The gales started blowing in San Juan shortly after daybreak, bending palm trees almost double, toppling some light poles and filling the air with debris.

Power failures occurred in many areas and Eastern Airlines cancelled all of its 70 daily flights in and out of Puerto Rico. Puerto Rico's 3.3 million population, in a near panic, went on a buying spree in advance of the storm, cleaning the shelves of candles, food and other items. Homes and businesses were shuttered and all schools, ba

and government offices were closed. But forecasters said Puerto Rico and the Virgin Islands likely would escape the full fury of the storm's 150 mph winds.

At 9 a.m. the center of the storm, one of the mightiest of the century in the eastern Caribbean, was located at 16.4 north latitude, 65.5 west longitude, or about 140 miles southeast of San Juan. It had a forward speed of 15 mph.

Forecasters said the center of the storm had moved almost due west between 3 a.m. and 9 a.m. but that "the net motion over the long period is toward the westnorthwest." The forecasters said "a trend toward a more westerly track may materialize during the

Welder repairs broken sewer line in Altamonte Springs

2,000 Get Bad Break In Altamonte spewed sewage out of the ground.

A force main which lies in a heavy construction area suddenly erupted in Altamonte Springs Wednesday morning and forced city officials to shut off the water for a couple of hours until the main could be repaired. Bill Simpkins, assistant superintendent of the city's pollution control plant, estimated that 2,000 families located east of Interstate 4 south of State Road 436 were

affected by the shut-off.

The force main lies about seven feet underground and repairs required the replacement of a three-foot section of pipe with a new clamp, Simpkins said. A five-man crew from the pollution control and water departments repaired the pipe by 2 p.m. A chlorine solution was poured on the sewage to disinfect it as it spilled into a nearby retention pond on the construction site.

Simpkins said no one really can pinpoint what caused the force main to erupt. He speculated that the heavy construction traffic and vibrations might have been responsible, but said he wasn't sure. It earlier was shought the break was caused by a construction crew. "When that force main breaks, you got 100 to 120 pounds of pressure," said Simpkins to explain how the sewage reached the ground.

"It (sewage) was all contained right on the ground."

Donald Newnham, director of public service, said the city crew was able to keep the water on for the concentrated area of State Road 436 and Palm Springs which contains restaurants, a nursing home, the Altamonte Springs Shopping Mall and the Florida North Hospital. Offering a somewhat less than technical opinion for the force main break, Simpkins said: "It was just one of those things."

1 Killed, 2 Hurt In Blaze At N.J. Tourist Hotel

NORTH WILDWOOD, N.J. (UPI) - One man was killed and two other guests were injured in a fire that badly damaged a wood-frame seaside hotel before dawn today. Authorities said they suspect the fire was set. It was the community's third major fire this year, but the first in which someone was killed.

Fire Chief William Curvan said officials suspected arson because a man was seen running from the hotel shortly before flames broke out about 4 a.m. EDT at the four-story, wood-frame Roosevelt Hotel, located two blocks from the beach.

Curvan said a man died of smoke inhalation in a second-floor room. The victim's identity was withheld until his relatives could be notified.

Record Bank Robberies

NEW YORK (UPI) - The robbery of a small Citibank branch at Kennedy Airport Wednesday night in which about \$50,000 was taken was not just another bank holdup. It set a new city record for the number of bank holdups in

The new monthly record of 126 was reached about 8 p.m. when a bandit forced his way into a small Citibank branch at Kennedy airport and walked away with \$50,000. It topped the July bank robbery total by one, and there are still two more banking days left in the month. It also brought the annual total to date to 594 robberies - 38

PEABODY, Mass. (UPI) - A couple and their two sons were killed early today in a three-alarm fire that swept their wood-frame home. Seven firefighters were slightly injured controlling the fire. Killed in the three-alarm blaze were Fred Davidson, 53:

his wife, Elizabeth, 48, and their sons, Charles, 13, and Derek. 8. Deputy Fire Chief Peter C. Pappas said the fire began in the kitchen and quickly spread throughout the two-story house. The cause of the fire was not immediately determined and the fire marshal was called in to investigate.

Will UAW Call Strike?

DETROIT (UPI) - The leadership of the United Auto Workers union called a meeting today to decide whether to call a strike by 450,000 workers at General Motors Corp. or by 190,000 workers at Ford Motor Co. GM is the likely strike target this time around because

Teacher Walkout Continues

By UNITED PRESS INTERNATIONAL Oklahoma City high schoolers, screaming and waving placards to protest the city's handling of a weeklong teacher's strike, joined the picket lines but 21,000 Pennsylvania students barred from class by walkouts are just enjoying their extended summer vacations. School board officials in Oklahoma City planned to meet

today to decide whether to take legal action against the city's 2,300 educators, who are striking in defiance of state law for the first time. In addition, high school principals have suspended more than a dozen teen-agers believed to be the ringleaders behind large student demonstrations supporting the

striking teachers.

