COOLIDGE AND SHOALS BILL ARE ATTACKED

SENATE TO VOTE ON POSTAL BILL NOT LATER JAN. 6

President Informs Senate Leaders at White House His Desire—That His Vote Be Sustained; 33 Votes Needed

WASHINGTON, Dec. 18.—While President Coolidge continued Wednesday his efforts to prevent the overriding of his veto of the postal pay increase bill by the Senate, that body entered into an unanimous consent agreement for a vote on the veto not later than Jan. 6.

Calling a number of Republican Senate leaders to the White House the Executive again informed them of his desire that the veto be sustained, because any other action in advance of the enactment of a revenue measure to take care of the pay raise would interfere with the policy of his administration and continue what he regards as a harmful practice of leaving to the future the matter of providing for present authorized expenditures.

Study Increased Rates After these leaders had visited the White House, renewed efforts were made to get a unanimous consent agreement for Senate action. Immediately after the agreement had been entered into, the administration measure increasing postal rates on all except letter mail was referred to the post-office committee with a view to hearings and action during the Christmas holidays.

Some administration leaders are of the opinion that there will be a sufficient number of Senators in accord with the President's program to sustain his veto. 33 votes would be necessary to accomplish this result provided all Senators were present and voting.

Vote on a bill which would permit the postmaster general to contract with private aviation firms for carrying the air mail was delayed by parliamentary tactics but proponents said they expected it would be brought up Thursday.

Bill Is Opposed Representative Griffin, Democrat, New York, speaking in opposition to the bill, declared that government should not surrender the carrying of mail through the air to private concerns, after spending millions of dollars on aviation.

The bill supporters explained that the employment of privately owned air routes was proposed to supplement the transcontinental government lines.

At the time the Senate was sending the pay raise bill to committee a companion measure was introduced in the House of Representatives by Paige, Republican, Massachusetts, who was chairman of the subcommittee which reported the pay increase measure. This went to the Post Office Committee and the purpose is to name subcommittees of this and the Senate committee to conduct joint public hearings at which all parties interested would be given opportunity to appear.

While some leaders profess confidence that both the pay increase and the rate raising measures can be enacted at this session, a number of Senators are less optimistic. They have charged on the floor that the plan to delay action on the pay bill until the other can be brought out is only an effort at killing the pay measure.

Prominent Miamian Is Shot By Negro Today

MIAMI, Dec. 18.—Milton M. Hall, platform superintendent of the Southern Utilities Co., was shot and killed this morning by Charles Roberts, a discharged negro employee who is being sought. Ed Roberts, brother of the slayer, was fatally shot by a posse as he emerged from his house with a revolver.

New Jap Phones To Be Earthquake Proof

SIEMENSTADT, Germany, Dec. 18.—The Japanese government has ordered 2,000 automatic telephones from a manufacturer of this city. They are to be installed at Yokohama to replace the equipment destroyed by the earthquake. The new apparatus will be equipped with a device for insuring the service against earthquake disturbances.

Norris Accuses President Of Overriding Will Senate Committee and Trying to Solve Shoals on the Mayflower

Underwood Defends Bill and Coolidge Declares Shoals Legislation Should in No Case Be Regarded as Political Measure

WASHINGTON, Dec. 18.—President Coolidge and the Underwood bill were attacked and defended in the Senate Wednesday, during debate on the Muscle Shoals issue. He accused the President of overriding the will of the Senate agriculture committee which reported the Norris government ownership bill, and of attempting to solve the Muscle Shoals problem with "midnight conferences on the Mayflower."

Replying to the charges, Senator Underwood, Democrat, Alabama, author of the government ownership of leasing bill pending as a substitute for the Norris measure, declared Muscle Shoals legislation should not be regarded as a political measure, and he was glad that he and the President were in accord on the question.

Coolidge Observing Custom. He declared the President was observing custom when he made known his attitude on the Muscle Shoals question in his message to Congress, and accused Senator Norris of being a follower of populist principles in advocating government instead of private operation.

Senator Underwood, also charged that an organized filibuster to prevent action of the Muscle Shoals bill" was in progress and warned the Senate that unless some bill was passed and sent to the House for passage before Mar. 4, the water would be allowed to go over the spillways and property worth \$2,000,000 would be dead to the world.

Senate leaders having succeeded in getting an agreement on the vote for postal increase bill, and plan tomorrow to attempt with re- energy to have a time set for a vote on Muscle Shoals legislation with the understanding if necessary, that it could be changed in conference to meet any serious objections.

Eliminate No. 3 Dam Clause. Senator Underwood conceded to objections in the Senate Wednesday by obtaining unanimous consent to strike out section nine of his bill, which authorized the construction of Dam No. 3. He declared the section was immaterial to the bill and in view of objections from Senators Howell, Republican, Nebraska, and Walsh, Democrat, Montana, he agreed to eliminate the clause.

Although an amendment by Senator Walsh was before the Senate, little reference was made to it during the day and it did not come to a vote. The amendment would provide for government regulation of Muscle Shoals power if states did not regulate the rates.

Senator Fess, Republican, Ohio, said he would vote for the Underwood bill, because he saw nothing dangerous in it, and was opposed to government operation. Opening debate, Senator Norris declared he realized that the skills had been greased" and the "steamer-roller" brought up to defeat his Muscle Shoals bill.

He compared Muscle Shoals to a "great ship with the American flag swinging at the mast with the Coolidge Republicans tugging away at the oars and heading it straight into Wall Street."

Giving both President Coolidge and Senator Underwood credit for their honesty, he declared "it seems the inevitable conclusion will be that if this bill is enacted it will be known as the rape of the Treasury."

