

Deputy Spellman Tells Purpose Of Jobless Benefits

Unemployment compensation is insurance against total loss of income by a worker who loses his job through no fault of his own...

Generally speaking, the Florida Unemployment Compensation Law covers workers for industrial, commercial, or service organizations...

"Several groups of workers are excluded from the law," Mr. Spellman said. "For example, farm workers, insurance and real estate agents paid by commission, newspaper, domestic workers, employees of the federal, state, county or city government, and persons who work for non-profit or charitable organizations."

"Even an insured worker cannot draw benefits until he has complied with the requirements of the law," Spellman continued. "He must have earned at least \$150 during the base period. This base period is the first four out of the last five complete calendar quarters immediately preceding the filing of a valid claim. A claimant must be registered for work with the Florida State Employment Service and be able to work full time in regular employment. He must be actively seeking work by his own efforts and be available to accept any offer of suitable work."

"No one person may file for job insurance on behalf of another," Deputy Spellman emphasized. "Only the claimant himself can file on his own behalf and must do so in person. Benefits range from a low of \$15.00 a week to a maximum of \$15.00 a week for 16 weeks in any benefit year, the amount and duration of benefit depending upon the worker's accumulated work credits. Each worker must serve a one-week waiting period before he may be paid benefits. Benefits may also be denied to a worker who quits his job without good cause, is fired for misconduct or refuses to accept a suitable job."

In determining whether or not a job is suitable for an individual Florida law requires that consideration be given to the degree of risk involved in his health, safety and morals. Physical condition, prior training, prospects of obtaining local work in his customary occupation and the distance available work from his home are other factors to be considered in determining suitability of a job offer.

Rail Strikes

(Continued From Page One) carriers in both disputes have been rejected by the unions.

In New York, striking CIO newspaper guild members last night accepted a settlement ending their strike against the New York World-Telegram which started June 13. One of the concessions in the agreement was a job offer for one year. Other terms included a 35-hour week and pay rates up to \$10 for a top minimum wage of \$120 weekly. The strike of 400 editorial employees stopped publication which is to be resumed Monday.

In farm implement industry wage talks, a settlement between International Harvester and the Farm Equipment Council of the Independent Union of Electrical Workers was approved by the FEUE Conference Board. Ratification by 27,000 employees in 11 plants is necessary before it is finally applied. The terms include a general seven cent wage boost and regional equalization adjustment giving some workers bigger hikes. However, at least four Harvester plants were struck today by the CIO United Auto Workers Union which is bargaining agent for 22,000 workers in eight of the plants.

School Board

(Continued From Page One) submitted by Lee Henthers who were awarded the \$13,000 contract. Architect Elton Moughton conferred with the Board regarding the improvements.

Mrs. J. N. Hart of Geneva was appointed as a teacher at the Orinda School in succeeding Mrs. John Anderson who resigned to take a position in Orlando.

Miss Eulilia Grantham of Winter Park was appointed as a primary teacher at the Lyman School.

Sadie Hogan, principal for the past 18 years at the Lake Monroe Colored School, died Saturday while returning from the F. and A. M. College where she had been studying this summer. Her home was at 805 Sanford Avenue. No successor has yet been named at the school.

The following appointments of colored teachers were approved yesterday: Charlotte Foster was transferred from Forest City School to the Rosenwald School at Altamonte Springs and A. J. Rosenwald to Forest City. Eula Blowers was appointed as additional teacher at Rosenwald School.

At the Orinda colored school where Henthers will succeed Chiles, who resigned, Ernie Trickett has been appointed as an additional teacher at the school. Julia Morris also has been transferred from the Goldenshoe School to Harper Academy, and will be succeeded by Edna Mae Moore.

Korean War

(Continued From Page One) bert reported from the Taegu front that hundreds of Reds attacked American artillery positions that were pounding a wedge the Communists had shoved into the front line. No U. S. guns were knocked out in that attack.

Lambert said the North Koreans tried to cut the Allied road from Taegu but succeeded in slowing supplies only briefly Wednesday. The main Kumwha-Taegu mountain highway from the north was the battleline. Ridges lining it were commanded by the Reds when the doughboys jumped off against them.

In an all-day fight the Americans drove the Reds from several commanding ridges. One annoying Red artillery position was silenced early. The Communists met the American-South Korea attack with heavy artillery and mortar fire. First Americans to break through the Communist vanguard took high ground, silencing Red artillery that had been hampering allied advances.

One U. S. unit, attacking over ridges to the east of the main supply road, drove the Reds back on the American right flank, Correspondent Lambert said.

The shifting North Koreans forced some U. S. engineers from their positions in the line.

The engineers, who called themselves "engineers," counter-attacked and regained their position after killing 52 North Koreans.

Lt. Anthony Pecoraro of South Windham, Maine, his voice trembling with rage, told Correspondent Lambert of one incident of machine-guns had been killed. A medic and two infantrymen had gone out to the machine-gunner.

They were bending over the gunner when 12 of these Red bastards came up. The medic grabbed the BAR (Blowdown Automatic Rifle) and turned it on them but it jammed. The Reds shot him in the stomach and bayoneted the two soldiers. Then they shot the medic in the back.

It was man-to-man fighting at some stages of the Allied attack. But late Wednesday the U. S.-South Korean power told on the main line, the full 12 miles north of Taegu. At sunset the forward area was quiet. Correspondent Lambert reported.

After dark doughboys as far as five miles behind the front line were still fighting Reds who tried to dynamite the supply road in one sector. In another the Reds were caught trying to lay a mine field.

The Americans broke up both attempts with mortar and artillery shelling. Allied planes swarmed over the battlefield all day and into the night.

The day's fighting brought out two of the seldom-seen Russian-made Yak fighter planes for South Korean attacks on South Korean naval units in the Yellow Sea. Nothing was said about damage.

