

ARE DEAD 18 INJURED WIND STORM

Whips Little Kansas Village To Break 20 Houses Spending Fury

Communication Lines Cut Down

Party Is Sent Dell From City Blytheville, Ark

THEVILLE, Ark., Oct. 12.—

(INS)—Five dead and 18 injured were the toll of a severe storm which whipped through the Dell, eight miles from Blytheville, Ark., Oct. 12. Reports of 10 to 30 inches of rain based on estimates of the National Weather Service, which were busy most of the day bringing the dead and injured to the Dell. The storm struck this section of the Dell after midnight, and was expected to be over by 10 o'clock. The storm was either wrecked or damaged by the storm. Fire out but this was checked by heavy rainfall. Reports of 10 to 30 inches of rain based on estimates of the National Weather Service, which were busy most of the day bringing the dead and injured to the Dell. The storm struck this section of the Dell after midnight, and was expected to be over by 10 o'clock. The storm was either wrecked or damaged by the storm. Fire out but this was checked by heavy rainfall.

The exact damage of the storm could not be learned but preliminary reports of the town were wiped out, with about 20 houses wrecked. The storm struck this section of the Dell after midnight, and was expected to be over by 10 o'clock. The storm was either wrecked or damaged by the storm. Fire out but this was checked by heavy rainfall. Reports of 10 to 30 inches of rain based on estimates of the National Weather Service, which were busy most of the day bringing the dead and injured to the Dell. The storm struck this section of the Dell after midnight, and was expected to be over by 10 o'clock. The storm was either wrecked or damaged by the storm. Fire out but this was checked by heavy rainfall.

2 Cases Are Brought This Morning Municipal Court

Two cases were given a hearing before Judge W. E. White this morning. The first case was a charge of carrying a concealed weapon and the second a charge of disorderly conduct.

Local Kiwanians Hear Fine Talk By U. S. Plant Expert

Dr. E. D. Ball, formerly assistant secretary of the Department of Agriculture at Washington, today delivered what was declared to be one of the most instructive and interesting addresses that has been made before the local Kiwanis Club in some time. Dr. Ball spoke on his topic "The March of Civilization with Relation to Climate, Plant Life, etc." Dr. W. Baker introduced the speaker.

Mayor Favors Change Volstead Measure

SAN ANGELES, Oct. 12.—(INS)—The American laboring man has his beer. This is the sentiment of the American Federation of Labor convention which was held here on Monday. The convention was held in the city of San Antonio, Texas, and was the largest ever held in the city. The convention was held in the city of San Antonio, Texas, and was the largest ever held in the city. The convention was held in the city of San Antonio, Texas, and was the largest ever held in the city.

Key Resort Has \$3,000,000 Blaze

KEY WEST, Fla., Oct. 12.—(INS)—Coolidge was today reported by Mayor Leslie A. Curry to be on his way to Key West for a day of deep-sea fishing on his contemplated trip to Cuba in January for the American Convention. The mayor is expected to be accompanied by a number of prominent citizens and will be accompanied by a number of prominent citizens and will be accompanied by a number of prominent citizens.

Sitting Sons Of Rest In Quandry Over Removal Of Benches To The Band Shell

Captain P. M. Elder, president of the Sanford chapter of the Sitting Sons of Rest, today stated in an exclusive interview that the members of this order are in a quandry. The trouble concerns one of the primary insignias of the order—seats. According to the president, it may become necessary to change the name of the organization to the "Standing Sons." This drastic step will have to be taken unless the benches are replaced on First Street.

REPUBLICANS ARE ASSAILED IN TALK BY JAMES A. REED

Missouri Criticizes Coolidge For Retaining Mellon When It Is Violating Law; Debt Settlement Plan Is Scored

SEDALIA, Mo., Oct. 12.—(INS)—Assailing the Harding and Coolidge administrations and all the Republican policies, Senator James A. Reed of Missouri addressed a state-wide meeting of Democrats here this afternoon. Senator Reed scored Harry M. Daugherty and Andrew Mellon as secretaries of the treasury which he claimed was in violation of section 243 of the revised statutes.

"The times are ripe and rotten ripe for a change," said Reed. "Let us re-assert the truth of the doctrine that—'If this people are to remain free, the local self-government and the sovereignty of the states must be preserved.'"

Many Expected To Attend Conference Here This Evening

Everything is in readiness for the Longwood Bible conference, mass meeting at the City Hall tonight at 8 o'clock, according to an announcement today. Rev. Louis Entzinger will preside at the meeting and L. W. Barnard, president of the American Bible Institution, will be the principal speaker. Mayor E. F. Housholder will make the address of welcome.

