Will Continue Quiz Despite Charge Against Wheeler; Dawes Committee Reports

Committee in Secret Session Decides To Push Justice Probe

Witnesses Quizzed Regarding Conditions Surrounding Enforcement of Prohibition in Illinois, Department of Justice Action War Contracts And Fraud Case in Boston.

(By The Associated Press) WASHINGTON, Apr. 9.—The committee appointed to investigate the Department of Justice under the leadership of Harry Wheeler after an executive session today that its inquiry proceeded with renewed force. The indictment of Senator Wheeler, the committee prosecutor, the meeting was behind closed doors. The indictment against Montana senator was discussed by the committee in a secret session. The committee was reorganized after the resignation of Charles G. Dawes, and the new committee is expected to report its findings in a few days.

Stork department of justice was then questioned about the list of department of justice action war contracts and fraud case in Boston.

WHEELER AVERS INDICTMENT DUE TO CORRUPTION

Denounces Charges Made Against Him on Floor of Senate to Crowded Galleries—Money Interests Behind Move

(By The Associated Press) WASHINGTON, Apr. 9.—Rising to the question of personal privilege, Senator Wheeler denounced on the floor of the Senate today the indictment returned against him yesterday by the grand jury of Montana, where he is a resident. Senator Wheeler spoke to a crowded senate, practically every member being set in the galleries jammed.

The Montana senator first gave a brief resume of his personal career from his birth to his entrance into public life at Butte, Montana, where he incurred the ill will of one of the largest financial interests in the state by voting Senator Walsh president colleague. For that vote the senator said he was told he could not remain in Montana.

With Senator Wheeler were indicted Gordon Campbell, oil geologist and operator and L. C. Stevenson, oil promoter and principal owner of an oil refinery. Campbell and Stevenson were the discoverers of the Sunburst-Kevin oil field in Montana. Other oil men of less prominence also were indicted on charges of using the mails to defraud.

Grand Jury Charges. The grand jury charges that on three occasions Senator Wheeler had been indicted by the grand jury of Montana for conspiracy to defraud.

The Montana junior senator is accused in the indictment of having taken money from Gordon Campbell and others to secure for them oil and gas prospecting leases giving them the exclusive right to develop oil on government lands for a period of two years.

Campbell and Stevenson are mentioned in virtually all of the oil district in West.

E. J. Daley, who was among those charged with unlawful use of the mails, was caught in the recent oil cases in Texas which led to the conviction of Dr. Cook.

Daley himself was convicted and at present is serving a prison term of a year.

John L. Slattery, United States district attorney who presented the cases to the grand jury said that a warrant for Senator Wheeler's arrest would be telegraphed to Washington. The technical charge is violation of section 115 of the United States penal code.

To Continue Duties. The Montana senator's statement was issued after a conference with his associates and after he had decided not to return immediately to Montana in view of the indictment. What legal steps are needed in the first instance, he indicated, he emphasized.

He said: "This indictment is merely the latest illustration of the corruption of the department of justice. The machinery of federal justice has been utterly prostituted. On the one hand there have been failures to indict, failures to prosecute, failures to bring evidence against the criminal belongs to the gang.

"The failure of the department of justice to indict ex-Secretary Fall, although months have elapsed since his connection with the oil leases has been exposed, illustrates how the department of justice protects the members of the conspiracy.

After Three Months' Work Committee On Reparations Rests

Committee Recommends Establishment of Golf Bank of Issue with Immense Capital and Co-operation of Allies in Establishment of Such Bank Enabling Germany to meet Requirements

(By The Associated Press) PARIS, Apr. 9.—The report of the experts engaged for the past three months in the task of determining Germany's capacity to pay reparations was handed to the reparations commission today. Two committees under the chairmanship of Charles G. Dawes and Reginald McKenna have gone deeply into the intricacies of the many problems connected with the reparations and state in their report they approached the task "as business men anxious to obtain effective results."

The recommendations of the two committees which make a voluminous document include that Germany should pay reparations and that she has resources with which to pay but she must have her hands free to exploit her economic resources. They pre-require to the payment of reparations in sound money in Germany. The committees recommend the establishment of a gold bank of issue with 400,000,000 gold marks capital.

The Allies and Germany should co-operate in the organization of such a bank. Germany's production will enable her to meet her own requirements and raise amounts to apply on the reparations. Yearly graduating installments running from 110,000,000 gold marks in 1924 to 2,500,000,000 in 1934.

In order to prevent these payments affecting adversely Germany's economic stability, the index which has been fixed must be possible to judge whether the amounts in the scheduled payments are beyond the capacity here.

The experts plan to embrace the League of Nations in that any change of point upon the application of statistics of this index shall be referred to the finance section of the league for arbitration.

Brigadier General Charles G. Dawes, the unofficial American representative on the first committee which examined the economic and financial situation in Germany, in a covering letter to the report of his committee tells the reparations committee that the committee's recommendations "must be considered not as inflicting penalties, but as suggesting means for assisting the economic progress of Germany."

Harding's Friends In Ohio Are Aiding Coolidge Campaign

(By The Associated Press) COLUMBUS, Apr. 9.—If President Coolidge is victorious in Ohio in obtaining pledged delegates at the April 29 primary, he will have behind his candidacy in this state virtually the same organization that helped Mr. Harding to victory in 1920. With few exceptions, it is the Harding home-state forces that constitute the Coolidge pro-convention organization.

Next in the name of the candidates for delegate-at-large to the Cleveland convention is the name of the most faithful of all "Harding men," Attorney General Harry M. Daugherty.

Another candidate for delegate-at-large under the Coolidge banner is Mrs. James Gordon Battelle, of Columbus, an associate member for Ohio of the Republican national committee, whose husband, the late Colonel Battelle, as far as 10 years back, was talking of his friend Warren G. Harding for the presidency.

Col. William Cooper Proctor, of Cincinnati, is another candidate from this state for delegate-at-large. He is the only one of the lot who was not a pro-convention Harding man four years ago. He was one of the most prominent backers of the candidacy of General Leonard Wood.

Early Action on Henry Ford's Offer For Muscle Shoals Appears As Senate Agrees To Start Hearing on April 22

(By The Associated Press)

WASHINGTON, Apr. 9.—Senate favoring acceptance of Henry Ford's Muscle Shoals plan to make an attempt to force early action on the measure. Senator Harrison, Democrat, Mississippi, served notice on the senate agriculture committee Tuesday that unless the committee started final consideration of Ford's bid by Tuesday April 22, he would move on the floor that the committee be discharged from further consideration of the bill and the bill placed on the senate calendar. In that status it could be called up for consideration whenever the requisite number of votes were available.

HADDOCK GIVES RESUME SCOUT ACTIVITY HERE

Statement Shows Remarkable Growth of Sanford Troops Since January 1.

Following is a birds-eye view of the activities of the Sanford Boy Scouts for the first three months of 1924.

There were on January 1, 1924, three troops with a membership of 36. By March 31 there were three troops with 51 members.

The advancement in the several troops has been almost surprising. There is only one troop in the county and Sanford boasts of him. We are expecting more at the next Court of Honor, however.

The boys have not been standing idly by but have been helping others at all times. Following are a few letters which are self explanatory:

"We wish to take this opportunity to thank you for the services of the Boy Scouts in entertaining the visiting members of the National League of Commercial Merchants. The boys exhibited a real Boy Scout spirit and assisted materially in directing the party about the city."

"The Southside Primary School Parent-Teachers' Association wish to express sincere appreciation to the Boy Scouts for their great help in the work of planting and beautifying the grounds of the Southside Primary School."

"I can truthfully say that even with my very brief observance of their efforts and limited knowledge of their accomplishments, that I was struck with two commendable characteristics. Their enterprise and their reliability impressed me from the very first. They cheerfully accepted responsibilities, dodged by many of their elders, and carried it all through to a successful and praiseworthy culmination. They were also most cordial and courteous to me and my associates both on the streets and at the tent. It has been a genuine pleasure to know them."

