

OH YEAH?

By PETER SCHAAL

For the sake of sweet charity, some 60,000 souls sat in the bleachers yesterday in the Yankee Stadium in New York City for the first time in the history of the Giants and the Yankees went at each other, the Yankees beating their National League rivals, new ball and all, by a score of 7 to 3. Vernon Gossett went all the way for the Yankees, allowing 10 hits, and never being in danger. Fitzsimmons started, but gave way to Walker for the Giants. They gave up 14 hits, including The Babe's homer which started a four-run rally in the eighth. The only Giant able to do anything against the Yankees was Travis Jackson, who reached first safely four times, three on hits, one on an error. A total of \$59,642.50 was paid in for the benefit of the unemployed. Plans are now under way to play a game between the Boston-Yankees for the same purpose.

Not to be outdone by their rivals, the Cubs and White Sox also hooked up in a game for charity. Nearly 35,000 persons jammed the White Sox park, paid \$4,480.10, to see Charley Root hold the Sox to six hits and shut them out 3 to 0. He not only pitched snappy ball, but batted in all three runs, two with a double with two on, and one with a single. Cuyler and English furnished some spectacular fielding which cut down what few scoring chances the Sox had.

Only two games were played in the Big Show yesterday. In the National, the Pirates sank the Robins 5 to 1 as Heinie Meuse pitched five hit ball as against Jimmie's seven-hit offering. Lloyd Waner was the man who helped put the win down as the Pirates' eighth straight. He got three hits, including a homer, and scored three runs. It was Meuse's 10th win of the year too.

INCOME TAXES IN ENGLAND TO BE INCREASED

(Continued From Page One)

measures. Snowden will not reveal the new taxes until after the markets close at 5 P. M. Speculation continued yesterday regarding their exact character. The belief still held that lower incomes would be brought within the scope of the income tax. Increased duties are expected on such commodities as tobacco, beer, wine and spirits, tea, sugar and gasoline. Provision for \$300,000,000 in new taxation is expected. One surprise item may be an increase in the cost of a radio license, now 10 shillings (\$2.40) a year. Every owner of a radio in Great Britain must have a license.

Theaters and greyhound racing may also be hit. Resolutions making the new taxes effective immediately will be passed tonight.

In resorting to orders in council for making economic measures effective the government again indicated its determination to use every weapon in carrying out its program. These orders, like the proclamations of the Tudor monarchs, do not require parliamentary sanction.

They have a notorious reputation in British political history. Prolonged debates, in the opinion of MacDonald and his cabinet colleagues, would prevent the speedy reestablishment of world confidence in British credit.

The Westminster equivalent of the American filibuster, therefore, will be blocked by privy council edicts which will permit only one day's debate on each measure.

While Parliament centers its attention on Snowden's taxation measures the Trades Union Congress, in session in Bristol, will engage in academic discussion of its four alternative proposals put forward to meet the national crisis. These are (1) to replace the present method of unemployment insurance contributions by a graduated levy on profits, income and property; (2) New taxation upon interest securities and other unearned incomes; (3) Suspension of the sinking fund; (4) Consideration of the revenue tariff reduction.

MCLUCAS FINDS TOUGH SCHEDULE AWAITS GEORGIA GRIDIRON OUTFIT

Hard Workout Brings Only Pessimism To Former Gator Back

By PETER SCHAAL

Dummy scrimmage and plenty of it featured yesterday's three-hour workout of Coach Leonard McLucas' Seminole High eleven at Municipal Park. As nearly 20 rookies and slightly experienced local football players sat around, the coach sent two teams through scrimmages in which each of the seven plays he has issued so far were used for several times.

Concluding the afternoon's work, Coach McLucas said that the boys, while all working as hard as could be expected, appeared to be in poor shape as signal drillers. "I don't know what the matter with them this afternoon," he commented as Dub Entminger made by Usher Kanner, Levi Brannon, and Harrison, big enough to drive a truck through. "You'd think they'd remember some of these signals from last year and that after five days of night skull practice that they'd come out here and run these signals like clockwork," he said.

Evidently the coach means to indicate that the player who makes that first team will be the player who knows his signals first of all. Last year he had all kinds of trouble with some of the players who appeared to be at a loss as to their part in plays. This year, he intends to eliminate all of that trouble by making night practices a little stiffer, and demanding of the players that they learn every signal, every play, at once.

A new lineup of first stringers appeared yesterday. Preston and Kanner were at ends; Ware and Riser at tackles; Harrison and Brannon at guards; Kanner at center; Courier at quarter; Hester and Lyles, at half; Entminger at full. It looked pretty good for a while, but many of the spectators wondered which of those players would be put on the second squad when Hyatt and Kinlaw get back into harness again.

