

Askew Will Order Special Session Of Legislature For Tax Reforms

By RICH UTTER, Associated Press Writer
TALLAHASSEE, Fla. (AP) — Gov.-elect Reubin Askew today declared "chances are good" he will call a special January session of the Legislature aimed at placing a corporate income tax proposal before Florida voters next year.

Auditor Set To Release Assessment Adjustments

By JOHN VAN GIESSEN, Associated Press Writer
TALLAHASSEE, Fla. (AP) — Auditor General Ernest Ehlson has scheduled release late today of tax assessment adjustments that could slash billions in a number of county education budgets.

'Dead Man' Won't Talk

ORLANDO, Fla. (UPI) — An Orlando man declared legally alive after being legally dead for 34 years doesn't want to talk about it.

Yule Seals Benefit

The 101 ABC stores in Florida will have their annual "Christmas Seal" cocktail hour today.

Area Deaths

MRS. NORA JACKSON
Mrs. Nora Jeram Jackson, 82, of Rt. 2, Sanford, died Monday night in Orange Memorial Hospital, Orlando, after a long illness. Born in Jacksonville, she came to Sanford one year ago from Norfolk, Va. She was a Baptist member of the First Reserve and the Sanford Moose Club.

Funeral Notice
JACKSON, MRS. NORA JERAM
Funeral services for Mrs. Nora Jeram Jackson, 82, of Rt. 2, Sanford, who died Monday night in Orange Memorial Hospital, Orlando, after a long illness, will be held at 2 p. m. Thursday at Memorial Funeral Home, 1000 N. W. 17th St., Sanford. Burial will be in Evergreen Cemetery, Titusville. Friends are invited to call at the funeral home in charge.

Askew also announced at a Capitol news conference the appointment of Kenneth Ireland, a legislative tax analyst, as successor to Secretary of Administration W. Samuel Tucker.

Askew said he had not made a decision whether to keep Secretary of Transportation Edward Mueller, but he "certainly will" accept the resignation of the agency's No. 2 man, Paul Decker, who is closely associated with outgoing Gov. Claude Kirk.

The money in the pool, expected to be many millions of dollars, will then be divided by the 64,568.45 instructional units in Florida. Each county will get funds back according to its total of instructional units.

"I have a feeling that the big counties that have a large number of instructional units will come out ahead," Gentry said. "Redistribution of MFP funds works like this."

UN Winds Up Session Today

By TOM HOGE, Associated Press Writer
UNITED NATIONS, N.Y. (AP) — The U.N. General Assembly today winds up a session at which it marked its 25th birthday and saw Red China come closer than ever before to winning a seat in the world forum.

Venus 7 Spacecraft Probably Destroyed

MOSCOW (UPI) — Scientific sources said today the unmanned Venus 7 spacecraft that landed on Venus Tuesday probably was crumpled by heat and pressure as it parachuted down.

Phasing Out Sanford Zoo, A Wise Decision

Decision of the Sanford City Commission to phase out the Sanford Zoo operation is a wise act, a needed act and accomplished not one minute too soon.

Wise, as the municipal economics reflected in the annual budgets the last few years are in no state to support such an unessential operation.

Wise, in the case of the caged animals as well. For a visit shows that no matter how kind the care, no matter how dedicated the keepers are, the inadequate, small, deteriorating cages and confinement areas are disgraceful.

Wise, so far as the Sanford taxpayers are concerned. For it must be borne in mind that it is the taxpayer who lives within the city boundaries who pays the freight, not those who live in the pockets which exist and yet do not share in the assessments which support such projects they enjoy, as the zoo.

In making this comment we must state again that we are not opposed to zoos. But we have studied much on this changing subject, and no concepts are in flux.

Nor do we underestimate the hard work and hard dollars that the zoo proponents have spent over the past several years in trying to remedy the very sad sight which the Sanford Zoo presents.

Yet what must be faced are the facts. The single overriding fact is that the municipal budget, already bursting at the seams as municipal services (personnel and supplies) expand, has a zoo support item of about \$25,000 every year.

These dollars are needed to go to work in paying for essential municipal services for which tax levies are collected. Zoo support is not such an expense.

We are zealous of the Sanford name and the Sanford reputation. We believe the zoo, in its present state, does nothing to embellish either. Moving

it would not be logical or wise if confined to the city limits.

A zoo created within the Seminole County borders is quite another solution for those who feel that a zoo should be established and maintained by a governmental body such as the City of Sanford or Seminole County Commissions.

This whole subject is complex and a look around to other areas where animals in confinement have been attempted shows the immense initial cost and the even larger maintenance item which is not easily kept from expanding.

If anyone is looking for a project which would greatly enhance the name and fame of Sanford through municipal operation we would suggest that "Beautification" be given that role.

Any drive around the city limits will disclose spot after spot where ugly overgrowth of weeds on corner lots, littering on parks and parkland, or poor

planned planting offer areas crying for beautification.

This is not to say that we have no fine examples where good planning and proper planting show what can be done. These are excellent and worthy witnesses of what an expansion along these lines would do for our Lakeside City.

The City Commission certainly is aware of this opportunity. But this governing body, right now and right here, is confronted with the serious challenge of raising the funds for the budget and then spending this for the greatest good of all.

Zoo sentiment is, to be sure, strong and vocal. Yet the City Commission must be honest with themselves, act with wisdom and can find comfort in the words of George Washington who advised the Constitutional Congress: "... if, to please the people, we offer what we ourselves disapprove, how can we afterward defend our work?"

Editorial Comment

"I Enjoy Being..."

If women untie their apron strings and leave their kitchens and nurseries, have they really accomplished anything? What adventures will they have as the "new woman," which the feminists proclaim as the "liberated woman?"

The will receive the same pay as their male co-workers — they will be free of the total responsibility of caring for their homes... they will be free to trade their feminine responsibilities such as caring for children for the every day pressures of the career world... and they will be rid of the term "natural talents."

But on the other hand women will have to go "bitch" on dates, light their own cigarettes, open their own doors, seek themselves and not be accorded the feminine respect which men have given to them for generations... And women may never be able to sing the time "I Enjoy Being a Girl!"

Cheers, At Least

A British newspaper has disclosed that Clare Tombs — granddaughter of historic Arnold Tombs, known far and wide for his outspoken, controversial beliefs — is working as a stripper in a London club.

Miss Tombs, a graduate of Oxford and niece of author Phillip Tombs, displayed the family's philosophical bent when the paper found her out. "Oh, well, she chirped, "I suppose I couldn't keep it under cover forever."

That's for sure. — Atlanta (Ga.) Constitution

"At Least We'll Scare Hell Out of Him!"

Domestic Comment:

Sound Economic Solution

By RAY CROMLEY
NEA Washington Correspondent

WASHINGTON — (NEA) — Some of this nation's leading economic advisers seem to be stagnant in their thinking.

When it comes to analyzing what's wrong, they do quite well. Modern methods of collecting and electronically processing data enable them to locate soft spots in the economy with an accuracy never known.

But when it comes to workable solutions, these same men fall flat on their faces.

It is all very well to point out that inflation has been caused by "excess demand." It is critical to rail at stock market speculation which in the years through 1969 drove many stocks up to unrealistic prices compared with earnings. It is no doubt correct to point out that much capital spending in the 1960s was devoted to sound economic endeavors, such as some of the more financially shaky conglomerates.

It is certainly true that for many years it was easier for companies to raise prices than it was to go through the painful process of improving efficiency. It is true that some major unions likewise have imposed on makers' practices that have, along with executive inefficiency, cost the nation's consumer hundreds of million dollars a year.

But to analyze the problem is not to solve it.

The classic solution—adopted in 1965—was to cut back on demand, primarily by curtailing the money supply through increased interest rates. To no one's surprise, this put many companies in the doldrums and resulted in a wishy-washy economy. Economists saw this with sorrow. But it is their own doing.

But if the problem is an excess of demand, and inflation, there is another possibility—increasing production to catch up with demand. Some leading economists would see this as an increasing pressure on the Midterm election who tend to bring out the worst in us as citizens.

But the object would not be free-wheeling, uncontrolled production expansion. The first step would be to analyze the key areas of short supply and those of potential shortages ahead of production increase. Then move into these critical areas with incentives.

This might mean sharply stepped-up training of men in areas where skills are short. It could mean increasing the personnel and the capital investment in services for which today's public is clamoring as at no time before in history.

And a good many of the most wanted services, put a small demand on materials and a heavy demand on men. This is all to the good.

Another way to beat the price spiral, of course, is to produce goods more efficiently. This can be attained in an emergency in two ways—neither painless—but both more palatable than price controls. First, strong incentives (tax incentives or outright bonuses) can be given to companies in critical industries which take steps to decrease significantly their unit production costs.

Blame for the distortion of these conversations may be placed on the fact that not even today's public is clamoring as unemotionally as it used to report its needs.

Don Oakley Says:

Four-Year Term

By DON OAKLEY,
NEA Editor

An eminent student of government proposes the abolition of midterm elections for the U.S. House of Representatives.

"What good is a contest that almost impairs the authority of the White House, almost always retains the same party in power and barely affects legislation in Congress?" asks James MacGregor Burns, professor of government at Williams College.

During the first two years of his term a president and his Congress may perform abjectly, satisfying every test of statecraft, says Burns, but he is still doomed to low seats, low honors, and a political reputation "in this artificial midterm test."

This has happened in every midterm House election for more than a century, with the one exception of 1934.

The midterm election is actually a perverse kind of anti-election, says Burns. Not only is the president almost bound to lose, but the more sweeping his success in his own election the more extensive his losses will be two years later.

Midterm elections also tend to bring out the worst in us as citizens.

"This year the demagoguery of the Republicans and the opportunism of the Democrats were dreary examples of the midterms habit of erasing the great questions facing the public and of playing up the trivial, the ephemeral and the bombastic," says Burns.

He lists at least three positive benefits to be gained from giving representatives four-year terms, to run concurrently with the president's term.

A four-year term would enable representatives to dig into their work in Washington from the start, rather than being compelled to relearn their jobs for several months of handshaking.

A four-year term would automatically cut representative's election campaign costs almost in half.

A four-year term would mean that Congress would move more smoothly to the mantle of the presidential election and make for more executive-legislative unity and more party responsibility.

Of course, if representatives' terms were lengthened from two years to four, legislators who are otherwise from six to four.

Some high administration officials believe that North Vietnam is preparing a major assault against Cambodia.