"In behalf of the Near East Relief Committee, I wish to thank you for your contribution."

"I am very much interested in the Boy Scouts and appreciate your thoughtfulness in making Sanford a Bird Sanctuary."

"We wish to thank you for Continued on page eight."

"The corporation would agree to manufacture nitrate for fertilizer and hold the property in readiness for the production of munitions during time of war. The corporation would be controlled by a board of directors of five men, two of whom would be appointed by the secretary of agriculture and who would have exclusive control over the production and distribution of nitrate. The full board would control the production and sale of powder.

OPPOSITION TO WELFARE WORK PLAN DEVELOPS

County Commissioners Pass Motion To Investigate Matter Thoroughly Before Taking Final Action—County Federation Much Opposed to Plan Advocated by Red Cross Representative.

At their monthly meeting Tuesday, the Seminole County Commissioners voted to appoint a committee of two composed of Chairman John Meich and H. F. Wheeler, to look into the proposed organization of a county welfare work in this county. Such a plan has been advocated for some time by Miss Marion Crawford and which was explained by her at the meeting Tuesday.

COOLIDGE NOW LEADS JOHNSON IN ILLINOIS

With Most of Precincts Heard From Coolidge Leads All Others in Preferential Primary.

(By The Associated Press) CHICAGO, Apr. 9.—William G. McAdoo had no opposition in the preferential primary of the Democratic ticket, but Col. A. A. Brague and Norman L. Jones, gubernatorial nominations, respectively, with the support of the regular Democratic party, defeated McAdoo, who led late Tuesday night leading approximately three to one over the California candidate for these places.

The voting was an extraordinary long and an extraordinary long in the day, there is a possibility that the election clerks was content for presidential preference, governor and United States senator, almost no returns from Democratic precincts having been tabulated several hours after the polls closed.

DETROIT, Apr. 9.—The overwhelming victory of Calvin Coolidge in the Republican ticket, the apparent defeat of Senator Woodbridge N. Ferris by Henry Ford in the Democratic ballot and saw-saw contest between two women candidates for a place on the Democratic national committee—these were Tuesday's outstanding features of Monday's state-wide preferential primary.

Ford's advantage over Ferris was narrow, 2,000 precincts giving the Detroit manufacturer a lead of only 2,533 which is somewhat unfirst. The margin maintained earlier in the day, there is a possibility that complete returns might give the Ford lead, late returns in the main favoring Ferris. The missing precincts mostly are from rural sections.

James E. Davidson, Bay City Republican banker, was re-elected Republican national committeeman. William A. Crockwell was elected to one of the vacancies on the Democratic national committee but the contest between Etta C. Holtwood and Evelyn S. Marshall for the other place was undecided. Mrs. Holtwood having a lead of 42 votes on returns from 2,000 precincts.

Cobbs Is Principal Speaker Today At Kiwanis Luncheon

The principal speaker at today's luncheon of the Kiwanis club held at the Valdes Hotel was John L. Cobbs, Jr., publicity director of the Atlantic Coast Line Railroad. "You and Your Railroads" was the subject chosen by this speaker who demonstrated his familiarity with his subject.

President Dumas appointed Kiwanians Gardner and Scott as a committee to represent the club in the organization of a county welfare committee. Kiwanians Ball and Deane were named a committee to be in charge of the O. R. Campbell, state auditor, E. To-Denver Movement.

C. Nelson of Orlando and R. J. Holly of Sanford extended words of greeting to the club. Kiwanians Baumel, Dumas, Malmes and Lloyd composed a quartet which favored the club with "Sweet Adeline." J. L. Matthews was voted a member of the organization. The attendance prize was awarded to R. H. Berg.

"Railroads cannot continue giving good service if they are restricted by new legislation and tied hand and foot" was the statement of Mr. Cobbs in his address to the club.

For over 20 years, according to the speaker, the railroads have been receiving restrictive legislation rather than constructive legislation on the part of the lawmakers of the country. On account of these heavy restrictions they have been handicapped in keeping up with the rapid development of Florida.

The first relief given the railroads was in the passing of the transportation act of 1920 which allowed them earnings of five and three-quarters per cent of the value of their investment. From these earnings had to be deducted many expenses including interest on indebtedness and a reserve fund.

Frank Jennings And Bryan Will Present Their Views To Citizens Of This Community On Thursday

Gubernatorial Candidate Will Speak At Night and Great Commoner Will Give Address in Afternoon—More Prominent Citizens Comment on Candidacy of William J. Bryan Today.

Sanford will entertain and be entertained by two prominent figures in the political affairs of Florida on Thursday when William J. Bryan will speak to the voters in the afternoon at 2:30 o'clock and Frank E. Jennings, candidate for governor, will address the citizens of this section at 8 o'clock that night.

W. J. BRYAN TO BE FOR CHOICE STATE'S VOTERS

Declares in Statement Issued Recently That He Will Support Man That Voters Indicate in Preferential Primary.

William Jennings Bryan, who is a candidate for delegate to the national Democratic Convention from the state of Florida, and who will be in Sanford Thursday afternoon to speak in the interest of his candidacy, will support the choice of the voters of this state as expressed in the preferential primary, according to an announcement made recently.

"I am for W. J. Bryan and I am not ashamed of it. I am going to vote for him and I don't care who knows it. Furthermore I am going to influence everyone that I can to support him. I'll not beat around the bush, he is the man to go to the convention and you may not realize it but he will fight to get by his own nomination. I think by all means he should go to the convention."

When asked for his views on Mr. Bryan, Rev. W. J. Carpenter stated: "I am for W. J. Bryan and I am not ashamed of it. I am going to vote for him and I don't care who knows it. Furthermore I am going to influence everyone that I can to support him. I'll not beat around the bush, he is the man to go to the convention and you may not realize it but he will fight to get by his own nomination. I think by all means he should go to the convention."

W. A. Tillis, for years a citizen of this county and a strong admirer of Mr. Bryan, declared as follows: "I believe in the support of the 'I' believe Mr. Bryan. He is a man of ability will mean a great deal for the people of this state and the Democratic party if he goes to the convention."

Mrs. John G. Leonard, when approached, had this to say: "I think it would be a disgrace to the state of Florida if the voters of this state do not elect William Jennings Bryan as a delegate to the convention. I think he is a wonderful man and his sincerity and earnestness of purpose cannot be questioned. I trust that a large crowd will hear him and especially do I hope that many of the women of this section be present."

G. A. Speer declared: "Mr. Bryan will certainly have more weight than any other man that Florida could send to the convention. I believe he could do the state a lot of good. He surely should be elected, I think."

Here is what H. B. Lewis had to say: "I think he should go to the convention. Although I haven't been in sympathy with everything he has done in his official career, I do think he is a wonderful man and have thought so since I first heard him in Ohio when he was running for president the first time. Bryan is not only one of the outstanding men of this state but is equally as prominent in national political circles and the people of this state could not make a mistake by sending him to the convention."

R. W. Fearman, Jr., stated: "Looking at it from a public standpoint, sending Bryan to the convention, would mean more to this state than any other one thing at this time. Because of his prominence and the influence that he has, he will have a great deal to say at the convention which of course will have much to do with the selection of the nominee."

Mrs. E. E. Tolar, when called over the telephone said: "I have always been a great admirer of Mr. Bryan. He has always been a fearless advocate of the fundamental principles of the government as set forth in the constitution and I am quite sure that he would represent this state with that same fearlessness in the present time. I sincerely hope that a large crowd will hear him and I trust that many of the women of this section be present."

When asked for his views on Mr. Bryan, Rev. W. J. Carpenter stated: "I am for W. J. Bryan and I am not ashamed of it. I am going to vote for him and I don't care who knows it. Furthermore I am going to influence everyone that I can to support him. I'll not beat around the bush, he is the man to go to the convention and you may not realize it but he will fight to get by his own nomination. I think by all means he should go to the convention."

