## Warning Given By Roosevelt Of New Taxes

President Says Additional Levies Will Be Needed If Crop Control Cost Upped

## Budget Balancing Is Also Stressed

Roosevelt Says New Taxes Must Match New Expenditures

WASHINGTON, Oct. 23.—(AP)—Chairman Jones, Texas Democrat, of the House Agriculture Committee, made public today a letter from President Roosevelt saying new taxes will be necessary if the cost of the crop control program is increased by the special session of Congress.

The President outlined his plans for crop control legislation in letters to Jones and to Chairman Smith, South Carolina Democrat, of the Senate Agricultural Committee.

"It is of course especially important that any new legislation should not unbalance the expected balancing of the budget," the President wrote.

"In other words," he said, "no additional federal expenditures from the general fund of the Treasury should be made over and above the existing planned expenditures. The only exception to this would be the insuring of additional obligations on the part of the Treasury, backed 100 percent by additional receipts from new taxes. In other words, whatever goes out must be balanced by some equivalent amount coming in."

Congress appropriated approximately \$500,000,000 for soil conservation during the current year. In making the President's letter public, Jones said, "I feel confident that legislation can be worked out embodying these principles."

Mr. Roosevelt discussed the crop loan proposal at a conference yesterday with Secretaries Wallace and Morgenthau and Daniel W. Bell, acting director of the budget.

Wallace told reporters afterward that they were making progress and that the program was "moving forward."

The Secretary of Agriculture previously had urged a corn loan on the grounds that it would:

1. Hold prices in the face of this season's crop.
2. Build up a reserve of corn stored under loans as a safeguard against future crop failures.

## Glenn Is Honored At Large Meeting Of B.P.O.E. Lodge

R. L. Glenn, who plans to leave Sanford next week for Cleveland to assume new duties as editor of a nation-wide labor publication, was honored at the regular meeting of the Sanford Lodge of B.P.O.E. in the Lodge Hall last night.

Several prominent members of the lodge from Orlando, Orlando and New Smyrna were present, including L. Walter Hawkins, District Deputy Grand Exalted Ruler, and Frank Colmery, vice-president of the State Elk Association.

Several of the visitors commended Mr. Glenn for his work during his membership in the lodge and expressed regret over the fact that he would soon leave Sanford. A small gift as a token of appreciation for his work was presented by Mr. Glenn to members of the lodge.

Norman Glenn, son of R. L. Glenn, was initiated into the order with the usual ritual.

The meeting was followed by the lodge's monthly Social Dance, which was reported as well attended.

## Taxes Due Oct. 25 For Unemployment Compensation Law

Penalty Of One Percent A Month Provided; No Delays

The time limit for the payment of the first contribution due under the Unemployment Compensation Law, will not be extended beyond the due date of Oct. 25, according to John Rose, field adviser for the Unemployment Compensation Division.

"The time limit for the filing of liability reports was extended twice," said Mr. Rose today, "and it will be necessary for the division to impose and collect this interest and in order to comply with the provisions of the law."

Florida was the forty-sixth state in the nation to gain approval of its unemployment compensation law by the Social Security Board. All states and territories, including the District of Columbia, now have approved laws similar to the Florida law, and the funds collected and on deposit with the Secretary of the Treasury in Washington for the states are reported to amount to more than \$350,000,000.

Funds collected by the State of Florida are deposited in a separate account, Mr. Rose said, and can only be withdrawn to pay benefits to eligible unemployed workers in Florida, starting Jan. 1, 1938.

## ACL Advertises City With Diner 'Sanford'

L. T. Sheppard, Ticket Agent of the Atlantic Coast Line Railroad here, announced today that the company has purchased and will soon place in operation a beautifully equipped and splendidly furnished diner car named in honor of Sanford.

The diner will carry the name of Sanford on each side of the car. The car will be assigned to service in one of the Coast Line's main-line trains operating between the North and Florida, and will thus advertise the city far and wide.

The new diner "Sanford" will be placed in service at an early date. The car is constructed of steel throughout so as to insure the maximum safety and is equipped with air-conditioning apparatus for greater comfort. It will accommodate 26 guests at a time.

