

# 'Bug' Probers Want Nixon's Testimony

By JEFFREY MILLS  
Associated Press Writer  
WASHINGTON (AP) — Government prosecutors reportedly would like President Nixon to testify on how the Watergate cover-up could have been carried out without his knowledge, but are said to feel a subpoena would be of dubious constitutionality.

The Washington Post, quoting Justice Department sources, said today that the President's role in the scandal is the only question remaining to be clarified in the grand jury investigation.

The prosecutors are reported to have told their superiors that evidence obtained thus far justifies questioning the President about how his closest aides could have kept knowledge of a cover-up from him.

"The President should be given an opportunity to explain himself," the Post quoted a source as saying.

"The Watergate investigation has run smack into the Constitution," the Post said, "and the question of how the President can be investigated... is a Justice Department source as saying.

According to the account, officials believe the Constitution prevents subpoenaing the President.

Meanwhile, Sen. Howard H. Pate, Watergate investigating committee vice chairman, said he would call for a high-level administration official to testify "by the end of June."

Baker, vice chairman of the committee, said that resumes hearings June 5, said John N. Mitchell, H.R. Haldeman, John E. Ehrlichman and John W. Dean III would not be called before then.

The Post's sources reported that prosecutors have recommended the indictments of Mitchell, former attorney general, and Haldeman and Ehrlichman, both White House aides who have resigned.

The Post's account brought a sharp rebuff from White House Press Secretary Ronald L. Ziegler. He said the story, "reflects a shocking and irresponsible abuse of authority on the part of the prosecutors.... Grand jury proceedings are by law secret."

Ziegler said the White House has asked Attorney General Elliot L. Richardson and Watergate prosecutor Archibald Cox "to investigate the circumstances of these anonymous charges against the President of the United States... and to do so immediately."

CBS News has reported that Dean, White House Counsel who was fired by President Nixon, has been offered immunity from all charges except one of

obstructing justice, if he testifies about "all he knows" concerning Watergate.

The network said it had learned from unnamed government sources that the offer was from prosecutor Earl Silbert in a letter to which Dean had not responded by Monday night.

Dean was quoted by CBS as saying "I have heard something about it," but the network said he would not divulge whether he would accept the offer.

In another Watergate-related report, the sources said, "The sources said they had requested some modifications and made some counter-proposals. They did not elaborate."

These sources predicted the following developments:

—Kissinger and The will officially announce their agreement on strengthening the original cease-fire accord at the conclusion of their next round of talks in Paris scheduled to begin June 6.

—The United States will halt all air reconnaissance missions over North Vietnam.

—Twenty-four hours after the announcement, the Saigon government will be increased to will order opposing battlefield commanders to cease their fire.

—Five to 10 days later, Saigon and the Viet Cong will grant guarantees of privileges and immunities for members of the two-party Joint Military Commission. The two sides will fully observe terms in the field to keep the peace.

—Within five to 10 days, the United States will resume operations to remove mines from the waterways of the country.

—Military commanders of the opposing parties will meet to establish safety corridors through the respective zones of control.

## S. Viets Pledge True Ceasefire

By GEORGE ESPER  
Associated Press Writer  
SAIGON (AP) — Government sources said today that the South Vietnamese government has agreed in principle to a detailed timetable for a true Vietnam cease-fire.

The agreement, worked out in Paris by Henry A. Kissinger and Hanoi's Le Duc Tho, calls for both Saigon and the Viet Cong to order all their units to stop shooting, the sources said.

The sources said they had requested some modifications and made some counter-proposals. They did not elaborate.

These sources predicted the following developments:

—Kissinger and The will officially announce their agreement on strengthening the original cease-fire accord at the conclusion of their next round of talks in Paris scheduled to begin June 6.

—The United States will halt all air reconnaissance missions over North Vietnam.

—Twenty-four hours after the announcement, the Saigon government will be increased to will order opposing battlefield commanders to cease their fire.

—Five to 10 days later, Saigon and the Viet Cong will grant guarantees of privileges and immunities for members of the two-party Joint Military Commission. The two sides will fully observe terms in the field to keep the peace.

—Within five to 10 days, the United States will resume operations to remove mines from the waterways of the country.

—Military commanders of the opposing parties will meet to establish safety corridors through the respective zones of control.

## Insurgents Invade Town

By EDITH LEIDERER  
Associated Press Writer  
PHNOM PENH, Cambodia (AP) — About 400 Cambodian insurgents raided a river town 20 miles northwest of here Monday night, killing the members of 50 dozen families and burning 50 houses, the military command said.

Field reports said 100 militiamen stationed in Prek Kiam, on the Tonle Sap River, fled when the insurgents forces entered the town.

The military command said the members of nine civilian families and three military families were killed and 26 others or persons were wounded in the three-hour attack that began at midnight.

Field reports said most of the attackers were Chams, Cambodian Moslems who live in the Phnom Penh government.

Prek Kiam is on Highway 5, the main highway from Phnom Penh to Cambodia's rice bowl in Battambang Province.

The highway has been cut for months.

Also Monday night, another Mekong River supply convoy from South Vietnam arrived in Phnom Penh. Four of the 11 ships and barges were badly damaged.

U.S. fighter-bombers had pounded the 60 miles of river bank from the South Vietnamese border. But the convoy came under intense shelling from insurgent forces using 100-mm guns, miles south of the government naval base at Neak Lon.

Intelligence reports say about 1,800 insurgent troops are moving into the area around Neak Lon, which is 32 miles south-east of Phnom Penh. The Cambodian command believes they are going to try to take the base.

In Saigon, the South Vietnamese command reported 41 Viet Cong and North Vietnamese and size government soldiers killed Monday in three Communist and north of Saigon. A spokesman said another 30 government troops were wounded.

## 2 New Industries Come To Sanford

By BOB LLOYD  
Herald Staff Writer

Sanford city commissioners Monday night paved the way for two new industries to begin moving into the former Sanford Manufacturers building at West First Street and Poplar Avenue when they rezoned the property for restricted industrial use.

Bob Boyette of Futronics Industries Inc., electronic equipment manufacturer, will occupy the front two-thirds of the 20,000 square foot building, while the rear third of the building will be occupied by the two-year-old firm which began moving from its present Orange County location today.

Futronics has a number of government contracts and will start Sanford operations with 15 employees. Boyette said the work force will be increased to 30 in June and will peak at 60 workers in November.

Another Orange County manufacturer, Kokomo Tool and Die Co., wants the building and will relocate its plant for manufacturing of die cast machines and molds for wheel weight manufacturers in the rear third of the plant.

Kokomo Tool and Die will employ 10 machinists and five supervisory employees. An official said approximately seven employees will move with the firm from Orange County.

The planning and zoning commission recommended a change from multiple family residential, office and institutional district to medium industrial for the manufacturing location but city commissioners decided the use would be used for manufacturing of die cast machines and molds for wheel weight manufacturers in the rear third of the plant.

Commissioner A. A. McClanahan said medium industrial would open the way for the future use of such as explosives manufacturing, petroleum refining and chemical manufacturing. "These are heavier industrial uses," he said, "and I think restricted commercial zoning is more suitable."

Representatives of Kokomo and Futronics agreed the restricted industrial classification is adequate for their needs.

## 31 Killed In Holiday Accidents

By THE ASSOCIATED PRESS  
Traffic accidents across the state during the Memorial Day holiday weekend claimed 31 lives, surpassing the predicted toll of 29, the Florida Highway patrol says.

Six of the deaths came in two three-fatality accidents, one Friday and the other on Monday.

Killed Monday in a two-car crash on State Road 486 near Altamonte Springs were Glendon Williams, 20, of Orlando, and Mr. and Mrs. Munroe Welling of Sorento, Troop 6 said.

A head-on collision on State Road 78A near Punta Gorda late Friday took the lives of Kellee Isaacs, 17, her brother, Kenneth, 16, both of Fort Charlotte, and Patricia Priest, 35, of Punta Gorda.

Other Monday traffic victims included a pedestrian killed as he tried to cross S.R. 5 in Malabar. Troopers witheld the identity of the man pending notification of next of kin.

Nancy Paul, 42, of Pensacola, was also killed Monday. He died when his car crashed into a bank building in Pensacola.

Carlos Cruz, a Boca Raton hotel employee who died of injuries suffered in a one-car accident in Palm Beach County, was among Sunday's victims.

Sunday accidents also killed June Vescey, 14, of Tampa, who stepped into side of one car in Hillsborough County and was knocked into the paths of three others.

And two-year-old Arthur Brooks was run over in front of his family's suburban Tampa home when a car pulled away after unloading passengers.

Robert Donald Howell Jr., 8, of Casselberry, was struck and killed by a car Sunday while riding his bicycle near his home.

