

### Yankees Defeat Cardinals 4-2 In Series Opener

### Georgia Righ-Hander, Spud Chandler, Has Pitching Prowess

KANSAS CITY, Oct. 6. (AP)—Robert J. Cooper, 58, father of Morton and Walker Cooper, who may form the battery for the Cardinals in today's World Series game with the Yankees in New York died today. Mrs. Cooper said he worried about today's game in which Morton was scheduled to pitch for the Cards with Walker behind the plate. She found him dead on the living room floor about 4:30. Cooper had suffered from a heart ailment.

Maddened and shaken by the news, Mort Cooper was named to oppose Ernie Bonham in the second game of the series.

YANKEE STADIUM, New York, Oct. 6. (AP)—In one of the oldest, most obstreperous games in the history of the World Series the New York Yankees conquered the St. Louis Cardinals 4 to 2 yesterday before 68,076 fans who packed the stadium for the open-

ing contest of the 1943 diamond classic.

It was a triumph for the pitching prowess of Spurgeon (Spud) Chandler, the 34-year-old Georgia right-hander, and a spectacular comeback for second baseman Joe Gordon, the goat of last year's series, but mostly it was a befuddled exhibition of baseball.

Chandler, who had lost two world series games and never pitched a complete one in his previous chances with the Yankees, lived up to his reputation as the outstanding hurler of the present major league season by holding the Cardinals to seven hits and bearing down in the clutches.

Gordon hit a ringing home run in the fourth inning and gave a miraculous defensive performance during which he made eight assists to tie a world series record for second baseman and handled 12 fielding chances, just one short of the record for total chances.

Their double-battered heroics gave the fans something good to remember, but the recollections most spectators probably carried from the big ball park were of the incredible miracles which went into their record books as four errors and the one which lost the Cardinals.

For five innings Max Lanier, the chunky synthase, ably matched Chandler's curving efforts, but in the sixth he made a wild pitch that allowed Frank Crossetti to score all the way from second and put Bill Johnson on third base with what proved to be New York's final run.

Lanier and Crossetti and a confounding number of hot plays also had been involved in the Yankees' first run in the fourth frame. Crossetti, leading off, hit a ground-

er which Lou Klein fiddled well and threw to Lanier for what should have been a putout. However, Lanier stopped on first base with the ball and Crossetti crashed into him at full speed, causing the pitcher to drop the ball for an error.

For the second game which will be played here today, Mgr. Joe McCarthy nominated Ernie (Jumbo) Bonham, big righthander who has won 15 and lost 8, while Mgr. Billy Southworth said he would use Murt Cooper or Alpha Brazle, the latter a rookie southpaw who came up in mid-July from Sacramento in the Pacific Coast League.

Cooper, who started twice in the last world series and was hampered hard both times, has won 21 and lost eight this year while Brazle's record is 8 to 2.

The outcome of the game yesterday did not contribute to any indecision on Southworth's part.

### Union Discontinues Fees From Veterans

TAMPA, Oct. 6. (FNS)—Following complaint of a returned veteran that he was denied work at a Tampa shipyard because he lacked funds to pay the union fee, and threatened action by the Veterans of Foreign Wars, the union involved announced this week that the practice of requiring fees from veterans would be discontinued and such service men would be permitted to join the union without paying the initiation fee. This hurried action by the union followed publicity given the matter in local and state papers.

### Canning Plant Will Bring Big Payroll

DUNEDIN, Oct. 6. (FNS)—With the breaking of ground at Dunedin last week for a \$200,000 addition to the Citrus Concentrates Company plant, pursuant to an amended lease between the corporation and the federal government, came assurance of additional payroll for this bustling west-coast community.

The new addition will employ 20 or more workers and be given over entirely to the manufacture of cattle feed from citrus hulls. Dunedin is also the home of the Food Machinery Corporation, manufacturers of packinghouse machinery and amphibious tanks for the Marine Corps.

### Millard Caldwell To Run for Governor

TALLAHASSEE, Oct. 6. (FNS)—The announcement that Millard Caldwell, former congressman, would enter the race for Governor was carried by a number of West Florida papers last week.

An official announcement from Caldwell is expected shortly. He has been carrying on a state survey and is reported to have been given considerable encouragement.

Particularly strong in west and north Florida Caldwell should cut in on Green in this section and his supporters claim he will develop plenty of strength in other sections when the campaign gets under way.

The queen ant of Australia's white ants frequently attains a length of four inches.

### Football Training Aids In Developing Of Armed Forces

By VIVIAN BROWN  
AP Features

U. S. NAVAL TRAINING STATION, Sampson, N. Y. Football strategy is being used all over the world today in tactics designed to outsmart the enemy—no football training should be invaluable in the training of our armed forces.

That's the opinion of Lieut. Comdr. Mal Stevens, former football coach of Yale and New York University and now mentor of the Naval Training Station team here.

"Most of our great admirals and generals, Halsey, Eisenhower and MacArthur for instance, were football players," says Mal. "The individual strategy and thinking as a result of football training and conditioning, make for faster and clearer decisions, he believes."

Russian Mousetraps

Football in many instances simulates battle conditions. "The Russians," he says, have been using the old mousetraps play right along. "Drawing the enemy in and then encircling and side swiping." Our Navy did an end run around Sicily and the old wedge play "is the split and divide German method." The air barrage "helps soften up defenses in battle the same as in football, disorganizing the secondary defenses." All in all, says Stevens, "war and football demand highly organized team play in addition

to raw physical courage."

However, Mal believes football worth while in the services if for no other purpose than the entertainment of thousands of boys who are in outgoing units headed for sea duty.

