NEW SPRINGS

Heart is silent, seeking through still days

We have the meddled, too-well-dressed, well-washed

Slimy waters and familiar ways

Sound in fields, diviner's hazel-rod

Does not finger alert, no hope

Alertness—then—dips and shows

the sod.

Strut the spade in soil speaks in

new tone,

No 1918 wheels follow, foot

step's not 'ho'w,

Stare, waters called to the wood

side.

And betrays and leaps, and so

heart leaps.

So fresh water bubbles, bedewing

middle,

So, to heart's level, crystal song-

note crump.

Ruth Bethell.

Six hundred and seventy Dem-

ocrats in the little County of

Seminole, failed to pay their poll

taxes so that they would be eli-

gible in the coming election.

When that many people fail to

take enough interest in their gov-

ernment so quickly to vote, it

means either one of two things;

namely: either that a lot of fol-

low are pretty hard-up, or that if

we have a right government, it serves

them right.

Judge Sharon, Seminole Coun-

The Queen Mary

Racing across the Atlantic, the Queen Mary, British merchant marine, is expected to establish a new world's record for Atlantic crossings, but distinctly declared by Cunard White Star line officials to be on no record-breaking mission.

Manned by a crew of one thousand superior sailors, the Queen Mary has a passenger list numbering some 2,700.

The new superliner has a displacement tonnage of approximately 27,500, far greater than any other ship afloat, according to its owners, the Cunard White Star Line.

It was noted at launching that the Queen Mary weighed 37,000 tons, some 7,000 tons greater than any other ship at the same stage.

In another significant measurement the Queen Mary far exceeds all other ships. Along the waterline, with a total of 1,004 feet, she is the first vessel designed 1,000 feet.

Her over-all length is 1,018 feet. Her extreme beam is 118 feet. In her other dimensions also the Queen Mary shows her tremendous proportions.

Her height from keel to top of superstructure is 185 feet; from keel to top of forward funnel, 180 feet; from keel to masthead, 224 feet.

Some misunderstanding of methods of measuring the size of ships has been caused by the confusion in the public mind between the measurement made in terms of gross tons and that made in terms of displacement tons.

Officials of the line explain, "It may be remarked that the Queen Mary has a total of 80,773 gross tons. Displacement and gross tonnage are only two of five kinds of tonnage spoken of in connection with passenger ships.

Of these five kinds of marine tonnage, two are not a measurement of weight at all, but merely of enclosed spaces.

"Gross tonnage is of this latter kind, that is, not a measurement of weight at all despite the fact that the unit of measurement is called a 'ton.' Gross tonnage is the total enclosed space of a vessel, expressed in measurement tons of 100 cubic feet, including passenger spaces, engine room, bunker (fuel) spaces, crew quarters, storeroom spaces, cargo spaces, etc.

Since gross tonnage is a measurement of enclosed space, it is relatively easy to change the total of gross tons by enclosing or enclosing several thousand gross tons through the mere addition of one or more deck houses or the extension of already existing deck houses to take in a greater amount of previously unenclosed space.

"Displacement tonnage, on the other hand, is a measurement of actual weight. It may be defined as the equivalent of the weight of the water displaced by a vessel fully loaded and ready for sea.

Obviously, this type of tonnage is not so easily changed, especially in the modern express liners with a very small cargo capacity. For example, the Queen Mary's cargo capacity may reach a total of 1,000 tons, a total exceeded by any number of freighters less than one-eighth her size."

Thus the Queen Mary is the world's largest, based on her displacement tonnage of 77,500 tons and her waterline length of 1,004 feet.

SANFORD TWENTY YEARS AGO

Mr. E. D. Mahley and little daughter, Georgia, will leave the end of the week for a visit to Jacksonville, Lake City, and Gainesville. They expect to be gone about six weeks.

FLORIDA HIGHLIGHTS

THE OLD CALL MANSION AT TALLAHASSEE BUILT OVER A CENTURY AGO

Taj Mahal Copies Are To Adorn Bath In Mansion Of Rich American Heiress

DELHI, India, May 23.—(AP)—American wealth, drawn from the tobacco fortunes of the former Doris Duke and her husband, James H. Cromwell, has saved India's ancient art of marble-carving as exemplified in the beautiful Taj Mahal.

Copies of some of the carved windows, inlaid doors and panels of the famous temple at Agra have been completed and are on their way to the United States to adorn a bedroom and bath in the Cromwells' palatial home at Palm Beach, Florida.

They were ordered by the couple while visiting India on their honeymoon last year, thereby providing an impetus for the centuries-old industry which had almost died out in modern times.

Only a few descendants of the craftsmen who fashioned the Taj Mahal in Shah Jahan's time, still carried on a precarious living by making small inlaid souvenirs for visitors to the temple.

The marble panels, as ordered by Mrs. Cromwell, form a dado about two and a half feet high, with each panel a floral picture. Experts pronounce the workmanship a miracle of skill.

Semiprecious stones—jade, cornelian, agate, malachite, lapis lazuli and mother-of-pearl—are fitted into the petals of the flowers and the curves of the stems.

The natural veining of the stone has been utilized to stimulate the markings of flowers and leaves.

The stones were cut to the minutest fraction, for no cement or adhesive material of any kind could be used to hold them in position. The result is a transparency and brilliancy unrivaled, say experts, since the dynasty which produced so many marvels of architecture in India.

The panels will be installed in a marble bedroom and marble bathroom in the Cromwell home, with eight of the huge carved masterpieces going into the bedroom.

Traditional geometrical patterns of the Taj Mahal doors have been preserved, but with a novel effect produced by superimposing carved designs of flowers and other flowers on the background. Each door occupied the time of six men for three months.

Royal Coiffure Sets New Mode With Londoners

LONDON, May 23.—(AP)—The Duchess of Kent, by appearing at her first public function at King Edward's reign with her curls arranged in a different way, has set a new style in coiffure.

When the Duchess opened the exhibition of British-made all-wool stockings she had her hair arranged at the sides in two rows of curls, which curved upwards from the cheek, exposing the ears, and meeting four rows of curls at the back.

