### More Than 200,000 Insurgent And Government Troops Are Involved In Conflict

### 200 Airplanes Are Thrown Into Fray

Government Lines Are Reported Holding On Right And Center

MADRID, Dec. 31.—(AP)—More than 200,000 insurgent and government troops and 200 airplanes were thrown today into the greatest battle of the civil war outside Teruel.

The bitterness of the fight developed from a powerful insurgent counter offensive to take that city into which the government fought its way last week.

The government yesterday dynamited one of two fortified buildings within Teruel in which between 3,000 and 4,000 insurgent soldiers and civilians had been holding out since government troops took the city.

There were grave fears that many of the insurgents had been killed although some are known to have escaped.

More tanks, airplanes, artillery and men than in any previous battle were thrown together in a conflict outside Teruel.

Government lines on the right and in the center were reported holding under terrific pressure. The government gave ground to insurgents on the left.

## Douney Ready For Applications Under Homestead Ruling

After more than a month's preparation of blank forms, Seminole County Tax Assessor Sanford Douney, announced today that his office will begin receiving applications for homestead exemptions on Jan. 3.

These applications must be filed annually. The Tax Assessor reminded that if they are not in by April 1, the homestead owner waives his right for exemption for that year.

After filing the applications, home owners are entirely exempted from taxes on assessed valuations up to \$5,000. Mr. Douney said, but are required to pay the debt service levies for County and the schools.

"Therefore," Mr. Douney pointed out to home owners who may think they are required to pay no taxes, "the fact that exemption is granted does not mean that there will be no taxes on the property since the amounts levied by the School Board and the County Commissioners for debt service or the retiring of bonds must be collected even though exemption has been granted."

The Tax Assessor reported that 2000 applications were filed last year but that there will probably be an increase in the coming year.

Blanks have already been prepared for all those who were granted exemption last year. The Assessor stated, adding that his office will be glad to assist in any way possible those making application for the first time.

Mr. Douney also reminded that the Intangible Personal Property tax returns must also be filed before April 1.

## Minority Of Business Group Held To Blame

WASHINGTON, Dec. 31.—(AP)—President Roosevelt indicated today that the anti-monopoly attacks were directed at only a small minority in the business world.

He was asked of a press conference to comment specifically on the two speeches by Robert H. Jackson, assistant attorney general, and one by Secretary of Commerce, Harold G. Ickes, which charged that wealthy business interests were plotting a strike against the administration.

## Ford Optimistic Over '38 Outlook

DETROIT, Dec. 31.—(AP)—Henry Ford in a statement on business conditions said "there is nothing to prevent our going ahead" and revealed he expects to produce a low priced tractor of unusual design within a few months. No details were made available. Expressing the opinion that the nation is on the verge of an era of greater quantity production, the founder of the Ford Motor Company said "almost every reason for temporary stoppage of business can be discounted. People are naturally cautious at this time of year because they want to know how the rest of the winter will be."

## Ickes Attacks Big Business In Radio Talk

### Secretary Blames Recent Recession On Concentration Of Power Among Few

WASHINGTON, Dec. 31.—(AP)—Secretary Ickes, continuing the administration's attack upon "big business," asserted last night that the power of concentrated wealth "must be compelled to conform to our laws" at the coming session of Congress.

An "irreconcilable conflict" between "the power of money and the power of the democratic instinct" has reached such a juncture in recent months, he said, that it is "clear that it must be fought through to a finish—until plutocracy, or democracy—until America's 60 families, or America's 120 million people—win."

His speech was the third assault upon "big business" to come from within the inner administration circle within a week. Two such addresses were delivered previously by Robert H. Jackson, assistant attorney general. All are regarded as a prelude to President Roosevelt's message to Congress and a drive for anti-monopoly legislation.

Like Jackson, Ickes accused concentrated economic power of going on a strike against the administration, or threatening to do so, unless business, unless governmental restraints upon business are removed. Referring throughout to capital as "America's 60 families," a phrase borrowed from a book by Ferdinand Lundberg, he said:

"To the 120 million people of the United States, they have made the threat that unless they are free to speculate, free of regulations through legal tricks, by means of corporations, without paying their share of taxes; unless they are free to dominate the rest of us without restrictions on their financial or economic power; unless they are once more free to do all these things, then the United States is to have its first general all-out strike—not of labor—of the American people—but of the 60 families and of the capital created by which the 60 families have obtained control."