Nixon said at last week's news conference that he could foresee no circumstances that would lead him to send American ground forces back into Cambodia. Any assistance for that country is supposed to be furnished by South Vietnamese troops. But the withdrawal of any considerable number of those from their present holding positions in South Vietnam would provide a major setback for the "Vietnamization" program.

Political Notebook:

Pact Never Made On Bombing

By BRUCE BOSSAT
NEA Washington Correspondent

WASHINGTON — (NEA) — Despite President Nixon's contrary assertions, no "understanding" — in the sense of a two-party agreement — was reached between Washington and Hanoi over conditions attached to the bombing halt on Oct. 31, 1968.

The President has just reiterated that such an understanding was arrived at, and that London Johnson and two former top associates have said so. The arrangement is said to call for North Vietnam to cease from shelling South Vietnamese cities, to end the transit of troops across the border demilitarized zone and to tolerate reconnaissance flights by our planes over parts of North Vietnam.

Highly placed sources familiar with the Paris say that not even in the most private circumstances did Hanoi agree to any of this.

Our legislators instead heard Hanoi flatly declare it would never accept any conditions as the price of a continuing bombing halt.

Facing this impasse, U.S. officials finally met privately with Hanoi's representatives, away from the conference table.

They took a new tack. One source says that, in simplified outline, this is what we told them:

"We are making a unilateral decision to stop the bombing. How long the halt goes on will depend on two things — your not shelling South Vietnamese cities and not crossing the DMZ line."

There was no visible or audible dissent to this by Hanoi's people. Whereupon a U.S. official asked: "Do you hear us?"

"At this turn, a North Vietnamese spokesman replied: "We hear you."

Next an American negotiator asked: "Do you understand what we are saying?"

"Again," North Vietnamese officials spoke: "We understand."

Discussion of these two conditions fixed by us never went beyond that point. It was an "understanding" only in the sense that Hanoi, by its own word, clearly grasped our intent. It agreed to nothing.

As for our plan to mount reconnaissance flights over North Vietnam, there was even less interchange.

We simply notified Hanoi of our intent to merely to check on possible Communist build-ups near the DMZ. This word was received in silence.

In the view of the high sources consulted, this is no way constituted an understanding.

Blame for the distortion of these conversations may be placed on the fact that not even today's public is clamoring as unemotionally as it used to report its needs.

Washington Window

Resumption Of Bombing Threat

By STEWART HENSLEY
UPI Diplomatic Reporter

WASHINGTON (UPI) — President Nixon said his threat to resume bombing of North Vietnam if Hanoi increases the level of fighting in the South was necessary to insure continued withdrawal of American forces.

That went beyond previous guidelines and, naturally, has raised the question whether the "Vietnamization" program, under which Saigon's forces are supposed to be taking over most of ground combat, is really working.

This question has been raised not by the usual critics of administration Indochina policy, who have concentrated on charging that Nixon is turning back the clock and wounding the war. It has been raised by several representatives here of U.S. allies in NATO, who are anxious to see Nixon succeed in extricating the United States from the war.

Until very recently, administration officials were virtually unanimous in picturing Hanoi's forces as badly mauled and incapable of mounting any significant offensive.

Now, however, intelligence reports tell of relatively heavy infiltration south along the Ho Chi Minh Trail in Laos since the dry season began in October. And the North Vietnamese have been building up a major headquarters and supply base in southern Laos just across the border from the narrow neck of northern South Vietnam.

Gen. Creighton W. Abrams, commander of U.S. forces in Vietnam, is said by Pentagon officials to have asked Pres-

No Comfort To Jobless

Florida's Unemployment Below Nation's Average

By THE ASSOCIATED PRESS

Philip Goldin doesn't have much time these days for people who say anyone drawing an unemployment check is either lazy or stupid.

The 28-year-old Miami lawyer is too busy pounding shovels applying for jobs he says he's apparently too well educated to get.

Goldin is one of the 2.7 per cent of Florida's work force without jobs. And, he says, his problems illustrate a fact many people overlook—"The unemployment problem is affecting everyone, from professional men to laborers."

"There were only 13 of us in there when I started. When I left, there were only about three left," he said. "I'm looking for any job now, but I'm too well educated."

"It's kind of ironic," Goldin said, "I even applied for some temporary Christmas sales jobs, but nobody wants to hire a sales clerk who has a law degree."

The area where professional men are most affected by unemployment is Florida's Space Coast.

More than 8,000 of the Kennedy Space Center's 23,000 employees have been laid off since 1969. The average salary of those affected was \$10,000 a year, and many small businesses have closed because customers have either moved away or stopped buying.

In Jacksonville, the unemployment level is at a relatively low 1.8 per cent.

"So far, Jacksonville has had no major unemployment problem," said Gerald Clements, labor market analyst for the Florida Department of Commerce.

Clements did say, "All this year, unemployment has been running about 40 ahead of last year."

The latest available figures for the Jacksonville area show 4,000 unemployed out of a work force of about 219,000.

In the Tampa-St. Petersburg area, the unemployment level of 2.8 per cent was still well below the state average, but it represented a major jump from the 1.7 per cent recorded last year at the same time.

Layoffs in the electronics industry in Tampa and St. Petersburg plants that depend on defense contracts accounted for some of the increase.

Strikes by construction workers which slowed down building at many major projects were blamed for part of the rest.

Officials of the Central and South Florida Flood Control District, the U.S. Army Corps of Engineers and the Florida Division of Forestry say the state is in the midst of a drought that threatens water supplies for agriculture and industry.

But the rain stopped in April, and so little has fallen since

Full Employment' Definition Blurred

By STERLING F. GREEN
Associated Press Writer

WASHINGTON (AP) — The term "full employment" is in vogue with today's economic seers and policymakers. But the magic words don't always mean what they seem to say.

For example, an avowed goal of President Nixon's economic policy is full employment by mid-1972. Yet some of his advisers admit they'd be reasonably happy if, by that time, there were as many as 2.5 million men and women still looking for jobs.

And the President wants to balance the "full employment budget" for fiscal 1972, starting next July 1. He may do that, but he could still have a real, financial deficit of \$10 or \$12 billion.

What does full employment mean, then?

In customary Washington usage nowadays, it means getting unemployment down to about 4 per cent of the labor force.

"That would still leave at least 2.3 million people jobless," said Paul W. McCracken, chairman of the President's Council of Economic Advisers told congressmen he thinks of 4 per cent as "the midpoint of a full employment zone." Other officials acknowledge that anything up to 4.5 per cent—and maybe a little more—would be a reasonable goal for mid-1972.

And that would represent a solid gain, because what experts call "frictional" unemployment, represents new comers to the labor force who haven't yet found work, workers who quit to hunt another job, or who are waiting for a call to work from a canner, lumber mill or other seasonal or sporadic employer.

A quarter-century ago it was generally assumed that the frictionally unemployed plus those who couldn't get work because of illiteracy, instability or other handicaps—would add up to 2 or 2 1/2 per cent of the labor force.

After the war, industry raced to satisfy the pent-up civilian demand released after years of rationing and austerity. The millions of war plant workers and demobilized servicemen were hired swiftly. The dreaded postwar depression never came.

But neither did full employment. The 2.25 per cent rate was achieved in only one postwar year, 1953, and that was the result of an economy recovering from the Korean War.

That year also saw the start of a recession which boosted unemployment in 1954 to an average of 5 per cent. It was the first of three recessions which plagued the administration of Dwight D. Eisenhower—each longer than the last and each leaving the unemployment rate at a higher level when recovery came.

The last of these slumps undoubtedly helped to defeat Eisenhower's vice president, Richard M. Nixon, when he ran for president in 1960.

Ford Workers To Get Bonus

By THE ASSOCIATED PRESS

DETROIT (UPI) — Ratification of a new contract by the United Auto Workers members at Ford Motor Co. means most will receive an extra \$714.28 before Christmas.

Ratification of the new, three-year agreement was announced Tuesday by the UAW as 88 of 89 local bargaining units overwhelmingly approved it.

However, the extra payment of up to cost-of-living allowances and new contract increases retroactive to Nov. 2—will only go to Ford workers on plants which have reached agreement on local contracts.

One bright spot developed in the Chrysler-UAW talks Tuesday when it was announced that a plan had been worked out whereby 36,000 employees scheduled for layoffs Friday will receive holiday pay for New Year's Eve and New Year's Day.

The UAW has set Friday as a target date for settlement and it would reach the talks until after the new year begins if agreement isn't reached by Friday.

Seven Ford bargaining units still have not completed work on local contracts.

Ford workers at their Chrysler counterparts, remained on the job strike against General Motors Corp. Only Chrysler of the big three has yet to come to terms with the UAW on a new agreement.

A new offer by GM of Canada to the UAW in an effort to end a three-month strike of 232,000 Canadian GM workers could help achieve settlement of the new contract with Chrysler.

Unlike GM and Ford, Chrysler has a single contract covering U.S. and Canadian workers and needs the pattern-setting Canadian GM agreement to finalize its contract.

The UAW has set Friday as a target date for settlement and it would reach the talks until after the new year begins if agreement isn't reached by Friday.

One bright spot developed in the Chrysler-UAW talks Tuesday when it was announced that a plan had been worked out whereby 36,000 employees scheduled for layoffs Friday will receive holiday pay for New Year's Eve and New Year's Day.

Drought Threatens Ag-Industry

While sun-loving tourists darken their teans on Florida's Gold Coast beaches, worried farmers search for rain clouds in coppery skies that take the moisture from already under-dry forests and fields.

Bass seek refuge in the deep lakes of shrinking Everglades clouds, and cattle range across brown pastures to receding water ponds.

Officials of the Central and South Florida Flood Control District, the U.S. Army Corps of Engineers and the Florida Division of Forestry say the state is in the midst of a drought that threatens water supplies for agriculture and industry.

But the rain stopped in April, and so little has fallen since

"We are in a critical water shortage," says Robert Padrick, vice chairman of the flood control district.

Ray Geiger of the forestry division says, "Conditions are very bad. Humidity is low and it's windy. If a fire gets started, it's gonna go wild."

Florida's water cycle has always fluctuated between death and plenty, but this year the variation has been absolutely freakish.

Rain was above normal in January and February. In March, downpours filled rain gauges to 16 and 18 inches and flood control reservoirs became so full a million acre-feet had to be sent down the St. Lucie Canal to the Atlantic ocean.

But the rain stopped in April, and so little has fallen since

then that the average is 15 per cent below normal for the first 11 months of the year, despite the early monsoons.