Two other Yaks—possibly the same pair—had bombed and strafed the British destroyed Comus Tuesday without causing any damage.

company's plants.

The CIO workers walked out at Evansville, Louisville, Reynolds-Idaho, and Memphis. The IAW-Hopewell contract expired at midnight last night. Negotiations were continuing, but a union spokesman said "we're 20 miles apart on almost every major issue."

The IAW rejected an immediate wage hike offered by another firm, Deere and Company, to 15,000 employees yesterday. Deere offered an increase of six cents hourly, conditional upon a five-year contract.

Tampa Soldier

(Continued From Page One) two clues to the eastern reasoning behind the incident:

He may have been chosen as a likely prospect to desert and be used for the east zone's "peace front" propaganda campaign, or he may have been mistaken for another soldier attached to some security detail. Yankow described himself as only a "simple rifleman" without access to any military information.

The U. S. Army withheld Yankow's story until today to check on it and to make sure the soldier bore no ill effects from weeks on short rations in dank cells.

The Herlin military post said the private's story stood up under inquiry. A combat soldier with three battle stars from the North African campaign, Yankow's rugged physique was unaffected by the imprisonment.

According to Yankow's story, Herlin was snatched by two men in civilian clothes at the Krummelanek Subway Station in Zehlendorf, Berlin, the heart of the American community.

He said he was calling on a German girl in that neighborhood.

Primaries

(Continued From Page One) Victor L. Anfuso.

Rep. Edwin A. Hall's bitter four-way fight for Republican renomination in the 37th was undecided. With 213 of 232 precincts counted, Hall led Lester R. Mosher by 108 votes—15,602 to 15,494.

Unofficial returns from other states showed:

Mississippi: Rep. Walter G. Anderson (D) won the Democratic renomination—which is the same thing as election in Mississippi—over four opponents. He was elected with 108 votes—15,602 to 15,494.

A run-off Sept. 12 between state senators Frank Smith and Oscar A. Weller will determine the victor for the seat of Rep. Will M. Whittington (D) district who is retiring. With 129 out of 135 precincts in Smith had 6723 votes to Weller's 6150. A third vote to Weller's 6150. A third candidate, Lomas Lamb, Jr., had 4473.

Wyoming: Rep. Frank A. Barrett was well ahead of other opponents for the Republican nomination for governor, with about half the precincts reported.

Pomer Rep. J. John J. McInerney was ahead of two opponents for the Democratic nomination for governor.

In the scramble for the House seat Barrett is vying, (Wyoming's only one) State Rep. William H. Harrison led Homer O.oley for the Republican vote and John B. Clark was comfortably ahead of other Democratic candidates.

Delaware Democrats picked Henry Winchester of Brandywine Hill as the party's candidate against Republican Rep. J. Caleb Boggs. Like Wyoming, Delaware has only one House seat.

German Army

(Continued From Page One) mation also demanded that the Allies send more troops to Germany.

"A concentration of Allied power in Germany is the only solution," said Schumacher at a news conference. It was one of the few times the opposition leader has agreed with Adenauer's policy.

Schumacher explained that he continued to oppose strongly Germany's rearmament or participation in a Western European defense force until the Western powers have enough troops to insure against Soviet attack.

He said a West German police army such as that urged by Adenauer would be "inadequate and too late."

The West German Chancellor said he wanted a police force— "don't call it a defense force"—to insure the internal security of Germany.

Adenauer described the force's tasks as: 1—The protection of West Germany's frontier with the Soviet occupation zone. 2—Keeping order internally. 3—Supporting the Bonn government against Communist subversives.

"This is Europe's gravest hour and West Germany is in peril of being undermined by Communists," Adenauer said. The West German Chancellor did not give any specific figure for his proposed force. Diplomatic sources in London yesterday said he sought 65,000 men, and asked that United States forces in Western Germany be increased to a total of 10 armored divisions.

WASHINGTON, Aug. 23 (AP)—Secretary of State Acheson said today his own reports from Germany are that Adenauer is pressing for a general strengthening of Western Europe but is leaving the precise steps to the Western powers to decide.

Acheson told a somewhat confusing news conference that the West German Chancellor has not tried to "prejudice the extent or manner of German participation in increasing this strength."

Dispatches from Bonn said Adenauer today had repeated his demands that West Germany immediately be allowed an armed police force and that the Western Allies send more troops to Germany.

Acheson opened his news conference with a cautiously worded statement on Adenauer's meeting with members of the three-power Allied High Commission. He said his report of the meeting, from U. S. High Commissioner John J. McCloy, placed a different emphasis on the meeting than that given in press reports.

Reading from his statement, Acheson said the press reports stressed the "fact" that the Chancellor had "demanded the rearmament of Germany and that he specifically asked for a German army of 'X thousand' men."

At the conclusion of the news conference, the State Department distributed copies of the statement.

Looking for a "good break"?

You get the best brakes on DODGE "Job-Rated" TRUCKS

Best for stopping . . .
Smooth, sure stops are yours with a Dodge "Job-Rated" truck . . . thanks to extra-large braking area. The driver has full control of brake action, because of "equal-pressure" design of service brakes. These famous hydraulic brakes are easy to adjust, too.

Best for parking . . .
You get the added safety of two separate brake systems in your Dodge "Job-Rated" truck. On every Dodge model, the hand parking brake is completely independent of service brakes. Operating on the propeller shaft, it helps lengthen the life of the service brakes.

