

Sanford Lookouts To Begin Training Season Tomorrow

Jim Beck Bringing 8 Rookies For Team And New Uniforms

The Sanford Lookouts (that's the name of this year's team in the Florida State League, instead of Galaxy Feds) begin their spring training season in earnest tomorrow. Some of the boys were out at the field today, batting up a few flies, but they won't get down to hard work until tomorrow as many of the players were not expected until this afternoon.

Jim Beck, scout for the Chattanooga Lookouts, was expected early this afternoon with eight rookies for the Sanford Lookouts. He is also bringing new uniforms for the entire team, furnished by the Chattanooga Lookouts with which the Sanford Lookouts have a working agreement. These uniforms are white with the word "Lookouts" across the shirts. The letter "S" is to be substituted for the letter "C" on the sleeves.

President C. F. Wert of the Sanford Baseball Association signed two new players today—Bill Cates of Key West, a member of a former Sanford team, and Joe Bistruf who played last season in another southern state. Cates is a third baseman and Bistruf is a catcher. Bistruf will arrive Wednesday. "Stuffy" McCrone, manager and first baseman, was expected late this afternoon.

The Sanford Lookouts will carry 14 men, but between 20 and 25 men will try out for positions on the team. President Wert said today.

The League season begins a week from next Sunday with a game in Sanford between the Lookouts and the DeLand team.

MUSIC INCREASES EGGS KINGSTON, N. C., Apr. 6.—(AP)—Cruddy Sutton says 15-minute talking machine concerts are causing his hens to lay eight dozen eggs a day, whereas they formerly laid only five. The eggs, he says, are larger and better colored.

WOUNDS PROVE FATAL ATHENS, Ga., Apr. 6.—(AP)—Miss Lucille Puryear, 42-year-old stenographer, died Sunday of pistol wounds suffered Tuesday. A coroner jury said the wounds were "self-inflicted."

Southern Loop To Use Arcs In Profits Search

MEMPHIS, Tenn., Apr. 6.—(AP)—Dixie baseball magnates will depend on arc lights to guide their way to bigger profits during the 1936 season.

After sundown baseball will be played for the first time this year in four of the eight parks of the Southern association, while at three others the night game has been in vogue previously.

Only Knoxville, where attendance has been discouraging, will be without equipment for night play.

Thomas R. Watkins, veteran president of the Memphis club and long a standpatter, capitulated this year to the demands of the sporting public, and agreed to equip his Ruswood park with a powerful lighting system.

Chattanooga, Birmingham and New Orleans fell in step.

Little Rock, Nashville and Atlanta inaugurated maada matinee a few years ago.

"It isn't a question of whether baseball can be played at day or night," Watkins said when he gave up his long fight to keep baseball in the Southern under the sun. "It is a question of what the fans want. Since we announced we were equipping Ruswood with lights I've heard nothing but words of commendation."

The Southern is trying another novel idea. The Shaughnessy play-off system will be tried for a second year, but the team that wins the most of the 154-game schedule will receive the pennant and the league championship. The Shaughnessy playoff winner will represent the Southern in the Dixie series against the winner of the Texas league in which the Shaughnessy system also is used.

Junior League Season To Start Today With Game Between Yanks-Red Sox; Schedule Calls For 4 Games Each Week

Grown-Ups Invited To Youngsters' Games, No Admission Fee

The baseball season opens in Sanford this afternoon, with the youngsters playing the first game for 1936. The game will begin at 8 o'clock on the Grammar School grounds, and grown-ups as well as children are invited. There will be no charge for admission to any of the games. The schedule calls for games every week day afternoon, with the exception of Saturdays, through the season and the winners will play a "world series."

This afternoon's game is to be between the Red Sox, John Meisch, Jr., manager and the Yankees, Billy Zachry, manager. No player is over the age of 13 years.

Maxwell Stewart, president of the Junior League, which is sponsored by the Lions Club, said this afternoon he hoped that he would be able to get Mayor S. O. Shindler to pitch the first ball in the opening game this afternoon.

First Entrants In Derby To Be Picked Tonight

Make-up of the \$1,000 added Derby which will climax the season at Sanford-Orlando Kennel Club Wednesday night having been determined Saturday night, patrons of the plant tonight will turn their attention to the first elimination race for the consolation event of Friday.

Tonight's night is the feature of the evening and the first of two eliminations. The entries are the eight dogs who were eliminated in first and second quarter-final Derby eliminations of 10 days ago.

Heading the list tonight is Sunny Key who will run with Paddy Blue, Market Fairy, Lady Traffic, Band Queen, Carless Queen, Flash Past and Miss Mark. All of them are popular favorites of hundreds of patrons.

Wild Mel established herself as a Derby winner favorite when she swept home ahead of Hawk's Light, Ann Pops, and Newt in that order before a huge crowd Saturday night.

The four will enter the Derby with Moly Malone, Chinee Charlie, Traffic Sing, and Ash Tray, every one a youngster, and track officials are looking for one of the greatest crowds and most thrilling races of the year.

Tonight's entries and selections with the latter capitalized as in

40 Red Stars In Windows Denote Backers Of Team

Forty business establishments in Sanford are displaying big red stars, indicating that they are backing the Sanford Lookouts. Customers of these establishments will, by their trade, help finance the baseball team. It is explained by directors of the Sanford Baseball Association.

More stars are going up, however, as soon as they can be obtained. C. F. Wert, president of the Baseball Association, has a jewelry store on First Street, but there is no star in his window even though he was one of the first to sign up for the financing campaign.

"I'll get a star, though," he said. "There weren't enough to go around, so I let some one else have mine."

The new Ford V-8 to be given away on May 21 is now on display.

The Baseball Association is to meet in the Chamber of Commerce building at 7:30 o'clock this evening.

Youth Finds Way To Impress Girl Friend
SALINAS, Calif., Apr. 6.—(AP)—Police were mystified by frequent thefts of a 23-passenger school bus. They always found it abandoned later. Eventually trapped with it, Roy Marzorini confessed he used it to go calling on his girl. She was impressed by it, he explained.

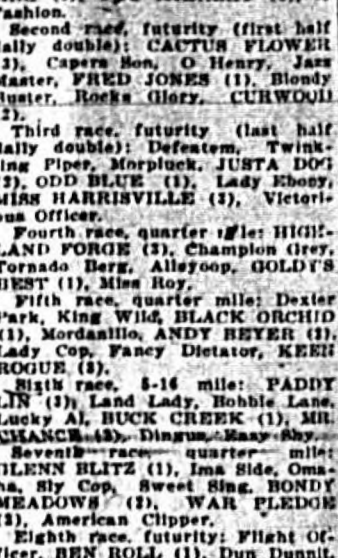

Cardiu Helps When Nerves Seem On Edge Every Month
Women who find themselves in a painful, nervous fix, suffering every month, may have some functional trouble which Cardiu should benefit.

"At times I felt like I must scream if a door slammed or there was an unusual noise," writes Mrs. P. A. Odum of Haines City, Fla. "I did not feel like doing my house-work, and as I had other work besides, I felt more like lying down. A friend of mine asked me to try Cardiu, which I did. After my first bottle, I felt much better. I continued taking it until I had taken six or seven bottles. By this time I was so much improved I was able to 'leave it off.'"

If not benefited by Cardiu, consult a physician—adv.

Mexican Train Bombed And 50 Believed Dead

Dead, Wounded In Tangled Wreckage
Train Plunged Into Deep Ravine

Believed To Be Work Of Rebels

Important Political Figures Among The Train Passengers

VERA CRUZ, Mex., Apr. 7.—(AP)—Bombing of a Mexican railway bridge near Panamuelo buried many dead and wounded today beneath the burned and tangled wreckage of the Vera Cruz to Mexico City night train, plunged into a deep ravine by the explosion.

Wreckage of a Pullman car and the fireman were the first to be recovered by rescue parties, which could only estimate that "various others" were dead. The number of victims may reach 50.

A group of men, believed to be rebels, were reported to have bombed the bridge as the train passed over it. Several important political figures were aboard the train, and authorities thought they may have had something to do with the bombing.

President To Visit Cuba

President Roosevelt will return to Cuba today, after a brief stop in Washington by way of Warm Springs, Ga.

From his anchorage at Sturges Bay today, the President left for Havana, where he will be met by the Cuban government.

The Works Progress Administration has instructed state administrators in Georgia, North Carolina and Mississippi to co-operate in the work.

