members of a band of twenty-five Mexican bandits who attacked the train carrying silver bullion worth \$29,000. Other bandits fled without loot, five were killed and three injured by General Rodriguez, military governor or Hyaet, his aide and chauffeur, who were passengers on the train.

The Daily Herald Delivered to your door six days a week for 15 cents—

DEATH LIST IS GROWING FORTY-FIVE KNOWN DEAD AND SIXTEEN ARE MISSING

PRESIDENT IS HANDS OFF ON SHOALS

FEELS THAT CONGRESS SHOULD HAVE FREE HAND IN MATTER

(By The Associated Press)
WASHINGTON, June 13.—President Harding has taken no position regarding Muscle Shoals question and feels congress should have a free hand in matter, it was said today at the white house.

WANT PROFESSOR FIRED FOR EVOLUTION IDEAS FROM BAPTIST COLLEGE

(By The Associated Press)
NASHVILLE, Tenn., June 13.—Unless Professor C. W. Davis, member of the faculty of Union University, a Baptist institution, at Jackson, Tennessee, is eliminated from its teaching staff or he declares publicly his repudiation of evolution theory, all financial or moral support of the Nashville Baptist Pastors Conference will be withdrawn from the institution, according to a resolution adopted by the conference. The resolutions declared evolution theory to be dangerous and destructive.

THREE PEOPLE DEAD RESULT OF FIRE AT BURTONS STATION, VA.

(By The Associated Press)
NORFOLK, Va., June 13.—Three persons are dead, the result of a fire near Burton's Station, Princess Anne county, early today. The dead are John Cotton, negro, and two young children. Cotton died of burns received when he attempted to rescue the children from the home.

CANDIDATES FOR SPEAKER OF NEXT HOUSE ARE BUSY

TALLAHASSEE, June 13.—Candidates for speaker of the next House of Representatives are now making vigorous canvasses, and five have already signified their intention of making the race.

L. D. Edge of Groveland, Lake county, is a candidate. Mr. Edge was speaker pro tem during the 1921 session and made a fine record as a presiding officer as the times he was called to the chair.

Eugene S. Mathews of Starks, Bradford county, has announced that he will be in the race. Mr. Mathews was a member of the legislatures of 1905, 1907 and again in 1911. He was speaker of the house in 1907 and made a splendid record as a presiding officer.

Forest Lake of Sanford, Seminole county, has announced his candidacy. Mr. Lake is an experienced legislator having represented his county in the sessions of 1911, 1913 and 1915.

Friends of Amos Lewis, of Marianna, Jackson county, say he will be an active candidate for speaker. Mr. Lewis represented his county in the legislatures of 1915, 1917 and 1919.

A. W. McLaren of Wellborn, Suwannee county, is being urged by his friends to enter the contest, but he has not yet made formal announcement of his candidacy.

The Taylor County Herald has nominated W. T. Hendry, who will represent Taylor in the 1923 session for speaker and strongly urges his fitness for that important position.

It is probable that others will enter the contest and that the caucus of 1923 will be one of the liveliest held in many years.—Palatka News.

WARD WILL NOT RETURN TO TRIAL OF SON UNTIL HE GETS READY

(By The Associated Press)
WILLIAMSPORT, Penn., June 13.—George S. Ward, father of Walter S. Ward, for whom a subpoena has been issued to secure his attendance before a Westchester grand jury to testify in the investigation of the slaying of Clarence Peters by his son, said today he would not return to New York State at the present.

In the Sunday Storm Catastrophe in New York

SEARCH CONTINUES

(By The Associated Press)
NEW YORK, June 13.—The death list in Sunday's storm continues to grow. The known dead now total 45 while sixteen persons are reported missing. Police continued today to grapple for bodies in Long Island sound off City Island. The police are convinced the total death list will reach seventy.

NEW YORK, June 13.—Morgues and undertaking shops of the metropolis area last night held the bodies of more than three score men, women and children, victims of Sunday's brief cyclonic thunderstorm.

Marine police who continued throughout the day their work of grappling in Pelham Bay and Island Sound of City Island, where the greatest toll was taken among Sunday canoeists and fishermen, predicted they would find at least a score more victims—enough to push the death toll past eighty. Eye witnesses of the swift tragedy placed the number even higher.

At least 250 canoes, rowboats and small motor boats were bobbing about off the island, witnesses said, when the storm came screaming down on the resort, at a velocity of 80 miles an hour, or better. Occupants of the little craft, sensing their danger, made a run for shelter. But scarcely had they got under way when they were engulfed in a blinding storm of rain and hail.

As quickly as it came the storm vanished. It had lasted less than five minutes. But scarcely a dozen of the 250 small craft had survived. Horror stricken, but helpless to aid, the crowds on the beach and about the casino pier saw scores of men and women clinging to wrecked and overturned craft in the choppy sound and bay. One by one they gave up the struggle, and dropped quietly off to be carried out toward the open sea by the tide.

Some of the bodies, the police say, never will be recovered. The tide, turning brought more than a score of them back yesterday. Eyewitnesses estimated there were between 300 and 700 persons in the craft. Herds walk by the United States life guards, members of nearby yacht clubs and volunteers from the shore crowd saved hundreds.

Among the first to put out were Jack Murray, J. C. Bower, Jack Malloy and Frank Wartinger. Manning two small motor boats, they saved more than a dozen men and women who they found clinging to overturned canoes and rowboats. They were followed by others, and soon more than 50 craft of all sorts were cut, dragging to safety the survivors of the disaster. A score or more saved themselves by clinging to the sides of Cornelius Vanderbilt's schooner-yacht.

ADMINISTRATION WILL NOT TAKE PART IN STRIKE

(By The Associated Press)
WASHINGTON, June 13.—Members of the White House stated today the administration is not contemplating any important movement or drastic action in the coal strike.

HARDING EXPECTS TARIFF BILL PASSED BEFORE THE HONUS

WASHINGTON, June 13.—White House officials said today that President Harding hopes and expects the tariff bill will be passed prior to the soldier bonus legislation.

EXPLOSION IN TANK OF AMMONIA KILLS FOUR

DETROIT, June 13.—The explosion of an ammonia tank at the Parker Webb Packing Company here today killed four employees and damaged the plant so badly it will be closed for several days.

The Herald for Post Cards.

PERSONALS

Roy Howard, the bard of Pahokee is here for the summer, after spending the past few months at the banana plantation on Lake Okeechobee.

Mr. and Mrs. Arthur Middleton have returned from a wedding tour in points on the east coast and their many friends are congratulating them upon their safe arrival.

B. A. Howard, who owns lots of that muck land and about all the hot air around Okeechobee, is in town, getting acquainted with his family and meeting his host of friends here.

Soundings have been made for the First National Bank building and the excavation will commence at once. Much care had to be exercised in making the soundings as the building will be six stories in height and will require a good foundation.

The many friends of P. M. Boyd will be glad to hear that he is able to sit up and will soon be out again. He has been too ill to get around and his friends all over Sanford have missed him greatly especially the Sunday school classes and the members of the Methodist church.

George P. Dickson, southern state representative of the Lexington Motor Co., is in Sanford. Mr. Dickson has his headquarters in Atlanta and is here to help promote the sale in this section of this well known car. He is the guest of the B. & O. Motor Company.

Messrs. Thompson and Newkirk, Florida State distributors of the Hupmobile, are in the city to attend a meeting of Hup dealers. They came down from Jacksonville in their yacht, Huplong, that is anchored near the lake front. They are guests of the local Hup dealers, the B. & O. Motor Company during their stay here.

The Coca Cola Bottling Company of this city has recently installed one of the latest electrically driven bottling machines on the market. It is entirely automatic in action, much faster than the old style machines and Manager Parish is very proud of it. The public is cordially invited to call and see the new machine in operation.

Volie Williams returned this morning from Jacksonville where he went to get some cars and among them was one of the new Sport Models of the Eight Oldsmobile. This is the car that caused a furor here and elsewhere in the state and Volie has already had several customers for the sport model. It is certainly a good looking model.

Man named Carrol had a bad accident on the Sanford Orlando road yesterday when a car coming out of a side road swung almost into him and he had to turn off the road quickly overturning his car. He broke the Dodge up a trifle, but being a Dodge it escaped bad injury and Carrol escaped with a few bruises and scratches. Another accident occurred on Celery avenue when a negro driver draped his Lizzie around a telegraph pole causing much pain and bruises to all the Lizzies present.

HAVE RADIO RECEIVING STATION

The Hof Mac Battery Co., is not going to put in a radio receiving station, they already have it. They are good news for the amateurs in Sanford for Billy Hofmann is a good fellow and is ready to help any radio enthusiast with his troubles.

Billy is very much interested in the Radio Amateur and will in the near future have his Radiophone relay in operation whereby the radio fan will not have to install an expensive outfit but can catch all the big broadcast concerts as they are received and relayed by Billy.

Billy gives a cordial invitation to all persons old and young if interested in radio to visit him at the Hof Mac Battery Co., where he will gladly explain his outfit and give any information concerning radio.

MRS. MALLORY WINS

LONDON, June 12.—Mrs. Molla Burstedt Mallory, the American woman tennis champion, won the North London tennis championship in the women's singles Saturday afternoon defeating Mrs. Beames, the English star 6-3, 6-4, 6-4, displaying the best form she has shown since her arrival.

CITRUS COUNTY BAD MAN SLAIN BY DEPUTY WHILE REACHING FOR HIS GUN

INVERNESS, June 12.—(Special.)—Ingils Thompson, one of the most notorious characters of Citrus county was shot and killed early yesterday morning by Deputy Sheriff Will Flowers near Lecanto.

The deputy was at the head of a posse trying to effect the capture of Thompson, who had broken into and robbed the store of B. A. King at Lecanto Thursday night of valuables to the amount of \$150 to \$200.

Deputy Sheriff Flowers and the posse found Thompson asleep on a porch at the home of Dan Hodge, and ordered him to throw up his hands. Instead of complying with the order of the deputy, Thompson reached for his gun, when Flowers shot, killing Thompson instantly. The deputy sheriff was exonerated.

