(Larry Vercel will be in New York for the holidays and Around The Clock will be written by members of the editorial department.)

Recent granting of a football scholarship to Johnny Phillips by the University of Florida brought on some calculations as to the last time a Sanford player had such a grant to the University.

Two of them went in 1944 when McKay Truck and Glenn Odham traveled to Gatorland for gridiron duties. Truck left school the next year to go into business, but Odham went on to an outstanding career in high school coaching.

Odham was on the 44, 45 and 46 Gator squads in football and track, based in the Golden Gloves and was an officer in the Letterman's Club at Gainesville.

New coach and athletic director at Sebring, Odham's teams have won the tough Ridge Conference championships in four of the last five years and represented the conference in the Citrus Bowl at Auburndale.

He has been one of the coaches of the state all-star high school squad, is a member of the National High School Coaches Assn. and is a member of the Century Club of that organization.

That means his teams have been coached to more than 100 wins in football and basketball.

Odham played on the same squad at Florida with Jim Pigott, present Seminole coach, and was a graduate of Seminole High in 1942 after playing on teams coached by the late Whitley Melucas.

He went to Gainesville after military service. Although his coaching duties during the past 18 years have taken him away from this county, Odham still lists Sanford as "home" and he called up this weekend to wish good luck to Johnny Phillips upon his selection by the Gator officials for a scholarship.

"And say hello to all the other good people up there for me," he asked the Herald.

Speaking of Sanford footballers — Johnny Phillips, David MacGillis, Butch Riser and Eugene Williams were named to the 13th annual all-Mid-state football squad by the Orlando newspapers. Riser and Williams were on the first team and Phillips and MacGillis were voted second team spots.

This is the day the dirt starts to fly out in Altamonte Springs on the first section of the municipal water system. Saw Oakland Estatis' builder Lee Cohn last night and he tells us his houses will be ready for the water Jan. 3, the agreed on date for the completion of the pipework by Ball Builders, Jacksonville.

City commissioners will continue their adjourned Monday night meeting and hold a session Thursday at 10 a. m. to wind up year end business.

Alcoholics Anonymous will meet Thursday at 8 p. m. at Grace Methodist Church on Onora Rd.

Winners of the Christmas lighting contest sponsored by the Jaycees will receive their prizes at the noon meeting of the club Thursday at the Civic Center, Chairman Harold Howland announced.

The graphic and original art work which decorated the operating room entrance won the prize at Seminole Memorial Hospital for the best decorated section. The scene depicted Rudolph with a broken leg in a cart, being pulled by Santa on a bicycle and a very fine pencil sketch of a nurse by Joe Royal. The fine display all over the hospital made judging very hard, but final honors went to the second floor north wing nurses station for second place and the third floor north wing nurses station took third.

REMNANTS OF A CAR are shown after one of the crashes which occurred in Seminole County during the Christmas holiday. This one was cracked up in the Fern Park area. (Herald Photo)

Man Dies, Eight Car Damage Set At \$5,500

An unidentified elderly Negro was killed early today when he was struck by a pickup truck driven by George W. Barnes, Negro, of 2723 W. 23rd St., the Highway Patrol reported.

Trooper C. E. Tomlinson said Barnes said the old man was standing in the middle of the fog shrouded road, and he had no chance to avoid hitting him. The body was found 86 feet from the point of impact and \$300 damage was done to the truck, which is owned by Chester C. Foggate, Winter Park.

Justice of the Peace Hugh Duncan made the coroner's investigation. No charges were preferred against Barnes.

Other accidents since Monday night resulted in three persons being hospitalized and \$5,550 damages to eight cars.

Monday about 6 p. m. a car driven by Jesse H. Spivey, Orlando, struck a parked car belonging to Jack Kanner, 2544 S. Sanford Ave., Sanford in front of a fruit stand a mile south of Casselberry. Kanner's car was knocked 65 feet by the impact. Both Spivey and Kanner were taken to Seminole Memorial Hospital with undetermined injuries.

Damage to the Kanner car was estimated at \$1,200 and to the Spivey vehicle at \$800. Spivey was charged with failure to have vehicle under control by Trooper J. L. Sikes.

Late Monday evening a new compact car, driven by Lowell W. Kramer, 24, Altamonte Springs, skidded 430 feet when Kramer tried to negotiate a curve west of Weatherfield and rolled over twice into the woods. Kramer was not injured, but damages to his car amounted to \$800. He was charged with excessive speed by Sikes, who investigated.

Robert Mayer, who lives on SR 436, near the Lake Howell Road intersection, was critically injured when he lost control of his car while driving on Lake Howell Road, Tanglewood, Tuesday night. The car slewed through several front yards in the vicinity before striking a power pole, the report said.

Mayer was thrown through the windshield by the impact and taken to Winter Park Memorial Hospital in serious condition. Damage to his car was placed at \$1,200 and the power pole cost is \$200.

A car driven by Carl F. Kettles, of Altamonte Springs, struck a vehicle owned by James R. Clayton Jr., SNAS, early Tuesday night in front of the Mar Lou Restaurant.

The Clayton car was knocked over the curb and into a telephone pole. Damage to the Kettles car was placed at \$500 and to Clayton's at \$550.

Blacklist Asked
WASHINGTON (UPI)—Sen. Clinton P. Anderson, (D-N.M.) has suggested that the Pentagon blacklist any contractor whose advertising divulges vital nuclear power information.

Home's Fund Aided By Casselberry Lions

The Casselberry Lions Club presented the funds. The Casselberry Lions' interest in the Sarrepta Home arose out of a recent visit to the installation by Evans and Kerce when they brought an elderly resident of the area to Sarrepta for care. The two men made individual contributions and then determined to get club back in the project.

Loring Burgess, vice president of the Florida State Bank trustee for the fund, said today that all checks should be made out to "The Sarrepta Home Improvement Fund," and addressed to his care at the bank.

He said the money will be placed in an escrow fund and will be used exclusively for needed improvements at the home.

Mrs. Braden outlined the most pressing needs of the home as being a new steel fire escape, which Fire Chief Mack Cleveland Sr. has declared to be the most urgent need, new wiring in parts of the structure and an asbestos ceiling over the furnace.

The estimated cost of the three improvements has been placed at \$1,500, and Mrs. Braden says, are necessary if the home is to continue to serve the elderly people of the county.

A. K. Shoemaker Jr. has accepted a position as coordinator of the drive to work with the home and, being a builder, she felt he was most qualified to work with the home in the technical aspects of the effort.

The home director said today she had been working on getting money to improve the home for the past three years and had tried to borrow money, but to no avail.

She recently made a trip to Atlanta to confer with officials of the Housing and Home Finance Agency there, and received a refusal on the basis of the home not being qualified under government rules for aid from that agency.

The effort would have been abandoned had it not been for the "great need of the area for a private home, and, besides we love the work," said Mrs. Braden.

MIAMI (UPI) — Calls for obliteration of the Castro regime mounted among leaders of the Cuban exile community today in the joyous reception given to 1,113 Bay of Pigs invasion prisoners who were airlifted to freedom.

The captives, who were shuttled to liberty by 10 airplanes Sunday and Monday after 20 months in Cuban jails, anxiously awaited news of the freighter African Pilot, which was scheduled to leave Havana today with 1,000 of their relatives.

All harkened to a pledge for Fidel Castro's demise sounded by Manuel Artime, a leader in the abortive invasion and last on the list of prisoners to be released. At a press conference Tuesday, Artime promised hoarsely that "we shall return."

The 30-year-old Cuban called on the governments of the Western Hemisphere to mount a siege against Fidel Castro's regime. Such unity, he said, could "topple the Cuban Communist rule within a week."

Artime said the released prisoners were determined to reassert the Caribbean island. "We have given our word to our dead, to the Cuban people, and to the free world that we will liberate Cuba or die in the attempt," he declared.

MIAMI (UPI) — Stocks got off to a firm start in brisk opening dealings today. The market will be facing new pressure for capital gains has been completed, the list is in for a bout with tax-loss selling.

BONN (UPI)—West German Foreign Minister Gerhard Schroeder will go to England next month to discuss Britain's proposed entry into the European Common Market with British Prime Minister Harold Macmillan, it was announced here.

BURLINGTON, Vt. (UPI) — Former Sen. Warren R. Austin of Vermont, the stocky, red-faced country lawyer who became the United States' first ambassador to the United Nations, died Tuesday at his home. He was 85. Austin, a Republican, had been ill and partially paralyzed since suffering a stroke late in 1953.

