

### New Technique Is Developed For Removing Adenomas From Pancreas

By FRANK CARRY  
Associated Press Science Reporter  
NEW ORLEANS, Oct. 12—(AP)—A new surgical technique for exposing the pancreas—one of the body's most important organs but also one of the most difficult to explore in time of trouble—was announced today.

Prof. Ian Aldre of the University of London reported that the operation allowed for the first time, complete exposure of all surfaces of the gland.

The pancreas is a gland which secretes certain juices essential for digestion and also insulin for maintaining a proper control of sugar in the blood. It is a gland partly hidden by the stomach. It is covered by involved anatomical structures.

Professor Aldre said the operation already had increased the opportunities for locating patients suffering with a sometimes fatal condition called "hypoglycemia."

This, usually mild in form, is the opposite of diabetes. It is a condition where the blood does not have enough sugar. It results from the development of minute, non-cancerous tumors called "adenomas" on the part of the pancreas that produces insulin. These tumors cause an over-production of insulin, with the result that the sugar is burned up in the blood. The bring about weakness, coma, and sometimes death.

In the past, said surgeons who heard Prof. Aldre's report to the International Society of Surgery, removal of these tumors has sometimes been incomplete because of lack of surgical technique for completely exposing all surfaces of the pancreas.

They said the technique described by Aldre was a distinct contribution to the surgery of the pancreas—not only for reaching elusive adenoma but also for the surgical attack on other diseases of the pancreas, including cancer. The method involves no fancy tricks of surgery. Rather, it combines standard technique with a thorough knowledge of the geography of the structures covering the pancreas, doctors said.

The results, they said, in a complete exposure of the gland so that the surgeon can feel all its surfaces.

Surgeons from 40 different countries are attending the society's six-day meeting.

### Farm Bill

(Continued from Page One)  
The House passed the bill yesterday and urged them to get together on some kind of farm bill to get on with it.

The House approved differences with his two top congressional lieutenants on the farm measure may cloud the issue for the Democrats in the 1946 campaign.

The Senate Judiciary Committee today turned down the Displaced Persons bill, opening the way for a Senate vote.

But the measure, voted out 7 to 6 in favor of the bill, was opposed by Charles McNamara (D-N.Y.) who is in Europe, goes to the floor without any recommendation one way or the other on whether it should pass.

The House-passed measure would let more of Europe's homeless enter this country.

Today's action boosted the Administration's chances of getting the bill enacted before Congress adjourns, although a bitter floor fight is in prospect.

The legislation, held up in the committee for months, would increase the number of Displaced Persons eligible for admission to the United States from 200,000 in two years to 300,000 in three years.

Senator Truman reported the measure with two of his top congressional lieutenants in a firm "as good" as passed, he said, in the House in the 1946 campaign.

By all accounts, the President is leaning for farm price supports at 100 per cent of 1939 levels on so-called basic crops—wheat, corn, cotton, rice and peanuts.

Partly is a level aimed at giving farmers the same return on crops, in terms of things they buy, that they had in a past period favorable to them.

Advocates of this reported measure in the President's position, Senator Lucas (D-Ill.) and Anderson (D-N.Y.) stand by their promise of flexible price supports for the basic crops, ranging between 75 and 90 per cent of 1939 levels.

The 1940 support level on wheat, Anderson said, would be the cost of parity on those crops under production or marketing controls. After 1940 the support level would be based on a price of 75 per cent of parity.

Anderson said that in the case of wheat and corn, it is due to be supported at 100 per cent of parity. In 1940, the basic crops, he said, were supported at 75 per cent of parity.

Anderson said that in the case of wheat and corn, it is due to be supported at 100 per cent of parity. In 1940, the basic crops, he said, were supported at 75 per cent of parity.

### 25 Are Killed In Train Wreck In Argentina

Nearly 100 Injured As Passenger Train Runs Into Freight

BUENOS AIRES, Oct. 12—(AP)—A resort-bound passenger train crashed into a freight just outside the big President Peron terminal here late last night, killing about 25 persons and injuring about 100.

A police communique announced 18 dead and 66 injured were identified but admitted these figures lagged far behind the full toll.

The accident, the worst since train services were nationalized two years ago, occurred on the General Bartolome Mitre Line, a half mile out of the Peron terminal.

Most of the casualties were in the second class sections of the passenger train, which took the full front of the collision. Many of the first class section, however, were slightly injured.

President Juan D. Peron and his wife, Evita, and cabinet ministers hurried to the scene.

The passenger train, bound for the summer resort of Tigre, had left its station seven minutes behind schedule. The freight was coming into Buenos Aires from suburban Evita station.

Wreckage was strewn over the tracks, and despite night long rescue workers, service on the line was seriously disrupted.

Halfway men said it was possible that the leading car of the electric passenger train, either because of a misread signal or defective switching, plied into the freight as the two trains were passing on a curve.

The Ministry of Transport gave no list of the dead or injured.

Unofficial counts indicated that the victims were probably Argentine nationals, most of them second class passengers.

At least three second class cars were derailed and badly smashed as they telescoped into the freight car.

Rescuers working under lights from private automobiles and with reflectors supplied by army crews, cut through the wreckage.

Many of the injured and dying were pulled from the train by other passengers, among them many of the first class section who, though not seriously injured, showed the effects of the crash. Their clothes were torn and blood was streaming down their own faces as they worked.

The rescue operation, under lights, was punctuated by cries of pain from the injured trapped in cars.

One passenger car was still pinned under the wreckage and two crews were working to free it. All of its occupants were presumed dead.

The accident was the third major one to strike Argentina in the last two weeks. An airliner carrying members of the Eva Peron Foundation who had been on a rescue mission to Ecuador crashed at Castilla, Sept. 26, killing five and injuring 10. Sixty eight persons died in the sinking of the Navy minesweeper Founle in the Straits of Magellan. The destroyer had left Rio Galles Sept. 21 on a routine voyage to Ushuaia.

A letter was read from Mrs. Clyde Ramsey, president of the Benning County Federation of Women's Clubs, asking the cooperation of the club in the "Thrift Shop", a project of the Women's Club. There were 24 members present and one visiting, Mrs. Colina Wilhoit, home economist for the Florida Power and Light Company, and former president of the Daytona Beach Pilot Club.

A citation for exceptional service was read from Mrs. Ruth Scott, president, told the club of the critical illness of Miss Ruby Newhall, president of Pilot International, who is confined to the hospital in Jacksonville.

### Admirals Testify

(Continued from Page One)  
civil populations." He scornfully compared this concept of strategic air warfare to medieval "siege" operations.

Halsey, whose carrier-based airmen drummed the Pacific, said the need for immediate heavy air action from World War Two is the lack of the military body of the enemy "who would be trying to crush his way across Europe."

"The objective of stopping and finally driving back the enemy air force can only be done by attacking the enemy's armed forces and the transport system which moves him and his supplies."

Bombing of these targets, Halsey said, would stop anything—except possibly bullets from the thousands of high-flying fast fighters an aggressor has in operation.

"Strategic bombing of rear area population centers can't stop enemy ground forces, Halsey rambled on to an attentive committee.

"The mass bombing of cities can only produce delay, remote and indirect effects on the course of the war."

The weight of evidence in his own and the British bombing surveys shows this very clearly.

"These reports show that it was a mistake to believe the B-17s, or later B-29s, could, by unescorted night bombing attacks on cities, gain military advantage in proportion to their cost, or to believe that results would be directly and immediately effective."

Halsey went on to say that the lesson from the last war that stands out clearly above all others is "if you want to go anywhere in modern war, it is on the sea, on the land—you must have command of the air."

Command of the air won't be gained by heavy bombers, Halsey said, but by fighters.

"It is gained by fighting the enemy Air Force and defeating it. It is gained by attacking enemy air fields and their supporting installations."

"It is gained by shooting down the enemy pilots faster than he can train them."

Most of the witnesses in the hearings have come right out and mentioned Russia as a potential foe for the United States.

"We know that Russia is weak in transportation," he said. "It is a thing they have the least of. It is what we have the most of. We would be foolish not to use our superiority to hit the enemy where it hurts."

"I believe that there is a piece in our arsenal of weapons for the very best bombers we can get."

"I favor the use of these bombers against strategic targets of oil and transportation."

"I believe that there is a piece in our arsenal of weapons for the very best bombers we can get."

### Youthful Farmer Wins F.F.A. Honor At Annual Meeting

KANSAS CITY, Oct. 12—(AP)—A lanky 19-year-old youth who started a farm program with a single heifer and built up a 48-cow dairy herd has been named the star Farmer of America.

Kenneth England, Chandler, Ark., was given the award last night at the Future Farmers of America convention. It is the Future Farmers' highest honor.

Three regional star farmers also were named. They are John (Castro) Rossi, 22, Montrose, Pa. (North Atlantic region); Robert B. Stevens, Jr., 19, Lynchburg, Va. (southern region); and Jack Halley King, 20, Dadeville, Mo. (North Central region).

The awards were made annually. At 11,000 prize were given. The regional winners received \$500 each.

England began with a Jersey heifer which he obtained while in grade school. Now his herd is valued at more than \$7,000 and he still is building it up.

Buildings, land, farm machinery and other livestock are included among his assets.

He has accumulated a net worth of more than \$20,000 through his F. F. A. projects.

In citing England's record, J. K. Callison, Arizona director of vocational education, reported: "It has been entirely through his own efforts that the program has been advanced to its present scope. His parents are in a modest situation and are not in a position to give him the material assistance that so often characterizes the farming programs of our outstanding farm boys."

Castro owns 180 acres of land and rents 140 acres. His dairy herd of 51 Holsteins is valued at \$9,800. Stevens farms on a 60-60 basis with his father and has major responsibility for 167 acres.

The degree of American farmer was presented also yesterday to 237 youths. The degree is for achievement in agriculture and only one member in a thousand may attain it.