Washington News

WASHINGTON, Dec. 18.—Secretary Hoover before the house commerce committee, approved plans for a bureau of civil air navigation. Secretary Wilbur ordered a court of inquiry to investigate unauthorized and publicity of naval information.

The senate agreed to vote Jan. 6 on overriding President Coolidge's veto of the postal pay increase bill. Thomas H. Rossbottom, manager of the United States lines, testified before the house shipping board investigating committee. Brigadier General William B. Mitchell of the army air service testified before the house aircraft investigating committee.

Held for Sweetheart's Death

Stanley Curtis, 10 (left), of Gloucester, N. J., is being held in the county jail at Camden, N. J., charged with the murder of his sweetheart, Betty Ross, also 10.

PROHIBITIONISTS COLD WAVE STILL USE ROUGH HOUSE HAS NORTHWEST METHODS IN RAID IN SEVERE GRIP

Mrs. Yancauskas Testifies Blackjacks Were Used on Her Husband, That Bottles Flew and She Was Hurt

PHILADELPHIA, Dec. 18.—Alleged "rough house" methods of three prohibition agents during a liquor raid, which is declared to have resulted in the death of Peter Yancauskas, a saloon keeper, were described by the victim's wife in federal district court here Wednesday at the trial of James Lasher one of the agents, on a charge of murder in connection with the case.

Mrs. Yancauskas testified that blackjacks were used on her husband, that Asher, who is known as the "Lone Wolf" threw a bottle at him while he was struggling with the other prohibition agents and that she herself was thrown out of the saloon and later knocked down by Asher.

The case was removed from the state courts because Asher is a federal agent. The prosecution is being conducted by the commonwealth of Pennsylvania and Asher is being defended by the Federal district attorney.

During the raid in April 1923, Asher is alleged to have kicked Yancauskas in the stomach several times after having knocked him down and the commonwealth contends that the saloon keeper died two months later from peritonitis which developed from the beating.

Punctuating the testimony with sobs, Mrs. Yancauskas, said she was behind the bar when the three men came in. Asher rushed behind the bar, she declared, and tried to seize a pitcher he believed contained liquor.

"I asked him who he was," said the witness, "but he did not answer. I tried to prevent him from taking anything from the place and in the struggle he knocked over several glasses which broke on the floor. My husband, who was telephoning at the end of the bar heard the noise and rushed to my assistance. He was seized by the two other men while Asher dragged me from behind the bar, threw me out of the door and put me in an automobile."

Mrs. Yancauskas identified the men who had seized her husband as Francis V. Hertzog and Davis Erskine who with Asher and James Fine, a deputy U. S. Marshal went to the saloon to serve a warrant on her husband. She said she had seen Erskine hit the saloon keeper on the head with a blackjack.

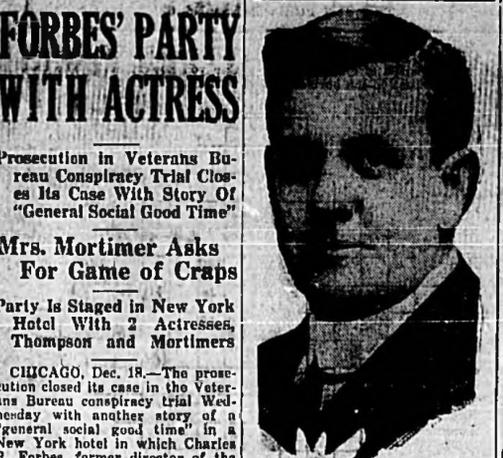

Mayor Traces Growth Of Sanford In Address Before Junior Chamber

The remarkable growth of Sanford during the past 25 years was traced by Mayor Forrest Lake in an address before the Junior Chamber of Commerce at its weekly luncheon Thursday when he came before that body to congratulate it upon what he chose to describe as "its hearty participation in the civic affairs of this city, which has contributed materially to the advancement of Sanford and Seminole county."

The necessity for active work among the younger men of this city, was pointed out by the mayor, who declared that the junior trade body is filling a long felt need in the development of Sanford. That it has contributed greatly to the increased interest shown in civic affairs was his declaration and he praised the club for having secured a baseball club to train here next spring.

In tracing the growth of the city Mayor Lake described Sanford in the early nineties as having "no paved streets and boasting nice saloons." For some time following the freeze, he said, there was not much inclination toward progress until just a few years ago when more interest was suddenly manifested by the citizens.

STORY IS TOLD FORBES' PARTY WITH ACTRESS

Prosecution in Veterans Bureau Conspiracy Trial Closes Its Case With Story Of "General Social Good Time" Mrs. Mortimer Asks For Game of Craps Party is Staged in New York Hotel With 2 Actresses, Thompson and Mortimers

CHICAGO, Dec. 18.—The prosecution closed its case in the Veterans Bureau conspiracy trial Wednesday with another story of a "general social good time" in a New York hotel in which Charles R. Forbes, former director of the bureau, J. W. Thompson, contractor, Elias H. Mortimer, Thompson's agent, Mrs. Mortimer and two New York actresses participated.

"Refreshments were served and then Mrs. Mortimer proposed a craps game," McGill Connor, a clerk in the bureau and the last government witness said.

Identifies Larrimore Girls The actresses he identified from the witness stand as the "Larrimore girls, sisters." Mrs. Francine Larrimore had been mentioned by previous witnesses as having been a member of a party by the same group at Atlantic City, N. J., a few weeks later.