Though he thought his dream of a huge squad was realized when 500 players answered his first call, only about 50 of these show up daily.

"I guess I'm out of the frying pan and into the fire" says Mal. "Before, my big problem was trying to get N.R.U. players out to the field on time, keeping them in school and in condition despite city life and the Bronx express—now with the greatest system of proselytizing in the world, board, tuition—there are still problems."

Football Secondary

Football is secondary, naturally, to the Navy boys. They are more interested in making a service school or a school like V-12. There are 60, 100 men and 16 or 17 year old kids.

A total of 49 different colleges including Notre Dame, Southern California, Penn State, Duquesne, Yale, Villanova, Fordham, Cornell, Texas A & M and Detroit are represented on the Sampson

team.

Some of Mal's old N.Y.U. players like Renzi and Gandli are in the lineup. There, there is Wotolski, former Fordham football ace who scored against N.Y.U. three years in a row.

Though Secretary Knox's new ruling limits the playing of training station games to its own district, and obliged the cancelling of a game with Yale, battles are scheduled with Villanova, West Point, Muhlenberg and Cornell.

Mal, who also is head of the orthopedic staff of the 1,500-bed U.S. Naval Hospital here, says his main worry is that some morning he may "wake up to find the whole team in an outgoing unit."

The six WAC training centers and schools in the United States can accommodate more than 30,000 women.

More than 23,000 doctors, 8,000 dentists, 1,200 chaplains and 12,000 former officers have been appointed Army officers from civil life.

Daily attendance of U.S. soldiers at camp movie theaters this year is 573,756, compared with 280,000 in 1942.

## Allied Force Said To Have Hit At Balkans

### Secretary Knox Says Submarine Menace Is Still As Serious As It Ever Was

(By Associated Press)

American Flying Fortresses struck by daylight at Bremen today.

The Free Yugoslav radio announced that American and British officers had conferred with Yugoslav guerrilla leaders at partisan headquarters and an unconfirmed dispatch from Budapest said a small Allied force had entered the Balkans.

Adolf Hitler was reported in London to have told German leaders gathered at his headquarters yesterday that the German people must not be permitted to lose their morale. For if they did, he said, the war would be lost.

In San Juan, Puerto Rico, Navy Secretary Knox predicted that the Germans will make "ashambles" of Rome when forced to retreat. He warned that submarine warfare is still "as serious as ever it was."

WASHINGTON, Oct. 8. (AP)—The navy usually Wake Island challenges home Japan's control of the west-central Pacific.

If the Japanese fleet won't come out and fight now the whole huge mandated island area on which Tokyo has relied heavily for defense of the empire must be considered as lost to early American conquest.

The betting among military and naval authorities is that the fleet won't come out and fight now the whole huge mandated island area on which Tokyo has relied heavily for defense of the empire must be considered as lost to early American conquest.

The Marshall, Gilbert and Caroline lines will be taken against (Continued on page 3)

## Boys Club Has Big Time Rounding Up Buckets Of Frogs

Members of the boys club marched triumphantly into the Herald office yesterday afternoon carrying paint buckets full of green and brown frogs, some of them as large as a man's hand, which they had taken from the half acre puddle at French Avenue and Ninth Street, adjacent to the boys club building.

Capt. George Woods, who directs the club, then took the boys down to the pond, and after securing permission from Mr. James Meughan, park superintendent, had a hilarious time throwing frogs to the gators and others.

The boys in the pond included Walter Graham, 10; Curtis Abney, 14; Howard Miller, 11; Garnett White, 10; Clarence Clause, 10 and Junior Birch, 14.

Heavy rains have caused other large puddles of water to form, where residents hear frog symphonies at night, one of these being at the northwest corner of Park Avenue and Thirteenth Street. Supl. T.W. Lawton reports that there are also many frogs in Orlando, and doubtless this is the situation all over the state.

Jack Russell of the Experiment Station Celery Laboratory who is a naturalist, today denounced the report that the frogs are raised down, and stated that this happens only during very heavy downpours and that the frogs really happen to be in the water, and remain under damp logs or wet stones during dry spells, and when the rains come they begin to tadpoles which swim about like tiny minnow but which change into frogs within a week or ten days.

Meanwhile many curious and naturalistic minded citizens are getting a lot of fun visiting the big frog pond in French Avenue. Heavy rains have however, are reported as disturbing the frogs which carry on all night long and five sessions.

## Clarence Adams Is Sent To Savannah

C. R. Adams, a member of the Sanford High School band, has been promoted to the rank of sergeant in the Army Air Corps.

Adams was promoted to the rank of sergeant in the Army Air Corps. He is the son of Mr. and Mrs. G. M. Zittrower of Sanford.

## First Four-Bagger Of The '43 Series

Joe Gordon, Yank second baseman, crosses home plate to complete the first home run of the 1943 series. The 400-foot drive went into the left field stands of the Yankee Stadium in the fourth inning of the first world series game, which the Yankees won 4-1. The Yank mascot waits at home plate to congratulate Gordon.

## Rep. M. B. Smith Assists Powell In Landing Big One

Mysterious signals were flashed across First Street from the open window of Attorney John Leonard's office, just after the heavy shower yesterday morning, as Rep. M. B. (T-Bone) Smith sitting there, went through a lot of strange hand signals and C.I. Powell, standing in the doorway of Perkins Haberdashery, answered in kind.

To the general public this may have proved very mystifying, but no curious onlooker noticed that Mr. Smith went through motions of a fisherman reeling in a big catch, then measured about 14 inches with his hands, then held up one hand with all fingers spread.