Hyatt ought to be a sure thing as a guard, although young Coleman and Harrison and Biggers are sure to put up a stiff fight for first string position. Kanner will have to work hard to outlast Tillis at one of the end posts too, and a merry fight is predicted there.

From all indications, Coach McLucas is going to have a heavy line with two sets of backfield men. A light backfield and a heavy backfield, both composed of first class players, is almost a sure thing. In his heavy backfield, the coach can put Courier at quarter; Kinlaw and Hester at halves; and Entminger at full. In his light backfield, he can put Knight at quarter; Odham and Vincent at halves, and Lyles at full. Try to stop either group.

FAT MEN

I don't care how fat you are or how much you hate to get out and walk a couple of miles. If you will take one half teaspoon of Kruschen Salts in a glass of hot water every morning for 4 weeks and cut out pastries, sugar and fatty meats—

You will feel so good—so energetic and the urge for activity will be so great that you will immensely enjoy a daily walk of several miles—and lose fat. While you are losing fat you will be gaining in energy—in endurance—in ambition. Your skin will grow clearer and your eyes will sparkle with the good health that Kruschen brings.

Just try one 85c bottle of Kruschen Salts; it will last you 4 weeks. After you have taken one bottle the old arm chair won't hold you any more—you'll want to be up and doing—you'll enjoy work—you'll sleep like a top and probably live years longer. Get Kruschen at Touchton's Sanford Drug Co. or any live druggist in America with the understanding that you must be joyfully satisfied or money back.

Wealth Of Material Expected To Assist Mentor To Victory

ATHENS, Ga., Sept. 10. (A.P.)—While a veteran squad executes its formations among the red clay hills here, Coach Harry Mehre's thoughts turn to Georgia's "roast-to-coast" schedule and what the gridiron fortunes have in store for him this year.

Graduation took only a light toll and Harry had experienced players for every position. But with such an exacting 10-game slate including Yale, New York University, Southern California and seven Southern conference opponents, Mehre admits he'll have to grab the breaks to win.

If a few experiments work out satisfactorily, he will be all set. He plans to wedge a 210-pound sophomore fullback, Graham Batchelor, into the center of the line; use a 145-pound streak of speed as a punching halfback and plug one of his ends with a 190-pound sophomore, Wolfson.

Batchelor has never played center, but he looked well in spring practice and Mehre is optimistic. The lighter but more experienced McWhorter is ready if Batchelor fails to make the grade.

Homer Key, a junior who was held out last year, may be Georgia's Albie Booth. He's the fastest man on the field, a weaver and hip-shaker who, in practice, leaves the tacklers empty-handed. And how he can pass.

All in all, it's a fine outlook, but as Mehre says: "there are no rest stations" along a road blocked by Virginia Polytechnic at Athens, Oct. 9; Yale at New Haven, Oct. 10; North Carolina at Chapel Hill, Oct. 17; Vanderbilt at Athens, Oct. 24; Florida at Gainesville, Fla., Oct. 31; New York University at New York, Nov. 7; Tulane at Athens, Nov. 14; Auburn at Columbus, Ga., Nov. 21; Georgia Tech at Athens, Nov. 29; and Southern California at Los Angeles, Dec. 12.

Ola Melton, white, charged with being drunk, pleaded guilty and was fined \$5. Officers Shaffer and Nicholson arrested him.

Porter Angel, and O. E. Harrison, white men who figured in a minor automobile accident last week, had charges of reckless driving against them postponed until Friday for hearing. Chief Williams and Officer Gray made the arrests after investigation.

Solomon Grant, colored, charged with possessing liquor, and reckless driving, pleaded guilty and was fined a total of \$30, \$25 on the first charge and \$5 on the latter. Officer Shaffer arrested him.

Ralph Blair and Annie Mae Blair, colored couple who often appear in court on charges of disorderly conduct arising from family arguments, were again before Judge Ware. Blair was fined \$12.50 for his part of the disturbance, while his wife's case was dismissed. Officer Shaffer made the arrests.

The case of Blair Hasty, colored, charged with assault, was transferred to the county court for action. Officer Wilcox and Gray made the arrest.

Vollie Williams Is Named Agent For Pontiac, Oakland

Sanford now has an official representative of the long-established Oakland and Pontiac line of automobiles.

Invitations to the prospective buyer and the automobile in general were issued recently by Vollie A. Williams, of the Sanford Buick Co., which handles the line, and already hundreds of Sanford persons have visited the Magnolia showrooms and inspected the new models.

The new Pontiac, according to Mr. Williams, is one of the most economically priced cars he has ever handled in long years as an automobile dealer. Selling for less than \$250, and combining all the features of a large automobile, including extra tires, bumpers, and accessories, the Pontiac, as well as the Oakland, is said to appeal to the automobile buying public with much effect.

