School Girl, 7, Mistaken For A Deer

Returns To Classes Today After Year A Reminder For All The Area Nimrods

SALMON, Idaho (AP) — More than a year after she was critically injured by a hunter who mistook her for a deer, 7-year-old Karyn Prestwich returned to school today.

Karyn, with her left leg in a cast to her waist, propped her crutches on a snowmobile. Thanksgiving Day and took a spin-by herself-around her home in North Fork, near Salmon in northeast Idaho.

The girl's plight attracted nationwide attention after she was struck in the abdomen by a high-powered rifle bullet Nov. 5, 1970, while waiting for a school bus. About \$17,000 has been donated to pay for medical bills.

While the girl was spending seven months in the hospital, an anonymous donor gave \$2,000.

A man from Washington State sent his coin collection, valued at \$300. He said he worked 23 years on it.

A family in Georgia sent \$500.

The man who mistakenly shot her, Roy Wells, 51, of Torrance, Calif., sent \$500 and gave her a doll for her birthday. Wells, charged originally with assault with a deadly weapon, pleaded guilty to a reduced charge of negligent use of a firearm.

Wells rushed the girl to a hospital after the mishap.

"The man said he thought I was a deer," Karyn said at the hospital.

She was wearing a brown coat.

"I just can't believe that people who don't even know her can care about her so very much," her mother said.

Karyn's father, Donald Prestwich, works for the U. S. Forest Service.

Karyn, who will be 8 on Dec. 31, has two sisters—Jenny, 2, and Carrie, 4.

During her convalescence, Karyn had a tutor in her home and in the hospital.

Today she caught her old bus for a 35-mile ride to the Pioneer Elementary School in Salmon.

"She's just getting along great," her grandmother, Kay Hazel, said. "We're really pleased."

Sanford Growing Southwesterly, Planner Reports

A report prepared by City Planner Gerald Dake on annexation indicates that urbanization is spreading in a southwesterly direction from Sanford along U.S. 17-92 and the Lake Mary area toward interstate 4.

Initial studies of all fringe areas included the land mass from 14 on the west, the S.E. Johns River on the east, Lake Monroe on the north and Lake Jesup and Longwood on the south.

Dake reports annexation of all or any one of these study areas is not feasible at this time from a cost revenue approach as well as to providing services to such large areas with scattered population.

The report lists an immediate capital outlay of \$1,718,100 and operating expenses of \$1,765,200. Estimated revenue from the area is \$1,728,700, leaving an annual deficit of \$28,500 for operational costs.

Included in these areas are Loch Arbor, Sunland Estates, Ravenna Park, Celery Avenue area and Lake Monroe.

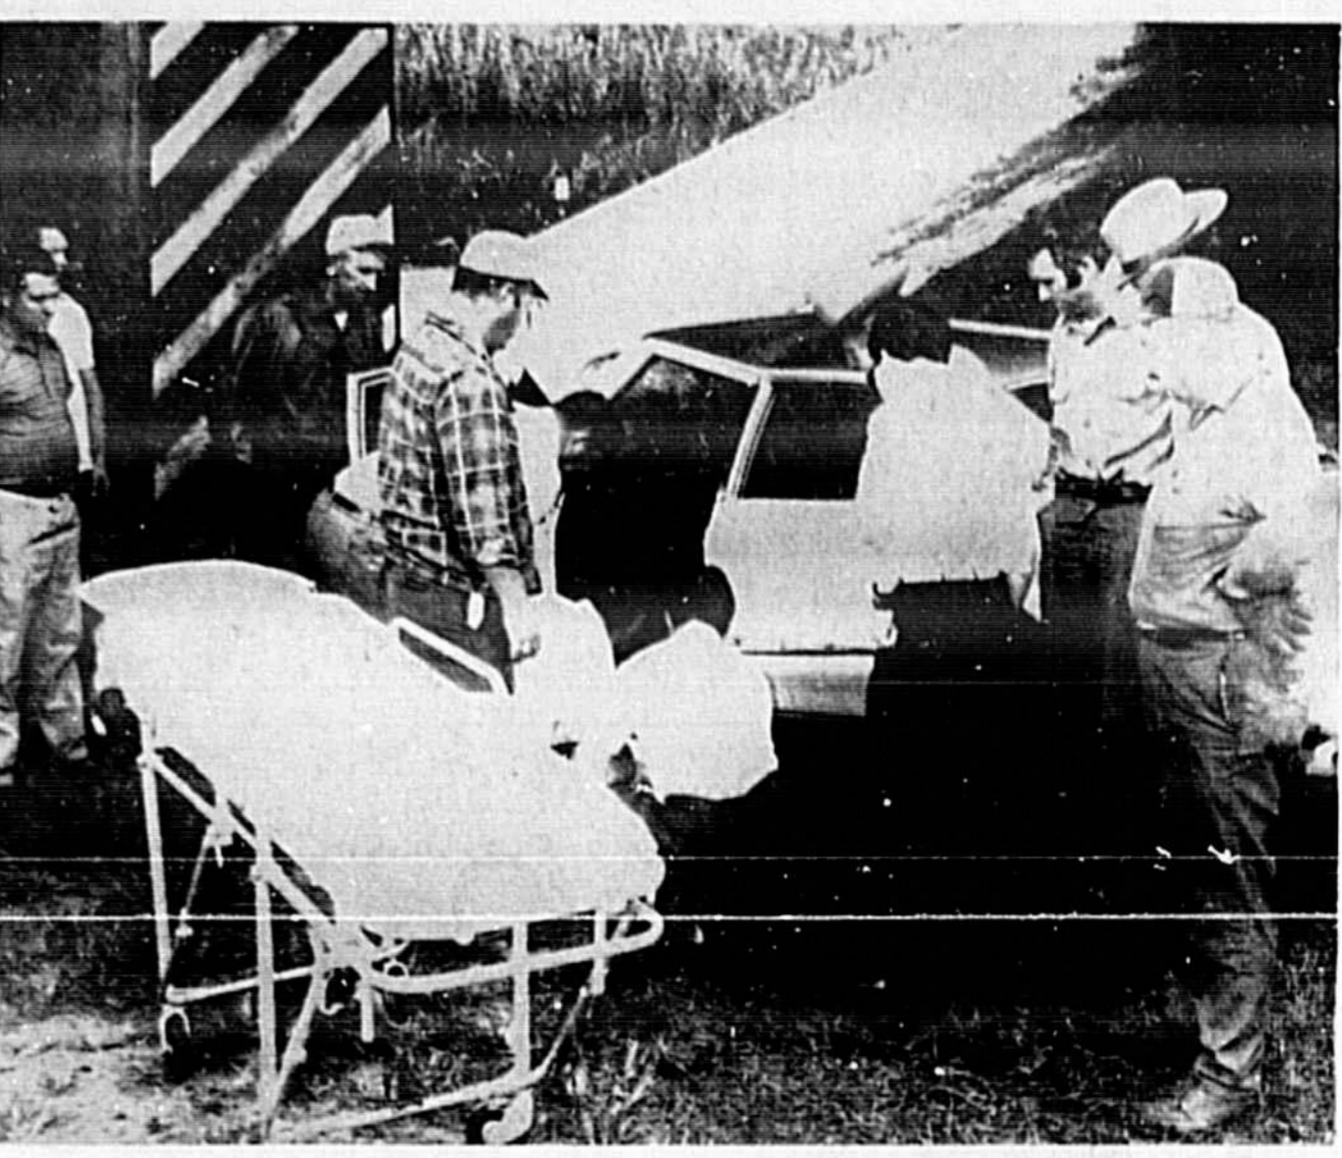

Dake was asked to conduct a complete annexation study of all outlying city areas. The study encompassing the above areas was singled out due to development already accomplished. City Commission will use the information from Dake as a guideline for making future additions to the city.

A refined study area consisting of Sunland Estates, Ravenna Park and part of the Loch Arbor area has been selected for further investigation. By annexation of Sunland, the city population would increase by 1,586 residents and 1,178 homes.

If the entire area was annexed, the existing development would require services at an annual \$44,500 operating cost with an immediate investment of \$39,200 in capital outlay for providing city services.

The cost-revenue analysis of the area indicates a net excess in the first year of service at an estimated \$12,618.

A new fire station with equipment, police cars, garbage and refuse equipment, street sweeper and improvements to water and sewer facilities would be required immediately.