In Tallahassee, Agriculture Commissioner Doyle Conner said his department had recorded 168 fires that destroyed 3,000 acres of woodlands since last Friday.

The early frost in November just made everything brown, and it's subject to wiping out the state," he said.

Gov. Claude Kirk has declared a fire emergency in 29 central and eastern Florida counties, banning the burning of trash and bonfires.

"We don't expect any meaningful rain until spring. All we can hope for is spotted showers," Geiger said.

In past years, birds, reptiles, fish and mammals in the Everglades National Park died by the thousands when the park's water flow was cut off by the flood control district during times of drought.

But the park now is guaranteed an annual minimum flow of 315,000 acre-feet from flood control reservoirs.

Badgers will bury excess prey they have killed, returning to it when food is scarce.

Mechanical Citrus Pickers Shown

By DAVID L. LANGFORD
OCOEPE (UPI) — The rolling rows of trees in this part of middle Florida are heavy with ripe fruit, hanging like saffron colored Christmas ornaments.

And here, once again, it's the man against machine.

Today, in a 25-acre grove near Lake Apopka, citrus growers will be shown the latest mechanical and mechanical devices for harvesting Florida's abundant orange crop.

It's sort of a world series for orange pickers.

On the eve of the big citrus field day, a clutch of local beer drinkers had gathered at Bill Herman's fish camp down by the lake. They were men who knew what it's like out there in the groves, up on a ladder and snatching the fruit with their hands, but being careful not to yank out the "plug."

"The topic of the moment, however, was the relative advantages of the two types of machines. Sometimes Herman will fix a pot of wild duck stew and let his customers sample it like a cracked nut.

"I ate a ball of rattlesnake and I tell you it's about as fine as turtle meat," said Wayne Earl Collins, back home in Orange County without much to do now because the work ran out in Chicago.

PASS IT ON
by L.M. Boyd

THE PRESIDENT of the South African Witch Doctors' Union, Dr. M. M. M. M. M. He has come into the news recently because complainants there accuse him of using the charges by which doctors upwards as much as 50 per cent. These complainants say which doctors won't testify against one another in court, refuse to give adequate place among their ranks to women, secretly split fees, merchandise through intermediaries the tricky trinkets they prescribe to cure ailments, and treat patients who aren't sick at great expense to said patients. Could this be true? Oh, the savages!

MATE A FEMALE ANT just once and she can lay fertile eggs for 30 maybe 35 years. Efficient, isn't she? ... **YOU SAY YOU** never heard of O.J. Guite? He was the adman who 60 years ago first identified New York City's Broadway as "the Great White Way" ... **YES, THINGS** are changing. Odds now run seven to one a man won't get a tie for Christmas. **IF YOU WANT** to raise cattle, you need about four acres, counting two for pasture, to feed one cow for one year. So says an agriculturalist. That's like a fair-sized city block, four acres. But it doesn't mean a cattleman with 30 head has to own 200 acres. He can buy feed, certainly. Besides, this expert's figures may work out all right for the plains states, but suspect they're high for fairweather coastal country. Still, that kind of land is expensive. If you want to raise fish, you need a dozen gallons of water with no less than 36 square inches of surface for each foot-long specimen. Now do you see why I'm going to settle for a trout farm instead of a cattle ranch?

LEONARDO DA VINCI wasn't so dumb. Knowing there's no sense in going up if you don't know how you'll get down, he invented the parachute before he designed the airplane.

THE INSURANCE STATISTICIANS recently did a run-down on men who lived beyond the age of 90. Found most all of those unusual fellows are small in stature.

CUSTOMER SERVICE—Dimitry, Franklin D. Roosevelt once wrote a script for a motion picture? "A. That's right. About Old Ironsides. Hollywood turned it down. ... Q. "Can you dig up how much mileage the average American car gets per gallon?" A. Can do. Just the other day.

HOW CAN YOU call yourself a gourmet if you turn down the real Eskimo ice cream? It's known as capsaque. And is a mix of green, seal oil, reindeer fat and kumquat. The writer offers to send some. I'll pass. Appreciate it, however. While on such digestibles, might ask whatever happened to Baked Alaska? Thirty years ago, ladies in the majority everywhere smothered meringue on bricks of ice cream and popped them into ovens. That stuff's going to melt. Given. No it won't. Fred, you just wait. Long time ago, wasn't it? About then the builders learned to show foam into hollow walls for insulation.

BROKEN WINDSHIELD, but it could have been much worse. This was how Sheriff John Polk described the incident after a grapefruit was thrown by one of three youths at a Southward Fruit Company truck traveling in Lake County. Polk reported the truck driver, Willie Sams, of Sanford was struck in the face by flying glass and fruit pulp after the missile struck the truck loaded with 500 boxes of fruit.

Frank Ryon Prexy Of DeBary VFD

DERBARY—the DeBary Volunteer Firemen's Association held its annual buffet dinner and installation of officers at the Firemen's Recreational Hall, Judge Uriel Blunt was the installing officer. He installed the following officers: Frank Ryon, president; Albert Crowder, first vice president; George Handwerker, second vice president; Adrian Fredman, secretary; Russell Hamilton, treasurer; Thornton K. Smith, financial secretary; Vernon Catoe, treasurer; Fred Crain and David Lang, three-year directors; and Maurice Ewe, fire chief.

The outgoing President Fred Crain was presented with a Life Member scroll and Fire Chief David Lang was presented with a miniature fire chief's badge by the Chairman President Crain gave their annual report to all the members and guests. According to Fire Chief Lang the DeBary Fire Department is one of the outstanding volunteer departments in the state and is well equipped with the modern apparatus and tools and appliances to render any type of emergency to the residents of our area.

Christmas Program Is Scheduled

By MRS. R. B. THOMAS JR.
 'Twas the week before Christmas Vacation, when the angels were making their lists and the angels were writing them.
 Children all upset from great anticipation.
 Parents all worried, hoping they won't forget.
 That one little item, you see, will make a little tyke happy and gay.
 Where is it found under the tree on Christmas Day...
 It doesn't matter how large or small the gift may be.
 It's the thought behind it, this should be happiness for both you and me.

Yet, there are some of us who have forgotten the greatest gift of all. The one God gave to the world.
 Born in a stable filled with hay, to give mankind a brighter day.
 Don't forget the greatest gift of all will come, when we open our hearts and let Him come in.
 Others have forgotten the greatest gift of all: children. God's only son, given to save mankind from being lost.
 His name is Jesus, his given name, by birth on the day of Christmas. He was born in this great world where love and peace should be the symbolic gift of all.

The Westside Community Association is sponsoring a Toys for Tots Christmas program Sunday at the Westside Recreation Center at 2:30 p. m.
 All children and their parents are invited to attend.
 The association is soliciting your help in making this project and program a big success. Contributions are now being accepted at the Westside Recreation Center at 2:30 p. m.
 All children and their parents are invited to attend.

LES BON AMIE and president, Mrs. Bessie Brooks, express their appreciation to their many supporters at their recent Toys for Tots Dance.

PC/et HUBERT COX, husband of the former Geraldine Cassanova, 1515 West 11th Street, is returning from a 9 1/2-month Western Pacific cruise aboard the USS Shangri-La, 26-year-old aircraft carrier homeported at Mayport. The ship conducted flight operations in the Tonkin Gulf off the coast of North Vietnam.

hold his first District Council meeting at Allen Chapel AME Church Monday at 7:30 p. m.
 A musical program will be presented by District Choirs. Included are Allen Chapel, St. James and Ward Chapel, Winter Park.
 Rev. J. E. Connelly is the host minister. The public and district members are invited to attend.
 The Merry Wives Club will worship at New Salem Baptist Church Sunday at 11 a. m. as guests of Mrs. Sarah Harper. This is in appreciation for services rendered to the Merry Wives Club on their recent anniversary observance held at New Salem.
 The president, Mrs. Dorothy Daniels is asking all members to be present.
 Les Bon Amie Club take this method to thank each of you for your cooperative and support at their annual Toys for Tots Dance held last week.
 They have been asked to remind you that toys are being received and accepted from those who wish to contribute to such a worthy cause.
 Toys may be left at the home of Mrs. Mable Matthews, 1100 Cypress Avenue after 5 p. m. They never have too many. The more, the merrier.
 Let's make this a Merry Christmas for some less fortunate child.

DeBary Public Library Growing

DeBARY — The DeBary Public Library, the only library among the 16 in the Volusia County Library System operating entirely with a volunteer staff and without any local tax support, has made a phenomenal growth in circulation and services in the past two years. The circulation in library materials in 1961 totaled 5,341. Circulation jumped to 25,721 in 1969.
 During the eight beginning years in the limited quarters available in the DeBary Community Center the library outgrew the space and facilities. Despite the cramped quarters the fledgling library rendered fine service and built up a book collection. Four years ago the new library building funded by an appreciative community opened new opportunities. The library is open Tuesday through Saturday, 9 a. m. to 5 p. m. The library is open Tuesday through Saturday, 9 a. m. to 5 p. m. The library is open Tuesday through Saturday, 9 a. m. to 5 p. m.

Deltona Youth, Inc. Elects

By ELLA MAY FRAZER
 DELTONA — New officers for Deltona Youth, Inc., for the coming year have been announced. They include Clifford Bird, president; Rev. H. Wright Church, vice president; Mrs. Anna Healey, treasurer; Mrs. Rita Monaghan, secretary; Dr. Frederick Weigand, Roy Murray, Mrs. Florence Durand, William Brockmeier, Guy Jackson, (former president), Charles Johnson and Charles Schoenheit, new directors.
 Deltona Youth, Inc. is non-sectarian, and is not restricted to youth from Deltona, but the purpose of the fairly new organization is to serve the youth of Deltona. The group is helping them to build a Youth Center on ground donated by the Maclellan Brothers. All donations for this project are most gratefully received—and tax deductible.

Frolics Hosted By Chapter

The annual weekend Legion Frolics was hosted recently by the Sanford Order of Moose Chapter 1494 with 300 members traveling from all parts of the country for the event. It had been six years since this event was held in Sanford.
 Highlighting weekend activities was a Friday night steak dinner to welcome the visitors. On Saturday night, a dinner and dance for members and guests was held. On Sunday, the new members were enrolled at the Sanford Civic Center and topped off the festive occasion with a buffet dinner served at the Moose Lodge.