Connor testified he recognized in the hotel room, about the middle of May, 1922, both defendants as well as the government's chief witness, the latter's wife and the woman guests. He said he had been summoned to New York from Washington by Forbes, whom he believed wished to consult him concerning Veterans Bureau routine.

Forbes Leaves Early The defense developed on cross-examination that Forbes left the suite about 4 o'clock in the afternoon to catch a train to Ohio to inspect a hospital site, but that the good time continued for some hours.

Defense motions for an instructed verdict of not guilty, entered at the close of the government's case, were denied by Federal Judge George A. Carpenter, as were later motions for the elimination of certain portions of the testimony of Mortimer. The defense then began the presentation of evidence calling to the stand Miss Augusta Landis, a clerk in the bureau under Forbes, who told of the circumstances under which the bid of the Pontiac Construction company, a Thompson concern, was received at the bureau close to the time limit set in the public advertisements for Northampton hospital bids.

Pontiac Bid Entered Late? The Northampton foundation job, which went to the Pontiac company on a bid of \$27,000 higher than that of the Northwestern Construction company of New York, was the central transaction about which the government sought to establish evidence of conspiracy, corruption and collusion in the awarding of hospital contracts during Forbes' administration. It had been intimated by previous witnesses, representing competitive bidders for the foundation, that the Pontiac bid was entered after the time specified in the advertisements.

Miss Landis testified Wednesday that the bid lay on her desk for two days before it was turned over to the proper official of the bureau on July 5, two days after the date set for opening the bids. She identified an affidavit to the officer in charge at the time, setting forth the circumstances which delayed the bid at her desk.

James Easby-Smith, counsel for Forbes, brought out that Miss Landis had been in Chicago two weeks under a government subpoena without ever having been called to the stand.

Orlando Officials Will Meet With Commission

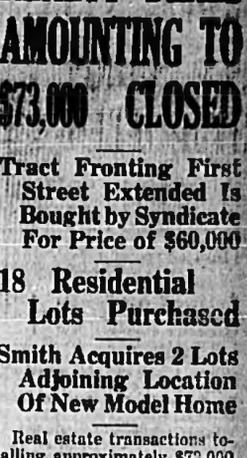

Members of the Orlando City Commission together with other city officials and prominent business men who will represent the Chamber of Commerce of that city, will confer with the commissioners of Sanford and other officials Friday afternoon, at the offices of the local body for the purpose of investigating the methods used in carrying out the street paving program here during the past few months.

This announcement was made Thursday by R. W. Pearson, secretary, who stated that the conference will begin at 3 o'clock. That Orlando may adopt the system now in use here is likely to be the outcome of tomorrow's session, it is declared.

Marx Is Authorized Make Final Canvass

BERLIN, Dec. 18.—President Ebert this morning consulted Chancellor Marx and authorized him to make a final canvass of the parliamentary situation in last attempt to form a ministry to command the necessary majority in the Reichstag. The summons follows the failure of the Stresemann contract to straighten out the socialist cabinet.

REALTY DEALS AMOUNTING TO \$73,000 CLOSED

Tract Fronting First Street Extended Is Bought by Syndicate For Price of \$60,000

18 Residential Lots Purchased Smith Acquires 2 Lots Adjoining Location Of New Model Home

Real estate transactions totalling approximately \$73,000 have been consummated during the past few days by A. P. Connelly & Sons, according to an announcement given out Thursday by A. P. Connelly, senior member of the firm.

The deals include the purchase of a strip of land fronting on Sauford Avenue and the proposed extension of East First Street by a group of business men headed by W. M. Scott for the reported consideration of \$60,000; the sale of two lots on Palmetto Avenue to W. W. C. Smith for \$3,000 and the acquisition of 18 lots south of Pine Heights on Park Avenue by Walter Connelly and Calvin Teague for the sum of approximately \$10,000.

Regarding the purchase of the property which is located at Sauford Avenue and East First Street extended, Mr. Connelly stated that the buyers plan a big development on the site which may take the form of a large building. Definite plans, however, will be given out in a short time, it was announced.

This transaction was made possible, Mr. Connelly pointed out, by the recent purchase by the City Commission of the property at the foot of First Street from W. W. C. Smith for the purpose of making provision for the extension of First Street. The transaction, he further pointed out is but a fore-runner of a number of other deals which are now being negotiated.

The purchase of the two lots on Palmetto Avenue by Mr. Smith is the nucleus of a tract within the near future of a handsome home, it was announced. This property adjoins the lot upon which the new Model Home is being erected. The 18 lots bought by Mr. Connelly and Mr. Teague are declared among the most desirable sections included in the city. The purchase was made by Mr. Connelly and six others acquired from J. H. Harkey. The deal clears the way for the extension of Park Avenue to the cemetery road, it is declared.

A general optimistic note was sounded by Mr. Connelly regarding the future of Sanford while speaking in connection with three transactions. Faith that this city has before it as bright a future as any in the state of its size, was expressed by Mr. Connelly who reiterated that Sanford is just beginning to grow.

That the large number of realty transactions during the past few months are good indications that Sanford is booming, is the assertion of Mr. Connelly, who feels that despite the fact there is considerable activity in the field, there is no inflation of values, a fact that should be the boast of every citizen of Sanford.

Bill Mann Is Cut Off By His Mother's Will

ELIZABETH, N. J., Dec. 18.—William G. Mann, II, New Orleans, was cut off from an estimated \$750,000 fortune by the will of his mother by adoption, Mrs. Emma Mann Vyne of Summit, a daughter of the late Col. Wm. D. Mann, publisher of Town Topics in New York. The will filed in probate here creates funds for the Arthur Home for Blind Babies at Summit and \$500 is left to each of her servants.

