

### TRIO OF FOREIGN BOXERS GO DOWN IN U. S. INVASION

#### Dr. Ludwig Haymann Is Knocked Out By Ambrose Griffiths

NEW YORK, N.Y., Sept. 13.—(INS)—The first wave of the invading horde of heavyweights to roll into Madison Square Garden last night rolled right out again on stretchers. Two Germans and one Englishman fell in the first skirmish of the season last night. The Americans required them without the loss of a man.

Two of the attacking trio were captured by decisions but the third was rewarded horn de combat in the fourth round. Paul Cavalieri, of Paterson, turned back Charlie Smith, of London, in the first round and Harold Mays, another Londoner, outscored Ted Sanderson, of Germany, in a budgeting dust.

Then up stepped a confident but luckless Gerald Ambrose "Tuffy" Griffiths to make it a clean sweep for America by exploding to practice on the jaw of Dr. Ludwig Haymann, of Germany, that the same doctor was carried out on his back bearing many wounds of the first encounter.

Griffiths soon as he pelted from here Haymann, who was a shoving target for Tuffy's stiff and rapidly delivered punches. The doctor showed little except a slow motion right that left hand and a stout resistance for the first three rounds.

He returned to try "Round" ten after some distressing ups and downs and was on his feet but helpless when the fight came.

Griffiths was making his debut in New York as a heavyweight, but he demonstrated that he had long. Weighing 184.5 pounds, last night he smothered the German with speed and softness. His left hand and right foot were the main weapons. He was one of the first heavyweight punches to come up in a long time.

A possible end was there in the eleventh round of the fight. Griffiths and the arrival of autumn weather. In the first row were packed such celebrities as Jack

### Early Action Sought In Dixie Str. Area

WASHINGTON, Sept. 13.—(INS)—Early action on proposals to invest Dixie conditions in the strike area in the districts of North Carolina will be sought in the Senate by Senator LaFollette (R) of Wisconsin, it was learned today.

Two reports of the resolution of Senator Wheeler, (D) of Montana, providing for a congressional inquiry into labor and working conditions in North Carolina are pending before the Senate. The majority report would turn the inquiry over to the Federal Trade Commission. The minority report, drawn by LaFollette and Wheeler after a one vote defeat of the Wheeler resolution proposals in committee, would send members of Congress out to do the work.

LaFollette is said to have attempted to get action by the Senate after new appeals had come from Carolina for a thorough investigation. Nothing can be done until the Senate acts, as the committee has completed its reports.

### ABANDONS TRIP

WASHINGTON, D. C., Sept. 13.—(INS)—President Hoover has abandoned all plans for visiting Texas and the Southwest this fall. The President so informed R. H. Gregory, Republican national committee chairman from Texas today during a White House call. The congressional situation, Mr. Hoover said, is such that he will be unable to remain away from the Capital for a long enough period to make the southwestern trip.

### SENATOR ASSIGNED

WASHINGTON, Sept. 13.—(INS)—Senator Brock, the Democratic senator from Tennessee, appointed to fill the vacancy caused by the death of Senator Tyson (D) yesterday, was assigned to membership on four Senate committees. They were the committees of commerce, banking and currency, claims and military affairs.

Six community centers established in Polk County in June for purpose of taking care of surplus fruits and vegetables. (Sanford Times.)

Shankley, of Thomas Lipton, Walter, for years, and his wife, both 70, and any family of hotel hired, which is the Madison Square Garden Club.

The post-attendance was 12,827 and the net receipts, \$25,700.21.

ELEANOR BOARDMAN AND JOHN HOLLAND IN HENRY KING'S "SHE GOES TO WAR"

### On National Gridirons

SEWANEE, Tenn., Sept. 13.—(INS)—Possibility that the Sewanee Tigers will fly by airplane to Mexico City for a game with the University of Mexico Nov. 20 appeared today. Officials are considering a recent invitation from the officials of the Mexican school. Meanwhile the Tigers are going out through stiff passes in preparation for the coming season.

