

British Attitude Toward America Undergoes Change

By ROBERT N. COOL
AP Newfeatures Writer
NEW YORK—"I do not like their manners, I do not like their opinions."
All in all, Mrs. Frances Trollope of England made it abundantly clear in 1832 that there was little she did like about Americans, especially those of the middle west where she had spent two years . . .
"Certainly midwesterners are the kindest, most generous and most hospitable people in a country I have seen," she wrote.
This statement comes from another English writer, Graham Hutton, whose book "Midwest at Noon" was published recently by the University of Chicago Press. After five years as Director of the Office of British Information in

Chicago, Hutton has written what critics agree is an outstanding study of the central states.
In the century between publication of Mrs. Trollope's "Domestic Manners of the Americans" and Hutton's work, the attitude of British authors toward America apparently has made a full swing. Our forefathers reacted violently to the literary lashing of Charles Dickens, who in 1842 depicted them as a nation of tobacco-chewing yokels, drunkards and sharpers.
After touring as far west as St. Louis, the author of "Pickwick Papers" wrote in his "American Notes":
"They certainly are not a humorous people, and their temperament always impressed me as being of a dull and gloomy character. In shrewdness of remark, and a certain castiron quaintness, the Yankees, or people of New England, unquestionably take the lead—as they do in most other evidences of intelligence."
He went on too to infuriate his American fans by observing: "I was quite oppressed by the pre-

This pine seedling, being planted by Ann Garrett, 14-year-old queen of the recent Swainsboro, Ga., Forest Festival, will be big enough for pulpwood before Miss Garrett is 30 years old, and hefty enough for lumber by the time she is 40. Beside Miss Garrett is 15-year-old Jack Edensfield, who is holding a planting tool, while J. M. Tinker, Georgia's state forester, looks on. Forests have always been a leading source of this region's wealth, and, with the spread of tree-farming methods, they always will be. Forest industries throughout the nation are encouraging proper forest practices through a "Trees for America" program sponsored by the American Forest Products Industries.

vailing seriousness and melancholy air of business, which was so general and unvarying that at every new town I came to I seemed to meet the very same people whom I had left behind at the last."

But a hundred years later, on the eve of the second world war, Dr. Denis Brogan, British author and educator, returned from an extended tour to tell his countrymen that the United States was "the most interesting country in the world."

In his widely-read book, "The American Character," Brogan explained away such assumed national characteristics as boasting and boasting on grounds of historical necessity. Pioneers had to be boosters to build up their town, he said.

Declaring that Americans have much to give the world "both materially and spiritually," Dr. Brogan painted this idyllic picture of

Saturday night on a typical U. S. main street.

"There was over the street and over the town that indefinable American air of happiness and ease, at least for the young. There was that general friendliness and candor. It was a world in which the ominous word 'stranger' had been given a friendly flavour. 'Howdy, Stranger,' is not a hostile greeting, and it was invented in America."

He would leave it to native writers to be pessimistic about the American character, Brogan declared.

In this he differed widely from the judgment of his countryman, one Capt. Basil Hall, who in the 1830's complained: "In all my travels, both among heathens and among Christians, I have never encountered any people whom I found it nearly as difficult to make myself understood as by the

He was the first American kid I'd seen around headquarters, where most everybody's in uni-

Americans."
To which his contemporary Mrs. Trollope chimed in: "Strong indeed must be the love of equality in the English breast if it survive a tour through the Union."
The tide toward sympathetic treatment of American life by British writers commenced in 1858, critics point out with the publication of Viscount Bryce's monumental study, "The American Commonwealth."
On a regional scale, Hutton's analysis of the midwest has been said to approach the high standard set by Lord Bryce.

Jimmy has been here about 10 days, having come over with his mother and 18 year old sister, Imogene Ann, from Southern Pines, N. C., to join Dad.
How did he like Berlin?
"Okay, okay," said Jimmy. "I got into four fights the first day."

Capt. Bradin said Jimmy "seems to be happy here and adapting himself" and so did the rest of the family.

