

# Abbot Named Pilot Of Fed Outfit When Barnes Resigns Post

### Feds At Cocoa Today In Hands Of New Man Who Promises Fans Flag Winning Crew

Joe Barnes, manager of the Sanford Baseball Club since early last year, last night resigned from that position. He will continue to play at first base for the present.

Charlie Abbott, second baseman who came here from Pensacola early this year, was chosen as manager in Barnes' place.

The team left at noon today for Cocoa where it will be under the first direction of the new manager.

Before leaving for Cocoa, Manager Abbott stated that it is his intention of taking up where the club left off at the end of the first half and "going out to win some ball games."

"I feel that we have the best club in this league," he said, "and if the players will get together back of me, all of them working toward that second half pennant which all they've got, that we'll win in a walk. I want the co-operation of the players and the support of the fans. Given that, I promise you a winning ball club."

Abbott, who has been out of high school for only a few years, has been playing baseball since he was a child. From the sand lots of his home town, Pensacola, Abbott stepped into the Pensacola High School team in 1925 and until his graduation in 1929, he played stellar baseball.

He performed in the Pensacola City League during 1929, but in 1930 he was signed by the Pensacola team of the Southeastern League. He remained with that team during the entire season, although near the end of the first half, he suffered a broken ankle which kept him out of play for six weeks.

Abbott was manager of the Chattahoochee team of the Georgia-Florida League in 1931, while at the end of that league's season he joined the Foley independent team.

Last year Abbott played for Cairo, Ga., in the Georgia-Florida League.

Almost all of his baseball experience has been at first base, although he has played at various places in the infield; has pitched, and has played outfield.

Today Abbott stood as the club's leading batter. In 31 games this season he had gone to bat 114 times, scored 19 runs, and pounded out 38 hits for an average of .333. He has one home run, two triples, and nine doubles to his credit; has batted in 21 runs, stolen 11 bases, and has 13 sacrifice hits to his credit.

It was announced last night that the club's board of directors has been expanded to include W. C. Hill, V. E. Douglass, and Frank Meisch. The remaining members of the board are E. N. Scott, W. E. Varn, D. D. Welborn, and Joe Ludwig. The official governing body of the club is to include Mr. Hill, Mr. Douglass, Mr. Meisch, and Mr. Welborn. They are to "run" the club, in other words.

The official players list is as follows: Manager Charles Abbott, Bert Chapman, Lefty Lane, Joe Barnes, as four class men allowed, Cy Cruze, Paul Bonner, Roy Harrison, Bert Maxwell, Pepe Mize, Tige Minor, Pete Geiger, Buddy Autrey, Bob Green.

## FEDS DROP 3 TO 1 BASEBALL GAME TO DELAND REDS

### Well-Played Exhibition Tilt Is Staged At Home Wednesday

Helpless before the combined left-handed offerings of Bill Leitz and Gene Fisher, the Sanford Celeryfeds dropped a well-played 3 to 1 exhibition game to the DeLand Reds yesterday afternoon by failing to take advantage of the eight hits which they secured.

The defeat was a tough one for Pety Geiger, young Georgia left-hander who was making his first local start for the Feds. He allowed only three hits, and only one of them was a real hit, and the hits came in the fourth inning which produced three runs.

Outside of that inning, the Reds didn't get a hit, and only one man reached first. Geiger had them hitting to the infield all afternoon. In fact, the first seven men facing Geiger went out in the infield, and during the entire game only five DeLand men were able to hit to the outfield. Geiger had fine control except for the fourth, and with support at bat would have won a better than usual exhibition game.

While Geiger was making the highly touted DeLand Reds look like anything but champions, the Feds were getting on base quite often off the delivery of Bill Leitz. They got a couple of hits in the second, but couldn't score.

In the third, the Feds got a run when Geiger singled to right, went to second on a passed ball, to third on Cruze's sacrifice, and scored on a wild pitch. Bonner singled and stole second after that run came over but Barnes and Abbott couldn't make the grade.

