The Junior League is undertaking this work with only one aim in view—A MORE BEAUTIFUL SANFORD. Among reasonable things for pres-

ent planting are:

Roses—in fine variety, forty cents each, or four dollars per dozen. Half dozen at dozen rates.

Hibiscus—including the beautiful Peach-blow, at \$1.50 per dozen, 15c per plant.

Palms, shrubs of various kind and ferns. Among the latter it may be well to mention the handsome Cibotium Barometz, which grows so well in Sanford, and is seen in such beauty at the home of Mr. H. R. Stevens. These may be bought, very strong plants at 25c each or \$2.50 per dozen.

It is hoped that the Civic League may have a very large response to their first venture in plants.

A GOOD MEETING OF THE COMMERCIAL CLUB HELD

MEMBERS DESIROUS OF GIVING SMOKER THIS MONTH

The Sanford Commercial Club held a most interesting meeting last Friday night in the city hall that was well attended. President Lake called the meeting to order but as the secretary was absent the minutes of the last meeting could not be read, although the President remembered enough of the proceedings to call for reports of the various committees. It was discovered that all of them have been on the job and many new members have paid their dues and the finance committee will soon have a comfortable sum on hand for the winter's work. The up town ticket office will be established as much for an information bureau as for the sale of tickets and will be a great convenience for the tourists. A committee was named for investigating the laxity of the Southern Express Company, in closing their up town office during the business hours and it was also decided to ask them to call for packages to take to the office at the depot as they have not been doing this. All other cities have this convenience and the express company should do this in Sanford as well.

A committee was also appointed to make preliminary arrangements for a smoker the same to occur sometime during the month and being a general get together in which the citizens of Sanford will be invited and a general resume of the work of the club be given and also an outline of the work to be accomplished during the year. On account of the work that has devolved upon Tax Assessor Bates he will be obliged to give up the position of secretary of the club and at the next meeting a new secretary will probably be elected to fill out the unexpired term.

The next meeting will be held in the city hall on Friday night, Oct. 23rd and a full attendance is desired. The club is constantly growing and every citizen of Sanford who has the good of the city at heart should enroll and become an active member.

This program was enjoyed by all present. At the close of our meeting our pastor presented the union with a pennant and was accepted by our president and she explained in a few well chosen words what we had done to win this pennant, of which our union is quite proud. Our meeting will be held every Sunday evening at 6:30 in the church. We were certainly pleased to have so many visitors and again extend to all a cordial invitation to attend with us.

Next Sunday evening the program will be rendered by Group No. 3, Miss Edith Stewart Captain.

Hon. Josephus Daniels, secretary of the navy, is going to send a war vessel to Europe to be filled with Christmas presents for the little "kiddies" on the other side. This will make the little ones love "Uncle Sam" and we all ought to join in that love. "If ye do it unto one of these little ones ye do it unto me."

PRESIDENT WILSON DECLARED GREAT PEACE MAKER

GLOWING TRIBUTE PAID TO CHIEF BY SPEAKER CLARK

Atlantic City, Oct. 13.—Tribute to President Wilson as a peace-maker of a fervent hope that the war in Europe might soon end marked the first speech of Speaker Champ Clark in the fall campaign delivered here tonight in advocacy of the renomination of Representative J. Thompson Baker.

"Perhaps—who knows," said the Speaker, "when President Wilson has finished his course as Chief Magistrate of this mighty Republic and when historians come to assign him his place in history, they will pass over the great domestic measures of his Administration such as a tariff revision, currency legislation, etc., and declare that his efforts to keep the United States out of war constitute his clearest title to the gratitude of his country."

"President Wilson expressed with great felicity the sentiments of all true Americans when he tendered his kindly offices to the belligerent powers in order to stop the Titanic struggle across the seas," said the Speaker. "For fortunate in his own of advantage happy in the confidence of a powerful people, let us hope that he will succeed in his philanthropic endeavor and that upon him will rest the blessing vouchsafed to the peace-makers in the Roman on the Mount."

The Speaker reviewed the work of the Democratic Administration by giving "We have put upon the statute books in one session of Congress some of the most important legislation that has ever passed by any Congress in the entire history of the Republic except the first Congress."

Kissimmee Kissimmee

Kissimmee entertained the October meeting of the South Florida Press Association on last Friday and the representative of The Herald who attended the meeting returned with the assurance that the next meeting of the Association will be held in Kissimmee.

The city from the railroad a number of times we some way had gained the impression that it was nothing more than a nice little village, but what was our surprise to find a modern metropolitan little place with up to date stores and streets and handsome residences and as fine a class of people as it is possible to meet.

We were driven to St. Cloud during a lull in our session and there we found a little city only four years old which for its age is a marvel, and furthermore is a live one. We were entertained in St. Cloud by the ladies (God bless 'em) who were all members of the City Improvement Association. In fact, it is whispered confidentially that the ladies are the whole thing in St. Cloud and that the men simply let them run it. Whether this is the case or not it is certain that the job of running the town is well done.

Florida holds many surprises in the matter of beautiful little cities, but certain it is that Ocala county comes in for her share.

WAR SUMMARY

NO NEW DEVELOPMENTS IN EUROPE'S WAR—FOOD IS SCARCE IN BELGIUM

The Hague, By Way of London, Oct. 12.—The Belgian Legation asserts that conditions in Brussels are alarming owing to a scarcity of food and other supplies. During the siege of Antwerp, it is said, no Belgians were allowed to leave Brussels unless they had special passports.