MIAMI (UPI)—Ex-Venezuelan dictator Marcos Perez Jimenez ate a Christmas dinner of ham, string beans, potatoes, fruit and salad from a prison tray just a few miles from his \$400,000 mansion on Miami Beach. Guards at the Miami jail, where Perez Jimenez is being held for extradition to Venezuela to face charges that he stole millions from the national treasury, said the pudgy ex-strongman attended Mass in jail first.

MOSCOW (UPI) — The Soviet government today officially backed up newspaper spy charges against the U.S. embassy here, but indicated that three American embassy officers, accused of espionage, would be allowed to remain in the country.

The action came in a Foreign Ministry statement that did not order any expulsions but demanded that the U. S. embassy take measures to restrain its personnel from activities "incompatible" with their diplomatic status.

Labor Squabble May Break Out In Dock Strike

NEW YORK (UPI) — Striking longshoremen began picketing in full force from Maine to Texas today. Hopes for an orderly strike were endangered at one port.

En masse picketing went into effect for the first time since the International Longshoremen's Association called the walkout Sunday night. The possibility of an intra-labor squabble threatened to touch off violence on the docks at Galveston, Tex.

Galveston police dispatched extra men to the waterfront to guard against a clash between a subsidiary of the IILA and a newly formed independent labor group.

The independent laborers, represented by a union called the Banana Workers Cooperative, have intimidated they may cross picket lines at Galveston. A Swedish boat, the Brita Thordon, is in dock with a banana shipment for Texas Forwarding Co. of Galveston.

Otherwise, reports indicated that picketing elsewhere along the Atlantic and Gulf coasts was orderly.

Both the shippers and the IILA were reluctant to resume negotiations in the dispute which arose over a shipper's demand that the union reduce the size of work gangs from 20 to 17 men.

Heart Massage Saves Infant
STANFORD, Calif. (UPI) — A Palo Alto physician saved the life of a 12-week-old baby with open chest heart massage performed in the makeshift surroundings of a household kitchen Tuesday.

The infant, Orian Merler, had stopped breathing for nearly five minutes when Dr. Jack Remington arrived at the Palo Alto home of Mr. and Mrs. Ezio Merler.

The physician quickly opened the baby's chest with a knife and massaged his tiny heart until an ambulance and resuscitator crew arrived.

The baby was in critical condition today, according to Palo Alto Standard Hospital.

Europe Snowed In
LONDON (UPI) — A winter storm that gave Europe one of its coldest and whitest Christmases in history kept holiday travelers stranded in parts of the continent today. Snow brought by icy winds out of Russia blanketed Europe from Scandinavia to Italy, although a warm Mediterranean wind began to clear the central Italian slopes.

MIAMI (UPI)—Ex-Venezuelan dictator Marcos Perez Jimenez ate a Christmas dinner of ham, string beans, potatoes, fruit and salad from a prison tray just a few miles from his \$400,000 mansion on Miami Beach. Guards at the Miami jail, where Perez Jimenez is being held for extradition to Venezuela to face charges that he stole millions from the national treasury, said the pudgy ex-strongman attended Mass in jail first.

MOSCOW (UPI) — The Soviet government today officially backed up newspaper spy charges against the U.S. embassy here, but indicated that three American embassy officers, accused of espionage, would be allowed to remain in the country.

The action came in a Foreign Ministry statement that did not order any expulsions but demanded that the U. S. embassy take measures to restrain its personnel from activities "incompatible" with their diplomatic status.

SAN SALVADOR, The Bahamas (UPI)—The Nina II, replica of the smallest ship used in Christopher Columbus' discovery of the new world 470 years ago, today completed a similar voyage 97 days after sailing from Palos, Spain.

Columbus did it better. His ships—the Nina, Pinta and Santa Maria — reached San Salvador in 70 days, 27 days faster than the Nina II.

Columbus sailed from Palos on Aug. 2, 1492, while the Nina II sailed from the same port last Sept. 19. The Nina II crossed the Atlantic safely, despite fears it had foundered, become lost in a hurricane or sunk, and the crew planned to retrace later today Columbus' landing on this Bahamian island.

The vessel, a tiny, round-bottomed square-rigger which is a replica of Columbus' smallest ship, anchored off San Salvador about 11:30 p. m. Tuesday.

The crew came ashore about midnight and was greeted by an impromptu Bahamian celebration, including a brass band and dancing on the beach.

Navigator Robert Marks, the only American of the nine men aboard, said the ship did not overshoot San Salvador as originally indicated.

BACK FROM CUBA — Edgardo Buttari, 26, son of the former Cuban secretary of labor is embraced by his mother and sister upon his arrival in Miami. Buttari was taken captive in the Bay of Pigs assault. (NEA Telephoto)

SAN SALVADOR, The Bahamas (UPI)—The Nina II, replica of the smallest ship used in Christopher Columbus' discovery of the new world 470 years ago, today completed a similar voyage 97 days after sailing from Palos, Spain.

Columbus did it better. His ships—the Nina, Pinta and Santa Maria — reached San Salvador in 70 days, 27 days faster than the Nina II.

Columbus sailed from Palos on Aug. 2, 1492, while the Nina II sailed from the same port last Sept. 19. The Nina II crossed the Atlantic safely, despite fears it had foundered, become lost in a hurricane or sunk, and the crew planned to retrace later today Columbus' landing on this Bahamian island.

The vessel, a tiny, round-bottomed square-rigger which is a replica of Columbus' smallest ship, anchored off San Salvador about 11:30 p. m. Tuesday.

The crew came ashore about midnight and was greeted by an impromptu Bahamian celebration, including a brass band and dancing on the beach.

Navigator Robert Marks, the only American of the nine men aboard, said the ship did not overshoot San Salvador as originally indicated.

Lightning Bolt Injuries Put Two In Hospital

Diane Baker, 14, 2101 Palmetto, and Eugene Ellsworth, 20, 1212 Sanford Ave., are in Seminole Memorial Hospital today as the result of being struck by lightning while out on the BM near the municipal pier during Tuesday's storm.

Also with them on the ill were Lyndia Alterman, 14, 308 E. Seventh and Willis Ellsworth, 17, brother of Eugene. They were uninjured.

Diane and Ellsworth both suffered severe flash burns on the chest, and Diane was in a state of shock when taken to the hospital.

Hospital authorities said today Diane was much improved and resting comfortably. Ellsworth is also improved and his condition is considered good.

Lt. Joe Hickson and Patrolman C. C. Dodson investigated for the Police Department.

Causeway Views To Be Discussed

Former Senator Douglas Stepien and Chamber of Commerce manager John Krider will appear before the Jan. 16 meeting of the DeBary Chamber of Commerce in Union Hall at Stetson University to discuss the proposed Lake Monroe causeway and new route for Hwy. 17-92 south of Orange City.

Making the announcement, Krider said, "I would like to correct some misleading information and point out the Seminole County Chamber of Commerce has not officially gone on record as endorsing the causeway or any other alignment south of Orange City."

He said the chamber has requested the state to make a feasibility study of the project, however.

Saturday Hours Set By Clerk

County Clerk Art Beckwith Jr. said his office will be open Saturday "at least until noon" to afford those having to get instruments on record before the first of the year to do so. The office will also be open Monday.

The Orange County clerk's office will be open Monday, Dec. 31, but not Saturday.

Palmer Gets Vote As No. 1 Athlete

By Oscar Paylor
MIAMI (UPI) — Arnold Palmer got this corner's vote today as the top athlete of 1953 and it's a vote to give but that it will take a lot of convincing in many quarters.

The discussion will be attended to shortly. And just to give a bit of context on the subject, the vote was taken as part of a poll conducted by the Los Angeles Dodgers over anybody who was named.

Not a Palmer fan? You could be disappointed as early as the first time you were a new fan, simply because a great many sports fans don't consider golfers as athletes to begin with.

This is one man's never very humble opinion, in no way as clear as July 4. There are many ways in which to measure an athlete and a champion. Some of the more important items which must be taken into consideration are physical condition, muscular control of the weapons and

Jai-Alai Payoff Good On Holiday

The Orlando-Sanford Jai Alai Frontiers handed out big payoffs for the Christmas holiday during the matches and evening performances.

The biggest was the daily double, a 4-3 for \$25, with Abasco and Uribe coming through in the evening performance. Abasco also won the last half of the double during the matinee. Other big payoffs in the evening performance came in the seventh game, a 5-4, for \$200.00 and a 1-7 in the eighth good for \$117.50.