## Landis Asks High Court To Clarify Its "Flog" Ruling

TALLAHASSEE, Dec. 31.—(AP)—Attorney General C. D. Landis, asked the supreme court for an "interpretation or clarification" of opinion last July granting a new trial to five former Tampa policemen who had been convicted of kidnapping Eugene P. Poulnot. The petition did not ask a change of the court's ruling but requested an explanation of the opinion to guide the state and court in the retrial of the Tampa flogging cases.

Poulnot, Joseph Shoemaker and Sam Rogers were abducted from the Tampa police station sidewalk, taken to the woods, stripped, beaten, tarred, feathered, and told to leave the community.

Landis' petition said Judge Robert T. Dewell of Bartow, who has presided at flogging case trials, placed "highly erroneous interpretation" on the supreme court's ruling.

State Attorney Rex Farrow of Tampa recently asked: Governor Connally to verify him of duty in the case unless the Supreme Court clarified its opinion or a new judge was named to preside.

## More Strikes In 1937 Than In Any Other In History

### More Than 26 Million Labor Days Lost This Year

WASHINGTON, Dec. 31.—(AP)—The national Labor Relations Board informed Congress last night that the United States passed through the worst labor strike period in history during 1937 but that there is now strong evidence the worst is over.

The board revealed in a report that there were 4,077 strikes during the first 10 months of 1937, more than ever recorded during any entire calendar year, and that 56 percent of the strikes were caused through efforts by employers to organize for collective bargaining.

It blamed the situation on refusal of employers to recognize rights of workers to organize under the Wagner Labor Relations Act but said that since the Supreme Court validated the legislation last April there has been a marked decline in disputes.

1,769,791 involved. The report, based on statistics, (Continued on page five)

## Communists Back CIO Movement In State, Says Report

### Cannery Workers Decide To Handle Their Own Union

### Eckerson's Employees Vote To Operate Association Of Own

Employees of the Eckerson Fruit Cannery, by a large majority, voted to operate through their own association according to the results of an election conducted at the plant this morning under the supervision of the employees association which was tentatively formed to combat the efforts of the organizers for the United Cannery, Agricultural and Allied Workers of America, a CIO affiliate.

Approximately 225 cast secret ballots in the election; 147 ballots were cast for the employees association; 62 voted for no organization; 4 ballots were cast for the American Federation of Labor while the Committee for Industrial Organization received only two ballots. Eight mutilated ballots were thrown out.

After the results of the election were made known, employees elected representatives from each of the departments of the cannery and these will be in charge of the election of officers for the Workers Union this afternoon.

The election this morning followed a non-appearance of representatives of the National Labor Relations Board whom CIO organizers stated would be at the plant Thursday to hold a similar election.

Employees feel, a Herald reporter was advised, that the organization of this association will form a nucleus for all labor activities at the plant and will tend to prevent outside disturbances similar to that effected by the CIO organizers.

Those appointed as representatives are: Tom Yates, utility labor; Paul Mansfield, outside labor; H. Yates, peeler; Tom Kelly, reemera; Mrs. L. D. Hall, section leaders; and Mrs. L. H. Harrow, packers.

## Sam Byrd Plans New Broadway Show

Jan. 26 has been chosen by Sam Byrd for the Broadway premiere of his production of "Journeyman," a dramatization of his privately published novel of the same name.

Byrd's novel with a cast already selected will begin tomorrow under the direction of the author himself, who, ever since his return from the west last month, has been putting the finishing touches on the acting version by Leon Alexander and Alfred Hayes.

Will Geer, as announced at the time Byrd acquired the play last fall, will have the leading role of the itinerant Georgia preacher, Stanton Dye, relinquishing his role of Slim in "Of Mice and Men" to G. Albert Smith. Byrd himself will not play in his own production, remaining in the role of Curley in "Of Mice and Men." The theatre for the New York premiere of "Journeyman" will be announced within a few days.

The Tax Collector called to the attention of truck and trailer owners the requirement of the Motor Vehicle Department that these vehicles must be re-weighed on platform scales before license tags can be purchased.

The tax collector also reported a rush in the payment of occupational license taxes. He reported \$789.75 was received up to noon today.

## Negro LeRoy Nichols Vice-President Of Organization Operating In Florida

### Activities Seen Among Black Race

### Attempts Being Made To Foment Trouble In Citrus Industry

The CIO movement in Florida is backed by a communist organization with a negro, LeRoy Nichols of Haines City, as vice-president, it was revealed in a report of the Southern Virginia Intelligence Association, Inc., a non-political organization with its purpose, the complete elimination of the "Red Menace—Communism."