### Death Sentence Given Gunman For Slaying Policeman

LOUISVILLE, Ky., Oct. 11—(AP)—A criminal court jury tonight found Earl D. Bircham, two-gun Tennessee, guilty of murder and fixed his punishment at death in the electric chair for the slaying of Patrolman John Tennyson.

The all-male jury deliberated an hour and nine minutes, then, less than 15 hours since his trial began, Bircham, labeled a notorious public enemy by the Federal Bureau of Investigation, heard his doom pronounced.

Bircham, who slew the policeman in running gun battle here the night of Aug. 14 and wounded another patrolman, appeared to accept the verdict calmly. He swallowed quickly a number of times but otherwise gave no outward indication of his feeling.

### WILDLIFE PROBE

TALLAHASSEE, Oct. 12—(AP)—The Senate committee investigating the Florida Game and Fresh Water Fish Commission was told today Commissioner Cecil Webb of Tampa frequently recommended a state boat for pleasure trips.

The report was made by Deputy Sheriff M. H. Sears of Escambia who said he was hired by the commission last year as a biologist's aide but resigned after a few weeks because he was "so incensed at the waste and negligence."

Sears, who was a member of the club in the Cancer Fund Drive which was organized by the American Cancer Society was displayed by Mrs. Sears, who thanked the members for the part they took in the drive.

### World Federation

(Continued from Page One)  
done it must carry it we are to have a world society and world peace.

They said the idea of the resolution is to strengthen the United Nations and gradually evolve into a World Federation.

Congressman Sid Harling yesterday informed Dr. H. W. Rucker by long distance telephone that he would appear today at a Congressional committee hearing to testify in favor of a resolution relative to World Government, and declared that all Florida representatives and Senator Pepper are now committed in favor of World Federation. Dr. Rucker telephoned Mr. Harling on behalf of the local United World Federation Chapter.

In colonial times, the branches of the which basal shrub served as diving rods in searching for water and coral.

Annual income per U. S. family increased from \$2,500 in 1930 to \$3,500 in 1940.

On the Oregon trail, pioneers lived on roots and rose hips when their food supplies failed.

The Sanford Herald

Published daily except Sunday and Monday... Editor: ROLAND L. DEAN... Circulation: 1,200...

THURSDAY, OCT. 13, 1949

TODAY'S HIGHLIGHTS

He did just that. A wayward nation can be punished like a wayward child. No nation is great enough to defy God's law...

Congratulations to Mrs. Roosevelt on her 65th birthday. Now may she will take her pension and retire.

Senator Claude Pepper is scheduled to address a meeting of the World Federalists Saturday night at the Longwood Hotel.

Old Generalissimo Franco of Spain is a real skeptic. He says he doesn't believe the Russians have secreted the atomic bomb...

The Sarasota Herald Tribune has been having a lot of fun showing and finally abandoned pictures and affidavits. The whole matter was laid before the grand jury...

A five point program was adopted for Women's Clubs of Florida at a meeting in Orlando yesterday. They will correspond with some in a foreign country...

Congressman George Smathers will be the speaker at the Rotary Club luncheon on Oct. 24, and members of other civic clubs will be invited to hear him.

Time was when the power and influence of the South in national affairs saved this country from terrible blunders...

Senator Byrd tells Americans federal extravagance and national debt are providing this country with the highway to Socialism...

There was some evidence of difference among the witnesses over how a stronger world organization can be developed...

Dr. Walters painted a gloomy picture for some of the smaller liberal arts colleges...

Full-time enrollments in other representative universities in the United States are showing a decline...

Two of every three teachers colleges reported increases in enrollment over 1948 ranging from five to 25 percent...

Under the Senate bill, the government would support major crops in 1950 at 90 percent of parity, but only if they were under production or marketing controls...

Senator Holland of Florida voted against Olds and Senator Pepper in his favor.

Senator Holland of Florida voted against Olds and Senator Pepper in his favor.

Saving Soil

The Department of Agriculture has sent to Congress a report on recommended farm measures for saving soil. A water in the Missouri River Basin, intended to mesh with the flood control and water power development of the basin...

It is intended to bring the floods of the Missouri under control, add to the electric power supplies of the region, and provide water for irrigation...

The idea of the Department of Agriculture calls for an accompanying program of building smaller dams, ponds and obstacles to water run-off in the upper reaches of the Missouri and its tributaries...

Soil protection is closely linked with flood control and water power development. It is also of comparable importance to future welfare.

Brooklyn Spectacle

Who runs the Brooklyn schools? Apparently it is the boy gangs, according to an article in the New York Times. They are said to terrify both teachers and parents...

Any community which tolerates such dominance by youthful gangs is giving its young people a poor and dangerous brand of education. It is dangerous for the community as well as for the youngsters.

Russian Dream

The depths of Russian misjudgment of Americans is revealed by the testimony of Gen. Izydor Modelski, once a Polish military attaché, before a Senate subcommittee. He reports that the Soviet leaders expected that war against the United States would lead to its break-up into a series of small nations...

This notion, which the Russians probably got by believing their own propaganda, overlooks many factors. Not the least is the fundamental loyalty of all these groups to the nation as a whole.

A Time Of Fulfillment

Middle life can be a period of rich fulfillment -- if only you will recognize its possibilities. It offers a long, unbroken stretch of steady, fruitful work and deeply satisfying living. How foolish to spoil all this by pinning for your lost youth or working yourself sick over a few gray hairs...

World Federalists

Report was claimed today by sponsors of a plan for a World Federation which would be backed by an international police force to subdue any aggressor. Rep. Hays (D-Ark.) author of a resolution to that effect, said a majority of the House Foreign Affairs Committee favors it.

Canton Abandoned

Canton Hankow railroad, within 30 miles of Canton. There was no telling whether the gunfire at Kungtso was led on Nationalist artillery or both. As yet, Hong Kong has heard no reports of Nationalist resistance. Instead, 80,000 government troops in the Canton region face isolation by encircling roads and by insufficient shipping to escape to the sea.

Student Decline In U. S. Colleges Noted In Survey

CINCINNATI, Oct. 12 (AP)—A decline of five to ten per cent in enrollments in most colleges and universities except teachers colleges was reported today. The report came from Dr. Raymond Walters, president of the University of Cincinnati, who annually compiles and analyzes enrollments in colleges throughout the nation. His report covered 471 colleges and universities.

Two of every three teachers colleges reported increases in enrollment over 1948 ranging from five to 25 percent. Under the Senate bill, the government would support major crops in 1950 at 90 percent of parity, but only if they were under production or marketing controls.

THE NATION TODAY

By JOSEPH C. GOODWIN (For James Marlow)

WASHINGTON, Oct. 12 (AP)—India's prime minister, the Pandit Jawaharlal Nehru, says one of the principal reasons for his visit to the United States is to learn about Americans.

Back in 1945 Nehru saved the lives of four of his Congress Party colleagues and one American. The press correspondent, I was the correspondent.

Nehru may have forgotten it. I doubt that he even considered that anything unusual had occurred except an annoying delay in a three-day political speaking tour.

But because I felt closer to death that day than before or since, I retained some pretty sharp memories of Nehru's political and spiritual leader of some 300,000,000 people.

We were late for a meeting at the Polish town of Lysyapur. A winter of a mildew had swelled the plain outside the town when he arrived in a station wagon with an Indian driver. Lathes and a truck were parked in those days of British rule—held open a lane.

The crowd was still while Nehru spoke. When he climbed toward the platform, he took the rest of us off through the straining lane of laths and lathes. He hung back.

From that the lane was breaking up back of him and the crowd was pouring in. Nehru dug along ahead of the lathes, not the truck. A little chip on the head of a powerful man. He screamed to the driver to get going.

The crowd ran the last few feet and leaped in. The human wall closed about the car. The motor died.

Men were crushed against the car. The crowd was lifting it off its wheels. The walls began to crack and crack.

It was a stupid way to die, I thought. "Crushed under an automobile by a scrambling mass of men fighting to see or touch another man."

Then a white fury, Nehru pushed his way first through the window on to the shoulders of the crowd. He pounced back and forth with his silver-headed cane. He shouted and—I think—sang.

Wild-eyed people fell back before his violence. The car bumped back on its wheels. The motor started. The car was in gear and crawling through falling men.

We hurriedly followed on foot. We got away from those days, fast as like the man Nehru knew and like the man Nehru knew and like the man Nehru knew.

He was relaxed and quiet, browsing through books and newspapers, chatting easily, joking about his days in English schools and English universities. He talked earnestly about freedom and liberty.

He was trying at the time in vain to get a cigarette and then he would take a cigarette and then he would take a cigarette.

At another village we were stopped by a crowd at the tomb of an ancient holy man. The villagers showed Nehru with flowers. Men, women and children dropped to their knees and reached out to touch him. He didn't even glance at them. But he turned aside to a feeble old spoke carrier, patted her on the head and spoke a few words to her.

MORGAN STATE, Oct. 12 (AP)—Francis Morgan left nearly his entire estate valued at several hundred thousand dollars, in trust to his widow, Mrs. Alma Morgan.

The will was filed for probate yesterday. The comedian's fortune, said only that it was "over \$100,000" and Morgan's business manager declined an estimate.

This is encouraging, he said, "in view of the great need for teachers in the public schools of the nation, particularly in the elementary grades."

Two of every three teachers colleges reported increases in enrollment over 1948 ranging from five to 25 percent.

Under the Senate bill, the government would support major crops in 1950 at 90 percent of parity, but only if they were under production or marketing controls.

Attlee Refuses General Election; To Ride Out Crisis

LONDON, Oct. 12 (AP)—Prime Minister Attlee turned down today demands for a general parliamentary election this fall and decided that his labor government would ride out Britain's economic crisis.

The announcement that there would be no early election was made in an official statement said to quote "disturbing effects on trade and industry" caused by widespread speculation of a vote this fall.