The style, planned especially to go with her new hat, a diminutive oval-shaped pill-box perched over the right eye, is finding wide favor.

Walters In Austria Have To Shave Heads

BUDAPEST, May 23.—(AP)—No longer will Hungarian restaurant patrons find a hair in their soup, unless it is their own.

The government has decreed that every waiter and cook must shave every hair off his head.

A storm of protests followed this measure of the health ministry, but in compensation it was ruled, unless any substitute with equal one approved for the previously required measure to "talk."

Traditions Are Shattered As Republicans Lay Plans For Hard-Driving Campaign

WASHINGTON, May 23.—(AP)—Prospects of a lively, hard-driving campaign are heralded by the plan of William E. Roy, Republican leader, to "soften" their presidential nominee immediately after the Cleveland convention.

Considering all of the circumstances, such a plan could only have had one result. It undoubtedly arose from a widespread conviction among Republican strategists that the party's best hope of winning lay in a vigorous, sustained attack, started as early as possible.

In politics, nothing is more deadly under anti-climax. Once formally under way, a campaign needs to be kept moving with increased momentum right up to election day.

The old tradition of a nomination ceremony avoided until August rested on a belief in both parties that any campaign which started too soon would be leaving candidates and voters weary of it before the finish.

The Democrats broke away from that tradition four years ago. Now the Republican chiefdoms are proposing that their party do the same, suggesting they hope to keep their heavy artillery going full blast from June to November.

Whatever the political wisdom of such a course, it certainly can be said that an immediate notification tends to simplify campaign procedure.

The old system involved a good many feints, and resulted in many anomalies. From June to August a nominee was left officially, although not actually, on the loose. He was the designated leader of his party, yet he had not been invested with leadership.

Everybody knew that such a candidate was going ahead planning his campaign, even though he was not supposed to know anything about his nomination. The situation developed in its own lore of wit and humor, dealing with the "surprise party" notification, and the sudden appearance of the established nominee, with a carefully-prepared speech in his pocket.

Nevertheless, there are those who for sentimental or other reasons still like the ceremonial aspects of the delayed notification. The wisdom of opening the campaign so soon, it probably will be for the nominee himself to make the final decision.

No one was surprised at the decision of the Democrats to hold their ceremony immediately after the convention at Philadelphia, nor can that development be regarded as mirroring the same situation of opening the campaign so soon. It probably will be for the nominee himself to make the final decision.

It means that England, which has managed to get along with Palestine well enough ever since Colonel Lawrence did his extremely efficient work there during the World War, is now being troubled with rebellion, not to mention Italy has concluded its conquest of neighboring Ethiopia. It would be so easy for Italian diplomats, more interested in the enjoyment of their empire than in the preservation of peace, to send a few emissaries among the Jews and Arabs, blaming England for all their troubles, and promising them health, wealth and happiness, if only they will revolt against the Jews, that one wonders if this is not actually being done.

Letters are being made in Jacksonville, Miami, Tampa and Orlando to get rid of slot machines, and, undoubtedly, when the next Legislature meets the law prohibiting them will be repealed. It would do little good to repeal the slot machine law if a law is passed that allows slot machines to be sold in the same way as any other machine. The only way to get rid of them is to pass a law that says they are illegal.

It is interesting to note that the Florida State Board of Health has just issued a warning to all restaurants and hotels to stop serving raw oysters. This is the first time since the outbreak of the Spanish flu that such a warning has been issued.

It is the opinion of some County health officers of government that the health of the people should be protected by the prohibition of the sale of raw oysters.

Some of the most interesting news items that have been reported from the State are those which relate to the proposed new highway from Jacksonville to Tallahassee. It is expected that the new highway will be completed within a few years.

Mrs. Thrasher Honors The Fortnightly Club

Honoring the members of the Fortnightly Club and a few other guests, Mrs. D. L. Thrasher entertained with a bridge luncheon Wednesday afternoon at her home in Rose Court. Spring flowers were used as decorations. Luncheon was served informally at the card tables by the hostess, assisted by Mrs. F. E. Roumillat. Duplicate bridge was then played until late in the afternoon when high score club prizes were awarded to Mrs. Samuel Paleston and Mrs. James G. Shanon. Mrs. Glenn Lingle and Mrs. L. F. Boyle received high score prizes among the other guests, embroidered guest towels.

Those present were: Mrs. Samuel Paleston, Mrs. James G. Shanon, Mrs. F. E. Roumillat, Mrs. H. B. Lewis, Mrs. J. E. Brouse, Mrs. Frank L. Miller, Mrs. E. A. Newman, Mrs. Wallace W. Wright, Mrs. L. F. Boyle, Mrs. Glenn Lingle, Mrs. R. R. Deas, Mrs. Martin Bram, and Mrs. Julius Dingfelder, a luncheon guest.

Personals

H. R. Ferran of Eustis spent Wednesday here with his sister, Mrs. D. L. Thrasher, Rose Court.

Mr. and Mrs. J. D. Woodruff, who are spending the summer at Coronado Beach, were here Wednesday for the day.

Dr. and Mrs. J. N. Tolar left today for Fork Union, Va., to attend graduation exercises at Fork Union Military Academy when their son, Ralph Tolar, will be graduated.

Mrs. W. B. Kirby and son, Jimmie, of Cookeville, Tenn., arrived Saturday to spend two weeks here visiting relatives. Mrs. Kirby was the former Miss Mildred Lee.

Wilson Picks Petteway For Big State Job

(Continued from page one)
that it is not always the candidate who protests his friendship the loudest who is the best friend of the people. One of Judge Petteway's opponents said in his speech the other day that the necessary employees in Tallahassee could pack their bag and baggage and prepare to leave when he was inaugurated governor. If I remember correctly, we heard a promise like that in 1932, and we know how well it was kept.

"I am satisfied that Judge Petteway has no entangling alliances which will embarrass him as governor. I believe that he will not make any promises that will interfere with a fair and impartial administration of the office. I know too that he is against those selfish interests in the state that would gladly advance the money for his campaign.