Spears return to the fold will solve a line problem for coach Ellis.

LEXINGTON, Ky.—The Kentucky Wildcats under full drills are rapidly coming into shape for their 1932 schedule. A veteran team appears likely and indications point to a much stronger team this year.

NEW ORLEANS, La.—Two eleven of seven highmen played behind barred doors for nearly two hours yesterday. It was the first grueling routine for the Tulane grid team. The "A" team took a 12 to nothing victory over the "B" team.

APRIL, Ala.—Coach Habel continued to give his players to

### Long Sought Naval Accord Approaches Border Of Success

(Continued From Page One)

tion of his word—particularly in view of the apparent fact that Washington has agreed to let Max Baand proclaim the success of the negotiations.

Somebody has done some convincing on the cruiser question, which has been the sticking point for several years. In efforts to arrive at an Anglo-American understanding, that such a certain, for a week with the British admiralty and American navy experts were so far apart as to make "a bit of ground" almost a matter of every inch.

The last British communication received in Washington a week ago contained a cruiser set-up that would give the British some 210, 000 or 250, 000 tons of cruisers, according to the best of calculation. This was considered, however, upon the United States receiving a part of the 15 new cruisers ordered by Congress last year and will yet exist only in blueprint. The 20,000-ton cruiser, mounting 6-inch guns, is the British Admiralty's baby man.

The United States has built and is building 135,000 tons of cruisers, of which 90,000 tons are of the 10,000-ton type. Completion of the 15 cruiser building program would give the American Navy 205,000 tons, which most of our expert opinion would well round out the American Navy.

But the British contended that the 205,000-ton American cruiser fleet would be substantially superior to the 210,000-ton British fleet set-up because of American superiority in the 6-inch gun class as opposed to Britain's num-

ber of what is to be expected this season. Line retirement, tactics, blocking and putting consumed the afternoon.

### Japanese Foreign Trade Has Greatly Improved Position

WASHINGTON, Sept. 13.—(INS)—A greatly improved position of Japanese foreign trade in August was announced here today by the commerce department, on the basis of information received from commercial attaché J. H. Ehlers, at Tokyo.

The heavy volume of raw silk shipments and a marked decline in raw cotton receipts gave an excess of exports over imports amounting to \$2,700,000 yen, the largest in several years. August exports were valued at 219,000,000 yen, compared with 184,500,000 yen the preceding month. The increase over last year was also large.

Imports were valued at 166,700,000 yen, a considerable decline. Cotton textiles were shipped abroad in heavier volume than preceding months, with smaller in-

crease in other types. While the figures are jealously guarded it is believed that the British suggested completion only of the projected 15 cruisers in the 10,000-ton class, the rest of the tonnage to be made up in construction of smaller types carrying 6-inch armament.

This was unsatisfactory to the admirals of the navy general board, who have long insisted that the American Navy must place its chief reliance in the larger cruiser because of the immense distance between American naval bases and coaling stations. They don't think much of the 6-inch cruiser for American purposes, although they are admirably suited for British needs because of Britain's numerous bases and stations throughout the world.

### LINGUIST DROPS DEAD

NEW YORK, Sept. 13.—(INS)—Funeral arrangements were being made today for Dr. Max Mendel, linguist and former Russian instructor at Yale, who dropped dead while talking to his daughter in New Haven, Conn., over long distance phone.

### DIES IN ACCIDENT

ADRIAN, Ga., Sept. 13.—(INS)—Robert Ellison, was dead today and five other youths were suffering from injuries sustained when two trucks crashed head-on near here. William Anderson, one of the injured, suffered a broken leg. The others were badly bruised.

### FREED OF CHARGE

MADISONVILLE, Tenn., Sept. 13.—(INS)—Walter Williams, of this city, was free today following his acquittal here yesterday of murder charges growing out of the death of Pearle Cooper. Cooper was stabbed to death in an argument between the two men. Williams claimed self defense.

