## Dulles Will Seek Data For Ike In Europe

### Secretary Designate Of State Department To Be Accompanied By Assen

NEW YORK (AP)—John Foster Dulles, secretary of state designate, and Harold P. Stassen will lead a delegation to Europe at the end of this month to gather information for President-elect Eisenhower on political trends there.

Dulles' press secretary, James C. Hagerly, said Dulles and Stassen, who will be director of the Mutual Security Agency, would leave for Europe at Eisenhower's request.

Hagerly said the purpose of their trip would be to gather information on political trends there in relation to U. S. participation in NATO and in economic assistance abroad.

Eisenhower and his cabinet today discussed his inaugural address and the State of the Union message which the general will submit to Congress shortly after taking office next Tuesday.

And there were indications that the key officials of the new administration also talked over the problem of how to cut the \$17,000,000,000 budget which President Truman sent to the lawmakers last week.

Hagerly said Eisenhower read a draft of the inaugural message, which reportedly will set the general theme of the new administration's policies and philosophy.

The President-elect then called for and received suggestions for revision of the draft.

On the agenda was a discussion of the State of the Union message. That talk had not been completed by 11:30 p.m.

## Health Unit Data For Last Year Is Disclosed Today

A total of 10,833 pupil inspections were made last year by nurses of the Seminole County Health Unit. Its records disclosed today while 1,752 pupil examinations were made by a doctor and 2,108 field visits were made to pupils' homes.

Illness in the county more than doubled the deaths in 1952, with 28 deaths reported. Eighty-two maternity cases were admitted to a clinic on prenatal care, through the unit, while 1,752 pupil examinations were made by a doctor and 2,108 field visits were made.

The health unit has five midwives under its supervision, according to reports.

Most of the care given by the health unit is of preventive nature, but exceptions are made for two diseases. There were 281 people treated for venereal diseases during the year and 600 field visits for VD investigations.

The other exception is tuberculosis. There were 47 people hospitalized for the disease through the unit and 67 large X-rays made of suspected or having had contact with an infected person.

The vaccinations given included 200 for smallpox, 270 for combined whooping cough, diphtheria and tetanus, and 41 for typhoid fever.

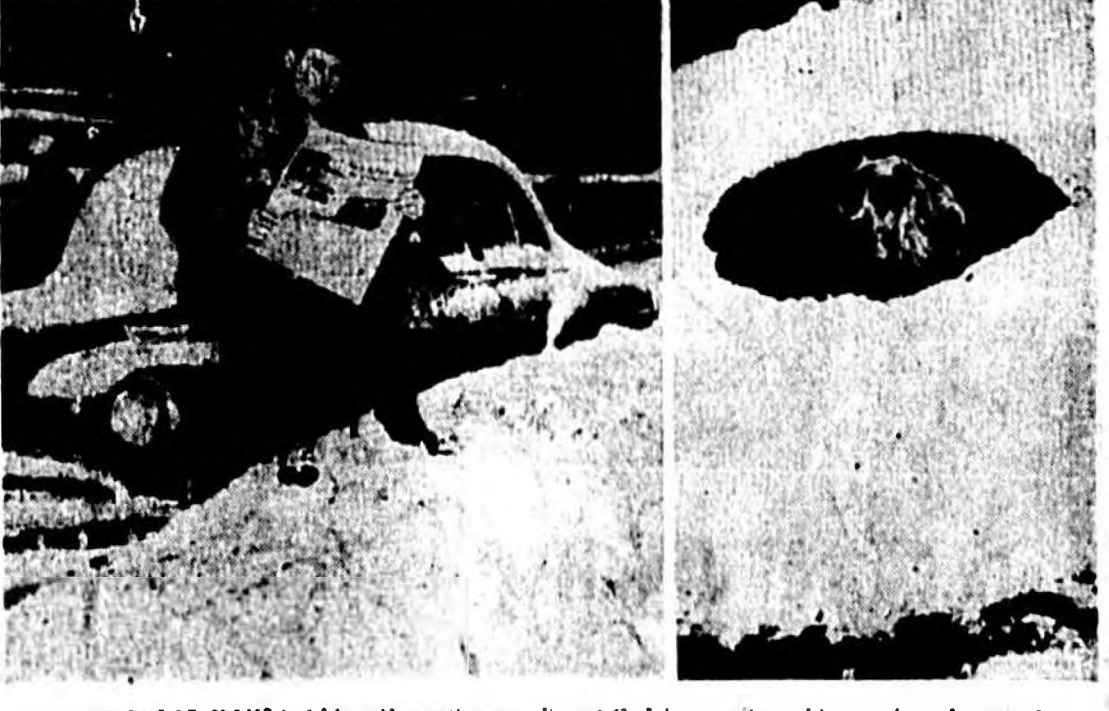

Sanford represented at CAP Assembly

Local representation was given to the Florida Wing assembly of the Civil Air Patrol at West Palm Beach last weekend, during which participants secured the latest information concerning cadet training and formulated plans for the future.

Representatives from here were Lt. John Pierson, director of cadets for the Central Florida Group; Captain John Andas, commander of the CAP cadet squadron, and the latter's son, Thomas, cadet lieutenant.

Lt. Pierson pointed out that cadets receive certificates after a year's training with the CAP receive special privileges should they enter the Armed Forces. They have a priority status of getting into the Forces and would be given private first class. They would receive higher ratings after two years of training, he said.

