

Solid car load of Fertilizers from plant of the Virginia-Carolina Chemical Company. The new plant just established at Sanford is one of the most complete in the south with a daily capacity of 160 tons.

THEY PULLED TOGETHER

Accomplished Much More When They Worked in Harmony

There is a story of a bridegroom who requested his bride to accompany him into the garden a day of tw after their wedding. He then threw a line over the roof of the cottage. Giving his wife one end of it he retreated to the other side and exclaimed: "Pull the line." She pulled at his request, as hard as she could. He cried, "Pull it over!" "I can't," she replied. "Pull with all your might," shouted the whimsical husband. But in vain were all the efforts of the bride to pull the line over, so long as the husband held on to the opposite end. But when he came round, and they both pulled at one end, it came over with great ease. "There," said he, as the line fell from the roof "you see how hard and ineffectual was our labor when we pulled in opposition, but how easy and pleasant it is when we both pull together. It will be so, my dear, through life. If we oppose each other, it will be hard work; if we act together it will be pleasant to live. Let us, therefore always pull together. Let us daily endeavor to help one another to bear and aid and forbear with each other."

The above pretty little story is by our friend Hugh Sparkman of the Lake City Index. If the editor of the Sanford Herald had told the story, he would have had the groom pull the bride over the house to teach her obedience and reverence and respect for the superior power and wisdom of her lord and master.—DeLand News.

The Camphor Tree

Did you ever see mosse growing on a camphor tree? Do you know of any insect pest or other insect that makes its home or propagates its species on a camphor tree? Do you know of any prettier shade tree? Do you know of any tree that makes a more rapid growth? Did you ever know a camphor tree to be injured by cold in this section of Florida? Do you know of one single objectionable characteristic of the camphor tree for shade wind break, or roadside or avenue tree? Do you know of any tree that requires less care or nursing? Can you give any valid reason why you have overlooked it and spent your efforts on water and live oaks, during all these years? Do you know of any reason why the newspapers of South Florida—always leaders and directors of public thought and enterprise—should not keep these questions, set in bold face type, standing at the head of one of their conspicuous columns? If they would all do so for one year don't you think our state would be beautified, ultimately, to the extent of a million of dollars?—Reporter Star.

State Press Meets

The annual gathering of the scribes at Tallahassee this year was one of the most enjoyable in the history of the Florida Press Association. Many able addresses were made and much good for the benefit of the craft was accomplished.

Palatka will be the next convention city of the Florida Press Association. This was decided on Wednesday morning at the final business session of the convention. Live Oak and Tampa were both candidates for the convention, but Palatka scored over them by a good majority.

The following officers were elected for the ensuing year: R. F. McCormack, Live Oak Democrat, president; Frank H. Mayes, Pensacola Journal, vice president; J. W. White, Jacksonville Fraternal Record, treasurer; T. J. Appleyard, state printer, secretary; M. F. Hetherington, Lakeland News, delegate to the National Editorial Association.

HOMESEEEKER.

Last week the second homeseekers' excursion for the month of April arrived in Jacksonville and brought quite a large number of people from various parts of the country. While the majority of the homeseekers made direct connections and went further south, quite a number stopped off in Jacksonville and visited lands in this section of the State.

The homeseekers' movement to Florida during the past winter season was unusually heavy. It was the first winter that the railroads had given homeseekers' rates and while these rates applied only twice a month, the crowds that visited the State on homeseekers' day were enough to convince the most skeptical of the wisdom of maintaining homeseekers' rates throughout the year.

The rush of homeseekers to Florida last winter almost completely changed the methods of selling Florida lands. The previous winter a number of land companies—the majority having headquarters entirely outside the State—published glaring advertisements and made the most extravagant claims as to their lands. As there were no cheap rates on at the season of the year that the larger portion of the people of the North and West can best get away from their homes, only a comparatively small number of people came to Florida to look at the lands. Thousands of people bought five and ten-acre tracts by mail order, solely on the strength of the advertisements and the descriptions given by the land companies. Last winter, when a large number of these same people found they could secure cheap round trip tickets to Florida at a season that best suited their convenience for being away from their homes, they quickly took advantage of the opportunity and visited the State.

The result of this rush of homeseekers and people who had already bought was to make people in all parts of the country cautious about buying Florida lands. The reputable home companies have from the start been advising all prospective purchasers to "see Florida lands before you buy." The "foreign" companies, on the contrary, endeavored to make as many sales as possible without their customers seeing the land. The home companies knew that they could not afford to sell land that would not stand inspection, while the "foreign" companies had no interest in Florida, except to sell as many acres as possible, and then skip out for pastures new.

When those who had bought by mail from companies located in Chicago and elsewhere came to Florida on the homeseekers' excursions many found that they had been badly "stung." They found their lands in the swamps and miles away from railroad transportation facilities. They were disgusted and the whole State suffered through the methods of the unprincipled dealers. These people returned to their homes and through their talking to others they have come pretty near putting a stop to the mail order land sales in Florida. It is now strictly a case of "see before you buy."

There are, however, some large companies in Florida, organized under the laws of Florida and composed

entirely of citizens of Florida, whose interests are in Florida, and these companies have established a most enviable reputation. They also sold a large amount of land on mail orders, but they were particular to sell only tracts of land that would stand the closest investigation. They urged their prospective customers to come to Florida and make their own selection, or have some one upon whom they could rely make the selection for them. These companies guaranteed that if the selection should be left to them they would refund all moneys paid in, if, within a specified time (usually sixty or ninety days), the purchaser inspected the land and did not find it exactly as represented. In almost every instance the selections made by these home companies gave entire satisfaction when the purchasers finally came to Florida and inspected the lands selected. Frequently the purchasers were so well pleased that they bought several additional tracts.

Homeseekers that are now coming to Florida are visiting various sections of the State and investigating conditions, as well as the land itself. They are profiting by the experience of others, and they are not taking any chances. They are avoiding localities where the settlers have made a failure. They are going into communities where others have succeeded, and are selecting land that is similar to land on which others are growing paying crops.

The homeseekers' movement to Florida will probably not be so heavy this summer as it was during the winter season, but those who came here during the summer months are those who are in real earnest, and who are anxious to ascertain the truth concerning the State and its lands. If these homeseekers are treated fairly and afforded every facility for making a thorough investigation, their visits will result in securing many new citizens for Florida during the present year.—Times-Union.

"HAYSEED" VS. CITY "DUDE."

Paraphrasing Horace Greeley's "Go West, young man," Col. L. P. Skeon, of Tifton, at the Chamber of Commerce smoker in Savannah, Ga., recently, made an earnest and eloquent plea for the development of the country sections of the South. He declared that what a generation ago applied to the West applies with equal force next in importance to bringing new blood and young men into the South. Colonel Skeon emphasized the necessity of character, which he said would be of incalculable value in the upbuilding and development of the South. He also advised that while good roads are being built and other things being done to make the country attractive to the young man, the young man should be educated to understand that it is just as honorable to be a "hayseed" as it is to be a city "dude."

Represented by their attorneys, the officers of the American Naval Stores company recently convicted in Federal court of being a combination in restraint of trade, have made an appeal to the supreme court for an early hearing of their appeal from sentence.

In union there is strength. We have the goods you need, and the price you can do the rest. Sanford Furniture Co. 35-1f

NO REASON FOR DOUBT.

A Statement of Facts Backed by a Strong Guarantee.

We guarantee complete relief to all sufferers from constipation. In every case where we fail we will supply the medicine free.

Rehall Orderlies are a gentle, effective, dependable and safe bowel regulator, strengthener and tonic. They re-establish nature's functions in a quiet, easy way. They do not cause any inconvenience, griping or nausea. They are so pleasant to take and work so easily that they may be taken by any one at any time. They thoroughly tone up the whole system to healthy activity.

Rehall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. Two sizes, 10c. and 25c. Remember, you can obtain Rehall Remedies in this community only at our store—The Rehall Store.

L. R. PHILIPS

Notice to the Public

You are hereby notified to keep your parkways, yards and vacant city lots clean and clear of weeds and rubbish. Any neglect on the part of the public subjects the violator to be called before the mayor at any time.

Florida Development Figures
Florida has a population of 752,619, against 528,542 in 1900 and 269,493 in 1880.
A density of population of 13.7 to the square mile, against 9.7 in 1900 and 4.9 in 1880.
Her lumber cut in 1910 was 1,202,000, 609 feet against 788,000,000 in 1900 and 257,000,000 in 1880.
Her corn product was 8,813,000 bushels in 1910, compared with 4,156,192 bushels in 1900, and 3,522,280 in 1880.
Her mineral products, of 1910 were worth \$9,000,000, compared with \$3,326,000 in 1900 and nothing in 1880.
Her railroad mileage is 4,727 against 3,526 in 1900 and 518 in 1880.
Her banks had deposits, December 31, 1910, of \$40,763,652, compared with \$10,150,272 ten years earlier, and \$44,492 in 1880.
The true value of her property is approximately \$600,000,000, compared with \$355,000,000 in 1900 and \$120,000,000 in 1880.—Financial and Industrial Record

Grim Reaper at Work

Mrs. M. A. Fortson
The death of Mrs. M. A. Fortson last Saturday night was a sad blow to the little family circle who had watched over her during the few short weeks of sickness. Mrs. Fortson was taken sick at Geneva and afterward brought to Sanford where it was hoped better medical treatment could be given, but the hope was in vain.

The husband with a devotion few men are capable of, whose strength was given sweetly, tenderly to this precious invalid, whose heroic devotion never faltered, could not detain her by the clasp of earthly love; but after the last word had been spoken, the last sign of recognition was gone, a look of peace settled on her face which proclaimed victory, and he knew she was resting on a mighty arm.

The remains were taken to Tignalk, Ga., her old home for interment. A husband and baby are left to mourn her loss.

Ernest Leroy Morris

Mr. and Mrs. C. C. Morris have the sympathy of the community in the loss of their bright, three year old boy, Ernest Leroy.

Card of Thanks

To the kind friends and neighbors who so willingly assisted us during the sickness and death of our beloved little babe, we wish to express our heartfelt thanks, also to those sending flowers and assisting in the music. May the Lord bless you all and spare you such sorrow in our sincere wish.

MR. AND MRS. C. C. MORRIS

Notice

The citizens of Sanford and adjacent country are called to meet at Eagles Hall, Tuesday night, May 1st, to organize a permanent hospital association and to continue the work already begun. Every one who loves humanity and pities the sick and needy is urged to be present.

Mrs. J. N. WHITNEY

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 37

SANFORD, FLORIDA, FRIDAY, APRIL 28, 1911

Volume III

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The politicians at Tallahassee are announcing, withdrawing, denying and making statements much more rapidly than the legislators are passing laws. The latest talk is of Genial Gene S. Matthews for governor. He himself hasn't said anything about it, but it's in the air. His friends are grooming him.

The office of attorney for the Railroad Commission, which was recently made vacant by the resignation of Louis C. Massey of Orlando, will be abolished if a bill introduced this morning by Speaker Jennings is passed. This office was created by the legislature of 1907 and authorizes the commission to employ an attorney.

The Atlantic Coast Line, in addition to its large undertaking in double-tracking the line from Jacksonville to Washington, is increasing its equipment in rolling stock by the purchase of 16 Pacific type passenger locomotives; 20 large freight engines; 25 passenger coaches; 1,400 box cars; 50 phosphate cars; 50 ballast cars, which will all be delivered within the coming summer.

Fort Meade folks were considerably excited Wednesday night over the horse-whipping of Editor Ernest B. Simmons of the Fort Meade Leader by W. H. Johnson of Bartow. The horse-whipping took place almost directly in front of the postoffice, on Main street, about 7 o'clock last night. Mr. Simmons was walking down the street when Mr. Johnson approached him and began laying on heartily with a cow whip. The editor, who says he was very much taken by surprise, did not retaliate, friends stopping the affair.

The Atlantic Coast Line depot at Martel was totally destroyed by fire Tuesday night. Some twenty yards of track were destroyed. The line will be restored.

Brooksville held a bonding election Wednesday and the citizens voted bonds. The sum of \$18,000 was voted, and it will be applied solely to street improvements. Of the total amount, \$16,000 is to be expended in paving roadways with vitrified brick.

Editor McCormack, of the Live Oak Democrat, has been appointed by Commissioner of Agriculture McClain a delegate to the good roads convention to be held at Birmingham, Ala., May 23. Mr. McCormack has always been a devoted advocate of better highways and a better selection could not have been made.

Post Card Day, May 1st

Post Card Day has been endorsed by Governor Gilchrist, many boards of trade and unqualifiedly endorsed by the Jacksonville Times-Union and Metropolis, the Tampa Times and Tribune, Pensacola Journal and News, St. Augustine Record, the Miami, Orlando, Ft. Myers, Key West, Ocala, Gainesville and St. Petersburg daily papers of the state including The Herald. It is such a cheap and simple thing for every reader to get one of our hundred post cards today and address them to friends in the North and then hold them until May 1st, when you will put them in the post office.

Not every person will do this, so it is up to the live ones to mail a score or more cards, and thus make the day momentous as the greatest advertising stunt pulled off in Florida.

Be a booster. If only a little one-cent post card booster. Every little added to what we have makes just so much more.

Mrs. W. C. Finnell

Those who met and became acquainted with Mrs. Mattie E. Finnell of Richmond, Ky., while she was a guest of her daughter, Mrs. F. W. Miller, during the winter of a year ago, will regret to learn of the lady's death. Mrs. Miller was called to the bedside of her mother three weeks since. Mrs. Finnell was a woman of exceptionally lovely character and made friends of all whom she met during her stay in Sanford. Mrs. Miller with her daughter, Miss Martha, will go to Nicholasville, Ky., and spend some time with her sisters, Mrs. T. C. Willis and Mrs. C. C. Burgin.