Winter Is Coming

The hurricane season is practically over—we might knock on wood and add, without a flurry—and that presages the advance of winter visitors. The hard trying ordeal of worrying through slack summer months is almost over and those of us who remain can confidently look forward to brighter and more prosperous winter days.

The hotel commissioner reports that more rooms have been reserved in tourist hotels for the coming season than ever before at this time of year. Miami Beach is having a building boom reminiscent of those carefree days of 1925, and most of the building being million dollar estates for visitors.

"Everything indicates a very busy tourist season for Florida next fall and winter," says the Marianna Floridan. "People in colder states are tired of the icy blasts every winter and they are getting to know that Florida has a surpassed climate all the year."

"The tens of thousands who came to Florida last winter went back home and told their friends what a wonderful climate we have down here. Those friends suffered a severe winter, and they realize the folly of suffering again when good roads, the automobiles and railroads can bring them to Florida in such a short time."

"Marianna, because of the Old Spanish Trail, and other highways will have hundreds of visitors during the coming season. Thousands will pass through. Let us organize to cause the latter to tarry awhile," the Floridan concluded.

Sanford too is at the crossroads of many through state highways. Most motorists going from Jacksonville to Tampa or St. Petersburg, from the north through Lake City and Gainesville to points in the southern part of the state, or from the West through Tallahassee to Palm Beach and Miami, pass through Sanford. Frequently they stop, spend a day or so, and go on. It helps business mightily to have them here even for so short a time.

But Sanford should make efforts to keep them here longer. Sanford should provide entertainment for them and make every sort of inducement to them to remain among us for weeks instead of days. Golf matches, yacht regattas, porcha tournaments, all help. We can turn Sanford into a first class winter resort if we all make the effort.

A New Enterprise

In times of financial stress, it's always the women who think of new methods to make money, of little ways to live. The men usually have their noses too close to the grindstone to see how best to turn the crank. A good wife can always think of some way to raise money for some temporary emergency, or to add to the weekly stipend.

The Past Presidents of the Woman's Club are not lacking in this quality. Realizing the need which exists among many of us for increasing our cash balances, they have conceived the idea of establishing a Thrift Shop, whose purpose is not to compete with any existing firms but which will offer an entirely new opportunity for trade.

Not only will women who are expert at handicraft have a chance to dispose of their fancy work, but also will it be made possible for any person who has any worthwhile article to dispose of it. The Thrift Shop will be a sort of second hand shop where tourists and strangers to our city will pick up bargains in antique, bric-a-brac, and fancy and embroidery.

The Herald admires this enterprising spirit of the women and hopes their efforts will meet unqualified success. We believe that there are many people in Sanford who have old things of real quality stored away in their attics, of no use to them but of real value to others. If we will have some place where such articles can be exchanged to mutual benefit.

A PREACHER AT the close of one of his sermons, said: "Let all in the house who are paying their debts stand up. Presently every man, woman and child with one exception rose to his feet. The preacher noted them and said: 'Now every man not paying his debts stand up.' The exception, a careworn, haggard-looking individual, clothed in his last summer's suit, assumed a perpendicular position. 'How is it, my friend?' asked the minister. 'You are the only man not able to stand up in obligations.' 'I am a newspaper man,' he answered, 'and the brethren here who stand up are my subscribers, and—' 'Let us pray,' exclaimed the minister.

THE HEAVENLY ANGEL, who did the talking, said: "I am a newspaper man, and the brethren here who stand up are my subscribers, and—"

STRAW-HAT SEASON ENDS UP NORTH

The first reminder that the straw-hat season is over is the fact that the straw-hat season is over. The straw-hat season is over. The straw-hat season is over.

The incident probably will interfere with the carrying out of the usual custom attending the passing of the straw-hat season in that city. It is almost certain that it will be the victim there. It is almost certain that it will be the victim there.

