THE RECORD PROVES IT: Evil pursueth sinners but to the righteous good shall be repaid. Prov. 13:21.

The Rebellious Muse

(From The Saturday Review) THE GYPSY TRAIL, 1937. A Detour—Gypsy Trail (closed). Now that the hills are all a glow...

Not while I've got a quill and a well-filled barn and hay, A sleek fat cat upon a mat, A comfortable fire...

Think you my ears are deaf at night To caravans afar, Where the long road has moonlit white?

Or you can choose the autumn gold And think that you are rich, But I shan't fancy when I'm old, A sleeping in a ditch.

The gypsy life's a lousy life 'Till they get to like to roam— But I shall make a sober wife 'D' prefer stay at home!

"I don't know," a reader of this paper said in this office yesterday, "whether the automobiles ruined the country or it was something else, but whatever it was has done a pretty good job of it."

"I don't know," a reader of this paper said in this office yesterday, "whether the automobiles ruined the country or it was something else, but whatever it was has done a pretty good job of it."

Prime Minister Chamberlain goes to Godesburg Thursday to confer again personally with Chancellor Hitler. He will miss the biggest opportunity in his life to become the greatest statesman in the history of the world if he doesn't pin Adolf's ears back.

Another one of those trade price wars broke out in Eustis last week, when the price of gasoline was dropped to eleven cents. Wars between business men, like wars between nations, only bring grief and loss to the participants.—Ocala Star. And the public too in the end suffers.

A new tennis court is soon to be built in the portion of Port Mellon Park now under construction. When the entire park has been completed there will be no fewer than eight courts ready for use by Sanford's younger generation. Who knows but what from such small beginnings the Billay Grant or Donald Budge of twenty years from now may spring.

Some of the newspaper headlines on recent stories from Europe are interesting. One of them says, "Czechs Tossed to the Wolves by their Pals; To Be Sliced Up." That one was in the Ocala Banner. These headlines are not written by correspondents in Europe, nor by propaganda agents in this country, but by home town boys with no area to grab, telling the home folks of events in Europe as they see it.

Czechoslovakia, born of the World War, once a part of Austria-Hungary, is not composed of Czechs, Slovaks and Sudeten Germans, as one might suppose from the recent controversy, but also includes within its boundaries more than 700,000 Hungarians, 100,000 Poles, 15,000 Rumanians, over half a million Ruthenians or little Ruscians and some three or four hundred Slovaks. If all these are taken away from Czechoslovakia, only an million Czechs and Slovaks are left.

Major Whittlesey's Lesson

The almost unanimous American criticism of Prime Minister Chamberlain's abject surrender of the little Czechoslovakian republic to the wolfish appetites of Adolf Hitler's Nazis is said by leading Britishers to come with poor grace from a country safely separated from the possible consequences of war by an ocean three thousand miles in width.

All of which reminds us that it will be exactly twenty years ago on the second of next month that a little group of American soldiers who had found the Atlantic Ocean not quite wide enough to separate them from the consequences of war, carrying out orders from their superiors, broke through the German lines, attained their objective, and settled down to await the arrival of reinforcements.

Almost before they knew it they were completely surrounded. The reinforcements failed to arrive. The Germans closed in on every side outnumbering them ten to one. Communications with general headquarters were impossible where the exact location of the "Lost Battalion" could not be established. The situation of the Americans looked hopeless.

It was in these circumstances that the commander of the German division surrounding them sent in word calling upon the Americans for an unconditional surrender. And Major Whittlesey, their commander, a man who by force America entered the war had been a pacifist, sent back word to the German general, "You go to hell!"

It was five days before help finally arrived. It was two days before they had any time to eat and scarcely anything to drink. The Germans charged their lines again and again. They attacked with machine guns, hand grenades, bombs, trench mortars, gas and liquid fire. The Americans were even unintentionally subjected to a barrage from their own artillery. At the end of five days only 191 men were left out of the 600 who had refused to surrender.

Over four hundred men were left where they died. Over four hundred died in preference to surrender. By the spirit with which they faced the overwhelming odds against them finally won the war. The Germans knew then that the Americans could not be licked. They knew that their cause was hopeless. And within little more than a month afterward, it was they who put up their hands and shouted "Kommurade!"

If Prime Minister Chamberlain could remember to leave forth which French, British, and American soldiers made to win the World War, if he would stick out his nose a little bit farther than the German diplomats, if he would swell up the muscles in his own neck, when he receives Der Fuehrer's new demands at Godesburg today, and, without the formalities of diplomatic niceties, tell him to go to hell, we haven't the slightest doubt that it would soon be Mr. Hitler who would be shouting "Kommurade!"

The Railroad Wage Cut

While railroad workers are voting on the question of striking in an effort to resist a proposed 15 percent wage cut, and President Roosevelt is working with a joint labor and management committee in an attempt to find some solution for the railroad problem, a pamphlet is issued by the Brotherhood of Railroad Trainmen, setting forth the following reasons why railroad workers should not accept the cut, which should be of interest to local railroad men:

"1. A wage cut means a destruction of their buying power. Every millionaire in this country could lose 95% of his wealth and the effective buying power of this nation would not be lessened by a penny. He would still have \$50,000 left and he could live in comfort, even in luxury.

"2. Cheap wages mean low buying power. Low buying power means low standards of living." (President Roosevelt).

"3. We are on the way to recovery. A wage cut will retard recovery. The railroads should help, not hinder, a return to business recovery.

"4. A wage cut to the railroad workers will be followed by wage cutting in other industries.

"5. Railroad men are now underpaid in comparison with employees in other industries.

"6. Railroad employees are trained men who have to work many years before they are regularly employed, and many of them are engaged in work that is dangerous and hazardous.

"7. When the railroads were prosperous the railroad workers' wages were not increased. During the World War their average wage was \$4.00 to \$5.00 a day. At the same time blacksmiths, boiler-makers, and machinists in industries other than the railroads, and employees in manufacturing plants were earning wages ranging from \$8.00 to \$20.00 a day, or \$200.00 to \$520.00 a month.

"8. Will a wage cut increase employment? No. In 1932 the railroad workers consented to a wage deduction on the promise that more men would be employed. What happened was that during that year thousands of railroad workers were laid off and the railroad payrolls cut millions of dollars. During that time nearly \$400,000,000 taken from the railroad workers were paid to the bondholders and stockholders. A wage cut will not benefit the railroad worker; it will only benefit the bondholder.

"9. To pay the railroad workers less than a living wage will result in dissatisfied employees, under-nourished workers and families, poor relationship between management and labor, wage cutting in other industries, lowering the purchasing power of the great mass of employees in all industries, and plunging our country into the worst depression ever known.