Job-Rated for low cost transportation

POWER . . . A great truck engine—each "Job-Rated" for PLUS power.
ECONOMY . . . priced with the lowest "Job-Rated" for dependability and long life.
BIGGER PAYLOADS . . . carry more without overloading of springs because of "Job-Rated" WEIGHT DISTRIBUTION.
EASIER HANDLING . . . sharp-

COMFORT . . . widest seats . . . windshield with best vision of any popular truck. Air-cushioned, adjustable "chair-height" seats.
SAFETY . . . best truck brakes in the industry . . . hand brake operating independently on propeller shaft on all models—1½-ton and up.
or turning! Parks in tight places. "Job-Rated" maneuverability!

and the best brake lining, too!
You get longer lining life and better braking with Cyclobond linings. It's fused to the drum! No rivets means lining can be used practically down to the drum—with virtually no danger of drum scoring. Ends are full-thickness—not tapered—in provide more braking surface.

With all their extra value DODGE "Job-Rated" TRUCKS are priced with the lowest SEMINOLE COUNTY MOTORS

Red Invasion Of Mountain Kingdom Reported In U. S.

All-India Radio, BBC, State Dept. Unable To Verify Tibetan Attack

TOKYO, Friday, Aug. 25—(AP)—The Chinese Communists today demanded that the United Nations order withdrawal of all American forces from Formosa and announced the Red intention to "liberate" that island from the Nationalists.

NEW DELHI, India, Aug. 24—(AP)—The All-India radio, which has been monitoring and recording Peiping broadcasts of Communist China regularly, said today it was unable to confirm a report that Peiping broadcast an announcement of a Communist invasion of Tibet. The Indian Foreign Ministry, likewise, said it had no such report.

The U. S. State Department in Washington said it had no confirmation of the invasion reports. U. S. officials added that such action because Red China leaders have been threatening for some months to take over the isolated country situated between the Himalayan and Kunlun mountains west of China and north of India.

Thomas P. Whitney, Associated Press staff member in Moscow, said by telephone to London he had heard nothing to substantiate the invasion report.

The British Broadcasting Corporation, which monitors all foreign radio that can be heard here, also said it had heard nothing similar to the reports being circulated in the U. S.

The Chinese Communists have made both threatening and peaceful gestures toward Tibet in the past months. Various broadcasts have been heard warning of an invasion, but recently the Communists offered Tibet "regional autonomy" if the Tibetan ruler, the Dalai Lama, and his government joins the Chinese Communist regime peacefully.

A seven-man mission from Tibet has been trying to reach Hong Kong to negotiate with the Reds but has been unable to get any farther than New Delhi. The British won't give the mission permission to travel to Hong Kong.

House Committee Approves Measure For Rearmament

Senate-House Group Reduces ECA Funds; Bedell Smith Urged

WASHINGTON, Aug. 24—(AP)—An emergency bill carrying \$16,771,000,000 for war in Korea, rearmament at home and military aid to allies was approved today by the House Appropriations Committee.

House passage is set for tomorrow. The bill provides cash for such fighting gear as 5,333 new war planes. It includes \$4,000,000,000 for arms aid to friendly nations.

The Appropriations Committee said it didn't want to criticize "past errors of judgment" at this time but "events of recent weeks have made it crystal clear that the military planning and thinking in key positions is not as clear and accurate as could be desired."

The bill up the federal budget for the year ending next June 30. Most of the spending is covered by a \$3,000,000,000 general appropriation bill. A team of Senate and House members was trying for a compromise agreement on it today.

Another security measure, a strong anti-Communist bill worked out by the House members, was being brought up on the floor next Tuesday. The Senate headed into the first round of debate today on the "first installment" tax bill. President Truman asked to help finance the arms program and combat inflation.

Just before the start of debate, the Senate Finance Committee cut the estimated size of the bill to \$3,000,000,000 from \$4,500,000,000. It would collect \$2,715,000,000 from individuals, \$1,500,000,000 from corporations and the rest from the Federal Reserve Bank.

Officers Elected By Supervisors In Seminole District

New officers were elected at a meeting of the Board of Supervisors of Seminole County Tuesday afternoon at the county seat headquarters in Sanford. R. T. Milwee, secretary-treasurer, announced today.

Officers elected to serve for the coming year were the following: Homer Osborne, chairman; E. J. Cameron, Sr., vice chairman, both of Sanford; R. T. Milwee, secretary-treasurer, Longwood; other members of the board present were George C. Arden, Sanford, and C. A. Wales, Fern Park.

The program made a report of the progress made in connection with field studies being conducted for improving soil conditions where highly chlorinated acetates (Continued On Page Four)

Nehru Says Chances Of World War 50-50

NEW DELHI, India, Aug. 24—(AP)—Prime Minister Nehru told a press conference today he did not believe the Korean conflict would flare into a world war in the immediate future.

At the outset of the Korean conflict, Nehru had said the chances of a world war were 50-50.

Answering questions from left-wing journalists on the bombing of North Korea, Nehru said his government was concerned for two reasons:

1. Innocent people were being killed and unnecessary damage done.

2. It was likely to create more problems in the future.

Nehru said the Indian government had pressed this point of view whenever the opportunity arose. He asserted the heavy bombings of the last war had not produced the "military effects intended."

5 Florida Casualties Reported From Korea

WASHINGTON, Aug. 24—(AP)—A soldier from Fort Pierce, Fla., was killed in action in Korea three other Florida men are missing and one was wounded, the Department of Defense reported today.

The latest Army casualty list of Floridians:

Pvt. James Parish, son of Mrs. Mary A. Parish, 618 N. 10th St., Fort Pierce, killed in action.

Master Sgt. W. Wilton grandchild of Mrs. Josephine M. Hargne, Charlotte Harbor, missing in action.

Pvt. Charles W. Campbell, Jr., son of Charles W. Campbell, Sr., Limona, missing in action.

Corp. Blanton Todd, son of Mrs. Ruth M. Todd, 1914 E. Hughes St., Orlando, missing in action.