GROWERS' ASSOCIATION

Has Made A Good Record During the Past Season

The Florida Vegetable Growers' Association has made a good record for an institution of but one year's existence. Already improved market conditions are very apparent, as the direct result of the work of this organization. Sanford f. o. b. prices have been obtained to a far greater extent than heretofore. The returns have been delayed less than formerly and generally speaking the amounts realized have been much more satisfactory.

Organizing, launching out without a penny of capital, and providing for raising the necessary funds by an assessment of \$6.00 per share, the Florida Vegetable Fruit Growers' Association has managed so well that only the first installment of \$2.00 per share has been asked for. Thus, the tax upon the members has been very light and merely one-third of what it was expected to be.

The Association has handled for the growers of the Sanford district 150,000 packages. It has paid out in cash and distributed among our farmers between one and two hundred thousand dollars. It has created a market not heretofore known for green, or unbleached, lily grown celery, cold storing same and realizing money for the truckers on a product not hitherto counted of any value. A year ago, acre after acre of this was ploughed under; this season remunerative values were obtained.

Through the Vegetable Growers' Association, farmers who were short handed have been able to arrange for and secure supplies they could not otherwise have provided, such as fertilizers, crates, hampers, barrels, seed, etc. Credit has been established and predicted upon future crop returns, which has enabled large numbers to cultivate and harvest as they could not have done but for their connection with the Association.

The Florida Vegetable Growers' Association is managed by an exceptionally competent, practical and executive board of directors, of which G. R. Calhoun is president, W. D. Holden, vice-president, and members E. E. Brown, B. A. Howard, Henry Nickel and J. H. Mitchell, with Harry Ward, general manager, E. T. Woodruff, secretary and treasurer.

Preparations are now being made for the annual meeting which, provided by the by-laws, is to be held the first Thursday in May.

Every member of the Association is expected to be present at the annual meeting, Eagles' Hall, Thursday afternoon next, at two o'clock. All should, and no doubt will, come prepared to lend best energies to the cause of a successful perpetuation of this invaluable institution. It is of vital interest to every farmer and trucker that this organization be brought to the highest achievement possible. Not a grower in the district but should at once connect himself with this splendid organization. The field of operations is broad and large, and the work done this season is comparatively but that of an infant, in promise of what the future years shall and will, if the Association is rightly supported, accomplish in the interest of the man who has products to sell.

Think what it means to you, Mr. Truckster, if you are not a member, become one. If you are a member, act judiciously and with mature deliberation, select good officers, the very best you can, on Thursday next, and then give the management your heartiest and most undivided support.

Money in your pocket, and success to the Sanford proposition, in such a course, is not problematic but a doubly assured and accomplished fact.

New Bank at Orlando

A new bank has been started at Orlando to be called "The People's National Bank of Orlando", capital \$50,000, thirty subscribers have already bought stock at \$120 per share and the following officers have been elected:

President, James C. Patterson; First Vice-President, Dr. C. A. Campbell; Second Vice-President, Charles E. Johnson, and Attorney L. G. Starbuck, these with Dr. J. N. McElroy, Chauncey Holt, and C. E. Sanders, the board of directors.

Annual Meeting

The annual meeting of the Florida Vegetable Growers' Association, in accordance with provision of the by-laws, will be held Thursday, May 4th, Eagles Hall, Sanford, Fla., 2 o'clock in the afternoon. Every member of the Association as expected and urged to be present.

NEWS OF LEGISLATURE

Many Matters of Importance Up For Consideration

The third week of the session of Legislature has witnessed some important events, and some of more than usual interest to the people of the state.

The State Press Association was in session here Monday, Tuesday and Wednesday of this week and their sessions were attended not only by a large percentage of the membership but also by many members of the legislature and others in the capital city.

The settlement of the L. & N. Railway rate controversy was one of the most interesting bits of news announced this week. The contract was signed Monday afternoon in Pensacola between representatives of the L. & N. and the special council of the railroad commission. The matter has been pending in the courts for seven years and no settlement was reached in that way, but the agreement signed Monday was independent of the case in court but provided for its dismissal. The terms of the agreement were that the railway places the three cent rate into effect on the P. & A. division and two short branch lines in Florida. On the other hand the railway commission will permit the decree in court being issued against them in order that the railway may be protected against back suits. In effect order No. 19 issued seven years ago will go into effect May 8th. It is believed by many that the rate was secured earlier than it would have been by reason of the effect of the bill introduced by Senator Stokes which made the rate statutory. This bill was recommended by Attorney General Trammell, and so the honor of the accomplishment will be shared by Trammell and Stokes with the railroad commission.

Senator Cone's State Uniformity Text Book bill has passed its second reading in the senate and will pass on its third reading. The house of representatives has not yet taken up this measure, but when they do a warm fight is expected.

The measure for abolishing technicalities in court procedure has passed the senate and is being considered in the house committee. The measure has considerable chance of passing.

Claude L'Engle was here several days this week and when asked as to the daily paper he was to publish, said that he had offered to furnish the brains, if the people would furnish the cash, and the cash had not been forthcoming.

The bill introduced in the house by Gray of Gadsden and in the senate by Senator Broome, which prevents railways from forcing their employees to sign away their right of suit in case of personal injury (commonly known as the railroad relief bill) will pass both houses by big majorities. The house bill has passed the house and gone to the senate.

A bill to make mandatory the publishing of county commissioners proceedings has been set as a special order in the house.

A bill to allow postmasters to take acknowledgements on pension vouchers has passed second reading in the house.

The pilot bill has at last been settled and passed the house. The bill have a bill in every session.

The house has passed the joint resolution submitting question of allowing school districts to bond. Senate has yet to take action on house bill.

Mr. Jennings of Escambia has passed through the house a bill providing for the planting of shade trees in Pensacola and establishing a shade tree commission in that city. While this bill is purely local, it is a novel piece of legislation that will doubtless be given more general consideration within a few years.

The bill allowing a six weeks summer training school for teachers has passed the house and will no doubt be acted upon by the Senate this week.

The bill by Butler of Duval providing for the death penalty on conviction of burglary was killed in the house Tuesday.

Tallahassee was visited by a serious fire Monday night. The conflagration started right in the heart of the business section district was in danger. Tallahassee has a splendid volunteer fire department though and after hard fighting for an hour the flames were controlled.

The bill making mandatory at least one high school in each county has met its Waterloo in both the house and senate.

The senate has passed the bill appropriating \$200,000 for a supreme court and railroad commission building. The house will in all probability cut this to \$100,000; but even that amount will provide a handsome home for these two departments.

MERCHANTS WILL CLOSE

Every Thursday Afternoon During the Summer Months

We the undersigned merchants of Sanford agree to close our places of business at twelve o'clock Thursday of each week (except when pay-day shall fall on Thursday) beginning the first Thursday in May and ending the last Thursday in September.

The Wednesday Club

All members of the club who were not present at the meeting Wednesday afternoon are notified that Mrs. Thrasher has invited the club to meet at her home Wednesday, May 3rd.

Mrs. S. O. Chase opened the program for the afternoon with a delightful paper on "Colonial Churches," giving interesting bits of the histories of the first churches where our forefathers began to enjoy their religious liberty in the new world.

"The Light of Other Days" was a very interesting paper prepared by Mrs. D. L. Thrasher and read by Mrs. Bowler in Mrs. Thrasher's absence. The lights furnished by pine knots, rush lights, tallow candles and primitive lamps with whale oil, and which the colonists considered themselves fortunate to have, would doubtless be scorned by the present up-to-date generation with their brilliant electric lights.

Mrs. C. E. Walker read a very interesting article on the "Kitchen Fireside," which in many of the colonial homes was the brightest, cheeriest and most homelike spot in the house. The names and uses of a number of fireside accessories were given, many of which were unknown to her listeners.

Miss Flossie Frank entertained the club with an interesting description of the "Meat and Drink" of the colonists. The variety and abundance of the menu given would indicate the epicurean proclivities of some of our ancestors.

"Serving of Meals" was an interesting detail of the daily family table, its furnishings, linen and service, which in some instances consisted of wooden and pewter dishes. From the number and variety of drinking utensils one might be pardoned for thinking the colonists were rather a convivial folk. This paper was read by Miss Mell Whitner, owing to the absence of her sister, Miss Alice.

Miss Mell Whitner read an interesting paper on "Spinning and Weaving," giving a description of the various processes of preparing the flax or cotton for the spinning wheel, which prepared the thread for the loom. The modus operandi of preparing the cloth was minutely described.

Miss Lillie Farnsworth read a most delightful article on "The Old Time Flower Gardens." The many names of the old fashioned flowers, loved and grown in those old time gardens, were perhaps reminders to some of those present of the flower gardens of their youth.

Program for May 3rd.

Electron of Officers.

I. Nansemond County, Miss Charlotte Keeler.

Reading, "Through Dismal Swamp"

(Byrd 1728) Miss Alice Tetherly.

II. Virginia Today, Mrs. C. C. Worthington.

The Colonial Gentleman, Mrs. M. Martin.

III. Round About In Virginia, Items by Club.

Critic.

Pecans at Sanford

The few people who have found time to turn their attention to pecan growing in this vicinity have found it most profitable. The high, pine lands prove most adaptable employment the trees usually being planted upon lands that could not produce vegetable crops at a profit. Mr. and Mrs. Frank Johnson at Markham have some fine bearing trees and the nuts received some good prize at the Orange County Fair. Their venture will prove a source of revenue to them in their old age, a venture that will not freeze and always have a ready market.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Fleeting For Hurried Readers

According to Capt. Stephen A. Wood, who is the head of the Chicago detective bureau, and who has collaborated with Detective William J. Burns of New York in tracing down the alleged destroyers of the Los Angeles Times building, uncovering one of the greatest sensations of the country, the detective bureau is in possession of a confession made by one of the members of the alleged gang, covering ninety typewritten pages, and detailing the operations of the members of the International Association of Bridge and Iron Structural Workers, not only in the Los Angeles Times outrage, but in the blowing up of other structures in other parts of the country on which, or in which non-union labor was employed.

Appointments to three high diplomatic posts were confirmed by the senate on Monday, when Ambassador William W. Rockhill, now at St. Petersburg, was confirmed as Ambassador to Turkey, to succeed Oscar S. Straus, resigned. Curtis Guild, former governor of Massachusetts, was confirmed as Rockhill's successor at St. Petersburg, and former Representative Henry S. Boutell of Illinois was confirmed as minister to Switzerland.

Samuel Gompers, president of the American Federation of Labor, has expressed great indignation over the manner of the arrest of John J. McNamara and his associates in the Bridge and his Structural Iron Workers' association at Indianapolis. Gompers says they were kidnapped.

The probabilities seem to be against the adoption of the income tax amendment to the Federal constitution. Favorable action by the legislatures of thirty-five states is necessary to its ratification. Twenty-eight have, so far, voted for it, seven have voted adversely, two have adjourned without action and in nine states the amendment is still pending.

The thirteen express companies in this country are capitalized at \$186,221,350, but can only show real property and equipment to the value of \$22,312,375. This means that rates are charged so as to earn dividends on \$167,000,000 of watered stock. Here is a chance for Congress to engage in some practical reform work.

The investigation of the New York fire has brought out the information that there were absolutely no facilities for the hundreds of workers in case of emergency. Heavy doors that swing inward were found to be among the contributing causes of the great loss of life. Scores of panic-stricken girls crowded against these doors and made it impossible for those in the lead to pull them open.

The rapid looming up of the figure of Woodrow Wilson upon the political horizon is unprecedented in the history of presidential campaigns and is one of the most surprising phenomena of the day. A year ago the man who predicted his nomination for president would have been laughed at for the absurdity of his forecast; now it is not only a possibility, but a probability.

Secretary MacVeagh of the United States Treasury, made a plea at Somerville, S. C., that the solid South be broken, but he is barking up the wrong tree. The South was forced to be sold and will remain so until conditions which the Republicans have forced are changed.

If nothing else can stop them, the Daughters of the American Revolution now in session in Washington, can move on to Mexico and make the fighters behave themselves. That is to say if they still retain the fighting blood of their ancestors who tore this country from the grip of the British.

Professor Whitley from Wesleyan University has proved that spirituous liquors are just as harmful when the alcohol has been removed from them as when it is present. Like the gun which has had lock, barrel and hammer removed, it is still dangerous because you can knock a man in the head with the stock.

If You Were to See a Ten Dollar

Bill laying in the street, would you bother to pick it up? O would you? Well there is money to be found just as easy by buying your clothing here, only you save it instead of finding it, but it's money just the same. Think it over, then come to us for your spring outfit. We will show you the best values offered in Sanford. We will show you Clothing that for Style, Quality and Tailoring can not be equaled. Better see them before you buy. They're clothes that make any man look and feel well dressed. Prices **\$10.00 to \$30.00**

STRAW HATS FOR MEN AND BOYS

BRIGHAM, HOPKINS CO. BALTIMORE, MD.

BRIGHAM, HOPKINS CO. BALTIMORE, MD.

BRIGHAM, HOPKINS CO. BALTIMORE, MD.

MADE BY ISAAC HAMBURGER & SONS BALTIMORE, MD.

Hundreds of them here in all the new weaves and shapes of the season. We've a straw for every head and the best "straw" you can buy for the head, best quality, best style, best value, and here you have dozens of styles to choose from—a larger and more varied assortment than in any other stock in the city. A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chiel is Among Ye Taking Notes and Faith, He'll Prent 'Em— So Says Saunterer.