The number of Belgians in Holland is estimated at close to half a million. Holland probably will not be able to meet indefinitely the problem of feeding them.

It is stated that the German soldiers are active in mastering the fire in Antwerp which are almost subdued. The Germans agreed in the terms of capitulation not to disarm the civic guard or make prisoners of males between the ages of eighteen and thirty years. It is rumored, says another dispatch, that Antwerp will be obliged to pay a large indemnity.

Official war news was brief today, but war office statements are not needed to make plain that momentous results hang on the fortunes of the desperate battles being waged at vital points on that line that stretches from Switzerland through northern France to cover Switzerland through northern France to within 25 miles of the Straits of Dover.

The heaviest fighting is on the line of Lassigny and Lens. This terrain's official report from Paris says the allies repulsed German attacks between Arras and the Oise and that cavalry engagements took place in the region of La Bassée, Estaires and Hazebrouck.

Special attention is directed to the front. There have assembled the greater part of the Belgian army, about two thirds of the British forces that escaped from Arras, and it is believed Germany is preparing forward to attack the city hoping to

capture and use the port in her operations against England.

A bitter struggle to keep the Germans from the coast is inevitable. Today's reports indicate that the German cavalry advance is less than thirteen miles from Ostend.

The strength of the allies at Ostend is not known. It is possible that British reinforcements which were unable to reach Antwerp in time to help in the defense of that city are now in Ostend.

Still less is known of the situation in the eastern theater of the war. Petrograd is silent on recent developments. The Russian war office explains this silence on the grounds of strategy. Vienna claims the Prussian attack on Przemysl, the strongest fortress in Austria Galicia has failed. Berlin asserts that the Russian on the east Prussian frontier has been checked while the Germans are steadily working eastward in Russian Poland.

Neutral sources report that cholera is spreading in Austria.

German armies dropped bombs in Paris this morning. The missiles struck in the yards of the Northern railway station but failed to explode.

The United States has sent 400,000 lbs. of foodstuffs to the good old state of Alabama as an allowance of 30 cents a day for feeding prisoners, reports a crop of eighteen hundred quoths. Have several hundred to be sent to the United States. Water from the Ohio river is being used to irrigate the crops.

The light of water for support.

THE BRICK ROADS INJUNCTION

SIGNERS OF PETITION FOR INJUNCTION MAKE REPLY TO TIMES-UNION ARTICLE

It is better to keep home affairs quiet and settle our differences among ourselves. With this idea in view the Herald has not allowed the road injunction space but since the articles have appeared in the Times-Union, one of which was copied in the Herald the other side of the controversy are entitled to a reply which appears below over the signature of the original signers of the injunction. The affair has been an unfortunate one and will be settled in a few weeks in the supreme court. Meantime no more articles on the question will be published and the matter has only been taken up so far to dispel the doubts in the minds of some of our northern subscribers who were afraid the roads will not be finished. For their benefit we wish to say that the injunction will soon be settled and the roads built, as far as the money will allow them to be built. Here is the statement signed by the petitioners, whose names appear below (Editor Herald):

The petitioners for the "Brick Roads Injunction," realizing that this was a matter of law and justice, and having submitted the case to the courts, have avoided any effort to influence the courts or even bias public opinion by trying the case on the street corners, or through the columns of the newspapers. For nearly a year they have submitted to adverse criticism of their position in the matter without resentment or reply. The petitioners for the injunction are: S. O. Chase, H. H. Chappell, D. R. Brisson, L. A. Brumley, Joe Cameron, G. E. Smith, W. A. Gibb, T. J. Hawkins, Bert Fish, Cliff Hull and J. N. Whetner.

Recently there seems to be an effort to make one of our number responsible for what has been done by a dozen and a spirit of fairness compels us to submit to the public a brief statement of the facts in the case:

At the October, 1912, meeting of

the board of county commissioners of Orange county a petition was presented asking that the roads voted for in the election establishing a road district in and around Sanford be charged to take in certain roads not contemplated in the election and naturally changing the specifications of others. In the absence of the county attorney, Hon. W. L. Palmer, the petition was granted without an opportunity for hearing from any who might oppose the change. Immediately some of the petitioners for injunction became alarmed, believing that it would jeopardize the validity of the bond issue and make it impossible to levy and collect taxes should any tax payer, and especially a non-resident, see fit to contest the matter, and furthermore believing the change unwarranted. We therefore took counsel in the matter and Mr. T. E. Wilson of Sanford, who drew the original petition for the road district was absent on his vacation north, a transcript of the proceedings had was sent him for advice, the following is his reply:

"Your letter of the 19th inst. enclosing resolutions passed by the city council of Sanford, Fla., and copy of minutes of the county commissioners both referring to change of route advertised and voted for in re bond issue of Special Road District No. 1," duly received. Neither the county commissioners nor the city council have any authority to change the route or routes in any way which were advertised and voted and all the funds realized on the sale of bonds may be applied to the routes advertised and voted for and to none others. It would be a misapplication of funds for which the trustees would be liable if they applied any portion of the funds arising from the sale of the bonds to the payment of any other road or roads than those set forth in the

REGULATE THE SHIPPING OF CONTRABANDS

COTTON TO BE CARRIED ON ALL NEUTRAL VESSELS

Washington, Oct. 13.—Continuing its policy of forging out a complete code for regulation of shipments of ammunition products, not only to neutral but the belligerent countries, the state department today announced a decision relating to exports of cotton seed oil. The decision marks a distinct advance in the exemption of semi contraband goods from seizure when carried in American bottoms.

