CURB MARKET ENDS WEEK OF HEAVY BUYING

Whirlwind Finish Follows 4 Consecutive Days Of Increasing Interest Of Outside

Stocks Lifted In Rapid Movement

Oils, Motors And Utilities Lead Upward Trend Of Business

NEW YORK, Apr. 28.—(INS)—Finishing up the week in whirlwind fashion following four consecutive days of mounting outside interest, the curb market experienced early today another day of break-neck activity and general strength. Week-end profit-taking hampered the movements in various issues, yet generally stocks were lifted with such rapidity that the ticker tap out the past quotation 55 minutes after the noon hour.

Today, performed in a remarkable fashion, rising 17 points to well above the 600 mark. None of its current brilliant record had been bettered, a further rise of more than 7 points carrying the stock to 617.14, the best price for some time.

The upward swing in stock prices in the last session of the exchange market today was centered in the oil, motor and utility stocks. Buying of the Standard Oil of New York and New Jersey, Sinclair Oil, Maryland and the Pan American, Chesapeake and Potomac, Consolidated Gas and Electric, and the Chesapeake and Potomac Telephone and Telegraph, were the leading features. The rails were comparatively quiet and inactive, but offerings were well absorbed.

Finance and Hudson moved in a similar way and Washington advanced 10 points to 110.00. Consolidated Gas continued its spectacular forward movement and reached a new high above 100, up 4 points. Demand for the stocks was persistent, according to reports from the numerous houses, and never was the supply so small as it is at present. It is understood that consolidated Gas will shortly announce the consolidation of a number of well known gas and electric light companies serving the New York Metropolitan district.

Police Of Chicago Scour City To Find Slayer Of Official

CHICAGO, Apr. 28.—(INS)—The eighth Chicago police officer to lose his life in the discharge of his duties since the first of the year was being mourned today when hundreds of his fellow officers scoured the city for his slayer.

The slain officer—the third shot by gunfire in nine days—was Detective Arthur East, 33, of down town station. He was instantly killed last night as he walked into a drug store which was being held up by two young bandits. The act was the first since the death of Detective East, who was shot in the back of the head by a bullet fired from a store window.

PLANES ARRIVE

WASHINGTON, Apr. 28.—(INS)—Three air mail planes which are being flown on trial runs on the New York-Atlanta air mail route arrived at Bolling field today from New York.

LEAVES SMALL ESTATE

DELAWARE, Ohio, Apr. 28.—(INS)—An estate of \$85,000 was left by the late Senator Frank B. Willis, an inventory revealed today. He left no will, the estate goes to the widow.

23 Airplanes Leave For Air Maneuvers

SEBRIDGE FIELD, ME. CLEMENS, Mich., Apr. 28.—(INS)—Twenty-three airplanes led by Major Thomas Laughlin, flight commander of the first pursuit group, Army air corps, left today for a non-stop flight to Washington. They will appear Monday in a special aerial drill over the National Capital at the request of President Coolidge and will then proceed to Langley field for battle maneuvers. A three week tour of eight army air corps posts in the East and South will follow.

YOWELL CRUISER CAPSIZES DURING BLOW YESTERDAY

Four Men On Boat Are Thrown Into Water And Are Craft Until Severe Wind Abates

Hurlled into Lake Mecon when the yacht belonging to Arthur Yowell, Sanford Department store owner, was capsized by the wind storm yesterday afternoon, Mr. Yowell and three other men, Jack Davidson, Harry Wilson and John C. Leonard, clung to the craft for two hours before the wind abated sufficiently for them to lose a rowboat and get to shore.

The storm struck the boat, which is a cabin cruiser, shortly after 1 o'clock, Mr. Yowell and Mr. Davidson were on deck at the bow of the yacht, where they were putting down the anchor. Mr. Leonard and Mr. Wilson were in the cabin below preparing a lunch. Mr. Leonard said they heard a terrific roar and saw a dark and fast moving storm of the storm of the boat when it went over.

Mr. Yowell, caught by the wind and unbalanced by the tilting of the boat, was thrown into the water. The others, clinging to the craft, saw Mr. Yowell being swept back and the four hung on together until about 3 o'clock when they were able to get into the rowboat and row to shore.

The boat at times was completely submerged by the high waves, and the wind carrying the sea under it, they said, making it impossible to raise it. The men lost all their clothing and shoes in the accident. All of them were good swimmers, with the exception of Mr. Wilson, who could not swim at all. A radio and victrola and all the interior furnishings of the boat were inundated with water and ruined. They were planning a dinner of pork chops, string beans and squash when the storm struck them.

Brother Of Famed Tennis Player Is Thought Murdered

NEW YORK, Apr. 28.—(INS)—Grave fears that Ralph Richards, brother of Vincent Richards, tennis star, was slain by gangsters on whose pals he had equalled, was expressed by federal agents today. Richards, captured from the custody of city detectives, prohibition agents and a deputy United States marshal on Apr. 18 and has not been heard of since.

Body Of Lockhart Is Shipped To Indiana

DAYTONA BEACH, Fla., Apr. 28.—(INS)—The flower-wreathed body of Lockhart, automobile owner who lost his life on the speedway Wednesday, was shipped today to Indianapolis for burial.

At the request of Mayor E. H. Armstrong, memorial services in Lockhart's honor will be held in all churches here tomorrow. William F. Sturm, Lockhart's nephew, announced that the special in which Lockhart lost his life will be rebuilt for further trials next winter. He declared he believed this would be Lockhart's last.

OCEAN FLYERS WILL RECEIVE HUGE OVATION

New York's Official Welcome Will Start Today When Gallant Airmen Land At Field After Return From Capital

Banquet Planned For Monday Night

Parade From Battery To Central Park Will Offer Public Chance To See Aviators

NEW YORK, Apr. 28.—(INS)—New York's official welcome to the three gallant aviators who flew across the Atlantic from Ireland was to start today with all the pent-up enthusiasm of a long delayed celebration. It was to be a stirring tribute to public honor that is to come Monday with a parade from the Battery to Central Park, and the following night when 2,500 guests gather at the city's banquet in the Commodore Hotel.

Awaiting the fliers when they arrive at Mitchell Field from Washington this afternoon were to be Mayor Walker, Grover Whalen, chairman, and members of his reception committee, representatives of the Irish, Free State and the leading German, American and Irish-American societies, government and army officials.

With them also was Dr. P. F. F. F. F., a prominent official who will make the welcome and commendations of the aviators. Captain Keel and Major Fitzmaurice, who flew across the Atlantic, will be the guests of honor at the banquet.

Monday morning at 10 they will leave the Commodore Hotel and be taken down the Battery to the Battery, where they will be met by a band and a parade. They will then be taken to the Commodore Hotel, where they will be the guests of honor at the banquet.

Third Political Bee For Candidates To Be Held On Monday

Seminole County's three dozen political aspirants will make another bid for the votes of the county's citizens Monday night when they appear at a third political mass meeting at Altamonte Springs called by the county democratic executive committee.

Among the candidates running for a county office will be Ruth Bryan Owen, prominent clubwoman, who spoke here a short time ago at a patriotic meeting. Her friends here announced that she was making a special effort to speak before the people of Altamonte Monday. She is already scheduled to appear at the barbecue at Chuluota next month.

A number of other candidates running for state offices are expected to appear at the meeting. All of them will be limited to talks of five minutes. R. J. Holly, county chairman, who will preside, announced today. The meeting will be held at the Altamonte country club house.

U.S. Distinguished Flying Cross Will Be Awarded To Aviators Of Four Nations

WASHINGTON, Apr. 28.—(INS)—The American distinguished flying cross will be conferred on four noted aviators from four foreign countries under a bill passed unanimously by the Senate today.