When asked for his views on Mr. Bryan, Rev. W. J. Carpenter stated: "I am for W. J. Bryan and I am not ashamed of it. I am going to vote for him and I don't care who knows it. Furthermore I am going to influence everyone that I can to support him. I'll not beat around the bush, he is the man to go to the convention and you may not realize it but he will fight to get by his own nomination. I think by all means he should go to the convention."

When asked for his views on Mr. Bryan, Rev. W. J. Carpenter stated: "I am for W. J. Bryan and I am not ashamed of it. I am going to vote for him and I don't care who knows it. Furthermore I am going to influence everyone that I can to support him. I'll not beat around the bush, he is the man to go to the convention and you may not realize it but he will fight to get by his own nomination. I think by all means he should go to the convention."

W. J. BRYAN

William Jennings Bryan will address the citizens of Sanford and Seminole county Thursday afternoon at 2:30 o'clock at the Seminole Bank corner in behalf of his candidacy as delegate to the National Democratic convention.

W. J. BRYAN TO BE FOR CHOICE STATE'S VOTERS

Declares in Statement Issued Recently That He Will Support Man That Voters Indicate in Preferential Primary.

William Jennings Bryan, who is a candidate for delegate to the national Democratic Convention from the state of Florida, and who will be in Sanford Thursday afternoon to speak in the interest of his candidacy, will support the choice of the voters of this state as expressed in the preferential primary, according to an announcement made recently.

CITY NEWS PARAGRAPHS

AT THE MILANE
Manager Brockhahn of the Milane Theatre, has bagged the best theatrical plum of the year. Following his request for letters from patrons desiring to see the Universal production "The Hunchback of Notre Dame," he was literally swamped with mail, each pleading "parade" and "support."

Church Organized Class Conventions Will Be Held Soon

(By The Associated Press) JACKSONVILLE, Fla., Apr. 8.—The week of Apr. 13-18 will mark the meeting of two Baptist organized class conventions in Florida. Instead of holding one convention in a centrally located city of the state, W. W. Williams, the state secretary, in co-operation with the Sunday School board in Nashville, has planned for these two conventions, one to meet in Tallahassee Monday and Tuesday, Apr. 14-15, and the other to be held in Lakeland Apr. 17-18, (Thursday and Friday.)

LEWIS O'BRYAN CANDIDATE FOR STATE SENATE

(Continued from page 1.) In speaking of his candidacy today, Mr. O'Bryan stated that he believed that many users and non-users of land are being easily curtailed. He declared that he will be in favor of laws contemplating material and educational progress, tending to protect and preserve the state's natural advantages and to encourage investments.

Washington News

(By The Associated Press) The senate confirmed Harlan F. Stone, of New York, to be attorney general. The senate passed a bill to prevent monopoly of radio communications. Investigation of the shipping board by a house committee. The revenue of the tax will prior to reporting it to the senate.

BUILDING A GREATER CITY

Sanford is developing in all directions. Over a vast territory the city is growing and prospering. The needs of everyone, rich and poor, in each part of the city find expression in the Want Ads in The Herald.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Staff Writer.

WASHINGTON, D. C.—The spirit of Boies Penrose, former boss of the G. O. P., does not rest well under the suspicious cast against himself and his beloved party by witnesses before the Senate investigating committee. Such, at least, is the interpretation placed on ghostly manifestations in Penrose's old apartment at the Wardman Park Hotel.

the Dark Horse... Democratic convention. But Sam isn't running, he insists. If he gets the nomination it will be because he was run, not because he ran. He will serve, if drafted for the job. It would be neither a human nor a territorial office. But human and territorial office were at 66, when one has lived a busy life and has accumulated avoidable as well as honors, ambition gets sluggish. And even the lure of the presidency fails to stir Sam's pulses.

U. S. MUST KEEP OUT OF EUROPE'S AFFAIRS, KNIGHT

Prominent Tampa Attorney in Address Before Hardware Convention Avers Country Must Steer Clear of European Entanglements. (By The Associated Press) NEW ORLEANS, Apr. 8.—"There is one mistake we must not make and that is to enter into any political alliance with any of the nations of Europe," declared Col. Peter O. Knight, general counsel of the Southern Hardware Jobbers' Association, addressing the joint annual convention of the American Hardware Manufacturers' Association and the Southern Hardware Jobbers' Association, here today.

GEOLOGY EXPERTS RETURN FROM AN EXPLORING TRIP

Visit Southern Part of State On Extensive Expedition To Investigate Limestone Resources. (By The Associated Press) TALLAHASSEE, Apr. 8.—A party of three members of the Florida Geological Survey has returned from an extended field trip through the palmar portion of the state. Those in the party were Heriman Gunter, state geologist; Dr. R. M. Harper, geographer and Stuart Mosson, assistant state geologist. The main purpose of the trip was to investigate limestone resources and to explore the less accessible portions of the country. Most of the trip was made by automobile which was equipped for camping.

Valuation of State School Property Has Large Increase

(By The Associated Press) TALLAHASSEE, Fla., Apr. 8.—The state department of public instruction is compiling a series of bulletins on various subjects taught in high schools of the state, which will be used by teachers in the different departments. The bulletins will embody treatment of the most modern methods of teaching and outlines of courses for the different high school grades. Those on mathematics and English are nearly ready for the press, according to W. S. Croxson, state superintendent of public instruction. They will be by far the most complete work of their kind ever issued by his department, he states. They are being written by some of the leading teachers of Florida, and edited by Prof. R. M. Sealey, state high school inspector.

DeLand Utility Plants Give Rate Decrease

(By The Associated Press) DELAND, Apr. 8.—The Florida Public Service company, new owners of the electric and ice plants in this city, announces a reduction in rates that will apply to all customers in the city of DeLand, to become effective after the next reading of customers meters. The minimum charge for residential use will be \$1.50 under the new schedule, as compared with the present \$2.00 monthly charge. The rates will be further scaled downward slightly until they reach 6 cents per kw for all over 2,000 kw a month.

Tampa Citizen Seized By Three Masked Men

(By The Associated Press) PLANT CITY, Apr. 8.—R. B. North, Tampa salesman could not be found today and city authorities fear he has met with foul play. According to officials he was arrested here Monday on a serious charge. When officers served him supper that night three masked men entered the jail, locked the policeman in North's cell and escaped with the prisoner. The authorities expressed the belief North was taken to the country and dealt with severely by the mob. There are no clues as to the direction taken by the men following their disappearance from jail. A formal charge against North was not disclosed but it is said to be based on an alleged statutory offense.

TO SHIP LUMBER VIA WATER

(By The Associated Press) TAMPA, Apr. 8.—Operation of lumber-carrying steamships between Tampa and Santo Domingo is to be inaugurated with the purchase of a 5,000-ton vessel, according to an announcement made by a company organized for the purpose. Captain W. S. Simmons, of Brooklyn, has gone to Washington to negotiate for the purchase of the vessel. The company plans to establish its own general shipping agency in Santo Domingo, D. R.

Like Knights of Old
YE olde knights used to fight to protect the fair fame of the devices emblazoned on their shields. And the knight without escutcheon was looked upon askance. He had no name to protect. He could live fairly or unfairly, as his whims directed.
Modern knights of industry have devices—the advertised trade-marks of their products. They must safeguard the reputation of these trade-marks to keep them worth while.
Advertising throws a powerful light on a trade-mark. If it proves worthy, it gains popularity and confidence. If it is shown to be unworthy, it quickly fails.
So you can be sure that every consistently advertised product is good. The advertising test has proved it. The name of its maker stands behind it. The trademark is your warranty of satisfaction and true quality.

ERO GIVES FEW HINTS ABOUT THE EXIDE BATTERIES

Manager For Exide Battery Service Gives Some Valuable Points On Well-Known Battery.

When dropping in at the local Battery Service Station a few days ago, one of our representatives inquired of Percy Mero,

the manager, what he thought of "rebuild" batteries.

