

# Social Security Increases Benefit 7,100 Residents

The changes in the social security law signed by President Johnson on Jan. 2 will mean a benefit increase of at least 15 per cent in the social security checks of about 7,100 men, women, and children in the Seminole County area.

With this increase in benefit amounts, social security benefit payments coming into Seminole County will amount to approximately \$540,000 per month.

The Social Security Administration's high speed electronic computers are figuring the increases for all 28,700,000 social security beneficiaries around the country and will finish the task in time to include the

increase in the checks delivered early in March. Beneficiaries need not take any action to get the increase. It will be sent to them automatically.

Residents of the Seminole County area can expect the first increased check on Saturday, March 2, one day earlier than the usual third of the month delivery of social security benefit checks. Under a recent arrangement with the Treasury Department and the Post Office, social security checks are delivered a day early instead of a day late when the third of the month falls on a Sunday or holiday.

Some social security beneficiaries will receive more than a 15 per cent increase. The minimum

benefit for workers retiring at 65 is increased from \$44 to \$55.

The average benefit payable to a retired worker, about \$56, will be raised to \$66, an increase of \$12 a month. The average couple's benefit, now \$145, will go up to \$165; and the average aged widow's benefit will rise \$11, from the current average of \$75 to \$86.

The last increase in social security benefits amounted to seven per cent and was effective January 1965.

About three of every 10 beneficiaries receiving an increased check early in March will be someone

under 65, many of them the children of working fathers who have died.

The value of social security survivors is often overlooked. Social security is more than just a retirement system. But it is also income protection for the family in case of the breadwinner's death or disability.

Under the amended law, maximum payments to families now on the social security benefit rolls will go up from the currently payable maximum of \$309.30 a month to \$322.60. In the future, the maximum payable monthly to any one family can be as high as \$424.40.

# 'Outstanding Young Men Of America'

**SEVEN MEMBERS** of the Sanford-Seminole Junior Chamber of Commerce have been selected for inclusion in the 1968 edition of "Outstanding Young Men of America," an annual project of Outstanding Americans Foundation. President Lyndon B. Johnson has said of the book, "The Decision to honor in this manner the outstanding young men in our country is most welcome; it serves to spur these future leaders of our land to even greater accomplishments."

# Seaboard Coast Line Railroad Struck

**400 Area Workers Walk Out**

Four hundred Sanford area railroadmen were not working today as members of the Brotherhood of Railroad Trainmen struck the Seaboard Coast Line, Florida's largest railroad.

Members of other rail unions refused to cross the BRT members' picket lines here in Sanford and at Jacksonville, Tampa, Savannah and other points.

A company spokesman said there are approximately 400 railroad men in the Sanford area out of work because of the strike.

He also said that supervisory personnel will operate some passenger train service but all freight service is closed down pending outcome of the strike.

Pickets first appeared between 2 and 3 a.m. this morning at the Jacksonville terminal, where a union spokesman said the strike was called in protest of reduction of train crews.

A spokesman in Jacksonville for the line told Associated Press, "Trains under way will operate to their destination. After that—we don't know."

With modernization of railroad engines, the railroad companies have been endeavoring to reduce the size of train crews for years. The unions have been fighting this move.

Congress in 1963 passed a law believed to have solved the situation, becoming effective in January 1965.

Thus, it is that the railroads and the unions have been at odds over what has been termed "featherbedding" for more than five years. "This is the same old squabble," a rail spokesman said today.

The Seaboard strike began at 3:30 a.m. EST, less than 12 hours after a strike crippled the Missouri Pacific Railroad and its subsidiary, the Texas Pacific.

Brotherhood spokesmen said the strike was called because the MoPac refused to negotiate the issue of crew sizes.

A Seaboard spokesman at the line's operating headquarters in Jacksonville said Seaboard trainmen walked out for the same reason.

The Seaboard, operating between southern Florida and New York, employs 23,000 persons.

The line's Champion, which runs between Florida and New York, will not run today, the spokesman said.

In Miami, the Seaboard's Silver Meteor left on schedule at 8 a.m. for New York but the scheduled 11 a.m. departure of the South Wing, bound for Chicago, was cancelled.

Seaboard, a merger of the old Seaboard Air Line and the Atlantic Coast Line railroads, competes along Florida's Atlantic coast with the strike-bound Florida East Coast Railroad and in sections of north Florida with the Southern Railway.

The union asked three years ago that crews on railroads be restored to the level prevailing prior to a 1953 congressional arbitration board settlement on the issue. The railroads have opposed this.

Seaboard, the Missouri Pacific and the Texas Pacific were among eight railroads seeking further reductions.

# Two Hold Up Oviedo's Water Plan

Two property owners out of hundreds are holding up progress on Oviedo's water system by refusing to donate easements for water pipes. It was announced at the meeting of the Oviedo City Council last night.

W. S. Garey, owner of the property, which is located on the property of the Sanford Minit Market is

# Phone Co., Oviedo In Stalemate

Negotiations between the City of Oviedo and officials of Southern Bell Telephone Company on a franchise agreement seemed to hit dead-end Monday evening with both sides appearing to have taken immovable positions.

Southern Bell officials headed by Robert Shedd, manager, submitted a \$500,000 franchise agreement for consideration and indicated the company is insisting on nothing less than 30 years in franchise.

Meanwhile, Councilman Rex Clonts declared emphatically, "I won't vote for more than a 10 year franchise."

Recent franchise agreement with Florida Power and Light Company which requires four per cent of revenue collected by the company within the city be returned to the city, was compared by the board.

"In view of the growth expected in Oviedo, I do not believe it would be to our advantage at this time to sign a 30-year agreement," Mayor C. D. Thompson said.

Under the agreement as submitted by the telephone company one per cent of revenue must be returned to the city. Prior agreements did not carry this stipulation.

Council Chairman W. H. Martin appointed the mayor and Councilmen Edward Kasell and Rex Clonts to look into franchisees in other municipalities and to give recommendations at the next Council meeting.

# Courthouse Schematics OK Delayed One Week

Final approval of the schematics for the new two-building courthouse complex for Seminole County was delayed this morning by the Board of County Commissioners at request of architect John Burton IV.

Burton told the Board of his problems in discussing the plans with the various department heads and being given the impression all were satisfied, only to learn yesterday afternoon that many had complaints they had not related to him.

"I feel further work sessions should include the County Commission as well as department heads and you, to whom we are responsible," Burton said while assuring the schematics with further revisions will be available next Tuesday for reconsideration.

Meanwhile, Commission Chairman John Alexander expressed "misgivings" as to the size of the new complex. "I feel additional space will be needed," he said.

"To accommodate the department heads, it is obvious more square footage would have to be added. There is simply not enough space as now planned," Burton said while pointing to the additional 2,500 square feet requested by the circuit judges alone. Cost per square foot has been estimated at \$20.

Earlier in the meeting, Alexander and Commissioner W. Lawrence Swafford locked horns over the policy or lack of a set policy as to which county roads will be maintained.