Rep. Rankin Assaults A.P. Photographer

Mississippi Negroes Vote Today Despite Issue Raised By Bilbo And Rankin

TUPELO, Miss., July 2. (AP)—An Associated Press photographer says he was assaulted today by Democratic Representative John Rankin of Mississippi. The photographer, Allen W. Snipes of Memphis, had taken a picture of Rankin in connection with today's Mississippi Democratic primary. An eye-witness related that Rankin turned on the photographer and ripped off his shirt and scratched his neck and hands. Photographer Snipes declared he had asked Rankin's permission earlier to take a picture of him as he voted but Rankin refused. Then the photographer snatched a picture of Rankin outside the courthouse at Tupelo.

JACKSON, Miss., July 2. (AP)—Negroes are voting today in Mississippi's Democratic primary despite the white supremacy issue raised by Senator Theodore Bilbo and Representative John Rankin. The total negro vote in the state is not expected to be large, as not many are registered. However, they have been voting in sizeable numbers in Jackson, the state capital, and in Clarksdale and Mound Bayou. A few negroes voted at Laurel, Vicksburg and Greenville. A number of counties have no negroes registered.

Some of those who did vote were challenged on legal grounds. But other voters they were not challenged as they cast their ballots. Senator Bilbo had called upon "every red blooded Anglon" in Mississippi to use whatever means are necessary to keep negroes from voting in the state.

In previous years the Democratic primary has been restricted to white voters and negroes have voted only in the general elections. But in Mississippi as in a number of other Southern States, the democratic nomination is equivalent to election, so anyone who was unable to take part in the primary had little to say about who was elected. This is the first Mississippi primary in which negroes have taken advantage of a Supreme Court ruling that gives them the right to take part in democratic nominations.

As for Senator Bilbo, he said he is confident of reelection. His opponents concede Bilbo first place in today's voting, but predict that he will be forced into a runoff primary — and that if he is, he will be defeated.

Odham Outlines Legion Baseball Plans At Meeting

Brailley Odham, manager of the Campbell Legion Post No. 53 American Legion baseball team said today that a practice will be held tomorrow morning at 10:30 o'clock at the Municipal Park. Odham said that the Odham Legion will be present to assist in coaching the players at various positions. The team will play its first game Friday in Orlando. The district tournament will be held at Ocala during the third week in July.

Brailley Odham, manager of the Post No. 53 American Legion baseball team, last night outlined the baseball program for the local club, and that of the seventh district during the regular meeting of the post held at the Legion Hut on Lakewood Boulevard.

Mr. Odham urged the post to authorize funds for the operation of the post team, and this was approved by the members present. Relative to transportation for the club it was announced that Joe E. Williams would provide a vehicle to transport the organization's team.

Alex B. Johnson also spoke briefly last night on the Veterans Agricultural Training Program in the State of Florida and explained the proper procedure to obtain the many advantages under the program. Following a discussion pertaining to metal American Legion auto plates, Comdr. Henry Wolcott, who presided over the meeting, instructed the post adjutant to investigate the possibility of obtaining the plates.

New members inducted last night included C. D. Donaldson, John Probst, D. D. Gammage, Joe B. Williams, John L. Crawford, John H. Seavy, W. L. Crowder and C. C. Woods. Prior to the meeting, a supper was served.

Artist's Conception Of Bikini Blast

STAFF ARTIST PAUL FREHM, guided by war news and radio accounts dramatically depicts with his skilled brush the scene of the Bikini Atoll lagoon following the explosion of the fourth atomic bomb ever to be dropped. As the lagoon was blasted out in a mass of fire and water, the bomb carrier, the B-29 "Fat Man," safely speeds off. After bomber Maj. Harold Wood had tossed the missile on the target, a giant cloud—puffs in the rear—rose to an estimated 50,000 feet.

Fresh Charges Of Cruelty To GI's Are Made Today

Prosecution. Asserts Col. Kilian Made It Rough On Prisoners

BAD NAUHEIM, Germany, July 2. (AP)—Fresh charges of deliberate cruelty against American prisoners at the American Army guardhouse in Lichfield, England, were made today. The accusations came at the trial of Col. James Kilian—former commandant of the camp.