24TH TRAFFIC FATALITY IN SEMINOLE COUNTY

James Edward Beaver, 33, Orlando, was killed this morning when his automobile ran off U. S. 17-92 and traveled 140 feet before striking an Interstate 4 overpass abutment. Trooper R. M. McLendon, County Lt. William Robbins and County Sgt. Harold Smith are investigating. (Related story and photo on page 2A.) (Bill Vincent Jr. Photo)

AROUND THE CLOCK

By JOHN A. SPOLSKI

From the mailbox: Ed Bodin of DelBary writes "How about asking the Pentagon for 20 helicopters for the Sanford Airport instead of Vietnam for hundreds of people to avoid Disney World highways which are now worse than the Hanoi hazards?"

Looks like there WON'T BE AN ELECTION in Altamonte Springs this Tuesday, after all. In checking through the state statutes, our Donna Estes found (27:1206) . . . the names of unopposed do not appear on a ballot unless a write-in candidate qualified . . .

Since there hasn't been a valid write-in candidate appear on the Altamonte scene, looks like the taxpayers just might save themselves a needless expense of holding an election.

(Mark it down, folks . . . this is a rarity . . . saving taxpayers' money!)

Since we've had all of that football fare on TV during this long Thanksgiving "weekend," thought you'd get a chuckle out of a letter to Pat and Marilyn Davis (advice to the lowdown): "I am 24 years old and I have been married for nearly four years. Each fall when the football season begins, I might as well be a widow. My husband turns on both television and the radio. Each one is broadcasting a different game. He then dashes from TV to TV watching two games and all the while he is clutching the portable radio to his ear. How can an otherwise normal, bright man to be berserk over a sport? I can understand men watching the games on Saturday and Sunday but he goes too far. To top it off, we go to the local high school games. That is my big night out! What can I do short of selling our television?"

Dear Widow:

"At least you are not alone. If possible learn to enjoy the game yourself."

"Your husband's condition is a common affliction which affects the American male from September to January of each year. It comes on suddenly and ends just as abruptly. The victim remains almost motionless with eyes staring intently toward the television set."

I really don't see that the wife has such a problem. After all, those guys are asking for "equal" time . . . just go up and grab that TV knob and change the channel! (Call me first, though . . . I've always wanted to see what happens to a "babe" when she's thrown like a football by her husband . . .)

That Child Development Act is far from forgotten . . . look for the League of Women Voters to take a more active stand on this "hot potato" within the next couple of days . . .

You did know, didn't you even though they went to great trouble to keep the press from attending their secret meeting, that Cesar Chavez and his group were in our area recently. Getting set to organize the farm labor groups. (Something which this column has been predicting for the past couple of months, remember?)

Christmas Parade

To Be 'Biggest Yet'

By JANE CASSELLBERRY

The Sanford Christmas parade Thursday, on the theme, "Journey Into Christmas," promises to be the "biggest yet" with 18 bands and 23 floats included in the over 100 units participating.

The parade will move on First Street, beginning at 7:30 p.m. at San Juan Avenue and culminating at Laurel Avenue.

Participating units are asked to line up at 6:30 p.m. for the annual event which is under the direction of Sanford Seminoles.

The parade is underwritten by the Downtown Business Association this year at a cost of \$1,500.

Escorting the parade will be units of area law enforcement agencies and fire chiefs from Lake Mary and Sanford. The Navy Color Guard will lead the units.

An assortment of beauty queens, city and county officials and representatives of local civic groups will be riding in the parade.

Among the bands will be those of Seminole High, Oviedo High, Sanford Middle School, Bishop Moore High, Lakeview Middle St. Mary Magdalen, Crosson High, All Souls Parochial, South Seminole Middle, Sanford Naval Academy, Jones High, Orlando Naval Training Center, Deland High and Lyman High School.

Climaxing the event, of course, will be the arrival of the star of the parade, old Santa Claus, himself.

22 SHOPPING DAYS TILL CHRISTMAS

Conversion Requires Two Years

By MARION BETHA (Fifth of a series)

The framed motto hanging on the wall of Circuit Judge Montnick Salft's chambers succinctly depicts the basic concept of his office . . . "Where law ends, tyranny begins."

Criminal justice as envisioned by the youthful judge runs the gamut from prevention to detention; investigation to culmination. Citing the changes taking place in the court system, Judge Salft views Seminole County as living in a metamorphosis, emanating from a rural society to urbanization. Total conversion, he speculates, will consume two years.

There have been changes in the Circuit Court, explains Judge Salft, and cites the criminal area in which the state legislature in February, 1971, adopted the speedy trial law.

This procedure, notes the judge placed judges and prosecutors directly into the mainstream of moving criminal cases to an expeditious culmination.

When the law took effect, — Judge Salft stated, there were in excess of 300 active criminal cases, dating to 1962, which needed disposition before August, 1971. A panel of Circuit judges met, declared an emergency situation giving top priority to getting "criminal weeks" in Seminole County, and giving civil cases a "back seat."

"Dead Cases"

During each month, three or four weeks have been scheduled for criminal trials. The current pending case load is 305. A card file is categorized in each case, noting whether a capias is served or unserved, whether a warrant trial or trial completed, pre-sentence investigation and sentencing.

Judge Salft also remarked that cases from 1936 to 1963, which had never been prosecuted and were considered "dead cases," have been "buried" at a rate of 15 per trial period. Explaining the process, Judge

Driver Cut By Hiker; Boy Held As Thief

A Casselberry man was cut in the stomach by one of two hitchhikers who tried to commandeer his car.

Phil Hill Jr., of Casselberry, reported he stopped his car Saturday on U.S. 17-92 at SR 436 and offered them a ride toward Sanford when one of the pair produced a knife and demanded the car. Hill said he grabbed an empty beer bottle in the vehicle and struck the assailant over the head.

In the struggle, Hill was cut across the stomach but managed to dislodge the pair, escape and alert police.

Hill was treated at and released from Winter Park Memorial Hospital. Deputy W. S. Vinton said Hill told him the men were on their way to Jacksonville. All law enforcement agencies were notified to be on the lookout for the pair.

Det. Sgt. Roy Williams arrested a 10-year-old juvenile Saturday after the boy is alleged to have committed his 26th burglary.

Williams reported an undetermined amount of cash was removed from the Standard Oil station at Celery and Sanford Avenues after the youth cut a hole in the roof to enter.

The detective said the intruder also entered a car at Sanford Plaza and was apprehended hiding in a J. C. Penney's camper.

He is being held in county jail charged with probation violation.

BULLETIN

WASHINGTON (AP) — President Nixon announced today he will veto the tax-cut bill pending in Congress if it reaches his desk with what the aide called "budget-busting Senate amendments" and a controversial plan to finance campaigns.

Balloting will close at 8 a.m. Tuesday for members of the Greater Sanford Chamber of Commerce to elect 10 directors for 1972-73 year terms. Ballots may be mailed today or delivered in person by 9 a.m. Tuesday to the Chamber office to be counted.

Jordan Aide Slain; War Is Expected

AMMAN, Jordan (AP) — More turmoil was predicted today for Jordan following the assassination of Prime Minister Wasfi Telli by vengeful Palestinians.

Telli, 51-year-old aide of the Palestinian guerrillas, was shot Sunday at the entrance to the Sheraton Hotel in Cairo. Jordan's foreign minister, Abdullah Salah, was grazed in the leg, and an Egyptian security officer and one of the gunmen also were wounded.

Egyptian authorities arrested four Palestinians with Syrian passports and said three of them admitted shooting Telli. Egypt's official Middle East News Agency said one of the three, Monzie Khalifa, told interrogators the assassination

plan was formulated in Beirut by the Black September organization, a movement formed to avenge the guerrillas killed in the Jordanian army's crackdown in September 1970.