Mr. Powell returned those signals, which to any school boy or fisherman would mean that either Mr. Smith or Mr. Powell was either considering going fishing together or that one of the other had just hooked a five pound bass.

The group of sportsmen gathered in Perkins Store were treated by Mr. Powell to a real fish story, which Robert Ripley may (Continued on page 3)

## Committee Suggests No Holiday Nov. 11

A recommendation that in view of possible loss to the war effort of many man hours, a general holiday and celebration should not be held in Seminole County on Armistice Day, Nov. 11, as in past years, but that observance be confined to an 11 o'clock memorial service at the Legion, in memory of the boys of the present and the boys of the past, was approved by a Legion Armistice Day Committee at a meeting Wednesday evening and the recommendation was carried to their next meeting on Oct. 10. It was announced today by Ned Smith, committee chairman.

It was also suggested that at the memorial service, the Seminole High School Band, be invited to participate as guests of the Legion, following which a Dutch lunch will be served by the Legion Auxiliary.

In the resolution it is proposed that a Legion or Auxiliary dance be held at the Legion.

## Smith Promoted

Cpl. David Smith, a member of the ground crew of the United States Army Air Corps, has been promoted to the rank of sergeant.

Smith was promoted to the rank of sergeant in the Army Air Corps. He is the son of Mr. and Mrs. G. M. Zittrower of Sanford.

## Russia Called Key To Future Peace Plans

### Assistant Navy Secretary Says Russia Has Most Powerful Army In The World

CHICAGO, Oct. 8. (AP)—Admiral E. Stevenson, special assistant secretary of the Navy, declared today that "Russia is the key to the future peace plans of the United States have always been useful to each other, but never more so than now," and Russia "was friendly relations just as much as we."

Russia, Stevenson said in an address prepared for delivery to the Chicago Council on Foreign Relations, is brought up for war collective peace force. After the war, he asserted, America and Britain will have "unchallenged mastery of the seas" and Russia will have the "most powerful land force in the world."

"Together," he declared, "we can do everything."

## Family Allowances For Service Men May Be Increased

WASHINGTON, Oct. 8. (AP)—A measure substantially boosting dependency allowances for service men's children, falling short of increases proposed in the senate-approved occupation deferment bill, was approved yesterday by the house military affairs committee.

It stipulates no change in the \$50 monthly allotment for a childless wife, but provides \$25 extra for the first child, \$20 more for the second, and \$15 for each additional child. Present allowances are \$12 for the first child and \$10 for each additional.

Chairman May (D., Ky.) planned to report the bill to the floor before midnight and Democratic leader John W. McCormack said it would be brought up for debate next Wednesday.

May said the dependency allotment feature of the senate's Bakley-Clark deferment bill would be struck out when that measure is considered by his committee, starting next Tuesday.

No Basic Change

It provides no change in the \$50 a month basic allotment but calls for \$30 for the first child and \$20 for each additional child. This legislation, by Senators Bakley (D., N.C.) and Clark (D., Ill.) is essentially aimed at tightening occupational deferment and won senate endorsement as a substitute for the controversial Bakley-Clark bill.

Rep. Sparkman, of Alabama, its sponsor, said it constitutes recognition that if fathers must be drafted the nation must pay the price of doing wrong.

The measure provides more liberal increases than recommended by a military affairs subcommittee which suggested that the first child be allotted \$22, the second \$18, and additional children \$14 each.

House leaders expect quick action on the senate draft deferment compromise inasmuch as it has passed, 69 to 0, in the upper chamber after the bill by the Senator Wheeler (D., Mont.) was tossed out as a threat to military plans.

## Buck Fergusson Is Commissioned In U. S. Air Forces

Loyce "Buck" Fergusson, son of Mrs. Fergusson, was commissioned as a second lieutenant in the Army Air Corps last Friday at Marianna Air Base where he completed his advanced training as a pilot and received his silver wings.

Lieut. Fergusson attended Sanford schools and graduated from Seminole High School in 1939, where he was outstanding in athletics as football and basketball star.

Entering the Army as an aviation cadet in November, 1942, Lieut. Fergusson received pre-flight training at Maxwell Field, Ala. and then reported to Ocala for primary training. After completing basic flying at Gunter Field, Ala., he completed training to become a finished pilot at Marianna. He will report to Dale Mabry Field, Tallahassee, for training as a fighter pilot following a short leave here with his mother.

## First Contribution Is Made For Seals

A \$25 check from Mrs. William C. Erickson, president of the 1943 Christmas Seal drive conducted annually by the Seminole County Health Association, was presented to the Seal Sales Commission at the Seal Sales Commission meeting on Nov. 22.

The Seal Sales Commission is a group of citizens who are interested in the health of the community and who are working to raise money for the purchase of seals for the U. S. Navy.

The Seal Sales Commission is a group of citizens who are interested in the health of the community and who are working to raise money for the purchase of seals for the U. S. Navy.

## Victorious Americans Enter Naples

RESIDENTS OF NAPLES wave on a truckload of American soldiers as they roll into the city shortly after the Nazis had been driven out. Note the cross on the wall, painted by the British command in honor of capturing the freedom that should be taken by the Yank troops. Signal Corps Radio photo.

## Herman Morris Is Elected Head Of USO Council

Purposes of Council Are Explained By Regional Director

Herman E. Morris, principal of Seminole High School, was yesterday named as chairman of the USO Council which met for organization and election of officers at the City Hall yesterday afternoon. Mrs. Maude Ramsey was named secretary and treasurer and Miss Roberta Stevens as vice chairman. Frank Shames presided as acting chairman of the meeting.

