NEW YORKERS BURNING WOOD Builders, It is Said, Are Being Beeleged by Householders Asking for Old Lumber.

skill.

Householders in all parts of New York, according to the observations of policemen, are collecting a great deal or firewood this fall. This is taken to indicate that many of them are anticipating a coal shortage during the coming winter.

in backyard sections everywhere it is a common sight to see the male members of the family busily engaged in splitting boards and lumber into kindling wood. This firewood, as a householder expressed it, is not intended to supplicat coal, but to help save It.

"At this time last year," a builder said, "I used to give wood away occasionally when I was tearing down or repairing old buildings. I used to liang out a sign reading, 'Wood given away free for the asking.' My only

stipulation was that persons applying George Keller, representing the for it should cart it away for them-Mergenthaler Linotype Co., with his selves. It may surprise you when I headquarters in Orlando, was in the tell you that my wood often went beg-

I do not have to hang out a sign; every day I am besteged by men, women and children soliviting old lumber for firewood. There are so many of these applicants that I have to turn

most of them away. "I am sure that this demand for firewood means that much more wood is

Mr. Fijjit Wants to Know Why Blovepipe is Always Adjusted to Buch Small Dimensions.

One of the unsolved invateries of everyday life is why a stovepipe man will always make a stovepipe too small, Give him the old pipe as

horn, remarks a New York Sun writer. Fijht had a bandage around his finger when he got to the office the other morning and explained that pe had vainly tried to adjust a piece of

stoveplpe that was too small. "If it had been an Inch too large it would have been all right." he said, "for it rested on the slove and could not come off. But that thistilli befleved in a snug fit, and he made the pipe so small that I had to send it back after working with it for balf an hour and cutting my finger."

Two other men in the office sold they had similar experiences the last week and no one could offer an explanution of the thusness of the stovephpe.