Pfc. Willie L. Graham, son of Mrs. Alma M. Graham, 3029 E. 1st St., Jacksonville, wounded.

Spread Of Polio May Be Slowing For Year

WASHINGTON, Aug. 24—(AP)—The spread of poliomyelitis is slowing down and may be near the peak for the year.

That word came today from the Public Health Service in a report that 1,489 new cases were listed during the past week. Although this was three per cent more than the 1,422 of the week before, the agency said: "This is the lowest percentage increase over the preceding week since the beginning of the upward weekly trend in reported cases."

During the corresponding week a year ago 3,416 new cases were reported. That was the peak week of 1949, and 1949 was the worst polio year on record.

The cumulative total since polio started increasing this year is 9,097 cases, compared with 16,376 for the corresponding period last year, the Service said.

Malik 'Looks In' On Austin

CURIOSITY IS REGISTERED by Jacob Malik (left), Soviet Delegate to the U.N., as he passes newsmen clustered about smiling Warren Austin (right), chief of the U.S. Mission, at Lake Success, N.Y. The 11-member Security Council, presided over by Malik during August, failed in a closed session to evolve a formula to end the three-week Soviet filibuster over the seating of South Korea's representative. (International)

Churchill's Son Warren Fires 4 Hit By Fragment School Boardmen On Naktong Front For Malfeasance

U. S. Correspondent Also Injured During Foray Behind Reds

U. S. EIGHTH ARMY HEADQUARTERS, Korea, Aug. 24—(AP)—War Correspondent Randolph Churchill, son of British wartime Prime Minister Winston Churchill, was wounded today by a mortar burst on a Naktong River-crossing foray into enemy territory with a U. S. patrol.

An American correspondent, Frank Lacey of International News Service, was hit in the same action.

Neither was hurt seriously the Army said. An American soldier was badly wounded by the mortar burst that he could not be moved and was left in enemy territory on the Red's west bank. Later all the Reds were killed.

Dr. Srygley Talks To Teachers Club In Auditorium

Dr. T. O. Srygley, director of instruction of the State Department of Education and head of the Southern Association of Student Councils, addressed members of the Seminole Teachers Club this morning at a meeting in the Seminole High School Auditorium.

Speaking on "The Importance of the Individual," Dr. Srygley pointed out the need of gaining the confidence of pupils, and added that this confidence is not gained by telling jokes, but by getting the pupils to work and instilling in them the idea that they are accomplishing something worthwhile.

He contrasted education in the United States with that of Germany under Hitler. Germany, he said, was a dictatorship.

Arndt Is Employed As Market Auctioneer

Due to the large attendance at the Friday night auctions at the Sanford State Farmers' Market, the services of an additional auctioneer have been secured. County Agent C. R. Dawson announced today.

The new auctioneer is Jerry Arndt, an experienced man in this line of work from Michigan, who will alternate with Larry Jones on the auction platform.

GIERRILLAN ACTIVE

TAIPEI, Formosa, Aug. 24—(AP)—A Chinese Nationalist spokesman said today guerrillas are active in all of China's 35 Red-ruled provinces.

He said previous estimates of 1,000,000 Nationalist guerrillas on the mainland would have to be revised upward.

The guerrillas are most active in south and southwest China, the areas most recently taken over by the Communists and traditionally the most rebellious, he said.

Truman Says Unions Agreed Not To Strike

President Announces 3 Republicans Out Of 5 UN Delegates; He Defends Sawyer

WASHINGTON, Aug. 24—(AP)—President Truman said today the call for a nationwide rail strike came very unexpectedly and despite assurances to him there would be no such walkout.

He told his news conference he would have to consider the situation before deciding what action the government might take. The Truman and conductors unions have demanded government seizure.

The President said assurances of no further strikes were given by both union and management representatives as late as a hour before yesterday's all-out walkout to begin next Monday.

A reporter, asking whether the unions used constituted a "double cross," was told by Mr. Truman not to put words in his mouth. The President said he is not making such a statement this morning.

The President's response to questions about the on-going control bill now in conference between the Senate and House, declined to state an opinion until the measure reaches him. He said one cannot tell what such measures contain until they are finally passed. Usually they include everything but the kitchen sink before an elimination process begins.

He did say, however, that one provision, placing priority and allocation controls, under the secretary of commerce is not satisfactory to him.

He declared he absolutely on time a report that Secretary of Commerce Sawyer had written to have that provision written into the bill. Mr. Truman and Sawyer are in agreement with him on what the measure should contain.

Asked about Secretary of Defense Johnson's statement that the Korean war may last only another six months or so, Mr. Truman said there is nothing certain about prospects of a military maneuver to take a cease-fire in nursing after that.