TWO FLYERS HURT AT AUGUSTA, GEORGIA

AUGUSTA, Ga., June 12.—Major Brainard, marine corps officer and Lieutenant R. T. Aldworth of the air service narrowly escaped death when a Dellaviland airplane in which they were traveling crashed to the ground at Camp Hancock landing late yesterday afternoon. Both officers are at the University hospital, badly injured.

Major Brainard sustained a broken arm and cuts and bruises about the face. The two officers flying from Washington to San Antonio, landed here Friday to replenish their oil supply. In attempting a landing the machine crashed into a ditch near the landing field and was damaged. Neither of the aviators were hurt. A machine with parts for the wrecked ship arrived here from Montgomery Saturday and the broken parts were put in yesterday morning.

The wrecked machine is a Dellaviland pursuit model, with a powerful motor built for speed.

SANFORD'S TEMPERATURE

Yes, it was 95 yesterday and we believe it. Even soaking yourself in the lake did not bring down the temperature any and early this morning it was just simply hot. We do not deny it and we hereby prove the temperature report by ascertaining that it is hot. However, the weather report says showers all during the week and with the showers we can look for cooler weather. This will be about all for today and if you can think of anything else let us know. 5:10 A. M. JUNE 12, 1922
Maximum 95
Minimum 72
Range 23
Barometer 30.10
Calm and clear.

Don't mention the thermometer.

Because it only makes the weather seem hotter.

But then Boston is suffering from heat prostrations and Florida is not.

Our court room needs more seats since the ladies have taken such an interest in court matters.

A fund of four millions has been raised for the retired Y. M. C. A. auxiliaries of North America. Well, they need it.

If the American Federation of Labor recognizes the soviet government of Russia the decent people of the United States should never recognize the American Federation of Labor again.

A law will be drafted for the next legislature that will prevent any more fake stock schemes from being foisted upon the unsuspecting public in Florida. However, there is always a lot of simps that will give away their money to fakirs no matter what you do.

The public is getting more morbid all the time instead of improving and just as we thought they were getting better they get worse. Court scenes and trials have a strange fascination for people and especially the women. The men were bad enough before but the women are going them one better. And yet one should always remember that they may have the same trouble in their own family some day. "And the greatest of blessings is charity" and yet how many practice it?

During the recent campaign "Bob" Eaton, candidate for nomination for railroad commissioner declared it to be his purpose to make the commission of real service to the people and if satisfactory results were not evident within a year, he would lead a movement to have the commission abolished by the next legislature, thereby saving to the taxpayers the \$40,000 per year appropriation for its maintenance. At this writing it appears that Mr. Eaton will have the opportunity to "make good."—Tampa Times.

CONSERVATION OF FISH AND GAME

Florida's fish and game laws need revising. A state license should be required for hunting and fishing for both residents and non-residents. At the present time no fishing license is required. This, together with the fact that existing laws against poaching are being continually violated, is the cause of the rapid depletion of the fish of our fresh waters. The finest big mouth bass fishing section of the country is being despoiled. No limits are observed, or ever have been other than that restriction set by the sense of propriety of the angler, and some anglers are hogs, though the waters are now few where any one can play the hog in a day's fishing. In Maine the bass limits is ten a day and in some lakes the restrictions are

WELAKA BLOCK

four per person per day and none may be taken less than 14 inches in length. No one may fish within a certain distance of an inlet or outlet, never anywhere with a net. Maine, as most other states, maintains a hatchery and streams and lakes are continually restocked. Maine knows the value of her sport fishing as an attraction for tourists, Florida has never appreciated it. Some day she will wake up and realize her loss. The hunting license in Florida is \$25 per county for non-residents, which is entirely too high and too restrictive. A fee of \$25 per season permitting the non-resident to hunt anywhere in the state would not be too bad, though it is more than double charged by many of the states of the country, though some charge more. Oregon's non-resident license is \$10, that of Wyoming \$50, but it covers the state and not one county. The non-resident fishing license in most states is \$3.00.—Florida Grower.

FLORIDA CLEANS HOUSE

Florida, being prosperous at a time when many of the other states had not yet recovered from the business slump, was overrun with fraudulent stock promoters. Finally the Florida Bankers' Association got after the crooks. By an extensive campaign of newspaper publicity it has done much to get rid of the evil and protect Florida citizens and visitors from such exploitation. Now it is trying to supplement that good work by obtaining the passage of a drastic "blue sky" law with these provisions:

That permits shall be required for selling any form of stock in Florida, and no permit shall be granted to any agent who has not been a legal voter for at least three years.

That a report must be filed with the state authorities giving every detail of the project for which stock is issued, including organization expenses and other items of interest, and that a copy of this report shall be shown to every person to whom stock is offered.

That no permit shall be granted to anyone to sell stock on which a greater commission than 10 per cent is paid.

With such a law strictly enforced, life should be made harder for the fake securities people than it has been lately in most of the states. The Florida reformers would like to see the campaign taken up by the American Bankers' association, because it is in a position to handle the matter effectively on a national scale.—Pensacola News.

FARMING, PAST AND PRESENT

Time was when the farming business was a matter of wheat and corn, hogs and cattle, cotton and cane. In those early days there was very little of what is now known as scientific farming. The earth was fertile, and produced abundantly without tending it with fertilizers. The colleges devoted their time and attention to the study of the "dead languages," and gave never a thought to the problems of the farmer, to plow and phosphates as crop stimulants. In fact, there was quite a lively prejudice against "book farmin'," and the farmer who followed the books too closely was rather looked down upon by the real dirt farmers. But they weren't many of them to feel aggrieved. The farmer's garden was more of a joke than anything else. It was a place where a riotous growth of weeds contended for mastery with a sickly assortment of a few cabbages, collards and turnips. It may have started bravely in the early spring, but when the summer's work came on, with its demands for all the owner's time to save and harvest the crops, when the days were all too short for the work that had to be done, then the farm garden got but scant attention and was given over to the weeds. The farm gardens in those days contributed very little to the farm table. Of course there were exceptions, but that was the general rule.

There has been a great change in this regard in recent years. Agricultural colleges have been established to teach the old farmers who were born in the business and had followed it all their lives its first principles. Soils are analyzed and fertilizers are compounded to supply the missing elements of fertility. The prejudice against the scientific farmers had to give way before the results which they obtained. The boys took up the new methods and proved their value to their dads. The whole scheme of farming was changed. No longer was it confined to the raising of a few staple crops, such as their fathers had always raised. They branched out in new and strange lines, which they had formerly regarded with contempt.

It is shown by the department of agriculture in a recent report that vegetables grown on farms in the United States in 1921 had an estimated value of \$1,104,000,000. This was 15.7 per cent of the total value of all crops. The total estimated value of truck vegetables produced for sale was \$227,000,000. The total white potato crop had a farm value of \$385,

FARMING, PAST AND PRESENT

000,000, and the sweet potato of \$87,000,000. The tomato crop of 1921 had a farm value of \$60,000,000; cantaloupes, \$17,000,000; cucumbers, watermelons and cabbages each about \$15,000,000. Farm gardens, a new item in the vegetable list, had a value of \$405,000,000. Just think of the despoiled farm gardens of former years, producing in one season almost half a billion dollars in value.

Think of the millions of fields that the farmers have left unexploited, especially in the south, where soil and climate combine to make the growing of vegetables pleasant and profitable. Even in Florida the farmers were driven into it by the "big freeze," which it was believed had killed the orange industry for all time, a belief which the years have proven false. The vegetable farmers are not at the mercy of the bucketshop speculators who play merry tag with the prices of the grain farmer's products, but they have in their place the freight men and the commission men, who seem disposed at times to take an undue proportion of the growers' profits. But the vegetable farmer is studying the markets closer than ever before, and he is joining with his brother farmers in co-operative associations which will eliminate many of his troubles. Intensive farming on small acreage is the farming of the future. —Tampa Times.

FARMING, PAST AND PRESENT

ness move he studies every detail. The results he has achieved are ample proof of unusual foresight. He recognizes the dangers business is facing in gathering millions of laborers into our great cities where they are dependent upon their daily jobs. He wants to get away from all this by moving his plants to the open country, where life is simpler and where the workers will have something besides the weekly pay envelope to think about. He realizes, moreover, that high freight rates have dislocated industry and that many industries must be relocated to continue in business. Since changes must be made why not do a complete job? He believes training thousands of farm people in manufacturing industries will help put better business methods into agriculture and help bridge the gulf that separates farm and city life.

The ultimate success of his plan seems to depend upon whether or not agriculture can be made a short-time job. On this assumption many people will not agree with him, and for what appear to be very excellent reasons. But if he is right it means the beginning of a revolutionary change both in agriculture and in manufacturing. Whichever way his plan works out it will be interesting to watch the experiment.—The Country Gentleman.

FARMING, PAST AND PRESENT

ALL RECORDS BROKEN IN PERISHABLE SHIPMENTS. Why is South Florida more prosperous today than at any time in its history? Sixty-one thousand five hundred and twenty-two carloads of fruits and vegetables shipped out of this territory since the season began last September 15 is the answer. This against 52,027 carloads sent out during the same period last season a difference of 9,495 carloads in favor of this season. These figures embrace only carload shipments of fruits and vegetables and do not take into account any of the countless thousands of small shipments of fruit and vegetables. The average freight car is about fifty feet over all. Measured in that wise these 61,522 carloads of produce would make a train 582 1-2 miles long, or the airline distance from Tampa to Knoxville, Tenn. A freight train made up of fifty cars in "some train. Yet it would take in round numbers 124 such trains to haul the fruit and vegetables that

ness move he studies every detail. The results he has achieved are ample proof of unusual foresight. He recognizes the dangers business is facing in gathering millions of laborers into our great cities where they are dependent upon their daily jobs. He wants to get away from all this by moving his plants to the open country, where life is simpler and where the workers will have something besides the weekly pay envelope to think about. He realizes, moreover, that high freight rates have dislocated industry and that many industries must be relocated to continue in business. Since changes must be made why not do a complete job? He believes training thousands of farm people in manufacturing industries will help put better business methods into agriculture and help bridge the gulf that separates farm and city life.