This declaration in effect is that American trade in cotton seed oil in neutral bottoms is not subject to seizure or detention, not only when destined for neutral countries, but when shipped to Germany, if not intended for military uses. The British Government has assented to so much of the proposition as relates to shipments to Holland of neutral goods, such as food stuffs which The Netherlands Government has embargoed for exportation.

The secretary's opinion goes beyond the mere matter of cotton seed oil and lays down the principle that cotton is not contraband and is not subject to seizure even when shipped to a belligerent country, providing it is on American or other neutral ships and therefore there is no impediment to the shipment of American cotton to Hamburg consigned to German shippers.

Stole a Car

Two young men were caught here early Monday morning by Officer George Howard upon 5th street, a car from Orlando. The men had been working in an Orlando hotel and decided to skip to Chicago and not wishing to walk stole the hotel proprietor's car and came this way. Officer Howard on the look out for them caught them on the Orlando Sanford road and made them climb from the car. They were taken back to Orlando by the Orange county deputy and will face the court there. They had a bull dog revolver on the front seat when arrested by Officer Howard but promptly put it away and were free of the effects of the officer's search upon their return to Orlando. The wheel and ran the car down to the city bastille where they were put on ice waiting for the Orlando officials.

Members and visitors urged to come by order of W. M.

O. L. TAYLOR, Secretary.

Woman's Club Notice

The music department of Woman's Music Club will give their first program for 1914-15 in the Congregational church Saturday afternoon, Oct. 17th, at 3:00 o'clock. For special reasons the year book date of Oct. 20th is changed to Oct. 17th.

Fine Sweet Potatoes

While the editor was absent from the office on Saturday Alfred King, who has a fine place on the west side brought in some fine sweet potatoes and as we did not see him we will thank him publicly for the gift. They were great and if we had sufficient to last the winter would not particularly care about the high cost of living.

The educational authorities of Miami have taken another step in advance and have decided that they will require the school children to be inspected as to their physical condition. The Dade County Medical Association has been asked to recommend a plan by which this can be done most satisfactorily, and if the suggestions of the physicians prove practicable they will be carried into effect. The county superintendent was authorized by the county board at its last meeting to order all of the appliances necessary to establishing the departments of manual training and domestic science in the Coconut Grove school. Accommodations will be provided for sixteen girls and the same number of boys.

CONGRESS WILL ADJOURN THIS WEEK SURE

WAR REVENUE NOW READY FOR SENATE'S ACTION

Washington, Oct. 13.—Administration leaders in Congress are making every possible effort to wind up the long session by next Saturday night, with the assurance from the President that it will be unnecessary to return until the first Monday in December.

While no new legislation is to be permitted, there is no certainty, however, that action on the war revenue bill can be completed within the week. When it has passed the Senate, a conference will be necessary, and the prospect is that it will be October 20 before Congress can adjourn.

"We will expedite the bill in the Senate as much as possible," said Senator Simmons, Chairman of the Finance Committee. "Democrats are not disposed to change the measure as it came from the caucus. We all realize that war revenue is necessary and we believe the bill is the best that can be devised at this time."

Republican Senators are not inclined to prolong debate. Several minority leaders have declared they would help bring about early adjournment as soon as assurances were given of a definite purpose to end the session without a recess.

Such is now the Administration program.

In the House the bill to pave the way for ultimate Philippine independence probably will be passed within a day or two. Following that the House will mark time awaiting Senate action on the war revenue measure. Some Democratic members will continue their agitation for legislation to benefit the cotton situation.

Douglass in Orlando

Mr. E. A. Douglass of Sanford is spending the day in Orlando, looking after his working force who are getting out the new set of abstract books for Seminole county.

"We furnish the individual with an abstract a document that requires no attorney to pass upon it, as the transfers are," said Mr. Douglass, "and it will require two years to complete the work of making the entire transcript of Orange county. In the mean time we are furnishing abstracts to our customers."

Mr. Douglass is the clerk of Seminole county and is quite enthusiastic over the work which he and his company have inaugurated. Reporter Star.

The Tampa Times says that Luke McLuke is running to seed when he shoots off such an old chestnut as the following: "Before marriage he thinks she is the dearest girl in the world; after marriage, when the bills come in, he knows it." We thought that, ancient as it is, one of the best things Luke McLuke has given us.

A man up in Maine was shot the other day because the gunner took him for a mouse. Didn't know that the feeling up there was so intense against that party as to cause the taking of such desperate steps, although the vote the other day was pretty heavy.

When the Cannon booms
When the snaredrum rattle fiercely
And the feet of men in khaki ham-
mer time out on the pave,
It is easy to be brave;
It is easy to believe God is angry
with the other man, our brother,
And has left the sword of Gideon in
ward hand,
When the cannon booms
When the battle flags are fluttering
and men are going mad
With the blind desire for glory,
Filled with vision grand and gay,
It is easy to assent
To the Corsican blasphemer's scold-
ing creed;
It is easy to believe God is with the
big battalions,
Whether cherubim or hellions,
When the cannon booms.

When the cannon booms,
When the primal love of fighting
stirs the tiger in our blood,
And the fascinating smell
Of the sulphur fumes of hell
Rouses memories of the pit from
which our human nature rose
It is easy to forget
God was found not in the earthquake
in the strong wind, or the fire;
It is easy to forget how at last the
prophet heard Him
As a still small voice,
When the cannon booms.