A prosecutor charged that Kilian had instituted what was described as a deliberate policy of making it so rough on prisoners that they would not return to the United States. One of the accusations was Kilian's own testimony which he gave at the first Lichfield trial eight months ago when Sgt. Judson Smith was convicted of beating prisoners.

Today the American court martial heard prosecutors declare that they would show by Kilian's earlier testimony that the colonel wanted to send stubbornly belligerent soldiers into battle with guns at their backs. The prosecution added that when that idea was rejected, Kilian wanted to charge desertion against soldiers who were AWOL from units headed for combat areas. When the judge advocated section told him that it would not dare take any men steps than the prosecution—Kilian instituted a policy of making it so rough on prisoners they wouldn't want to come back.

Gen. MacArthur Reaches Manila For Ceremonies

President Roxas, Commissioner McNutt Greet Allied Chief

MANILA, July 2. (AP)—General Douglas MacArthur has arrived by plane in Manila to be honored on the July 4 independence anniversary of the Philippines. General MacArthur was given a tumultuous welcome as his C-54 transport plane, "Batang," glided down at Nichols Field.

The first to meet General MacArthur were the Philippines President, Manuel Roxas, and the American High Commissioner, Paul V. McNutt. The general greeted both affectionately. It was the first trip from Japan for the Supreme Allied commander since he left Manila last August to accept the Japanese surrender. He was accompanied by Mrs. MacArthur.

Meanwhile, both houses of the Philippine legislature are expected to ratify today an executive agreement to put into effect the Bell Trade Bill. This is the measure regulating trade with the United States, which will provide for American economic and rehabilitation aid.

The Philippine Secretary of Agriculture gave out some depressing figures on the island's economy. He released official estimates of the 1946 Rice crop which indicated that food shortages in August may reach famine proportions.

Snyder Says Runaway Prices Might Force Increase In Federal Taxes

WASHINGTON, July 2. (AP)—Secretary of the Treasury, John Snyder, brought up a new angle of the price situation today. Snyder said that if prices get too far out of hand there may be an increase in federal tax rates.

But first, Snyder said, it must be referred to next year and not this year. He said the Treasury has no thought of proposing a new tax bill for 1946.

Snyder declared that taxes probably will follow prices. He told congressmen that a higher tax rate might be used as a brake on inflation.

The Treasury Secretary also said some figures for the nation's economic condition. He said that as of last Sunday the deficit was \$788,000,000 less than President Truman has estimated it would be in his budget revision last April 11th. That isn't a saving, however, for Snyder explained that part of it was due to the slow progress of the international finance program.

The apparent saving actually will be as big as the fiscal year began yesterday. The deficit will actually be merely the difference between the deficit of last year and the deficit of this year. The deficit of last year was \$2,779,000,000. That was an increase of nearly \$1,000,000,000 over a year ago. Snyder said that more than \$300,000,000 from the high of last Feb. 28.

Folks In Southern States Plagued With Rent Hikes, Except In Alabama

By Associated Press
Renters in one Southern State—Alabama—could breathe easier today. Elsewhere folks who rent their homes were plagued with rent hikes which in some places were as high as 200 percent.

Governor Channery Sparks used his emergency war powers to freeze rents in Alabama. The rent freeze was made effective as of midnight Sunday—when O. P. A. rent controls expired. In Alabama, Governor did not set up machinery to enforce the rent freeze. But his proclamation said any landlord seeking to increase rents would have to go to court to contest the freeze. Citizens of other Southern States were not so fortunate, however. Rent increases of 100 to 200 percent—and even higher—were reported in Miami. In Jacksonville housekeeping rooms on one downtown street went from five dollars a week to \$45 a week. There was hope for tenants in Atlanta. The Atlanta real estate board adopted a policy of no immediate rent increases. Many individual landlords in the Georgia city began hiking rents as soon as O. P. A. expired. In fact, one tenant received a notice to be evicted from his landlord six hours before the O. P. A. was officially dead. The telegram notified the tenant that his rent had been hiked from \$47 to \$70 monthly. Governor Ellis Arnall says he has no authority to take action in the crisis. Arnall says any action on control of prices and rents is of federal concern. The Governor suggested that Georgians who want the O. P. A. revised should write their congressmen and senators. Arnall says he had an opinion from Attorney General Eugene Cook that Georgia has no law that would allow him to freeze rents. Another Southern Governor—Mississippi's—also proclaimed a period of emergency in his state. Caldwell called on merchants and property owners to refrain from increasing prices and rents. But a spokesman for the Governor said there was no way to force rationing of price ceilings in Florida. In his proclamation, Governor Caldwell observed that Congress will in all probability take early action to restore price ceilings. His action came after the House of Representatives had adopted a measure calling for a 20-day extension of O. P. A. The Senate was still debating the question. While landlords were raising rents, most merchants were pledging to continue O. P. A. prices. One Southern drug store chain placed advertisements in Atlanta newspapers. The ads said: "There will always be an O. P. A. at our stores." Similar ads were seen in many Southern cities. Most retail merchant groups promised not to hike their prices—at least until increased costs of new merchandise forced them to.