"10. The railroads are acting in bad faith. In October 1937 the railroad management, with the approval of the Mediation Board, approved the wage agreement for the railroad workers, and Mr. Enoch, Chairman of the Railroad Committee, admitted that 'it will strengthen the industry and the relationship between carriers and employees; also it will be in the interest of the public.' 'The railroads were right then and they are wrong now.'

Foreign Volunteers To Evacuate Spain

1,000 Americans are still left in Spain. Officials explained foreign volunteers acted as shock troops while Spaniards were learning rudiments of war and now, their purpose served, they would be withdrawn. When you use mayonnaise or salad dressing on sandwiches so that it is quite thick, so it will not run over the edges of the bread. Butter both sides of bread to seal it so that the filling or relish won't seep in.

STRANGE AS IT SEEMS—By JOHN HIX

For further proof address the author, enclosing a stamped envelope for reply. Reg. U. S. Pat. Off.

Illustration of a woman with text: CAPTIVE SNAKES BITE MORE PEOPLE ANNUALLY IN THE U.S. THAN DO SNAKES LIVING IN A WILD STATE! A TOY TRAIN RUNNING ON A CIRCULAR TRACK AT HIGH SPEED WAS USED BY M.W. BALDWIN, INVENTOR, TO DEMONSTRATE THE POSSIBILITY OF FLANGED WHEELS FOR RAILROAD CARRIAGES... Philadelphia Museum, 1931. EVERY AMERICAN LEAGUE BASEBALL GAME PLAYED ON JULY 24, 1937, ENDED WITH THE SAME SCORE-- 6 TO 5! HATNE CARRAWAY, ARKANSAS LEGISLATOR AND FIRST WOMAN SENIOR SENATOR IN U.S. HISTORY, ALSO IS THE FIRST WOMAN ELECTED TO THE SENATE BY POPULAR VOTE; FIRST WOMAN CHAIRMAN OF A SENATE COMMITTEE; FIRST WOMAN TO CONDUCT A SENATE HEARING; AND FIRST WOMAN TO PRESIDE OVER THE SENATE!

7-21-38

SENATE FIRST LADY... When last July the death of Senator Joseph P. Robinson created the seat of a senator from Arkansas vacant, Hatne Carraway was elevated to fill that post. She became, in this manner, the first woman in United States history to serve any state as a senator, scoring her fifth term among the nation's past and present women senators.

TOY TRAIN TEST... Strange as it seems, a toy train was utilized in 1931 to solve a problem of the public that passenger cars could not stay on the track when negotiating curves at unduly high speeds. Matthew W. Baldwin, Philadelphia...

DISPELLING THE FOG BY CHARLES MICHELSON

Democratic National Committee

It is not only the Republican program committee—Glenn Frank's outfit and the differing elements typified by Ex-President Hoover, House Minority Leader Snell, and a dozen other important factors, that need coordinating, their newspaper propagandists are equally at cross purposes. I wonder if it would be out of order to suggest industrious purveyors of inspired opinion, at which some sort of general understanding of what they are driving at could be reached.

Perhaps in this way somebody might get some idea of what the Republican party is standing for or aiming at, to the great relief of their confused readers.

I am not including the official press agent of the Minority party and its forlorn Foreign Legion of disgruntled Democrats. He has a definite job that is not concerned with his individual views, and there is no disguise of the sponsorship of his output. I refer to the newspaper columnists who are ostensibly free agents and who are perfectly impartial in their judgment of New Deal activities—that is, they agree that everything the President does must be wrong and everybody he opposes must be right.

For example, Mr. Frank Kent was recently horrified because the President described Sheridan Downing, the California nominee for the U. S. Senate, as a Liberal and refused to be alarmed because that candidate in his campaign connived at a hair-raising scheme of bestowing on unemployed people over fifty the sum of \$30 a week, to be financed by his state's treasury with some stamp-tax trimmings. The commentator infers that this marks the degradation of the whole New Deal principle.

On the other hand Mr. Mark Sullivan hails the defeat of Senator McAdoo by Downey as a crushing defeat for the New Deal and an evidence that the country is in revolt against it.

Actually, the McAdoo-Downey conflict had no New Deal angle to it. The President supported McAdoo, who had been loyal to

WASHINGTON DAYBOOK

By PRESTON GROVER

WASHINGTON, Sept. 22.—(AP)—The Senate today will vote on the nomination of Hatne Carraway to the Senate. Carraway, an Arkansas legislator, is the first woman ever elected to the Senate by popular vote.

Some of the older members, who had battled their rival as a public figure for many a year, knew before the purge started that defeat was certain in several instances and they in other instances interpreted as a challenge to the administration. What will be the result of the vote?

Some of the older members, who had battled their rival as a public figure for many a year, knew before the purge started that defeat was certain in several instances and they in other instances interpreted as a challenge to the administration. What will be the result of the vote?

# McLucas Proteges Given Rough Workout Yesterday

### Tackles Show Up Well In Practice As Fed Backs Are Drilled On Wingback Plays

Although Head Coach Leonard McLucas did not put his squad through a very hard workout yesterday, the practice was a very busy one. The Seminoles practiced today for the first time since they returned from the double weekend play at the University of Florida. The practice was held at the Sanford stadium and the Seminoles were drilled on wingback plays. The Seminoles were drilled on wingback plays and the tackles showed up well in practice. The Seminoles were drilled on wingback plays and the tackles showed up well in practice.

play. Rome was told by McCracken that if he could get the man with the ball to take down some of the interference. This he did as three backs came tearing through the line. Rome took down two of them.

Edman did some powerful work on the defense yesterday and it took nearly all of the interference and most of the line to keep him out of the play.

Abby Jones did the same as the 240 pound youngster is really hard to take out of a play. Jones made several neat tackles and pressed up a number of plays.

Robert Howell, the left tackle played some good ball as he broke through the mass of play after play and finally he was so tired of breaking them up he retired to the locker room.

Coach McLucas has four equally good tackles and all four will be played in action this season. It was expected that Howell would have the top position but Rome changed that and Jones and Edman are still fighting for the right tackle berth.

The head mentor announced today that the initial scrimmage of some would probably be held Friday afternoon, however there is a possibility that it may be held the afternoon.

# Gainesville G-Men Defeat Albany To Take Second Tilt

### Leads 'Gators

CAPTAIN JIMMY OXFORD

ALBANY, Ga., Sept. 22.—The Albany Travelers, champions of the Georgia Florida League took their second beating in a 24-0 victory yesterday afternoon when the Gainesville G-Men, title holders of the Florida State League, rallied in the ninth inning to score four runs and down the Travelers by a score of 9 to 6.

The Travelers, who won the league pennant and then went on to clinch the Shaugnessy play-off title, jumped into an early lead and wound up the eighth inning with a one-run lead. The final run debacle followed, leaving the Georgians at the short end of the final count.