Thousands of Deer Starve in Forests

FLAGSTAFF, Ariz., Dec. 13.—Efforts to relieve the plight of thousands of head of deer starving in Kaibab National Forest met with failure last night when George McCormick, veteran hunter, conceded the futility of the attempt of the cowboys to drive the herd across the Grand Canyon of the Colorado river.

Broker Is Killed By Wounds From Bullets

NEW YORK, Dec. 18.—Samuel Lieber, died Thursday of bullet wounds received on Dec. 8 when he and his brother were shot in a Times Square office. The brother died the day after the shooting.

Markets. CHICAGO, Dec. 18.—Wheat: May 1.71 1/4 to 1.72; July 1.48 1/4 to 1.49 1/4; Corn: May 1.29 1/4 to 1.29 3/4; Oats: 64 to 64 1/4.

VARSITY TEAM IN BASKETBALL FOR W.C. IS CHOSEN

Mathematical Count Necessary to Pick Team; Two Sanford Girls Are Awarded Class Numerals

FLORIDA STATE COLLEGE FOR WOMEN, Dec. 17.—A strict mathematical count taken during the past few days, the big game on Saturday night and several try-out games, followed by a continuing juggling of figures was necessary for the athletic committee before a determination of selections for the varsity basketball team for this season. The young women were judged for their team playing and accuracy in handling the ball, and the contests for each position on the team were close. Especially was this true for jumping and running centers where the variance was by so small a margin that the only choice was to give an "F" to both contestants.

The Varsity as announced by Myra Burr, vice-president of the athletic association, was as follows: Forwards: Hazel Flowers, Orlando, 85.05 per cent; Ethel Tucker, Gainesville, 83.34 per cent; Lucile Reece, Tallahassee, 81.9 per cent; Annie MacKay, Ocala, 84.6 per cent; Jumping Center, Alice Marsh, Orlando, 88.9 per cent; Ellen Pepper, Gainesville, 85 per cent; Running Center, Mabel Lytle, Ocala, 81.9 per cent; Gladys Rush, Ocala, 81.54 per cent.

Prior to the varsity announcement, Mabel Lytle, president of the athletic association, gave class numerals, each of the following receiving a gold number on a garnet background. Basketball: Katherine Primo, Melina Phillips, Mabel Lytle, Gladys Vaughn, Lucile Reece, Louisa Verri, 25; Elizabeth Harwood, Mae White, Mary Lou Perkins, Christine Close, Anne Jenkins, Annalee Stenstrom, Pearl Santa, Cornelia Decker, 17; Margaret Wells, Dorothy Armstrong, Myra Burr, Vera Maldrim, Margaret Warr, Iris Storrs, 26; Hazel Flowers, Emma Spencer, Ethel Tucker, Alice Marsh, Ellen Pepper, Gladys Rush, Maud Lake, Dempsey Creary, 28. Volley Ball: Evelyn Weeler, Wilma Watson, Vera Brenda, Ada Louise Simpson, Christine Tompkins, Evelyn Mudge, 25; Ellen McConnell, Viola Everett, Rachael Smith, Marion Cotch, Eloise Davis, Margaret Monroe, 27; Evelyn Keck, Miriam Harvey, Lucy Lang, Mary Pringle, Dorothy Miller, Elizabeth Jordan, 26; Mary Varbrough, Adel Gibson, Alice Collins, Dorothy Fuller, Miriam Smith, American Gonzalez, 28. The foregoing received class numerals by making the class team either in basketball, volley ball, soccer or hockey.

Berlin Aims Hard Blow At City Wireless Fans

BERLIN, Dec. 17.—Aviators flying over Berlin report that the numberless radio antennae over the houses of the city give it the appearance of a huge spider web. In the early morning hours the wires, stretching endlessly from roof to roof, shine brightly with their coverings of frost. Seemingly harmless, and adding to the pleasure of radio fans, these wires have, however, created a serious problem. The chimney sweeps have protested that they interfere with their business, and in this they are supported by the men who repair roofs. Nor do the landlords like aerial lead-ins. As a result of these various objections, a city ordinance has been passed to the effect that all radio equipment over roofs within the city limits must come down, and no more may be erected.

EFFORT FAILS TO GET VOTE ON POSTAL BILL

Continued on page 8. into Saturday by which debate Tuesday was to be limited to 10 minutes by any one senator. The bill was applied only to the Muncie Shoals question. Senator McKelvey, Democrat, Tennessee, appealed from chair ruled that the agreement had this decision. The appeal itself then was taken by Senator Sterling as opening unrestricted debate and he proceeded to hold the floor until the conclusion of the "morning hour" automatically displaced the postal bill. Under the Sterling bill, rates would be increased on third class matter so as to yield about \$18,000,000 more each year and on fourth class matter to increase the income by \$12,000,000, while \$12,500,000 would be sought from postal cards and miscellaneous first class mail, \$10,876,000 from second class, including newspapers, and \$14,161,000 from insured and c. o. d. mail. Chairman Sterling expressed the hope that hearings might be started at once before the sub-committee which, he said, would be appointed as soon as the senate authorized reference of the bill.

On account of lack of real practice the athletic board did not this year choose a whole varsity team for volley ball. However, Evelyn Keck and Alice Collins made volley ball varsity, receiving their "F" for superiority in this game. They have the honor of being the first two to win "F's" in volley ball. The end of the basketball and volley ball season brings eight new members of the "F" Club to the front: Gladys Rush, Hazel Flowers, Annie MacKay, Alice Marsh, Ethel Tucker, Ellen Pepper, Evelyn Keck and Alice Collins.