## Heavy Snows

WITH NO ONE TO BLAME but himself, weatherman Ernest C. Johnson sits on his snowbound car in front of the Federal Building, Albany, New York, and reads his own prediction—correctly so—of a heavy snowfall in the area. But who believes the weatherman, especially the weatherman. As traffic in the city came to a near standstill, an alert photographer found just the picture to tell the story when he snapped the cocker spaniel (right) watching soulfully from rear window of its master's stranded auto. (International)

## Industrial Board To Aid Business Is Named By City

### Group To Meet With Concern Interested In Site Here

The appointment of a City Industrial Board for the purpose of bringing new industries to Sanford is a project of the City Commission. Appointments confirmed by the Commission were J. H. Van Hoy, Herman Jacobson, W. B. Nicholson, William Clark, Wally Dietrich, Robert Lauman and Ralph Cowan. Still pending are the appointments of Dan Wright and Gordon Frederick.

The new board will meet tomorrow night at the City Hall with J. M. Garrett, operator of a Sanford dry goods store, who is representing a party said to be interested in establishing a garment factory here.

Tom Lemon, City Manager, said that the location of the garment factory here is proposed by a former manufacturer of women's sportswear and junior apparel of Cordele, Ga. which was contacted by the Chamber of Commerce.

Mr. Spencer said his clients could not afford to build driveways and that a hardship was being worked by the City. Mayor Howell Clark, City Manager and the City Commission are "trying to work on a reasonable basis" and are "not trying to work a hardship on anyone."

Mr. Spencer said Mr. Swan was being singled out of numerous people who had broken curbs and that the City Manager and the City Commission are "trying to work on a reasonable basis" and are "not trying to work a hardship on anyone."

John Callahan, president of the Sanford Baseball Association, requested assistance from the City in promoting the Seminole Blues baseball team and told of plans for raising funds.

He presented a proposal for a season ticket which would support the Blues, stating, "If sufficient" (Continued on Page 2)

## City And Chamber Of Commerce Work Together For New Factory

The city and the Chamber of Commerce are working together to bring a new garment industry to Sanford next week. Mr. Breckenridge, manager of the C. of C. revealed today, which would provide employment for about 15 people at the start.

Negotiations have been under way he said between the C. of C. and H. D. Drake, executive president of Delaine, Inc., Cordele, Ga. which manufactures women's sportswear and junior apparel here, being sold to another manufacturer J. M. Garrett, operator of a local dry goods store, and Sam Gibbs, live oak, president of the Gibbs Company and former district governor of the Kiwanis Club.

The negotiations have gone into the final stages, Mr. Breckenridge said, including the selection of a tentative site for the factory in the Crown Paper company's building near the lake front. C. E. Gormley Jr., representative of the company, recently showed the building to a group of representatives of the proposed factory.

The representatives definitely are interested in the building and in a labor pool which was brought about by the Florida Fashions Manufacturing Company branch here, now disbanded. Negotiations now are underway through the Chamber of Commerce to make arrangements for the use of the building.

## Slovak Day To Be Held Feb. 22 At New Seminole County Home

Dr. Victor Mamatey, Professor of History at Florida State University, Tallahassee, will deliver the principal address at Slovak Day ceremonies, Sunday, Feb. 22, to be held at Slovak Gardens, near Casselberry, Carl Boholavka, chairman of the Board of Directors for this newly state-chartered institution, stated today.

Slovak Day, to be held on that date for the first time in Florida will feature in addition to the address by Dr. Mamatey, exhibition of Slovak art and handicrafts to which those who plan to attend are invited to submit entries including needlework, art, ceramics and other types of handicrafts either made in the old country or otherwise typical of the Slovakian culture.

Meals will be served on the grounds. It was stated, and the general public is invited to attend. The program will commence about 10:00 a. m. and will continue throughout the day. The chairman stated that he is happy to have the opportunity to acquaint not only his fellow American-Slovaks of the purposes of the Slovak Gardens, but feels that it will be of unusual educational and informational value to the public as well.

Located just four miles from Casselberry on the Lake Howell Road, Slovak Gardens is a charitable institution organized in 1949 and chartered by the State of Florida that year. Its primary purpose is to provide a home for aged and worthy American-Slovaks.

The newly organized project is (Continued on Page 2)

## Reds Accuse Jews In Death Of Zhadanov

### Diplomats Speculate Disclosure May Be Prelude To Purge, Renewal Of Trials

MOSCOW (AP)—The Soviet Union today accused nine doctors, most of them Jews, of killing two top Russian leaders and plotting the deaths of others through family treatments.

An announcement said the doctors, now under arrest, were charged by diagnosis of the fatal illness of Andrei A. Zhadanov, a leading Politburo member, and "reduced the life" of Alexander S. Scherbakov, head of the chief political administration of the Soviet Army.

Broadcast of the announcement sent thousands of Muscovites to newspaper stands to obtain more details of the persons mentioned in newspaper posted on a wall explained. "The soundbites" "Dirty pigs," said another.

The story was being discussed everywhere, and seems destined to cause new and stronger feelings against the groups the Soviet press calls Anglo-American warmongers, and against Zionist organizations and the Jewish press.

The announcement said the arrested plot was carried out in instructions of British and American intelligence services, and Zionist organizations.

