"It's Easy To Pay The MATHER Way"

203-09 East 1st St. **Mather** OF SANFORD Phone 27

SOBBING WILDLY, Mrs. Ada Jones is comforted in a Chico, Cal., courtroom by a friend after she had pummeled Mrs. Lydia Crandall during the arraignment on murder charges of Albert Jones, 14, her son. The outburst began when Mrs. Crandall, mother of slain Patricia Crandall, 15, asked the youth, "Why did you kill my daughter?" Mrs. Jones forced Mrs. Crandall against a wall and punched her. (International)

Business Of Fishing For Sharks Is All In Days Work For Brothers

MCCLELLANSVILLE, S. C.—The shark business is booming in McClellansville. The Day brothers — Leland and Leslie — revived the industry recently and now have four boats operating in local waters. They report that 20 to 30 sharks, ranging in length from four to 12 feet, are hauled in daily by the several thousand feet of chains which serve as lines.

The brothers, who came here from Moorehead City, N. C., use almost everything about the shark except his various chagrins. The livers are salted in drums and sold to a milk company, which extracts vitamin A to enrich its product. The fins are soaked in brine, dried in the sun and sold as food. Orinals are used in making soap stock. The fresh meat is cut into steaks and sold locally, and demand exceeds supply. The hides are cured and sold as hatting.

The shark fishing industry began in the United States when the cod fish supply from Norway was cut off by the war. Shark teeth were found to be rich in oil, and the industry flourished so, and the western shores have already been almost fished out. But the Atlantic Coast is virgin territory for fishermen, because sharks have been breeding there unimpeded for generations.

The local catch is expected to reach its height during the shrimping season, as schools of sharks appear at that time to follow the boats. The sharks don't eat the shrimp, it seems, but they like the fish that do.

Statue Of "Sea Urchin Takes Sorry Beating"

BALTIMORE — Venus de Milo was lucky she only had her arm wrenched off. If any statue has been so completely "beaten" as the "Sea Urchin," a diminutive figure of a small boy, which has adorned Baltimore's Grand Washington Square for 20 punishing years.

It is an ancient bronze by a Baltimore sculptor, the late Edward Herge. An anonymous donor presented the statue to the city in 1926 and it has been the object of verbal and physical brickbats ever since.

The first attack came from a school of art-lovers, who pooped on the urchin's marble merita. A second group consisted of the urchin's position as near to the city's mass grave and protest movement to tear it down. The first ever.

A third group argued the urchin's sex in open debate and then proceeded to denigrate whether it was a boy or a girl, although the general opinion now is that the urchin is a boy. Stat owners turned stoungly to the dictionary and said that although an urchin is a mischievous little boy, it is a "sea urchin" — a misnomer with a variously shaped shell bearing numerous spines.

When the verbal lashings finally ceased, the physical abuse began. Escapades of a Statue Here's the sad chronology: 1932 — The statue was stolen and was missing for three days. Damage: A body twisted arm. 1934 — Smeared from head to foot with a can of red paint. 1935 — Stolen again. Damages: A fractured back, cracked shoulders, minor abrasions, contusions and lacerations. 1943 — Vandals again inflicted injuries. 1944 — Wrested from its base, twisted and broken — almost irreparable. 1945 — City officials threw up the towel. The urchin was removed to a warehouse for the duration. 1946 — Park Director, H. Brooke Maxwell decided a little reluctantly to give the urchin — or perhaps the city — another chance.

Things looked encouraging for awhile. Trysters were observed passing pennies to the urchin as good luck tokens. The more optimistic speculated that maybe after 20 years — the urchin would achieve a measure of popularity. They were wrong.

The pennies are now being outnumbered by scraps of paper, slugs, cigarette butts — even a dead fish one day.

The urchin just can't win.

Nazi U-Boat Pens Defy Destruction In Bergen Harbor

AP Newsfeatures **BERGEN, Norway**—The Nazis built a "monument" to Nazism in Bergen harbor that probably will remain intact to vex Norwegians for some time to come. It's the massive U-boat shelter which neither allied bombing nor sabotage could more than shake.

Erected strategically near the entrance to one of the two hill-bordered harbors, the massive pens were devised to provide maximum protection to submarines and crews.

Six pens extending out into deep water of the channel are covered with more than 20 feet of reinforced concrete. The heaviest bombs dropped directly on the top did little more than scuff the surface.

A banana crop may be harvested here in 14 months after planting. America's first trans-isthmian railway was built in Panama, spanning the 50-mile isthmus.

Science Takes Bugs Out Of Insecticides

MASSAPEQUA, N. Y.—It's bad news for bugs, but a group of scientists are finding out in field tests here just what size drop of insecticide is the most lethal bomb for American crop pests.

The work, being conducted by the General Laboratories of Sweeney Vacuum Oil Co., is a sample of the odd, unlikely jobs that fall to researchers.

In a similar type of research, but directed at mosquitoes instead of crop pests, Columbia University scientists have been figuring out the best size of DDT-infused liquid bullets to kill the blood-suckers.

"I never thought botany would lead to anything like this," grins Dr. A. E. Grimthe, Economy plant pathologist, walking across a sun-baked field scattering bits of blotting paper and peering microscope lenses. While a fluke crop-dusting plane roars across the scrub pines of central Long Island to eject another test mixture.

DDT in Oil Base—Since early spring, the field work has been underway, a tank of sorting out the types of oil bases, the combinations and the temperatures which will provide the maximum spread for crop dusting solutions. The war-born bug killer DDT is eventually to be mixed with the oil

base which satisfies the need for effective saturation and maximum spread.

