P. T. A. OVIDO JUNIOR HI

The P. T. A. of Ovido Junior High School happily announces the purchase of a Merry-Go-Round Swing for the children of this school. This swing has been installed by the male students of this school with the aid of F. M. Anderson and Clarence Ash.

CAMPUS IMPROVEMENT AT OVIDO JUNIOR HI

By way of campus improvement the entire eastern in Ovido Junior High School has been cleared and at present they are in the midst of beautifying the southern side of the building. This is being made possible through the direction of Mr. J. A. Lawson and through the donation of some muck soil from one of the farmers of the city, George Jones, (Worship). The boys of this school are very instrumental in this improvement project.

OVIDO JUNIOR HI SCHOOL

In mid-October the Ovido Junior High School launched a \$400 equipment drive. Though at the termination it was some \$100 short of its goal, the school has gone ahead and put to good usage the money that was raised by purchasing one ditto machine for the elementary dept., a gong and some other few important needs.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Stanley T. Muller of Ovido, are the proud parents of a fine baby girl born Dec. 18, 1949. She has been named Kelly Jean. Mr. Muller is the principal of Ovido Junior High School of which Mrs. Muller formerly taught.

BASKET BALL AT CROONS ACADEMY

The Panthers and Pantherettes journeyed to New Smyrna last Friday to play Chilton High School. The first game was played by the girls. They fought valiantly and at the half they were leading. However the game ended and the Pantherettes had lost 31-42.

THE PANTHERS

The boys' game was one of excitement and fun of thrills. In the last quarter of the game it seemed they would have lost, but the Panthers did not give up. They fought hard and in the last two minutes of the game they came back with more power and won the game 28-24.

THE PANTHERETTES

The teams played Inverness Monday night on Croons Academy campus. For the girls this seemed to have been a great game the score being 27-20. This gave the Pantherettes their first victory of the season.

THE PANTHERS

The dear old Panthers couldn't let the girls down so they fought for victory. The score was 36-17. This being their third victory. Such credit is given to the fine coaches, Mr. Earl Austin and Mr. H. L. Douglas, not forgetting the boys and girls. Follow the team at home! And Away! Boost Them!

DO NOT FORGET TO ATTEND THE GAME

Friday, Feb. 3 when the Panthers will meet the Wildcats of New Smyrna at Croons Academy.

Kiwanis Meet

(Continued from page five) from William M. Werber, Washington D. C. insurance man, a former ball player, was read to the Kiwanians by Frank Tabachi, International League Umpire and instructor at the Barr school.

In part, the letter stated: "You were one of the few umpires in either league who at all times made a sincere effort to earn the respect and friendship of the players."

Mr. Barr thanked Dick McLaughlin, his southern representative, who was present for making the school, especially for making trips to Tallahassee and St. Petersburg, in regard to arrangements for veterans. He also complimented W. E. Mohs, an assistant at the school and umpire in chief of the KOM League, for his six years of service for the school.

Joint Chiefs

(Continued from page five) al information and first hand impressions.

It was understood generally that the three visiting commanders—General Bradley, Army General J. Lawton Collins, and Admiral Sherman—who toured Yokosuka Naval Base yesterday, today returned with a conviction that the base should remain indefinitely in American hands. General Vandenberg did not make the 40 mile trip to Yokosuka.

Rear Admiral Benton W. Decker, commander and engineer of Yokosuka's revitalization, stressed its importance as a supply center, repair base and home port for combat units.

Stockbridge, Mich.: Allan Hessel of the Key Club; Fred Barnes, Chicago, Ill.; Marvin Pitman, Winter Park and Joe Tillis.

U.S. Attacks Soviet Demand For Jap Trial

U.S. State Department Calls Russian Proposal 'Cover Up' Of Missing Prisoners

WASHINGTON, Feb. 3.—(AP)—The United States charged today that Russia's demand for trial of Emperor Hirohito as a war criminal is an effort to cover up "Soviet failure" to explain the fate of more than 370,000 Japanese war prisoners.

A State Department statement made clear that the Russian demand to put the Emperor on trial in an international military court will be rejected by this country.

Officials also indicated that the Soviet proposal to try four high ranking Japanese general officers likewise will be turned down.

The State Department made public along with its statement on the Russian demand, the key paragraphs of the 22-page Russian note which Soviet Ambassador Panyushkin handed to Secretary of State Acheson Wednesday.

This disclosed officially for the first time precisely what the Russians want to do. The note said that last December a Soviet military court at Moscow broke had found 12 Japanese Army officers guilty of plotting and using bacteriological war fare.

It charged that the U. S. units were created by a decree of the emperor and that high ranking Japanese staff officers were responsible also for the operation.

The Russians therefore called for the creation of an international military court—presumably by General Douglas MacArthur—to try the emperor and the four generals "as war criminals exposed by the Soviet December trial" as having committed the most heinous crimes against humanity.

Meanwhile in Berlin, the Russians imposed a new regulation on Berlin-bound trucks traffic today and then lifted it a few hours later.

The regulation could have paralyzed all highway freight from Western Germany. This (Continued on Page Eight)

Scientist Claims He Has H-Bomb

CLAIMING TO HAVE DEVELOPED a model hydrogen bomb that could be activated in 12 hours, research scientist Dr. Ralph Lucas is shown in Ames, Iowa, with schematic diagram of his bomb. Lucas told newsmen he had offered the model to Atomic Energy Commission providing the government would stand costs of testing it. (International Soundphoto)

Seminole Students Show Test On Driving Safely By Officers

"Suppose someone darts in front of your automobile while it is traveling at 30 miles an hour; how far will it travel before you can stop it?" Sheriff P. A. Merio asked pupils of Mrs. E. D. Brubaker's class at Seminole High School Friday.

Answers varied from five feet to 130 feet, but Chester Justice won the \$2 prize offered by Sheriff Merio with a guess of 55 feet.

Under strict test conditions of yesterday afternoon and before the entire SHS student body, Patrolman S. B. Spence stopped a police car in a distance of 60 feet, nine inches after a cartridge, fastened to the front of the car, went off while he was traveling 30 miles an hour on Elm Avenue at Eighteenth Street.

The test, made before police officers and sheriff's deputies also, was staged in connection given this week to the officers by the Florida Police Academy, and under the direction of W. P. Reneger of Miami and J. T. Leonard of Orlando, who are conducting the school.

The explosion of the first cartridge made a yellow chalk mark on the pavement, and by the time the car had stopped, the time to apply the brakes, an interval known as reaction time, he had traveled 20 feet, nine inches. This was indicated by another yellow chalk mark on the pavement.

Stopping distance varies, not in direct ratio to speed, but to the square of the speed rate, said Mr. Larson.

At 40 miles an hour, an alert driver could stop in 120 feet, at 60 miles an hour, 220 feet. When Patrolman Spence applied the brakes in the test, the automobile skidded more than 20 feet. The pavement offered much friction, being dry and of cracked surface. Students showed much interest in the demonstration, and gathered around the car as Mr. Reneger explained the cartridge mechanism.

During the past week, policemen and deputies have been instructed in traffic laws, traffic control and accident investigation.

British Atomic Scientist Is Held As Spy

Noted Physicist Karl Fuchs Arrested For Passing Secret Information To Reds

WASHINGTON, Feb. 3.—(AP)—Congress today summarized Lt. General Leslie R. Groves, wartime head of the U. S. atomic bomb project, as testify in memoirs about a British atomic scientist arrested in London on suspicion of passing a bomb secret to Russia. Senator McClellan (D-Ill.) made the announcement after a meeting of the Joint Congressional Atomic Energy Committee with the Atomic Energy Commission. McClellan is chairman of the Congressional Atomic Energy Commission. A statement by the Atomic Energy Commission said the British scientist Dr. Klaus Fuchs had access to "a wide area of the most vital weapons information during his wartime work in the U. S. on atomic projects."

WASHINGTON, Feb. 3.—(AP)—A top British atomic scientist has been arrested in London as the result of FBI charging into leaks of A-bomb secrets to Russia.

London dispatches said Karl Fuchs was charged with two violations of the official secrets act in New Street court.

The FBI in Washington issued a brief announcement disclosing that it played a part in breaking the case.

Fuchs, 38 year old, German born physicist, worked on the A-bomb project in the United States from late 1943 until June, 1946. Officials here said his place in Britain's atomic set-up is comparable to that held during the war by Dr. J. Robert Oppenheimer, who directed the Los Alamos, N. M., A-bomb laboratories.

The FBI confined its announcement to two brief sentences.

"The case involving Dr. Fuchs was developed by a British informant originally furnished to them by the FBI."

The FBI has been cooperating very closely with the British on this case."

That was all the FBI would say. But officials in a perfect position to know the entire background said the case involved two spies, atomic secrets to Russia. One occurred in the United States in 1945, they said the other in England in 1947.

The officials provided this account:

The FBI "months ago began an intensive check into suspected relay of atomic secrets to Soviet agents. The check was ordered in the basis of bits of information obtained from various sources."

"The FBI's investigation was directed by the Florida State Police, who were assisted by the FBI."

Grand champion in the Father of America last night's contest was won by a bull entered by Max Carr of Groveland. The runner-up was entered by Jack Sloan of Sarasota.