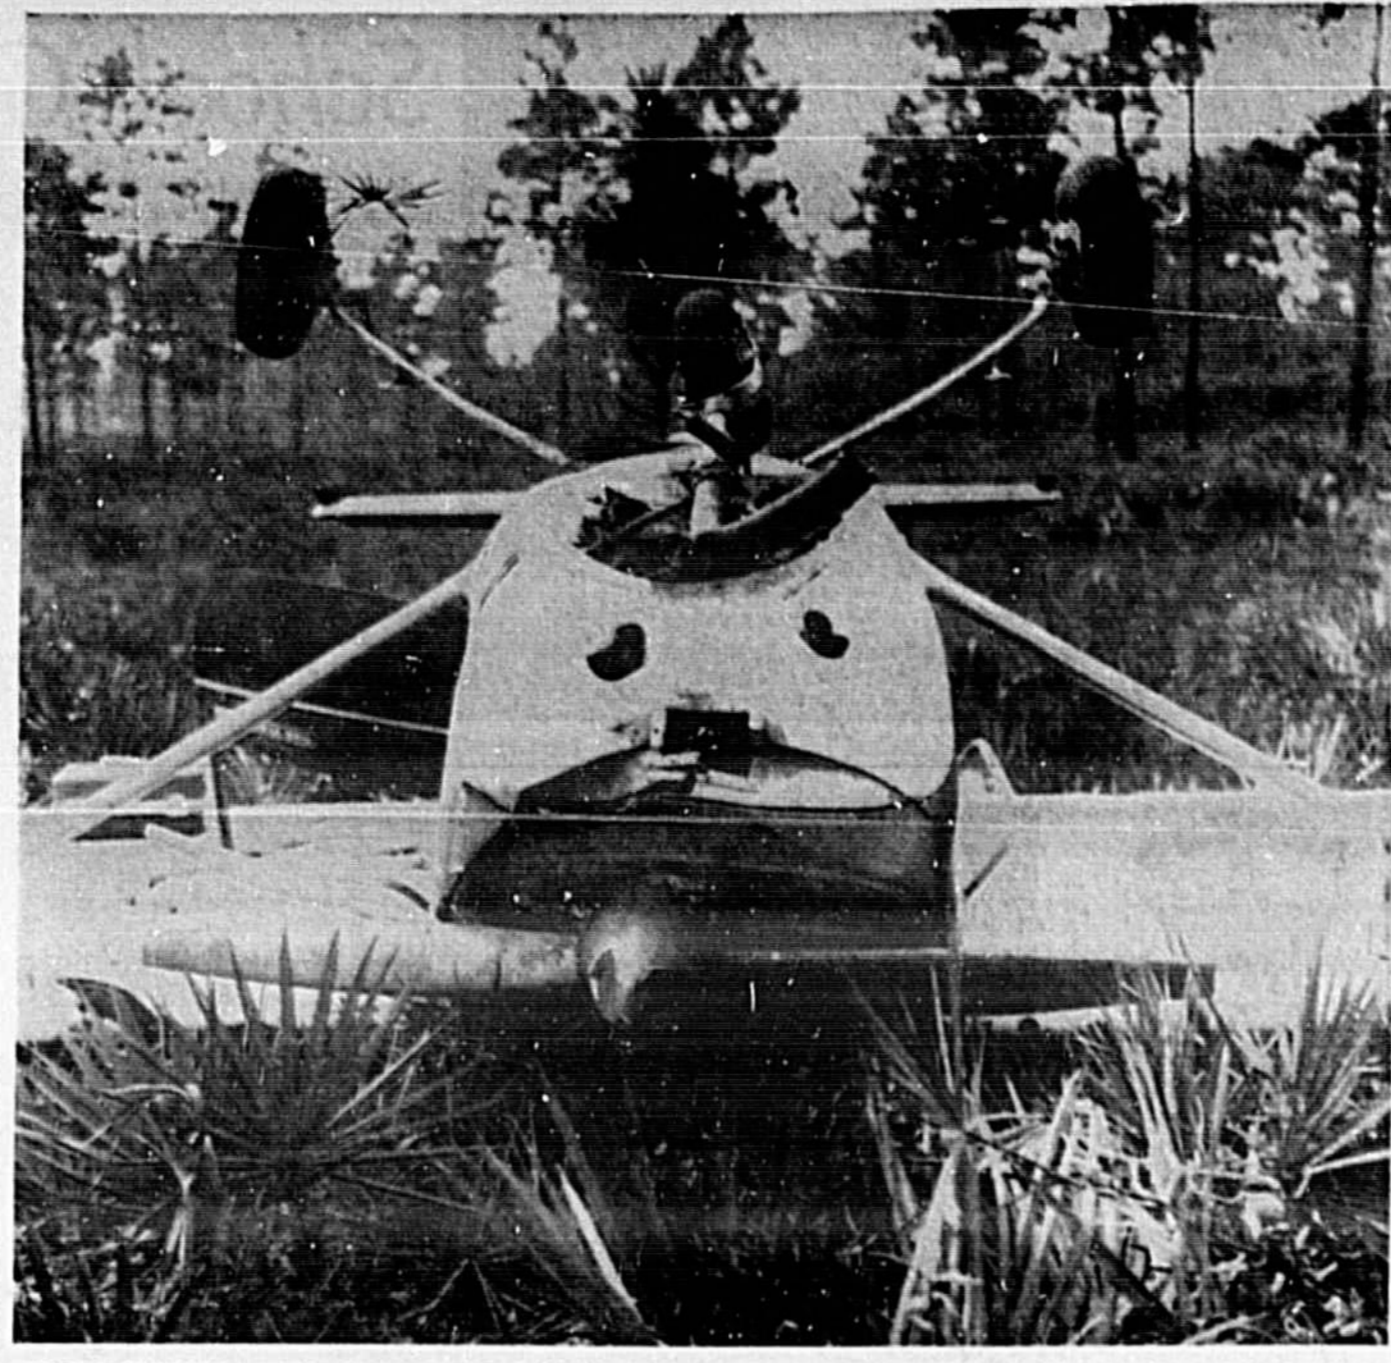

King Hussein broadcast an appeal for unity among Jordan's 2.2 million population, two-thirds of it Palestinian. He said Telli was a "true soldier who fought for the last breath of his life for Jordan's dignity, peace, security and progress." But there was widespread jubilation among the Palestinians at the murder of a man they considered one of their chief foes.

The Popular Front for the Liberation of Palestine, who Jordan led to the 1970 civil war, said Telli's death was "a warning to everyone who is an enemy of our nation."

Palestinian students, women and workers' groups said they sent a cable to Egyptian President Anwar Sadat appealing for the release of the three assassins "who performed a national duty by killing one of the traitors who plotted against our people."

Jordanian Arabs under Israeli occupation expressed fear that more warfare is imminent between the guerrillas and the Jordanian army.

Dov Yinon, the Israeli state radio's Arab affairs expert, said Hussein may decide to avenge Telli's death with a new anti-Palestinian onslaught, and commented: "The Palestinians have done it again. They've thrown the entire Arab world into distress with one extreme act."

TOPSY-TURVY is this Cessna 150 single engine aircraft which ran out of fuel and crash-landed early Sunday east of SR 415 and south of Lemon Bluff Road in Volusia County. Pilot William E. Clendenin, of Angier, N.C., bound for Daytona Beach, sustained minor cuts and lacerations.

Believed Down At Sea 33 GIs On Lost 'Copter

By GEORGE ESPER, Associated Press Writer

SAIGON — (AP) — A big U. S. helicopter disappeared during a thunderstorm along the northern coast of South Vietnam, and 33 American troops were reported missing today.

The pilot radioed he had an emergency, then contact was lost.

A spokesman for the U. S. Command, Maj. Richard Gardner, said the helicopter was leading an extensive air and sea search.

Gardner said the CH-53 Chinook helicopter carried a crew of five and 28 passengers, all from the U. S. 301st Airborne Division, which is now being withdrawn from the Vietnam war. It was on a flight Sunday afternoon from Da Nang to Phu Bai, the headquarters of the division 30 miles north of Da Nang, Gardner said that 30 minutes after taking off, the pilot radioed he had an emergency.

The helicopter was believed to have taken a route over the South China sea instead of flying over land, Gardner said. At the time there were thunderstorms and low visibility, the command said.

2 Die In Car Mishaps; 1971 Traffic Toll At 24

Seminole County recorded its 23rd and 24th traffic fatalities of the year as the result of a Saturday night mishap in Casselberry that claimed the life of a Winter Park woman and a second early today in which an Orlando man was killed. James Edward Beaver, 35,

EXTENSIVE DAMAGE TO THIS Florida Highway Patrol car occurred this morning when Trooper Richard Shaffer and Shirley Carter Allen, 35, of Altamonte Springs, collided at SR 436 and SR 427. Altamonte Police Officer William Meeks is investigating.

BARBS 5 Held In Crackdown Of County Theft Rings

By PHIL PASTORET

The one thing that men know about women's clothes is that they keep them broke.

Alimony is the high cost of leaving.

An old-timer can recall when Santa didn't get into the stores till after Thanksgiving.

In many places, the four-day week has been in effect for a long time.

Five persons were arrested by county detectives in a weekend crackdown on two separate theft rings operating in the county.