Swafford termed the county's current policy as "rotten" and declared miles of county roads are being improved to serve one or two houses. The district three commissioner suggested the people in Rolling Hills, in particular, are getting little in return for the tax dollars they are paying. "Money ought to be spent where it will serve the most people," he said. "If this Board will not serve the people, the people will get another Board that will."

# Shomate Hearing Set

Arraignments before Peace Justice W. Thomas Lovell on charges of driving without proper license and possession of a handgun were set for Mrs. Onnie R. Shomate, Longwood city clerk, at 1 p.m. Thursday at Lovett's office in Altamonte Springs.

Warrant charging the clerk with the misdemeanor punishable upon conviction with removal or impeachment from office, fine of \$100 and/or 90 days in jail was signed by Assistant State Attorney H. D. Shinn on Jan. 23.

Shortly after the warrant was issued, Mrs. Shomate was arrested by Constable Grady Hall. She posted a bond of \$100 and was released pending the arraignment.

Sanford joined this morning with other union members in striking the Seaboard Coast Line railroad. Pictured are W. J. Tang and W. A. Fletcher picketing the Sanford terminal. Members of other rail unions refused to cross the BRT picket lines.

# T. H. Hennigan New Police Chief

North Orlando Village Council administered official oath of office to a new police chief and gave first reading to an ordinance establishing the community as a bird sanctuary at its monthly meeting Monday night in the village office.

Taking over as police chief, after resignation at last month's meeting of Arthur Devoe, is Thomas H. Hennigan, who will reside at 60 North Cortez Avenue in the village.

The new bird sanctuary ordinance, which has come at suggestion of the North Orlando Garden Club, prohibits the "unimproved" of any property in the village.

FRANK FINCH was No. 1 this morning to submit his quota of memberships in the "one-punch" campaign of the Seminole County Chamber of Commerce. Within an hour of the kick-off breakfast at the Civic Center, Finch turned his cards and checks to Mrs. Georgia Bull at the Chamber offices.

A little goes a long way at

# Kirk Demand Hangs Up Compromise On Schools

WASHINGTON (AP) — Gov. Kirk's demand for a new tax was the main hang-up in a compromise on Florida's school crisis.

The Senate and House passed a compromise bill on Monday, but Kirk's demand for a new tax to pay for the schools' operating costs has hung up the compromise.

Legislators reported Monday that the areas of compromise had been reached by Republicans and Democrats. However, no plan had been agreed upon to satisfy both sides on Kirk's demand that any new taxes be tied to a vote on structural changes.

In the House, some Democrats were trying to gather support for a plan which would put new taxes into effect until July 1, 1969 and create a legislative commission to decide on structural changes.

At least one member of the group admitted privately, however, the plan might draw a veto from the Republican governor because of the lack of a direct referendum on the taxes.

Although opposed to the referendum, several Democratic leaders said they were dissatisfied with the "porkchop" distribution formula the Democratic leadership proposed and did not think the plan had enough structural changes.

"He's not stupid," Rep. Ken Myers, D-Miami, said of the governor regarding the lack of structural changes in the plan. "The plan is a real compromise between a 'rock and a hard place' and a 'porkchop' distribution formula which he said hurts Dade and several other counties."

On the Senate side, almost all of a \$267 million compromise education package was approved by the education committee, prompting Committee Chairman Wilbur Boyd of Palm Beach to declare "We're 90 percent done with our work."

The compromise package was proposed mainly by Democrats, but some Republicans helped. A legislative committee in the House recommended that the cabinet board be abolished.

Lindsay Jones, chairman of the cabinet board, said he would like to see the cabinet board abolished. "This would give legislators the power to create by statute any kind of system to run the schools," he said.

Union officials said their members would be instructed to vote for the plan. "We are not going to be used as strikebreakers," said Nick Chini, division director of the AFL-CIO American Federation of State, County and Municipal Employees. "We will instruct our members not to cross picket lines."

## Hennigan N. Orlando Police Head

ORLANDO (AP) — Police Chief T. H. Hennigan was named to head the Orlando Police Department. Hennigan, 45, was previously chief of the Jacksonville Police Department. He was named to the position by Mayor James G. Thompson.

## NYC Garbage Pile-Up 'Stinking' Problem

NEW YORK (AP) — The Health Department today announced it will have its members remove accumulated garbage in the city's five boroughs. The city sanitation department has ordered the removal of garbage from the streets and the city also provides for the removal of garbage from municipal and voluntary hospitals under "full police protection."

Union officials said their members would be instructed to vote for the plan. "We are not going to be used as strikebreakers," said Nick Chini, division director of the AFL-CIO American Federation of State, County and Municipal Employees. "We will instruct our members not to cross picket lines."

## 2 Hold Up Oviedo's Water Plan

SEMIOLTA COUNTY Chamber of Commerce today warned that invoice-like forms are being received in this area, to induce unsuspecting businessmen to pay for listings on directories they didn't order and don't want.

John Krier, executive manager of the Chamber, said this directory scheme is aimed particularly at company employees responsible for approving invoices for payment and often creates the impression that the solicitation forms represent a renewal of the company's listings or advertisement in the directory. He said he has received reports of such solicitations from several of his members.

Other business, the Council advised, is being misled by the use of a "superboard" provision for a "superboard" to be put into the constitution. "It's free trade legislation," he said.

At the state level, Gov. Claude Kirk's recommendation that the constitution be amended to provide for a "superboard" to be put into the constitution. "It's free trade legislation," he said.

## Sanford Plaza Notes

Sanford Plaza (the Hour Cleaners is now open for business at the shopping center, just two doors from Public Square.)

Set a work session for 4 p.m. to 6 p.m. daily, and until 9 p.m. Friday.

Page Amendments is setting up "rides for all ages" in the Plaza parking lot today. They will be open daily at noon through Sunday.

Concrete floor of the Plaza Theater lobby was completed today.

## Johnson's Travel Tax

WASHINGTON (AP) — Congressional approval of President Johnson's proposed tax on U.S. travelers abroad would create a new mountain of federal red tape.

But Treasury officials said the tax statements can be filled out in advance of the trip since the forms would be available at post offices and through travel agents.

## Mountain Of Red Tape Pictured

WASHINGTON (AP) — The Communist pushed their biggest offensive of the war into its second week today in Saigon and Hue, defying superior allied firepower to slug it out in the devastated streets. At some points, the enemy appeared to be outmaneuvering government troops.

Large sections of Saigon and Hue lay in smoldering ruins, and towering columns of smoke rose into the sunny skies as South Vietnamese dive-bombers, artillery and tanks blasted away at Communist troops in several key areas.

Tens of thousands of terrified civilians streamed from shacks and huts in Saigon with what meager belongings they could carry, swelling the number of refugees to staggering proportions. Already nearly 300,000 people are reported, 80,000 of them in the suburbs, and the total is expected to double or triple when all reports are in.