The labor government's five year term runs until next July. Under Britain's constitutional system, the Prime Minister has authority to call an election at any time.

Attlee announced that he would not advise King George VI to dissolve Parliament this year. General elections in Britain are precipitated by a dissolving parliament.

Many of the announcements set a precedent. It is the first time a Prime Minister has used an official statement to say "no" to an election.

Ever since Britain devalued the pound from \$4.03 to \$2.80 on Sept. 18 there has been a rash of predictions that Attlee might seek an early vote of confidence from the people.

Leftwing laborites had urged a vote soon on the ground that rising prices caused by devaluation might cut into the government's popularity within a few months.

Devaluation also was followed by rising pressure from the opposition Conservative party and some sections of the press and business for a general election. Generally, those groups contended the government should place its Socialist politics and planning and finances before the electorate this autumn.

Olds Rejected

Senators supporting the nomination countered with charges that private gas and oil interests were backing the fight against Olds. They pictured him as a devoted public servant trying to protect consumers by effective utility regulation.

Democratic Leader Lucas, of Illinois, refused to say, after the vote, what effect Mr. Truman's direction for the party to take the Olds fight back to the people had on the outcome.

The President went all-out to win approval for Olds even after the Senate Commerce Committee had voted 10 to 2 against him. He made appeals directly to Congress. Then he set the Democratic National Committee to raking the grass roots in support of the nomination. He asked that the party's national committee and Democratic governors rally support for the nomination.

New York's two Republican senators were among those who spoke against Olds last night. Olds is a native of Rochester.

Senator Ives said "I have no fault to find with an experiment of Democratic government in a free society."

Two colleagues, Senator Dulles, cancelled a speaking engagement in Washington to oppose the nomination.

Senator Holland of Florida voted against Olds and Senator Pepper in his favor.

Bomber Crashes

(Continued from Page One) gins rushed from Newmarket, Cambridge, Middlehall and the neighboring village of Oxfordham, but the plane quickly burned to a skeleton.

A Royal Air Force rescue squadron from Middlehall station went to the scene to help recover the bodies.

An ambulance service spokesman said the explosion ignited 60 tons of straw in the field.

The U. S. Air Force now has approximately 5,000 men in Britain at bases established after the Russians began their blockade of Berlin. Some of the men formerly were used to service planes on the Berlin airlift, before the Russians lifted the blockade last summer.

A group of 30 B-29s arrived in England in August to relieve a group of B-29 superfortresses which was part of the heavy bomber force stationed in Britain for operational training.

The U. S. Air Force now has two groups of B-29s and one group of B-50s in Britain. All are at three bases in Norfolk county—Sculthorpe, Lakenheath and Marham.

The B-50 ranks next to the huge B-36 among U. S. long range bombers.

Navy Hearing

(Continued from Page One) by name in a statement sent to the House Armed Services committee. That there was no mistaking what nation he had in mind in speaking of "our probable opponent" in event of war.

He questioned the effectiveness of the atom bomb and urged that it "not be considered as our main weapon of offense."

Just before Nimitz' statement read, Admiral R. A. Spruance, retired head of the Naval War College, had frankly spoken of Russia and warned that a war with the Soviets could not be won quickly, easily or by the atom alone.

Spruance questioned in fact whether the United States would want to drop atomic or conventional bombs in mass fashion. For if war did come, Spruance said the aim of the United States would be to free the people of enemy countries from Communist dictatorship.

Mass bombing, he went on, would destroy thousands of the very people the United States was fighting to free.

The views of the two admirals were received as the Navy was winding up its case against present military policy that places heavy emphasis on the Air Force high-flying bomber, the B-36, designed to deliver the A-bomb.

The committee agreed to hear two rival defense ideas to the Navy's next week.

The Air Force will then get in its reply. Secretary of Defense Johnson also will testify then.

Chairman Vinson (D-Ga.) and Secretary Johnson hold a long conference this morning. After which, Vinson announced the schedule for the next phase of the committee's inquiry into military policy.

Vinson said that beginning next week the committee will hear General Dwight D. Eisenhower, General Omar Bradley, Secretary of Army Symington and Air Force officials.

Then, he added, "Secretary Johnson will give the committee and the country his views on the subject of the first witness of the day, the Navy put on Luis De Flores, a civilian consulting engineer. De Flores is a Reserve rear admiral who did naval research during the war and is still a member of the Navy's research advisory committee.

De Flores proposed "war game" tests of the B-36 against Navy interceptors. He also recommended construction of the newer carrier, the United States.

Only a war can determine for sure whether giant bombers and other carriers are needed, he said but it is vitally important to test them now.

FLAMINGO VS. HERRINGBONES MIAMI, Fla.—(AP)—Flamingoes, famed pink birds of Florida, know how to take care of themselves in a hurricane.

When the great winds come, the birds take in dry land, form themselves into a wedge, with the V pointing into the wind. The point shifts as the direction of the wind changes.

publicans against. Senator Hickenlooper (R-Iowa) who made the mismanagement accusation, promptly labeled the majority report a "cleverly written whitewash" of the committee's investigation this summer. He pressed a minority version "highlighting the proof" of his charges.

The battle over displaced persons legislation shifted to the Senate floor today amid indications that opponents are waging a losing fight.

Democratic Leader Lucas of Illinois said he planned to call the House-passed bill up for action during the day. It is one of the major hurdles still in the way of an early adjournment.

The measure would raise the number of displaced persons eligible for admission to the United States from 200,000 in two years to 250,000 in three years. It was introduced by the Senate Judiciary Committee yesterday by a 7 to 1 vote and sent to the Senate floor today.

Visitors Can Evade State Lodging Tax Thru Advance Rent

TALLAHASSEE, Oct. 12 (AP)—Florida tourists may be able to beat the new 3 percent sales tax on hotel rooms by sending to their rent for the season before Nov. 1.

Lawyer M. Trillide, legal adviser to Controller C. M. Gay, said a tentative ruling on the lodging tax provided that advance rent made prior to Nov. 1, 1949 is not subject to tax even though possession of rental property is taken on or subsequent to said date.

The sales tax act, which will become effective Nov. 1, levies the 3 percent tax on all transient lodging facilities including hotels, rooming houses, motor courts, apartments and trailer camps. Tourists who stay more than six months are exempt from the tax.

Many hotel and apartment owners on St. Petersburg were reported today to be wiring their usual guests in the north to send in their rents for next season to escape the tax.

Trillide also gave this clarification of the tentative rule governing taxes on installment sales of tangible personal property: There will be no tax at any time in the future on sales by reason of contracts entered into prior to Nov. 1 with down payment of at least 10 percent of the purchase price, so you can buy a new refrigerator tomorrow with a 75 percent down payment and installments over the next year without having to pay any tax at all.

On lay-away purchases for which down payments of at least 5 percent were made prior to Nov. 1, future payments will not be taxable if the item is delivered within six months after Nov. 1. Materials bought on contracts entered into prior to Sept. 30 (the date the sales tax act was signed into law by Governor Warren) are not subject to tax.

Materials bought after Nov. 1 will still be subject to tax if a construction contract made prior to Sept. 30 will not be taxed.

Seniole Celery Feds Improve; May Stop Favored Ocala Squad

Sanford football fans can look forward to a fine game Friday night when Seniole High School tangles with the non-conference Wildcats in Ocala. Coaches Carl Kettles and Otis Mooney sent their boys through a long grueling practice session yesterday with Mooney handling the blocking and Coach Kettles the backfield timing practice. A brilliant demonstration of offensive line play was given in the hour-long blocking drill with Charles Lansing, George Swann and "Penny" Galloway showing outstanding offensive form. Ed Gordon and three late comers to the squad, Bill Howard, Bill Jimenez and Horace Green appeared to be the most aggressive defensive linemen. The real surprise came when Coach Kettles lined up two teams for some of the hardest ball playing they've done this year including actual game play. "It was a tough and tumble scrimmage lived by several eager spectators graduated from the "B" squad. With a backfield composed of Anderson, Marris, Bass and Butler the offensive team made substantial gains on nearly every play. The backfield timing, which was the main reason for Sanford's success in last week's game, has improved a great deal, and the blocking which can give the backfield the needed second or two in which to handle the ball successfully. Charlie Anderson made several line crashes and off-tackle plays that reminded spectators of his

Georgia & L. S. U. Play Vital Game Of Conference

Both Teams Need Win After Rough Start; Georgia Is Favored ATHENS, Ga., Oct. 13—(AP)—L.S.U., a new rich, social climber in Dixie football aristocracy, Friday night meets Georgia, the patriarch with the plucked plumes. The game, no matter who wins, will show who goes where, when and why. While L.S.U. definitely is improving and showing results from a big re-building project, its entry too early to say that Georgia has done anything more than slip a little. Georgia's losses in succession to North Carolina and Kentucky, and the serious an indictment. Everybody who's played those teams also lost. However, another loss to L.S.U. will show that Georgia is falling sharply from its perfect Southwestern Conference record of 1944 and from its great bowl seasons of 1942, 1943 and 1944. Another victory for L.S.U. to match the 13 upset of Rice and the 34-0 whalloping of the Texas Aggies, would lift the Louisiana team into the top strata of the Southeastern Conference. Few teams need a victory as badly as Georgia and L.S.U. Just how badly L.S.U. needs a win is best told by Gaynell Tinsley, coach of the Tigers. Tinsley thinks Georgia is the "biggest, toughest, hardest tackling and blocking team in the conference." Georgia's defensive line play is "pretty good," Wally Butts of the Bulldogs, says. He points out that Kentucky made some yardage against Georgia's ends, but very little elsewhere. He complains, and

