## THOS. W. LAWSON ARRESTED FOR EXPLOITING STOCKS IN SILVER MINING AT BOSTON

### World Famous Stock Promoter Is In Bad CRUSADE STARTS

AGAINST THE PEOPLE EXPLOITING MINING STOCKS WITHOUT FILING REAL INFORMATION.

Boston March 26.—The crusade of Attorney General Allen against promoters and brokers who have been exploiting silver stocks, led to the arrest of Thomas W. Lawson today. He surrendered himself at police headquarters to answer a warrant charging him with violating on four counts a state law regarding the filing of information regarding the stock. Four other operators and commission men were arrested yesterday including Van Ripper of New York, former private secretary to Lawson.

Lawson and Van Ripper have been active in selling silver stocks in recent months. Lawson advertising featuring them as "Silver's Greatest Gamble of the Age."

Each announced he was developing certain individual silver mines properties as units of general holding companies. In the campaign the price of individual stocks advanced from a few cents to \$8 or \$9 with subsequent reversals and fluctuations. After news of the arrests, prices tumbled further. Virtually all the silver stock which are named in the charges against Lawson, Van Ripper and other men are now selling for so many cents a share. It was the fact that securities were offered so cheaply, the attorney general said in a statement yesterday, that attracted to them a class of persons without investing experience who sacrificed Liberty Bonds and savings accounts to obtain funds for stock purposes in hopes of early riches. The attorney general said the arrests for illegal advertising of stock issues on which no previous information has been filed at the state house cover only one phase of a situation which which he is now investigating.

Lawson, whose stock operation gave attracted world-wide attention in the last quarter of a century, called at police headquarters this morning to submit to arrest, gave his occupation as farmer and writer and walked through a noisy crowd to the court house where he was arraigned and held for a hearing April 6. He furnished bonds of \$2,500.

## WOULD AMEND CONSTITUTION

TO PREVENT GOVERNORS OF FLORIDA FROM SEEKING OFFICE WHILE HOLDING THAT POSITION.

Amendment of the constitution of the state of Florida providing that any governor who becomes a candidate for any office during his term as chief executive "shall thereby vacate his office," is urged by Judge William B. Young in a letter to the Times-Union.

Judge Young advocates this amendment to prevent a governor using his office to build up a political machine to secure his election to the United States Senate or some other high office.

Judge Young points out that the constitutional convention wisely provided that "the governor shall not be eligible for re-election to said office the next succeeding term," for the simple reason to prevent him using his office to build a machine to secure re-election.

In this connection, Judge Young says that when the convention was held, the United States senators were elected by the legislature, so it did not occur to the framers of the constitution that a governor might use all the powers of his high office to se-

cur election to the Senate, and there by neglect his gubernatorial duties playing politics in the appointment of officers, and canvassing over the state.

In writing the amendment Judge Young would have the fact of the governor's vacation of office determined on quo warranto proceedings instituted in the supreme court by any qualified voter.

Judge Young's letter follows: Editor of Times-Union: The convention which framed the present constitution of this state, put into section 2 of article IV this provision: "The governor . . . shall not be eligible for re-election to said office the next succeeding term." This was intended to prevent a governor from using his office to build a machine to secure his re-election. When that convention was held, the United States senators were elected by the legislature, so it did not occur to the convention that a governor might use all the powers of his high office to secure his election to the United States Senate, and neglect his duties canvassing over the state. The conduct of the present governor shows that our patchwork constitution should be so amended as to provide that any governor who becomes a holder of office shall thereby vacate his office, and that the fact of such vacation shall be determined on quo warranto proceedings instituted in the supreme court by any qualified voter. It is disgraceful that a governor of a great state should use the power of his high office to aid his election to another office.

## LITTLE BOY KIDNAPPED IS FOUND

SON OF LEXINGTON MILLIONAIRE FOUND LOCKED IN HOTEL ROOM.

Lexington Ky., March 26 (By Associated Press) Paul Little, son of the Lexington capitalist who was held for ransom by kidnapers was found this morning locked in a hotel room here.

Lexington, March 26. (By Associated Press) Boy telephoned parents from room after captor left apartment having given up hope of obtaining ransom. Father left twenty five thousand dollars in garbage can yesterday at night but kidnapper did not call for it.

Washington Wins at DeLand

DeLand, March 26.—Washington made it two straight from the Cincinnati champions here yesterday, winning by score of 5 to 4. The Reds scored in the first inning but were unable to reach home again until the eighth and then connected for one run.