From the northern sector of South Vietnam came reports of fresh mortar and ground attacks on government district headquarters and army units along a wide arc around Da Nang. Da Nang, South Vietnam's second largest city, was placed on "Alert Two," marking an attack is probable.

# S. Korea Blasts U.S. For Secret Confabs

SEOUL (AP) — South Korea's National Assembly today adopted a sharp resolution against the United States and North Korea on the issue of the U.S. Pueblo and its crew.

The resolution, reflecting widespread Korean dismay at the American attitude in the crisis, insisted that the attack by North Korea on the Pueblo was a "deliberate act of aggression" and that the United States should not stick to diplomatic agreements.

Many in this country feel the Pueblo incident is endangering U.S. relations with its strongest ally in Asia. As one legislator said, "We are disappointed and although it is not a settlement, we are frustrated."

The Pueblo was captured by North Korea on Jan. 23. The ship was taken to North Korea and its crew held captive. The ship was taken to North Korea and its crew held captive.

## Chamber of Commerce Warns Directories Invoice Hoax Being Worked Once Again

SEMIOLTA COUNTY Chamber of Commerce today warned that invoice-like forms are being received in this area, to induce unsuspecting businessmen to pay for listings on directories they didn't order and don't want.

John Krier, executive manager of the Chamber, said this directory scheme is aimed particularly at company employees responsible for approving invoices for payment and often creates the impression that the solicitation forms represent a renewal of the company's listings or advertisement in the directory. # U. S. Pays Foreign Nations To Take Free Food

WASHINGTON (AP) — A Senate subcommittee is preparing to submit four federal agencies to explain why the government adds millions to the dollar drain each year by paying port charges on American goods given to foreign countries.

The Associated Press learned the government was making such payments. Food shipment agreements require that the recipient country make them.

A new GAO report says the U.S. agencies are "still working on the problem of how to identify and disallow charges for freight port charges."

An authoritative estimate pegged the government's payments for port charges on food shipped abroad at \$1.1 million in fiscal 1967 and climbing rapidly. The General Accounting Office, an agency of Congress, began asking three years ago why

country to set a formula for determining these costs.

"We probably have to take a hard stance very quickly," he added.

He said when the program began, it was envisioned food shipments would be in full shipment on charter vessels where port costs have been a major problem. Instead, he said, the vast majority of shipments go in smaller lots as part of other ocean liner cargoes.

Liner tariffs, he said, don't separate port charges from other costs of shipment, thus creating problems of cost allocation.

The General Accounting Office first reported the port charge situation to Congress in 1965 after investigating shipper's books. The GAO estimated that the United States should pay the port charges but changed its mind in July 1966 and set about trying to determine what the charges are.

The first case the GAO reported to aid concerned shipments to Colombia. GAO suggested that AID try to recover port charges. AID replied, according to the latest GAO report, that "a claim should be processed against Colombia because the objective of the foreign aid program in that country would be seriously impaired by the assertion of the claim."

## AARP Plans Drivers' School

DATES for a Defensive Driving School for the DeBary area, under sponsorship of the DeBary Chapter of American Association of Retired Persons, was announced today by the executive board.

The school, which is being conducted in cooperation with the Traffic Division of the National Safety Council, will be held in two hour sessions each Wednesday, Feb. 21-25 and March 6-10. Theodore Edelman will head the team of four instructors trained at a central Florida school in Orlando. Sessions will be from 9:30 until 11:30 a.m. in the Firemen's Recreation Hall.

Those registering are to come to a party, with a view to guaranteeing permanently the security of this country and in particular to deal with any eventuality which may be the result of future North Korean military provocations.

Paul Choisy, chairman of the Foreign Affairs Committee, expressed the view that the United States was employing a "hard place" standard.

South Vietnam, he said, has its own command, while South Korea's forces remain under the U.N. Command. He suggested that private American talks with the North Koreans at Panmunjom were tantamount to shoring up South Korea, on its own territory, from discussions which vitally concern this country.

South Korea has filed an official complaint with the United States, and called home its ambassador in Washington, Kim Dong-jin, for new instructions.

U.S. State Department officials in Washington, meanwhile, said there was no truth to a report by South Korean sources that the body of one of the Pueblo's sailors had been handed over to American officials. AUC Secretary of State Dean Rusk's message reports in the South Korean press that the United States would apologize to North Korea for the Pueblo's alleged "intrusion" into North Korean waters in exchange for the release of the surviving crewmen.

The growing tension between the U.S. and South Korean governments produced the first anti-American demonstration in Seoul in five years. About 30 placard-carrying students from Chungang University paraded outside the U.S. Embassy, demanding the secret U.S.-North Korean talks and urging the United States to "immediately stop its appeasement policy" toward North Korea.

## Boy Held For Killing Schoolmate

MILTON (AP) — A story of a boy held for killing his schoolmate in Milton.

James E. Scoby Jr., 14, was charged with murdering Donna Patricia Donnelly, the two-year-old child of the Whiting Field Naval Air Station — where the fathers of both are enlisted men — and usually rode a schoolbus together to classes in Milton.

Donna was reported missing after school Friday afternoon. Her body was found face down in swamp mud near the Navy field.

Santa Rosa County Sheriff Wade Cobb said young Scoby told him he lured Donna into the swamp by telling her he had money buried there. The sheriff quoted the boy as saying "I was with her, but she struck me" and usually rode a schoolbus together to classes in Milton.

Santa Rosa County Sheriff Wade Cobb said young Scoby told him he lured Donna into the swamp by telling her he had money buried there. The sheriff quoted the boy as saying "I was with her, but she struck me" and usually rode a schoolbus together to classes in Milton.

## CLASS OFFICERS have been elected at Forest Lake Seventh-Day Adventist Academy in Forest City. Freshmen are (from left) David Murphy, president; Jill Blockworth, secretary; Lynn Walters, treasurer; David Duke, sergeant at arms; (back) Miss Dollie Rolla and Clinton Anderson, sponsors, and Barbara Doherty, vice president.

Those wishing to enroll are asked to sign up at the monthly meeting to be held at 10 a.m. Friday in the Firemen's Hall, or to telephone Mrs. Beatrice Hamilton, president, or Ed Edman.

Those completing the full four sessions of the school will be granted a 10 per cent discount on the automobile insurance premiums.

Speaker for Friday's meeting, according to Howard Middleton, program chairman, will be Russell Varney, southeastern regional manager of the American Mutual Insurance Company in Washington, D.C., who will explain the AARP sponsored non-cancellable automobile insurance for retirees. Middleton advised.

## Church School Of Missions Scheduled

BY MARYANN MILLS

Friendship Baptist Church of Altamonte Springs will participate in a school of missions starting Thursday, Rev. Harwood Steele, pastor, announced today.

Programs will be at the church from 7:30 until 9 p.m. Thursday and Friday and at Camp Joy from 7:30 until 9 p.m. Saturday.

Special guest speaker will be William Smith from Brazil. Friday, Mrs. William Mitchell from the Jewish Religious Department, Home Mission Board will speak and the program at Camp Joy will have William T. Moyle from the State Mission Board.