The big payoff in the afternoon performance was \$120.00 in the 11th game.

Uribe won four consecutive games during the two performances, three in the afternoon, the fifth with \$100, the eighth as a loser and the 11th with \$25. He came right back in his first appearance in the evening in the fifth winning with \$250. Uribe now leads all players at the front with \$1 win, far ahead of his nearest rival, Elorra, who has 4 for the season.

Walter Wins Newton Trophy

The DeBary Spare-Ribbers Bowling Club members made news at their December meeting when Kress Walter knocked out E. Orsten for the General H. P. Newton Memorial Trophy, rolling six strikes in a row, a net score of 223 and a gross of 274.

The team standings did not change: Hugh Long's "Tender" team is first; Ed Conley's "Tough" is second; and Ed Allan's "Strap" team is in third place.

Harry Fritts rolled a 205 game. Three game series of 400 and over were H. Fritts—248; Ed Parsons—238; Ed Conley—205; and A. Meyer—200.

Guests of the day were Orville Jones Jr. of Long Island, N. Y., Oscar Papineau of DeBary, who rolled a good game for a beginner.

The first go around ends Jan. 4, when new teams on a handicap basis will be formulated to start the final round of play, Jan. 11.

Sherman Gets Nod As Coach

NEW YORK (UPI) — Al Sherman, the "kid from Brooklyn" who guided the New York Giants' "fabulous old men" to another division title, today was honored as National Press International's United Football League coach-of-the-year for the second straight season.

head and chilled steel nerves when, as they say in Monte Carlo, the chips are down.

If you've ever tried to take a 10-foot putt for the sum money then you have a foggy idea of what the tigers of the tournament trail face week in and week out all year long. When they look at the ball they are trying to hit it through the nerve-shaking contemplation of a dollar sign. It takes more muscle than a guy ringing his front door bell at four in the morning.

As for endurance, playing 72 holes in three days, many times when the sun is making scrambled eggs of your brain, calls for resources of nerves when you consider the stakes. And, as for dexterity with the implements of the game, if you've never played golf you wouldn't understand anyway. If you have, then you know what a cursed and distressing business it can be when you have your "touch" one day and the FBI couldn't find it the next.

Having settled that, at least to my own satisfaction, I'd have to hold that Palmer's named this year makes him a good bet to win the Masters again, his second straight British Open, lost the U. S. Open to young Jack Nicklaus in a playoff and added such high events as the Texas Open, Tournament of Champions, Colonial Invitational and American Golf Classic.

Naming a few others who were the best in their own particular sport, I'd have to go with:

Baseball — Davis of the Dodgers, Frank Merriwell having retired.

Boxing — Sonny Liston, against any other two who want to fight him the same night.

Basketball — Will the Still Chamberlain, and give you 10 points.

Football — Y. A. Tittle, if the records are straight.

Auto Racing — Roger Ward, with nobody in the same league.

Tennis — Rod Laver, left-handed; which he happens to be.

Horse Racing — Willie Shoemaker, and name me somebody better if you really had to win one.

The guys with the stakes runners will tell you that the "shoe" may wind up as the best of all time. So you might not get too much argument there.

But selecting Davis could provoke a pleasant little hassle. This year you had Maury Wills steal 104 bases to break Ty Cobb's record; Mickey Mantle led the Yankees to another World Series triumph in which, for a change, the Bronx Bombers couldn't hum K. and that say-hey man, Willie Mays, was money in the bank for the Giants.

Yet, while the Dodgers blew the pennant playoff, Tommy D. was a slouch in leading the league with a .346 average, 122 runs batted in and 230 hits. That's a triple nobody has accomplished since Stan Musial did it in 1948.

Choose your weapons.

Emotion A Factor In Pro Tilt

NEW YORK — (NEA) — Emotion transcends every other factor when the New York Giants challenge the Green Bay Packers at Yankee Stadium Dec. 30 for the right to be called the best team in football.

A man asked Andy Robustelli, the defensive coach and end, how long he's been preparing for this National Football League championship game.

"Fifty-two weeks," snapped Andy, or since the Packers humiliated the Giants, 27-0, on a sand-like field in Green Bay Nov. 21, 1953.

Allie Sherman, the New York coach, cried the moment the Giants clinched the Eastern Division title.

"I waited a whole year for this," he said grimly, and you knew he meant the chance to play the Packers again.

The Giants' psyche was wounded by the ridicule that followed the Green Bay beating.

How they compare: Running — Jim Taylor gives Packers edge. Paul Hornung not in top shape, but Tom Moore is fine substitute. Alex Webster is only Giant threat, good short yardage man.

Passing — Y. A. Tittle outclasses Bart Starr. He's better under pressure, more accurate on the long toss, particularly adept in cutting up screens. Starr is smart field general.

Receiving — Again an advantage to Giants because of Del Shaffer. But no one matches tight end Ron Kramer or bulging for key third down yardage. Packers' Boyd Bowler has more speed than Frank Gifford, but not the Giant vet-

aran's savvy.

Offensive Line — No apologies needed for Giant forward wall. Darrell Deas at guard is unheralded star. But the Green Bay group, with four all-pro types (Ringo, Jerry Kramer, Thurston, Gregg) is the best in football. This is Packers' province.

Defensive Line — A stand-off. Jim Katavage and Andy Robustelli put on greater rush than Packer ends, but tackle Henry Jordan of Green Bay is more mobile than Giant interior duo.

Linebackers — Giants areufferable at corners. Rookie Willie, older Bob As unit, Packers have best linebacking in National Football League, featuring Forester and Currie at the corners. Big margin to Green Bay.

Secondary — Evenly matched. Green Bay's Jesse Whitton always does great job on Shofner. Adderley has been brilliant at halfback. But

Giant corner men Barnes and Lynch are top hands, too. Jim Patton for New York, Wood for Green Bay are fine roaming safeties.

It is estimated that motor vehicle accidents cause about 2,100 fatalities among U. S. servicemen annually, with most of them occurring while the GIs are off-duty.

Schooling Race Program Starts At Kennel Club

Pre-season schooling moves into its second session tonight as scores of foot greyhounds tune up for the regular campaign starting Jan. 5 at Sanford-Orlando Kennel Club.

A heavy schedule of 20 races is on the agenda, with the first event slated for 7 p. m. Veteran stars as well as promising pups are required to post qualifying times during the pre-season activity and come top flight racing is in prospect.

The fourth race, over the five-furlong mile, sports one of the most talented lineups, including Topkapi Ross and Bernacle Bob, named the top juvenile performer in the country last year.

Other stoppers to watch include Protocol and Jeff Mac in the 13th, Mac Tray, 1953 champion and Derby winner, in the 23rd and Fathom and Husky Dick in the 26th.

A heavy downpour just before post time failed to keep the Kennel Club from getting off to a fast start with the initial schooling program Tuesday night. A large crowd was on hand to see a 20-race card, highlighted by newcomer Pac Sac's victory in the ninth event.

Pac Sac, owned by Fred Trevillion, toured the five-eighths in 31.86 seconds to defeat 1953 inaugural winner OB's DDT.

FRECKLES AND FRIENDS CAPTAIN BARRY ALLEY OOP BEN CASEY THE PHANTOM

620 Die In Traffic; State Toll Is 23

MIAMI (UPI)—An elderly Winter Park couple died in a Christmas Day collision near Clermont, bringing the holiday traffic death toll for Florida to at least 23, the Highway Patrol said today.

Foster Roe Fanning, 73, and his wife, Jessie Minor Fanning, 80, were killed in a two-car accident on State Road 59, 4.8 miles east of Clermont.

The Highway Patrol said Fred Barnes, 32, Gainesville, was charged with manslaughter Tuesday when he ran head-on into another car while driving the wrong way in the wrong lane of Interstate Highway 4.

The accident, which occurred near Lakeland, took the life of Emmett Francis Fillum, 17, Lakeland, the driver of the other car.

At least three other deaths were reported on Christmas Day to climax the holiday weekend which started at 6 p.m. Friday and ended at 12:01 this morning.

A surge of Christmas Day deaths across the nation brought the four-day holiday to a sorrowful close today with the traffic toll within reach of advance fears.

The deaths of six children in a fire on a New York farm, of five persons in a car accident in a Texas rainstorm, of dozens of other motorists heading home in generally hazardous weather pushed the total holiday carnage to more than 800 persons.

Of this number, more than 620 were in traffic accidents, just short of the National Safety Council's original estimates of between 650 and 750 for the 102-hour period.