Special Correspondence to The Herald.
 ¶ The path of the average mortal is a thorny one. He is harrassed in body and spirit by the slings and arrows of outrageous fortune from the rising of the sun to the setting thereof, and then some. The ancient who said, "Man that is born of woman is of a few days and is full of trouble" spoke it straight to the point and planted a pellet of truth right in the center of the bull's eye. "Misery is manifold," said Poe, and he had it down right. There is plenty of trouble that will come in spite of thunder for people to have gnash their teeth on account of petty annoyances that can easily be sidestepped.

¶ In the last issue of Dixie, Claude gets off one on my friend, Forrest Lake as follows:
 The Hon. Forrest Lake of Orange is a very serious minded person. He not only is, but he shows it on his face. In fact, he looks like a man with a secret woe. I was talking to Frank Chase about this not long ago, and he agreed with me. Said Frank:

"This remind me of a story they tell in Waycross, Ga. Two men had an argument on the question of family skeletons, one contending that every man had one hidden in his clothes press. The other denied the allegation. Finally a stake of fifty dollars was posted, and they took the following means to settle the dispute: A prosperous, universally loved and respected merchant was settled upon, and this note dispatched to him by special delivery: 'All is discovered, fly at once.' The merchant disappeared that night, and has never been heard from since."

¶ The optimist, while he sees much of the evil, sees also much of the good. He sees more of the beauty, hears more of the music; his mental vision is keener, his spiritual insight deeper. His whole view of life is one of promise. When the problems, vexations, and temptations

come, he stands squarely in his path, and by attitude and expression declares his firm belief in that ultimate good. He has many experiences, and sometimes he fails; but he rises stronger in resolution for having discovered a weakness. There is in him something that never yields. He looks upon evil as something to be overcome. He makes effort, in proportion to this does he elevate himself to a higher plane of life. He has a mission in the world; and proceeds to do his work. This is usually done without demonstration. His force is like the sublime forces of the universe—silent, but always acting. Like the pessimist, his life and thoughts are contagious; unlike the pessimist, he is always welcome. If the two come face to face, he will never yield to the latter's influence. He knows that eternal truth and goodness are working through him, and he believes in their ultimate triumph.

¶ Governor Gilchrist, by an official proclamation, has designated May 1 as Florida Postcard Day—the date upon which he asks every resident of this ideal commonwealth to send to friends and acquaintances in the north, east and west as many postcards boosting Florida as can be afforded. These cards should bear typical scenes or pertinent paragraphs enlightening the recipients as to the many rare gifts of nature in the "Land of Flowers."

Let every resident, man, woman or child, send on May 1 at least one, and as many more as possible, of these cards, as a matter of duty and as a small measure of gratitude for the blessings bestowed upon them in this region of comfort and plenty.

¶ Florida is as a new country; the average northerner has no conception of the ideal conditions with which nature has surrounded the man who is willing to assist her in the production of every necessary of life. We have room for thousands of good men and women, and this postcard campaign, if entered into with a will should bring them here, to share our sunshine and plenty, and no longer suffer the rigors of the north.

¶ The inside of his head resembles the inside of a pumpkin. He falleth in love with a spindle-shank girl with pink ribbon in her hair, and he craveth for an automobile that he may ride her forth in the spring time. He thinketh work is sinful. He scattereth his mother's pin money like a cyclone scattereth a rail fence. He sitteth at night to write poetry and giveth no thought to the multiplication table. His mind turneth to the vanities of life, and not the high cost of bread.

¶ Verily, verily, he needeth a board applied vigorously to the southwest corner of the anatomy.

¶ He thinketh his father a plodder and mother a back number. He pictureth to himself great riches suddenly acquired. He dreameth of steam yachts and private cars.

¶ Yes, he thinketh himself the real stuff. He butteth in where he is not wanted; he criticiseth his elders; he purchaseth cheap perfume and smells louder than a billy-goat.

¶ When he groweth up he getteth a job as clerk in a store at \$1 a day and swipeth extra change from his boss till he is caught.

¶ Now is the time for all of us to get together and work for a greater Sanford. The little unpleasantness existing between Sanford and her colonies will soon be dispelled and whatever the result we should bury our differences and spend the summer working for the common weal. The folks on Sanford Heights are good citizens, most of them are engaged in business in the city and while none of them are situated like the editor of The Herald, should the incorporation stick the people of Sanford ought not to prolong the agony by flinging stones at their neighbors. No doubt the majority of the excellent people on Sanford Heights are willing to come into the larger city right now and would have come in two months ago if the matter had been put before them in the right light.

These small differences of opinion are apt to occur in every community and only demonstrates that Sanford is suffering with growing pains. After the matter has been adjusted we will all be good friends again and all citizens of Sanford. This matter should not be carried to extremes that will cause enmity to rise.

We are here together in the grandest community on earth and in a city that will contain 12,000 inhabitants in the next two years.

We cannot afford to seesaw each other and this backing and filling should be stopped. No city government suits every one and out of chaos will come order and system and the greater city will be all the better for the revolution.

—THE SAUNTERER.

The Need of The South Is The Need of Florida

There is no free land in the South as there was in the West. But, on the other hand, there were in the West no accessible markets in the early days, no transportation system, no settled civilization. The South has all these. One fact that the Southern people have themselves been slow to put full value on is the need of a larger working population. There has never been labor enough—neither unskilled farm

labor nor skilled labor. As for independent farmers—men who own their own land—there is now no parallel on the continent to the opportunities that the Southern States offer. New comers, of course, require some capital, but men who have enough money to begin life may begin it there with the best outlook for success.—Editorial in the February World's Work.

There is hardly a parallel in the state of Florida to the opportunities for successful diversified farming offered by the rich agricultural lands known as Volusia Farms, just across the river from Sanford. The success of Volusia Farms has been far greater than we anticipated this time last year when we first opened this district for settlement. Much of the land has been taken up by a splendid class of settlers, and this in itself, has made the remaining acres of greater value. The more people who settle on Volusia Farms, the greater the automatic increase in value, so that there will come a time—and not in the dim future either—when you will be glad to pay a price per acre based on the producing possibilities of the soil if you wish to settle there.

Diversified farming is the keynote to a good living and something in the bank. All over Florida today you will find corn fields, vegetable gardens, pasture lands, chicken runs, orange and grapefruit groves more equally divided on the average farm than formerly. Our farmers are not relying on one crop.

At the present price of chickens, eggs, meats and other table products, we look for a much larger diversity of agriculture in Florida than ever before. **We look forward to the time when Volusia Farms is the Center of the Greatest Diversity the State has ever known.**

Volusia Farms has the soil. Not because we say so, but because this is proven by the wide diversity of Volusia county products in general. Chickens, cattle and hogs can be raised on Volusia Farms almost without cost. The lands furnish an immense amount of food. Grass grows plentifully without cultivation.

All kinds of vegetables and fruits can be raised on Volusia Farms, and a man looking for a little recreation between times can enjoy the splendid fishing on the St. Johns river or hunting in the woods of the country.

Compared with the early days of the west (and we are in the

early days of the NEW Florida) one need but give little thought to the question of which offers the greatest opportunities. Volusia Farms has frontage on the St. Johns river. Volusia Farms has a standard railroad intersecting east and west. Volusia Farms has roads radiating all directions.

Yet with all the advantages of soil and equable year-round climate, Volusia Farms still need more people—the need of the South is the need of Florida, and the need of Florida is the need of Volusia Farms.

Volusia Farms Needs More People—Men with enough money to begin a life such as they have never known further north, a life where a man earns both the wages and the PROFITS.

We do not advocate any man to come to Volusia Farms without money unless he is willing to hire himself out until he learns the difference between Volusia Farms farming and the work he did previous to his coming here, and even then, a little money is a desirable thing.

To the small capitalist who is willing to put shoulder to the wheel in the early stages of settling in a new place, Volusia Farms is a good investment. Resulting from the past few years of general development throughout the State a constantly increasing tide of prosperity has set in with every likelihood of its continuance. Prices of land increase every week.

During the summer season, Homeseekers' excursions are run from all important railroad centers in the north and central west, leaving every first and third Tuesday of each month. Tickets are good for twenty-five days, a sufficiently long time allowance for anyone to come to Sanford and permit us to carry him over Volusia Farms.

You should not buy land sight unseen. We prefer not to sell you land sight unseen—although we will make a reservation for you and allow you to change location if at the end of a reasonable time you come here, and, after inspection, prefer another tract.

The Homeseekers' excursion

from your section affords you a splendid chance to take a few days off this summer to see what Florida is really like. It won't be so hot as the country you have left behind, for the breezes from either ocean or gulf continually sweep over the peninsula of Florida making our days enjoyable and our nights comfortable.

You'll see oranges "in the making"—green on the trees, you'll see our farmers busy with one of the three and four crops a year, and you'll see those who can leave home enjoying themselves at one of Florida's beach resorts or inland springs. Florida has all these advantages and no competition outside of her boundary line.

In thus seeing Florida for yourself you will understand her better and understand your own capabilities for getting a living from her rich soil. You will know what you are buying and WHERE. Beware of the booklet which contains illustrations taken in other parts of Florida other than those described in its pages. We recently looked over a booklet showing orange groves in a section of Florida where oranges do not grow—leaving the reader to infer that citrus fruits would do well in that section. We have seen a booklet containing the picture of an Indian river hotel, altho the booklet described a town over 250 miles from the Indian River.

The booklet, "Resources of Volusia Farms" tells the REAL story. Nearly all the pictures were taken by our Mr. Packard personally and every word in the booklet faithfully describes the resources of this favored fruit and vegetable belt of southern Volusia county. Send for the book. It is free. Even if you think you are not interested in Florida, read the book as a matter of information. Get posted on the wonderful development of Florida. Who knows but what the reading of the "Resources of Volusia Farms" may mean to YOU the red letter day of your life—the actual turning point of your career. This opportunity is with YOU. Send for the book NOW. Address your post card or letter plainly:

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

CELERY AVENUE NEWS

Special Cor. to The Herald.

Mrs. J. B. Turner, of Tuscaloosa, Ala., and Mr. and Mrs. K. M. Turner of Mont-eagle, Tenn., are visiting Mr. and Mrs. H. H. Witherington on Celery avenue.

Mr. and Mrs. J. T. Edwards gave a reception Friday night of last week in honor of Miss Tillie Hess of Baltimore, Md., who is visiting her sister, Mrs. Edwards.

Mr. and Mrs. Lund, who were visiting Mr. and Mrs. Carl Wood on Cameron avenue have returned home to Chicago, Ill. Mr. Lund is one of the oldest engineers on the C. R. I. & R. R., having been in the employ of the Rock Island for forty-four years. He and Mr. Woods were friends from boyhood and brother engineers on the C. & A. until recently when Mr. Wood came to the celery delta to engage in truck farming.

D. R. Brisson has bought himself one of those locomotives on rubber wheels, best known as an automobile. We heartily wish the Florida legislature would pass a law compelling them to put pilots or cow catchers as some call them on this style of locomotive as we have a holy horror of getting mixed up under one of them.

A. FARMER.

GENEVA JOTTINGS

Special Correspondence to The Herald:

Our genial friend, O. R. Nicholson from Daytona Beach is visiting friends and relatives in Geneva for a few days.

Mr. and Mrs. Van de Car, also Mr. and Mrs. Gilbert have returned to New York after several months pleasantly spent among friends here.

W. H. Underwood and father, of Sanford, also Joe Fernandez and bride spent last Sunday with Mr. and Mrs. C. A. Saunders.

David Speer made a business trip to Gainesville last week returning Monday.

Joe Sieg has returned home from Miami where he has been packing tomatoes.

Mrs. A. W. Davis has gone on a visit of some length to her parents in New York.

Hayte Taylor returned from Miami last week, spent a day with his father, then visited relatives in Orlando, thence to Tampa where he will in future be employed.

We are sorry to learn of the continued illness of Mrs. Henry Baker. This estimable lady has many friends who hope for her early recovery.

Messrs. Story and Jacobs of Chuluota visited friends in Geneva Sunday afternoon.

Capt. Moore came up from West Palm Beach last week and stopped for a day in Geneva before going on to New York. We are sorry to learn that Mrs. Moore and children will spend their summer at West Palm Beach instead of Geneva as usual.

Very much sorrow is felt in Geneva upon hearing of the death of Mrs. A. Fortson which occurred last Sunday morning in Sanford where she had been carried for treatment. Tho having spent but a few months in our midst she had made many friends who are sorry to lose her as a neighbor, a friend and a church member. Our deepest sympathy is extended to the husband who with one baby girl compose the immediate family. May God keep this little child of tender years who has lost her dearest earthly treasure; and may He also comfort other dear ones.

J. T. McLain is moving his saw mill into better quarters and will soon have an abundance of first class lumber.

There was a jolly easter hunt given for the younger set last Wednesday near the home of Mrs. Fultz.

A Woodmen's lodge has been organized in Geneva with a good large membership and the ladies auxiliary will soon be added. The officers chosen are Messrs. Speer, Howard, David, H. H. Pattishall, R. Q. Gresham and Homer Nicholson. Mrs. Shaddock of New Smyrna assisted in the organization.

On last Thursday afternoon Mrs. M. S. Etheredge entertained the M. M. S. society. As this was the time for election of all officers there was much business. Those elected for the ensuing year are Mrs. David Speer, president; Mrs. Charlie Harrison, vice president; Mrs. Fultz, treasurer; Mrs. Robertson secretary. The money on hand was voted to be used for recovering the city hall. After the business Mrs. Etheredge served delightful

cream and cake which was indeed refreshing. Misses Emma and Ruth Proctor assisted in serving.