War Department has issued orders for the despatching general Fourth Corps Area to make local investigations and extend the assistance is needed.

The plan of Mr. Roosevelt to visit Cuba today at his Warm Springs, Ga., home which includes a stop at the World War Veterans' hospital in Washington.

FORTY-EIGHT DIE AS TORNADO AND FIRE SWEEP GAINESVILLE

A tornado, with subsequent fires, swept the business district of Gainesville, Ga., killing at least 48, injuring hundreds of others and devastating the downtown section. National Guardsmen, firemen, doctors and nurses were rushed to the stricken town to recover bodies and care for the injured. This graphic picture, taken by an Associated Press photographer from the top of the wrecked courthouse, shows a section of the demolished and charred business district as the storm subsided. Note the smoke from burning buildings in the background. (AP Photo)

Veterans Clamor To Sign Lads In Sons Of Legion

Many Added To Roll After Address By State Commander

Following an address by J. Carl Johnson of Tampa, state commander of the Sons of the Legion, at last evening's meeting of Campbell-Lossing Post of the Legion, veterans crowded around Percy Mero, chairman of the Sons of the Legion committee, to sign up lads in the new organization. Application for a charter for the Sons of Legion squadron was made by 19 boys, but that number has been nearly doubled.

The charter roll is to be kept open until April 26, and any boy who joins the Sons of the Legion before that date will have his name inscribed on the charter. Mr. Mero said. He reported that several boys who wanted to join were prevented from so doing because they did not have the necessary \$1.50 fee, so George Weinstein "adopted" two of the lads and E. D. Price announced he would pay the entrance cost of another.

Commander Johnson reported that there are 32 Sons of the Legion squadrons in Florida, that every Legion Post in Hillsborough county has a squadron, and that the Campbell-Lossing post should have at least 125 lads in its Sons of the Legion outfit. A state convention of the Sons of the Legion, the first of its kind in the United States, is to be held in Tampa on June 27 and 28.

Carl M. Taylor of Jacksonville, Fourth District commander, addressed last night's Legion meeting and was proposed by Commander E. F. Boyle of the local post for the office of state commander. The state convention is to be held in Sarasota next week. Commander Taylor said he was not seeking the office, but "if I am drafted I will do the work."

In his brief address to the post, Commander Taylor stressed the importance of the state convention.

Rotarians Are Told About 'Last Supper'

The Rev. Martin Braun was in charge of the program at the regular weekly luncheon of the Rotary Club held at the Mayfield Hotel today. Mr. Braun presented a series of drawings of "The Last Supper" and gave an interesting explanation of the meaning of the scene and other details.

Unlawful Probes Marilyn Miller, Are Criticized By Supreme Court

Bristling Language Features Ruling In Securities Case

WASHINGTON, Apr. 7.—(AP)—Bristling language featured the Supreme Court's decision yesterday when it ruled that the Securities Commission could not compel J. Edward Jones, New York dealer in oil securities, to testify concerning a proposed \$100,000 stock issue after he had withdrawn his resignation statement. The vote was 6 to 3.

In bristling language, the court majority asserted the commission's action was "wholly unreasonable and arbitrary," and further pursuit of the inquiry would constitute fishing expeditions.

Constitutionality of the 1933 Securities Act as a whole was not decided. The act requires registration with the Securities Commission of all proposed stock issues.

In New York Wall Street observers said that in view of the court's failure to rule on act itself they saw nothing that would hamper the commission in enforcement of the law.

Commission officials said their impression was that the act was not materially damaged and that it was possible legislation would be sought to confer specific power to compel testimony such as was asked of Jones.

In hitting at "unlawful inquisitorial investigations," the court said: "To escape assumptions of such (arbitrary) power on the part of (continued on Page Three)

Leading Committees Of Trade Body Will Meet Wednesday Eve

A joint meeting of the executive and finance committees of the Seminole County Chamber of Commerce has been called by President T. E. Simpson for 7:30 o'clock Wednesday evening. It is understood that plans are to be made for the proposed membership drive, and the attendance of every committeeman is requested by the new leader of the trade body.

Mr. Simpson is chairman of the executive committee which is composed of Arthur Drann, Walter L. Cooper, E. L. Deane, Charles Dunn, H. J. Lehman, John Melchior, and W. H. Tunncliffe of Sanford; Mrs. J. W. Costa of Lake Wales; Frank Evans of Lake Mary; E. F. Haines of Altamonte Springs; G. S. Seavey of Longwood; and G. Wagner of Chuluota. Vice President E. F. Haines is chairman of the finance committee, which is made up of Mr. Simpson, Mr. Tunncliffe, Mr. Melchior, Mr. Cooper, Mr. Deane, Mr. G. O. Green, W. A. ... and G. S. Hisholfe.

Noted Actress Dies In New York Hospital, Ill 3 Weeks

Marilyn Miller, star of "Sally" and other stage and screen successes, died this morning at Doctors Hospital. In private life she was Mrs. Chester O'Brien.

Miss Miller had been in the hospital three weeks, suffering from a sinus infection which was followed by a toxic condition. She was 38 years old. Her career as an actress dated from the time she was four or five years old. She was noted as a dancer, but also was acclaimed a success as a singer, actress and motion picture player.

Gangs of convicts were hurried here to help clear up the debris. Police from nearby cities were brought in to aid in keeping order. Undamaged residences were commandeered to house the injured.

Those in charge of the rescue work here said it might be days before some of the dead were identified. The bodies of many were mangled in the wreckage and seared by flames which followed the storm.

Future Farmers Will Treat Celery Seed
Future Farmers of Ovid voted last night to accept the idea of treating celery seed to combat late blight, and will arrange before the next planting season to establish a treating station where any celery grower can have his seed treated so that the chances of blight will practically be eliminated.

County Agent C. R. Dawson attended the meeting and explained to the boys how to go about it to treat celery seed with a solution of corrosive sublimate. The farmers could treat his own seed, but few of them go to the trouble. Mr. Dawson told the lads. The Future Farmers therefore decided to shoulder this trouble.

Politicians Invited To 2 More Meetings
The 50 or more candidates for county offices will have two more opportunities this week to meet the voters.

The P. T. A. and the Woman's Home Demonstration Club of Chuluota will serve a chicken and soup supper in Chuluota tomorrow night, and the 4-H Club girls of Ocala will present a play and the Woman's Home Demonstration Club of that section will serve refreshments in the Wilson school on Friday evening. Six o'clock is the hour for both events.

Bodies Of 425 Are Recovered In Cities Struck By Tornadoes

Storm Transforms Business Part Of Gainesville Into Terrible Blazing Shambles

Fire Apparatus And Ambulances Unable To Pass Wreckage

GAINESVILLE, Ga., Apr. 7.—(AP)—Yesterday's tornado transformed the entire business section of Gainesville into a terrible blazing shambles in which more than 130 persons, possibly 200 met their death. Many of the injured have since succumbed, some of them on special trains on which they were being rushed to hospitals in Atlanta. It was feared that many more victims of the tragedy will be found when relief workers have been able to clear away the mass of wreckage wrought by the twister.

Gainesville's known dead included 10 whose bodies were burned beyond recognition in an outbreak of fire which followed the abrupt storm.

Five engines and ambulances were trapped in their efforts to get through the streets by the litter of debris.

Water mains were burst, adding to the difficulties of fire fighters. Food and clothing stores were demolished and a shortage of supplies loomed as an added hardship as relief agencies hurried help here.

There were no official estimates of the property damage in the storm but rescue workers estimated it might reach above \$8,000,000. From 1500 to 2000 were reported injured in the stricken areas.

Unarmed students from Georgia military academy and the River-side academy patrolled the area until relieved by three companies of National Guardsmen. Neither the military academies nor Brenau, well known woman's school, were damaged.

Gangs of convicts were hurried here to help clear up the debris. Police from nearby cities were brought in to aid in keeping order. Undamaged residences were commandeered to house the injured.

Those in charge of the rescue work here said it might be days before some of the dead were identified. The bodies of many were mangled in the wreckage and seared by flames which followed the storm.

Gainesville, Tupelo Each Put Estimate Of 200 Dead While Search Continues

Rising Rivers Threaten Flood

Swollen Streams Stop Highway Traffic, Inundate One Town

GAINESVILLE, Apr. 7.—(AP)—Rising rivers added the threat of widespread floods today to distress in a dozen states stricken by tornadoes which may have claimed a death toll of 500 persons. More than 425 bodies of victims of windstorms this week and last have been recovered and Red Cross authorities said 1,727 were badly injured by twisters which damaged 3,200 homes.