The Nationals got off to a good start in the third inning and held a batting tee at the expense of Ruther, who was doing the twirling for the Reds. Two doubles and two passes, couples with some pretty base running, brought in the tallies.

Joe Lee Found Dead in Office At Jacksonville

Jacksonville, March 26.—Joseph E. Lee, aged seventy-one, one of the best known negro citizens of Florida former collector of internal revenues, and for years a power in the Republican party in this state was found dead in his office here last night. Death was due to natural causes.

## Weather Report

For Florida fair tonight. Slightly colder in north and central portions. Saturday fair, moderate north and west winds over the north portion. Gentle to moderate south winds over south portion.

## PRESIDENT MUST STATE POSITION

ON MATTER OF BEING A CANDIDATE FOR PRESIDENT SAYS HUMPHREYS.

Washington, March 26.—Both Democrats and Republicans cheered a statement in the house today by Representative Humphreys, Democrat, Mississippi, that President Wilson should make an immediate announcement that he was not a candidate for a third term.

"Under no circumstances should President Wilson ask for re-election," Mr. Humphreys said, recommending the passage of a measure limiting the eligibility of a president to but one term. "His refusal to make a statement has led the country to believe that he will break an ancient precedent," the speaker said.

"I regret therefore, all the more because he has remained silent on the question of a third term," continued Mr. Humphreys. "I believe the accomplishments of his administration under his great leadership will assure for him a place high on the roll of our great presidents."

Late Wires

Philadelphia, March 26. (By Associated Press) Peiterson from four station houses raided the dormitories of the University of Pennsylvania today after out break of thousand students in celebration of a basketball victory over Chicago University. Shots were fired at the policemen, and twenty two students were arrested and fined. The police said the students pelted them with bricks, alarm clocks, water bottles from alleys and side streets of several hours.

New York, March 26. Five firemen were overcome fighting alleged incendiary fire at the Adler Shoe Co. at Brooklyn today. Investigation was started immediately to determine if the blaze was the result of recent labor troubles. The loss at the factory was estimated at fifty thousand.

Lynchburg, Va. March 26. Detective L. A. Mann died today as the result of a wound received last night in an attempt to arrest a negro believed to be John Williams. Detective Wheeler was wounded though not as seriously and it is thought he will recover. The police are investigating a report that the negro was later shot and killed at Gladstone Va., for resisting arrest.

Washington, March 26. A Southern Railway passenger train ran into an open switch near Adams Park, Ga. this morning overturning the engine, three sleepers. The engineer and fireman were killed. No passengers were seriously hurt.

Washington, March 26. Charges that the Navy Department took steps to prevent reports reaching the public regarding personnel shortage before the war were made before the Senate Committee today by Captain Joseph K. Taussig of the Newport Naval War College. He said Secretary Daniels in 1914 in a report said the numerical strength of the navy was adequate and in 1915 said only ten thousand men were needed, while general boards reported that nineteen thousand were necessary.

Paris, March 26. The German cabinet headed by premier Baur has resigned according to a message from Berlin.

DeSota county seems to have some constructionists, when it comes to cattle dipping. The cattle seem to be perfectly able to stand the "dip" as 25,000 head were dipped in January. That old, old story "that dipping injures the cattle" has been disproven so many, many times, it sounds strange to hear it being raised again. Livestock Inspector Lovett of DeSota county told the board of county commissioners that the cattle owned by some people, would never be ready for dipping, if it were left to them.

This "Road of Remembrance" idea is growing rapidly. St. Johns county is the latest. It is reported that the women of that county have agreed to furnish the trees and the county commissioners will plant them in a few years. St. Johns county will be famous for its beautifully shaded highways.

## SOUTHEAST IS TIED UP BY STRIKE

SAVANNAH TERMINALS CLOSE BECAUSE OF LONGSHOREMEN'S STRIKE.

Savannah, March 26.—Local officials of the Southern Steamship line announced that the river terminals of that line would close Saturday for an indefinite period. Business will not be resumed until the labor situation at New York and Boston improves. More than 600 laborers will be put out of employment until the resumption of business. The steamship City of Columbus, now in port, will be kept here indefinitely moored to the docks. The entire southeast will be affected by this action as shipments from the east via water to Savannah and thence by rail are very happy in normal times.

Charleston March 26.—Three score business men of this city took off their coats this morning and, as amateur longshoremen, began unloading a 350 ton cargo from a Baltimore Ohio steamship company freighter, the Lake Clear, which had been ordered to return intact, because of the longshoremen's strike, which prevented her unloading here.