Kathryn Simone Parziale, 64, of Inverness, also died of injuries after her car ran into a ditch on S.R. 45 and struck an orange tree.

Most drivers carried in a pre-weekend Associated Press survey said they did not plan any changes in driving habits or vacation plans. The question is whether they will have to.

A handful of stations were limiting customers to five gallons over the weekend, many independent and major stations have cut back hours or closed Sunday.

The Office of Emergency Preparedness last week reported 882 of the estimated 230,000 stations in the country were closed for lack of gas. Another 1,863 were threatened with shutdowns, the OEP said.

Generally, the independents are most affected. They captured a quarter of the market over the past decade by buying surplus gas from major oil companies and selling it at 2 to 10 cents a gallon less than the standards.

An optimistic view is voiced by California Assembly Speaker Bob Moretti, a Democrat. He notes that U.S. refineries operated "at less than 75 per cent capacity last year" and listed record first quarter profits this year.

Is it coincidence that the shortage occurred "during a period when the oil industry is pressing for the Alaska pipeline, relaxation of other environmental safeguards, and preferential tax loopholes?" he asks.

While the debate goes on, Illinois officials have set up a hotline for farmers needing fuel.

## Unwelcome Gas Cuts Face U.S. Motorists

By BOB MONROE  
Associated Press Writer  
Like the unwelcome thump of a flat tire, the reality of the gas shortage now begins to prey on the minds of motorists accustomed to driving as though there were always more fuel tomorrow.

Warnings went out early that drivers who took to the highway this weekend might find a shortage of gas to get home.

Most of them made it because there are still huge quantities of gasoline available. But the locked service stations and gas rationing encountered by many motorists are not quite enough.

Demand for gas has been increasing seven per cent a year, and traffic counts continue to grow. At the same time, many major oil companies say they do not have enough crude oil and have begun allocations to dealers based on 1972 sales.

"Not many months ago we were hounded by salesmen wanting to sell fuel. Now you have to scrounge all over the place," says Ray Alderson of Yellow Freightways in Kansas City.

Transit officials seek bids for fuel and get no replies. State troopers in Florida have been ordered to cut back mileage. Taxi drivers in a Des Moines, Iowa, fleet have been told to not

intention of passing any tax relief package," Tillman said.

Most of the strong debate in the House this session has been between Democratic leaders. The first GOP vote at a bloc came last week to delay for one day a final vote on the state spending bill.

Partisan debate has been notably absent in the Senate.

Asked why the upsurge in partisanship in the first week, Tillman of Sarasota, said, "I'm getting short and tempers are getting short."

"We don't take every issue and make a partisan issue out of it," he said. "In this case, the speaker brought it up and I didn't want it to go unanswered."

He said the GOP had given up its plan to repeal the intangibles tax and would support partial repeal.

Republicans long have supported increasing homestead exemption of \$10,000 for persons 65 or older to apply to all property taxes, he said.

The exemption now applies only to school taxes and Gov. Heinichsen has asked that it be expanded to apply across the board.

## Summer, Curfew Top Council List

By MARION BETHA  
Herald Staff Writer

ALTIMONTE SPRINGS — With summer and the end of school near, city council at a 4:30 p.m. meeting today will give attention to items along these lines.

Foremost is an appearance by a citizen requesting council establish on 11 p.m. curfew for the city's youth.

Council will hear a bid report on equipment for San Sebastian park in which \$15,000 has been earmarked by the city for development of the five acre site.

Next to be considered is lighting for the recreational complex at the new civic center. Low bid submitted for this project was \$31,000.

There was some hassle over the item last week since the baseball diamonds will be lighted "like Christmas trees" and no lighting is provided for basketball and shuffleboard. The city has \$20,000 budgeted for the lighting which was acquired from purchase of an easement by Florida Power Corp.

Also to be considered is a low bid of \$6,500 for playground equipment for the recreational center.

A public hearing will be held on the abandonment of Station Street at SR 68 running adjacent to the railroad tracks. Council will discuss granting a franchise to Southern Bell to serve the Lake Lotus area. The rest of the city is served by the Winter Park Telephone Co.

The council also will hear a presentation by Alan Helman of the Environmental Design Group for the new municipal complex for which \$250,000 has been earmarked.

Two other architectural firms have made presentations and council soon will make a decision as to the selection from among the proposals.

Council will consider, from the zoning board, approval of a final plat for Walden Terrace located in the vicinity of South Cortez and Lombardy Avenues and a street lighting plan for the same subdivision.

## W. Springs Will Trim City Budget

By MARION BETHA  
Herald Staff Writer

WINTER SPRINGS—City council meeting tonight at 7:30 faces a budget trimming task and a deficit of \$99,827.49.

Prepared by Councilman Vicki Baker, the tentative budget calls for total departmental expenditures of \$366,506.45 with estimated income from permits and fees and utility taxes of \$278,678.96.

The budget covers the fiscal year beginning Oct. 1. Heading the expenditures council must juggle is the budget for the \$143,763.45 police department. Next in line is the fire department funding of \$60,000; the mayor's office \$47,000; planning and zoning department \$32,143; roads and bridge \$22,750; finance \$26,800; and recreation \$19,050.

The canine problem has been placed on the agenda for the third consecutive week. Council had discussed hiring an animal control officer.

Mayor Granville Brown noted CALNO is working on four-city participation with the problem and City Atty. Tom Freeman is touting the advantages of the county dog control ordinance relative to city participation in that it is advantageous to have a centrally located office for animal control. Freeman also mentioned there is not enough work for a dog catcher in each municipality.

Freeman also requested a delay in action on the dog control problem to iron out a few points of contention in the county ordinance.

## On Drainage Ditch City Council 'Busy As Bees'

By DONNA ESTES  
Herald Staff Writer

LONGWOOD — The post of councilman in this city has become almost a full time job, the beehive activity of members of the board Thursday at city hall indicates.

While Mayor Eugene Jaques and Councilmen William Klasky and E. E. Williamson were working on sewage of citrus waste into an east-west drainage ditch, Councilmen E. L. Helms and B. H. Ferrell were handling committee chores at the city building.

According to Klasky, he and the three other councilmen were working on separate problems and had no discussions together.

Everything the city has requested done as the Sun Pac Juice Plant on SR 48 at SR 47 to alleviate the spillage of waste from the citrus operation into the ditch drainage ditch has been agreed to. Work began on solving the problem last Friday, according to Hugh Lokey of Trask Engineering, Altamonte Springs.

Lokey said the ditch on Sun Pac property was cleaned and filled in Friday. Cleaning of the entire ditch which has its outfall in Fairy Lake will be taken care of within a week.

The engineer said a list of recommendations for correcting the problem was prepared by county pollution control officials. Lokey said, with agreement of principals of Sun Pac and himself.

The scope of the ditch cleaning operation is on Sun Pac's boundary line. Over-street, Lokey said agreement was reached with city officials Thursday and plant manager Julian Fussell hired a contractor.

At the same time, Trask Engineering is completing designs to correct all pollution problems on site.

Adair said Williamson, district councilman, toured the site with him Thursday as the agreement was being worked out.

Williamson said he believes the problem is now well on its way to solution. Klasky, whose district includes portions of the drainage ditch, also was working on the problem Thursday. He noted he also toured the drainage ditch with Adair.

While Williamson and Klasky at separate times were working on the drainage ditch problem with Adair and principals of Sun Pac, Klasky said

## County Asks Federal Flood Insurance Plan

By CHRIS NELSON  
Herald Staff Writer

Federal flood insurance for private citizens may be in the offing if Seminole County commissioners, who will discuss the matter at length at this afternoon's regular meeting, indicated they would assign the executive board of the Conference of Major Superiors for America's military deserts and draft engineers as a means to end lingering uncertainty over the Vietnam war.

The program would be administered by the Federal Insurance Administrator working in the Department of Housing and Urban Development (HUD).

In other work session business, commissioners indicated official approval at the regular meeting of a board of directors for the proposed data processing center. The board would make decisions on equipment, implementation title, and other problems of setting up an advanced data processing system.

The county currently contracts with a Tampa firm for records and billing operations involving tax rolls, board elections, sheriff's office, and other county financial and administrative matters.

## Group Endorses Amnesty

NEW YORK (AP) — A group representing Roman Catholic priests and brothers has endorsed unconditional amnesty for America's military deserters and draft evaders.

The executive board of the Conference of Major Superiors for America's military deserts and draft engineers as a means to end lingering uncertainty over the Vietnam war.

The program would be administered by the Federal Insurance Administrator working in the Department of Housing and Urban Development (HUD).

In other work session business, commissioners indicated official approval at the regular meeting of a board of directors for the proposed data processing center. The board would make decisions on equipment, implementation title, and other problems of setting up an advanced data processing system.

The county currently contracts with a Tampa firm for records and billing operations involving tax rolls, board elections, sheriff's office, and other county financial and administrative matters.