Sanford Grid Game Changed To Friday

The date of the Orlando-Sanford game which had been set for Saturday has been changed to Friday. A large attendance is expected to be present for the second game of the season in which Sanford will test its mettle.

GERMAN STARTS FLIGHT

BERLIN, Oct. 12.—(INS)—The Heinkel hydroplane, piloted by Hans Meiss and carrying a mechanic and one passenger, hopped off at 1:30 this afternoon from warm-up on the first leg of a trans-Atlantic flight. The Anzora was the first objective of the fliers.

OIL KING AT 88 DEVELOPS SHOOK ON GOLF SHOTS

TARRYTOWN, N. Y., Oct. 12.—John D. Rockefeller, at 88, is hitting a long ball off the tee for a man his age but, hang it, he's developed a hook!

MEXICAN BORDER TOWN WELCOMES ALVARO OBREGON

NOGALES, SONORA, Mexico, Oct. 12.—General Alvaro Obregon, one-time president of Mexico and avowed candidate for re-election, was given a tumultuous welcome when he reached this border town today.

"I was in honor on the next hole," said a stalling, manfully, hauled him a driver, the face of it chafed.

Excellent Books Will Be Secured By Library

"On account of reduced appropriations for the Sanford Public Library it is especially important that we select new books with care," said Miss Geneva Brock, librarian, today.

Births Triple Deaths During Past Month

There were 15 deaths in the City of Sanford during the month of September, according to figures just announced by S. L. Smart who has charge of the vital statistics as local registrar. There were 47 births during this period more than half of which were white.

Improvements And Alterations On McCrary Store Nearing Completion

The \$25,000 improvements and extension of the J. C. McCrary five and ten cent store on First Street are being rushed to early completion, according to John R. Lee, construction superintendent for the McCrary Company. It is expected to have the work completed during the first or second week in November when the formal opening will be held.

Memphis Trial For Police Under Way

MEMPHIS, Tenn., Oct. 12.—(INS)—Witnesses whose testimony was to prove the authenticity of the alleged police payoff book kept by the John Belomoni bootleg establishment occupied the morning session today of the police board trying the first of 28 officers suspended on bribery charges.

News Paper Reporter Finds John D. Rockefeller Enjoying Best Of Health; Golf Is Chief Recreation Each Day

"The richest man in the world looked great. His face was a ruddy tan, his step elastic. He wore thick-lensed, yellow-tinted glasses, grey flat-topped cap, a jacket over a sweater, long pants and rubbers over his shoes. I came upon the foursome at the sixth green, just as the grey haired multi-millionaire was sinking a six foot putt. I had sealed a 30-foot stone wall, with its annoying barb-wire entanglements, and arrived at the green just as the ball clicked into the cup.

REMUS WANTS TO HAVE WOMEN ON JURY TO TRY HIM

Former bootlegger King Says Women Have Keener Sense Of Justice Than Men And Will Appreciate His Position More

Accused Slayer Is Released On Bond

KEY WEST, Fla., Oct. 12.—(INS)—Damon Alpizar, a middle-aged fisherman, who was arrested on a charge of second degree murder in connection with the death more than a year ago of Philip Varola, 12, has been released under two thousand dollar bond to await preliminary hearing.

Woman Is Released Following Inquest

Louisa Shivers, negro, was released this morning following a coroner's inquest over the body of her four old adopted child, Loretta Zaniers, who died yesterday afternoon.

Two Matches Played In Handicap Tourney

Two matches were played yesterday afternoon on the municipal links as part of the local handicap tournament sponsored by the Sanford Chamber of Commerce. E. Vihlen defeated A. Bryant, 5-4 and James vanquished H. Morrell, 4-3, according to Elmer Carlson of the local golf club.

FLOOD MENACE DESCRIBED BY U. S. ENGINEER

Disastrous Consequences Can Only Be Avoided By Building More Channels To Gulf Or Enough Lateral Storage

Miss Elder And Her Pilot May Now Be In Dangerous Zone

QUEEN MARIE TO REVISIT U. S. FOR OBTAINING LOAN

BERLIN, Oct. 12.—Queen Marie of Roumania, plans to visit the United States next spring to attempt to obtain a big loan from a group of New York bankers. It was learned from Roumanian sources today.

2nd Woman Flier Makes Plans For Ocean Flight Today

OLD ORCHARD BEACH, Me., Oct. 12.—(INS)—Preparations were being rushed here this noon by Mrs. Frances Wilson Grayson for the jump to Copenhagen aboard the airplane "Dawn."