Purposes of the USO Council were outlined by W.P. Backwater, regional director. The most important of these purposes, he said, were to interpret the USO work to the people of the community and to make them aware of USO policies. USO operations, he stated, were greater in Florida than in any other state with the exception of Texas and California.

The USO Council is designed to represent the interests of the whole and to work for the betterment of the community. The members agencies which include the Y.M.C.A., the National Catholic Community Services, the Jewish Welfare Board, the Salvation Army and the Red Cross, and the business and fraternal organizations. Mr. Backwater pointed out.

Mr. Backwater gave an outline of the background and experience of the USO. He stated that Carmody, Sanford, USO director, Mr. Carmody responded that he considered himself proud or less, but he would be glad to help in making suggestions for this work since they are hosts to the visiting service men.

## Lions Club Votes To Take On Champs In Softball Game

Discounting claims of the Rotarians that they are the finest team in the community, the Lions Club today voted to accept a challenge to the Rotary Club in a game of the City Softball League to be played Tuesday night.

John Levy admitted that the Lions Club looked good against the Rotarians, but added that it had not been up against them and until it has it has no right to claim the championship.

We can pick a team of young men on the field," Mr. Levy said "who won't have to go back to the last war for their baseball experience."

The challenge was promptly accepted by Manager Holland Dean of the Rotarian team who said that his boys are just itching for a test fight.

"With a battery like George Stone and Earl Kipp and thirty batters to pick out the honors will be already for them," Manager Dean stated.

The game will be played for the benefit of the hospital. It was agreed, but there will be no advance ticket sales. Get your tickets at the gate.

## COMPLETES SCHOOL

Ext. Milton O. Smith of Class 43-49 has successfully completed the Flexible Aerial Gunnery Course at the Army Air Forces Flexible Gunnery School, Laredo Army Field, Laredo, Texas. Upon completion, in addition to other ratings, he received his Aerial Gunnery Wings. He is now eligible to assume a position as a member of an Army Air Corps Training Program.

## CITY BRIEFS

Applicants are wanted for three vacancies in the class of building instruction at the Sanford School for War Production Workers. It was announced today by Alan R. Johnson, director. Either women, or fathers desiring to set into vital war work may apply. W. A. Landoner, instructor, the class, hours of which are from 8:00 P. M. until 12:00 P. M.

## WEATHER

Georgia: Little change in temperature this afternoon, tonight and Saturday forenoon.

Florida: Scattered showers and occasional thunderstorms in southern and extreme south portions this afternoon and early this evening. Continued cool in extreme north portion. Little change in temperature in central and south portions.

Alabama: Little temperature change this afternoon, tonight and Saturday forenoon.

## Volturno Is Captured By U.S. 5th Army

### Russians Advance To West From Three Bridgeheads Across The Dnieper River

(By Associated Press)

The American Fifth Army captured Castel Volturno, 97 airline miles from Rome, and Capua on the Appian Way to the Italian capital, establishing a front for 16 miles today along the southern bank of the swollen Volturno River.

On the Adriatic, slightly north and 130 miles east of Rome, the British Eighth Army beat down several sharp tank and infantry attacks and improved positions in the Termoli area.

A middle east communique disclosed the Allied occupation of Sini, a Dodecanese island 20 miles north of Rhodes. Unconfirmed Turkish dispatches said the British also had landed on certain of the 200 Cyclades Islands and was between Greece and the Dodecanese.

Russian operations have advanced from their bridgeheads over the Dnieper River. The advance outflanked thousands of Germans around the river's big bend and in the Crimea and threatened them with encirclement.

In the Pacific the Japanese abandoned their principal air base of Viti in the Central Solomon Islands and were evacuating all of Kolombangara Island. B-24 night bombers attacked Staggert, Monah and Frederickhafen in the fifth and on the Beach this month.

The American Fifth Army captured Castel Volturno, 97 airline miles from Rome, and Capua on the Appian Way to the Italian capital, establishing a front for 16 miles today along the southern bank of the swollen Volturno River.

## Ziemer Declares Sanford Has More Tricks For Future

### High Gridders Reaching Peak Of Form For Daytona Game

It Will Conclude Jimmy Ziemer is this year's Most Sporty Athlete in the Orlando area. Jimmy is still a high jumper, but he has been saving for a special game of future game. He has Sanford coaches George Ziemer and Hugh Wickham for coaches and the chance for winning the game were definitely out of the question. Jimmy Ziemer fails to share the view of Jimmy's as to sporty strategy and stated that it was only a minor sport play of his big of tricks to be played at future stages of the performance game.

While it is true that the last year's team had 33 results, Jimmy Ziemer has been a great success in the past year.

## Co. C To Commence Rifle Practice For Battalion Tourney

Practice for the battalion rifle match which will be held early in November will begin at the Army post next Sunday afternoon at 10 o'clock. Capt. John Melch announced last night as he reminded the 100 Florida State Guards that a new team would be selected from among those turning in the best scores.

First Melch also announced that the support of the company at the company at the Army post Thursday night at 10 o'clock and urged that every man be present and bring with him any friend who might be interested in joining the outfit. The men were asked to notify Lieut. Melch before Monday whether they could be present and how many they would bring.

Sgt. Byrd took an afternoon walk instructed the men in drumming the shotgun salute. Sgt. A. Spier conducted an air gun shotgun demonstration and gave instruction in the proper handling and shooting of such guns. A short period of close order drill followed.

## Pioneer Citrus Man Dies In Geneva

Mr. Daniel Hart, pioneer citrus grower of Geneva, died in his home in Geneva last night at 9:00 o'clock following an illness of several years.

The 72 year old man was born in Geneva on the 11, 1879 and lived there all of his life with the exception of a few years spent in the West. He was a member of the First Baptist Church of Geneva.