When the cannon booms,
When the war lords strut and swag-
ger,
And the battle ships are plowing for
the bitter crop of death,
While the running rends the ear
EcMoing from the empyrean,
It is difficult to hear
Through the din the Galilean
With His calm voice preaching peace
on earth to men!

'Twill be easier to claim
If we will, the Christian name,
To become as little children and be
men of gentle will,
When the cannon booms, the cannon
booms no more

of the finest edifices in the state when
completed. All of the people of San-
ford, young and old, have come to
realize that Sunday is a day to go
to church and in a few years the man
who does not attend church will be
looked upon as an outcast in society.
Just as public sentiment is gradu-
ally putting booze out of business
just so surely are the churches clos-
ing the net around sin and wicked-
ness and bringing all classes to real-
ize that in the church lies the road

not only to success but to a better
feeling daily that you are performing
your duty to God and man and your
duty lies first in remembering the
Sabbath day and keep it holy. I
can well remember the time when
men thought nothing of hunting and
fishing and doing other stunts on
the Sabbath and I am glad to note
that these same men are not doing
this today. Maybe they are like
myself, getting nearer the judgment
day and giving more thought to the
hereafter, but I really believe that
the whole world is getting better in
this respect and that we are growing
better instead of worse. Certainly
I can speak intelligently of Sanford,
my home town, and truthfully say
that all of us are getting better. The
large attendance at Sunday school
and church proves the truth of this
assertion.

One hears a lot nowadays about
being a good mixer in this business
and that position, and there is more
to it than you would imagine at
first blush. The man or woman who
is a good mixer can usually pull
along through life more easily than
the one who finds it difficult to make
friends. This is even true in the
schoolroom, as the following from a
Utah paper would indicate:
"We were recommending a teacher
to a certain county superintendent
recently, and the first question he
asked was: "Is she a good mixer?"
"Mixer?"

"Yes--will she mix with the people
or will she simply rotate in the class-
room, and when school hours are
over, hide away with her nose in a
book?"

We had to admit that she wasn't
a very good mixer.

"Well, then, we don't want her,"
was the reply. "We are looking for
teachers who will get out among the
people; take a live part in the com-
munity; we need intellectual leaders
for our parents as well as children,
not mere hermits or lesson givers."

The explanation put the teachers'
work in something of a new light.
It had always been a kind of un-
challenged idea with us that the only
really necessary qualities in a teacher
were scholarship and pedagogical
skill. But we wonder now.

"Good mixer?" Is that one of the
first essentials after all?

Come to think about it are not
the teachers who get out among the
people generally the most successful?
Some of them even seem to succeed
very well indeed, even though their
scholarship is not the highest, while
others with all sorts of titles to their
names often utterly fail as teachers.
Is this because the one is not a
"good mixer" while the other is?

Not for the world would we under-
rate the need for earnest study and
ripe knowledge in a teacher. But to
be a student and scholar is not to
be a mere bookworm. The best
students use books--many of them--
but they don't stop there; they
study life in all as well. The only
way to study life is to mix with it,
to enjoy it, to appreciate it.
To be a successful teacher needs
more than mere scholarship, it needs
leadership. No one can lead people,
young or old, who does not know
how to be one with them, who has
not social tact, poise, address, who
is not a "good mixer."

If every man in Sanford could
look on the bright side of the city's
or the county's affairs instead of
persistently knocking every improve-
ment as some of them do there is no
telling just what we could accom-
plish this winter. For instance there
every one has been interested in for
many years and something that
seemed as if it never would start.
Well, it has been started and yet
instead of every man in the city
taking up the work and giving the
people half a chance they are per-
sistently and systematically knock-
ing the bulkhead and what makes
me sore is the fact that the men
who have the most to say about the
work are those who have never been
down there to see what has really
been accomplished. In talking with
a few men the other day I was actu-
ally surprised to hear so many dis-
paraging remarks made about the
bulkheading and asking them about
their particular kick found out that
they had never even been down
there to see the bulkhead or the
concrete pilings or the new machin-
ery and had never gone into the
matter deep enough to realize what
a big undertaking it is. Now, if you
know nothing about this work and
never put your shoulder to the
wheel to help it along what in the
summer breezes do you want to kick
about it for?

It is much better for the knockers
of Sanford to sell their hammers
and buy a horn, for it is just this
spirit that is holding the town back
and will always hold it back. The
people who do the most knocking
are the ones who have never tried to
assist in any good progressive move-
ment and never will. They can
stand around with their hands in
their pockets and tell the rest of us
just what to do and how to do it,
knock every public enterprise and
scare every new man away from the
town but as far as doing anything
for the good of the city themselves
well, they have never accomplish-
ed it yet and never will by their
pessimistic knocking spirit.
Verily, Sanford needs a few first
class funerals.

PLEZOL is the one best fountain
drink.

THE NEXT SPEAKER

The Florida Grower continues to assist in the candidacy of Forrest Lake for Speaker of the House by knocking him and in the last issue states that Lake will soon issue a statement regarding his stand on the Green Fruit Law. The editor of The Herald knows nothing about any statements that Forrest Lake may issue regarding his position. If we were in his position in state politics no statements would be forthcoming about his stand upon the Green Fruit Bill or any other bill in which he may or may not have been interested.