The fliers to be honored are Baron Von Hueneit and Captain Hermann Koehl, German; and Major James Fitzmaurice, Irishman, who led the Atlantic westward in the Bremen; Diomedes Costes and Joseph LeBlanc, French, who flew the South Atlantic westward; and Francisco De Pinedo, Italian, who hopped it both ways.

The House last unanimously adopted a resolution earlier conferring the cross on members of the Bremen crew. After an hour's debate the Senate also passed a bill to confer a special gold medal on Lincoln Ellsworth who flew across the north pole and Amundsen and Nobile in an Italian dirigible. This award was opposed vigorously by Senator Bingham (R) of Connecticut, who charged Ellsworth was a "rich young man, who hired Italians and used an Italian ship." He said the United States should not recognize such feats.

Senator Robinson of Arkansas, member of the bill, and Swanson (D) of Virginia, assailed Bingham for placing national prejudices above heroism. "I'll vote to recognize heroism by an American no matter how his feat is done," said Swanson. "I will not make him buy his plane in America before recognizing his heroism."

"Yes, we should have made Lafayette buy his uniform here before letting him join Washington's army," Robinson interposed. Bingham said Ellsworth was "merely a passenger on a heroic expedition" and therefore not entitled to honors. He pointed out that America has not yet given any award to the naval officers, led by Commander Reed, who first flew the Atlantic in the Navy. The bill finally passed without a record vote.

DEMOCRATS PLAN TO FINISH FIGHT ON SENATE TAX BILL

WASHINGTON, Apr. 27.—In the face of strong White House opposition, Senate Democrats today were prepared for a final fight on their plan for a \$235,000,000 tax reduction bill.

President Coolidge, while giving credit to the bill, said he would not sign it. He is known to be opposed to the bill. The House bill which provided a \$280,000,000 slash, also met with presidential disapproval.

Prospects of a presidential veto grew with the word from the White House. Democrats must have the \$205,000,000 limit or a \$200,000,000 cut at least is unavoidable. This was the situation, because the House already has exceeded the presidential limit by nearly \$30,000,000.

The administration tax bill will be introduced before the Senate Monday, at which time the Democrats will submit their plan as a substitute. Debate probably will continue for a week or ten days before a decision is reached.

A comparison of the reduction allowed in the houses of the committee to the Republican and Democratic plans in the Senate, follows:

Corporation, House, \$161,000,000; Rep., \$82,000,000; Dem., \$194,500,000.
Corporation Exemptions, House, \$12,000,000; Rep., \$12,000,000; Dem., \$12,000,000.
Small corporations, House, \$24,000,000; Rep., none; Dem., \$24,000,000.
Survivors, House, none; Rep., \$25,000,000; Dem., \$25,000,000.
Administration, House, \$85,000,000; Rep., \$17,000,000; Dem., \$18,500,000.
Club dues, House, \$300,000,000; Rep., none; Dem., \$5,000,000.
Automobiles, House, \$65,000,000; Rep., \$65,000,000; Dem., \$65,000,000.
Stock and bond issues, House, none; Rep., none; Dem., \$8,000,000.
Capital Stock transfers, House, \$10,000,000; Rep., none; Dem., \$10,000,000.
Produce exchange, House, \$3,500,000; Rep., none; Dem., \$3,500,000.
Cereal Beverages, House, \$200,000; Rep., \$200,000; Dem., \$200,000.
Wines, House, \$300,000; Rep., \$930,000; Dem., \$930,000.

All three plans carried some small increases in taxes, with a

FREAK STORMS VISIT SECTIONS OF SOUTHLAND

Rising Temperatures Are Predicted Followed By Heavy Weather That Batters Big Area With Winds And Snow

Tornado In Florida Causes Much havoc

Live Wires Torn Down By The Gales Result In Deaths To Three People In Two Cities

ATLANTA, April 28.—(INS)—Gradually rising temperatures were forecast today, following the freakish weather that stormed a wide area of the South yesterday and during the night with high winds, hail, sleet, and damaged crops, private property and public utilities.

South Georgia and Northwestern Florida, with many hundreds homeless from the Spring floods, suffered most from the high winds and near freezing temperatures. A tornado swept across Southwestern Georgia centering in Waycross and did thousands of dollars damage. Two were injured.

Another tornado swept across Florida from Bartow to St. Augustine and houses were unroofed and wires torn down. Damage to crops and trees as reported in Daytona Beach, Oklawaha, Leesburg, Deland, Sanford, Winter Garden, Ocala, Ocoee and Gainesville.

Live wires torn down by the storm killed two boys in Tampa, a man was killed in the same manner in Ocala, and a negro was killed when his flimsy shack collapsed at Dunellon.

The freak weather was accompanied by a 25-degree drop in temperature in a few hours. Snow fell in Knoxville, Tenn., the mountains of North Carolina and Eastern Kentucky and also in the Shenandoah Valley of Virginia.

W. R. Wood Will Take Madden's Place As Chairman Of Appropriation Group

WASHINGTON, April 28.—(INS)—Rep. Will R. Wood (D) of Indiana, will become chairman of the powerful Appropriations Committee of the House, succeeding Rep. Martin B. Madden (R) of Illinois, whose sudden death yesterday shocked the capital.

The Appropriations Committee is considered by legislators to be the most powerful single committee in either branch of Congress.

A number of other candidates running for state offices are expected to appear at the meeting. All of them will be limited to talks of five minutes. R. J. Holly, county chairman, who will preside, announced today. The meeting will be held at the Altamonte country club house.

Polish Flyers May Be On Way To U. S.

PARIS, April 28.—(INS)—The Polish flyers, Major Casimir Kapala, hopped off from Le Bourget airfield at five A. M. today, ostensibly on a test flight preparatory to their contemplated trans Atlantic flight, but they left a humming buzz of rumors behind them. The official announcement stated the fliers were leaving on a twenty hour trial flight along the French coast. But when their powerfully motored machine gracefully swept upward into the sky, it was loaded with a fuel supply calculated to carry the fliers across the Atlantic. Furthermore the weather all along the southern route which the flier had announced they eventually would take, was reported as perfect.

FLOODS MENACE NORTH CAROLINA AS RIVERS RISE

Overflowing Rivers Already Sweeping Over Farm Lands In Western Area; East To Face High Waters Tomorrow

RALEIGH, N. C., Apr. 28.—(INS)—A new menace—floods—was eminent throughout North Carolina today in the wake of torrential rain and heavy snow in the western section of the state. Larger streams in the western area left their banks this morning, spreading over adjacent farm lands. However, the area that was covered by water was small, according to reports here.

Larger streams in the east, rising steadily today, will pass the flood stage tomorrow and next day, the U. S. Weather Bureau said, in issuing preliminary flood warnings. The Cape Fear River was slated to reach flood stage tomorrow morning, and the Tar and Roanoke Rivers Monday.

Shriners Begin To Arrive In Miami For Annual Convention

MIAMI, Fla., Apr. 28.—(INS)—Heavy rain and low temperatures today greeted the incoming Shriners who will attend the 64th imperial council sessions which open Tuesday and continue for three days.

Although the bulk of the delegates and visitors will not arrive until tomorrow and Monday, thousands of Shriners and their families and friends were in town today. Many have passed through Miami to Key West and Havana for a few days stay before the meetings open.

More than 3,000 visitors applied to the Shrine hotel reservation committee yesterday for housing accommodations, which is a fair indication of the probable number who will be here. Estimates place the number of special cars which arrive tomorrow and Monday at more than 800. Four chartered steamships carrying a full cargo of passengers from Philadelphia, Baltimore and New York will arrive Monday.

A group of the imperial officers arrived early today to be on hand in advance of the opening. Fair weather with rising temperature was predicted for the event next week.