Dr. M. J. James, entomologist, has determined, for example, that a droplet 50 microns in size (there are 5,000 such droplets in an inch) is apparently best, for bigger ones don't spread out over a sufficient

ly wide strip of ground, and smaller ones drift upwards and scatter ineffectively.

The big gimmick in the whole series of tests is learning what oil combination and what temperature (400, 600 or 800 Fahrenheit) will be most nearly uniform and also be the most effective DDT carrier. An aromatic type oil for example, can hold a 30 percent concentration of the insecticide, but a paraffin type can hold only about five percent.

Big Saving in Oil—The droplet control tests have indicated that a pre-war quantity of 15 gallons of ordinary fuel oil per acre can be cut to one pint of highly vaporized oil mixed with 20 percent DDT or two quarts with a 5 percent saturation—and the same degree of insect destruction can be achieved. With some types of oil being tested, planes are able to dust a path 200 feet wide, which means many less runs will be needed across a field.

In the Columbia research, a gun named the Hochberg-LaMer generator has been developed, consisting of a tank of water and a tank of oil carried on a jeep. All the DDT is in the oil. Water is changed into steam in a flash boiler and drives the oil out of nozzles. As it emerges, the oil breaks into fine

droplets. It fans out downward and steams along on an average of not more than 10 feet above the ground, as mosquitoes do not often fly much higher.

The best killing size was found to be nearly a five-hundredth of an inch in diameter; this kills 250 times more mosquitoes than any other size.

The work has been done under the direction of Dr. Victor K. LaMer, professor of chemistry, assisted by Riddale Ellis, Seymour Hochberg, Irwin Wilson, Kenneth Hodges, Marion D. Barnes and Joseph Adamo of the Columbia chem-

istry department and Randall Latta of the U. S. Department of Agriculture, Beltsville, Md.

In tests at Lake Placid, N. Y., the mosquito bullets were also found to be lethal against such insects as black flies, midges, punkies.

Notable historical and literary figures who played the flute were George Washington, Lord Byron, Dr. Johnson, Boswell, Robert Louis Stevenson, Rousseau, Schopenhauer, Casanova, Cellini and Leonardo da Vinci.

NO. 223

Drive Begun To Up Aid To Poorer Areas

Larger Share In Social Security Money Is Sought, As End Of Session Nears

WASHINGTON, July 26 (AP)—Southerners opened a drive in the Senate Finance Committee today to gain a larger share of Federal Social Security funds for the lower income states. Committee Chairman Walter George of Georgia told a reporter that he will do the best he can to win adoption of a system of variable grants.

Senator Claude Pepper of Florida said he will work for a plan whereby all persons sharing in the funds would get equal amounts of federal cash. The House approved the continuance of the present formula under which a state must match dollar-for-dollar whatever federal funds it gets for aid to the aged, blind persons and dependent mothers and children.

Congress, meanwhile, is cleaning up its unfinished business in time to adjourn some time next week. The congressional program bill, atomic energy control legislation, the railroad retirement bill, and other odds and ends remain to be completed.

The House passed the reorganization bill in a slightly different form than the Senate. Whereas the Senate version gave the lawmakers a boost in pay from \$10,000 to \$15,000 a year, the House voted a salary of \$12,500 plus a tax free \$2,500 expense account. These differences must be ironed out, but leaders in both chambers feel sure that the bill will be completed before adjournment.

There is not so much certainty that the railroad retirement bill will clear the Senate in time, however. Numerous amendments have been offered, and Majority Leader Albert Barkley says he is afraid "no final action" will be taken.

The House is pitching into the conference committee agreement on atomic energy control today, with fast-ditchers insisting on restoration of some measure of military representation on the control board. The Senate-House conference committee had agreed to make the control board an all-civilian organization, as favored by the Senate.

Another measure that may get left by the wayside when Congress adjourns is the national housing bill, which has passed the Senate but has been bogged down in the House for several weeks. President Truman has asked for action on it, and in obedience to his request, Chairman Brent Spence of the House Banking Committee has called his group together to resume hearings.

Seaplane Base Is Slated For Sanford

TALLAHASSEE, July 26 (AP)—Construction of 21 new seaplane bases and improving of 15 existing anchorages for use of civilian fliers in Florida has been proposed. The recommendation comes from the aviation division of the Florida Improvement commission.

Aviation Supervisor William Lazarus of Orlando proposes improving the following 15 facilities at a cost of \$4,000 each: Fernandina, Sanford, Fort Pierce, Vero Beach, Stuart, Fort Lauderdale, Punta Gorda, Kissimmee or Saint Cloud, Winter Haven, Mount Dora, Clearwater, Cedar Key, Apalachicola, Panama City and Panama.

New facilities costing \$4,000 each are proposed at the following locations: Tarpon Springs, Sarasota, Marathon, Bay West, Miami and Key West, in the Everglades; W. P. A., Cleveland, Inverness, Tanami Canal, Palatka, Crescent City, Starke, Lake City, Osteen, Ellaville, Tallahassee, Saint Marks or Panama, Monticello-Williston, Steinhatchee, River Junction and Lake Jackson which is near Florida, Ala.

Eugene Levy Is Serving In Japan

WITH THE EIGHTH ARMY IN JAPAN, July 26, (Special)—T. Eugene Levy, 19, of Sanford, is now serving with the Eleventh Airborne Division in Sendai, Japan. He has been with the division for the past ten months.

After completing his basic training he volunteered for the "paratroop." Taking his jump training at Ft. Benning, Ga., he qualified as a paratrooper on May 21, 1945 by making the required number of jumps from a plane in flight. At present he is performing M. P. duties in this division.

