Physicists Denies Passing "A" Secrets

WASHINGTON, Sept. 14—(P)
—Dr. Martin D. Kamen, a nuclear
physicist, today repeated his statement that he never has disclosed any atomic energy secrets to unauthorized persons.

Further, he said, he would not disclose any atomic energy infor-mation to the House Un-American Activities Committee members unless the Atomic Energy Commission assures him "committee members have been cleared for access to such restricted data."

Kamen, now a professor at Washington University, St. Louis. was dismissed from the atomic bomb project by the Army in 1944. He was called for questioning by the House Committee today at a closed session in its investigation of alleged atomic espionage.

Legislature Makes . Complete Revision Of State's Ballot

With Single Mark

By ASSOCIATED PRESS The Florida Legislature in special session today revised the state's general election ballot to give Henry Wallace and J. Strom Thurmend space along side President Truman and Thomas E. Dewey.

It set up a method by which evoters may cast a ballot for either of the four major candidates for President with a single mark or one pull on a voting machine lever.

The old law allowed no presidential candidates' names on the ballot. and votes were cast only for presidential electors. Democratic electors were split between Truman and by Leonard Casselberry. and Thurmond, and Wallace electors were not eligible for the ballot.

"As Maine goes to goes the nation". Not many Democrats will be willing to sub-ribe to that theory this year, what with Republicans surpassing the record breaking victories of 1928 by more than 10.000 motors. But the property of the 10,000 votes. But the size of the Republican majority, if nothing else, must serve to prove that the Truman policies have not been particularly popular not only with the folks in Maine, where there are many who also believe in states rights, but also with the rest of the country.

It isn't just in Sanford that a housing shortage exists. There are more people than can be accommodated everywhere in the United States and throughout the entire civilized world. Opera On Film

It is welcome news that some of the great operas, as performed by the Metropolitian Opera Company, might bel filmed for exhibition in motion picture houses. The combination of the musical talents and experience of the Metropolitan with the technical skills of Hollywood should result in entertainment of the highest order.

If this dream should be made reality, opera at its best plane in London and pursued could be placed within the reach of theater-goers all over Prime Minister Neville Chamberthe country, many of whom otherwise might never have a lain, who was flying to Adolf Hitchance to see grand opera in all the color and excitement of ler's Alpine retreat at Berchtes. full-scale production. Would this hurt the attendance at gaden, in the British statesman's the Metropolitan Opera House in New York. On the contrary dictator. attendance probably would increase, for the tremendous publicity powers of the movies would stimulate interest in

A more detering question, and harder to answer, is whether opera movies would have sufficient drawing power in the theaters to make them profitable for Hollywood. The filming of an opera on the scale of an artistic performance are faced with an international would be an expensive undertaking, even for the lavish film industry. The drawing power could be measured only by trial, but it certainly seems reasonable to think that great numbers of movie patrons, both regular and occasional, would welcome the innovation in film fare.

If producing opera movies would help the Metropolitan to regain its financial feet, that alone would be a valuable result. But the results of placing opera before the whole country in this way would be of much greater value.

The constitutional amendment, limiting any president to two terms, is now in process of ratification by the states. Twenty-one have approved it, with 15 more necessary to complete the necessary three-fourths majority. There is little doubt the amendment will be ratified during Dewey's first term, if he wiss. Only two southers states have rati-

Governor Caldwell Signs Act Setting New State Ballot

Bill Allows Voters Hopes To Avert Vote Directly For Telephone Strike 1 Of 4 Candidates

TALLAHASSEE, Sept. 16 (A2) Governor Caldwell today signed setting up a new ballot on which Floridians can cast direct votes for any one of four candidates for President this year.

He said "I believe the bill does fairly and validly that which was needed to permit the free, effective muercise of the franchise by the voters of Florida.

The measure, as finally approved by decisive margins in both the House and Senate, also provides for eight presidential electorn pledged to each of the four candidates to be listed on the

Straight ticket voting for state and county offices was knocked out, but a voter may cast a ballot for any of the presidential candicircle above the candidate's name, Or, if he likes, he may vote after all-night negotiafor each elector individually.

The new act relieves candidates optimistic" about a settlement of and loyalty campaigns.) and voters of any pledge or cath they may have taken to support their party nominees for President and Vice President.