Yankees Searching For New Talent To Bolster Team

NEW YORK, Oct. 13—(AP)—The New York Yankees, announcing they won't "stand pat" on their present world championship team for 1945, bought two of the brightest stars in the Pacific Coast League today. Manager Casey Stengel announced the purchase of Jackie Jensen, outfielder who is a former California football star, and Al Miller (Billy) Martin an infielder. These were bought from the Oakland club, which Stengel managed last year. No price was divulged, but it's rumored the Yankees shelled out to the neighborhood of \$100,000 and five players for the two athletes, who were widely sought after by major league clubs. "You never sit tight," Casey told newsmen in the Yankees' final news conference of the season yesterday. "You can't afford to stand pat in this league. We're going to try to strengthen our pitching staff, although it looked pretty good in the last week. Sure, we could use a couple of pitchers. "I'd like to improve my outfield a little, too. We're willing to pay to anybody who has something reasonable to offer." Jensen, 22, is the former football star at the University of California. He is a bonus player. Owner G. L. (Bric) Laws, in beating 14 big league clubs to his services, lured him at the close of the college baseball season last spring with bonuses of \$40,000 plus a three-year contract at \$15,000 per year. "My stats tell me that Jensen is the greatest outfield prospect in the minor leagues," said Casey. In fact, he has tremendous power, and owns the strongest arm in baseball since Bob Meusel. In 125 games with the Oaks, Jensen in the big league season last year had 122 hits, 21 doubles, seven triples and nine home runs. He drove in 78 runs. Jensen is engaged to be married to Ann Olson, national diving champion. Stengel said eight clubs had been after Martin, a second baseman who also can play short or third. Martin, 21, hit 284 this year—including 20 doubles, three triples and 13 homers. He drove in 91 runs. The record statistics, that Georgia can't seem to get drives underway. The good and bad of Georgia personnel reads between quarters. Back Ray Prosper and Pledge Reid, as a passer, Prosper is showing improvements every game. However, Georgia misses Reid's running. Butts is doubtful if Reid will play again this year, his last of eligibility. Before injuring his ankle Reid was developing into one of Georgia's best right-half backs of any year. Enjoying L.S.U. is about as bad off. Tinsley may have to use undrafted reserves in place of injured backfield Ebert Van Hugen, tackle Moose Potter and catcher and Ray Bullock. Potter and Van Hugen are playing Friday night. Georgia and L.S.U. have met nine times with L.S.U. winning six games. Georgia's two victories were in the past two games, as close as one point. But Friday night there had better be a big victory for somebody. Since 1934, seven Southeastern Conference football teams have recorded undefeated, untied seasons—three Alabama and three Tennessee squads, and the 1943 Georgia team.

Diplomatic Corps In Moscow Loses In Sports Tilts

By EDDY GILMORE AP Newsmaster MOSCOW—Sports supremacy in the Moscow diplomatic corps has a definite foreign flavor. The United States doesn't dominate it. The two most popular games among the striped-pants set are tennis and badminton. At tennis there is an one in the diplomatic colony who can come even close to defeating the Australian Ambassador A. S. Watt. His closest challenger is, perhaps, United States Ambassador Admiral Alan G. Kirk, but he's never yet taken a set from the Australian. Baseball is not played in the Soviet Union, but groups from the American Embassy manage to get out at least twice a year and go through the motions usually to the accompaniment of cracking bones. The casualty list of 1944 included a second secretary with torn ligaments and broken bones. He eventually had to go into a hospital. The British Embassy has not, in a number of years, staged any cricket matches. Not since Frank Roberts, presently deputy commissioner in India, was here. The onetime British golf

USDA Says Rainfall Injured Vegetables

ORLANDO, Oct. 12—(AP)—The USDA in its crop report as of Oct. 1 says heavy rains following the late August hurricane proved beneficial to citrus groves but caused further damage to fall vegetables. The agriculture report said field crop areas of north and west Florida have had generally favorable harvest weather and by the first of October most of the corn had been harvested, peanuts started to market and harvest of sweet potatoes and sugarcane begun. New foliage still is growing on citrus after the hurricane and the size indicates plenty of moisture, the report said. It emphasized that Florida's crop of early and midseason oranges was forecast at 35,000,000 boxes, one million above last year; tangerines at 4.4 million the same as last year; and grapefruit 28,000,000, a 7,000,000-box loss because of the storm. The rains have been unfavorable for cotton and a smaller yield has resulted—only 17,000 bales being expected. The corn crop is estimated at 9,000,000 bushels, up 30 up a soccer game with the Russians the score mounted so high (in favor of the Russians) that they never tried it again.

PRO TENNIS TOUR

NEW YORK, Oct. 13—(AP)—Bobby Riggs' professional tennis troupe will make a winter tour of Europe. Riggs announced the barnstorming, including the two new recruits, will play in London Dec. 20-27-28 and in Paris Jan. 1-2. They also may appear in Brussels and Zurich. Jack Kramer will play Pancho Gonzales, the U. S. Amateur Champion who recently turned pro, in the featured match. Pancho Segura and Frank Parker, the latter another recruit, will meet in the other feature.

Ineligibility Jinx In S. E. Conference Haunts Coaches

The ineligibility jinx is falling right and left in the Southeastern Conference and it's damage is not to be taken lightly, say the affected coaches. The latest school to be hit was Louisiana State whose new head Ray Bullock was ruled out yesterday by Commissioner Horne Brown on the grounds that he already has played his four years of varsity ball. The ruling brought a scream of protest from Coach Gaynell Tinsley but Tinsley said there wasn't anything that could be done about it—no matter Friday's big game with Georgia. It would take longer than that to sound a general appeal to a SEC executive committee ruling. Therefore, said the L.S.U. coach, Bullock will not go against the Bulldogs and "we don't think it's right." Also hard hit by the same kind of ruling was Tennessee Coach Bob Neyland, who lost his co-captain and fullback lineman, Ralph Chandler. Neyland said he was such a "severe blow" that he might start an all-sophomore backfield against Alabama Saturday. The second-year line-up would be Jimmy Hahn, Harold Payne, Bert Kiechler and Bertie Sizemore. The jinx fell a week ago on the high-riding Kentucky Wildcats with a ruling that ended Charlie Brodshaw had played his four years. Coach Paul Brock and his coaching staff thought his team was just about wrecked. Instead, the Wildcats "wrecked" Georgia 25-0 last weekend. Bill earlier, Doug Hanley, Mississippi tackle, was ruled out by the SEC commissioner. There wasn't too much of a protest from any of the coaches except L. R. "Tinsley" Tinsley explained the ruling was based on a SEC rule for four years of varsity football, if one year was played as a freshman. He said Commissioner Moore apparently counted 1942—when Bullock enrolled but did not play—as a "Bullock's" freshman year. Tinsley argued that Bullock entered the Army a month after November. The conference rules say, "he should not have spent in military service may be counted against eligibility." But the L. S. U. Coach admitted ruefully that he had no chance of getting the argument across before Friday night's

Sports Roundup

NEW YORK, Oct. 13 (AP)—Dr. Clarence Rucker of New Haven, Conn., a football fan from a protest against the two-point on those grounds. "A football player on the defensive platoon has no opportunity whatsoever of advancing the ball unless he is clever and quick enough to get hold of a fumbled ball or an intercepted pass. Then on the very next play the guy who is interested in being on the aggressive side is removed so the offensive platoon can continue." Rucker wants to get back the system whereby a man removed from a game could not be re-entered during the game. He would like to see a rule that would develop all-around players. "I sound good, but what about the good player who spends his entire college career as bench-warming sub for a 60-minute star? Or how about the poor Coach who has plenty of trouble telling a thick-headed tackle, 'you run that way' and who then would also have to explain, 'you grab him this way.'" Pligskin Pickins U's Oklahoma letters; take to the cyclone cellar. Tennessee vs. Alabama Tennessee and mammy songs will do our Alabama wrongs. Navy vs. Wisconsin Navy's battle boat. A won't sink in late Meador. Minnesota vs. Ohio State To avoid the sight of a buckeye defect. find a Gopher hole in North High Street. Southern California vs. California California from Berkeley plays too perkily. Incomplete Pass Cadet-Midshipman Paul Olavsky of Kings Point, and the publicity hunt, both in his team. During the year at sea required of the merchant marine lads, Olavsky carried a football on his journeys and at each port he hired someone to be the receiver while he practiced passing. In France it was a Marine's deck walloper; in England, a former soccer player. In India not one of the deck workers would accept his money. Paul finally sought out the boss stevedore and asked how come. "Sorry, young officer," replied the Indian, "but all my men are Muslims and therefore forbidden to touch pigskin." Cleaning The Cuff The Phillies are high on first baseman Ed Gwyn from Toronto. Rip Engle, who climbed from the coal mines to the Ivy League, says that in 10 years of football coaching, he has missed practice only twice. The indoor polo folks are cooking up an eight-club indoor league of 12-14 goal teams, evenly split between New York and Chicago. The Laddie Peru-Glenly Junior College grid team in Illinois has won its last two games by scores of 68-0 and

Boilermakers Arrive For Hurricane Tilt

MIAMI, Oct. 13 (AP)—Purdue University's football squad arrived today about two special planes for the game with the University of Miami Hurricanes in the Orange Bowl tomorrow night. A crowd that may top the 10,000 will witness the Miami-Georgia game last year was predicted. It will be Purdue's only night game of the season and the Boilermakers ruled a two-touchdown favorite. Coach Stu Holcomb announced he will bring 36 players to Miami for the first game ever played in Florida by a big ten team. The Boilermakers will work out at Memorial Field at Miami Beach tonight. While the Boilermakers have not to win a game this season, they have lost to teams of considerable class, namely Iowa, Wake Forest and Notre Dame. The Hurricanes, who have swept over Rollins College, 62-3, and the University of Louisville, 29-0, will go through a final limbering up drill today. A doubleheader football game involving Big Ten high school teams is on the program in the Orange Bowl stadium tonight. The first game, starting at 7:15 p. m., sends Miami Jackson against Orlando High and the second sees Miami Edison enterprising Robert P. Lee of Jacksonville. It marks the first time a doubleheader has been held in the Orange Bowl. Last night's game between Ponce De Leon and Miami Beach was postponed because of rain and will be played Saturday night at Miami Beach. 98-0. I-P-O didn't punt in either game—so that's total weakness, boy? North Carolina is a tooling for the guy who broke into the publicity office and stole a stack of photographs of Charlie Justice, probably some frustrated opponent who found that was the only way he could tackle the Choo Choo.