This paratrooper, Mr. and Mrs. Sam Levy, reside in Sanford.

As Talmadge Won Fourth Term

ENTHUSIASTIC FOLLOWERS "chair" Eugene Talmadge (top) in Atlanta, Ga., as early returns in Georgia Democratic primary election indicate that he is leading. Pictured below, Negro voters stand outside the Cobb County Courthouse in Marietta starting to cast their votes for the first time in the history of the state of Georgia. (International Soundphoto)

Four Negroes Are Doctor Says May Ambushed, Killed Is Too Ill To In Monroe, Ga Testify Now

MONROE, Ga., July 26, (AP)—Police in Georgia today lifted the wraps from a bloody and tragic episode in which four negroes, including two women, are said to have been shot to death by a gang of white men. According to Sheriff E. S. Gordon of Monroe, the negroes were ambushed and shot late yesterday near the Walling-Deane county line in northeast Georgia.

As Sheriff Gordon tells it, the four victims—two men and their wives—were riding in the car of a farmer, Lay Harrison, Gordon said the band of white men converged on them, held the farmer at gun point and dragged the four negroes from the automobile.

The bodies of the two negroes and their wives were found later, riddled with bullets, near a bridge.

Developments which led up to the shooting are somewhat obscure at this moment. However, it is known that one of the four victims, Roger Malcolm, had recently been arrested on a charge of stabbing a former employer, Barney Hester, during a quarrel. Just a few hours before the quartet was ambushed yesterday, Malcolm had been released from Walton county jail under bond of \$500.

The killing of the four negroes was described today as the first incident of its kind in the United States this year. An official of Tuskegee Institute in Alabama said the last event of that nature took place in Madison, Fla., in August 1945, when a negro was taken out of jail and shot.

AMBUSHED

MONROE, Ga., July 26, (AP)—Sheriff E. S. Gordon reported today that a band of armed white men ambushed and shot to death four negroes near the Walling-Deane county line in northeast Georgia late yesterday.

Austria Votes To Nationalize Key Industries

Secretary Byrnes Is Continuing Efforts To Secure Publication Of Treaties

VIENNA, July 26 (AP)—Austria's parliament today approved a bill to nationalize key industries. Among the industries which are to be taken over are a number which the Soviet military government had claimed as reparations. By this action, the Austrian government repudiates Russia's claim to 13 industries, including oil fields, shipping companies, and banking, mining and manufacturing concerns.

In all the parliament voted to take over 81 firms and the vote on it was unanimous.

WASHINGTON, July 26 (AP)—Diplomatic officials here say that Secretary of State Byrnes has made some progress in his efforts to get the texts of the proposed European peace treaties published. But, the diplomats add, they doubt that Byrnes will be able to get full agreement from London, Moscow and Paris before the 21 nation peace conference opens in the French capital on Monday.

When details of the peace treaties were published by a New York newspaper recently, Byrnes wired the other big four foreign ministers suggesting immediate publication of the full texts.

However, Moscow has objected to publication of those portions of the treaties on which the foreign ministers failed to reach full agreement. Great Britain suggested that publication should be delayed at least until the rest of the governments participating in the peace conference had received texts.

Mrs. Patrick Is Tried In Circuit Court For Arson

Selection of a jury occupied the Circuit Court yesterday morning in the case of Mrs. Geraldine W. Patrick, who is charged by the State with first degree arson in connection with fires that broke out on May 24 and on May 25 at her former place of residence at 905 Catalina Drive.

Attorneys E. F. Bush and Lloyd R. Wilson are representing the defendant.

During the afternoon, the Chief Clerk Cleveland, when questioned as a witness by Assistant State Attorney George Detamore, stated that on the evening of Friday, May 24, shortly after 7:50 o'clock, he found fire in five places in the house, four of which were locked when firemen arrived.

Three of the fires were upstairs. One was in a linen closet and another in a bed room closet and one in a storage room on the east end upstairs bedroom. Down stairs there were fires in a closet in the dining room and a heater room by the kitchen, he said.

Assistant Chief Clerk E. J. Thomas gave a like testimony.

The lineup of 16 witnesses sworn in included Chief Cleveland, Assistant Chief Thomas and four other members of the fire department.

One witness called upon was Mrs. M. T. Haggert, former resident of Sanford and now a resident of Daytona Beach, who is in charge of the house, and who is alleged to have been the owner of the home. The case was continued today.

57 Girls Arrive From Australia After GIs

SAN FRANCISCO, July 26, (AP)—It is said that the course of true love never runs smooth. If you don't believe it just ask 57 girls who arrived by boat in San Francisco today from Australia. They arrived on the bride ship Mariposa, but they're not GI brides. Not yet that is.

They left Sydney two weeks ago to marry Americans whom they had met in Australia during the war. And they came to the West Coast under the plan by which future war brides now are to be admitted to this country. And that's the trouble. They are not being admitted. All because of a parity \$500.

Every third month a law was passed requiring a would-be GI bride to post bond of \$500 before they could be allowed to enter the country independently of immigration quotas. Apparently the 57 girls from down under never heard of the law.

Atomic Bomb Test At Bikini

THIS BOMB WAS EXPLODED AT BIKINI WATER, July 26, and it is the largest atomic bomb ever exploded in the open air. The bomb, known as "Fat Man," is being lowered into the water by a crane on the deck of the USS T-23, the transport ship. The photo was taken from the deck of the T-23. (Associated Press)

Blandy Reports On Death Power Of Atomic Bomb

Russia Says Tests Are American Threat To Peace Of World

SAN FRANCISCO, July 26 (AP)—A planeful of aerial observers flew over the Bikini Lagoon today for a close look at the effect of the underwater atomic bomb explosion and the most amazing thing they saw was a huge ball of fire in the bottom of the lagoon.