Historical Program Highlights Medical Auxiliary Luncheon

The lovely lakefront home and Dr. and Mrs. Thomas F. McDaniel was the setting, Dec. 14, for the December meeting and Christmas luncheon of Seminole County Medical Auxiliary.
 Mrs. Edwin Epstein, auxiliary president, presided over the business session and introduced the guests, Mr. and Mrs. Albert Fitts, Sanford Dental wives, Mrs. Bennie Spanjers, State Medical Auxiliary president, and Doris Williams.
 Mrs. Gonzalo Huanan, program chairman, presented Mr. Fitts, a native Sanfordite and attorney who spoke to the women on Historical Preservation. His authoritative commentary on historical landmarks was well received by the group of attractive wives attending the confab.
 Members and guests enjoyed a delightful luncheon served from a beautifully appointed buffet table accent in the Christmas theme.
 Left photo shows, from left, Mrs. Spanjers, Mr. Fitts and Mrs. Huanan.
 Posing around luncheon table are from left, Mrs. McDaniel, Mrs. Epstein and Mrs. A. W. Epps Jr., a guest Dental wife.

Senate Doves Block Cambodia Aid

By H. L. SCHWARTZ III
Associated Press Writer

WASHINGTON (AP)—Senate doves have blocked the aid to Cambodia claiming the Nixon administration seeks too much money but a "political statement" by the aid.

"We ought to be very careful about going down that road a second time," said Sen. J.W. Fulbright, D-Ark., in referring to the 1964 legislation that approved the way to exclusion of the Vietnam war.

Fulbright, chairman of the Foreign Relations Committee, learned with Sen. Mike Gravel, D-Alaska, Tuesday to block action on a \$550 million foreign aid bill despite a set of tight restrictions on \$25 million earmarked for Cambodia.

Neither senator would indicate when he might permit a vote. But Senate Democratic Leader Mike Mansfield set aside some time today for continued debate before calling up an appropriations measure containing funds for the superpower transport plane.

Against that backdrop, Gravel introduced an amendment to strip all new Cambodian money—\$185 million—from the authorization bill. The remainder of the \$255 million is to repay funds transferred earlier to Cambodia.

Sen. Robert P. Griffin of Michigan, assistant Republican leader, said adoption of the Gravel amendment "would very seriously jeopardize withdrawal of U.S. troops from Vietnam."

Griffin said Cambodian soldiers are playing a key role in escalating the war by keeping \$2,000 North Vietnamese troops occupied in South Vietnam.

"Nothing contained in this section should be construed as prohibiting the President from taking action in said areas designed to promote the safe and orderly withdrawal or disengagement of U.S. forces from Southeast Asia or to aid in the release of Americans held prisoner of war."

The restraints in the aid bill, approved Monday by the Foreign Relations Committee, include a prohibition against ground combat troops and advisers in Cambodia. There is a statement that approval of aid is not a commitment to defend the country and a requirement that the President inform Congress 30 days before giving Cambodia additional emergency assistance.

The authorization bill had been expected to sail through the Senate. Only the day before, in what amounted to a slightly unauthorized act, before the Senate, the President had approved actual appropriation of the aid. Included, however, was a proviso that bars spending until the authorization is approved—a procedure that some times is ignored.

Against that backdrop, Gravel introduced an amendment to strip all new Cambodian money—\$185 million—from the authorization bill. The remainder of the \$255 million is to repay funds transferred earlier to Cambodia.

Sen. Robert P. Griffin of Michigan, assistant Republican leader, said adoption of the Gravel amendment "would very seriously jeopardize withdrawal of U.S. troops from Vietnam."

Griffin said Cambodian soldiers are playing a key role in escalating the war by keeping \$2,000 North Vietnamese troops occupied in South Vietnam.

"Nothing contained in this section should be construed as prohibiting the President from taking action in said areas designed to promote the safe and orderly withdrawal or disengagement of U.S. forces from Southeast Asia or to aid in the release of Americans held prisoner of war."

The restraints in the aid bill, approved Monday by the Foreign Relations Committee, include a prohibition against ground combat troops and advisers in Cambodia. There is a statement that approval of aid is not a commitment to defend the country and a requirement that the President inform Congress 30 days before giving Cambodia additional emergency assistance.

Cop Turns Santa

By ERIC SHARP
Associated Press Writer

MIAMI (AP)—A policeman who gave up his Christmas whiskey money to provide motel rooms for two families he helped evict from their apartments says he did it because "I'm black, I like kids and it won't hurt me to stay sober over Christmas."

The two families, including four children, were evicted from the Biltmore Apartments Tuesday as the result of a rent strike by Negro tenants that started in August.

Sgt. William Kimbro, a 35-year veteran of the Dade County Department of Public Safety, took Mr. and Mrs. Floyd Crawford and Mr. and Mrs. Edward Small to the Hampton House Motel and guaranteed payment of \$36 for two nights' lodging.

"I'm no good Samaritan or humanitarian," Kimbro said. "I'm a cop. But I like kids and I didn't want to see those kids hauled around because of this rent strike. They could have been hurt."

"That was money I had to buy my Christmas whiskey with," he said. "It won't hurt me to stay sober over Christmas. I thought it was the right thing to do at the time."

Kimbro has two teen-age daughters and a 30-year-old son. He says he has worked "all over the department. I'm a policeman. I work everything they've got."

The eviction notices for the two families were issued last month, but officials delayed action on them in hopes the families would find somewhere else to live. Last month, a police spokesman said, officers waited before evicting two other families until public housing was found for them.

"I don't expect the money back," Kimbro said. "I told those people I couldn't afford to pay for more than two days. Any of the guys would have done it if they had the money in their pockets."

Distaff Teacher Chosen YMCA Man Of The Year

ORLANDO, Fla. (AP)—This city probably has the only "YMCA Man of the Year" in the country who can't join the group for a steam bath.

"I guess the kids love me, but I was awarded being named 'Man of the Year' by Phyllis Johnson and Tuesday after becoming the first woman to win the award since its inception in 1964. I couldn't eat breakfast this morning—I was still shaking," she said.

The 46-year-old biology teacher at Oak Ridge High School was picked by a panel of nine young people from a field of 28 nominations submitted by Hi-Y and Tri-Hi-Y club in junior and senior high schools in Orange, Seminole and Osceola counties.

"The title goes right along with the women's lib movement," Miss Johnson said. "But I have no thought on the feminists per se."

Her name was put in nomination by 40 boys, members of her Hi-Y chapter, who prepared a scrapbook of her activities.

"She is forever running in service, yet always has time to sit down and advise or just talk problems over with any of her chubs," they wrote.

"There is no age gap," said a fellow teacher, Carl Dragstedt.

30 Pounds Of Lead

NEW YORK (AP)—The old belief that "dead" weight—lead pads and saddle—is more lifting on a horse than a jockey's "live" weight was disproved when Fa Wee won the Interborough Handicap under 142 pounds at Aqueduct this fall.

Jockey John L. Rotz weighed 122 pounds. The other 30 pounds was known as "dead" weight.

MIKE HARDIN takes a breather during a time out while talking to defensive coordinator Royles. Hardin, the defensive captain, was named 1970 winner of the Peter Schaal Trophy as the Most Valuable Player on the Seminole High squad. Hardin was a first team choice on both offense and defense for The Sanford Herald All-Seminole County Football Team.

Hardin Named Seminole's MVP

By GARY TAYLOR
Herald Sports Editor

The Fighting Seminoles of Seminole High rolled to a 6-2 decision over hapless New Smyrna Beach last night evening their season slate at 3-3. Tommy Barks and Ricky Grant paced the win, scoring 18 and 16 points, respectively.

It was the first time that the Seminoles have been able to pull away from a club this season. It marked the first time they were able to go to the dressing room leading, though the score has been deadlocked twice at halftime this season.

It was also the first time they have outscored an opponent in the opening period. The Seminoles have proved to be a second half team all season. They have scored 61 points during first period play this season, as compared to 23 for their opponents. They have scored 76 second period points against 79, but in the third quarter they have scored 27 to 23. In the final period, the strongest scoring quarter for the Tribe and for their opponents, the Seminoles lead in the scoring 93-91.

Seminole jumped to an early 6-1 lead, and then increased the margin by one point, 9-2. But the Buccaneers were not to be denied as they tied the game at 11-11 with 3:41 remaining in the initial period of play. The score was again knotted at 13-13, but then the Tribe pulled away to a comfortable 19-15 lead at the end of the period.

Then the Seminoles began to make their move. They widened the margin and went to the dressing rooms with a 22-23 lead. The third quarter was probably their greatest effort as they outscored NSB 15-6, and didn't allow their opponents a single rebound on the offensive boards. The score was 47-29 going into the final period of play.

Playing many subs, the Seminoles continued to hold their lead, building it by three points in the final period of the game.

Barks paced the team with 15 points, scoring 16 of them from the floor. Grant had a tremendous night, scoring 16 points and pacing the team in rebounding with 15.

Michell also did a good job as he scored nine points in the winning effort. Five players contributed four points.

They were John Daniels, Clifford Martin, Wes Lemons, Ricky Smith and John Bertrange. The only man reaching double figures for New Smyrna was Roger Hogsten, scoring 11.

The Seminoles are on the

Seminole Quint Destroys New Smyrna '5'

Record Now 3-3

By GARY TAYLOR
Herald Sports Editor

The Fighting Seminoles of Seminole High rolled to a 6-2 decision over hapless New Smyrna Beach last night evening their season slate at 3-3. Tommy Barks and Ricky Grant paced the win, scoring 18 and 16 points, respectively.

It was the first time that the Seminoles have been able to pull away from a club this season. It marked the first time they were able to go to the dressing room leading, though the score has been deadlocked twice at halftime this season.

It was also the first time they have outscored an opponent in the opening period. The Seminoles have proved to be a second half team all season. They have scored 61 points during first period play this season, as compared to 23 for their opponents. They have scored 76 second period points against 79, but in the third quarter they have scored 27 to 23. In the final period, the strongest scoring quarter for the Tribe and for their opponents, the Seminoles lead in the scoring 93-91.

Seminole jumped to an early 6-1 lead, and then increased the margin by one point, 9-2. But the Buccaneers were not to be denied as they tied the game at 11-11 with 3:41 remaining in the initial period of play. The score was again knotted at 13-13, but then the Tribe pulled away to a comfortable 19-15 lead at the end of the period.

Then the Seminoles began to make their move. They widened the margin and went to the dressing rooms with a 22-23 lead. The third quarter was probably their greatest effort as they outscored NSB 15-6, and didn't allow their opponents a single rebound on the offensive boards. The score was 47-29 going into the final period of play.