Survivors include the widow, Mrs. Margaret Hart, two sons, Prentiss Hart of Seattle, Wash. and Calder G. Hart of West Palm Beach, one sister, Mrs. C. H. Miller also of West Palm Beach.

Funeral arrangements, under the direction of Erickson Funeral home, have not yet been completed, pending the arrival of relatives. Burial will be at the Geneva Cemetery.

## Pfc. Albert Zittrower Ends Bomber Course

KEELER FIELD, Illinois, Mass., Oct. 8.—Pfc. Albert H. Zittrower was graduated this week from the Liberator bomber mechanics school here and is now ready for line duty or further training under the Army Air Forces Training Command. He is the son of Mr. and Mrs. G. M. Zittrower of Sanford.

Now qualified as a B-24 mechanic, Pfc. Zittrower will join the ranks of the green-clad army maintaining the big four-engine aircraft, be sent to further training, or go to one of the Training Command's aerial gunnery schools.

**Volturno Is Captured By U.S. 5th Army**

(Continued From Page One) They 300-mile retreat and finally taking a stand against the advancing Allies along a 125-mile front across Italy. After a slow withdrawal since the Allies first invaded the Italian mainland with the landing of Gen. Sir Bernard L. Montgomery's Eighth Army at Reggio Calabria September 3, the German army apparently has entrenched itself for a strong stand and is determined to make the United Nations pay a dear price for their next major objective, Rome.

were not taking part in the present fighting and might be "the first element for an Allied operation aimed at the Balkans." (A Reuters dispatch from Stockholm yesterday said Lt. Gen. George S. Patton Jr.'s U. S. Seventh Army was in Italy, probably meaning to strike at the Balkans.) The Germans were disclosed at Allied headquarters today to be rushing the fortifications of the Volturno River line north of Naples against Lt. Gen. Mark Clark's American Fifth Army, which reported continued dogged progress despite extensive Nazi demolitions and a heavy rain which left the battlefield soggy. A military spokesman at headquarters said that the Germans were believed to be holding the Volturno line "in some strength." On the Adriatic coast the German attacked the advancing Fifth Army and Canadians of the Eighth Army with tanks and infantry in the Termoli area, and the first assaults were beaten off, today's Allied communique announced.

LONDON, Oct. 8 (AP)—The Red Army in a smashing renewal of

**Allied Force Said To Have Hit At Balkans**

stretches of resistance and that before the war in many more months along Allied Pacific strategy will have succeeded in cutting the enemy's economic lifeline through the China sea. That is the long-range significance of the Wake attack, regardless of whether it was a raid for destruction of Japanese installations or the beginning of a whirlwind campaign to reconquer the island.

The pattern of the Wake action was established in an American task force raid on Marcus in July and a month ago Marcus is only about 1,000 miles from Japan and although warships shelled and planes bombed it for hours on end not a sea-borne enemy gun showed up to defend it.

The explanation seems to lie in the fact that the Japanese have been decisively beaten in most of their fighting from the Bering sea to the Indian ocean and are unwilling to risk their remaining warships for any except the greater stakes in other words, to try to prevent a direct threat to Japan itself.

**Tracy and Hepburn In Keeper Of The Flame**

Tracy and Hepburn in "Keeper of the Flame" are the latest in a line of island bases across the central Pacific westward from Hawaii. At present all islands in this area west of Midway are held by the Japanese. But in the last analysis Japan's land-based airpower having proved itself unequal to American aerial fighters—the enemy defense of those islands depends on the enemy fleet. Since the fleet appears reluctant to do battle the islands are wide open to conquest. Following their precedent at Wake, the Japanese will outflank and neutralize the others so that an island-by-island advance will be necessary.

**Heavy Rains Are Causing Serious Damage To Farms**

Hard blown rain has resulted in considerable damage to young and tender celery plants in seed beds, it was reported today by Leo Butler, west and grower. Older beds with plants having a stronger root system, can withstand damage easier, he stated.

Archie Smith of the Sanford Boat Works stated that the government gauges there will be unblocked and that Monday will determine the rate of the rise of water. He predicted that the water level would come up at least a foot as the result of the heavy rains.

Over the extensive celery lands in the St. Johns River Valley, farmers have been forced to back up their crops, and to barney Beck, local cattle grower, who predicted an additional acreage of several feet in the river level, causing the water to rise three times as many cattle as we do now.

Tracy and Hepburn in "Keeper of the Flame" are the latest in a line of island bases across the central Pacific westward from Hawaii. At present all islands in this area west of Midway are held by the Japanese. But in the last analysis Japan's land-based airpower having proved itself unequal to American aerial fighters—the enemy defense of those islands depends on the enemy fleet. Since the fleet appears reluctant to do battle the islands are wide open to conquest. Following their precedent at Wake, the Japanese will outflank and neutralize the others so that an island-by-island advance will be necessary.

**Congress Is Urged To Freeze Payroll Taxes**

JACKSONVILLE, Oct. 8.—(Special) Florida's congressional delegation has been asked again to support the position taken by Congress last year and vote to freeze the social security payroll tax as its present one percent level, by the Florida State Chamber of Commerce.

**Lake Counties Buy \$1,500,000 In War Bonds**

Lake Counties bought over a million and a half dollars worth of War Bonds in September, according to a statement by Ralph E. Jones, chairman of the Lake County War Finance Committee. Complete returns from local dealers received and tabulated at the Lake County Chamber of Commerce office at Daytona on Tuesday, October 6, show that Lake Counties have passed their quota of \$1,200,000 in the FFRB War Bonds by more than \$200,000.