But the fatalities of Christmas Day, when the toll shot up by 180, smashed the hopes of the council that the final figure would be perhaps 200 less than the high estimate.

The breakdown:
Traffic 622; fires 100; planes 14; miscellaneous 78; total 814.

California led the nation with 99 traffic deaths, followed by Texas 53, Illinois 43, New York 33, Indiana 26, Georgia 24 and North Carolina 22.

Kennedy Gives Pardon To 'Jake The Barber'

BEVERLY HILLS, Calif. (UPI)—John (Jake the Barber) Factor returned to his home today with the "best Christmas present ever"—a pardon from President Kennedy that spared him from possible deportation.

It was confirmed in Palm Beach, where the president spent the holidays, that Kennedy had granted Factor a Christmas pardon on a 1943 mail fraud conviction.

The pardon, in effect, nullified deportation proceedings against the Southern California millionaire that were begun only last week by the U. S. Immigration Service. The proceedings were based on the conviction.

Factor was ecstatic over the news of the pardon. When told by United Press International at Palm Springs, Calif., where he spent Christmas, Factor called the pardon "just wonderful."

Factor served nine years in federal prison for conviction on several counts involving re-sale of bonded whiskey certificates. The complicated scheme involved inducing persons to turn over certificates, which in turn offered for sale to more than one person.

There's Nothing Like A French Chef Sometimes

MIAMI BEACH (UPI)—Thank goodness French chefs are so... so French.

Little Suzy Paquin strolled down the beach from her Surfside motel Tuesday full of Christmas goodies.

Soon, she was lost. A policeman spotted her standing alongside big Collins Avenue crying.

"Where do you live? What's your name?"

Suzy, from Montreal, speaks no English. Officer Terrill Williamson speaks no French.

An alarm was sent out over police radios for a solution to the problem. That's where Jean Yvenat, a chef at Tony Sweet's Restaurant, came in handy.

The tears were quickly dried and little Suzy was quickly reunited with her Christmas-vacationing family.

Wilson Services To Be Thursday

Funeral services for Mr. Fred R. Wilson, 76, Sanford attorney who died Monday at Fish Memorial Hospital in DeLand, will be held at 2 p.m. Thursday at the First Methodist Church, with Rev. John Adams Jr. officiating.

Burial will be in Evergreen Cemetery with Brison Funeral Home in charge of arrangements.

Mr. Fred R. Wilson

Mr. Fred R. Wilson, 70, of the University of Tennessee, is a well-known economist and author. He has written several books on economic subjects, including "The Economics of the Cotton Industry" and "The Economics of the Tobacco Industry." He is currently a professor of economics at the University of Tennessee.

Dick West Says

Schooling Fails Him

WASHINGTON (UPI)—It says on my college record that I completed a course in economics, but that has never been of any help to me.

My ability to comprehend the economic forces of today was acquired much earlier in my scholastic career in elementary school and kindergarten.

A case in point is a recent hearing held by a House agriculture subcommittee on textile subsidies.

As I understand the situation, the whole thing started back years when someone discovered that farmers weren't getting enough money for their cotton.

In an effort to remedy the deficiency, the government set up a system of price supports to make up the difference between the going rate and what was regarded as a fair price for cotton.

This worked fine except that it boosted the price so high it caused a slump in the sale of U. S. cotton overseas.

In an effort to remedy that deficiency, the government set up a system of export subsidies to make up the difference between the U. S. price and the world market price.

That worked fine, too, except that it enabled foreign textile manufacturers to buy American cotton at a lower price than American manufacturers were then able to sell cotton products in this country for less than U. S. manufacturers were charging for similar items.

The subcommittee, therefore, has been holding hearings on a new proposal to subsidize the sale of cotton products to make up the difference between domestic and foreign prices.

As I was saying, nothing my economic professor told us seemed to bear any relation to a situation like this.

It is more closely related to geography class in elementary school, where we studied the pyramids, and to kindergarten, where we read "The House That Jack Built." Not the Jack you're thinking of. This was before his time.

If the new plan goes into effect, and if it means what I think it does, the government will then be paying three cotton subsidies—one to get the price up, and two others to bring it back down again.

I don't know what that will lead to, but I should be able to figure it out as soon as I finish reviewing a book that we studied in high school literature class. It's called "Alice In Wonderland."

Phil Newsom Says . . .

Congo Still A Threat

As a world problem, the Congo is neither so old as Berlin nor at the moment does it present a comparable threat to world peace.

But on at least two counts, the Congo surpasses Berlin and in its resistance to peaceful solution rivals it on a third.

Berlin may be classified as a political problem, the Congo as a political and economic one.

The United Nations, as a whole, Berlin constitutes no financial burden on the UN.

In the Congo, the United Nations faces both financial and moral bankruptcy and the threat increases the longer success eludes UN efforts to restore Congo peace and unity. In both, the United States is heavily involved.

As it has for many months, the key to the present Congo crisis rests with a husky, genial man who for more than two years successfully has resisted pressure designed to force him to restore his separatist state to the authority of the Congolese central government.

He is President Moise Tshombe of Katanga province who announced secession from the republic of the Congo in the opening days of Congolese independence and has been able to maintain himself and his private army since largely with revenues from the Haute Katanga copper mining company.

When the United Nations first under the leadership of the late Secretary General Dag Hammarskjöld and now under U Thant, it has become ever more deeply committed to the premise that Tshombe must be forced to surrender.

Tshombe obviously is not without friends and supporters.

When Belgian Foreign Minister Paul-Henri Spaak and President Kennedy announced a determination to do something about Tshombe, Belgian settlers in his capital of Elisabethville responded with a barrage of rotten vegetables against the Belgian consulate and UN vehicles.

The Hute Miners whose tax returns of some \$40 to \$50 million a year have been going solely to Tshombe's support, pledge that if it is in the middle and must pay its taxes to the man who obviously is in charge.

But for the United Nations and for the central government, the situation could become desperate.

Impatience over the continuing Katanga stalemate within the central government parliament threatens to topple Adoula's government. Mounting anti-U. S. sentiment carries with it the threat that a new government would be strongly left-wing.

Strongly supported by the United States, Thant now seeks to block both export and sale of Katangese products to force Tshombe to his knees. But the way is not easy.

VISIT TO SAINT NIKITA

Dr. Crane's Worry Clinic

Martha's worried mother should adopt the strategy that Prof. Ehrlich uses on his own four youngsters. And please teach your child to read this newspaper more thoroughly. The front page, the editorials and the syndicated columns are the journalistic "meat & potatoes" so urge him to sample them before the desert (comics).

CASE 0-421: Martin T., aged 11, is feuding with his parents.

"Dr. Crane," his mother laments, "Martin won't sit in front of the TV most of his free time after school."

"But his daddy and I feel he should be out playing games or else reading and studying. 'So what is the fair thing to do in such a case?'"

Many wise parents offer their children a chance to see a limited number of TV programs—free!

Then, if the youngsters crave more TV entertainment, they must buy the extra time. For example, Prof. Eugene Ehrlich, of Columbia University, is a specialist in reading improvement.

He teaches college youth, as well as business executives, how to read swiftly. But he is an expert Applied Psychologist in his own home, too.

"I have four children," says Prof. Ehrlich, "each of whom must read one book a week in order to buy time in front of the television tube."

"No reading; no watching." That may seem somewhat stern to many of you unduly tolerant parents, but it requires firmness to rear children properly.

In the Ehrlich household, therefore, you can see that his four youngsters are developing a rich background of reading knowledge.

Their vocabulary, grammar and information levels are rising every week.

So they will go on to college with the second greatest insurance for scholastic grades, namely, excellent reading skill.

I. Q. or native intelligence is the first requisite. And the third is good study habits.

The Ehrlich children will thus have all three guarantees, for they have inherited top notch I. Q. and Prof. Ehrlich's insistence on their reading one book per week, in addition to their regular study habits, at the same time that it is becoming their reading ability.

It is a pleasure to salute Prof. Ehrlich as a superb Applied Psychologist, which is why I am passing along his formula to you other parents.

TV can be a great benefit but it is like the proverbial 3-edged sword. It can harm as well as help—if it is overdone.

The best hope for maintaining this Republic is to have all our youngsters become good readers.

For "readers" are more independent than mere "listeners." Marc Antony stamped the listeners at the funeral of Caesar and converted those to a lynching mob!

All mobs are led by speakers. For mobsters are listeners!

Did you ever hear of a mob resulting from the reading of books, newspapers or magazines? Certainly not!