Mr. Williams has several Pontiacs and Oaklands on the floor at all times, and urged his friends to visit the showroom and drive one of the models at any time.

DeMolay Dance Will Be Held In Orlando

Members of John M. Cheney Chapter, Order of DeMolay, in Orlando, were busy today decorating the Orlando Country Club where tomorrow night they will stage

their annual Promenade Dance for the departing college students. Dancing will begin at 10:30 o'clock and continue until 2:30 o'clock to the strains of "Sunny Day" colored orchestra of West Palm Beach. Several vaudeville acts have been arranged to be presented at intermission.

Invitations have been mailed to DeMolay's and their friends in every section of the state, and the largest attendance of the year is predicted. The dance is a script affair, open to the public.

General Sales Tax In Proposed By Senator

WASHINGTON, Sept. 10. (A.P.)—Enactment of a general sales tax was prepared today by Senator Reed of Pennsylvania, high ranking Republican on the finance committee. Reed who is close to Secretary Mellon and the administration advocated a tax of one-half of one percent on all commodities. He said he would retain the present income tax but plug some leaks favoring rich capitalists.

Standard Herald
These days we hear many words of strange advice...

Over-Supply Already

These days we hear many words of strange advice coming from important men from whom we would expect only words of wisdom. The natural deduction from such conflicting opinions is that no one knows exactly what to do.

Neither will the advice of Henry Ford help to relieve a situation which is dangerous to the farmer's welfare. He plans to give each of the workmen in his factories an acre or two of ground for the cultivation of vegetables.

The industrialists, the federal government, the farm board, and everyone else, may as well recognize that the farmer furnishes the most convenient way out of this depression.

Planting more, when fields and warehouses are already overflowing, will not help any.

Modern Dangers

The child of today runs very little risk of being scalped by Indians, bitten by rattlesnakes, or mangled by grizzly bears, but other dangers he faces are no less real and no less constant than those in the youth of Daniel Boone and "Kit" Carson.

It is not enough for a small child to be warned of danger; they must be so instructed as to have some fairly accurate idea of the comparison in speed of an automobile and their own. A little child dashing across a street can not possibly gauge the onrush of a high-powered car.

TEN YEARS AGO TODAY

A message to former service men was delivered at Atlantic City, N. J., today by President Harding during his Sabbath activities at the ocean side, which included attendance at church, an address to veterans of the Fifth division A. E. F. and an hour's stroll among the board-walk crowds.

The discovery today of a giant mine three feet in diameter, coated with barnacles and oysters and provided with electrical firing device, washed ashore at Oceanview near Portsmouth, Va., has given rise to the theory that perhaps several of the ships lost off the coast recently may have been sunk by striking one of these explosive derelicts.

SANFORD FORUM

Dear Editor: In the Sanford Herald of August 23th there appeared a paragraph by Mr. Peter Schuch, which mentioned the action of the State Racing Commission in granting racing permits to the Seminole Jockey Club and the Sanford-Orlando Jockey Club. It stated that the chance was rather slim that the people of Seminole County would vote favorably when the referendum election was held "unless the men behind the plants spent a few more dollars in and around Sanford".

It is all fairness to the management of the two tracks in question I take the liberty of calling your attention to the following facts. Since the present ownership of the Seminole Track began several years ago the major part of their patronage has gone to Seminole County wherever possible. All electrical work has been done by a local firm. Practically all painting and carpenter work has been done by Seminole County mechanics.

however, who have extensive farms in the north and raise their own feed, ship it down here, which is but natural. During the winter training season, nearly six months, many people connected with the track rent houses and live in Seminole County. The Superintendent at the track has stated that for every one man from Sanford who comes there to solicit business, there are at least four from Orlando. This would not appear in the light of a very strenuous effort on the part of Sanford to secure the business.

The Dog Track, under its present ownership, has patronized Seminole County almost exclusively. Its supplies were bought in Seminole County. Its printing has all been done in Sanford. All electrical work has been done by local men. The operators of the track and their assistants live in Seminole County during the racing season. Practically all persons connected with the operation of the track have been local residents in the work of repairing the track and its equipment exclusively local help was employed.

It would seem that now is not the time to arouse even a small degree of antagonism on the part of those who may be expected to bring an overwhelming vote in the event that the referendum is held for the purpose of repealing the law favorably voted upon by the voters of our County.

