**IN THE CIRCUIT COURT, NINTH JUDICIAL CIRCUIT OF FLORIDA IN AND FOR SEMINOLE COUNTY, IN CHANCERY NO. 7112**

**MARGARET A. LAUGHRIDGE, Plaintiff vs. FRANK EDWARD LAUGHRIDGE, Defendant.**

**NOTICE TO APPEAR**  
Frank Edward Laughridge, who is now serving under sentence of imprisonment for the above named defendant to file his appearance on the date before the 15th day of April, 1949, else a decree pro confesso will be entered against you. The suit is for a divorce and the cause of action against you for a divorce. The name of the court, the title and name of the case are as above set forth.

**WITNESS** the hand of the Clerk and the seal of the Circuit Court of Seminole County, Florida, this 16 day of March, 1949.

O. E. HENDON  
Circuit Court Clerk  
By O. E. Hunt D.C.

**Truck-Bus Crash**

**(Continued From Page One)**  
in a bus-truck accident near Miami Tuesday.

Driver of the bus, who was injured, was R. F. Mitchell of Tampa. The more seriously injured were Mrs. Sadie Weaver of Simpson Key, the Rev. George H. Jones of Johnston, Fla., and Mrs. Jenny Robinson of Brooklyn.

Others who received minor hurts and received first aid treatment at the hospital were:

The Rev. E. B. Fenwick, Raleigh, N. C.; Mrs. L. R. Zepka, Houston, Lake, Mich.; Mrs. Edna Dibble, Fort Myers.

A. F. McCann, Mr. Vernon, N. Y., Carl Kling and Mrs. MacIntyre, both of St. Petersburg; John F. Jaap, St. Petersburg.

Iris Ivey, Osprey, Fla.; Evelyn Childs, Lutz, Fla.; Mrs. Margaret Lane, New York; Edna Mae Tryon, Sarasota; Mrs. Charles Peacock, Mountainville, N. Y.; Mrs. W. E. Phillips, Springfield, Mass., and Francis G. Crawford, Sarasota.

**BARBOURVILLE, Ky., Mar. 17**—(UPI)—A crowded Southwestern Greyhound bus overturned and landed today when it plunged from the highway about eight miles south of here.

About a dozen passengers suffered bruises and cuts but none were badly hurt seriously.

The bus was northbound from Knoxville to Lexington, passengers said. The driver, whose name was not available immediately, had been attempting to pass a truck when his front wheels struck a soft shoulder on the highway and plunged out of control.

**Atlantic Pact**

**(Continued From Page One)**  
which provides easy slashing of marital ties and which thereby makes it possible for quickly-separated couples to take another chance with marriage.

Other circumstances which push Florida well above the national average for marriages and divorces, the sociologists note, "are the irrational divorce laws of certain states, accessibility of Florida to the maritally maladjusted of these other states, the pleasant by products of divorce waiting in Florida, the divorce racket" part.

Under the reshuffling proposed by the commission, interior would become the focus for all major public works projects. But two congressional members of the department, the floor control and over and harbor work now supervised by the Army engineers,

Wherry's declaration was his answer to Truman Democrats who complain that the rule will make it impossible to pass any of the President's "civil rights" program which includes anti-poll tax, anti-lynching and anti-discrimination measures.

The Nebraska said his test would disclose "just who is for civil rights around here and who is just talking." However, no civil rights bills are yet ready for Senate action.

And the Hoover Commission recommended to Congress a reorganization of the Interior Department which it said was needed to increase efficiency and cut out "wasteful conflict."

If a small cocktail fork for a first course of seafood is to be served be sure to place the fork at the right in setting the table. All other forks go to the left.

The amount of chromium in stainless steel varies from 11½ per cent to 30 per cent. It is the chromium that prevents staining and scale.

#### Hints To Housewives

By Anna Mae Biken

##### EAT MORE CITRUS FRUITS

Florida citrus fruits fall into both categories of "what we should eat" and "what we like to eat."