"Judge Petteway stands for honesty in government, and I want to say here that that is one of the sorest needs in the state. If we could only have common honesty in some departments of our state government again, most of our financial problems could be solved. He is against the two-job practice which has recently grown up. This is one of the most unhealthful tendencies in our government, and should be stamped out at the earliest possible time.

"The governor is a member of the Pardon Board, and a pardon cannot be granted without his consent. As a member of this board Judge Petteway, if he were governor, would make it a requirement for a pardon, in the absence of proof of innocence of the crime, that a certain portion of the sentence be served; and the recommendations of the trial judge and state attorney be obtained, and that the private party aggrieved by the crime offer no reasonable objections thereto. I am sure that everyone will agree that a pardon granted under these conditions would not be objectionable.

"Judge Petteway is in favor of and will urge the repeal of the Slot Machine License Law. This law, in my judgment, is one of the most iniquitous pieces of legislation that was ever enacted by a legislative body, and should be repealed immediately after the Legislature convenes in 1937. It is a sad commentary on the government of a state when it has been so conducted that it becomes necessary for it to obtain revenue from this source, and another source equally as bad, in order to perform its functions and keep its schools open.

"One of Judge Petteway's opponents said the other day that there would be plenty of revenue from liquor and slot machines to maintain the government and keep the schools open. Evidently, he would be satisfied to continue the present arrangement. Judge Petteway's early training was against this kind of business, and it is hard for a man to get away from the instructions of his youth and align himself with sentiments that were always opposed to his.

"All thinking people know that the State of Florida is practically in the hands of elements and businesses that are opposed to good government, and have only their own selfish ends to serve. This attitude in the government's office at Tallahassee, as well as that of the Legislature. Let's restore the state to the people who are not in favor of conducting it in that manner.

"Judge Petteway favors a reduction of taxes and economy in government. This is a plank common to the platforms of all of the candidates, but judging by his record, I am convinced that he can be depended upon to do everything in his power to reduce taxes and practice economy.

"He favors the preservation of homestead exemption, which has become a part of our constitutional law, and its extension so as to include all owners of homes in this state which they occupy.

"I believe that all thoughtful people have come to the conclusion that pensions for the needy aged are right and proper in order that pauperism and poor farms may become only unpleasant memories. Judge Petteway is sincerely in favor of this, and I know that he will do all in his power as governor to bring it about.

"He is a sincere friend of labor, as attested by his own training and private and official conduct.

"Judge Petteway is a strong advocate of an excellent school system and full terms and that education is properly a function of

Paul Muni As Louis Pasteur

The famous French scientist whose gift to mankind was a score of years added to the lifespan, lives and breathes again in the person of Paul Muni in the Cosmopolitan production "The Story of Louis Pasteur" which plays the Ritz Theater tonight, as a First National release.

Buddhist Priests In Tibet Reported Slain By Communist Troops

CHUNKING, Szechwan Province, China, May 28.—(AP)—Dispatches from the Tibetan border said today that 500 Buddhist priests were slain by communist troops invading Sikang Province. Vernacular newspapers said the Nona or "Living Buddha" of eastern Tibet had turned traitor to China, seized 5,000 rifles from the local militia and fled.

Dispatches said 100,000 loyal nationalist troops fought unsuccessfully against 50,000 communists.

Fishermen Drift For Week In Leaky Boat

KOBY WEST, May 28.—(AP)—Two Tampa commercial fishermen reached safety late yesterday with a tale of drifting for a week in a leaky sloop, only six inches out of the water.

In fact their 37-foot fishing smack, Providence, did go down as soon as they were taken aboard the British freighter Cymeline Tuesday morning, 255 miles from Egmont Key. The fishermen, Emilio Calera, 28, and Mario Hernandez, 36, were taken off the Monday-bound freighter yesterday by a Coast Guard boat and brought here.

For seven days their small sloop tossed helplessly upon the mountainous waves whipped by high winds, threatening to pound to pieces any moment. For the last two days they were without food, and for two days before that they had only bread and water.

Miami May Become Zeppelin Terminal

WASHINGTON, May 28.—An announcement from the Navy Department indicated Miami, Fla., may become an American terminal for the trans-Atlantic voyages of the giant German dirigible Hindenburg.

The announcement revealed the German Zeppelin Company plans to use airship landing facilities at Miami as well as those at Lakehurst, N. J.

Under a schedule of charges, made public in the announcement, the Zeppelin Company will pay between \$3,000 and \$5,000 for each time it uses the landing facilities at Lakehurst.

TO SURVEY COAST MANILA, May 28.—(AP)—The Philippines commonwealth aims to build up its own coast and geodetic survey. It plans to re-commission the SS. Pathfinder, former U. S. government boat, and train Filipinos in work now headed by Americans.

KILL RATS
STEARNS

How's Your Health?

SUMMER DOGS AND DON'TS.
As the call of the put-of-doors becomes more urgent, and people respond, the hazard of accident increases.
Perhaps the first counsel should be that of moderation. To take a 10-mile hike after a long period of inactivity, is to invite aches and pains. It is wiser to harden one's muscles and to limber one's joints by graduated doses of activity.
So, too, it is dangerous to sun oneself for more than a few minutes to begin with. Tanning should be attained by ex-

posed brief exposures, rather than by a series of sunburns which raise blisters and peel the skin.
Swimming, tennis and golf are good medicine when taken in homeopathic doses. This counsel is particularly valid for those over 40, and those overweight! Small hurts and injuries should not be neglected. A scratch, a small bruise, a fall, a sprain, may be "nothing at all" if properly attended, or may cause much trouble.
If the skin has been broken, first encourage free bleeding, then clean the wound with soap and water and apply an antiseptic solution, such as tincture of iodine. Of the two soap and water is more important, except in what are known as deep, penetrating or puncture wounds. When an antiseptic is used it should not be of such strength as to burn the tissues. Such added injury delays healing.
With deep, penetrating wounds, especially if dirt has been carried in, there is danger of tetanus (lockjaw). Such wounds should be promptly treated by a physician, who may find it desirable to administer tetanus, anti-toxin.
Most wounds fare better when left exposed to air. When that is not feasible, the wound and surrounding tissues after having been washed with soap and water should be covered with clean gauze.