The evening at Camp Joy will be a family night program with a covered dish dinner.

Speaker for Sunday's 8:30 and 11 a.m. worship services at the church will be Dennis E. Elliott from the Thailand Foreign Mission Board.

## Yule Seals 'Over Top'

Seminole County went "over the top" in the purchase of 1967 Christmas seals, according to the Florida Tuberculosis and Respiratory Disease Association.

The county tallied 100.3 per cent in its purchase, \$11,759 in the first 44 days of the sale as compared to \$11,217 for all of 1966.

About three million ounces of platinum are produced annually over the world. Of this amount, Russia accounts for 1.7 million ounces; Canada, 65,000 ounces; and the United States, 30,000 ounces.

## AREA DEATHS

MRS. MAUD LAWRENCE

Mrs. Maud Lawrence, 84, of 3215 Rutland Lane, Sanford, died at 11 a.m. Saturday at Seminole Memorial Hospital.

Born in Ohio, she had lived in Sanford for the past five years.

Survivors are a daughter, Mrs. E. L. Jenkins of Sanford; two brothers, Owen Miller of Warren, Ohio; a sister, Mrs. Ethel Sutton of Warren; and three granddaughters.

Funeral and burial services will take place in Toledo, Ohio, Tuesday.

## FALSE TEETH Cheating Widely

FALSE TEETH Cheating Widely

Increased up to 25% in some areas

It is estimated that more than 25% of the false teeth sold in the United States are of inferior quality. This is due to the fact that many manufacturers are cutting corners to increase their profits.

The quality of false teeth is important because they are used by millions of people. Poor quality teeth can cause discomfort, pain, and even damage to the natural teeth.

Consumers should be aware of the quality of the teeth they are purchasing. They should look for a reputable manufacturer and ask for a guarantee.

## Defense Canals

Sharp, almost indignant reaction by the Canal Authority of the state of Florida to the budget for the Cross-Florida Barge Canal in President Johnson's budget for fiscal 1968 focuses public attention on this greatly delayed project at a time when the unstable climate of international affairs encourages expansion, not curtailment.

A cursory review of history along the wayman to understand that this canal, across a peculiarly peculiarly vulnerable to surface and undersea attack in time of war, is a major defense project. World War II underscored this fact as submarines sunk tankers rounding the Keys keeping millions of gallons of needed fuel from the war effort.

We agree with L. C. Ringhaver, chairman of the canal authority, when he states that the "major \$4.8 million to continue construction work (authorized four years ago) indicates a warning disregard for the national, regional and local values of the Cross-Florida barge canal."

These are, to be sure, hard words and a grave charge. We trust that Mr. Ringhaver will succeed in his expressed object to correct "these unparliamentary budget figures."

Here in Sanford, we are equally disturbed at the lag in action which has retarded the creation of the St. John-India River canal. For this is seen as the closely linked with the defense effort. This waterway would allow inland transport of supplies to and from the space center and the missile complex at Cape Kennedy.

Completion of the Cross-Florida Barge Canal and construction of the St. John-India River canal leading from the St. Johns would, in fact, allow all the materials which stem from inland ports and Texas and are destined for use on Florida's east coast, a route free from undersea attack.

Our United States Senators and the entire Congressional delegation from Florida form the edge of our people in Washington. We entreat their full support for these canal projects.

## Honors Achieved

Members of the Fourth Estate are traditionally skeptical and altogether chary in complimenting on awards to those engaged in the same intriguing, difficult and increasingly complex profession.

We are, nevertheless, moved to comment favorably and with more than superficial approbation on the winning of 10 awards by the Sanford Herald, this is put out at the state prison in Tallahassee as part of its graphic arts training program.

These honors came in categories of writing, editing, content, art and printing production. We are pleased that these awards, such as the Charles C. Clayton Award for the best single journalistic achievement during 1967-68, did show the capacity, willingness and persistence to excel.

Yet it is to the Jacksonville Club of Printing House Craftsmen, acting as an advisory committee for the training which produced these results, that our special thanks must be extended.

The competition is sponsored by the Southern Illinois University's Department of Journalism. There were 735 entries from 50 panel publications in the United States.

This was no mean accomplishment for the men who did it under the overall direction of Superintendent DeWitt Sinclair. It is the kind of national fame that is most welcome.

## James Marlow Says:

### Automobile Insurance Eyed

By JOHN RECKLER (James Marlow who usually writes the column in H.)  
 WASHINGTON (AP)—The process that brought the federal government into the health insurance field has begun to work in automobile insurance, much to the industry's dismay.

Whether the auto insurance people, unlike the doctors, are alert enough to head off the motorist's equivalent of medicare remains to be seen. What seems clear, however, is that one way or another there will be changes in the present system.

Expressions of wide and growing dissatisfaction by the motorist public with the rate and practices of auto insurance companies has been noted by President Johnson in his State of the Union message he called for a government study of the industry.

Johnson, he will bring Congress in his request. Four congressional committees have either announced investigations or are in the process of doing so.

Only half the money paid out in premiums comes back in benefits, they say, adding that federal regulation is far less than they are entitled to in the face of hard bargaining by insurance companies and long delays in paying off.

Two law professors, Robert Keeton of Harvard and Jeffrey E. Keeton of Harvard and Jeffrey O'Connell of the University of Illinois, have devised the sweeping plan which, in essence, would operate like medical insurance. The victim of a traffic mishap would recover his actual medical costs and lost wages up to a fixed amount no matter who was at fault in the accident.

The professors say the present system is appalling, wasteful and remarkably unjust. Only half the money paid out in premiums comes back in benefits, they say, adding that federal regulation is far less than they are entitled to in the face of hard bargaining by insurance companies and long delays in paying off.

They also say that the present system is appalling, wasteful and remarkably unjust. ## Helen Fuller Says:

### Boost For Family Planning

WASHINGTON—The United States is to make a significant new step in helping to limit the number of children the nation will have to feed and clothe and educate in the future.

As the first action since his resignation as Secretary of Health, Education and Welfare, effective next month, John Gardner last week issued an order making family planning a priority program in his department.

Secretary Gardner's action is in line with amendments to the Social Security Act passed by the Congress in 1967. It authorized doubling the federal family planning in this fiscal year. This amount will pay for family planning advice and service to about 220,000 women.

The immediate objective, Mr. Gardner says, "is to extend family planning services to all the deserving and needy women who will not otherwise have access to them."

The new element in the picture is that from now on, the Gardner order and the Congressional amendments, federal policy is "beneficiaries of assistance programs or other money payments should be fully informed of the availability of family planning services."

Whether to do something or nothing about offering birth control information is no longer to be left to the discretion of state welfare officials. In order to qualify for federal funds to help pay for local programs, state health and welfare departments must now include family planning plans for maternal and child health.