It is estimated that it will take the volunteers three days to truck off the Charleston consignment of freight and load 100 tons for the return trip, but local business men believe they can thus keep the local steamship service up while the strike lasts, for the good of the port.

The courtwise longshoremen's strike is being heavily felt here by Charleston business interests, tying up as it does, freight movements by Clyde and Baltimore lines.

For County Commissioner

I will be a candidate for re-election to the office of County Commissioner for the 3rd district of Seminole County, subject to the decision of the Democratic primary to be held June 8th.

C. W. ENTZMINGER.

## ARMED MINERS LOOKING FOR MURDERERS

ELEVEN YEAR GIRL FOUND MURDERED IN WOODS IN OHIO.

Adena, Ohio March 26 (By Associated Press) Armed miners continued to search today for the murderers of eleven year old, Frances South, whose body was found in the woods here yesterday evening. Authorities do not believe the posse will go to Sherodsville where the four negroes are held as suspects but are prepared to move the negroes for safe keeping.

## TURKEY SAFE NO COUNTRY WANTS HER

LOYD GEORGE SAYS NO NATION WILLING TO ASSUME THE RESPONSIBILITY

London, March 26.—Premier Lloyd George today declared in the house of commons that the proposal to oust the sultan had been rejected as inadequate because it left the question of the government of Constantinople undecided and the allies were anxious to avoid the expense and responsibility of the administration of Constantinople.

With regard to Armenia, the premier contended, France would have been willing to hand Cilicia to the United States if the latter had accepted the mandate.

"Up to the present we have only received requests from America to protect Armenia, without any offer to assume responsibility," said Mr. Lloyd George.

"France will undertake the responsibility, but it much to ask, con-

## SECRETARY DANIELS COMES IN FOR ROAST IN THE NAVY PROBE

considering all the burdens France already has."

The premier contended that it was quite impossible for England to send armies to keep order in Armenia and Asia Minor. England would do her utmost to exert pressure in Constantinople to secure good treatment for Christians, he asserted, but was unable to accept a wider responsibility.

"The Armenians are an exceptionally intelligent people and must begin to depend on themselves for the protection of their independence," Mr. Lloyd George said, adding that he understood they could easily raise an army of 40,000 men. Great Britain would be willing to supply equipment and officers for their training if that were done they could defend themselves against the Turks, the premier declared.

Tampa Headquarters

Washington, March 26.—A movement is on foot here to have the states of North Carolina, South Carolina, Georgia and Florida made one district by the shipping board. If this is done it is probable that Tampa will be made headquarters for the Gulf district, and this would mean a large amount of new shipping business for that place. Definite shipping plans are expected to develop within the next few days.

## WORKERS ARE ENTRENCHED WESEL REGION

SAY THAT FAILURE TO CAPTURE WESEL WILL MEAN DESTRUCTION OF MINES AND WORKS.

London March 26 (By Associated Press) Workers forces entrenched in southeast Wesel threaten to destroy all the factories and mines in western Germany. If they fail to capture Wesel say the Exchange Telegraph despatch from Berlin. The Reds have established Great Headquarters similar to that of the old German army and are issuing official statements. Last night's communique said they had captured several towns and took two hundred prisoners during the day. A Munster telegram reported a severe engagement between the government troops and communist troops at several points in the industrial region.

Franc Falls And Mark Makes Gain

Paris, March 24.—Sharp declines in the value of the franc as compared with the American dollar and the British pound sterling yesterday, while the German mark, despite disorderly discussions of the exchange situation and a renewal of talk of rigid restrictions on importations as a means of checking depreciation of the franc. Financial authorities are of the opinion that such restrictions afford the only immediate remedy and predict an early suspension of all importations of luxuries and articles which might be described as superfluous.

The Candidate

Now comes the grinning Candidate. And tacks to every fence and gate. And pole and building everywhere. His card, about 8 inches square. Embellished with his face and name—A bold and brazen bid for fame!

He prints some bunk to catch the eye Of every weary passer by;

He tells the boys who grow the oats And corn and spuds, he wants their votes

The laborer he loves like sin (Until the votes are counted in.)

The banker and the doctor too; The railroad man, and me and you. The lawyer, grocer, blacksmith—all He lures from Spring to early Fall. And in return for all their help He makes a patriotic yelp. About the great reforms he'll start When he is safely on the cart!