Amateurs Honor Sports Minded Philanthropist

Sports World Praises Rich Californian For Sports Activity

By BOB MYERS AP Newsfeatures Sports Editor

LOS ANGELES—National recognition has come to multi-millionaire Paul H. Helms of Los Angeles, a philanthropic sports enthusiast, long established as one of California's most generous patrons of athletics.

Helms, a banking business tycoon with a physique as sturdy as a lightweight champion despite his 60 years, recently was tendered two hours of coast to coast distinction.

The amateur athletic union of the U. S. appointed him an A. A. U. delegate at a large honor bestowed on such distinguished gentlemen as Gen. Douglas MacArthur, Amos Alonzo Stagg and few others.

In August the football writers' Association of America, meeting in Chicago, named Helms an honorary member, one of a scant few individuals so designated by this organization.

These tributes are treasured things to take place along with innumerable other citations for unstinting support of all things athletic, amateur or professional.

A partial run down would include a collection of lifetime passes to major and minor league baseball games; the pays his way to all events; regardless; chairmanship of the Southern California Olympic Games committee; member of the Southern California Tennis Patrons association; the local football writers chapter; underwriter, at a cost of some \$25,000, of the Southern California basketball tournament, and many other similar honors and activities.

Typical, it might be noted, was the presence of 100 underprivileged youngsters at a recent professional football game—all guests of Helms.

Base of the Helms sports is a vast haking company he established here around 1926. Helms came from New York and Buffalo where his business acumen had been demonstrated previously.

Helms Hall is the building, hard by the main Helms haking plant in suburban Culver City, which will cost close to \$500,000 when all units are completed in 1950. It houses the foundation and its staff. It is the scene of many sports gatherings, is open to the public and is a haven at all hours of the night or day for harassed sports and radio people in need of background material.

Helms also is active in numerous civic matters not pertaining to sports, and his easy, good humored approach to any subject belies his intense enthusiasm and energy.

Helms has spent more than \$200,000 on the foundation since it came into existence in 1926.

Irish And Cadets Have Wonder-Boys In Sitko, Galiffa

By FRANK ECK AP Newsfeatures Sports Editor

Early season indications are that Notre Dame and Army again have two of the best backs in the nation. A big reason why Notre Dame will score almost at will is Emil (Red) Sitko, a big gun in the Arsenal Galiffa, the Cadet T quarterback. Both are their last season.

To say that Sitko is the most experienced collegian performing today would be an understatement. This is his seventh season in big time football. During three years in the Navy he played at Great Lakes, St. Mary's preflight and Norman, Okla.

It was Sitko's forward pass catch that enabled Great Lakes to beat Notre Dame, 19-14, in the last minute of the 1933 game. It was the only game Frank Leahy's army in their last season.

Sitko, though only five, eight, inches through the line like a bull. The 180-pounder from Fort Stevens, Ind., is called "Sixty-yard Sitko" and both good reasons. In the last three seasons at Notre Dame for 1544 yards, and average gain of 6.2 yards.

In the Irish opener this season he tallied three of seven touchdowns against Indiana. He made 61 yards in eight tries against the Hoosiers, though he had switched from halfback to the fullback spot.

Galiffa had a big hand in Army's unbeaten record last season, his second as Cadet quarterback. The six, two 190-pound athlete, also a West Point letter winner in basketball and basketball.

Arnold is both a master at deception and in throwing forward passes. Three of his aerials were for touchdowns in Army's opening game rout of Davidson. He's an valuable man, Coach Earl Blaik uses him on defense as well as offense.

Neighbors and friends of Henry S. Clark were saddened Wednesday to learn of his death at his home in Sanford. Burial was at Osteen Cemetery Friday afternoon. He leaves his wife Anna Clark and two daughters, and three sons to mourn his loss.

Mrs. B. F. Burke is still with her daughter Mrs. Joe Stewart of Sanford who is ill. Another daughter, Mrs. Homer Sutton of Orlando is in the Florida Sanitarium under observation.

Frank Tart has returned from a three week visit with his mother in Birmingham, Ala. The 87 slugging percentage posted by Duke Ruth is the major league record.

University of Arizona football tackle Bob Morrison is playing for his fifth varsity letter this season.

TOO LATE TO CLASSIFY 2 OR 3 small sets of books to keep. Mrs. Ray Fox, Phone 750-3.

Game Commission Is Accused Of Shooting Deer Out Of Season

TALLAHASSEE, Oct. 13 (AP) - A charge that deer were shot out of season for distribution to Florida Game and Fresh Water Fish Commissioners with approval of a commissioner is before a Senate investigating committee.

Senator B. C. Pearce of Palatka read an affidavit by a wildlife officer which said the deer had been ordered shot and that Commissioner L. C. Morris of Monticello said it was okay.

Pearce declined to identify the officer, saying he feared he might be discharged. Morris, who was attending the committee meeting here, immediately denied the charge and said he would seek the dismissal of any officer proved to have been involved in the alleged season limit.

"I'll take on anything I never heard of anything like that," Morris declared. State Senate President Newman Brackley of Tallahassee and members were killed on an airplane last week. Brackley was in the hospital in St. Petersburg.

Senator Pearce read a letter from the hospital which said he never had received anything from the commission since he was discharged in St. Petersburg.

Survivors include the widow, Mrs. Anne Ruth Hart, Orlando; a daughter, Mrs. James E. Pearson, Orlando; two brothers, Charles of Henslow, Ga., Henry of DeFuniak Springs, South of New York and Clarence of California; two sisters, Mrs. Sue Salmon of Orlando and Mrs. E. Healy of Waycross.

Some progress alone can bring, can never satisfy a people," he said.

### Nehru Promises Non-Neutrality In Event Of War

#### Indian Prime Minister Addresses Both House Of Congress

WASHINGTON, Oct. 13—(AP)—India's Prime Minister Nehru assured Congress today that his country "cannot be and shall not be neutral" in the event of any world aggression or threat to freedom.

But he declared, in identical speeches prepared for the House and Senate, that "every prayer an Indian raises ends with an invocation to peace" and he indicated a possible parallel between India's foreign policy and Mahatma Gandhi's creed of passive resistance.

"The 'Father of India', said Nehru in his address, 'taught us a technique of action which was peaceful, and yet it was effective and yielded results which led us not only to freedom but to friendship with those with whom we were until yesterday in conflict.'

"How far can that principle be applied to wider spheres of action? I do not know. For circumstances differ and the means to prevent evil have to be shaped and set to the nature of the evil."

"Yet I have no doubt that the basic approach which lay behind the technique of action was the right approach in human affairs and the only approach that ultimately solves a problem satisfactorily."

Nehru did not refer outright to India's efforts to remain aloof from the cold war—a position western leaders would like to see abandoned in favor of a more active role in blocking the advance of Communism. But he pleaded with Congress for understanding of his country's attitude.

"We have to achieve freedom and defend it," he said. "We have to meet aggression and resist it and the force employed must be adequate to the purpose."

"But even when preparing to resist aggression, the ultimate objective, the objective of peace and reconciliation, must never be lost sight of, and heart and mind must be attuned to this supreme aim."

and not awayed or clouded by hatred of fear.

"This is the basis and the goal of our foreign policy. We are neither blind to reality nor do we propose to acquiesce in any challenge to man's freedom, from whatever quarter it may come."

"Where freedom is menaced, or justice threatened, or where aggression takes place, we cannot be and shall not be neutral."

What we plead for, and endeavor to practice in our own imperfect way, is a binding faith in peace, and an unflinching endeavor of thought and action to insure it.

"The great democracy of the United States of America will, I feel sure, understand and appreciate our approach to life's problems because it could not have any other aim or a different ideal."

Nehru pointed out that India's constitution—which starts with the words, "We, the people of India x x x" was greatly influenced by the Constitution of the United States.

"His country, he said, is making strides toward internal stability, but much remains to be done."

"Political freedom without the assurance to the right to live and to pursue happiness, which con-

### Jury Receives Judge's Summary In Commie Trial

NEW YORK, Oct. 13—(AP)—Federal Judge Harold R. Medina began his charge to the jury in the Communist conspiracy case at 1:04 P. M. today. The jury will receive the case late this afternoon.

The judge said his charge would take about two and one-half hours.

The 11 Communists, who form the Communist Party's American politburo, are charged with conspiring to recognize the party in 1945 to teach and advocate the violent overthrow of the United States government.

U. S. Attorney John F. X. McGohy, who completed his summation at 11:48 A. M., referred to the intimidation of Eugene Dennis, one of the defendants, that the party might go underground if the defendants are convicted.

"I assure you," McGohy said, "that if the party goes completely underground, the F.B.I. will go along with them, performing with customary efficiency the task assigned to them in the detection of crime."

Dennis is general secretary of the Communist Party.

McGohey told the jury of eight women and four men that if they found the law had been violated, they should return a verdict of guilty "as a clear warning to all that a crime of this character may not be committed with impunity. The people of this country are entitled to be assured of this."

He said also that they should not hesitate to render a verdict of acquittal if they found the law had not been violated.

Earlier in his summation Mc-

Radio Give-Away Winner Auctions Prizes To Pay Tax

NEW YORK, Oct. 13—(AP)—An attractive 42-year-old grandmother who won an announced \$28,000 radio jackpot of merchandise four months ago nervously watched most of it auctioned today for a fraction of that amount.