BREMEN CREW VISITS GRAVE OF DEAD FLYER

Hop Off From Gotham To Pay Last Homage At Burial Place Of Bennett In Capital

Rain Beats Down On Sombre Scene

Flags of 3 Nations Brought Over Ocean Placed Across Tomb

WASHINGTON, Apr. 28.—(INS)—In a drizzling rain, which only added to the melancholy aspect of their mission, the German-Irish fliers made a pilgrimage to a new made grave in Arlington today and there paid an unostentatious tribute of respect and admiration to Floyd Bennett, the heroic polar pilot, who sacrificed his life in an effort to aid them.

It was raining and dismal as the trans-Atlantic trio, Baron Gunther Von Hueneit, Capt. Hermann Koehl, and Maj. James Fitzmaurice, motored from Bolling Field across the Potomac to the spot where Bennett was buried yesterday. They left the field shortly before 9 o'clock.

At that hour, Bert Balchen, the pilot who rescued them from their exile off the Labrador coast, was winging his way southward from New York to pick up the trio and transport them back to New York for an official celebration later in the day.

Priceless mementoes of their epochal flight across the Atlantic were placed on Bennett's grave by the fliers. They consisted of the German, Irish and American flags which were brought over aboard the Bremen.

Bare-headed in the slashing rain, they stood silently about the new made grave on the little knoll while attendants kept back a crowd which even the elements could not daunt. Baron Von Hueneit placed the German flag on the mound, a merchant marine placed the Irish flag on the forward with the flag of the Irish Free State, and that followed by Major Horace Davidson, commander of Bolling Field, with the American flag.

Capt. Koehl and Miss Herta Junkers, daughter of the designer of the Bremen, laid laurel wreaths on the grave. One bore an inscription: "In fond memory of a great flyer whose soul has flown to the last landing field." The other bore an inscription: "In memory of a faithful and gallant flyer."

From the grave of Bennett, the fliers went to the grave of Lieut. Stanley H. Wooster, United States Navy, who was burned to death some months ago while preparing plans for a trans-Atlantic attempt. After a short pause there, they returned to Bolling Field. Enroute back to the field, they were informed by an I. N. S. dispatch that Bert Balchen had been forced down and would be unable to transport them back to New York.

Bolling Field was in such condition that army fliers feared it would be impossible for any heavy plane to get off. The fliers may have to make the New York trip by train. The White House announced that the official government welcome to the trans-Atlantic conquerors will be extended on Wednesday when they return to the capital. President Coolidge will receive them at 12 o'clock, and at 1 o'clock they will lunch at the White House.

CHILD IS BORN
NEW YORK, Apr. 28.—(INS)—Rockefeller chest is threatened possibly forward a little more than usual today. John D. Sr., in a great-grandfather age, and John D. Jr., is a grandfather for the first time. All this came about very late last night when Mrs. Abby Rockefeller Milton, daughter of John D. Jr., presented her husband a baby daughter.

LAKE CITY—Branch store of Independent Grocery Company opened in Wilson building on North Marion Street.

Register Now
1 day left to register for June Primary. Poll tax of \$1 must be paid by May 18 at office of John D. Jenkins at Court House. Voters may register at office of H. C. Dubose, 112 Park Avenue.

Lake Faces A Stiff Sentence As Jury Convicts Him Again

(Continued from page 1)
 Key, who has turned state-evidence on the former official. The jury will meet to present any further true bills it may have found before Judge Gray next Friday. State's Attorney Millard B. Smith announced last night.

When Judge Gray pronounced sentence next week, the defense chiefs, W. B. Dickenson and the silver-haired veteran Tom Palmer, his partner, will carry the cases on to the supreme court. While the supreme court is making its decisions, Lake will be free under a big cash bond, provided his friends can raise it for him, or place their property on it as security. The bond will mean freedom for at least six months. After the supreme court has handed down its decisions in the four cases, final freedom or imprisonment will come.

200 Await Verdict
 Two hundred persons were gathered in the Seminole County Court House last night to hear the verdict in the last of the bank cases. They waited through the Judge's charge which began at 8 o'clock and lasted 15 minutes, and from then until 10 o'clock when a knock on the jury room door indicated the six men had arrived at a verdict. The only break in the jury's deliberation was when they asked for the bank records introduced as evidence in the case.

The verdict read:
 "We, the jury, find the defendant guilty as charged in the second count of the indictment, George F. Babcock, foreman."

The jurors were all men of middle age with the exception of Calvin A. Oldham, a young man in his twenties. The others were E. C. Bates, Babcock, the foreman; J. D. Evans, A. C. Moore and W. E. Bennett.

Deane Star Witness
 Judge Gray gave spectators, who waited all yesterday afternoon for the case to go to the jury, a surprise at 6 o'clock by giving the jury an opportunity to eat supper before being locked up to consider the case.

It was the testimony of R. W. Deane, former assistant cashier of the bank, which convicted Lake in this last case. Deane testified that Lake told him to make the entry and misapplication of which the bank president was found guilty. Lake's attorneys attacked the credibility of Deane's testimony without success. Lake himself denied ever having knowledge of the transaction.

Ignorance Is Defense
 The defense in the last case as in all the other cases was ignorance and the insinuation that bank employes, including Key, had taken money from the bank and thrown the blame on Lake to protect themselves. With all four convictions against him, Lake denies any knowledge that the law was violated in the institution.

The defense apparently made a more desperate effort to obtain acquittal in this case than it has in any since the first two. Defense counsel hammered on the jury hour after hour in an effort to shift the blame to Key and Deane. The defense did not plead mercy, but they did draw a tragic picture of Lake working in his declining years on the state rock-ville. All their argument apparently did not sway the jury from Deane's simple testimony that Lake ordered the crime committed.

Defense Closes Arguments
 Ion L. Ferris, Jacksonville prosecutor, and State's Attorney Smith were the state's two lawyers against the defendant's three, Palmer, Dickenson and H. S. White. Yesterday made the state's first argument, and Smith the last. Dickenson closed for the defense.

John Martin Gives Address To Throng In Jacksonville

JACKSONVILLE, Fla., Apr. 27.—More than 1500 people packed the Temple Theatre here last night to hear Gov. John W. Martin, former mayor of this city, opening his campaign for the United States' Senate in Duval County. Nearly one thousand more were turned away for lack of space. It was a Martin meeting from start to finish, and the applause which met his remarks carried every mark of solid support. Nearly every official of this city where the Governor started his political life was in the audience and fifty local county candidates and several hundred friends filled the platform and the back stage.

Gov. Martin stressed the campaign pledges he has carried out particularly those relating to the construction of Florida's highway system, the financing of her schools and the reduction of state taxes. Applause and laughter greeted his charges of official inactivity on the part of his opponent and of the petty craft which has gone on for twelve years in his Washington office.

Ocean Flyers Land At Mitchell Field On Way To Capital

(Continued from page 1)
 Immediately after dawn arrangements were made for the Ford's flight. The motor was tested and everything was found to be in perfect shape. The ice on the lake was tried to make it the

was strong enough to bear the terrific burden. It had melted steadily for the past few days, but a sharp cold snap last night strengthened it.

"Good bye; we have enjoyed the wonderful hospitality of the Canadian people immensely and they will ever be close to our hearts," said Baron Von Huenfeldt. After the party was in the cabin, Balchen took the controls, cautiously taxiing across the runway. Then he "opened the throttle" and with a terrific roar the

Agents Seize Arms In Gangster's Home

CHICAGO, Apr. 27.—(INS)—Two machine guns, several shot-guns, ten sticks of dynamite with \$8,000 in cash and hundreds of rounds of ammunition were seized by federal agents at the home of "Limping Charley" Seaver, indicted as leader of the \$133,000 grand trunk train hold up at Evesgreen Park last February.

The raid, staged yesterday, was announced by federal authorities today. The Cache, revealed by a woman, had been built into the Cleaver home. In another secret hiding place in the Cleaver barn was discovered a quantity of dynamite. Cleaver is one of five men under indictment for holding up a pay train, blowing a rail coach after slaying two railroad clerks, and escaping with \$133,000.