Contributed.

## Another Probe Begins In The Navy Muddle

### CONDEMN TACTICS

PALMERS SAYS HE BLOCKED PREWAR EFFORTS TO BUILD UP RESERVE.

Washington, March 26.—Capt. Leigh C. Palmer, who as chief of the bureau of navigation during the war was responsible for obtaining and distributing officers and men, testified today that a shortage of personnel was the American navy's initial handicap in the war.

Appearing before the senate committee investigating Rear-Admiral Sims charges against the navy department, Captain Palmer said Secretary Daniels was responsible for the alleged shortage because of "this procrastination" prior to the entry of this country into the conflict.

Mr. Daniels consistently opposed the building up of a strong naval reserve force before the war, former navigation chief asserted, although naval officers had warned the secretary that after war was declared it would be too late to obtain and train men necessary. The secretary, however, always favored and strongly supported recruiting for the regular navy and after war was declared did everything possible to stimulate it, the witness said. He added that "this however was very different from the policy Mr. Daniels adopted toward the reserve force.

Illustrating what he declared was a refusal by Secretary Daniels, Captain Palmer cited the construction of barracks at the Great Lakes training station. After Secretary Daniels had failed to act on his recommendation, Captain Palmer said, he ordered the barracks built on his own authority and then told congress about it. Later an even greater expansion was found necessary at this station, he said.

Captain Palmer said he could not agree with Mr. Daniels, primarily because the secretary "could not see things from the viewpoint of the naval man."

Fifty Cases Of Cancer Cured By Radio Treatment

New York, March 23.—Fifty consecutive cases of superficial or "surface" cancer have been cured at the New York post graduate medical school and hospital by an x-ray method developed by Dr. Wm. Mayer. Dr. Mayer is now working on a method for the treatment of deep seated cancer. He said the 50 cases he has recorded have been under observation from two to four years since treatment and there has been no indication of a return of the disease. A number of later cases give promise of similar results.

Therapy has been used for some time in the treatment of cancer. Dr. Mayer's only claim is to a new method of dosage whereby the exact amount of treatment required is computed in advance.

The interest in club work and general agricultural enterprises by individuals was demonstrated when Representative W. W. Phillips gave \$1,600 to the boys' pig club of Columbia county. Mr. Phillips was recently appointed bond trustee in charge of the county road funds and this donation of approximately \$1,600 represents his salary as bond trustee. The recently organized Civic League has a special committee on fair promotion.

The school board of Palm Beach decided to pay all teachers for loss of time while schools were closed on account of the flu epidemic, which did not materialize, according to the Palm Beach Post. In consideration of their payment teachers will, if necessary, do overtime work with pupils in order that they may not be behind with their studies.

## RIVERS BROS.

Cor. 4th St. and Sanford Ave. - Sanford, Florida

### PLAY IN JACKSONVILLE

Sanford High Will Try Jacksonville High

What will be without a doubt the last basket ball game of the present season will be staged between the Sanford High school girls' team and the Duval girls' team Friday night at the Y. M. C. A. at 8:30 p. m.

Some time ago the Sanford girls published an article in the paper claiming the state championship for girls' basketball and issued a challenge to any team. The Duval girls answered this challenge with the point fully expressed that they either put up or shut up. The Sanford girls decided to take the latter step but could not play sooner as the school was closed on account of the flu.

Though the game is somewhat out of the regular basketball season for Jacksonville, the fans will have the opportunity of seeing two of the fastest girls' teams in the state in action. Both teams are good and their records are about even, neither having been beaten by any high school team this season.

The Celery city girls have been cleaning up everything down in the central part of the state and are going out after heavier timber. They

will no doubt get all they want when they tackle the Tigerines.

The Tigerines have been practicing hard lately for this game and are out to win and if fitness has anything to do with winning the game, it is already won. Capt. Williams and her basketters are playing the best game of their lives and with the state championship within their reach they are not going to let it get away.

As a preliminary to the girls' game the Duval boys' team will play the Senior Leaders. This game alone will be worth coming miles to see. Frank Genovar will officiate in both games and a better man could not be secured. Mr. Genovar knows the game from A. to Z and there are very few things going on that he does not see. —Times Union.

### Increasing Interest in Methodist Church

Interest in the Methodist revival is rapidly increasing, the people are cooperating, the people are praying and the spirit of God manifests himself in the congregation at each meeting.