Relief workers toiled under overcast skies at two mill cities hardest hit—Gainesville, Ga., and Tupelo, Miss.—where death rolls mounted in a ghastly parallel to near the 200 mark.

Rain and swollen streams threatened several communities which escaped the \$25,000,000 twister Sunday night and Monday. Floods generated by a four-inch rainfall poured through the Carolina foothills, closing the highways. About 200 negro homes in Charlotte, N. C., were inundated. "Very heavy floods" are predicted for Cape Fear and the Neuse rivers in North Carolina.

One hundred fifty eight bodies were in morgues at Gainesville today, while the search continued for additional bodies in ruins. Of approximately 100 injured rushed to Atlanta by special Pullman trains for hospitalization, two died en route, two others succumbed soon after their arrival, and physicians said the condition of a dozen more is critical.

Convicts, firemen and National Guardsmen worked shoulder to shoulder in clearing streets of the ash down from the charred ruins of a hardware store.

Tupelo prepared to bury almost 200 of its dead as the search went on for many persons missing. Between 750 and 1,000 of the town's finest houses were leveled, and many homeless survivors are being sheltered by other residences. It is feared that Park Lane, near which the negro section was demolished, would yield up more bodies. Eight bodies have been retrieved and it was considered the lake be drained to find more. Emergency morgues dotted the city as undertakers hastily embalmed bodies.

Forty-seven persons are dead in Alabama, 13 at Red Bay. Twelve were killed in Tennessee, five each in the Columbia and Clifton areas. LaCrosse, Ark., had one death. One million dollars will be needed for the relief of tornado sufferers, the Red Cross announced.

ELECTRIC TRAIN ARRIVES
MIAMI, Apr. 7.—(AP)—A Diesel-powered electro-locomotive pulled the Orange Blossom Special into Miami yesterday over the Seaboard Air Line Railway tracks, completing the first trip of an all-electric drawn train from New York to this city.

BIBLE VERSE FOR TODAY

A SAFE FORTRESS.—As the mountains are round about Jerusalem, so the Lord is round about his people from henceforth even forever.—Psalm 125: 2.

The cross state canal has definitely been repudiated by Congress, but the work there goes on and on.

It's a good thing Gov. Sholtz isn't a candidate in this election. Some of the other candidates might make a few sarcastic remarks about him.

Speaking of the disapproval of the cross state canal by Congress, the Tampa Tribune says, "Clearly, Sanford now has a better chance of getting some funds for a needed hospital." Let us hope.

Of course, if there should be a war in Europe we'll keep out of it all right... unless some son of a gun over there makes some crack about our being too proud to fight.

Now that Mussolini has started dropping bombs on Addis Ababa, the Ethiopians at last realize what he meant when he said he intended to civilize these barbarians.

In the Eskimo language, "I love you" is "Univgasacrutinalfai: usnujarisiguelak." This explains why the arctic nights have to be so long.—Eustis Lake Region. And why newspapers are sometimes unjustly accused of typographical errors.

We knew that a lot of people had lost confidence in the dollar during the past three years, but we didn't realize that that mental attitude also included nickels and dimes until we discovered how many people were playing the slot machines.

Only seven men have actually qualified for gubernatorial honors, though no less than eighteen have announced their intention of making the race. The seven who have paid their fees are: Grady Burton, Jerry Carter, Dan Chappell, Fred Cone, B. F. Paty, Ralph Pottaway and J. R. Yearwood.

People who are sympathetic to the Fascist form of government, or like the idea of a dictatorship for their government, have difficulty explaining the higher standard of living in this country. In Italy, we read, gasoline sells for \$1.37 a gallon, but practically no one drives a car except public officials, the nobility, and the very rich.

The government sends out a mass of propaganda. Said Paul Mallon yesterday: "A Washington real estate man strolled into a hardware store in Carthage, N. C., and found the proprietor kicking around a stack of mailed literature about four feet high. The proprietor explained: 'That's the stuff I have received from the Federal Housing Administration during the last 18 months. I haven't had time to open any of it yet.'"

Comes this timely suggestion to future war veterans from John Temple Graves, Jr.: "Now that the Veterans of Future Wars movement has spread farther than the sea and so many undergraduates are all jammed up with no place to go, we suggest a simple way to better the thing and give it a second life. We suggest that all the young men and young women and deliver to the War Department a 'relation' of 'what business, profession or other activity or benefit may accrue to the country as a result of service in the military, in a war which may be had a good long while yet.' We suggest that we should believe that the young men and women who are going to the war should be given a good long while yet to think about it."

Revenge Is Sweet

South Florida had better change its tune about the wisdom of the cross state canal, or further appropriations for improvements to rivers and harbors in the southern part of the state may be cut off. This is the conclusion which might easily be drawn from a letter written by Representative Joe Sears to Thomas J. Pancoast, president of the Miami Beach chamber of commerce. Whether Mr. Sears would also hold up allotments for highway aid, relief work, and similar federal activities is not indicated.

Mr. Sears, who is evidently no geologist, seems to believe that if there is logic in the assertion that a deep cut through the Ocala limestone would damage Central Florida's underground water supplies, it goes almost without saying that river or harbor improvements anywhere in the state would prove similarly disastrous. He seems to fear that some of his colleagues in Congress may have the impression that dredging operations in Biscayne Bay would turn Miami Beach into a desert.

"Your section of the state has a reputation for being many of my colleagues in Congress that unless we are very careful, the waters of Florida will be damaged and may be ruined through the construction of the cross state canal," Mr. Sears writes. "I do not know what effect this is going to have on further deepening of harbors at Tampa, Miami, Fort Pierce, West Palm Beach and other cities.

"While I do not believe Florida will be made a desert and I have been convinced by geologists of the highest standing and the engineers that the waters will not be affected, if those who are so insistent and believe to the contrary do not correct this impression among my colleagues, and it should prove they are correct, and by so deepening and widening the waterways of Florida, our waters are ruined, then it would be unfortunate to make Miami Beach a desert," he declares.

Mr. Sears then requests that the Miami Beach chamber of commerce employ competent geologists to make a thorough study of the geological strata underlying Miami Beach to determine for a certainty whether dredging operations in the Bay would contaminate the Beach's water supplies. We dare say that in his present frame of mind Mr. Sears would insist upon this precaution even though the fresh water at Miami Beach were shipped in by train from the mountains of North Carolina.

Of course, Miami Beach receives its fresh water from the Everglades and the region of Lake Okechobee, and no amount of dredging in Biscayne Bay could interfere with this supply. But this naturally would mean little or nothing to those who have plainly lost their perspective because of the defeat of the cross state canal.

The Government Debt

If all the notes which the government has endorsed and all the other financial commitments which the government has made were added to the present figures given out by the Treasury as being the total public debt, the figure would be about 20 per cent higher than it is generally represented as being.

This is the conclusion drawn from a statement of the assets and liabilities of the United States government as of June 30, 1937, based upon Treasury estimates. Many changes have already taken place in the balance sheet since the President's budget message in January. Such changes as have been made have tended largely to increase the debt. Other changes may be expected before the year of 1937 comes to a close.

But as the balance sheet of June 30, 1937, now stands, according to the best estimates available, the public debt next year will be in excess of 40 billion dollars. This will be composed of \$31,351,000,000 of ordinary debt, \$281,000,000 representing deficits growing out of the AAA program, \$736,000,000 representing the cost of the new farm program, and \$1,500,000,000 for work relief during the coming year. To this must also be added \$2,249,000,000 for bonus payments, and \$4,621,000,000 in contingent liabilities representing fully guaranteed Home Owners' Loan bonds and farm credit bonds.

On the other side of the ledger the Treasury figures that it will have \$1,504,000,000 cash on hand and in the banks, recoverable assets of \$4,390,000,000 representing government loans for various self-liquidating projects, \$4,621,000,000 of contingent assets covered by mortgages on homes and farms, \$8,000,000 expected from Finland in payment of war loans, \$2,000,000,000 of gold profit now in the stabilization fund, \$100,000,000 from "windfall" taxes, and \$440,000,000 from other new taxes to be collected during the fiscal year of 1937, leaving \$27,675,000,000 necessary to be raised by future taxation to pay off the government debt.

Of course, it is not expected that this government debt will have to be paid off any time soon, or even within the life time of anyone now living. But it is something on which interest charges will have to be paid out of current operating receipts. Furthermore, it is interesting to note from this statement that the government owes nearly five billion dollars in "contingent liabilities," not ordinarily listed as part of the government debt.

