"Mr. Civil Rights In Person"

Speaking before a crowd estimated by police at over 60,000 in the very heart of Harlem, New York City's segregated Negro district, President Truman, who was introduced as "Mr. Civil Rights in Person", declared in a slurring southern accent reminiscent of Senator Claghorne at his worst, that Governor Stevenson would renew the fight for civil rights, and that General Eisenhower would not.

Encouraged by the shouts of glee from the Yankee Negroes who enjoyed to the utmost his mimicry of such illustrious Southerners as Governor Byrnes of South Carolina, his own former Secret way of Strie, it: President of the United States hought his give em hell tour to a close m a blistering attack on Republican opposition to the federal bayonet-backed FEPC bill and with a viciously inaccurate

exceriation of General Eisenhower. "If you want this civit rights program to continue," he told his Harlem audience, "you must make the right man President. The Republican candidate is the front man for the party which has made it harder to stop a filibuster than at any time in history, that has produced a watered down version of the FEPC in the House and then blocked it in the Senate, that beat a retreat this year in the civil rights plan of its platform. And while the Republican candidate was in uniform, he told the Armed Services Committee of the Senate that a certain amount of segregation is necessary in the

Now what kind of a President did Mr. Truman promise the Harlem Negroes that Governor Stevenson would make? The Democratic platform contains the strongest civil rights plank ever adopted by a political party in this country. Our candidates have taken their stand firmly on that platform. You can count on them to fight and carry it out. Adlai Stevenson has shown by everything he has done and said that he believes deeply in the equality of human beings. He listed the FEPC as high on the list of matters he wanted the Illinois legislature to take up, and not a toothless kind of FEPC either. But the Republicans killed it.

'As governor of Illinois he just quietly issued an executive order ending segregation in the Illinois National Guard. He issued another executive order taking race out of the Illinois employment service forms. And it was during his administration that segregation was finally wiped out of the illinois public schools."

U-F May Lose Long For Vandy Contest

GAINESVILLE UP— injuries suffered in the Clemson game last week may cut into the strength the University of Florida Gators need for their clash with the Vanderbilt Commodores Saturday.

Buford Long, Southeastern Conference top scorer with 42 points, has a bruised hip and may not be able to get into the battle. Also on the doubtful list is Joe D'Agostino, defensive guard who has a bad leg.

Expecting a rough time with Vanderbilt's passing attack built around Bill Krietemeyer, Florida's pass defenders worked long and hard Tuesday. The leading meas in the Gators' aerial defense have been All-America tackle prespect Charlie LaPradd and D'Agostino. Safety man Jack Niehels, Half-backs Bob Davis and Larry Scott and Linebackers Aries Jumper and Bubba Ware, Florida's most experienced defense men, will be called on to belp stop the Vandy attack.

Korean Debate Seen Certain In UN Meeting

No Strong Opposition Looms To Russian Delegate Gromyko's Desire For Action

UNITED NATIONS, N. Y. UP A full-scale United Nations debate on Korea during the height of the American election campaign eemed assured today.

A spot-check showed no strong opposition to Russia's demand that the question be taken up at once. Soviet Delegate Andrei Gromyko demanded yesterday that the 60-na-tion Political Committee take up Korea as soon as it begins workprobably early next week.

Secretary of State Acheson
planned to outline the American

position on Korea in a policy speech late today, Soviet Foreign Minister Andrei Y. Vishinsky may answer him tomorrow. These specches will give the broad lines of opposing East-West thinking on Koren and lay the groundwork for the detailed debate.

The French and British delegations.

tions have opposed detailed discus-sions of Korea before the Nov. 4 election, expressing lear of mak-ing statements which would have political repercussions in the U.S. Acheson's speech was expected to be of a general nature instead of a tough demand for Red acceptance of a Korean armistice on U. N. terms.

Strong pressure from American Allies was said to have induced Acheson to moderate his plans for opening the Korean debate and to hold off on specific demands until Soviet Foreign Minister Andrei Y. Vishinsky is heard.

The Russians indicated yester-

day that they were eager to get the Korean debate going before the Korean presidential elections— and before the British and French foreign ministers arrive. Soviet Delegate Andrei Y. Gromyko demanded that the Korean question top the list of subjects to be discussed by the 60-nation Political Committee, where Acheson himself