It said an investigation will be completed in the near future, but meantime it had been established that the arrested doctors were paid agents of foreign intelligence. "The majority of the terrorist group were connected with the international Jewish bourgeois nationalist organization 'Joint'."

This, it said, referred to the Jewish organization which has sent millions of dollars to aid European Jews. New York spokesmen said the charges, if intended to bring a wide scale purge, are too ridiculous to merit comment.

(In London, diplomats speculated that the disclosures may prelude a purge of the intelligentsia, the biggest Soviet trial since 1936. A Foreign Office spokesman commented: "It might be some time before we are able to say anything more about the charges.")

## Morse Is Knocked Off 2 Coveted Committee Spots By GOP Action

### Internal Weakness Is Detected In Russian Purge Of Jewish Doctors

By WILLIAM J. HAN. All-United News Analyst. The Soviet purge of Jewish doctors on charges which have the look of pure fantasy indicated strongly that there are internal weaknesses in the communist party's regime serious enough to frighten the Soviet hierarchy.

Coupled with the recent loss of high ranking Mikhael S. Sokolov of the former editor of Red Star, it even gives a hint of self-doubt within the higher reaches of the party which will require a purge more thorough-going than the arrest of the doctors.

With these announcements the Soviet press has brought to the fore once again the mysterious circumstances surrounding the death of Andrei Zhadanov, once looked upon as Stalin's likely successor, and the purge of Nikolai Vassenskiy, a Zhadanov protégé, not long after.

Many lines of speculation now are opened in the first place the constant nagging of the Soviet press at the intelligentsia of Leningrad, in particular, has indicated all along that things were not going well there and that the younger Leningrad element was chafing at communist party structures.

It would be an act of course, that so far as the top-ranking members of the Soviet Communist hierarchy are concerned, the Vassenskiy purge is still in the Kremlin. In effect it seems to mean also that Malenkov still is the big shot.

The purge, and Jewish nature of the charges, are not the only attacks on Zhadanov, and through it, on Malenkov. However, in the Moscow case, this has the appearance of being a side issue. Whether Zhadanov actually was put out of the way or died naturally of a heart attack also is beside the point now. The point is that Zhadanov's death is much more valuable to certain high leaders in Moscow than he would have been alive. He now gives them an excuse to begin a purge.

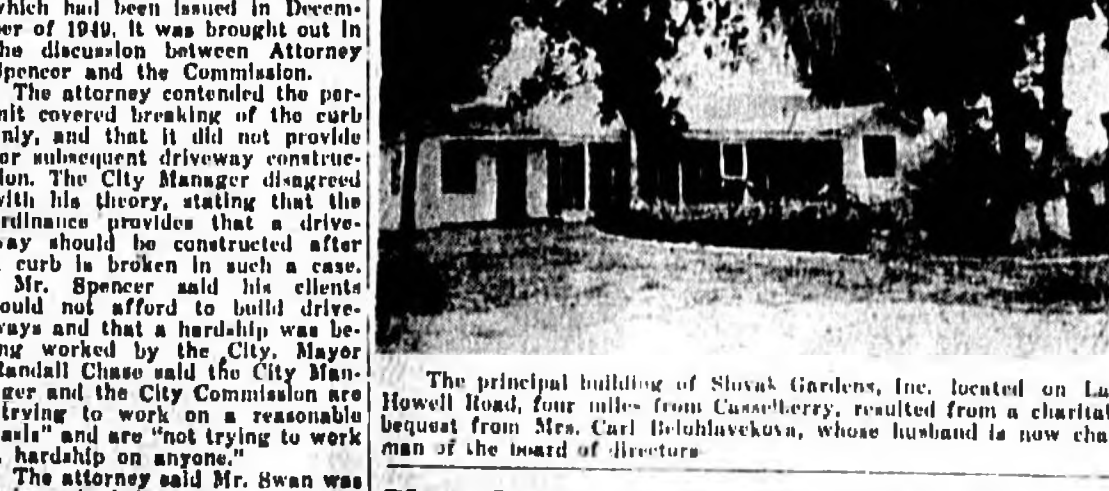

## Right Of Press To Criticize Court Is Upheld By Georgia Chief Justice

### Blood Bank Will Be Here On January 22

ATLANTA (AP)—Chief Justice W. H. Duckerworth of the Georgia Supreme Court commented on the bench today that newspapers have a right to criticize courts "because in this country we do not have a belief that the king can do no wrong."

He made the remark at the Supreme Court hearing of arguments on the appeal of two Atlanta Constitution editors for contempt of court citations in Superior Court at Rome, Ga.

## HOME FOR SLOVAKS

The principal building of Slovak Gardens, Inc. located on Lake Howell Road, four miles from Casselberry, resulted from a charitable bequest from Mrs. Carl Boholavka, whose husband is now chairman of the board of directors.

Dr. Victor Mamatey, Professor of History at Florida State University, Tallahassee, will deliver the principal address at Slovak Day ceremonies, Sunday, Feb. 22, to be held at Slovak Gardens, near Casselberry, Carl Boholavka, chairman of the Board of Directors for this newly state-chartered institution, stated today.

