### WHATDOES HE SEE

What a birthday present! Young Dan can see all sorts of things with that telescope that are invisible to the naked eye. The sky, with its stars and its moon, seems so much closer. Yet, there is still so much that remains Enseen. The best instruments man can make

are insignificant when measured against the scope and depth of God's universe. That's where faith comes in. We know that there are other galaxies that can't be seen through even the most powerful of telescopes. And we know, too, that faith, though invisible, is the greatest power of all.

If faith is something that doesn't quite come across to you, the Church is the best place in the world to help you solve its mystery. If faith is already yours-what better way is there to reaffirm it than by going to church this Sunday

THE CHURCH FOR ALL . ALL FOR THE CHURCH The Church is the greatest factor on earth for the building character and good citizenship. It is a storehouse of spiritua glues. Without a strong Church, neither democracy nor civiliperson should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

The 300 mile political pork chop area in North Florida will be nothing but chitterling after the spring primaries. A special session of the Legislature, in carving Florida into legislative areas acceptable to the U. S. Supreme Court's "one man, one vote" thesis dealt harshly with a 24county area between Fernandina Beach on the Atlantic coast to Cedar Key on the Gulf of Mexico.

This area is called the Pork Chop Belt, possibly because of the hog farms that once flou-The Pork Chop gang is com-

prised of 12 senators and 24 House members. Under the new reapportionment act, it will have only four senators and 11 House members. That means in the spring, 21 politicians will end their legislative careers, either voluntarily or through the mandate of the voters. The Pork Chop senators at least saw to it their demise

would be as painless as posaible. They personally won't have to shoot one another down at the polls. They refused to subdivide this big district. That way the senators can pick from among four groups and decide who they want for an opponent. But it puts on them the bur-