Citrus fruits and juices head the list of those foods rich in vitamin C. Vitamin C is needed to help hold body cells together. Lack of it affects the whole body. Muscles, bones and teeth are weakened when we run short of this vitamin. Among some other jobs that vitamin C does, it assists in the healing of wounds and helps keep up the body resistance. We need a good supply of vitamin C every day. Just as we think water today but will be thirsty again tomorrow, so we may not want vitamin C today, but will need some more tomorrow. When ever possible, foods that supply vitamin C should be eaten raw; this important vitamin is easily destroyed by heat and air.

We in Florida have an outstanding opportunity to invest in health and pleasure at the same time by eating more citrus fruits. Orange juice for breakfast has long been a national habit. Drinking a daily glass of fresh, canned or frozen orange or grapefruit juice is about the easiest way to be sure that the requirements of vitamin C has been met.

By no means is the use of mouthfuls of tasty Florida citrus limited to fresh fruit or juice. From the wealth of delicious citrus fruits—oranges, lemons, tangerines, grapefruit, kumquats, limes, lime peels, calmondins and many other varieties, Florida women should be eager to make citrus salads, mixes, fancy breads, and pastries. Many appetizing, colorful, healthy salads can be easily prepared with Florida orange slices, sections or clouds as a base. The deep orange color is a contrast in perfect blend when citrus is combined with other fruits and vegetables to form satisfying salads. Colorful and appetizing in appearance, made just right, lemonade stands out as a favorite everywhere. Orange chiffon pie gives a variation and a "handling" touch "out of the meal" to the "Orange Lemon and Honey" salad which is flavor and food value to fruits, vegetables, meat and other fruits.

Sour cream may be flavored with salt, sugar, and lemon juice and served as a dressing for fruit salad. Orange, grapefruit, and banana slices on romaine or wavy green makes a particularly good salad for this dressing; sprinkle the banana slices with a little of the citrus juice to keep them from turning color.

"I know what I like . . . but I need help!" Of course you do . . . We all do! The remodeling or repairing of a house isn't a one-man job. Security Lumber has consulted with thousands of house owners who have problems of this nature. It is a pleasure to help. No obligation, of course!

NOTICE OF APPLICATION FOR  
CHAPLAIN TO HOSPITAL

Notice is hereby given that Billy Clark holder of the Chaplaincy Service of the Hospital of the Good Shepherd, Inc., has applied for a Chaplain to be appointed to the Hospital. The Chaplain will be responsible for the spiritual welfare of the patients.

The Hospital is located at 1000 N. Orange Street, Sanford, Florida.

The Hospital is owned by the Hospital of the Good Shepherd, Inc., which is the religious body of the Methodist Episcopal Church.

The Hospital is open to all.

## Never Too Late To Learn

Cappy Miller's young son, Seurat, is learning to work with new ideas. They take him to meet new people, and Cappy is usually willing to give them a try.

Seurat found a way to clear brush. He takes his tools, ties up the trees for薪, and connects them with a heavy chain weighted down on the ground with old iron. First they both go part way up the hill, then Seurat goes back over the same swath in the opposite direction and up comes the brush—roots and all. Worked fine and saved time.

## THE OLD HOME TOWN

By STANLEY  
U. S. Engineers Find Contractors Eager To Secure Projects

WORSHIPS STATION SINGAPORE—(AP)—A police station has been a "kramat," or mosque, for the Moslems of Singapore.

The shrine, now located some 100 feet from the British Police Station and hundreds of pigeons would hover about the spot.

Then one night a police sergeant dreamt that a beautiful lady had come to him and said her grave had been moved to the nearby police station. When morning came the pigeons were flying about the tower.

And now the Mohammedan Malays of the area have lobbied the U. S. government to pray for favors.

POLITICIAN TAPS TWICE LONDON—(UPI)—Instead of coming twice, Postman Cyril Stoghill taps once.

An amateur tapdancer, the 21-year-old mail carrier dances down the street to the tune of the porch steps along his route.