Slovak Day, to be held on that date for the first time in Florida will feature in addition to the address by Dr. Mamatey, exhibition of Slovak art and handicrafts to which those who plan to attend are invited to submit entries including needlework, art, ceramics and other types of handicrafts either made in the old country or otherwise typical of the Slovakian culture.

Meals will be served on the grounds. It was stated, and the general public is invited to attend. The program will commence about 10:00 a. m. and will continue throughout the day. ## Only 2 Minor Assignments Left Open To Senator Who Split With Party On Ike

WASHINGTON (AP)—The conference of Republican senators today passed a compromise plan and bumped Sen. Morse (Ind. Dem.) off his last major committee assignment.

The GOP senators decided to take all of the eight majority places on the Armed Services Committee and all of the seven majority places on the Labor Committee. The result was to knock Morse off both coveted spots.

This left open to Morse, who bolted the Republican party during the presidential campaign, spots on two minor committees. The result was to knock Morse off both coveted spots.

## Lions Club Hears Lionism Talk By 'Nelli' Thompson

L. A. B. Thompson, Lions Club member and past president of the Lions Club in Sanford, Fla., spoke at the meeting of the Lions Club in Sanford, Fla., on Monday night, Jan. 12.

Thompson, who recently has been awarded the gold standard of the Lions Club, spoke on the background of the Lions Club and the national organization, in connection with the club here in Sanford.

**Weather Is Playing Tricks Over Nation**

By The Associated Press  
The weather appeared to be playing tricks in some parts of the country again today. Colder air pushed into Southern areas as springlike weather continued in wide sections of the West and Midwest.  
It was warmer early today in some sections of the normally frigid Rocky Mountains than in some parts of Florida. The above normal readings predominated from the Southern States northeastward across the Great Lakes region.  
But much colder air extended from northern Minnesota across North Dakota and northern Montana. The cold Canadian air dropped temperatures to near zero at Great Falls, Mont., but here a short distance south, reported a mild 50 above. At the same time it was 41 above in Jacksonville, Fla., and 48 in Tampa, as light winds sent the mercury below normal levels in the Southeast.  
Record high readings for the season and date were reported in the mid weather belt yesterday including 60 at Salt Lake City and 57 at Casper, Wyo. It was 60 at Rapid City, S. D., compared to a top of 52 at Miami, Fla., and 50 at Los Angeles. Denver's high was 70 and it was 67 at Oklahoma City and 63 at Kansas City. The nation's top mark yesterday was 83 at Yuma, Ariz.  
Clear skies covered most of the Southern two-thirds of the country from the Rockies to the Atlantic coast early today. It was mostly cloudy over much of the northern third and the Far West.

**3 Sons Sworn Into Office By Mother**

JEFFERSON CITY, Mo. (AP)—A mother administered the oath of office to her three sons in the Missouri Capitol yesterday and commented:  
"It is with great love and faith in you my three sons that I have administered this oath of office. I'm proud to be your mother."  
She is Mrs. James T. Blair, widow of a State Supreme Court Justice. She was appointed a notary public especially for the ceremony in the Missouri Senate chamber.  
The brothers are: Gov. James T. Blair Jr., Circuit Judge Sam C. Blair and Cole County Probate Judge William C. Blair.

**Orlando Girl Cut By Angered Assault**

ATLANTA (AP)—A Negro hoodlum, angered because his victim had only five cents, yanked Miss Nancy Lee Kiehl of Orlando, Fla., twice in the chest and once on the arm today.  
Miss Kiehl is a student nurse at Grady Memorial Hospital. The hoodlum attack occurred as she left a fruit stand near the hospital. She reported the Negro slashed her and struck her in the face when she told him she had only a nickel and was unable to produce more.  
Her assailant fled and she described him as a young Negro.  
Her wounds were described at the hospital as painful and serious but not necessarily critical.

**WALKOUT ENDS**  
PONTIAC, Calif. (AP)—A day-old walkout of 48 crane operators ended yesterday at the Kaiser Steel Corporation plant here after drastically curtailing plant operations.  
Details of the dispute were not given. President Dave Wallon of CIO United Steelworkers Local 2869 said it concerned incentive pay.  
A company spokesman said a return to work agreement was reached after a brief meeting, with unsettled issues to be negotiated.

**YOU'RE TELLING ME!**

By WILLIAM BITT  
Central Press Writer  
THE FRENCH ARMY is considering substituting milk or fruit juice for the traditional daily pint of wine for its soldiers. If the plan goes through the policy probably will agree with General Sherman.  
Incidentally, our Paris correspondent reports the news knocked many a French soldier groggy.  
Oddest thing about that milk-instead-of-wine business is that it didn't cause a cabinet crisis and a change of premier.  
A fakir in Vienna, Austria, we read, plans a prolonged stay inside a huge glass bottle containing a poisonous snake. This, as far as we know, will be the first time a man visited a hangover instead of vice versa.  
A German oldster celebrates his 107th birthday. Let's see—has he lived through one Hitler and how many Kalenbers?  
Shoots of children upset Mexico City's fighting bulls so they wouldn't eat. Must be that Ferdinand influence.  
No reason why Queen Elizabeth's regime shouldn't keep ticking merrily along. The young British monarch has received over 300 clocks as gifts.