MOORE'S STATION

To the Editor of The Herald:

Wednesday evening of last week a few of the fans met at McClellans' store and organized an athletic association, with E. A. Gilbert as president; J. F. McCellan as secretary and treasurer, the primary object is to "play ball" and in a short time will have a "chip on the shoulder" and be looking for some base ball club to come along and knock it off. After the ball season is over their attention will be given to other sports, the boys had their first try out on Saturday.

Mr. Harper is erecting a house on his Beardall avenue farm.

Mr. and Mrs. Will Benton, child and Mrs. Bentons mother will leave for Wichita Kansas next week.

Quite a good many cucumbers and beans of fine quality are being shipped, a few more potatoes to dig yet. Melon vines are looking well, egg plant, and tomatoes are coming on nicely.

E. A. Gilbert and sons joined the Howard and Packard families last Saturday for a day at Lake Harney.

Mrs. J. M. Prevatt has been here from Geneva spending several days at the McClellan home.

Mc. and Mrs. R. M. Warner and sons, have gone to their home in Bridgewater, Conn., after a very pleasant winter here.

Mrs. Louis Willis and young sons visited friends in Monroe over Sunday.

Mr. and Mrs. J. F. Turner of Beck Station entertained her mother Mrs. Rigby of Oviedo a portion of last week.

E. A. Gilbert was at the county seat on business last Wednesday.

Rev. Hendry was here Easter Sunday and preached on the resurrection to a large congregation. Several from here attended the evening meetings in town last week.

Miss Laura Fish and Mrs. J. C. Pittworth Jr., were Mrs. Homrighous guests at the Welaka club on Tuesday last and enjoyed the musical.

Mrs. Fannie Lee of Beck Station was the guest of Oviedo friends this week for several days.

A program is being arranged for an entertainment to be given here in a short time.

CAMERON CITY ETCHINGS

Special Correspondence to The Herald:

Mr. Randall from Kentucky is enjoying a visit at the home of his son west of town.

Mr. and Mrs. Howard Powell left us Saturday to spend the summer on their farm in Connecticut. We hope to see them back in the fall. Mr. and Mrs. J. W. Powell will remain until later in the season.

James Allison of Wichita Kansas is visiting in Sanford and Cameron City. He spent Sunday among us and made a most interesting talk on the Lesson Topic at Sunday. Mr. Allison is much interested in the development of this vicinity and expresses himself as much pleased.

Mrs. George Swartz and daughter Thelma, have gone to their home at Winona, New Jersey for the summer. Prof. Geo. Swartz with his father and mother, Rev. and Mrs. Joel Swartz will spend the summer at their home on Lake O'Nora.

Lawrence Rich, wife and little son are leaving this week for Kansas City Wichita.

A boat trip down the river to Blue Springs is being planned in honor of Mr. James Allison for Thursday of this week. These outings have always proved most enjoyable and we expect this occasion to be a very pleasant one.

Prof. Hancock has shipped three hundred bushels of onions. How is that for a first crop?

Among our Sunday callers were Mr. and Mrs. Packard and family from Sanford and Mr. and Mrs. Kent Rossetter and family of Celery Ave.

Miss Bessie Schumpert spent Thursday night of last week with Miss Aileen Minnick.

Miss Mazie Rich arrived last week to spend her summer vacation with her parents Mr. and Mrs. J. C. Rich. She has been teaching school in Kansas.

The Farmers' Club had a very lively, interesting meeting last week and will meet again next week on Tuesday evening. Everybody cordially invited. Come and enjoy the discussion, the programme, the light refreshments and social hour.

THE SANFORD HERALD

Published every Friday Morning at Sanford, Fla. R. J. HOLLY, Editor and Proprietor

Subscription Price, \$2.00 a Year in Advance

Entered as second-class mail matter August 22nd 1904, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148.

FLORIDA COLONIES [Written for the meeting of the Florida Press Association at Tallahassee, April 25th.]

My subject is a dry one, and since notification of the assignment it has been a problem as to why such a selection was made, and being made, just how such a subject could be handled by a newspaper man before a gathering of newspaper men.

Every foot of Florida soil is worth something to the man who has hibernated in the north during eight months in the year, but living on climate alone is not a lucrative occupation to the people who come to Florida after reading some of the attractive literature that illustrates the farmer picking gold from the trees and living a life of luxury and ease.

It is rather difficult for any one who has not personally inspected each colony to give facts and figures concerning the same. The immense profits derived from an acre of Florida land in the sub-irrigated districts have been enlarged upon and much land has been sold that will not prove as profitable to the new owners as they have been led to believe.

You can take an acre of land that is too poor upon which to raise a mortgage, and with a few chickens and hogs make a living, aided by the countless lakes and the game in the woods.

But to the many who are seeking Florida as the new Eldorado with their families and their Laredo and Penateca, giving up their former homes and friends and casting their lot among us, something more than a bare living is desired and to those people my advice has always been, "See your land first, before you buy."

The colonies that have been established in Florida appeared to be peopled by industrious, thrifty farmers and a majority of them are satisfied with the state. At Sanford we have no colony scheme and I am not in a position to pass judgment upon the success or failure of any colonization scheme that has been exploited in the past twelve months.

The uncultivated land of our section sells from \$100 to \$200 per acre and the improved land at \$1,000 per acre, which precludes the possibility of colony establishment.

The Everglade lands are attracting thousands to our state and last week some 3,000 people were allotted their lands near Ft. Lauderdale. According to press dispatches these purchasers are well satisfied with their holdings.

At St. Cloud the civil war veterans have located, and within a few months the little city has sprung up and now numbers some 1,500 inhabitants, all seemingly contented and happy.

The real history of all the new colonies established in Florida would fill a large book, and along this line of information I wish to impress upon the newspaper men and the legislature now in session, the necessity of a state bureau of information at Jacksonville or some other city, said bureau to be in charge of a man thoroughly reliable and honest and conversant with the conditions existing in every part of Florida.

our sins and relieve us of the sponsorship of the whole state.

There is not a day passes that the newspaper offices do not receive from one to twenty letters asking about different sections of Florida, and our responsibility in this respect is greater than the average layman can compute.

Our work is mainly a labor of love, in which the profits play a secondary part. The amount of good accomplished by the Florida newspapers is inestimable. The exodus of new people to the state of Florida in the next few years will reach the millions, and in their location we will play an important part.

It will be the duty of the state press to laud the good and censure the bad, and in this great work we need the help and cooperation of the immigration bureau. There are failures everywhere, and in the exodus to Florida we find the professional man, the banker, the artisan, the clerk and men from every walk of life—men who never saw a blade of grass grow before—expecting to take five acres of land miles from a railroad, with no water for irrigation, no protection from frost, no system of drainage, and no knowledge of soil and fertilizers and make a large profit the first season.

There is an era of prosperity upon us that has never been equalled in the history of the country. Our fair state in the next ten years will thrive and flourish as no other. The land colonies are the forerunners, and upon their successful establishment much depends. See to it that the stranger gets his money's worth, and becomes one of us, a builder and worker in future weal or woe.

The colony promoter can "fold his tent like the Arab and as silently steal away," but the man who has purchased a tract of land under water or one that is absolutely worthless cannot steal away, and when he does he will give Florida a pair of black optics.

The truth about Florida is romantic enough and every man that sells a foot of Florida's soil should confine himself to the truth.

If the seed is planted right Florida colonies mean a larger population, a good class of people, new ideas, new blood, new money. Our very nation was founded upon the colony plan, and immigration should receive the serious consideration of Florida citizens and especially the newspaper men.

We are building for the future and our state will be the brightest in the galaxy of stars.

INITIATIVE AND REFERENDUM

Representative West has introduced a bill for the initiative and referendum. Mr. West explains the bill tersely:

"The initiative enables the people to initiate legislation—that is to say, it enables them to originate, propose and adopt legislation, independent of the legislature. It does not, however, withhold or withdraw from the legislature its power or right to legislate upon any subject."

"The referendum means the submitting of a law to the people for decision at the polls—that is to say if the legislature shall pass an act that is objectionable, a fixed number, usually 5, 8 or 10 per cent. of the qualified electors of the state may, by petition, have the act submitted to the people for ratification, or rejection, and in the meantime its operation is suspended."

The Sanford family near row is assuming proportions in the Legislature and will be bitterly fought out. The Heights and Goldboro people ought to be ashamed of themselves, growing fat on Sanford enterprise and not wanting to help support and become in every sense a part of the growing city.—Orlando Sentinel.

OUR RESPECTS TO "ORANGE COUNTY"

In the Florida Times-Union, Jacksonville, Fla., Friday, April 21, in the People's Forum appeared an article under the head of "Tyranny Under Republics." It was signed "Orange County."

It was for the purpose of discussing and bringing to the attention of the other sections of the state of Florida a political situation in which the city of Sanford, Fla., is interested. A subject entirely local to Sanford and the residents of a small territory around us, connected with Sanford by the improved streets and good roads we have been building during the last few years.

The subject has not been generally discussed in the columns of The Herald because it did not occur to the management of this paper that it was necessary to burden the outside world with our home affairs. We believed we could settle any differences we may find among ourselves. But the columns of this paper have always been open to the public for the discussion of local matters by any of our citizens. Our only objection to the use of the paper would be in cases where the articles would not have been proper reading matter; such matter is excluded by all reputable newspapers, whether daily or weekly.

The second and third paragraphs reflect on the intelligence of the members of the upper and lower houses now in session at Tallahassee. It is the general opinion that we have not had a more representative legislature in many years than that now assembled, and we are unwilling to believe that one or two or three from any section would be able to hoodwink them into discreditable action in order to please some clever member with a pet scheme.

Sanford Heights is not an incorporated town, its alleged boundary lines are impossible. It is a new residential suburb and is reached by way of Park avenue, which is paved with hard brick as far south as Tenth street, and from Tenth street on to the "Heights" the municipality of Sanford improved the road with a heavy covering of palmetto fibre, that the teams and the automobiles owned by the residents of this section would find easy and comfortable riding to and from their places of business and pleasure, located in Sanford. Every business man out there has his place of business in Sanford.

If the town of Goldboro was not quiet and peaceful Sanford would have it so in very short order, there would not be any delay about it; it is reasonable to suppose that it is of so good a disposition by reason of its proximity to Sanford. It has been the claim, and very proper too, that the class of citizens stated by "Orange County" to inhabit the place, have been a charge upon the people of the south long before Goldboro became a town; and there is no good reason just now to say that they are not to be cared for further.

It is a remarkable statement to publish that the wish of Sanford to extend its city limits is for the gratification of a few ambitious money making parties who are behind this idea or these bills. The writer of the article does not offer a fact in support of so serious a charge and if he knows what he says is true he should at once undertake to bring this reprehensible conduct to the eyes of the people by publishing the names of the money making parties who are endeavoring to use our people and our legislature for unworthy purposes. Do not make a charge so grave in the public prints, at home, much less abroad, that cannot stand the light of public gaze. Do not smear mud on your own door plate. It is not creditable and you may not be able to wash your hands clean after the job. If there are "niggers in the woodpile" as you say in the finishing lines of your distant publication why not pull him out, and if you cannot smoke him out, he is like the burglar who disturbs the household and is found to be the wind rattling some loose window.

The bills that have been sent to the Florida legislature for the new charter and for the extension of the limits of Sanford had the endorsement of the city council of Sanford and of the Commercial Club of Sanford. The bills were prepared by and have been defended in public by able lawyers; the members of the city council who up to this time have not been proved to be a discredit to this community were elected by a majority of our qualified citizens to hold office for the purpose of the protection of our rights and the improvement of our condition. No city in this vast country has shown

greater development in the last four years than the city of Sanford, and now we are trying to build a greater and a better city; when we are trying to make this seaport of Florida's greatest county the city it should be coming some unknown interest with a pick axe to pull down.

If the time has not arrived for Sanford to extend its city lines, will it ever come? We are outgrowing the limits made years ago. If we are to take in that territory immediately surrounding us is it not better that we should do so now when the values are not as high as they will be in latter years? Are we to wait until our citizens, for residential purpose, move out on or beyond our present lines and build up valuable places and then take them in because of the great value the outlying property will have for general taxing purposes? No, we should enlarge our limits right now and in this way all our citizens will be benefited by the growth that will come as time goes on.

If you were writing in the spirit of fairness as you claim; you would have announced in justice to the people of Sanford that the district under consideration should become a part of the city, and without delay. If you a citizen of Sanford, Sanford Heights, or a property owner of Goldboro you would have been endowed with that civic pride that would have prompted you to use the home paper to bring out the skeleton you must feel that we have in our closet. You should not go to a paper published ten or hundred miles away from the scene to say unkind things about your own people; people who have been chosen to manage the affairs of a town so great and so promising as Sanford. And you would not use so good a name as "Orange County" for so poor a purpose.

The sad accident that befell Editor J. R. Merchant of the Madison Recorder is a matter of sincere regret to the state press. Mr. Merchant was a young man who gave great promise of reaching the

top notch in the profession and had only recently taken his new field of labor. Mr. Merchant was a personal friend of the Herald editor and our sympathy is extended to his wife and family.

IN SANFORD CHURCHES

Where Devout of the Celery City Worship Sunday.

RESUME OF ALL CHURCH EVENTS

Of Interest to Those Religiously Inclined—Subjects of Discourses for the Sabbath.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurred Herald Readers.