The Florida State champions pummeled Kain Bass of Albany for a total of 15 hits. While Willis and Waldon of Gainesville divided 11 Albany safeties between them.

Both teams head for Florida today and resume play at Gainesville Friday.

Gainesville (F.S.L.) 9-0 220 001  
Albany (G.F.L.) 6-22 019 029

Willis, Waldon and Nix, Lively; Stone, Bass and Mitchell.

CAPTAIN OF THE University of Florida's 1938 "Fighting Gators" is Jimmy Oxford, from Leesburg. Jimmy is keen to lead the Gators to a fine record this fall and incidentally, many who know their football believe this spirited 195-pound athlete has the possibility of being the greatest center in the South this year. Florida opens its 1938 season Saturday night, Sept. 4, in Gainesville, playing Stetson under the lights of Florida Field Stadium.

# Barbers Pay For Support Of State Examiners Board

TALLAHASSEE, Sept. 22.—Florida barbers paid \$31,319.39 in license and fees to support the State Board of Barber Examiners during the first year of its existence.

The total amount shown in a report filed with Governor F. P. O'Connell's office by J. A. Hicks, secretary of the board, includes \$24,447.80 for salaries, \$5,851.57 for traveling expenses and \$1,019.02 for office and miscellaneous expenses.

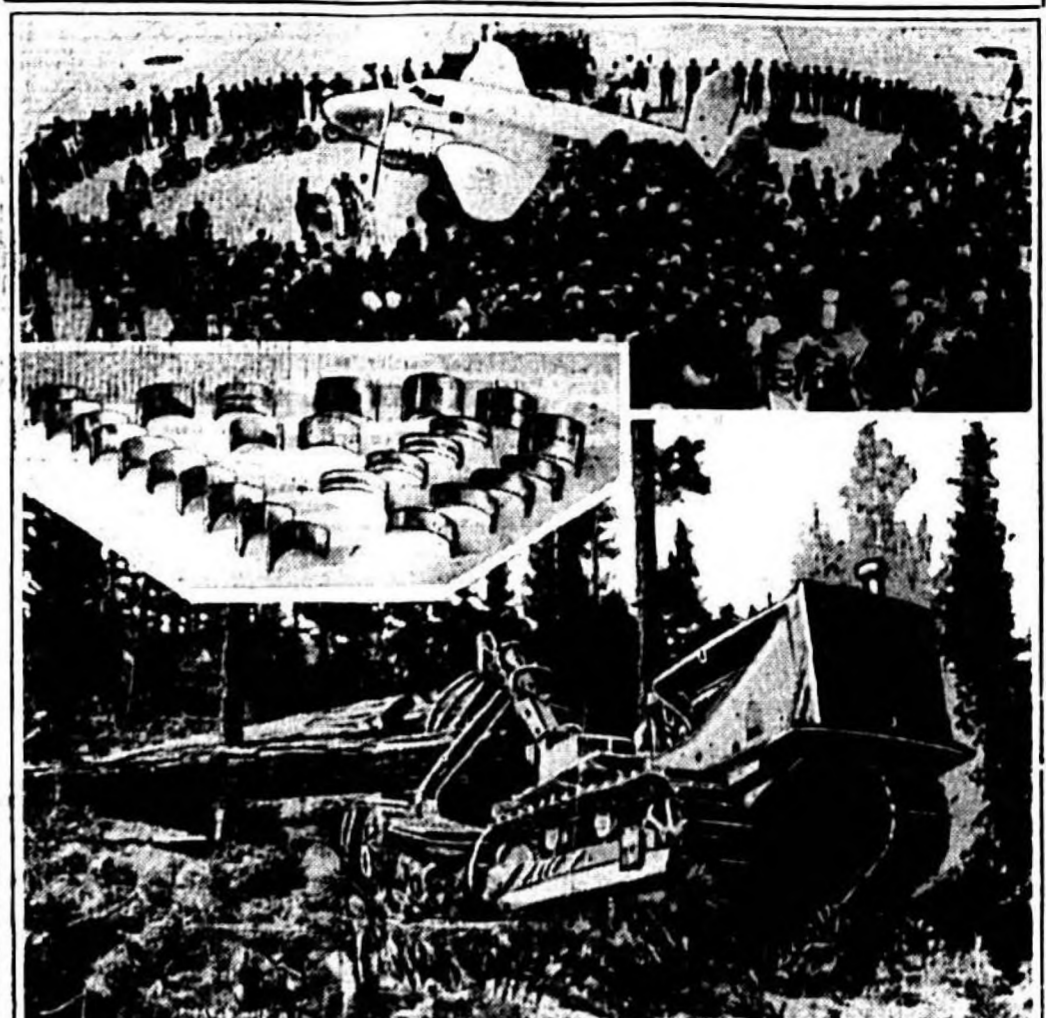

At the end of the year, the board had a balance of \$770.95.

Inspector made 5,400 visits in checking on 1,200 barber shops during the year. Twelve shops were closed temporarily and eight were closed permanently for failure to comply with health regulations imposed by the barber board law.

Examinations were given to 309 applicants for licenses to practice barbering, and 115 male shaving grades. Five permits were revoked during the year and 12 arrests were made for failure to comply with the law.

The Marsh Hen is the first victim of the Florida hunting season and guns began to crack in marshes and on lakeshores Sept. 15 and will remain open until Nov. 30. The season does not open until Nov. 20.

# NEW BEARINGS SET ASTOUNDING RECORDS

(1) Howard Hughes lands his plane in New York after record breaking flights surrounded by reporters, policemen and the "insiders" who were able to secure passes. Nearly 30,000 spectators were massed behind the outer barriers watching this epoch-making arrival. (2) Group of typical copperlead bearings. This is the type bearing used in the tractor which operated for 18,000 hours on a hard road grading schedule with absolutely no attention to its engine bearings beyond ordinary lubrication. (3) Hercules Cletrac Diesel tractor on record breaking road building contract in Oregon.

AMAZING endurance records which far exceed engineering dreams of but a few years ago are being established by the infallibility and greatly increased ruggedness of internal combustion engines. Hughes famous flight around the world in a fraction over three days is an outstanding example. A road tractor which worked for 18,000 hours without a single bearing replacement on an almost continuous 24-hour a day stretch is another example.

Back of these spectacular achievements is an engineering story which is of intense interest in the technical world. The development of the copperlead bearing has been a material factor in making possible these long runs at top speed and full load. Bohn copperlead bearings were used in many of the vital parts in the Hughes plane just as they were in the record breaking road tractor. The complete set of copperlead bearings used in the tractor engine which set the 18,000 hour mark is shown above.