Det. Sgt. Johnny Wright charged James Bradwell Jr., 25, of Lake Monroe, with possession of stolen property after a TV set missing from the Seaboard Coast Lines railroad warehouse on Sleigh Road in Orlando. Bradwell was jailed in lieu of \$1,000 bond.

Wright earlier charged Theron Bass, 21, of 1220 West Eighth Street, with possession of stolen property after another TV set was missing from the same railroad warehouse was found in his possession.

The detective said both Bass and Bradwell were employed by the railroad. He said more arrests are pending in the breaking up of a large scale theft ring believed operating out of the railroad warehouse.

Det. Sgt. William Hogan arrested a man and two juveniles after weekend burglaries at the Fern Park home of Richard Sherron on O'Brien Road and the 3000 Go-Cart track on U. S. 17-92 near the county line.

Hogan said Dave Roberts, 17, Fern Park was charged with breaking and entering with intent to commit grand larceny and was jailed in lieu of \$2,500 bond. The juveniles were released to juvenile authorities.

The detective said the trio was captured and items reported stolen were recovered in Lake City when authorities stopped them in a car reported stolen earlier.

Cop Shoots Robber In Bank Theft

By TAD BARTIMUS, Associated Press Writer

MIAMI (AP) — A knife-wielder was shot by a detective today as he held a woman hostage during an attempted hold-up of the North Hialeah First State Bank, police said.

The man grabbed the woman customer shortly before 6:30 a.m. as he walked in the front door of the bank. Assistant Hialeah Police Chief Lawrence Leggett said.

"He grabbed her, threw her to the ground, got astraddle of her and shoved a knife up against her throat," Leggett said. "He then demanded \$20,000 and a gun, and threatened to take her hostage."

About the same time a silent burglar alarm went off at police headquarters, the man called the front desk at the station and told the desk sergeant what he was demanding at the bank.

Leggett said police kept the man talking on the telephone as uniformed officers encircled the bank and plain clothes detectives went inside.

"Detective Richard Kelly acted as a bank official after he had taken off, all his identification and put his gun in his pocket," Leggett said. About this time the subject was starting to get hysterical and screaming and as he got more violent he told the lady hostage on the throat.

British Troops Grab 4 Terrorist Suspects

BELFAST, Northern Ireland (AP) — British troops grabbed four terrorist suspects high on their wanted list and netted an arms cache in raids on Roman Catholic homes in Belfast early today.

Det. Sgt. William Hogan arrested a man and two juveniles after weekend burglaries at the Fern Park home of Richard Sherron on O'Brien Road and the 3000 Go-Cart track on U. S. 17-92 near the county line.

Hogan said Dave Roberts, 17, Fern Park was charged with breaking and entering with intent to commit grand larceny and was jailed in lieu of \$2,500 bond. The juveniles were released to juvenile authorities.

The detective said the trio was captured and items reported stolen were recovered in Lake City when authorities stopped them in a car reported stolen earlier.

ELECT JOHN G. MORRIS CITY COMMISSION GROUP 2 FOR INDEPENDENT LEADERSHIP

John G. Morris, a member of the Seminole County School Board, is running for the City Commission Group 2. He is a 35-year-old engineer and has served on the school board for five years. He is a member of the Seminole County Chamber of Commerce and the Florida Engineering Society.

'Controls' Mull'd By Senators

By JOE HALL

WASHINGTON (AP) — The Senate opens debate today on a bill giving President Nixon an extra year to continue wage-price controls but also allowing most pay hikes stopped by the Aug. 15-Nov. 14 freeze.

Senate leaders said they hoped to complete action on the measure tomorrow. It was not certain whether the Nixon administration would try to block the retroactive pay feature which it opposes.

This feature is specifically designed to give pay raises to teachers and others who were denied them because of the date selected for the freeze.

Sen. William Proxmire, D-Wis., chairman of the Senate House Economic Committee, announced in advance he planned to vote against the bill unless it is drastically revised on the Senate floor.

The administration's Phase 2 program "is an complex, workable, a n d unenforceable, it is bound to engender hostility by consumers and workers alike throughout the country, and the serious economic confusion is likely to slow the economy and aggravate unemployment," Proxmire asserted.

By Raiford Prisoners Guards Thwart Escape

RAIFORD, Fla. (AP) — A specially-trained emergency squad of about 20 guards—armed with nightsticks and tear gas—captured six knife-wielding prisoners and rescued four hostages Sunday during an attempted escape from Raiford State Prison.

Louie Wainwright, director of the State Division of Corrections, said the foiled escapees surrendered "without a blow being struck." No injuries were reported.

Wainwright said the emergency squad surprised the prisoners by removing the hinges from a locked rear door and rushing into a prison hospital ward while the would be escapees were negotiating with prison officials.

"By moving in as soon as possible in a situation of this sort, violence usually can be averted and the problem can be kept from spreading," said Wainwright.

The corrections director said the decision to rush the prisoners was made after they refused to release the hostages before proceeding with negotiations.

Raiford Superintendent L. E. Dugger, who hurried to the scene to negotiate, said the prisoners were armed with homemade knives and a Molotov cocktail fashioned with lighter fluid and a paper wick.

Despite threats to "blow up the entire place" by tossing the bomb at the hospital ward's oxygen tanks, Dugger said the prisoners didn't carry through with the bomb when guards closed in.

A prison spokesman said guards didn't have to use their batons or tear gas in capturing the would-be escapees. A can-

Area Deaths

VERNON C. McNEIL, 58, of 223 Oakhurst St., Altamonte Springs, died Saturday at a local hospital. Born in Okron, Ohio, he came to this city 13 years ago from Akron and was a mechanic.

Survivors: wife, Anna Mae McNeil, Altamonte Springs; son, Ronnie McNeil, Sanford; Michael McNeil, Altamonte Springs; daughters, Mrs. Bonnie Campbell, Sanford; Mrs. Pat Stanland, Altamonte Springs; Mrs. Barbara Meister, Merritt Island; Mrs. Betsy Greer, Akron; Mrs. Joni Gaylord, Stowe, Ohio; Mrs. Sandy Thorne, Titusville; Mrs. Cathy McMillan, Sanford; Miss Peggy McNeil, at home; brother, James McNeil, Marietta; Mrs. Jean McNeil, Marietta; Mrs. Patricia Morse, Ira, Ohio; Miss Susie McNeil, Richfield, Ohio.

Seminole Funeral Home, 438 SR 436, Altamonte Springs in charge of arrangements.

MRS. BESSIE LOR, 65, of 2874 Sanford Avenue, died early Saturday at Seminole Memorial Hospital. She had resided at that address since her marriage to Robert W. Lord in 1903. A native of Victoria, she was a member of Christ United Methodist Church.

Survivors include 10 children, Edna L. Norman, Nellie Fryer, Raymond, Joseph and Jerry W. Lord Sr., all of Sanford; May Jarvi, Ely, Minn.; Alice Rogers and Kay Thornhill, Dallas, Tex.; John M. Lord, Jensen Beach, and Frank Lord, Myrtle Beach, S.C.; grandchild, John M. Lord, and 11 great grandchildren.

Brisson Funeral Home is in charge of arrangements.

Speeded-Up Courts Viewed By Judges

* Continued From Page 1

Judge Salft maintains that the public should be aware of the expenditure of the tax dollar in the realm of justice much as it is done by the county tax assessor in regard to other county agencies. Along this line, it may be noted that the total tax dollar, criminal justice is costing little more than six cents, which the court feels may be a reason the public is unhappy with the performance of criminal justice in Seminole County.

In 1971, 7 1/2 cents has been requested of each tax dollar in budget requests to finance an adequate justice system. Of this amount, the budget has not been finalized. The court expresses that to have a "first class" criminal justice system in this county would take its cents of every county tax dollar, and hopefully this will be included in the 1972 budget grants.

Digressing to the civil cases in the county, Judge Salft said that the case load has been broken down into four divisions, with a judge assigned to each division. Cases were tackled, he said, dating back to 1970. The case load is increasing in the county, and has been for the last two years. Judge Salft said, with a projected 10 percent increase in the number of cases, the county is facing a serious problem.

(Continued tomorrow)

Public Notice

Notice is hereby given to all interested parties that the District School Board, Seminole County is available for purchase in its condition, approximately 16 tons of unusable and obsolete books. Any interested party should contact Mr. John Colbert, Textbook Depository, 911 S. Palmetto Avenue, Sanford. Telephone 323-0070, between hours of 8:00 a.m. and 4:30 p.m.