W. A. Adams Moves To Louisiana To Go Into Contracting

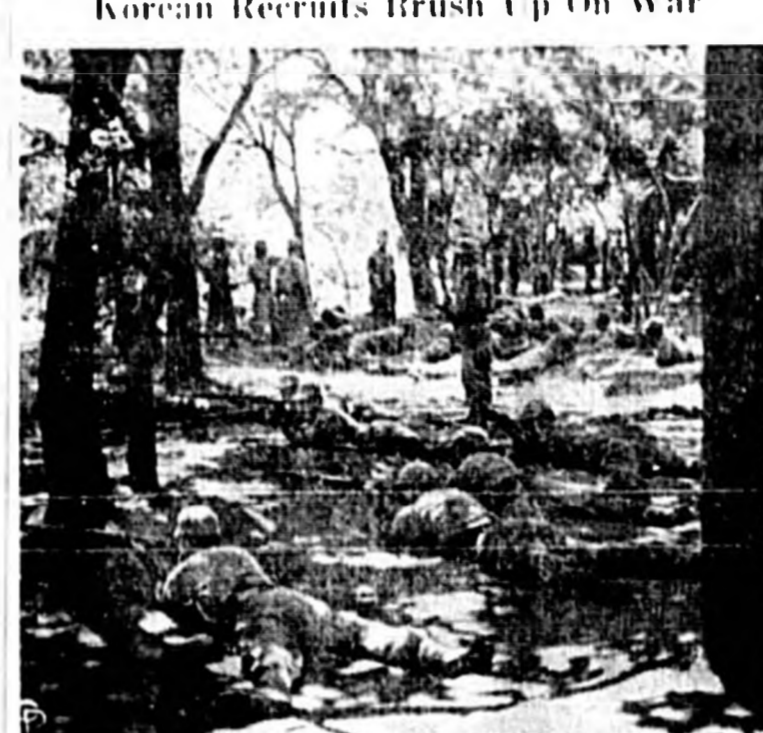

Mr. W. A. Adams and daughter Ada will motor Friday to Slidell, La. to join Mr. Adams, who has established his home there and who is associated with Miss Ella Sadler, a contractor.

Another daughter, Olive Ann Adams, will stay at New Smyrna Beach until Sept. 1, when she will return for a few days' visit with Miss Ella Sadler before joining the family in Slidell. She is a sophomore to Emory University, Atlanta, Ga., where she intends to take a course in nursing after two years of general college work.

W. A. Adams, the son of the late Mr. and Mrs. T. F. Adams, was born in Winchester, Ky., and was about four years old when the family came to Sanford. His father was a pioneer grower of celery here, was one of the founders of the Sanford (Florida) (Continued On Page Three)

Korean Recruits Brush Up On War

UNDERGOING AN INTENSIVE two-week training course before being sent into battle, native South Korean recruits practice firing from a prone position as instructors stand watch over them. At the front, the South Koreans have made an excellent record for themselves since the first confused days of the surprise Communist invasion. (International)

Deceptive Quiet Masks Hot Spot At Iranian Border Town Of Julfa

EDITORS NOTE: Robert Hewett, Associated Press correspondent in Tehran, was one of five correspondents permitted to make a tour to the troubled Iranian-Soviet border last week. The delay of this tour contains the first observations by an American reporter from that potential powderkeg area for some time.

By ROBERT HEWETT
JULFA, Iran, Aug. 18 (Delayed)—(AP)—Two bored-looking Soviet soldiers lounge under a red metal sunshade in the shimmering midday heat. A hundred yards away, at the near end of the little white bungalow, an Iranian youth wearing an American-made battle helmet (Continued On Page Three)

Kiwanians Vote 38 To 8 Against Rotary Proposal

Suggestions Made To Erect Center For Local Young People

Kiwanians, 38 to 8, voted today against cooperating in the proposal by the Rotary Club to erect a building for use as a convalescent at Palmto Avenue and Commercial Street.

Many members, however, expressed the idea that they would support a plan for erecting a building which would be suitable for civic clubs and at the same time accommodate a youth center program.

The proposal of Rotary was brought to a final vote by Earl Higginbotham, who had been elected chairman for this purpose. The other committees were Lester Tharp and R. T. Evans.

Suggestions were made to follow the plan proposed by Martin Harman for a civic and youth center, and it was pointed out that not only would this building give access to more people, but the number of contributors would be enlarged through its appeal to more citizens.

Joe Field and Martin Higginbotham were elected as delegates and John Williams, E. Hasky Wright and H. B. Cumbley as alternates to the district Kiwanis convention which President Ralph A. Smith (Continued On Page Four)

White Flag Commies Beaten By Burmese

RANGOON, Burma, Aug. 24—(AP)—White Flag Communist rebels were reported today to have taken the severest drubbing of their 29-month fight against the government. The defeat came in an attempt to storm five Burmese army bases in Yamethin district.

The reports said 1,000 armed Communists spearheaded a dawn thrust on the main base at Thawg, 210 miles north of Rangoon, while others attempted diversions at neighboring bases.

The reports said that inside Thawg the Communists retreated to a rice mill around which the battle raged for one hour before the Communists fled. They left 80 dead behind.

Main Enemy Forces Above Taegu Move Eastward As Front Is Relatively Quiet

TOKYO, Friday, Aug. 25—(AP)—A heavily armed Red Korean division called eastward Thursday night toward American positions on the Korean south coast.

In three columns of men and machines the division moved up a Allied southeastern post of Pusan some 50 miles away.

The threat appeared in the south after pressure had eased on the central front above Taegu where probes for five Red divisions were thrown back for five consecutive days.

The 30,000 Red soldiers a dozen miles north of Taegu slanted away from their mountain positions, apparently looking for an easier avenue for a smash on Taegu.

The North Koreans tried four times last week to drive five divisions down the rocky, bloody "howling alley" corridor to Taegu.

AP Correspondent Stan Swinton on the south reported the three eastbound Red columns were marching from the Chury area where two Red divisions were reported getting ready to drive on Allied forces spread before Masan, 27 air miles west of Pusan.

The American 25th Infantry Division 10 miles west of Masan, was alerted for battle.

U. S. planes bombed and strafed the approaching southern Reds. Pilots said there were many vehicles in the three columns. But the Communists were moving in small groups to minimize their chances of being hit from the air.

The new force was reported a part of the North Korean Seventh Division, a division originally trained for police purposes.

On the Muan front American and South Korean riflemen fought a battle for a shoulder in a latter day battle for commanding heights of Sabuk ridge, 10 miles from Muan port.

The soldier, explained bits of North Korean troops of Taegu left their mountain positions by Allied troops, 13 miles north of (Continued On Page Three)

Florida's 600 New School Rooms Not Enough For Need

TALLAHASSEE, Aug. 24—(AP)—Sixty 600 new public school classrooms will be ready for Florida's 1950-51 school year, but it isn't enough.