There is much in common between the flight of Hughes "around the world" in three days, 19 hours and 17 minutes and the tractor, which maintained a schedule of 12 trips per hour over an eleven hundred foot average haul on three 7-hour shifts for six days per week until it had completed 18,000 hours of work. Both are extreme examples of speed and endurance and both were equipped with the latest type heavy-duty Bohn copperlead bearings. Earlier bearing materials could not possibly have withstood the stresses involved in a continuous wide open throttle run of this kind.

Among the many distinguished visitors who will attend the Pan American Horticultural Show Exposition in Chicago next winter will be Ingvald Polenske, Andrew D. Bain of Minneapolis, Minn., who will attend the Big Shrine ceremonial and participate in the Shrine Day activities at the Exposition, Jan. 31 to Feb. 18. Imperial Recorder James Price of Virginia will also attend the event as well as other high Shrine officials from all sections of the country.

# Cody Announced Starting Lineup For Hatter Tilt

GAINESVILLE, Sept. 22.—Four sophomores will start in the University of Florida lineup against Stetson here Saturday night.

Coach Cody didn't make a definite announcement of his starting eleven, but he kept all of the players who have been running on the first string out of rough work yesterday, and observers are certain he will open the Gators first night game on Florida field with the following players:

Tom Walker and Clifford Whiddon, ends; John Crabtree and Barrell Hassett, tackles; Mush Battista and Frank Kocis, guards; Capt. Jimmy Oxford, center; Jack Blake, quarterback; Ted Taylor and Sidney Parnell, halfbacks; and John Smith, fullback.

With this eleven on the field there will be five sophomores in the forward wall, with one senior and three sophomores in the half-carrying department. Seniors Walker, Crabtree, Trest, Oxford, Whiddon and Blake; the lone junior is Hassett, and the first year men are Battista, Taylor, Parnell and Smith.

On the second eleven, which lined up in the scrimmage against the frosh yesterday afternoon were: Foma Pennington and Bill Howitt, ends; Pop Sestell and Ralph Kelson, tackles; Gordon Gardner and Red Lightbown, guards; John Berry, center; John Dewell, quarterback; J. L. Smith and Pete Kozlosky, halfbacks; and Jim Mulehly, fullback.

Work on kick offs and a signal drill rounded out yesterday's workout. John Berry, Paul Elery and Kocis were doing the kicking off, with Berry showing to special advantage.

# Titusville Plays Orlando Tonight In Grid Contest

Coach Harry Greene and his Orlando Tigers and event a light drill session today in preparation for their opener of the season tomorrow night when Titusville invades the Orange county seat.

The Orlando-Titusville clash will mark the opening games in Central Florida this season and a large crowd is expected to attend the classic. Greene has a pretty good back-field combination this season and an experienced line that should give Big Ten teams lots of trouble.

Over drilling on a new type of offense and a good game is expected from the Terrors.

The game will be played on Tinker Field in Orlando.

Leo A. Selzer, roller derby king, plans the construction of a \$200,000 auditorium in Miami for sports, conventions, exhibitions and shows. Property has been leased and arrangements for financing have been completed. The proposed building will seat between 5,000 and 6,000 and will occupy 32,000 feet of ground space. It will be in a downtown location, Selzer said.

# Beverage Dealers Will Contribute \$375,000 To State

TALLAHASSEE, Sept. 22.—Liquor, beer and wine dealers will turn about \$375,000 to the State Treasury Oct. 1 for their 1939 occupational license fees.

The fees must be paid before Oct. 1 or operators of places without licenses will be subject to arrest. Thomas W. Long, State beverage commissioner, warned today there is no provision for extending the time for obtaining licenses.

Revenue from licenses and from gallonage taxes on beverages is used to pay off age pension and aid to the needy blind and dependent children. Total

Served Hot or Served Cold—These Chicken, Fish And Meat Loaves

are winners says Dorothy Greig

For a thrifty soul like myself, there's nothing so downright satisfactory as a good loaf, made of substantial ingredients...

Take the three given here, for instance. There's no waste to them. They slice down neatly and can be used to the very last sliver of a slice.

- Chicken Loaf with Grilled Apricots
1 can condensed chicken soup
1 cup chicken
1 1/2 cups soft bread crumbs
2 tablespoons parsley, chopped
1 tablespoon paprika, chopped
1/2 cup milk
2 eggs

Chicken Loaf with Grilled Apricots may be served either hot or cold

- Tuna Fish and Mushroom Loaf
1 1/2 cups tuna fish, 7 oz. size
1/2 cup soft bread crumbs
1/2 cup milk
1/2 cup soft butter, melted
1/2 cup mushrooms, chopped
1/2 cup onion, chopped
1/2 cup celery, chopped
1/2 cup parsley, chopped
1/2 cup salt

**Selassie Says Hopes Of Peace Rest On America**  
 Former Emperor Still Clings To Hope Of Restoring Empire

He has a home in Italy where he lives, he declares, in the city of English tourists, and he is to his credit. He is a man of variously his whole support, explaining he never had planned to leave Ethiopia, hence never made financial arrangements for living outside. Nevertheless, he got a nice windfall recently when he was awarded a "substantial sum" from a London paper that had "helped him. He is making nice progress on a 12-cent walk to collect more than \$50,000 from a cable company.

I was curious as to what an unemployed emperor does with his time.

Halle Selassie said he is trying to help his countrymen. He devotes a good many hours to reading, studying and writing an autobiography. In between he plays tennis or takes other exercises.

He knows little English, but he knew enough to tell me he doesn't like the English climate. It's too cold.

I replied he had nothing on me. He laughed, I laughed—and he got out of the room.

# Arnold Explains Plans To Thwart Huge Monopolies

## Many Problems Must Be Overcome To Obtain Ultimate Goal

By THURMAN ARNOLD  
WASHINGTON. — Forty years ago the federal government launched an effort to halt harmful monopoly and price fixing by small groups and the concentration of wealth and power in a few hands.

It has been a popular effort but despite a government religion officially dedicated to the economic independence of individuals, the growth of great organizations in America has been amazing. The reason is that we have been trying to police the industrial activities of America with a corporal's guard.

The scope of the program indicated in internal revenue statistics for 1938 which show that over 50 percent of all net corporate income is earned by less than one-tenth of one percent of the corporations report ing, and 81 percent of the corporations reporting.

Today that 40-year effort must be directed on a new task. We can no longer treat the anti-trust laws as a moral problem. They are being employed as far as their capacity will permit to bring practical results in restoring a competitive market which in many fields has been lost.

The problem then is to define the public responsibility of such organizations and to determine which are efficient combinations for mass production and which are instruments arbitrarily assessing inflexible prices after achieving monopoly.

This determination may be made only after a factual investigation. Once that investigation discloses to us the existence of a harmful monopolistic condition within an industry, the corrective process under the anti-trust laws begins.