When the day's work is done, he goes off to his tapdancing lessons.

Don't miss this...

MALAYA GIRLS' SPORTS  
KUALA LUMPUR, 1949. The Minister of Jokes has come to the support of Muslim girls who want to come out of seclusion and take part in the sports life of Malaya.

Dato Onn bin Jafar, a Muslim who was president of the United Malays National Organization (a leading Malay political party in the federation) urged Malay girls to get involved in sports when they will play an equally important part with men in molding the future of Malaya.

His action came in the midst of a dispute that developed in Melaka between Malay boys formed the Kuala Lumpur Malay women's hockey association and soon became the object of ridicule by certain members of the U. M. N.

One said the emergence of Malay women from their seclusion was a natural development. It is a sign of the times, he commented, and unfavorable "Ach himmel! The guns!" He admitted he was smiling at a smiley who passed a quick wink in his direction.

Commanding officers of U.S. forces here have implored upper-class men that the German population is not to be inconvenienced in any way. Trout will not trespass on your fire hoses, or enter German houses.

And so as the trucks rumble through town, they bring a sort of a showpiece on wheels for watching Germans.

Nitric Acid is produced in stainless steel vats. Chemical engineers say the acid has no corrosive effect on this metal.

KILLERS INVOLVES PLANE MOSCOW—(UPI)—Soviet aviators have killed 338 wolves with a rifle first from an airplane. The record dash for a kill, however, belongs to Gorinov, a veteran of the last war, who has been having great success from the air. This season he has slain another 35.

For one thing, there probably won't be many game birds, some species, and, therefore, more hunters than ever before. More than 100,000 immigrants have come to the country. The more hunters there are, the fewer birds for each hunter, unless there is a marked increase due to the increase in the number of folks who hunt birds.

Of course, there are other things that figure in the number of game birds, such as weather, natural disasters, and so on. But the latter two are things which the farmer can do something about.

If farmers and other land-owners will help to provide feed, cover, and protection for quail, turkeys, pheasants, and so on, they can improve the situation a great deal. Some farmers have been leaving wild grass to grow for game birds, and some have even planted feed crops in such places for birds.

Four-H club boys have interested in the matter of providing feed and shelter for game birds. Farmers, too, are fairly sure of having more birds on their places as a result of it.

Farmers also can help birds by keeping an eye out for strays, keeping the weeds under control, and doing away with them whenever possible.

Extension Service has a definite program for fostering and increasing game bird populations. It is also working while producing timber and beef. It should appeal to all farmers and others who are interested. Extension Service will be glad to provide an attractive illustrated bulletin to anyone who is interested.

High winds have caused the road to reach a collapsed form of 20 miles an hour around Mount Washington, N. H., according to the National Geographic Society.

Florida's commercial vegetables family may some day include the chayote.

**York's Commander Dies In Providence**

PROVIDENCE, R. I., Mar. 17.—(AP)—Death has claimed the man who persuaded Sgt. Alvin C. York that a Christian could kill in good conscience in warfare.

Col. G. Edward Buxton, one of the founders of the American Legion and York's World War I bat-talion commander, died yesterday. He was 68.

Buxton was credited with settling at ease the doubts of York, a one-time conscientious objector, concerning a Christian's right to kill an enemy. York became an outstanding hero.

Buxton served as second in command under Maj. General William J. Donovan in the Offices of Strategic Service in World War II.

He was treasurer of the Providence Journal Company from 1911 to 1929. He switched to the textile industry after leaving the Journal, serving as top officer of B. B. and R. Knight Company for several years. Later he was president of the group of five Maine textile mills.

He leaves his widow and one son.

**Health System**

(Continued From Page 1 Sec. 2)  
of the hospitals as well as the  
training of students.

One answer, of course, was to  
train more doctors. As the facili-  
ties expand and restrictions are  
overcome more doctors will be  
trained.

At present, there is roughly one  
doctor for every 2,000 Britons, a  
satisfactory situation except that  
the distribution is uneven.