Growers' meeting next Thursday. E. E. Swingle left yesterday for Chautauoga for the summer.

The Herald offers post-cards for Monday at one cent each just to advertise the city.

Growers' Association annual meeting Thursday.

Mrs. John Herby is critically ill at the Nursing Home, following a severe surgical operation.

Mr. and Mrs. Granger of Jacksonville arrived last Friday for a visit to relatives in this city.

Mr. J. O. Packard's mother left Monday for her home in Urbana, Ill., after a two months' visit.

Mrs. E. W. Peabody left last Wednesday for visit with relatives in Waycross and Macon, Ga.

The store of L. R. Phillips & Co., is being rejuvenated by a new ceiling and sidewalls of paint.

Mr. and Mrs. F. P. Rines are rejoicing over the arrival of a little girl at their home on Wednesday morning.

Mrs. J. B. Stryker and children left last night for Lonsdale, Pa., after spending a month most pleasantly with home folks.

Mrs. R. H. Marks and sister, Miss Rose Clayton left on Monday for Atlanta, where Mrs. Marks will spend the summer with home folks.

Miss Antoinette Luke accompanied her Uncle to Mich. for a summers visit, starting Monday last. The latter has been wintering in Florida.

Hon. George A. DeCottes has returned from a trip to Tallahassee where he spent several days on matters connected with the city of Sanford.

T. J. Miller has placed a fountain in front of the Imperial theatre that makes a great improvement in the appearance of this popular place.

On next Friday night the good people of Moore's Station will give an entertainment for the benefit of the Sunday school. Everyone cordially invited to attend.

A. W. Rantoul of Boston, Mass., who has been spending some time in Sanford has purchased the old Amory orange grove and will make it his winter home.

T. B. Lanier, grand mogul of Lake county was in the city on Monday enroute to Tallahassee where he will repeal two thirds of the laws now on the statute books.

Lake Mary Industrial League will have an entertainment Saturday evening, May 6th, for the benefit of the Lake Mary cemetery. Ice cream will be served. Admission 10c.

Annual meeting Growers' Association next Thursday.

W. A. Ginn, the well known civil engineer is having an elegant residence erected on his farm south of the city. When completed it will be one of the finest homes in the city.

C. L. Polk and E. M. Luke with their "Better-halves", of Mecca Hammock have taken up their residence in town for the summer. The ladies are among our valued corps of teachers.

At the Methodist church last Sunday evening the annual sermon was preached to the Independent Order of Odd Fellows by Rev. J. A. Hendry. The Odd Fellows attended the service in a body.

William Kalmbach, one of the industrious "Wolverines" who is located in Mecca Hammock, left for Michigan today. He will be here again to resume farming operations about Aug. 1st.

H. Carl Dann the liveliest real estate man in Orlando was in the city on Thursday. Carl is looking around and may decide to start a bank or a newspaper in Sanford in the near future.

W. H. Underwood has just turned out another work of art in the shape of a new wagon for J. B. Pope of the Pepsi-Cola Bottling Works. The wagon is a fair sample of what Mr. Underwood can do and will prove a good advertisement both for Underwood and Pepsi Cola.

The Florida Vegetable Growers' Association annual meeting, as prescribed by the by-laws must be held the first Thursday in May. This date falls on the 4th of next month, which is the coming Thursday. The meeting will be held in Eagles' Hall at 2 p. m. Every member is expected to be present.

If you want a position or are in need of help, let me secure them for you through the Southern Business Exchange. List of positions open and unoccupied on hand. F. N. Hitchcock, agent, Box 1197, Sanford, Florida. 37-4c

COMING INTO HER OWN.

Florida is Receiving the Recognition She Deserved Fifty Years Ago. In March the Southern Commercial Congress held a convention in Atlanta, and addresses were delivered by President Taft, former President Roosevelt and other men of prominence. Newspapers and magazines gave generous space to the subject of Southern development. Following is a fair example of editorial comment:

"Florida is receiving at the hands of the nation today that to which she was justly entitled fifty years ago. Very truly has it been said that westward the star of empire takes its path. Now, however, the eyes of the nation are being opened to the commercial importance and commercial influence of the South. The western path has been trod upon by the people of all nations, and the star of empire, having cast its rays for so long a time upon our sister States of the West, is now wending its way, to the hope of this Southern Commercial Congress—a greater nation through a greater South."

"We, of the Peninsula State, can observe in the horizon its beneficent rays. We are preparing for its proper reception, by the development of the many resources heretofore mentioned by the building of many miles of navigable inland canals; the draining of the Everglades, which will open to the agricultural world millions of acres of the best farm land in the United States, and, in various other ways too numerous to mention. The trend of travel has unquestionably turned to Florida. We are crowded with land-seekers and immigrants from all parts of the country. We ask the prospective investor to come and see for himself feeling assured that the truth alone will be sufficient evidence of our stability. For these reasons, we extend the right hand of good fellowship to the nation, as we bespeak for the State of Florida your kindly consideration of our claims to a full share in 'The solid South of business.'"

Why not let us store your furniture while you are away for the summer and save house rent. Sanford Furniture Co. 35-1f

Go to Mrs. J. H. Bruton, 110 Palmetto avenue, for stylish millinery. 35-1f

THE Laundry Bag says:

"Some men look good—until they're unmasked."

"Same with collars."

"I've studied collar character all my life."

"I know the honest ones—those which not only look right, but also feel right and wear right."

"It's only the honest-clear-through collars, like Corliss-Coon, that can look a laundry straight in the eye and dare it to do its worst."

"That's why these collars hold the record for trips to the laundry."

United Specialists Coming to Sanford

At The Robbins Nest, Thursday Afternoon 2 p. m. Friday all Day.

MAY 4-5

WE NEVER USE THE KNIFE

Not necessary to attend sanitariums, hospitals or health resorts; our medicines and treatment can be taken and applied at home. Each person applying for medical treatment to our visiting physician or at the home office should bring from two to four ounces of urine, which will receive careful chemical and microscopical examination. Consultation and examination free and strictly confidential. No names published.

SPECIAL NOTICE

That we may become quickly known we are going to treat the first twenty-five cases that call upon us at the hotel absolutely free, excepting medicine. This applies only to this visit. We shall return every four weeks that we may successfully carry out all treatment begun. Call early if you wish to accept this offer.

Chief Examining and Consulting Physician of the United Specialists, by request, will visit our city on the date named, every four weeks thereafter. Consultation FREE and strictly confidential. Are you suffering from any disease, weakness or disability? Why not consult an experienced, educated specialist, one who is thoroughly equipped with all the necessary appliances known to modern medical science?

AN INFANT ONE HUNDRED YEARS OLD TO BE ELECTROCUTED.

Pastor Russell Explains Isaiah lxxv, 20

Brooklyn, Mar. 5—A year ago Pastor Russell's audiences were too great for "Brooklyn Tabernacle" and Brooklyn's largest and finest Auditorium, the Academy of Music, was secured.

Every seat was filled and a few turned away on the occasion of his last discourse here February 5. Today, however, hundreds were unable to gain admittance and are promising themselves to go earlier next time. It looks as though a still larger auditorium should be sought.

Pastor Russell translated his text to read, "Thenceforth there shall be no more (death of) an infant of days, nor of an old man who hath not filled his days; for the dying one shall be but a child at a hundred years old—a sinner a hundred years old shall be accursed"—cut off from life. He pointed out from the text that this statement is a prophecy respecting the future—respecting the time when Messiah's Kingdom will rule the world. The verses following the text, he said, indicate clearly that in that glorious Epoch landlordism will be a thing of the past. People will build their own houses and inhabit them; plant their own vineyards and enjoy the fruit thereof. They give a description of the period when sin will be giving place to righteousness; and sorrow and death will be giving place to happiness and life—perfect and lasting.

Two Salvations Taught in the Bible. All of us in the past have reread our Bibles and not noticed that there are two salvations. One will be to heavenly conditions like unto the angels, where there will be no planting, no building, etc. This is the salvation offered from Pentecost to the present time to the faithful few who walk in the footsteps of Jesus and make their "calling and election sure." The other salvation will be an earthly one. It will recover mankind from sin, degradation, sorrow and death, to human perfection, to earthly palaces in a

world-wide Paradise restored. But this earthly blessing or salvation has not come to mankind as yet and cannot come before its time. St. Peter tells us that those "times of restitution of all things which God hath spoken by the mouth of all the holy prophets since the world began" will begin at the Second Coming of Christ—after he shall have selected the saintly few who will constitute his Bride, his joint-heirs, in his glory, honor and immortality—his associates in the Messianic Kingdom.

Living and Dead—Just and Unjust.

Pastor Russell declares that God's provision for the Church will include not only those alive at the Second Coming of Christ, but also, by a resurrection change, all those who have fallen asleep in Christ throughout this Gospel Age. These will constitute the "first resurrection," and as priests of God and Christ will reign with him a thousand years (Revelation xx, 4).

Just so also, the earthly blessings will include not only the people living at the time of the inauguration of that Reign of Righteousness, but also, as the Redeemer said, "All that are in their graves"—the evil as well as the good. The saints coming forth will have their reward immediately because of their faithfulness during this time, which precedes the first time of the world. Then the times of mankind, aside from the Church class, will all be brought to a knowledge of the Truth—heathens and civilized—none will any longer be allowed to grope in darkness or to be blinded by Satan and the attractions of sin. Satan himself will be bound and all the fallen angels with him will be restrained from defiling or having anything further to do with humanity. The light of the glory of God will fill the whole earth as the waters cover the great deep. Every knee shall bow and every tongue confess to Messiah—to the glory of God the Father.

Hundred-Year Old Children.

In the beginning, before our race had fallen so far into death, some of its members lived to be several hundred years old, and that under the unfavorable conditions of the curse—thorns, thistles, etc. At that time, said the Pastor, human kind were but as children. Today, after six thousand years of experience under the fall, centenarians are rare—and these are old men returning to second childhood. The restitution processes of Emanuel's reign of righteousness will have so uplifting and blessed an effect on mankind as to bring back, not only strength of morals and of mind and of will, but also physical strength—

youth, vigor.

Every man will have a century of schooling, of instruction, of preparation for living. Open and violent sin, wickedness and injury to others will not be permitted at that time at all. Nevertheless, there will be many opportunities for testing, proving, teaching mankind. The disobedient will receive punishments, "stripes." The well-doers will be blessed, rewarded, uplifted. But after having enjoyed a century of such schooling and correction in righteousness, those still resisting the Divine regulations will be sentenced, as sinners, to be "cut off" from life.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

A SMALL boy and a snowball are never dangerous as long as they are in company. It is when separation takes place that an anxious moment is felt.

If women were consistent what would be the logical end of men?

There are people who do you favors in order that they may remind you of it in time of peace and happiness.

Some people work hard for the sole purpose of wearing a martyr's crown.

If everybody had artistic taste, what would we do for our supply of common people?

Of course it always seems to us that it is the other fellow that is holding off the millennium.

Where there is a will there is sometimes a way and sometimes a won't.

The telephone should not be called a perfected instrument till its feminine subscribers can exchange sleeve patterns as well as cake recipes over it.

A man should be thankful that he doesn't have to wear his wife's hat instead of merely paying for it.

Some Exceptions.
Not every microbe you may meet is mean enough to cin.
The germ that flavors buttermilk is quite a friend of man.
Drink hearty and you'll live, they say, To see the scooters pass away.

A WORD TO PROSPECTIVE TRUCKERS.

As this issue of The Grower will probably go into the hands of many persons who contemplate engaging in the truck business in Florida, and who are entirely ignorant of the conditions and possibilities of the business here, it may not be amiss to sound a note of warning and call their attention to a few problems that should be carefully considered before a location is decided upon. The location of the farm is a very important matter. The question of cost of transportation to market by rail or water is a vital one, and the fact that water competition always has, and always will, produce lower rail rates, should be passed upon. Again, the distance from the chief markets which we use in disposing of our products, is a matter to be thought of, as the present mind of the Interstate Commerce Commission does not predict a blanket rate for Florida vegetables at any time in the near future. Besides, I do not consider a blanket rate applicable to all Florida points to be fair and just either to the transportation lines or to the communities themselves.

It is true the transportation rates are now being made or regulated by the government, and in all probability will forever be controlled by it. But it must be remembered that the amount of business done by the transportation lines will always cut a figure in the rate, and that is a matter also to be considered in the figuring of present and prospective freight rates, so much for transportation facilities.

Another important consideration is the community in which one locates. Aside from the social and educational advantages which every intelligent man looks into, the extent to which the trucking business is done, in the neighborhood is a matter of importance. If the business is carried on on a small scale or by a few small growers, there will be found some difficulty in loading solid cars of vegetables, and one would be compelled to use express service, which is very unreasonable and unsatisfactory. Some classes of vegetables have to be refrigerated, and this cannot be done unless solid car shipments are made. Again, where considerable quantities of vegetables are grown the buyers come,

and often f.o.b. cash sales are made, bringing the grower the cash where the goods are loaded. Another, and a very important condition to be considered, is frost protection.

As early vegetables almost invariably command a better price than late ones, and a week's difference in shipment frequently means doubling the net price to the grower it can readily be seen that the matter of a few degrees in temperature often means a great saving. In fact, a difference of two degrees in temperature often represents the value of a crop, and may be expressed in plain language, as the difference between a dead crop and a live one. Therefore it can readily be seen that the question of local temperature is by no means one to be ignored—a contrast of two to five degrees in temperature is often found in localities only a few miles distant from each other. This condition is often explained by reason of bodies of deep water lying to the north or northwest. This water does not grow cold as suddenly as the air and its warmth tempers the surrounding atmosphere on cold nights. Dark low lands are also colder than lighter soils, and basins are colder than the hills, as cold air, being heavier, settles in the low places on frosty nights.