Three courses are open. Criminal prosecution may punish past conduct and serve as a warning. Civil prosecutions may look to the future beneficial organization of the industry. The third is the concurrent prosecution of the two, sharing elements of both and the same time leaving the door open at any time for the business men involved to volunteer a practical solution of major and immediate benefit to the industry, to competitors and to the public.

It is the policy of the department to make public in connection with each of the basis of the criminal complaint and civil action. Such statements serve (1) as a guide to business men who seek information on the probable action of the department in similar circumstances; (2) to aid the department itself in formulating a consistent policy of anti-trust law warning to those engaged in similar illegal practices; and (3) to call the attention of the congress to the interpretation and application of anti-trust laws by the attorney general, as they justly have a bearing upon contemplated legislation.

This type of guide is the most truly serviceable. No hard and fast rules can be laid down as to what an industry may or may not do because of the wide variations of conditions surrounding each case.

To date we have made some progress. Statements have been given out with regard to:

1. Alleged violations of the anti-trust laws by automobile finance companies.

2. Opposition of the District of Columbia Medical Society to the Group Health Association.

3. Exhibitor-producer combinations in the motion picture industry.

4. Alleged milk price fixing in northern Illinois.

Intelligent men of all political parties agree that unless coercion and inflexible price structures by large organizations are ended, a greater degree of government control of business than anyone has dreamed of is inevitable.

Therefore, everyone who desires the industry must favor an anti-trust organization and enforcement policy adequate to meet the problem.

Remember, blueberry pie fillings need some lemon juice or sugar to bring out the heat of the flavor. Use one tablespoon of sugar for each two cups of berries.

Do not move bread dough when it begins to rise—it may sink. Put the dough in a spot that is not drafty, cover with a clean cloth and leave it until it has

Young scholars need hot nourishing luncheons to keep vitality high the whole school day.

# Heigh-Ho! BACK TO SCHOOL THEY GO

## —and school day luncheons must be hot and nourishing

By Dorothy Greig

MUCH as we love our offspring, it's certainly a relief to see them marching off to school once more. As for the mothers they leave behind them, part of their cheerful share in the school year routine is seeing that Johnny and Mary get good hot luncheons when they come rushing in at noon.

School day luncheons should be nourishing, provide abundant

energy. Yet they should be light. A bowl of steaming soup is always a fine beginning, of course. It supplies the hot food every school luncheon should have—and it is easy to prepare. Just open the can, add water or milk, and heat.

### SCHOOL DAY LUNCHEONS

**Tomato Soup with Toasted Crackers**  
**Pear and Cream Sandwiches with Assorted Sandwiches**  
**Milk**

**Asparagus Souffle, Broiled Bacon and Tomato Slices**  
**Rice Pudding with Raisins**  
**Cocoa**

**Vegetable Soup**  
**Creamed Chipped Beef on Toast**  
**Banana and Orange Salad**  
**Milk**

**Tomato Juice**  
**Casseroles of Vegetables with Noodles**  
**Lettuce Salad**  
**Applesauce with Oatmeal**  
**Cookies—Milk**

**Cream of Pea Soup with Creamed Jellied Vegetable Salad with Cream Cheese and Date Sandwiches**  
**Hot Chocolate**

Note: An equal quantity of milk added to condensed pea soup makes this soup extra nourishing and delicious.

**Asparagus Souffle**  
4 eggs  
1 can condensed asparagus soup  
Heat the asparagus soup just as it comes from the can. Then add one egg yolk at a time and beat thoroughly after each addition. Beat the egg whites until stiff, but not dry. Fold them into the soufflé, pour into a greased casserole and bake in a 350 degree oven for one hour. Put the casserole in a pan of hot water while baking. Serves 4.

**Casseroles of Vegetables with Noodles**  
1 cup cooked carrots  
1 cup cooked potatoes  
1 cup cooked celery  
1 can condensed chicken noodle soup  
1 can milk (using soup can for measure)

Add the milk to the chicken noodle soup, and heat. Then add the cooked carrots, cooked potatoes and cooked celery and put all into a buttered casserole. Cover and cook all together in a 350 degree oven for about 30 minutes.

# Farmers May Get Money For Varied Improvement Work

A suggested list of farm improvement projects, including new buildings, new buildings, and other items, which are eligible under the Property Improvement Credit Plan of Federal Housing Administration may be made.

Under the Property Improvement Credit Plan, funds for repairs, alterations, and improvements to farm homes and properties may be borrowed for periods of three to five years from private financial institutions qualified by the Federal Housing Administration to make such loans. Loans up to \$2,500 may be borrowed in the same manner for the construction of entirely new farm buildings, with a maximum of seven years allowed for repayment.

The list of repairs, alterations, and improvements, together with new structures, which may be built on farms under FIA's Property Improvement Credit Plan follows:

Paint: House, inside and outside; Barn; service buildings; other structures.

Carpentry work: Floors, roofing, siding, steps, doors, storm doors, new screens, windows, weather stripping, shutters, fences, platforms, insulation, partitions.

Plumbing: Flashing, drains, pipes, sewage disposal, kitchen sink, modern bathroom.

Water supply: Windmill, power plant, cistern, hot-water heater, well, pump.

Heating system: Modern central heating plant.

Electrical system: Farm power plants, wiring, lighting fixtures and outlets, extension from main line.

Masonry: Foundations, walks, drives, steps, barn floors, troughs, stails, chimney, fireplace, basement.

Meat home comfort and beauty: Built-in kitchen cabinets, sun porch, additional rooms, closets, papering, plastering, painting, landscaping, restyling (interior and exterior).

New buildings: House, barn, dairy barn, poultry house, stock sheds, machine shed, garage, silos, granaries, corrals, straw sheds, tenant house, farm office, road-side stand, tourist cabins.

Cold fish and egg canapes are improved if they are chilled before they are served. Place them on a tray. Cover them with waxed paper and leave them in the refrigerator for at least 30 minutes.

# 54 Whiskey Still Destroyed In August

TALLAHASSEE, Sept. 22.—(AP) A state Revenue Department destroyed 54 stills valued at \$250,000 for violating State liquor laws during August.

The liquor cases were tried in the courts, 29 resulting in conviction and some in acquittal. Fines totaled \$1,333 and sentences totaled eight months. Eight sentences were suspended.