Confers Medal

LONDON, Apr. 27.—(INS)—King George today conferred the Patrons Medal of the Royal Geographical Society upon Capt. George H. Wilkins, Trans-Arctic flyer, in recognition of his exploit on work in the far North, to London to receive the medal in person.

BRUSSELS, Apr. 25.—(INS)—Baron Peter Wrangle, leader of the Russian White Army that made war against the Red Army in southern Russia in 1920, died here today.

WRANGLE DIES

(Legal Notices)
 NOTICE TO CONTRACTORS.
 Notice is hereby given that the Board of County Commissioners in and for Seminole County, Florida, will at its regular meeting to be held in the Court House at Sanford, Florida, on Friday, May 4th, A. D. 1928, at 10 o'clock A. M. receive bids for the purchase of right of way for the West End of Section 27, Township 19 South, Range 19 East, Town West 1st Street South to the east corner of the New Florida station on the A. C. R. R. The total amount of right of way for this project is 1.50 acres. Bids will be received by the Board of County Commissioners in the form of a bid until the completion of the work.

Plans and specifications may be obtained from Fred T. Williams, County Engineer.

The Board of County Commissioners reserves the right to reject any or all bids.

Witness my hand and seal to the Board of County Commissioners at Sanford, Florida, this 27th day of April, 1928.

W. B. Dickenson, Chairman.

Chicago Professor Traces Origin Of Suicide Back To As Far As 2 Thousand B. C.

CHICAGO, Apr. 28.—(INS)—Tracing the origin of suicide back as far as 2,000 B. C. from the present day, Dr. Ruth Shonle-Cavan of the University of Chicago has presented the question in all its forms in a book recently issued here.

Throughout all the years and religions and races the scholar has found suicide to be a sin, regarded lightly in some parts of the world, but the gravest of social crimes in other countries.

Mainly, she said, suicide comes from an inability of an individual to make an adjustment to a social environment causing disorganization of the mind from which relief is seen only in self-destruction.

Always A Crime
At first, according to the author, suicide was approved in some cases by one of the greatest and most powerful religions of today. Of this she says "at first the church approved of certain forms of suicide—to produce martyrdom, to avoid apostasy or to retain virginity. Famous for suicide in the last instance were Domina and her daughters, and Pelagia, who was later made a saint."

From the general religious point of view, Dr. Cavan points out, suicide was always a serious crime, and a violation of the social order. "The Greek language hardly distinguishes between self-murder and the murder of kin (the worst of offenses)," Dr. Cavan states. From 500 B. C. to the end of the first century after Christ, about 300 years, suicide flourished in the same general ratio as moral customs decayed until Christianity almost eliminated self-destruction."

During this period in Greece suicide became almost a dogma among certain philosophical sects she said. The control of the state over the individual weakened and with it came the right of persons to decree their own conduct. Suicide, then, was purely a personal matter. Suicide tended to become a matter of eliminating all the pains and miseries, many of them trivial ones, she stated.

Stoics Taught Suicide
In the tumultuous period in which the Roman Empire sunk in to a gradual decline and decadence, the stoics taught suicide as a "natural means of ending life that had become intolerable," according to Dr. Cavan.

Christianity came and erected a stern control over the individual, succeeding in counteracting the freedom and suicides of the past era. "Gradually," she said, "all suicides were condemned by St. Amalrose, by St. Jerome and St. Augustine between 340 and 430 A. D."

After the Renaissance in Europe the attitude that suicide was sinful was challenged by a number of

philosophers who gave many claims to its excellent qualities, she declared.

This feeling for suicide was gradually worn down and the present conditions were introduced.

U. S. Health Officer Backs Porter Bill To Stop Narcotics

WASHINGTON, Apr. 28.—(INS)—The world is looking to the leadership of the United States in a fight upon narcotic drugs, Dr. Rupert Blue, surgeon general at large of the United States public health service, told the House Judiciary Committee. He endorsed the Porter Bill providing "dope farms" to which federal prisoners who are drug addicts would be sent, as a forward step in the control of the evil in this country.

Indifference toward the drug evil in Europe has prevented a world-wide campaign against the dope traffic being successfully carried on, Dr. Blue said. "As long as these conditions obtain, as long as large quantities of drugs can be freely bought in Europe markets, the illicit traffic will thrive throughout the world and 'dope' will be imported into this country," said Dr. Blue.

"I am very much afraid that they are bound up in conservatism in Europe that it will take years to bring about the necessary restriction and control. A South American delegate at the Geneva conference told me that the world is looking to the United States to solve this problem." D. O. Lively of Seattle, vice president of the White Cross Anti-Narcotic Society, endorsed the Porter Bill.

Longevity Town Discovered

Following the recent discovery that 10 of the 100 inhabitants of Wroxall have celebrated their gold (en) wedding, the tiny town is declared to be the healthiest and happiest in England. As girl and boy and as man and wife the mate have all worked together on the 200-acre Wroxall Abbey Estate. The couples are: Mr. and Mrs. E. Gold, aged 82, and married 63 years; Mr. and Mrs. Pinfold, 82 and 88, married 58 years; Mr. and Mrs. Kibber, 75 and 76, married 54 years; Mr. and Mrs. Showell, 78 and 74, married 51 years; and Mr. and Mrs. Taver, 90 and 88, married 51 years. Together they have had 33 children, 69 grandchildren and seven great-grandchildren. Each family has been brought up on from \$2.50 to \$3.75 a week.

Heir To Fortune Leaves For England Suffering With Ail

New York, Apr. 28.—(INS)—Still suffering after-effects of a tonsil operation, Mortimer Davis, \$50,000,000 heir and husband of the dancer Roszika Dolly, was carried aboard the White Star liner Olympic early today on a litter. With his wife and her brother, Eddie Dolly, he is returning to England. A doctor and two nurses saw him into the care of the ship's surgeon.

David, son of the late Sir Mortimer Davis, Canadian tobacco magnate, attended the funeral of his father in Montreal. Sir Mortimer died abroad some weeks ago. The tobaccoist's \$100,000,000 fortune was divided equally in trust between his son and widow, but neither can touch the principal for fifty years.

Daily Fashion Hint

A PROCEED OF PARIS

One of the outstanding fashions of the season is the "back" with the feminine touch. Adapted to all climates in Georgette crepe is the model with long waisted blouse and flared skirt. It is patterned the lower edge of the skirt may be finished in points to give the uneven line of the "Medusa" requires 4 1/2 yards of 36 inch Geor.

CARD OF THANKS

We deeply appreciate the kindness of our many friends and wish to thank them for the beautiful floral offerings and the expressions of sympathy to us in our recent sorrow, the death of our son and brother. Mr. and Mrs. W. H. Butt and Family

Health HINTS

By DR. J. C. HOWELLS

MEDICAL IDEALS

Ever since this writer graduated, he has held to the ideal that some time he would have a place where he could thoroughly examine and treat cases, knowing as he did, that a case well diagnosed is half cured, and having diagnosed the case, he would have a therapy to fit each case. With this ideal in mind, he has traveled up and down the country, taking postgraduate courses in osteopathy, electricity, chiropractic, orthopedic surgery, Abrams' methods, medicine, surgery, Sutherland's colonic irrigation, and special courses in diet, etc.

According to this ideal, I have finally worked out a system that I find is getting absolute results in stomach, bowel and rectal diseases, and as the greatest authorities state that ninety percent of the diseases come from the stomach, bowels and rectum, and I feel that I am at last on solid ground. From a little editorial in the osteopathic Magazine for this month, entitled "Power," I want to quote as follows: "When you desire the full power of an ideal has never been realized. However, if you and you will find it taking you and your work up the grades over the top into rich fields of success. "If I have fattened more or less in my great task of happiness, I feel have moved among my race. And shown no glorious morning face." It beams from happy human eyes. Have moved me not? It brightens. Hooks and my food, and summer skies. Knocked on my sullen heart to vain. I took the most pointed pleasure. And my spirit broad awake." Dr. J. C. Howells, 13 years practice in Orlando, 200 W. Gore Ave., Telephone 4200. Write or phone for free literature and consultation.