## Deltona Youth Drowns Monday

A 16-year-old Deltona youth drowned in Clearwater Lake shortly after 7 Monday night, after attempting to swim across the lake with a friend.

The Volusia County Sheriff's Department said the body of Robert D. Stewart, of 2218 Diana Drive, was recovered by a river patrol boat dragging the lake.

The sheriff's department also issued divers in searching for the boy's body.

An autopsy will be performed at Halifax Hospital in Daytona.

FTU Sets Graduation  
Florida Technological University will hold commencement exercises for a Spring quarter graduating class of nearly 800 students on June 8 at 9 a.m. in front of the FTU administration building. In case of rain in the morning the ceremonies will be postponed to 6:30 p.m.

FTU President Dr. Charles N. Millican will be the commencement speaker.

FTU holds graduations at the end of each quarter and the spring graduating class is always the largest. Classes have rapidly outgrown indoor facilities in the Central Florida area since the university opened its doors in 1962.

Don Chapman, FTU

## Altamonte Springs Crash Kills Three

(Continued From Page 1)

Apparently died instantly, and that the road was blocked for an hour while officers freed the bodies from the wrecked cars and took photographs and measurements at the scene.

Traffic was backed up west past Interstate 4 to the east, and nearly as far to the west, although the 2:45 p.m. accident was cleared before the crucial rush hour.

It was the first fatal accident in Altamonte Springs this year, and the county's first triple fatality since three people died in a head-on collision on SR 46 west of Geneva in December 1971. That crash contributed to a record 29 traffic deaths in the county during 1971, although the figure dropped considerably to 10 last year, and was well below average this year until the weekend's four deaths.

The Election Process

Back To The Drawing Board Again

At long last the United States is taking an intensive look at the need for basic reform in the rules, accepted practices, laws and mandatory procedures under which American citizens run for federal office.

President Nixon, after consultation with congressional leaders of both parties, has proposed creation of a bipartisan commission to conduct a complete study and recommend changes by Dec. 1.

Quick congressional approval of the commission is likely.

Sen. Philip A. Hart, D-Mich., also has proposed a new, far-reaching law providing for public financing of campaigns for election to the U.S. Senate and U.S. House of Representatives.

And both of the citizens' lobbies—Common Cause, and the National Committee for an Effective Congress—have been active in pushing for swift and drastic change in election practices.

They each have worked with Hart on his bill and support its provisions.

Even before these developments, however, there was a gathering momentum for reform. The federal Election Campaign Act of 1971, for example, sets limits on amounts candidates for the U.S. House, Senate, president or vice president, could spend for advertising on television, radio, in newspapers, magazines, on billboards or via automatic telephone equipment.

But the act did not become effective until April 7, 1972. By that time large amounts of cash had flowed into party and candidate coffers that were not technically subject to the new reporting

requirements. It could be argued that because of this the act did not have a fair test in 1972. Perhaps.

But serious doubts have been raised that it could ever be adequately policed, as required by the clerk of the House and the secretary of the Senate, or that it could be enforced by the Department of Justice with the "patry cake" fines justice imposed for violations in the 1972 balloting.

Additional momentum for change has been built up in the wake of the break-in at Democratic National Headquarters in the Watergate complex here June 17, 1972, allegedly at the instigation of some members of President Nixon's reelection apparatus.

Their Lessons Are Invaluable

Let's Pay Attention To POWs

By RALPH BENNETT  
Copley News Service

Sometimes, during the long years, it seemed that Americans didn't want to think about the prisoners of war held by the Viet Cong and the North Vietnamese.

It was too unpleasant a topic to dwell on. For a long time, the official government policy was hush-hush. Prisoner's families were told that for the good of the prisoners they should keep quiet.

The years went by. Finally, after a longer period of captivity than any Americans had ever endured in any previous war, 585 men came home this spring.

The longest ordeal had ended. There was a rush of attention at the homecomings.

When prisoners appeared at public meetings, people stood and applauded with a spontaneous group feeling of respect.

Even people with strong antiwar convictions felt a surge of something like awe in the presence of these men, knowing what they had endured.

Entirely aside from political questions or the war issue, entirely in human terms, it seemed possible that these men—or some of them—had by their suffering won some kind of knowledge of themselves and the human condition.

That knowledge could be valued at its cost.

Now the torrents of the Watergate are sweeping away the public attention and concern for the prisoners of war and their stories.

It seems a pity. Americans, made soft and self-indulgent by their materialistic way of life, might have much to learn from these men.

It is not the political opinions of the POWs which are important. From their unique perspective, it is clear that the war issue had to become a conflict

of white and black without any gray area in between. Although captured and disarmed, they remained in a sense the cutting edge of the U.S. military weapon being wielded against the enemy as designated by the commander in chief.

The cutting edge does not topic its purpose. For a long time, the official government policy was hush-hush. Prisoner's families were told that for the good of the prisoners they should keep quiet.

The human spirit can endure much more than the average man ever is called upon to endure.

Every man has his breaking point but, once broken, he can recover and resist again. There is a king of spiritual second wind.

Communication and support from others is the greatest source of a man's individual strength. In solitary years, the prisoners gained confidence and determination from feeble tapplings, tiny flickering signals that signified they were not alone.

Attention should be paid to these findings, the result of the ordeal, a testing of what it is to be a man and an American in our time.

BRUCE BLOSSAT  
Nixon and Mitchell  
Closeness a Sham

WASHINGTON (NEA)

Watergate, with all its destructive force, somehow still has not smashed one myth that deserves to die—the strong, personal notion that President Nixon and his former Attorney General, John Mitchell, were close personal friends.

That they are not intimate now is accepted, since Mitchell couldn't even get to see the President when he was in a few weeks ago. That they ever were in an erroneous idea that has astonishingly wide currency in the press and elsewhere, and because of understanding of Watergate events.

In many quarters, for instance, it is almost automatically assumed that what Mitchell knew and did he quickly told Mr. Nixon. Mitchell in December, 1968, he told me he did not anticipate serving as Attorney General and added: "I probably wouldn't be coming here if it weren't for the other thing."

He didn't have to spell it out. He presumed I would accept the vague short-hand phrase as indicating Mr. Nixon's well-advertised reliance upon him for personal counsel. At 54, he stood in as a kind of elder statesman, if not a father figure, with his iron facade and ring of authority.

Mitchell surely did have some clout in this administration. What is wrong is the impression of closeness. The idea got started, though not too much is said about the President consistently responding in kind.

Both he and Mitchell fostered the idea of a close relationship, and succeeded admirably in purveying it. In a brief interview I had with Mitchell in December, 1968, he told me he did not anticipate serving as Attorney General and added: "I probably wouldn't be coming here if it weren't for the other thing."

SHS ADVANCED CHORUS PRESENTS CONCERT  
THE public is invited to a concert Thursday at 8 p.m. in Seminole High School auditorium by the Advanced Chorus under the direction of Earl E. Minott. The 28-voice mixed chorus will present sacred and secular selections with such popular numbers as "Ben!" and "Killing Me Softly" and selections from the Broadway musical "1, 2, 3." (Staff Photo)

Big Cypress Fire  
Yields To Rangers

NAPLES, Fla. (AP) — Calmer winds are helping slow the spread of a 30,000-acre blaze in the Big Cypress Swamp as forest rangers try to keep the fire from reaching the populated Florida Gulf Coast.

"We made our first real progress on line construction and though we still have some strong winds, we're staying ahead of the blaze," Charles Maynard, state forestry division supervisor, said early today.

The blaze had nearly doubled in size by early Monday, scorching 1,000 more acres for a total of nearly 20,000. By early today the fire had cut through another 1,000 acres.

Maynard said firefighters believe they can check the blaze before it reaches Broward and Dade counties to the east or Alligator Alley, a major toll road across the Everglades, to the north.

The fire is about 50 miles east of Naples on Florida's Gulf Coast.

Seasonal dry conditions, intensified by drainage canals dug for either development or flood control, and a delay in the start

of the wet season plus strong winds have been helping efforts to control the fire, one of several in the area this year.

"We can have the fire completely contained in a couple of days but we're at the mercy of the weather," Maynard said. "It will be hot and dry until we get some rain, but if we don't get particularly strong winds we can make progress."

Forecasters at the National Weather Service in Miami said there was little chance of rain in the area in the next day or two.

The Big Cypress fire is the largest of a dozen fires that have blackened more than 50,000 acres in the past 18 days.

Maynard said some crews and equipment would need to be sent to another fire in the undeveloped Golden Gates Estates southeast of Naples. That fire had burned over 6,000 acres by Monday night.

Kern Blacker, Naples district supervisor for the forestry division, blamed the fires on arsonists, possibly hunters trying to hunt game.