Medical students numbered 11,  
500 in July 1948, 27 per cent of  
them women. This compares with  
8,623, in 1938, of which  
15 per cent were women.

Much of this increase is due to  
the assistance given for study to  
ex-service men by the state. Last  
year 2,810 young students were  
receiving state scholarships at the  
universities. In 1938, there were  
only 29.

Particular training is a long  
process, proportion requiring at  
least five years. Many fall by the  
wayside.

Many educators believe that  
specialized medicine will prove a  
boon to the study of medicine.

"The state offers security to  
the young doctor," they say. You  
can't practice medicine with fin-  
ancial worries."

At the same time the average  
in students puts an extra burden  
and responsibility on the colleges  
to train only those who have a  
real vocation. As one educator  
says, hospital teaching staff  
must be more on their guard now  
than ever before to weed out the  
young man who thinks "medicine  
is a good racket now, it'll always  
bring in \$10,000 a year."

Better wages and improved  
working hours and conditions also  
are attracting more full-time  
hospital nurses and midwives.

Health ministry figures show an  
increase from 115,000 nurses in  
England and Wales in June 1946  
to more than 121,000 today.

Even the medical profession  
expects an improvement in Bri-  
tain's hospital system, which it  
says was "in a mess" before the  
national health service started.

One major result would be to  
transform MacArthur's present  
military headquarters into an es-  
tablishment of definite civilian  
character. The present set up has  
been criticized by some State De-  
partment officials.

For an easily-made Sunday  
night supper dish serve canned  
green asparagus (drained) and  
Canadian bacon. Use the liquid  
from the can for a cream soup.

**College Education**

(Continued From Page 1 Sec. 2)

the who does the same thing. In  
this sense there is discrimination  
against the Jewish student, who is  
handicapped solely by the fact of  
his religious affiliation. Whatever  
one thinks of the philosophy of  
selection that is implied in this  
procedure and it is both appropriate  
and critical—it does appear

from the findings of this study  
that a certain sort of discrimination  
against Jewish students applies  
to certain types of colleges in  
a particular part of the country.

The results indicate that the  
influence of the religion factor  
differs in different parts of the  
country, in different scholastic ap-  
titude groups and at different

**Byrnes Backs Atom  
Bomb Production**

(Continued From Page 1 Sec. 2)

JOHNSON, S. C., Mar. 17—  
"We must continue our pro-  
duction of atomic bombs," former  
Secretary of State James F.

Byrnes said yesterday.

The reason for that, he asserted  
at a peach blossom festival here,  
is Russia's attitude toward the  
United States.

"We must continue to make ad-  
equate appropriations for the armed  
services and provide a greater  
number of airborne divisions pre-  
pared for any emergency," Byrnes  
continued.

Recent changes in the Russian  
government, he said, do not mean

the adoption of a more friendly  
attitude toward the United States.  
He denounced recent religious per-  
secutions in Communist-dominated  
Hungary and Bulgaria.

Byrnes said he favored spending  
what is needed to promote the  
rehabilitation of Europe, but sug-  
gested the American taxpayers  
should be told what is being done  
with the money.

Jewish students seem to be  
proven, but only in part and per-  
haps not nearly to the extent  
which is frequently charged."

**15,000 Homes**

(Continued From Page 1 Sec. 2)  
priced themselves out of the mar-  
ket.

These points emerged from the  
survey.

"Some" housing has been over-  
priced in relation to demand. Of  
too many houses from \$9,500 up-  
ward have been built and not  
enough below that. Costs are about  
double.

Credit has tightened, despite  
an upturn in the rate of savings.  
Down payments now average 30  
per cent.

There has been a change in the  
business climate. Reports of lay-  
offs and slowing down of sales  
in other lines have been weighty  
factors.

Almost all the builders and real  
estate men quoted in the survey  
referred to rent controls. Their  
remarks went something like this:  
"people are sitting in controlled  
apartments at rents which bear  
no relation to costs. Payments on  
a house, as well as the other in-  
dental expenses, are higher. Why  
should they buy?"