WYMAN RUNNING FOR PROSECUTOR

Weyman E. White, present Municipal Court Judge, has announced his candidacy for county prosecutor. He is opposing the present holder of the office, John G. Leonard. With his father, Judge White forms the firm of White and White.

New "Drunk Test" Wanted

That tongue twisters are not accurate tests of whether a person is under influence of liquor is being claimed by officials in England.

Police authorities think that the

tests should at least be standardized. This would include the physical methods of walking a chalk line or touching the right toe with the left forefinger. Tongue twisters are

not in official favor because even the modest tippler, finding himself in a police court, might stumble over such phrases as "The sun saith and it sufficeth us," or "Metaphorist, Episcopal" or even "Truly rural." The case is cited of a man who was afterward proved to be drunk insisting on singing, which he did accurately. "When my father lathers, he lathers rather free. I would rather lather father than father lather me."

9th Wonder of the World
A Thanksgiving Dinner In April—
If you don't believe it try a Sunday Dinner at the **Oasis Cafe**
Where they serve those fine milk fat-tened Cackleberry Farm chickens
They use Cackleberry eggs too!

To be lovely: use the Preparations of ELIZABETH ARDEN

SCIENTIFIC PREPARATIONS which aid and stimulate every natural function of the skin, which keep the tissues vividly healthy, and so make you lovely, too. An Elizabeth Arden Treatment is based on three fundamental steps: Cleansing, with Venetian Cleansing Cream. Toning, with Ardena Skin Tonic and Special Astringent. Nourishing, with Orange Skin Food or the delicate Vicia Cream. These same three steps, which supply every need of the skin, should be a part of your daily care of the skin at home.

Camels

Today, as for many years, Camels lead by billions and they keep right on growing

CAMOUFLAGING CAKE

"We can't keep cake a single day in the house," wails the housewife with a large family. But, "I can't use my cake before it gets stale," is the plaint of the woman who cooks for only two or three people. Yet cake is lots of fun to make, and the family that lacks cake in its diet misses one of our most delectable desserts.

Cake and Fillings

One woman had a standard take recipe which she always used. It was this: cream one-half cup shortening and one cup sugar together. Add two beaten eggs. Mix and sift two cups flour, one-half teaspoon salt, and three teaspoons baking powder and add alternately with one-half cup milk to the first mixture. Add one teaspoon vanilla and mix well. Bake in a hot oven—400 degrees F., fifteen to twenty minutes.

Cup Cakes and Cottage Pudding

The other layer of the cake appeared as cottage pudding with the following sauce: heat one cup sugar and one cup sugar together. Add two beaten eggs. Mix and sift two cups flour, one-half teaspoon salt, and three teaspoons baking powder and add alternately with one-half cup milk to the first mixture. Add one teaspoon vanilla and mix well. Bake in a hot oven—400 degrees F., fifteen to twenty minutes.

Noteworthy Gathering Of Scientists To Take Place At Mid-West University

CHICAGO, Apr. 26.—One of the most noteworthy gatherings of scientists of the year will take place at Northwestern University in Evanston from July 23 to August 18.

The Institute of Chemistry of the American Chemical Society, in its second annual meeting, will consider such fascinating and fundamental questions as the processes of formation and maintenance of life, public health, farm relief through science, and national defense.

Twenty-four universities, which are taking part in the university-wide gathering, will send delegations to Chicago to attend the 1928 work of the Institute.

According to the plan the Institute will function as an international clearing house of knowledge in chemical science. The Evanston gathering will attract hundreds of chemists, both men and women, from the United States, Canada, and Europe.

General Problems

During the week of July 23 seven conferences will be held on the general problem of developing new markets other than food for agricultural products by means of chemistry. A second group of seven conferences during the week of July 30 will take up fertilizer, catalysis, hydrogenation, organic chemistry, antioxidants and the utilization of energy of high intensity in producing chemical reactions.

Health, the use of physics and chemistry in studying life processes, chemical hazards, protozoa, poisons, inorganic and organic, will be taken up at several conferences during the week of August 6. Sanitation, the packing industry, leather, chemical literature, ceramics, alloys and chemistry and other sciences in national defense will be discussed at a series of seven conferences in the concluding week of August 13.

The chemists will discuss ways in which they can provide farm relief by developing new markets for agricultural products," said a statement issued by the national

society. "One aim will be to wipe out wastes, proper conservation of which, it is estimated, would mean an annual gain in the value of farm products of \$1,000,000,000.

Foreign Delegates

"Through chemistry, scientific vision the rise of great industries based on raw materials of the farm new unutilized."

Among the foreign scientists who will come to America to participate in the Institute is Sir James Colquhoun Irvine, principal and vice-chancellor of the University of St. Andrews, Scotland. Sir James, internationally known as an investigator of sugar, will deliver lectures both to professional chemists and to laymen.

The Chicago Institute is one of the three big national gatherings planned by the American Chemical Society for the year. The seventy-fifth meeting of the society will take place at Los Angeles April 16 to 20 and the seventy-sixth meeting at Swampscott, Mass., under auspices of the Boston section, September 10 to 14.

About 2,000 men of science are expected to attend each of the gatherings.

Senator Borah Given Questionnaire Today

WASHINGTON, Apr. 24.—(INS)—Senator Wm. E. Borah was put on the receiving end of a questionnaire today. Borah, who has questioned all the Prohibition and dates on trade articles toward the Eighteenth Amendment, was sent an open letter by the Anti-Monopoly League, demanding to know why you uphold nullification of the Constitution by the President in using Marines in Nicaragua without authority of Congress, while opposing nullification of the Eighteenth Amendment.

"By what process of legal ratification," said the letter, "do you oppose nullification of the Constitution with respect to the alcoholic content of a beverage and uphold it when it comes to violation of the right of a nation."

Hotel Features Tomato Juice

FOUR thousand gallons of tomato juice is annually consumed by guests at the French Lick Springs Hotel, famous health resort.

"The juice of the tomato," says the hotel dietitian, "contains an abundance of all three vitamins A, B, and C, and no other article of food supplies them in equal quantity."

The widespread vogue for tomato cocktails has brought various versions of the drink. Here is a corking good one:

Tomato Juice Manhattan

Drain through a strainer the contents of a large can of tomato juice, only for stewed tomatoes. Before serving season generously with salt and a tablespoon of lemon juice. Shake with a little crushed ice and serve immediately in cocktail glass. Garnish with a tomato slice and a sprig of parsley.

Wanted With Thanks

TABLETS, Conn.—Dr. George Dixon, 70-year-old French physician, was married here today to a 24-year-old French teacher, Miss Marie Therese Felting. The civil ceremony was held at the city hall with Ambassador Myron T. Horrick acting as witness for the bridegroom.

CHIMNEY Plant of Chrysler Motor Company moved to site at L. & N. "Y."

Shriners And Boxing Fans Will Be Offered Biggest Boxing Feature At Miami

MIAMI, Fla., April 26.—Florida boxing fans, as well as visiting Shriners from all sections of United States will be moving to Miami next Monday, April 30, for the biggest boxing bout the South has harbored for several years, the clash between Young Stribling, pride of Georgia, and Yale Okun, brilliant young Jewish fighter from New York City.

Hugh Martin, matchmaker for the Coral Gables Legion post has booked the match as the feature attraction of the week for the thousands of Shriners who will be visiting Miami as well as the Miami fans, who have seen Stribling win two quick knockout decisions here this winter.