Distance from transportation is another factor to be considered. An acre of land in Florida is capable of yielding annually 20,000 to 40,000 pounds of vegetables, and to this may be added fertilizers and other farm supplies, which have to be hauled to the farmer annually. A little simple mathematical calculation will readily convince the prospective trucker that it pays to be handy to a shipping point.

Again, if one contemplates growing such vegetables as require considerable labor to gather, such as beans, peas, berries, celery, cukes, tomatoes, etc. (and nearly all kinds require considerable labor in growing and gathering) the labor problem must by all means not be overlooked. Often a ten-acre farm will need as many as fifteen hands, and as most of this labor is wanted only for a short time, it is patent that one must be near a town, where this surplus of help can be had when needed.

The cost of obtaining water for ir-

rigation purposes is further food for thought. While we have an annual rainfall of 52 inches, it has been found highly profitable to provide irrigation for most garden crops. In some localities flowing wells, at small expense, may be had, and these, perhaps afford the cheapest means of irrigation. There are also localities where artesian wells may be had at a depth of 100 to 200 feet, affording an abundance of water, but as the water from these wells does not rise to the surface, it is necessary to use a pump and engine in forcing it over the surface, either through pipe or in furrows.

Again, there are other localities where water in sufficient quantity for irrigation purposes cannot be obtained at any reasonable cost.

The last, but by no means the least, consideration is the quality of the land to be used for gardening purposes. When it is known that one acre of Florida's best land, bought, cleared, fenced and properly irrigated, calls for about \$400 in cash before a seed is planted, and, in addition to this, the expense of growing and harvesting the crops for a period of five years will represent another item of some \$500 or more, depending, of course, upon the kind of crops grown, it will readily be seen that it does not pay to put this outlay on inferior soil. If one should undertake the building of a costly structure, he would certainly see to it that the foundation was good.

I do not wish to be understood as saying that it requires an outlay of \$400 to get an acre of land ready for the seed. But I do say that \$400, wisely invested in an acre of land for gardening purposes, is a judicious outlay. However, to those who do not care to put so much in one acre, I may say that cheaper lands may be had at, say, from \$10 to \$25 per acre. And may be cleared, fenced and made ready for the plow for an additional \$20. Such lands may be used profitably in growing melons and general farm crops, which mature in summer, and irrigation may be dispensed with.—J. R. Davis, in Florida Grower.

Orange Grove for Sale

No. 1, Parrish Grove. Price \$2,000
6-Acre Grove - 300 Trees

The Land is described as follows:

W. 1/4 of S.-W. 1/4 of N.-E. 1/4; and the S. 13.68 chains of the E. 3.18 chains of the S.-E. 1/4 of N.-W. 1/4 of Section 1, Township 29 S., Range 20 E., containing about 14 acres. The location is about one-mile east of the town of Seffner, Hillsboro County. Seffner is ten miles east of Tampa on the Atlantic Coast Line. There is a fine macadam wagon road from Tampa to Seffner and on to Plant City. The orange trees are mostly seedlings with a few grapefruit and satummas. About half of the trees are of bearing size, and the rest are smaller. The land is medium low hammock of the most excellent quality; so that there is considerable farming land outside of the grove.

Originally this was very heavy hammock woods, and it must have cost two or three hundred dollars an acre to clear and prepare the land for orange trees and garden. There are no buildings on the property, but it is so near to Seffner, no buildings are necessary.

Mr. W. F. Taylor, of Seffner, is in charge and will cheerfully show the property.

M. F. ROBINSON
SANFORD :—: FLORIDA

FISHING IN FLORIDA.

Florida has some 1,200 miles of salt water coast which, added to her fresh water bodies—lakes, rivers, ponds, springs, havens and bayous—give both variety and diversity of field, and supply a variety and diversity of fishes, together exceptional. We find a few fishes that are common on the Northern coasts, such as the striped bass, sea bass, bluefish, etc. Others will not range north of Delaware, others are local in their habits and range, such as groupers and snappers. All along the ocean and gulf coasts, where the fresh water lakes are near the sea, there are to be found, within a mile or two, both salt and fresh waters, with their separate and distinct families of fishes. Nowhere in this vast country can the angler find greater variety, or more, or better sport than on the coast or inland waters of Florida.

The most attractive fishes for both fun and food are about as follows: Pompano, sheepshead, channel bass, salt water trout, red grouper, cavalli, mangrove, spanish mackerel, tarpon, barracuda, bluefish, drum, etc. Most of these fish can frequently be caught with hook and line and many of them furnish a great deal of sport. The silver mullet swarms in most Florida waters, and can be caught best with cast net or seine, as it refuses all kinds of bait. The mullet is a fine food fish and is caught in large quantities and is cured by salting. It, and especially mullet-roe, is very much esteemed by the native Floridians, who frequently drive to the coast from one hundred miles inland to procure a winter stock of this delicacy.

One of the smaller sized pan-fish which inhabits the bays around Florida is the pig fish, which can be frequently caught at the rate of fifty to one hundred per hour. It is a game little fish and quite sporty.

In the fresh waters, pike, black and striped bass, bream, perch and catfish. The bass are especially large and gamey and will give the true angler plenty of amusement.

Where to go for good fishing, it would be hard to say; the places are so numerous that there is but little choice, except in as far as railroad and other facilities are concerned. Naturally, away from towns, railroads and steamboats better fun can be enjoyed.

Florida fish are still uneducated. Your tackle need not be of any particular shade, and expensive flies are useless. All one requires is a good stout bass rod and good strong tackle and hooks. For hand line fishing, residents largely use cabled laid cotton and cotton braided lines.—St. Cloud Tribune.

OR EVEN TO HEL-ENA, MONT.

Go West, young man, as Greeley said, and carve out wealth and fame; if you're equipped with heart and head you'll surely win the game. If you are brave and staunch and true, ambition in your breast, all things will surely come to you; so, then, young man, go west. Go east, young man, and win renown, the field's beyond compare; the toiler in the field or town may gain his laurels there. The youth who'd take a higher way than that of clod or beast will rise to nobler heights some day; so then, young man, go east. Go south, young man, to virgin field, and build yourself a home, returning only on your shield, as did the youth of Rome. Go to your work with willing hands and calm and restful mouth, and fortune waits for your commands; go south, good youth, go south. Go north—what boots it where you wend? All regions are the same; the earnest, honest soul, my friend, will win an honored name. Each country has its rich reward and gladly brings it forth for him who labors well and hard—go east, or west, or north!

High School Notes

The Debating Society held a meeting Monday, April 19th. The subject of debate was: "Resolved, that the saloon keeper is not more guilty of crime than the man who commits the crime while under the influence of drink sold to him by this saloon keeper." The negative won.

The Irving Literary Society held its regular meeting Monday afternoon.

The High School library has made a promising beginning. Several new sets of books have been added, among them being the Harvard Classics, Dr. Elliot's famous five foot library.

Commencement is less than a month off now and preparations are being made now for a very interesting commencement week.

Ladies' White Waists

Smart dressers realize that there is as much difference in Waists as among people, some are ordinary, others high-grade and a few distinctive. Ours belong to the last named class. They are Lawns, Batiste and all Irish Linen, beautifully trimmed and tailored effects, very special at 98c

Floral and Dot Lawns

A new shipment of Lawns bought under price and will be sold at a great saving, they come in White and Colored Back Grounds with large floral and small dainty patterns, a regular 10 and 12 1/2c seller, but our low price will be 8 1/2c

Smyrna and Brussels Rugs

A new shipment of these large and beautiful Rugs in many pretty and desirable patterns. The Smyrna Rug being a reversible one adds greatly to its value, while Brussels tapestry are noted for durability. These are on display for Monday. 98c

Cotton Mattress

About 30 of these splendid Cotton top Mattresses left. They are full double bed size, a great value at \$3.50, Monday... \$1.98 Another great value is our genuine Eagle Felt Mattress, made full double bed size and is very durable as well as comfortable. \$10 value, special \$6.98

Folding Springs

There is no Spring that is more durable, easily handled and more comfortable than this full size (4 feet 6 inch) Folding Spring; they can be handled without the abuse of bed, also without having to call upon hubby, worth \$2, special \$1.69

Bed Special

Another value in durability just as good as the higher price one, but not quite so elaborate. They are made with the continuous post and ball joints, with white enamel, made to retail for \$3, but Caldwell's low price only... \$1.98

Embroidery Flouncing

A new shipment of these beautiful Flouncing arrived this week ranging in widths from 18 to 45 inches, they come in eyelets and handsome embroidered designs, having a medium width insertion or banding to match, very pretty and stylish for the summer wear, prices from 25c to \$1.13

Dress Skirts

Just received a large shipment of Ladies' Skirts in Tan, Blue and Black, beautifully tailored and are made in the newest styles, they come in Voiles, Panama, Mohairs, etc., some are piped with bias folds, while others are trimmed with buttons, only \$2.48 to \$9.98

Hosiery

A few dozen Ladies' thread Silk Hose in Black only, Lisle foot and a six inch Lisle top, more durable than the all silk, special per pair 47c

D.A. CALDWELL & SONS

...PRETTY... JUNE GRADUATES

Will look still more lovely if arrayed in some of the dainty fabrics we are offering.

For Commencement

- White hand woven Batiste 50-in. wide..... 59c
- White, wash Chiffon, 50-in. wide..... 59c
- French Organdy in white, 45-in. wide..... 34c
- French Nainsook in white, 45-in. wide..... 34c
- Fine quality Mercerized Batiste, 47-in. wide..... 33c

FOR CLASS DAY

- Printed Foulards in newest shades..... 59c
- Natural color Pongees, 36-in. wide.....
- 32-in. Dimities in dainty patterns..... 12 1/2c

Just seventy-five Corset Covers made of a nice quality, medium weight Nainsook and beautifully trimmed with Val. Lace, Embroidery and Beading, with different colored Ribbons run through. Very pretty, a 39c seller for just a few days only, each 25c

Colored Underskirts

These skirts are made very full and in the much wanted Black and White stripes and checks, they are made with a deep 18 inch plaited Flounce, seams being covered with black tape that adds much to its beauty, it also saves laundry bill 98c

Gloves

The Gloversilk long Silk Goves are made with the patent double tips, and are guaranteed to wear, in Black, White and colors, short 47c Long 97c

D. A. CALDWELL & SONS'

CASH DEPARTMENT STORE

SANFORD

Two Stores, 121-123 E. First Street

FLORIDA

FIGURES NEVER LIE

Florida Yields More To Acre Than Any Other State

Florida soil, when intelligently and intensively cultivated, yields a greater average return per acre than any other state in the union. Even when ordinary methods are employed the return in cash is far greater than any other section of the country averages. The Year Book of the Department of Agriculture shows this to be a fact and not merely claim made by Floridians. The Year Book gives the following figures, which are alone convincing proof of the superiority of Florida soils over those of the state named, showing as they do, the average value of all farm products per acre:

Missouri.....	\$ 9.38
Iowa.....	12.22
Illinois.....	12.48
Ohio.....	13.36
Florida.....	109.76

These figures show only the average. When the soil is cultivated intelligently, irrigated and fertilized when needed, the returns from a single acre often reach as much as a thousand dollars or more. The returns depend almost entirely upon the attention given the crops that are planted and cultivated on the land.

The natural resources of Florida are greatly diversified, and there are opportunities here for the investment of capital in various lines. The State can easily support a population of 10,000,000 but at present it has a population of only three-quarters of one million. The possibilities of Florida are at last being recognized and there is today a great rush of capital and of homesteaders to this agricultural and horticultural Eden. Those who come now will reap a large share of the profits that will accrue from the increasing prosperity of the state.

Residence for Sale

On account of the incorporation of Sanford Heights I will be obliged to sell my residence on Park avenue. It is a new house of nine rooms and bath, all modern conveniences, large lot, orange trees, peach trees, grape vines and flowers. One of the most desirable residences and residence sections of Sanford. Two other lots and fine barn can be sold to purchaser. Easy terms made to proper party.

WHY HESITATE?

An Offer That Involves No Risk For Those Who Accept It.
We are so positive our remedy will completely relieve constipation, no matter how chronic it may be, that we offer to furnish it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They will positively overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c and 25c. Sold only at our store—The Rexall Store.

War, What For? For Profit

War going on in Sanford to incorporate Sanford Heights only demonstrates again the hellish profit system under which we are cursed.

Fight it out, boys, you believe in the game. Sanford wants the Heights, because it would be profitable to her to have them and give you just as little as possible; and you, Mr. Citizen of Sanford, want all the benefits of Sanford and yet avoid paying city taxes. We Socialists say to you vote the Socialist ticket, inaugurate the cooperative commonwealth, eliminate the profit system. Taxes will be reduced to almost nothing or will not be a burden, because the masses will have what they create and not pass it up to a few parasites, as now in the shape of interest, rent and profit.

Study the philosophy of socialism. Make yourself familiar with political economy and lets avoid these wars for profit and build up all of our city and citizens and not a part and a few of them. What say you? **SOCIALIST.**

The Value of Velvet Beans

Florida farmers and dairymen have in the velvet bean one of the cheapest and best dairy feeds. Experiments which have been carried out at this station indicate that velvet beans are nearly equal, pound for pound, to cottonseed meal, for milk production.