Backed By Kin At 'Mercy Trial'

CHARGED WITH KILLING her cancer-ridden father, police Sgt. Carl W. Paigh, 22, is given moral support in Bridgeport, Conn., Superior Court, by her mother, Mrs. Mary N. Paigh, 52. Mrs. Paigh testified that her daughter could not have been of "sound mind" at the time. (Associated Press photo)

I Killed, 65 Hurt As Streamliner Leaves Tracks

Broken Rail Flips 5 Cars Into Ditch Killing Passenger

SAUKVILLE, Wis., Feb. 3.—(AP)—A broken rail catapulted a speeding streamliner into a ditch four miles north of here last night, killing one passenger and injuring 65 others, 15 of them seriously.

Wrecking crews found the broken body of E. J. Symont, about 50, of Rice Lake, Wis., under an overturned coach of the Milwaukee road's outboard Chippewa Hi-waah.

He had been hurled through a coach window and crushed beneath the rolling train.

The cold, steel rail snapped as the Chippewa's engine roared over it about 7:30 P. M. Three coaches, the dining and the parlor car, rolled completely over into a ditch. The engine and one baggage car remained upright.

Saukville is about 30 miles north of Milwaukee.

Dr. Clarence C. Stern, Saukville County coroner, estimated that 60 of the Chippewa's 112 passengers were injured in the crash. He said 15 were seriously hurt. Many of the others were treated at hospitals and released.

Dr. J. McFarland of Green Bay, Wis., the train's surgeon, said he felt the steel rail snap as the engine passed over it at about 50 miles an hour. (Continued on Page Two)

City Orders Franklin Terrace Area Re-Zoned

Commission Decides Building Restrictions Are Too Tight

Re-zoning of 249 lots in Franklin Terrace and Pine Heights from R-1A to R-1 in order to permit erection on a large scale of moderately priced homes was ordered last night by the City Commission, following a hearing. Only nine owners in the whole area of forced objections, said City Manager Clifford McKillop.

Due to strong protests of residents of Highland Park, a large area and subdivision at French Avenue and Twentieth Streets, adjoining this area was denied.

Wellborn Phillips, Orlando developer, is reported to be considering building a number of homes in the Franklin Terrace area.

Another large scale home development planned as the commission granted options on 30 lots in San Luis and 146 lots in Hillside and Mellottville, Avenue and Sandlanta, to C. H. Green, building contractor of Orlando, Ill., and H. Prather, Orlando. The 60 day option requires purchase of 40 lots, when the option will be extended six months on the balance. (Continued on Page Two)

Truman's Limited Excise Tax Cuts Outlined In House

\$600,000,000 Cut To Be Compensated By Added Television, Corporation Levy

WASHINGTON, Feb. 3.—(AP)—Secretary of the Treasury Snyder told Congress today that "excise tax reduction must be limited to about \$600,000,000."

Spelling out details that had been sketched broadly by President Truman on Jan. 23, Snyder outlined the Administration's excise (sales) tax reduction program at the opening of House committee hearings.

A new ten per cent tax to be levied upon television sets at the manufacturer level is expected to yield \$400,000,000 extra revenue.

This would partly offset total planned reduction in excise taxes of \$600,000,000. In his text, however, Snyder used the round figure of \$600,000,000.

These excise tax reductions were outlined.

Cutting the four per cent retail tax on such luxuries as jewelry and toilet preparations to ten per cent.

Cutting long distance telephone and telegraph rates, charges from 25 to 15 per cent, the tax on rail, bus, airplane and ship passenger tickets from 15 to 10 per cent, and reducing outright the three per cent freight fuel tax.

The Administration plan called for that exemption of "baby oils, powders and lotions" from the tax on toilet preparations. The baby oil tax has provoked especially strong objections.

Snyder repeated President Truman's statement that the excise (Continued on Page Six)

Bergman Baby Boy 'Doing Fine', Named Roberto

ROME, Feb. 3.—(AP)—Ingrid Bergman is the mother of a new, blue-eyed baby boy, tentatively named Roberto, said one of her doctors today. Both she and Italian film director Roberto Rossellini are very happy about it.

The beautiful 34-year-old Swedish actress, married last time to "John O'Hara" (Bill of 'Marty') and "Anch'or' (Tommy) has announced that she intends to marry Rossellini again. She obtained her divorce from Dr. Peter Lindstrom of Hollywood, who visited her in Sweden just one month ago today.

She had in Mexico last week Dr. Peter Lindstrom, who delivered the baby at 10:30 P. M. and Rossellini was with Mrs. Bergman when he left the hospital this morning, and added:

"They seem very much in love and very happy. Both she and Rossellini are very delighted at the birth of the child and were very, very delighted at a boy. Tentatively the baby's name is Roberto. That probably will be it."

There was no comment from Dr. Lindstrom on the arrival of the wife's new baby. A spokesman for Rossellini was quoted here as saying Mrs. Bergman and Rossellini have agreed to explore the child and living together in the Catholic faith. Ingrid is a Protestant, Rossellini a Catholic.

The baby "doing nicely" this morning, was delivered at 10:30 P. M. and will always be considered by Mrs. Bergman, although he took out first papers on American citizenship, retaining a Swedish citizenship. Rossellini is a native-born Italian.

Mrs. Bergman has been in Italy a year engaged in making a picture, "The End of the World," produced by her husband. (Continued on Page Six)

John Williams Urges Support Of Boy Scout Drive

John Williams, director of the Boy Scout drive for the Jaycees and yesterday at the Jaycees luncheon at the Yacht Club, 300 all organizations that are going to help in the drive. The money will be collected from contributions will certainly help fund more Scout groups in Sanford and Seminole counties.

Mr. Williams revealed that out of the 13,000 potential Boy Scouts in Central Florida, only 1,000 are members. "This is the result of lack of funds, but mostly to lack of interest of the communities," he continued.

Mr. Williams called for volunteer help. (Continued on Page Six)

Deaf Mute Held As Brains Of Gang Of 'Teen Agers'

NEWARK, N. J., Feb. 3.—(AP)—Police have arrested a young deaf mute known as "Al Buba" who they said directed his well-trained gang of schoolboy thieves by sign language.

His "Al Buba" didn't have in his case, police said only five months ago, the gang netted \$2,000 in cash, \$5,000 worth of adding machines, typewriters and industrial tools and used \$15,000 in property damage, they added.

His five companions in crime, nabbed yesterday at the same time as the deaf ring leader, ranged in age from 13 to 15, they said. Under New Jersey juvenile law their names were not revealed and they were held at the parental home here.

Acting chief of police Fredrick Lacey identified the leader as Robert Engert, 20, of Newark. He was charged with burglary.

Lacey said the boys called their tall, grey-eyed leader "Al Buba" after the legendary chief of a gang of thieves.

The gang was afraid of Engert, Lacey said, and he averted them by violent gestures and stamping his feet when things didn't go right.

The thieves soon became expert at talking with "Al Buba" by sign language, police said.

MOTHER DIES
E. G. Kilpatrick, Jr., vice president of the Florida State Bank, has been called to Marianna, Okla. to the death last night of his 87-year-old mother.

16,000 Homeless As Flood Waters Rise

By Associated Press.
More than 16,000 persons were homeless and other thousands faced possible evacuation from rising flood waters in seven central and southern states Friday.

But the flood-causing rains have ended and skies were clear. Some swollen rivers reached crest at upstream points. Barring further rain, flood dangers seemed likely to decline over the weekend in several critical zones.

The homeless included 22,000 in Arkansas, 12,000 in southeast Missouri, and 12,000 in Kentucky. Singing streams, including the Ohio River, blocked many highways and forced some schools to close.

West Virginia, Ohio, Indiana, and Tennessee also had flooded areas. Three persons have drowned in West Virginia.

WALTHAM CLOSES
WALTHAM, Mass., Feb. 3.—(AP)—The Waltham Water Company announced it would shut down today.

The company's 1950 employees will be paid off at 4 P. M.

The announcement by William McMorrow, assistant to the president, followed closely the Reconstruction Finance Corporation's refusal yesterday to permit diversion of RFC funds to working capital.

Mrs. C. M. Boyd Is Slightly Injured In Auto Collision

Mrs. C. M. Boyd, executive secretary of the Seminole County Welfare Department, suffered a broken blood vessel in the right thigh, and Robert B. Johns, 16; Elliston Baker, 17 and Betty Owens, 18, were injured in a collision of automobiles at Twentieth Street and Elm Avenue at 12:22 o'clock yesterday afternoon.

At the time of the accident, Mrs. Boyd was driving a 1941 Dodge Coupe west on Twentieth Street, according to police, and Robert Johns was driving a 1931 Ford Sedan north on Elm Avenue from Highland Park.

The impact sent the Dodge driven by Mrs. Boyd, careening over the curb to her right into the yard of Mr. and Mrs. Arthur Beckwith, and directly toward the baby buggy in which the baby lay a few yards in front of the door, where Mrs. Beckwith had placed it for sunning.

Mrs. Beckwith, hearing the crash, rushed out of the house, grabbed the baby buggy and pulled it back, just as the automobile came to a stop against it. The baby was unhurt.

The Ford Sedan was spun around by the impact, hit and damaged a fire hydrant, but was not overturned. Betty Owens, according to police suffered scalp laceration and possible back injuries, and with the other occupants of the car, was taken to Fernald-Laughton Memorial Hospital. Miami Patrolman Wounds Narcotics Thieves In Fray

MIAMI BEACH, Feb. 3.—(AP)—A Miami Beach patrolman shot and seriously wounded two men early today less than an hour after they looted a Miami drug store of \$5,000 worth of narcotics.