**Rep. M.B. Smith Assists Powell In Landing Big One**

It took the combined efforts of Mr. Powell and Rep. M.B. Smith, standing on the Geneva bridge, one afternoon recently, to sell one more big pound fighting boss.

While it took the combined efforts of Mr. Powell and Rep. M.B. Smith, standing on the Geneva bridge, one afternoon recently, to sell one more big pound fighting boss.

**LONGWOOD Liberalized Tax Plan Before New Year Is Predicted**

JACKSONVILLE, Oct. 8.—Harold Cole, executive vice president of the Florida State Chamber of Commerce predicted today that although Congress may debate Treasury Secretary Morgenthau's tax program all the fall and winter, a greatly liberalized measure will in time be brought out and passed.

The State Chamber's Board of Directors held at a recent Day, Cole Beach conference that the present 10 percent post-war rate is "far from adequate" to meet the government's need for funds.

At a recent Longwood conference, this year will be the celebration of 100th anniversary of Rev. Frank Taylor, on Sunday morning the tenth.

BIBLE VERSE FOR TODAY

Really wise people are universally humble. It is the foundation of scientific knowledge. Be not wise in your own conceits.—Rom. 12:16

SOLDIER'S RETURN

So tactful, this soldier boy And grave, he seemed no longer part, Who had been closer than her heart. In soiled windbreaker corduroy And longed expression of his joy.

MARCIA NICHOLS HOLDEN

One thing we like about this butter diet we've been on lately is the jelly.

Don't worry folks, the World Series will soon be over. Then we can get on with the war.

They must like Sanford's mayor of Grand down there. Billy Beardall has just been re-elected to his second term by a vote of 4,000 to 879 for his opponent.

Too bad John L. Lewis was cleared of that charge of driving his car from Washington to Illinois on a pleasure trip. Now it seems he went out there to call a strike.

The Germans are reported to be registering men for the draft up to 60 years. And the controversy over these hinges around whether pre-Pearl Harbor fathers should be taken before grandfathers.

Down in Tampa U.S. Public Health experts have started a drive to eradicate rats from the area in an effort to combat the spread of typhus, West Nile, A drive should also be made in Sanford to eradicate rats. We do not know all the diseases which can be spread by rats, but if we did we would not feel comfortably with so many around us.

Newspapers are called on 61 weeks of the year to promote some special needs. They decided to have one of these on the week of the National Newspaper Week, a time to reconsider the invaluable benefits of a Free American Press.—Titusville Star-Advocate.

But the press couldn't get a week all to themselves, it has to be shared with Fire Prevention Week.

And another indication of bureaucratic stupidity is the renewed ruling against two-pant suits. Obviously to save wool the ruling actually is uneconomical and causes the use of more wool. A man who sits in a chair all day, an most white collar workers do, wears out two pairs of pants with every coat he wears. If he has only one pair of pants, he necessarily wears a new coat every time he wears out a pair of pants. It is a waste of every time he wears out one pair of pants, and wearing the coat consumption. But no consumers could be expected to see that.

Harold Cole, executive vice president of the State Chamber of Commerce, has announced that he will be leaving the chamber to accept a position with the U.S. Army.

The literature department of the Women's Club will begin the year's work next Wednesday afternoon at 8:00 o'clock in the room at the Sanford Hotel.

Frank L. Miller and Leonard Miller will participate in Chicago to spend a short time at the World's Fair.

Medical Miracle

If an American service man is wounded today on any of the battlefields of the world, the chances are about 49 to 1 that he will recover, thanks to the miracles being performed by American Navy and Army doctors and laboratory scientists.

These figures are revealed by Rear Admiral Ross T. McIntire, surgeon general of the United States Navy and personal physician to President Roosevelt, in a signed article in the current issue of The American Magazine.

"In the last World War, 7 percent of the men wounded in action died—many of them of shock or infection or both," Admiral McIntire writes. "In this war we are losing a little more than 2 percent of our wounded."

"And death rates for all diseases in the Navy today are only 65.34 for each 100,000 men. In 1918 the death rate was 1,179.66 for each 100,000 men."

The drastic reduction in deaths, both from wounds and diseases, has been made possible through the use of blood plasma, sulfa, penicillin and speed, according to Admiral McIntire.

"The record is one that gives a sense of security to any fighting man," he writes, "and one that gives hope to civilians who are in some theaters of the war."

"The record is one that gives a sense of security to any fighting man," he writes, "and one that gives hope to civilians who are in some theaters of the war."

THE PRESS—AN APPRECIATION

By DEWEY DYE, chairman Kiwanis Public Relations Committee

A free people take a too brief moment today and freely give tribute to the free press of America, especially to that integral part localized here. It is not good to have this great editorial written by direction of the Bradenton Kiwanis Club as a contribution to the fourth National Newspaper week, a flower from our organization, to the press, which labors amid a figurative wilderness of such.

History records no nobler picture than the physical and moral courage and political wisdom of those early resolute sometimes martyred editors enduring the persecution and violence of entrenched officialdom as these minuscule established "the liberty of both exposing and opposing arbitrary power, by speaking and writing the truth," a vigorous speech in our constitution, and that placed the guarantee of free press, the Press has lived up to its promise of continuous preservation of liberty under law.

At this hour a grateful people acknowledge the devotion to principle, and honor the definite contribution to the undying cause of all today's freedoms by the Press. The Press has lived up to every responsibility and obligation imposed by its great charter. The Press, free, has been, will continue to be the great effective censor of government and of unbridled power in all movements.

No plaques for past achievements, each generation must capture and preserve these great things. In this difficult hour, and in a practical realistic way, the Press fulfills duty.