"The best advice I can give you," said Mr. Mero, "is to leave them absolutely alone. Not because I am selling Exides," he added with a smile, "but because you'll find there's a big difference between the service you will get from a rebuilt battery and what you will get from the product of any reputable and well known battery manufacturer."

"There's probably nothing that you can buy where you are as much at the mercy of the seller as in the case of a storage battery. If you are contemplating the purchase of a used car you can

see whether your wheels wobble, whether there's excessive play in the steering gear or whether the radiator leaks like a sieve. Furthermore, you can listen for loose bearing knocks or worn gears.

"But when you buy a battery, you buy it on its record of past performance, the reputation of its maker, and faith in the man who sells it."

"Do you know how those rebuilt batteries are made?"

Our representative assured Mr. Mero that he did not.

"They are built of parts taken from discarded batteries among which there may be found some plates that are not altogether worthless, but which at their best, cannot give much more service. Likewise, there are separators of which the same can be said.

"By using these parts, adding an occasional new plate, and filling up the jars with new electrolyte, the makers of these rebuilt batteries can produce an article which on the outside looks equal to new.

"But after a few weeks' service trouble is likely to start, and once started, it's useless to try to stop it. For it isn't one plate or one separator that goes bad, but practically all of them at once.

"Do you wonder then, that I am very positive in my advice to leave them alone? It makes no difference what you pay for them, they're an extravagance that no motorist can afford."

Denmark has revived interest in a plan to build a ship canal from the North Sea to the Baltic.

Scientists have figured that nearly 700,000 spiders would be required to produce a pound of web.

Chile is known to have several large deposits of arsenic but never has attempted to develop them.

3,000 EMPLOYEES OF STUDEBAKER GIVEN REWARDS

Long Time Employees of South Bend Plant Receive Recognition on 71st Anniversary.

SOUTH BEND, Ind., April 9. (Special) — White-haired grandfathers, their sons and their grandsons stood shoulder to shoulder at the 71st birthday celebration observed today by the families of 20,000 employees of the Studebaker Corporation at South Bend and Detroit.

Nearly 3,000 artisans were awarded medals for continuous and loyal service of five, ten, twenty and up to sixty years with Studebaker, the oldest automobile manufacturer in the world.

Some Serve 60 Years.

More than 2,000 received bronze medals for five or ten years' service; 157 were awarded sterling silver medals for 15 years, and 222 had gold medals pinned upon them for more than 20 years' employment by the House of Studebaker. The last group included those employees who have been with the corporation from 20 to 60 years. They were cheered by their fellow workers as they received the honors.

For 72 years the name Studebaker has been linked, not only with every improvement in transportation, but with American industrial development as well.

Since its inception in 1852 as a cross-roads blacksmithing and wagon-building shop, Studebaker

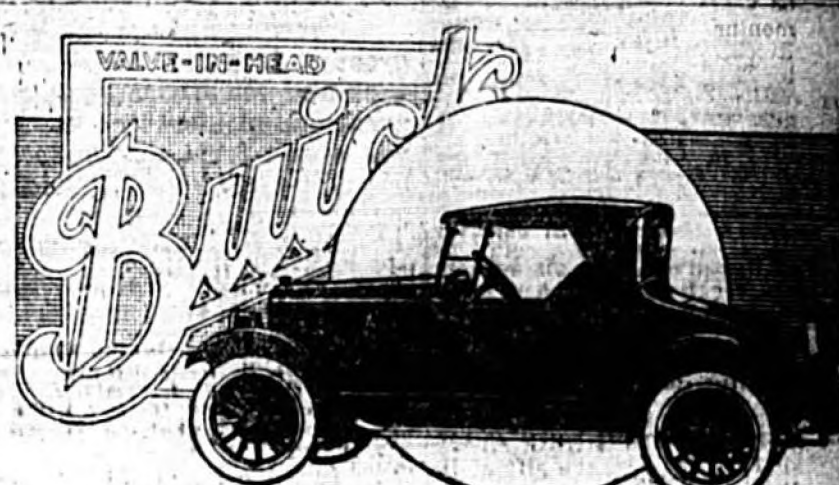

has expanded to one of the greatest manufacturing institutions in the world, with \$90,000,000 of actual net assets, including \$50,000,000 of plant facilities and an annual production capacity of 150,000 cars. Studebaker has 3,000 branches and dealers in the United States and is widely represented in all foreign countries. Branches Out Rapidly.

This romance of the American industrial world began when Henry and Clem Studebaker commenced operations in South Bend in 1852 with two lorges and a cash capital of \$68. They built two wagons their first year, one

of which gave satisfactory service for 33 years, a record that indicates the ideals of quality upon which the business was founded.

Three other Studebaker brothers, John M., Peter E., and Jacob F., joined the firm; the first, John M., adding to the assets \$8,000, which he had earned repairing wheelbarrows and stage coaches in the busy days of the "gold rush" in California.

Imitation diamonds are dissolved by hydrofluoric acid, but genuine gems are not affected by it.

They All Praise Buick

Ask any garageman, any mechanic, in fact, any person who knows motor cars, what he thinks about Buick. Invariably he will tell you that Buick is a thoroughly good, high grade and dependable automobile and that a person makes a genuinely satisfactory investment when he buys one. Then ask the Buick owners you know what they think about Buick. Do these things and you will quickly understand why Buick has sold over one million motor cars and why you, too, should own a Buick.

Edward Higgins

Lincoln Ford Fordson CARS-TRUCKS-TRACTORS

\$200 to \$400 Saved

On This Light-Six Touring Car

By our matchless facilities—our enormous production

HERE is a car priced at \$1,045. Built by ordinary methods it would cost you from \$200 to \$400 more.

It is in scores of ways the leader of its class. No rival car compares in the value that it offers.

Let us tell you how we give that value, then urge you to see this car.

A sensation

Studebaker is today the world's largest builder of quality cars. Studebaker success is the sensation of Motordom.

Sales have almost trebled in three years. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

There are tremendous reasons for this rush to Studebaker cars. And every man who buys a car should know them.

72-year traditions

The Studebaker name has for 72 years stood for quality and class. To build an ordinary car under that name is unthinkable.

Our assets are \$90,000,000—all at stake on serving you better than all others.

We have \$50,000,000 in model plants, equipped with 12,500 up-to-date machines. We have 23,000 workers, under profit-sharing plans which lead them to stay and develop.

We spend on engineering \$500,000 yearly. We employ 1,200 men to give 32,000 inspections to each Studebaker car in the making.

We are lavish

We are lavish in things that count.

We pay 15% bonus on some steels to get them exactly right. We use genuine leather in our cushions. We use curled hair.

We use more Timken bearings in this Light-Six than any competitive car within \$1,500 of its price.

Our bodies are beautiful creations. The finish and coach work show the final touch. But we build them in \$10,000,000 body plants of our own, and pay for these extras in savings.

Where we save

We save by enormous production—150,000 cars per year. Our major costs are all divided by that enormous output. It is utterly impossible for smaller makers to compete.

We save by modern plants, mostly built in the past five years. We save by up-to-date machines. By building our own parts and bodies.

See what this car offers

Come see what this Light-Six offers. How it excels in scores of ways any rival car.

Built with the same steels, the same care and skill, as the costliest of our cars. We have only one grade of chassis.

See its beauty, its comfort, its luxury. See how we have studied your every desire.

Do that and you will choose this car, if you have in mind a price anywhere near this.

Send for the book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon below.

Studebaker Light-Six Touring Car—\$1,045

Same steels as we use in the costliest cars we build. More Timken bearings than in any competitive car within \$1,500 of this price.

Genuine leather cushions, ten inches deep. Curled hair filling. All-steel body.

One-piece, rain-proof windshield. Attractive cowl lights. Standard non-skid cord tires.

Transmission and ignition locks. Perfect motor balance. Curtains that open with the doors.

By far the greatest value in this class.

Mail coupon for book about it

We machine all surfaces of our crankshafts and connecting rods, as was done in the Liberty Airplane motors. No other maker of cars at our prices does this. The result is that perfect motor balance, lack of vibration and long life.