The ultimate success of his plan seems to depend upon whether or not agriculture can be made a short-time job. On this assumption many people will not agree with him, and for what appear to be very excellent reasons. But if he is right it means the beginning of a revolutionary change both in agriculture and in manufacturing. Whichever way his plan works out it will be interesting to watch the experiment.—The Country Gentleman.

COMMERCIAL GROWTH OF SANFORD

By FLORENCE LAWSON, in Times-Union

Times-Union gave Sanford a glimpse of the following growth of the city as seen through the eyes of Florence Lawson, special writer for the Times-Union, who was sent to Sanford for that purpose:

When you see the cozy homes with wide streets and lawns shaded by tall, beautiful trees, you know that Sanford is a growing town.

Not merely houses, they are harboring happy families and well-being. You know that the homes for there is evidence of the cleanliness and effort—but in the flowers, trimmed hedges and shrub gardens each home possesses its grandeur or humbleness.

When you walk in the residential more you suspect that there is a secret society whose motto is: My home is my life.

It may begin at home—but of importance success begins at home and its environment is inspiring a new era of heights.

Wonder then that Sanford, a background of homes should show such rapid strides in commerce six months records and marks some unusual things.

Half year will witness the completion of several important buildings.

Each building, a two story building, is being erected on the east corner of First street, next to the bank, probably one of the best in Sanford. It will have a basement with thirty-two offices in every respect, even equipped with a sprinkler system. Its owner, is one of the leading citizens, a promoter and holder of Sanford. With characteristic San-fermness, he has planned to build with an eye to the future. Additional stories may be added to the building whenever the need arises.

Sanford has been laid out in a foresighted manner. The streets show that they are planned on being 500,000 strong, and when they do Sanford will be able to accommodate any number of more.

Each building, it is said, will cost \$75,000.

Building on the northeast corner of First and Park streets is owned by S. Paleston and L. A. Brumby. They are contemplating the erection of a business block and annex to the hotel. The old building is being torn down, but definite plans have not been finished for the building, which, it is estimated, will cost \$75,000.

Merriwether has had the Florida House torn down, and is erecting in its place a modern two-story block, with stores on the first floor and offices above. This building will cost between \$30,000 and \$40,000.

Merriwether is also one of the city's successful growers. The indication of Sanford's growth is the erection of the First National Bank building, on the south-

Business Continues Steady Improvement Throughout Country

(By The Associated Press)

NEW YORK, June 12.—Indications of industrial improvements, signs of a renewed easing in money rates and diverse testimony as to crop conditions are the features in business and finance of the past week. Commodity prices still show a firmer tone, retail trade is about what might be expected at this time of year, and the labor situation shows no decided change. Altogether, the picture continues to be one of gradual but fairly steady recovery from depression—a recovery in fact which on the whole exceeds expectations entertained earlier in the year.

From the industrial field, recent reports show that the steel plants are still operating at rates which compare favorably with the capacity operations before the war—even if those rates correspond to only seventy-five per cent of present capacity. Steel prices are firm and most of the companies appear to be making modest profits. The value of building contracts let in twenty-seven northern states during May set a new high record for all time and was six times greater than the monthly average during 1914.

Automobile production during May also exceeded all previous records, while the steel companies report increased demand from manufacturers of agricultural implements. Railroad car loadings rose in the week ending May 27 to a level comparable to that prevailing before the coal strike and the movement of merchandise was sixteen per cent greater than the same week a year ago. Orders for railroad equipment continue to be placed in satisfactory volume.

Latest reports from the northwest indicate, meanwhile that the prospects are for a good wheat crop.

Prices of wheat for future delivery have, to be sure, declined sharply in the last few weeks, but a liberal supply of grain at fair prices is considered to hold out better prospects for general business than a short crop at high prices.

On this basis, cotton prospects are not so encouraging. Floods have washed out important growing areas in the southwest while the mild winter and wet spring have aided the boll weevil and delayed planting. Further rains during the past week in many parts of the belt causing something resembling a short crop. As a result, prices jumped to the highest since last November, the leading futures crossing 22 cents.

Whether prices will rise further or discourage consumption remains to be seen. It is clear, however, that the consequences of a short crop will be mitigated by the effect on the carry-over, which has been reduced to approximately normal proportions.

PLANES KILL SPEECH HEFLIN WOULD CHECK ALL AIR MANEUVERS

(By The Associated Press)

WASHINGTON, June 13.—Interrupted twice Sunday by circling airplanes while making an address at the Elk's flag raising exercises, Senator Heflin, Democrat of Alabama, announced today he would introduce in congress to establish a complete system of air traffic regulations.

There is understood to be strong sentiment in congress for regulations, such a proposal by Heflin since President Harding was interrupted in a like manner during his address at the Lincoln memorial dedication.

BUILDING & LOAN NEEDS ONE HUNDRED AND FIFTY THOUSAND DOLLARS FOR PRESENT APPLICATIONS TO BUILD HOMES.

You will find Billy Hoffman at the Hof-Mac Battery Co. as usual. 66-6tc

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.—Adv.

Notice of Sale of \$325,000.00, 6 per cent Improvement Bonds of the City of Sanford, Florida, of an issue of Bonds in the Sum of \$625,000.00 authorized at an Election held in the City of Sanford, Florida, on May 17th, 1922.

Notice is hereby given that sealed proposals will be received by C. E. Henry, S. O. Chase and Forrest Lake as the City Commission of the City of Sanford, Florida, and as Ex-officio Bond Trustees of the City of San-

ford, Florida, in connection with the issue of bonds in the sum of \$625,000, authorized at an election held in the City of Sanford, Florida, on the 17th day of May A. D. 1922, on or before the expiration of thirty days from the first publication of this notice, and up to and until six o'clock P. M. of the 22nd day of June A. D. 1922, at the City Hall, in the City of Sanford, Florida, for the purchase of \$325,000.00 of an issue of bonds of the City of Sanford, Florida, in the sum of \$625,000.00, authorized at an election held in the City of Sanford, Florida, on the 17th day of May A. D. 1922. Said bonds to bear interest at the rate of six per centum per annum, and are to be dated July 1st, 1922; interest payable semi-annually on July 1st and January 1st of each year, both principal and interest payable at New York, in the State of New York; said bonds being of the denomination of \$1,000.00 each and are to be bonds of said issue numbered from 301 to 625; all of said bonds aggregating the said sum of \$325,000.00 to mature on July 1st 1952; said bonds to be sold subject to the approving opinion of John C. Thomson, obtained by the City Commission of the City of Sanford, Florida. All bids must be accompanied by a certified check for one and one-half per cent. of the amount of the bonds to be sold. The said C. E. Henry, S. O. Chase and Forrest Lake, as the City Commission of Sanford, Florida, and as said Ex-officio Bond Trustees of the City of Sanford, Florida, reserve the right to reject any and all bids. Proposals should be addressed to C. E. Henry, S. O. Chase and Forrest Lake, as the City Commission of Sanford, Florida, and as Ex-officio Bond Trustees of the City of Sanford, Florida, at Sanford, Florida.

WITNESS our hands as the City Commission of Sanford, Florida, and as Ex-officio Bond Trustees of the City of Sanford, Florida, and the seal of said City, this 22nd day of May A. D. 1922.

C. E. HENRY,
S. O. CHASE,
(SEAL) FORREST LAKE,
As the City Commission of Sanford, Florida, and as Ex-officio Bond Trustees of the City of Sanford, Florida.

Attest:
L. R. PHILLIPS,
Clerk of the City of Sanford, Florida.
5:22:29; 6-5-12, 19.

In the Circuit Court, Seventh Judicial Circuit, in and for the County of Seminole, Florida.—In Chancery

CITATION

W. W. Pevchouse, Complainant.

The unknown heirs, devisees, grantees, or others claiming under Joseph Finegan, deceased, James H. Paramore, deceased, James R. Finegan, deceased, John D. Bellechasse, deceased, and J. Rutledge Finegan, deceased. Defendants.

To: The unknown heirs, devisees, grantees or others claiming under Joseph Finegan, deceased, James H. Paramore, deceased, James R. Finegan, deceased, John D. Bellechasse, deceased, and J. Rutledge Finegan, deceased, and all parties claiming an interest in the following described property situated, lying and being in Seminole County, Florida, to-wit: Lots 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, REFUSED TO ISSUE WRITS FOR VIOLATORS OF THE SUNDAY LAW

(By The Associated Press)

Developments in the question of violators of the Sunday laws, Monday morning, were as follows: Sheriff Will C. Spencer compiles list of persons violating the law. This list includes many prominent men. Sheriff Spencer makes request of County Judge Julian L. Hazard for warrants with which to arrest the alleged violators.

County Judge Julian L. Hazard refuses to grant the warrants and issues a rather vehement statement, printed below.

Sheriff Spencer got him one better and places the entire matter, including the list of alleged violators and the refusal of Hazard, also Hazard's statement giving his reasons for refusing to issue the warrants, in the hands of the grand jury.

Sheriff Spencer makes a statement regarding his attitude of Hazard's refusal to issue warrants.

County Solicitor Morris M. Given has nothing to say as the question of the warrants must be handled through the county judge before they are sent to criminal court for prosecution.

The question now confronting the people is, "will the grand jury take cognizance of the fact that Sheriff Will C. Spencer is making an effort to enforce the laws and order Judge Hazard to issue the warrants, or will they set the entire proceedings on the shelf?"

The list of alleged law violators includes all the picture houses in Tampa, excepting Ybor City and West Tampa; many of the filling stations, and a large number of the business houses, which were open in violation of the "blue Sunday laws."—Tampa Times.

FIVE DAYS IN JAIL

(By The Associated Press)

RICHMOND, Va., June 13.—Denied a pardon by Gov. E. Lee Trinkle Frank Stuart, a member of the Alexandria, Va., bar, who recently figured prominently in connection with divorces in Virginia, today will begin serving a five day sentence in jail for contempt of court.