State School Superintendent Tom Bailey said it takes about 1,000 new classrooms a year just to keep up with the 39,600 annual increase in enrollment.

Then there's the backlog of years of inadequate construction, and the necessity to replace dilapidated and outmoded schools.

About 113,000,000 has been put through the state in the last year on new school buildings. The counties since July, 1942, have completed 309 elementary school classrooms, 165 high school classrooms, 14 lunchrooms, 40 gymnasiums, 20 gymnasiums and 21 other special units. Another 119 classrooms probably will be ready for occupancy by the time school opens.

The amount of money spent is about the same as last year, but there are fewer new classrooms and more gymnasiums and lunchrooms.

"Not only has Florida failed to keep up with current school needs (Continued On Page Three)

AMPLE FEED SUPPLIES
PRODUCED ON SOUTHERN
FARMS NEAR REALITY

Feed production in quantities adequate to supply the needs has been one of the things holding down livestock numbers in the South throughout the years. Shipped-in feed comes high, and home-produced supplies have not been adequate for the animals at hand, much less for an increased number. But there is promise now that the situation is changing—that the South will be able to produce enough feed to support an expanded livestock industry.

the soils of the Midwest. The application of fertilizers for forage production as well as for grain has helped make more feed available. Farmers now fertilize their pasture grasses and clovers and get tremendously increased forage and grazing.

almost year-round grazing, with carrying rates equal to the best pastures in the United States. But there is still much to be learned in managing grass-legume mixtures to stretch the period when they can be profitably grazed," he declares.

TODAY'S BIBLE VERSE

John the Baptist was not accepted by the sophisticated of his day, but the common people were swept by his conviction and wisdom.

The minimum wage in France under the Socialist government of Premier Auriol has been fixed at 18 cents an hour.

David Lubben of Hillsdale, N. J. testifies that during the war he tried to get more than his share of sugar by bribing a secretary of President Truman.

The city of Los Angeles seems to have adopted an intelligent solution for the problem of spies and saboteurs. It has passed an ordinance requiring Communists to register with the sheriff within ten days.

Well, if you own a five room house of 840 square feet with a present valuation of \$8,502, and plastered with a mortgage of \$7,143 to be paid off in 23 years, you're no worse off than most of the rest of the people in this country who built homes in 1949.

Nine swimmers crossed the 19 mile English Channel in one day this week cracking two world records. Have you ever tried to swim 50 yards from boat to shore? Then try a 19 mile swim some day through choppy seas. It isn't easy. But it would surprise us some day to find one of these boys swimming the Atlantic.

Dr. Elwood Nance, president of Tampa University, blames the people for the plight in which this country now finds itself. They would rather have automobiles than tanks with which to defend their freedom, he says.

The issue over price controls is largely a matter of politics. As explained by the Tampa Tribune. "The selective system favored by the President has political advantages. It can be used to cut back prices only when public sentiment demands action. It can enable the Administration to keep the good will of labor by letting industrial wages rise while prices on consumer goods are held back.

If your father died and left you a lot of money, how much of it do you think it would be fair for you to receive, how much should the government take in inheritance taxes? Most people, we believe, would say that if the government took half and left you half, that would be fair enough.

"The Postmaster General was directed to produce a delivery schedule for the year 1950. What could he do? He had to get more money, or cut down expenses, or both.

Broader Training

Some communities, faced with a shortage of elementary school teachers, find that there are many qualified candidates for positions in secondary schools. The opposite condition exists in other areas. Some colleges are preparing to cope with this situation.

Fenn College in Cleveland plans to train its students of education for what is called dual certification. Under this system the student is prepared to teach in elementary, junior high or high school grades, thus qualifying for a job at any grade level.

Advantages of this plan are immediately apparent. Qualification of a substantial number of teachers in this dual certification should reduce the shortages of teachers at particular grade levels. Those with these dual certificates who get the chance to teach in both upper and lower grades would be better able to establish their preference and find their proper niche in the educational system.

A chief disadvantage is that the student cannot be as highly trained for a special group of grades as the one who chooses a grade level and spends the final two years of schooling in special preparation for teaching at that level. As in other fields of activity, both the general teachers and the specialists are needed. The problem is to achieve a balance in supply which matches the balance in needs.

Bolshevik's Boner

The editors of Bolshevik, one of the important Russian magazines, have pulled a boner. It is the government pretense, worn pretty thin now but still continued, that all innovations in Russian affairs come from the ground-rovigation of the rank and file. The government, according to this pretty and totally false theory, is merely the mouth-piece of the people.

Bolshevik now unwittingly reveals that in at least one important case this elaborate pretense was a simple lie. Moscow has long been working on the merger of small farms into larger collectively owned and operated units, and pretending that this development is based on the demands of the peasants themselves. Now Bolshevik has disclosed that the unification of farms was an idea from Moscow, passed along and enforced by Communist party workers.

It is no bold conjecture that, if it has not happened already, there may be a new editor of Bolshevik, and that the former head may undergo a renewal of his education in the "people's paradise" if it is an unforgivable offense to let the Kremlin cut out of the bag.

Television Education

The possibilities of television as an educational medium are to be tried out this fall by the University of Michigan, in co-operation with a Detroit television station.

Home study courses for adults are to be presented with viewers able to enroll, pay fees and receive credit. Examinations will be conducted after the completion of the courses and certificates of recognition granted. Lectures will be supplemented by such aids as blackboard talks, charts, lantern slides, laboratory experiments and maps. Students will be shown working methods, research laboratories in operation and rare books which are otherwise impossible for the ordinary individual to view. Parts of the courses which cannot be presented over the air will be sent out from the university by mail to those enrolled.