Sealed bids will be received by the District School Board, Seminole County, Florida, in the office of the Superintendent of Public Instruction, County Office, 202 Commercial, Sanford, Florida up to and until 1:00 p.m., Thursday, December 9, 1971 or which time the bids will be publicly opened and read aloud in the Conference room of the County School Office Building.

John Angel, Superintendent of Schools, November 22, 1971

Askew's Tax Bill Boggled In Senate

By TOM RAUM, Associated Press Writer

TALLAHASSEE, Fla. (AP) — Gov. Reubin Askew was to pass the corporate income tax bill from the voters back to the Legislature today — where he hopes within 10 more days the tax program will become a reality.

But as the special 19-day session began, Askew's corporate tax bill was bogged down in a Senate committee that wrestled with it for six hours without reaching a decision. Senate Ways and Means Committee Chairman Louis de la Parle, D-Tampa, told newsmen that despite the apparent setback, "I think the bill is in good position. And I think we're close enough, and that the thing is rolling."

De la Parle said he expected his committee would ultimately pass the governor's tax bill without difficulty—if not entire intact.

While voters constitutionally authorized the corporate tax necessary legislation to implement it. The only actual legislative action on the tax to date consisted of putting it on the ballot for a statewide vote, limiting the envisioned tax to 5 percent of profits and making it apply only to firms doing \$5,000 a year or more in earnings.

Askew hopes now to convert his resounding Nov. 3 corporate tax victory into specific tax legislation. While his main tax bill is expected to pass both houses

Dockers Ordered To Work

By THE ASSOCIATED PRESS

Federal marshals were to serve back-to-work orders today on representatives of hundreds of striking dock workers and their employers at Key Florida ports. The order was issued in Miami Saturday by U. S. District Judge James L. King against striking longshoremen at Miami, Jacksonville, Tampa and Pensacola. The longshoremen and their employers were enjoined from doing anything to encourage a strike or lock out.

But most Florida ports remained idle Saturday night and Sunday because officials said the orders were not served and there was little work to do.

Irvin Stephens, director of the Port of Miami, said Sunday passenger ship work in port and the "understaffed" most of the port's 600 longshoremen would be back on the job Monday.

"We're hoping they'll be back tomorrow giving full blast," he said.

In Jacksonville, 66 of about 1,000 stevedores worked Saturday night to unload the only ship in port.

Pensacola port director Richard Hale said no ships are due dockside Monday, but he expected the port's 150 longshoremen to return "when there's work to be done."

In Tampa, a spokesman for one of the port's stevedoring companies said he expects some 300 longshoremen to obey the court order.

Dear Abby: By Abigail Van Buren

DEAR ABBY: I am really tired off! All my life I have celebrated Veterans Day on Nov. 11. Now, all of a sudden it has been changed to Oct. 22.

I realize that when a holiday falls on Friday or a Monday it gives the working people an extra bonus of a three-day weekend, but to actually change the date of a national holiday in order to make it come out that way is absolutely stupid!

Nobody flew their flags on Veterans Day this year. And who could blame them! I just didn't see like Veterans Day. Next thing you know, they'll be changing Christmas and the Fourth of July, Sign me.

DISGUSTED IN CHICAGO DEAR DISGUSTED: If it will make you feel any better, you are not alone. I have heard from other readers who are disgusted all over. I think it all started when F.D.R. changed Thanksgiving.

DEAR ABBY: I am 13 years old and am 6 ft. 6, but that's not a problem I have always been tall for my age. My problem is what to do when I am invited to a party.

Worry Clinic

By GEORGE W. CRANE Ph. D., M. D. CASE 5-331: Dr. J. is a dental surgeon, aged 47. "Dr. Crane," he asked after my recent address before his state dental society, "I have a horrendous problem."

DEAR ABBY: Do you remember the Greenhouse kidnapping of 18 to 20 years ago? A couple arrived at a private school here in Kansas City, said they were Bobby's aunt and uncle, and walked out with the boy. He was later found—murdered.

DEAR ABBY: My "Mad in Maine" parents who were mad because an uncle took their children out of camp for an evening without their permission. The camp was badly at fault for releasing the children to anyone, even though he claimed to be their uncle.

DEAR ABBY: I'm white. DEAR FRIEND: It's people like you who keep people like me humble. Thanks for writing.

Horoscope Forecast

TUESDAY, NOV. 30, 1971

GENERAL TENDENCIES: You can now see the ways and means by which you can make your property more valuable and also do something that will enhance the character of whatever you happen to own.

ARIES (Mar. 21 to Apr. 19): Look into the new plan that will give you a sense of buoyancy and increase your income.

TAURUS (Apr. 20 to May 20): Taking those treatments that improve your health first will be better if you have a successful day in business or social life later.

GEMINI (May 21 to June 21): You are able now to gain the respect of advisors privately, so tell them what your ideas, plans are.

MOON CHILDREN (June 22 to July 21): You have to both give and take today, w.i.l.l. friends, otherwise nothing goes too well for you.

LEO (July 22 to Aug. 21): A bigwig wants to be convinced that your plan is a workable one before giving you the backing you need.

SCORPIO (Oct. 22 to Nov. 21): Endless to understand and cooperate more with the ideas of associates now and be more willing to make some of the adjustments you see. Stick to important policies.

SAGITTARIUS (Nov. 22 to Dec. 21): Plan to complete tasks you have started and put aside for lack of time, then you will come closer to the success you want.

CAPRICORN (Dec. 22 to Jan. 20): You can enjoy recreation in spare time with those you like provided you are not extravagant.