Grain Measuring In The Orient To Be Taken With A Grain Salt

LIKE a miser who knows the weight of his coins by the "feel" the baker in the Orient measures out the portion of grain for each loaf by the "feel". It comes for a grain matter to him probably consider it an extra good measure. This method of measuring is far too wasteful and uncertain to be used in the immense modern bakeries in America, such as the Warrington Baking Company, which is the largest flour mill company in America. In the "assembly room" a portion of which is shown in the small picture, the materials which have been carefully tested and selected for quality and purity are sent to the mill. The flour is especially picked for its ability to make a fine-grained loaf. Every loaf which comes oven-fresh to the grocer, is accordingly, an exact duplicate of the rest of the batch.

The picture shows the shortening, the milk, sugar, salt and yeast assembled ready for a batch of fine bread. The flour and water for the batch are weighed in the automatic electric controlled scales. The flour is especially picked for its ability to make a fine-grained loaf. Every loaf which comes oven-fresh to the grocer, is accordingly, an exact duplicate of the rest of the batch.

OPPOSITION TO GERMAN COMMERCIAL TREATY

WASHINGTON, Dec. 17.—So strong is the opposition to the German commercial treaty developed in the senate foreign committee that a sub-committee was named to see Hughes with a view to modifications.

THAW INDICTMENTS ARE DISMISSED

NEW YORK, Dec. 17.—Three indictments charging Harry K. Thaw with assault, kidnapping and conspiracy in the Benjamin Gump case.

Good Weather Favors Sugar In Porto Rico

SAN JUAN, Porto Rico, Dec. 17.—The largest sugar crop in Porto Rico's history is predicted for the season soon to begin by Commissioner of Agriculture Carlos Chardon, who anticipates a harvest of from 522,000 to 535,000 short tons. The largest crop the island ever produced was 503,000 tons in 1917. Last year's crop was 478,000 tons. Commissioner Chardon gives as reasons for the probable increased output favorable weather conditions during the growing season, extension of cane plantings, better selection of varieties of cane yielding high percentages of sugar, and the planting of varieties resistant to cane diseases.

Americans Restore Old Library At Louvain

LOUVAIN, Belgium, Dec. 17.—Thanks to American munificence, the restoration of the library of Louvain University, destroyed in the war, is making excellent progress. One wing of the new library building has just been completed.

English Takes Place of Spanish In Big College

MANILA, Dec. 17.—Santa Tomas University, the oldest college under the American flag, has decided upon the use of the English language in all classes instead of Spanish, according to an announcement by Father Manuel Arellano, rector of the institution. The change is to be made early in the coming year, when the university will move to larger quarters. The college of engineering is wholly under English instruction at present, and several other departments also are using English. The university also has decided to admit women to all departments. The college of pharmacy was thrown open to women last June, and the success of the departure has caused the trustees of the institution to admit women to departments, including physics, engineering, astronomy, philosophy, and theology, in its new building.

2 Veterans Die In Dormitory

EAUVOIR, Miss., Dec. 17.—Two Confederate veterans died in a dormitory in the Jefferson Hotel here early today. The victims were Maudie Twenty were asleep in the building when the fire started. Volunteers fought through the smoke and saved the veterans to safety. The bodies could not be reached as charred bodies were found.

HAPPENINGS ALONG AUTOMOBILE ROAD

CLOSED MODELS INCREASE SALES WALTHALL SAYS

Local Dealer for Hudson and Essex Cars Has Record Breaking Sales During The Past Twelve Months

The stampede to coaches is greatly stimulating Hudson-Essex business, according to W. E. Walthall, Hudson-Essex dealer, whose organization is just closing a record-breaking year of business with 75 per cent of its whole volume in enclosed cars.

The recent reductions in the prices of Hudson and Essex coaches to positions actually below open car cost, plus the ability of his organization to deliver coaches promptly, have been vital factors, he said, in maintaining a consistently strong sales volume in the late fall season.

"The remarkable rise in popularity of the coach," he declared, "is an undeniable proof of the leadership of the Hudson-Essex organization. Concerns which once scoffed at the coach are now straining every nerve to build one. The man in the street sees in this the finest proof of all compliments to Hudson-Essex. When he thinks of a coach he thinks of Hudson-Essex. He remembers that Hudson-Essex has had the experience of building 180,000 of them.

"Hudson-Essex coaches came out just three years ago. The first Essex coach cost \$600 more than the present one, and the Hudson coach \$450 more than the present one. Gradually the coach prices diminished as volume increased, until now we have the unprecedented condition of both these enclosed cars selling at prices less than the open ones on the same chassis. Hudson-Essex alone has accomplished that.

"This is a truly marvelous instance of the manner in which quality has been substantially raised while prices to the consumer were drastically cut.

"It is astounding to me to see and hear the ever-increasing interest in coaches. I really hear very little else in the conversation of automobile men and the purchasers of motor cars. The wave of this public preference has gradually been piling higher and higher. Now it is sweeping all before it.

NOTICE

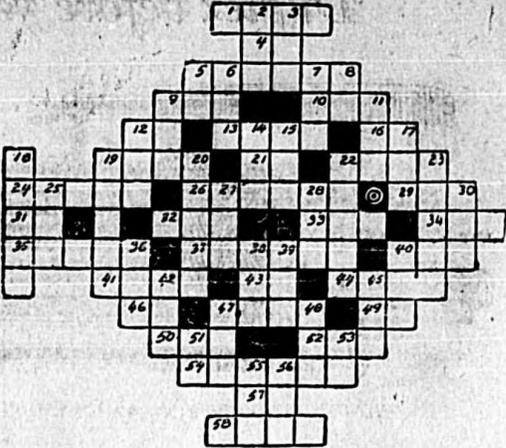

All city licenses not paid by January 1st, will be turned over to the chief of police for collection.