The Reds scored in the fourth in this manner. Porter, ducking a fast ball, got credit for a hit when the ball went into short right field. Robertson drew a walk. Al Leitz dumped a bunt in front of the plate. The ball was fair, and rolled foul before rolling fair again. No one fielded it in time so Al got credit for a hit and the bases were full. Geiger was coming out of the hole in fine shape though for he forced Gallegos and

Shirley to hit to the infield, forcing runners at the plate. Billy Sams came lay-ugt with a single into center, scoring two runs. On a double steal Shirley scored and Sams was safe on second. Sams was thrown out trying to steal second.

The Feds never did overcome that lead. Leitz held them scoreless until the sixth when Gene Fisher came in and completed the job.

The Fed infield was changed around and Abbott was at third replacing Peri who was released along with Al Hoffmann. Bradenton right-hander who didn't seem to have the goods. Cy Cruze, formerly of Leesburg, played well at second where he probably will remain.

The best score:  
DELAND: Porter, 2b, 2-0-0-0; Sams, 1b, 1-0-0-0; Shirley, cf, 1-0-0-0; Gallegos, cf, 1-0-0-0; Fisher, 3b, 1-0-0-0; Leitz, p, 1-0-0-0.  
Total: 25 3 1 27 8 0

SANFORD: Cruze, 2b, 1-0-0-0; Bonner, ss, 1-0-0-0; Barnes, 1b, 1-0-0-0; Abbott, 2b, 1-0-0-0; Maxwell, cf, 1-0-0-0; Harrison, lf, 1-0-0-0; Leitz, p, 1-0-0-0.

### Last Inning Run Wins Exciting Contest On Lake Shore Field

By GEORGE STOVALL  
Firestone succeeded over a run in the last of the sixth inning to win the first extra inning game which has been played on the Lake Front Diamond Ball Park this year. This game, so are all regular games, was scheduled to be played for seven innings, but three run rally put on by Medical in the first of the seventh and the extra and sent the game into extra innings. Each team was on

to deep center for the seventh. Three runs in the seventh to the score: a two walks, two doubles, and a triple. Medical had a man on base in both the eighth and a ninth but they were unable to shove the run across.

Roy Britt hit a ball on top of the American Legion but in the first inning for the first time anyone has done this in over a year. Homer Tillis had a run in the same run to deep center in the same inning previous to this one. Red Morgan was the heavy hitter for the evening, getting a single and triple for two times at the bat. Gilbert Williams followed right behind, getting a single, double and triple for four times to the plate. Others had good averages but these were the outstanding ones.

### Sea Cow Calf Is Fed From Bottle With Real Milk

MIAMI, Aug. 4.—(AP)—The milk of a cow—the pasture variety—

has saved baby Triton, orphaned sea cow, from starvation. Benefit of mother manatee by some marine tragedy, presumably blasting operations in upper Biscayne Bay, baby Triton was found wallowing in a bed of eel grass by two boys a few days ago. Discovering the baby manatee,

said to be about a month old, was unable to nibble the greenery, the boys brought the tiny torped-shaped animal to the Miami aquarium. There, attendants repeated efforts to feed the sea cow aquatic herbage and, learned the animal had not been weaned. The only experience aquarium workers had previously with infants of the water cow family was one baby born in captivity last year and nurtured by its mother, but they were willing to try.

Standard feeding equipment of a human baby—feeding bottle and rubber nipple—were procured and the bottle filled with slightly warmed cow's milk. Baby Triton, as the aquarium attendants have named him, knew exactly what to do when the nipple was placed to his mouth.

Because of rigid government regulations governing sea cows, the aquarium has made a complete report to the county commission, members of which will decide if baby Triton will be kept at the aquarium ship or set free when he becomes able to select and eat his own food.

### SOMETHING TO REMEMBER

**Purity**  
The only grain that goes into the making of Blue Ribbon Malt is barley—the choicest that nature produces. This is guaranteed by the largest manufacturers of malt extract in the world.

WHICHEVER YOU GO, YOU FIND

AMERICA'S BIGGEST SELLER

### PLAN IS MADE TO CURB QUICK PRICE RISINGS

(Continued From Page One)  
action with the recovery program. One set indicates that price rises to consumers may proceed at a much faster rate than increases in prices to farmers for their

### Colorful Tea Ceremony at Fair

Employing a ceremony which was hundreds of years old before there was such a city as Chicago, lovely Miss Chicago Kondo, of Tokyo, Japan, prepares "ceremonial tea" in the "Home of Friendly Neighbors", or tea house, at A Century of Progress—the Chicago World's Fair.