Blacker also said man has added to the drought in the swamp by draining areas that

local governments would have to levy higher property taxes," said House sponsor Carl Ogden, D-Jacksonville.

Controversy over the bill caused Monday after rural legislators won a battle with their urban counterparts over the county distribution formula.

Gov. Reubin Askew's Commission on Local Government Change would have funneled more money to urban counties.

But counties can still expect \$31 million and cities \$23 million more under the new formula, predicted lawmakers would try to change the formula again next year "when we have a few more facts."

The House rejected an amendment by Rep. Marshall Harris, D-Miami, that would have earmarked \$2 million of revenue sharing funds to help urban counties fund social programs jeopardized by federal cutbacks.

Ogden, whose home county of Duval would receive \$1 million more under the new formula, predicted lawmakers would try to change the formula again next year "when we have a few more facts."

The House rejected an amendment by Rep. Marshall Harris, D-Miami, that would have earmarked \$2 million of revenue sharing funds to help urban counties fund social programs jeopardized by federal cutbacks.

Senate-House Committee  
Ponders Cost Of Education

By TOM RAUM  
Associated Press Writer  
TALLAHASSEE, Fla. (AP) — The Senate debates a proposed revision of the state aid-to-education bill today while a House-Senate conference committee on the budget ponders ways to pay for it.

The committee reached agreement Monday night on most areas of the budget. But school financing, social service programs and interstate highway construction were not among those areas.

"We've made fantastic progress," said Rep. Marshall Harris, D-Miami and leader of the House conferees. He said a final \$3.9 billion spending compromise would be ready by Wednesday.

In the House today, three controversial bills are scheduled for debate — collective bargaining for public employees, environmental reorganization and anti-obscenity.

The House budget also called for \$100 million in state funds for school construction while the Senate bill called for \$54.5 million.

Budget leaders estimated that about 80 per cent of the House and Senate differences were ironed out Monday night. The remaining major disputes center on how much should be spent on specific programs.

In addition to the higher House figure on education, the Senate is also \$37 million above the House in health and rehabilitative services and \$69 million above in interstate highway funds.

Both versions of the budget call for \$3.9 billion in overall state spending — made up of \$2.3 billion in general revenues and \$1.6 billion in federal aid, gasoline taxes and trust funds.

The conference committee also agreed Monday night to delete the proposed \$5.2 million acquisition of land in the Kissimmee River flood plain for possible reforestation purposes. However, \$650,000 was left in the budget for planning the project.

An earlier recommendation by a subcommittee to abolish the cabinet aircraft pool was not voted on by the full committee and was left for a later decision.

Apparently the subcommittee reversed its position and wanted to leave the matter pending," said Harris. "Why? I don't know."

Cabinet members reportedly lobbied heavily among subcommittee members to try to prevent abolition of the four-plane pool.

Budget calculations were thrown off by the passage by the legislature of a \$5 million corporate tax break for banks.

The bill, which had earlier passed the House, was sent to Gov. Reubin Askew for signing into law.

FLORIDA'S TRAFFIC FATALITY TOLL surpasses the 29 deaths predicted by the highway patrol for the Memorial Day holiday weekend.

THE HOUSE approves a bill to allow judges to send drug offenders to treatment centers instead of prison.

GOV. REUBIN ASKEW'S BILL to add protection to wetlands is caught in the legislative adjournment squeeze and dies in committee.

FLORIDA'S CITIES AND COUNTIES would receive \$255 million to fill chukholes or build sewer systems next year under a House-approved revenue sharing plan.

IN ONE OF THE FURTEST OF partisanship in the 1973 Legislature, House Republican Leader Jim Tillman accuses speaker Terrell Sessums of trying to put up a smokescreen on Democratic extravagance.

THE SENATE debates a proposal to change Florida's aid-to-education program while a House-Senate conference committee on the budget considers how to pay for it.

And the start of a special committee meeting Monday was delayed nearly two hours by debate on a tax assessment measure.

Most committees stopped meeting last week in preparation for adjournment this Friday.

Rudloe, president of a Wakulla County company gathering marine specimens for scientists, opened his testimony by apologizing for his statements to newsmen that Childers was trying to kill the bill by delay.

The bill would allow the governor and cabinet to designate wetlands as areas of critical state concern and immediately impose restrictions on types of development in them.

Two earlier meetings by the Natural Resources Committee on the bill were postponed because Senate sessions ran into the time allotted for them.

Removal of booze 'Agent' Prompts Askew Probe

TALLAHASSEE, Fla. (AP) — Gov. Reubin Askew's office is investigating a decision by Beverage Division Director Winston Wynne to withdraw a state agent from a federal probe into the activities of a Tampa office on mandatory two weeks leave, the Times said.

Ass't. U.S. Atty. William James complained the action hampered the investigation of Shenley Associated Brands Inc. and some Florida liquor wholesalers. He issued subpoenas for Wynne, Business Regulation Board Chairman Richard Paillet and 11 other officials to appear before a grand jury.

The inquiry was revealed by the St. Petersburg Times in a story by reporter Virginia Ellis.

Edgar Dunn, Askew's legal counsel, told the Times that the governor directed him to "look into all aspects of the management of the division, particularly as it relates to this federal investigation."

Wynne withdrew agent James Kelly from the inquiry and three top executives in the Tampa office on mandatory two weeks leave

# ASK DICK KLEINER

## Movie 'Morality' Means Money

DEAR DICK: You wrote recently about objectionable movies, and I agree with you. When are they going to realize that it is mostly the teen-agers that go to see immoral pictures that are now shown and they are partly responsible for such trash? I hope by the time my children are old enough to go to the movies by themselves they will have cleaned them up some. Do you think so?—ARNOY CLARK, Hayward, Calif.

DEAR MR. CLARK: Maybe they will. Maybe not. Maybe in a few years there will be things you consider objectionable playing on TV. The thing you have to remember is that people in the entertainment field are businessmen. They think in terms of profits and loss, not moral and immoral. To them, morals are something you paint on walls. They couldn't care less about all that. What brings in the dollars at the box office is moral, what doesn't is immoral. It's that simple. You want clean movies, don't patronize the dirty ones.

DEAR DICK: When I watched this past Academy Award show I was shocked by what some of the girls wore. They have no taste, or bad taste. Remember that stupid outfit that Diana Ross wore? Doesn't anybody supervise the dresses that wear at the Academy Awards?—MS. J. C. SANFILIPPO, Detroit.

DEAR MS. SANFILIPPO: Do I remember? I was there, and I couldn't believe it. Diane looked like a penguin with a natural. For many years, Edith Head supervised the costumes on Oscar night, but she was not. She used to have the right to veto any gown she felt was in bad taste, and she even went so far as to make sure there was a balance of color—there couldn't be a string of girls all wearing white, for example. For some reason, lately, they haven't used her services, and they haven't exercised any control over what the girls wear. This year's costume chaos was the result.

DEAR DICK: What effect will this writer's strike have on next fall's TV schedule?—WAYNE ROSS, Satellite Beach, Fla.

DEAR MR. ROSS: If the strike should go on into the summer, the effect will be rough. A few of the old shows have a stockpile of scripts—Marcus Welby, for example, has six—and they'll film those. A few of the independent producers have settled with the Writers' Guild, so some shows (Cannon, Mary Tyler Moore, a few others) are in business. But most of them won't have any scripts, and hence, no shows. It probably will be settled, however, before that happens. Indications now are that a settlement will be reached.

DEAR DICK: I keep hearing rumors that Frank Sinatra will come out of retirement. What's the real story?—MARK PARK, Garland, Tex.

DEAR MRS. PARK: It looks like Frank's retirement didn't take. He recently signed to do a TV special and I hear he's looking for some songs to record. He quit in the spring of '71, so he's been out of action about two years. I understand the pressures for him to come back were just so strong he couldn't resist any more. Besides, how much fun can there be for him in insulting Washington newspaper women?—MRS. J. C. SANFILIPPO, Detroit.

# Tallahassee Tally

**By THE ASSOCIATED PRESS**  
Monday, May 28, 1973  
The Governor

**Signed into law:**  
Most inspections — Provides for state Agriculture Department inspection of custom meat processing facilities. HB 1304, Agriculture Committee.

**Transportation fund —** Changes name of state Road Trust Fund to state Transportation Trust Fund. HB 1310, Highway.

**Transportation districts —** Changes names of 13 road districts to transportation districts. HB 1311, Highway.

**Transportation code —** Changes name of state highway code to transportation code. HB 1312, Highway.

**Misleading advertising —** Forbids advertising a special price unless enough merchandise is on hand to supply a reasonable demand or specify "limited quantity." SB 84, McClain.

**Salvager conservation —** Forbids use of poisons or drugs to capture marine species. SB 442, Natural Resources Committee.