The incident probably will interfere with the carrying out of the usual custom attending the passing of the straw-hat season in that city. It is almost certain that it will be the victim there.

JUST IN PASSING

BY BOB HOLLY

There will be more tourists in Florida this year than ever before. The utilities and carriers who keep up with the passing throng know this is true and they are making arrangements for the big crowd. Railroad schedules are better than ever.

Why did the utility companies and the railroad companies and bus companies invest so much money in Florida in the past few years? They are looking ahead to the time when Florida will be the Mecca for hundreds of thousands of people and the vast amount of these hundreds of thousands are coming into the state now.

Others will follow in a few weeks or months. They are coming early this season and stay late. They are coming to the sun in Florida who entertain them and regardless of what the "CANT CLUB" says about it, Sanford will get more tourists than ever before. And fortunately we have a few noble souls here who believe in Sanford and who are now making preparations to entertain them.

Don't let anyone tell you that Sanford is not a tourist resort. Sanford was a tourist resort when some of the big resorts of the present day were just wide prairie in the road. But would the tourists get away from Sanford to make our visitors lay every farm? We did not conceive the big business that tourists make. We did not see that the tourist crop carries nothing about. Thank goodness, Sanford is not a tourist resort. We did not see that the tourist crop is our best crop.

With this thought in mind there are big things contemplated here for the winter season and Sanford will not only get tourists but Sanford will entertain them to never before. We shall have a lot of enjoyment with games and athletic stunts that will virtually knock your eye out. The children in Sanford have some last year's toys that will bring some people here at night from any other city in this part of Florida.

Our own people should play more. Our own people should play more. Our own people should play more. Our own people should play more.

Good stuff, that might make a difference. It brings people to Sanford. It brings people to Sanford. It brings people to Sanford.

People make cities and not locations. With the finest location in the state for a tourist resort, Sanford has been a tourist resort for years. Sanford has been a tourist resort for years.

Dear Mr. Holly: I am in love with a very plain girl, who is a very practical woman. I am in love with a very plain girl, who is a very practical woman.

My Dear Boy: Many the one you love by all means and see the time and dress of the other one in Hudson Hall of this city. He is always willing and ready to help and help upon the altar of his country.

America and foreign countries are celebrating the fiftieth anniversary of the inauspicious and humiliating that grand old man, Thomas A. Edison for giving us the electric light, the telephone, the motion picture, the gramophone, and the phonograph.

The Civic Clubs. The Civic Clubs have taken their accepted place in community life and now fill a standard, used part in the city program each week.

All this has taken place in a short time, comparatively speaking. It was only a few years ago that civic clubs of the type here discussed were non-existent. Today we have the Rotarians, the Kiwanians, the Lions, the Club Women and in some cities the Elks, the Y. W. C. A. and other organizations.

Meeting weekly with varying programs, often of great value, which failing to be of interest, very often entertaining, the clubs fill well a community want and play an increasing important part in their life. Their personnel is high, selected as members are many of the outstanding citizens of Columbus. The atmosphere of the meetings is stimulating, friendly and hospitable.

The personal contacts are plentiful and people understand each other better through close association week after week, old friendships are strengthened and new friendships are formed.

A distinguished American, a former citizen of Columbus, came back to his old home some years ago and was asked what chance in the city of the many men and women of our people, impressed him most. He said that to him the most significant development, the greatest change in the Columbus of today as compared with the Columbus of ten years ago was the existence and proliferation of the civic clubs.

This thoughtful remark was a profound impression on all who heard it and gave new dignity and meaning to these organizations and their work.