When I raced in the chariot with "Ben Hur."
—Pensacola Journal.
Bring back those times when meals I missed
And sat up nights with "Oliver Twist."
—Exchange.

See the fireworks tomorrow!
The vanguard of office seekers arrive tomorrow. Hear them speak at the Seminole Bank corner.
Now that Daugherty has been kicked out of office he ought to know enough to quit trying to explain.
You can't go wrong if you hear Bryan speak tomorrow. He will convince you that many things that have been said by certain newspapers are untrue.
Pedro Menendez D'Aviles is due to arrive at St. Augustine today to celebrate Menendez day at the Ponce de Leon celebration being held in the old city.
Newspapers are worth a lot of money in Springfield, Ill. A police judge in that city fined a man five dollars after he had confessed to "swiping" a newspaper from a newsstand. Sometimes it's rather risky to pick up a paper belonging to somebody else.
While the Sanford banks have been making such great growth other business enterprises in this progressive city have not been asleep and no doubt if it were known there are many other institutions that have made wonderful records in the last twelve months.

Sanford Avenue in the Sanford Heights section seems to be a popular road for midnight joy riding. No night passes in which residents of that street are not awakened by automobiles going by at high rates of speed with their cut-outs open and every noise making equipment in full operation.
Bobbed hair continues to grow in popularity and now women forty and fifty years of age are getting their hair bobbed for the Easter season. Dispatches say that in one department store alone in New York, eighteen barbers are working morning and night to accommodate the rush.
Seminole citizens do not have the opportunity every day of hearing speakers of the quality of Bryan and Jennings. They will prove to you their capabilities for representing you, one at Tallahassee in the governor's chair, the other in the National Democratic Convention.
Once again The Herald wishes to impress on the voters of Seminole county the necessity of registering and paying their poll tax if they are to vote in the primary on June 11. Don't let it off until the last day and then have the matter slip your mind. Important issues are at stake in the election this summer.
Fred W. Kruse of Mankato, Minn., has just made a contract with The Press for twenty thousand inches of advertising for the year. This space will cost Mr. Kruse \$10,000. A few years ago a man was a clerk in a dry goods store but soon branched out for himself and is today one of the most successful business men in that state. He believes in advertising. The first year he was in business he spent \$2,000. This year he spends five times that amount and will do five times as much advertising.

Hear Bryan Tomorrow

William Jennings Bryan comes to Sanford tomorrow. He will make an address at 2:30 o'clock tomorrow afternoon at First Street and Magnolia Avenue; and every man and woman in the city who can in any way arrange it will assuredly be on hand to bid him welcome.

Conscious of the honor of acting as host to the nation's greatest leader, Sanford could well set aside all other business and make this occasion of "The Commoner's" visit a great and memorable one. He will come with a message. He will speak from convictions that his worst enemies cannot but admit are honest convictions. And he will leave Sanford better than he found it.

He will leave Sanford better than he found it, we repeat, just as he has left other towns, hundreds of them, in every state in the Union better than he found them. Gifted with preeminent ability as an orator, endowed with a personality that is broadly magnetic, Bryan carries his listeners to the heights with homely words that any child can understand. He simply speaks from his heart. And his heart is good and true.

After more than thirty years in the thick of partisan politics, William Jennings Bryan can come before the people of America with an unsullied reputation. No corrupting entanglements, no smirch of shady "deals," no feathering of his own nest has ever been ascribed to him by his most pernicious foes. He has waded in the quagmire of American politics and come out miraculously clean. He has kept his ideals, and his faith in the power of right over wrong.

So once more he is making ready to go to his party's councils. As a Florida citizen he is asking to be sent as a delegate to the Democratic national convention. He wants to go in order to work for planks in the party's platform on which the better element of the American people can stand and fight. He is traveling about Florida to tell the voters he is a candidate, because—as every intelligent person knows—Big Business and Special Privilege have given orders to their newspaper organs to do everything possible to prevent W. J. Bryan's election as a party delegate. They want to keep him off the floor of the convention, and for good cause. Wall Street has never loved "The Commoner."

So Mr. Bryan will come to Sanford tomorrow in the interest of his candidacy for election as delegate to the national Democratic convention. He will find here many warm admirers who would vote for him for any office he would accept. And he will also find here numbers of thoughtful men and women who believe that Florida "personally," would be benefited by choosing him as delegate. Bluntly put, if nothing else, it would be good advertising.

But regardless of how Sanford's people intend to vote on Mr. Bryan's candidacy in the June primary election, the visit of the far-famed man is an event. Sanford should make much of it.

"Be Kind To Animals Week."

Kindness to animals occupies the attention of the nation this week. Special stress is being placed on the way in which we care for our dogs, our cats or our horses and mules. This is "Be Kind to Animals Week" and efforts are being made to make it a week that will accomplish much.

President Coolidge has endorsed the idea. In many places great campaigns are being carried on along this line. No great plans for observing the week have been developed in Sanford but it is well for people to bear it in mind and to give extra thought for the humane side of life, as well as to do what they can do to improve conditions as they effect animal life.

Horses and mules seem to have given way to automobiles and motor trucks but the records tell us that there are still twenty-six horses and mules to every fifteen automobiles. If this be so there should be no let-up on the efforts to give these animals better care and treatment.

In many parts of the country the formation of Kindness Clubs among school children has been going on. Humane societies have been very active and have accomplished a great deal. People are being educated to show more kindness to animals. The work is progressing rapidly and it is work of a worth-while nature.

"Be Kind to Animals Week" will be observed until next Saturday. It is for the purpose of bringing to the attention of the public the work of the humane societies and to urge greater assistance and co-operation in work of this kind.

STILL A COWARD

MIAMI NEWS-METROPOLIS

Once a coward always a coward. That seems to fit the case of G. C. Bergdoll, the American slacker, who fled to Germany for refuge in the moment his country, America, declared war on Germany. It appears that all the fuss and feathers associated with the story of his contemplated return to the United States "to face the music," was pure fiction. Bergdoll neither has resolved to come back to take his medicine, nor announced officially that he intends so to do. The leopard cannot change his spots and the streak of cowardice which is so much a part of Bergdoll grows greater instead of diminishing. Any man who would be guilty of such an offense as Bergdoll was guilty of, should not be expected to display anything in the way of courage and those who are reported to have believed that they had convinced him of the propriety of his return, were basing their hopes upon shifting sands. Among the latest credited remarks of his will be found this: "They've got to show me," meaning that he would not think of returning until he knows exactly what kind of penalty the government will exact. Why pursue the subject further? Let him remain in Germany. America is better off without his presence. He repudiated this country in a crisis. Of what earthly use would he be here, even if he should be locked up in a federal prison for a couple of years?

MY FAVORITE STORIES

By IRVIN S. COBB

The family—Father Jones and Mother Jones and Mister Rollo Jones, aged seven—were taking a sea voyage; it was the first sea voyage any of them had ever taken.
And the weather was bad, as so often it is, and the sea was rough, as nearly always it is. The child seemed immune to seasickness, which is a blessing frequently bestowed upon those of tender age. He frolicked about the ship with merry cries and got underfoot and got in people's way and generally annoyed himself as any healthy active seven-year-old does on a holiday.
On the second day of their indisposition his parents dragged themselves up on deck. If they must die—as seemed to them probable—they would die in the open air under the skies rather than in a stuffy and crowded stateroom. Comiserating stewards guided their languid steps to two splenic chairs placed side by side on the deck. The child sat down there and covered them

As Brisbane Sees It

Six Against a Thousand.
Australian World Pioneer.
Guardian of the White Race.
Under the Shadow Asia.
Copyright, 1924

IF A Chicago man began digging in his valuable lake-front lot kept on digging and could stand the heat, he would come out on the other side, very likely, on some sheep range in Australia.
We Americans say to ourselves: "Australia is on the other side of the world; nothing on this earth can be farther from us." We forget that nothing could be more important, more "near," to us than Australia, since her people are pioneers of the white race living in the shadow of Asia, protecting vast territory for white men in the future.