In reply to a recent inquiry, the organization reported that "We have found the CIO movement in Florida is being backed by a bunch of Communists, operating from Jacksonville, near Orlando."

"A George Jackson (one of the men in charge of recent UCAPAWA attempts at the Eckerson Cannery) from Orlando, state organizer for the CIO, has for his vice-president a negro by the name of LeRoy Nichols from Haines City. They have been very busy of late organizing the negroes in the citrus, truck gardening industries, and lumber work."

"Do not doubt these and others under Jackson have been back of troubles in Sanford. A rabid radical by the name A. W., alias Alex. Trainor or Trainer from Jacksonville is the district organizer for the Communist Party. He lead the WPA strike in Daytona Beach last summer and is working among the negroes, holding mixed meetings of negroes and whites, in the WPA Workers Alliance and the Unemployed Council. These are both Communist organizations."

"He is preaching to the negroes to raise up against the white supremacy. We find this movement very contentious and will stand plenty of watching in the future."

The Herald was also reliably informed that W. L. Boleslar, in charge of CIO organization attempt at the Eckerson Cannery plant about 6 years in New York where he received training as an organizer for the Communist party.

## Radio Star Tells About Beauties Of Sanford Section

ORLANDO, Dec. 31.—"Palm Beach is as brilliant and full of color as an Arabian Night's tale," said Mary Margaret Merrick, of New York, radio star visiting Winter Park in a nationwide broadcast over WDBO today.

Miss Merrick gave a vivid impression of the "Everglades Club Hotel," Wirth avenue, via Mincer, painted in a tropical background of sea, palms, and flowers.

Miss Merrick described the beauty of the St. Johns River in Sanford.

The radio star left for New York this afternoon to resume her broadcasting program there. Monday she will tell the nation of Seminole County's tree and Sanford's Ethna Garner, the author of "Eskel".

BIBLE VERSE FOR TODAY

For other foundation can no man lay than that is laid, which is Jesus Christ.—1 Cor. 3:11.

BEND LOW, OH PALMS!

Bend low, oh palms, in silent adoration. For life is come who loves all lovely things.

Let every garden be a proclamation, With poinsettias red as robins' wings!

And lend your ear, wine-berried rebus-bough, To light the moment with a festive glow.

Beneath these Southern skies each Christmas yew Should breathe a merrier note than where the snow Has blanketed its crystal stillness.

Ring out, hibiscus-bell! that all may know The manger with its message of good will.

To which the Wise Men journeyed long ago, Was shaded by a palm that knew the thrill

Of mocking-birds. And for sweet Mary's sake Let every cassia-bush be candle-bright.

And every lily mirrored in a lake Repeat the Star that lit that Holy Night.

Bend low, oh palms, in silent adoration. For life is come, the Babe of Bethlehem!

Let every garden be a proclamation, And every tropic tree a diadem.—Vivian Yeiser Laramore, Poet Laureate of Florida.

Happy New Year!

May 1938 bring you more happiness and prosperity than 1937.

New Year's is the time to reaffirm last year's resolutions, long since forgotten.

It is a good idea to make a few good New Year resolutions even if you later find yourself unable to keep them.

In ringing in the New Year to night, be sure not to do anything which will leave your head ringing all day tomorrow.

With only one more day of the year—1937, it would be an excellent idea for everyone, who owes some petty account, neglected for a long time, to pay it now so that the New Year can be started with a clear conscience.

It's a wise man who views the death of the New Year from the security of his home. There are usually too many people around trying to see how much they can drink before sweating off the next day.

We read in the papers about the death of the "boy wonder" of Wall Street, who "ran a shoe-string" to \$15,000,000. His that was back in the good old days. Now, most of the Wall Street boys are trying to find a shoe-string.

Twenty-eight year old Louise Campbell, steel heiress, who shot her own mother on Christmas eve, said she had only intended to shoot out a candle. Possibly a little too much eggnog, or too many cocktails, led her intentions astray, shooting the works.

Jacksonville is having a mad dog scare of sizable proportions. During the ten month period ending Nov. 1, more than five hundred dogs were placed under quarantine suspected of having rabies, more than two hundred were definitely known to have rabies, and 25 persons were treated.