Then please recognize the importance of teaching your child to be a swift, fluent reader. Start with his school books, but see that he widens his reading of this newspaper, too.

Don't let him stop with merely the comics or the sport pages. Urge him to dip into the editorial page and the syndicated features, such as this one, at least for a few minutes.

And send for my booklet "How To Tutor a Child At Home," enclosing a stamped, return envelope, plus 20 cents. Use it to speed up a child's reading.

(Always write to Dr. Crane in care of this newspaper, enclosing a long 4 cent stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

Lots of men wear four-in-hand ties but girls prefer beaver hanging on their neck.

A school principal says every schoolroom should have a radio. For sitting-up exercises, maybe.

A great mystery to most parents: Why can't school kids make out on their allowance?

Lots of college students learn to live quickly by the pen in letters home to Dad.

Hard knocks can really hurt you if you're the one who is doing the knocking.

Lyle C. Wilson Says:

Kennedys Edge GOP

WASHINGTON (UPI)—The Republicans are unfortunately hooked on a dilemma. House Republican Leader Charles A. Halleck is hanging by the seat of his pants on one horn. Senate Republican Leader Everett Dirksen dangles from the other.

Halleck and Dirksen are script writers, producers and stars of the Republican TV spectacular, "The Ev and Charley Show." Their show's Nielsen is slipping. It is suffering from the competition of a real spectacular, "The Kennedys."

"The Kennedys" is a Democratic "spec" gifted with sex appeal, political sex appeal. These Republican and Democratic shows do not occupy the same time slot but the comparison is obvious. The Republican dilemma is what to do about it.

The fact is that "the Kennedys" and "The Ev and Charley Show" are in a head knocking contest for public favor. The advantages in this contest lie so overwhelmingly with the Democratic production as to cause some of Halleck's and Dirksen's loving Republican friends to clamor for those stars to get off camera.

These loving friends would not abandon the Republican spectacular. But they would get new writers, new producers and new stars. In their anxiety for these changes, some Republicans contend that Halleck and Dirksen are presenting to the public a TV image of their party which is doing the party no good.

Worse, it is argued that the Dirksen-Halleck image is harmful.

The Democrats are content with "The Kennedys." They should be. President Kennedy stars at frequent intervals in what is known as the White House news conference. This spectacular takes place in a State Department theater with 200 or so newsmen and women in the supporting cast.

Supporting cast is the proper description, too, because these conferences are heavily loaded by their environment in favor of the president.

There are too many persons present to permit to take place a no-holds-barred news conference in the head knocking tradition of the meetings of the press with Presidents Hoover, Roosevelt and Truman.

So many are present that there must be discipline. So many are there that the follow-up question directed at a real spectacle is not asked, more often than not. So many bright and shining faces are upturned toward the president that he usually can silence one questioner by a finger gesture inviting another to sound off.

Of course, if the new invitee happens to be loaded for a jugular shot, the president has not improved his position. But the odds favor him. In short, the White House news conference shows off President Kennedy's attractive personality, quick mind and sly humor at their very best.

Then comes Mrs. Kennedy with her lovely face and figure strolling into the living rooms of TV viewers with tales of the White House decor. Very effective and unmatched, of course, by the GOP.

The Democrats' TV blockbuster came along this week when the president sat in your living room and mime answering questions. This performance was electronic voter bait sweeter, even, than FDR's soothing fireside chats.

Moslem theologians have lectured at Al-Azhar University Cairo, Egypt, since 972, but Cairo University, Egypt's first secular university, was founded as recently as 1908.

Peter Ebbon

Political Notebook

WASHINGTON (UPI)—In a matter of days the 80 governors, their legislatures, and all federal and state judges will be getting a fresh batch of recommendations on state legislative reapportionment.

These are authored by the Advisory Commission on Intergovernmental Relations, a 26-member body whose personnel runs from congressmen to county supervisors.

The commission decided to look into the subject last spring after the big stir caused by the Supreme Court's March 23 decision in the Tennessee reapportionment case.

The commission's recommendations, which cover the whole span of reapportionment problems, amount to a call for major constitutional reform in this field.

Keen interest in the proposals is expected from many of the state officials who will have them on their desks when the new legislative season starts in January. Among the interested parties is Gov. Nelson Rockefeller of New York, even though his state already has adopted a new reapportionment plan.

What the commission proposes:

State apportionment procedures should not be left to statutory whim but should be clearly spelled out in state constitutions.

To assist that purpose, constitutions should include a fixed percentage figure to express the population deviation to be allowed between the various legislative districts. The commission suggests 10 per cent. This would apply, of course, where apportionment is strictly on a population basis.

The "draft language" on this proposal indicated that vague constitutional phrases calling for districts "as nearly equal as possible" have produced monumental headaches. Also declared is the futility of now and where district lines are to be drawn.

State legislatures are advised upon reapportionment problems, amount to a call for major constitutional reform in this field.

UN Approves Yemen Body

UNITED NATIONS, N. Y. (UPI)—The General Assembly accepted a resolution of Yemen's revolutionary government, newly recognized by the United States, before adjourning its 17th annual session early today.

This was the first General Assembly in memory to end before its target date. Adjournment had been set for Saturday.

The 116-nation world parliament is expected to be called back into special session, probably in May, to consider the problems of financing the highly expensive peace-keeping operations of the United Nations.

In its final action before the gavel fell at 12:05 a.m. the assembly voted 74-3 with 28 abstentions, to accept the report of its credentials committee which recommended recognition of Yemen's revolutionary government.

It also withheld approval of Communist Hungary—as it has every year since the 1958 freedom revolt—and, over Communist objections, upheld the right of the Formosa government to hold China's UN seat.

Letters

(Ed. Note: The following letter was sent to Max Brewer, State Road Board member, and a copy was sent to The Herald.)

Mr. Max Brewer
State Road Department
Tallahassee, Fla.
Dear Sir:

During the past few weeks there have appeared in the newspapers articles in connection with a proposal by certain interests to build a bridge across Lake Monroe from City of Sanford to the village of Enterprise.

At a meeting of the DeBarry Chamber of Commerce held on December 14, 1962, a resolution was adopted opposing the proposal of the Seminole Chamber of Commerce for the re-routing of Highway 17-92 northward from French Avenue in Sanford via a bridge to be constructed across Lake Monroe to the Village of Enterprise, connecting with the Orange City-Enterprise Road and Interstate Four.

The proposed route would merely duplicate adequate existing highway facilities; it would deprive tourists of a scenic drive along beautiful Lake Monroe on present Highway 17-92, and the few miles alleged to be saved by this huge expenditure of tax money would not justify the project.

It is respectfully requested that the above resolution be seriously considered if and when the proposal comes to your attention.

Your very truly,
Glenn G. Smith
Executive Secretary
DeBarry Chamber of Commerce

**Two Families
Crash Through
Berlin Barrier**

BERLIN (UPI)—Two East German families, including four children, dodged Communist gunfire in an armored bus today and crashed through barriers to freedom in West Berlin.

Eight machine pistol bullets fired by Communist guards hit the bus, but the only injury was a glass splinter cut received by the driver.

The escape was so carefully planned that the families brought along their belongings, including a living room clock, five soft cushions and a doll carriage.

The bus, owned by one of the men in the party, smashed through three barriers on the main highway to Berlin and made it safely to the U. S. Army checkpoint on the edge of the Western sector of the city.

At a West Berlin refugee camp later, the escapees said they had planned to flee on Christmas Eve but had to defer the venture because the bus radiator froze. They said they stayed up all night to thaw the radiator.

As part of the plan, the refugees placed on the rear of the 30-seat bus a sign reading "repair shop car" to make police think it was going on a repair trip.

**Church To Get
New Organ**

By Mrs. Clarence Snyder
Rev. Ernest Bolck, pastor of Good Shepherd Lutheran Church, announced today that the church hopes to have its new "All States" organ installed in time for the Christmas services.

Some time ago, when an out of state visitor contributed to the organ fund, it was decided to name the organ the "All States" and to solicit funds for its purchase. Members wrote letters to relatives and friends in every state and enough money has been received to place the new organ in the church.

Contributions are still being requested, however, from both out of state and local friends since full payment will not be completed on the organ when it is installed. It is hoped that out of state visitors as well as local friends will worship at Good Shepherd and enjoy the music.