### Recruiting Station Will Have Number Of Vacancies Soon

SAVANNAH, Aug. 4.—The Savannah Marine Corps Recruiting Station, located in the post office building will have vacancies for graduates of high school or from institutions of higher learning during the months of August and September, according to an announcement by Lieutenant Colonel A. B. Drim, officer in charge. Men accepted will be transferred to Parris Island, S. C. for a few weeks' intensive training before being assigned to some school, ship or marine barracks

too long been getting a small return for their labor in feeding us. We are trying to increase their pay. If we want farmers to buy city-made goods at fair prices we must buy their farm products at fair prices.

"Third, we are going to report on increases in labor costs as the result of the raises in wages and new employment. Wages must go up just as farmers' earnings must go up. We are going to find out how much they are rising and just how much that rise amounts to in the increased cost of food and textiles.

"Fourth, we will report on what the farmers are having to pay for the goods they must buy. This will be an index of all kinds of commodities. It will help us measure improvements in the farmers' buying power.

"We get nowhere if we hand the farmer a few more pennies for his wheat, or cotton or corn if he has to pay them all out again for the bare necessities he has been buying."

preliminary instructions. They are assigned to ships and stations in the United States, and will to foreign lands. Applications will be mailed to school graduates upon request.

WHAT you eat has a lot to do with the way you feel. Prove it yourself by eating Shredded Wheat. It's blessed with all the vital, youth-giving elements Nature so generously stores in whole wheat. It's whole wheat with nothing added, nothing taken away.

products and the rise in wage scales. On the other hand, administrators have received the assurance of many of the large distributing organizations that the rise will not proceed at a faster rate and that a special attempt is being made by them to co-operate with the recovery program. Howe said that "many manufacturers and distributors have declared their readiness to play fairly and squarely with the administration in its efforts." The point which is of most concern to farm administrators, it was said, is the possibility of sharp appreciation of inventories of processors and distributors of goods purchased during a period of low prices for which higher prices would be charged by the time the goods enter consumption channels. A close check to determine if there is a marked tendency in this direction is being made by the Bureau of Agricultural Economics

### BRITAIN PLANS TO MAKE GASOLINE FROM ITS COAL

#### Enterprise Is Result Of Wide Experimentation On Subject

By CHARLES E. GRATKE  
LONDON—Britain is going to make its own gasoline.  
The gasoline will come not from oil wells, but from coal mines. It will provide a market for a large amount of British coal and at the same time obviate the necessity of a share of gasoline

imports.  
In the House of Commons recently, Ramsey MacDonald, the Prime Minister, announced that immediate steps would be taken to encourage production of gasoline by the hydrogenation method.  
The plan of the British Government is to guarantee a tariff preference which will protect The Imperial Chemical Industries, Ltd. in its investment of more than 2,500,000 pounds in a commercial hydrogenation plant.

Decision in Great Britain to make use of the recently developed "laboratory magic" by which coal is transformed into an automobile fuel, marks the large scale commercial success of a process which has been the subject of wide experimentation not only in England, but the United States and

### Michigan Waterfall Cools Fair Visitors

These girls swim cool and comfortable as they bubble in the pool at the base of the falls in the Michigan Exhibit at A Century of Progress—the Chicago World's Fair. The girls are Helen Anderson, Louise Campbell, Lucy Plozman, and Evelyn Ring from Iron Mountain, Michigan.

throughout Europe.  
Coal is submitted to pressure of hydrogen at 300 times the normal pressure of the air. At the same time the temperature is raised to 450 degrees Centigrade, this having the effect of liquefaction which produces light hydro-carbon oils.

Extensive experiments which the Imperial Chemical Industries have conducted, at a cost of 1,000,000, pounds indicated that a suitable fuel could be produced on a commercial basis by hydrogenation of coal, shale and peat. The new plant is expected to have a capacity of 500 tons of coal a day. This will produce approximately 100,000 tons of motorcar fuel a year, representing approximately one-fortieth of the present national requirement in Britain. The increased coal consumption is expected to give employment to about 1000 miners as well as some 7000 persons who will be directly engaged in the manufacturing process.