CHINA TO CONVERT HEDS NANKING, May 23.—(AP)— Mental discipline as a cure for communism is the aim of a new reformatory in this city established to convert men and women who have been "seeing red." Instead of facing firing squads, 50 selected communists nabbed in recent police raids are undergoing six months' intensive study of political science, doctrines of the Chinese nationalist party and history.

Home Owners Rally To Nominate Hodges In First Primary
Strength of 100,000 Florida Home Owners to Play Important Role

HOMESTEAD BILL HODGES THE HOME OWNER'S CHAMPION

One hundred thousand Home Owners, whose homes became tax free largely through the intensive efforts and campaign on the part of Wm. C. Hodges in the referendum election of November, 1934, are again rallying to the banner of their champion, "Homestead Bill," in an effort to nominate him Governor in the first primary and thereby insure their "tax free" homes against the big interests who desire to shift the tax burden back to the home owner.
The Home Owners, whose chief interest is the preservation of the Homestead Exemption, also point to their champion, "Homestead Bill," as the bulwark of protection against sales and nuisance taxes and as an open advocate of old age and mothers' pensions.
"Nominate Hodges in the first primary" has become the battle cry of these one hundred thousand Florida home owners together with the slogan: "Hodges is a past performer and not a political promoter!"

Insect Exterminator Plans Long-Distance, Death-Ray

SAN FRANCISCO, May 28.—(AP)—A "death ray" capable of ending life at a distance of one and a half miles is envisaged by Harry Fleur, who claims to have perfected a machine capable of killing insects and animals at close range.

"A bombardment of ultra short electrical waves that I send down a beam of light does the work," he explains. "These are attuned to the normal bodily vibrations of whatever animal is killed."

"The waves increase the vibrations to a degree that the individual molecules in the animal's body simply explode."

Fleur, an electrician, recently acquitted on a charge of fraud after he demonstrated his machine before a judge and jury, declined to say whether human beings could be killed with his "ray."

He admitted, however, that he had found the "vibration rate" of every animal he had yet experimented with and had been able to kill it. He intimated the war department had looked into his invention but declined to give details.

The demonstration before the jury came during his trial for fraud on complaint of two men who had invested \$1,600 in the "death ray."

In his basement laboratory, Fleur adjusted an apparatus that looked like a giant searchlight and focused a beam of light on a small wire cage crawling with termites.

He turned to a complicated appearing cabinet connected by wires with the searchlight, and moved a dial. Hissing, spluttering electrical

flashes began, but were stopped quickly by another turn of the dial. The termites had expired. Experiments on a snake and a lizard brought the same result. Back in the courtroom it took the jury only three minutes to decide Fleur had perpetrated no fraud.

Fleur said he expects his machine to prove most valuable in killing insect pests in orchards. He believes with sufficient power the ray will kill at a distance of a mile and a half.

Wells Let First Contract On Lake Shore Boulevard

Harry H. Wells, former chairman of the State Democratic Committee, is a candidate for National Democratic Committeeman. Mr. Wells is a native Floridian, whose ancestors have lived in the state for more than 100 years. He was educated in the public schools of Washington county, and the old Florida State College, now the university.

Harry Wells, as he is known to his friends, has an enviable record of service to his party. He has served with distinction in the State Senate, and for two terms was chairman of the State Democratic Committee, during which time the committee was active in injecting new life in the 67 county committees. During his term as chairman, the State Association of Democratic Clubs was formed.

Mr. Wells served as chairman of the State Road Department under Governor Doyle E. Carlton and was of great assistance to those from Seminole County who were working for the Lake Shore Boulevard, and he let the first contract toward the completion of that wonderful improvement for Sanford.

Reports from all sections of the state led him to believe that his record of service to the party had earned him a promotion, and that on June 2 he will be away out in front in his race.

HINDENBURG COMES AGAIN

The German zeppelin Hindenburg is shown slowly settling to earth at Lakehurst, N. J., at the end of her second commercial flight to the United States. A few hours later she departed for Germany with 81 passengers. (Associated Press Photo)

FLEEING CONVICTS HARD-PRESSED BY HOUNDS

Men and dogs combined to pursue one of the world's greatest man-hunts for convicts who escaped from the state prison at McAlester, Okla., after killing their warden and kidnapping two guards and two farmers. Jake Yeager, prison sergeant, is shown in charge of bloodhounds which were reported "only ten minutes" behind the fugitives. (Associated Press Photo)

KANGAROOS DECIMATED

SYDNEY, May 28.—(AP)—A mysterious epidemic is wiping out kangaroos in the Riverina sheep raising district of New South Wales. Veterinarians fear that unless a cure is found the disease may spread over the continent and exterminate the animals.

Mount Lassen, California, is the only active volcano in the United States.

LANDIS STAYS CLOSE TO JOB

Attorney General Tells Record of Service

TALLAHASSEE — Attorney General Cary D. Landis took time off from official business as Florida's legal advisor today to tell the people of the State that he has served for the past five years why he wants to be re-elected to office.

General Landis, a veteran of Florida law courts and a successful practitioner for 26 years, said that he regretted his official duties prevented him getting around the entire state to visit his friends and carry on an intensive campaign.

"I take this opportunity of telling the people of Florida why I want to serve them for four more years."

GOMEZ LAUNCHES CUBAN REFORMS

Six hours after his inauguration as president of Cuba, Miguel Mariano Gomez started a far-reaching program of governmental reforms, rebuilt trade relations with the United States and maintenance of peaceful politics at home. He is shown (left) giving the oath of office. On the right is the retiring president, Jose A. Barnet. (Associated Press Photo)

EX-STAR FIGHTS FOR LOST RICHES

Mary Miles Minter (left), former star of silent films, and her mother, Mrs. Charlotte Shelby, are shown in court at Los Angeles as they pressed their suit to recover \$200,000 from a brokerage firm whose agent was alleged to have embezzled their investments. Attorneys for the brokers charged Mrs. Shelby and the agent, Leslie Henry, conspired to take the actress' earnings and keep her impoverished. (Associated Press Photo)

Thomas H. Robinson, Jr., dressed in woman's clothes to escape arrest for the kidnaping of Mrs. Alice Speed Stoll at Louisville, Ky., but Lynn F. Allan (above), alert soda fountain clerk, penetrated the disguise and caused the fugitive's arrest at Glendale, Calif. (Associated Press Photo)

CARY D. LANDIS
"I came to Florida in 1901. I obtained a position as teacher at Stetson University, and later opened a small law office in the City of DeLand—Bert Fish—now United States Minister to Egypt and I formed a partnership in 1904. The people of this State were good to us.