# Premier Hodza Quits And Benes Calls On General Syrovky For Place In Cabinet

Continued from Page One  
Newton and French Minister Victor de la Coudre.  
At the same time a communiqué was issued saying:  
"The government has been forced under irresistible pressure from both the British and French governments to accept with pain the proposals elaborated in Lon-

don."  
The gravity with which the government looks upon the developments of the next hours and days was revealed by a decree ordering a provisional moratorium for banks and private insurance companies, effective immediately.  
Banks are not obliged to pay customers having current accounts more than three percent of their deposits during a month's period.  
The Prague stock exchange suspended trading until further notice.  
The foreign exchange market

remained in operation, however.  
The government recently decreed foreign exchange restrictions and the exchange market is controlled by the national bank.  
The British and French ministers visited the government's session in Paris and London, placing it in the hands of Prime Minister Chamberlain of Britain who will carry it to Fuhrer Hitler Thursday in the left bank of the Rhine.  
Hitler, with his cabinet of advisers, met Chamberlain in

Godsberg today.  
In exchange for surrender of the Sudetenland, with its rich industrial areas and mines, Prague was offered an international guarantee for the integrity of its new contracted borders and a four-powers pledge of neutrality—similar to that already given Switzerland and Belgium—to protect Czechoslovakia, if and when the next great war comes.  
Add a little French dressing to salad dressing to thin it for serving over fruit, fish, meat or vegetable salads.

# EUROPE'S WAR TENSION GROWS

## New England Storm Deaths Approach 500

### Property Damage And Death Toll Mount As Floods Follow In Wake Of Storm

### Rhode Island Is Hardest Hit

Gov. Quinn Estimates Damages In State At Over \$100,000,000

WASHINGTON, Sept. 21.—(AP)—Red Cross headquarters called out reserves of trained disaster-relief workers today for duty in the storm-torn northeast.

The possibility of a recurrence of the 1938 flood menace at Hartford, Conn., chief of emergency activities to this city. But reinforcements also were sent to Providence, R. I., and other New England centers.

While government agencies began their rehabilitation work in the devastated areas, the Works Progress Administration announced it had 180,000 employees on the emergency work.

The danger of flood drew closer today to many sections of the hurricane-hit northeast, as the long list of storm deaths approached 500 and continued to increase.

In Connecticut, Massachusetts, New Hampshire, Vermont, New York and New Jersey rivers were rising. At many points rain fell.

Sections of Connecticut appeared most gravely menaced as Hartford thousands of men working with desperate urgency piled sandbags along the Connecticut River's dikes along the half mile of riverfront. Already 1,400 in the city were homeless and 10 percent of the total area was under water.

For the storm area generally disastrous inundations appeared likely, but fresh suffering and more damage was a certainty.

Meanwhile the search for the bodies of victims of the hurricane, the most damaging and life-destrating in populus north-east in history, went forward. Every report from hard-hit Rhode Island was more tragic than the last. Its dead numbered some quarter of a thousand. The little state suffered damage put by Governor Quinn at \$100,000,000.

In Westerly alone the number of dead was more than 70. Winds there were reported to have reached 120 miles an hour, smashing out the lives of whole families.

The Rhode Island damage estimate of \$100,000,000, made by Governor Quinn, was the only official figure but the total for the stricken area was believed to be at least a half billion dollars.

Thousands of rescue and relief workers toiled with all speed to clear communications for food supplies, to keep down contamination and possible disease, and to preserve order.

The flood danger areas generally were in valley of the Merrimack River in New Hampshire and on the Connecticut River in that state and in Massachusetts.

In New York, the Hudson coasted at Albany and rolled heavily down on the southern side of the state where riverwide swells were cresting.

And the widespread destruction brought by the storm—the worst to strike that rich and beautiful area since 1928.

### FHA Officials Explain Loans For Building

### Business Men Urged To Push Plan To Begin Construction Program Here

Declaring that Sanford has not received its proportionate share of assistance from the Federal Housing Administration, State FHA officials explained to a large group of local business men how that this city, too, might have a building boom as a result of the federal housing insurance plan.

The officials explained in detail the operation of the various sections of the act and its amendments as well as the qualifications necessary for securing the federal insurance. With each of the officials explaining the functions of his department, those present were told that the administration would underwrite loans for repairs to homes, including remodeling, and installation of fixtures, construction of barns, tourist cabins, houses for part time occupation, such as summer homes, and almost any other type of construction, in addition to the building of homes under Title II of the act.

Russell V. Tinney, chief underwriter, told contractors, plumbers and building material retailers at the meeting that they were missing a good opportunity to substantially increase their sales by not pushing more strongly FHA loans in Sanford. These loans would mean cash business for them, he pointed out, whereas a large volume of their present business is on a credit basis.