LITTLE FRENCH DOLLS appearing for South Seminole Elementary School's Christmas Program last Wednesday night were Carol Lynn Mabson, Leanne O'Conner and Catharine Douglas, left to right, top photo. Toy Soldiers, bottom photo, were Jay Becker, Mike Poore, Billy Ryan, Gary Miller, Curtis Ford, Mike Potter, and Randy Cubbage, front row; second row, Marty Williams, Gary Hoag, Gary Elder, Mark Hawthorne, Lester Britton, Patrick Lucas and LaRoy Cadiz. Both groups were first graders. (Herald Photo)

LITTLE JIMMY KLING, all tuckered out after visiting Santa last Thursday night, apparently didn't feel too much like playing with the toy auto he received. On the other hand, Ann Elizabeth Tope appears to be pretty well pleased with her dolly and even had a smile for the photographer. Both Jimmy, son of Mr. and Mrs. Alton Kling and Ann Elizabeth, daughter of Mr. and Mrs. Robert Tope, saw Santa for their first time at the Altamonte Springs Community Christmas Party.

ALTAMONTE ELEMENTARY students of Mrs. Trene King's sixth grade had as their holiday project the making of placards depicting the Twelve Days of Christmas which were chosen by Principal Frank Gore to decorate the lunchroom. Shown with one of the placards are, from left, Patti Swafford, Valerie Wymore, Kent Planck and Raymond Michaux. Carol Sullivan is in back at right near the tree. (Herald Photo)

OHH! I DIDN'T KNOW HE WAS SO BIG! says this little girl as she is "escorted" up to meet the man at the children's party at the Sanford Naval Air Station Friday. (Herald Photo)

Navy Men Hosts To Area Kids At Yule Party

Thirty-one children from four area families were guests of the men of the Sanford Naval Air Station, the Army, Air Force and Navy, and the Acey Deucey Club at the annual NAS children's Christmas Party. The children, accompanied by four adults and representatives of the various agencies who sponsored the party were taken on a tour of the Naval Air Station, then enjoyed a turkey dinner at the Acey Deucey Club, followed by a visit from Santa Claus, who arrived by jet. More than \$700 worth of food and merchandise, courtesy of Sanford merchants, was given to the four families along with the toys and presents for the children. Ed Tanner, AT1 and Jack East, member of the advisory board of the Acey Deucey Club, were in charge of all arrangements, and members of Epsilon Sigma Alpha assisted by wrapping the gifts. Mrs. John Becker, wife of the club manager, served as hostess and Capt. Robert Ware of the Naval Air Station and Capt. Joe Tally of Hatwing One paid a visit to the children at the party.

LYMAN HIGH FHA members Linda Wells, left and Chris Glenn display two of the 30 dolls dressed by the chapter as a service project. The entire group, which was turned over to the Marine Reserve's "Toys for Tots" campaign, was shown last week when the Future Homemakers entertained at a tea honoring the school faculty. (Herald Photo)

Lyman High Future Homemakers Entertain

By Jane Casselberry
 Lyman High School's Chapter of the Future Homemakers of America entertained members of the school faculty last Wednesday afternoon at a tea held in the Home Economics suite. The club plans to make the faculty tea an annual event. Miss Marcia Lyons, president, and Joanne Chubb, president-elect, presided at the refreshment table which was beautifully decorated with lighted candles and a holiday centerpiece. The fancy party sandwiches and cookies served were all made by girls in the club. On display were 30 dolls which the club members cleaned and dressed as a service project for the Marine Reserve Toys for Tots campaign. Each girl in the Home Economics classes was required to make an original Christmas decoration. These also were on display and added a festive air to the occasion.

Aliens Reminded To Register

All aliens will be required to file address report cards with the Immigration and Naturalization Service during the month of January, it was announced today by Edward P. Ahrens, service director in Miami.

All non-citizens, except those in diplomatic status, foreign representatives of certain international organizations and those admitted temporarily as agricultural laborers, are required to file the address report. Cards are available at all United States post offices, and failure to file may result in a fine of \$300 or 30 days imprisonment.

Economy Up

JACKSONVILLE (UPI) — The Florida State Chamber of Commerce reports the economy of the state is headed toward the end of the year on an up-swing which will provide a foundation on which to build in 1963. The chamber said the economy showed sizeable gains over 1961 in most categories and would help provide an overall cushion for the agricultural losses suffered in the recent freeze.

Hopes Of Ending Cuba Crisis Fade

UNITED NATIONS, N. Y. (UPI) — Hopes of settling the Cuban crisis by Christmas dwindled today with the failure of another round of talks between U. S. and Soviet negotiators. No further negotiating session was scheduled as a follow-up to unusual Sunday meeting which failed to produce any progress toward a procedural settlement of the crisis. The continued stalemate virtually eliminated any possibility that an agreement would be reached by the holiday as had been hoped.

Gators Work On Passing

JACKSONVILLE (UPI) — The Florida Gators boned up their passing offense with two drills Christmas Day in preparation for their Dec. 29 meeting with Penn State in the Gator Bowl here. Lefty quarterback Tom Shannon threw most of the passes to highlight the drills. The sophomore, who has been running the first unit on offense, tossed to ends Ray Brown, Sam Holland, Floyd Dean and Bruce Starling. Sophomore halfback sensation Larry Dupree and halfback Jerry Newcomer were also targets for passes.

Dear Abby: By Abigail Van Buren

DEAR ABBY: What is wrong with a woman who pretends not to know that her husband is having an affair with a neighbor when everybody else knows it? I told her last summer and she just laughed and said she didn't believe it. But I notice she is losing weight and looks terrible, poor thing. The lady who is carrying on with her husband is always at their house setting like she is a good friend to the wife when she just wants to be around the husband. How can I get the poor wife to realize this woman is stealing her husband, right from under her nose?

DEAR NEIGHBOR: Anyone who would presume to tell a friend that her husband was having an affair with another woman doesn't know the meaning of friendship. Your imagination could be working overtime. Give it a rest. And rest your mouth, too.

DEAR ABBY: I have been having the same dream over and over. I wonder if it means anything. I dream that I am a big bird, soaring through the air. I fly over the mountains and water. I feel so clearly, but I always have the feeling of not being able to cover enough territory. Does it have any meaning?

Jacoby On Bridge By Oswald Jacoby

North's one-suit response is not recommended as a steady diet, but he felt that he should bid in view of the opponent's vulnerability. He failed to shut out East, but nevertheless he did not exceed beyond all expectations.

We The Women: By Ruth Millett

The half-wit housewife is the newest neorealist in television commercials. Whether one-sided or two-sided, she is selling the products they are paid to sell.

AF May Give Up On Texas Tower

WASHINGTON (UPI) — The Air Force probably will abandon next year the remaining two of three "Texas tower" radar stations built on off shore sea platforms at a cost of more than \$40 million in the 1940's.

Originally, the word "cattle" meant "goods; property." The word now is commonly used to mean cows, bulls and steers but also is frequently applied to domestic animals collectively, such as goats, sheep and swine.

**Winter Storm
Warns Counties
Holiday Hazard**

Winter storm warnings issued for the entire state today as the front of a powerful cyclone moved from the Gulf of Mexico toward the coast.

The storm is expected to bring heavy snow and sleet to the entire state, with the heaviest snowfall in the mountains. It is expected to arrive in the state today and to be in full force by tomorrow.

The weather was bad from the mountains, where much snow was reported. It is expected to be in full force by tomorrow.

Twenty-mile an hour winds are expected to blow from the east, with gusts to 30 mph. It is expected to be in full force by tomorrow.

Several highways were closed today because of the snow. It is expected to be in full force by tomorrow.

Several highways were closed today because of the snow. It is expected to be in full force by tomorrow.

**Donald C. Bartle
Dies In Hospital**

Donald C. Bartle, 64, 110 Oak St., Sanlando Estates, died Monday at Seminole Memorial Hospital.

He came here from Onida, N. Y., in 1939, where he was foreman in an aviation plant. He was a member of the Baptist Church, a member of Clinton Lodge 108, F and AM, a Scottish Rite Mason, 32nd degree, and a veteran of World War II.

He is survived by his wife, Esther; three sons, Berry, Douglas and Thomas; two daughters, Margaret and Susanne, all of Sanlando, and his mother, Mrs. Margaret M. Bartle.

Services will be held at 4 p.m. Thursday at Grambow Funeral Home, with Rev. Hardwood Steele officiating. Burial will be in Glenhaven Memorial Park in Winter Park with Masonic services at graveside. Grambow is in charge of arrangements.

Men's Club To Meet

The Men's Club of the Cassberry Community Methodist Church will hold a covered dish supper and business meeting at 7 p. m. Thursday in Weaver Hall.