When the position of Attorney General was offered me by appointment, I saw my opportunity of serving the people of this State who had been so generous and good to me. I did not accept the position with any political ambition in mind. I do not have any political ambition for any other state or national office.

BIDS FOR RE-ELECTION
"I want to continue to be your Attorney General, because in my heart there is a deep desire to serve the people of this state, and it is my wish before my day's work is done, that it can be said of me that I have served my fellowmen as an honest, capable and efficient servant.

"Florida is in its formative period. The State needs men of mature judgment—men who hold the interest of the State above personal ambitions. This is no time to put in the office of Attorney General a man who does not have the legal experience and mature judgment to meet the many legal problems constantly and daily facing the Attorney General.

"I know the responsibilities that are there, as no other man in Florida knows them. They are a challenge to me."

Pearl Harbor Tested As Naval Repair Shop

HONOLULU, May 28.—(AP)—Testing the efficiency of Pearl Harbor repair facilities four navy cruisers have been assigned for annual overhaul here this year. Orders have been given the Richmond, Portland, Minneapolis and Louisville to come here during the summer. Heavier craft may follow.

Strategically centered for vessels disabled at sea, Pearl Harbor re-

pair activities have been increased recently. They are to be augmented by a \$9,000,000 floating drydock, destined to make the navy yard one of the most efficient in the west.

Economical Edward Scans Servants' Jobs

WINDSOR, England, May 28.—(AP)—Gardeners and grooms working at Windsor Castle have been surprised to hear the quiet voice of King Edward asking: "And what, exactly, do you do here?"

It's all part of the new king's effort to find out where his money goes.

By voluntarily giving up his civil list of \$550,000 King Edward's entire revenue is derived from the Duchy of Cornwall, and his income is smaller than that of King George.

For this reason officers of the household have been instructed that expenses must be kept down.

'DUD' FOUND
ROSTOV-ON-DON, U. S. S. R. May 28.—(AP)—A bomb which failed to explode when Peter The Great bagged and captured Asov from the Turks in 1696, recently was dug up near that town. The 240-year-old petard weighed nearly 200 pounds.

EGYPT PLANS NEW CENSUS
ALEXANDRIA, May 28.—(AP)—The Egyptian government, planning a general census to be taken this year, is hiring 10,000 enumerators to count and classify inhabitants of the land of the pharaohs.

Lookouts Hold Saints To 1-0 Score Wednesday

Comment From The Sidelines

The next financial statement of the Sanford Baseball Association should disclose a tidy balance in the bank as the receipts from the sale of those 125,000 tickets to the Red Star meet were not included in the statement published yesterday. Jimmy Wright, secretary-treasurer of the association, hopes to have the next statement out soon after the first of the month. While the first statement showed only \$279 in the bank, the association has \$600 on deposit with the National Association of Baseball Clubs to guarantee the payment of salaries and other bills.

It took the Saints some time to get onto the peculiar curved ball that Herbert Moses, who returned to the Lookouts line-up a few days ago, pitched in the last three innings of Tuesday's game. Some of those balls looked when they left Herbie's hand as though they were going wide of the mark, but he put a twist into them that brings them back across the plate, though in many cases too late for a batter to swing at them successfully. Herbie would doubtless be a great pitcher if he had more brawn to back his brains, but he is young and can be expected to put on more weight after a time.

Lee Meadows was over from Leesburg the other day to see the Lookouts perform on Sanford Field. Meadows, used to be the star pitcher for the Pittsburgh Pirates and was the hero of the 1915 world series between the Pirates of the National League and the Washington Senators of the American League and which was won by the Nationals, four games out of seven.

The Pirates are doing right well again this year, up near the top of the percentage ladder, but the Senators are not much better off than the Sanford Lookouts so far this season. And the St. Louis Browns are a hundred points behind the Lookouts, while the Philadelphia Athletics have the same rating as the Lookouts—314.

On the Sanford Lookout squad are a few youngsters "fanned out" by the Chattanooga Lookouts, and if Norman (Kid) Elberfeld, veteran of this diamond and owner of the Chattanooga club, is right they can count themselves fortunate that they are not among the "forgotten youngsters" of the major leagues. "The farm system," Elberfeld is quoted as saying, "is robbing youngsters of a chance to make good in the national pastime. Why, a kid hasn't got a chance these days. If he isn't quite good enough to break in the majors, he is kept in the minors."

The Daytona Beach News-Journal says that a decision as to whether the St. Louis Cardinals will train in the beach city next spring is expected in about two weeks. The paper says that Branch Rickey, vice president of the Cards, conferred with Mayor Armstrong and Business Manager Barker of the Islanders last Tuesday and was shown the two baseball parks in Daytona. He was favorably impressed with the layout of the News-Journal reports, "but said the infield would have to be rebuilt." Rickey also remarked favorably on the looks of some of the Islanders.

Ray Billings says in the Palatka News that James McNally, who played with the Lookouts earlier in the season and was loaned to Palatka for Clary, is engaged in a "torrid battle" with the town physician for regular admission on the Anales infield. McNally bats left handed and is a right hander. He is also a pitcher and may be passed on to the other garden, when Anales is called upon to hurl.

According to the law of averages, the Lookouts should have won more games from the Saints than they have. As Doc Harden, on the Lookouts, says, "the Saints are a hard team to beat."

GETTING SET FOR INDIANAPOLIS

Medium Tackle Catch Of Tarpon Entered In International Tourney

SARASOTA, May 22.—Fishing off the Pines before sundown, H. R. Watson landed a 57-pound tarpon with medium tackle. His companion Glenn Brye caught a 60-pounder with heavy tackle. The fish were entered in the Tenth International Tarpon tournament.