Detective superintendent Charles W. Pierce said Patrolman Gilbert Miller, 31, a former member of the Cleveland, O., police department, fired the shots after he'd been knocked down and kicked.

Pierce said that the two men, identified as Richard Liebman, 24, and Martin Shildkraut, 24, came here from New York with Shildkraut's 20-year-old wife of a week.

Liebman was reported in critical condition at St. Binal hospital from two bullet wounds in the abdomen. Shildkraut was shot in the buttocks and his condition was listed as fair.

Pierce told this story of the early morning events:

Both men broke into Richard's pharmacy in Miami about 9 A. M. and escaped with assorted drugs, valued at \$5,000. They entered through a ventilating fan and left the place in a shambling, police said.

An hour later patrolman Miller saw them in a sedan parked on 14th street, Miami Beach.

"They both looked shady to me," Miller said. "They acted very nervous and I ordered them out of the automobile."

As the car door opened several bottles fell to the ground. When Miller stepped over to examine a bottle, one of the men kicked him in the chest.

Miller fell down and the man advanced, kicking and beating him. He said he tried to draw his blackjack and one of the men stepped on his right hand. The other reached for his hip pocket. "I thought he was reaching for a gun," Miller said.

Wage Rates For Southern Bell Increased 117 Percent Since '39

Wage rates for Southern Bell employees have been increased 117 per cent since 1939, compared to an increase of less than 70 per cent in the cost of living, J. A. Mooneyham, district manager of the company, said today.

Company employees, he said, have had eight general wage increases in the last 10 years, three of which have been since the war. The most recent general wage increase was made effective in February, 1949, he added.

Under wage scales now in effect, Mr. Mooneyham said, more than two-thirds of Southern Bell employees are scheduled to receive wage increases in the next 12 months. This is in accordance with progression schedules under which telephone people receive automatic raises in pay as they gain experience. This continues from the time they start until they reach the top of the scale.

"Statements made by national CIO leaders in an effort to run down the telephone job are designed to mislead and confuse the public," Mr. Mooneyham said. "Their repeated cry of 'strike' 'strikes' even before their local employees have met with Southern Bell at the bargaining table demonstrates insincerity and irresponsibility."

"Telephone employees know that the CIO leaders' statements about telephone wages don't agree with the facts."

"Southern Bell's policy is to pay wages that compare favorably with what other persons in the community pay for job requiring similar skills. (Continued on Page Two)

STATE FAIR HONORS TAMPA, Feb. 3.—(AP)—

honor for the best Guinness bull and cow at the Florida State fair today went to animals entered by Carroll and Son of Winter Park.

Grand champion in the Father of America last night's contest was won by a bull entered by Max Carr of Groveland. The runner-up was entered by Jack Sloan of Sarasota.

Testimony Ended In Mercy Killing, Case Goes To Jury

BRIDGEPORT, Conn., Feb. 3.—(AP)—Both sides ended their testimony today after a state probate court swore that Carol Ann Paigh was sane when she shot her father to death.

Court recessed until next Tuesday when state and defense will deliver final arguments before the mercy murder case goes to the jury.

The physician, Dr. Joseph M. Lesko, said he examined the 21-year-old blonde five times since the shooting. In addition, he said he had heard every word of testimony at her trial, including that of a defense psychiatrist who testified Carol was sane when she shot her father.

Dr. Lesko again replied: "She was sane."

A window slammed shut as he (Continued on Page Four)

March Of Dimes Is Halfway To Its Goal

Seminole County's contribution to the March of Dimes campaign for infantile paralysis are only about halfway to the goal of \$3,000, Alvin Odham and Gene Tucker, county co-chairmen, announced this morning.

They urged that individuals turn in their donations for the drive as soon as possible as the campaign will last only a few days longer. Contributions may be made to Mr. Tucker at the Florida State Bank or to Bob Deane at the Sanford Atlantic National Bank.

The Casselberry Men's Civic Club is bringing support to the drive by holding a March of Dimes benefit party Saturday night. Movies will be shown soon at Sanford grade schools with a 10 cent admission to aid the campaign. (Continued on Page Two)

Purple Mites Plague Florida Citrus Groves

LAKELAND, Feb. 3.—(AP)—Florida citrus groves are suffering from the worst infestation of purple mites—also known as red spiders—in 15 years.

These tiny insects are causing damage in all parts of the state where citrus is grown.

W. Thomson, entomologist at Lake Alfred, says the present plague of the insects is "the worst since 1935. We are getting reports of them in every citrus grove where there have been any citrus groves. It's very bad all over."

Citrus growers are on the spot in trying to combat the pest. The usual spray compound is control but it does not kill the mites.

Mrs. Gene Adams' Father Dies In Texas

Mr. and Mrs. Gene Adams left yesterday by plane for Vernon, Tex., where they were called because of the death of Mrs. Adams' father, Frank Adams, yesterday.

Mr. Adams served as treasurer of Vernon for 20 years, retiring about a year ago. He was 70 years old at the time of his death.

FACTS
about Telephone Wages
in Sanford

The Southern Bell Telephone Company believes its em-
ployees should be well paid and that its wages should
compare favorably with those paid by other concerns in
the community for work requiring similar skills and
experience. To pay anything less would not be fair to
the employees; to pay anything more would not be fair
to our customers. Wages listed in the box at the right
show how well our policy is being carried out.

Cost of Telephone Wage Increases Amount to
\$9,700,000 Annually in Florida

Southern Bell employees have had 8 general wage in-
creases in the last 10 years.

During the war and postwar years, the cost of wage
increases granted to Southern Bell employees alone has
amounted to \$9,700,000 annually in Florida.

Money to pay wages and all other operating costs
comes from the rates we charge for service and these
rates are set under governmental authority. The tele-
phone rate increases which have been received to date
fall far short of meeting the cost of wage increases al-
ready granted, to say nothing of the greatly increased
cost of telephone equipment and materials.

Now, despite the fact that industry in general has not
paid another round of wage increases, the Union leaders
are asking for another increase. This demand would
still further increase the cost to telephone users who
must pay the bill for wages as well as for all other costs.

Telephone Wage Rates Have Increased
117% Since 1939

Telephone wage rates have more than kept pace with increases in
the cost of living. Since 1939, wage rates for non-supervisory Southern
Bell employees have been increased 117% compared with an increase of
less than 70% in the cost of living.

Telephone wages compare well with the wages paid and received by
the customers who use our service. This is particularly true when wages
are compared on an annual basis because the Telephone Company offers
steady year-round employment with no seasonal layoffs such as occur
in many other industries.

More Than Two-Thirds of Our Employees Will Receive
A Raise or Raises in the next 12 Months

Under wage scales now in effect, telephone people receive automatic
raises in pay as they gain experience. This is from the time they start
work until they reach the top of the scale. In fact, even with no fourth-

How Do These Wages Look to You?

A telephone operator at the top rate in Sanford now
gets average pay of \$47.95 a week (\$208.58 a month),
including differentials and overtime.

In Florida plant craftsmen, such as central office
repairmen, at the top rate for cities like Sanford now
average \$82.82 a week, (\$360.27 a month) in total pay,
including differentials and overtime.

Starting rates are good too. A girl just out of school
gets \$30.00 a week, (\$130.50 a month) from the day she
reports for training as an operator.

A splicer or repairman, who started with the company
without experience in 1941, is receiving, as a result of wage
adjustments and regular progression, more than four times
wages he earned when he joined the organization.

Similarly, women who joined the Company in 1941
without telephone experience, are now, after 8 years re-
ceiving a wage rate over three times as large as they
received when they started.

round wage increase, more than two-thirds of Southern Bell employees
are scheduled to receive wage increases in the next 12 months. Many of
these employees are scheduled to receive two increases and some of the
younger employees, three increases, in this period.

More Than Good Wages

Employees of the Company get more than good wages. They get 6
holidays a year with pay, paid vacations up to three weeks, they get sick-
ness benefits up to a year, they get accident benefits and death benefits
up to a year's pay, plus a service pension. For all of this, the employee
pays nothing - the company pays all.

Every telephone employee with 20 or more years of service can look
forward to a pension of at least \$100.00 per month at age 65, including
social security. Many employees apply for retirement before age 65 and
receive a guaranteed minimum pension of \$75.00 a month. Pensions of
many non-supervisory employees will be substantially higher than these
minimums. The Company's benefit and pension plan is at the forefront
of all industry, having been in effect since 1918.

Collective bargaining between Southern Bell and the CWA-CIO begins
on February 6.

We are prepared to bargain fully with the Union at the bargaining
table and if in there we believe the issues can be and should be settled.

ABOUT THE THREATENED TELEPHONE STRIKE
The public doesn't want a telephone strike, the Company
doesn't want a strike and we do not believe telephone employees
want a strike.
The National CWA-CIO leaders in Washington have an-
nounced, however, that a strike seems inevitable.
It is clear to us that a telephone strike is inevitable ONLY if
the union leaders have decided in advance that they want a strike
and come to the bargaining table with closed minds.

TODAY'S BIBLE VERSE

Credulity is not faith. Courage is a constituent of faith, attempt the impossible, and tomorrow it may prove quite possible.