Explained Mrs. Benjamin Cohen of the Bronx, N. Y.: "I have to pay income tax. I have to pay the storage on all these things that I didn't have room for in my apartment. I have to pay the lawyer who is handling everything for us. And I have to pay the auctioneer."

Mrs. Cohen said she didn't have the least idea how much she would end up with but her husband, a laundry manager, said the best he hoped for was between \$4,000 and \$5,000. This besides a new car and television set which they kept, and an outdoor motor and 14-foot boat which still haven't arrived and couldn't be offered for sale.

She said she hoped it would be "the end of a continuous headache" that began June 4 when she correctly identified the phantom voice on CBS "Sing It Again" as that of Harold Lloyd.

Nevertheless, Mrs. Cohen wasn't examining the teeth of her gift horse, even though there was a lot less than she thought. She said despite all the worries and disappointments, she felt it still was worth it and probably would try again if she would be called on another radio give-away program.

The auction was held in a hot, low-ceilinged storage room that had once been a cold storage room. Two hundred or more people climbed four flights of steep, narrow stairs in a bargain hunt. As shirt-sleeved auctioneer L. R. Kline called out the items, they were bid in for as little as one-third the value assigned to them in the catalog.

A \$1,400 diamond-studded wrist watch went for \$550. A \$1,000 tile bathroom brought \$430. A \$1,700 heating unit was bid in at \$700. A lot of frozen food valued at \$500 went for \$250.

NEW TECHNIQUE CAIRO—(AP)—Two men stopped pedestrians on the street, explained they were political police, and searched them. A detective passed by, took one startled look and arrested both men.

TELEGRAPH SYMBOL NEW YORK—(AP)—The term "thirty," which in newspaper parlance means the end of an item, originated back in the early days of the newspaper.

Florida's New 3 Percent Sales Tax Poses Many New Problems

By ASSOCIATED PRESS The three percent sales tax to become effective Nov. 1 continues to dominate much business talk in Florida.

Stores have put up signs "Shop Now and Beat the Sales Tax" and that's what's happening in lots of towns. Merchants expect a huge tide of buying toward the end of the month, then a small slump.

Against tax-escaping purchases now, some buyers contemplate waiting until after-Christmas clearance sales.

Devaluation of the British pound won't change the price of Scotch whisky in Florida. As 3,000 cases were unloaded in Jacksonville this week, consignees said distillers had marked up their dollar prices at the same time the pound was devalued.

Tonnage of Jacksonville's foreign trade for September was 22,317 tons against 47,031 in August. Exports also slipped from 12,401 to 11,575 tons.

The Federal Reserve Bank of Atlanta reports Florida department stores sales dropped six per cent in August over August a year ago and three percent the first eight last year.

Nylon Strips Found Good For Arthritis BOSTON, Oct. 13—(AP)—Strips of nylon costing about seven cents apiece may make walking possible for thousands of persons now crippled by arthritis, in the opinion of two Boston doctors.

Doctors John G. Kuhns and Theodore A. Potter reported successful knee-joint operations last night by a method known as "nylon arthroplasty."

They produced an exhibit three patients who had been treated at Robert Brock Brigham Hospital. All were able to walk normally.

Norwegians Award Nobel Peace Prize To Lord Boyd Orr

OSLO, Norway, Oct. 13—(AP)—Lord Boyd Orr, president of a movement for world federal government and former head of the United Nations Food and Agriculture Organization, is the Nobel Peace Prize winner of 1949.

The Norwegian Parliament's Nobel committee announced its award today to the patient, craggy-faced, 69-year-old Scotsman who has long campaigned for a world food policy based on the needs of the people rather than on trade interests.

The prize amounts to 150,200.82 Norwegian kroner (\$21,800.30). It is awarded from a fund set up in 1895 by Alfred B. Nobel, the inventor of dynamite.

The recipient, the former Sir John Boyd Orr, announced in Dundee, Scotland, that he would use the money to promote peace and world government.

"The important thing in the world today is to get the nations to cooperate," the fumed nuttish Scot told a reporter.

Boyd Orr is a practical farmer as well as a nutritionist and an agricultural scientist. He has a large farm in the county of Angus, Scotland. He was born in Ayrshire in 1880, studied at Glasgow University and was graduated in three faculties, arts, science and medicine.

A man of peace, he was awarded the Military Cross and the Distinguished Service Order for bravery in action in World War I. His only son was killed fighting in the RAF in World War II.

Boyd Orr was knighted in 1935 for his public service. Last year's day he was named a baron in the King's annual honors list. A big part of his philosophy: "I can get farmers interested in the nutrition of their animals because I can prove it returns dividends in kind cash. But I cannot get them interested in the nutrition of their own families (child, teen, far less in the babies of other folks. Think, man, the dividends that can pay in human well-being, in lives fulfilled, eye, and in hard cash."

Boyd Orr said his first reaction to the nomination he had won was "Nobel award was one of great surprises."

He said he thought it was given to him because he is president of the world movement for a world federal government, a post he won in 1948.

Circus Battle Is Moved To Florida After West Tour

MIAMI, Oct. 13—(AP)—The circus "battles" that was waged in several southern and western cities last summer has moved into Florida.

The Cole Bros. Circus, which fought the Ringling Bros. and Barnum and Bailey show on their swing around the country, will enter Miami tomorrow for a four-day stand five weeks ahead of the big show.

Both are being broadsides of advertising. The Bros. appeared first but Ringling wasn't far behind. Both are positively coming to Miami for three days, Nov. 28-30.

British Workers Are Told Of Need For U. S. Dollars

LONDON, Oct. 13—(AP)—Sir Stafford Cripps urged British workers today that some may have to give up their present jobs and go to work in other working industries.

"We now have a greatly improved opportunity to get into the dollar markets, which we must seize," the Chancellor of the Exchequer told a news conference.

"That will undoubtedly entail some change in our pattern of employment."

During the war the government exercised the right to direct Britons at nearly 100,000 miles north of Miami. It formerly worked in Louisville, Ky. The Ringling Circus will return to winter quarters at Sarasota, where it has been since 1927.

100,000 Voters Registered For Nov. 8 Election

NEW YORK, Oct. 13—(AP)—Registration of New York City voters for the Nov. 8 election was up more than 100,000 today for the first two days over the comparable periods in 1946 and 1947—just off year elections.

The total was below that for 1948 presidential election and for 1948 when the governorship was at stake.

By VIRGINIA PALMER

Mrs. Emma Wing returned Oct. 5, from a summer spent in Salisbury, Mass. Mr. and Mrs. Fred E. McDonnell and children, Martha Lee and Carl moved to Apopka Thursday where they expect to make their future home.

Mrs. H. M. Cochran left Saturday with her brother-in-law and sister, the Orville Touchtons for a motor tour west, which will include San Francisco, Los Angeles and Mexico.

Mr. and Mrs. Wm. G. Evans of Boston, Mass. are announcing the arrival of a son, on Sept. 22. Mr. Evans, a son of Mr. and Mrs. Frank Evans, is a former resident of Lake Mary.

John McLaughlin returned home Thursday from a visit with relatives in Philadelphia. Mrs. Wm. Gohall accompanied her. Mrs. Charles F. Robbins and son Billy have joined Mr. Robbins, whose ship, USS Calnesahatchee is now berthed at Newport, R. I.

Friday night a representative group of the men of the Community Church met at the church. At this time, it was decided to hold a monthly meeting, the third Wednesday in each month, and to meet at the church at 8 o'clock.

The Roy L. Howell, Jr. family spent a few days in Lake Mary last week. Recently they moved to Jacksonville, where he is employed by the Atlantic Coast Line.

Friends of Mrs. D. W. Hutchinson, a former resident of Lake Mary, were sorry to learn of her death, Oct. 4, in an Orlando hospital. Her illness was a lingering one.

Mrs. P. H. Yates of Augusta, Kans. was the guest, last week, of his brother and sister-in-law, the J. A. Yates.

Mr. and Mrs. H. T. Russell were guests of their son, the Henry Russell, in Sanford Sunday when the latter gave a family dinner in honor of their cousins, Mr. and Mrs. Thompson and daughter of Newark, N. J. The Thompsons have been making a motor tour of Florida going as far south as Key West.

Wednesday night the Chamber of Commerce held its first meeting of the new year with Mr. C. P. Washington, the incoming president, presiding. Minutes of the last meeting were read by the secretary, Mrs. George H. Patterson, and Treasurer's report was given by Mrs. Millard Rice.

The Recreation Committee also made a brief report of activities during the summer. All standing committees were retained until the next meeting with the exception of the road and membership. Appointed to these were: Road, Raymond M. Bell, Homer Gleason and Wm. L. Lister; and Membership, Homer Gleason, Herbert Lamport and Miss Virginia R. Palmer.

B. B. Crumley of Sanford, member of the Central Florida Boy Scout Council, outlined the steps by which a local Boy Scout Troop

PEACE OF MIND  
MOLINE Ill. Oct. 12 (AP)—Jimmy Carl Jones, 30, seized by police on charges of burglarizing churches, offered this explanation: They were the only places where I could find peace of mind.

Up to 1860, naval ships of wood were still being built by the world's great naval powers. The Chamber of Commerce went on record favoring such an undertaking and Ernest Humphrey, former Scout worker, was appointed to act with Mr. Crumley on the project. Some 50 persons attended the meeting and over \$22.00 was collected in paid memberships.

Seen at the Navy band concert in Orlando, Saturday afternoon were Mr. and Mrs. Robert H. Truett and Mrs. L. C. Tilly and Mr. and Mrs. C. P. Montgomery left Thursday for Cincinnati on a combined business and pleasure trip. They expect to be away for several weeks.