Sir Harry M. C. Gowan, chairman of Imperial Chemical Industries, in announcing plans for the new plant to be erected at Billingham-on-Tees declared it will require 1-2 years for construction. Its commercial operation is the result of six years of research by Imperial Chemical on the hydrogenation of oil from coal tar and other materials. The initial plant will probably be a forerunner of similar plants on a somewhat smaller scale throughout England.  
The plan of the British Government involves no direct subsidy. Arrangement, however, of the tariff preference is made on a sliding scale. It will assure the company of a preference against imported gasoline amounting to an average of 4d. a gallon.

Three experimental plants at present are in operation in England, and last year they utilized 320,000 tons of coal in oil distilling processes. The plans which will proceed with the government promise of tariff preference for

### List of Codes Approved to Date

- WASHINGTON, Aug. 4.—Following are the specific codes which have been approved to date:
- Cotton textile.
  - Shipbuilding.
  - Retailers (temporary).
  - Food store (temporary).
- In addition, the following subsidiaries of the cotton textile industry have, by executive order, been put temporarily under the terms of the cotton textile code:
- Pajama manufacturers, effective July 20.
  - Cordage and twine industry of America, effective July 27.
  - International Association of Garment Manufacturers, effective July 31.
  - Textile finishing industry, July 31.
  - Underwear and allied products industry, July 24.
  - Rayon weaving industry, July 17.
  - Throwing industry, July 17.
  - Cotton thread industry, July 17.
  - Silk association of America, July 17.
- The following have submitted proposed codes which have been accepted temporarily by the President and are now in effect pending hearings and action thereon:
- Silk and rayon dyeing and printing industry, July 24.
  - National Association of Hosiery Manufacturers, July 26.

### LEGION JOINS ROOSEVELT IN RECOVERY WAR

(Continued From Page One)  
bread-winner who wants to work.  
The American Legion war-cry sounded the loudest of any so far in the all-American economic offensive and Mr. Roosevelt was quick to welcome it.  
The text of the "battle orders":  
"My dear Mr. President:  
"I have today sent the following battle order to the 10,700 posts of the American Legion of the United States:  
"My comrades of the American Legion: Our country is in the midst of the greatest battle in its history. It is the Argonne of 1918, a fight to the finish to end conclusively the war of economy forces that had brought us all to the threshold of disaster. This battle must be won as decisively as that first battle of the Argonne in 1918.  
"Victory will be swift and certain if every loyal American citizen does his part. No policies whatever are involved. This is no time for slackers or conscientious objectors. This is a fight to bring contentment and plenty back to millions of American homes that otherwise face another winter of hunger and misery. It is a fight to give an honest job with an honest living wage to every bread-

winner who wants to work.  
"We must not fail. We dare not fail.  
"To the end that these objectives shall be reached swiftly and definitely, I call upon all the 10,700 posts of the American Legion to convene in meeting; to immediately offer their loyal co-operation and services to the official representatives of the National Recovery Administration in their respective communities; and to cooperate in achieving its objectives. These are "battle orders."  
"In addition, I call upon every individual Legionnaire to place his individual service in this great effort to end unemployment, increase purchasing power and banish the forces of depression, with their attendant suffering, from our gates. Let us, as the American Legion, march a million strong into the battle lines of this struggle for national recovery and economic justice.  
"The day after President Roosevelt was inaugurated, in a radio address to the American Legion, the President had this to say:  
"The men of the ranks of the Legion, in the trying days of 15 years ago, offered for the welfare and preservation of their country the ultimate contribution that human being can give.  
"The deep necessities of peace are no less serious.  
"To the end that the efforts I am giving in these first days of my administration, may be crowned with success and that we may achieve a lasting restoration of national well-being, I invite the support of the men of the Legion, and of all men and women who love their country, who know the meaning of sacrifice, and who, in every emergency, have given

splendid and generous service to the Nation.  
"We shall never have a better opportunity to render such service to our country and our fellow citizens.  
"In the name of the welfare of our country, in the name of the thousands of our own comrades who are suffering; I ask you to enlist whole-heartedly and spontaneously in this campaign; to follow the commanders in this battle as faithfully as you followed your commanders in the World War.  
"For God and country, the Legion is again on the march. As patriots we can do no less."  
"Louis Johnson, national com-