Perform a Wide Service: "With the common purpose of war moving the populace emotional, pleas for great standards that fire the imagination and urge vigorous action are not in vogue, but rather the prosaic call to duty to observe rationed 'dead lines', register for this and register for that, buy extra bonds, conserve rubber, save salvage, support the Red Cross and U.S.O. give plasma, and the thousand and one things liberty loving, loyal patriotic individuals must do day by day. In keeping these things before the people, with the reasons for the necessity, the Press has performed a duty no other agency could—placed, not warped propaganda, but within limits of military security, actual knowledge with the people. Thousands,

yes millions of dollars of space, and expense have been contributed in the public interest by way of payment on account to a people who make freedom of the Press possible, from a Press that conducts a Press deserving this freedom.

All this contribution of space and talent blended with full stimulating accounts of opposing philosophies, debates, criticisms, praise, crusades, and exposes, keep a people out of the endless hopeless rut of official propaganda that exists in those nations where there is no free press. The country weekly and the colossal metropolitan daily, each according to its ability and facility.

Guarantee Of Security: "Since the days of John Peter Zenger, the newspapers, great and small, magazines, religious and trade journals, privately issued pamphlets, the radio and motion pictures have come along the trail blazed and made secure by a free press of, and for a free people—the bone and sinew of public opinion—a guarantee of security.

A free press supported by and for free minds brings nearer to fruition these lines: 'Oh, liberty, float not forever in the far horizon; remain not forever in the dream of the enthusiast, the philosopher and poet, but come and

make thy home among the children of men.' "Newspapers are not run by motives such as there are rare instances, just as in every profession, where human nature has yield to temptations of avarice, or pride, or ambition, but the current of the freedom of America runs on strong and clear not contaminated by an occasional iota of corruption.

With Chatfield, let the people know that The liberty of the press is the true measure of all other liberty, for all freedom without this must be merely nominal.

## Cannon Says Free Spending About To Stop

### Days Of Blank Check Appropriations For War Or Civilians Drawing To Close

WASHINGTON, Oct. 11. (AP) The days of fast action, blank check appropriations for the war and other departments appear to be about over.

Fiscal leaders both in the House and Senate made it clear in interviews today that from now on every dollar must be accounted for.

Said Chairman Cannon (D-Mo.) of the House Appropriations Committee: "We're past the hump. We've got the spending week. There will be no need in the 1945 (fiscal year) appropriations bill to include huge sums of money for construction and for facilities to produce munitions."

Chairman Thomas (D-Okla.) of the Senate Military Appropriations Subcommittee said he had instructed Army budget officers to forget about generalized lump sum appropriations.

OFF TO BLAST the Japs in their home grounds. Part of the squadron of B-24 bombers that devastated the heavily guarded Enna missile base are shown as they set their noses south of the Kamohaka Peninsula. It was from here that the Japs probably launched their attacks on the Alutian Islands.

## Wilson Reports Bad Weather Is Hurting Farms

### JACKSONVILLE, Oct. 11. (Special)

"Heavy rains in some vegetable growing areas and dry weather in others are causing considerable damage and delay in production," William L. Wilson, director of State Farmers' Markets, said in his weekly crop and market review yesterday.

The glider area is well drained and heavy rains there will probably not do much damage. San Joaquin plantings and harvesting will be delayed by rains and some crops will have to be replanted.

Weather is reported as being tough on growing crops.

Sales of small volume of vegetables are now starting at Walnut, Pompano and Palmtoe. Anacostia reports supplies of squash, turnips, peas, okra, tomatoes, and radishes. Satsuma are being harvested.

Farmers in the Sanford section are seeking storage and curing facilities for a considerable crop of sweet potatoes.

"Florida City reports that the season there is getting off to a slow start due to the indecision of the growers. Squash and pumpkins are running, cleaning off the ground and quite a number of growers are growing tomato seed beds planted. The tendency seems to be to increase the bean acreage and decrease tomato production.

"The canning department of the Titusville market caused during 16,000 cans of various foods during the usual "slack" summer months. The manager considers that about 1,000 worth of food products normally lost during this time have been preserved.

## TB Course Will Be Given At University

### GAINESVILLE, Oct. 11. (Special)

Designed to marshal professional and lay forces in the fields of health, education, and welfare to combat a rising incidence of tuberculosis inevitable under emergency conditions, a three-day course on tuberculosis sponsored jointly by the Florida division and the Florida Tuberculosis and Health Association, will open here Tuesday. Sessions will be held at the P. K. Yonge laboratory school on the campus of the university, with registration scheduled for 6:00 o'clock Tuesday morning.

Mrs. H. Reed Edmunds, of Leesburg, field secretary of the state tuberculosis association, will open the program at 9:30 A. M. with a panoramic discussion of "Our Heritage in the Tuberculosis Movement," covering some of the more important events in the history of the hopeful fight against the disease. Mrs. Edmunds is scheduled for other important program spots in the three-day course.

## Telegraph Merger To Increase Efficiency

"Consolidation of the Western Union and Postal Telegraph companies which was effective Oct. 7, will mean more efficient written communications service for Sanford people," it was stated today by Lester L. Western Union Superintendent.

Changes of the telegraph network will be in the best interests of the industry and the public, Mr. Western said. "The new service permits and utilizes equipment and personnel for more efficient service."

## Celeryfeds Lose Hard Fought Game By 12 To 6 Score

### Daytona Wins Second Straight Victory Of Current Season

By Capt. George Woods

A somewhat crippled team of Celeryfeds invaded Daytona Friday, and lost a hard fought game to the Mainland High School Bucaneros, 12 to 6, which enabled the Daytona team to achieve their second straight northeast conference victory.