But of more interest to Navy men was the fact that an atomic bomb, whether it's set off in the air or under water, is a sure death for all vessels within a radius of half a mile. In both the test explosion at Bikini so far, no ships within that distance of the bomb survived.

The underwater blast sank the carrier Saratoga, the battleship Arkansas, an oiler and at least two or three submarines. The old Japanese battleship Nagato is listing badly and may go down.

The chief of operations, crossroads, Vice-Admiral Blandy, is convinced that if the ships in the lagoon were not destroyed.

U. S. Envoy To Italy

ASSISTANT SECRETARY OF STATE JAMES C. DUNN (above) has been nominated by President Truman, as Ambassador to Italy. Dunn will succeed Alexander C. Kirk, another long-time diplomat, who is to leave in the United States prior to his retirement. (International)

Lion Club Plans To Co-operate In Clean-up Campaign

The Lions Club today approved the suggestion of Bill Williams, realtor, to promote co-operation with the City in a cleanup campaign which is expected to start in the near future.

Mr. Williams told of how he was impressed with the neatness and tidiness of home surroundings in California upon his return from service in the South Pacific with the Sea Bees, and then upon his return to Sanford said that the worst thing he saw was weeds from six inches to many feet high in vacant lots. He declared that at present many lots in Sanford are overgrown with weeds and that this condition should be remedied before the tourist season starts.

Joe Meisch reported that he is working to secure a boy to be sent by the Lions to the Boys State program at Tallahassee.

38 Boys Put In 2,602 Hours Of Study In Farming

High Students Earn \$1,906 In Year's Agricultural Work

A total of 38 Seminole High School boys engaged in agricultural study at Seminoles High school during the past year under the supervision of the late Mr. A. R. Johnson. The project, which cost \$1,000, was a success in that the boys earned a total of \$1,906 in agricultural work.

But of more interest to Navy men was the fact that an atomic bomb, whether it's set off in the air or under water, is a sure death for all vessels within a radius of half a mile. In both the test explosion at Bikini so far, no ships within that distance of the bomb survived.

Sale Of Land In Seminole Postponed

Sale of certain land in Seminole County, scheduled to be held here on Aug. 6, has been postponed, according to word received here today from Nathan Mayo, Commissioner of Agriculture.

The land, which was to be sold by the Trustees of the Internal Improvement Fund of the State of Florida, was described incorrectly in the Tallahassee newspaper. The advertisement which has appeared in The Herald the last three Fridays, described the land as "NE 1/4 of SE 1/4, Section 19, Township 21 South, Range 32 East, containing 40 acres."

Commissioner Mayo announced that the correct description of the land, to be sold at a later date, will be advertised in The Herald beginning on Aug. 2.

CHICAGO, July 26, (AP)—Murder indictments have been returned by a Chicago grand jury against William Heirens, charging him with the kidnap-slaying of Suzanne Degnan and the lip-stick murder of former wife Frances Brown. Two indictments contain a total of nine counts. They accuse the 17-year-old Chicago University student of strangling the little Degnan girl, and shooting and stabbing the former WAVE, Miss Brown.

OPA Promises Not To Come To Merchants' Aid

However, Price Boost Is Authorized For Coal, Shoes And Many Other Items

WASHINGTON, July 26 (AP)—OPA Administrator Paul Porter declared today that the OPA will not "rush to the rescue" of merchants who, as Porter termed it, "paid high prices in anticipation of unloading at still higher prices." Porter said that while the fate of OPA was being debated, his agency had advised business and industry that any price increases in the interim period would not be used as a basis for permanent price adjustments.

Porter also reminded business that President Truman in his June 29 radio broadcast had appealed to the nation's merchants to hold the line, rather than embark on reckless inflation.

Meanwhile, the OPA authorized an immediate price boost for coal, shoes and many other consumer items. The OPA also has stripped control from a number of basic commodities. Included are several types of shoes and household electrical appliances.

The OPA also is suspending its price control on July 1.

The newly revised OPA swing into action today with a "heavily weighted" list of immediate price increases on a number of items. For example, the price of coal is going up 15 to 20 cents a ton to offset higher freight rates.

The OPA also is raising the price of shoes to 10 to 15 cents a pair.

Change In Shipping And Marketing Of Fruits Expected

WASHINGTON, July 26 (AP)—A substantial scientific and research experiment which is believed may revolutionize shipping and marketing of fruits and winter vegetables is under way for next season. The experiment is an outgrowth of a meeting following the second session of the Florida Council on Agriculture in West Palm Beach.

The Florida State University Agricultural Experiment Station has been selected to carry out the experiment. A preliminary report of the project will be prepared by Dr. C. E. Jones, Director of the station. Dr. Jones said that the project will be a "pilot" project, and that the results will be used to guide the marketing of fruits and winter vegetables.

HOTEL SOLD CLEVELAND, Ohio, July 26—(AP)—Sale of the huge Flamingo Hotel on Miami Beach to a group of Cleveland investors has been announced. Although not stated, the sale price is reported to be in the neighborhood of a million dollars. The ten-story hotel has 230 rooms with accommodations for 300 guests.

SALARIES RAISED JACKSONVILLE, July 26—(AP)—The Duval County Civil Service Board has approved salary increases for more than a hundred employes of the County Welfare Board. The increases, however, are contingent upon approval of the Duval County Commission and will apply only to persons now employed. The overall increase, officials say, will amount to about 15 per cent of the present total annual expenditure for salaries which is more than \$200,000.