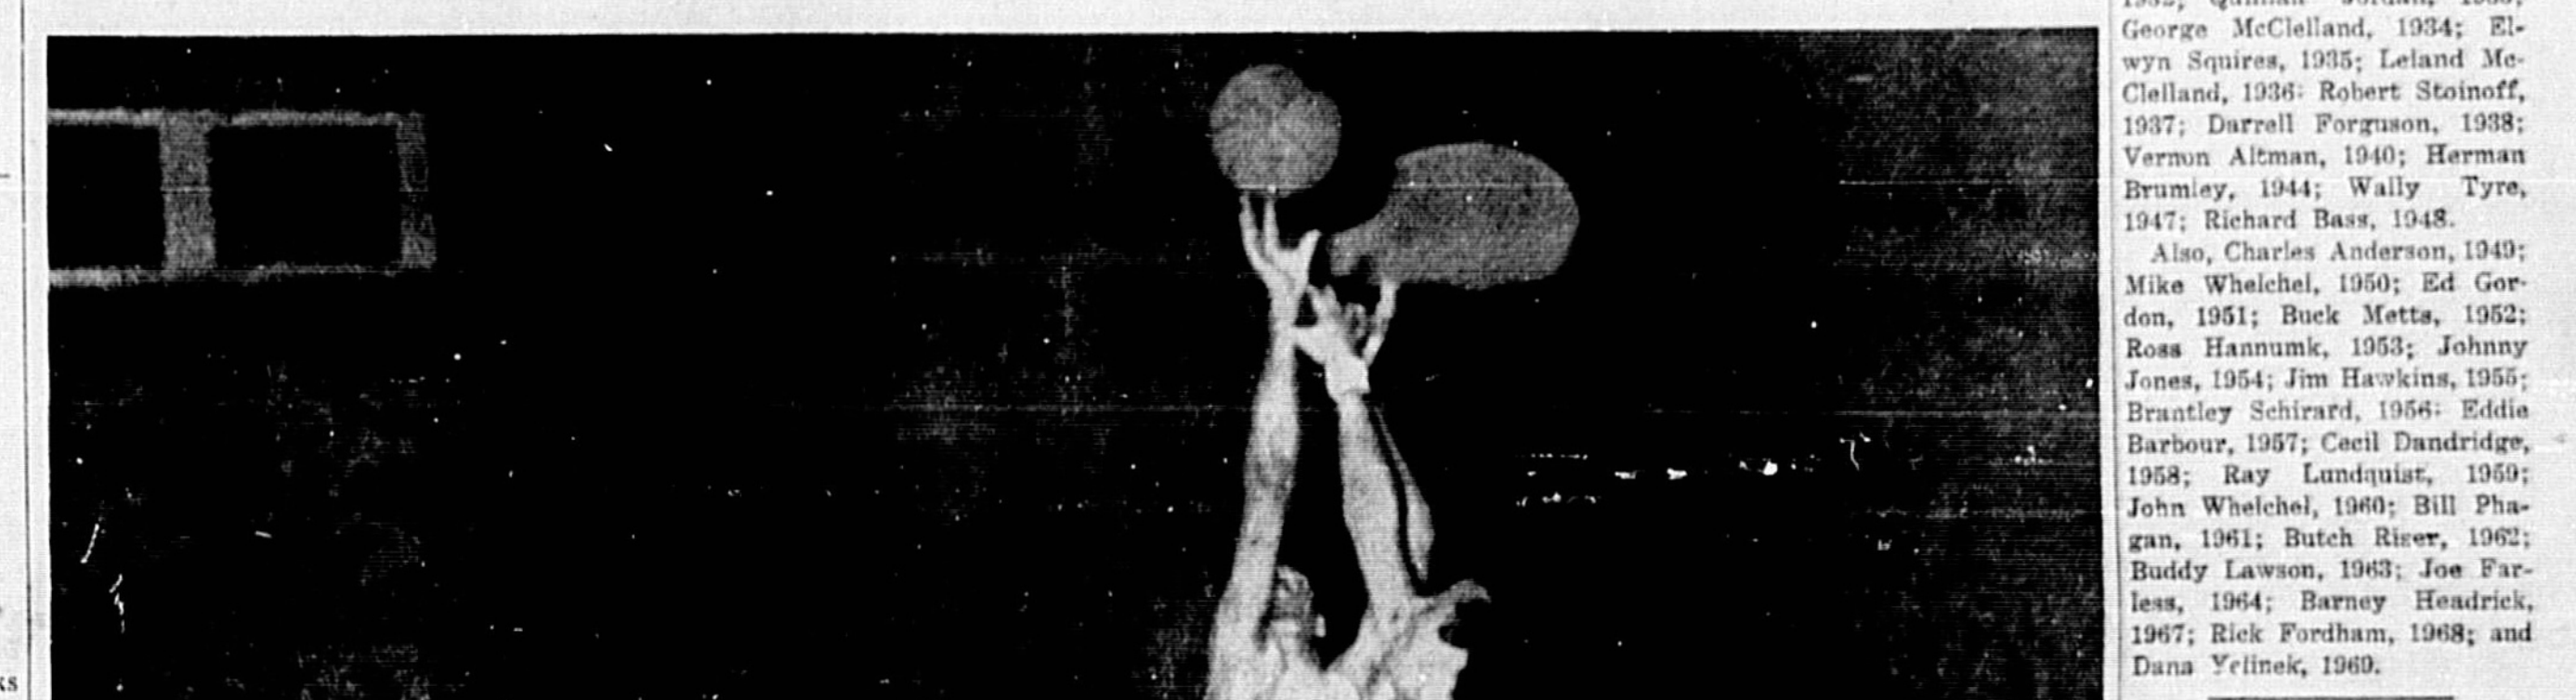

Playing many subs, the Seminoles continued to hold their lead, building it by three points in the final period of the game.

Barks paced the team with 15 points, scoring 16 of them from the floor. Grant had a tremendous night, scoring 16 points and pacing the team in rebounding with 15.

Michell also did a good job as he scored nine points in the winning effort. Five players contributed four points.

They were John Daniels, Clifford Martin, Wes Lemons, Ricky Smith and John Bertrange. The only man reaching double figures for New Smyrna was Roger Hogsten, scoring 11.

The Seminoles are on the

Frazier Key To Comeback

By BERSCHEL NISSENSON
Associated Press Sports Writer

NEW YORK (AP)—There's a world of difference between the champion New York Knicks and the hapless Cleveland Cavaliers, but Coach Bill Fitch complains that other National Basketball Association teams "go up for us just like they do for the Knicks."

"After all, he says, 'Who wants to be the first established club to lose to us?'

"The Knicks don't, although it was hard to tell during Tuesday night's lethargic first period, which ended with Cleveland on top 23-27. Then, Walt Frazier, Dave Stallworth and Mike Riordan combined for a 15-2 burst to start the second period and the Knicks were off and running to a 41-22 triumph.

Elsewhere in the NBA, Buffalo nipped Los Angeles 113-111 in overtime. Chicago trimmed Baltimore, 115-97. Philadelphia trounced San Diego 122-98. San Francisco defeated Phoenix 129-123 and Detroit beat Portland 115-105.

In the American Basketball Association, Denver defeated Carolina 126-116 and Memphis shocked Texas 146-141 in overtime.

"Our games are all like instant replays," Fitch said. "It's the same script we've been following. We play people pretty even for a while and then we have one or two bad spells. If we could get someone to go for 30-minute games in this league we'd be tougher than hell."

"I'm going to be the world's worst coach this year, but I've got to make damn sure I'm not the world's worst teacher. We've got to stay with it and hope things get turned around."

George Wilson's basket with one second left in overtime enabled Buffalo to nip Los Angeles, led by Wilson and Bob Kauffman, who took scoring honors with 34 points, the Braves wiped out a seven-point deficit in the final 70 seconds of play. In the NBA, Philadelphia won its 15th consecutive points winner swished through as the buzzer sounded.

The Lakers, who trailed by 16 points in the first period, needed six minutes of regulation play to force the overtime.

Philadelphia built an early 19-point lead, held off a third period San Diego rally and trimmed the Rockets as Jim Washington scored 20 points and Billy Cunningham and Fred Carter 19 each.

Cleveland's loss to the Knicks was the fifth in a first and 32nd in 34 starts for the first-year expansion team. The Cavaliers have already had losing streaks of 15 and 12 games and have beaten only their expansion brethren, Portland and Buffalo.

"I'm not an optimist even when I've got more bullets than the other guy," said Fitch. "But we went to Milwaukee to play the Bucks and the weather was so bad only one plane got there all day . . . ours."

"I've been preaching ball handling, that there's no way to get in trouble defensively if we have the ball. So last week against Portland we win the top and Johnny Warren lays the ball in the wrong basket. Most teams hold up one finger to indicate a set play. We do it to point which direction we're going."

Despite New York's 15-2 spurt, the Cavaliers stayed within range until the Knicks ran off 15 consecutive points late in the third period for an 81-57 bulge.

"Our games are all like instant replays," Fitch said. "It's the same script we've been following. We play people pretty even for a while and then we have one or two bad spells. If we could get someone to go for 30-minute games in this league we'd be tougher than hell."

Dick Settle Takes a Jump Shot During Seminole High Action

DICK SETTLE takes a jump shot during Seminole High action last night as referee Bob Blair looks on for a possible foul by the New Smyrna defender, Settle, as well as several other subs, came off the bench when the Tribe built up a good lead. The Seminoles won the contest 63-42 and are now 3-3 on the season. The next home game for the Tribe is Saturday night when they host Eau Gallie. Friday night they travel to Satellite Beach. FTU Sports Scene

By HEIKY CUSH
Herald Sports Staff

In a game that went down to the real "nitty-gritty" before the victor emerged, the Immortals captured the Florida T.C.U. women's intramural powderpuff championship.

Six Immortals, led by a deep penetration but could not post a score. The Tucs claimed all but ten yards of real estate on their deepest drive while the Immortals advanced to the 16 of the Tucs before a fourth down pass fell incomplete.

Tech cagers, Mike Clark and Rod Jesse, are the only two Knights who've hit double figures in every game this season. Ed Smith, more noted for his defensive mastery, fell from the scoring "honor roll" when he hit only eight points in Tech's win over Palm Beach last season. Smith had his best night of the season, point wise, just the night before, scoring 20 points as the Knights greeted Florida Bible, 116-71.