**Securities sales —** Requires registration of salesmen who sell securities in the state from out-of-state offices and establishes other regulations on securities sales. SB 563, Trask.

**Pesticides —** Gives Agriculture Department power to set rules on handling of pesticides and amounts that will damage an environment. SB 555, Agriculture Committee.

**Limited partnership —** Requires Department of State to publish list of limited partnerships cancelled because of failure to renew certificates. SB 554, Brandley.

**Narcotic prescriptions —** Repeals a ban on refilling of narcotic prescriptions. SB 558, Children.

**Bank —** Increases fee for application to organize a new bank from \$1,000 to \$2,000. SB 562, Brandley.

**Guardianship —** Allows a guardian to sell property of an incompetent if the incompetent's spouse agrees. SB 286, McClain.

**Court orders —** Requires court orders in suits against the Revenue Department to be served on the director. HB 1316, Harris.

**Taxation —** Brings Board of Tax Adjustments into suits against a county tax assessor over his assessments. HB 1320, Harris.

**Sentence —** Credits time served in jail against any sentence imposed on a person convicted of crime. HB 593, Martin.

**Trial jury —** Gives parties in a civil suit right to question prospective jurors orally. HB 1023, Forbes.

**The House**

**Bills passed:**  
Revenue sharing — Provides \$15 million to cities and extends diagnostic limit in hospital from 24 to 48 hours. SB 132, Health and Rehabilitative Services Committee. Back to Senate with amendments.

**Citrus —** Imposes a penny-per-box tax on citrus to be used toward research for development of mechanical harvesters. HB 646, Agriculture and Citrus Committee. To Senate.

**Electronic voting —** Allows counties to use electronic as well as mechanical voting machines. HB 607, Hector and Harris. To Governor.

**Public broadcasting —** Creates statewide public broadcasting system to be administered by State Education Department. HB 1706, Birchfield. To Senate.

**Handicapped —** Provides for door-to-door, round-trip transportation of physically handicapped students between school and home. HB 414, Carlucci. To Senate.

**The Senate**

**Bills passed:**  
Fair assessment — Gives the state more control over practices of local tax assessors. HB 1331, Finance and Taxation Committee. Back to House.

**Branch courthouses —** Allows counties to establish branch courthouses in cities other than the county seat. SB 42, Zink. To House.

**National guard —** Removes exemption from jury duty to honorary members of the National Guard. HB 215, Fish. To Governor.

**Whisk —** Prohibits possession of permit fish under 20 inches long. SB 72, Pettigrew. To House.

**Economic aid —** Protests the proposed economic aid to North Vietnam. SM 528, Johnston. To Congress and President Nixon as a resolution.

# 'Katy, Bar The Door'

# Astronauts Skip Sickness

**By RICHARD S. LITUS**  
SPACE CENTER, Houston (AP) — During three days of weightlessness in their orbiting space station, the Skylab astronauts have been free of a problem that plagued some earlier missions—motion sickness.

"After we found out we weren't gonna get sick, it was 'Katy, bar the door,'" said

Capt. Charles "Pete" Conrad Jr. He said he and his two crewmates were "ricocheting off the walls" Monday as they flew around the lab.

At the space center here, flight surgeon Dr. Willard R. Hawkins said he was somewhat surprised by how fast the crew had adapted to zero gravity.

The astronauts spent an active day Monday, setting up

and beginning their biomedical experiments.

Their first tasks were calibrating instruments designed to measure the effects of weightlessness on their physical conditioning.

In one experiment, astronaut Paul J. Weitz pedaled an exercise bicycle as electronic sensors monitored his heart-beat, blood pressure, breathing

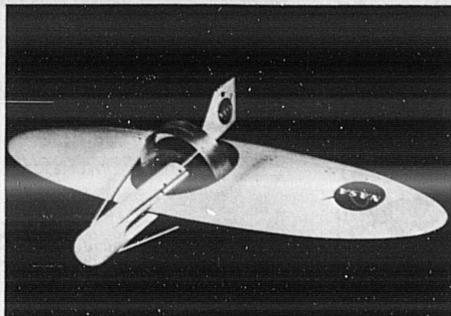

rate and other vital functions.

Kerwin reported that high temperatures in the space lab—still in the 90s—made it risky for Weitz to exert himself as much as the test called for.

Another deconditioning problem previous space explorers have had is that their circulatory systems are unable to adjust immediately to gravity after pumping lazily in zero gravity.

As a result, some returning astronauts have been dizzy and weak because of blood pooled in their legs and feet.

To check on this blood vessel deconditioning during the 28-day mission, the crew periodically will insert their legs and lower body into a barrel-shaped negative pressure device.

IT'S A WIND TUNNEL MODEL of an advanced technology Remotely Piloted Vehicle being designed for NASA's Ames Research Center, Mountain View, Calif. Such an all-wing RPV has wide potential for civil and military uses. The final craft will have a 90 hp engine, 22-foot wingspan, and will cruise at about 130 knots. Weight will be about 500 pounds.

# \$100,000 Facelift For Nixon Estate

**By GAYLORD SHAW**  
WASHINGTON (AP) — The White House says more than \$100,000 in improvements made at President Nixon's San Clemente, Calif., estate during the past four years were requested by the Secret Service "for the protection of the President."

The projects included a new electric heating system for the President's Spanish-style mansion, a \$3,360-storage shed, more than \$50,000 worth of brick or redwood fences and a \$13,000 bullet-proof windshield alongside the presidential swimming pool.

Building permits were issued by the city of San Clemente for about \$70,000 worth of government-financed improvements. The rest apparently was done without building permits.

The federally financed work was in addition to the \$123,514 that the White House said last week the Nixons had spent themselves for improvements on their home and 3.9-acre homestead.

In a statement Friday, disclosing that Nixon had sold the bulk of his estate to one of his wealthy friends, New York industrialist Robert M. Appleman, the White House would not provide a breakdown on the \$123,514 figure.

The transaction took place in December 1970—18 months after Nixon had purchased the ocean-side property with \$455,000 loaned him by Appleman.

The loan was canceled in the subsequent transaction that left Nixon with a net investment of \$274,514 for the house and 5.9 acres, and Appleman with an investment of \$1.2 million for the remaining 23 acres.

The entire tract, including the

portion now owned by Appleman, remains under Secret Service guard. It is immediately adjacent to a Coast Guard station, which serves as the site of the President's office and other buildings constituting the Western White House.

After the Associated Press reported Monday that the federal government had spent more than \$100,000 for improvements on Nixon's estate, a White House spokesman issued a statement saying "all the work done at the Western White House as listed in The Associated Press was requested by the Secret Service for protection of the President."

"If The Associated Press has recommendations to make to the Secret Service as to how the President and his family should be protected, The Associated Press should outline those suggestions at the same time it carries a story which implies the President has improved his property at the expense of the government," said the statement given by Deputy White House Press Secretary Gerald L. Warren.

A Secret Service spokesman also issued a statement saying, "We recommended all of the items for the compound."

Most of the government-financed projects were undertaken as part of "operation Sunrise," a crash program launched by the government soon after Nixon bought the property in mid-1969.

And he will tell Nixon that Western Europe will find difficult to accept new rules for world trade in the Nixon-round talks next fall without an assurance that the permanent crisis in the world monetary system can be resolved in the not-too-distant future.

That depends largely on the health of the U.S. dollar, French officials say.

# Skylab 3 Setting Up Sun Tests

**By HOWARD BENEDICT**  
AP Aerospace Writer  
SPACE CENTER, Houston (AP) — The Skylab astronauts today point a battery of telescopes at the sun and hope to give scientists their best look yet at how this sphere of gases controls our solar system.

Physicists also hope the experiment will help unlock the secret of controlled thermonuclear fusion, the source of the sun's energy. This might aid in the search for an unlimited, pollution-free power source on earth.

Ground controllers completed an automatic checkout of the \$107-million array of six telescopes Monday, and Charles Conrad Jr., Dr. Joseph P. Kerwin and Paul J. Weitz plan to put it in operation today, the fifth day of the scheduled 28-day orbital flight.

Once the system is activated, Kerwin will be the first to sit at the console, which Conrad calls so complex that it's like playing three 88-key piano boards at one time."

The astronauts on Monday completed setting up house-keeping in the laboratory, which is the size of a three-bedroom home, and began their first medical experiments.

A makeshift sunshade erected Saturday reduced temperatures to near 80 degrees, far below the 125 degrees recorded inside the cabin after a heat shield was ripped away during the launch of Skylab on May 14.

Flight controller Neil Hutchinson predicted the temperature would level out near 70 degrees within a day or two and

make the workshop fully livable.

During a brief news conference televised to mission control Monday, Conrad replied, "You betcha," when asked if he felt they could complete the full four-week mission.

If the temperatures keep going down, it's gonna get real pleasant in here. It's not bad now."