The New Year

Throughout 1937 there has been a feeling among many people of impending disaster. One is reminded of the game we used to play in childhood called "Heavy, heavy, hangs over thy head." For indeed among large numbers of people there has been the feeling that something heavy was hanging over their heads and that almost any moment the fragile strings which held it up might be broken and the whole world would come crashing down on our necks.

The year opened with a series of strikes which tied up large automobile factories, spread quickly to allied industries, and soon made out of 1937 the worst year for labor discord in the history of this country. Furthermore, a new technique in conducting labor wars was introduced into this country which was called, for want of a better name, the "sit-down strike" but which involved the seizure of other people's property by small groups of persons who had no legal right to it.

Business which started out fairly good at the beginning of the year soon went into a nose dive and by the middle of summer was definitely on the way into a dangerous recession, the new name for depression. Buying began to decline, workmen were laid off, unemployment and relief rolls increased, and demands for higher wages and higher prices everywhere made themselves felt. Meanwhile prices quoted on the New York Stock Exchange tumbled until more than 25 billion in security values were wiped out.

Reports from abroad produced the same feeling of uneasiness. From the very beginning of the year Europe has been on the verge of some gigantic explosion. The civil war in Spain, the mysterious submarine warfare in the Mediterranean, German and Italian intervention in Spain, the armament race everywhere, riots in Egypt, in Palestine, strikes in France, the blood purge still being carried on relentlessly in Russia, as well as the increasing bitterness between Russia and Germany have all served to show that another world war was in the making.

Early in the summer Japan began its new raids on China. Hundreds of thousands of highly mechanized Japanese troops were rushed into Chinese territory and the awful slaughter of helpless men, women, and children began. With it commenced almost at once the series of international incidents which threatened the peace of the world. A shell dropped on the decks of the U. S. flagship Augusta, a bomb dropped on the President Hoover, the British ambassador was machine-gunned by Japanese airplanes, and a series of similar attacks continued until the Panay was sunk and the British gunboat Ladybird was fired upon.

As the year comes to a close the greatest battle of the Spanish civil war is raging and an attitude of watchful waiting seems to have enveloped the other European nations; while in the Far East Japan seems to have nearly completed her conquest of China although the prospects of a clash with some other foreign power have by no means diminished. In the United States there is no indication that labor trouble or class warfare is abating.

Looking forward into 1938 brings this encouraging hope: the feeling of uncertainty which has hung over the people of this country during the past year should soon disappear. If there is to be war throughout the world, we should know it before the year is out, and we can adjust ourselves to it. And the conflict between capital and labor must be settled soon. Either some way will be found for the peaceful settlement of labor disputes, or there will be revolution. Which it is to be, we will probably discover during 1938.

The New Park

At long last Sanford is to have a beautification project. And whoever does not believe in beautification projects is as backward as the merchant who keeps his garbage can at the front door of his store, or the narrow-minded husband who won't allow his wife to buy a new dress or go to the beauty parlor. Beautification is as necessary to the world as pleasant smiles, newspaper advertising, or the art of conversation.

The new park project calls for an expenditure of practically thirty thousand dollars and involves the improvement of the west end of the area on the lake front lying between the Mayfair Hotel and Sanford Avenue. It provides for sub-irrigation of the area, to be covered with 7 1/2 inches of rich muck soil, and the planting of over two thousand trees, shrubs, and vines. Through it all more than 5,000 yards of shell rock side-walks will be constructed.

To our way of thinking this is one of the most important announcements that has been made in Sanford for a long time. For several years each winter has seen more and more visitors locating for their vacations in this city as the more popular haunts farther south became unpleasantly congested. It has become increasingly apparent that Sanford has the opportunity to develop additional business as a tourist resort.

The construction of a beautiful lake front park will admirably serve this purpose and is just what Sanford has needed for a long time to round out its tourist attractions.

The Sanford Forum

The Sanford Herald, Sanford, Florida.

As 1937 draws to a close I want to express my personal appreciation and the thanks of the Florida Audubon Society, for the cooperation you have given the cause of wild life protection in the columns of The Sanford Herald during the past year.

Without your generous help, both in the use of articles we furnished and others that I note you have used from time to time, it would not have been possible to keep the conservation of bird life and other natural resources before the public; and secure the support that we have had.

May 1938 be a fine year for you. Sincerely yours, C. Russell Mason, President Florida Audubon Society.

At the Sunday School the S. S. presented the pastor a nice Bible as a Christmas present. The work of repainting and decorating the Baptist Church has been finished, and adds much to the beauty of the building.

