the American zone today because of suddenly imposed Russian traf-

fic restrictions, and protested strongly to the Russians. The Americans resorted to ex-anded air travel.

Britain and France joined in protesting the Russian order, effective last midnight, that all motor and rail pasengers and freight entering the Soviet zone undergo Russian inspection at border con-trol points. Four British and American trains were halted by

Russians this morning.
Allied authorities said the Russian action, in effect, was a de-mand that the three Western powers surrender sovereignly on their trains and submit to a squeeze on their position in Ber-

General Lucius D. Clay, the U. S. military governor, said for the time being all U. S. military train travel to and from Berlin is cancelled. He said special flights from eFrankfurt, U. S. zone headquarters, to the U. S. controlled Tempelhof airport in Berlin will serve as a temporary stop-gap. stop-gap.
Clay said the Russian stoppage

of train traffic could not be broken immediately without force. Berlin is an island of four-power control deep in the Soviet zone. It is more than 100 miles by rail or road from the nearest border point in the British zone, and farther from the American and French zones.

The British asked the Russians

for immediate discussions. If the issue leads to a meeting of the four military governors, it will be the first session since the breakdown of four-power administration caused by the Russians' walkout on the Mar. 20 meeting of the control council.

of the control council.

The Russian order seemed directed principally at freight. In their checks of motor transport, passenger automobiles were passed perfunctorily, but truck cargoes were inspected closely.

This recalled the recent Communist propaganda line in Germany that great quantities of machines and equipment were being spirited out of the Soviet sector into the other sectors of the city and zones of occupation. The western authorities say this claim is greatly exaggerated.

Lieut, General Curtis E. Lemmy's Air Force headquarters at Wiesbaden said it was hoped to put into operation all planes necessary to move the normal number of train passengers and keep the more than 10,000 Americans in Berlin supplied with food.

Royal Air Force headquarters in Hamburg said no plans were being made there to supply the British population of Berlin by air.

A British official in Hamburg noted that there has been a marked increase in the strength of Russian control forces facing the British zone in the past 48 hours. He said the flow of illegal refugees from the Russian to the British zone was unusually small today, adding he did not think. "namy people care to cross the frontier under present circumstances."

A similar situation appeared

A similar situation appeared to be developing in Austria. A Vienna dispatch said Russian troops are reported tightening their restrictions on Americans entering the Russian zone en route to Vienna, which, like Berlin, is under four-power control. The report was attributed to travelers. travelers. Clay conferred with his British

Russians, Rejecting Western Protests, Hint At New Moves For Total Control

BERLIN Apr. 2 (A)—The British moved a freight train into Berlin today with sup-plies for British occupation troops and the U. S. Army inused orders for the move-ment of a similar train here with American supplies. The British announced their freight had reached Berlin without undue trouble from the Soviet inspection regulations, imposed yesterday.

LONDON, Apr. 2 - (A) -Britain served notice today she intends to stay in Berlin regardless of what happens to the Allied Control Commission. The apokesman said no representations on the present Berlin situation had been made by Britain to Moscow, nor are any under consideration at present. He said the authority of the western powers to remain in Berlin does not atem from the Allied Control Commission but from an agreement within the European Advisory Council during the war and from a four power declaration of June 6.

#### Glory Of Portugal

Glory is not confined to the large nations. A new his ory of Portugal by H. V. Livermore, an Englishman, points i out the astonishing fact that in all her history she has never attacked another Christian state (there were some Portuguese wars against the Mohammedan states of North Africa), and that she has the fifth largest colonial empire in the world. Add that Portugal was a signer of the oldest French railway trains bound for alliance of modern history: ever since 1386 Portugal has been an ally of England.

Portugal has had her great moments also, Portuguese navigators found the way down the African coast till they finally rounded the Cape of Good Hope and discovered the three allies. It is a sort of schoolsea route to India. Another Portuguese sea-captain, Pedro Alvares Cabral, discovered Brazil, which for a long time was one of the most prized Portuguese possessions.

The most curious fact, not yet fully explained, is that Portugal has remained separate from Spain, both in government and language. Other parts of the Spanish peninsula, differing as much from Castile as Portugal does, became subject to the Castilians. There must be some mysterious quality in the inhabitants of this southwestern corner of Europe.

#### Socialism Is Different

"They will trip you up at every crossroads." So Norman Thomas, five times Socialist candidate for president. speaks of the Communists and the experience of anyone who tries to go part way with them.

If anyone should know about the Communists, it is the Socialists, For years the two parties have been rivals for INDIFFERENT TO the allegiance of the workers, and dislike each other as ETERNAL VERSITIES IS IN much as two suitors after the same girl.