Exact location of the Mount Sinai mentioned in the Bible is not certain. It is thought by some to be Jebel Musa or Jebel Serbal, in the south of the Sinai Peninsula.

Sarepta Home Fund Spurred By Donations

(Larry Verbal will be in New York for the holidays and Around The Clock will be written by members of the editorial department.)

During the Christmas rush, Sarepta Home director Mrs. Tamar Braden announced today that \$232 has been received in donations to the improvement fund and some work on the building will start Saturday.

Members of the Casselberry Lions Club visited the home Wednesday and presented Mrs. Braden with a check for \$40 which represents the first of the club's donations to the fund. The presentation was made by Clyde Kerca and Ben Evans, co-chairmen of the organization's sight conservation committee.

Making the donation to the home on behalf of the club, Kerca said, "This project merits the help of the whole county and we hope all the service and civic clubs in the area will get on the wagon and give the Sarepta Home a helping hand."

The most pressing improvement needed by the home is a new steel fire escape to replace the present wooden structure which is in very bad condition, according to A. K. Shoemaker Jr., who is coordinator of the fund drive and advisor on the technical aspects of the improvement. Mrs. Braden reported that

a number of people have offered to donate a Saturday morning's work time to the cause, and also that material donations are being made, including one for the asbestos to provide a ceiling for the home's furnace.

In addition to the rewiring of the home, the new fire escape and the protection needed for the furnace, Shoemaker said some of the other projects to be taken care of include replastering some of the rooms, replacing screens and a great deal of painting needed around the building.

He said the home easily could use \$1,000 in making improvements that are very much needed.

A cost control program will be set up by the coordinator

to insure the maximum use of all donations for the home's benefit. He indicated that the current program was the start of a long range plan to upgrade the home, and to eventually make possible the expansion of the facility.

Dr. Frank Leone, County Health Director said today the Sarepta Home is a most important part of the aged care in the county and he urged everyone to "get behind the drive and do all they can to help bring the facility up to standard."

Donations for the fund can be sent to Loring Burgess at the Florida State Bank, and checks should be made payable to the "Sarepta Home Improvement Fund."

The entire Sanford Kiwanis Club served as honorary pallbearers for the late Fred Wilson at services today as a last memorial to their former lieutenant governor, who was held in the highest esteem by his fellow members.

Big new neon sign went up on the Valdez Hotel Wednesday. The two ladder trucks and hoist attracted a great deal of attention as the huge sign was swung gently and carefully into its appointed niche.

Jaycees were scheduled to tour the Herald plant today, to see all the unseen mechanical forces that mesh, move and roll all those Herald's off the presses.

A birthday cake will be the feature attraction at the next Oviedo council meeting Jan. 7. Clerk Dot Courier's birthday is the ninth and Mayor Lee Gary's is the sixth.

Mayor Gary says the biggest project the town has at hand is getting the ACL or the State Road Dept. to reconstruct the new crossing downtown. If they don't, additional auto mechanics will have to be imported to repair front end damage to cars crossing the railroad tracks, he predicted.

That adjourned meeting of City Commission will be at 8 p. m. today. On the agenda is a discussion of the possibility of the city acquiring the old post office building and using it as a library.

Enterprise residents report they are mighty happy those directional signs pointing the way to the community finally have been put up on the Interstate highway.

Cille's restaurant was broken into Tuesday night and some cigars and 300 pennies stolen. The thing that aggravated the management wasn't the cigars or the pennies, but whoever did it had the gall to eat a box of candy while engaged in their nefarious act.

The late Fred R. Wilson took a great interest in the history of Florida, had done a lot of research in the matter, and made many interesting talks to civic groups on the early pioneering days of the state. At the time of his death, Mr. Wilson was working on his autobiography, which he called "After 60 Years."

For some reason, when it rains out in Casselberry, the fire alarm seems fit to sound off. It happened again this week during the downpour, and all the local fire laddies dutifully turned out to watch Fire Chief Paul Bates turn the howling thing off.

Downtown Sanford parkers are reminded that the free parking on meters went by the boards right after Santa Claus went through. Tickets are being given now.

Kind-hearted service men, Navy first and second class petty officers, Army and Air Force tech and staff sergeants contributed over \$700 in cash for the children's Christmas party at the Acety Deucey Club at the Sanford NAS. The Herald gave credit for gifts to Sanford merchants in Wednesday's paper. Generous though they are, the merchants weren't in on this one. All credit goes to the service men and the Acety Deucey Club.

Bank Robber Has Short Career

SAN FRANCISCO (UPI) — Richard D. Holtan, 27, Sioux Falls, S. D., robbed a bank with an FBI agent standing behind him Wednesday and was arrested before he could get the money in his pocket.

Broke, hungry and tired from a night of sleeping at the bus depot, Holtan decided to rob the downtown Hibernia Bank.

He wrapped a transistor radio in a newspaper and then handed teller Maureen Laval, 24, a note. It read: "This bomb in the newspaper can blow up the whole block. I want \$1,500. Please be careful."

She handed over \$1,400.

Then the man behind Holtan in line—FBI agent Monte Hall—asked Miss Laval, "Have you been robbed?"

The flustered teller managed a nod.

Hall collared Holtan before he could step away from the window.

Holtan told authorities he had arrived Saturday night with no money and had been "bumming around" ever since.

Hall said he became suspicious after he noticed the shabby, unshaven Holtan lurking behind the bank's Christmas tree.

Newest Satellite Can Tap Phones

NEW YORK (UPI) — A secret American satellite, so sensitive it can tap Russian telephone messages and pinpoint missile launch sites by their radio guidance signals, now is orbiting the earth. Newsweek magazine reported on Wednesday.

The robot inspector, called "The Ferret," contains electronic and electromagnetic sensors to pickup clear, coded or scrambled transmissions and relay them to United States listening posts, the magazine said. It was developed by Lockheed Aircraft and (RCA), according to Newsweek.

Stocks Higher

NEW YORK (UPI)—Stocks were irregularly higher in routine trading at the opening today. Many brokers interpreted Wednesday's show of strength in two ways: the beginning of the traditional year-end rally and a sign that the selling for tax purposes has been overcome.

The Sanford Herald

WEATHER: Partly cloudy, widely scattered showers through Friday. Cooler.

BEN EVANS AND CLYDE KERCA OF THE Casselberry Lions Club, present a check to Mrs. Tamar Braden, director of the Sarepta Home, as their initial contribution to the current fund drive for improvements.

Shopping Center's Bids Set

Bids will be opened Jan. 14 for the construction of 70,000 square feet of store space at the Seminole Shopping Plaza at the corner of SR 400 and Hwy. 17-92, George Pennington of East-Cora Shopping Centers, Inc. said today.

The unit to be constructed will house a large McCrory's variety store, a Liggett's drug store and nine smaller service stores, he said.

Pennington said a lease had been signed with Trade Winds Cafeteria, but is uncertain whether or not they are to be included in the current plans.

Construction is expected to start before Feb. 1, Pennington said.

The completed shopping center, according to Pennington, will be very much like the company's Parkwood Plaza on West Colonial Drive, Orlando.

There is also included in the planning for the south end installation of a large theater and a department store.

New Cold Wave Drops Mercury 30 Below Zero

By United Press International

A new onslaught of frigid northern air moved into the northern plains today on the heels of a cold wave that sent temperatures to more than 30 degrees below zero.

Temperatures were cold but skies generally clear across the nation today. The mercury was well below the freezing mark from coast to coast in the northern states.

The new cold air mass was not expected to bring readings as low as Wednesday when the official low reading for the nation was 31 below at Craig, Colo., and zero temperatures swept as far south as Oklahoma.

It was 25 below at Viroqua, Wis., 23 below at Dubuque, Iowa, and 20 below at Minneapolis-St. Paul, Minn., and Duluth, Minn.

San Francisco received one of its rare freezing temperatures. The mercury slumped to 31 in the Golden Gate area.

While most of the nation chattered and shook in the cold, the mercury in Florida topped at 83 above at Fort Myers and 81 at West Palm Beach and Orlando, driving thousands of tourists to the beaches.

Charge Renewed

MOSCOW (UPI) — Premier Nikita Khrushchev today renewed charges that the West was guilty of espionage.

922 More Cubans Land

PORT EVERGLADES (UPI) —The freighter African Pilot, looking like a wartime hospital ship, docked here today with 922 Cuban relatives of the freed Bay of Pigs invasion prisoners.