Big Tarpon Caught
BOCA GRANDE, May 22.—(AP)—Sixty-three tarpon were landed in Boca Grande Pass. W. J. Leliman, Tampa, led other anglers with his catch of nine tarpon, the largest weighed 140 pounds and the others ranged from 40 to 90 pounds.

Many other large tarpon were landed. N. R. Allen of New York brought one in weighing 144 pounds and one 104. Mrs. Allan caught an 86-pounder.

Dr. John A. Gaines, Tampa, landed a 120-pounder. He also brought three others to raft weighing 80, 55 and 25 pounds.

stop

Bulldogs Replace Palatka Azaleas Senators In The Standings Column

Senators' Pitcher Allows Ten Hits, Score Is 19 To 5

The Bulldogs defeated the Senators in the Legion Junior League last evening and as a result of the victory the two clubs exchange places in the percentage column with the Bulldogs 503 and the Senators 533. The Bulldogs won 19 to 5. Howard pitched for the Senators and allowed 10 hits, while Williams for the Bulldogs allowed only 5. The Senators made five and the Bulldogs made four errors.

The game was devoid of spectacular plays. There were not even any two-base hits. Ravens umpired.

The Panthers and the Cherokees of the Legion Junior League play tomorrow.

Score of yesterday's game:
R H E
Bulldogs 19 10 4
Senators 5 5 5

Who's Who Among The LOOKOUTS

Jack Pinon is another of those boys who got his start with an American Legion Junior baseball league. He played on a high school team in his home town of Chattanooga, Tenn., was captain of the team, and then joined the Legion Juniors and played there four summers, first base some of the time but catching most of the time. He then got into the state finals two different years. He played semi-pro last year and led the Chattanooga City League in batting, his percentage being .400.

Pinon was sent to the Sanford Lookouts by the Chattanooga Lookouts, but has not figured in many games here, being saved for a pinch most of the time, and then playing in different positions. He played left field in three games, was sent in to catch in five games, and was used as a substitute hitter in three other games. In the few times he has been at bat this season he has got seven hits and has scored three runs.

Jack Pinon is 18 years of age, is 6 feet tall and weighs 205 pounds.

Big League Stars Suffer Injuries, Six Out Of Game

NEW YORK, May 22.—(AP)—The major league baseball races are being run on crutches as five of the star leaders in both leagues bubble along without at least one key player.

Only the Giants among the leaders have their full strength on the field.

Three of the five have been struck where it hurts the most—behind the plate. Both leaders in the American, the Yankees and the Red Sox, are without their catchers, while the Cards are getting along without Bill Denehy, out all spring recovering from an attack of pneumonia. Rick Ferrell will be sent to the Red Sox for a week and Bill Dickey probably will not be in the New York line-up for at least a month.

The other key men on the side lines are Bill Jurges, Cubs' shortstop; Lefty Gomez and Johnny Murphy, Yankees pitchers; Lefty Grove, Red Sox pitcher and Bruce Campbell, Cleveland outfielder.

Games will be out of the Yankee lineup for at least a week with a torn ligament in his left shoulder. Murphy may not pitch another game for the Yankees all season. He is in the hospital with a ruptured blood vessel in the groin.

Grove's split finger is not expected to keep him out of the game for long. Bruce Campbell again strikes with spinal meningitis, probably will not return to the Cleveland outfield until July. His place is being taken by Jimmy Gleason.

Giant Line-Up Alone In Full Strength Among The Majors

Only the Giants among the leaders have their full strength on the field.

Three of the five have been struck where it hurts the most—behind the plate. Both leaders in the American, the Yankees and the Red Sox, are without their catchers, while the Cards are getting along without Bill Denehy, out all spring recovering from an attack of pneumonia. Rick Ferrell will be sent to the Red Sox for a week and Bill Dickey probably will not be in the New York line-up for at least a month.

Islanders Beat Reds, 10 To 6, In Game At DeLand

DELAND, May 22.—The Daytona Beach Islanders broke their three-game losing streak to the DeLand Reds here yesterday, rapping two DeLand pitchers for 14 hits and 10 runs, to win, 10-6.

DeLand held the lead until the seventh when the Daytona Beach club bunched four hits, two of them doubles, with a base on balls off the tiring Bunch to score four runs. The Islanders got to Dopey Dean in the eighth for two more and added another in the ninth for good measure.

The Reds, who hit Gerald hard in the first inning to score twice, added two more in the third to maintain their lead until the seventh. In the eighth, DeLand made two runs, but fell short of overtaking the league leaders.

Innings:
Daytona Beach 303 000 41-10
DeLand 203 000 020-6

Campbell's Racer Is Sold To Band Leader In London For \$50

The famous Blue Bird, first of racing cars built by Sir Malcolm Campbell, noted British sports enthusiast, and seen by many Sanford folk in races on the Daytona Beach strand, has been sold for \$50. It cost \$25,000.

A leader of London dance orchestras is the reported purchaser. He intends to try out the 12-cylinder, 350-horsepower machine on the beach at an English seaside resort. There's no other place he can drive it.

The average number of taxis carried by the common householdly exceeds a million.

Errorless Ball Is Played By Locals In St. Augustine

Harden Allows Only Three Hits While Sanford Gets Four

Though they backed up Doc Harden's pitching by playing errorless ball, the Lookouts were defeated by the Saints in St. Augustine, 1 to 0, Wednesday afternoon. It was the eighth time the two teams have met this season, and it was the eighth victory for the Saints.

St. Augustine got only three hits off Harden, but it bunched them in the third inning when Zupanic scored the one run of the contest. The Saints made three bingles during the game.

Sanford threatened to score on three different occasions. In the last inning there were two Lookouts on bases, but Swindell struck out and the game was over. A double play in the seventh indicated that a score might be made by the locals, but the side was retired before third base was reached by a Lookout.

The score:
AB R H O A E
Sanford: 31 4 0 25 11 0
St. Augustine: 27 1 0 25 11 0
Total: 58 5 0 50 22 0

No Games Today In State League

All games in the Florida State League scheduled for today have been cancelled because of the rain. Palatka was to have played in Sanford, Gainesville was to have played in DeLand, and St. Augustine was to have played in Daytona Beach today. The rain is reported as being quite general.