THERE ARE six million people in all Australia, a great island empire with cities as far apart as New York and San Francisco. In that vast domain live only as many as are crowded into New York City.
And all that IS A WHITE MAN'S LAND, SETTLED BY WHITE MEN, marvelously developed, all things considered, by white men and forever to be kept a white man's territory, if the six million Australians are upheld, as they should be, by their brothers here and in Europe.

WE IN America have our moments of hard thinking about Asia and its yellow menace although we are 110,000,000 strong, the richest nation in the world, with seven thousand miles of ocean between San Francisco and Asia's doors.
Think of Australia, with only 6,000,000 people, industrious, intelligent, courageous, determined, but not rich, living under the shadow of a thousand million Asiatics; living, as it were, under the great dike of Asia's population, constantly on the alert to see that there is no break in the wall.

HOW QUICKLY Asia would flood and possess the great fertile lands of Australia, you realize when you look at Java, an island that had 2,000,000 population in 1800, and now has 35,000,000, increasing every year by one million Japanese. Japan, long before this century ends, would swallow up Australia, with its handful of Australians, in a flood of brown humanity. But Asia says, "NO," and means no. Asia knows it, and fortunately for the white race, the British Empire and the sympathy of all white nations are back of Australia in her determination to remain white and free from Asiatic control.

AUSTRALIA KEEPS OUT ALL ASIATICS and this includes His Majesty's subjects that dwell in India. They may be citizens of the British Empire, but they cannot enter Australia.
The gentlemen's agreement "or other palavering," Australia says "keep out," and they keep out. And Japan, constantly threatening to break through the right of the United States to exclude American territories, utters a note against Australia's Australian exclusion, for Japan knows it would do no good. Asia knows that England, now a mother grown old and needing the affection of her children, would side against all Asia if necessary in defense of the Australian commonwealth.

There is a lesson for American statesmen in that handful of Australians at Asia's doors, 6,000,000 white against a thousand million brown and yellow men, defying them and saying, "You shant come in."
The United States should lend moral support and, if necessary, financial and physical support to Australia in her gallant determination to keep white as much of the world as is white today.

AUSTRALIANS ARE as near to us in time, and as important to us, in fact, as were our own pioneers of old days, west of the Alleghenies, then west of the Mississippi, holding land against the white and yellow for great white tribes that were to come after them.
The Australians hold a great, beautiful land, a gigantic island continent against the hordes of Asia. They are pioneers of white western civilization, maintaining the white and yellow for great white centuries against Asiatic invasion, a great part of the earth's surface.
Except a few mawkish sentimentalists, and a few selfish industrialists that would gladly bring in cheap Asiatic labor, lower their pay-rolls, Australia will have the sympathy of every American who knows anything about the movements of population on this earth, the speed with which one nation can crowd out another.

SEE ON your maps of the world, the Japanese Empire with its tens of millions of intelligent, determined fighters. That whole empire compared with Australia, is but a narrow ribbon that might be cut away by a sharp sword and cattle ranges. Think what courage it takes for those Australians to defy that fighting nation leader of Asia and more than fifty hundred million Asiatics back of it.
WHAT YOU have read is based upon an admirable address by Mr. Hughes, who was Australia's prime minister during the war, and represented Australia at Versailles.
He, it was that fought and beat the so-called "racial equality" plank that Japan tried to force into the covenant of the League of Nations. The vote was seventeen to nine in favor of that equality plank, of which the effect would have been to declare Australian or American exclusion of Asiatics unlawful.
While Mr. Hughes had the statesmen of the world in his grasp (Continued on page 5).

DIE LORELEI

Why Does Peter O. Knight Want Martin For Governor?

LAKE CITY REPORTER

While it is a recognizable fact that the State of Florida has seen fit to invest its governor with more power, more prerogatives, and more duties than have the great majority of the states in the Union, it is not surprising with the fact that greater care should be exercised in the selection of the man who is to shape policies and advocate such measures as will put Florida on the map as the greatest and most prosperous state in the Union. That being true it is absolutely necessary that our next governor must be a man elected by the people and for the people, going into office free from any and all handicaps or retards the best interests of Florida as a whole.

We all know and realize that the development of Florida is in fact only in its infancy and that the type of man who governs the state at this time has much to do with the uniform upbuilding and welfare of the state.

The Reporter recognizes the obligation it holds to its readers to give cautiously and with safety on matters of public importance which affect them and their welfare. Selecting a governor free from entangling influences which may prove detrimental to a progressive administration, serving the best interests of the general public, should not and must not be a playful pastime—it is a grave responsibility which every voter must settle for the progress and development of Florida.

The people of Florida as a whole can never have the opportunity of knowing a candidate personally or intimately. But we are justified in forming conclusions of who a candidate really is, and what he stands for, by considering to a great degree the powerful influences that are active in the support of a given candidate.

Last month the Tampa Tribune, a paper actively supporting John W. Martin for governor, saw fit to publish a letter from Peter O. Knight, of Tampa, written to a South Florida newspaper, praising and endorsing Mr. Martin's candidacy. It is only fair to the readers of this paper that these facts should be made known to them. The name of Peter O. Knight is well known to every dominating corporate influence of Florida. Aside from his great activities in the city of Tampa, he is a director of the Seaboard Air Line Railway and the attorney for all the large street railway companies of Florida.

Many people in Florida and no doubt many of the readers of this paper will remember the time when Peter O. Knight, of

MUSICAL PARAGRAPHS

BY F. S. M.

Recent advertisements: "Let us teach you by mail to play the ukulele and be the 'Life of the Party.'" Acquired popularity in six lessons.

Mrs. John F. Lyons, president of the National Federation of Music Clubs, says: "The time has gone by for the notion that the music club exists for the self-improvement or the entertainment of its members. The basic idea of the music club of today is SERVICE. Service to the community and the cause of music, and that is the idea that the federation is trying to get across to all the music clubs in the land."

Some African tribes have shown mastery of rhythm that they are able to communicate with each other for great distances by means of various rhythmic beats upon their drums.

Weber was fond of animals; among his little menagerie was an angora cat, a huge dog, a raven, a starling and a monkey.

There was a time when the Englishman considered his sword the mark of a gentleman. The Welshman considered his harp the mark of a gentleman, and only king's musicians and gentlemen were allowed to play upon the harp.

Artists are known to be very superstitious, and we can know many of those we listen to are carrying some talisman to insure success; sometimes just a lucky penny or maybe a rabbit's foot from the hind leg left caught by a one-eyed negro in a churchyard some moonlight night.

Some artists express a peculiar antipathy for a cat. Gustave Mahler becomes suddenly ill if he even knows a cat is in the room; again, some artists wear a charm we are told to keep off the evil eye. In Italy the belief of the "Evil Eye" is very common.

The old time ferranti always wore a charm to keep off the bad eye. The once famous Medjick always wept when one greeted him with the words "good luck." It forboded ill. Such superstitions are unaccountable, except the awful fear of cats, which one writer says may be attributed to the fact of some remote ancestor having been "chewed up and eaten by a cat species, and the terror had persisted through generations."

MRS. ESTRIDGE IS HOSTESS TO THE PIPE ORGAN CLUB

The Pipe Organ Club met Monday afternoon with Mrs. I. E. Estridge on Sanford Heights, with Mrs. Smith and Mrs. Estridge as hostesses. The rooms were attractive with bowls of nasturtiums and During the afternoon a number fresh spring flowers, of important business matters were attended to. The club will hold its annual Easter bazaar, cooked food sale and Easter egg sale, the Saturday before Easter at the Halverson's Paint Store in the Welaka Building.

The following officers were elected for the next six months: President, Mrs. W. D. Gardner; vice-president, Mrs. Smith; secretary, Mrs. Gay Selman; treasurer, Mrs. Schalle Malnes.