Kerwin, the first physician to fly in space, conducted three major medical experiments Monday. He drew blood from all three crewmen and then monitored Weitz on two devices.

**Barefoot Challenge**

Those barefoot magicians of the water ski set, the Cypress Gardens crew, are slated for an appearance on the Chuck Connors hosted Thrillseekers show tonight on ABC.

We have the privilege of the friendship of one of those barefoot experts, one Dave Deshimer, who during his Cypress Gardens career carried over four, Miss America (1971) on his shoulders more than one performance.

Having tried (and failed) at becoming successful with the regular wooden skis we have an idea of how tough it must be to master the art of water skiing without the benefit of skis.

Should you get the chance, take in this water extravaganza. It will surely be worth your while. If you miss it there's always the chance to take in a show in person at the Gardens.

**Real SHS Game Action**

Seminole High School officials are planning the "real thing" this Friday night when the 1973 edition of the Fighting Seminoles take on the 1972 seniors in the annual Spring football game at the Sanford Stadium. Game time is 7:30 p.m.

Coach Claude Woodruff will present full lineups with regular style action including game officials, kickoffs, punts and the whole bit.

There will be one price for the game, all fans being admitted for \$1.

**By MIKE HARRIS**  
Associated Press Sports Writer  
INDIANAPOLIS (AP) — The 57th running of the Indianapolis 500-mile auto race was rescheduled for May 30 because of a fire, wrenching crash and an ensuing torrential downpour still hanging over the ancient Speedway.

The crash came on the main straightaway only seconds after the lead cars of the 33-car field had started the rain-delayed race. It stunned the immense crowd of more than 300,000 persons who had waited for four hours.

The race was rescheduled for 10 a.m., EDT. The National

Weather Service predicted a 30 per cent chance of showers.

One driver, David "Salt" Walther, 25, of Dayton, Ohio, was hospitalized by injuries sustained in the accident, as were nine spectators. Walther was listed in critical condition with burns on 40 per cent of his body, a broken left wrist and a possible brain injury.

Dr. Thomas Hanna, head of the Speedway medical staff and in charge of the infield hospital, said most of the injured spectators suffered burns.

Drivers Mike Hiss and John Martin received minor injuries and were expected to be in the field today if their cars could be repaired in time.

Crews of the cars damaged in the wreck—which involved nine vehicles—and Speedway repair crews worked throughout the night to get both the cars and track ready for the race.

Walther's car rammed into the wall, turned upside down and exploded into flames. The crash sent a shower of debris that dented several other cars and flew into the front rows of the crowd only about 20 feet from the track.

The crash sheared off two steel poles supporting a cable and wire mesh fence above the wall, but the cables kept the cars and bigger pieces of wreckage from going into the grandstand.

Only Walther's McLaren was ruled out of the race.

There were four showers, the final one only 20 minutes after the crash.

The front row pole-sitter Johnny Rutherford and former champions Bobby Unser and Mark Donohue were not involved in the accident, nor were three other former champions, three-time winner A.J. Foyt, Mario Andretti and Al Unser.

As See It!

**Real Injustice**

While we are not against picking MVP awards in sports we do feel this can create a situation that can make for a great deal of dissatisfaction among the competitors.

And this is particularly true when everyone concerned knows that an injustice has been done.

We speak of the recent Lyman High School Athletic All-Sports banquet. In particular the MVP selections for the girls' tennis team. We do not intend any slap against the talent of the girl named but she was in fact NOT the number one girl on the team.

That honor belonged, and rightfully so, to Deb VanEspool who played in the number one spot all season long. She was the winningest performer on the Lyman girls team which won seven and lost three during the Metro Conference campaign.

Wallick, who is heading for the University of Miami in Miami, Florida, this fall, was named the winner of the overall athletic award given to the athlete who excels in more than one sport and shows both ability and leadership in those undertakings.

The 6-2, 195 pound senior was given the award as the most valuable offensive lineman by his football coach Dick Copeland and later was cited for the overall presentation. During this past year Wallick was named to The Sanford Herald's All-County football team and was The Herald's MVP of that team. He was also a member of the All-Metro team as well as a first team All-State selection. He will be playing in the annual North-South grid game in Gainesville later this season.

Wallick was given a full four year scholarship by the University of Miami.

Another trophy winner was freshman Bob Riazzi who was awarded the Lyman Hooster Club's Scholastic Award.

The tennis MVP's were Clark on the girls team and Alan Copeland on the boys team. Swimming MVP's were Rick Hartman on the boys team and Carol Callaway on the girls. The most improved swimmer was Bob Brinker, the most valuable golfer at Lyman was a brilliant sophomore, Gene Jones. Coach Bill Arnsperger, head of the Miami Dolphins famed "No Name" defense was the guest speaker at the Lyman fete.

# Wallick Tagged Lyman's Best

**By HERKY CUSH**  
Herald Sports Editor

In a year during which there were many outstanding team efforts as well as tremendous individual performances Greg Wallick stood out above the rest and was cited as such Saturday night at the Lyman High School All-Sports Banquet.

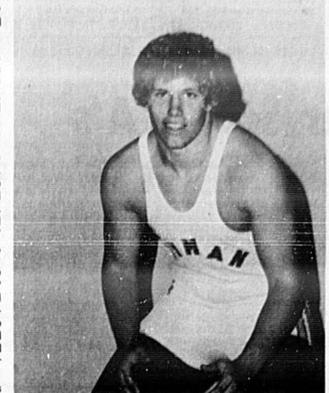

Wallick, who is heading for the University of Miami in Miami, Florida, this fall, was named the winner of the overall athletic award given to the athlete who excels in more than one sport and shows both ability and leadership in those undertakings.

The 6-2, 195 pound senior was given the award as the most valuable offensive lineman by his football coach Dick Copeland and later was cited for the overall presentation. During this past year Wallick was named to The Sanford Herald's All-County football team and was The Herald's MVP of that team. He was also a member of the All-Metro team as well as a first team All-State selection. He will be playing in the annual North-South grid game in Gainesville later this season.

Wallick was given a full four year scholarship by the University of Miami.

Another trophy winner was freshman Bob Riazzi who was awarded the Lyman Hooster Club's Scholastic Award.

The tennis MVP's were Clark on the girls team and Alan Copeland on the boys team. Swimming MVP's were Rick Hartman on the boys team and Carol Callaway on the girls. The most improved swimmer was Bob Brinker, the most valuable golfer at Lyman was a brilliant sophomore, Gene Jones. Coach Bill Arnsperger, head of the Miami Dolphins famed "No Name" defense was the guest speaker at the Lyman fete.

REG WALLICK Lyman's top athlete

**Wallick...Lyman's Best**

Miami University student Greg Wallick was named Lyman High School's top athlete at that school's annual All-Sports banquet Saturday night at Lyman High.

Winning this award this past year had to bring a great deal of satisfaction to Wallick who had much opposition from several standout performers in various sports.

Wallick was also named the school's most valuable offensive lineman.

Among the tremendous performers Wallick had to beat out were Glenn Hill, who like Wallick was both a football and wrestling sensation, Bob Costantine, baseball and football star, Mike White, another football and wrestling star.

Beating out that kind of competition deserves special attention and Wallick brought that to Lyman.

**Details On Torchy's Clinic**

Here's more on that basketball clinic being held by Florida Tech basketball coach, Gene "Torchy" Clark.

The clinic will run two sessions, four days make up each session. The first session will be held from June 12-15 and the second June 19-22.

Boys ages nine to 15 are eligible to sign up with sessions being held nightly from 7-9:30 p.m. Cost of a session is \$18.

While this is the first clinic Clark has held down here in Florida it's the 8th such effort of the FTU coach who enjoyed a great deal of success with the projects he's held in Wisconsin.

Clark, whose high school record is 17-14 and college record 69-25 will conduct the clinic at the new facilities at St. Margaret Mary Gym in Winter Park.

# Wilbur Wood Magnificent In Two Wins

**By KEN RAPPOPORT**  
Associated Press Sports Writer  
WILBUR WOOD pitched six hits Monday night. In two games, that is, not one.

"Wilbur Wonderful" added a pair of victories to his imposing record with his latest work of art, 6-3 and 4-0 decisions over the befuddled Cleveland Indians.

The White Sox' Left Arm went five innings in the first game, continuation of a 15-inning suspended affair from Saturday night, and gave up two hits and one unearned run. He fired a four-hitter in the regulation game to bring his record to 13-3, the best by far in the majors.

Incidentally, his 13 victories are all the White Sox' total.

In the other American League games, the Minnesota Angels bested the Milwaukee Brewers 7-4; the Detroit Tigers nipped the Oakland A's 4-3 and the Kansas City Royals turned back the Boston Red Sox 5-4.

Harrison Killebrew's two-run triple highlighted Minnesota's game-breaking third inning.