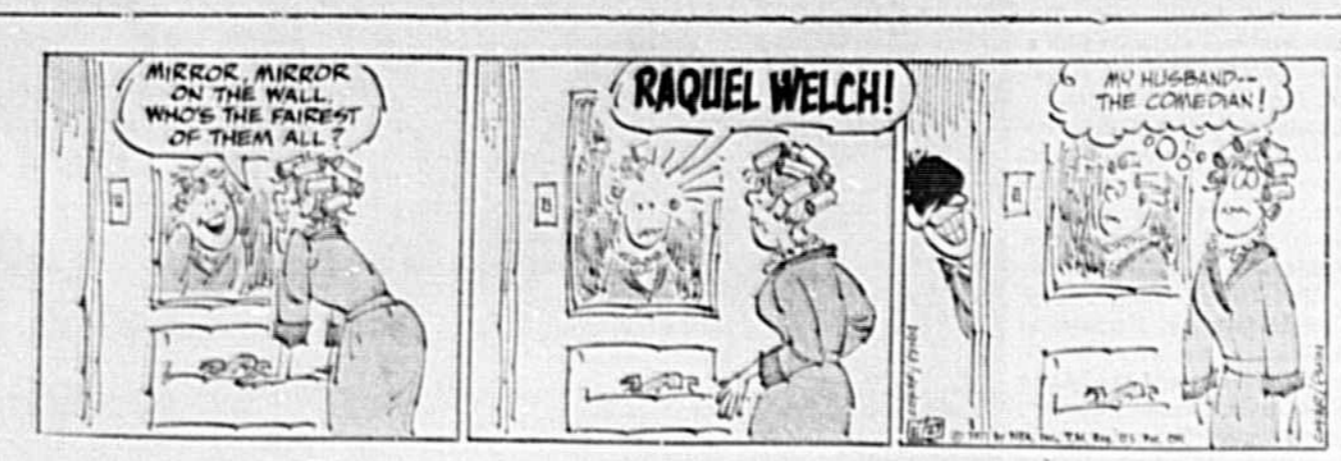

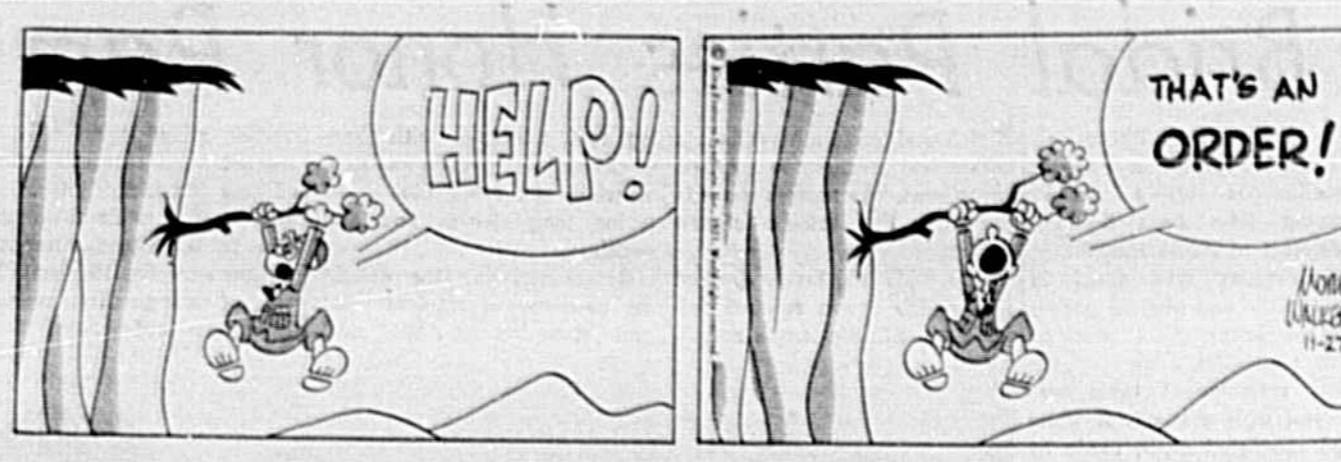

AQUARIUS (Jan. 21 to Feb. 19): If you are forceful with those at home in an effort to put your own ideas across, you find that big arguments ensue.

PISCES (Feb. 20 to Mar. 20): Study reports for accuracy and then set up a better plan for the future so your life is happier, more prosperous and satisfying.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those delightful young people who will know intuitively what to do about personal matters, but will mull over anything connected with business too long and lose opportunities.

Polly's Pointers

DEAR POLLY — I think I have a simple solution for Bill who asked how to keep her bra and girdles from turning yellow. I once worked in the quality control department of a factory that made such garments and we were taught VERY TOUGH TO BLEACH on a garment containing an elasticated material. Also, we were told that washing a few undergarments along with some white clothing in clothes bins to keep the yellow tint out. Hope this will help stamp out yellow underclothing.

Teachers Of Today Younger And Smarter

WASHINGTON (AP) — The National Education Association said today that school teachers are younger, better educated, work harder but are shunning formal organizations like the IFA.

These trends were uncovered in a survey the NEA takes every five years among a selected cross-section of the elementary - secondary teaching profession.

returning to school, 61 per cent of the responding teachers said they had earned college credits in the last three years.

The median age of all teachers is now 25 years as compared with 40.9 in 1961, the report said.

A 44-item questionnaire sent to 1,819 public school teachers drew 1,545 responses.

Improvement in the credentials held by teachers, the report showed, less than three percent lack a bachelor's degree compared with 15 per cent 10 years earlier.

Nearly 27 per cent of the teachers have earned master degrees.

In keeping with the educational community's declaration that professionals must keep

up with the times, the report said that 61 per cent of the responding teachers said they had earned college credits in the last three years.

Trinity's Opponent Undecided

As See It! by Gary Taylor

Most people think of Jai-Alai players as a bunch of Spanish or Mexican athletes that come to the United States for a few weeks to make money playing at the American frontons and then go back and spend it in their native country.

He is married and has two daughters. They live in Altamonte Springs. He lives three minutes away from the job, either way he goes. And he does go both ways.

Agustin and his wife have a beautiful home, decorated with many things brought back from Europe. While many Central Floridians have Florida rooms, Agustin is equally proud of his Spanish room.

Agustin is really quite talented in things other than playing Jai-Alai. For instance, he's a concert clarinetist. And when the players from the fronton get together for Christmas carols last year, Agustin was leading the songs.

Agustin got in a lot of practice since his father owned a fronton. It was very much similar to the family recreation centers (pool halls) that have popped up around Central Florida in recent years. People using the fronton paid by the time they spent playing, and the fronton furnished the coats and patrons. This particular fronton was almost always busy, though professional games with betting were held on rare occasions.

Agustin visited Spain at the end of last season giving him a chance to see his family. He was able to make the visit, he doesn't miss Spain, anymore.

Agustin figures he has at least four more strong years of playing, but he doesn't know just how long he'll actually play. With more and more people making The Springs their homes, he sees the day when he'll no longer be able to play Jai-Alai and hold down the job at The Springs which he has now fallen in love with.

Alberto is currently the winningest player at the Orlando-Seminole fronton. He has posted 66 wins in eight weeks of action. Last is second with 54 and Caballero, Equis and Rene all have 51 wins. Figueroa has 50 wins to his credit.

Alberto is also the leading player for the most times in the money. He has finished in the money 133 times. The next trophy night will be Wednesday night when it is Seminole County night at the fronton. The 10th game will be featured with a trophy and an added purse of \$50,000.

Beginning tomorrow at the fronton, the third and fourth games which make up the "Big 400," will be "Spectacular Seven" games... Fernik, Pedro, Altuna and Harbe are all on the injured list. Harbe is out for the season with a broken ankle. This past week his cast was removed and within a few months complete recovery is expected. The other players are expected to return to action shortly.