As far as the shortage is con-  
cerned, 11 of the 36 cities said de-  
finitely that they consider the  
problem licked. Others hedged, but  
most of them turned in downright  
"now."

The levy was asked in a bill  
offered by a Tulsa representa-  
tive, Richard Oliver, last night  
shortly before a house committee  
gave the slow death treatment  
to his joint resolution asking a  
special election on repeal.

**Mount Vernon Gets  
Historic Apple Trees**

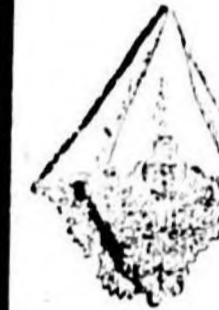

(Continued From Page 1 Sec. 2)

LONDON, Mar. 17—(UPI)—A  
couple of descendants of the  
George Washington family's old  
apple tree will be flown to America  
tonight to be planted at Mount  
Vernon, Va.

The trees were grown from  
grafts from a northern growing  
tree in the garden of the Wash-  
ington ancestral home, Sulgrave Man-  
or, near Brackley, in Northamp-  
shire.

The old tree is believed to  
date from the 17th century, when  
Washington's grandfather lived  
there.

The British government is giv-  
ing the grafts to the Mount Ver-  
non Ladies' Association. Britain  
thinks it's a good way to promote  
Anglo-American friendship. The  
grafts will be planted April 19.

## President Expresses Hope Of Enactment Of Part Of His Program

**Southerners Rapped By Chief Executive; Truman Gives Full Atlantic Pact Okay**

**KEY WEST, Mar. 18—(AP)—** President Truman expressed hope today of ultimate enactment of the major part of his program despite position from rebellious Southern Democrats and others.

**The Chief Executive in a news conference, said that he is trying to pass his legislation through a three-party Congress, made up of Democrats, Republicans and Dixiecrats. And he said the latter are not good Democrats.**

**Mr. Truman said he has as yet made no plans to stump the country to build up fire under opponents of his proposals.**

**He had nothing to add, he said, to his Jefferson-Jackson day dinner threat to take a train swing around the country.**

**Mr. Truman said the North Atlantic Pact has his entire approval—he has read the entire text—and that he has approved the speech on it that Secretary of State Acheson is making tonight.**

**While he declared that of course, Dixiecrats are not good Democrats, Mr. Truman talked patiently and kindly of the rebellious Congress which has dealt him a series of setbacks.**

**He said he still had hope that members of Congress will function all right.**

**After all, he said, it is a new Congress, which has been in session little more than a month since organization was completed. He said he thought we ought to give Congress a chance to act.**

**Mr. Truman said he will review the legislative situation with Democratic leaders at the White House Monday and call in his cabinet for a talk Monday afternoon.**

**The leaders are Vice President Barkley, Senator Majority Leader Lucas, Speaker Rayburn and House Majority Leader McCormack.**

**Mr. Truman, apparently in no mood to start a long distance fight with Congress, said he could only**

**(Continued on page 8)**

## Railway Express Office Picketing Spreads Over U. S.

**NEW YORK, Mar. 18—(AP)—** Picketing of Railway Express Agency depots was spreading to other cities today and a union official said the action "could shut down the whole East."

**With express operations in the metropolitan area already paralyzed, the AFL Brotherhood of Railway and Steamship Clerks announced yesterday the start of picketing in three New Jersey communities.**

**Daniel J. Sullivan, regional chairman of the union's express division, said depots at Newark, Elizabeth and Plainfield, N. J., were forced to close.**

**He said "flying squads" of pickets were sent to halt express activity in Philadelphia, and at Camden and Trenton, N. J. He predicted similar moves next week in Connecticut and Westchester County, N. Y.**

**In addition, he said, consideration is being given to requests to assign pickets to terminals in Boston and other New England cities.**

**The union action stemmed from a wage-hour dispute, affecting express workers throughout the country.**

**Company officials expressed belief that national officers of the union would not permit widespread picketing.**

**But Sullivan said he has received no word from George M. Harrison, grand union president, indicating he opposes extension of picketing.**

**Sullivan has asked Harrison for permission to picket the Grand Central and Pennsylvania passenger stations, in addition to express terminals.**

**CRAFT Warnings!**  
**MIAMI, Mar. 18—(AP)—** The U. S. Weather Bureau today extended small craft warnings to both coasts of Florida after ordering the warning signals issued from Cape Hatteras, N. C., to Jacksonville.