We hope that Uncle Sam does not have the same experience which a lot of the rest of us have had when we endorsed other people's notes.

SANFORD TWENTY YEARS AGO

Sanford will play host to the Florida Grand Lodge of Odd Fellows and the Rebekahs on Monday, Tuesday and Wednesday and all the citizens should get busy and show the visitors the proper time while they are here. The first step will be the decorating of the business houses on Monday and this goes a long way with the visitors in any convention as it carries with it the real spirit of hospitality.

Honorable board of County Commissioners, in and for Seminole County, met in regular session recently with L. F. Hagan, L. A. Bramley, C. W. Entzminger, J. A. Clark, and J. T. McLain in attendance. V. E. Douglas, served as deputy clerk and C. M. Hand, sheriff, was also present.

O. C. Bryson, the well known grower of lettuce and celery at Wagner, brought two fine stalks of celery to The Herald office yesterday and stated that he raised two acres of celery this year and will have three tons of it in the next few weeks and cut 1000 stalks to the acre. He raised the celery in the same place as he raised the lettuce.

FLORIDA CITRUS GROWERS HAVE RECEIVED NINE MILLION MORE THIS SEASON THAN LAST

Citrus Growers Of Florida Have Received Nine Million More This Season Than Last

Increase In Net Return Is Four And A Quarter Million

LAKELAND, Apr. 7.—Florida citrus growers have received at least \$9,000,000 more this season than they did for the same quantity of fruit sold up until Mar. 31 last year, it is estimated by the Florida Citrus Commission.

As there have been 2,500,000 fewer boxes of grapefruit, oranges and tangerines sold in northern markets and to canneries this season, the increase to date in net returns is about \$4,285,000.

Average auction prices thus far this season have been 45 cents per box higher on oranges, 54 cents higher on grapefruit and 33 cents higher on tangerines. Auction figures are used in comparing returns because they offer the only public record of prices paid for Florida fruit, the commission explained. Prices paid or some fruit in private sales will be even greater, it said. Estimates on returns to growers cannot be completed until the end of the shipping season, when all statistics are available.

Shipments of 9,621,768 boxes of oranges to northern markets by rail, boat and truck, thus far this season, are estimated to have sold for \$28,200,570, or an average of \$2.93 per box, compared with shipments of 10,809,840 boxes to the same date last year, which are estimated to have sold for \$27,121,201, or an average of \$2.49 per box.

Shipments of 5,233,300 boxes of grapefruit to northern markets by rail, boat and truck, thus far this season, are estimated to have sold for \$13,277,664, or an average of \$2.53 per box, compared with shipments of 5,919,490 boxes to the same date last year, which are estimated to have sold for \$11,779,990, or an average of \$1.99 per box.

Shipments of 1,762,821 boxes of tangerines to northern markets by rail, boat and truck, to Feb. 29 are estimated to have sold for \$4,706,740, or an average of \$2.67 per box, compared with shipments to the same date last year of 1,611,710 boxes, which are estimated to have sold for \$4,018,271, or an average of \$2.51 per box.

Florida canneries have purchased about 2,500,000 boxes of grapefruit thus far this season at an average price of about 70 cents per box, compared with purchases of about 4,500,000 boxes up to the same time last year at an average price of 32 cents per box. Growers have received a million dollars more for a million boxes less of canneries fruit this season.

Increase in the market value of fruit will be reflected in equally higher returns to growers, for costs of packing and delivering fruit to northern markets are no greater this year, said L. P. Kirkland, commission chairman. "As a matter of fact, some of these costs are less than they were last year," he said.

Mr. Kirkland pointed out that Florida oranges have been outselling those from California in many markets this season, for the first time in several years, and that the average increase in the price of Florida oranges has been twice

that of California fruit. Texas same rate in 1934-35 of 1,631,740 boxes at an average of \$2.34, and sales of 1,733,140 boxes in 1933-34 at an average of \$2.45.

"We have had one thing this season that we did not have before, and that is a national advertising campaign on all Florida fruit. Analysis of marketing conditions this year offers convincing proof grapefruit prices advanced 17 cents per box in northern markets this season, while Florida sales have averaged 84 cents higher than last year.

"Several factors are responsible for the better prices paid for all Florida fruit this season," said Mr. Kirkland. "Our oranges have had better color, there has been a better standardization of shipments under the new state inspection laws, and economic conditions generally, are improved. The fact that we had a freeze in the 1934-35 season does not detract from the better showing made this year, for in the season before that of 1933-34, when we marketed just as much fruit as was sold last season prices were almost as low.

Up to Feb. 29 this year we sold 1,762,821 boxes at an average of \$2.67, compared with sales to the of the effectiveness of this advertising. The greater demand it has created for our grapefruit, oranges and tangerines is directly responsible for much of the improvement in prices. As the result of an expenditure of about \$400,000 in advertising, growers will receive at least \$10,000,000 more than they did last year, for the same amount of fruit.

"Equally important is the fact that the advertising has placed Florida growers in a position where once more they can sell their fruit successfully in competition with that from California and Texas. Despite the fact that Florida grapefruit shipments in March were heavier than in the two preceding seasons, and flood conditions handicapped sales in many sections, average auction prices steadily advanced throughout the month. That would not have been the case if we had not been able to advertise and maintain consumer demand. Since we have started to advertise the large-size Florida oranges there has been a marked improvement in the demand for them."

Ninety-four newspapers with a total circulation of 14,581,054 are being used in the national advertising campaign of the Florida Citrus Commission, as well as Florida stations and trade publications. Its sales promotion department has distributed 62,000 posters of Florida oranges, grapefruit and tangerines to northern retail stores. Fifty thousand booklets on the health values of Florida fruit have been sent to consumers from the commission's Lakeland office.

Florida canneries have purchased about 2,500,000 boxes of grapefruit thus far this season at an average price of about 70 cents per box, compared with purchases of about 4,500,000 boxes up to the same time last year at an average price of 32 cents per box. Growers have received a million dollars more for a million boxes less of canneries fruit this season.

Increase in the market value of fruit will be reflected in equally higher returns to growers, for costs of packing and delivering fruit to northern markets are no greater this year, said L. P. Kirkland, commission chairman. "As a matter of fact, some of these costs are less than they were last year," he said.

Mr. Kirkland pointed out that Florida oranges have been outselling those from California in many markets this season, for the first time in several years, and that the average increase in the price of Florida oranges has been twice

THE SANFORD FORUM

Sanford, Fla., April 6, 1936.

The Editor, Sanford Herald.

The editorial in your Herald of last Tuesday, Mar. 31, on the subject of the so-called investigation of the financial set-up of the Townsend Movement, attracted the attention of a good many of the members of this club, and without doubt others who are not connected with the Club, but who are people who think, and we are under the impression that you go too far when in an editorial so plainly biased you show such animosity to a Plan and its officials, its method of financing etc. etc. *sanctifying yourself* which few editors have done, judge of the entire organization and its aims!

We again, therefore, suggest that if you wish to continue to discuss the Plan in your paper do so in a more considerate manner and not so severely condemn honest people because they have sought fit to espouse an honest cause for the betterment of all, it being their constitutional right!

The Townsend Movement is here to stay. It is the fixed foundation from which the common people are firmly building a new condition, a new edifice. The old system has to go. It has failed!

Conditions such as prevail in the \$50,000 inquisition being held in Washington is sufficient proof to the common people of this United States that they are no longer a free people.

Seven Thousand Notarized letters attesting the loyalty of Seven Thousand Townsend Clubs and their Officers to the Officials governing the Movement, are being mailed at this time to the so-called Investigating Committee in Washington.

This Local Club has 835 paid-up members, many of whom subscribe to The Herald.

Very respectfully,
Sanford Townsend Club,
E. C. COWAN, President
GEORGE M. DOUGLASS, Secretary.