Fishing at New Smyrna Sunday were Mr. and Mrs. L. C. Tilly and children, Bobby, Frances and Dan. Mrs. J. L. Shivers of Sanford spent last week visiting her daughter, Mrs. Frank Shivers and

## House Passes Bill Providing Arms For Non Red Countries

### Record Speed Comes After Assertion That Russia Cannot Be Trusted

WASHINGTON, Oct. 14 (AP)—With record speed, the House passed and sent to the Senate today a bill providing \$1,314,010,000 to arm non-Communist nations. Passage was by voice vote.

The bill also carries \$1187,000,000 for new military construction. In sending it to the House floor, the Appropriations Committee also sent a state department assertion that Russia no longer can be trusted.

The bill also carries \$187,000,000 in cash to help arm friendly nations and \$95,000,000 for military projects in Alaska and Okinawa. In addition, there is \$500,000,000 of contract authority for foreign arms and \$92,000,000 for the military projects. This authority amounts, in effect, to telling the officials administering the program that they can run up debts to that amount and that Congress will pay them.

Actual cash in the bill totals \$1,088,500,380. Along with the billions for foreign aid and military construction there are smaller amounts for shipbuilding, hospital construction, veterans' facilities, unemployment compensation, schools, and public works planning. Leaders scheduled the bill for House action today.

### Ways Of Cutting Costs Are Hunted By Atlee Regime

LONDON, Oct. 14 (AP)—The British Labor government today hunted for ways to cut expenses in answer to opposition criticism against its refusal to call a general election this fall.

Prime Minister Atlee called his cabinet into session for the third time this week. It is expected that the government will be reduced to a five to 10 per cent cabinet in administrative spending. Atlee will not permit cuts in defense costs or any reduction of government health services.

A five percent cut would save about \$100,000,000 (\$400,000,000) a year. The committee also will study possible cuts in the government's (Continued on Page Eight)

## Mrs. Sara Driggers Hurt In Accident

Mrs. Sara Driggers suffered chest bruises that required medical treatment Wednesday morning following a collision of a Dodge 1941 truck in which she was passenger, and a 1948 Oldsmobile station wagon at the intersection of Caltry Avenue and Cameron Avenue.

Damage to the Oldsmobile, which was driven by William Henry Grassie, of 606 Palmetto Avenue, was estimated at \$400, and to the Dodge truck driven by James M. Cooner of Route 1, at \$150, according to R. D. Hamilton, state highway patrolman who investigated the accident. Cooner faces a charge of violation of the right of way.

## Multi Billion Dollar Suit Filed In Court

LOS ANGELES, Oct. 14 (AP)—A damage suit for \$71,100,000 was filed in federal court today by two Los Angeles attorneys. Attorneys said it was the largest damage action in history.

Arthur R. Van Wyke and A. H. Harrison, Los Angeles, charge that a metastable herbicide was administered, resulting in huge losses for the plaintiffs. Several former employees of the Standard Oil Co. of California, A. D. Irwin and Associates and John Doe Inc. are named as defendants in the suit. The suit was filed in federal court today.

## Stalin Praises East Germans On Red Government

### Soviet Bloc Expected To Sign Peace Pact By January

BERLIN, Oct. 14 (AP)—Joseph Stalin today told East Germany's new Communist republic that the Germans and Russians together could keep Europe peaceful by fighting as hard for peace as they fought in war.

Stalin's message of congratulations to East Germany's Communist leaders brought predictions from pro-Soviet sources here that the Soviet bloc would sign peace treaties with the new Red Satellite by January.

These sources tentative drafts of such treaties already have been prepared. Stalin's congratulatory message last night to East Germany's President Wilhelm Pieck and Chancellor (Premier) Otto Grotewohl called establishment of the satellite regime a "turning point in the history of Europe."

He declared that the Russian and German peoples made the greatest sacrifices in World War two. "If both people, Stalin continued, will show the same determination to fight for the same intensity of effort for peace with which they waged war, then peace in Europe can be regarded as secure."

The statement was distributed here by ADN, the official Soviet News Agency. It was given prominent space in Moscow newspapers today.

"There is no doubt," Stalin said "that the existence of a peace-loving, democratic Germany, along with the existence of a peace-loving, democratic Soviet Union, excludes the possibility of new wars in Europe, makes an end to European bloodshed, and makes impossible the servitude of European countries under world imperialism."

"Both these peoples," the Russian premier declared, "have the largest potentialities in Europe to complete the great actions of world significance."

The sources who reported the impending peace treaties said the pacts would bind the German republic to renounce forever any claim on the former German territory now held by the Soviet Union, Poland and Czechoslovakia.

## National Guard Company I, Meets For Drill Session

Company I, 194 Infantry National Guard, held its regular meeting and drill last night at the Armory with Lt. Raymond Kader commanding.

The company was commended for its fine appearance at inspection and was told it will march as a unit in the coming Armistice Day parade sponsored by the American Legion.

An international squad and individual drill program was carried out in preparation for the parade with Sgt. C. O. Jones, C. R. Jones and Joseph Weiner instructing.

Two films were shown later, one dealing with correct methods of soldiering in combat and the other with the activities and importance of the new National Guard.

Lt. Kader announced that the recruiting drive is progressing very well and welcomed any young men who are interested in joining to come to the regular meetings held every Thursday night.

Main speaker at last week's meeting was Chaplain Lytle Zimmerman who told of the importance of a Chaplain's duties during war time and the primary objective of bringing God to the soldier.

## Lewis Urges AFL Funds For Steel Strike

### Mine Workers' Leader Would Unite All Labor Behind CIO's Drive For Pensions

WHITE SULPHUR SPRINGS, Oct. 14 (AP)—United Mine Workers President John L. Lewis today urged AFL President William Green to throw in \$2,500,000 a week to assist CIO President Philip Murray in his steel strike and promised the miners would help.

Lewis, in an amazing bid for labor union cooperation in the two major strikes now on, called upon Green to create a fund in which 10 AFL each union would put up a quarter million dollars every week to help the steel workers "win beyond peradventure."

Lewis said he would match the \$250,000 every week from the treasury of the United Mine Workers. His 400,000 miners have been on strike since Sept. 19.

In a letter to Green, Lewis urged the AFL President to "unhinge" every other consideration and rise to meet in this fashion the stark adversity which would demoralize the major units of organized labor.

In this way, Lewis who has fought both Green and Murray in the AFL and CIO, appeared to be making a tremendous bid to bring all of the major labor organizations into a drive to fight what he called yesterday "a combination" of powerful steel and financial interests to break down unions.

Lewis urged unity among labor pressed into the background for the moment the negotiations he is conducting here with northern and western mine owners. (Continued on Page Eight)

## Jack Davis Tows Body Of Drowned Fisherman Ashore

The body of William Savage, negro (famously known as "Peg Leg"), was today recovered from a shore near Mills Creek by Jack Davis, sign painter, who while fishing at about 9:30 o'clock, sighted the rope, rowed to it and after tying a rope around it, towed it ashore. Savage was drowned Wednesday afternoon when his row boat overturned.

Game Warden Bill Johns arrived at the scene this morning and assisted Davis in removing the body from the row boat and placing it on the shore.

Police Chief Roy G. Williams had meanwhile sighted the body floating in the water prior to the time Mr. Davis went to it, and had notified the Sheriff's office. Sheriff P. A. Mero and State Highway Patrolman R. D. Harrison arrived on the scene shortly afterward. The body was taken to Horton's Funeral Home.

Savage was drowned shortly after 9:00 o'clock Wednesday afternoon when the rowboat in which he and William Hamilton, negro, had been fishing, overturned in rough water. Hamilton clung to the overturned boat for more than an hour before he was sighted by a negro woman and officers arrived in the police boat to rescue him. Efforts by police to drag for the body of Savage yesterday morning were hampered by the rough water, said Capt. Tills.

## Three Federal Judges Study Rail Merger

ATLANTA, Oct. 14 (AP)—Three federal judges had under consideration today a proposed merger of the bankrupt Florida East Coast Railroad and the Atlantic Coast Line. Oral arguments for and against the plan were aired yesterday in U. S. court of appeals. ACL is fighting the Interstate Commerce Commission on a \$100 million suit.

A majority of the I.C.C. refused to issue a decree authorizing the merger. St. Joe Paper Co., a Du Pont concern which owns 81 per cent of the \$48,000,000 of refunding bonds, heads the opposition.

U. S. POPULATION WASHINGTON, Oct. 14 (AP)—The United States population will go above 160,000,000 "some time this month," the Census Bureau predicted today.

Acting Director W. M. Hauser said the Bureau's estimate for Sept. 1 was 160,000,000, and that the current rate of increase would carry the population 600,000 more in each day this month.

## Nehru Arrives At Blair House

PRIME MINISTER Jawaharlal Nehru (right) of India is shown with his wife, Mrs. Indira Nehru, at Blair House, following their arrival at the Blair House, Executive and members of his Cabinet met Nehru at the Washington National Airport. The Indian leader flew from London in the President's plane, the "Independence." (International Soundphotos)

## LaRogue Talks To Savings And Loan Group At Mayfair

O. K. LaRogue, member of the Home Loan Bank Board of Washington, D. C., today addressed members of the Florida Savings, Building and Loan League at their 26th annual meeting at the Mayfair Inn. His subject was "The Philosophy of Unity in the Public Interest."

An address by J. Edwin Larson, state treasurer, was scheduled for this afternoon.

The group was welcomed at their opening session this morning by Mayor Andrew Caraway with response by R. V. Walker, first vice-president of the Florida Savings, Building and Loan League.

Last night about 55 of the men and four ladies attending session were entertained at the hotel by the Business and Professional Women's Club. Contests were enjoyed under direction of Mrs. P. M. Gingles.

Rosemond Chapman had charge of the convention arrangements. Among the hostesses to welcome the visitors last night were Mrs. Sally Mero Williams, Mrs. E. C. Price and Mrs. W. C. Satcher of the B. and P. W. Club.