Some of us imagine that we can fight against the unseen ruler of the universe. But the stars in their course fight against us.

Governor Warren pays high tribute to Comptroller Gay who sees Florida going constantly in the red in spite of the new \$40,000,000 sales tax.

Secretary Brannan has paid \$350,000,000 to acquire 200,000,000 bushels of potatoes, but he would gladly give that much again to get rid of one hot potato.

Declaring that the United States has no sure defense against attack, Secretary of Air Symington says "Those who reiterate America must be destroyed have a ground army greater in numbers than the combined forces of the Allies, an air force the largest in the world, and the world's largest submarine fleet."

The Public Housing Administration is making a survey of certain sub-standard areas in Sanford to determine how many and what kind of low cost housing is needed in this city.

We are sorry to see William Green of the American Federation of Labor, announcing his support of Senator Pepper, Green is a good man and there are lots of good men in the AFL.

The national CIO leaders' distortions of the facts about telephone wages are an obvious attempt to gain support from people who are unfamiliar with the Telephone Company's wage rates, labor policies, past history in collective bargaining and its present willingness to settle differences at the bargaining table.

Perhaps one reason that we are so violently opposed to the enactment of any more laws is because we don't have to explain to someone we can't put blame on anyone. In the paper, it certainly is not our fault; it is against the law. And if we put it in the law, we would be a law-breaker.

Perhaps one reason that we are so violently opposed to the enactment of any more laws is because we don't have to explain to someone we can't put blame on anyone.

Background Of Genius

In a study of the heredity, health and emotional stability of geniuses, Dr. Ariele Juda, Austrian psychiatrist, punctured a number of popular beliefs about these outstanding members of society.

She says most geniuses are not insane, contrary to an idea struggling for common belief. Two-thirds of those reported on by Dr. Juda were found of normal mind, though a delicate mental and emotional balance was shown to be common among them.

The light of publicity which frequently falls on a recognized genius is a decided handicap. Slight eccentricities which attract little notice in ordinary folk are often magnified and labeled marks of insanity by uncaring observers.

Spots On The Sun

Since sun-spots came to be a term recognized in a vague way by most people, they have received the blame for a good many misdoings on the earth.

Perhaps they can be put to good use. Dr. Charles G. Abbot of the Smithsonian Institution in Washington has been keeping charts and graphs of sun-spots and weather conditions for many years, and he thinks that general weather conditions can be forecast accurately not just days or weeks but years in advance.

It sounds like a giddy dream. But for anyone who has ever stood in awe and watched the aurora borealis play across the sky, knowing that this, too, is linked in some mysterious way to the sun-spots, almost anything can be believed of them.

The Scrap In England

To the American observer, the campaign tactics of the Conservative Party in England seem to suggest the mistake made by the Republicans in the last presidential campaign.

Great Britain's nearly bankrupt condition apparently is not being brought out in campaign propaganda. Merely a promise of better management is not much of an offer of solution.

In short, the leaders of "His Majesty's Loyal Opposition" appear to American conservatives to be making too little real opposition to the party in power.

Telephone Wages: Starting rates are good, too. A girl just out of school gets \$30.00 a week (\$150.00 a month) in basic pay from the day she reports for work as an operator.

Sanford Zoning: The Commission ordered placed on first reading Sanford's adoption of the Southern Standard Building Code, which is used generally in cities throughout the South.

Mercy Killing: Superior court Judge John A. Cornell warned that he would have the court cleared if there were any further demonstration.

Majors Yelp As \$100,000 Bonus Okayed By Czar

Chandler's Investigation Finds No Rules Infraction

NEW YORK, Feb. 3.—(AP)—It looks as if the Pittsburgh Pirates are home free in their \$100,000 deal for a schoolboy pitcher but the weird shenanigans of the case may cause trouble to tighten the high school rule.

Commissioner A. B. Chandler has refused to work up a differ over the deal that saw the Pirates grab 18-year-old Paul Pettit of Los Angeles with a record bonus splash that had a full Hollywood setting.

The commissioner says one of his operatives investigated the case for two weeks. If that operative had rules violated, he adds, "then I am sure that is the case."

Most of the club executives were willing to let it go at that but they were sharp welps from Fred Balg of the St. Louis Cardinals and George Weiss, general manager of the New York Yankees.

Balg called the deal an "outrageous evasion" of the baseball bonus and high school rules and declared:

"I believe the Pettit case should be protested by the club owners for the commissioner. I, for one, shall do so."

Weiss added that if a major league club is found behind the unique deal "something drastic must be done."

The Pirates obeyed the major league rules in not signing the six-foot-two, 205-pound southpaw until Tuesday—four days after he had graduated from high school. But there was some extra twist.

The papers were signed in a movie agent's office, with large cash amounts going in assorted directions.

While the baseball clubs could not approach the youth, film producer Frederick Stephane signed the mound prospect to a film, radio and television contract for \$85,000. This made him Pettit's agent.

In order to get Pettit's services, the Pirates and five other clubs in the scramble had to deal with Stephane.

The Pirates assumed Stephane's \$85,000 obligation and paid \$16,000 in addition. The boy was reported to have received most of the \$100,000 also.

Roy Haney, president of the Pirates said the deal was strictly on the up-and-up.

"Nearly all the money went to the boy," he said. "It's all in the contract and the contract is in Chandler's office."

Sanford - Orlando Kennel Club Entries

TONIGHT'S ENTRIES
FOURTH RACE—Prestige, Fox, Silent Fawn, The Sid, Duke, Girl, Hilda.
FIFTH RACE—Prestige, Windy Cannon, Mary's Pet, King, Duke, Girl, Hilda.
SIXTH RACE—Prestige, Windy Cannon, Mary's Pet, King, Duke, Girl, Hilda.
SEVENTH RACE—Prestige, Windy Cannon, Mary's Pet, King, Duke, Girl, Hilda.
EIGHTH RACE—Prestige, Windy Cannon, Mary's Pet, King, Duke, Girl, Hilda.

Sports In Brief

Baseball—Fred M. Balg, president of the St. Louis Cardinals, said he would protest the \$100,000 signing of schoolboy Paul Pettit by the Pittsburgh Pirates.

LOS ANGELES—Ralph Kiner, Pittsburgh's home run hitting outfielder, signed a two-year contract at \$65,000 a year.

HOLLYWOOD, Fla.—Defendant Jim Taverniere, elongated center for the Boston Braves, has averaged more than 18 points a game in the first 11 games this season. Taverniere has scored 203 points in 11 games. He was in the lineup from October, N. J.

General—E. W. Etchells' Shilluh von the mid-winter star class championship regatta.

Unknowns Lead Arizona Open Golf Tourney

6 Under Par 64s Are Carded By Pair In \$10,000 Tucson Tilt

TUCSON, Ariz., Feb. 3.—(AP)—A couple of strangers in the ranks of the touring pros carry a one-stroke lead into today's second round of the \$10,000 Tucson Open golf tourney.

Wally Ulich, Minneapolis, Minn., and Manuel De La Torre, Chicago, forced their names before the rest of the fraternity yesterday. Both needed only 64 strokes to cover the par 70 El Rio course.

They start out today a second stroke in front of a tournament-wise Tony Rena of Cincinnati, O., and George Buck, Westport, Conn.

A host of other pros are within easy striking distance. Although 47 additional members of the group broke par. Another 19 played in even par.

Co-favorite Jimmy Donahue, Olat, Calif., is polished closer behind the four top men with a first round score of 66. So are half a dozen other threats.

S. L. Alexander, Knoxville, Tenn., who won the event in 1948, is in a group of eight with scores of 67.

U. S. Open champ Dr. C. A. Middlebroff, Ormand Beach, Fla., and six others are two strokes under par with 68.

Sam Sneed, White Sulphur Springs, W. Virginia, and Demaree Lee considered the men most likely to win the \$2,000 first place money. Sneed was unhappy with his score of 69 yesterday which placed him in a 26-way tie for the 26th place.

Grid Scouts Vie For Services Of Prep Star

RISING STAR, Tex., Feb. 3.—To say the college football scouts are hunting a path to the door of one Buck Gibson would be putting it mildly. It's a stampede.

Gibson played for a small high school but in 12 games last season he rolled up 2,677 yards carrying the ball. A fellow who can average almost 210 yards per game certainly can be used in college.

Gibson, now a senior, weighs 162 pounds and is as fast as a jack rabbit on his native plains.

In carrying Rising Star to the class B district championship of the Texas Intercollegiate League, Buck rolled up 2,275 yards. In the district clincher against Early High School he accounted for 340 yards and five touchdowns. His run for yards with 60, 54, 6, 73, and 41 yards.

In the district game with Valley Mills he raced to 250 yards and three touchdowns, one on an 80-yard dash. In the regional game against Rule, Gibson made three touchdowns, and accounted for 102 yards rushing.

Luptow Of Tampa Signs To Race In Daytona Classic

DAYTONA BEACH, Feb. 3.—(Special)

Seven champions of various racing circuits have already filed their entries for the two major Florida racing classics of the winter season to be held over the famous four-mile course here Saturday and Sunday.

The two-day event program opens with the 100-mile modified stock car race at 2:30 P. M. Saturday and continues with the 200-mile classic for new model automobiles on Sunday.