Some Senators Trying To Have Rent Control Legislation Passed Immediately

WASHINGTON, July 2. (AP)—Administration leaders in the Senate are trying to prevent rent control legislation from getting ahead of proposals to revive the OPA. Opponents of the price control agency blocked efforts to refer two OPA proposals to the Senate Banking Committee immediately.

Republican Senator H. H. Clegg (Iowa) proposed to the Committee an immediate consideration of a rent bill. He asserted that this legislation would not be controversial. Senate Majority Leader Barkley told the Banking group, however, that it would be a farce to recommend Senate action on a bill dealing with just one phase of the price question.

Clegg replied, "I see no harm in referring this bill and passing it this afternoon. It may be two weeks before we report an OPA bill to you, but report one at all." In the face of Barkley's opposition, the Banking Committee failed to take a committee vote on either bill.

Democratic Senator Robert Wagner (N. Y.) expressed the opinion that the committee will not be able to agree on a general OPA bill this week. If not, said Wagner, he would favor reporting the rent control measure.

The two proposals on OPA which failed to be referred to the Banking Committee were the House-passed resolution extending OPA for 30 days and a separate bill by Senator Hubert Wagner (N. Y.) which would extend OPA until the end of the year. The Wagner bill also proposed to amend the Wagner bill to the committee. Wagner also proposed to send the extension resolution to the committee.

W.A.A. Sales Are Slated To Begin In State July 15

SAFORD, Fla., July 2. (Special)—Supplies property at Federal Government installations valued at \$10,250,000 is being prepared for disposal by means of sales on site, it was announced today by William J. Warren, Regional Director, War Assets Administration.

First of these sales is scheduled for the Naval Amphibious Training Base, Ft. Pierce, starting July 15, while others are slated for the Naval Air Station, Jacksonville; Welch's Naval Submarine Division Base, Sanford; and the Naval Air Station, Orlando.

The program is part of a general national wide selling campaign calculated to step up W.A.A. sale of surplus goods to veterans and priority and non-priority buyers.

Property valued at more than \$1,750,000 will be placed on sale at 141 disposal centers all over the country. These are sales, W.A.A. explained, for which preparations started sometime prior to the middle of June or will have been started by July 1. In addition to those already mentioned here, Florida has 42 sites for which sales will be scheduled during ensuing months.

Of the 141 sales at site for which preparations are now being completed, 16 are in the Chicago region where it is anticipated \$175,000,000 worth of surplus, or 2.7 percent of the total \$1,750,000,000 will be sold. In the San Francisco region 14 sales are impending.

Sgt. Godwin Returns From Pacific Area

Sgt. G. E. Godwin, son of Mrs. M. G. Godwin, returned home during the week end from overseas service as a motor mechanic with the 95th Field Artillery. He entered the service Nov. 12, 1945, trained until February, 1946 and was sent to Italy where he saw action in the Apennines and Po Valley. He wears three battle stars. His home is at 915 West First Street and he is married to the former Evelyn McCre.

BOOK REVIEW

By W. G. ROGERS
THE ASSOCIATED PRESS
NEWS ANNUAL: 1945, Vol. 1
by Russell Landstrom (Rinehart; \$4).

"History's greatest news year" comes to you here condensed to 565 pages of dramatic story plus 99 news photographs.