The first test was conducted during the winter of 1908-9. The results showed that 307.73 pounds of velvet beans in the pod produce as much milk as 94.5 pounds of cottonseed meal (7.5 per cent ammonia). When 267.75 pounds of velvet beans in the pod were fed with wheat bran and sorghum silage, the cows gave 108.6 gallons of milk. When 94.5 pounds of cottonseed meal were fed with wheat bran and sorghum silage, 108.9 gallons of milk were produced. The cost per gallon of milk, not including labor, was: Velvet bean ration, 13.3 cents; cottonseed meal ration, 13.7 cents. This shows a slight difference in favor of the velvet bean ration.

The same experiment was repeated during the winter of 1909-10. In this test 816 pounds of velvet beans in the pod, when fed with wheat bran and silage, produced 325.5 gallons of milk; while 578 pounds of cottonseed meal produced 323 gallons of milk, when fed with bran and silage. The cost per gallon of milk was: With the velvet bean ration, 12.4 cents (including labor, 17 cents; and with the cottonseed meal ration, 16.7 cents (including labor, 20.5 cents). This shows that velvet beans, as a feed for milk production, will produce as much milk as will cottonseed meal, and at 20 per cent less cost.

Mrs. Elizabeth Wilson

Mrs. J. K. Mettinger and Harry Wilson of this city received the sad intelligence of the death of their mother which occurred, Philadelphia last Sunday. They have the sympathy of their Sanford friends in their hour of bereavement.

Date of Meeting Changed

The meeting of the Hospital Association has been changed to Friday night, May 5th instead of May 1st on account of conflicting with meeting of the Eagles. Remember the date, May 5th, and every one should be there.

WINTER PARK SCHOOL CLOSES

Appropriate Exercises Mark This Important Event

Winter Park, April 24.—The closing exercises of the Winter Park public school took place on Friday evening, the 21st.

The two candidates for graduation were Miss Alberta Smith and Miss May Eleanor Moremen. They are well prepared to go forth to higher and stronger things and are accompanied by the hearty and loving good wishes of their many friends. They were recipients of beautiful flowers and Prof. Dickinson presented them with appropriate gold souvenir pins.

Miss Smith's charming essay on Our Southern Poets was characteristic of her loyal appreciation. Miss Moremen's essay was a carefully prepared historic study.

Prizes given by Mr. Tousey, one of the most generous of the friends of the school, were awarded to the best student in each department. These were Annie Stone, Elsie Edwards and Agnes Moremen. Songs by the fresh young voices were good. The Mother Goose party was much enjoyed by the juvenile performers, as by the audience.

There, as in most cases, one always find a sad note in all the pleasures of life—so it was in this case, when Prof. Dickinson bid farewell to all. He has been a zealous and devoted principal for five years. He is entitled to the gratitude and appreciation of the Winter Park public. That he may have the same success in the field of law to which he has been admitted its everyone's sincere wish.

The exercises were closed with the unusual treat of hearing Senator Palmer, of Orlando, in words of fitting and eloquent congratulations, encouragement farewell to all.—Times-Union.

Prof. Dickinson is a member of the law firm of Dickinson & Dickinson of Sanford. The firm has secured quarters over the Beggs & Palmer office in Orlando where they will at once upon a law office. Mr. Chas. P. Dickinson will be in the Orlando office and Mr. J. J. Dickinson will remain at Sanford.

New Books in The Public Library

The Wednesday Club have placed on the shelves the following volumes: Colonial Prose and Poetry, edited by Prof. Trent of Columbia University. Three volumes.

The Poe Centenary, John A. Patton.
 The Seminoles of Florida, Minnie M. Wilson.

The National Capitol, Hazelton.
 Life of Nelson, W. Clark Russell.
 Philip Sidney, Foxbourn.

From Chaucer to Tennyson, Henry Beer.
 The Middle Ages, Hallam.
 Church History of Britain, Tuller.
 The Literature of Elizabeth, Whipple.
 A History of Germany, Lewis.

Half Hours of English History, by Knights. Parts 1, 2, 3, 4.
 Mary, Queen of Scots, Maline.
 Tudor and Stuart Princesses, Strickland.
 The Tudors, Creighton.
 The Age of Elizabeth, Creighton.
 Chamber's Cyclopedia of English Literature. Three volumes.

A rare treat is in store for the readers of "William Shakespeare, Poet, Dramatist, Man," by Hamilton Wright Mable.

Shakespeare's Heroines by Anna Jameson is another delightful volume. For students and lovers of the immortal poet and his work there are the following: Shakespeare as a Dramatic Artist, by Moulton.

Shakespeare, His Mind and Art, by Edward Dowden.

Five Lectures on Shakespeare, by Ten Brink.

The Shakespeare Drama, 2 vols. by Saider.

Overman Wears the Belt

The fishermen are excited again for J. H. Overman captured a trout this week with hook and line that weighed 12 pounds and one ounce. He now heads the list and until some other disciple of Walton goes him one better wears the belt. Henry McLaughlin has ordered The Herald gold medal for the contest and the local fisherman who captures the largest trout before October first will get the Herald gold medal. Go to it, boys!

To the People of Sanford

The undersigned officials of the town of Goldsboro, and representing its citizens, appeal to the citizens of the city of Sanford for aid and sympathy in protecting our town from spoliation or destruction as the result of a plan on the part of your city officials to procure from the present legislature an amended charter, whereby the corporate limits will be so extended as to include the town of Goldsboro and thus destroy our corporate existence.

This town was duly incorporated about twenty years ago and it has ever since regularly maintained its official corporate existence, performing all the duties of a municipality.

We have always been and we are now a peaceable, orderly and law abiding community. We appealed to your council, protesting against the proposed action so far as it affected the interests of this town but our appeal was unheeded. We now appeal to you, citizens of Sanford, for your help in this matter. We are proud of the prosperity and development of your city; but it is no good reason that, because you are big, you should swallow up our town just because we are little. There can be no just charge brought against us to justify the abolishment or overthrow of our corporate existence. If it is done in the way proposed it will be an instance of the tyrannical use of might, of power, and because we are few and feeble. Surely you will not justify and uphold such a proceeding!

We have acquired some property as a town. We own our own house, school and other corporate property. We feel a pride in our town organization and earnestly wish to preserve it. To swallow us up in the corporate limits of Sanford will add very little to Sanford and take a great deal from us. It will impose upon us a part of the burden of your bonded and other indebtedness and add heavily to our burden of taxation, while we reap no material benefit thereby. We shall make our appeal to the legislature in this behalf and beg that you, the justice loving citizens of Sanford, will give us such support as you can and we shall be ever grateful to you.

M. B. BELLAMY, Mayor Goldsboro

Parochial Residence of Father Bresnahan

The Catholic Church

Among the many changes and improvements that have been made in Sanford during the past six months, by no means the least was raising of the district to the dignity of a Catholic parish so great was the influx of Catholics to Sanford and neighborhood that a resident priest was found to be absolutely necessary so that the spiritual needs of these Catholics may be attended to accordingly towards the end of October 1910 the Rev. P. J. Bresnahan formerly diocesan missionary of this diocese of St. Augustine was sent hither by his bishop to organize a new parish a Catholic census showed almost 50 Catholic families in town, and a

catechism class with an enrollment of about 40 children.

The church is constantly increasing its membership and is now probably the strongest church in the city. The material improvements made have attracted the attention of every citizen. For within four months after his arrival Father Bresnahan found himself in a beautiful parochial residence erected by his enthusiastic congregation at a cost of not less than \$25,000. A beautiful new altar has been installed also an organ. And now there is talk of the sisters coming to establish a catholic school on the other side of the beautiful building block owned by the church in Sanford.

Mrs. Deane Turner entertained beautifully at her home on Wednesday afternoon at a Japanese bridge luncheon given in honor of Mrs. J. B. Stryker, who has been one of the charming visitors to Sanford during the past winter. The decorations in the parlor on this occasion were Japanese, and the flowers used were red roses and nasturtiums. The table was centered with an exquisite bowl of nasturtiums and maidenhair fern on a reflector, and the candles were red and green hollyhock shades. Covers were laid for eight. Little Japanese dolls served for place cards, to which was attached the name of each guest. An elegant luncheon was served, after which the merry party enjoyed a spirited game of bridge. Top score was made by Mrs. Cruse Barnes who received the prize, a Japanese doll pin cushion. Guest of honor prize, a travelling case. Those who enjoyed Mrs. Turner's charming hospitality were Mrs. J. B. Stryker, Mrs. J. L. Hurt, Mrs. F. J. Gonzales, Mrs. Cruse Barnes, Mrs. R. S. Keelor, Mrs. Geo. Fox, Jr., and Miss Charlotte Keelor.

On Tuesday afternoon the Welaka Club rooms were the scene of a very pretty party. There were six tables of players and a few others present who spent a most enjoyable afternoon. Highest scores were made by Mrs. O. W. King and Mrs. H. P. Driver, who were awarded the prizes. The first prize was a Japanese jardiniere and the second was a Bohemian glass dish. A salad course, with tea, was served after the game was over by Mrs. Fazio, Miss Bowler and Miss Linda Lefler.

Hume Rumph's young friends treated him to a delightful surprise party at his home in this city last Friday evening. A pleasant evening was spent with games of various kinds and refreshments served. Those present were Misses, Susie Brown, Douglass Abernathy, Kate Underwood, Anna McLaughton, Mabel Granger, Irene Thurston, Daisy Betts, Anna Stiles, Dorothy Rumph, George McLaughton, Vivian Speer, Frank Shelly, Frank Woodruff, Hugh Tillis, John Murrell and Volie Williams.

Last Friday afternoon the seventh and eighth grade boys of the Sanford school crossed bats with the Orlando boys of the same grades. The game was played at Holden Park and resulted in a score of 7 to 4 in favor of Sanford.

Monday afternoon Mrs. W. R. Anno and Mrs. R. S. Keelor entertained most informally at bridge in honor of Mrs. T. J. Perkins. After a lively game scores were counted and it was found that Mrs. H.

WHAT CURES ECZEMA?
We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.
Because—We know that it gives instant relief to that torturing itea.
Because—D. D. D. starts the cure at the foundation of the trouble.
Because—It cleanses, soothes and heals the skin.
Because—It enables Nature to repair the ravages of the disease.
Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.
Drop into our store today, just to talk over your case with us.

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Work on three new buildings in the heart of Ocala was commenced Thursday, the cost of which will exceed \$60,000. The buildings are being erected for the Ocala National Bank, the Ross Lumber Company and Mr. Baxter Carn.

The two story residence of Hon. E. S. Matthews at Starke was, with nearly all its contents, destroyed by fire Sunday morning. Loss complete, as but few things were saved, as the fire was under such headway before it was discovered.

The senate passed without a dissenting vote the McCreary bill to extend and enlarge the powers of the railroad commissioners of the state of Florida, so as to give them the exclusive power and authority within the state of Florida to regulate charges and service of all persons, firms or corporations carrying on a telephone business within the state of Florida and for other purposes.

Two years at hard labor in the state penitentiary was the sentence passed upon young James F. Stewart, the former Southern Express Company office clerk, who was convicted of grand larceny for the theft of some diamonds which were sent through the St. Augustine office.

Jacksonville has a hen which, though she is furnished with plenty of corn, wheat and bread, is not satisfied, but persists in cleaning up the pennies, marbles, nails, collar buttons, broken glass, broken china and bar chips, given her. With this record, her henship might be able to parake of other products of the bar, as well as the chips, with perfect safety—the question is, has Jacksonville any of the "other products" to spare.

The Sarasota Times tells of the organization of a stock company for the purpose of developing Bay Island and constructing thereon a modern, commodious and attractive tourist hotel. The hotel is now in course of erection and will contain about fifty rooms, being three stories in height and having a bay front of about 100 feet. From an observatory on the building a very interesting and extended view will be possible of the bay, gulf and outlying keys.

Arguing in favor of a sea wall for West Palm Beach the News explains at length the sanitary benefits that would come from the plan and gives facts and reasons for the proposed improvement. The health of a community is of first importance, for there can be no progress in a place where disease abides. The sea wall, it is claimed, would do away with a menace that is well understood by sanitarians, and no doubt the people of West Palm Beach will come to understand its advantages and move for its construction.

W. S. Jordan was again named as the Democratic candidate for mayor of Jacksonville in the second primary Tuesday. This is equivalent to election.

Florida's legislature now has a bribery investigation all its own, and the capitol is throbbing with the greatest sensation of this session. It developed that Representative Wall of Bradford received a telegraph envelope from a house messenger, and upon opening it found it to contain \$100 bill and two \$50 bills. Mr. Wall handed the money back to the messenger and told him to give the bills back to the would-be bribes, with his respects and also to tell them to "Go to hell."

Col. Peter O. Knight, attorney for the Tampa Union Station Company and representing the Atlantic Coast Line, Seaboard Air Line and the Tampa Northern Railroad Companies, at a hearing before the state railroad commission at Tallahassee last Friday received notice yesterday from the commission that a fine of \$3,000 had been imposed upon the railroads mentioned for having violated, or disregarded, or failed to comply with the order of the commission to construct a Tampa union passenger station by January 1, 1911.

Orlando Will Bond

Orlando has a bill in the Legislature for \$350,000 and it is rumored that the city will call for a municipal light and water plant, as the citizens have had about enough of private ownership of public utilities.

USED A HATCHET

Goldsboro Negroes Fight A Battle With Keen Cutters

The petitions recently presented to the legislature reciting the peaceful tendencies of the negroes of Goldsboro was rudely shattered on Tuesday morning by a bloody affair that may prove a homicide.