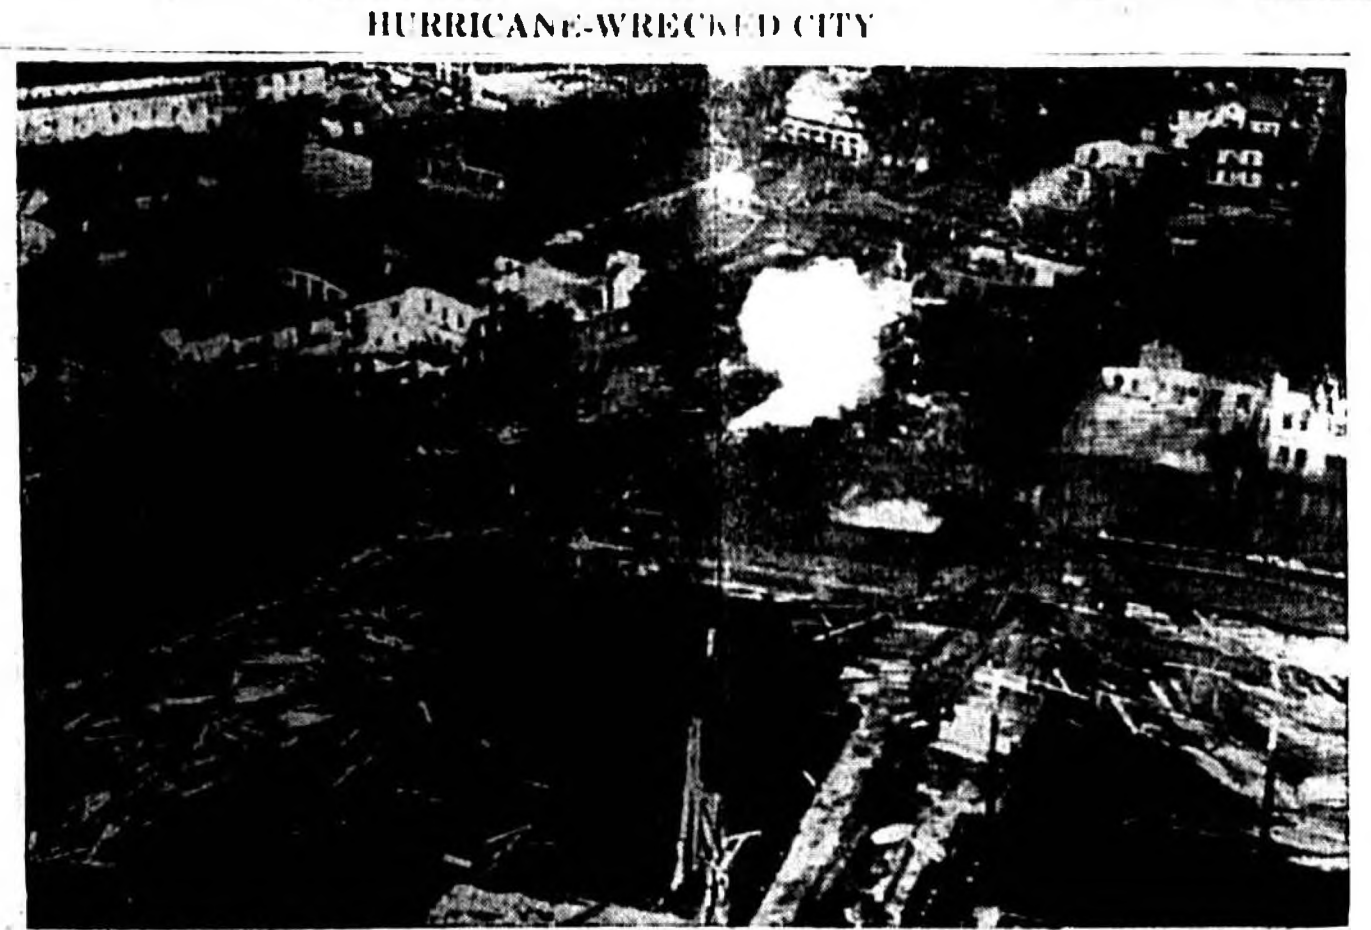

The officials pointed out that the Administration had underwritten several billion dollars in loans over the United States since the act was passed in 1934. Florida, they said, which is 37th in population in the United States is eighth in the volume of FHA insurance. More than \$10,000,000 in loans have been underwritten in this state since the first FHA office was opened in Jacksonville, the officials said.

Those present, at the meeting seemed very much interested in the FHA program and asked numerous questions pertinent to securing loans for all types of building.

Mr. Tinney thoroughly explained the 25 year amortization plan whereby prospective homeowners may secure loans up to 90 percent for construction of new homes.

Mr. Tinney urged those present to push the FHA program in Sanford, so that it would not remain behind other cities of its size in the state in the volume of loans through the administration.

FHA officials present who discussed the program were: Mr. Tinney, A. H. King, state production manager; Joe Young and Mr. French.

This air view of New London, Conn., shows part of the wrecked town after a storm and hurricane which hit the New England States taking a toll of nearly 500 lives and millions of dollars in property damage. Note fire in picture still burning which was caused by the storm.

### Parrish Urges Repairs For Seminole Roads

### Says Three Projects To Be Finished Out Of '39 Road Budget

State Senator J. J. Parrish of Titusville, in a letter made public today urged that repair work on three roads in Seminole and Bradford counties be undertaken soon and completed by 1939. The letter was written to J. H. Dowling, engineer of the State Road Department, and urged the Road Department to push the projects in this district and stated that the department will advertise for bids for the construction of four miles of highway on the east end of State Road 44 in about two weeks.

"It is my understanding, also, that you are investigating the resurfacing of some of the main part of No. 44 beginning at the St. Johns River bridge," Senator Parrish said, urging that this work be done as quickly as possible.

"According to our agreement," Senator Parrish continued, "you will make a survey on Road 203 just as quickly as you can, and also the understanding is that Mr. DeSausure can get ahead on this as soon as he can get a crew off some of the federal projects." Road 203 is the shortest route between Sanford and Ovid and is also a connecting link between State Road No. 3 and State Road No. 202 to the east coast.

"It was also agreed," Senator Parrish pointed out, "that as soon as the right-of-way is secured for Road 226 you will begin grading. These people are more or less out of patience with us and you know it is no fault of the writer but just things that could not be helped by the department up to the present. But now, please keep right behind these projects so we will not have too much to do on them next Spring. We expect to finish the road out of the 1939 budget."

"I think you and Mr. Hale realize the predicament we are in and will keep things moving right along. Now in mind at all times that our aim is to finish these roads by 1939."

### Townsendites Hold Weekly Meeting In Welak a Building

### Pepper Is Opposed By T. E. Swanson In November Election

Reading of the letter from national headquarters, denouncing James G. Shannon as an authorized Townsend speaker, was one of the features of the local club meeting last night in the Welak Building.

After reading the communication Secretary Arthur Kuehler handed it to Mr. Shannon with these words: "As Paul the apostle, when he was still a slave, once had letters of authority to go out and bind the Christians, so by this you are authorized to go and bind the unbelievers in the Townsend Plan, and no one can take this authority from you." Mr. Shannon accepted the letter and thanked the speaker, the members of the club applauded heartily.

It was announced again last night that Mr. Shannon is scheduled to speak Monday evening in Orlando and it was reported that present indications point to a good attendance. Several of the local Townsendites are planning to go. Because of illness, Mrs. Martha Moffett, treasurer, was absent from the meeting.

### Lawton Outlines Need For Larger Local Hospital

### President Of Hospital Board Urges Support In Election

Although the present hospital has rendered a valuable service to the people of Seminole County since its opening on Jan. 22, 1929, F. W. Lawton, president of the Friends Hospital Memorial Association, stated today that there is a definite need of more adequate and more modern hospital facilities in this county and urged support of the \$50,000 bond issue to pay the County's portion of the cost of construction, in the referendum next Tuesday.

"I believe now is an opportune time to build a larger and better equipped institution," Mr. Lawton said, pointing out that there have been several occasions when the present institution was found to be inadequate in size and equipment to care for those seeking admittance.

Mr. Lawton stated that a larger and more modern hospital would not only care for the number who have found it impossible to be admitted to the present institution but would also result in patronage which has gone elsewhere for medical treatment because the idea was prevalent that they could not be cared for at the present hospital.

Pointing out that the present hospital building was constructed as a dwelling, Mr. Lawton stated that it was not arranged so as to be convenient for the doctors and nurses to care for their patients in the most efficient manner.

"Those of us who have been most closely connected with the hospital association can appreciate most keenly the necessity for a larger and better institution," Mr. Lawton said, adding that it is not likely that there will again be an opportunity to construct a hospital under such favorable circumstances.

"I believe that the County Commissioners as representatives of the taxpayers will exert every effort toward an economical and efficient administration and maintenance of the institution," Mr. Lawton continued.

Contrary to strenuous beliefs, (Continued on Page Six)

### RENOVATED

### WASHINGTON (AP)—

The Statue of Liberty, which has stood on Bedloe's Island in New York harbor since 1886, is getting a complete renovation at a cost of \$250,000. Already seven spikes of her huge crown have been taken down and the inside supporting iron, which was found to be almost completely rusted, replaced.