A contribution was made for the Loan Closet, for the convenience of the county nurse. At the conclusion of the business session the hostesses served a delicious salad course. Carrying out the color theme of yellow and green were paper baskets viled with candies suggestive of Easter, to be used as favors. The next meeting will be with Mrs. Harper on West Third Street. The meeting will be a shower for the Easter bazaar.

BRISBANE

(Continued from page 4.)
 her favor. Australia, luckily for the white race, had Hughes, a short Welshman, with a big fighting back-head, representing her in Versailles. And, when it came to the vote, the chairman declared the motion lost.

THE POPULATION of Australia, as Mr. Hughes points out, is more thoroughly homogeneous than that of any other country outside of Asia, for it is ninety-seven PER CENT. Anglo-Saxon. In the opinion of this writer, it might be made stronger by some mixture of Latin and other white races. But ninety-seven per cent Anglo-Saxon, at least, will stick together and fight together. And the land of Australia will be kept for their descendants and for other white men.

It is a land without excessive individual wealth, where degrading poverty is absolutely unknown. It is to be hoped that Australia and New Zealand will end it possible to welcome the mass of high grade ambitious emigrants from Europe that this country so unwisely excludes, and that Australia may become a great breeding ground for white people.

AS FOR sentimentalists who say, "The world should be free to all God's children," it may be pointed out that, as a rule, each

of them keeps the interior of his own home for himself, and for his particular children. He doesn't throw open his door to "all God's children" from the street.

And, what the individual may do in his own house, the nation may rightly do within its own boundaries. The question involved, as Mr. Hughes truly said, is "simply the right of the nation to say who shall come into its territory."

ROBERTS FOR LEGISLATURE.
 KEY WEST, Apr. 8.—Charles H. J. Roberts has announced his candidacy in Group 1, Monroe county, for representative to the legislature, subject to the Democratic primary June 3. He has held several offices here, including that of internal revenue collector for five years, and later became city auditor.

East Side Primary Of P.T.A. Planning Picnic

Instead of the regular meeting of the East Side Primary Parent-Teachers' Association there will be a picnic.

Some time ago, the members of the Parent-Teachers' Association of this school, promised that as a prize for the grade raising the most money toward the playground equipment fund, a picnic was to be given. As the third grade turned in the largest amount of money, they will be the honorees. The children of the first grades are invited and asked to bring a few sandwiches or a small lunch. They will leave the school building at 1 o'clock in a body. As many of the members of the P. T. A. and mothers are asked to attend: A good time is assured both old and young.

As In A Fairy Tale--

70,000 Farmers Work For You

NOT even the most fanciful fairy tale of our childhood days equals the fascinating story back of every can of DAIRYLEA Brand Evaporated Milk that you use.

As you know, every thinking woman has wished that all the food she serves her family could come direct from the farm.

AND it seems that 70,000 progressive farmers heard that wish. For they built up the largest organization of its kind in the world—to give you a richer, creamier evaporated milk direct from their farms.

That is why DAIRYLEA contains more nutritious milk fats and solids.

BECAUSE this immense business is owned and operated by farmers themselves, your DAIRYLEA Brand Evaporated Milk will always remain these 70,000 farmers' own product, from cows they themselves own.

So when you buy DAIRYLEA you are buying direct from the farmers who produce it, and each can has the combined guarantee of 70,000 progressive farmers.

DAIRYLEA Evaporated Milk is the concentrated wholesomeness of the purest fresh bottle milk, and is produced in New York State where milk laws are most stringent. It is exactly the same milk which U. S. Senator Copeland, when Health Commissioner of New York City, called "the best in the world."

Remember to say "DAIRYLEA" to your Grocer and you will get this can:

ATTRACTIVE STYLES FOR INTIMATE USE

Even the garments one sleeps in must have a slender appearance, to be strictly a la mode. As pajamas take on more feminine features and graces, they grow in favor. Daintiness is strongly emphasized in the model to the left, carried out in crepe material. The jacket is a slip-on effect, with kimono sleeves. It is smartly initialed. Medium size requires 4 yards 36-inch material.

Informality can be chic as well as practical, when it is interpreted in silk crepe and lace as in the combination to the right consisting of camisole and drawers. There is a string belt of ribbon, with wider ribbon bands used for the shoulder straps. Medium size requires 3 1/2 yards 36-inch crepe, with 5/8 yards lace.

First Model: Pictorial Review Pattern No. 1773. Sizes, 34 to 46 inches bust and 16 to 20 yards. Price, 41 cents. Transfer 12031. Bias only, 45 cents.

Second Model: Combination No. 1822. Sizes, 34 to 46 inches bust. Price, 45 cents.

As In A Fairy Tale--

70,000 Farmers Work For You

NOT even the most fanciful fairy tale of our childhood days equals the fascinating story back of every can of DAIRYLEA Brand Evaporated Milk that you use.

As you know, every thinking woman has wished that all the food she serves her family could come direct from the farm.

AND it seems that 70,000 progressive farmers heard that wish. For they built up the largest organization of its kind in the world—to give you a richer, creamier evaporated milk direct from their farms.

That is why DAIRYLEA contains more nutritious milk fats and solids.

BECAUSE this immense business is owned and operated by farmers themselves, your DAIRYLEA Brand Evaporated Milk will always remain these 70,000 farmers' own product, from cows they themselves own.

So when you buy DAIRYLEA you are buying direct from the farmers who produce it, and each can has the combined guarantee of 70,000 progressive farmers.

DAIRYLEA Evaporated Milk is the concentrated wholesomeness of the purest fresh bottle milk, and is produced in New York State where milk laws are most stringent. It is exactly the same milk which U. S. Senator Copeland, when Health Commissioner of New York City, called "the best in the world."

Remember to say "DAIRYLEA" to your Grocer and you will get this can:

C. W. ZARING COMPANY
 WHOLESALE DISTRIBUTOR
 SANFORD, FLORIDA.

Richer Creamier

Convince Yourself!

Even the garments one sleeps in must have a slender appearance, to be strictly a la mode. As pajamas take on more feminine features and graces, they grow in favor. Daintiness is strongly emphasized in the model to the left, carried out in crepe material. The jacket is a slip-on effect, with kimono sleeves. It is smartly initiated. Medium size requires 4 yards 36-inch material.

Informality can be chic as well as practical, when it is interpreted in silk crepe and lace as in the combination to the right consisting of cambric and drawers. There is a string belt of ribbon, with wider ribbon bands used for the shoulder straps. Medium size requires 3 1/2 yards 36-inch crepe, with 5/8 yards lace.

First Model: Pictorial Review Pajamas No. 1773. Size, 34 to 46 inches bust and 16 to 20 yards. Price, 35 cents. Transfer 1201, lace only, 45 cents.

Second Model: Combination No. 1282. Size, 34 to 46 inches bust. Price, 35 cents.

In the World of Sports

Florida Varsity Basketball Team Is Given Letters

GAINESVILLE, Apr. 9.—Eight members of the University of Florida varsity basketball team have been awarded numericals for outters for distinguished service during the past season, and 11 players on the 1924 Freshman basketball squad have been awarded numericals for outstanding play during the campaign just closed.

Captain Edgar Jones, Virgil M. Newton, Otis Marshall, Kenneth Heit, Horace Smith, Byron Edley, Glenn Whitaker and E. M. "Goldy" Goldstein, are the eight varsity men to receive the high athletic honor, while Charles Norton, Ellsworth Weiler, Lamar Sarra, Leland Decker, Bob Igou, Frank Oosterhoudt, Don Mitchell, Red Smith, Jimmy French, Noble Entz and R. D. Pierce were the first year men to receive the numeral '27'.

The Gator varsity met with only four successes during the vicious 1924 campaign, suffering a disastrous six game road trip into Georgia and the Carolinas, and terminating a somewhat uneventful season with a smashing victory over the "rats" in which they displayed for the first time in the season, a truly great and winning article of ball.

Coach Jimmy White gave the great indoor game a boost, however, and the South in 1925 is going to hear more from Gatorland in this field of sports.