When the momentous 12-month started, the Russians were 75 miles from Berlin; the Americans were squeezing Germans out of the "Bulge"; Hitler was ranting that the Reich would never surrender.

Before it closed, V-E and V-J days had been celebrated; the atomic bomb had been unleashed on a shocked world; problems of war had yielded to problems of peace. The United States had lost a great President; Hitler had been reported a suicide; Mussolini had been killed by his vengeful people.

But it wasn't international news alone which made the headlines. A barber crashed into the Empire State building. A court ruled Charlie Chaplin was a father. Bing Crosby and Frank Sinatra fought it out with song and libe. La Guardia stopped being New York's mayor. And added to the beer that made Milwaukee famous was Gerlie the Duck.

Obituary columns carried the names of "Jafsis" Condin, Argentina, Nazimova, Lupe Velez, Jerome Kern, Mascagni, David Lloyd George, Robert Benchley, Emily Fyle, Franz Werfel.

All this and much more you can read in this book. AP Executive Director Kent Cooper in his foreword sets the keynote: "News is the story of the people." After a survey of the background, there is a chapter a month, each opening with a general roundup, particularly worded and closing with a day-by-day chronology. At the end two chapters are devoted to

Local men who have been offered permanent rank in the Army include FIRST LIEUT. CHARLES C. HURT, FIRST LIEUT. CLIFFORD W. HOWELL, FIRST LIEUT. JOSEPH G. GOVOCEK, FIRST LIEUT. JAMES H. DYSON, SECOND LIEUT. WALTER M. TURNER and SECOND LIEUT. C. T. DEWOLSKI. The much-talked about KRAMER, Sanford's new third baseman, arrived yesterday and played his first game last evening.

DR. RALPH TOLAR (RUSTY) is home for awhile. ENSIGN HARRY LEE, JR. has received his honorable discharge from the U. S. Naval Reserve in Jacksonville and is home for some time. MR. and MRS. A. H. ADAMS of Miami are guests of Mr. and Mrs. C. P. HERNON. Have you been a victim of the new game "24"?

In case you haven't stopped to notice there is more activity in Sanford so far this summer than in many, many previous years. MRS. H. H. COLEMAN has left for a month in Miami. KEENE WYBY and children decided not to take their Daytona Beach apartment. EVELYN EPSON was delighted to step right into a wonderful apartment which has been reserved for three months.

MRS. J. N. DUNN of Oviedo is announcing the engagement of her daughter, JOHNNIE, to J. W. BENDENBAUGH of Oviedo. The wedding will be an event of July 1 at the home of J. L. BENDENBAUGH in Oviedo. The couple plan to reside in Oviedo.

Landstrom dug into AP files for his material, and quotes, sometimes extensively, from Signa Arne, Edward Hall, Howard W. Blakeslee, Hal Boyle, Russell Brines, Douglas B. Cornell, Daniel DeLoe, J. Wes Gallagher, Vera Hargland, John M. Hightower, Louis Leubner and others. And of course among photographers is Joe Rosenthal, whose "Flag Raising on Iwo Jima" is one of the war's best pictures.

It's a grand book, even if we say it as shouldn't.

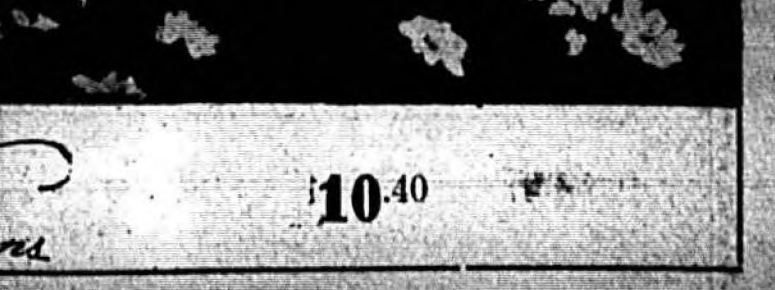

Mr. and Mrs. Kircher Give Class Party

The Wesleyan Fellowship Young Adult Class of the First Methodist Church enjoyed a bang party Friday evening given by Mr. and Mrs. Edward Kircher at their home. Summer flowers were used to decorate the home. After sever-

al game had been played prizes were awarded. Fawn Schuberger, Miss Mildred Awaft and Mrs. Vernon Aiken.