Pirates Get Edge On The Seminoles In 'World Series'

Maxwell Stewart's Pirates defeated the Seminoles, 19 to 7, last evening in the third game of the "little world series" in the Lions League, and the series now stands: Pirates 2, Seminoles 1.

Two teams meet again tomorrow afternoon at 5 o'clock on the Grammar School diamond. Should the Pirates win, another game will be played Monday.

The feature of yesterday's game was the catch by Glenn Cochran of an infield fly which he got to first base in time for a double play. A large crowd witnessed the contest.

The batter: Pirates, Glenn Cochran and George Willis; Seminoles, Thomas Cobb and William Branan, Roland Floyd. Umpire Eddie Bender.

The score by innings:
Pirates 2 5 3 2 7 0 x-19
Seminoles 0 2 0 4 0 1-7

Hawaii has one national park that includes land on two islands—Hawaii and Maui.

Indictments Found Against Five And Two Are Sentenced

White Man To Serve Two And Negro To Serve Three Years In The State Prison

Two Indicted On Murder Charges

Court Advises Negro To Get Good Lawyer To Fight His Case

Five indictments and five "no bills" were returned by the grand jury shortly before noon today. Two of the five persons indicted entered pleas of guilty and were promptly sentenced to terms in the State penitentiary, two pleaded "not guilty," and one was allowed until next Friday to enter his plea.

The two who pleaded guilty were Dan Beatty, white, and Joe Jones, colored. Both gave their ages as 19 years. Two indictments were found against each.

Beatty was indicted for stealing George McHenry's car last Feb. 7, and of breaking and entering the L. F. Johnson dwelling the day before. He pleaded guilty to each charge. Jones, Edward B. Smith and another were indicted for the same crime.

The indictments returned against Joe Jones were for breaking and entering the residence of E. J. Cowan on Apr. 29 and the residence of R. F. Cowan on May 2. The sheriff advised the grand jury that the latter was the residence of the man.

A coroner's jury impaneled by Jas. G. Roberts, justice of the peace, returned a verdict today that Farmer came to his death by a blow from some blunt instrument inflicted by a person or persons unknown.

The indictments returned against Joe Jones were for breaking and entering the residence of E. J. Cowan on Apr. 29 and the residence of R. F. Cowan on May 2. The sheriff advised the grand jury that the latter was the residence of the man.

The indictments returned against Joe Jones were for breaking and entering the residence of E. J. Cowan on Apr. 29 and the residence of R. F. Cowan on May 2. The sheriff advised the grand jury that the latter was the residence of the man.

Airport Lease By City Held Not Advisable

Aviators Are Given Report From Group Commission Asked To Recommend Plan

Report of the special "airport committee," named by Mayor S. O. Bhalholser to advise the City Commission in airport matters, was forwarded to Marvin Smith and associates with the request that they carefully consider the recommendations as made by the committee. Smith and two associates are located in Kissimmee. The three are youthful aviators, who asked for a five-year lease of the Sanford Municipal Airport, but such a lease is advised against by the committee.

Instead of leasing the airport, the committee suggests the granting of the following concessions: Sale of gasoline and oil; storage in the municipal hangars; airplanes and engine repairs; painting of aircraft; student training and non-exclusive charter and passenger flying. The committee is composed of E. B. Wight, chairman, F. W. Deitch, Volie Williams and R. J. Reed.

In return for the exclusive concessions to Smith, or some other aviator who might wish to operate the airport, the committee makes the following recommendations:

"The operator shall have available on the field at all times a licensed transport pilot or airplane, and engine mechanic licensed by the Department of Commerce.

"The operator shall keep the field in clean and orderly manner at all times except for necessary landing and repair repairs, and keep maintenance bills levied and other construction removed.

"Rates for student work shall not exceed those charged at Orlando Municipal Airport.

"The operator shall be responsible for the service lighting system and other equipment that may be installed at the airport.

"The operator shall keep on hand at the airport at all times an adequate supply of gasoline and oil.

"The owners of aircraft located on the field may furnish their own supply of fuel and oils and where qualified shall be allowed to do their own mechanical work.

"The operator shall keep on the field at all times at least one licensed airplane in good airworthy condition, and this ship shall be available for student instruction, charter and passenger hopping.

"The operator shall comply and require all pilots using the airport to comply with air commerce regulations.

"The operator shall not collect landing fees from visiting aircraft.

"It is further suggested that a corporation be organized in the city, controlled by which the concessions may be granted for non-perpetual terms. Also that the operator be commissioned a police officer empowered to make arrests for violations of ordinances governing the airport.

THOMAS SEEKS PRESIDENCY AGAIN

For the third successive time, Norman Thomas was nominated for President of the United States by the Socialist party at its national convention in Cleveland. The white-haired leader is seen working with the New York state delegation shortly before the convention elected him. He was its presidential candidate in 1928 and 1932. (Associated Press Photo)

Night Riders Are Burning Regalia, Prosecutor Says

Believes That "Back Of Organization" Has Been Broken

DETROIT, May 29.—(AP)—Reports that fear-stricken members of the Black Legion are burning their hoods and robes were received today as authorities snapped plans for a final fight on the night riding terrorists.

"The back of the organization has been broken," said Prosecutor Dudley Owen of Jackson county, the Black Legion stronghold. "Some members are burning their robes and I don't think the remainder have nerve enough left to commit further violence."

The John Doe inquiry into reported flings and abductions in Jackson county where five men are held on charges of beating a reluctant member adjourned indefinitely as plans for calling a metropolitan area grand jury are going forward in Detroit. Michigan's criminal syndicalism law enacted to combat communism was invoked against the legion whose members contend its night-riding and intimidation was inspired by zeal to defend the country from communists.

Downpour Floods Miami Streets; Causes Accidents

MIAMI, May 29.—(AP)—A torrential tropical downpour yesterday flooded streets and sewers, handicapped traffic and caused injuries to at least three motorists. Thousands were delayed on their way to work.

A musician suffered a fractured collarbone and wrist when his car overturned. Two other men received minor injuries in a collision.