Cobbs Is Principal Speaker Today At Kiwanis Luncheon

(Continued from page 1.)

In 1923 more than a billion dollars equipment and during that year about five million more cars of freight were handled than during the previous year. He said that the railroads are trying to keep pace with the rapid growth of the state by continually adding new equipment and by giving quicker and better service but that should any of the 180 bills now pending before congress be passed and the transportation act of 1920 repealed, amended the roads would be forced into bankruptcy and as a result this section and state would suffer.

Mr. Cobbs said there has been much talk about the high freight rates, charged by the railroads but pointed out that the goals of operation

243 Entries In Golf Tournament

TAMPA, Fla., Apr. 9.—Half a hundred golfers started off in the qualifying round of the annual Florida State Golf tournament here Tuesday afternoon. The entry list late today reached 243, paid by tournament officials to be a record for the event.

It was expected Tuesday that this number would be divided into seven flights of 32 players each. On account of the large number of entries, the higher three or four flights will be moved from the Palma Ceia course to the Rock Point Golf Club, a neighboring links in Tampa, one of the state stars, including T. W. Palmer of Miami, defending Champion, Al Uimer of Jacksonville and Gordon Gibbons of Palma Ceia, past champions, were in Tuesday's play. The first round will get under way Thursday morning, with the final round of 36 holes scheduled for Saturday morning and afternoon.

tion have increased so greatly in recent years that the higher course for transportation are absolutely necessary. Wages have increased about 133 per cent since 1916 while in the same period the average earnings have showed a gain of only 97 per cent. During the last eight years railroad taxes have increased 175 per cent while the taxes of the Atlantic Coast Line alone have gone up 25 per cent in the last year.

Mr. Cobbs in concluding his address read a statement by Lyman DeLand, executive vice president of the Atlantic Coast Line Railroad as follows:

"A number of statements have appeared in the papers to the effect that the Atlantic Coast Line Railroad Company is opposing the by the interstate commerce commission, of authority for the construction of the Florida, Western and Northern Railroad. These statements are incorrect.

On Jan. 30 the interstate commerce commission acts to the Atlantic Coast Line Company a list of questions bearing on the application of the Florida, Western and Northern for certificate authorizing the construction of that road. Under an order entered by the commission on Jan. 22, 1924, the Atlantic Coast Line was required and ordered to answer these questions within six weeks. This order was complied with and the commission was notified that we did not desire a hearing before them on the question. Further than this the Atlantic Coast Line Railroad Company has taken no

Stribling Has Been Matched With Burke And Jimmy Slattery

NEW YORK, Apr. 9.—Young Stribling, Georgia light heavyweight, has signed through his father-manager, "Pa" Stribling, for two fights in the Metropolitan district. The first will be April 29, probably against Mike Burke, of New York, for the benefit of the Olympic fund, and the second in Newark, probably May 26 against Jimmy Slattery, of Buffalo.

New York promoters announced they had signed Stribling and Slattery, who gained a decision over the southerner in a recent six-round match, but said the date would depend on plans they have foot for a match in which Mickey Walker of Elizabeth, N. J., will defend his welterweight title. If no opponent is obtained for Walker, the Stribling-Slattery match will be held May 26.

"Pa" Stribling consented to the Olympic fund bout after Atlanta promoters relinquished a prior claim to the youngster's services.

This match will mark Stribling's first fight in this city and probably his last before he becomes 21. The state athletic commission turned the request of the age limit, which shroulmsfw 19-year-old Georgian to waive the age limit which prohibits boxers

part in the matter, and has not opposed in any way the construction of this road."

Attending the luncheon today were the following visitors, G. V. Bebout, C. G. Bebout, L. E. Wilson, T. P. Berg, Roy Campbell, R. J. Holly, John L. Cobbs, Jr., E. C. Nelson, R. B. Chapman, A. M. Goodwin, J. P. Wells and Walter Connelly.

Kiwanians signing attendance slips today include John D. Kings, A. Raffeld, E. C. Smith, Jr., J. G. Sharon-Fred W. Ball, S. I. Baunel, J. M. Gillon, L. B. Steele, Schelle Maines, R. H. Berg, L. C. Bebout, W. J. Thigpen, E. J. Moughton, W. T. Langley, Forrest Lake, H. Overlin, R. W. Deane, W. D. Gardner, H. H. McCaslin, B. D. Caswell, W. M. Scott, T. L. Dumas, A. C. Fort, E. D. Brownlee, T. W. Lawton, G. E. McKay, and S. M. Lloyd.

They are digging potatoes in Moore Haven now, the Democrat says that Weeks and Green are at work on a big patch, and getting good returns. The newspaper tells of activities around Moore Haven, and it seems that farmers are planting and digging potatoes.

Acquires Valuable Property

LAKELAND, Apr. 9.—The United Brotherhood of Carpenters and Joiners of America has closed the deal for 1636 acres of land near here which was contracted for in December, for which it paid \$632,500, and in addition has acquired additional acreage bringing a total up to 42,035, which will cost altogether approximately \$300,000. The Brotherhood plans a total investment in lands and buildings here within the next few years that will run, according to estimates, to as high as \$4,000.

DAWES COMMITTEE.

(By The Associated Press.)

PARIS, Apr. 8.—The time of the official delivery of the reparations commission reports by both expert committees—those headed respectively Brig. Gen. Dawes and Reginald McKenna—was definitely fixed today for 10 o'clock Wednesday morning.

A Fretful Child is a Sick Child

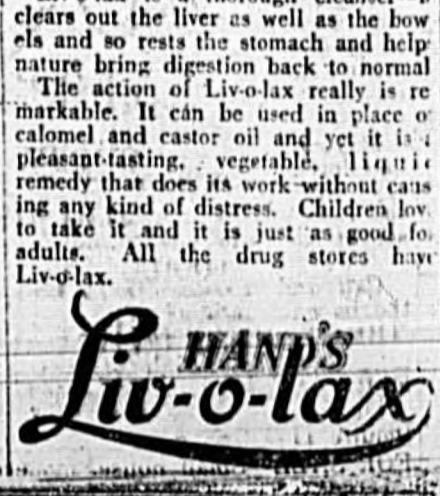

—W. L. Hand.

It isn't natural for a child to fret nine times out of ten the mental disturbance is due to the ill effects of fermentation of partly digested food.

Of course, a laxative is needed, but the ordinary child's laxative fails in many a case to bring quick relief because it has little or no action on the liver.

Liv-o-lax is a thorough cleanser—it clears out the liver as well as the bowels and so rests the stomach and helps nature bring digestion back to normal.

The action of Liv-o-lax really is remarkable. It can be used in place of calomel and castor oil and yet it is pleasant-tasting, vegetable, liquid remedy that does its work without causing any kind of distress. Children love to take it and it is just as good for adults. All the drug stores have Liv-o-lax.

Railroad Team vs. Seminole Athletic Club

Tomorrow afternoon, the Ninth Street Baseball Park will be the scene of a real and sure 'nuff baseball fracas when the Sanford Railroad Shop team crosses bats with the fast Seminole Athletic Club outfit.

The Shop team has been putting in some first rate practice of late and meeting with a team of such high calibre as the Seminole Athletic Club is causing much excitement in local baseball circles.

The game will be called promptly at 4:30 o'clock.

Old Folks' Ailments

"I began taking Black-Draught over fifty years ago and my experience with it stretches over a good long time," says Mr. Joe A. Blakemore, a Civil War veteran, now a prominent citizen of Floyd, Tex. "It is the best laxative I know of for old people. . . . A good many years ago, in Virginia, I used to get bilious, and I found that

Thedford's BLACK-DRAUGHT was the best and quickest relief I could get. Since I came to Texas I have these bilious attacks every now and then—and I find a little Black-Draught soon straightens me out. After a few doses, in little or no time I'm all right again."

Thedford's Black-Draught acts on the stomach, liver and bowels in a gentle, natural way, assisting digestion and relieving constipation.