RAILROAD WORKERS CLEAR THE TRACKS; five miles east of Lewistown, Pa., where six cars of the Pennsylvania Railroad's Broadway Limited were derailed, injuring 25 passengers and crewmen. The accident occurred when the all-Pullman train plowed into a freight train on another track. (International Soundphoto)

Celery Feds Trounce Gainesville G-Men By 9 To 3 Count

Blanc Pitches Six Hit Ball; Locals Play Daytona Tomorrow

The Daytona Beach Dodgers will be entertained at the Municipal Baseball Park by the Celery Feds tomorrow evening. Game time is 8:15 P. M.

Cal Blanc, big Fed righthander, let the Gainesville G-Men down with six hits last night as the Sanford Celery Feds continued their pace to defeat the G-Men by a 9 to 3 count.

Gainesville scored one run in the first inning when Miranda led off with a free pass, took second on a passed ball and scored on Whitey McMullen's drive into right field. The visitors scored a second run in the second inning on a base on balls issued to the G-Man third sacker Smart who scored on a double into right-center field by Stillwell. The visitors finally tally came in the eighth on a series of iron passes issued to O'Neal, Walker and Eaton and a holder's choice by Smart.

The locals tallied four times in the third inning on an overthrow of first base by Fulta on an infield ball hit by Cal Blanc. Blanc stepped on third. Jerry Silverman lined a neat single to center field to score Blanc. McGarvey's error on Tuttle's grounder placed Tuttle on first who was immediately sacrificed to second base by Dave Bride. Tuttle scored on Buddy Lake's single. Lake stole second, took third when Stillwell batted the ball into center field attempting to catch Lake on the steal, and scored on a long fly ball knocked into right center field by Levy.

Sanford scored a single run in the fourth and tallied three in the fifth on free passes issued to Levy and Zaspel, a sacrifice by Oscar Glorig, a fielder's choice by Al Bryant and a beautiful sing'g into right field by pitcher Cal Blanc. The final Fed run came in the sixth inning.

The fielding honors of the night went to the Sanford manager Ed Levy, who made beautiful catches of two line drives, one by O'Neal in the fifth inning and the other by Walker in the ninth. Glorig robbed the G-Man second sacker of a base hit in the ninth by catching a screaming line drive.

Jerry Silverman led the Fed attack with three hits in five trips to the plate. Al Bryant bled by stealing three during the night.

Score by innings:

SPORTS LAUGH

By Associated Press

During last season's Army-Pennsylvania football game the host Penn squad found itself in an embarrassing position. It ran out of new footballs.

The Army won that game 41 to 0, you remember, and after each touchdown the ball was kicked into the crowd on the try for extra point. The crowd kept so many balls that finally Penn had to ask Army to donate a new ball.

The Cadets were glad to oblige, but they didn't take any chances. Every time Blanchard or Davy hit pay dirt, the new ball would be retired and an old worn pigskin substituted for the point try. The Cadets lost several well-worn balls in this manner, but the new one they furnished lasted for the rest of the game and now is in the trophy room at West Point.

Senators Riot As Saints Win Forfeit 9 To 0

Orlando Catcher Is Ejected From Game After Striking Ump

FRANCIS FIELD, St. Augustine, July 25. (Special) — The Orlando Senators dropped a 9 to 0 decision to the Saints here last night when Umpire Lavelly forfeited the contest to St. Augustine during a seventh inning brawl in which several Orlando players were ejected from the game, and the Senator Catcher Ike Seane had struck the umpire several times.

The Saints were leading the Senators 6 to 1 going into the seventh inning. With two away, Umpire Lavelly called a third strike on Mendelbauer, bringing the Orlando manager Ted Madjeski to the field along with several other Senators. An argument ensued.

Lavelly restored order, but Mendelbauer added a few more many yards which prompted Lavelly to strike him, walking papers. This caused the entire Orlando club to storm the field a second time.

Hill Kaster, official scorer at Francis Field, stated that Umpire Lavelly then pulled out his watch and ordered the teams to resume play.

Seane came out to receive Lou Bevil's warm up tosses and said a few unkind words to the ump behind the plate. These words involved complications and Senators' Umpire Lavelly several times. Bevil's anger led to the field and separated the two, after which many Senators players were ejected. The Senators' manager and players questioned the umpire.

St. Augustine invited to Orlando to play a double header tonight.

Merchants Donate Prizes For Tourney

In celebration of the opening of the summer season at the Seminole Country Club a number of local merchants have donated prizes to be awarded the victor of the special events. Among the merchants donating so far are: Robson Sporting Goods, Bill Hardaway, Fingert's Office Supply, Haynes & Williams Furniture Store, Dew Drop Inn, Frank's Tavern, The Anchor, and Cowan's.

All Central Florida golfers are invited to enter this tourney and it is hoped that all the favorite foursomes will be on hand for the gala occasion.

INSIDE SPORTS REPORT

By JULIAN STENSTROM

MEXICAN PEACE TREATY

According to Associated Press today the Mexican League will announce a peace agreement with the Baseball League of Mexico. Sport editor Charlie Johnson of the Minneapolis Star says that the deal was worked out with the Baseball League by owner Sam Brodwin of the St. Louis Cardinals when he visited Mexico recently. He adds that there will be no more wars in American ball play, but the Mexican league and that the American players who are already south of the border may return to the United States.