Seminole Teachers To Be Present At Orlando Meeting

A number of teachers of Seminole County will attend the six county education association meeting at Orlando on Friday. This meeting includes the teachers from Volusia Lake, Seminole, Brevard and Osceola Counties. The meeting covers Thursday and Friday of this week, according to announcement made by the department of education here.

KILLS WIFE AND BABY

LOS ANGELES, Oct. 12.—(INS)—Entering the home of his wife from whom he had been estranged, J. B. Rayburn, policeman, shot and killed her today, killed his 14-month-old with a second bullet and fired a third into his own head. He is not expected to live.

Florida Fliers Should Now Be Entering The Low Pressure Section Of Storms And Fog

NEW YORK, Oct. 12.—(INS)—Roaring through the clouds in a new attempt to bridge 3,600 miles of ocean by air, the monoplane "American Girl," carrying Miss Ruth Elder and Captain George Haldeman on a flight to Paris, is believed today to have entered the low pressure area of storms and fogs 1,000 miles east of New Foundland. This ocean is the longest sustained flight across the water ever been attempted.

Chances Bright After Passing Area

The plane, unreported since it was sighted at 10:35 o'clock last night by the liner American Banker of the American Merchant Marine, should have reached the halfway mark across the ocean at 11 A. M. If the fliers have thus far successfully eluded the nemesis which has claimed the lives of so many trans-Atlantic aviators.

Machine Last Sighted By American Vessel 500 Miles From N. Y.

The area of low pressure constitutes the most difficult part of the voyage, in the opinion of meteorological experts. There are sudden winds which whip the ocean into fury, dense blankets of fog and continual squalls of rain and snow.

TO VOTE ON AIRPORT

PINE BLUFF, Ark., Oct. 12.—(INS)—Pine Bluff voters went to the polls here today to vote yes or no on a proposed \$70,000 bond issue to acquire a municipal airport. Col. Lindbergh's flying over this city stimulated the proposed bond issue recently.

LEWIS BEATS MILL

SHREVEPORT, La., Oct. 12.—(INS)—Stranger Lewis, claiming the world's heavyweight championship, took two out of three falls over Pat McGill, rival Irishman, here last night.

HADE STILL HITS 'EM

TRENTON, N. J., Oct. 12.—(INS)—Babe Ruth is still hitting 'em. His third homer during an exhibition game here broke up the contest as the fans swarmed all over the field to congratulate the home run king. Gehrig got only a double and a single, but the barnstorming team starring Babe and Louie won 9 to 4.

QUEEN MARIE TO REVISIT U. S. FOR OBTAINING LOAN

BERLIN, Oct. 12.—Queen Marie of Roumania, plans to visit the United States next spring to attempt to obtain a big loan from a group of New York bankers. It was learned from Roumanian sources today.

SPORTS

STETSON ELEVEN PLAYS NEWBERRY NEXT SATURDAY

Captain Bernard Is Practicing Despite Several Injuries Sustained During Scrimmage; Mox Shifted To Tackle

By Harris Sims
STETSON UNIVERSITY, DeLand, Oct. 11—With only four days for hard driving and one day for warming off before the Newberry game Saturday, the Hatters hit a hefty stride today in their scrimmage work, the field demeanor of the McQuillan proteges indicating that they were taking this approaching battle with seriousness aplenty.

Captain On Deck
Despite the fact that he sustained both a broken rib and a broken nose only a few days ago during a spirited scrap with the Hatter bats, Captain Larry Bernard of the varsity crew was on hand today with his fighting attitude undiminished. It is an absolute certainty that he will start the game against the Newberry eleven Saturday. The team physician, Doctor Miller, upon examining Bernard and administering proper treatment stated that the Hatter Captain will be able to participate in Saturday's game—but added the proviso that Bernard must take his practice work this week pretty easy. The injured captain would not listen to "laying off" Saturday. A special header has been ordered for him and his rib injury will be properly protected.

Mox Shifted
An astounding shake-up took place today when Coach McQuillan shifted the stocky left guard Mox to right tackle, and intimated that Mox will appear at that position Saturday. Mox weighs 185 pounds and fights a dogged battle. If he serves as tackle he will be alongside a 190-pound right guard, Mox. At right end will be a dependable led of somewhat rangy stature and weighing 175 pounds. He is Spike Weisiger.

Williams or Barber For Mox
Williams or Barber will be used to fill the guard vacancy created by the shifting of Mox. Williams is serving his third year with the varsity, while Barber was graduated from the Baby Hatter eleven last season.