### RENOVATED

### WASHINGTON (AP)—

The Statue of Liberty, which has stood on Bedloe's Island in New York harbor since 1886, is getting a complete renovation at a cost of \$250,000. Already seven spikes of her huge crown have been taken down and the inside supporting iron, which was found to be almost completely rusted, replaced.

### A PLAN, AN AD, CROWDS STORES, THEATER BENEFIT

The public had a visual picture of how advertising pays when the Ritz Theater and local merchants staged a co-operative day Thursday. A customer who bought 50 cents or more from a participating merchant was given a ticket to the theater. The ticket plus 15 cents permitted the holder to see the double feature. An ad announcing the event appeared in The Herald Wednesday night. The next day merchants were called upon to distribute over 900 tickets, one merchant alone giving out 110. The theater last night was crowded to the limit of its capacity, with many persons standing, and many being turned away.

### Peace Parley Strikes Snag At Godesberg

At the Hague, the French New York, and tonight the Godesberg conference had been interrupted by Hitler's demand on Prime Minister Chamberlain that Germany be permitted immediately to occupy a zone in the Sudeten region of Czechoslovakia.

The Hague and Hitler refused to make any decision whatsoever concerning the remainder of the Sudeten problem until France and Britain decided to his demand.

Hitler's war and insisted the limits of the zone to be occupied by the German army would be decided by Germany, France and Britain.

If the demands are met, said the Hague, Hitler would agree that a definite German-Czechoslovak border be fixed by an international commission.

Reports came from Strasbourg that the French government must be assured a "table of safety" on the German-Belgian, Italian and Spanish borders. Such an order means that troops take up positions ready for an emergency.

The new surprise order sent military police hurrying through garrison towns consisting up of troops and soldiers who had been sent back to barracks.

Wildfire reports that the German army was preparing to invade the Sudeten areas were indicated by German officials.

"Nothing would be more foolish than to take such action during the course of Dr. Fischer's negotiations with Herr Chamberlain," a high source said.

It was certain, nevertheless, that Hitler had told the prime minister that the time for dicker and dallying was past and that Germany must obtain full satisfaction, meaning control of the Sudetenland, within a week.

In spite of the apparent immobility of the meeting between Chamberlain and Hitler, there was a growing feeling of tension, and reports were circulated that green-shirted Sudeten German "free corps" troops would march into Czechoslovakia today.

Border clashes and disturbances in Prague increased tension, as Chamberlain strove desperately to get through the bargain with Hitler by which the British prime minister hopes to avert the outbreak of war in Europe.

Immediately after his meeting with Hitler ended, Chamberlain instructed his aides to put through a telephone call to Prague. It was understood the prime minister's "earnest" appeal was conveyed to the government to avoid anything that might embarrass the negotiations. Chamberlain issued a statement urging "all parties concerned" to refrain from any act "that would be likely to lead to incidents."

As the British premier returned to his hotel, his face appeared tired and drawn from the effects of a solid week of laboring to prevent Europe from plunging into war.

While no hint of what went on in the little room in the Hotel Dresden, where Hitler and Chamberlain sat with only an interpreter to hear what was said, was given in the official statement, well-informed sources said the conversations had not entered the "positive phases."

Today the discussions are expected to deal with the question of how the Sudeten areas are to be returned to the Czech, and it was believed the Hungarian and (Continued on Page Six)

### Deladier Says France Will March If German Troops Move Into Czechoslovakia

GODESBERG, Germany, Sept. 21 (AP)—After a day of discussion on the Godesberg talks on the peace of Europe came an announcement that Chamberlain would see Hitler later tonight and return to London by plane early tomorrow morning. The announcement was made after the Chamberlain emissary returned from across the Rhine where they conferred with von Ribbentrop.

French Radical Socialist deputies tonight quoted Premier Edouard Deladier as declaring that "if Germany enters Czechoslovakia, France will take her engagements."

Deputy Louis Malvy, one of the leaders of the Premier's own party, was one of those who quoted these words to newsmen after a delegation of Radical Socialist ministers called on the Premier.

Malvy also said Deladier declared he would call parliament immediately back into session "if the situation should become worse."

France is pledged to go to Czechoslovakia and should the latter be a victim of "unprovoked aggression."

Meanwhile Soviet Russia warned Poland that if Polish troops invade Czechoslovakia, Russia would force the Polish-Soviet Commission of Foreign Affairs, told the League of Nations that Russia might voluntarily go to the aid of the Czechs "but no one can insist on this being a duty."

The transferred while the conference at Godesberg, Germany, between Adolf Hitler and British Prime Minister Chamberlain resumed suspended and the two principals exchanged notes across the Rhine.

No official information was given as to what Chamberlain's letter to Hitler said or what Hitler replied or when the conversations for assuring Europe's peace at the cost of the dismemberment of Czechoslovakia would be resumed.

The report said Chamberlain asked Hitler to help arrange a truce between the Sudeten Germans and the Czechoslovaks who were reported drawn up facing each other as if for battle on the Sudetenland border.

Prison in close touch with both sides expressed the fear today's developments might bring a breakdown in the negotiations. There was no indication that Hitler was disposed to grant the concessions.

Later, Chamberlain sent an envoy across the Rhine to confer with Hitler's lieutenant, German Foreign Minister Joachim von Ribbentrop. It was Sir Neville Henderson, the British ambassador to Berlin, who crossed the river late in a tense day.

Before leaving the ambassador said he did not know whether the postponed meeting between Chamberlain and Hitler would take place tonight or not.

A rising storm of protest against the unprecedented price for Europe's peace and a new clamor for other Czechoslovak minorities besides the Sudeten Germans put a dark background behind the meeting at Godesberg. At least eight persons were reported killed in the Sudeten. (Continued on page six)

### Russia Warns Poles Of Risks

### Chamberlain Conference Bogs Down On New Hitler Deft

French Radical Socialist deputies tonight quoted Premier Edouard Deladier as declaring that "if Germany enters Czechoslovakia, France will take her engagements."

Deputy Louis Malvy, one of the leaders of the Premier's own party, was one of those who quoted these words to newsmen after a delegation of Radical Socialist ministers called on the Premier.

Malvy also said Deladier declared he would call parliament immediately back into session "if the situation should become worse."

France is pledged to go to Czechoslovakia and should the latter be a victim of "unprovoked aggression."

Meanwhile Soviet Russia warned Poland that if Polish troops invade Czechoslovakia, Russia would force the Polish-Soviet Commission of Foreign Affairs, told the League of Nations that Russia might voluntarily go to the aid of the Czechs "but no one can insist on this being a duty."