APPLAUSING

Of increasing interest to the local sportsman is quite a new sport, aquaplaning. We understand that a number of the local fellows have gone into this skillful pastime with a passion. The interested in the latest sport craze about Sanford are John Angel, Earl Evans, C. W. Hughes, Mack Cleveland, Jack Morrison and McKay Tealuck. We also understand that there are a number of local men in an outdoor motorboating club whose president and organizer is Homer Little.

ROBSON'S GRIP

Harry Robson called the morning to find out how the person is that's supposed to take care of the softball ground. It seems as if during the past

target fleet had had crews all men above decks would have been killed. If they were not killed instantly, he said, they probably would have died later.

However, Blandy told a news conference today that the men who survived temporarily might have saved their vessels from going down. For instance, the Stratojet did not go down until seven and a half hours after the explosion, and might have been kept afloat.

Criticism of the Bikini test was heard today from Russia. The Moscow radio called the atom bomb trials a war crime that threatened the dream of peace.

In New York, the United Nations atomic energy commission will begin discussion later today of the Russian plan for international control of the atom. The Soviet delegate, Andrei Gromyko, will lead off the debate on his own proposal for atomic control. Russia has rejected the American plan.

OPA Promises Not To Come To Merchants' Aid

Continued From Page One

being raised, and many lesser items are being crated hordes. At the same time, the OPA has announced that controls are being lifted altogether from a number of consumer items, including several types of household goods, household appliances, and toys.

The order permitting price increases and fluctuations and softening of rationing controls will go into effect after Aug. 20.

President Truman has promised to make the position clear to the board of price control today. Then the board will go to the Senate for confirmation. Senator Walter George of Georgia says they will be announced very shortly.

Getting back to OPA

orders, here are some additional figures on the increases that have been authorized. Retail ceilings on medium and high-priced footwear go up about 8 percent.

Low priced shoes will be raised about 15 percent last month and no further change was made in this category in today's order.

Producers' ceilings on grain machinery and equipment have been boosted 8 percent.

And controls have been lifted from such items as upholstered frames, low backed chairs, and machine-made snap fasteners.

The nationwide reaction to the revival of OPA is mixed. Business leaders, in general, say they are willing to try to make for new regulations work. But President Robert Watson of the National Association of Manufacturers has made it clear that his organization feels the revival of ceiling was a mistake.

President Truman has made it clear that he is not entirely happy about the new law. He has declared that if, as he fears, prices begin to spiral upward under the

AMG Promises Discretion In Destroying Nazi Books

AP Newsfeatures
 BERLIN — American Military Government officials predict there will be "no book burnings and no witch hunts" in the American execution of the four-power Allied order to destroy German literature of a Fascist, militarist and anti-Democratic nature.

The same discretionary policy, they said, would be followed in execution of a companion directive handed down by the Allied Control Authority's coordinating committee to destroy Nazi memoirs and German military

monuments commemorating World Wars I and II.

Maj. Gen. G. I. Adeock, deputy to Lt. Gen. Lucius Clay, deputy military governor, as well as other officials pointed out that the orders left much to discretion of the zone military commanders.

"And you can count on it," said one official, that Gen. (Joseph) McNarney isn't going to persecute a German for owning and failing to surrender a history of World War I.

The Americans said that, at their own and British insistence, private libraries were exempted from the search for banned books. In the matter of monuments they pointed to a clause which states that "removal of objectionable parts will constitute effective eradication." This measure is expected to be substituted for total destruction in many cases.

"What all this talk about book burnings?" said one high official. "We expect a lot of copies of 'Mein Kampf' and other objectionable volumes to be surrendered. What's wrong with tossing them into the chemical vat and casting them into good clean paper to help cure the present shortage?"

Irate Housewife Hurls Butter Back In Grocer's Face

JACKSONVILLE, July 26.—(AP)—A housewife in St. Augustine, who paid 98 cents for a pound of butter and then found it rancid, threw it in the storekeeper's face when he refused to take it back. Police picked up two sailors with 300 pounds of sugar, 50 pounds of bacon and five gallons of lard which they were trying to sell from door-to-door. The source of the commodities was not given.

In Sanford, E. F. Lane, in desperate need of rice for a friend on a strict diet, sent telegraphic appeals to friends in Georgia, Oklahoma and Louisiana—he received 97 pounds of the scarce item. The Stetson football coach says that if the clothing situation doesn't ease up, his squad will have to take to the field in shoulder pads and shorts because that's all the uniforms he's been able to get.

In the animal department, Constable Pat Gordon of Lakeland forgot about a drive on untagged dogs and came home to find his unlicensed dog hound in the sink. At St. Petersburg, a splinter blew into one of Dr. G. W. LeWallen's eyes, causing him to lose control of his car which jumped a curb, crossed an intersection, smashed a stop sign, and came to rest against the corner of a house. His car was demolished.

Near Tarpon Springs, Detective George Burgess was fighting for his life against a four-foot alligator. He promptly slit its throat to recover his plug and tossed the gator away, forgetting that raw aurin skin brings three dollars a foot on the current market.

Mrs. Fred Foester was a little burned up when young pranksters at a ball game in Miami put a piece of paper on her head and ignited it. The fire caused her to lose her hat and some hair and also her temper.

JAP RULING
 TOKYO, July 26.—(AP)—Supreme headquarters today gave the Japanese holding Company Liquidation Commission the power to start dissolving big Japanese financial companies that provided materials for war. Within a short time, the Commission will start breaking up 41 holding companies with more than one hundred subsidiaries. The houses comprise the backbone of Japan's Zaibatsu families which control the nation's wealth and industry. Their securities have a book value of five billion yen.

VERONICA ILL.
 HOLLYWOOD, July 26.—(AP)—Screen Actress Veronica Lake has been stricken with influenza and is being given penicillin. Miss Lake became ill Wednesday while at work on a new picture.