## Charges Denied Tallahassee

TALLAHASSEE, Oct. 14 (AP)—The State Game and Fresh Water Fish Commission has "categorically denied" all charges made against it before a Senate investigating committee.

Commission Director Coleman Newman said the denial would stand until the agency is allowed to cross-examine witnesses who have charged it with waste of time, killing deer out of season and use of state property for private purposes.

## New Trailer Park Opened Near Longwood By R. A. Wilhelm

Sanlando Trailer Park, beautifully landscaped and shaded and with every modern facility that the tourist may desire was opened yesterday by Mr. and Mrs. R. A. Wilhelm, former citizens of Flint, Mich.

The Park is located nine miles south of Sanford on the Sanford-Orlando highway where the cross road branches to Longwood. Its nearly three acres of ground contains circular clay surfaced roads arranged as to provide easy entrance and exits for trailer units, and 30 large trailers may be accommodated, each with a "front yard."

Concrete patios have been laid for convenience of the trailers. Each trailer is supplied with electricity with convenient enclosed meter boxes mounted on nearby trees. No. 4 wire and a complete electrical installation system was provided by the Florida Power Corporation, whose engineers designed the electrical layout in such a manner that electric appliances can be used in 30 trailers at the same time without overloading the circuit.

## Moch Is Elected French Premier By Narrow Margin

PARIS, Oct. 14 (AP)—The French government today formally rejected Russia's recent protest against the establishment of a western German state at Bonn. The rejection was pronounced in a note from the French foreign ministry replying to the Soviet note of protest delivered Oct. 1. Russia had claimed the Bonn regime violated the Potsdam agreement for Germany's political and economic unity.

Announcement of the final result could not be made for almost three hours after the ballots were cast because of disputes over the vote of several deputies. Two dissenting votes put the new premier in office.

Much of the retiring interior minister, gained a reputation as a "strong man" last winter when he crushed a Communist led wave of strikes. Now he faces the task of naming a cabinet which can cope with the nation's mounting wage-price crisis.

It appears that his cabinet will have only a slim chance of surviving for any length of time. He received the lowest postwar total for any premier in a vote of 311 to 223 vote.

## Blood Tests Prove Child Not Thompson's

ANN ARBOR, Mich., Oct. 14 (AP)—Laboratory blood tests showed conclusively today that an abandoned six-year-old boy found here is not the kidnapped son of a Dayton, Ohio couple.

Result of the tests was reported by Dr. Charles C. Carmona of the University of Michigan heredity clinic. He said the tests were "conclusive."

For two days the parents of six-year-old William Thomas O'Neill had been in question. Mr. and Mrs. Arthur Thompson, hoping Tommie had come home, had kidnapped five years ago from their Dayton, Ohio, home.

In the tests, Tommie's blood was compared with that of Mr. and Mrs. Thompson.

LEGION MEET Campbell-Leasing Post 63 of the American Legion will hold a supper at the Legion Hut, Monday night at 7:00 o'clock. Committee to plan and direct the Armistice Day program and parade will be chosen, said James Q. Galway, post commander, who urged that all members of the Post be present.

## Alger Hiss Trial To Remain In New York

NEW YORK, Oct. 14 (AP)—Alger Hiss motion for transfer of his second pre-trial to Vermont was denied today.

## Eleven Communists Convicted Of Trying To Overthrow U.S.

### Gay Discloses Sales Tax Rules To Retailers

### Comptroller Leaves Problem Of How To Tax Up To Sellers

ORLANDO, Oct. 14 (AP)—Florida merchants today received the answers to some of the questions that have been bothering them about the state's new sales tax.

Comptroller C. M. Gay disclosed some of his administrative ruling on taxes of a clinic sponsored by the Florida State Retailers Association.

Re-tailored men, furniture and automobile dealers faced their questions of tax during the morning session.

Here, some of the things told them about the new 3 percent levy which will become effective Nov. 1st.

Although many dealers felt that one cent in tax was a combination of such sales by a group of customers at the same time will bear the tax. In other words, five men could buy individual cups of coffee in a restaurant at five cents each but pay five cents tax.

## Dixon Is Ordered Held In Death Of Carroll English

A coroner's jury, announced this morning to make further reports into the death of Carroll English, Oct. 3 at a home camp at Lake Jessup, reported that Joe Dixon, alias "Mule" Dixon, had made an assault with a cut-throat razor on the victim's neck and inflicted a mortal wound on English and that Carroll English had been a member of the Communist Party.

Dixon, 17, is being held in the county jail in pending action of a grand jury, said a sheriff. A coroner's jury, not holding a session until the morning, was pointed out by the coroner.

W. E. Watson, medical examiner, said he had examined the body of Carroll English and had found a mortal wound on the neck of the victim. He said the wound was inflicted by a cut-throat razor.

Shirley P. A. Mero, coroner, said that Dixon had admitted hitting English at the Jessup camp following a quarrel in which Dixon and English had "struck each other and knuckled a pipe out of my mouth," Dixon had hit him home where the gun was used on the victim's neck. Another man which had been fired, was found close to the body of Carroll a day after the shooting, and the Sheriff, O. R. Smith of the Jessup, said the wound in the neck of English would in the neck of English.

Dr. C. E. English, coroner, stated that the wound was sufficient to cause death, and that in other wounds were found.

ANN ARBOR, Mich., Oct. 14 (AP)—Laboratory blood tests showed conclusively today that an abandoned six-year-old boy found here is not the kidnapped son of a Dayton, Ohio couple.

Result of the tests was reported by Dr. Charles C. Carmona of the University of Michigan heredity clinic. He said the tests were "conclusive."

For two days the parents of six-year-old William Thomas O'Neill had been in question. Mr. and Mrs. Arthur Thompson, hoping Tommie had come home, had kidnapped five years ago from their Dayton, Ohio, home.

In the tests, Tommie's blood was compared with that of Mr. and Mrs. Thompson.

## House Members Applaud News Of Red Trial

### Justice Department Head Praises U. S. Attorneys, Jury

WASHINGTON, Oct. 14 (AP)—Applying justice in an announcement on the House floor today that the 11 Communist leaders had been convicted in New York.

The announcement was made by Rep. Quinn Tamm, who said: "The verdict today establishes the fact that the Communist Party has been exposed as the enemy of the government by force and violence."

At the House Department, Attorney General McGrath described the outcome as "glorious."

He sent his congratulations to the government attorneys who handled the case and issued a statement saying: "Whatever the outcome of this case might have been, American public opinion would have to be told that the more have been called upon to exercise greater patience and fidelity to the instructions of law and justice."

## Joseph Uebele Speaks To Jaycees On Fire Dangers

Joseph Uebele, former captain of the Washington, D. C. Fire Department, addressed the Jaycees today at the annual meeting of the organization at the Jessup, Md. camp.

Uebele, who has been a fireman for 25 years, stressed the importance of fire safety in the homes of the young men. He said that the fire department is always ready to help in any emergency.

Uebele also spoke of the dangers of fire in the homes of the young men. He said that the fire department is always ready to help in any emergency.

## Alvin Odham Named As Sinclair Agent

Alvin Odham assumed his duties today as agent for the Sinclair Refining Co. in Sanford and Curlew County, Fla. He is an experienced salesman.

Odham during the past three years has engaged in the automobile business in Sanford, Winston-Salem, N. C. and Bartow. He is the son of Mrs. H. B. Odham and the late H. B. Odham, who was raised in Sanford, attended local schools and graduated from Seminole High School.

He is a member of the Methodist Church, the Elks and the Seminole County Chamber of Commerce. Mr. and Mrs. Odham and two small children live at the Park Apartments.

## HOUSES TO RENT

Mrs. Camilla Bruce, secretary of the Seminole County Chamber of Commerce, today requested that home owners and landlords who received inquiries regarding rentals, where the property is already rented, refer these to the Chamber of Commerce so that further contact can be made with persons seeking housing here.

## Judge Medina Also Finds 5 Of Their Lawyers Guilty Of Criminal Contempt

NEW YORK, Oct. 14 (AP)—A federal judge convicted 11 top-ranking American Communist leaders today of conspiring to teach overthrow of the U. S. government by force.

The 11 defendants, all members of the Communist national board, were remanded to jail to await sentencing next Monday at 10:30 A. M. They face sentences up to 10 years in prison and \$10,000 fine each.

Eight of the defendants had been free on \$5,000 bail. Immediately afterward, Federal Court Judge Harold R. Medina found five of their lawyers guilty of criminal contempt during the nine-month trial and sent them to jail for terms varying from 30 days to six months.

Engine Dennis, a defendant who acted as a liaison lawyer, also drew a six-month contempt sentence. This occurred after seven hours of jury deliberation that began yesterday afternoon. A student-led trial ended in a hung jury.

## Hungary's Court Of Appeals Says Raik Must Die

BUENOS AIRES, Hungary, Oct. 14 (AP)—Hungary's court of appeal today ruled that Gyula Raik, former Communist foreign minister, and two fellow plotters must be executed for treason. They confessed conspiring to make their country a satellite of Moscow after the Yugoslav invasion.

The court sentenced the three death sentences and also upheld prison terms decreed for three other men who had conspired with Raik to overthrow Hungary's Moscow-backed regime. Two were given life imprisonment, the other a 10-year term.

The sentence on Raik, imposed after a trial in Budapest, was the first of a series of trials being held by the government to expose the activities of the "fascist" party.

He was sentenced to the death penalty for his role in the plot to overthrow the government and put the country under the domination of the Yugoslavs.

Both Tito and the U. S. government have demanded one question with the plot.

Alger Hiss motion for transfer of his second pre-trial to Vermont was denied today.

The former high state department official had asked for the transfer on grounds that he could not get a fair trial in New York, where his first trial ended in a jury disagreement.

Federal Judge Alfred C. Cox rejected the transfer motion. His second trial is scheduled to begin Nov. 1.