AGNES G. BERNER, Chairman

\$500 Paid out for an Accident

You are driving along the road, another car on side road crashes into you, damage to your car \$500.00, the other fellow entirely to blame, owns nothing but his car, with a mortgage on that and no insurance. It's up to you to stand the entire loss. Unless you have a Belt Collision policy on your car. A collision policy will cost you from \$17.50 to \$10 a year for the \$25 deductible policy, according to the price of your car. In this case the Belt would pay you \$475 of your loss and you would be out just \$25 and still have your insurance in force for the future. It's all right to take a chance on small losses but there are few men rich enough to run the risk of a large one. Get a Belt policy now and be protected.

Don't mention the thermometer.

Because it only makes the weather seem hotter.

But then Boston is suffering from heat prostrations and Florida is not.

Our court room needs more seats since the ladies have taken such an interest in court matters.

A fund of four millions has been raised for the retired Y. M. C. A. secretaries of North America. Well, they need it.

If the American Federation of Labor recognizes the soviet Government of Russia the decent people of the United States should never recognize the American Federation of Labor again.

A law will be drafted for the next legislature that will prevent any more fake stock schemes from being foisted upon the unsuspecting public in Florida. However, there is always a lot of alms that will give away their money to fakirs no matter what you do.

The public is getting more morbid all the time instead of improving and just as we thought they were getting better they get worse. Court scenes and trials have a strange fascination for people and especially the women. The men were had enough before but the women are going them one better. And yet one should always remember that they may have the same trouble in their own family some day. "And the greatest of blessings is charity" and yet how many practice it?

During the recent campaign "Bob" Eaton, candidate for nomination for railroad commissioner declared it to be his purpose to make the commission of real service to the people and if satisfactory results were not evident within a year, he would lead a movement to have the commission abolished by the next legislature, thereby saving to the taxpayers the \$40,000 per year appropriation for its maintenance. At this writing it appears that Mr. Eaton will have the opportunity to "make good."—Tampa Times.

CONSERVATION OF FISH AND GAME

Florida's fish and game laws need revising. A state license should be required for hunting and fishing for both residents and non-residents. At the present time no fishing license is required. This, together with the fact that existing laws against poisoning are being continually violated, is the cause of the rapid depletion of the fish of our fresh waters. The finest big mouth bass fishing section of the country is being despoiled. No limits are observed, or ever have been other than that restriction set by the sense of propriety of the angler, and some anglers are hogs, though the waters are now few where any one can play the hog in a day's fishing. In Maine the bass limits is ten a day and in some lakes the restrictions are

Courtesy and Prompt Service Our Motto

DEANE TURNER

Phones 497-498 WELAKA BLDG

four per person per day and none may be taken less than 14 inches in length. No one may fish within a certain distance of an inlet or outlet, never anywhere with a net. Maine, as most other states, maintains a hatchery and streams and lakes are continually restocked. Maine knows the value of her sport fishing as an attraction for tourists, Florida has never appreciated it. Some day she will wake up and realize her loss. The hunting license in Florida is \$25 per county for non-residents, which is entirely too high and too restrictive. A fee of \$25 per season permitting the non-resident to hunt anywhere in the state would not be too bad, though it is more than double charged by many of the states of the country, though some charge more. Oregon's non-resident license is \$10, that of Wyoming \$50, but it covers the state and not one county. The non-resident fishing license in most states is \$3.00.—Florida Grower.

FLORIDA CLEANS HOUSE

Florida, being prosperous at a time when many of the other states had not yet recovered from the business slump, was overrun with fraudulent stock promoters. Finally the Florida Bankers' Association got after the crooks. By an extensive campaign of newspaper publicity it has done much to get rid of the evil and protect Florida citizens and visitors from such exploitation. Now it is trying to supplement that good work by obtaining the passage of a drastic "blue sky" law with these provisions:

That permits shall be required for selling any form of stock in Florida, and no permit shall be granted to any agent who has not been a legal voter for at least three years.

That a report must be filed with the state authorities giving every detail of the project for which stock is issued, including organization expenses and other items of interest, and that a copy of this report shall be shown to every person to whom stock is offered.

That no permit shall be granted to anyone to sell stock on which a greater commission than 10 per cent is paid.

With such a law strictly enforced, life should be made harder for the fake securities people than it has been lately in most of the states. The Florida reformers would like to see the campaign taken up by the American Bankers' association, because it is in a position to handle the matter effectively on a national scale.—Pensacola News.

FARMING, PAST AND PRESENT

Time was when the farming business was a matter of wheat and corn, hogs and cattle, cotton and cane. In those early days there was very little of what is now known as scientific farming. The earth was fertile, and produced abundantly without tending it with fertilizers. The colleges devoted their time and attention to the study of the "dead languages," and gave never a thought to the problems of the farmer, to potash and phosphates as crop stimulants. In fact, there was quite a lively prejudice against "book farmin'," and the farmer who followed the books too closely was rather looked down upon by the real dirt farmers. But they weren't many of them to feel aggrieved. The farmer's garden was more of a joke than anything else. It was a place where a riotous growth of weeds contended for mastery with a sickly assortment of a few cabbages, collards and turnips. It may have started bravely in the early spring, but when the summer's work came on, with its demands for all the owner's time to save and harvest the crops, when the days were all too short for the work that had to be done, then the farm garden got but scant attention and was given over to the weeds. The farm gardens in those days contributed very little to the farm table. Of course there were exceptions, but that was the general rule.

There has been a great change in this regard in recent years. Agricultural colleges have been established to teach the old farmers who were born in the business and had followed it all their lives its first principles. Soils are analyzed and fertilizers are compounded to supply the missing elements of fertility. The prejudice against the scientific farmers had to give way before the results which they obtained. The boys took up the new methods and proved their value to their dads. The whole scheme of farming was changed. No longer was it confined to the raising of a few staple crops, such as their fathers had always raised. They branched out in new and strange lines, which they had formerly regarded with contempt.

It is shown by the department of agriculture in a recent report that vegetables grown on farms in the United States in 1921 had an estimated value of \$1,104,000,000. This was 15.7 per cent of the total value of all crops. The total estimated value of truck vegetables produced for sale was \$227,000,000. The total white potato crop had a farm value of \$386,

MICKIE SAYS

SOMETIMES FOLKS BRING IN A WRITE-UP OF SOME EVENT AT THE LAST MINUTE, AFTER WE GOT AN ACCOUNT WRITTEN AND IN TYPE! THEN THEY WONDER WHY THEIR WRITE-UP NEVER WENT IN THE PAPER! OUR MOTTO IS "GET HER COPY IN EARLY!"

CHARLES SCHMIDT

nessa move he studies every detail. The results he has achieved are ample proof of unusual foresight.

He recognizes the dangers business is facing in gathering millions of laborers into our great cities where they are dependent upon their daily jobs. He wants to get away from all this by moving his plants to the open country, where life is simpler and where the workers will have something besides the weekly pay envelope to think about. He realizes, moreover, that high freight rates have dislocated industry and that many industries must be relocated to continue in business. Since changes must be made why not do a complete job? He believes training thousands of farm people in manufacturing industries will help put better business methods into agriculture and help bridge the gulf that separates farm and city life.

The ultimate success of his plan seems to depend upon whether or not agriculture can be made a short-time job. On this assumption many people will not agree with him, and for what appear to be very excellent reasons. But if he is right it means the beginning of a revolutionary change both in agriculture and in manufacturing. Whichever way his plan works out it will be interesting to watch the experiment.—The Country Gentleman.

ALL RECORDS BROKEN IN PERISHABLE SHIPMENTS.

Why is South Florida more prosperous today than at any time in its history?

Sixty-one thousand five hundred and twenty-two carloads of fruits and vegetables shipped out of this territory since the season began last September 15 is the answer.

This against 52,927 carloads sent out during the same period last season—a difference of 9,495 carloads in favor of this season.

These figures embrace only carlot shipments of fruits and vegetables and do not take into account any of the countless thousands of small shipments of fruit and vegetables.

The average freight car is about fifty feet over all. Measured in that wise these 61,522 carloads of produce would make a train 582 1/2 miles long, or the airline distance from Tampa to Knoxville, Tenn.

A freight train made up of fifty cars in "some train. Yet it would take in round numbers 124 such trains to haul the fruit and vegetables that

have been sent out of Florida this season.

And central Florida has only begun its real movement of vegetables, watermelons, and cantaloupes, and when these and what is left in south Florida have been moved, the total movement for the season from the state in perishable foodstuffs will not fall far short of 70,000 carloads.

Who says Florida does not produce in quantity? Moreover, this produce is grown at a time when it brings the highest market prices, having no competition in the North, East and Middle West.

Despite the generally expressed belief last summer that the 1921-22 crop of citrus fruits would far outstrip that of 1920-21, shipments thus far this season—and the season is almost at an end—total only 32,764 carloads as against 33,369 for the same period of the previous year. The hurricane of last October doubtless accounts for the loss. Grapefruit shipped this season totals 14,729 cars against 12,811 last season, while oranges total 18,032 against last season's 20,558.

Vegetable production—that is, carloads of mixed vegetables—shows a falling off, with 2,291 carloads against last year's 2,564. Lettuce also shows a decrease, with 2,285 cars against 2,657. Tomato shipments this year almost double last year's—8,468 cars against 4,894. Celery shows an increase—4,245 against 4,152.

This season for the first time in the history of Florida truck farming celery in carload lots was shipped from Florida to California, several solid cars of celery having been shipped from Sanford and Manatee river sections to San Francisco and Los Angeles.

Irish potatoes this season are double in quantity as compared with last season—4,410 cars against 2,314. Cabbage also multiplied 100 per cent—2,866 cars against 1,406. Of strawberries, 291 cars have been shipped, as against 105 last year. The watermelon season, just getting under way, bids fair to be a hummer, showing 978 carloads against 456. Big items of vegetables that were computed with the mixed shipments under the head of "vegetables" last year but which have grown to such extent that they have separate classification this year are: peppers, 654 cars; beans, 223 cars; cucumbers, 2,000 cars.—Sarasota Times.