The diner "Sanford" is one of a series of 4 such cars which the Atlantic Coast Line has acquired to meet the needs of its increasing passenger travel.

## Rebel Attack On Valencia Expected Soon

Loyalists Effect Accord With Allied Autonomous Catalonia Government

B. ENDAJE. Franco-Spanish border, Oct. 23.—(AP)—The Spanish republican government was reported to be rushing reinforcements to the Teruel and Aragon fronts to meet assaults from the vastly strengthened insurgent forces against either Valencia or Catalonia.

Government ministers at Valencia, the temporary capital, await an order to move to Barcelona, the capital of the autonomous but allied Catalonia, following affirmation of an accord between the two allied regimes.

While the insurgent chief, Francisco Franco, mopped up northwest Spain in a victory sweep that would liberate most of the 100,000 soldiers for a tremendous drive at either the present or future capital of the republic, grim fighting was reported from other parts of war-torn Spain.

Russia Balks LONDON, Oct. 23.—(AP)—Diplomatic circles were informed last night at a moment when Soviet Russia's threatened to prevent a Spanish "volunteers" agreement—that Fuhrer Adolf Hitler of Germany has sent his ace diplomat to Italy with a plan for ending the civil war in Spain.

Joachim von Ribbentrop, German ambassador to London, arrived in Rome at noon after a surprise airplane trip from Berlin and was said to be carrying a "compromise" proposal whereby all foreign mercenaries will be recalled from Spain and an armistice offered.

The plan, it was reported here, was easily conceived by President Benito Mussolini after what he regarded as an Italian "diplomatic victory" within the London non-intervention committee and completion of the Spanish nationalist conquest in North Spain.

Diplomatic circles buzzed with the Von Ribbentrop report immediately after the chairman's subcommittee of the non-intervention group ran into a dangerous deadlock over Russia's refusal to agree to an Italo-Franco-British compromise for removing the thousands of foreign mercenaries fighting in Spain.

Russia insisted that the withdrawal be "proportionate" between the insurgent and loyalist forces while Italy—with French and British consent—refused to judge from her demand for a "token" non-former withdrawal.

It appeared that Russia's stand might force the nine-power committee to drop the entire plan of a "token" withdrawal and search for another compromise.

The City Commissioners meet in the City Hall Monday night at 7:30 o'clock for their regular bi-monthly session.

The City Brier wishes to congratulate Mrs. Gladys Kendall, home demonstration agent, who is celebrating her birthday anniversary today.

James H. Gut, who was recently operated upon at the Fernald-Laughton Memorial Hospital, has improved sufficiently to be removed to his home.

Violators of City Ordinances will be tried before City Judge Frank L. Miller in a session of the Municipal Court Monday afternoon at 4:00 o'clock.

C. A. Partain was granted permission to erect a one-story frame building on Thirteenth Street estimated to cost \$200, G. P. Paxton, local building inspector, reported today.

C. R. Mason, president of the Florida Audubon Society, will be the guest speaker at the weekly luncheon of the Sanford Rotary Club in the Valdez Hotel Monday at 12:15 o'clock, according to G. E. Bellis, chairman of the program committee.

## ROOSEVELT DEDICATES NEW FEDERAL RESERVE BUILDING

On his right and farther from the rail is Senator Carter Glass, outspoken critic of the New Deal, whom President Roosevelt complimented on the part he played in establishing the Federal Reserve.

## Zoo's New Bears Are Down With Colds

The two new cub bears that were presented to the Sanford Municipal Zoo last week by the Seminola County Chamber of Commerce were reported this morning to be improving nicely from slight ailments incurred during their journey from New York City.

The bears did not receive the proper care from attendants while they were being shipped to this city, according to Phil King, zoo caretaker, but they are doing nicely now and are furnishing much enjoyment to the many people who have seen them this week. The cubs were named Ezekiel and Lil Plural after the two main characters in Mrs. Elvira Garner's recent book entitled "Ezekiel."

Two negroes and one white man were arrested by Deputy Sheriff Lewis A. Tate and charged with petty larceny. It was learned today.