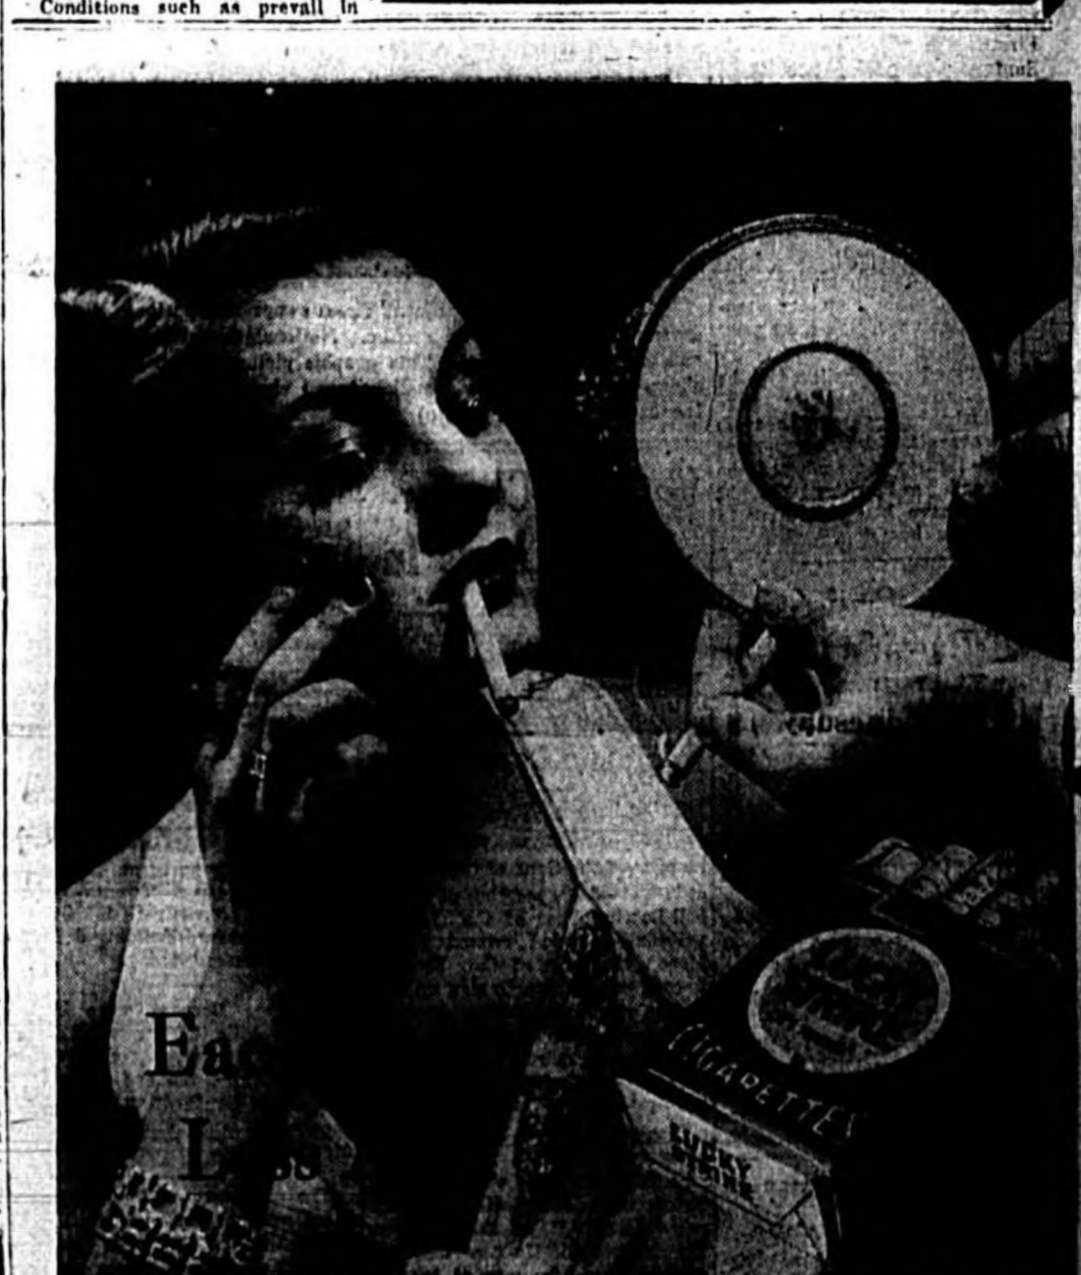

Sent to the Editor of The Herald at the request of the 65 members present at our meeting held Friday, Apr. 5, 1936.

Arkansas centennial celebration leaders want to give the name "Will Rogers trail" to a roadway from northwestern Arkansas to Louisiana.

Conditions such as prevail in

Each Puff Less Acid
A LIGHT SMOKE
OF RICH, RIPE-BODIED TOBACCO

Over a period of years, certain basic advances have been made in the selection and treatment of cigarette tobaccos for Lucky Strike Cigarettes. They include preliminary analyses of the tobacco selected; use of center leaves; the higher heat treatment of tobacco ("Toasting"); consideration of acid-alkaline balance, with consequent definite improvement in flavor; and controlled uniformity in the finished product.

All these combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

Luckies are less acid

Social Calendar

WEDNESDAY

The Literature Department of the Woman's Club will present two scenes in costume from Shakespeare's "Midsummer Night's Dream," at 3:30 P. M. Mrs. W. E. Kirchhoff as director, Mrs. J. B. Coghurn as sponsor, and Mrs. V. E. Douglas as hostess.

The Literature Department of the Woman's Club will meet at 3:00 P. M. at the club house for a business session and program, "Midsummer Night's Dream." Called meeting of executive committee at 2:45 P. M.

The Sarah Parker Orphanage Club will meet at 2:30 P. M. at the home of Mrs. W. R. Edensfield, 314 West Third Street.

THURSDAY

The Grammar School P. T. A. will meet at 3:30 P. M. in the school auditorium.

FRIDAY

Seminola Rebekah Lodge will meet at 8:00 P. M. at the Odd Fellows Hall.

SATURDAY

The Cecilia Music Club will

Circle Number Two Has Regular Meeting

Mrs. G. W. Bailey and Mrs. R. I. Shiholser were hostesses at the regular meeting of Circle Number Two of the First Methodist Church held Monday afternoon at the home of Mrs. Bailey on West Eighth Street. Mrs. W. P. Fields presided over the business session.

During the social period refreshments were served by the hostesses assisted by Mrs. W. M. Haynes. Those present were: Mrs. W. M. McKim, Mrs. A. D. Shoemaker, Mrs. A. D. Zachary, Mrs. W. S. Thornton, Mrs. W. P. Fields, Mrs. Elmer Marshall of St. Charles, Ill., Mrs. R. L. Shiholser, Mrs. G. W. Bailey, Mrs. J. W. Harkey, Mrs. J. E. Bridges of Moorehead City, N. C., Mrs. Bessie Hutchinson, Mrs. J. K. Mettinger, Mrs. W. W. Ellis of Macon, Ga., Mrs. John G. Patterson, Mrs. J. M. McCaskill, Mrs. C. C. Priest, Mrs. T. E. Wilson, Mrs. G. A. Radford, Mrs. Z. B. Ratliff, Mrs. Frank Adams, Mrs. W. M. Haynes, Mrs. Walter L. Morgan, and Miss Bessie Zachry.

The Easter cantata, "The Crucifixion," by John Stainer, will be presented at 8:00 P. M. at the First Methodist Church by the Sanford Woman's Club with the cooperation of the Sanford Ministerial Association.

AMARYLLIS EXHIBIT OPENED IN ORLANDO

ORLANDO, Apr. 7.—(AP)—The third annual National Amaryllis Show of the American Amaryllis Society opened here today. Thousands of blooms will be displayed for two days. One exhibit is from California.

I. W. Heaton of Orlando, manager of the show, said he expected 15,000 persons to view the free display.

POSTPONEMENT

Because of the observance of Holy Week, regular meetings of the Garden Club of Sanford which were scheduled to take place this week have been postponed until next week. The board meeting which was to be held tomorrow has been put off until Wednesday, Apr. 16, and the club's meetings for Friday, Apr. 10, will take place Friday, Apr. 17.

TO OBSERVE ANNIVERSARY

The tenth anniversary of the founding of the H-Y Club in Seminole High School will be observed with special services Thursday morning at 10:00 o'clock at the school auditorium. All charter members, past presidents, and present members of the club are invited to attend.

'SIN DIVE' GOES WRONG

SAN JOSE, Calif., Apr. 7.—(AP)—Explaining he was trying to "wash away his sins," Thomas Holland, 31, jumped 40 feet off a bridge. He landed in water six inches deep and suffered a broken leg.

meet at 3:15 P. M. at the studio of Mrs. Fannie S. Munson.

The Loyal Temperance Legion will meet at 10:00 A. M. at the Methodist Church annex for a doughnut party and hike.