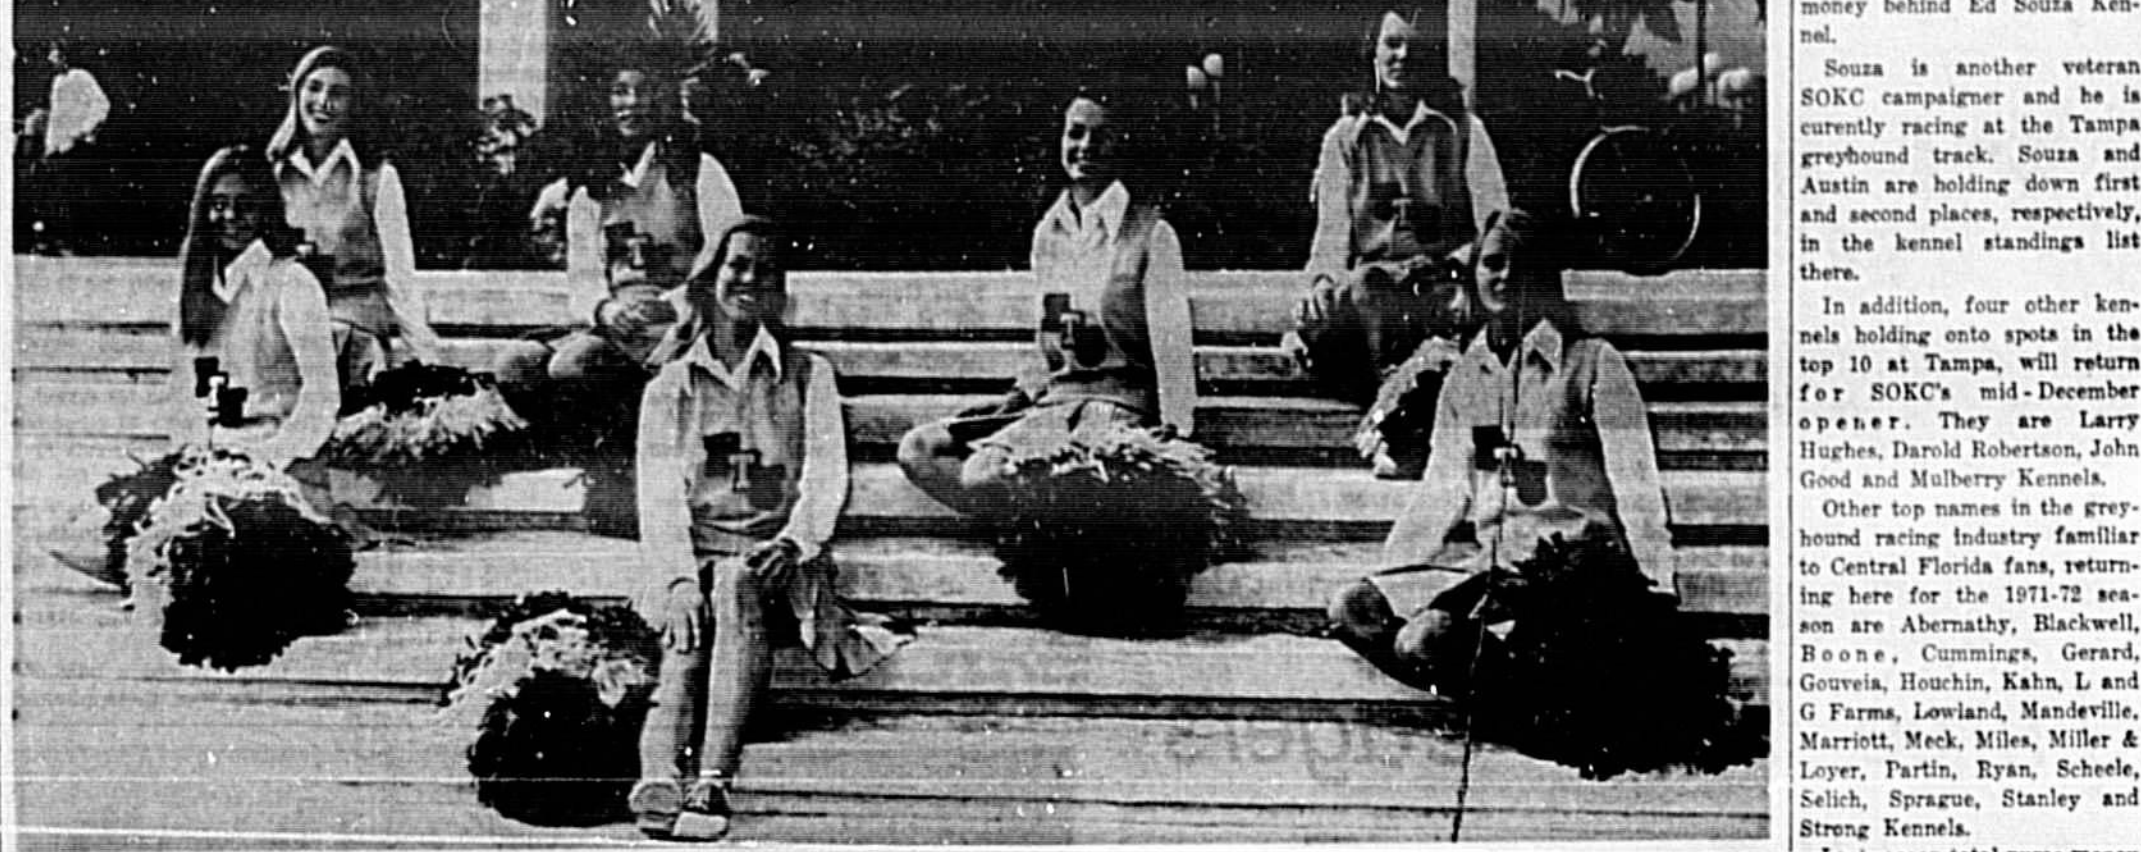

AGUSTIN AND his wife Sylvia show off the many trophies and awards he has won during his 11 years of playing at the Orlando-Seminole Jai-Alai Fronton. Agustin is now a permanent resident of the United States and makes his home in Altamonte Springs. He will soon become an American Citizen. (Gary Taylor Photo)

Greyhound Racing Opens December 17 Kennel Club Schedules Schooling Races

A line-up of 25 kennels that general manager Jack Ledoux calls "the finest we've ever had," is ready for the start of the 37th season of greyhound racing at the Sanford-Orlando Kennel Club.

Ledoux has been looking for greyhound kennels in Florida, South Dakota and Montana since 1955. "Our top kennels of all time," he said, "are all returning."

SEVEN PRETTY MAIDS — This year's crop of cheerleaders at Florida Tech University take the opportunity to show off their brand new gold and black uniforms during a break in practice for FTU's first basketball game of the season Nov. 30 at Orlando.

Starr, Namath, Jurgensen Play Three Veteran QBs See Action

By BRUCE LOWITT
Veterans Day arrived a football later for National Football League quarterbacks this year. The walking wounded, field general returning from summer skirmishes that had put them out of commission, joined the autumn off-season Sunday.

Two of them won the battles, but lost the wars. For the third, it was just the other way around. Joe Namath, exploding onto the scene in New York, tossed three bombshells en route to a 22-yard aerial attack only to miss the mark in the last minute as the Jets bowed to the San Francisco 49ers 24-21.

And Bart Starr, coolly directing the Green Bay attack, watched as his troops committed tactical blunders that sent the Packers down to a 29-21 defeat.

kennels that have camped in the past at SOKC returning this year.

The 1971-72 season officially gets underway Dec. 17 with an 8 p.m. post time. The racing will continue nightly, except Sunday, until April 24. Mat-

inee are scheduled for Wednesday and Saturday until Jan. 31, when they will be run on Monday, Wednesday and Saturday. Prior to the opener, eight days of schooling races, open to the public, are on tap. The schooling races begin Dec. 6 with action getting underway at 7 p.m. each night. There is no admission charge for the schooling races, there will be no betting and children are invited to attend.

Seven new kennels on the scene at SOKC are C. L. Brotherton, Frank Conroy, Tom Crawford, Bud Richardson, Frank Scott, Frances Williams and Thorncrakk Kennels.

Souza is another veteran SOKC campaigner and he is currently racing at the Tampa greyhound track. Souza and Austin are holding down first and second places, respectively, in the kennel standings list there.

In addition, four other kennels holding out spots in the top 10 at Tampa, will return for SOKC's mid-December opener. They are Larry Hughes, Darold Robertson, John Good and Mulberry Kennels.

Last season's total purse money paid to greyhound owners reached an all-time high at \$4,000,000.

Tide Will Be Thinking About Nebraska...Now

By HERSCHEL NISSENSON
Associated Press Sports Writer
"Coach Bryant is a great coach and a good friend of mine," Nebraska's Bob Devaney was saying last Thursday following the Cornhuskers' 35-10 victory over Oklahoma, "but he's given me a lot of trouble on the ball field."

Devaney watched the Alabama wrecking crew demolish Auburn on television and said the Tide looked "very powerful."

Minor Draft Opens Baseball Meetings

By KEN RAPPAPORT
SCOTTSDALE, Ariz. (AP) — Any major league team willing to spend \$25,000 could have Tony Conigliaro or Cleo Borner today as baseball launched its winter meetings with a draft of minor league talent.

Laydown Nets Reaves A Record

By THE ASSOCIATED PRESS
Eleven players flopped down on the Orange Bowl's Poly-Turf Saturday night, but they didn't slip because of the controversial artificial surface.

Standford's 1970 Heisman Trophy winner, Jim Plunkett, said he was disappointed that he didn't turn the trick Saturday, the son of a 43-6 drubbing, was turning while the Gators went wild over his performance.

ROBERT SPARKMAN of Orlando got a chance to meet Roy Rogers and Dale Evans when they appeared at the Orlando Sports Stadium rodeo.

Sparkman, who has worked at the Sports Stadium for four years, is the father of Ricky Sparkman who plays baseball for the Seminole Junior College Raiders.

The laydown net prospect also hit four touchdowns to establish a new Southeastern Conference career record of 34. The old record of 33 was set just two weeks ago by 1971 Heisman winner, Pat Sullivan of Auburn.

Another strong armed quarterback, Florida State's Gary Huff, paced his Seminoles to a comeback behind victory over Pittsburg before a small holiday crowd of 19,292 in Tallahassee Saturday night.

Wooden Surprised By Poll

Yule Boat Parade Slated On Dec. 19

By BILL SCOTT

Flotilla 41, Sanford unit of the U.S. Coast Guard Auxiliary, is starting a colorful boat parade on Lake Monroe on the evening of Dec. 19 to celebrate the Christmas season. The parade will start at 6 p.m. and will include boats of all sizes and types from 15-foot runabouts to 35-foot cruisers, all gaily decorated and lighted in a Christmas theme.

Parade staging area will be between the I-4 and U.S. 17-92 bridges at the west end of Lake Monroe. The public boat ramp at south side of 17-92 bridge and the county boat ramp on the north side will be available for launchings but participants are required to check in prior to 5 p.m. on the parade evening.

Boats will make a complete circle of the lake, starting at the west end of the I-4 bridge, then follow a course along the south shore past Holiday Isle, across the lake by Stone Island, Enterprise, the power plant and back to the I-4 bridge.

Most participants will be using small twinkly type Christmas lights, wired in parallel. These lights work with a 12-volt battery. Other boats will use regular tree lights, obtaining power from 110 volt generators and inverters.

All Central Florida boat owners are invited to join the parade and the more boats entered the better the parade, says William Winn, Coast Guard spokesman. "All boat clubs and boating groups in the area are invited as well as civic clubs and others," said Winn.

Additional information may be obtained by telephoning Winn at 322-5128, Leonard Pawson at 323-3543 or James Hoening at 322-3484.