Champions competing in the Saturday classic will include Fenty Flock, the 1949 NASCAR champion of modifieds; Bob Flock, NASCAR modified champion; Al Keller, champion of the United States; Red Cummings, Beverly, Mass., the New England States champion; and "Tommy" Thompson, the 1948 champion of the Indianapolis state circuit for 1949.

In addition to these champions, the Sunday field also includes Ted Byson, Atlanta, the 1949 NASCAR strictly stock champion and the times winner in beach competition, and Frankie Luptow, Tampa, winner of the International Motor Contests Association title.

With alcohol being permitted as fuel for the first time in beach competition, Race Director Bill Franer anticipates a new speed record for the 100-mile grind to be set by Marshall Average in his 1949 Buick.

Big Bill Tilden Chosen As Top Tennis Star Of Mid-Century

NEW YORK, Feb. 3.—(AP)

The greatest tennis player of the past 50 years? Is there any argument? Not in the nostalgic opinion of the nation's sports writers and radio experts. They say that Bill Tilden, net colossus of the golden age, outshone every rival by a great margin there was no real comparison.

The tall, controversial figure who won seven national championships, 10 straight years from 1920 through '29, won the vote of 310 out of 391 participants in the Associated Press' mid-century sports poll.

The voters looked back beyond the postwar tragedy which has befallen the great champion in recent years and cast almost a solid ballot for Tilden, the tennis player.

Jack Kramer, the current professional king, attracted 32 votes. Don Budge, the red headed comet of the late thirties, was the choice of 31 experts. Nick Pietrangeli, glamorous seven-time women's champion, was voted greatest of the period by 12. The remaining six votes were divided among five players.

Whether Tilden at his peak could have beaten the modern "pressure" players is a debatable point. They argue about it in the locker rooms, and there are no final authorities who feel that big Bill, who was at his superlative best in the back court, would have succumbed to the furious net attacks of Budge and Kramer.

Admirers of the old king are equally positive that he could have adapted himself to any style of play in those years when his name was a household word—that he could have met Budge and Kramer, and net and slapped them down in money, marbles or chalk.

They point out that after he was well in his forties, Tilden was never the slightest out of such top young fellow professionals as Ellsworth Vines and Fred Perry, and that he was carrying 18 years on his back when he finally got a shot at Budge and lost, in 1941. Certainly no other tennis player

State Farmers Market

SANFORD STATE FARMERS MARKET
REPORT NO. 74
 The following prices reported for the first time in beach competition, Race Director Bill Franer anticipates a new speed record for the 100-mile grind to be set by Marshall Average in his 1949 Buick.

Enflade, dam of a C. V. Whitney two-year-old named The Vesp

in honor of Vice President Alben Barkley, was the winner of the Rosedale Slakes at Jamaica in 1946.

has covered such a span of years as the remarkable winner who came out of Philadelphia just after the first World War to win lasting fame on the courts.

Born Feb. 10, 1903, Tilden was a seasoned 27 when he won his first national championship in 1920 after having twice been runner-up. He was, then, 37 when he won his last big amateur title, the all-England championships at Wimbledon in 1930. Most tennis stars begin feeling old at about 30.

The record shows that in 1934, when big Bill was in his 41st year, he defeated Ely Vines in a five-setter, with one set going to 23-21 in games.

In an exhibition tournament for the Red Cross in 1946, when he was a fast-moving 62, Tilden knocked out two such well-known professionals as Lloyd Rudge and Wayne Sabin, a rugged player 30 years his junior, and for a time the delighted spectators saw the Tilden of old in action.

He ranked Sabin 6-4 in the first set and 6-7 in the second. Then the spark expired and the 63-year-old Tilden found himself out of breath. He won only two games in the remaining three sets. It was the final gesture of one of the all-time greats of sport.

ready holds a record—it has a 40-man board of directors.

Terry Sawchuk, goaltender of the Indianapolis Caps of the American Hockey League, is a baseball star. He was in the summer and two years ago led the Adirondack League in batting.

The Centennial Turf Club of Denver will not conduct its first meeting until July 4 but it already has a record—it has a 40-man board of directors.

TWO-WAY STRETCH

that's strictly inside stuff!

HERE'S THE NEW 1950 BUICK SUPER 126, companion body-type to the equally new ROADMASTER 130. Both are shorter than last year's 4-door Sedans—yet 4 inches longer in wheelbase. In both, the difference is used to give you real stretch-out room in the rear seat.

What the boys did here really calls for some medals. We gave them the job of coming up with something that was bigger inside—for room and comfort—longer in wheelbase—always important to good riding qualities—yet unbulky and easy-handling in overall dimensions.

Just look how well this tidy number meets these "impossible" specifications!

Item one—rear-seat cushions are a full foot wider than last year's SUPERS and ROADMASTERS.

Item two—in every dimension—leg-room, head-room, hip-room, shoulder-room—this rear-seat compartment is bigger than previous models—and nearly four inches longer, fore and aft, than other 1950 Buick interiors.

Item three—wheelbases are the longest of our 1950 line. On the SUPER, it is 125 1/2" instead of 121 1/2" on the ROADMASTER 130; instead of 126 1/2" on the ROADMASTER 150.

Yet—and here's where the magic comes in—no wheel car is shorter over-all. Actually less from bumper to bumper than previous Buicks in these series.

That means easier parking, easier tucking away in family garages, easier maneuvering in crowded traffic.

There are some other things too. An extra rear-quarter window not found in standard 4-door Sedans. A different upperstructure styling that makes this body-type stand out as something pretty special.

Even special names that let you say, "I drive a SUPER 126" or "Mine's a ROADMASTER 130," just by way of being different.

Yes, we think we hit on a happy idea in the "Longfellow," as they're coming to be known. They are not longer, on the outside, but there's a two-way stretch—in width and length—in the rear compartment.

You're going to like that—as you'll see by calling on your own Buick dealer. If he doesn't have one on hand, he can get it pretty promptly—and at a price and on a deal you'll have trouble matching, much less beating, anywhere else.

See him now, will you—about placing an order?

Features like these mean **BUICK'S THE BUY**

POWER-COMPRESSION Fireball valve-in-head power in three engines, five hp ratings. (New V-360 engine in SUPER model.)

NEW-PATTERN STEERING, with bumper-guard grille, taper-through fenders, "double bubble" fenders, wide-angle visibility, close-up road view both forward and back.

TRAFFIC-HANDY SIZE, too over-all length for center parking and garaging, short turning radius.

EXTRA-WIDE SEATS cradled between the coils.

SOFT BUICK RIDE, from all-steel springing, safety-side tires, low-pressure tires, ride-absorbing shock absorbers.

DYNAFLOW DRIVE standard on all ROADMASTERS, optional on extra cost on SUPER and SPECIAL series.

NINETEEN MODELS with body by choice.

WIDE CHOICE OF EQUIPMENT adding flexibility to prices that bracket every price range above the lowest.

NOTICE
In our ad of February 1, 1950 in which Mr. G. W. Spencer was quoted, his legal opinion was given in answer to the following question of Mr. Chase: "Did you know that the law authorizes a private sale of the contemplated bonds (that is, a sale without advertising) and at such price as will yield 6 1/2 per annum?"

Firstly, Mr. Spencer states that the City of Sanford is not legally permitted to pay in excess of 4% interest on money borrowed for the Terminal Project.

This is the only question in Mr. Chase's ad upon which Mr. Spencer was requested to render an opinion.

This ad sponsored by a group of Sanford citizens.

IS YOUR NAME WRITTEN THERE?

... on the page of unsatisfactory credit accounts—

You Are Writing Your Own Record By The Way You Pay Your Bills

Business is done largely on credit and credit is nothing more than faith and confidence . . . betray that confidence by failing to meet your bills promptly and your name goes down in the little black book of poor credit risks . . . and, it doesn't take long for the word to get noised around.

Be On Guard!

Keep your name good and your credit reputation excellent.

A WISH FOR HER

A charming little girl led a troop of playmates into the store. They swarmed into the seats at the soda-fountain counter, and ordered fantastic dishes.

There were second, even third helpings, for those that wanted them. And the bill was "paid" by the little hostess saying, "Charge it to Dad."

You doubtless think it is mighty fine for a little girl to have a Dad who will pay her bills just like that. But is it? Isn't there danger of that little girl growing into a woman who will keep on running up accounts for someone else to pay?

There probably is that danger, but I don't want to think that lovely child will ever be a cheat. Let's say she will turn out to be one of those favorites of every business concern—a customer who buys generously on credit, and pays with honor. Pays, we mean, with unfailing promptness the day the bill comes due.

From A Citizen's Note Book.

You Are Assured of Good Credit Standing When
You Pay Your Debts As They Come Due

"Promptness is the soul of business" -Chesterfield

MONDAY, FEB. 6, 1950 TODAY'S BIBLE VERSE

Humanity has slain most of its prophets and saviours. Humanity has paid in blood and tears for every drop of their blood. Let us be worthy! Of whom the world was not worthy.—He. 11:38.

Real craftsmanship brings the highest promotion. Living is a fine art. We should try to be master craftsmen, to build a noble life. These were the pattern they dwelt with the king for his work.—1 Ch. 4:23.

LOCKED HORNS LEFT ON A HILL

(From The Kansas Magazine) Was it a soft-eyed doe they both desired? Or feeding ground where moss had better taste? That set the quarrel, kept them straining here And left their antlers fatally embraced?