Pinch-hitters Tom McCraw and Winton Illenas came off the bench to drive in runs in the seventh inning, rallying California over Milwaukee.

Norm Cash's two-run homer helped Detroit to a 4-0 lead and the Tigers held on to beat Oakland for Joe Coleman's ninth victory. Coleman hadn't given up a hit in the nationally televised game until a two-out double by Sal Bando in the fourth.

Cookie Rojas' run-scoring single capped a three-run rally in the ninth inning to lead Kansas City over Boston. Trailing 4-2 going into the last inning, the Royals tied the game on a two-run single by Kurt Bevacqua and then won it on Rojas' hit with the bases loaded.

# Hurricanes' Series Bid Test Today

STARBUCKVILLE, Miss. (AP)—Miami faces Georgia Southern today in the final game of the NCAA West 3 Baseball Tournament for the right to play in the College World Series in Omaha, Neb., June 8.

The Hurricanes advanced to the finals by smashing Appalachian State 13-6 Monday, then edging Southeastern Conference champion Vanderbilt 6-5 Monday night.

Georgia Southern had been idle since topping Vanderbilt, 5-2, on Saturday. The team shut out Miami 1-0 in a second round game Friday.

Miami took a 3-1 lead over Vanderbilt in the second inning and clinched the victory when its first three batters in the fifth inning smashed solo home runs.

The homers were by Orlando Gonzalez, Wayne Krenchicki and Benny Castillo.

Rick Patrylo gave up 11 hits to Vanderbilt but Rick Floyd replaced him in the fifth and gave up three more hits. Jeff Peoples went the distance for Vanderbilt on 10 hits.

# Seminole's Spring Game

Sanford High School's spring football game will be played this Friday night at the Sanford Stadium starting at 7:30 p.m.

The game will be played with regular game officials and officials.

The 1973 seniors will be matched against the 1972 team. There will be a charge of \$1 per person.

# Chris Evert Lone Hope

PARIS (AP) — Chris Evert slugged her way past Renata Tomanova of Czechoslovakia 6-3 Tuesday and reached the women's quarter-finals in the French Open Tennis Championships.

The 18-year-old Wightman Cup star from Fort Lauderdale, Fla., is the only American left in the women's event.

# Bettenhausen Blasts Wrecks; Says Roll Cages Laughed At

AP Special Correspondent  
INDIANAPOLIS (AP)—"How much longer are we going to let this go on?" fumed Gary Bettenhausen, probing the wreckage of David "Salt" Walther's 77 McLaren-Offy in the Speedway's Gasoline Alley.

"We'll keep on having serious condition from burns on 40 per cent of his body and a broken left wrist.

An hour after the flaming crash, after most of the 350,000 spectators had begun streaming out of the massive complex to await Tuesday's second try at the race, Walther's garage on the north end of the alley was as grim as a wake.

"Look how many ladders we've had from cars that land upside down. I'm one of the few guys to walk away from such a wreck. But the guys are just too proud or something to go for the cages."

The 25-year-old Walther was the chief casualty of a nine-car accident Monday on the first lap of the rain-delayed and ultimately postponed-Indianapolis 500.

His car hit the outside wall, flipped over, spun and burst into flames before the startled eyes of spectators in the main grandstand.

The driver was pulled from the burning machine and flown by helicopter to nearby Methodist Hospital. He was reported in stable but serious condition from burns on 40 per cent of his body and a broken left wrist.

MRS. JUNE MILLER STANDING WITH FRIENDS Ball game at Lakeview Nursing Center

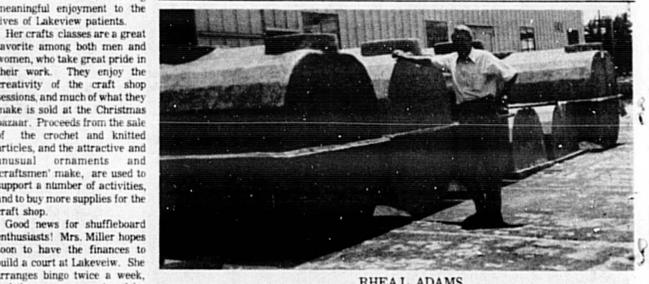

## Good Times With Friendly Director Fun Activities At Lakeview

The lady responsible for all the good times at Lakeview Nursing Center is Mrs. June Miller, the friendly and enthusiastic activities director. Movies, parties, bingo, crafts lessons, and even ball games on the patio, are among the activities which patients at Lakeview look forward to.

Mrs. Miller has been at the nursing center since it opened three years ago, and her good cheer and sympathy contribute greatly to the pleasant atmosphere of Lakeview. Recently she attended a three-month continuing education workshop organized by the Florida Nursing Home Association, and has returned with many new plans for activities which will bring meaningful enjoyment to the lives of Lakeview patients.

Her crafts classes are a great favorite among both men and women, who take great pride in their work. They enjoy the creativity of the craft shop sessions, and much of what they make is sold at the Christmas bazaar. Proceeds from the sale of the crocheted and knitted articles, and the attractive and unusual ornaments and "craftsmen" make, are used to support a number of activities, and to buy more supplies for the craft shop.

Good news for shuffleboard enthusiasts! Mrs. Miller hopes soon to have the finances to build a court at Lakeview. She arranges bingo twice a week, and the games are enjoyed by

**322-5752 ANIMAL HAVEN BOARDING KENNELS**

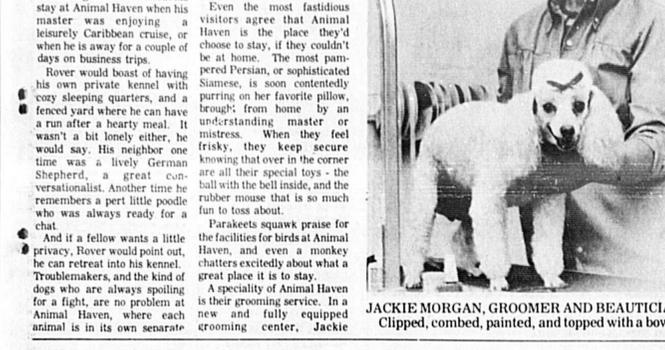

## It's A (Great) Dog's Life Good Care At Haven

Leaving your pet at the kennels while you go away on vacation feels rather like sending a child off to boarding school or summer for the first time. Only if you know your animal will be well cared for can you enjoy your vacation without feeling worried and miserable about leaving Fido or Felix behind.

Owners of pets in the Sanford area are fortunate in having Animal Haven Boarding Kennels close at hand, just off SR 46. If your Rex or Rover could talk, he would have most reassuring tales to tell about his stay at Animal Haven when his master was enjoying a leisurely Caribbean cruise, or when he is away for a couple of days on business trips.

Rover would boast of having his own private kennel with cozy sleeping quarters, and a fenced yard where he can have a run after a hearty meal. It wasn't a bit lonely either, he would say. His neighbor one time was a lively German Shepherd, a great conversationalist. Another time he remembers a pert little poodle who was always ready for a chat.

And if a fellow wants a little privacy, Rover would point out, he can retreat into his kennel. Troublemakers, and the kind of dogs who are always spoiling for a fight, are no problem at Animal Haven, where each animal is in its own separate

## Taco Has Down-To-Earth Solution New Fiberglass Tanks

Necessity has mothered a great number of inventions, but not many as practical and down-to-earth as the invention of Rheal A. Adams, who, working closely with the State Office of Pollution Control, has designed and developed a fiberglass septic tank that meets all state requirements.

Why has a fiberglass tank become a necessity, you may ask? Because it is stronger, lighter, and easier to install and clean than the old concrete type. In a word, it is efficient. The pace of life today makes efficiency a necessity.

The tanks are being manufactured by the Taco Corporation in their plant located at the Sanford airport. Carleton P. Taylor is president of the corporation, and Adams is vice-president and treasurer. A new sales office has recently opened on SR 46, Sanford, under the management of Don Northington.

Homebuilders, who are frustrated by delays and inefficiencies in other aspects of building, will be delighted to know that one phone call to Taco Corporation (323-3850) will take care of immediate delivery and installation of the necessary septic tank.

Taco will arrange percolation tests, assist in obtaining local septic tank permit, and install and cover up the new fiberglass tank without delay.

In fact, it is possible to install six fiberglass tanks in one day. With the old concrete type, to install three would mean really hard work.