**Small craft warnings were ordered up at 10 A. M. (EST) from south of St. Marks, Fla., to Sarasota on the West Coast and south of Jacksonville to Titusville on the east coast.**

## ECA Will Cost U. S. \$17 Billion, Hoffman Asserts

**If Plan Fails, Kremlin May Try To Communize Europe**

**NEW YORK, Mar. 18—(AP)—** Economic Cooperation Administrator Paul G. Hoffman today placed the full cost of the Marshall plan at \$17,000,000,000. If it succeeds, he said, "our way of life will be secure."

**And if this American investment in European recovery fails, Hoffman said in an address prepared for the American Management Association, "The Kremlin will make an all-out effort to Communize Western Europe."**

**Should the cold war thus be prolonged and intensified, he predicted, "huge" military outlays will continue, government controls may be restored and high tax rates in the United States will "sap the vitality of a free economy."**

**The one certain way to get taxes down and to keep our economy free is to win the cold war in Europe and thus avert both World War III and the threat of World War III," the foreign aid administrator said.**

**His figure of \$17,000,000,000 for the full four and one-fourth year program was Hoffman's first public estimate of the final cost since the Marshall Plan came into being.**

**While it was merely a proposal distinguished citizens of Foreign Affairs Committee of which Hoffman was a member, guessed the cost at \$12,000,000,000 to \$17,000,000,000. In view of Europe's first year gains, correspondents have tried, unsuccessfully until today, to learn whether the new guess on the ultimate figure would be below the maximum.**

**If the foreign assistance program is carried out on the scale of expenditures originally contemplated, the cost to the American tax-payers will be approximately \$17,000,000,000," Hoffman said.**

**He quoted the management group as saying that about \$8,000,000,000 will be spent directly in this country "and in the course of time the remaining \$8,000,000,000 will certainly return to the shores," he said.**

**Southern States Seek Elimination Of Truck Barriers**

**ATLANTA, Mar. 18—(AP)—** Representatives from ten Southern states today sought the elimination of barriers to the free flow of interstate commerce by truck.

**The meeting was called by Walter R. McDonald, chairman of the Georgia Public Service Commission who said an effort would be made to arrive at some uniform system governing trucks for the south.**

**Speaker after speaker from the various states emphasized the need for reciprocal agreements but declared they were bound to some objectionable features by state law.**

**McDonald said the campaign to eliminate the barriers would extend into the various legislatures if this group could arrive at some common agreement.**

**All of the states represented at the meeting have varying regulations covering weight, length, height, use of trailers, and companion licensing systems.**

**The underground movement, he said, is almost impossible in satellite countries of Russia due to the elaborate spy system in which none spy on others.**

**A survey of the St. Johns River from the Woodruff Creek Channel to Lake Harney is being made by U. S. Engineers under direction of R. Whitemore of Jacksonville to determine depths and the amount of material to be removed in order to maintain the channel at a depth of five feet over a 75 foot width, Edward Higgins, manager of the Seminole County Chamber of Commerce, announced today.**

**At the request of the Coast Guard, the channel will be dredged at the Woodruff Creek cut-off and J. L. LaMotte. The men were charged with violation of city ordinances in failure to sound river depths to lake Harney.**

**Tis A SHAME**  
**LOS ANGELES, Mar. 18—(AP)—** But this world never have happened with New York's police force—four men were arrested here for selling shamspeaks on St. Patrick's Day.