The black-hulled freighter, a big Red Cross emblazoned on its side, actually was a floating medical clinic. Authorities reported it carried nine cases of communicable diseases aboard. At least four cases were measles among small children.

The sickness aboard the vessel, however, was not severe enough for the African Pilot to be quarantined, the Red Cross said. Three ambulances waited at dockside to carry the sick to hospitals. Besides the nine communicable disease cases, there were two other persons requiring medical treatment.

The passengers, mostly women and children, were in many cases literally sick with excitement at their unexpected opportunity to escape the Cuba of Fidel Castro and get to the United States.

The ship that brought them back was the same one that took a shipment of the ransom supplies to Cuba to buy the freedom of captives taken 30 months ago during the abortive attempt to storm Cuban shores by an invasion force.

The 14-hour, 10-minute voyage during the warm night was over calm seas.

Crewmen of the freighter were moved at the sight of the refugees they carried. "After seeing them, I do not think I can ever complain again," one crewman said.

Although some of the refugees slept peacefully, many others nervously paced the deck or sat about talking about their good fortune in getting away.

As the ship pulled out of Havana some Cubans crowded by the dockside shouted "Cuba al, Yanqui no," the anti-American chant of Castroism. But others openly cheered.

Processing of the passengers by immigration, customs and public health authorities was expected to take about two and one-half hours here, after which the relatives were to travel by bus to Dinner Key Auditorium in Miami, about 25 miles south, for a mass reunion with the 1,113 invasion prisoners who were airlifted to Florida Sunday and Monday.

There were reports in Miami that another 2,500 Cubans related to the prisoners were waiting for their chance to leave their country for exile in the United States.

Also still in Cuba, but apparently with a chance of being freed, are 21 Americans jailed for various charges. Prisoner negotiator James B. Donovan said when he returned Monday night that Castro had given him a firm pledge on early release of the Americans, pending further discussions on which Donovan declined to elaborate.

Board To Hear Loan Request

A resolution authorizing reports for a loan of \$30,000 from the Commercial Bank at Winter Park, will be presented to the Altamonte Springs town council at their meeting Wednesday night, according to Mayor W. L. Swofford.

The money will be used to purchase the Southern Gulf Utilities, Inc., plant now serving the Hillcrest section of the city.

A purchase price of \$22,500 was negotiated several weeks ago with the utilities company officials in Miami. The additional \$2,500 will come from funds already available to the town.

Opposition Cited To Cities' Move

ST. PETERSBURG (UPI) —The City of St. Petersburg has been threatened with a suit if it allocates tax money for use in a big-city fight for better reapportionment of the State Legislature.

State Rep. Charles R. Holley of Pinellas County notified Mayor Herman Goldner by letter Wednesday that he would oppose any use of tax money in the fight.

A group of representatives from larger cities in Florida met recently in Tampa to discuss such a court fight for reapportionment. At that time, Goldner was named to head a committee to draft possible action by the cities.

The St. Petersburg City Council later gave tentative approval to an expenditure of tax money if such action was determined to be legal.

Indian Won't Tell Where \$645,000 Is

ALBUQUERQUE, N. M. (UPI)—Joe Suazo, a Santa Clara Indian who presumably knows where \$645,000 in gold bullion is hidden on his reservation, was in jail today because he won't tell where.

A grandson of Missouri's notorious bandit Jesse James claims that James hid the gold—1,200 pounds of it in 90-pound ingots—on the Santa Clara reservation in northern New Mexico after the Civil War.

Jesse L. James of Manitou, Colo., said his grandfather gave him the gold before he died, and told him how to find it. The gold was not looted from robberies, he said, but was collected by James to help finance a hoped-for second rebellion in the South.

James convinced U. S. District Judge Waldo Rogers at

Fresh Citrus Curb Removed Tonight

LAKELAND (UPI) — The 10-day embargo on all shipments of fresh citrus ends tonight at 6 p. m. and those grove owners whose crop escaped damage from the freeze can expect premium prices for their citrus.

The embargo was put into effect Dec. 17 to assure that no unwholesome fruit was shipped from the state to cause long range harm to the citrus industry markets.

Wednesday, the Florida Citrus Commission decided not to impose an additional 14-day embargo on freeze-damaged fresh citrus when the embargo ends tonight.

John T. Lesley, of Tampa, speaking for the executive committee of the Florida Fresh Citrus Shippers Assn., told the committee the association felt an additional embargo was not necessary.

He said the association felt the grade standards set by the Growers Administrative Committee and the rigid inspection by state and federal authorities would be enough to assure that no unwholesome fruit was shipped.

George Copeland, director of the State Inspection Service, warned harvesting crews against using Valencia oranges at this time by mixing them with other fruit. He said such action could result in the whole load being condemned.

He said the same thing would apply to oranges which have dropped to the ground.

Skybolt, Tax Cut On President's Panel Agenda

PALM BEACH (UPI) — President Kennedy and his top defense officials met today for a final decision on the huge military budget for fiscal 1964 which will write the controversial Skybolt missile out of the nation's arsenal.

The Pentagon delegation arriving here from Washington was headed by Defense Secretary Robert S. McNamara who said "a decision will be made today" about Skybolt.

White House officials said the series of pre-Congress conferences got off to a good start Wednesday when Kennedy met with Treasury Secretary Douglas Dillon and other top fiscal and economic advisers. In this conference, the president approved the basic structure of the tax reform program, including a top-to-bottom tax cut.

The White House said today's conference had a dual purpose—a year-end review of the military situation and a final look at the military budget for the next fiscal year.

The fate of the Skybolt weapon was a foregone conclusion; it can be saved only by a complete reversal of announced policy on the part of Kennedy and McNamara. Gen. Curtis LeMay, Air Force chief of staff, was expected to battle until the last possible moment for the Skybolt program.

Before seeing the defense group, Kennedy met at his oceanfront holiday headquarters with the Israeli foreign minister, Mrs. Golda Meir.

Accident Sends Man To Hospital

An accident this morning three miles south of Osteen, resulted in minor injuries to Robert Morris, Osteen, and the hospitalization of Garvey Samson, Orlando.

The mishap occurred when Morris attempted to pass another car in the dense fog and hit a pickup truck driven by Samson head on, the Highway Patrol said.

Morris suffered bruises and abrasions and Samson was brought to Seminole Memorial Hospital with lacerations on both knees and an undetermined chest injury.

Morris was charged with improper passing by Trooper James R. Hooks of Volusia County, who investigated the accident.

Handy Wife

PERTH AMBOY, N. J. (UPI)—New Jersey's newest congressman, Democrat Edward J. Patten, didn't have to go far to find a clerk for his Washington office—he appointed his wife. "Everybody knows there's no equal to her," he said.

HAPPY NEW YEAR

It's time to extend our best wishes for happiness in 1963, to our many friends and customers — and to say "thank you" for your patronage.

Blood Filmed

DURHAM, N. C. (UPI) — Duke University reported Wednesday that motion picture film has been used to record the circulation of blood inside the eyeball.

Youths Meet

WASHINGTON (UPI) — More than 12,000 teenagers from all parts of America converged on the capital today for a three-day religious rally sponsored by Youth for Christ International.

Ricky To Wed

LOS ANGELES (UPI) — Singer-actor Rick Nelson and Kristin Harmon, daughter of sportscaster Tom Harmon, plan to marry some time this spring. Harmon and his wife, the former film actress Elyse Knox, announced the engagement Wednesday.

Seaplane Missing

SAN DIEGO, Calif. (UPI) — A Marlin seaplane with 13 officers and men aboard is missing from the North Island naval air station, a Navy spokesman said. Names of the five officers and eight enlisted men aboard were withheld pending notification of next of kin.

5 More Escape

BERLIN (UPI) — Five more East German refugees escaped to West Berlin unnoticed by Communist border guards, bringing to 14 the number who have fled since Christmas, West Berlin police reported today. Four men crossed the border early today and another escaped Wednesday night.

Children Die

OGDEN, Utah (UPI)—Three children plunged 500 feet to their deaths Wednesday night when they slipped on icy rocks while trying to climb down a mountain near their homes. The boy and two girls fell down a sheer cliff in the Waterfall Canyon area about two miles from the base of the mountains east of here.

Threat Denied

WASHINGTON (UPI) — The Venezuelan Embassy Wednesday denied allegations by the wife of former dictator Marcos Perez Jimenez that he would be executed if a U. S. court in Florida extradited him. The embassy issued a statement pointing out that Venezuela has no death sentence.