Personals

Friends of J. H. Truluck will regret to learn that he is ill at his home, 1119 Magnolia Avenue.

Dr. and Mrs. H. D. Smith are spending this week in Alabama visiting relatives.

Miss Claire Zachry is planning to leave Thursday for Okeechobee to spend the week-end with Mrs. E. M. Meserve.

Mrs. Gordon Cherry of Tampa arrived yesterday to spend a few days here with her parents, Mr. and Mrs. L. P. Hagan, Park Avenue.

Mr. and Mrs. M. M. Wynne of Fort White, Fla., and Mrs. J. S. Means of Gainesville spent the week-end here with Mrs. J. H. Wynne.

Miss Katherine Scott of Lafayette, Ala., and Miss Mary Jane Preston of this city have accepted positions with Lever Brothers. They left the latter part of last week for Leesburg.

HONOR STUDENT

MARIAN HOOLEHANN, DELAND, Apr. 7.—Marian Hoolehan, of Sanford, is an honor student at Stetson University this year, making a special high record in mathematics and foreign languages. A junior, Miss Hoolehan is actively participating in campus dramatic productions.

Veterans Clamor To Sign Lads In Sons Of Legion

(Continued from page 1) Legion's program of Americanism, rehabilitation and preparedness. "You know as well as I that other nations are jealous of the United States, we must have an Army and a Navy large enough to protect our shores, and there is something wrong with the pacifist who argues against preparedness." He said he was "shocked" a few days ago when a leading business man of Jacksonville objected to a resolution presented at a meeting of the state's educators requiring the display of the American flag in school rooms.

Among visitors at the post meeting were Legionnaire Sam W. Getzen of Sumpter county, candidate for state treasurer, and Legionnaire Fannie Steed of Kissimmee, candidate for Congress.

Unlawful Probes Are Critized By Supreme Court

(Continued From Page One) The three primary departments of the government is not enough. Our institutions must be kept free from the appropriations of unauthorized power of lesser agencies as well.

"And if the various administrative bureaus and commissions are permitted gradually to extend their powers by encroachments—even petty encroachments—upon the fundamental rights, privileges and immunities of the people, we shall in the end, while avoiding the fatal consequences of a supreme autocracy, become submerged by a multitude of minor invasions of personal rights, less destructive but no less violative of constitutional guarantees."

Selassie Sends Two Lions To Texas Boy

BROWNSVILLE, Tex., Apr. 7.—(AP)—Emperor Haile Selassie of Ethiopia is sending two lions from the royal kennels to Manuel King, Brownsville boy lion tamer.

"Train them, put them in your act and send the Emperor a picture of them," are the instructions sent to Manuel by Howard Winner, newsreel cameraman now in Ethiopia.

Winner once photographed the young trainer with his lions and obtained the gift for him from the Negus.

BOWS REPLACE CLIPS

LONDON, Apr. 7.—(AP)—Small bows are being worn in the hair instead of clips or flowers.

JIM TURNS ON THE HEAT

James Cagney, in the role of a skyway pioneer who laughs at death and lived for love, is shown above handing a line to pretty June Travis, who is crazy about flying and likes aviators, in a scene from the Cosmopolitan production "Ceiling Zero," which opens at the Ritz Theatre on Wednesday.

HONOR STUDENT

MARIAN HOOLEHANN

DELAND, Apr. 7.—Marian Hoolehan, of Sanford, is an honor student at Stetson University this year, making a special high record in mathematics and foreign languages. A junior, Miss Hoolehan is actively participating in campus dramatic productions.

Miami Halts Payment On Parking Meters

MIAMI, Apr. 7.—(AP)—The city of Miami held up a second payment for 409 parking meters following its disapproving assignment of a contract by the dual park-o-meter company of Oklahoma City to Shaw Brothers, Inc., a Florida firm.

One payment, amounting to \$1,300, was made to Shaw Brothers before City Attorney J. W. Wilson, Jr., recently advised against further payments until efforts had been made to seek a reduction of the meter costs.

The city refused to recognize the contract assignment on grounds that it contracted to pay \$58 each for the meters, and that the Oklahoma company then assigned them to the Shaw firm at \$26 each, allowing a profit of \$32.

The meters were expected by the city to provide an annual revenue of \$50,000 after they had been paid for.

Records Reveal Name Of Town Long Misspelled

CENTERVILLE, Ia., Apr. 7.—(AP)—The name of this town has been spelled with a "C" for years when, as a matter of fact, it should have been an "S."

The error was discovered by County Clerk Howard D. Evans when he searched through the records after receiving a letter addressed to Senterville.

A history of Appanoose county shows, says Evans, that early day residents here decided to name the community Senterville in honor of Governor Senter of Tennessee.

Later, the state legislature, not knowing about the connection with Governor Senter, thought it was just a case of bad spelling on the part of the old timers and made it Centerville which, in all probability it will remain.

To My FRIENDS

I wish to take this means of extending my appreciation to all my friends in Sanford for their generous patronage during the years in which I operated my business here. I am looking forward to seeing each of you at my new place in Gainesville.

RITZ

When you need to talk with someone in another city, you will find that the horse-and-buggy days are definitely over in the field of long distance telephone communication.

Last year, in the South, nine out of ten long distance connections were completed from the calling party to the person wanted without the caller hanging up the receiver.

This amazingly speedy service was of untold value to business, and brought pleasure to millions of folks who enjoyed a few moments of conversation together although they were miles apart.

Today, miles do not matter. When you wish to talk with someone who is far away from you, just call "Long Distance." You will be pleased with the speed, clearness and low cost of long distance telephone service.

When there's news in that campus pet, the shirt frock, that's news indeed. This versatile one is worn with or without its contrasting blouse—without it, it doubles as a tennis frock. Miss Joan Plank of Alabama College is its smart designer.

You've heard, no doubt, about rejuvenating your last year's evening clothes by adding a bunch of fresh flowers or part new bows, but we think a far smarter idea is to add a box of some sort. It can be of the same material as the dress or of flowers or of tulle. You'll find these bows positive beautifiers.

If your family boasts a coat of arms or a crest a rather nice way of using it is to have it made into a ring. We saw some done in silver and they were really quite effective. If you lack a crest or a coat of arms have your hobby done this way.

Beauty is its own excuse for being, but there can hardly be any excuse for wandering eyebrows and smudgy lip rouge with this magic mirror that can be adjusted to almost any angle. Because it's lighted from behind it lets you see yourself as others see you.

Fashions and music go around and around for here we are, back again with taffeta petticoats. They're striped or plain, with or without ruffles, and a rustling new high in spring frivolity.

At last a key chain that does away with struggling to find the right one. This is a silver metal link chain which resembles a charm bracelet. The charms are such as a car, a front door, a desk, a wine bottle and so on. You attach the right key next to the corresponding charm and your worries are over.

When there's news in that campus pet, the shirt frock, that's news indeed. This versatile one is worn with or without its contrasting blouse—without it, it doubles as a tennis frock. Miss Joan Plank of Alabama College is its smart designer.

MILES DO NOT MATTER

When you need to talk with someone in another city, you will find that the horse-and-buggy days are definitely over in the field of long distance telephone communication.

Last year, in the South, nine out of ten long distance connections were completed from the calling party to the person wanted without the caller hanging up the receiver.

This amazingly speedy service was of untold value to business, and brought pleasure to millions of folks who enjoyed a few moments of conversation together although they were miles apart.

Today, miles do not matter. When you wish to talk with someone who is far away from you, just call "Long Distance." You will be pleased with the speed, clearness and low cost of long distance telephone service.

When there's news in that campus pet, the shirt frock, that's news indeed. This versatile one is worn with or without its contrasting blouse—without it, it doubles as a tennis frock. Miss Joan Plank of Alabama College is its smart designer.

Only Native Boys Can Climb Coconut Trees

HONOLULU, Apr. 7.—(AP)—Tourist tales notwithstanding, the Honolulu police department is determined to discourage visitors from climbing coconut trees in public thoroughfares.

Two recent visitors were so informed when an officer interrupted their assault on a pair of palms near a downtown office building.

Resident say only Hawaiian boys can climb the slippery trees anyway.

Spooners Are Not Bothered By This Woman Constable

CHARDON, Apr. 7.—(P)—Ohio's only woman constable has little use for her "old mania" fellow officers who prey on young couples taking advantage of secluded roads on moonlight nights.

"Most constables forget the mystic influence of the moon and balm evenings," says Miss Pauline Hunt, aged 24.