THE COMMERCIAL GROWTH OF SANFORD

By FLORENCE LAWSON, in Times-Union

The Times-Union gave Sanford a page filled with views of the following glimpse of the growth of the city as seen by Florence Lawson, special writer of the Times-Union, who was sent to Sanford last week for that purpose:

At the moment you see the cozy set back on wide streets with lawns shaded by tall, beauteous trees you know that Sanford is a substantial, growing town.

They are not merely houses, they are harboring happy families and contented well-being. You know their homes for there is evidence of not only the cleanliness and comfort—but in the flowers and shrubs which are so plentiful in the gardens each home possesses despite its grandeur or humbleness.

Farther you walk in the residential section the more you suspect there must be a secret society whose motto is: My home is cozier than yours.

Importance success begins with a real home and its environment is the inspiration spurring a man to the heights.

Sanford, in its background of homes should make such rapid strides in commerce. Every six months records an improvement and marks some unusual work here.

The next half year will witness the completion of several important buildings.

The Meisch building, a two story building, is being erected on the east side of First street, next to the office, probably one of the best in Sanford. It will have stores with thirty-two offices, modern in every respect, even being equipped with a sprinkler system.

John Meisch, its owner, is one of Sanford's leading citizens, a prominent grower and holder of Sanford estate. With characteristic Sanfordiness, he has planned the building with an eye to the future.

Five additional stories may be added to the building whenever the occasion arises.

Sanford has been laid out in a most thoughtful manner. The streets show that they are planned now on being 500,000 strong, and when they do Sanford will be elastic enough to accommodate many more.

The Meisch building, it is said, will cost \$150,000. Talley, of Lakeland, is the architect.

The building on the northeast corner of First and Park streets is owned by Dr. S. Puleston and L. A. Brunson, who are contemplating the erection of a business block and annex to the Valdez hotel. The old building is being torn down, but definite plans have not been finished for the new building. It is estimated to cost about \$75,000.

Charles Merriweather has had the Magnolia House torn down, and is building in its place a modern two-story office block, with stores on the ground floor and offices above. This building will cost between \$30,000 and \$40,000.

Mr. Merriweather is also one of Sanford's successful growers. Another indication of Sanford's growth is the erection of the First National Bank building, on the south-

east corner of First and Park streets, which will cost approximately \$150,000, and be six stories high. The site alone is said to have cost \$30,000.

The banking space will cover 50x180 feet, and without a doubt this will be one of the finest bank buildings in the state. The New York architects, Mowbray and Fussinger, have been engaged for the work. They excel in planning bank buildings, having contracted on that work, and are responsible for many fine bank buildings erected in Florida.

In addition two new garages are being built, one of them to be owned by the San Juan Garage Company, of Orlando.

O. P. Herndon is planning a motion picture house which promises to be one of the biggest in the South when completed.

An enthusiastic and aggressive chamber of commerce is in part responsible for many improvements. A bond issue of \$625,000 was voted and passed upon on May 17, \$60,000 of which will be used to build a new primary school and for remodeling the high school and renovating other school buildings.

Congested conditions made this necessary, and is another indication of Sanford's fast growth. \$15,000 has been set aside for a public library, and \$32,000 for sewerage improvements and extensions to subdivisions quickly springing up around Sanford. Plans have been made to pave ten additional miles of city streets, \$50,000 is to be spent on a yacht basin and municipal pier.

An eighteen-hole golf course is under construction, nine holes of which have been laid out and about ready for play.

Hitherto Sanford and celery have been synonymous—and although acres and acres of celery are planted and shipped, it is not the only means of livelihood as can be ascertained by its steady growth in commercial and other directions.

You will find Billy Hoffman at the Hof-Mac Battery Co. as usual. 66-61c

ORANGE COUNTY DAIRIES ORDERED CLOSED

Out of eighty-seven dairies which have been supplying milk to the city of Orlando, but twenty-nine met the requirements of the State Board of Health. Dairies which failed in the monthly inspections made by D. H. Osborn, state health officer, Wednesday and Thursday, have been ordered not to distribute milk until they meet the necessary requirements.

Jesse H. Hamilton, city food inspector, stated this morning that a good many of the dairies which failed in the scoring, were almost up to the standard and only a few requirements will have to be met to bring them to par, but in order to insure the health of the citizens and to assure Orlando and tourists of pure milk, it was necessary to close some of the dairies so that the owners could improve the premises.—Florida Post.

BUILDING & LOAN NEEDS ONE HUNDRED AND FIFTY THOUSAND DOLLARS FOR PRESENT APPLICATIONS TO BUILD HOMES.

Business Continues Steady Improvement Throughout Country

(By The Associated Press) NEW YORK, June 12.—Indications of industrial improvements, signs of a renewed easing in money rates and diverse testimony as to crop conditions are the features in business and finance of the past week. Commodity prices still show a firmer tone, retail trade is about what might be expected at this time of year, and the labor situation shows no decided change. Altogether, the picture continues to be one of gradual but fairly steady recovery from depression—a recovery in fact which on the whole exceeds expectations entertained earlier in the year.

From the industrial field, recent reports show that the steel plants are still operating at rates which compare favorably with full capacity operations before the war—even if those rates correspond to only seventy-five per cent of present capacity. Steel prices are firm and most of the companies appear to be making modest profits. The value of building contracts let in twenty-seven north-eastern states during May set a new high record for all time and was six times greater than the monthly average during 1914.

Automobile production during May also exceeded all previous records, while the steel companies report increased demand from manufacturers of agricultural implements. Railroad car loadings rose in the week ending May 27 to a level comparable to that prevailing before the coal strike and the movement of merchandise was sixteen per cent greater than the same week a year ago. Orders for railroad equipment continue to be placed in satisfactory volume.

Latest reports from the northwest indicate, meanwhile that the prospects are for a good wheat crop.

Prices of wheat for future delivery have, to be sure, declined sharply in the last few weeks, but a liberal supply of grain at fair prices is considered to hold out better prospects for general business than a short crop at high prices.

On this basis, cotton prospects are not so encouraging. Floods have washed out important growing areas in the southwest while the mild winter and wet spring have aided the boll weevil and delayed planting. Further rains during the past week in many parts of the belt causing something resembling a short crop. As a result, prices jumped to the highest since last November, the leading futures closing 22 cents.

Whether prices will rise further or discourage consumption remains to be seen. It is clear, however, that the consequences of a short crop will be mitigated by the effect on the carry-over, which has been reduced to approximately normal proportions.

PLANES KILL SPEECH HEFLIN WOULD CHECK ALL AIR MANEUVERS

(By The Associated Press) WASHINGTON, June 12.—Interrupted twice Sunday by circling airplanes while making an address at the Elk's flag raising exercises, Senator Hefflin, Democrat, of Alabama, announced today he would introduce in congress to establish a complete system of air traffic regulations.

There is understood to be strong sentiment in congress for regulations, such as proposed by Hefflin since President Harding was interrupted in a like manner during his address at the Lincoln memorial dedication.

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation. Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.—Adv.

Notice of Sale of \$325,000.00, 6 per cent Improvement Bonds of the City of Sanford, Florida, of an Issue of Bonds in the Sum of \$625,000.00 authorized at an Election Held in the City of Sanford, Florida, on May 17th, 1922.

Notice is hereby given that sealed proposals will be received by C. E. Henry, S. O. Chase and Forrest Lake as the City Commission of the City of Sanford, Florida, and as Ex-officio Bond Trustees of the City of San-

ford, Florida, in connection with the issue of bonds in the sum of \$625,000, authorized at an election held in the City of Sanford, Florida, on the 17th day of May A. D. 1922, on or before the expiration of thirty days from the first publication of this notice, and up to and until six o'clock P. M. of the 22nd day of June A. D. 1922, at the City Hall, in the City of Sanford, Florida, for the purchase of \$325,000.00 of an issue of bonds of the City of Sanford, Florida, in the sum of \$625,000.00, authorized at an election held in the City of Sanford, Florida, on the 17th day of May A. D. 1922. Said bonds to bear interest at the rate of six per centum per annum, and are to be dated July 1st, 1922; interest payable semi-annually on July 1st and January 1st of each year, both principal and interest payable at New York, in the State of New York; said bonds being of the denomination of \$1,000.00 each and are to be bonds of said issue numbered from 301 to 625; all of said bonds aggregating the said sum of \$325,000.00 to mature on July 1st, 1925; said bonds to be sold subject to the approving opinion of John C. Thomson, obtained by the City Commission of the City of Sanford, Florida. All bids must be accompanied by a certified check for one and one-half per cent. of the amount of the bonds to be sold. The said C. E. Henry, S. O. Chase and Forrest Lake, as the City Commission of Sanford, Florida, and as said Ex-Officio Bond Trustees of the City of Sanford, Florida, reserve the right to reject any and all bids. Proposals should be addressed to C. E. Henry, S. O. Chase and Forrest Lake, as the City Commission of Sanford, Florida, and as Ex-Officio Bond Trustees of the City of Sanford, Florida, at Sanford, Florida.

WITNESS our hands as the City Commission of Sanford, Florida, and as Ex-Officio Bond Trustees of the City of Sanford, Florida, and the seal of said City, this 22nd day of May A. D. 1922.

C. E. HENRY, S. O. CHASE, (SEAL) FORREST LAKE, As the City Commission of Sanford, Florida, and as Ex-Officio Bond Trustees of the City of Sanford, Florida.

Attest: L. R. PHILIPS, Clerk of the City of Sanford, Florida.

5:22:23; 6:5,12,19.

In the Circuit Court, Seventh Judicial Circuit, in and for the County of Seminole, Florida.—In Chancery

CITATION W. W. Pevhouse, Complainant, vs. The unknown heirs, devisees, grantees, or assigns, claiming under Joseph Finegan, deceased, James B. Paramore, deceased, James R. Finegan, deceased, John D. Bellechasse, deceased, and J. Rutledge Finegan, deceased, Defendants.