Celery Feds Nose Out Leesburg Packers In 2-1 Contest

Bride Paces Attack With 3 Hits; Twin Bill Slated Here Tonight

Tonight the Sanford Celery Fed... tangle with the Leesburg Packers in a twin bill which is slated to get underway at 7:00 o'clock at the Municipal Park.

LEESBURG, July 2. (Special) — Charley Blison, lean left-handed righthander, racked up his sixth victory of the season last night when he scattered eight blows while his mate were punching out five safeties off Bill McClintock to nail up a 2 to 1 win over the Leesburg Packers.

The win placed the Celery Fed... in the third inning who were rained out last night. The Feds tallied their first run in the third inning but the Packers knotted the count in their half of the fifth. However, in the upper half of the sixth the Feds jumped on McClintock for another single tally which proved to be fatal to the Packer aggregation.

Dave Bride, first Fed center fielder, powered the Fed attack by getting three of the five Sanford blows off McClintock. The other two hits were split between Manager Ed Levy and catcher Don Zappel. Appearing in the Fed lineup for the first time last night was Bob Kramer, new infielder who joined the Sanford aggregation only yesterday afternoon. Kramer went hitless during four official trips to the plate but he handled five assists and a single putout at the hot corner flawlessly.

COACHING TWO SPORTS

SPORTS LAUGH

It happened in Los Angeles recently. A young girl substituted for another on a ladies team in a regular bowling league. It was her first experience in league competition where the rules are observed closely and where a ball rings and it red light flashes when a player goes over the four line. She stepped up to bat first. She threw the ball down the alley and swept all the pins off but she stepped over the four line. The bell rang and the red light blinked. She skipped back to the rest of her team and said, "Girls, came the bell and turned on the light. How much does that count?"

Spunky Eddie Stanky Is Sparking Durocher's First Place Dodgers

By JACK SPRINGER

NEW YORK, July 2. (AP)—It's one of those things you'll have to look hard to find in the daily news scores, but one of the big reasons the Brooklyn Dodgers are turning up front these days is spunky little Eddie Stanky. Egan Stanky is the only hit, can't throw and in mind when they decided the veteran second baseman Billy Herman was no longer needed and sent him off to Boston.

Stanky is the only hit, can't throw and in mind when they decided the veteran second baseman Billy Herman was no longer needed and sent him off to Boston. On mechanical ability alone Stanky might be lucky to stick with a good Class AA club. Egan Stanky is the only hit, can't throw and in mind when they decided the veteran second baseman Billy Herman was no longer needed and sent him off to Boston.

By sheer persistence, wigwagging and harrowing, Stanky gets on base as much as anybody on the club and scores more often. By these base-running gifts of the St. Louis Cardinals, he's a general all breaking up double plays and any runner with bases of scoring seems to prevent a Stanky-made twin killing can come on a moment's occasion from the hot tempered little man guarding the midway sack. The first day of their season

SPORTS ODDITY

It's not usually a heavy night game. Witness the fact that the first day of their season was a great thrill on a golf course. When Babe Ruth says any course is hard for any player to get a hole-in-one, it's usually the hole-in-one that he's talking about. Two big fellows amazed the galleries at the recent Invitational tournament at the Rockville Country Club of Rockville, Pa. Long Island New York, Charlie Korn and an ordinary club player got a hole-in-one in the 19th hole. He was beyond the green and a fair drive. Then he hit out from the rough. He had a stroke in the hole in his second was two.

CO-CAPTAINS IN TRACK

CHARLOTTEVILLE, Va., July 2. (AP)—Samuel Fray of Culpeper, Va., hurdles and sprinter and George Trachsel of Baltimore, Md., distance runner, have been elected co-captains of the University of Virginia track squad for 1947.

Motor Mileage Records May Be Broken July 1

CHICAGO, July 2. (Special) —The month of July may see broken motor mileage records as the nation's motorists are expected to work out the National Safety Council and today. More important, the Council says it will be the deadliest weekend in the country, accident history unless the emergency is met with a concerted campaign of safety.