Thus the ambitious adult in search of further education need not leave his home to get it; he may pursue his studies in comfort. Conflict between such programs and those in lighter vein may sometimes result in battles between the generations. May the best mind win!

Congressman Herlong Reports

The past week we have spent a great deal of time discussing the reinstatement of the two delivery methods of mail a day in residential areas. I took a position against reinstating this service at this particular time, and so that my position may be well understood, the following is part of a speech I made in the floor of the House giving my position. This speech was commended by the members as being the most logical and best speech that was made on this subject, and I was proud that it received a tremendous "hand" from the membership.

"The Post Office Department last year operated at a deficit of \$581,000,000. The Committee on Appropriations reduced the budget estimate of the Post Office Department and called on the Postmaster General to make cuts in the service. We endorse that by passing the omnibus appropriations bill with this reduced appropriation. Then we demanded still further cuts in the postal budget. Mr. Thomas amendment and the Jensen amendment. The Postmaster General found himself in the position of the housewife who was given enough money to buy a hamburger and told that she must provide steak.

"Further complicating the Postmaster General's problem, we passed H. R. 408, which gave every postal employee a raise of \$120 to \$420 per year, which added \$150,000,000 annually to the Postmaster General's headache. Not being content with this, the House has passed over the President's veto, H. R. 87, which, if passed by the other body, will add another \$1,000,000. To say that the Postmaster General had a practical problem is a masterpiece of understatement. What could he do? He had to get more money, or cut down expenses, or both.

"In an effort to get more money the House had passed H. R. 2945, which would raise about \$100,000,000 in additional revenue. But that bill is now bottled up in the other body.

THE NATION TODAY

BY JAMES MARLOW

Editor's Note: This is the third in a series explaining the big changes being made in the Social Security program. They can't become law unless the President approves them. It seems certain he will. Therefore, these changes will be treated as if they had become law. Repetition will be avoided where possible in the succeeding articles.

WASHINGTON, Aug. 24—(AP)—Two big changes on old-age pensions have been made in the Social Security program. 1. Pensions are being increased for everyone now receiving them and all who'll receive them in the future, without exception.

2. The rules have been softened to let more old people get pensions more easily, about 800,000 almost immediately. Take them separately.

Pensions will actually be raised twice in the next two years: on Sept. 1, 1950 and again, still higher, on July 1, 1952.

Thus now on pension or who gets pension before July 1, 1952 will be the increase which starts Sept. 1, this year. They will not share in still higher rate starting July 1, 1952.

Only those going on pension after July 1, 1952 will benefit by the further increase that goes into effect on that date.

Older men and women have ranged from \$10 to \$46, the most for any retired worker. The average pension has been \$26.

Starting Sept. 1, pensions will be raised all along, from \$10 to \$20 and the maximum from \$46 to \$68.50. The average then will be \$46.

On July 1, 1952, the new minimum remains at \$20, the maximum for a retired worker going on pension after that date will be \$80. That's the limit under the new rules. It's some more in the years ahead. But what will be the average pension for a retired worker after July 1, 1952? Social Security experts figure it will be about \$40 a month for a retired worker and will remain there for years.

No one going on pension before July 1, 1952 can get a pension higher than \$68.50, which will be the maximum until that date.

And only those going on pension after July 1, 1952 can get a new higher rate which starts then, with a maximum of \$80.

For those already on pension in August, the increase which starts July 1, 1952 will be \$10 a month for a retired worker and will remain there for years.

Under the new rules starting Sept. 1, 1952, a man or woman who is not yet 65 and is not yet in covered employment for an old worker to get a pension—many of these old people will find they can get a pension after all.

Under the new rules, a man or woman who is not yet 65 and is not yet in covered employment for an old worker to get a pension—many of these old people will find they can get a pension after all.

Inside WASHINGTON

MARCH OF EVENTS

Probe of McCarthy Charges Foresee No Action, However, By House Committee Probable Until After November Elections

WASHINGTON—It is a good bet that the House un-American activities committee will take up the investigating charges of Senator Joseph McCarthy (R), Wisconsin, that the State department is riddled with Communists. However, the chances are even better that the committee will not get underway until after the November elections.

Democrats believe that McCarthy has been "discredited, dishonored, and unsung" with the release of his subcommittee report by Senator Millard Tydings (D), Maryland. With that, they believe they have laid the ghost of the GOP's announced effort to campaign on the Communism issue.

However, the Republicans believe that the Tydings subcommittee overplayed its hand by its bitter report language which, in the main, blasted McCarthy personally. They think many voters will look on it as a whitewash.

In the light of this, the House group is not expected to launch any quick probe based on information McCarthy is giving it.

An eventual investigation is almost certain. The House committee is traditionally unimpressed by administration opposition to any such undertaking.

Several House committees are convinced that McCarthy's investigations. Besides, as Rep. Harold H. Velde (R), Illinois, points out, the House committee is "the proper forum" for such charges.

BATTLE OF THE SEXES—The Senate armed services committee has appointed a special subcommittee to try to talk the Navy into dropping its rigid opposition to women doctors in its medical corps.

The highly placed sea dogs who come before this group are assured of a rough time—for the subcommittee chairman, Senator Lester C. Hunt (D), Wyoming, has a special interest in the question of sex equality involved, since his state was the first to grant women the right to vote.

Hunt has in his office the framed and engrossed bill which passed his state's territorial legislature in December, 1869, giving women the right to hold office and "cease" their voices providing they were 21 years old or older.

Near the bill is a picture of Esther Morris, the one woman pressure group behind its passage.

With such stern reminders of the rights of women—and of how militant they can be when they don't get them—Hunt can be expected to conduct a most searching investigation of the Navy's "men only" medical policy.