"They seek to force their officiousness on couples who are often wont to park, wrapped in the spell of love, on the secluded highways. But not me."

"Of course, if I thought their car was endangering traffic, I might pleasantly tell them to move the car to a less dangerous spot, give them a smile and then depart," she added. "Some of these old constables forget they were ever young."

Miss Hunt won her badge without campaigning. Her name was mentioned at a township caucus, she consented to file, and that was that.

Texas Governor Says Women Wore Clothes During Pioneer Days

AUSTIN, Tex., Apr. 7.—(P)—There will be no nude memorial to the pioneer women of Texas if Lieut.-Gov. Walter F. Woodfill has his say.

"Pioneer women may not have been clothed in silks and satins but they were clothed in modesty," he said protesting the statutory spirit of the pioneer as depicted by artist William Zorach of New York.

On the campus of the State College for Women at Denton, Zorach would place a family group of nudes as a memorial to pioneer Texas womanhood.

"There will be no nude statue," declared the state official also chairman of the Texas Centennial Commission of Control. He was supported by L. W. Kemp, chairman of the advisory board on Centennial matters.

"Stephen F. Austin, the Father of Texas, never founded a nudist colony," Kemp pointed out.

Voodoo Dancers Can Gyrate On Havana Streets

HAVANA, Apr. 7.—(P)—For the first time in many years, Cuban authorities have permitted "nanigos" to offer public rituals and demonstrations as a side attraction to the annual carnival season.

"Nanguismo," a voodoo cult, is numerically strong in Cuba. The practices and rituals are flares-backs to the jungles of Africa and have withstood civilization throughout the West Indies.

Even the "nanigo" language holds closer to the African tongue than to the Spanish. Hundreds of Afro-Cuban words have crept into the everyday language and are so foreign to Spanish that special dictionaries have been published.

Much of the rhythm of "Cuban" music comes from the chants and rituals of the "nanigos." The beating of twin drums, the scraping of gourds and the various clatter-devices of the rumba are offshoots of the cult.

Because the ban against public ceremonies has been so tight up to this year, photographs of the most colorful of all "nanigo" ceremonies, the "conga," have been most rare. Most highly developed of "nanigo" dances, it consists of a series of bodily contortions executed to the beat of drums and chants of voices.

Men and women participate in the "conga" and the dance goes on for hours through a restricted area in Havana. The chants and drums can be heard for miles.

A "conga," in public, always draws a huge crowd, and often dark-skinned spectators join the writhing procession.

TAX PAID Whiskey \$1.25

Full Quart
Fifty Cts. Unit Pints 50c

The full bodied flavor and smoothness of this whiskey is due to the use of the finest selected premium grain. Each grain all chosen whiskey are made. Every drop is naturally aged in charred oak casks and bottled from the bottom of the stillifier. The soft smoothness indicates superior quality. Very smooth for the throat. Serves best on ice with a splash of water or just over the rocks.

VISUAL NEWS of the WORLD IN PICTURES

RIPPING TORNADO BRINGS DEATH TO 82 AT TUPELO, MISS.

Eighty-two persons or more were killed and hundreds were hurt by the tornado that ripped through Tupelo, Miss., a few hours before it struck other widely separated points in the southern states, bringing death to a total of at least 100. This picture shows some of the wreckage piled up in a Tupelo residential section. (Associated Press Photo)

Felice Fire Fighter

The long, shiny brass pole in fire station No. 10 at Minneapolis offers no handicap to Mickey, the cat, a full-fledged fire fighter. Here he is shown climbing down the pole with a fireman as the alarm gong summoned the crew to a blaze. (Associated Press Photo)

TORNADO WRECKS GAINESVILLE POLICE STATION

This debris was all that remained of the police station after a tornado roared through Gainesville, Ga., wrecking the business section, killing 43 persons, and injuring hundreds of others. Property damages were estimated into the millions as the twister cut a path of destruction two and a half miles long and a half mile wide through the north Georgia industrial city. (Associated Press Photo)

COURTHOUSE WRECKED AS TWISTER HITS GAINESVILLE

Tearing a hole through the building, a death-dealing tornado which took the lives of 43 persons caused the Gainesville, Ga., courthouse to crumble. A marble monument was the only thing left standing in the courthouse square—located in the center of the city—when the twister, followed by fire, razed the town and caused millions of dollars damages. (Associated Press Photo)

COOPER LEADS AT AUGUSTA

At the halfway mark of the Augusta National invitation golf tournament, Harry Cooper of Chicago held a five-stroke lead over the field with a score of 138. He is shown playing a difficult shot out of the woods. (Associated Press Photo)

'GUINA PIG' TWINS LEAD BUSY LIFE

Besides leading Columbia University scientists through interesting psychological experiments, these "guinea pig" twins of New York city are keeping their mother, Mrs. Dennis Woods, busy with their surplus of "ideas." The four-year-old sons of a P.W.A. nursewoman have been used by the scientists in child psychology experiments since they were 20 days old. (Associated Press Photo)

Cooper Leads Golf Tourney At Augusta

Finishing two strokes under par, Harry Cooper, Chicago professional, took a first-round lead in the third annual Augusta National Invitation Golf Tournament at Augusta, Ga. He is shown adding up his score at the end of the round. (AP Photo)

Animals, Machinery In This Texas Family

DALLAS, Tex., Apr. 7.—(AP)—"This family consists of wife and I, one milk cow, one 1,250-pound mule about 12 years; one male 1,175 pounds; one iron wheel wagon."

Thus did a Rockwell county farmer start his inventory in applying to the U. S. resettlement administration for aid.

BLAST WRECKS OIL PLANT

Thousands of gallons of gasoline went up in smoke when an explosion in a mammoth tank started a fire that swept a distributing plant of the Texas company at Birmingham, Ala. Two firemen were overcome in fighting the flames that raged for hours. (Associated Press Photo)

WHERE SCORES DIED IN SOUTHERN TORNADOES

'BRIDAL SUITE' IN PARADE BRINGS CRITICISM

Nudity was banned from the parade during the Festival of States at St. Petersburg, Fla., but many tongues wagged critically when the float, used in review, was designed to represent a bridal suite with the bride, scantily attired, sitting before a French mirror preparing to retire. (Associated Press Photo)

Ripley, Hoover And 'Hell's Half Acre' Cagney Boys' Heroes Renamed By Women

NEW YORK, Apr. 7.—Robert Ripley, J. Edgar Hoover and James Cagney ran off with the honors last night in a "hero worship" poll at the Boys' club of New York, whose 11,000 East Side members include every race and creed in the city.

President Roosevelt was placed seventh in the balloting by the youths, ranging in age from eight to 15.

CHATTANOOGA, Apr. 7.—(AP)—"Hell's Half Acre," considered by police authorities to be a spawning place for petty crime, has been rechristened by women of Wesley community center as "Sunshine Acre."

The women worked in homes with scrub brushes and brooms on vacant lots with rakes and hoes and planted rose bushes in sidewalk park lanes.

Mayor Shinholser Pitches Fast One At Opening Game

Yankees Victorious In First Contest Of Junior League

Mayor S. O. Shinholser proved to be a second Walter Johnson yesterday afternoon when he pitched the first ball at the opening of the Leon Club's Junior League baseball season. He sent a scorching over the plate, and it came to fact that Maxwell Stewart, president of the League, took one wild swing at it, and threw down his bat. Glenn Lingle, chief umpire, was in the catcher's box, and he caught the ball which both he and Stewart said was "hot."

After these ceremonies, highly pleasing to the youngsters, none of whom is over the age of 15 years, the regular teams went on the field, the Yankees vs. the Red Sox. The Yanks won, 9 to 7. The game went only seven innings, as it did not begin until 5 o'clock and the opening ceremonies took up some time.

The batteries: Yankees, Godwin and Tippins; Red Sox, Hoover and Kennedy.

The Pirates play the Gaints this evening.

All games in the Junior League will be played on the Grammar School grounds at Elm Avenue and Seventh Street, weekly, excepting Saturdays, at 5 P. M.

18 Men Are Signed Up For The Sanford Lookouts And Begin Practice Work Today

Eighteen men for the Sanford Lookouts of the Florida State League were signed up by the directors at a session that lasted until last midnight. All of them will not be kept, as Elm Buck is expected to bring over eight men from the Chattahoochee Lookout camp, and the team is to be restricted to 14 men.

The bunch was to go out for first practice this afternoon, and it will be a case of the survival of the fittest. The best men will be kept, and the poorest allowed to travel.