MacPhail Would Limit Night Games to Seven

NEW YORK, July 2. (AP) —Larry MacPhail, president of the New York Yankees, says that major league owners "were determined to slay the goose that laid the golden egg." MacPhail, who started night baseball in the majors at Cincinnati, brought it to Brooklyn and now to Yankee Stadium, believes

ANOTHER NEW LEAGUE

PETERSBURG, Va., July 2. (AP) —Another baseball league has been organized in Virginia to benefit slaves and for the payment of 100 members are Petersburg, Colonial Heights, Camp Lee, Hopewell, Waverly and Stony Creek. The human body is about 70 percent water. Although the Chinese used gunpowder for flares, Friar Roger Bacon, of England, discovered its explosive qualities hundreds of years later.

On Way to New Walk Record

The record books show pitched Eddie in four of the league with bases on balls—averaging better than one a game, and on the way to smashing the National League record which he himself set last year by walking 138 times. The record league may be broken at the plate, last year, for example, in 121 games he batted only 238, and of his 143 hits only 35 were for extra bases. His batting average for three full years in the majors the came up to .350 in 1945 from Milwaukee, 1944 went to Brooklyn in 1944 for pitcher Bob Chipman is .250. In those three years he hit just one homer.

Leads in Runs Scored

But last season he led the league in runs scored, 128, and if you figured it his free passes you'd find he got himself to first safely two out of every five times he's crossed to the plate. "That's the important thing off along with the fact that all 168 pounds of him are playing hard to win every minute of the game."

Tax Equalization Stresses Need For City Revenue

Continued From Page One
 had cut off another 200,000 in valuation. He also called attention to the fact that while the County gets two cents of the seven-cent gasoline tax, the City derives no revenue from this source.

In reply to questions by Mr. Housholder, City Manager H. N. Sager said that a million-dollar increase in property assessments would result from the new appraisals, and that the millage levy now at a maximum, could not be raised. Mayor Gut stated that on a present \$3,000 valuation basis, which would include about 95 percent of the homes in the city, the increase in tax to home owners from the new appraisal would be but \$19.00 a year or 75 cents a month.

Mr. Housholder protested that the public did not know what the extra money was needed for, and suggested the same increase in tax would be a factor in the growth of the Sanforcity. He said he favored the City getting additional revenue to meet expenses, but not by increasing appraisals.

WORLD FRIENDSHIP AND PEACE BEING PROMOTED BY 4-H CLUB MEMBERS

The idea of world citizenship and loyalty as a means of promoting world friendship and peace was emphasized by 165 4-H club members from 11 states at the National 4-H Club Camp in Washington recently. They believe that a sense of world citizenship will be an important step toward world peace.

Through the years 4-H club members have been pledging their heads, hearts, hands and health to their clubs, their communities and their country. But at the Washington camp the delegates, four from nearly every state, voted to pledge their loyalties also to the world.

"The world today is beset with many problems," says the report of the world citizenship study, "and the people of various countries in regard to themselves solely as citizens of their country and not as world citizens; second, the jealousy and suspicion which exist so strongly between nations today; third, the economic instability of the whole world; and finally, the world-wide rivalry which leads to misunderstandings between nations."

To promote international good will, the boys and girls recommended discussions in local 4-H clubs on understanding parents, "since the foundations of a stable government depend upon peace in the home," study by 4-H clubs of the United Nations; 4-H gifts of clothing and food for needy people in evacuated countries; and 4-H scholarships for foreign students.

In an impressive ceremony including 21-year-olds into citizenship, 49 boys and girls declared "We recognize that mankind today is forced to take the path of wisdom or be destroyed by the forces of physical science. And we know that wisdom lies in living together in harmony and cooperation. By strengthening our homes, improving the science and business of agriculture, teaching our children values in rural life, and making Christian principles our code of ethics for everyday living, we are confident that we may do our part to our goal of peace for the world."

MANY NEVER SUSPECT CAUSE OF BACKACHES
 This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and wastes out of the blood. They help most people pass about 3 pints a day. When disease of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, aching up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or steady passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic used successfully by millions for over 40 years. Doan's gives happy relief and will help the 18 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