HOME FRONT DEFENSES—In response to a growing clamor for a federal civil defense program designed to cope with atomic missiles and other weapons of modern warfare, the National Security Resources Board has promised to have a blueprint ready by Sept. 1.

It will be turned over to the governors of the states, who will be responsible for getting the defense program into operation on a local level.

The program is expected to be greatly influenced by a new government publication on the results of atomic bombings which is being made public this month.

This thick volume paints an unpleasant picture of the destruction wreaked by A-bombs but it contains much helpful information for keeping casualties to a minimum.

The NRRB is known to be working hard on its CD plan, spurred by the knowledge that there is a terrific recruitment and training job to be done before any adequate program can become useful.

Too Late To Classify

When my friend Rube Allen, outdoor editor of the Petersburg Times, split a bottle of beer with me at the opening of the Tampa Tarpon Round Up and then invited me to "go on the Waterwagon" with him, I didn't know whether he meant join Alcoholics Anonymous or the W. C. T. U.

It developed he was talking about his boat, "The Best Bet," which is truly a Florida Waterwagon—equipped with everything from a cocktail lounge to the kitchen sink.

It does its stuff on neither land or sea. Rube proposed a cruise starting at the Municipal Pier in St. Petersburg to Miami via Jacksonville and the Inland Waterway.

Telephone Class Idea Gains Ground Throughout Nation

By WILLIAM J. CONWAY AP Newsfeatures Writer CHICAGO—A fresh idea in education—classes by telephone on a nationwide scale—is gaining ground.

The University of Illinois College of Dentistry started a series of talks on advances in dentistry last October. Once a month for six months, the program was carried over a 15,000-mile wire hookup. They were heard by 6,000 dentists in 183 cities.

A new series will begin this fall. The program reports they have worked out plans to pipe the lectures to 10,000 dentists in 250 cities in 45 states and Canada.

Other Classes Envisioned Dr. Isaac Schour, associate dean, and Dr. Saul Levy, director of the extension division of post-graduate studies of the dental school say:

"The future looks bright and opportunities for the expansion of this revolutionary new method for post-graduate education."

The program is to have dentists abstract of new developments in their field. They pay a \$10 fee. In return, they get the privilege of listening throughout the series and an illustrated manual that summarizes the views of the speakers.

Scientists Lead Discussions There is a different topic for each session. Six men—teaching and practicing dentists, physicians and surgeons and other scientists—speak on each subject. The series runs a round-table discussion.

Classes start at 8:30 P. M. each, one standard time and one for two hours. Dentists gather in hospitals and amphitheaters, lodge halls and private homes. They used an American Legion ballroom in Canton, Ohio, and a radio station studio in Salt Lake City. It was done in the Pacific Coast. So the students are while they listened in a Seattle hotel. The waitresses were moaning.

The project has farred well financially. Fees collected for the 1949-50 series added up to \$66,574. Expenses, chiefly for wire rental and postage, came to \$66,490. The balance was \$84.

Officers Elected

Las Jacobson, planning chairman assisting the board, reported briefly on the progress of studies which have been assigned to the Soil Conservation Service, including better irrigation, reduction in excesses of fertility, use of crop groups to increase infiltration rates and permeability, and the use of spring irrigation rather than sub-irrigation.

The Board decided to purchase a flatbed trailer for transporting their Soiler-Gullies. The trailer will also be available for hauling farm implements belonging to District Conservationists. Rental rates for the trailer will be established at a later date. New rental rates established for the Soiler-Gullies were \$5.00 for any one job, 20 cents an hour. For jobs in excess of 20 acres, the rental fee will be 25 cents per acre.

THURSDAY Under the sponsorship of Beta Sigma Phi sorority, the receptionist at the Fernald-Laughton Memorial Hospital is Miss Blake Sawyer.

Miss Caroline Lee Is Honored At Party

Mrs. Tom Holt and Mrs. Hugh Wheeler entertained Miss Caroline Lee, bride-elect of Aug. 30, with an informal Coca Cola party yesterday at the home of the latter on Magnolia Avenue.

PRESENT FOR THE PRINCESS

DAMASCUS, (AP)—It's a shame to disclose the secret, but the Duke of Edinburgh's going to surprise Princess Elizabeth with presents of Damascus brocade, carved with wood and in laid brass when he returns from Mediterranean sea duty.

Miss Paulina Lucas of Fern Park became the bride of William Jesse Stewart of Fern Park in a candle light ceremony Tuesday night.

Miss Paulina Lucas Weds W. J. Stewart

Miss Paulina Lucas of Fern Park became the bride of William Jesse Stewart of Fern Park in a candle light ceremony Tuesday night. The wedding was held in the Sanford Seventh Day Adventist Church with Elder Dwight Herbert, pastor of the Winter Park Seventh Day Adventist Church, officiating.

Personals

Forrest Gatchel has been confined to the Orange General Hospital in Orlando due to illness. Mr. and Mrs. L. H. Connelly have returned to their home on Park Avenue after visiting several points of interest in Florida.

Childhood Hints

What do you do with your children on a rainy day? It is a problem, especially when Johnny and Mary want to tear around the house, and all ways are unimportant.

Singing Convention Slated For November

Due to the outstanding success of the Seminole County Singing Convention Sunday at the Sanford, Ariz., another singing convention will be held here in November.

Hints to Housewives

By Anna Mae Stiles

PREVENTING DAMPNESS

Keeping the house dry in hot, humid weather and thus preventing mildew, mustiness, rust and consequent damage has become easier in the last four years, according to Harry L. Garver, agricultural engineer of the U. S. Department of Agriculture.

Childhood Hints

What do you do with your children on a rainy day? It is a problem, especially when Johnny and Mary want to tear around the house, and all ways are unimportant.