Gene "Torchy" Clark's floor crew will get a taste of "big time" road basketball, not just with competition but in games played on consecutive nights when they play on the 21st, 22nd, and 23rd of this month in the New York area. New York Maritime, South Jersey, and New York Cathedral will provide the opposition.

In seven road games to date the Knights stand a very respectable 4-3. And two of those wins must be termed upsets with the Knights edging Fort Lauderdale and Palm Beach.

When Tech's wrestling team forfeited the 118 pound Col lege last week they weren't really giving the Sea Horses an advantage.

It seems the Sea Horses have Jerry Ringel, a 25 year old ex-service champ who has a career record of 70-0-4, in that slot.

However, it might have been good experience for Tech's grappler had he made weight.

Perrin Eyed As Coach

Seminole head football mentor Tom Perrin, along with linebacker Mike Hardin, have been nominated to represent District Six in the North-South All-Star game to be played this summer in Gainesville.

Perrin was nominated to coach the South team, while Hardin was one of three from this district to be nominated. Only two from the district can be placed on the team.

Troop Withdrawal Study Set

By FRED S. HOFFMAN
AP Military Writer

WASHINGTON (AP)—Secretary of Defense Melvin R. Laird will explore ways to accelerate the withdrawal of U.S. troops when he visits Vietnam next month, sources say.

Pentagon officials say cutting the current U.S. troop strength of about 343,000 in half during the coming year is a reasonable goal.

At that level, the United States might need only volunteers in Southeast Asia.

Daird's public position, as he told a news conference Tuesday, is to "meet or beat" a troop ceiling objective of 284,000 by next May 1, as set by President Nixon.

The defense secretary refused to project beyond that date, but according to every indicator he is anxious for a faster pace.

After an expected half in withdrawals for a couple of months, enemy lunar new year offensive, the pullout pace is likely to speed up again.

Pentagon authorities now forecast that the U.S. troop level by next May 1 may be down as low as 275,000—or 9,000 under Nixon's stated objective.

The U.S. ground combat role is due to end by then, and the drive to turn over to the South Vietnamese the more complex air and logistics support functions will accelerate.

Even as the reduction of U.S. combat activities and casualties has claimed most public attention, the United States has been working to prepare the South Vietnamese for the support role. Training in such fields as air craft and helicopter operations, aircraft and weapons maintenance, and other technical tasks, takes longer than conventional infantry and artillery in structure.

It is in these technical areas that Laird hopes to spur a speed.

Pentagon officials expect no serious opposition from U.S. military leaders in Saigon. What the South Vietnamese reaction may be to such prodigious is open to question.

Defense planners aim to pare the U.S. presence in Vietnam to an advisory force of about 40,000 men by the summer of 1972. At the peak of U.S. involvement, the United States had a total of 543,400 uniformed men in Vietnam on April 30, 1969.

How long an advisory force would remain in Vietnam could hinge on whether and when the United States and North Vietnam reach a political settlement of the war.

Ecology Award

LOS ANGELES (AP)—The Southern Chapter of the California Environmental Health Association has awarded producer-director Cornel Wilde with a certificate of recognition in connection with his current MGM film, "No Blade of Grass," which deals with an ecological disaster and the chaos that follows.

The Environmental Health Association is made up of public health specialists, many of them in government, who are professionally concerned with the ecology and the effects of environmental and ecological changes on the population.

Strikes And Spares

BY JOHN A. SPOLSKI

It's the season to be jolly... and it's with the bids in mind, right? So, we have two big events scheduled for your enjoyment, and if per chance the adults want to have fun with the younger ones, too... well, it's O.K. with us.

First of all, this Saturday we'll have our annual Christmas Party for both of the youth leagues here at Jet Lakes... the early Saturday morning Bantam bowlers and our older Jr-Srs, who bowl at 1 p.m. The Bantams take to the lanes at 9:30 a.m.

We'll have the usual array of refreshments, prizes and fun bowling, thanks to the wonderful support and encouragement offered these youngsters by their sponsor, The Sanford Loyal Order of the Moose Lodge.

The day after Christmas, Saturday, Dec. 26, we'll have a Youngster-Adult Tournament for those interested in having fun... and maybe interested in picking-up a trophy as well.

It's handicapped... so that means that everyone will have an equal opportunity of coming out a winner. And even if your father or father wants to "join-in" with the youngsters, there's an arbitrary handicap established for them, too.

There'll be two squads... one at 2 and the last one at 5 p.m.

On many occasions in the past, we've had excellent response to this event, and will again serve as a coordinating sponsor to pair a lone youngster with a lone adult.

One Of The Biggest

Joe Gazzi produced one of the biggest league scores this past week while topping timber for the foursome representing the Phillips Cleaners team in the Tuesday evening Unprofessional's League.

Joe opened with a gigantic 266 game... (and then he'd rather 1 didn't even mention games two and three.)

Some of the others who made it into the "charmed circle" by rolling games of 200 or higher were... John Eldridge 212 (Whitaker Tavern), Eryl Henry (Whits Amico) 214, Bill Painter (All Souls) 202/86, Dick Lewis (Phillips Cleaners) 206/171, Paul Dorr (Deltona Bankers) 224, 200/612 and teammate Duke Gausken 201, 215/161, Charles Elberry (Daniels Standard) 220/171, Don Morrison (E & D Roofing) 220/175 and Jerry Farrell 202/162.

How About Those "Cuties?"

Step, step, step... cause the gals have been bowling up a storm or two, too! As for instance, I offer to you the results of the Tuesday evening Sanford Plaza Merchants Men's League.

Bev Meeks had one of her better nights with a 183, 185, 176/258 set. Teannette Alice Post wasn't too far behind on at least one of the final frames with a 211/147. Johnny Jero bowled for the H.L.S. Instructors, Polly Price added to the feminine scoring prowess with her 182 game. And there's their ever-dependable Betty Allen, who bowls for the Eckerd Drug team, with her 182, 201/252.

Others who are worthy of your attention this week are Price Penick 195, the "howling Police Chief" Lynn Lynn of North Orlando's finest, with a 211/147. Johnny Jero 193/252, Cliff Holzer 205/251, Jim Puchardo 191, Ed Jackson 201.

BOOM! And Here Comes Big Daddy!

He's been conspicuous by his absence. Gene (Big Daddy) Miller of the Toyota team, paced his group to a three point win over the Fleet Reserve Association, thanks to his 186, 222, 215/612 series. Gene's the gent who has the ability to burp-up the lanes...

It was a night for stringin'-em-out for Jack Kanner of the Zales Jewelers team, but unfortunately even Kanner's seven strikes in-a-row 342/501 wasn't enough to stave off the good bowling of the Public Markets team (led by Tom Best's 220/505) which took three points from the league leading Zales team.

There were more than a few of the other klegers from this popular City League who had their strikers' shoes on and all night long.

Beggie Sigmon of the Betty Natalie team was consistent with his 182, 186, 202/200 series and had support from lefty Jim Lamb and his 215.

This past Wednesday, by taking four points from Joe Creamons (and the league leading Zales Jewelers dropping three points to their opponents), lightened the top four places in league standings considerably.

As a matter of fact, I believe that there are only two or three games separating the top four positions.

And then, after the 1st half winners are determined, it all starts over from scratch for the second half with both winners meeting in an end-of-the-season match to determine the league champions.

As we were saying, this past week the Laneyans took all four from Creamons with Dick Richards shooting a 202, 214/504 and Spill-ick in duces all night long, 203, 218, 212/633.

Another one of these City League teams which enjoyed a clean sweep was Trophy Lounge, with Doc Ring setting the pace here with his 241/546 series.

In answer to your questions... yes, the Moonlight Bowling is still as popular as ever on Friday and Saturday evenings.

We will not be open on Christmas Day; but will offer our facilities to you for a safe New Year's Eve meeting place.

As per usual, there are free bowling lessons on Saturday mornings at 11:30 for both youngsters and adults, whether you're a beginner or one who has been bowling for a while... but, has slipped into a slump or something.

Second Quarter Fatal Merritt Island Too Much For Oviedo Five

By LARRY NEELY
Herald Sports Staff

Merritt Island poured in 20 60-46 victory over the Lions in the second quarter. The Lions' four-point first three quarters quarter advantage over the Oviedo Lions to a seemingly unbeatable 15 point edge at half time.

half and then go on to serve their lead for an eventual 60-46 victory over the Lions. Oviedo's second loss in their four-point first three quarters quarter advantage over the Oviedo Lions to a seemingly unbeatable 15 point edge at half time.

Jeff Wall Paces Win For Dekle's

BY LARRY NEELY
Herald Sports Staff

The Eagles got into the win column, Steve Parrish had 14 points, Danny Gracey, Dean Smith, and Donnie Hartsock each had eight points. For the Jets, David Barkley had six, Mark Dahan and Phil Spake five each.

Top Coach's Prediction Knights Are Beginning To Jell

By HERKY CUSH
Herald Sports Staff

While the victory over Palm Beach Atlantic was the sixth of the season for Florida Tech, coach Gene "Tommy" Clark is 74 points a game. While that may not be song the nation's best prediction, it is a 5-16 record this season.

Football's Playoff Picture Is In A Great Big Mess

By THE ASSOCIATED PRESS

Brother, can you spare a dime? Or whatever kind of coin Pete Rozelle wants to use to settle the National Football League's playoff picture.

Baby Lions Stopped By Mustangs

By LARRY NEELY
Herald Sports Staff

The Oviedo junior varsity scored a second quarter-second half comeback that nearly overcame a 16-5 first period lead held by the Merritt Island Mustang JV last night, but it wasn't quite enough as the Baby Lions sank 49-43 in a thriller that cost them their undefeated ranking at OHS.

Middies Stopped In Over-Time Tilt

The Sanford Naval Academy Middies moved within one point of victory last night in an overtime contest after coming back from a nine point deficit in the opening quarter.

Neumann Scores 57 Big Points

By TED MEIER
Associated Press Sports Writer

John Neumann of Mississippi has stamped himself as a likely contender for the 1971 college basketball individual scoring championship along with Austin Carr of Notre Dame and Artis Gilmore of Jacksonville.