Okun was chosen as the best man available for Stribling, John Delaney, Jack Sharkey, John Risio, Jimmy Slattery and Leo Lomski, and refused offers to come here to fight. Okun was chosen, too, because Tex Rickard, premier promoter of the fight game, who wintered in Miami Beach, thought well enough of Okun to place him fifth in 1927. He is an ambitious youngster, 23 years of age, who has had nearly 60 fights in his career. Though others refused to come South to fight the great Stribling, the New York boy eagerly accepted terms.

The record of Okun is as good as that of any light heavy in the game today, excepting Loughran, the champion; Leo Lomski, Jimmy Slattery and Eddie McTigue, the war horses of them all. The Jewish boy has fought Loughran twice, losing close decisions both times. Losing close decisions both times, he has beaten Sergit, Jack Adams, Tony Marsilio, Harold Mays (conqueror of Bennie Topstone), Jack DeMave and many others. Later in the season Stribling knocked out Al Friedman, a bushy young Boston boy, in two rounds here. He toured the South knocking out opponents week after week. True, some of them weren't such good opponents. But he was ready

Ship Leaves Today To Bring Back Two Stranded Aviators

COPENHAGEN, Apr. 25. (INS)—A Norwegian ship today is to take them all.

When Stribling fights Okun next Monday he, as well as Okun, will be getting a big chance for real money. If Stribling flattens Okun, the most rugged of the young light heavies around New York, he will have leaped just about the last hurdle in his race for a shot in Madison Square Garden, where he lost his chance to win the light heavyweight championship from Paul Herberich in 1926. A knockout over Okun would force the New York promoters to recognize Stribling's ability.

On the other hand, Okun can make himself one of the game's best drawing cards by whipping Stribling here. Yale is young and rugged. Experts predict he will be the next light heavyweight champion. Should he beat the man who has won so much acclaim this winter, a set at Tommy Loughran, the champion, is not so far away.

On its way to Spitzbergen to back Capt. George H. Wilkins and Carl E. Eielson, who flew over the world from Point Barrow, Alaska, to Cape Hatteras, Spitzbergen.

The ship, which is the expedition steamer "Silmna" which was built especially to break through the ice floes of the far north, will try to get into Green Harbor to take the Australian explorer and his American aviator companion on board. If it is able to get through the ice pack Wilkins and Eielson may be on their way south in five or six days.

The ship is equipped with wireless and is expected to keep it going. Wilkins and Eielson have abandoned all idea of flying from Spitzbergen to Oslo. Real advice from Spitzbergen and the messages of congratulation continue to pour in. The plane has been covered with a tarpaulin and further attempts are being made to repair the landing gear. Wilkins and Eielson are taking life as recuperating from their hazardous flight.

SHIPS WITH GOLDEN CARGOES

None of these ships with golden cargoes, which come steaming into our harbors are not pirate ships. They are laden with golden cargoes of foodstuffs. Instead, the ships from sunny lands and the sea are composed of the golden products of the soil instead of the sea.

Many are the busy freight ships that come from Hawaii to the West Coast during the season when the golden pineapple is being packed and sent on its trip to the American markets.

The crews which these ships bring to shore in large numbers are the representatives of a golden industry. It is their duty to vary her menus by adding new pineapple dishes. For King Pineapple is a variety follow. It can appear at the head of the meal in a cocktail. Then he can act in the role of an accompaniment to meat. Or perhaps pineapple served as a vegetable will be welcome. Then, of course, the use of this fruit as a salad dessert ingredient is too well known to need any further mention.

Adding a Color Note

One of the reasons why pineapple will do so much to popularize a dish in which it appears is because of its appearance. Its rich yellow hue is a welcome color, and when blended in with the other browns and yellows of the presenting a contrasting color note when combined with peas or beans in a salad.

Some new recipes which show the versatility of the golden cargo are given below:

Stuffed Pineapple Mushrooms: Cut eight rounds of bread the same size as a slice of pineapple. Sauté the bread and eight pineapple slices in butter until golden brown, then place a circle of pineapple on each round of bread. Mix a package of cream cheese, six tablespoons peanut butter, a few grains of salt and pineapple syrup to moisten. Spread thickly on the pineapple slices and top each one with a slice of ham. Bake in a hot oven for ten minutes, but not too long, to preserve the mushy texture.

Pineapple and Onion Cakes: Mix two tablespoons butter with a large teacup and pack one cup of brown sugar evenly over it. Drain contents of one medium size can of crushed pineapple and place in a large bowl. Cream one-half cup butter, one cup sugar and add two well beaten egg yolks. Add three cups cup pineapple syrup and three cups cup flour. Mix thoroughly and add one-fourth teaspoon salt which have been sifted together. Add one teaspoon vanilla and stir in two stiffly beaten egg whites. Pour the batter over the fruit mixture and bake in a moderate oven, 35°, for thirty to forty minutes. Turn out upside down and serve either hot or cold with whipped cream on top.

Pineapple and Spice

Coffee Pineapple Foam: Soften one tablespoon gelatin in two tablespoons cold water, then dissolve in one cup hot coffee. Add one-third cup sugar and one-half cup pineapple syrup. Cool and when almost set, beat till foamy with an egg beater. Add one cup diced sliced pineapple, one-half cup chopped nuts, and two stiffly beaten egg whites and let harden. Serve very cold topped with whipped cream.

Peach and Pineapple Compote: Mix one number 2 can of crushed pineapple, one number 2 can of peaches, one cup seedless raisins, one and one-half cups brown sugar, four lemons, juice and grated rind. The peaches should be finely cut. Cook gently until thick; about ten minutes before the conserve is done add one cup chopped walnuts. Pour into jelly

Can You Vote?

Monday, at midnight, the registration books in which voters must inscribe their names to qualify for the coming Democratic Primary election close, Attorney General Fred Davis has decreed. That means if your name is not in the books by Monday night you can't go to the polls June 5 and mark your ballot for your favorite candidates. You can have no part in choosing the men who will represent you in county and state for the next four years. If those elected act contrary to your wishes, you will have no right to complain, unless you have done your part by voting for the men you consider best.

There are many candidates in the field this year, more than there have been for many elections. Some of them are running for office because it is a habit. Some are running because they want jobs. A few are running because their friends have asked them to, considering them well-qualified to handle the county's and state's affairs. Even the well-informed will find it difficult to choose between these aspirants.

In the character of some of these candidates lies danger to the state and county. Some of them are qualified in no way to handle the affairs of government. A number of them are unquestionably seeking graft under the guise of some blatant cause calculated to catch the votes of the unwary. Such men are running for nearly every office that is in the power of the people to bestow.

To weed out these seekers of self-interest, it is first necessary that every citizen qualify himself by first registering and then paying his poll tax. With that done, every man and woman of voting age should take at least a little time for serious thought concerning the candidates offering themselves. Read what the newspapers have to say regarding the aspirants. Whenever possible go and hear them talk and judge from their words and appearance whether in your opinion they are fit for public trust. Then take your judgments on each to the polls and mark your ballot as you believe it should be marked.

If you do those things you have acted for your own best interests because you have picked men you believe will act as you yourself would act in their places. You will have delegated your power to men whom you can trust and in your opinion are wise and unselfish.

But remember, to vote at all, you must be registered by Monday night!

Our Schools Improve

A report which indicates that Florida's schools are gradually forging to the top among institutions of learning in the South has just been issued by Professor Joseph Roemer of the University of Florida. Based on an average of the last six years, the report shows that the high school graduates of Florida have the second best record in the entire South. Professor Roemer, who is secretary of the commission on secondary schools, has studied the individual records of the graduates of 928 accredited Southern high schools, who are enrolled in 900 colleges and universities in all parts of the United States.

Florida students last year failed in 13 percent of their college work, while in 1925, 70.8 percent of the freshman class of the University of Florida failed in one or more subjects. In these two years Florida has risen from eleventh to second place among the states of the South.

The "boom" was responsible for the low standing of the students in 1925, in Professor Roemer's opinion. The lure of the real estate offices and big commissions was too much of a temptation for many boys who should have remained in the classrooms.