Personal working squads have been organized, each one headed by a captain. These squads are going out over the city getting in personal touch with the people, so that no man, woman or child will be neglected an invitation to come to church, or an opportunity to surrender himself to God.

Cottage prayer meetings are being held in the different districts.

Constant work and prayer like this should to shake the very foundations of the city and be a force as strong as that which put over the great Liberty Loan drives in our country.

Dr. Walker will preach tonight on "Joshua's last message to the children of Israel." Come and bring someone with you.

### Death of Mrs. Zachary

The funeral of Mrs. Mary Zachary was held yesterday afternoon at 1:30 o'clock at the home of A. D. Zachary, on Magnolia Ave. Dr. S. W. Walker conducted the services.

Many friends were there to bow in sorrow with the bereaved family.

The remains were taken on the 3:45 P. M. train to Burlington, N. C. where they will lie at rest by the side of H. C. Zachary, who is buried there.

Mrs. Zachary leaves six children: J. W. Zachary, of Coolman, N. C.; A. D. and W. A. Zachary, of Sanford; Mrs. John A. Bridges, of Raleigh, N. C. and Mrs. A. K. Powers, of this city.

Mary A. Cates was born at Near Oaks, Orange County, N. C. Feb. 2nd., 1850. In 1868 she was married to H. C. Zachary and moved in 1904, with her husband to Tallahassee, Florida. A few years later Mr. Zachary died and in 1910 Mrs. Zachary moved to Sanford to live with her son, A. D. Zachary. She lived here for ten years and was loved and esteemed by all.

Her death on Tuesday after a short illness was a sad shock to Sanford.

### Forgive

There has been a lot said and wrote about the S. U. Co. and most of it was the truth. One of the things that is hard to forgive is being obliged to pay for sitting in the dark. The Company ought to be reasonable and not charge for what the people have not received. But friend Holly says they are making some repairs and that all will be well. Now Robert we are taking your word for that as we do for lots of things

and if it proves to be a false report down comes your reputation as a man of truth.

We have all quit cussing the S. U. Co. on your say so and as our sympathy is always with the fellow that is down we will endeavor to spread the broad mantle of charity and brotherly love and FORGIVE. FRIEND.

### R

**Melons Hurt By Cold Weather**  
Summerfield, March 25.—G. H. Copeland of Chicago, was here last week looking over the watermelon situation in this section. He informed us melons were badly injured by the cold weather as far as Fort Myers Mr. Copeland is a commercial melon grower and has contracts throughout the melon sections for several hundred acres.

### Doctors Raise Prices

The physicians of Plant City met yesterday and signed an agreement to increase their prices, and to cease working for those who do not pay their bills—also to keep "charity lists" which will be accessible to the physicians.

The doctors say that their "personal and professional expenses have greatly increased" Owing to the spirit of high prices that permeates the atmosphere of the world today there is no other recourse open to professional men but to increase prices. That the medical men of Plant City have adhered to the old standard of prices so long is surprising. Physicians in many other cities raised their scale of prices when living costs increased.

The action of the physicians is in line with everything else.—Plant City Courier.

### Frank Kay Anderson Here

Frank Kay Anderson former editor of the Bartow Record and one of the best known writers in the state was here today on business. He is now with the the Thomas Advertising Co., of Jacksonville and has charge of the Tampa office. Frank moved to this county which was then part of Orange county while he was a mere baby coming down from Tennessee to reside with his mother and his grandparents who had a large orange grove and beautiful home near Palm Springs. Frank purchased the old place many years ago and contemplates to live there after he has made his pile and gets

MEMBER OF THE ASSOCIATED PRESS

**BEGGED TO DEATH**

"I'm begged to death now," said a man the other day when he was approached for a contribution for a most worthy home object. Mighty few men give away more money than they should. A dead town is never canvassed. Had you ever thought of that in a live town like Sanford there is naturally something doing all the time. The men who approach you for your support in public movements are giving not only their time but their money. If you can get off with the money only you are getting the best of it. There is only one way to stop public subscriptions for public purposes in Sanford and that is to stop movements. Would you like to see our public institutions and public movements stopped? Honestly do you regret a single dollar you ever gave to help such a movement? Hasn't your reputation for generosity brought you many valuable acquaintances and business connections?

It is true that we have all been run to death in the past two years for drives of all kinds but public movements will continue in this growing city of Sanford and you will be importuned from time to time to give for these public enterprises that mean so much to your city. When you are given them what you can for it all goes into the hopper of "city making" and like the bread upon the water will return to you in many ways.