**Inside WASHINGTON**  
MARCH OF EVENTS

**Appointment of Durkin** — Union Labor's Attitude Shows Move by Ike?  
Special to Central Press  
WASHINGTON (AP)—More and more General Eisenhower's appointment of Martin F. Durkin, a Democrat and a labor union official, to be secretary of labor in the new administration is coming to be recognized as a stroke of political genius.  
Even Senator Robert A. Taft of Ohio who lashed out sharply at the appointment in the beginning now says he will do nothing to block Senate confirmation of Durkin's nomination.  
Of course, organized labor cannot say so openly, but its reactions toward the Durkin appointment have obviously softened toward the GOP and the Taft-Hartley law it has so often maligned.  
In fact some top union leaders now say that since outright repeal of Taft-Hartley is out of the question they will be satisfied with some revisions urgently desired by labor.  
From all sides come pledges of labor co-operation with the Ike as long as the Republicans follow what the unions consider the path of social progress.  
If Eisenhower can maintain the political advantage he has this year, most politicians think the task of the Democrats rebounding to power in the next four years will be infinitely more difficult.

**INAUGURATION SAFETY**—Washington police officials are preparing to make the nation's capital as safe as possible for spectators of the gala inauguration events the week of Jan. 20.  
They are taking advantage of the \$18,000 appropriated by the 82nd Congress to bring in more than 100 police officers from large cities all over the country to assist in keeping order in the city.  
The vanguard of visiting policemen will be assigned especially to keep an eye out for visiting criminals who are expected to descend on the capital city.  
With a million and a half visitors expected to arrive for the four days of festivities, the job of weeding out criminal suspects will be a giant task. It is feared that many of the top criminal artists from all parts of the nation will be in town to take whatever advantage possible of the unsuspecting visitors.  
The congressional appropriation approves a daily rate of from \$15 for police "privates" to \$30 a day for inspectors.

**TAX CUTS?**—A drive for a cut in taxes got off to a flying start the opening day of the new Congress but it immediately slowed down.  
Daniel A. Reed (R), New York, launched the campaign with a bill providing for a 15 per cent slash in personal taxes for most taxpayers over the next two years.  
At the same time, Rep. John D. Dingell (D), Michigan, tossed into the hopper a measure designed to repeal the 20 per cent federal amusement tax.  
However, it appears likely that the bills will remain just where they are for some time to come. House leaders indicated that no action will be taken on either bill until the question of new appropriations has been settled.

**MORE ROOMS IN EVERY HOUSE?**—The government and the housing industry have joined in urging more emphasis on bigger homes with an extra bedroom or other added space for 1953-house buyers.  
Buyers, both public and private, have indicated many houses that many of the houses constructed during the post-war boom were too small for the average family.  
The Department of Agriculture finds that rural families want a home with a full basement, a large kitchen, separate dining area and "room to live." In most parts of the country, the rural residents prefer a one-story house but in New England, the majority would prefer two stories—but at least one bedroom and bath on the first floor.  
The housing industry is convinced that there is a big market for a larger home among many present home-owners—provided favorable trade and financing terms can be assured.

**Girdle Of Dynamite Explodes, Kills Man**

WESTON, W. Va. (AP)—"Look what's going to happen here," said Donald Raymond McCray as he displayed five or six sticks of dynamite strapped to his waist.  
As five persons, including his divorced wife, looked on in horror yesterday, he touched two small batteries to wires extending from the dynamite.  
He was blown to bits and his wife and her lawyer, Charles N. Bland, were critically injured. The other three witnesses—Magistrate W. S. Fultz, Ima Mabel Brannon, and 78-year-old J. N. Osborn—escaped serious injury.  
State Trooper Robert Elliott said the explosion came just as the magistrate had concluded a property settlement in his office.  
McCray, 47, and his wife were divorced last September. They had six children.

**Truman's Documents Get Full Protection**

KANSAS CITY (AP)—President Truman can be certain his state papers, now being stored in the Jackson County Courthouse, are safe with Deputy Sheriff Richard H. Kelly around.  
Monday three men who supervised the installation of a security system to safeguard the documents were making a final inspection of the layout. One of them accidentally touched off an alarm.  
Into the storeroom rushed Kelly armed with a gun. It took a minute for the three men to convince Kelly it was all an accident.

### Correct Teaching Of Children Told By Pediatric Nurse

By DAVID TAYLOR MARKE AP Education Reporter

How proud you parents are when Junior begins to talk. You record his first word. The first sentence uttered is classic. You urge and prod him on to make greater efforts. You teach him nursery rhymes. You test his vocal talents, which invariably show unquestioned promise.

But, asks Boulah France, what precautions have you taken at this time for your child? Do you teach him to speak correctly from the first word he utters? Do you laugh at or repeat his inevitable errors? If you do, one of two things will happen: he will feel sensitive and become hesitant in his speech, or he will feel pleased and will use "baby talk" to win further attention.

Mrs. France, who is a skilled pediatric nurse, a prominent writer in the field of parent education, and editorial director of The American Baby Magazine, has just authored "How To Have A Happy Child" (Sterling Publishing Co., \$2.50). In it she says: "Check up on your own grammar and use of words. Do not let him (Junior) learn from you either slang or unacceptable expressions. Avoid colloquialisms. They can easily become handicaps."

"One child, now beautiful in language, another speaks carelessly, incorrectly and ineffectively. Each repeats what he has learned at home. Through the years these earliest lessons will be the ones remembered."