Perhaps the best news of all is that the cost of a fiberglass septic tank is generally lower than the cost of a concrete one. If you plan to buy just the fiberglass tank from Taco, you need have no worries about transport or installation problems. A tank can be hauled to the job site on a pickup truck (a 1,000 gallon tank only weighs approximately 200 lbs.), and two men can comfortably set it in the hole on any rough terrain. No boom truck is needed, and if at a later date it becomes necessary, the fiberglass tank can easily be moved to a different location. Four sizes are

**HYPNOSIS -- FACT OR FICTION?**

THE MEDICAL PROFESSION DOES NOT BELIEVE IN, OR RECOMMEND THE USE OF HYPNOSIS

FICTION — The American Medical Ass'n., "officially" recognized hypnosis in 1938, as a useful tool of medicine, particularly in the field of psychosomatic ill, (having no organic origin). Such ill may manifest themselves in the form of Migraines, Prolonged nervous tension, (neurasthenia), Sexual problems, (lack of libido), Impotence, frigidity, lack of personal motivation, specific calm or stomach. Overweight, excessive smoking, Poor concentration, Retention, or recall, and so on. In addition, hypnosis, in many cases, can control, "relieve, or eliminate such problems.

# Spying Hoover Axed Later Used: Sources

WASHINGTON (AP)—A secret White House plan to spy on domestic radicals, rejected once at the insistence of former FBI Director J. Edgar Hoover, later was put into practice, say sources close to the Watergate investigation.

Two sources, one of whom said he had seen the plan, described it as providing for an undercover team made up of representatives of various federal agencies who had access to "virtually all agencies of government."

They said the secret agents intercepted mail, tapped returns and

planted informers.

The top-secret text of the plan was locked in a safe-deposit box by ousted White House Counsel John W. Dean III and later turned over to a federal judge.

There were additional Watergate developments Tuesday concerning the CIA's link to the case and on the subject of possible testimony by President Nixon on Watergate.

Gen. Robert E. Cushman, former deputy CIA director, said he was "put upon" by Watergate conspirator E. Howard Hunt when he agreed to give

Hunt aid which was used subsequently in the burglary at the office of Daniel Ellsberg's psychiatrist.

At the White House, Press Secretary Ronald L. Ziegler said it would be "Constitutionally inappropriate" for the President to testify before the grand jury or Senate Watergate investigators.

Asked about the domestic-intelligence plan, Deputy Press Secretary Gerald Warren would not go beyond a lengthy statement in which Nixon last week discussed the Watergate scandal.

## Gunter Talks About Issues

By JANE CASSELLBERRY  
County Editor

Freshman Congressman Bill Gunter took time out of his hectic schedule today to express his opinions on several issues of current interest in an exclusive interview with The Sanford Herald.

In reference to court-martial charges filed Tuesday by Air Force Col. Theodore W. Guy against eight Army and Marine enlisted men for "misconduct while in a North Vietnamese prison camp," Gunter said we should look very carefully at what happened. "There was a lot of pressure on the POW's and torture was terrible. I would hope we would understand what some of them went through," he stated.

As to the Watergate scandal, Gunter said it is basically dominating the government, not only the White House administration, but Congress, too. "I would like to see the matter wind down as it is taking so much away from other activities. There are things that are still not out of that and bring it out further. The Senate committee will be working for some months to come," commented the young Democrat.

"Skepticism is evident and worry. No one wants to see the office of President damaged," Gunter continued. "The stock market indicates the peril of what happened. The issue is very clear, of the group who followed the call of the nation some lost lives, were wounded or gave their lives, and now you can not turn around and give blanket approval and be forgiven," he commented.

"Separate commission should be set up to give each

## Generators Near Point Of Breaking

MIAMI (AP)—Unseasonably warm, humid weather coupled with a shortage of working generators is straining Florida's power supply to the breaking point, officials say.

Some sections of the state, especially the Miami area, are being warned of possible brownouts or blackouts.

A series of short power failures and brownouts were reported in isolated areas Monday and Tuesday. Citizens and industry across the state were urged to cut down the use of electricity.

Officials said the weather is causing an increased demand for power to run air conditioners. The increased demand is difficult to meet because some generators are down for repairs, they say.

Florida Power & Light Co. in Miami, the state's largest utility, reported barely scraping through peak demand hours Tuesday afternoon by borrowing power from Jacksonville, where rains cooled temperatures and reduced local demand.

FP&L officials had asked Monday that residents and businesses in their supply area — most of heavily populated South Florida — cut back on power usage as much as possible. They said an overload could cause the entire FP&L system to go down.

"What everybody is afraid of is that if Miami goes down, other big chunks of the state will be blacked out," said T. Marty Ervin, executive director of the Florida Public Service Commission.

"Most of the companies involved will get through all right, but it means they can't supply (additional) power to Miami," he said.

Citizens were warned that the crisis could last at least another week unless the weather changed.

## Flying Golf Balls Land Man In Jail

By GARY TAYLOR  
Herald Staff Writer

All good golfers know you are supposed to yell "fore" while preparing to send the small, white, semi-guided missile on its way—especially if there are people in front of you.

While the custom is usually just a matter of courtesy, some area residents have been "hit" with problems caused by at least 354 cases of apparent failure to take the proper precautions before hitting a shot.

Longwood Driving Range owner Donald Briola was arrested Tuesday night on charges of malicious injury after a sheriff's office investigator responded to pleas for help from residents down-range from Briola's eager customers.

The arrest came after investigation by Detective Robert Kunkler, who said residents of four houses on Florida Avenue in Longwood complained about the golf balls hitting their houses, cars, and in some cases inflicting personal injury.

Kunkler said the driving range is located at the corner of Florida Avenue and U.S. 17-92 and that patrons hit balls over a fence into the homes located on the south side of Florida Avenue.

The 354 golf balls landed in the yards of two of the residents over period of approximately three months.

Kunkler said on one occasion he was in one of the yards for about a half hour and watched five balls land in that yard.

He said complaints came from all four houses and that they had complained to the owner of the golf range first and then to the Board of County Commissioners and zoning board before calling the Sheriff's Department.

## Commissioners 'Get' Their Day In Court

By CHRIS NELSON  
Herald Staff Writer

Seminole County commissioners will get their day in court, possibly Thursday—by the chance members are not jumping with joy at the chance.

The commission, specifically former chairman Greg Drummond, has been hauled into Judge Dominic Salfi's civil claims court by two developers claiming retroactive application of a zoning regulation against them in 1972.

The case caused some jovial embarrassment for current Chairman Sid Vihlen, Jr., as he was served with a subpoena to appear at the trial during Tuesday's regular commission meeting.

Vihlen, commenting, "it's a very important case," endured a few moments of his colleagues wit, then promised he will show up.

The case stems from a temporary halt in building permits ordered by the board while considering lowering permissible density in residential zoned property from 20 to 13 units per acre.

The plaintiffs, Lawrence J. Jackson and Arthur J. Nicholson, owned apartments on property zoned at the time for 20 units per acre, and are challenging the legality of the temporary permit halt.

"If I'm human... whatever else our space scientists may learn from their latest exploits, this one fact will have the interest of many (to say the least). . . . Some explorers should be able to live without sex for extended periods, says a researcher after a 15-week, all-male experiment. (Think I'll just sorta let that one settle on you without additional comment. O.K.?)

## County Schools Lacking Hydrants

By JEAN PATTESON  
Herald Staff Writer

No fire hydrants are available in 13 Seminole schools, according to a report made to the Board of County Commissioners, May 21. The report stated: "Paragraph 7.06 of the Seminole County Utility Regulations requires that for institutional protection there should be available 1,250 gallons per minute with a 20-foot per square inch residual in the lines.

"Regardless of pressures, an 8-inch to 12-inch main is required and unless a pumper is used, at least two hydrants are required—also two hydrants are needed to cover all parts of most school buildings since 400 to 500 feet is the maximum distance fire hoses should run," the lack of adequate fire hydrant protection has not created "any excitement" said Seminole school system's director of auxiliary services, Hugh Carlton. "All schools are protected by fire protection provided by the state," said Carlton. "It takes less than one and a half minutes to clear any school in the county," he continued. "All schools have fire drill four times a year and times are recorded. The routes are posted and the children trained to use them. It's organized and orderly," he said.

Carlton admitted that while the children are in no danger, the school buildings would probably burn down without fire hydrant protection.

He said it is not possible to have hydrants at all schools as in the less developed areas there is no adequate water supply, but as soon as an area develops the report on the

Bill Staley Will Join Herring

Seminole-Brevard State Atty. Abbott Herring Tuesday said Attorney Bill Staley will join his Sanford staff Monday as intake officer.

Staley replaces Edward J. Maloney, former Small Claims court judge, who has held the intake position since February. Herring said Maloney has resigned.

The intake officer deals initially with all complaints brought to the state attorney's office by citizens and law enforcement agencies and personnel.

Staley, a south Seminole resident, is presently intake officer in the Orlando office of Orange-Osceola State Atty. Bob Eagan. Before consolidation under Article Five of the functions of the Orange County State Attorney and county solicitor's offices Staley was on the staff of former Orange County Solicitor Ron Powell for several years.