How to solve it

Every number indicates the beginning of a word—if horizontal, crosswise, until the first shaded stop to the right; if vertical, downwards until the first shaded stop below. Compare the synonyms in the appended lists to the spaces in the diagrams and fill in the words you know. These will give you clues to the more difficult words. When completed the words should interlock perfectly.

SCHOOL CHRISTMAS HOLIDAYS

All schools, both white and colored, city and rural, will close for the Christmas holidays Friday afternoon, Dec. 19, and will reopen Monday morning, Jan. 5, 1925. T. W. Lawton, Supt.

Cleveland Six Wins Hill Climbing Record Tests Recently In California

Battling against time on a tortuous, steep mountain grade and displaying the most spectacular driving ever witnessed on the Pacific Coast, Ralph Mulford in a Cleveland Six touring car shattered the stock car speed record on Mount Wilson the other morning by covering the nine and one-half miles of mountain road in 24 minutes 47.04 seconds.

In breaking the former record of 25 minutes 48.85 seconds, held by Ralph de Palma in a newly introduced, widely advertised six, the Cleveland car, entered by the W. P. Herbert Company, of Los Angeles, not only clipped one minute and one second from the old mark, but it gained possession of the famous Los Angeles Evening Express permanent challenge trophy for the strictly stock car making the fastest time up the Mt. Wilson grade.

To achieve the sensational feat the Cleveland uncorked a world of power, speed and endurance in sizzling up the winding, twisting mountain course, which rises from an elevation of 1250 feet at the lower toll gate to 5886 feet at the summit, and Mulford at the wheel called upon his fund of driving experience and daring to make every

fraction of a second count.

Mulford was sent from the base of the mountain by John W. Swallow of the Evening Express at 7 o'clock, and instantly the split second watches of the timers at the summit began clicking. Several hundred speed enthusiasts gave a wild cheer as the Cleveland shot over the road, disappearing for several moments into Eaton canyon and then roared its way along the shelf in the mountain. He was then lost to view of the spectators at the starting point.

At the mile high summit another big crowd of enthusiasts scanned the ribbon of highway far below for the first glimpse of the Cleveland. Minutes seemed like hours to the expectant crowd, for De Palma's mark was a hard one to shoot at, and as each minute slipped by the Cleveland's chances of cracking the record lessened.

Suddenly there swished around a sharp turn half way down the mountain the little black car, only to again be lost in trees and canyon.

Occasionally the power roar of the car would be echoed, and the watchers intensified in their observation of the next point where the car would come into view.

NEW METHOD HEALS PYORRHEA

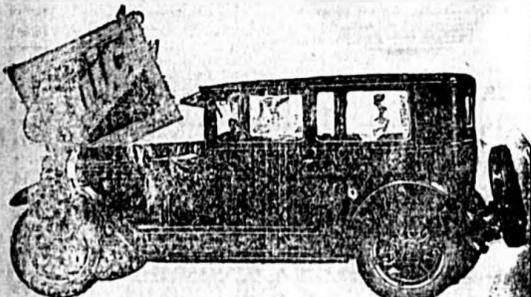

Ten Year Bad Case Completely Healed in a Short Time Writes Florida Woman.

Faced with the loss of her teeth after 10 years' suffering, Mrs. M. J. Travis, an esteemed resident of Jacksonville, declares she finally saved her teeth by a simple home treatment: "worth its weight in gold," using her own words: "After having pyorrhea for 10 years my mouth is now healed. Before I found out differently, I was told there was no relief and had yielded to the loss of six fine solid teeth. Then I discovered Moore's pyorrhea treatment. Three days after starting its use, the soreness left my gums; my teeth began to tighten. Now my teeth are clean, my breath sweet, and my mouth completely healed."

The experience of Mrs. Travis is duplicated in hundreds of other cases. If you have pyorrhea—or threatened with pyorrhea—your teeth are in danger. Quick and effective treatment is necessary. You can test, without money risk, the treatment used by Mrs. Travis. Simply write the Moreland Co., 391 Gateway Station, Kansas City, Mo. Under their guarantee of refund send two dollars. Or pay postman the \$2 with few cents postage. Use the treatment 7 days. Then if you are not wholly satisfied write to that effect and your \$2 will be returned at once.

FIERY, ITCHY SKIN QUICKLY SOOTHED WITH SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough and dry. Nothing soothes fiery skin eruptions so quickly, says a noted skin specialist. The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up. A small jar of Rowles Mentho-Sulphur may be had at any good drug store. —Adv.

DODGE BROTHERS ANNOUNCE CUT IN PASSENGER CARS

Especially Sharp Reductions In Closed Car Models And Substantial Cut In Other Models; Big Year Predicted

Announcement of a reduction in the prices of all Dodge Brothers passenger cars was received Thursday by I. W. Phillips Sons, local Dodge Brothers Dealers.

The reductions are especially sharp on the closed types. The Type A Sedan, for example, on which the list price was formerly \$1385, is now \$1245. The Type B Sedan, which formerly sold for \$1200, f. o. b. Detroit, is now listed at \$1095. There is also a reduction from \$1055 to \$995 in the list price of the Business Coupe. Dodge Brothers Roadster, under the new price, will sell for \$855 and the Touring Car for \$885.