Another distinction which the state has now attained is the rise to second place in the south in the actual number of accredited high schools from which graduates may enter college. Professor Roemer's report says the state has risen to first place in the number of high schools in proportion to population.

The emphasis in the report on the standing of students rather than on the buildings in which they are taught is heartening. There has been too much faith placed in fine school buildings over the entire United States. Fine buildings are an asset to any school system, but after all brick, stucco and concrete only form a place in which teachers can teach and youth can learn.

THE HOPE OF THE PEOPLE
JASPER NEWS

In every important particular the report of the state auditor sustains everything that Mr. Carlton has been saying about the state road department. Where the audit does not furnish a detailed proof it is because the auditors could not in the time they had go into all the details. There is a world of information about the state road department which further investigation would show to be as shocking as what we have set forth in this issue.

Upon the record Professor Hathaway cannot meet Mr. Carlton in point debate, nor anyone else. He cannot defend this record at any time or at any place, and he will not try to do so.

But he can and will abuse Mr. Carlton and call public discussion of the people's business and of the spending of the people's money mind-boggling.

If this is a mind-boggling, make the most of it. The people want and will get the facts. If the newspapers supporting Professor Hathaway will not print them, the Jasper News will as long as our ink and paper hold out.

If the people do not like the conditions in the state road department; if they do not favor waste and extravagance; if they do want the state road department turned into a vicious political machine; if they do not want men in power who resent any discussion of the way they are spending the people's millions, the remedy is plain.

Nominate and elect Doyle Carlton governor. He will stop this waste and extravagance and bring common honesty and business efficiency into the road department.

He has been fighting these conditions since last August and will bring to same integrity, intelli-

BIBLE VERSE FOR TODAY

A LASTING INHERITANCE—good man leaveth an inheritance his children's children: and the wealth of the sinner is laid up for his just.—Prov. 13:22.

PRAYER—May our children's hearts receive from us treasure which moth and rust cannot corrupt nor thieves steal.

LARCHES

—In The New York Times—
 Have you ever known this wonder,
 Feel of larch buds in the Spring?
 Have you ever spied a blue jay
 Through their furry burgeoning?
 And a larch tree in the sunlight,
 Backed by a forsythia hedge,
 Sowing on a hill that gently
 Slopes down toward the river's edge.

Use into the feathered verdure,
 Watch those short green needles shine;
 Green more vivid than the willow
 And more subtle than the pine,
 Rip along the twigs and branches
 Sprout lush spears of brilliant sheen,
 Bold like the harsh, stiff needles
 Of a strong-limbed evergreen.

Lightly on a lough thick-covered,
 Draw your hands and let them pass,
 Up-like tufts of silken needles,
 Tenderer than shaded grass!

Truly no one could have guessed it,
 Could have fancied that inside
 A bright maze of spiny freshness
 Such soft beauty could abide.

Have you ever known this wonder,
 Feel of larch buds? Oh, dream
 Of Spring's rare surprises,
 Buppie phantom, of the pine!

Hundreds of thousands of dollars were spent to get news and pictures of the Bremen. Airplanes, ocean trains, dog sleds and boats were used in the race to the straits.

The candidates were out "gun-tossing" today on the streets in barber shops and in the stores. They still have a month to gather the votes.

Lockhart's death will not stop other race drivers from trying to go faster than 207 miles an hour. They all think they are immune from death until it claims them.

The Fort Myers Tropical News says Carson has made 50 speeches in 88 days. And every speech has taken votes from Sidney J. Carter.

Wonder if Hathaway has already picked the place where he will be found by his friends about noon of June 6 after the urns of his defeat? Satisfactorily Tim?

Hoover showed his strength as a republican candidate for president when he won Ohio. He beat out ex-president Dawes who was pitied against him for the last month.

It's all right if it helps his rack, said Jack Dempsey of Tunney's cure on Shakespeare. The former champion said he "never had pleasure" of meeting Shakespeare himself. Dempsey sticks to only art he knows.

Henry Ford is going to spend a million dollars on a plane that will half-way around the world without stopping. It will have 12 engines and carry a hundred passengers. Ford knows a plane like this is the next advance for aviation.

An attempt by a self-styled "spirit" to materialize the spirit of Harry Houdini before a critical audience was claimed as a complete failure today. News item. Houdini would have told them such a business was useless. He had many mediums before.

POLITICAL MEETING

Monday April 30th

Altamonte

Community House 7:30 P.M.

Hear The Candidates For Office In Seminole County

On June 5th, the people go to the polls to decide who shall be elected to serve them in the various offices of Seminole County. Each and every voter should attend the political speakings, hear all the candidates state their platforms and express their views. In this way only can the people be assured that their choice is elected to office.

And Personal Activities

148 MRS. FRED. S. DAIGER, Society Editor Residence (Tel. 37)

Mrs. B. G. Smith Gives Party For Her Guest

Mrs. B. G. Smith was hostess at six tables of bridge Wednesday evening at her attractive home in Oviedo, complimenting her house guest, Miss Gayle Marshall of Sanford.

Mrs. Robert Masska Has Party At Home

Mrs. Robert Masska entertained most pleasantly at bridge, Thursday evening at her home on Park Avenue. The rooms where the card tables had been placed for play were beautifully adorned with roses, gladioli, Easter lilies, pansies and nasturtiums.

Lottaphun Club Has (Delightful Party)

One of the loveliest social affairs of the week was that of Friday afternoon when the members of the Lottaphun Bridge Club were most delightfully entertained at the home of Mrs. Becher Kent at her handsome new home in Winter Park.

At The Churches

Services: 3:30 P. M. Augustana Ev. Lutheran Synod, 11th and Palmetto Aves. 4:00 P. M. Evangelical Lutheran Church, 7 miles west of Sanford. Lutherans in this vicinity interested in the Lutheran Church will, please, take notice. A cordial welcome is extended to all in and near Upsala.

First Presbyterian Church

Services Sunday will be as follows: 11 A. M. Morning Worship. 7 P. M. Christian Endeavor. 8 P. M. Evening Worship. We cordially invite those without a church home in Sanford to worship with us.

Methodist Church

A splendid attendance is expected at each of the regular services on Sunday. Special arrangements have been made to seat everyone comfortably. A warm welcome awaits all Methodist and other visitors in our city. Thus far in our series of meetings each service has been an hour of great inspiration to all who attend. Rev. Bridgman with naive ability gives his audience with his appeal for lives of deeper consecration and noble service. Mr. Lynn Eldridge, directing the music, makes it one of the most delightful features of the services.

REPORT OF SCHOOL FUNDS

MEMORANDUM OF RECEIPTS AND DISBURSEMENTS OF THE SCHOOL FUNDS OF SEMINOLE COUNTY FOR THE PERIOD ENDING JUNE 30TH, 1927.

MONEY TO LOAN

On improved City property at 7 per cent. 3 to five year straight loans on residences. 5 to 20 year loans on good business property. SANFORD BOND AND MORTGAGE CO. 112 E. Second St.

Mrs. Benson Honors New Jersey Visitor

One of the loveliest social courtesies with which Mrs. Anna Hartlegen of New York, N. Y., the guest of Mrs. George W. Knight, has been honored with was that of Thursday afternoon when Mrs. J. C. Benson entertained at her home on Nineteenth Street.

Bridge Club Enjoys Wednesday Party

The members of the Four and four Bridge Club were the guests of Mrs. J. E. Wathen, Wednesday afternoon when she entertained them most delightfully at her home on Palmetto Avenue.

SCIENTISTS AVER MEN LIVED HERE MILLION YEARS

Smithsonian Institute Professors Make Discoveries Which Indicate Continent Was Inhabited Long Time

WASHINGTON, Apr. 26.—Man probably has lived on the American continent upwards of a million years, according to recent discoveries made by Smithsonian Institute scientists.