The white man, William Henry Davis, was arrested Thursday by the Deputy Sheriff when a desk was found in his home which he is alleged to have stolen from W. W. Brady.

The two negroes, James Bell and Rufus Hayes, were arrested yesterday when Deputy Tate found in their possession a watch and other items which had been reported stolen from the home of an employee on the farm of S. G. Dickerson.

The three were charged with petty larceny and lodged in the County Jail to await action of the court.

A vocational night school has been opened in the Oviedo High School, according to an announcement made today by R. F. Cooper, principal of the school.

WASHINGTON, Oct. 23.—(AP)—The Supreme Court justices met today to decide whether to review the conviction of Haywood Patterson, one of the negroes involved in the Scottsboro, Ala. attack cases.

Some observers expressed the belief this litigation might provide a basis for challenging any participation by Justice Hugo Black, who at one time was a member of the Ku Klux Klan.

One challenge of Black's participation in the litigation already has been promised. It resulted from the court's refusal last month to interfere with a lower court ruling that the Securities Commission could subpoena telegrams sent and received by three Florida companies.

Dr. P. I. Lipsey To Address Men's Club

Dr. P. I. Lipsey, professor of Journalism at Stetson University, will talk on the "European Situation" at the monthly meeting of the Presbyterian Men's Club Monday night, according to J. P. Herndon, president of the club.

Dr. Lipsey recently returned from an extensive tour of Europe and will report his observation of conditions there at the Monday night meeting.

## Cone Completes Plans For Exhibit In World's Fair

Governor Pays Call On LaGuardia Who Is Reported Too Busy

NEW YORK, Oct. 23.—(AP)—Arrangements for Florida's participation in the New York World's Fair 1939 on a large scale, were concluded Thursday by Governor Fred P. Cone, when he visited the Administration Building in Flushing Meadow Park, and conferred with Grover A. Whalen, president of the Fair Corporation.

It was announced that Florida will use two and one-half acres of ground in the State Governmental Zone and is planning the erection of a huge pavilion with an effective exhibit, depicting all the resources and advantages of the State.

Although no official announcement was made of the amount of money to be invested, it is expected that the minimum expenditure on behalf of Florida, will be \$250,000. The funds will be provided partially by the National Exhibition Company, with the cooperation of other Florida business groups, including the citrus industry.

Gov. Cone of Florida called on Mayor LaGuardia yesterday with a bundle of grapefruit and a "grapefruit for health" message, but was informed the mayor was too busy to see him.

A short time later, however, the mayor interviewed a Texas Christian university delegation here for the Fordham football game.

LaGuardia is a man of pronounced liberal sympathies and the Florida governor Thursday made a fiery statement regarding the treatment agitators would receive in his state.

Governor Cone received a telegram yesterday from the American Civil Liberties union, challenging him to debate the recent Tampa flogging episode. The group promised "a man, distinguished in public life, to join in the issue with you."

The telegram was sent by Harry F. Ward, chairman, and Roger Baldwin, director, of the American Civil Liberties union. It follows:

"Statement attributed to you by delegation Thursday indicated surprising attitude toward enforcement of law by encouraging and condoning the very violence which you opposed in the Tampa district.

"You prescribe riding on a rail and hanging on tree for advocates of overthrow of government. As defenders of orderly processes of law, we invite you to debate that view publicly over a radio station while in New York. Public would be interested to hear further exposition of your views. We can guarantee a man, distinguished in public life, to join in the issue with you."

Hair stylists predict much more elaborate curls this winter. Elaborate curls, ornaments and even lacquered hair will be much in vogue.

## Great Battle For Shanghai Being Waged

Both Sides Admit Severe Losses While Gains Are Small To Neutral Observers

## Town Of Tazang Is Key To Fight

Japs Are Trying To Open Chinese Lines To Reach Nanking

SHANGHAI, Oct. 23.—(AP)—A great battle for Shanghai swayed madly back and forth in the moonlight tonight in a maze of small creeks and meandering canals north of Tazang, six miles northwest of Shanghai. Both sides admitted severe losses as the Japanese fought desperately to crush the Chinese lines and open a way to Nanking.