OUR OPPORTUNITY

If all reports of the traffic men of the big railroads operating in the south are true Florida will have a record breaking crowd this season. This being so it behooves us to be up and doing in the matter of entertainment for those who will be in our midst. Sanford will not have her new tourist hotel finished in time for this season's guests but there are a number of smaller hotels and places where the visitors can be accommodated.

the lower house of the legislature will make for itself a record which will be pointed to with pride for years to come.

THE AMENDMENTS

In this issue is an article on the Constitutional Amendments to be voted upon in the November election and it behooves every voter to study them well, especially the one mentioned. Hon. Robert McNamee, editor of Dixie and one of the most prominent attorneys of the state has the following editorial about the judiciary:

by far the most important thing that confronts the public of Florida, is the Constitutional amendment which applies to conferring power upon the legislature to expand the judiciary system for the present needs of the day. Circuit judges, twenty-five years ago, were in a position to administer the litigation of the public on account of the comparatively small number of people in each judicial circuit.

However, not only has the population of Florida practically doubled in the last three decades, but the volume of litigation has become exceedingly heavy in every circuit in the state. This can be accounted for on account of the increased values in lands, the immense number of transfers of the same and the litigation that necessarily arises from a complicated modern land business.

Great numbers of corporations have sprung into existence, large private rights are involved and the civil business, therefore, has augmented almost in arithmetical ratio proportion. This is a very serious business question for the people of Florida to determine. Every elector should vote for this amendment, because at this day and time the Legislature is the body that should elastically and speedily operate when more judges are required to administer the public business.

Duval county, with two judges is overwhelmed with work. The eleven circuits of the state of Florida are having the judges overworked for many reasons. The salaries of the judges are not commensurate with their distinguished abilities.

All these questions should be left to the intelligence of a legislature whenever the needs actually arise. The people of Florida can trust their representatives in the legislative bodies. They have always in the past guarded the public economies of the state and they can be trusted in the future to create no more courts than are absolutely necessary to speedily transact the necessary litigation of the public.

I hope each newspaper in the state of Florida will comment favorably upon this amendment. I hope each newspaper will see the necessity of passing the word along to the electors to single out the judiciary amendment and mark their X favorably opposite the name. Each man is interested. Any moment, he may become a litigant to preserve the dearest rights of his property interests, or the interests of his family.

When such an exigency arises, each elector will be glad that he helped bring about this most necessary reformation in properly putting the courts in the position where they can do justice between all parties speedily and without delay, as our Constitution intended.

made a citizen perhaps a winter citizen perhaps an all year round citizen and our first impression given them will be a lasting one. If Sanford cannot offer a palace for a hotel we can at least offer a good place to stay until our new hotel is built and the climate, good schools, good roads, good water, good fishing and hunting and good people are here in abundance and more than anything else that will make an impression upon the visitors will be our ability to make them feel at home while they are our guests. People are satisfied to live in a log cabin, provided the beds are clean, the fire is good and the hospitable manner is thrown in for good measure and to say that the people will not stop here because Sanford has no marble palace to house them is rank fallacy. We can brush up the places, but we now have and by entertaining our guests to the best of our ability have them spend at least a few weeks here with the understanding that they will come back when our better accommodations are arranged. The majority of the tourists are willing to take life as it comes, even in Florida and there are really fewer kickers among the real tourists than among our own people. They realize what we have in Florida and are satisfied with the accommodations, for we must have plenty of room for the great influx of travelers to our state. They will come up the St. Johns river by the thousands and Sanford will be their first stop.

Let us see that they linger for awhile before going farther south and maybe they can be induced to linger here the greater part of a winter. It is really up to the people of Sanford as to whether we have a thousand new people in our midst this winter or fifty.

LAW INTERPRETATIONS

In another part of this issue is a communication of the signers of the petition for the injunction in the brick road matter. The Herald has no wish to bring up this matter and will not enter into any discussion but since it has been brought up we only wish to say that the interpretation of the law is something that human knowledge has never been able to fathom to the entire satisfaction of all parties concerned and in this case the same rule will hold good. The communication states that the entire letter of the law must be carried out and the roads shall go where the petitions call for them. We grant this and yet would like to ask some man who knows just where the Sanford Orlando road runs in the city limits. The county commissioners have designated the Park avenue route and the city council has designated the Park avenue route and eighty per cent of the voters today would designate that route for the simple reason that white people have built homes on Park avenue and live there and voted for the road to go that way. These people are not in the real estate business and are not exploiting lands. Regarding the sixteen foot roads we are all agreed that Celery avenue having voted on a sixteen foot road should have a sixteen foot road, and wherever the people voted on a fourteen foot road they should have a fourteen foot road and yet if there is not enough money in the treasury that holds the road bond money how can the supreme court or any other court make them do the impossible?

The Herald wants this matter settled at once, just as every citizen wants it settled and yet it is a very complicated and vexing question and one that will take sober and sane thought to settle. There has never been a time when one of us should fall out about it. The men who petitioned for the injunction are honest in their intentions, just as the county commissioners are honest in trying to put down as many miles of good roads as the money will build. Therefore, being friends and neighbors we should be able to come together and settle the matter and it is passing strange that the matter has not been settled before and saved the court costs and delays.

Let us hope that it will be settled amicably at last and that the roads will be built in a few months, for it is high time that the people were together on this subject and on every other subject that means so much to all of us. With these few words we close the incident and will not again re-open it.