The 18 signed last night are in addition to Staffy McCrone, manager, who sat in with the directors and advised them as to what players to take and who to let go. Many were eliminated after the manager watched them in a short practice workout yesterday afternoon.

Those tentatively signed for the Lookouts are the following:

Joe Bristuff, 22, pitcher, Jacksonville.

Felix Gavorink, 21, pitcher, Jersey City.

Bill Loper, 22, pitcher, Ocala.

Herbert Moses, 18, pitcher, Sanford.

Ray Evans, 20, pitcher, Chicago.

Doc Harden, pitcher.

Jay Festress, 19, pitcher (left-handed), Greenacres, N. C.

Frank Veal, 24, pitcher, Cairo, Ga.

James W. McFally, 23, first baseman, Chicago, Ga.

Shirrah Powell, 19, infielder, Cuthbert, Ga.

Julia Purcell, 21, infielder, Perry.

Robert Wayne, Jr., 17, infielder, Kirkwood, Mo.

Bill Cates, 20, infielder, Key West.

David James Swindell, 22, outfielder, Lakeland.

Gordon Barnes, 18, outfielder, Bridgeport, Ala.

Elwood Spidal, 20, outfielder, Cleveland.

Harry Brannon, 21, outfielder, Plant City.

Edgar Tally, 19, outfielder, Birmingham.

Ninth Race Will Be A Feature At Longwood Tonight

Seven Star Dogs To Compete For First Place In The Derby

A feature almost as interesting as the first annual \$1,000 added Central Florida Greyhound Derby which will be run Wednesday night is the feature ninth race tonight in which seven stars will fight for the first place and the right to enter the Friday night consolation race.

The Consolation—Elimination entries tonight are Caroleen Wager, Billy Kay, Bollyclava, Ann Wild, Hawkeye Chief, Wild Pansy, and Shiny Barney. The first four over the line will join Lady Traffic Sunny Key, Flash Past and Caroleen Queen in the consolation over the 7-16 mile distance on the closing night feature Friday.

The \$1,000 Derby entries—Molly Malone, Chance Charlie, Tracie Slag, Ann Tray, Wild Maiden, B-w-k's Light, Ann Hope, and N-w-k—are being kept out of action until the ninth race Wednesday.

Speculation last night over the outcome of this race had a big crowd of enthusiasts gathered in to groups claiming "hunch" knowledge that so and so would cop the season's climax event.

With the running of the Derby, the Longwood track jumps into the front rank of Florida dog tracks. No track ever has offered a 7-16 mile race, and few have offered \$1,000 added purses. Every track in Florida will be represented in the record crowd expected.

Tonight's races begin at 8:15

Plano Tuner's Cures Bring French Discord

NANCY, France, April 7.—(AP)—Jean Mathieu, piano tuner, who turned doctor and tried to find "harmony between the individual and his ailing stomach," was fined for illegal practice of medicine.

The French Medical Association, which pressed charges against Mathieu, said his "healing" method consisted simply "of looking his patient straight in the eye with a magnifying glass. He would then say which organ was off pitch and prescribe a drug to attune it to the stomach, or vice-versa."

Mathieu's diagnosis was popular. Patients flocked to his home for "harmonious" treatment.

Third race, Saturday (last half daily double): KING HORSHAM (2), LITTLE ORCHARD, LADDIES CHOICE (1), Miss Gleanor, Fancy Debuter, Frisky Diamond, IVAN-TITCH (3), Armed Lady.

Fourth race, Saturday: LUCKY (Graham), JONES A. MACDUFF (3), Bob's Gal, Heavy Dams, Little Sugar, MIDNIGHT LARK (1), ANOTHER CHANCE (2).

Fifth race, Saturday: Lady Hersham, Texas Friends, Star Hag, Polyritha, LAST COUNT (3), Sister Cop, RAYMOND WARRIOR (2), INDIAN OFFICER (1).

Sixth race, 5-16 mile: COUNTESS JENNIE (1), Calvesa Brawl, HAY LETH (2), Calvesa Pride, Ded Lamed, Truffy Billa, OFFICER FLASH (1), Bush Creek.

Seventh race, Saturday: SINKERS CHANCE (3), Maggie Ann, Gene Gray, Right Side, BLUE PAL (1), War Boy, Pickwick, JOES CHOICE (2).

Boom In Buggies Ends Threatened Plant Shut-Down

LAWRENCEBERG, Ind., Apr. 7.—(AP)—The buggy business is booming for one of the largest buggy factories in the country located here. The boom began in 1932 and still is going strong.

William Knapp, who at 78 guides the destinies of the company he founded years ago, says he sold 900 buggies last year for approximately \$75,000. Plant capacity, however, is 5,000 buggies a year.

The company's biggest year was in 1920 after which sales fell off almost to the vanishing point in 1931. Since then it's been different and there's no more talk heard of closing the plant.

Knapp says about 75 percent of all buggies made are sold in the South. There a buggy has a resale value much higher than that of a used automobile, says E. J. Knapp, an official of the local concern.

Custom Officials Report

McALLEN, Tex., Apr. 7.—(AP)—U. S. Customs officials report these items brought in from Mexico in 1935: coconuts, bananas, dry bones, baskets, limes, gralls pineapples, live quail, orcs, shelled pecans, arsenic and goat skins.

Sugar Manufacturer In Florida Is Sent Million Dollar Check

WASHINGTON, Apr. 7.—(AP)—A payment under an AAA sugar contract—\$1,067,668 to a Florida producing corporation—was the largest of all benefit payments reported by Secretary Wallace to the Senate agriculture committee.

The committee is considering a resolution by Senator Vandenberg (R, Mich.), to require a report on large AAA payments.

Another large payment was \$961,064 to a Puerto Rican corporation. The largest payment to a Louisiana producer was \$366,010. None of the recipients was named by Wallace in his report.

The largest payment under a beet sugar contract was \$92,237 to a California producer covering the advance for 1934 and compliance for 1935.

Clerk 'Spots' Stolen Dress On Customer

AUGUSTA, Ga., Apr. 7.—(AP)—Helen Snellgrove, department store clerk, looked up to inquire what a customer would like.

The customer was a stranger, but her dress was familiar to Miss Snellgrove.

So she summoned a policeman and charged the customer with theft the night before of two dresses from the Snellgrove residence.

for your Easter Trip

Easter vacations are short and you'll want to make the most of those balmy, Spring days. Frequent departures, fast through and local service in clean, cozy buses give you more vacation at less cost.

MRS. M* knows Electric Cookery and Water Heating Cheap and Convenient

MRS. M. has exploded the old myth that electric cooking and water heating is expensive. You will also find that these convenient services are CHEAP, and well within your budget.

With electric cookery you'll save on your next bill ... you'll cook in an electric oven that doesn't smoke. And this waterless cooking method retains the sparkling minerals and juices of your vegetables and meats.

You, too, will save money and time with the automatic convenience of an electric range. Merely flick the switch, set the timer, and forget all about your meal until it is done.

An electric water heater heats the water in the tank, and not the kitchen. Just turn the switch and the water is silently heated. No matches needed!

Electric cooking and water heating is done. On This! There's no need to look. Ask your neighbor, see an expert electrician, dealer and plan your modern home kitchen today.

MRS. M. is the Modern Homemaker

Mrs. L. I. Frazier of Sanford in a Modern Home says: "I consider my electric bill one of my biggest household bargains. There are three in our family, and the cost for cooking, water heating, refrigeration, and power washing, plus the many small appliances, averages only 10c per day."

ODDITIES OF TORNADIC FURY THAT SWEEP GAINESVILLE

Aide from killing nearly 200 persons, the tornado played some strange pranks at Gainesville, Ga. With dead, injured and wreckage all around, a hog emerged from debris in the public square and non-chantly roared about for food. He is shown (left) under the Confederate monument, the only object that remained standing in the square. Nobody seems to know just how this automobile (center) found its way to the top of a blacksmith shop but it was presumed the wind lifted it and dropped it there. At the peak of the tempest, a marble monument of the Confederate soldier, Col. C. C. Sanders, was blown from its foundation and decapitated. It remained upright in the street. (AP Photos)

Official Political Meetings Will Begin On First Of May

County Offices, but on 21 have qualified with the County clerk, Before qualifying with the clerk they must qualify with the com- mittee, either with Secretary Lloyd with E. H. Laney, com- mittee member, at Laney's dry cleaning establishment on Second Street.