To: The unknown heirs, devisees, grantees, or assigns claiming under Joseph Finegan, deceased, James B. Paramore, deceased, James R. Finegan, deceased, John D. Bellechasse, deceased, and J. Rutledge Finegan, deceased, or otherwise, and against all parties whatsoever claiming any interest in the following described property situated, lying and being in Seminole County, Florida, to-wit: Lot 6 of M. M. Smith's 3rd Sub-division, according to the plat thereof duly recorded in the public records of Seminole County, Florida, in Plat Book 1 at page 86, being a part of Section 28, Township 19 South, Range 20 East; It appearing from the sworn Bill of Complaint filed in this cause that J. D. Bellechasse, J. B. Paramore, James B. Paramore, James R. Finegan, deceased, and J. Rutledge Finegan, deceased, are now deceased; that the names of the unknown heirs, devisees, grantees and assigns claiming under the said J. D. Bellechasse, deceased, Joseph Finegan, deceased, James B. Paramore, deceased, James R. Finegan, deceased, and J. Rutledge Finegan, deceased, are unknown; and that complainant fears there are other parties who have or claim to have some right, title or interest in the lands hereinabove described.

Now THEREFORE any and all parties having, or claiming any right, title or interest in and to the lands hereinabove described under John D. Bellechasse, deceased, Joseph Finegan, deceased, James B. Paramore, deceased, James R. Finegan, deceased, and J. Rutledge Finegan, deceased, otherwise, and all parties claiming an interest in the property to which relief is sought, are hereby required to be and appear before our said court at the Court House in Sanford, Florida, on the 14th day of September, A. D. 1922, and then there make answer to the Bill of Complaint exhibited against said unknown parties, otherwise a Decree pro Confesso will be entered against said unknown parties.

It is ordered that this notice be published in the Sanford Herald, a newspaper published in Seminole County, Florida, once a week for twelve (12) weeks as to the unknown parties defendant.

Witness my hand and the seal of the said Circuit Court on this 3rd day of June A. D. 1922.

(SEAL) E. A. DOUGLASS, Clerk of the Circuit Court, Seminole County, Fla. GEORGE O. HEHRING, Solicitor and Counsel for Complainant. June 5-12-19-26; July 3-10-17-24-31; Aug 7-14-21-28.

REFUSED TO ISSUE WRITS FOR VIOLATORS OF THE SUNDAY LAW

Developments in the question of violators of the Sunday laws, Monday morning, were as follows: Sheriff Will C. Spencer compiles list of persons violating the law. This list includes many prominent men.

Sheriff Spencer makes request of County Judge Julian L. Hazard for warrants with which to arrest the alleged violators.

County Judge Julian L. Hazard refuses to grant the warrants and issues a rather vehement statement, printed below.

Sheriff Spencer goes him one better and places the entire matter, including the list of alleged violators and the refusal of Hazard, also Hazard's statement giving his reasons for refusing to issue the warrants, in the hands of the grand jury.

Sheriff Spencer makes a statement regarding his attitude of Hazard's refusal to issue warrants.

County Solicitor Morris M. Givens has nothing to say as the question of the warrants must be handled thru the county judge before they are sent to criminal court for prosecution.

The question now confronting the people is, "will the grand jury take cognizance of the fact that Sheriff Will C. Spencer is making an effort to enforce the laws and order Judge Hazard to issue the warrants, or will they set the entire proceedings on the shelf?"

The list of alleged law violators includes all the picture houses in Tampa, excepting Ybor City and West Tampa; many of the filling stations, and a large number of the business houses, which were open in violation of the "blue Sunday laws."—Tampa Times.

FIVE DAYS IN JAIL.

(By The Associated Press) RICHMOND, Va., June 13.—Denied a pardon by Gov. E. Lee Trinkle Frank Stuart, a member of the Alexandria, Va., bar, who recently figured prominently in connection with divorces in Virginia, today will begin serving a five day sentence in jail for contempt of court.

\$500 Paid out for an Accident

You are driving along the road, another car on side road crashes into you, damage to your car \$500.00, the other fellow entirely to blame, owns nothing but his car, with a mortgage on that and no insurance. It's up to you to stand the entire loss. Unless you have a Belt Collision policy on your car. A collision policy will cost you from \$17.50 to \$40 a year for the \$25 deductible policy, according to the price of your car. In this case the Belt would pay you \$475 of your loss and you would be out just \$25 and still have your insurance in force for the future. It's all right to take a chance on small losses but there are few men rich enough to run the risk of a large one. Get a Belt policy now and be protected.

WINNING AND SUCCEEDING

When you win some one else may have to be sorry. When you succeed all the world is glad. Old age comfort and affluence rarely come through chance. But success will come through thrift,—a little self-denial now in order to spend later on. A savings account with the Peoples Bank is the surest road to success.

The Peoples Bank of Santord

"Thrift does not require superior courage, nor superior intellect, nor any super-human virtue. It merely requires common sense in everyday working actions. It needs no fervent resolutions, but only a little patient self-denial. BEGIN is its device! The more the habit of thrift is practiced, the easier it becomes, and the sooner it compensates the self-denier for the sacrifices which it has imposed."

Cadet Aviator of Carlstrom Field Found by Indian

ARCADIA, June 12.—Treed by a panther and compelled to spend the greater part of a night in the branches of a cypress in the wilds of the Big Cypress country; devoured by mosquitoes; his clothes torn to tatters by the cruel teeth of the giant sawgrass of the south Florida swamps; without food for nearly forty hours—these were among the experiences of Cadet Raymond White, Carlstrom Field, aviator, whose plane crashed in the wilds of southeastern Lee county last Thursday about noon, and who returned to the flying field yesterday afternoon in one of the planes that had searched for him since Thursday.

Cadet White, whose home is at Pritchett, Tex., was making a practice flight from Carlstrom Field to Okeechobee City and return last Thursday part of the flight was completed without incident and Cadet White flying alone, started on the return trip, becoming turned around and losing his bearings and his sense of direction completely almost as soon as he started.

Instead of flying northwesterly White headed his plane almost due south. When at a point about forty miles southeast of Immokalee, Lee county, his fuel tank ran dry and his plane crashed. The plane was completely wrecked, but White escaped injury.

He stayed with the wrecked plane until the sun had sunk far enough to give him his direction. Then White started to walk toward the northwest looking for signs of human habitation but finding none.

With his clothing torn to tatters, and bitten almost beyond endurance by the swarms of mosquitoes in the swampy saw grass, darkness overtook White in the edge of the Big Cypress and he prepared to spend the night under a tree. During the night one of the huge panthers that inhabit that remote section chased the aviator into the branches of the tree, and there he remained until daylight drove the beast away.

Continuing his tramp, foodless and with only the swamp water to quench his thirst, young White was picked up Friday evening about 5 o'clock by a Seminole Indian and was taken to the camp of a small band of the southern Seminoles. There he spent the night, proceeding Saturday to another camp several miles distant. On the way two of the searching planes from Carlstrom Field were sighted but signals from the young aviator and his Seminole guide were not seen and the planes passed on.

Saturday afternoon the aviator and his Indian guide reached Kennedy Carson's ranch where the night was spent and White had the first meal of white man's grub he had eaten since Thursday morning. Early yesterday morning Carson started with White in a buckboard for Immokalee. On the way another searching plane was sighted and Carson and White signaling with a sheet, attracted the attention of the flyers, the plane making a landing.

White was taken aboard, and the plane made the return flight to Carlstrom Field, reaching there shortly before dark yesterday evening. White suffered no ill effects of his harrowing experience beyond a myriad bites of mosquitoes, the fright caused by the visit of the panther in the Big Cypress and the exhaustion of his walk, in which he covered at least fifty miles of the worst country in south Florida.

Four big Haviland planes requested by Commandment Royse of Carlstrom Field, from Montgomery, Ala., arrived at the field about 5 o'clock yesterday afternoon. The planes left Montgomery at daylight yesterday morning and made the trip of approximately 600 miles without incident.

TO AWARD 1922 U. D. C. SCHOLARSHIPS SOON

The United Daughters of the Confederacy has recently issued a bulletin in which is enumerated the scholarships granted and now offered by this organization, which in all for the years 1921 and 1922 are nearly one hundred. In the past year the U. D. C. has given over \$100,000 in scholarships, the educational work being a great feature of the U. D. C. activities.

Scholarships still open are as follows, and applications must be addressed to Mrs. A. R. Harper, Gainesville, chairman of the educational department of the Florida Division of the U. D. C.

1. Marion Institute, army and navy school, Marion, Ala., tuition scholarship, \$150.
2. Brenau College conservatory, Gainesville, tuition \$100.
3. St. Mary's School, Memphis, Tenn., tuition, \$100.
4. Springside School, Philadelphia, Pa., tuition \$300.

5. Lindenwood College, St. Charles, Mo., tuition, \$50.
6. Southern Methodist University, Dallas, Texas, tuition, \$75.
7. Alabama Technical Institute, Auburn, tuition, \$50.
8. Southwestern Presbyterian college, Clarksville, Tenn., tuition, \$75.
9. Columbia Institute, Columbia, Tenn., two tuition scholarships \$1100 each.
10. Trinity College Durham, N. C., two tuitions, \$50 each.
11. Centenary College, Cleveland, Tenn., tuition, \$75.
12. Eastern College Conservatory, Manassas, Va., two tuitions, \$100 each.
13. Harriman College, Harriman, Tenn., tuition \$75.
14. University of Oklahoma, Norman, Okla., tuition \$100.
15. University of South, Sewanee, Tenn., partial scholarship, \$90.
16. Lucy Cobb Institute, Athens, Ga., tuition, \$50.
17. University of Virginia, 22 tuition scholarships in academic course, value \$135 each.
18. University of Kentucky, Lexington, Ky., partial scholarship, \$25.
19. Randolph-Macon Academy, Fort Royal, Va., tuition, \$100.
20. Davidson College, Davidson, N. C., tuition, \$50.
21. Stonewall Jackson College, Abingdon, Va., partial, \$350.
22. Furman University, Greenville, S. C., tuition, \$60.
23. The Tabitha Jordan Curry Lee Scholarship, Judson College, Marion, Ala., tuition, \$50.
24. College of Charleston, Charleston, S. C., tuition, \$50.
25. Hector W. Church Memorial, scholarship, \$43.
26. S. A. Cunningham memorial scholarship, Geo. Penholy College for Teachers, Nashville, Tenn., \$130.
27. William and Mary College, Williamsburg, Va., tuition, \$50.
28. Hero scholarships, amounting to \$2,225.