**OUR DUTY TO THE PEOPLE**

A little article handed in by one of our friends yesterday for publication entitled "Forgive" had no name attached and we overstepped one of our rules by publishing it without knowing the writer's name but it was expressing a fine sentiment and we published it. The article stated among other things that we had all suffered from the "absent treatment" of the Southern Utilities Co., this winter but since the editor had said they were getting things in shape out there the people would believe it until it had been proved otherwise and meantime if they were really fixing up the plant the writer could forgive them for what they had done to us.

But what struck the editor in the tender spot was the sentiment expressed that the people believed what the editor of the Herald said because he had never betrayed their confidence. That they could depend upon what the editor of the Herald said because he had always stood by them and this is the only thing in life when you consider it from all sides. We have never sold out the people no matter where we have operated a newspaper. Our record stands clear on this score and is one of the reasons perhaps that we are not riding in automobiles and have a swelled bank account because the times have occurred time without end when we could have sold out the people, our people, for the money that spells many things in a material sense of the word but lacks a lot of spelling a clear conscience and a sense of being a four square man who is working for his people and for his community and working

for a bare living just as the minister and the school teacher and many others are doing—for the mere love of doing their duty toward mankind and endeavoring to make the world a better place in which to live.

And when we get a communication like the one published yesterday even though we do not know the author it makes us feel that our work for people has not been in vain and when the final call comes to depart this life we can look back on the days spent for well being and for the good of humanity with the thought that we worked for the uplift of the world in general and our own people in particular and mere gold that cannot be taken with you will have turned to brass but the pure metal of appreciation of your fellow men will follow you beyond the grave.

The only heritage that the editor of the Herald wishes to leave his children is the good name of their father, that his memory may be cherished in the hearts of all who knew him and that his children may hear nothing but kindly words for the father who never betrayed a trust, who fought for the right as he saw it and who never took undue advantage of any one.

With respect to our article on the Southern Utilities Co., which gave rise to the communication we wish to state that it was written while there was gall in our gizzard toward this company who have lost us our business and ruined our chances for a daily paper this season. But it was written because we wish to give every man his just dues and if they really keep up the work that they have undertaken at the plant, some day they will give us service and we said in our article that no man could tell at this time just when they would be able to give real service again.

We fight when we fight and we fight fair and in the open. We make amends if we are wrong and it takes a man to do that.

And when a fight is over it is over with us and we never hold a grudge regardless of whether we win or lose.

Also and in conclusion this paper will continue to point out the shortcomings of the Southern Utilities Co., or an individual owner of a utility plant who is supposed to furnish the city with lights, power, gas and water and fail in their duty and demand money for service that has not been furnished.

**TOO MUCH LUXURY**

The Sanford Herald says that the American people are suffering an insatiable craving for the luxuries of life. Bob says "time was when if we had a good home, plenty to eat and wear, and any means of recreation and enjoyment we were contented and happy."

We'd like to know why The Herald should expect us to believe in the sincerity of this philology after reading its daily plaint about current events, or, rather, lack of current. Bob Holly has said repeatedly that all he wants now is a steady flow of 110 AC, enough water in the mains to mix the paste and enough gas to permit him to continue roasting of the utility company.

Despite the fact that Bob may be a little pessimistic, nay, even peeved, we believe he has diagnosed at least one of our ills correctly.—Palatka News.

**TO ELIMINATE BEGGARS**

Good way to prevent impositions upon the sympathetic public would be to require "blind" and "mained" beggars to get a permit from the Board of Health before taking positions on the streets. The health officer could require the wandering mendicants to prove their disability as claimed—or get them started for somewhere else.—Times Union.

The suggestion of The Times Union has some merit, but does not eliminate the mendicant.

A crippled human being appeals to the heart of everyone possessing a drop of the mill of human kindness yet it is well known that a great percentage of these asking charity are better off financially than are many who give them of their slender purse. However, until there are institutions provided, laws passed and enforced, governing these beggars, they will be with us.

A person who is actually in need should be given a helping hand, but this hand should be the "official helping hand" of the county, State, section of Nation. No one should be compelled, or allowed, to ask alms and if the public knew there was no legitimate excuse for contributing to these unfortunates, if not fakirs, they would draw the strings of their purses so tight the business would become unprofitable and consequently be abandoned.

Those who cannot provide for them themselves are entitled to proper care and protection at the hands of their government. This care should not be termed "charity", but "justice."