Recruitment Policy Alters WASHINGTON (UPI) - A series of racial incidents has prompted the Navy to start a new campaign to rout out discriminatory groups within its ranks. And in a separate move to open up opportunities for

poorly educated sailors - and meet manpower goals the Navy has revised its recruitment policy.

Chief of naval operations Adm. Thomas Hayward evidenced his concern over a resurgence of racial confrontations in an Aug. 17 directive to all commanders. His message directed them to forbid racist organizations or distribution of racist materials.

Newspaper Mogul Dies

NEW YORK (UPI) - Samuel I. Newhouse, who rose from the poverty of a lower East Side tenement to head one of the largest publishing empires in the nation, died Wednesday. He was 84.

A family spokesman said Newhouse, who withdrew from the active day-to-day operation of that empire only two years ago, recently suffered a stroke. He died about 1:30 p.m. at Doctors Hospital. In a statement issued by the White House press office, President Carter said with Newhouse's death "this country has lost a dedicated and enterprising publisher whose work in the business of news spanned most of his 84

2 Are Charged With Murder In Mountbatten Death

DUBLIN, Ireland (UPI) — Irish police today charged two men with murder in the death of Lord Louis Mountbatten, whose yacht was blown apart by a bomb near the border with Northern Ireland earlier this week. The men, identified as Francis McGirl and Thomas McMahon, were arrested last Monday even before the bomb exploded on Mountbatten's yacht, killing the cousin of Queen Elizabeth and three members of his boating

The blast that killed Mountbatten, one of his grandsons, a teen-age boat pilot and the Dowager Lady Brabourne, his daughter's mother-in-law, was believed to have been caused either by a time bomb or an explosive set to detonate as the boat accelerated.

The suspects are believed to be members of the outlawed IRA, which had claimed credit for the bombing.

370 Reach Miami From Cuba

MIAMI (UPI) — The largest group of political prisoners to leave Cuba since 1962 are in Miami today, including a man convicted of trying to poison Cuban President Fidel Castro. Several had been in jail for 20 years. Four planes brought the 370 people to Miami Wednesday. They were released over the past five months in negotiations between Castro and a group of Cuban exiles. Among the ex-prisoners was the former editor of El Mundo, Raul Alfonso Gonse, 77, his wife, Carmen, and his son Raul Alfonso, 45, who was also with El Mundo. Alfonso spent nearly 18 years behind bars.

Democracy... Reborn In Africa

One of the most encouraging developments of recent years in Africa is what promises to be an orderly transfer of power from military to civilian rule in Nigeria. As a result of the recent national elections democracy is being reborn in Africa's largest country after 13 years of dictatorship that saw three military coups and a bloody civil war between Christian Biafrans and a Moslem

Elected president under a constitution that closely resembles that of the United States is Alhaji Shehu Shagari, a former finance minister who is skilled in government affairs and an advocate of protecting foreign investment and free enterprise in Nigeria. By all indications he should lead a government with which the United States can deal fruitfully and possibly more cooperatively than was sometimes the case with the previous regime of Gen. Olusegun Obasanjo.

News that Nigeria is ordering out most members of a Soviet military training mission on grounds of inefficiency and a "condescending attitude" — could be indicative of the possibilities for still-warmer relations with the United States.

Times A' Changin'

It is hard to imagine the protest movement of the 1960s without the folk singers who popularized Its best known anthems. Entertainers such as Pete Seeger, Bob Dylan, Joan Baez and Arlo Guthrie linked the civil rights and anti-war causes to a folk music revival that gathered steam in the late 1960s and held strong throughout the following decade.

For most of the years, the Newport Folk Festival was an annual event celebrated by folk music fans, entertainers and protestors alike as a kind of counterculture convention. Musical careers were launched or enhanced amidst a flowering of radical politics. Commercialism was shunned by purists who, in 1971, all but booed Bob Dylan off the Newport stage for departing from the traditional simplicity of folk music's ancient origins.

Woodstock in 1969 eclipsed forever the radical aura of the Newport Folk Festival. The young turned from folk music to rock. Protest turned psychedelic and hallucinogenic. Newport faded into history, mourned only by suburban couples in

Getting To The **Buzz Word**

By DON GRAFF

It won't necessarily make you the conversational star of the cocktail circuit, but it will cue you in on what is becoming a leading topic of discussion in economic circles.

Basically, productivity is a way of measuring the effectiveness of an economy according to output per individual worker. Rising productivity, increasing output of goods and services per individual, is the sign and the impetus of a ealthily expending economy.

In the United States, productivity is still rising, but at a progressively slower rate. A conmounting trade deficits, the declining dollar and