Applicants must be lineal descendants of Confederate veterans, must be endorsed by president of the division and chairman of education of the state of U. D. C. Applicants must be prepared to pass entrance examination for the college for which they apply. Scholarships are available for four years or until student completes the course or fails to make proper grade, except University of Virginia scholarships, which are limited to two years.

KILLS HIS BROTHER

(By The Associated Press)
ANDERSON, S. C., June 13.—While standing in the yard of the home of his parents and holding a sleeping infant in his arms Peter Shaw was shot and killed here yesterday afternoon by his brother Eugene Shaw.

Another brother was present and fired several shots at Eugene as he ran through the yard after the shooting. Testifying before the coroner's jury, Bead Shaw said he told his brother not to shoot, saying he might hit the baby, but the brother ignored the warning. Eugene was later arrested at Belton. At the jail it was found he was suffering from a slight wound in the head.

Peter Shaw is survived by his widow and three small children.

In the Circuit Court of the Seventh Judicial Circuit of Florida, in and for the County of Seminole.

CITATION

City of Sanford, a Municipal Corporation, by and through G. E. Henry, S. O. Chase, and Forest Lake, composing the City Commission of the City of Sanford, Florida,

vs.
The State of Florida, ex rel Geo. A. DeCottes, State Attorney for the Seventh Judicial Circuit of the State of Florida.

To the Citizens and Tax-Payers of the City of Sanford, Florida:

Whereas, a petition has been filed in the above styled cause by the City of Sanford, Florida, by and through G. E. Henry, S. O. Chase, and Forrest Lake, comprising the City Commission of the City of Sanford, Florida, setting forth the fact that an election was held throughout the City of Sanford, Florida, on the 17th day of May, A. D. 1922, to determine whether that certain ordinance entitled "An Ordinance Providing for an Issue of Bonds by the City of Sanford, Florida, in the sum of \$625,000.00 for Municipal Purposes; the Proceeds Derived from the Sale Thereof to be Used for Building and Constructing a Municipal Building, for the Extension of Park Avenue Northward into the Waters of Lake Monroe, for the Extension of the Drainage and Sewerage System, for Constructing Paved, Macadamized or Other Hard Surfaced Streets, and for Funding and Paying the Outstanding, Floating Indebtedness of the City of Sanford, Florida, Evidenced by Vouchers Herebefore Issued and Authorizing the Mayor of the City of Sanford, Florida, to Call an Election to Determine the Question as to the Issuance

of Said Bonds for the Aforesaid Purposes," duly adopted and enacted on the 10th day of April, A. D. 1922, should be ratified, approved and confirmed by the electors of the City of Sanford, Florida, and whether the bonds provided for in said ordinance should be issued by the City of Sanford, Florida, in the manner and for the purposes in said ordinance provided and set forth, and

Whereas, said ordinance provides for the issuance of bonds by the City of Sanford, Florida, for municipal purposes in the total sum of \$625,000.00, said bonds to be of the denomination of \$1,000.00 each, bearing interest at the rate of six per centum per annum, interest payable semi-annually on the 1st days of July and January, said bonds to be numbered consecutively from 1 to 625, both numbers inclusive, said bonds to mature in the following manner, to-wit: bonds to be numbered from 1 to 300, both numbers inclusive, to be serial bonds; the maturity dates of bonds of this issue to be numbered from 1 to 300 both inclusive, to be as follows, to-wit:

- Bonds numbered from 1 to 30 to mature July 1st, 1925.
- Bonds numbered from 31 to 60 to mature July 1st, 1926.
- Bonds numbered from 61 to 90 to mature July 1st, 1927.
- Bonds numbered from 91 to 120 to mature July 1st, 1928.
- Bonds numbered from 121 to 150 to mature July 1st, 1929.
- Bonds numbered from 151 to 180 to mature July 1st, 1930.
- Bonds numbered from 181 to 210 to mature July 1st, 1931.
- Bonds numbered from 211 to 240 to mature July 1st, 1932.
- Bonds numbered from 241 to 270 to mature July 1st, 1933.
- Bonds numbered from 271 to 300 to mature July 1st, 1934.
- Bonds to be numbered from 301 to 625, both numbers inclusive, to bear the same date of maturity, bonds numbered from 301 to 625, both numbers inclusive to mature 30 years after the

date of the issuance thereof; this entire issue of bonds to be dated July 1st, 1922, both principal and interest of said bonds to be payable at some bank in the City of New York, State of New York, and

Whereas, a canvass of the returns of said election show prima facie that the result of said election was in favor of the issuance of the bonds aforesaid by the City of Sanford, Florida, and that the aforesaid ordinance was by said election duly ratified, approved and confirmed.

Now, Therefore, in pursuance of an order of the court herein made, notice is hereby given that the Citizens and tax-payers of the City of Sanford, Florida, are by said order required to be and appear before the Circuit Court of the Seventh Judicial Circuit of the State of Florida, on the 15th day of June, A. D. 1922, at 10:00 o'clock a. m. at DeLand, in the County of Volusia, State of Florida, then and there to show cause, if any they have, why said bonds should not be validated and confirmed.

WITNESS my hand and the seal of the Circuit Court of the Seventh Judicial Circuit of the State of Florida, in and for the County of Seminole, on this 23rd day of May, A. D. 1922.

(SEAL) E. A. DOUGLASS,
Clerk of the Circuit Court of the Seventh Judicial Circuit in and for Seminole County, Florida.
May 23-30; June 6-13

NOTICE OF SALE OF \$100,000.00, SEMINOLE COUNTY, FLORIDA, 6 PER CENT IMPROVEMENT BONDS

Notice is hereby given that sealed proposals will be received by the Board of County Commissioners of Seminole County, Florida, on or before the expiration of thirty days from the first publication of this notice and up to and until three o'clock p. m. on the 23rd day of June, A. D. 1922, at the Court House at Sanford, Seminole County, Florida, for the purchase of \$100,000.00, Seminole County, Florida, 6 per cent. improvement bonds. Said bonds bear interest at the rate of six per centum per annum, are to be dated July 1st, 1922, interest payable semi-annually on January 1st, and July 1st, of each year, both principal and interest payable at New York, in the State of New York, said bonds being of the denomination

of \$1,000.00 each, and all of said bonds to mature on July 1st, 1952. Said bonds to be sold subject to the approving opinion of John C. Thomson, obtained by the Board of County Commissioners of Seminole County, Florida. All bids must be accompanied by a certified check for one and one-half per cent of the amount of the bonds to be sold. The County Commissioners of Seminole County, Florida, reserve the right to reject any and all bids. The proposals for the purchase of said bonds should

be addressed to the Board of Commissioners of Seminole County, Florida, at Sanford, Florida. WITNESS my hand as Clerk of said Board on this the 23rd day of May, A. D. 1922.
(SEAL) E. A. DOUGLASS,
Clerk of the Board of Commissioners of Seminole County, Florida.

SEYMOUR, IND.

The dollars growers get from speculative buyers The high dollar received by the cooperating growers The dollars returned by commercial marketing agencies

Why sell fruit for less when you may get the high dollar?

When you sell grapefruit or oranges to a speculative or commercial buyer you get less than he believes it is worth.

The purchaser of your fruit expects to make a profit and the amount he agrees to pay you is figured just that much below the anticipated selling value.

More, the average privately owned marketing agency must sell the fruit it handles for lower prices than are obtained by the co-operating growers, in nine cases out of ten!

Why? Because the speculators and commercial buyers have not been able to establish the reputation for dependable grade, pack and quality that is had by Sealdsweet grapefruit and oranges in all the markets.

Because, too, the consuming public is slower to buy the comparatively unknown and non-advertised brands than it is to purchase citrus fruits sold under the nationally advertised and well-known Sealdsweet trademark.

When a speculative or strictly commercial marketing agency buys your fruit it must, therefore, pay you enough less for the crop than the expected worth at time of shipment to provide margins for price-cutting and for profit.

The growers' own marketing agency can sell the fruit of its members for the high dollar, because it deals in advertised goods, which consumers buy quickly, and because it sells under a brand that means something to the trade.

The Florida Citrus Exchange has no stockholders and pays no dividends nor profits. Every dollar realized for the fruit of the members, less actual cost of selling, is paid to them, through the sub-Exchange and local associations. They get what their oranges and grapefruit are worth when marketed.

Join the Florida Citrus Exchange and receive the high dollar for your fruit. Consult the manager of the nearest association or sub-Exchange or write the business manager at Tampa, Florida.

SOCIETY

MRS. FRED DAIGER, Society Editor, Phone 217-W

If you have any friends visiting you—if you are going anywhere or coming home, or if you are entertaining, write a postal card to this department, giving details, or telephone the item. It will be greatly appreciated.

CALENDAR

Wednesday—Reception at the Baptist Church, in honor of Dr. and Mrs. F. D. King and family at 8 P. M.

Wednesday—Mrs. Harry B. Lewis will entertain the members of the Merrie Matrons Bridge Club, at her home on Magnolia avenue at 9:30 A. M.

Wednesday—Mrs. B. W. Herndon will entertain at bridge at the Seminole Hotel in honor of Miss Louisa De Cottes, at 8 P. M.

Thursday—Circle No. 4 of the Methodist church will have a spend the day party at the home of Mrs. J. C. Hall on Celery avenue.

Miss Norma Griffin of Kissimmee was the week-end guest of Miss Sarita Lake.

Miss Carolyn Spencer left this afternoon for Gainesville where she will attend summer school.

William Mallem left for Gainesville today where he will attend the University Summer School.