This, of course, is what many members of Congress were aiming for when they voted for this major new approach to family planning. In supporting more funds to encourage family planning, the expectation is that information and assistance will reduce the size of families and the number of illegitimate births and so to turn toward spending for direct aid to children in the lowest income families.

The findings of a Ford Foundation study, commissioned by Secretary Gardner two years ago, encouraged Congress to hope for lowered welfare demands in three to five years. The study was highly critical of the priority given family planning to date. Careful research leads the Ford experts to conclude that a million American women or more families want birth control help.

Congress and the Federal Administration have decided that a higher priority is warranted. In a generation or two, the United States can judge the results.

## BERRY'S WORLD

"I wouldn't be surprised if she was wearing fake KNEE CAPS!"

## Crane's Worry Clinic:

By GEORGE W. CRANE  
 CASE E-30: Thelma D., aged 65, is a college grad. "Dr. Crane," she began, "my psychology professor put on a demonstration of hypnosis."

"And I volunteered as a subject. Under hypnosis, he told me that I was in the third grade as he asked me to write my teacher's name on the blackboard."

"Then he told me that I was in the second grade. Again, he asked me to write my teacher's name."

"And when I woke up, I found that my teacher had changed. I wrote my teacher's name in the third grade, I used longhand script."

"But though he didn't ask me to do so, I had printed my teacher's name for the second grade!"

"Why did I do that?" "Well, our memories are classified in part on a time basis. When the usual child in the second grade, it prints its name and other words."

"Under hypnosis, the patient can revert clearly to an early period in the schoolroom. The patient then can give the names of the children seated all around her, or even in the same row, though she may not recall even two or three names while in the normal waking state."

## Letter To The Editor

### Area Sailor Protests Protests

Editor Herald: To start with, you don't know what you don't know, so I feel an introduction might be necessary.

I am a hospital corpsman 2nd class stationed with the 2nd Bn. 3rd Marine in Vietnam.

I am a Navy child who spent his favorite years in Sanford. I moved there in 1966 and lived there until I went in the Navy in 1966.

I have always read your newspaper though I often disagree with what you have to say. I am writing to you because I would like to make a public statement about this country and I feel that you will do your best to publish the truth.

I have subscribed to The Herald since I went in the Navy and the articles that I read about the young "adults" in college protesting have a tendency to make me ill.

This police action, war, or what ever you want to call it, is taking many unnecessary lives, but the guys giving their lives think that they're doing good for their very people. They know that very few people really appreciate their efforts. I know they would think all their efforts were a waste. Well, in my job I see them live and I see them die; I get shot at like everyone else, but I'm a non-combatant. So as far as the unknowning I'm safe.

That's not the way it goes, and the corner the people back there find out the better the guys over here will feel. We believe in what we're doing and we would like to be backed by our folks back home.

Well, Sir, thank you for taking your time to decipher this poor composition. If it is at all possible for you to let the boys, girls, mothers and fathers know that we want to be free, and that's why we want to stay here and win, I would be very thankful.

Again I thank you for your time.  
 Marion Anderson G, HMC, II & A Co. (BAR), 2nd Bn 3rd Marine, PFC San Francisco, Calif. 96602

## 19 Students On Honor Roll At Academy

Nineteen students at Sanford Naval Academy junior school received honor grades at the end of the third six-week period. Three Sanford students received honor grades.

John Osher, a seventh grader from Mattland, and Michael Kasprun, an eighth grader from Daytona Beach, received all As.

Seventeen students received a B average. They are: Sixth grade—Dennis Brestette, Orlando; Dermott Dessert, De Land; Stephen Lane, Mattland; Michael O'Higgins, Sanford.

Seventh grade—Brent Crabb, Tampa; Curtis Crawford, Lake Mary; Brian Gerhardt, Altamont Springs; William Moore, Ormond Beach; William Smith, Hollywood; Mike Smorowski, Sanford; Tim Yukanovich, Mattland; Tim German, Quebec, Canada.

Eight grade—Douglas Hall, Rock North Palm Beach; Mark Hanes, Edgewater, Orlando; Jeff Kiddy, Sanford and John Stefanak, Winter Park.

## World Almanac Facts

There were 11,223 local governments in the United States at the beginning of 1967, a decrease of almost 10,000 since 1962, reports The World Almanac. The decrease came mainly in the number of school districts, which dropped from 24,678 in 1962 to 21,708 in 1967. This reduction of over one-third was predominantly the result of widespread school reorganization and consolidation for reasons of efficiency.

## Double Ring Rites Unite Miss Cameron, J.B. Wilson

By MARYANN HILES

Miss Angela Dawn Cameron, daughter of Mr. and Mrs. Robert Cameron, of Forest City, and John B. Wilson, son of Mr. and Mrs. Edgar L. Wilson, of Orlando, were united in Holy Matrimony, Jan. 27, at 2 p.m. at St. Mary Magdalene Catholic Church, Altamonte Springs.

Father David Page officiated at the double ring ceremony.

The bride, given in marriage by her father, chose for her wedding vows a formal gown of antique white. The modified bell sleeves were edged in lace and the bodice was accented with a belt which fastened in the front of the Empire style gown with a blue bow. She carried a cascade of white gladioli.

Mrs. Jerry Blankenship, sister of the bride, was matron of honor. Bridesmaids were Miss Julie Rigby and Miss Kathi Reno. Their mint green floor length gowns, highlighted by an Empire waist and they carried bouquets of pink flowers.

Mrs. Jerry Rigby, a close friend of the family, made the bride's gown and the attendants' dresses.

John Grady Jr. served as best man. Ushers were Jerry Blankenship and Thomas Pratt. Mrs. Cameron chose for her daughter's wedding a three-piece white suit with pale pink accessories.

Mrs. Wilson, mother of the groom, chose a pale blue dress with matching accessories.

Following the ceremony, a reception was held at the home of the bride's parents on Lake Brantley Road, Kissimmee.

For her going away outfit, Mrs. Wilson chose a tasteful silver sheath with green accessories. Following their wedding trip the newlyweds will make their home on Lake View Drive, Forest City.

Out of town guests included Mrs. Marie Zonetti, an aunt of the bride, Mrs. E. Zonetti, grandmother of the bride, and Mrs. John A. Bos, grandmother of the groom.

## Solon Paints Massive War Danger

MIAMI (AP) — U.S. Sen. Wayne Morse said Monday night that there is a danger of a massive war starting on the mainland of Asia.

The Oregon Democrat said "The American people are being subjected to the rapid development of a foreign policy controlled by an American military establishment which is not controlled by the people, they should let us know if we are headed into a massive world war, on the mainland of Asia from which no victors will emerge."

"I am satisfied the United States will never be allowed to maintain a military foothold in Asia," Morse said. "And why should they allow us to? Every other power has learned that lesson."

"I had we are approaching to have to sacrifice thousands and thousands of lives to learn a lesson history has already taught us if we had only learned," he told a news conference.

Morse spoke at a dinner for the combined Jewish Appeal and Israel Emergency Fund. He charged that the United States encourages war by supplying military aid to dictators.