NEVER TOO LATE

The Lake Region Press Association held its quarterly meeting at Orlando yesterday, and from reports the editors had a most glorious time. We regret being unable to attend this meeting, as we look forward to such occasions to brush the cobwebs from our brain tank, but we have the misfortune to own a few Japanese persimmon trees, and while gathering this delicious fruit on Sunday, Sept. 27th, our foot slipped—result two twisted ribs and a sore knee. And to make matters the worse, we

ask of you is to furnish the stamped wrappers and we will do the rest. Acvopy of The Herald will get results and just what results it has obtained for your town in the past is beyond the fondest dreams of the publicity man.

The Herald is in receipt every day of letters from people in the north who want to come to Sanford and they ask about the hotels. We simply send them a copy of The Herald and tell them to patronize the hotels that advertise in The Herald. If you have an advertisement in The Herald you are getting results in many ways. If your name is not in the Herald you will not get the trade.

The Lake Region Press Association of Florida held its regular meeting in Orlando a few days ago. President Bob Holly of Sanford was on hand and conducted the affairs of the Association most successfully. The editors had a fine time in Orlando and decided to hold their next meeting in Sanford Times-Union.

October 17th is announced by Editor Robert Holly as "newspaper day". He wants everybody to subscribe and pay for his local paper on that day. Ocala Banner.

October 17th and every other day for that matter. Subscriptions are always welcome.

As soon as the main highways in Seminole county are paved with brick, which will be in a few months at the furthest the county commissioners should cast about for cheaper material for the other roads and the road to Geneva and Ovidio should receive attention. The Herald is in favor of bonding the entire county and put brick roads to Geneva and Ovidio, but in the event that this cannot be done then the new sand-oil roads should be investigated and if brick cannot be had the sand-oil road would be all right. This new road is being built in many other parts of Florida and seems to be giving satisfaction and can be built for something like \$1500 per mile, which is certainly a strong point in its favor. Let us hear from some of the people of Geneva and Ovidio on this subject and also from the commissioners.

There is a stack of long green going out of Sanford every day for goods. It is going to the mail order houses and other houses in the state and out of the state and it is going out of the city and out of the state because the big houses advertise. It is absurd for a Sanford merchant to say that advertising does not pay when he can see people every day that have purchased goods out of town because they did not know that a Sanford merchant had the goods. When the largest business houses in the world have built their trade upon advertising it is about time for the local merchants to realize that in advertising is his salvation. The Herald covers Seminole county like the dew and goes to every nook and corner. If you expect to draw trade to Sanford use The Herald.

Next Friday and every other publication day in the year is Newspaper Day. We want every person in Seminole county to send copies of The Herald to some of their friends. Next Friday we will give free copies to every one who wants to send them out of town. All we

TYLER LEARNS TO CONTROL HIS NERVES

George Tyler, Star Southpaw Twirler of Boston Braves.

"Two years ago he couldn't stay steady for two minutes," said Manager George Stallings recently, while discussing George Tyler, his star left-hander. "If he got one ball on a batter he would hitch, his pants, pull nervously at his cap and kick and scratch like a chicken. But you ought to see him now, especially against the Giants. He is coolness personified and the hotter the pinch the happier he is and the better he pitches."

STORIES OF THE DIAMOND

A willing and conscientious worker is Pitcher Leon Ames of the Reds.

The Chicago White Sox have signed a young catcher named Earl Baldwin, who hails from Oakland semi-pro circles.

Hans Wagner says he will last five more years in the National league; he bases his prediction on the work of his rivals.

Maybe Manager Rebel Oakes of the Pittsburgh Peds has his blinders on when he capped off Outfielder Frank Delehanty from Buffalo.

A ball player named Costello, now the property of Pittsburgh, is playing under the name of Kelly. Of course, there isn't much difference.

Learning that the Peds are making arrangements for a big season for 1915 Clark Griffith is lining up all of his players for the coming year.

That baseball is becoming a popular pastime in the far East is proved by the appearance of both Chinese and Japanese teams in this country.

Connie Mack and Clark Griffith refuse to bury the hatchet, but we have a hunch that they would be willing to bury it in each other's anatomy.

President Lannin of Boston, is merely trying to gather together a baseball team, but minor league owners seem to think he is recruiting an army.

Nick Maddox has been released as manager of the Wichita Western league team and "Peaches" Graham has been named to succeed him.

If the baseball magnates have the nerve to raise the admission prices to provide for added expense, we will be surprised but not flabbergasted.

Sugar isn't the only thing that's going up these days. It seems that Russia supplies the horsehides and England the rubber that goes to make baseballs.

Mike Kahoe, Washington scout, is one gumshoer all major league clubs would like to have. Mike says the minors are filled with many promising youngsters.

"Long Tom" Hughes, who was a star pitcher in major league company a dozen years or longer, is doing a successful come-back stunt in the Pacific Coast league.

Charlie Coniskey is going to have a Lipton day at White Sox park. In view of the recent showing of the White Sox it would seem more appropriate to have a baseball day.

A peculiar thing about the Cleveland Naps is their ability to dig up fellows who can hit. But no matter how strong these fellows are with the willow the Naps never get anywhere.

Bill Jenson, Connie Mack's new pitching acquisition from the New Haven Eastern association team, is no stranger to the American league. He is known as an iron man in the Eastern association circuit.

Joe Jackson of the Cleveland Naps announces that the Peds have made him another tempting offer, the salary tendered being almost twice what he is drawing, with the guarantee that he will get it, but that he has turned

JULY WAS FULL OF FREAKS

Accidents, Extra-Inning and No-Hit Games Among Unusual Occurrences in National Game.