Two residents of Goldsboro, Clark and Siplin engaged in a dispute about some work and came together to settle differences. Siplin had a sharp hatchet and before Clark could get in his work Siplin drove the hatchet full in his face inflicting an awful wound that will probably prove fatal. Siplin is now in jail awaiting trial.

City Council Meets

Council met in regular session May 1st at 7:30 p. m. Present, D. L. Thrasher, president; W. D. Holden, S. Runge, J. D. Davison, B. A. Howald; Absent, H. R. Stevens and H. Ward.

Minutes of last meeting; read and approved.

Reports of marshal and treasurer for April read and ordered filed.

On motion the complaint of Mr. Frenger regarding sewer on Third street, between Sanford and Cypress avenues, was referred to the sanitary committee.

On motion the bill of the Sanford Garage & Machine Co., as to the care of the new fire engine was accepted and referred to the city attorney to prepare the necessary contract.

The following resolution was read and adopted: Resolved, that the fibre on the property of the Ox Fibre Brush Co., in the city of Sanford is dangerous and is a menace to health and property and that the Fiber Co. is hereby ordered to immediately remove this fiber from within the city limits.

E. E. Brady offered to keep horses subject to use of the city in case of fire, provided the city would furnish him room to store two carriages. On motion Mr. Brady's offer was accepted.

On motion the clerk was authorized to pay E. E. Brady \$100 per week on account of scavenger service.

On motion the clerk was authorized to issue tax redemption certificate for E. half lots 9 and 10, east, for sale 1901, on certificate of city attorney that the same is now the property of the city of Sanford.

On motion the bills as signed by the president and approved by the finance committee were ordered paid.

On motion council then adjourned.

M. W. Lovell, Clerk.

Little Folk's Recital

The little folks piano recital that is given annually by the pupils of Mrs. Fannie Stenbridge Munson is always an event that is anticipated with much pleasure by the people of Sanford, Tuesday evening, April 18th, at Mrs. Munson's Studio, the talented young pupils again delighted a large and appreciative audience of relatives and friends with a most pleasing performance reflecting much credit on a most excellent teacher. Mrs. Fannie Munson was assisted on the program by Miss Helen St. John and Miss Charlotte Keeler, who gave some very pleasing numbers. Miss St. John sang the song for little folks—"Little Orphan Annie," "Sweetheart Adieu," "Slumber Boat," "Mammies Chile."

The following stories from childland were charmingly given by Miss Charlotte Keeler, Mae Cow Moo, and The Hen by J. Vance Cook, Wynken Blynken and Nod, and Little Boy Blue by E. Field.

The following pupils program was beautifully carried out:

Part 1—Junizaries March, Kirchner; Ada and Maud Alice Wagner, Little Things, Rowe; Ding Dug Bell, Spaulding; Mina Howard, Sprightly Polka, Golliani; Waltz, Holst; Caroline Spencer, Marche, Schmitt; Fairy Waltz, Streabog; Mary Howard, Hunter's Song, Merry Sunshine, Pressels

First Step; Kathleen Brady, Minnet, Mozart-Schott; Ada Wagner, Cradle Song, Pfefferkorn; Pansy, Milo Deyo; Fannie Reba Munson.

Marche Rompupe, Gounod; Curious Story, Heller; May Thrasher, Swedish Wedding March, Sodermann; Maud Alice Wagner, Ada Wagner.

Part 2—Maud Alice Wagner, Valse Caprice, Englemann, Serenade, Schubert-Liszt, Sonate in F Major, Mozart, Soaps For Little Folks, Miss St. John, Stories From Child Land, Miss Keeler.

Best grade preserves and pickles just in, call and try them. W. W. Long, 28-1f

CHARTER BILL PASSES

Sanford Height and Goldsboro Are Now In City

NO DISSENTING VOTE ON BILL

After Being Reported Unfavorably In Committee Room Success of Measure Was Unanimous

After many days of anxiety and lobbying and jockeying for a place the famous Sanford Charter Bill passed the house on Wednesday, April 26th.

The bill to abolish the present municipal corporation of the towns of Goldsboro and Sanford Heights came up for consideration first and being disposed of the charter bill was passed in record time.

The measures were not passed without a struggle on the part of those towns, both of which had representatives at the State Capitol. Mayor A. V. French, of Sanford Heights, did yeoman service for his town and to his credit he said that he trumped the first card by having the bill for abolishing Sanford Heights reported unfavorably in the committee room which was certainly going some.

Reports from Tallahassee say that Mayor French was the champion lobbyist of this meeting and Representative Lake had no picnic when he pushed his bill through.

Now that it is all over there is no question but what Mr. Lake deserves credit for putting through the bill in record time after an unfavorable report, something that has seldom happened in the history of the legislature.

The Wednesday Club

Quite a large attendance of the club were present Wednesday afternoon for their last meeting of the year in the charming home of Mrs. D. L. Thrasher.

Miss Charlotte Keeler read a most interesting paper on "Mansemonel County, Virginia," giving in a bright, entertaining way a short history of the early colonial days and principal events transpiring in that important county, forming a part of the commonwealth of Virginia.

Mrs. M. Martin entertained the club with an admirable pen picture of "The Colonial Gentleman." Truly a charming personage, as portrayed by the pen of his contemporaries, and the historians of those early and luxurious times; when pleasing personality, culture and wealth combined to make the colonial gentleman an enviable individual.

Miss Tetherly read a very graphic description by (Hynd 1728) of the experiences of a party of surveyors who tried to pursue work "Through Dismal Swamp."

"Virginia of Today," was the very interesting condensed sketch, comparing the Virginia of colonial days with Virginia of the present; which showed much care and research, by Mrs. C. C. Worthington, who made her short topographical history of Virginia very interesting.

"Round About in Virginia," consisted of two very interesting items; one given by Mrs. J. W. Dickins, concerning an old Debtors Prison in Eastville, on the eastern shores of Virginia; and the other an article read by Mrs. L. R. Phillips, about Jamestown; its many ruins and some of the efforts being made to restore and preserve those fast disappearing landmarks.

After the conclusion of the program, the club elected the officers for the ensuing year. Mrs. Geo. L. Maris was unanimously re-elected president, as were also Mrs. May Dickins, vice-president; Mrs. S. O. Chase, secretary, and Mrs. A. D. Key, treasurer.

The president appointed Mrs. E. W. D. Dunn and Miss Clara Guild, program committee for the next year's study of Scandinavia. Mrs. Henry Wright will have charge of the civic program.

The club gave Mrs. D. L. Thrasher a rising vote of thanks for the much appreciated hospitality in the use of her home for the past five weeks, as a meeting place.

A rising vote of thanks was tendered Mrs. S. O. Chase for valuable assistance given the members of the club in the number of books kindly loaned by her. Also a rising vote of thanks to Mrs. A. D. Key for appreciated aid and suggestions in all the work done by the club and her unceasing interest and arduous duties as chairman of the program committee.

All the members, active and associate, who were not present at the meeting on Wednesday, are notified that Professor and Mrs. Maris have kindly invited the club, as has been their custom for several years past, to hold their last meeting in their charming home, Wednesday, May 10. The members are requested to meet promptly at three o'clock.

PROGRAM FOR MAY 10th.

I.—Colonial Homesteads.

Mt. Vernon Today, Mrs. S. W. Dickins

II.—Effects of Colonial Life on American Literature, Mrs. M. H. Bowler

Mrs. Alice Brown

"Old Virginia," Mrs. L. R. Phillips

DOINGS AT TALLAHASSEE

Legislators Have a Strenuous Week at State Capitol.

The past week has been filled with the things that generally throw an atmosphere of excited interest around the old capitol building. The race track bill and the capitol removal bill both were special orders for Wednesday, the capitol removal question coming up at ten o'clock and the race track taking their turn at the bat at three thirty in the afternoon. For over two hours the House of Representatives debated the question of submitting the capitol question. The affirmative was championed by McWilliams of St. Johns and the negative was headed by the representatives from Leon, Floyd of Franklin, Dougherty of Volusia and others. The vote in the House was decisive and no further attempt will probably be made this session to have the matter again considered.

Monday night somewhat of a sensation was created by the announcement of a member that he had been subjected to the indignity of the offer of a bribe, or at least, what was clearly intended to be a bribe. Mr. Wall of Putnam who has served before in the House and who everyone greatly respects and admires was handed an envelope upon leaving the capitol corridors about dark and when arriving home he opened it he found it contained two hundred dollars. He immediately called in a witness to the fact and returned and looked up the party who handed him the envelope and ordered him to return it to the source from which it came "and tell them to go to hell." An investigating committee was at once appointed by the House and they are at work to find out if possible the source of the intended bribe.

The bill introduced in the Senate by Senator Flournoy providing for a supreme court and railroad commission building was up for consideration immediately following the settlement of the capitol removal question. The senate bill carried an appropriation of two hundred thousand dollars. Gray of Gadsden succeeded in having an amendment adopted, cutting the appropriation to one hundred thousand dollars. The bill will likely pass in its amended form.

The dog tax question was up in the House Monday and the House after having a deal of fun with the bill so butchered it up that the introducer withdrew it.

This question will again be up for consideration however, as there are other bills pending.

The Governor's reception on Tuesday evening was quite a brilliant social function. The Governor's invitation was unique for its extensiveness and it seemed from the crowds that thronged the rooms, halls and verandas of the mansion that most everbody invited had come. This was the usual reception given by the Governor during the session of the Legislature and it was equal or surpassed possibly any previous function of this kind for enjoyment and hospitality.

New Moving Pictures.

The new motion picture theatre will be opened Monday night. They have installed the latest and best equipment obtainable, using Edison's latest thought in the machine with the outside shutter which makes it entirely flickerless. In addition they will put illustrated songs on every program. What to call the new theatre will be left with the public, and each one attending will be allowed to vote and the one selecting the lucky name first will be given a cash prize. The contest will be open the first week and the decision announced Saturday night.

The management assures the public that the motion pictures given will be seen for the first time and that they will never duplicate what has been given here. Our aim is the best possible in pictures and music.

Big Things in Big Florida

While in Photographer T. P. Robinson's place of business yesterday that gentleman showed us what is claimed to be the biggest tree in Florida. It is on hammock land owned by the Holden Real Estate Co., of Sanford, and it certainly is a whopper. The picture is taken with Mr. Holden standing in front of the tree and while he is a large man the position makes him look very small. This immense cypress is 42 feet, 6 inches in circumference, or in round number about 14 feet in diameter. We will wager that the majority of the people of this city did not know how close they lived to such a curiosity. Get Mr. Robinson to show you the picture, if you cannot go and see the tree as it stands.—Orlando Reporter Star

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

The full strength of the Socialist party of America has been offered for the defense of John J. and J. B. McNamara, who was charged with murder in connection with the explosion at the Los Angeles Times building by the national executive committee of the party now in session at Boston.

The charge that a Morgan loan is being forced on Honduras deserves attention. It is one thing for the power of the United States to be used to collect a debt due Mr. Morgan, but quite another to have it force a loan from him on a weak country. If the administration proposes to rob a weak nation in the interest of J. Pierpont Morgan, congress should know it and congress should stop it.

Jack Johnson is going to buy an aeroplane. Thus he will escape the danger of being arrested for speeding. As far as the danger of injury by falling is concerned, he can make himself immune against that by so weighting himself that he will be sure to strike on his head.

Three weeks of extraordinary session of the sixty-second congress having passed into history with a record of rapid fire legislation by the house, the senate is finally organized to transact business but in no haste to consider that part of the democratic program already disposed of by the lower branch. Canadian reciprocity is the only matter now being considered by the senate and that, probably will not come before it for discussion for several weeks.

Property valued at upwards of six million dollars was destroyed, hundreds of people made homeless and almost the entire business section of Bangor, Maine, was devastated during a conflagration which occurred on Monday. A light rain fell which helped to check the fire. One life is known to have been lost, an unknown man who was killed by a falling wall.

So far as it is possible to ascertain, Easton, Pa., the scene of the awful railroad accident, eight persons were burned to death, three fatally injured, two others so seriously injured that their lives are disposed of and scores of persons were cut and burned and bruised, some dangerously, in the wreck of the teachers' special from Utica, N. Y., to Washington, D. C., on the Boliviere-Delaware division of the Pennsylvania Railroad at Marth's Creek, N. J., Sunday afternoon.

By a vote of 40 to 7, the Illinois senate ordered the arrest of Edward Tilden, Geo. M. Benedict and Wm. C. Cummings of Chicago and their appearance now before the senate to show cause why they should not be punished for contempt. The alleged contempt consists in the refusal of the three bankers, to submit evidence before the senate committee that is investigating bribery, the bank records and a list of their customers. It has been alleged that these bank books might prove some of the stories told of money said to have been subscribed toward the election of William Lorimer as United States senator.

Senators Bryan and Fletcher were well provided with committee places in the distribution by the minority of the senate. Both these Florida senators will be heard from prominently and advantageously in the deliberations of the upper house.

Press dispatches from Manila say the Dutch have taken possession of Patmas Islands, 60 miles southeast of Mindnao, lowering the Stars and Stripes and substituting the flag of Holland. The tone of the semi-official statement given out at Washington on receipt of the news indicates the willingness of this government to let Holland have the islands, which are small in area, contain but half a hundred Filipinos and, although considered a part of the Philippine archipelago are not worth making a fuss about.

Notice

There will be a called meeting of the Sanford Library and Reading Room Association, in the Library room No. 20 Pico Block, on Saturday, May 6th, at 4 p. m. Important business.

A. D. DUNN, Secretary.

By order of C. R. Walker, President.