When Junior is about two or three he may start stuttering or stammering, she warns. Especially is this true of boys. And especially if anyone in the family has such a speech defect, or is tense and nervous.

Tense, high-toned, nervous voices cut too quickly. The child's mind works more rapidly than their tongues do. That is the

### Hal Boyle's Column

NEW YORK (Special) — When a man buys a new automobile today, his first worry is as he slips in behind the steering wheel is: "Where can I park it?"

This is becoming such a fretful task that many wise buyers now demand that the dealer guarantee to deliver the vehicle parked within half a mile of their home. Finding the second parking place is then up to the new owner, a haunting responsibility.

The parking problem has become the No. 1 vexation of our times. One day as I was waiting for a traffic light to change, I looked up and down the congested streets and wondering asked a cop: "Where are all these people going?"

"They aren't going anywhere," he said sourly. "They're just cruising around looking for a place to park. See that car? It's been around the block five times in the last half hour."

People here in the big city who set out to drive to a friend's home often first have to locate a place to park their car, then taxi the rest of the way to their destination and back. Garage space costs up to \$75 a month and more. And it is so scarce that when a man dies strangers phone up his widow and say: "Did your dear late husband have his car in a garage any where? If so, I'll buy the car just to get the space."

In the tremendous housing development where I live wires often come out and throw sandwiches to their husbands as they drive about, hour after lonely hour, looking for a berth for the family's iron chariot.

The situation seems almost as bad in every hamlet across the nation. One motorist told me bitterly his parking problem had become America's first line of defense against invasion.

"No invading force could really get very far," he said. "His vehicles could keep rolling only until they couldn't find a place to park."

"It isn't my troubles with my wife that've got me down," mused a motorist groaning from a psychiatric couch. "It's this—where can I put my car?" And the psychiatrist, lying down on the couch, too, replies:

"Move over and listen to me. I got three tickets myself for illegal parking already this week."

As the day is remorselessly growing nearer when the land will hold more automobiles than people, there appear only two real solutions to the problem:

1. Pave America, making the countryside one vast street.

The second alternative appears to be the cheaper. The car of the future will have all the comforts of home—a spare tire, a bath room, an easy chair, an outlet for your electric shaver, hot and cold running water.

The dealer will deliver it to a parking space he will find himself. After that you lack it up and leave it there forever.

If you want to take the family for a Sunday outing, you walk to the parked car, start the motor and listen to the music of the spinning wheels on their stationary jacks. Lower the windows. Ah, feel that breeze?

Open the picnic lunch. Doesn't it taste good? No ants here. That's

### Council Sworn In At Casselberry

CASSELBERRY (Special) — Newly elected council members were sworn in last night with two "brand new" officers in the group. The meeting was formed "relatively quiet" by veteran officials, with only a mild difference on zoning regulations coming up.

Joseph L. Laird, retired resident, was installed as mayor, holding office for the first time along with Councilman James Allen, hardware merchant.

Other members of the council who had held office at various times include Arthur Johnson, accountant; Herman R. Joyce, contractor and ex-mayor; and holdovers Paul Bates and factory superintendent Raymond Morris; pharmaceutical salesman. The latter was elected to serve as council chairman.

Howard Harris, former department head, was re-elected clerk and Joseph Gladwell, town marshal.

Allen was appointed a one-man zoning committee. A street lighting project was referred to Florida Power Co. for bids.

When was appointed a one-man zoning committee. A street lighting project was referred to Florida Power Co. for bids.

CARRYING BANNERS urging Presidential clemency for Ethel and Julius Rosenberg, convicted atomic spies, a crowd of sympathizers gathered outside the Executive Mansion. Due to the electric chair at Sing Sing prison on Jan. 11, a stay of execution has been agreed to by Federal Judge Irving Kaufman on condition that they appeal to President Truman by Saturday. Judge refused to reduce the sentences.

# New Ford Miracle Ride

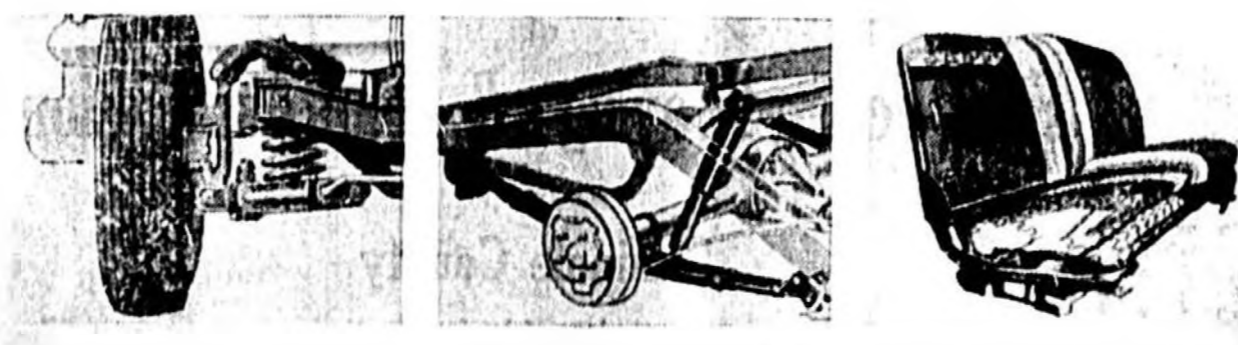

Here's new freedom from bounce, pitch and sway... an entirely new standard of riding comfort!