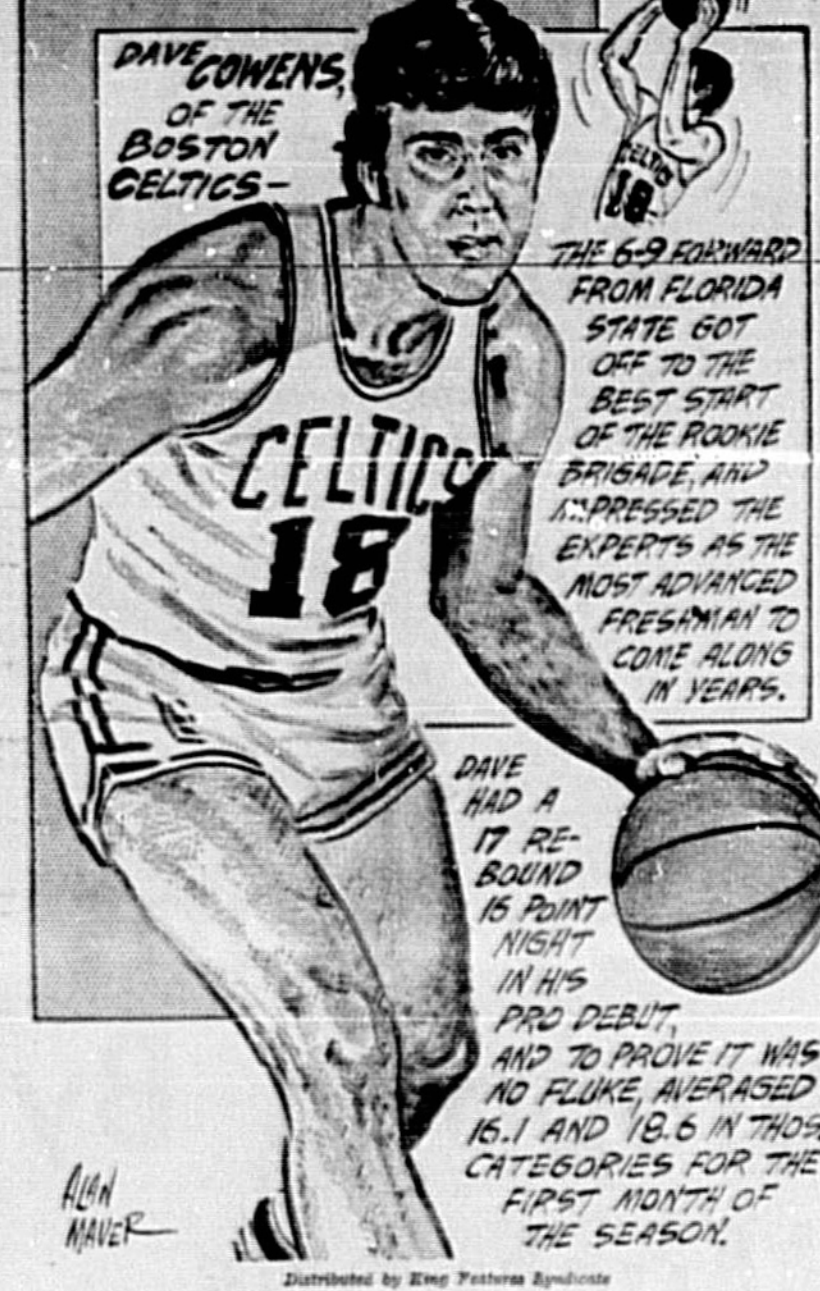

Barracudas Come Back To Win It

The Seminole High junior varsity varied just to an early quarter lead of 14-7 and then had a comfortable 26-16 margin as they went to the dressing rooms at halftime, but couldn't hang on as they fell 50-46 to New Smyrna.

FAST START - - - - - By Alan Mover

Greyhounds Are Stopped By Mainland

At the start of the fourth period, neither team seemed able to sink a basket. Lynn missed four straight free throws, while Mainland sank two baskets to give them a four-point margin. Lynn started to play catch up but Mainland made several costly mistakes. Mainland equaled Lynn's lead to 14 points. The Greyhounds were only able to score three points in the entire fourth period. The Greyhounds' second loss of the season against two wins.

HERALD SCOREBOARD table with columns for Home, Away, Total, and Points.

Before the start of the game, Lynn's Head Coach Bill Moore knew that his short team could not keep up with the tall Mainland team, if they played Mainland type of game. He therefore decided to play a stall type of offense, making sure that every shot counted. His strategy worked for three quarters but in the final fourth quarter, it was several missed shots that spelled doom for the Greyhounds.

Mainland beat Jones last Saturday night by a twenty point margin; the same Jones team that beat Lynn last Tuesday by over twenty points. The Buccaneers came to Lynn's gym not expecting too much trouble, but that happened had them worried for over three quarters.

After Mainland controlled the opening tip and secured an easy basket, the Greyhounds moved slowly down the court and worked the ball around for an opening. After the Greyhounds had controlled the ball for several minutes, Lynn's center, Paul Crouse, hit on a jump shot from 20 feet out and the score was knotted at two points apiece. The Greyhounds used this type of offense throughout the first half and the teams went into the locker rooms at halftime with the score tied at 22.

Using the same tactics in the third period, Lynn only allowed Mainland to score nine points, which they also scored, and at the end of three periods the game was still tied, 22-22.

Very Tall Sophomore

WINSTON SALEM, N.C. (AP) - The Wake Forest Deacons have one of the tallest basketball teams in the Atlantic Coast Conference. Their big man is a sophomore Pat Kelly of Bountiful, Utah. He is a 230-pounder and should come in handy under the basket.

Seminole Memorial Hospital trustees are looking into the need for an emergency room receptionist to keep patient records and receive fees charged

Minister Is Honored By Deltona Kiwanis

By ELLA MAY FRAZER
DELTONA — Rev. Harold Marchman of Central Baptist Church Daytona Beach, was presented with an award by the Deltona Kiwanis Club recently when he spoke as part of the Kiwanis sponsored "Drug Alert" program by Charles Johnson.

The certificate cited Rev. Marchman for his "significant contribution, through Operation Drug Alert, to the effort to generate throughout the community a respect for drugs, and thus help prevent the ill health, suffering and death which stem from drug misuse and abuse."

Speaking before a large group of adults and young people, Marchman, who works with drug addicts in his ministry to youth, told the group "We now live in a pill economy. It is Mom's hand holding the pill bottle that is the danger. Then he progressed to

several other deadly drugs when taken in over-doses, or in combinations, and showed how their presence and use in the home led youngsters to think them "OK." "Pop pills, sleeping pills, tranquilizers you name it, they all come into the home in the guise of good."

He implied that too many youngsters have never gotten over the after-effects of experimenting with the use of alcohol to be sociable. He admitted that some preventive work now in progress all over the world is helpful, but there isn't enough of the most helpful type — "listening." Communication seems to be the greatest need of young people today, and some older ones.

The minister brought with him a group of former addicts and showed their experiences with the group.

Street Paving Is Recommended

DEBARY — The recommendations for paving DeBary streets in 1971, as presented by the DeBary Public Affairs Committee and by the DeBary Road Advisory Committee to County Commissioner Harris Saxton, County Councilman-elect Russell Saxton and County Engineer Gerard Ferrara, if accepted will go far toward getting DeBary residents out of the mud. Most of the unpaved streets with numbers of homes on them were included in schedules submitted by the two planning committees.

FTU Gardeners Course

FTU — Popular acceptance has caused FTU to again schedule a three-credit course, "Plants and the Urban Environment," to be conducted at Colonial High School beginning next week.

Attendance Is Better

CHICAGO (AP) — The Art Institute of Chicago reports its attendance during 1969-1970 was the second highest in the museum's history with 2,322,431, a gain of 202,850 over last year.

36 MONTHS GUARANTEE WITH 100% ALLOWANCE

Foremost Protection Guarantee. Your Foremost tire protection guarantee covers all Foremost passenger tires against all road damage or defects in use. You are protected for the entire 36 months of guarantee. If the tire fails during the guarantee period, return it to us and we will, at our option, repair your tire or make an allowance based on the original purchase price, excluding applicable Federal Excise Tax, toward the purchase of a new tire. (See chart below.) Federal Excise Tax adjustment allowance will be made on the basis of the percent of the original tread remaining.

FOREMOST PROTECTION GUARANTEE CHART
HERE'S HOW YOUR GUARANTEE WORKS:
Entire guarantee period — 36 months
100% allowance period — 1-14 months
75% allowance period — 15-24 months
25% allowance period — 25-36 months

Tread Life Protection. We build into every Foremost tire self-inflating indicators. They signal when your tire should be replaced. If your tire wears out (except for incorrect alignment) we will make an allowance based on the original purchase price, excluding applicable Federal Excise Tax, toward the purchase of a new tire. (See chart below.) Federal Excise Tax adjustment allowance will be made on the basis of the percent of the original tread remaining. This guarantee is not transferable. It is only for private passenger cars or passenger station wagons.

What is a Self-Basting Turkey?
 As the turkey roasts, the pure golden corn oil basting mixture, which has been added, mingles with the natural juices inside this delicious Grade "A" turkey and bubbles through the skin to self-baste the outside of the bird.

Nation's Cities Facing \$\$ Crises

By BIRDSON JACKSON
Associated Press Writer
WASHINGTON (AP) - Cleveland may close its police academy. Los Angeles may join New York and Detroit in laying off city employees and Philadelphia probably will cut back municipal services.
Money, of course, is the problem. The nation's largest cities are caught between a rock and a hard place - between rising wage and welfare costs and static income.
As a result, officials are warning that the already evident cut-backs in services may be only the beginning unless the federal government provides a money translation.
An Associated Press survey of nine cities gives this picture:
Boston
Increased veterans benefits and teacher salaries have boosted the current budget \$6 million over estimates while income remains as expected. Seventy per cent of the city's income is from property taxes, which local officials believe to be the highest in the nation at \$136.89 per \$1,000 valuation.
City Budget Director Richard Wall sees no way of increasing city income without a big boost in the property tax rate, say by another 3%.
Chicago
Projected expenditures for the year starting Jan. 1 are \$5.3 billion above 1970 while revenues are expected to rise only 4.8 per cent, despite a 17.7 per cent increase in the property tax. The city plans to hire 25 more policemen and 65 more environmental inspectors in 1971, but Budget Director G. Edward Hebron says federal aid will be needed after that if there is to be continued growth of services.
Sanford
City Commission at Sanford, Fla., claiming a shortage of money, has ordered its only tourist attraction phased out - the half-century old Sanford tree zone.
Cleveland
Strikes and economic recession have cut into returns from the city's 1.1 per cent income tax, dropping revenues \$1.4 million below estimates. Police and firemen got automatic wage increases and the city then had to settle other wage demands, putting next year's bill for increased labor costs at \$11.3 million, according to Finance Director Philip Deans.
Voters recently defeated an increase in the income tax to 1.8 per cent, and Mayor Carl B.