Miss Sarita Lake and her house guests left yesterday afternoon for Pass-a-Grille where they will attend a house party.

Miss Myrtle Warner of Daytona and Mr. Herbert Masters of Port Orange were guests of Miss Zeta Davidson on Sunday.

Mr. and Mrs. H. L. Gibson, Mrs. Allen Jones and Misses Leola Evans and Sadie Sanders motored to Daytona Beach yesterday.

Mrs. Claude Howard, Miss Mary Howard and Mrs. Synmea, Sr., leave tomorrow for Michigan, where they will spend the summer.

Mrs. Lake, Sr., who has been spending the winter with her son, Mr. Forrest Lake on Park avenue, has left to visit her other son in Jacksonville.

Jack Holland who has been the guest of Walter Connelly, for the past week, left yesterday for St. Petersburg, where he will open a law office.

Mr. Francis Hoskins of Orlando who has been visiting this week his uncle, Mr. C. M. Berry of the West Side, has left to visit his mother, Mrs. Vivian of Tallahassee.

Dr. and Mrs. L. R. Phillips, Misses Agnes Dumas and Marion Phillips and Raymond Phillips and Miss Lillie Farnsworth, motored to Daytona Beach yesterday afternoon.

In compliment to Miss Dorothy Rumph, who has just returned from the Woman's College at Tallahassee Fla., Miss Agnes Dumas entertained at a swimming party at Palm Springs yesterday afternoon.

William Wadbrook, the second son of Mr. E. E. Wadbrook of our Sanford Country and Golf Club, entered the U. S. Naval Academy at Annapolis, Md. This makes two sons of Mr. Wadbrook now at Annapolis.

Dr. and Mrs. Ben Caswell and guests Misses Anna Lou and Katherine Huff and Winnette Manning, Mr. and Mrs. J. D. Woodruff and Howard P. Smith were a congenial party motoring to Daytona Beach yesterday afternoon.

Dr. Sheldon M. Morris, Mrs. Lottie Dempsey, Miss Marjorie Dempsey and D. J. Haley of Jacksonville motored from Jacksonville yesterday and are the guests of the former's sister, Mrs. J. Joe Harrold. Dr. Morris and Mr. Haley and Miss Dempsey left this morning for Clearwater where Dr. Morris was called by the illness of his father, W. M. Morris. They will also go to Sarasota, to inspect his large orange grove. Miss Dempsey going on to Tampa, where she will visit a few days before going to Pass-a-Grille to join a house party. Mrs. Dempsey will spend a few

days here with her sister, Mrs. Harrold.

LUCKY THIRTEEN BRIDGE CLUB.

An enjoyable social event of yesterday, was the morning bridge party given by Mrs. F. E. Roumillat, at her lovely home on Palmetto avenue, when she entertained the members of the Lucky Thirteen Bridge Club.

Quantities of spring flowers, adorned the various rooms where the card tables were arranged.

The game of bridge proved most interesting, and when scores were counted, it was found that Mrs. David Caldwell held high score among the club members, and was awarded a dainty bouffant cap, while the high score prize, among the guests, a bottle of toilet water, was presented to Mrs. G. Davis Hart.

Following the awarding of the prizes, the hostess served a delicious ice course.

DEEN-WILLIAMS

The following announcements have been received:

Mrs. Thomas Andrew Williams announces the marriage of his daughter Ora Estelle to

Mr. John Cook Deen on Monday the twelfth of June nineteen hundred and twenty-two Jacksonville, Florida.

At home after July first at 901 Magnolia avenue, Sanford.

ST. AGNES GUILD

The members of the St. Agnes Guild held a splendid meeting yesterday afternoon at the home of Mrs. Archie Betts on Palmetto avenue.

Several matters of importance were discussed during the business session among them being plans for bazaar, helping with the covering of the church. It was decided that the Guild would meet during the summer as usual, making all meetings social. Plans were made and perfected for a picnic to be given the members, next Monday at Lake Mary.

At the conclusion of business, the hostess served an ice course. Among the members present yesterday were Messdames, A. W. Lee, W. M. Belding, Clarke Leonard, A. Zinner, Paul Biggers, Chris Mathews, M. Minarik, Clifford Prabody, S. M. Lloyd, John Leonard, R. W. Pearman, and Fred Daiger, Jr.

CIRCLE NO. 4

The members of Circle No. 4 of the Methodist Church, will have a spend the day party, Thursday at the home of Mrs. J. C. Hall on Celery avenue. All members are requested to bring thimble, and needles.

ROOF GARDEN CLUB

Miss "Jimmie" Lang was hostess last evening to the Roof Garden Club at a swimming party and picnic luncheon given at Crystal Lake.

The Club met at the Baptist church at seven o'clock and held a short business session, when completed they were joined by several young lady visitors and young men, in cars where they sojourned to Crystal Lake.

After enjoying swimming and the playing of several old familiar games, a delightful picnic luncheon with ice tea was served by the hostess.

At a later hour the party of about forty returned to the city, all voting their appreciation of the delightful evening spent.

MAURETANIA SETS RECORD

(By The Associated Press)
NEW YORK, June 13.—The steamship Mauretania which arrived yesterday at Southampton, set two new world's records for speed on her latest voyage, said a cablegram received yesterday by the Cunard line. The Mauretania, which left New York on June 6, arrived at Cherbourg, at 3 m., yesterday, with a crossing to her credit of five days, eight hours and 10 minutes. The Kaiser Wilhelm der Grosse in January, 1900, set a record of five days and 16 hours for the New York to Cherbourg trip.

The Mauretania docked at Southampton at 11 a. m. yesterday. The Kaiser Wilhelm der Grosse, making a direct trip from New York to Southampton in November, 1897, set up a mark of five days 17 hours and 8 minutes.

MRS. SWANSON IS FREED AT PRELIMINARY HEARING HELD HERE YESTERDAY

(Continued from Page One)

neck as her head was pressed back and then the shot was fired as she saw an arm go up, she struggled out of the arm and was so excited she ran into the main part of the house to the telephone had called up Dr. Tolar and then Dr. Stevens and failing to get an officer had urged Norman to go to town for one. Witness being examined on stand said Swanson had been like a son to her since her own son had died and led her around and daughter Frances had been compelled to come home to take care of her after son's death. After Norman had gone to shops to work she had trouble with husband over the making out of pay rolls on farm and upon several occasions he had come into house and told daughter and mother he would cut their throats and once when Frances had gone into the library for a book McDougall came up to her and said: "Damn you, I will cut your throat, too." She had sent for her sister and brother-in-law as they had decided to have a divorce and settlement of property and McDougall had told her brother then that he intended to cut her throat and after her brother's departure she and her daughter had been in constant dread of the threats and were afraid to stay in the house when Norman was down town. Upon cross examination of state about shooting said she did not see McDougall after he was shot and did not hear him say anything. That she had thirty years of trouble and just recently had instituted divorce proceedings against him. Asked if she told anybody about his threats, said: "Yes, she had gone to Ben Monroe after McDougall had choked her and asked for protection. Had asked Mr. Lake if some means of protection could not be given her. Had come to Sanford Wednesday to lawyer's office to make settlement and McDougall asked to stay the settlement until the following Thursday. She had offered him the Waycross property or \$2,500 in cash. He had been staying at the Weeks home until recently and had always risen after the family was up but Saturday morning had been down some time before the rest of them had wakened.

Mrs. Swanson was then put on the stand and said she had been living here 18 years, was with her mother Saturday morning in their room, had dressed and come down just behind her mother about 5:50. Mother had led the way into the kitchen and she had just started to step down from the bath room door into the kitchen when she heard a scuffle in the kitchen and turned round saw her father with his left hand draw back the head of her mother against his breast and his right hand held a butcher knife ready to draw it across her mother's throat. She drew her pistol out of the right hand pocket of her dress and fired at him holding the pistol in her right hand extended full length. Her mother scrambled out of the arm of her father and she was in doubt as to whether she had hit her mother or the father until the mother ran into the other part of the house screaming. Her father looked toward her standing sideways, turned and went out the screen door to the side porch and she did not know then that she had hit him. As she shot the knife had been dropped on the floor. He turned round on the outside porch as if to come back into the kitchen and laid down in the doorway with his hands under him. She followed her mother into the house. It was all in a flash and being cross questioned said that she thought her mother was in danger of being killed and she fired. Was within six or eight feet from him when she shot. Told the same story as her mother about the trouble over the pay checks and the fear of the father and about staying down town while Norman was at lodge as they were afraid to go home. Told about occasions when father had threatened her and her mother with his knife, that he had cursed her and said he would cut her throat. That she had asked in Lake's office at the bank if something could not be done for their protection. Friday morning had gone with mother to Railroad shops to get husband to go with them to county judge's office to swear out a peace warrant or bill of complaint for protection. Had told Moffets and several others about threats of father and said she would kill him if he touched her mother. On cross examination said she said she kept the pistol all the time and kept it under her pillow

at night and ever since her uncle had left she never went without the pistol and she was constantly on the alert to keep her father from doing bodily injury to her mother. Upon being asked if she thought her mother was in danger she said, "I did."

Upon question of defense said she could have shot her father any time if such had been her intention and she could not have prevented her father from cutting her mother any other way.

Attorney Dickinson went on the stand and said that Friday morning McDougall had approached him and wanted him to defend him in the divorce proceedings but Dickinson refusing had turned aside and said, "I will go out and finish the thing myself."

State's Attorney DeCottes then addressed the judge and the people assembled and said that he had heard much about the case on the outside, had been given much advice, had heard that unless he bound the defendant over or had it done he would lose his job and that he wanted to say he had told the coroner's jury Saturday there was no case against the defendant and it being his duty as State's Attorney to find a case if possible, that such a case was impossible and the state had no case and he asked that the defendant be discharged.

Attorney Dickinson said that it was not the law of self defense they were invoking but the law of defense of a parent or other relative that gave one the right to shoot in defense, the right to defend any member of the family and if a homicide is committed in this defense the law says it is justifiable.

Judge Stringfellow said that under the circumstances and since the state's attorney had no case against defendant that he would discharge her.