If you've thought it takes gas, a heavy weight and hard-to-park length to give you riding comfort you ought to try this '53 Ford. For Ford's new Miracle Ride actually seems to lay a carpet of smoothness even over the roughest roads. There's no bounce, pitch and sway to bother you, no uncomfortable roll on curves. Ford's new Miracle Ride makes a new era of riding comfort and quiet. It's another big reason why Ford is worth more when you buy it... worth more when you sell it!

The New Standard of the American Road

**80% less road shock!** By increasing front wheel travel and redesigning the rubber compression bumpers, front end road shock is reduced as much as 80%. Springs are tailored-to-weight of each model, for best riding comfort, whichever model you buy.

**Automatic Ride Control!** Ford's Variable-Rate rear spring suspension actually makes effective spring "stiffness" vary automatically as road and load conditions change. You get a smooth, level, comfortable ride on boulevard or roughest back road.

**All day comfort!** Scientifically designed comfort seats, both front and rear, have thick, foam rubber cushions. Non-sag spring construction is firm yet resilient. Automatic Posture Control provides the most convenient seating position for all drivers.

You've got to Value Check this new Ford's 41 "Worth More" features to know why Ford is worth more when you buy it... worth more when you sell it!

In this new '53 Ford you'll find not only a new concept of riding and driving comfort... you'll find more of the things you want and need than in any other car in the low-price field.

You'll find the "Go" you need, in Ford's high-compression V-8 and Six engines (and both drive on regular gas). You'll find the great, all-round visibility... the easy handling, braking and parking you need for today's traffic. And you'll appreciate beauty that "belongs" wherever you may drive. No wonder Ford is the New Standard of the American Road.

See it... Value Check it... Test Drive it

## Union Leader Brands Strike As 'Anarchy'

### Michael J. Quill Describes Walkout Of Transit Workers In Philly As Criminal

NEW YORK (AP) — Michael J. Quill, president of the CIO Transit Workers Union, today branded the Philadelphia transit strike as a "crime" against the union local in that city and the riding public. He called the behavior of a section of the TWU membership as "anarchy."

In a statement issued at Transporex, the TWU head, who is leading a TWU strike against private bus companies in New York City, called the Philadelphia strike a violation of the union constitution. He blamed a "howling mob in the front seats" of a recent Philadelphia union meeting for the strike in that city because, he said, the "mob" kept the membership from hearing details of a proposed contract.

## Eisenhower And Full Cabinet Meet For First Time

President-elect Dwight D. Eisenhower today met with members of his full cabinet which he assembled to chart the course of his Administration when it takes over the reins of government. He met with them in the White House, and given their future assignments, including Secretary of State John Foster Dulles, Vice President-elect Lyndon B. Johnson, Secretary of Defense Charles E. Wilson, Secretary of the Interior Arthur M. Brown, Secretary of Agriculture Martin P. Dunne, Secretary of Commerce Robert C. Anderson, Secretary of Health, Education and Welfare Thomas H. C. Platt, Secretary of the Army Louis C. Howarth, Secretary of the Navy W. A. Glass, and Chief of the Civil Service Commission Douglas M. Costle.

## More Speed On Hospital Urged By Trade Body

### C Of C Directors Favor Resolution Suggesting Less Delay

The Seminole County Chamber of Commerce today urged the Seminole County Board of Health to speed up the construction of a hospital for the care of the mentally ill. The board of health is currently reviewing a resolution of last night's meeting in the City Hall urging the County Hospital Trustees and the Board of County Commissioners to take immediate steps for the earliest possible construction of a hospital.

## Gypsy Returns Here To Visit Jailed Pal

SAVANNAH, Ga. (AP) — Bonnie Mitchell, 22-year-old gypsy who came here to marry a boy who returned to her Florida home Tuesday upon being promised she would be allowed to see her imprisoned boy friend. The man, Otha Lee Canfield, is in the Seminole County Jail charged with stealing from the trailer of the girl's relatives. The gypsy camp is in Seminole County. Miss Mitchell agreed to return after a visit here from her parents and three other relatives. The two came here separately shortly before Christmas after meeting in Florida. They became acquainted when Canfield was called upon to repair a car owned by one of the girl's brothers. Canfield was arrested here on the charge of kidnaping the car. When it was found Mrs. Mitchell was at least 22 years of age rather than the 16 she was believed to be, and that she had come here alone on a bus, this accusation was dropped.

## C Of C Proposes County Control Over Road Funds

Following a denunciation by President G. W. Spencer of the present method of state control of the secondary road program and a resolution of the Chamber of Commerce to take control of the money for county road construction be placed in the hands of the County Board of Health, the board of directors of the Chamber of Commerce went on record at its meeting in the City Hall last night in favor of legislation taking control of 50 percent of the county road funds from the state and placing it in the hands of the County Board of Health and putting it in the hands of the various county commissions throughout the state.

## Acheson Has Last Meeting With Scribes

### Secretary Of State Is Sure Big Difficulties Facing World Will Be Overcome

WASHINGTON (AP) — Dean Acheson, winding up four years as secretary of state, said today he was sure the formidable difficulties of the way of Western unity and strength can and will be surmounted.