Between 7 and 8 A. M. a wind-swept cloudburst spilled 1-1/2 inches of rain over the city. Later in the morning there was another severe downpour.

With 4.91 inches of rain falling between midnight and 8 A. M., the Weather Bureau reported Miami's May precipitation was 4.96 inches, an excess of 1.82 from normal. For the year thus far, 25.96 inches have fallen, an excess of 1.82.

THE HAWAIIAN AGE
AUSTIN, Tex., May 29.—(AP)—Police reported today that a suburban Austin driver was collared for driving a car with a license plate number that was 61 years old.

Full Payment To Schools Is Sholtz Promise

\$10,500,000 Will Be Paid Before End Of The Fiscal Year, June 30, He Says

TALLAHASSEE, May 29.—(AP)—Governor Sholtz today promised the public schools their full legislative appropriation of \$10,500,000 would be paid "before the end of the fiscal year" June 30. Whatever amount is necessary to supplement the designated school revenue sources will be taken from the state's general revenue fund, he said.

Payments already made to the schools total \$9,468,000. Eight hundred and seven thousand dollars are now available, and estimates say \$225,000 more will come from school source taxes.

Comptroller J. M. Lee announced last night that his office has \$207,000 available for the public schools. It probably will be apportioned "as soon as will be necessary" to bring the total this year to \$10,500,000.

So far, the state has paid \$9,468,000 to the schools. This includes only \$220,000 from the much-litigated chain store tax law which the Legislature predicted would produce \$4,000,000 to \$4,500,000 for schools.

The general revenue fund today had a balance of \$1,591,000. It pays operating expenses of the state government. It was swollen recently by payment of \$2,000,000 of taxes on the estate of Alfred J. duPont.

Three big counties, Duval, Duval and Hillsborough, received nearly one-third of it. Figures compiled by State Treasurer W. V. Knott showed Hillsborough led with \$583,352.98. Duval was second with \$250,930.16, and Duval was third with \$250,580.52.

Seminole County has received \$180,028.16.

One-Eyed Cars Are To Be Ruled Off The Highway

Deputy Sheriff M. C. Gordon, the "motorcycle cop," serves notice that he is going to begin to "bear down" on motorists whose cars have only one headlight or no tail light. The drivers of such cars are to be ticketed and advised "to tell it to the judge."

The deputy sheriff said he did not know which was the worse, a one-eyed car or one with no tail light, but that both are dangerous, and both are being operated illegally.

Mr. Gordon covers more than 3,000 miles of County highways each month.

Action On Canal Is Postponed By Senate For Day

WASHINGTON, May 29.—(AP)—Action on the Florida Canal and other Panamaquoddy tidal power project was delayed today as the Senate dropped consideration of the efficiency appropriation measure.

Administration leaders looked to the efficiency bill as a possible means of getting the two projects.

JACKSONVILLE, May 29.—(AP)—Police here today killed a young woman who was driving a car with a license plate number that was 61 years old.

Ritter Brings Suit For Pay, Charging Ouster Was Illegal

Ousted Judge Sues Unprecedented Action Taken By Ex-Judge Of U. S. Court For Southern Florida

MIAMI, May 29.—(AP)—Federal Judge Ritter today filed a suit against the government to collect salary since he was ousted by the Senate sitting as a court of impeachment.

MIAMI, May 29.—(AP)—Federal Judge Ritter, ousted United States district judge has surrendered his chambers in Miami's Federal Building, but declares he had given up his "right to function as a judge." Soon after he moved out, Ritter's Miami attorney, Carl Hoffman left by passenger plane for Washington to file a suit questioning the legality of the former judge's Senate conviction on House impeachment charges of misconduct.

The former federal judge admitted he had vacated his offices after Postmaster William C. Hill of Miami announced Ritter had surrendered the keys to the rooms without an explanation. Ritter gave up the keys because of insistence by the Postoffice Department that I must, Ritter declared. "But I did not surrender my right to function as a judge, and I will be in court on the day that I attack the legality of my removal by the Senate."

The Postoffice Department announced two days ago that Postmaster Hill had notified Ritter of his vacating his offices. At that time Ritter denied the report, declaring he would continue to occupy the judicial chambers "inasmuch as I want to."

Postmaster Hill explained the situation as a misunderstanding during the conversation, he said with the former judge. Only yesterday he said Ritter had turned over the keys to him earlier in the week, and that afterwards he occupied Ritter's vacating chambers in the federal building.

Ritter said the nomination of John W. Holland as judge in his place was announced in the paper, but that he had nothing to do with his removal, quit occupying the offices.

"I can still go to the office and use the law books," Ritter said. "Postmaster Hill cannot prevent me from using the law books, and I would wish to use it and occupy the keys from the clerk's office."

More Troops Are Sent Into China By The Japanese

TIENSIN, China, May 29.—(AP)—Japan, defying official Chinese protests, sent 2,000 more soldiers into North China garrisons today. The new reinforcements for the already strengthened Japanese garrisons in Tientsin, Peiping and Fengtai seriously aggravated a tense situation. Chinese sources said Japan now had 20,000 troops in Tientsin and Peiping.

The powerful Canton government joined the Nanking Nationalist government in protesting. Officers of Japan's enlarged military garrison quickly demanded that Chinese authorities stamp out a strike by thousands of students, who called upon China to resist against the Japanese invasion.

Strengthened Sino-Japanese relations were further aggravated by the student demonstrations. Upon Japanese demands, Chinese police were sent to patrol the streets. Students had marched through them spreading anti-Japanese pamphlets denouncing smuggling in North China and Japan's recent heavy reinforcement of its Tientsin and Peiping garrisons.

Chinese reports accused the Japanese army command of threatening to use its troops to disperse the demonstrators and take over control of the city. The Japanese would not comment on these reports.

Army Dismisses Colonel McMullen

WASHINGTON, May 29.—(AP)—Colonel Joseph I. McMullen of the Army judge advocate general's office was summarily dismissed from the Army today following his conviction in the District of Columbia Supreme Court for receiving compensation for services to private individuals outside his official duties. He previously was charged and convicted of accepting a reward for services rendered as outside in another case.