The town Christmas program was given at the School auditorium Friday evening.

WOULD YOU BUY IT AGAIN?

All merchants—nearly everybody who makes a living by selling something—can be divided into two distinct groups:

GROUP ONE: The merchant whose goods give so little value that he, like the old-time vendor of gold-bricks, cannot expect "repeat" orders. He must make all his profit from the first (and only) sale.

GROUP TWO: The merchant whose goods are sold in the hope of winning the purchaser's continued patronage. He can expect only a moderate profit. Thus, one sale per person is not enough.

The merchants who advertise in this paper belong in Group Two. They could not stay in business unless they earned "repeat" orders—unless they gave you honest value for every dollar you spend with them.

That is why each article they sell you must be so thoroughly satisfactory that you would later answer "yes" to this, the most important question a merchant can ask a customer: "Would you buy it again?"

Dan Fitch Returns To Stage In Sparkling Show After Years Rest From Lights

## Ritz To Feature Big Apple Revue

Old Favorite To Bring His Version Of New Dance Craze Here

Dan Fitch, for a quarter of a century the favorite son of the show business had decided to make his exit when the Big Apple came to town and took a front-row seat. His announcement, effective one year ago, that he had retired from the entertainment field "went up in thin air, and Dan is back at his old tricks with a new show called "The Big Apple Revue."

Like wildfire news of this strange new dance craze spread the entire South, spreading North a dance of joy like the supreme moment when "your home," he said, and without knowing the old trick for the book of a man ready to retire, he has those evergreen blue eyes of a low that has made so many stam youth just beginning his career. The world how the Big Apple is of stage professionals that see their fame and success to the Dan. Thus it is that a name which Fitch who organized the first

## "Ebb Tide" Is Technicolor Film Of Sea From Robert Louis Stevenson's Story

The first sea story filmed in Technicolor comes to the screen Sunday when "Ebb Tide" opens at the Ritz. Taken from a story by Robert Louis Stevenson and Lloyd Osbourne, "Ebb Tide" presents the famed European character actor, Oscar Homolka, in an American picture for the first time. Homolka, in his first role here, lives up to expectations in his change of situation as Captain Thorpe, a broken sea captain who has lost his ship and papers through drunkenness. He is the lack of making even the worst less Thorpe's a likable character. His supporting cast is more than the name implies, in love.

## VOGUES IN LOVE

Romance 1938 Style is forecast by Joan Bennett and Warner Baxter, star of "Vogues of 1938," the gay musical romance in Technicolor, which begins a great week at the Ritz Theater next Thursday and Friday.

## MORE BEAUTIFUL THAN EVER

Beautiful Frances Farmer in Technicolor is one of the elements which makes of "Ebb Tide," the powerful sea drama from the novel by Robert Louis Stevenson and Lloyd Osbourne Sunday, one of the year's outstanding pictures. "Ebb Tide," which opens Sunday at the Ritz Theater, introduces Oscar Homolka, famed European star, to American audiences. The cast also includes Ray Milland, Lloyd Nolan and Barry Fitzgerald.

## Miriam Hopkins' Picture Has New Intrigue Twist

Beautiful Blond Star Has Lead In "Wise Girl" At The Ritz

An intriguing new twist comes to the screen's romantic theme in "Wise Girl," at the Ritz Theater Wednesday, with Miriam Hopkins and Ray Milland in the top roles. Developing the romance between a wealthy society girl and a penniless young artist, the story begins with the attempt of the girl's millionaire father to gain custody of his two orphaned grandchildren who are under the guardianship of the artist.

The artist, however, makes enough of a precarious living at various odd jobs to support the youngsters, and the millionaire's efforts fail. But when his daughter decides to take a hand in the big fashion to the climax of the season's most enterprising films, which subtly blend heart interest and rich humor. The heroine's double-dealing methods, ingenious schemes for making a living in Greenwich Village, where most of the action takes place; a "romantic" arrest; a prison fight and other features of the unique story keep it moving at a rapid pace. Another novelty is in the handling of the Greenwich Village scene.

Most pictures with "Village" settings have portrayed all its inhabitants as erratic imposters and have overlooked the heaven of really capable artists and writers who live and work there. In "Wise Girl" Milland and Walter Abel and Guion Williams are cast as hardworking and talented members of the community, and the film honestly depicts conditions in the famous art center. With its combination of drama and comedy, "Wise Girl" gives Miriam Hopkins one of the finest roles of her career.