A series of unusual occurrences marked July in professional baseball. Extra-inning, no-hit games and accidents on the diamond were grouped within a few days, as was the case just about that period in 1913.

Taking these unusual features by dates, July 17 saw Clyde Milan in collision with Moeller, his teammate, as both raced for a fly ball in the Washington-Cleveland game, with the result that Milan received a badly fractured jaw.

On the same day George Weaver, captain of the Chicago White Sox, collided with Demmitt under similar circumstances and was severely injured about the head.

A no-hit-no-run game and a 21-inning struggle also figured in the record of July 17. At Pittsburgh the New York Giants and the Pittsburgh Pirates played 21 innings, the New York club winning by 3 to 1. Rube Marquard and Babe Adams, the rival pitchers, twirled the entire contest. With the exception of the 24-inning game between the Philadelphia Athletics and the Boston Americans on September 1, 1906, this is the longest game ever played in the major leagues.

Three days previously the Hartford club defeated the New Haven team 2 to 1 in a 23-inning game in the Eastern association, which is the third longest game in the record of professional baseball.

The 26-inning contest between Decatur and Bloomington of the Three-Eye league, played on May 31, 1909, still holds first place, and the Philadelphia-Boston 24-inning match second position in the record of long games.

Getting back to July 17 again, James Withers, pitcher of the Duluth club of the Northern league, twirled a no-hit-no-run game against the Virginia club of the same league. This is the third hitless game of the Northern league this season.

The next day at Lebanon, Pa., the Lincoln Giants, a semi-professional team, varied the schedule by defeating the home club 23 to 3, and incidentally scoring eight home runs. Three players each secured two circuit hits.

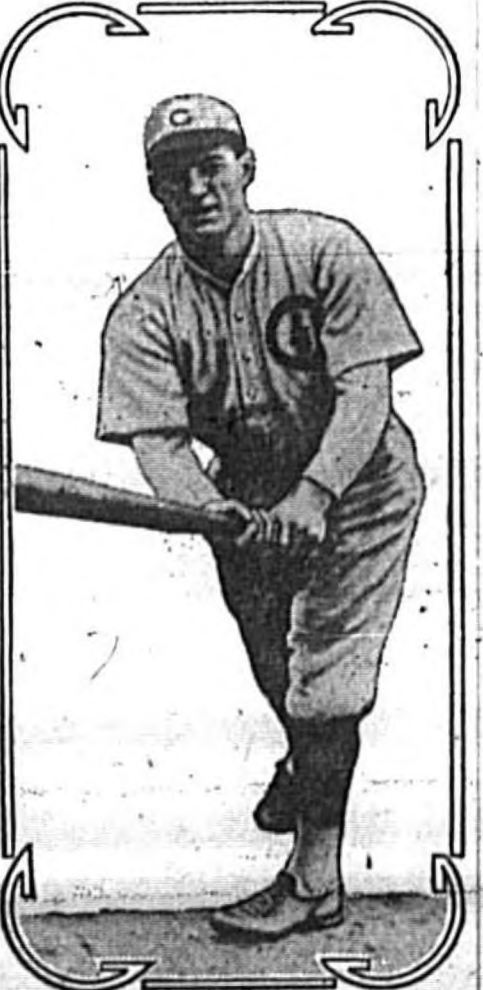

Moving on to July 19, the records show that the Wichita club of the Western league defeated Sioux City 3 to 2 in a 21-inning game which required 4 hours and 48 minutes to play.

On the same day at Long Branch, N. J., Jose Acosta, the Cuban pitcher of the seashore team, shut out the St. Louis American league club without a hit or run, winning a 3 to 0 victory, in which he did not give a base on balls and had but twelve balls called on his delivery for the full nine innings.

BRIEF SKETCH OF HEINE ZIM

Cub Third Sacker Was Born in New York City and Started Baseball Career as a Pitcher.

Henry Zimmerman, third baseman of the Chicago Cubs and champion batter of the National league in 1912, was born in New York city, February 10, 1886. Heine started in the national pastime as a pitcher for his school team in the Bronx. His performance as a schoolboy attracted the attention of semipro managers, and in a short time "Zim" was drawing \$20 a week for playing Saturday and Sunday games. In 1906 he entered the professional ranks as a member of the

Henry Zimmerman.

Wilkes-Barre, New York State league, team, playing with the Barons until purchased by the Cubs in the fall of 1907. He was tried at infield and outfield positions, but was unable to land a regular berth with the Cubs until the death of Third Baseman Jimmy Doyle. Heine has improved in batting each year since becoming a big leaguer. In 1908 his batting average was .202 and in 1912 he led the National league batsmen with an average of .372.

Big Leaguers With Outlaws. President Gilmore gave out a statement the other day to the effect that 11 big leaguers had been recently signed by the outlaws.

SMILE OR FROWN IS PROBLEM

London Divided as to Whether Medical Men Should Jest With Patients or Look Solemn.

London.—Whether a physician should adopt the cheery manner of bygone days or wear a look of business-like solemnity, is the controversy raised in the London press by Lord Rosebery, who in a speech at Epsom college, said he would rather a thousand times be treated by a third-rate doctor with genial features than a first-rate man of repellent countenance.

"The old-fashioned type, who entered rubbing his hands, poked the patient in the ribs and started to tell him jokes," replies one physician, "would have a hard time holding his practice these days."