The announcement from Dodge Brothers also carried the information that balloon tires are standard equipment on all passenger cars. New prices on Special Type cars are as follows:

- Special Roadster \$ 955.00
- Special Touring 985.00
- Special B Coupe 1095.00
- Special B Sedan 1195.00
- Special A Sedan 1330.00

The special types carry such extra equipment as nicked radiator shell, motorometer, front and rear bumpers, body stripe, steel disc wheels, scuff plates, cowl lights, and five balloon tires.

Announcement of these reductions provoked endless discussion throughout the entire industry. The year 1924 has been the most successful in Dodge Brothers history and it is now evident that the factory is determined to establish an even more enviable record in 1925. Obviously, the market for Dodge Brothers Motor Cars will be broadened immeasurably by the lower prices, particularly the closed car types.

Substantial improvements in the appearance, riding comfort and other important details of construction and design, plus the car's long standing reputation for dependable performance, were responsible for the greatly accelerated demand during 1924. For a number of months production was maintained consistently at a rate close to 1000 cars per day.

Advertisement in Florida

Thousands and thousands of people are coming to Florida this winter...

In view of these facts the problem which should confront Sanford citizens...

Miami for years has been spending thousands of dollars, advertising its climate...

Sanford of course cannot afford to inaugurate at the present time an advertising campaign...

Among those who have heard of Miami and have not heard of Sanford...

Where do they go and what do they do? When your son or daughter joins...

Why not tell them about it? Why not a cooperative scheme of advertising between the Chamber of Commerce...

Why not some Sanford real estate office boost its development in out of town papers...

Automobiles and Dangers, Again

Where do they go and what do they do? When your son or daughter joins...

There is recurrence just now of criticism of the automobile as a danger to the nation's morality...

Most of the comments, too, agree with Professor Thomas that other dangers besides interference with college work...

The automobile is a waste of time and money. It encourages loafing and the taking of frequent and unnecessary trips...

The physical danger of a car involves more than ordinary physical danger. A half-dozen students crowded in a machine intended for two or three...

There is moral danger in the car. Whatever of drinking and stealing and immorality exists among the college students is largely in connection with the automobile...

"With perhaps is no more irresponsible now than it has always been, but the automobile is an added temptation to moral irresponsibility."

And what is to be done about it? The right kind of university forbids students, at least students under the senior or perhaps the Junior class, to bring automobiles...

Mr. New Would Destroy Newspapers

ASHEVILLE, CITIZEN

If the postal employees are to have better pay, Postmaster-General New is determined that all classes of mail except letter shall force the bill...

Mr. New's proposal means placing the major burden on second class mail newspaper and periodicals...

Mr. New's proposal means placing the major burden on second class mail newspaper and periodicals...

Mr. New's proposal means placing the major burden on second class mail newspaper and periodicals...

As Brisbane Sees It

Peace in Sleepy Hollow Muscle Shoals Again

THE SLEEPY HOLLOW CEMETARY AT TARRYTOWN, NEW YORK, NOT FAR FROM THE GRAVE OF ANDREW CARNEGIE.

The much talked of "community of interests" and "unity" between capital and labor become real in the graveyard.

On earth, in the sunshine, equality of capital and labor is not yet really. Labor is labor with worry and uncertainty attached to it usually.

BUT CONDITIONS are better than they were. When Samuel Gompers' body was taken to its railroad station...

WORKMEN INCLUDE some not entirely free from race and religious prejudices. They are invited to remember that the powerful labor unions of the United States...

PRESIDENT COOLIDGE, you may be sure, will view with amusement the attempt to hand a Tappan dome scandal to his administration.

Gentlemen trying to turn over the power and unlimited possibilities of Muscle Shoals to a private company...

THE FIRST STEP in the business of making Muscle Shoals a dividend producing plant for the General Electric or some other company consisted in discouraging...

Now comes the second step, Senator Underwood, of course, does not suspect it. He is an ingenious statesman of high calibre and able to do anything he sets his mind to.

But that is exactly what his Muscle Shoals bill would do, if it went through.

THE PRESIDENT being informed, it is GO THROUGHT. Compunctious men in the Senate that understand the value of water power and also the devious methods of corporate...

AN EXCITED dispatch from Berlin tells that American bankers are supplying funds for the reconstruction of the city...

WHEN A scientist looks on an atom of pure gold, counts the electrons that revolve around the nucleus and realizes dimly the unalterable power, knowledge and precision involved in a single atom...

There is in this universe a marvelous balance, supplying to this little earth, and to distant stars, whose substance is analyzed by the spectroscopic elements...

WISE NATURE won't permit man to decide in advance the sex of an unborn child. To do so, would produce too many boys and too few girls.

ATTEMPTS, to do so, of course, will produce useful results. What ever man does he learns something.

AHA! THIS COMPLICATES MATTERS CONSIDERABLY

PRACTICAL PRISON PROGRAM

The unflinching comparison of the penal system in Georgia with that in Alabama, by Superior Court Judge W. V. Custer, at Waycross this week, is interesting to say the least.

Last summer those interested in revising our State prison system with a view to greater economy and efficiency not only in the prison department itself but in other departments of the State Government, did not take us very much notice of the legislature.

So, last Summer, the forces on the State interested in practical business improvement in penal affairs stepped aside for concrete investigation and examination of facts as they are.

There are few things more disagreeable to the forwarding attitude of the American people when someone in this country tells us that we are not doing as well as we ought to do in some particular line.

It is a recent project. The visitor is a representative of the broken Bonaparte aristocracy, a discredited relic of a line of royalty that never had any very good claim to originally on force.

Christmas Club Checks

SEMINOLE County Bank

Are You Supplying Your Fair Share?