"The immorality of our military aid program is well illustrated by our military aid to Greece and Turkey," Morse told the dinner audience.

"If Greece and Turkey go to war, they will go to war against each other 100 per cent equipped on each side by American military equipment. Our aid for such a military course of action is that Greece and Turkey could be of help to us in our war against Russia. This is unrealistic militarism," he declared.

"If the United States goes to war with Russia, it will not be a conventional war but a nuclear one. Greece and Turkey will then be completely dependent for protection under our nuclear umbrella, and all of our conventional military aid to Greece and Turkey will then be recognized for what it has always been—a waste of American taxpayer dollars."

Morse referred to Republicans as "those hawks," and said former Vice President Richard M. Nixon — who is seeking the GOP presidential nomination — "The hawk, whose name is Dutch for 'earth pig,' spends his days in burrows while he digs himself."

GRENOBLE, France (AP) — The 10th Winter Olympics opened today with French President Charles de Gaulle holding center stage and one of America's brightest medal hopes sidelined by a tragic mis-

hap on the last day of practice. Robin Morley of Santa Monica, Calif., broke her right leg practicing for the women's downhill competition Monday. A decision was expected today on possible surgery for the 20-year-old skier.

There were other minor scrapes and scratches as contestants finished their preparation for the games where athletes from all over the world appear each other every four years.

President De Gaulle presided over colorful opening ceremonies in a 60,000 seat stadium built for the games. This community was overflowing with some 1,500 Olympic athletes.

There was a light state today with just three hockey games scheduled. The opening ceremony—a spectacular production on which local officials had worked for months dominated the day's activities.

There were the predictable last-minute squabbles Monday with Russian team officials complaining American wrist for what the Soviets called U.S. aggression in Vietnam and the International Ski Federation clashing with Avery Brundage, president of the International Olympic Committee.

The federation, in a last-minute change, ruled that skiers would be allowed to wear ski displaying manufacturer's names.

Brundage, a firm believer in protecting the amateurism of the games, bristled at the decision and called for a meeting Monday of the 10-man executive board to discuss the problem.

There was the possibility that unless the federation changed its mind, the IOC would rule all skiing events world championships instead of considering them part of the Olympics. In world championship competition, manufacturer's names are permitted on the skis.

ST. LOUIS (AP) — A St. Louis woman was \$67,355 richer for awhile.

Mrs. Raymond Goebel, who had \$100 in a saving account, pushed into the bank one day recently and deposited \$10 in her account—number 67,355.

"I had my 3-year-old daughter take me and I was in a rush," she said, so I did not look at the passbook. When I took a look later, I nearly fell off my chair."

The book indicated her balance was \$67,355. The account number and the balance had become confused.

Chippewa Trust Co. and Mrs. Goebel discovered the mistake about the same time.

"They said it was the first time it had happened," she said, adding, "I was fun, though, being rich for awhile."

The system of Pitman shorthand was invented in 1837; Gregg shorthand was first introduced in 1888.

Hastings district: Cabbage — Demand Fair At Lower Prices, Market Weak. Domestic round type, 14-bushel crates, medium size \$2.75. Few poorer lower.

Calery — Demand Moderate. Market Steady. 16-inch crates, Pascal type, 2 & 2 1/2 dozen \$3.25, 3 dozen \$3.40. 20 dozen \$4.75. 24 dozen \$5.10. 24 dozen \$5.10. 24 dozen \$5.10. 24 dozen \$5.10.

2-Headed Calf Poses Problem ARGONIA, Kan. (AP) — The Arthur Drouhard family has a double feeding problem since the birth of a two-headed calf last week.

The heads are joined at the forehead, there are two sets of eyes, two noses, and two mouths.

The Drouhards are bottle-feeding the calf, which seems to do better with two bottles at once.

Who Needs A Change? WINCHESTER, Ky. (AP) — Mrs. Gale Price has strong ideas about the kind of woman she wants to be.

From the time she was six months old until she married in 1944 she lived on Wheeler Avenue across from Jacobs School in Louisville.

After her marriage, she moved here into a house on Wheeler Avenue—across from a school.

Betty Scott Honored At Surprise Farewell Fete

Betty Scott, past president of the NVAHS Enlisted Wives Club, was guest of honor at a surprise farewell coffee at the home of Barbara Brachman, recently. Betty is heading for Pensacola.

Club members presented her with a large beautifully wrapped gift. When she started to open it she found another wrapped package inside and as she continued trying to reach the gift package after packages appeared. When she finally reached the real gift she was elated to find two silver charms. One was a BAK brand and the other was a die with a palm tree and pearl oyster with the letter "B" engraved on the back.

As Betty admired the charms, the hostess read an original poem, explaining that the "B"

stood for LOYALTY, LAUGHTER, LIGHTHEARTEDNESS and LOVE. The group will miss her and wished her much luck in future endeavors.

Those present to bid her farewell were Mrs. Kitty O'Garra, Mrs. Maria Fay, Carolyn Clifton, Carol Jimenez, Nettie Phillips, Mac Briggs, Janet Johnson, Linda Thomas, Virginia Starna, Helene Pratt, Virginia James and Piyella Emory.

If you are using an old-fashioned waffle iron that has no heat indicator, you can test the iron to see whether it is the right cooking temperature. Just place a piece of white typewriter paper between the grids of the heated iron; when the paper turns a light brown color the heat should be right.

CHERYL Weldon and Jack Hunt.

ning in an after-five velvet frock enhanced with a white orchid corsage.

TO BEN BUTLER — It was a great feeling to know that the entire floor wasn't live! It up Saturday night. Two of your officers were maintaining law and order outside the Civic Center and I saw two more patrolling West First Street.

Like I said, everybody was having a ball and the latest craze dances scored a terrific hit as did the popular steps of yesterday. Seen on the crowded dance floor were city manager, PETE KNOWLES, and CHARLOTTE and Clerk of Court, ARTHUR BECKWITH and ZONA.

At a nearby table, and enjoying every minute of it, were DORIS and JOHN BURTON.

TO BEN BUTLER — There were some cutlers cutting coppers, too!

Back to fashions — many of the new square-toed, squatty heeled shoes were worn to the ball by Missy. Don't knock 'em, girls. All you've tried 'em. They are really comfortable and fun to run in. They are the fave of the fave, and you can even dance better in them.

TO BEN BUTLER — Last time I called for assistance from your department, one of your faithful servants informed me I would have to call the Sheriff's Department, since I live in the county. PLEASE remember that!

Also arriving in top form were Police Capt. and Mrs. EARL BOURQUARDE. Brunette MARTHA was positively stunning in an after-five velvet frock enhanced with a white orchid corsage.

## Dear Abby: By Abigail Van Buren

DEAR ABBY: What does a wife do when she's just practically all communication with her husband? Our children have left the nest and live out of state.

My husband has done very well financially, and I must admit he has been extremely good to me and the children—but our lives seem so empty now.