Information indicating that man may have come to America in the Pleistocene or Glacial Age, has been obtained by a Smithsonian party working at Melbourne, Fla., under the direction of Dr. J. W. Gidley.

Controversy as to the age of man in America has raged for decades and has been particularly acute in recent years, said Dr. Gidley. Additional facts pointing to man's early residence, obtained during the work just concluded, substantiated the firm belief of myself and other paleontologists that man really existed on this continent during the Pleistocene.

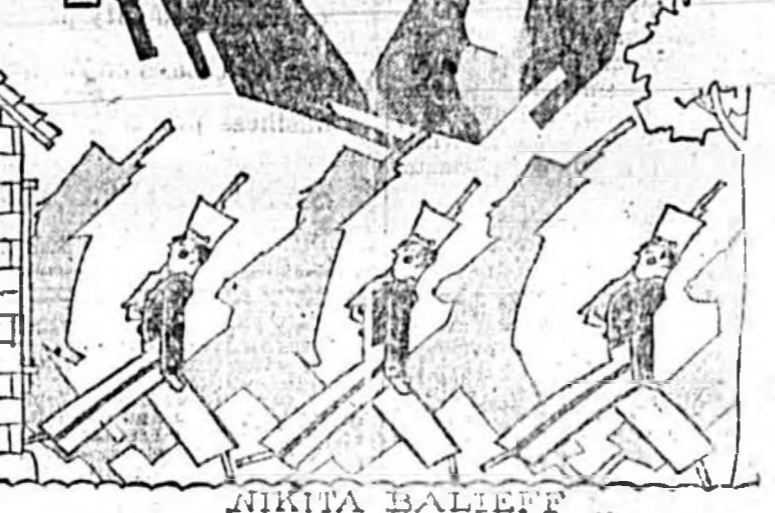

Remains Found. In 1910, according to a statement issued by Smithsonian, Dr. E. H. Sellards, at the time state geologist of Florida, discovered human remains at Vero, Fla., associated with fossil bones of animals known only in the Pleistocene. Later an amateur collector made discoveries of similar remains at Melbourne and in 1925 the Amherst-Smithsonian expedition found a human skull in what were considered Pleistocene beds.

There were three principal geological strata in the area in question. The bones at Vero and Melbourne were found in the middle stratum in beds definitely considered of the Pleistocene. The question whether these bones were deposited in the middle strata at a later date or whether they were deposited there originally was studied carefully by the new expedition. Gidley found to his own satisfaction that the human bones were placed in the Pleistocene stratum as it was being formed.

Digging into the Pleistocene stratum the expedition found such remains of man as bone awls, arrow heads and pieces of pottery. The animal remains found near appeared to have been of the late Glacial Age. The investigators considered that it would have been impossible for the human relics to have been pushed down leaving a trace.

Picking The Time. The human skull which was found at Melbourne in 1925 in the Ice Age strata was embedded slightly in the sand, Gidley said. It now says positively, therefore, that the human remains belong in the stratum and they could not have been inserted later.

Foreign Musical Shows Need Jazz for Success

NIRITA BALIEFF

So Says Nikita Balieff of Chauve Souris. Fame

New York City.—No show from Paris to New York can be successful unless it has at least one element of American jazz to offer. So says Nikita Balieff, producer of the famous Chauve Souris.

"Jazz is the only universally spoken language," he declared, adding: "It makes no difference where I am. I can't understand French, but I can understand jazz. I have had several of my pieces produced in Paris, some written by Americans which became popular."

He should long before they were heard in this country. An audience of the size of Albee's, that was so common by the time I arrived here, had never before known it, and I had not had much time to rest for the Chauve Souris.

"Only year I spent of the month in London to New York a song by a German who had produced American hits. At Albee's, Paris, one of the most successful of composers, he wrote for me 'Whore' in 1924. It was a success in America, but I had to wait for it to be produced in Paris, some years ago."

"I have had several of my pieces produced in Paris, some written by Americans which became popular."

Jim Carson Makes Speech To Citizens Of Desha County

MADRID, Apr. 19.—(INS)—The General Railroad Council has voted a budget of 200 million pesetas, to be spent on the improvement of Spanish railroads during the next five years.

"Dr. Hatheway has awarded road contracts in many instances to the highest bidder," Mr. Carson declared, "and apparently he thinks the government should also go to the highest bidder."

Turning his attention to Sidney J. Catts, the speaker produced documentary evidence to substantiate charges that Catts received money from the government in 1921, that he is receiving it now, that he has entered into a corrupt bargain whereby he has agreed to deliver 100,000 acres to the railroad interests in exchange for a financial consideration, and

lines and in purchasing mobile material and new locomotives. The railroad companies are also planning to spend a large sum of money on the improvement of the most important lines. They have already begun to transform the Madrid-Madrid line, which is being converted to a double-track line.

"This line between Madrid and Avila is especially important, being the main trunk leading from Madrid to the north of Spain and to Portugal.

The General Railroad Council is accelerating the work of electrification, as well as a similar undertaking on the line between Barcelona and the French frontier, so as to have it completed by 1929 in which year will be held an International Railroad Congress in Madrid. The railroad companies have invited delegates from nearly every country in Europe and America to attend.

North Spanish National Company also hopes to have completed by that date an enormous new station in Madrid.

Health Of Britain Improves Declares Chief Medical Man

LONDON, Apr. 26.—An extremely optimistic outlook on the health conditions of the people of Great Britain was expressed by Sir George Newman, chief medical officer to the Ministry of Health, in a recent address here.

Sir George said that great improvement could be noticed in health conditions in the last 75 years.

"In that time," Sir George declared, "the population has more than doubled. The general death rate for England and Wales has been cut in half. Child mortality under the age of five in London is one-third of what it was. Deaths under 20 are now 38 per cent, as against 71 per cent for 1837. Expectation of life at birth exceeds 12 years for boys and 11 years for girls."

"Why was human life longer and healthier in the 19th century than in the 14th," he asked. "I think the answer is two-fold—social and scientific."

"We must give up the idea that health is comprised of disinfection, the nuisance, the burial, notification and registration, fever hospitals, restrictive by-laws, Health spas for social and personal pleasure."

"We must give up the idea that health is comprised of disinfection, the nuisance, the burial, notification and registration, fever hospitals, restrictive by-laws, Health spas for social and personal pleasure."

Exchange President Says Experiences Handicap To Present Day Business Man

CHICAGO, Apr. 26.—The exchange president of the United States says that the experiences of the present day business man are handicapped by the conditions of the past.

"Production in the United States is now more than 100 per cent greater than the consumption," he said, "and the result is that the country has a surplus of goods which is not being absorbed by the market."

"The present day business man is handicapped by the conditions of the past," he said, "because he is producing more than the market can absorb."

"The present day business man is handicapped by the conditions of the past," he said, "because he is producing more than the market can absorb."

Prepare to Perform the Duties of CITIZENSHIP

REGISTER at the Office Of H. C. Du Bose 112 N. Park Ave.

These Candidates Wish Every Citizen To Express His or Her Choice June 5:

Dirigible Of Metal With Steam Power Is Offered To U. S.

CLEVELAND, Apr. 26. Designs of a metal steam driven dirigible, which is said to be a radical departure from the present type of dirigible, are being prepared by J. E. Whittlesey, chief engineer, for the contract to build two air dreadnaughts for the United States, it has been revealed here.

Whittlesey, who has studied lighter than air ships for many years, explained that the interior of the metal flying machine would be filled with a series of corrugated metal tubes, 20 feet in diameter, which would be filled to lift the ship.

"The metal dirigible," he said, "if that the airship should be torn apart, there would be enough gas prevented from escaping to float any part of the air dreadnaught to the ground safely."

Lockhart's Race Drive Faster Than They All Think

The Fort Myers Caravan has been driving faster than they all think from death until now.

Lockhart's race drive is faster than they all think from death until now.