There should be an officer in every town and hamlet—the mayor, for in-

stance—who would have authority to investigate every case of destitution coming under his observation and dispose of it in a practical manner by sending the unfortunates to a place provided for them, or giving temporary aid, if that seemed best.

No beggar, crippled or otherwise, should be allowed on the streets of any city or town; no excuse should exist for them and they should not be tolerated. Police officers could be instructed to bring every case before the mayor the instant they appeared—and they would fade away like the morning mist, to the betterment of themselves and the community a large.—Plant City Courier.

**FRANKLIN D'OLIER**

Lieut. Col. Franklin D'Olier, a yarn merchant of Philadelphia, who served on the general staff of the A. E. F., was elected first national commander of the American Legion at the convention in Minneapolis.

**Nation's "Balance of Trade"**

"Balance of trade" is an expression used by political economists to indicate the difference between the value of the exports and imports of a country. This theory of the balance of trade grew out of the mercantile theory, which considers the possession of gold to be the chief object of trade. Hence, there rose the belief that a nation increases in wealth to the extent that the money value of its exports exceeds that of imports.

**Dreams That Annoy.**

A queer dream, and a very irritating one, is that of trying to catch a train and missing it, or of getting into the wrong train. If very vivid these dreams usually portend worries of a financial kind, not infrequently embracing the loss of a post or so much pay. If merely vague and blurred, they signify nothing in particular.

**Wireless Interrupted by Mysterious Signals.**

**Marconi Tells of Queer Sounds Which May Come From Outside the Earth.**

London.—Interruptions of the Marconi wireless instruments by mysterious undecipherable signals, which were noted before the war and have been publicly referred to since, are especially featured in the Daily Mail and discussed by Marconi in an interview published by the paper.

"We occasionally get queer sounds and indications, which might come from somewhere outside the earth," Signor Marconi said. "We have had them both in England and America. The Morse signal letters occur with much greater frequency than others, but we have not yet picked up anything that could be translated into a definite message."

"The fact that the signals have occurred simultaneously at New York and London, with identical intensity, seems to indicate that they must have originated at a great distance."

"We have not yet the slightest proof of their origin.—They might conceivably be due to some natural disturbance at a great distance, for instance, an eruption of the sun causing electrical disturbances."

Asked whether possibly attempts were being made by another planet to communicate, Signor Marconi said:

"I would not rule out the possibility of this, but there is no proof. We must investigate this matter much more thoroughly before we venture upon a definite explanation."

He added that the mysterious sounds are not confined to any particular diurnal period; they are frequent by day and night.

**MISS SOUMY TCHENG**

Miss Soumy Tcheng of Canton, China, just returned from the peace conference, where she was sent by the Chinese government to represent the Chinese women, and to report the conference, is in the United States, where she intends to study American ways. Miss Tcheng has lived in Paris eight years, and she speaks French fluently. She is a graduate lawyer, having studied in Paris.

**ENGLISH SPEECH FOR WORLD**

**Belgian Professor Favors Its Adoption as Language of all Nations.**

Stockholm.—English would undoubtedly be the most suitable as a world language, in the opinion of Professor Carnoy of Louvain university, Belgium.

He made this statement in the form of a reply to the question addressed by the Northern Peace society to prominent linguists in various countries as to which language would be best adapted to universal use.

After declaring in favor of English, M. Carnoy wrote:

"The German and French languages have lost their place through the war. The English language is a hospitable one, being a kind of compromise between the Latin and Germanic tongues; also it is simple and is spoken by most progressive nations of the world, and has one of the most beautiful literatures of modern times."

**Anna Gould Aids Aviators.**

Paris.—The Kosciusko squadron of American aviators on the Polish front has found a much-needed godmother in the Duchess-de Talleyrand, formerly Anna Gould of New York.

The duchess has presented 1,000 francs to the squadron. The pilots receive only \$25 monthly and their food and winter clothing therefore were deficient.

When volunteering for the squadron the Americans declined the offer of the Poles of greater pay, saying that they would take only the amount the Polish aviators received. Therefore they were overjoyed at the gift of the duchess, which came as a surprise.

**Unless a Bank is MORE Than a Mere Commercial Machine**

Unless it is more than simply an institution for paying dividends to stockholders; unless it is imbued with a real spirit of public service and a desire to be a CONSTRUCTIVE and UPBUILDING FORCE in the community—then it is falling far short of what a bank should be.

While this bank, like all banks, must be operated for profit, it does not for a moment lose sight of its higher duties to its customers and to the public.