He comes home from the office at 8:30, has one Scotch and soda, then he eats his dinner. After that he busies his nose in the Wall Street Journal, Barrons, or some other dull publication. Then if he doesn't watch television, he reads some more.

We rarely talk. He tells me he spends his time talking to people all day (he's a stock broker) and when he gets home he's all talked out. We're not old. I'm 37 and he's 35. Any suggestions?

DEAR MARGE: Yes, bury your nose in the Wall Street Journal, Barrons, or some other publication before he gets home, and come up on all the financial news. Then humor him, pamper him, baby him, pet him and flatter him. And if that doesn't work, when he gets to 65—well!

DEAR ABBY: Please let parents of youngsters who are taking piano lessons for violin, or any other musical instrument that no matter how the kid HATES it, not to let him quit.

DEAR HOLDING OUT: Tell a man you "love" him in order to trick him into telling you he loves you. (If it's not sincere, who needs it?) Yes, five seconds is long enough to hold a kiss with a man who is only "fond" of you. (P.S. With reference to your unmarried girl friend, I wouldn't accept coaching from someone who has never made the team.)

DEAR MISSED THE BOAT: You're leaving every day. I don't know your age, but if you're young enough to read this letter, you can learn to play the piano. If you're still not too lazy, that is.

DEAR ABBY: I have been going with this very eligible gentleman for about six months. My problem is that I am not making very good progress.

For instance, he has never said, "I love you." He says, "I am very fond of you."

We're not kids, Abby. I am

## Jacoby On Bridge

Victor Mollo's list of immortals includes all six members of Italy's blue team. Today's hand shows Massimo D'Alieo and Camillo Pabst-Tietel reaching a fine slam by using their "Arno" system. There is a general belief in this country that the Italian team plays an Italian system. This is not the actual case. There are three Italian players. They represent, the Arno, Roman and Neapolitan systems.

In the Arno system, the trump response is forcing to game, and South's two diamond rebid shows that he has an unbalanced hand with at least five diamonds and probably more diamonds than hearts. With six hearts and four diamonds, he would either open one diamond or not show diamonds at all.

Since the one no-trump was a game force and the three diamond an unbalanced hand with good diamond support, D'Alieo's four heart bid showed the top

## Polly's Pointers

DEAR POLLY—Our large circulating fan had never been oiled as I cannot take it apart nor can I reach the oil holes with our oil can. It occurred to me that I might try putting a drop of oil on a knitting needle. After several attempts, I succeeded in getting the noisy fan oiled and quieted. To make sure there was a enough oil on it I also tried putting a drop of oil in the slot of a long Phillips screw driver and this served the purpose even better. Perhaps a little dryer oil on the end of the knitting needle would hold the oil longer while trying to reach the oil hole which cannot be reached with an ordinary oil can spoon.

MRS. E. L. T. DEAR POLLY—Do you or

## Beauty after Forty

A delightful book by Marjorie Holmes has caught my attention. It's titled "Love and Laughter," a perfect little one. The collection of stories has the warm, human touch so dear to the hearts of women. Marjorie Holmes has taught writing and has written some very successful novels, many magazine articles and a daily column in the Evening Star, Washington, D. C. I like her pet stories very much. They give full indication of her warm heart. With a successful husband, two sons and two daughters, this after-40 career woman still finds time to write and put her heart into stories which give a lift for any time of day and for many winters.

A salute to Marjorie Holmes for having written "Love and Laughter."

GET HUSBY! Now is the time to go through your clothes closet and select what you can wear this coming spring. Or grab your jewelry and see what you know is wrong for you and what you know you'll never wear.

THE FAIRY GODMOTHER—AGAIN I hope that my readers will remember a recent column I did about a young woman and her "Fairy Godmother." Now the Fairy Godmother has found financial gain by crisscrossing the most beautiful baby thing. I

## Horoscope Forecast

WEDNESDAY, FEB. 7, 1966  
 GENERAL TENDENCIES:  
 Until mid-afternoon poor judgment is apt to be expressed by most persons and it will be doublecheck whatever you plan to do before putting in motion. However, the latter afternoon and evening find you make to make some real progress toward your cherished and long-time ambitions.

# SALUTING THE BOY SCOUTS OF AMERICA ON THEIR 58th ANNIVERSARY

"I suppose every boy wants to help his country in some way or other. There is a way by which he can do so easily, and that is by becoming a Boy Scout."

Scouting has become increasingly more important to the future of our country. This is one reason why the Scout movement aims for a high standard of citizenship, character and physical fitness. In the program there is a strong emphasis on training for citizenship. Every boy must learn respect for the flag, loyalty to country, and an appreciation of our American heritage. We salute the Scouts and the great work they are doing in making better citizens.

Baden-Powell

**A SCOUT IS TRUSTWORTHY**

He is to be trusted. He remembers the Scout oath, his duty to God and country, his duty to help other people at all times, his duty to keep himself physically strong, mentally alert, and morally straight.

**Chase & Company**  
Transfer & Storage  
SINCE 1904

**A SCOUT IS LOYAL**

He is loyal to all whom loyalty is due, his Scout leader, his home and parents, his country. He shows respect to grown-ups, to the flag and helps in community projects.

**A. J. LOSSING**  
Transfer & Storage  
601 East Third Sanford, Fla.

**A SCOUT IS HELPFUL**

He must be prepared at any time to save a life, help injured persons, and share in his home duties. He must do at least one Good Turn for somebody every day.

**FLORIDA STATE BANK**  
Member F.D.I.C.  
"Serving You to Our Finest"

**A SCOUT IS FRIENDLY**

He is a friend to all and a brother to every other Scout. He meets people with a sincere smile on his face and an outstretched hand. His friendliness is contagious.

**CHARLES KAMPF**  
KAMPF TITLE and ESTATE CO.  
Title Changes - Title Insurance - Survey Service

AVOCADO TREE planted years ago is all that remains as two buildings were razed to make way for a park beautification program at First and Sanford (left)

Sanford's progress is marked by a new Park and Shop appliance store going in at First and Magdolna (center). An extension of North Oak Avenue, be-

tween Commercial and Fulton Street, is nearing completion (right). (Herald Photos)

It is beginning to appear that Sanford leaders are working at cross purposes in the matter of acquiring the Sanford Naval Air Station property when the Navy moves out in about four months. Don Rathel, director of the city-financed Sanford Industrial Commission, had a hand in Gov. Claude Kirk calling a conference for last Jan. 30 here in Sanford, when the Chief Executive was to detail plans for General Electric to establish a training school here. City commissioners prevailed on the Governor to cancel the acquisition of title (for a dollar or so) had been completed. Seems the Democratic administration in Washington doesn't want the Sanford city administration playing footsie with the Republican administration in Tallahassee. Now this morning comes into R. E. Porter's hands a letter signed by Rathel telling of a meeting "arranged in Tallahassee on Feb. 13 at 9:30 a.m. in the office of the Governor... to brief the area people on the proposed skilled training center." GE and the Governor's staff are to make the presentation. (But the letter does not say the "proposed skilled training center" at Sanford Naval Air Station.)