**The arresting officers were not Cleary, Murphy, McNamee or J. L. LaMotte. The men were charged with violation of city ordinances in failure to sound river depths to lake Harney.**

**CHICAGO, Mar. 18—(AP)—** Unless businessmen or consumers get panicky, the nation this year should be only slightly less prosperous—and possibly better off than in 1948, the government's top economist said today.

**As a result of the disillusionment of 1949, said chairman Edwin G. Nourse of the President's Council of Economic Advisors, "we may take off some fat, but we shall not die and need not really suffer."**

**He said "it is not the voice of Pollyanna but of business statistics that says that underlying conditions are sound and basically favorable."**

**In an address prepared for the Executive Club of Chicago on "The Gentle Art of Disillusion," Nourse summarized the economic outlook as follows:**

**"1949 should show a sustained volume of consumer spending and employment only very moderately below last year, production higher, and prices adjusted to a better structure and a level somewhat less and seriously below**

## Senate Group Okays Federal Aid To Schools

**Public Welfare Committee Approves \$300,000,000 Plan; Rent Row Continues**

**WASHINGTON, Mar. 18—(AP)—** The Senate Labor and Public Welfare Committee today approved a \$300,000,000 authorization for federal aid to public schools.

**Also by a unanimous vote, the committee recommended passage of a companion bill providing \$35,000,000 a year for state health services to school children.**

**Both measures are expected to have priority in the Senate, following settlement of the long filibuster fight.**

**The first big item of business there, however, is the rent control bill, to be taken up Monday.**

**One thing seems certain: the legislation won't extend controls 24 months beyond March 31, as President Truman requested, or give him the controls he wanted.**

**The house measure already approved extends controls 15 months, authorizes rent increases of 15 percent above the 1947 level in certain cases, and allows states, counties or cities to decontrol rents at any time.**

**Yesterday the Senate, bucking**

**communist proposal to "assist the party or parties so attacked by taking forthwith, individually and in concert with other parties, such action as it deems necessary, including the use of armed force, etc."**

**What happens if an attack would set the alliance in motion?**

**"An armed attack on the territory of any of the parties in Europe, or North America, or on the islands under the jurisdiction of any party in the North Atlantic area north of the Tropic of Cancer or on the vessels or aircraft in this area of any of the parties."**

**How does the United Nations fit in?—Each attack to any of the member countries must be reported "immediately" to the U. N. Security Council. These countermeasures shall end "when the Security Council has taken the necessary measures to restore and maintain international peace and security."**

**First steps. The member countries propose to build themselves up to the point where they can hope to resist armed attack by (A) providing each other with "continuous and effective self-help and mutual aid." (This implies military help from the United States)—and (B) seeking to "eliminate conflict in their international economic policies" so as to "encourage collaboration between any or all of them."**

**Step by step. The members will establish a council to consider ways of carrying out the treaty. The council will set up as many sub-agencies as are needed but specifically and at once a "defense committee" to recommend measures of self-help and exact steps to be taken in event of attack.**

**During the 20 years of the treaty, it will be reviewed every ten years.**

**New members. By "unanimous agreement" the signers will invite to join "any other European state in a position to further the principles of this treaty and to contribute to the security of the North Atlantic area."**

**The Soviet licensed Berlin Zeitung said the committee intended monthly shipments of rubber to East Germany, dropped \$15,000 to \$10,000 a ton in May, and to zero as of today.**

**The U. S. military government said increased attempts at smuggling—particularly industrial equipment—showed how the anti-blockade is pinching the Russian sector.**

**It was not apparent whether**

**Pieck's surprise proposal resulted from German thinking or Russian prodding. Most of his actions and those of the Communists he leads are inspired by Moscow.**

**Speeches of various officials at the Eastern council meetings were sprinkled generously with nationalistic hints.**

**One speaker demanded that Western Germans refuse to co-operate with any Western government and thus achieve "German unity."**