Was it by moonlight when they met and fought? How many suns beat down while their struggles, seeking freedom from the trap. Age-old conflicting passions brought them to?

What witness came from the forest shield To watch the drama of these lordly deer In mortal combat? Did the jackal laugh In ribald triumph to come sneaking near?

The bones are scattered but these horns remain Hang them in parley hall, in hope to show No victor left this battle-to-the-death: Man in their pride may lock their weapons.

VELMA WEST SYKES

That was quite a publicity stunt Ingrid Bergman pulled off. Rita Hayworth will have to get herself a new agency.

A naturalized British subject of German origin has been arrested for giving away atomic secrets to Russia. Wonder what the Communists would do with anyone who gave away atomic, or any other kind of secrets, in Moscow.

Winter visitors spending their vacations in Tampa drew \$66,000 in unemployment compensation, or illness benefits, under the Social Security Act, during the month of January, the Tampa Tribune reveals. See what you mean?

Senator McMahon of Connecticut wants the United States to spend \$50,000,000,000 trying to buy peace from Russia, even if that means building up the Russian war potential to the impoverishment of America. Attaboy! Billions for defense but not one cent for tribute!

Rep. Franklin D. Roosevelt, Jr. who is supposed to be one of the bright young liberals in the new Congress has been present at just 60 of the 129 roll calls since the session opened. "You simply can't learn the rules of this House," comments Rep. Brown of Ohio, "in a night club in New York. You can't solve any of the great social and moral problems of our day by postprandial meditation on 52nd St. You've got to be right there to solve them." Like some of our political politicians of old, who would dry and drank wet.

Senator Pepper repeats his promise of 14 years ago that if he wins the election, he will get the help the Townsend Pension Fund and at least \$150 a month for those over 60 years of age. These are about 110,000,000 in this category, that \$150 a month would total about \$1,500,000,000 a month or \$18,000,000,000 a year, which is about half of the entire national income.

Successful business utility furnishes potential services to a population of 100,000 in the fastest growing areas in Florida offers a liberal stock plan opportunity for substantial capital growth. Call or write for detailed information.

ALLEN & COMPANY

The Electoral Votes

The Senate Republican leadership is correct in its claim that the proposed revision of the presidential electoral system, in the form passed by the Senate, would not absolutely eliminate the possibility (although it would be reduced) of electing a candidate who failed to receive the highest popular vote. Some states would still wield a greater influence on elections, in proportion to population, than other states. The disproportionate influence would be taken from one set of states and given to another set.

Under the present system the most populous states have the greatest influence because they have the largest blocks of electoral votes. In fact the five highest ranking ones are known as the pivotal states, since a candidate carrying those five is almost assured of election. The change approved by the Senate would rob these pivotal states of their position, and give disproportionate influence instead to the states at the bottom of the population ranking. Perhaps as many as fifteen states would have presidential voting power about twice as great, in relation to population, as that of the largest states.

The effect of disproportion could be cut a little by making an additional change in the electoral system to allow each state only one electoral vote for each representative in Congress, and not allow one for each senator also. This would further reduce the possibility of electing the also-ran candidate. The way to assure election of the most popular candidate would be to abolish the electoral vote system altogether and name the president by direct popular vote. Probably there is no other way. Under any system assigning electoral votes by states on the basis of total population, rather than actual votes cast, some unfairness in distribution is inevitable. Why not a popular vote?

Hydrogen And Hope

At present, the hope of Americans for a peaceful future hinges almost entirely on our relationship with Russia. One theory underlying the official attitude toward Russia the past two or three years has been that the only compelling principle the Russians recognize and understand is force. By this theory, two conditions must be met before international conversations can be resumed on any reasonable basis—the Russians must be convinced that we will not yield to threats of force, and they must be convinced that the United States now holds and is willing and able to maintain indefinitely a superiority in military strength and resources.

One of the things America has wanted since the end of the war is effective control for atomic energy, control which would make it impossible for the atomic bomb ever again to be used in war. For some reason Russia has blocked the way to such a plan. Now the United States has made public the fact that it will attempt to make a hydrogen bomb, which would be as great an advance of the atomic bomb as that was over previous military explosives. Will this provide the demonstration of strength necessary to earn the Russians' respect, or will it only increase their fears and distrust? Perhaps not even the Russians could answer at this moment.

We may very well ask what we shall do next if after development of a hydrogen bomb we remain at loggerheads with Russia. Presumably we would start a stock pile of the new bombs and begin a search for something more terrible. Description of the potential hydrogen bomb suggest the fantastic leaps and bounds which may be taken as we move forward in the new field of nuclear energy. The suggestion may be strong enough to make the Russians, as well as us, ponder the desirability of an assurance of peace. There may, after all, be hope in the hydrogen bomb.

Woman's Place

"The phrase 'Rights for Women' has a quaint outdated sound in the modern world. It was the slogan of the grandmothers of today's young people, and inspired them to achieve property rights, employment on the masculine level, and the right to vote.

That this phrase covers responsibilities as well as rights was the theme of three speakers at a recent meeting of the American Association of University Women in New York. Combining an outside job with the primary one of raising a family was recommended by Millicent C. McIntosh, dean of Barnard College. She reminded her listeners that this dual role would make necessary a partial sacrifice of social life until the children are grown.

Mildred McAfee Horton, in a plea for equal employment rights, affirmed the fact that many privileges must go by the board when equality is attained. More women should be active politically, according to Sarah Gibson Blanding, president of Vassar. Admitting that so far women's political influence has not been generally strong, this speaker counseled patience. She believes that women's political maturity may prove to be a plant of slow growth.

For everything we gain, we lose something. For everything we lose, we gain something else. In such words as these, Emerson stated what he called the Law of Compensation. Women who are dissatisfied with their role in modern life, and there are many, would do well to consider how this law applies to their personal circumstances.

Oak Ridge Atomic Expert To Speak At Gainesville

TALLAHASSEE, Feb. 6.—(Special)—With National attention focused on development of the "so-called hydrogen or super-bomb" by the Atomic Energy Commission, the message of Dr. Ralph F. Overman, chairman of the special training division of the Oak Ridge Institute of Nuclear Studies at Florida State University next Saturday night, Feb. 11, is of more than usual importance. Dr. Overman will speak at a public meeting at 8 P. M. Saturday, Feb. 11, in the university Science Hall on "Nuclear Science in the South."

He is coming to the university to attend a meeting of the Florida Section of the American Chemical Society. Dr. V. E. Stewart, head of the state chemistry food and drug laboratory division at Tallahassee, is chairman of the Florida section and will preside over the meeting.

Dr. Overman became chairman of the special training division at Oak Ridge in 1948 and the age of 29. Over 850 mature research workers have been trained in the use of radio isotopes under Dr. Overman's supervision in the last 14 months.

Florida Power & Light Dividend-Paying Stock

ALLEN & COMPANY

THE WORLD TODAY

By DEWITT MACKENZIE AP Foreign Affairs Analyst

Rarely does a government official resort to such a sensationalist flourish as to declare that a foreign power is directed to Russia and Marshall Stalin the other night by Secretary of Defense Johnson during a speech in Washington.

"In all we are doing," declared the Secretary, "we are seeking peace. There is only one nation in the whole world that would start a war. We look to have a military establishment sufficient to deter that aggression and lick hell out of her if she doesn't stay deterred."

Mr. Johnson said America's defense system is in better shape and stronger than at any time since 1945. Our defenses are getting stronger daily and soon will reach a point where they will be ready for anything in an hour's time.

"The Stalin will know," declared the Secretary, "that if he starts something at four o'clock, the fighting power of the United States will be on the job at five A. M."

That certainly is laying it on the line. Of course statements sometimes under stress of emotion make statements stronger than were intended. However, the secretary was speaking from a pencilled note and there is no indication that he wasn't talking with studied deliberation.

Such language is reserved for emergencies, and this certainly is a critical moment in the conflict of the Irons, as the great Red offensive continues its victorious sweep across southeast Asia. It's my guess that the secretary's declaration was not intended to be a warning to the world, but to let the American public know that America is prepared for contingencies and isn't depending on any "Magnot line" of defense. The other way to advise Moscow that we are prepared and mean business.

In considering the secretary's declaration, and this certainly is a warning to the world, but to let the American public know that America is prepared for contingencies and isn't depending on any "Magnot line" of defense. The other way to advise Moscow that we are prepared and mean business.

However, having attended the fateful conferences of Berchtesgaden, Godseberg and Munich, I know that Hitler became more aggressive with each successive panceuvre by Chamberlain. The Führer saw that he had the other fellows worried, and took advantage of the situation to employ his own tactics. So on the whole I think we may classify Secretary Johnson's speech along with the announcement that America is going ahead to create the new super-bomb. Both pronouncements were definitely intended as a deterrent to war. But far from being appeasement, they tell the American public, and the world at large, that we are taking no nonsense.

State Farmers See Markets As Vital To Selling Truck

JACKSONVILLE, Feb. 6.—(Special)—Cardinal sources of vitamins and minerals are moving out of Florida daily to all parts of the country. Beans, potatoes, squash, peppers, tomatoes and a wide variety of other vegetables together with high quality citrus products are available. The state system of Farm-to-Market roads is an important link in this distribution.

Chain where buyers of fresh farm produce deal directly with farmers who grow it. More and more dealers are going directly to farmers to supply the nation with strictly fresh fruits and vegetables, according to William L. Wilson, Director of State Markets.