In a farewell news conference he gave that answer, based upon a review of progress and troubles of the Western alliance against Soviet communism when he was asked what he thought about new French efforts to amend a treaty which would permit West German rearmament.

Acheson opened the conference with some ideas which he said he had jotted down in his years in office. He said he was deeply gratified for the complete loyalty which had existed between himself as head of the State Department and President Truman.

# Unrivalled Prosperity Predicted By Truman For US Through 1953

### Magazine Suggests Central Florida

President Truman and his wife Bess in a formal portrait.

## Economic Report Sees Good Times But Envisions Trouble As Spending Eases Up

By The Associated Press  
President Truman, in his economic message today, forecast prosperity, high employment through 1953.

Cautioned 1954 will bring a "threat of slump," a "credit nation" and a "500 billion dollar a year production goal."

Truman split in his economic forecast an anti-inflation policy.

WASHINGTON (AP) — President Truman told the country today it was a "good time" to buy a new car, a new house, or a new refrigerator, but he warned of a "threat of depression" after 1953.

In his last major message to the country, Truman pictured today's "good times" and "stable prices" as a "good time" to buy a new car, a new house, or a new refrigerator, but he warned of a "threat of depression" after 1953.

Truman's economic message today, in his economic message today, forecast prosperity, high employment through 1953. Cautioned 1954 will bring a "threat of slump," a "credit nation" and a "500 billion dollar a year production goal."

## Baltimore Union Withdraws Recognition Of AFL

BALTIMORE (AP) — The city today withdrew its recognition of an AFL union of municipal laborers whose 3,000 members have been on strike since New Year's day.

## Assets Increase In 1952 Over \$300,000 At First Federal

The assets of the First Federal Savings and Loan Association increased over \$300,000, according to a statement released today and now exceed \$1,100,000. The three million dollar increase was reported in November, according to George Touhy, executive vice president, who added that through the savings of thrift people in Seminole County and surrounding territory home owners and home buyers had been able to borrow over \$800,000 from the association during the year that has just ended.

Seventy-nine new homes were built in this section, Mr. Touhy said, through the First Federal's home ownership plan, and over \$150,000 was borrowed to improve or add to already existing homes.

The directors of the local association have maintained the 3 percent a year dividend for savicers and in 1952 the payments to the holders of savings accounts totaled \$74,201.43. This has been done while the association moved upward from \$188,244.00 at the close of 1951 to \$187,457.00 last year end, an increase of 10 percent.

The current statement shows that the savings accounts are just under the three million dollar figure, while the loans outstanding are at two and a half million dollars.

"We are very grateful to our friends who put their savings at work, not only in earning a nice return for them, but in helping the local economy by providing funds from which homes may be built or renovated, thus opening the door to employment for many in the building trades and adding greatly to the sales made by the sunny variety," said Mr. Touhy.

He added that many borrowers are finding that the First Federal plan more nearly suited to their individual needs and the demand for loans has been steadily increasing.

## McKinley Speaks On Underprivileged At Kiwanis Luncheon

The Rev. J. E. McKinley, pastor of the First Methodist Church, speaking before the members of the Kiwanis Club at the regular weekly meeting at the Yacht Club today called upon each member of the service or organization to think of the inherent privileges of America. He stated that America being the type of nation it is, a humble respect for God is all important. He stated that every father who takes an inactive part in church matters should be charged with contributing to the dilapidation of his children.

Among other factors necessary for the life of the child, the speaker listed the right to work, availability of worthwhile recreation, love and respect of the parents, a sense of responsibility, and the feeling of good fellowship within the home.

The Rev. McKinley was introduced by Rupert Strickland, judge Douglas Elenstrom, who was unable to be present at last week's induction ceremonies, was installed as first vice president of the club by Ed Lane, a past lieutenant governor.

Reports of the district mid-winter conference at St. Petersburg earlier in the week were given by Rev. Mann, O. K. Goff, and J. C. Davis.

## Driver's Licenses For '52 Have Jump Over Year Before

A total of 12,757 driver's licenses were sold at the Seminole County judge's office in 1952, one thousand and ten more than the number sold last year, Mrs. Letha Fowler, chief clerk, announced today.

Of last year's total, 12,228 licenses were sold from September through December. Sales continued into the new year with 77 licenses being sold in four and one-half days, she said.

Probate business last year totaled \$2,321.45, \$278.57 more than the total of \$2,042.88 in business consummated in 1951. Certified copy business brought \$553 into the office \$150.40 more than the total of \$393.60 in business for 1951.

Marriage licenses showed a boost of only two, with 335 being issued in 1952 and 333 in 1951.

## W. W. Allman, Former Local Resident, Dies

William H. Allman, a former resident of Sanford for 15 years, died in the Florida East Coast Hospital in St. Augustine at 1:45 p.m. yesterday after a brief illness.

Mr. Allman was a conductor for the East Coast Railroad and had made his home in Jacksonville for the past 10 years. While in Sanford he operated the Allman Grocery at West Thirtieth Street and Southwest Road. He was born Oct. 28, 1869 in Osteen and attended Seminole High School in Sanford.

He was a member of the First Methodist Church of Jacksonville and of the Brotherhood of Railroad Trainmen.

Surviving are the widow and one son, Robert of Jacksonville and his parents, Mr. and Mrs. Wesley Allman and one brother, Tias Allman of Sanford.