Just as desperately the Chinese battled to hold Tazang, the loss of which would compel a retreat from Chapei and Kiangwan, their strongholds on Shanghai's northern fringe. Both sides tossed heavy reinforcements into the battle and each claimed success.

Chinese army spokesmen declared the Chinese had definitely checked the Japanese threat to Tazang after 70 hours of combat. A Japanese spokesman asserted the details did not matter because the Japanese were slowly but surely pushing the Chinese back and gaining the general objective.

By five different routes the Chinese were converging on Japanese troop bases to the rear of Wansongpan creek, and claimed capture of five villages, including a Japanese supply base.

Japanese claims of further progress toward Tazang were partly substantiated by American military observers who said they spotted machine gun and rifle fire from Chinese defenses on the outskirts of the town. They placed the main body of Japanese at more than a mile away.

Both Chinese and Japanese claimed capture of Kwangfu, an important point on the route to Kiating, well in the rear of the 25-mile Chinese defense line.

In North China at Peking, capital of Shantung province, the powerful warlord Gen. Han Fu-Chu bluntly rejected Japanese overtures with the statement: "I shall resist Japan to the bitter end, regardless of the consequences and sacrifices."

Twenty-Five Wounded In Egyptian Riots

CAIRO, Egypt, Oct. 23.—(AP)—Twenty-five persons were wounded today when police clashed with several thousand students of Qina University trying to enter Cairo for a demonstration against the government.

The demonstration was planned to coincide with the opening of the special session of parliament late today. Several politicians were seized by the university and manacled. The students also attacked a group of pro-government members of the youth organization. The students finally dispersed.

## Warning Given By Roosevelt Of New Taxes

(Continued from Page One)

Since now being made on crop.

A press conference statement by President Roosevelt, that it had not been decided whether new taxes would be necessary, revived speculation that crop loans may be financed by re-enactment of levies on the processing or manufacture of farm products.

Such taxes, when tied with crop control in the original Agriculture Committee returned to the capital during the day to prepare for committee hearings beginning next Wednesday, on new general farm legislation.

Mr. Roosevelt has asked that crop surplus control and other legislation to stabilize farm prices and supplies be enacted at the special session of Congress called for Nov. 15. He has argued that production must be controlled to prevent the development of price-depressing surpluses and consequent losses to the government on its crop loans.

Reporters asked Jones whether he thought some measure would become law during the special session. He replied:

"I wouldn't say that. We are going to try to pass a bill as soon as is reasonably possible, but there are many uncertainties. I see no reason why it should not pass through the House in the early part of the session."

He said the Senate might delay action until the regular congressional term starting in January.

Jones expressed belief that the legislation should include these principles:

1. Simplification of the present soil conservation program, which provides benefit payments for farmers complying with specified soil-conserving and soil-building practices.
2. A fair share of the national income for agriculture.
3. Price-stabilization commodity loans and the "over-normal granary" under which crop surpluses would be stored under Federal loans for use in lean years.
4. Research laboratories to seek new uses for farm products.
5. Crop control provisions that would not interfere with the Nation's export markets, particularly for cotton.

After a short illness, Mr. and Mrs. D. K. Harrell have moved to Upland.

Dr. D. H. Turner, dental inspector from the Florida State Board of Health, visited Lake Monroe school Thursday and examined the children's teeth and made a talk to the school about the care of teeth.

Some of the improvements made at the Lake Monroe School under the supervision of the new board of trustees, Gus Schman, Guy Stafford, and Carlos Mase, are the following: screening of the school house, widening of halls, new shades for windows, clock for the main hall, new teachers' desks for primary and intermediate rooms, re-arranging of volley ball and tennis courts, additional playing equipment for larger children, saw-saws, acting bars, large rubber balls and better equipment for the primary children.

Sir Richard Steele once took a friend to a tavern, where they dined heartily; then together they wrote an article which the friend had to take out and sell to pay the bill.

Anne Bradstreet, wife of Governor Bradstreet, was a noted American poet.