## Seaboard RR Cancels Passenger Service

Passenger service was suspended today by Seaboard Coast Line Railroad between Florida and New York City pending developments in the strike of trainmen. Pickets still were on hand at the Sanford depot and when those trains began service to and from New York was curtailed but three passenger trains were operated by supervisory personnel. When those trains reach their destinations today, all passenger service halts indefinitely. W. Thomas Rice, Seaboard president, called for a presidential emergency board to investigate the dispute, with employees returning to work during the probe. The Brotherhood of Railroad Trainmen walked off their jobs on the Seaboard early Tuesday, following a walkout a few hours earlier on the Missouri Pacific. They protested notices filed by Seaboard asserting the right of the company to determine how many men are necessary to operate a train. The issue was decided temporarily by arbitration in 1961. Since then, a Seaboard spokesman said, the union wants to turn the clock back and increase train crews to what they were before the arbitration decision. C. Jordan of Florence, S. C., BRT general chairman for members on the Atlantic Coast Line Railroad, now merged with Seaboard Air Line Railroad in Seaboard Coast Line, said the line posted notices at 2 a. m. Tuesday that train crews would be reduced. The strike followed within two hours and picket lines were set up at many crew points. Seaboard issued a statement saying its proposal that the company have the right to determine the number of men it needed on its road and switch. A company spokesman said he had no idea how many of the 21,000 Seaboard employees were observing picket lines. After the strike started, MOPAC posted notices saying the company has the right to determine the size of crews. Harry Hammer, a public relations officer for MOPAC, said he understood these other railroads posted similar notices: Seaboard, Boston & Maine, Chesapeake & Ohio, Union Pacific, Southern & Gulf, and the Mobile & Ohio.

### Rinehart Rd. Gets Push

The "quickest, most expedient method" to start the roll rolling for construction of Rinehart Road to the proposed new General Dynamics plant was taken by the Board of County Commissioners yesterday with adoption of a resolution calling for borrowing of \$500,000 from the state trust fund for the project. The plan, according to the resolution, is to be repaid out of gasoline tax at the rate of four equal installments over four years of \$75,000 each at 4 1/2 percent interest. Agreements, however, as expressed by Commissioners W. Lawrence Swoford, Edward Yarborough and Robert Parker is that the funds will eventually be repaid out of the road bond issue to be floated by the county, probably immediately following receipt of the feasibility study of the Lake Jesup Causeway. Swoford warned that if the costs of Rinehart are not included in the bond issue, the entire road program for the county could be jeopardized. In other business, the Board accepted the bids of Wall Supply for \$1,074.15 and \$189.17 and A. D. Hostler for \$392.12 for materials for the county recreational facilities and rejected two other bids when it was determined materials in these two instances could be purchased at a better price on the open market. Approved rezoning on 15 acres on West First Street near the Florida Power and Light Company yards from agricultural and commercial to industrial. Reasoned from industrial to residential 7.5 acres north of Lake Mobile and west of SR 427.

### Allocation Of Space Criticized

Proposed allocation for the county clerk's office in the new courthouse as well as the two-unit concept for the new facility came under criticism of County Clerk Arthur Beckwith Jr. today. "Basically the design as outlined... fails to allow smooth office operation for the office of Clerk of Circuit Court," Beckwith said. Primary problem involved is the absence of a sizable storage area for records, the clerk insisted. "This design provides for enough storage space but it will be two floors away from the office. This would make it mandatory that a clerk be hired to do nothing but work between the two floors securing and returning files. "I am of the opinion," Beckwith stated, "that the property being considered for this construction could be better utilized with construction of a one-building multi-storied unit providing a floor or two for expansion. The needs for Clerk's office oriented functions are too great to have them divided as is indicated. There appears to be no solution in this arrangement as presently suggested."

### Schools Confab Slated

The Seminole County Board of Public Instruction has officially changed its regular meeting time to 3 p. m. and will convene for the first time at that hour tomorrow at the School Administration Building in order to accommodate teachers who are interested in attending the meetings. In addition to the normal items on the agenda, the members will hear the Junior College Advisory Committee report; receive bids on audio-visual equipment, and discuss graduation date for high schools; purchase of physical education equipment for Seminole High School, and entering a state pool for purchase of equipment so that the school system can have self inspection of its own transportation department.

### Fire Control District Eeyed

Creation of a new fire control district in South Seminole County to serve the Zayre Shopping Center, Jai-Alai Fronton, Inland Hills, Lakewood Shores and that area south of SR 436 and east of 17-92 to the county line was discussed by the Board of County Commissioners Tuesday and referred to district Commissioner Richard Parker for investigation and report at the next meeting. Commissioner W. Lawrence Swoford brought the matter to the attention of the Board with report he had been approached by area residents and property owners requesting such a district be created. Presently that area has no formal agreement for fire protection with any organized department except for Zayre's which has contracted with the City of Altamonte Springs for the service. Parker was authorized to check mechanics necessary for placing the matter on the ballot either during the primaries or the general election and to talk with area residents on the matter. In other business, the Board referred to Parker request of the City of Longwood as relayed by Councilman H. A. Scott for participation in improving the west side of Marvin Avenue. Took no action on request of the Brotherhood Union that the Commission oppose discontinuance of passenger night service between Jacksonville and Tampa during public hearings of the Public Service Commission. Approved payment of a bill from the county attorney to residential 7.5 acres north of Lake Mobile and west of SR 427.

### Officer Rescues Woman

Eva Mae Collier, 37, was pulled from a burning house last night by Patrolman Gary Swain. Patrolman Swain was making a routine patrol on West 13th Street at approximately 10:30 p. m. when he spotted flames shooting out of the back of a house at 822 West 13th. "I got out of my patrol car and several people standing around were yelling that someone was inside the house," Swain said. "I went into the house but couldn't see anything for the smoke so I was feeling around. I was assisted by Mrs. Collier lying on the bed." Swain pulled her out of the bed and to the door where she was assisted by Officers John Moore and Ronald Getman. An unidentified man also assisted with the rescue. The fire department arrived and put out the fire. However, the house was completely gutted.

### SISTER Meets

SISTER will meet at the Florida State Bank at 7:30 p. m. tomorrow. All women who have attended any past meetings are urged to be present as well as all who are interested in the project of rejuvenation of Downtown Sanford.

## Fitzpatrick Lambasts Solons

Tallahassee with Rep. E. Pope Bassett, secretary of the delegation, said that four alternatives had been offered by the delegation. They would leave current legislation as 2 amendments local legislation to put them in it, 3. place regulating of utilities with 25 to 300 connections under the Board and larger companies under FPSC or 4. place all regulating under the Board of County Commissioners. The Commission chose the fourth alternative, but not without complaint. Commission Chairman John Alexander declared. "Johnson was instructed to prepare the legislation immediately, rather than dumping the pro-