"Many of the markets are well known as certain sources for one or more vegetables. At the Palatka Market, for example, beans and peas are the top commodities, while the Palatka Market shows cabbage and cauliflower leading. The Florida City Market offers a heavy volume of tomatoes along with a good supply of beans and squash.

"Superior quality strawberries are available on the State Markets at Plant City and Starke at prices within reach of most budget-minded housewives. Daily average prices ranged from 15¢ to 19¢ during the past week.

The Sanford market boasts of twenty-five to thirty varieties of vegetables in large volume with plenty of all kinds of citrus available.

Fort Myers Market has a good volume of eggplant, pepper, and Irish potatoes while Pompano is furnishing pepper, eggplant and squash and field peas for the nation's healthful consumption.

MERCY KILLING ATTEMPT

RICHMOND, Va., Feb. 6.—(AP)—Mrs. Roscoe Appich Stoler, 60, remained in critical condition today with two bullet wounds in her chest, inflicted in a "mercy killing" attempt by her husband, who police said committed suicide after shooting his wife.

Police said Charles S. Stoler, 60-year-old Richmond jeweler, shot himself through the head after he thought he had killed his wife, a lecture invalid since she suffered a stroke in June, 1948.

Police said Charles S. Stoler, 60-year-old Richmond jeweler, shot himself through the head after he thought he had killed his wife, a lecture invalid since she suffered a stroke in June, 1948.

Different Picture

Palm Beach Post - Times

The recent exchanges between Senator Claude Pepper and his opponent, George Smathers, paint a somewhat new picture. Mr. Smathers came off a distinct winner. The Senator, famed for his adroitness in debate, and the suave, witty, which he dissociated words from thought, found himself neatly dumped, in the area he has so long dominated.

Mr. Smathers is bright, Mr. Smathers is handy with repartee. Mr. Smathers is sincere. He is the latter because he manages to fit words to thought, rather than dissonate the two. So we see a different picture. We see an opposition in no wise daunted by the Pepper reputation. Claude found his best weapons suddenly in the hands of those opposing him, but augmented "high convictions and trenchant logic. Perhaps he has learned that, after all, empty words are equally empty weapons. They serve only briefly, and never do they withstand a barrage of facts, of logic, of well grounded thought.

We have prophesied that the Senator faces such a fight as he never before encountered. In those first exchanges our prophecy is amply borne out. When Mr. Smathers responded that, now that Pepper will no longer speak to him, he presumes he also will be denied the friendship of Henry Wallace, Paul Robeson and Joe Stalin, Mr. Smathers makes the retort emphatic. He speaks a mouthful. He proves his mettle in the political arena, what is cooking on its very doorstep.

That his scoring touched a nerve, seems evident by the very lameness of the rebuttable Claude's response. It appears that, for the first time of public record, Claude had to pray for an answer.

CHARLES FRANCIS COE

Hands Off

Tampa Tribune

Reports from Tallahassee indicate that state officials, including Governor Warren, intend keeping "hands off" in the primary campaign for United States Senator. The Governor has declined to discuss the issues of the candidates and heads of departments have expressed a disinclination to take any part. Controlling Guy has sent out a form letter to employees of his department cautioning them against "becoming actively and openly involved in any political race or campaign."

Treasurer Larson has taken the same stand. Attorney General Erwin says he will abide by the state law prohibiting the influencing of votes by state officers; Secretary of State Guy repeats that refraining from political activity has been the policy of his office for years. Commissioner Mayo, who has the largest department personnel, is understood to have voiced similar indignation. School Superintendent Wiley says he will take no part. That is as it should be. It is decidedly improper for any state department head to "pass the word" that he would like to see his subordinate vote for if not work for a certain candidate. That has been done, of course, but it is a reprehensible course and should be discontinued.

State employees constitute a considerable proportion of the popular vote. They should exercise their franchise entirely without coercion or even suggestion from their superiors in office.

24 Injured In Miami Transit Bus Accident

MIAMI, Feb. 6.—(AP)—Twenty-four persons were injured—three seriously—early today when a Miami Transit Company bus and a 1947 Cadillac collided on a north-west avenue. The impact hurled the bus across the street and buried its nose in the side of a building.

The automobile careened onto the sidewalk on the opposite side of the street. Seven ambulances and five police cars rushed the 21 bus passengers who received minor injuries to Jackson Memorial Hospital.

Sanford Forum

Editor, The Herald

A large and appreciative crowd gathered in the assembly room of the Fellowship Front Station Saturday, Jan. 28 at 7:00 P. M. for their regular monthly temperance meeting.

The Scripture was quoted by Thomas Pollette, Matthew 4: "Ye are the salt of the earth and the light of the world." The Rev. George S. Henninger D. D. spoke on "What liquor ads are doing for the Nation." He told of the growing audacity of the liquor crowd and the ability of their ads. He warned the audience of the dangers this country is exposed to by their deceiving propaganda.

Senator Lee, former statesman of Kentucky, also a minister of the Gospel, gave a very forceful address on the danger and destructiveness of the liquor business. He closed his message with these words: "My country, 'tis of thee, Sweet land of liberty. Of thee we sing. Then when America, Yes, when America is dry, And not until then, Will she be bright!"

It was stated by those present that his message was not less than a masterpiece. Mr. Mott, a former member of the West Virginia Legislature, honored the congregation with an inspiring quartette of his own arrangement.

The Rev. W. W. Herrington whose subject was, "Has Repeal Been A Success?" closed the program. He proved to the people that it stands for — for killing the high-ways, wrecking homes, debasing men, women and children, murder and slaughter by the institutions and hell with its victims. Rev. Herrington's talk was straight to the point.

The Woman's Christian Temperance Union expresses its appreciation of such talented speakers and musicians. Mrs. C. D. Springston Program Chairman

Quick Action For That Cold

By W. V. BITTING Touchton Drug Co.

Every day you let cold hang about you are inviting a more serious illness. Once a cold sets in it usually runs its course in a matter of a few days and even during this period you don't get any prescriptive treatment that will bring much relief.

When your cold lasts more than a week you need medical advice and treatment until it is cleared. If you are susceptible to colds it may be that your general health is not as good as it might be.

See your doctor and clear out cold quickly. Permit and upon the medicine that compound the medicine your doctor prescribes.

Local Golf Group Entertains Visitors

About 40 visitors of the Women's Golf Association of Daytona Beach and Deland were entertained last Thursday by members of the local association with a luncheon and tournament. Eighteen holes of tournament golf were enjoyed and a buffet luncheon was served at noon.

Winners in the 18 hole tournament from Deland were Mrs. Eleanor Allen and Mrs. Margaret Culp. Winners from Daytona Beach were Mrs. Dorothy Talton and Mrs. Betty Quinton. Mrs. Ellen Stueck had an outstanding low gross score of 88 for the 18 holes and Mrs. Andrew Caraway scored a low net of 79. The putting contest for the three groups was won by Mrs. Aline Sweeney of Deland. About 21 players participated in the tournament.

The local Golf Association has been active during the past month, taking part in tournaments sponsored by the Men's Golf Association, and the Women's playing meets. The date of the Women's Golf Association state tourney has been set for April 2-29 and a number of the local members are making plans to attend, according to Mrs. W. G. Fleming, publicity director.

Jewell Betts Weds N. E. La Freniere

Mr. and Mrs. W. E. Betts announce the marriage of their daughter, Jewell Patricia, to Nelson Edward La Freniere on Jan. 29 in Jacksonville, Fla. Mrs. La Freniere is a graduate of Seminole High School and has recently been employed by Florida Fishings, Inc. in Sanford. Mr. La Freniere is the son of E. J. La Freniere and the late Mrs. La Freniere of Burlington, Vt. He attended school in Burlington after which he served for four years in the United States Army, part of which time he spent in the European Theater of Operations. At present he is employed by the Coats Motor Transfer Company of Jacksonville where the couple will make their home.

Vickery Home Scene Of TEL Class Meet

The T. E. L. Class of the First Baptist Church met with Mrs. Edna Vickery on Thursday night with Mrs. C. S. Benton and Mrs. M. Cumming as hostesses with Mrs. Vickery. Mrs. E. M. Carroll presided over the meeting and following the devotional by Mrs. J. C. Callahan and reports from officers, refreshments were served. Those attending were Mrs. E. M. Carroll, Mrs. A. K. Rosseter, Mrs. M. S. Nelson, Mrs. J. C. Callahan, Mrs. A. Smith, Mrs. F. P. Rines, Mrs. Nancy Dobbins, Mrs. Fred Cawley, Mrs. J. A. Cunningham, Mrs. W. L. Stoulenmire, Mrs. M. A. Callaway, Mrs. M. E. Messenger, Mrs. R. B. Garrison, Mrs. E. W. Higgins, Mrs. W. B. Stovall, Mrs. Sally Allen and a visitor, Mrs. W. T. Ross of Havana, Fla.

Seminole High PTA To Meet Tomorrow

The Seminole High School Parent-Teacher Association will meet Tuesday afternoon at 3:30 P. M. in the school library. Following the theme for the year, "Together We Build," Mrs. Henry McLaughlin, Jr. has arranged a program on the subject "Build Good Manners." A film "Build Good Manners" will be shown. Questions on social behavior submitted by parents, teachers and students will be discussed in a quiz program with Mrs. W. A. Morrison as mistress of ceremonies. Answering the questions will be Mrs. J. P. Holzlclaw and Herman E. Morris, representing the parents; Miss Barbara Ruprecht and Joe McCaslin, representing the faculty; and Miss Carolyn Melonie and Bobby Hodges, representing the students. All parents of high school students are urged to attend to meeting.