In this community there are civic clubs of the type here mentioned. These institutions are an essential part in the civic program in Columbus and Phoenix City, the seat of the education of our government and the seat of the legal profession, a score or less of these clubs, and yet these programs, after well-represented, well-planned and expenditure of time and energy, have been in the making for many years, and frequently distributed by special invitation to take part in the programs. Literature, music, art, commerce, industry, all pay tribute to this pleasant and helpful way to the

CORNERING THE CIRCUS MARKET

BRADENTON HERALD

Purchase of several opposition attractions gives John Bratton control of the circus industry, an ambition he has probably entertained since the early days of a career that has been crowned with great success. When the Barnum and Bailey show was merged with the Ringling interests the deal probably represented the biggest thing of its kind the circus world had known, yet time has proved that that was little more than the initial step in well laid plans aimed at bringing all these attractions under a single control.

Just what this means is hard to determine. It may mean better shows or again it may mean poorer ones. Competition is largely the life of achievement and the extent to which it is covered by this condition. As we understand it there will be an interchange of talent between the various units that will make up the organization. This should have a good balancing effect on the better balancing of programs. However, this is only one feature and too much importance cannot be attached to it.

Whether there is as great an interest in the circus today as in former years is a debatable question. Personally we don't think there is. Examination of the parade which was always enough to keep or draw children out of school, has lessened attendance. Whether however, this loss was greater or smaller than the rest of the parade is a question, in the mind of the layman at least.

Was a time when the average person, especially the small boy, looked to the circus for the unusual. Now he finds it in the street, almost daily. Because of this he has become inured to things of this nature and is not responsive. To us it would seem that Mr. Ringling has acquired control of the circus game at a time when it is at its lowest ebb. We have seen the one might and shows die.

The benefits, however, are far more confined to the membership of the club for the whole social community in this refreshing mental stimulation and broadening of vision.

known circus was an event. Now it is accepted as a matter of course and fails to stir the interest that it once created. It looses frequently several miles from the city in which it is playing and leaves without having affected many by its visit. The old message of the parade, given with blaring brass bands and shrieking "steam pianos" is no more. No, the circus isn't what it used to be.

Where can you duplicate the style, comfort and convenience of America's finest medium-priced automobile?

Oakland combines a long wheelbase with a short turning radius—giving greater handling ease. Its bodies by Fisher provide such convenience and comfort features as drivers' seats adjustable as you drive, clear-vision easily-regulated VV windshield and side-cowl ventilators. Ford-controlled headlights—automatic spark control absorbing correct spark occurrence at any speed—spring covers which add to riding ease by keeping springs permanently lubricated and free from mud, rain and dust... all these are comfort and convenience features which only the All-American in its field combine.

Facts Which Prove Oakland Supremacy

The following facts were obtained from a comparison of the Oakland All-American Six with 20 other medium-priced automobiles. All 21 individual comparisons were made. Of these Oakland proved to be distinctly superior in 14 of 21 items. The 20 cars compared were at least equal to Oakland in 3 of 21 items. The 10 cars in the 20 were higher priced than Oakland.

WHEELBASE: Only one car as long as a wheelbase as long as Oakland's, which is 117 inches. This car requires a turning circle to the left of 12 feet as compared with Oakland's 10 feet. Its lighter-weight cars have shorter wheelbases.

SEMINOLE MOTOR CO., RIVES GARAGE, 208 W. 1st St. Phone 617

OAKLAND ALL-AMERICAN SIX

Individual-in Style and performance 2 SERIES OF BEAUTIFUL, POWERFUL CARS 1045 AND UP

## Spend Your Money Where You Get It — at Home

**H**OW long would you prosper if this community did its buying outside of Sanford?

How long would this City endure?

Most people trade at home because they know the greater values and satisfaction of doing so — and have civic loyalty.

Everyone in Sanford would trade at home if they gave the subject serious thought. The business interests of our town — are also interested in your welfare, prosperity, satisfaction — and contribute through taxes and other means. Shouldn't you be interested in theirs?

***It Pays  
to Trade  
at Home!***

# A THRIFT STORY...

"The opening of school was near... the children needed clothes and books and a host of other things for which there was no ready money. Necessity is always the mother of invention, and when hope had almost gone, the thought of selling some of the discarded furniture that had accumulated, occurred. A Herald classified ad was put to work and results were obtained at once."