Milk is used in a wide variety of industrial products such as plastics, textiles, paper coating, paint, glue, films, pharmaceuticals, insulation, fertilizer, insecticides, penicillin, plaster, dyes, animal feed, preservatives, explosives and electroplates.

Why Soldiers Didn't Bring Tropic Diseases Home To States

NEW ORLEANS — If you've been worrying that your Pacific war veteran would spread such pests as Filaria sanguinis hominis throughout your household, you can relax now.

A world authority on tropical medicine says the menace of an exotic epidemic in the United States—although it appeared real enough early in the war—has been virtually eliminated.

In fact, he warns, the greatest danger is that fear of foreign ailments will distract our attention from native maladies which are on the increase.

"For example," says Dr. Ernest Carroll Faust, parasitologist and head of the Tulane University department of tropical medicine, "there is a persistent increase in the south of murine typhus, which is transmitted by fleas harbored by rats. That is more of a menace to us now than most of the diseases from India and the Pacific will ever be."

that without re-exposure, the initial infection subsided without permanent manifestation of elephantiasis.

Typhus and Blood Fluke
 "There was some scrub typhus, particularly in the Assam-Burma area, in New Guinea and the northern Solomon. There were some deaths, but those who survived were completely cured."
 "Sanitary measures generally took care of amoebic dysentery."

Georgia State Police Face Blank Wall

Talmadge Promises Minimum Of Such Atrocities During Forthcoming Term

MONROE, Ga., July 29, (AP) — State Police report they have run into a stone wall of silence in trying to find the killers of four negroes near Monroe, Ga. Maj. William E. Spence, head of the Georgia State Police, says, "we have talked to a lot of people and gotten nowhere. We think we know who some of the members of the mob are, but we can't prove it."

Meanwhile, the congregation of the First Methodist Church at Monroe issued a resolution calling upon the local and Walton County authorities to cooperate with the state authorities. The resolution brought a prompt return from Sheriff E. S. Gordon who said: "We are ready to cooperate with the state. We've always been ready. It didn't take any resolution for that."

The State of Georgia—through Governor Ellis Arnall—has offered \$10,000 reward for information leading to the conviction of the 26 mobsters who shot down four negroes near Monroe last Thursday.

Georgia's Governor-nominate Eugene Talmadge predicts that there will be a minimum of such atrocities during his four-year term starting next January. In a formal statement, Talmadge said that during his three terms as governor of Georgia there was not a lynching in the state. He said that he was sorry that a lynching did occur during the present governor's administration and that he sympathizes with Governor Arnall for the chagrin and embarrassment it caused him. Talmadge went on to say that he would like to see a deal of mob violence in Detroit, Chicago and other sections of the country during the past few years.

Negro Arrested In Attempt To Forge \$150 Money Order

Breaking down in tears while he was fingerprinted at police headquarters this morning following arrest for a fraudulent attempt to cash a \$150 telegraph money order, Hayfield Moore, tall 17 year old negro youth, confessed to police that he had attempted the forgery and that he was an escaped convict from the Quincy County Jail where he had been serving a five year sentence.

The young negro, who is six feet two inches in height, was ordered to stand up in his cell this morning and was identified by Lester Tharpe, manager of the Western Union Telegraph Company, as the negro who on Saturday noon had attempted to cash the \$150 money order after having sent a telegram to Homer Dickson of Quincy asking for this money and signing the name of John W. Campbell of Miami who is a business partner of Mr. Dickson in the trucking line.

Mr. Tharpe said this morning that he became suspicious when the negro was unable to offer proper identification and told him that unless he could furnish proof of identity he could not have the money. Moore then told him, he declared, that his car had broken down, and he would go to it to get his drivers license as a means of identification. He said he was writing for money to get the car fixed. When, after about an hour he did not return, Mr. Tharpe notified the police. This morning at 11:00 o'clock Patrolman George V. Smith in company with Patrolman E. L. Gilliam, recognized the negro youth from the description given in a police report and arrested him. It was while Chief Roy G. Williams was talking his fingerprints to the youth broke down and confessed.

Patrolmen Smith and Gilliam were commended by Chief Williams for their good work. The negro is being held pending word from Quincy authorities.

Give Details Of Mob Slayings

A WELL-TO-DO WHITE FARMER, Lloyd Harrison (left) sits in the car from which four negroes were removed near Monroe, Ga., by a mob of 20 armed men and shot to death. He told officials the car was stopped while he was driving along a country road with Roger Malcolm, George Dorsey and their wives. Shortly before he had provided bond for Malcolm who had been held on a charge of stabbing his farmer-employer, another white man. At right, Coroner W. T. Brown holds a piece of rope used by the mob to tie the hands of the men. (International)

Wilson Tells Of Need For More Market Facilities And Research

JACKSONVILLE, July 29 (Special) — The need for expansion of facilities and research in a variety of fields to keep in a step ahead, rather than trailing the process, dominated much of the discussion during our annual conference of officials and managers of the Florida State Farmers' Markets, in West Palm Beach this last week.

PRMS's Clyde R. Collins, 224 West Nineteenth Street, has been honorably discharged from the United States Navy, according to information received today from the Naval Personnel Separation Center, Jacksonville.

Delegates From 21 Nations Are Convened As Peace Parley Begins

U. N. Commission Names Possible Site For Home

All Choices Located In New York And Connecticut Areas

NEW YORK, July 29—(AP)—The United Nations Headquarters Commission has announced the selection of 15 possible sites for the permanent home of the world organization. All of the proposed locations are in the areas of Westchester County, N. Y., and Fairfield, Conn. Final determination will be made by the U. N. General Assembly.