Top a steamed pudding with brown sugar hard sauce; use twice as much brown sugar as butter or margarine and cream thoroughly. Flavor with vanilla and add a dash of salt.

CARD OF THANKS We wish to take this means of expressing our sincere appreciation to our many friends for their many acts of kindness and beautiful floral offerings during the loss of our loved one. Mr. and Mrs. E. G. Kilpatrick, Jr. and family

MR. and MRS. L. E. HATTEN enjoying themselves at the beach yesterday. The company to the FWWS of La Grange, Ill. talking about the beautiful flowers and shrubs in Sanford. SUE HITT, CHURCH downtown early in the morning.

Garden Gate

You have read about various poisons, such as Florida Yulek (oil of Emulsion), and Parathion, and now I would like to tell you about Isotox Garden Spray, a new insect powder. It is the most amazing new spray with Isotox.

Isotox Garden Spray contains insecticide with so many versatile uses. It controls many lawn, garden, and soil pests, as well as flies, house and other pests around dwellings, barns, and other outbuildings. Isotox is safe to use as approved by Federal Authorities.

Isotox is recommended. Use only 1 to 4 teaspoons per gallon of water, depending on pest. Complete directions for use appear on label.

Isotox can be used on roses, geraniums, gladioli, chrysanthemums, amaranth, lawn insects, tomatoes, squash, cucumbers, melons, peppers, cabbage, strawberries, and citrus.

Isotox effectively controls the following pests: aphids, (plant lice), thrips, leafhoppers, leaf beetles, plant hoppers, grasshoppers, plant bugs, beetles, mealy worms, cicadas, worms, squash bugs, mole crickets, cutworms, and webworms. White grubs, army worms, stem borers, root weevils, chinch bugs, and many others.

If you are going to use Isotox, which has proved very beneficial, let me offer the following precautions:

1. Avoid breathing in the wet dust powder while opening the bag and introducing it into the spray tank. Avoid inhaling the spray mist during the spraying operation. Work to windward. While handling Isotox, wear dust mask, and when spraying or entering sprayed areas, wear a respirator.

2. Wash hands, arms and face after handling parathion and before eating or smoking. If you are working under conditions involving considerable spray, drift or dust, wear protective covering. A light plastic raincoat gives good protection.

3. Never handle parathion wet table powder with the bare hand. If you must handle the powder with the hands, wear natural rubber gloves.

4. Atropine is the emergency antidote for parathion poisoning. Atropine is obtainable only with a doctor's prescription.

It's easy to separate slices of Isotox without tearing them, once they've warmed up bit over 100° in a skillet.

Deanna Morgan listens in on June Wynans telephone conversation in a scene from Warner Bros. "The Lady Takes A Sailor" Showing Tues and Wed on the Ritz Theatre Stage.

DAR Will Conduct Historic Tour Feb. 10

Sallie Harrison Chapter, Daughters of the American Revolution, will conduct a tour of historic sites in the vicinity for members of the Tourist Club and residents of the Tourist Club on Feb. 10. These destinations take the tour are intended to meet at the Tourist Center at 1 P. M. Transportation will be furnished for those without cars. Following the tour all are invited to the luncheon at the Tourist Center for 10:30 A. M. Commentaries for the event will be Mrs. H. J. Lehman, Mrs. A. R. Key, Mrs. F. Roundhill and Mrs. J. B. Day.

West Side To Begin Study Course Feb. 9

A study session will be held Feb. 9 at the West Side Primary School beginning at 9:00 A. M. and lasting until 2:00 P. M. A meeting and speakers are asked to contribute to the study of the topic of which will be read as the subject for talks by several speakers. This study will be of interest to all members of the Parent Teacher Association and they are urged to attend. Talks will be given at all these times during the school.

Grammar School To Start Study Course

A study course will be started at the Sanford Grammar School at 2 P. M. on Feb. 9 with a theme entitled "Meeting Emotional Needs in Childhood." The Groundwork of Democracy. This course will be held before the regular P. T. A. meeting and speakers are asked to arrive early. The date for the remainder of the course will be announced later. All members are urged to be present.

Eddie Cantor Talks Mayfair To Sponsor Square Dance Tonight

By MARK HOFFMAN NEW YORK, Feb. 6 (SPECIAL) Eddie Cantor, who is father of five daughters and should know all about the younger generation from personal experience, is on a lecture tour at colleges and universities to learn about youth. The handsome, 57-year-old comedian is learning, too, because the youngsters are teaching him plenty.

"I started out the other night at the University of Miami in Miami, Fla.," he said. "No sleeping night I've ever had on Broadway thrilled me so much. It was knowing and the night before final examinations. The students were parading around the auditorium carrying signs which read 'Eddie Cantor and Flynn.' In other words if the kids came to hear me, they couldn't stay home and read."

"I've never been so complimented as by the fact that the youngsters turned out that night to see a very comfortable show at the college auditorium and De Hauck, president of the university, finally had to order the doors shut and turn away many."

"Dr. Hauck honored me with an honorary degree of Professor of humor, but I cautioned him to make it a very small chum."

Cantor stood up for his lecture at the university of Miami, but says he is going to sit down to a very comfortable show at his future lecture at Cornell Rice Institute, Hunter College, University of Oklahoma, Southern Methodist University, Texas Christian University, University of California at Los Angeles and dozens of other places.

It isn't a straight lecture, as a college professor gives, that Cantor presents on this tour. A lecture is a series of talks by going to the piano, singing songs, once in a while doing a dance and other such talents to make his people as entertaining as any of his performances in the Zigzagland "Billies" and other Broadway hits.

Along with it he is also doing his daily NBC broadcast on the "Take It or Leave It" program as well as his appearances on other programs. He hasn't quite arrived at television yet, but is studying the television field.

Most people like the hard hitting guy with an eye for James He's the tough mayor who meets up with a prize fighter never defeat in Younger at a convention. He hasn't quite arrived at television yet, but is studying the television field.

I'VE GOT TO GO!
I'VE GOT TO GO!

HERE'S WHAT?
I'VE GOT TO GO!
I'VE GOT TO GO!
I'VE GOT TO GO!

JOHN & PAUL

YOU--YOU MEAN
YOU'RE THE CHICK
WHO FRAMED J--AND WHO
WANTS TO LEAD ME
TO THE MONEY TO PAY
THE MORTGAGE ON MY
JALOPY?

UH--HUN!
I'LL BE MY
GOOD DEED
FOR TODAY!

THERE'S TEN
DOLLARS
LEFT?

HEY! BUT WAIT A SEC,
YOU DONT EVEN KNOW
HE'S BEEN!
I CAN'T
TAKE MONEY FROM
A GIRL!

IT'S FATHER'S MONEY
REALLY? HE LIKES TO
HELP PEOPLE? A
HONEY-CAY,
WHAT DO
YOU SAY?

GIVING MONEY
AWAY? WHAT A
HONEY-CAY,
WHAT DO
YOU SAY?

NOTHING!
HE TRUSTS
YOU?

HE DOES?
NO KIDDING?
WOW! WHAT
A POP TO HAVE!

THE WEATHER

Partly cloudy and mild through Wednesday, some likelihood of local showers.

West Rapped For Blockade Complaints

Soviets Accuse Western Powers Of Reviving Cold War, Telling Fairy Tales

LONDON, Feb. 7. — (AP) — Britain today recognized the French-sponsored Vietnam government of former Emperor Bao Dai. The British also recognized the governments in the Indian States of Jammu and Kashmir.

LONDON, Feb. 7. — (AP) — The British Foreign Office said today that West Germany's refusal to export iron and steel to East Germany "is no blockade." The export ban was announced last night by the West German Chancellor, Dr. Konrad Adenauer. Some observers interpreted the action as a first step in a western counter-blockade of East Germany in retaliation for Russia's slowdown of road traffic in and out of Berlin. The West German iron and steel ban was proposed by the high commissions of the United States, Britain and France, the spokesman said. Its purpose, he said, is to shift the balance of trade between East and West Germany.

McGrath Calls For Unrestrained Opportunity For Small Business

Small businessmen must be permitted the unrestrained opportunity to enter the competitive struggle, and they must have the right to bring their ideas and energies to bear in that struggle through the free and independent conduct of their own business affairs.

Trial Lunch-Time

DURING lunch recess, Carol Ann Paught, 21, sits on a bench at the Bridgeport, Conn., courthouse where she is being tried for the "murder killing" of her cancer-stricken father, Police Sgt. Carl W. Paught. Carol is charged with second-degree murder. The girl's attorneys are pleading temporary insanity. (International Soundphoto)

Labor Unions, Florida Sales Charities May Tax Defended By Andrews

Educational Groups Included To Plug Federal Tax Loopholes

WASHINGTON, Feb. 7. — (AP) — The Treasury Department today asked Congress to require labor unions, as well as charitable and educational groups, to pay the regular corporation tax on any surplus they operate for profit.

Attend Capital Coal Parlays

Representatives of the National and Western Coal Producers' Associations met today in Washington to discuss the coal industry's problems.