Learn what a difference six cylinders make in smoothness quietness flexibility handling ease riding comfort dependability economy long life Step out of any other low-priced car, step into a Chevrolet, and you'll learn what a difference six cylinders make. "Idle" the engine—and the whole car remains steady. Open the throttle—the power flows evenly. Accelerate—throttle down—no fifteen or fifty—and this smoothness stays with you whatever you do. For six-cylinder smoothness is built into the motor—and objectionable vibration never even starts. Yet smoothness is only part of your six-cylinder experience. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire the driver or passengers. There's greater flexibility, because the power-impulses of a six overlap. And response is more positive, performance more elastic. A six is much easier to handle! And particularly, if you raise the hood of a Chevrolet and watch the engine running smoothly and steadily, you'll realize that six cylinders also mean greater dependability. You owe it to yourself—to see and drive a Chevrolet today. And remember when you do—that no other car is so economical to operate as the powerful Chevrolet Six! TAX REVISION REQUESTED BY G. O. P. LEADERS

(Continued From Page One)
House appropriations committee would cut government expenditures down to revenue, principally by paying down the costs of the Army and Navy.

Senator Reed asserted national defense was down in cost now to the "danger point."
Buchanan in his statement agreed with the Republican Independents advocating higher income taxes that "the rich are getting richer and the poor are getting poorer."

"This class," he said, "increased their investment income and probably their capital by more than 10 per cent; the other classes lost ground."
In view of the fact that the government has placed no substantial limitation on the accumulation of wealth and because in recent prosperous years, the relatively few taxpayers with net income in excess of \$100,000 have actually accumulated extraordinary amounts of capital, it seems obvious that these individuals are able to bear and should bear the bulk of any increased tax burden.

Senator Reed disclosed that he favored the income or estate tax but he did not go so far as Buchanan and propose increasing these rates.
Likewise, he believed no good would be accomplished by boosting the income tax levies, arguing that tax rates on incomes above the present scale were found to lead to "evasions."

"Our present dilemma in the treasury," he argued, illustrates the wisdom of having a very narrow tax base. We have been trying to get our federal revenue out of one-half of one per cent of the population. We have been doing this on the theory of taxing those best able to bear the burden but as a matter of fact, we have not actually reached that group. It isn't the rich man who is usually paying the tax but the leg carrier, the rich capitalist, the successful engineer, doctor and other workers. Capitalists have had no trouble at all in minimizing their burden."

Kidnap Suspects Free When They Can't Be Identified

CHICAGO, Sept. 11.—(A.P.)—The search for a band of kidnapers was back at its starting point last night, with five suspects absconding by failure of victims to identify them, but with fresh mystery awaiting solution.

The quietest roundup up at Deater and brought here Wednesday night were viewed yesterday by two men whose freedom was bought for \$75,000 and \$50,000, the latter James Hackett, Blue Island roadhouse keeper, nor John J. Lynch, racing publisher, could recognize them.

Unexplained yet were the statements of Deatur authorities that Hackett interviewed the five prisoners in a cell Wednesday and positively identified Monte Moore as one of his kidnapers, and the assertion of Patrick Roche, state's attorney's investigator at Chicago, that unnamed police received a \$50,000 split from the kidnapers of Hackett and let them go.

Moore and his fellow prisoners, Morris Luttrell, Henry Eslinger, Joseph Yates and William Wallace were to be returned to Deatur.

"I'm through with them," said Roche.

TREASURY SWELLED

TALLAHASSEE, Sept. 11.—(A.P.)—Inability of state officials to distribute \$590,478.53 gasoline tax revenue to counties because of a recent court order swelled Florida's treasury balance from \$4,119,301.96 on July 31 to \$1,698,299.24 on Aug. 31.

(Personal)

There'd be no need for A & P if you could deal direct with the farmer. For in the "good old days" what the housewife paid for food and what the farmer received for it were exactly equal. But as towns and cities grew, the farmer received less and you paid more—because of a clumsy, round-about system.

By cutting out many wastes, A & P is able to charge you less, and pay the farmer a larger share of the retail price. We bridge the gap between the farmer and you.

Troops Help To Federal Experts Preserve Order See Lower Yield In Church Broil On Wheat And Corn

(Continued from Page One) among members of the First Baptist church.

Prosecuting Attorney Brinto conferred with leaders of both factions throughout the day in the hope of bringing about a peaceful settlement of their differences without resorting to interference by the authorities. He said the evangelist promised to preach last night's sermon on the subject of "Law and Order." He said he was invited to address the revival meeting, but had not definitely determined to do so.

Several hundred followers of Jeffers participated in demonstrations Wednesday night and yesterday over the arrest of three of their number on assault and battery charges growing out of the opposing faction at the Baptist church here Wednesday night.

Mayor H. J. Bosler and Chief of Police Craig were manhandled by a Jeffers adherent yesterday when they ordered the evangelist to lead several hundred of his followers off the city hall lawn where they had congregated for a prayer meeting and take them to Jeffers' revival tent.