Editor's Request

Once again we come to the lady folks of Sanford with an earnest plea for their co-operation in supplying social news for our society column. However faithful we may be, or strenuous our efforts, we cannot secure the news of this nature from every home or even every section of the town without the support of the women. We want names of visitors, news of motor trips, home folks going away or entertaining dances, card parties, childrens parties, picnics dinner parties, afternoon teas, church socials and church society news; weddings, engagements, club news and Oh! everything that will interest our readers. Phone 395.

Afternoon Bridge

Mrs. E. M. Galloway entertained Thursday afternoon with the third bridge game in a series of four with which she is entertaining the card playing group. The attractive home was very lovely with cut flowers, carrying out a decorative scheme of pink and white. The first prize was a pretty basket of sweet peas, the second an embroidered dress scarf and for low score an embroidered tea towel. The next game of the series will be played in Easter week.

Sallie Harrison Chapter Meets

The Sallie Harrison Chapter of the D. A. R. met at the home of the Regent, Mrs. B. J. Starling on 24th and adopted the following resolution:

Whereas this Chapter has received information that the members of the Campbell-Lossing Post of the American Legion would greatly prefer the building of a home to the erection of a memorial arch in their honor:

Be it Resolved: That the execution of the project so long cherished by us, of commemorating, in lasting stone the deeds of our soldiers and sailors of Seminole County, be, and it is hereby, postponed to a more convenient season.

Be it also resolved: That the Memorial Committee be, and they hereby are, authorized and instructed to procure a suitable lot and erect upon it a substantial and handsome home after plans which shall have been submitted to approval by this Chapter, and to take immediate steps to collect the necessary funds.

The following Committees were appointed to assist in the work:

Ways and Means: Raymond Key, Clifford Bell, G. I. Loucks, F. P. Foster, Roy Bower, G. F. Smith, J. D. Hood, Roy Symes, E. F. Housholder, E. A. Douglass and B. F. F. Whitner.

Building and Grounds: John Russell, F. F. Dutton, Sidney Chase, Arthur Yowell, L. P. McCuller, Donald Bishop, Wm. Watson, Mr. Ball, R. E. Squires, John Meisch Forest Lake, C. E. Henry, Geo. Chamberlain, N. H. Garner and A. P. Connelly.

Mr. Lester Brumely, Gen. Chairman, Mr. Frank Mahoney, Vice-Chairman and Mr. Robert Holly, Secretary.

New Tom Mix Picture Said To Be Thriller at The Princess Tomorrow

The famous cowboy star, Tom Mix, will make his debut in the city as an author and producer at the Princess tomorrow where William Fox will present his latest and greatest Western thriller, "The Daredevil". This photoplay promises to be something new, for Mix is giving the public his idea of what a fast moving

No. 1930. United States District Court, Southern District of Florida. In the matter of Anna C. Woodbridge Bankrupt.

IN THE MATTER OF PETITION FOR FINAL DISCHARGE

On this 25th day of March A. D. 1920 on reading the foregoing petition, it is ORDERED by the Court that hearing be had upon the same on the 5th day of May A. D. 1920, before said Court, Jacksonville, in said District, at ten o'clock in the forenoon, and that notice thereof be published in the Sanford Herald, a newspaper printed in said District, and that all known creditors and other persons in interest may appear at said time and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

And it is further ordered by the Court that the Clerk shall send by mail to all known creditors notice of said petition and this order, addressed to them at their places of residence as stated.

WITNESS, The Honorable RHYDON M. CALL, Judge of said Court, and the Seal thereof at Jacksonville, in said District, on this 25th day of March A. D. 1920. 129-11c. Edwin R. Williams, Clerk.

City Tax Payers Take Notice The law provides that "If taxes upon real estate shall not be paid before the first day of April of any year, the Tax Collector shall advertise and sell."

This is to notify all tax payers that the requirements of law will be complied with and the Tax Books of the City will positively be closed on April First as provided by law and all lands on which taxes have not been paid will be advertised for sale and executions issued for unpaid personal property taxes.

ALFRED FOSTER, City Tax Collector. 124-101c. For kilm powdered milk phone 2412 W. W. Dressor. 118-121p.

The Ladies Union of the Congregational Church will have a cooked food sale Saturday afternoon March 27th at the the Union Pharmacy. 125-41c.

When Fire Comes

It's Too Late. Do you know that the United States fire loss last year was over \$670 a minute?