Lord Rosebery answers that the doctor best liked by the modern patient is the one who listens gravely and ends by saying, "I know exactly what the trouble is." The main reason why the grave doctor is liked is because he is a good listener, and patients love to do the talking, when it comes to their troubles.

"Nearly everyone prefers the doctor with the cheerful manner, providing he has a good record of cures," concludes the writer, "to the sunny duffer who is as likely to kill you as not."

CAT IS RESCUED BY BIG DOG

Angora, Worsted in Fight, Saved From Sea by the Conquering Canine.

Long Beach, Cal.—An unusual rescue from drowning was enacted in the ocean at the end of the pier here, "Ted," a Scotch collie belonging to Captain Walton, and "King," an angora cat, being the actors. The cat has made its home at the end of the pier, and, while defending itself from the dog, fell overboard.

The dog watched the struggles of the cat in the water until its master ordered "Teddy" to get him. Immediately the dog jumped into the water from the gangplank under the pier, and, in further obedience to his master, grasped by the neck the frightened cat, which had been clinging to a piling. "King" was brought to safety in the mouth of the faithful collie.

HURLS WOMAN OUT WINDOW

Boarder Drops His Landlady From Second Story to Ground as Climax to Argument.

Chicago.—John Rociek was arrested after he had alleged to have thrown his landlady, Mrs. Anna Dohl of 1208 West Erie street from a second story window. Mrs. Dohl suffered cuts about the face and body. Rociek and Mrs. Dohl, according to the police, became engaged in an argument which ended when he hurled her to the ground.

Snake on Sleeper's Face. Berwick, Pa.—To sleep on a couch and awake to find a four-foot black snake crawling over her face was the experience of Miss Violet Ryman of Berwick. With a piercing shriek the girl sprang from the couch. Help was summoned and the reptile killed. The girl was not bitten.

Beggar is Worth \$15,000. Philadelphia.—Michael Denanno, a Philadelphia cripple, will have to spend three months in a house of correction, although he owns three properties worth \$15,000. It was testified that Denanno's home was luxuriously furnished, richly carpeted and equipped with a player-piano.

Trying to Please. "Which do you think is more important, Leonidas, the right of property or the rights of man?" "Neither are of any consequence, Henrietta," replied Mr. Meekton, "compared to the rights of women."

Carpeted With the Dead. Fresh from a visit to the scene of the battle of the Marne, Lieutenant A. Elliott Brown, Sixteenth Infantry, U. S. A., at present a military instructor at Rutgers college, New Brunswick, N. J., says:

Feigning Death, Used as Soldier. A wounded Russian soldier lying in the hospital at Moscow tells us that

upon a thousand dead German infantrymen stretched out within 500 yards. Practically all had been killed by the bayonet.

French Hussar at Fourteen. Paris Excelsior prints a photograph of France's youngest soldier, Albert Schuffrenkes, aged fourteen, attached to the Third Hussars.

EDUCATION

heard considerable talk about the first article, both favorable and otherwise. And I've heard of at least one young man, who had dropped out of high school, that has decided to return. We rejoice greatly and feel well repaid for the labor in getting together the facts.

1. The Debt We Owe Our Teachers.
If it is true that the cash value of an education is worth one thousand dollars per annum, and a total of fifty thousand in forty years, whilst an uneducated man cannot earn more than eighteen thousand dollars in forty years, therefore we should feel indebted to our teachers and the state for the gain of twenty-two thousand dollars for each graduate.

2. What Must We Do About It?
Let us as parents and guardians acknowledge our great debt to these faithful officers of the state; and show them our gratitude by sending our children every day of every term, and see that we require our sons, daughters and wards to get their lessons and bring us creditable monthly reports or require them to give a good reason for their failures. If we all will do this our schools will be worth much to our children. I know by experience that I parents and guardians neglect to examine into these monthly reports, they will prove absolutely worthless, and both teachers and pupils suffer from this neglect.

3. The Superintendent and Teachers.
Now, if it is true that the cash value of an education, that may be acquired in 2200 days in both grammar and high schools, is worth twenty-two thousand dollars, and one day in school is worth more than these are not fancy figures but solid facts collected from U. S. Census of Education and Sage's Foundation of Education. I believe if you will look at your labors from this point of view you will not only be encouraged yourselves but you will see to it that each pupil under charge shall do his whole duty towards the state and his parents.

4. To Pupils of All the Schools:
Make this resolve and stand by it: "I must have an education." Let neither pleasure nor profit keep you out of school. Be zealous in all your school duties. I heard of a young girl, and she lives in Sanford and is in the grammar school, who had a chance last summer to go to New York, Niagara Falls and other noted places, but who said, "No, I don't want to miss the time from school." That was fine, was it not? But that is the spirit that should, yea, and must animate every one who has resolved, "I must have an education."

Sanford, Fla.

FLORIDIANS CAN LIVE AT HOME

THERE IS NO NEED TO BUY ANYTHING OUT OF THE STATE

One of the greatest hardships that is worked in any country is to send all its money out for food and clothing supplies...

Florida is like practically every state in the Union. You could build a wall around the state, and the people could live within the state on what is produced here.

We buy butter and cheese from the outside. We ought to be big shippers of butter and all dairy products...

Why wouldn't it be a good idea for the newspapers and the boards of plants concerning this pest of Florida waters?

Let's start a movement for a "Let's Live at Home" club in Florida, and see what good we can accomplish.

In one year for instance we could be living off the chickens and eggs produced here.