**Communist Walter Ulbricht asserted Germans should**

**be united on page 6**

**Hubbuck Pleads Guilty To Four Tax On Municipal Park Admissions**

**Donald Hubbuck, 21, pled guilty**

**on four counts of stealing articles from automobiles, when arraigned before Judge M. B. Smith of the Circuit Court this morning at 11 o'clock.**

**On recommendation of State Attorney Murray Overstreet, a pre-sentence investigation of Hubbard by the State Parole Commission was ordered by Judge Smith, and the prisoner, a tall, well set up youth, was returned to County Jail. He was represented by L. P. Boyle, attorney.**

**One information filed charges**

**Hubbuck with breaking into the automobile of Henry R. Madson on Feb. 10 and taking property worth \$50, and another of clothing from P. A. Garvey's car on the same date.**

**A third count was that of taking \$100 camera and equipment**

**on Feb. 1 from the automobile of Dr. J. N. Tolar of two shot guns, two surgical bags with medical equipment, stethoscope and other articles having a total value of \$35.**

**Hubbuck was arrested three weeks ago by Police Chief Roy G. Williams and patrolmen, after the former had been pursued for driving without lights. Much booty was found in his automobile, and he later directed police to a hidden cache of goods concealed in a thicket west of the Wekiwa Bridge.**

**The picketing students**

**carrying signs denouncing Warr, Burk, and the county board of education. A group of parents accompanied the demonstrating students in automobiles and parked opposite Warr's office. Hall was ousted on charges of disloyalty and inefficiency, Warr said.**

**The trio who gave their names**

**as Charles Emory Evans, 26; Sidney A. Knight, 22, and Ralph Treadway, 20, Atlanta, also will be charged with auto theft, Hall said.**

**The men were charged with robbing the Bancroft Service Station on Biscayne Boulevard where \$150 was taken and the White stone Grill on 4th Street where the haul was \$200.**

**HAN ON CRABS**

**TALLAHASSEE, Mar. 18—(AP)—** The taking of stone crabs and crayfish will be prohibited from midnight Mar. 21 to midnight July 20, conservation supervisor George Vathis said today.

**Vathis said, however, stone crab larger than 10 inches, can be taken for personal use during the closed season in the waters off Levy and St. Johns counties.**

## U.S. And Allied Nations

# Pledged By Atlantic Pact To Resist 'Armed Attack'

## Soviets Propose All-German Meet To Air Problems

## Open Defiance Of Western Occupying Powers Asked

**WASHINGTON, Mar. 18—(AP)—** Soviets propose to assist the party or parties so attacked by taking forthwith, individually and in concert with other parties, such action as it deems necessary, including the use of armed force, etc.

**What happens if an attack would set the alliance in motion?**

**"An armed attack on the territory of any of the parties in Europe, or North America, or on the islands under the jurisdiction of any party in the North Atlantic area north of the Tropic of Cancer or on the vessels or aircraft in this area of any of the parties."**

**How does the United Nations fit in?—Each attack to any of the member countries must be reported "immediately" to the U. N. Security Council. These countermeasures shall end "when the Security Council has taken the necessary measures to restore and maintain international peace and security."**

**First steps. The member countries propose to build themselves**

**up to the point where they can hope to resist armed attack by (A) providing each other with "continuous and effective self-help and mutual aid." (This implies military help from the United States)—and (B) seeking to "eliminate conflict in their international economic policies" so as to "encourage collaboration between any or all of them."**

**Step by step. The members will establish a council to consider ways of carrying out the treaty. The council will set up as many sub-agencies as are needed but specifically and at once a "defense committee" to recommend measures of self-help and exact steps to be taken in event of attack.**

**During the 20 years of the treaty, it will be reviewed every ten years.**

**New members. By "unanimous agreement" the signers will invite to join "any other European state in a position to further the principles of this treaty and to contribute to the security of the North Atlantic area."**

**The Soviet licensed Berlin Zeitung said the committee intended monthly shipments of rubber to East Germany, dropped \$15,000 to \$**