By JOHN A. SPOLSKI

Santa Claus telephoned the news room to offer his services gratis after the Christmas parade Thursday evening to those parents who would like to snap pictures of their offspring with him. "I'll give the extra time after the parade at the Joyce building," said Santa (who then added for the benefit of the health-conscious). "You might mention I have a health card if anyone would worry I may spread germs."

The people in Sanford are really putting the engraving tool to good use ... but unfortunately it cannot be said the same for those other areas, like Oviedo, Longwood, Altamonte, Geneva, etc.

It doesn't cost you a penny ... you borrow the tool, engrave your name and phone number onto your valuables and more than likely, if it was ever stolen ... it'd be returned.

Better than that, if you do engrave your valuables, you will receive a window sticker. "We have joined operation identification. All items of value on these premises have been marked for ready identification by law enforcement agencies."

No crook would even make the attempt to break into your home knowing this beforehand ...

Help the cops by first helping yourself!

Always a pleasure to hear and report of the "honest man" ... 4th grader Jay Jessup had a check made out to "cash," which would cover the cost of his school photographs.

He lost it on the way to school.

A telephone message was relayed to Mrs. Jessup from Margaret's Grocery Store in Midway that a Red Finley (an adult) found the check while walking along the highway, stopped off at the store and asked the store clerk to please call the family and let 'em know that the check was found. My personal salute of the day ... to Red Finley.

LEADING the celebration tomorrow on behalf of Winchester Mobile Homes will be (left to right) Louis Taylor, comptroller; James Goforth, general manager; and Richard Wood, sales manager.

Winchester 'Rolling'

A list of 40 persons, including the reigning Miss Florida, Barbara Jo Ivy, of Winter Park, is expected to be on hand Wednesday at a celebration marking the completion of the first mobile home by Winchester Mobile Homes at its new plant on Sanford Avenue in the former H. L. Hunt facility.

Miss Florida will "christen" the first home to roll-off the local production line by breaking a bottle of champagne across the front of the unit. (Related photos page 5A.)

Other dignitaries invited to participate in the ceremonies, scheduled to begin at 11 a.m., include officials with TUFTCO, a Chattanooga (Tenn.) conglomerate of which Winchester is one of 11; city, county and Chamber of Commerce representatives.

TUFTCO purchased the long-closed Hunt naming plant in September for a reported \$10,000. Included in the purchase was 11.4 acres of adjacent land. An option for another 13.4 acres also was taken by TUFTCO for what is expected to be an expansion here of a new facility to be constructed later.

In addition to the Sanford operation, Winchester has two plants in Winfield, Ala.

When full production is reached, expected in mid-1972, the Sanford facility is expected to be utilizing 21 assembly lines, with an estimated 400 employees, in the 117,000 square foot plant.

New Buildings Required Three Firms Seeking Port Sites

Three firms are negotiating with the Seminole County Port Authority (SCOPA) to locate plants at the Port of Sanford site west of Sanford near I-4.

This was disclosed at Monday night's SCOPA meeting by port administrator James Ryan, who advised that each would require a railroad spur.

George Jackson and his son, owners of Southern Shortening, an oil supplier to bakeries, attended the meeting and indicated a desire to locate at the port site.

Jackson needs a building in which to move his present operation from Greenway Avenue to the port site to boost employment from 29 to 50 persons.

Ryan further disclosed that Wenoco Crane Manufacturing Company, Pittsburgh, already had submitted floor plans describing its needs for a building at the port. Plans call for immediate employment of 25 persons with additional employees to be added as business warrants.

Ryan reported that attorneys are working to formulate a lease with Atlantic ReBar Steel, which includes a loan for \$170,000 from South Seminole Bank at a reported 5.78 per cent interest.

Atlantic ReBar is expected to remove to the port from Pompano Beach and reportedly will have approximately 50 to 75 employees installed at Oxford Road, a reported 5.78 per cent interest.

In other port developments, Ryan reported the site will be faced with sewage disposal problems as the area is filled with industry. James Wagner, authority member, opined that users at the port should be the ones to pay for the expense of building a sewage disposal facility.

The board, on a motion by Henry Schumacher, approved an arrangement by which the port would transfer \$5,000 from the funds to match an equal amount from the new Seminole County Industrial Development Authority and allow the industrial board to advertise for both au-

Traffic Problem To Askew

CASSELBERRY — Appeal to Gov. Reubin Askew for immediate temporary relief for the traffic congestion at the intersection of U.S. 17-92 and SR 436 and its environs was requested by the City Council last night.

Immediate remedies suggested by the Council in a resolution ordered prepared by City Attorney Kenneth Melstos included "but is not limited to extension of turning lanes, elimination of parking lanes particularly on the south side of 436 west of 17-92, rephasing of the traffic signal in order that 17-92 not be favored, closing in the median opening on 436 to Lakeview Avenue to stop left hand turns there and banning of left hand turns onto Oxford Street."

Following discussion by Councilman Thomas Napier, concerning his request made over a year ago that a traffic signal be installed at Oxford Road, Mayor Curtis Blow reported installation of signals are planned at both Oxford and 436 and at Seminole Boulevard and 17-92.

Letter from Police Chief George Karcher was read to the Council showing that 260 accidents occurred at the intersection and its immediate environs in the period from January 1 through Nov. 22.

Karcher said many of the accidents were "serious ones." The chief said there were 97 accidents during the period at the intersection; 36 at 436 and Lakeview; 18 on 436 east of Oxford; 33 on 17-92 north to Piny Ridge; 20 on 17-92 south to Prairie Lake; 17 on 17-92 at Seminole Plaza; and 24 on 17-92 at Wards and Public.

Although Napier insisted that published reports indicate action is to be taken soon after the first of the year on modifications of the intersection, Council Chairman Edith Durrer said complete redesign cannot be begun until additional right of way is obtained and this might take a considerable amount of time.

The immediate relief requested in the resolution ordered prepared by the attorney and authorized executed by the mayor with copies to the state Department of Transportation and the County Commission is asked pending redesign of the intersection.

TWO VEHICLES OVERTURN

A DUMP TRUCK (lower photo) and a small foreign car (top photo) overturned following a collision this morning on SR 436. Driver of the car, Monica Rothschild, Casselberry, suffered a broken nose, sprained shoulder and bruises. Earl Leffer was driver of the loaded truck. The car was totaled and the truck damage was estimated at \$10,000.

Political Pot Boils In Longwood Race

By DONNA ESTES

LONGWOOD — The political pot was boiling over in the city today with angry statements issued to the Sanford Herald by three candidates in the Dec. 7 municipal elections and by two candidates who have withdrawn from the race.

One candidate laid blame for political unrest in the city at the door step of an out-of-county newspaper attributing statements to Edward J. Candiff and Theodore Maxwell endorsing candidacy of Richard Cronshaw and William Klovas and interfering E. E. Williamson as running with the two as a slate.

Williamson urged the city voters to consider the qualifications of each candidate seeking election and to make their own choices without pressure from anyone. He stated that he presents any group running for office using his name. "I would hope the people of Longwood would consider my efforts on their behalf in the past and return the favor. I will do my best to work with anyone else they choose to stick," the senior member of Council stated.

Williamson at the same time said he will bring before Council at its 7 p.m. meeting today the question of whether the numerous political signs posted throughout the city, especially a large illuminated sign at the intersection of SR 434 and SR 437, are in violation of city law. "If we do not have a sign ordinance for whom to vote," he said.

Other dignitaries invited to participate in the ceremonies, scheduled to begin at 11 a.m., include officials with TUFTCO, a Chattanooga (Tenn.) conglomerate of which Winchester is one of 11; city, county and Chamber of Commerce representatives.

TUFTCO purchased the long-closed Hunt naming plant in September for a reported \$10,000. Included in the purchase was 11.4 acres of adjacent land. An option for another 13.4 acres also was taken by TUFTCO for what is expected to be an expansion here of a new facility to be constructed later.

In addition to the Sanford operation, Winchester has two plants in Winfield, Ala.

When full production is reached, expected in mid-1972, the Sanford facility is expected to be utilizing 21 assembly lines, with an estimated 400 employees, in the 117,000 square foot plant.

Bulletin

TALLAHASSEE — (AP) — The House voted today a "profits tax" on municipally-owned utilities as Gov. Reubin Askew's supporters fought to blot out corporate income tax credits granted to private utility companies.

The amendment to tax all funds transferred from municipal utility revenue to other city funds, passed by voice vote.