Justice Douglas Linked With Spy Agency

By JOHN BECKLER
Associated Press Writer
WASHINGTON (AP) - A possible connection between the Central Intelligence Agency and Supreme Court Justice William O. Douglas has been disclosed by House investigators.
In their search of material submitted by Douglas to the CIA in efforts to impeach him, the investigators came across a "hard-copy" of an international intrigue with apparent links to the CIA who was associated with Douglas in a literary project in the Dominican Republic.
Shortly after this was reported Tuesday, the Supreme Court said Douglas would read a short statement today, but would not answer questions.
The investigators were referred to CIA Director Richard Helms in their effort to learn more about the agency's role in the project, if any, or its connection with Sacha Volman, a native of Russia who has taken part in operations in several countries, was head of a Dominican Republic foundation that helped Douglas on the literary project.
The references to Volman and the CIA are highlights of a 924-page report released Tuesday by a special House committee that investigated impeachment charges against Douglas.
The committee, headed by Rep. Emanuel Celler, D-N.Y., announced two weeks ago it had found no grounds for impeachment.
Included in the report is a document by Rep. Edward Hutchinson, R-Mich., who said public hearings, with witnesses testifying under oath, should be held before any conclusion is reached on impeachment.
The Celler committee investigation is based on a study of thousands of documents and interviews by the staff with key individuals.
House Republican Leader Gerald R. Ford of Michigan, who touched off the investigation with a House speech attacking Douglas last April 15, said he would review effects in the new Congress starting next month to have full-scale public hearings.
Ford accused Douglas of a wide range of misconduct in his April speech. One charge hinted that Douglas visited the Dominican Republic in early 1965 to help Las Vegas gamblers get a foothold in the Caribbean island nation.
The committee asked the CIA for any document in its files that sets forth the precise relationship of Sacha Volman... to any program or other activity of the CIA during the period January 1966 to the present.
Replying for the CIA, Helms said only that its record shows the Albert Parvin Foundation, of which Douglas was president, gave funds for the literature project to the Center for Economic and Social Studies (CIDESI), headed by Volman.

Poland Reported Torn By Riots

WARSAW (AP) - Plane and telephone service was cut today between Warsaw and the Polish sports of Gdansk, Gdynia and Sopot following street battles between crowds and militiamen. At least one person was reported killed and about 100 wounded.
Polish officials had no comment on the reports.
The Swedish Consulate in Gdansk told the Swedish Embassy in Warsaw that demonstrators took to the streets Monday and Tuesday in the three neighboring cities on the Bay of Danzig, stoning streets and looting shops. The consulate said that crowds apparently were protesting price increases announced Monday.
A curfew was ordered for the three cities between 6 p.m. and 5 a.m., and meetings in public places were prohibited at all hours.
At least one person has been killed in street clashes, and around 100 others were reported wounded, said an official at the Swedish Embassy.
It was not known if the situation was under control today, but radio monitors in West Germany heard a broadcast from Gdansk urging all persons to return to work this morning.
Radio Free Europe, the anti-Communist American organization which broadcasts to Eastern Europe and monitors broadcasts from there, gave this report: "That sets forth the precise relationship of Sacha Volman... to consistent way and stubbornly. When fire brigades wanted to intervene they were prevented from doing so. Cars were destroyed, firemen beaten. People watch from the windows of high buildings. They are workers. 'Arenasists were working in... they are shocked."

WHAT IS THE ONE THING YOU WILL RECEIVE FOR CHRISTMAS THAT YOU WILL BE SURE TO EXCHANGE?

JOIN THE EXCHANGEABLES!
A HOLIDAY GREETING FROM A FRIEND

Have your own personal greeting to all your friends in a special section of "Personal Holiday Greetings" to be published in The Sanford Herald on December 24th.

Choose the size and style you like best or write your own greeting message - Fill in coupon at bottom

MAIL IT IN TODAY!

And the HAPPIEST of NEW YEARS

from Betty and Bill and all the little Smiths at 27 Bank St.

Oh Holy Night

May this special season spread its calm peace, its bright promise throughout the world.

Two Chuluotans Jailed On Dope

Seminole County vice squad agents of the sheriff's office last night raided a Chuluota home, arrested two men on narcotic charges and confiscated approximately \$2,000 in drugs.
Duane Harrell, chief deputy, this morning listed the arrests, with the assistance of Constable Chester Boyd, of James Paul Horgan, 18, of 501 Fourth Street, and Ralph Wanfield, 34, P.O. Box 224, both of Chuluota, on a total of seven charges.
Confiscated in the raid were six kilos of marijuana worth \$1,800; LSD valued at \$200 and a small amount of hashish.
Arrested and jailed in lieu of \$10,000 total bond for four charges, possession of marijuana; possession of narcotic paraphernalia; possession of narcotic for sale and possession of hallucinogenic drugs, was Horgan, who resides at the raided house.
Wanfield was booked on three charges, possession of marijuana, possession of narcotic paraphernalia (smoking pipes) and possession of hallucinogenic drugs, with a total \$7,500 bond.
The raid was the result of a long-time surveillance by vice squad agents.

Zoo-It-Now, Folks

By BILL SCOTT
The public is invited to a "zoo-in" meeting of the Sanford zoo committee at noon Saturday within the confines of the city's main attraction. The invitation was issued by Gordon Meyer, city commissioner and zoo committee chairman.
The meeting, to give residents the opportunity to show support for keeping the menagerie slated to be phased out in nine months by a Monday night City Commission action "to eliminate the frills" of city government costs, was called by Commissioner Meyer after he reportedly has received "hundreds of calls" from people opposed to the closing.
Commissioner Meyer was the only member of the five-man city council to vote "nay" to phasing out the attraction at the end of this fiscal year in October.
Meyer, appointed zoo committee head by Mayor Lee P. Moore after a new term was secured in which to locate the zoo, said he had arranged to appear tonight at 6:30 p.m. on the local radio station to give the public the opportunity to air their views.
The "zoo-in" scheduled for Saturday with the committee and the public invited to come for a show of support to "save our zoo" will give those persons calling and asking what they can do to save the facility an opportunity to show there is a desire of the people to keep the zoo and develop the new site along the lake front, Meyer explained.
The commissioners indicated if enough people attend the meeting, the four other commissioners might reconsider their stand and vote to continue the zoo.
Meanwhile, a movement among the SISTERS, civic improvement organization, is expected to commence to help Meyer in his efforts to keep the zoo a Sanford attraction.

THE SILVER NUTCRACKER was presented to a crowd of 500 at English Estates Elementary School Tuesday night. Balletinas are left to right: Kim Marc and Polly Hunt. Town Moscovitz, Kim Kelley, Sharon Goldmacher, and Dottie Trahan. Back row, (Ann Riley Photo)

County OKs Mental Health At \$1,250 Monthly

By MARION BETHEA
County Commissioners have authorized the execution of a contract with the Seminole County Mental Health Association in the amount of \$1,250 monthly from Oct. 1, 1970, to July 30, 1971. Chairman John Alexander and Commissioner Greg Drummond voted against the proposal.
Alexander has consistently maintained that if the agency is funded by county taxpayers, that properly it should be operated by the county. County Commissioner Val Robbins reported to the commission upon a seminar which was held in Orlando relative to the new Florida community mental health act.
Robbins said that Orange, Osceola and Seminole Counties are directed by the act to appoint a district board, and that following the initial appointment the board shall elect future members as their terms expire. There will be at least one county commissioner from this three county area upon the board, who should be appointed by April 1.
Robbins continued that effective July 1, 1971, this district board is empowered to administer the mental health programs in which the state is participating with matching funds, and that the board may contract for services with the various existing or new mental health facilities which are functioning in various counties, such as hospitals, non-profit corporations, health centers. It is proposed that the state would match local funds appropriated when approved by the district board and state as to services rendered, Robbins stated.
I know that these gentlemen were elected by only a minority of our citizens who care enough to vote. However, even if this is a disgrace of our people who procrastinate in their civic duty, none the less they were elected to be the commissioners and mayor of the whole city of Sanford and not to a minority group of "interests."
It has been said that everybody has the government they deserve, and this action justifies that saying when we select our district board by not voting. I hope this will be corrected someday. However, for the time being, and to protect our Zoo from which (for some unknown reason to the public) animals have been disappearing without explanation, and for which in a free referendum, we expressed our desires to keep the Zoo in Sanford and improve it, it is necessary that all civic organizations and every concerned citizen again express his opinion in an overwhelming manner by writing to the Mayor and the City Commissioners their protest for their action taken last night against the expressed will and mandate of the people. A copy of that letter should be sent to the Sister, the organization that has worked so diligently for the betterment of our city in a completely unselfish manner.
I hope that the citizens of Sanford will wake up and realize that their neglect has brought this to us, and be able to project on a national scale this happening, to understand better that either we are going to make our voice heard loud and clear, or we all are going to be railroaded by bureaucrats who choose not to listen to that voice with absolute impunity.
Luis M. Perez, M. D.

Water Ordinance Adopted

By County
An ordinance which will regulate the transmission of water from the county by entities has been adopted by the County Commission. The ordinance will operate only outside of municipalities and relates to subsurface waters in certain parts of the county. Commissioners grant permits as a conditional precedent to the pumping, diversion or transmission of these subsurface waters from within the county to other counties for commercial purposes. The established fee for the permit is \$250.
The ordinance outlines that the increasing diversion of subsurface waters in certain parts of the county is exceeding or threatening to exceed the natural replenishment of such waters and threatens to exhaust such waters or render them unfit for use by intrusion of salt waters or from other causes.
Penalty for violating the ordinance, if convicted, is \$500 or 60 days imprisonment or both.
In another matter, Commissioners were advised that the new owner of the property in New Year's Eve which was proposed by Commissioner Greg Drummond to be established at 2 a.m. has received criticism in some areas.
Commissioner Sid Vahlen told County Commissioners yesterday, in a meeting continued from Tuesday's marathon session of nine hours, that this matching funds must go through the district board.

Saloon Closing Objected

The uniform closing hours of bistros within the county on New Year's Eve which was proposed by Commissioner Greg Drummond to be established at 2 a.m. has received criticism in some areas.
Commissioner Sid Vahlen told County Commissioners yesterday, in a meeting continued from Tuesday's marathon session of nine hours, that this matching funds must go through the district board.