From the kickoff both teams played a very good game of football, and the first quarter ended with no score and Daytona on the Sanford 35 yard line.

On the third down of the second quarter, Daytona starting on the 30, pushed the ball over for a touchdown on three plays. Sanford blocked the kick, making the score 6 to 0.

Just before the end of the half, with three minutes to play, Landress intercepted a Daytona pass on the Sanford 40 yard line and gained five yards. Daytona then kicked to the Daytona 64. Sanford then held for four downs, and Fleming and Brock advanced the ball to the Daytona 26 yard line, but the end of the half halted this scoring threat.

In the third quarter Daytona kicked to the Sanford 28, and Singletary, Landress and Fleming advanced the ball to the Daytona 39. On the next play Al Rahun suffered a severe hip injury and had to be taken from the field. Fleming then gained five yards, and Daytona was penalized 15 yards for interference with the receiver. After the short gain, Fleming broke through for a 25 yard run for a touchdown. Landress ran the ball across for the extra point, putting Sanford in the lead 7 to 6.

Sanford again threatened to score in this quarter when Marryday, the Daytona center, in passing the ball back for a kick play, threw it high over the receiver's head, and Daytona recovered back on their own 30 yard line, but gave up the ball to Sanford as it was a fourth down. Daytona then intercepted a Sanford pass ending their chance to score.

In the fourth quarter, Daytona starting on the Sanford 39 yard line advanced to the Sanford seven yard line, and after a five yard penalty succeeded in completing a pass from White to Wilson, who was behind the goal line, which was the winning play. Later, a Sanford fumble bounced off the referee's leg, but despite player and fan protests the referee held to the rule that a ball is not out of play unless out of bounds, or downed by a player.

A 17 yard Fleming broke loose for a 53 yard run to the Daytona 30. He would have scored had he not been run out of bounds. Later Sanford got to the Daytona 15 yard line, but the run went off ending the game, just as they were getting set to score. Crumley and Crandall put up a good game substituting for the injured ends, Robinson and Sumler.

## Pvt. William Earle Is At Fort Benning

### FORT BENNING, Ga., Oct. 11. (Special)

Pvt. William E. Earle, Jr., son of Mr. and Mrs. William Earle of Sanford is stationed at this ASTP camp, training center, was announced today by Col. Robert Sharp, commanding officer of the Sixth Training Regiment.

### 4th Major Delayed Action Mine Since Occupation Causes Considerable Loss

WASHINGTON, Oct. 11. (AP) President Roosevelt today gave unqualified support to legislation to repeal the Chinese Exclusion Law and to let Chinese residents of this country become citizens. He told congress legislative was important in the cause of winning the war and establishing a "secure peace."

BOSTON, Oct. 11. (AP) Massachusetts Chief Justice Paul M. Sanborn today said that the voluntary system of manpower control had not yet proved itself adequate and he urged the government to consider including increased productivity per worker and more women workers.

## Dr. Gardiner Shows Rotarians Game Of Chess

### National Bible Week Is Observed At Regular Rotary Meet

In recognition of National Bible Week, Rev. Frank Fuller read the 27th Chapter of the Book of Acts to show that the "Bible is full of many good and interesting stories" at the regular weekly meeting of the Rotary Club at the Mayfair Hotel today.

Dr. W. D. Gardiner spoke on the subject of chess and gave the Rotarians a demonstration of how this game, which originated more than 2,000 years ago, is played. He said that it is neither difficult nor complicated once the fundamentals are learned and suggested that the Rotarians might sponsor the introduction of the game into the school.

Manager Roland Dean of the softball team announced that the ball game with the team that would be played tomorrow night at 8:00 o'clock at the City Softball Field for the benefit of the Fernand-Laughton Memorial Hospital. A full attendance of 100 members and rotaries was urged.

Rev. Joe Tolla announced that the Rotarians had a church attendance yesterday of 70 percent with the individual denominations reporting the following percent of attendance: Baptists, 100 percent; Presbyterians, 81 percent; Episcopalians, 75 percent; Methodists, 63 percent; and Catholics, 50 percent.

President Herman Lehman presented G. W. Spencer, introduced George Cochran as a new member, and Frank Evans had charge of the singing.

## Funeral Services Held For Eli Daniel Hart

### Funeral services for Eli Daniel Hart, 72, a pioneer citrus grower of Geneva who died at his home Thursday evening after a brief illness, were held Sunday afternoon at the First Baptist Church in Geneva with the Rev. W. B. Kyser and the Rev. Lorne Nelson officiating. Interment was in Geneva Cemetery.

Mr. Hart was born in Geneva, Dec. 14, 1872. He was a member of the First Baptist Church. He is survived by the widow, Mrs. Margaret Hart; two sons, Prichard Hart of Seattle, Wash. and Calder G. Hart of West Palm Beach; and one sister, Mrs. C. H. Oiler, also of West Palm Beach. Arrangements were in charge of the Erickson Funeral Home.

## Lions Club Lines Up Fine Pitching Staff For Rotary Game Tomorrow

A fine pitching staff of at least six former baseball players has been lined up by the Lions Club for its softball game with the Rotary Club tomorrow night at 8:00 o'clock for the benefit of the Fernand-Laughton Memorial Hospital, Manager John Ivay announced today.

W. A. Patrick is the wheel horse of the aggregation that is expected to maul Rotary sharpshooters as they go to bat tomorrow night. Others counted upon for experienced relief on the mound are M. Raburn, John Schirard Jr., A. L. Collins, Clyde Ramsey and C. C. Welch.

The Rotary line-up is expected to be approximately the same as it has been on previous occasions.