With announcement of the 15 possible sites, the commission invited county authorities to arrange meetings at which every aspect of the selections can be fully discussed. The commission itself then will select the sites so that it may lay down before the assembly five possible sites for final selection.

The commission explained that it was operating with the specific task of searching for a location for the United Nations. Officials pointed out that there is some overlapping in the chosen sites. The sites range from two square miles to 10.

Among the communities mentioned as the possible future home of the world organization are Harrison, Rock, Yorktown, Bedford, Poundridge and White Plains, N. Y., as well as Stamford, Greenwich, Ridgefield and Wilton, Conn.

Rainfall Damages Seed Beds, Floods Low Areas In City

Some damage is being done by flooding of fields and gardens and filling of automobile trucks resulted from the heavy rains of the past week and which from Saturday until noon today were officially measured by Weatherman R. E. Whitney at 5.69 inches. Cloudy skies indicate more rain which may hit the total about six inches for a three day period.

John R. Elliott, A. R. 3/c, USNR, husband of Mrs. Margaret Elliott, Sanford, has been transferred to Separation Center nearest his home for discharge from NATS Squadron Five. Elliott is in the northernmost operating squadron of the Naval Air Transport Service, operating flights between Oakland, Calif., and Attu in the Aleutian Islands.

Degnan A Grand Jury Witness

CONSIDERING TOGETHER in a Chicago court room are James Deagan (left), father of little Suzanne Degnan who was kidnapped in a hospital room last month, and State Atty. Gen. William E. Deagan. The latter appeared as a witness before the Cook County Grand Jury. He is asked for a number of minutes against the defendant, William Deagan. After deliberation, the jury returned a full acquittal for the killings of Suzanne Deagan and James Deagan. (International)

Ten Persons Believed Dead After Ferry-Barge Crash On Mississippi

McCaslin Pays High Tribute To Southern Darks

Negro Race Characterized As Fond Of Music And Religion

Caruthersville, July 29 (AP) — A crash is on for the bodies of at least ten persons believed to be dead in the collision of a ferry boat and two oil barges on the Mississippi River. It is thought the crash occurred about midnight off the Missouri shore of Caruthersville, as the ferry was completing its run from the Missouri side. The ferry capsized and at least five automobiles were thrown into the water.

12 Persons Receive Compensation Pay

Payment of unemployed compensation in Seminole County during the week ending July 29 amounted to \$247.50 and were made to 12 persons, Carl B. Smith, chairman of the Florida Industrial Commission reported today.

Philadelphia Police Sergeant Given Third Degree By 5-Year Old Youth

PHILADELPHIA, July 29—(AP)—Police in Philadelphia hope that the parents of a five-year-old boy will soon appear and get the youngster away from the station house. The boy was found at midnight last night when he halted traffic at one Philadelphia intersection by riding across the street in carlike fashion on his velocipede.

New Legion Post Handed Charter By A. Reid Mann

Longwood and Casselberry Vets Form New Organization

Old Glory Post of the American Legion, comprising 50 signed-up members and the Casselberry Post, Longwood district, of which Fred E. Madden of Longwood is post commander, received its charter Saturday from State Atty. Gen. A. Reid Mann.

At the present time the post number is meeting at the post monthly home in Casselberry and such time as they have completed their building of concrete block construction on land near a lake, which has been given to them by Hubert Casselberry, on June 21. At that time, Mann attended the preliminary organizational meeting of the post whose membership includes Sanford and Orlando members as well as Longwood.

One of the speakers at the organizational meeting was Fred E. Madden, who said that the post will be a "goodly" one and that it will be a "goodly" one.

The post will be a "goodly" one and that it will be a "goodly" one.

Home For Aged Is Seen For Goldsboro

The First Baptist Church in Goldsboro is planning to build a home for the aged. The church is planning to build a home for the aged. The church is planning to build a home for the aged.

State Loop Aims For Better Class Ball

PALESTINE, July 29—(AP)—Florida State League baseball fans have been promised faster play with less dithering upon the part of the players. After a meeting of executive directors last night, Executive E. L. Padgett of Daytona Beach said that league directors would re-state to managers and players their duties and responsibilities and would discuss the same matter with umpires.

Rent Controls Are Re-Established Here

H. W. Wolcott, head of the local rent control office, reported today that rent controls have been re-established and all rents on registered property reset back to the June 30, 1944, ceiling. Evictions which had begun processing prior to June 30, 1946 but had not been completed would have to be reprocessed. Under Florida law 15 days eviction notice is required.

Abolishment Of War Urged By Bidault; Byrnes Wants Talks Revealed To Press

The Paris Peace Conference that will redraw the map of Europe is under way. Delegates from 21 nations have convened in the Luxembourg Palace to consider peace treaties for Italy, Finland, Hungary, Romania and Bulgaria. President "George Bidault" of France called upon the delegates to abolish the plague of war.

Secretary of State Byrnes has let it be known that he will ask the conference to make all its negotiations open to newsmen. He says that the American delegation calls a "goodly host" of policy. If that is rejected, Byrnes will recommend that the various special representatives to keep newsmen informed as to what is going on. Copies of the proposed peace treaties were handed to the press of the American satellite countries early today, and they will be made public tomorrow at 10:30 P. M. Eastern Daylight Saving Time.

Byrnes said he hoped that if the delegates could get the problem of peace open, it would get the attention of the United States and the world when he said that after the first world war, the peace conference that followed a desperate part in the struggle resulted in the "Treaty of Versailles" which was a "disaster" for the world.