What one thing does the world need most today—apart, that is, from that all-inclusive thing we call righteousness? Aren't you inclined to agree with the poet that what this old world needs is "just the art of being kind?"

Don't these lines sum up, briefly, yet comprehensively, what the world needs today?

A little more kindness and a little less greed; A little more giving and a little less greed; A little more smile and a little less frown; A little less kicking a man when he's down; A little more "wo" and a little less "woo"; A little more laugh and a little less cry; A little more flowers on the path and a little less mud; A little more giving and a little less greed.

We congratulate those who had the foresight to plan to prepare for Christmas by joining our Christmas Club.

We invite the citizens of Sanford and Seminole County to join our Christmas Club for the year 1924 and get the habit of saving a little each week.

Social Calendar

Monday: The South Side Parent-Teachers Association holds interesting meeting.

Tuesday: The Daves plan some more than some. Will they be enough to keep us in a merry mood?

Wednesday: Search for a new "New Year's" party for him to get into town.

Thursday: Bandit got some \$2,000.00. Did he get enough to keep us in a merry mood?

Friday: The Daves plan some more than some. Will they be enough to keep us in a merry mood?

Saturday: In Hollywood, they movie star is married and refuses to say. Perhaps he'll remember.

Sunday: Coolidge is looking for a watch company over in Detroit. He might try to buy one.

Monday: Calculate news is terrible. It has a lot of things that are not just plain bad.

Tuesday: One great evil of the holiday craze is a man can't run his shop.

Wednesday: Detroit men who stay out late at night are not so smart.

Thursday: HOLD HAZARD! Hold! Ladies will hold all night at the Miller building.

Friday: ANNOUNCEMENT: The Pan-Hellenic Association is having Christmas on Saturday.

Saturday: Roy Chittenden motored to Jacksonville Wednesday on business.

Sunday: Dan Kurley of Jacksonville is spending a few days in Sanford.

Monday: E. H. Parker has returned from a short business trip in the east.

Tuesday: Mrs. Lewis O'Bryan of Kinston was the guest of friends in Sanford Wednesday.

Wednesday: Mrs. D. T. Philby of Galenville is the guest of her parents, Mr. and Mrs. W. A. Zachary.

Thursday: David Manley of Orlando was the guest of Mr. and Mrs. F. G. Gonzalez Wednesday.

Friday: Mr. Nell Williams was the guest of Mrs. R. R. White in Ovidio Wednesday.

Saturday: Mr. Hessie A. Brown left Wednesday for Clearwater where she will spend the winter.

Sunday: Mr. F. H. Wharton and Mrs. A. S. Barbour of Daytona Beach were in Sanford Wednesday shopping in Sanford.

Monday: Mr. and Mrs. E. F. Lane, Mr. and Mrs. W. M. Thigpen and Miss Love Turner spent the day in Daytona Beach recently.

Tuesday: E. S. Stanley who has been in Sanford in the interest of the Florida Circus, for the past two weeks, left Wednesday for West Palm Beach.

PARENT-TEACHERS ASSOCIATION HOLDS INTERESTING MEETING

The South Side Parent-Teachers Association held an interesting meeting on Wednesday afternoon...

A Christmas play given by the third grade under the direction of Miss G. G. Foster was very successful.

Mrs. Miller Entertains Fortnightly Club

Mrs. Frank Miller entertained most charmingly at the Fortnightly Bridge Club and extra guests Wednesday afternoon in her apartment in the Welles building.

Red robes were beautifully used in decorating. Mrs. H. B. Lewis was the winner of high score among the club members and Mrs. Samuel Puleston of the guests, each were presented a lovely little vase.

Those present were: Mrs. H. B. Lewis, Mrs. D. L. Thrasher, Mrs. George A. De Cotes, Mrs. George D. Blich, Mrs. Hal Wight, Mrs. W. J. Thigpen, Mrs. A. P. Connelly, Mrs. C. E. Henry, Mrs. Samuel Puleston, Mrs. F. G. Gonzalez, Mrs. Harry E. Bowdell and Mrs. E. P. Kountz.

Dr. and Mrs. John Herby left Wednesday for Daytona, O. after a visit with their daughter, Mrs. Mary Haines. They will return after the holidays to remain for the winter.

Dr. and Mrs. Carpenter leave Friday morning for Palatka where they will make their first Christmas. Dr. Carpenter having been assigned to the post office at Palatka, Fla. at the church a large group of friends gathered in the church and greeted Dr. and Mrs. Carpenter with songs upon their departure.

Late in the evening a pleasing surprise party was given by a number of the ladies of the church. The evening ended with songs and the good wishes of the members to Dr. and Mrs. Carpenter in their future field of work.

Phone 216. Corner 1st St. and Palmetto Ave.

In the Year 1890

With an original capital of \$25,000 the Pilot Life Insurance Company (then the Southern Life and Trust Company) had its beginning.

In 1903

a Life Insurance department was added, making it necessary to divorce the branches of the business previously engaged in.

This was accomplished by incorporating each of them separately, thus leaving the Pilot Life Insurance Company a strictly Life Insurance Company, but the holding company of the stocks of several other successful corporations.

The subsidiary companies have been very profitable and these stocks have increased steadily in value.

The Result

has been a periodic increase in the original capital, from its surplus earnings, until now it amounts to more than \$1,000,000.

The Consistent Policy

of the Company has been, that it is not big business that counts, not how much business—but, what you have to show for it.

Notwithstanding a uniformly conservative policy, the Company has in twenty years built up a Life Insurance Business of over Fifty Million Dollars.