Very little actual scrimmage work will be administered this week. Coach does not believe in a great deal of scrimmage, but he does believe in consistent practice work.

Just what particular set of tactics he will order his eleven to employ against the Newberry champion Saturday is yet a matter of conjecture. It is well known that Newberry favors aerial warfare and defensive work today indicated that Coach McQuillan has made note of the possibility of such an attack.

In all probability the two conflicting practice periods of this week will take place behind closed gates.

Interest in the forthcoming battle—the first home game of Stetson for this season—is increasing daily. The athletic committee on promoting the tilt predict a record crowd and are making preparations accordingly. No cars will be allowed inside the field, since that space is to be taken up by additional bleachers.

Dr. Lincoln Hulley, president of Stetson, who is giving the much-talked-of Hatters his full support, announced the game to the students the latter part of last week and stated tickets had already been placed on sale.

Yarger and Lowenthal, Stetson fullbacks, are doing their best fighting this week. It remains to be seen which of the pair will start the game.

THIS ONE BEAT THE PIRATES

Run number three for the Yanks. Here is Gehrig, New York first baseman, tallying during the Yankee rally on the third inning. This followed his two-base hit, Meusel's single and Lazzeri's sacrifice fly.

EAST IS LOOKING FORWARD TO BIG GAMES SATURDAY

Navy-Notre Dame Clash Will Be Biggest Attraction; Washington-Lee Will Play Tiger; Syracuse Meets Georgetown

By LES CONKLIN
International News Service Staff Correspondent
NEW YORK, Oct. 11—Willing slaves are toiling in a hundred gridiron vineyards today so that King Fan may enjoy wines of the finest vintage at next Saturday's football feast.

Following light workouts yesterday, the week's labor of practice began in earnest for the mole-skin warriors of twenty college elevens who will clash in important games on the first "all star" card of the season.

What may be the best battle of the season will be waged at Baltimore, when Uncle Sam's marines nephews are preparing for the onslaught of the hordes of Notre Dame. The first navy, Notre Dame game in history finds the navy sending an inexperienced eleven against a fast-improving Rockne aggregation.

Aside from this intersectional stand-out, the Yale-Brown game looks as this piece de resistance of Saturday's eastern football menu. Both are smacking under the stink of defeat and both will be in there fighting. The Yale coaches are grooming Bruce Caldwell, their backfield ace, for the purpose of tipping the line of the iron men to shreds.

The Fordham-N. Y. U. game in New York will make up in action what it lacks in tradition, for the two institutions have become bitter rivals in their comparatively few meetings. As many as seven ambulances have been summoned during one of these melees.

The Fordham line showed so much improvement today followed a two-hour scrimmage that Major Frank Cavanaugh was confident his team would stop New York's four centaurs—Briante, Connor, Roberts and Strong.

Radical changes are expected at Harvard, where another beating by Holy Cross is feared. The crimson coaches wanted the black-bay

Pennsylvania Worried Over Too Many Female Deer That Roam Woods Of That State

HARRISBURG, Pa., Oct. 11, (INS)—What is to be done with 1,000,000 surplus doe deer?

That question is causing the Pennsylvania Game Commission a lot of worry, not to mention a deluge of letters—and some thousand proposed solutions.

On the basis of careful reports made by game protectors in the deer districts, the Game Commission decided early in the year that there are approximately 1,300,000 more does in Pennsylvania than are necessary.

The condition arose because almost since the commission has functioned the killing of does has been punishable with a fine of 100 perfectly good dollars or the same amount of days in jail.

During the last decade the commission has carried on a ceaseless campaign urging protection of score at the men who violated the law.

Hunters Educated

Old hunters to whom a deer was a deer and not a buck, fully understood the commission's viewpoint. The hunter who shot a doe came to be looked upon as man who would kill a "kind faced cow" in pasture or dynamite a trout pool.

As a result each year several hundred thousand hunters searched the mountains for bucks and permitted the does to escape. A few were killed in mistake but not enough to prevent a steady increase in the female deer population. Good crops and good deer country seldom go together. As the deer multiplied, the farmers suffered. Reports of damage usually came from sections of the state where heavy crops are scarce and raising of food supplies are difficult.

Farmers in these sections became so instant in their demands that the deer population be kept down that the commission opened certain counties or sections of them to the legal killing of does. A special license was necessary and each hunter was limited to one doe. At the last session of the legislature the commission sponsored a plan which would have opened practically the entire state to the shooting of does. Organizations of sportsmen opposed the bill and it failed of passage.

CAUSE OF CRIME IS BEING STUDIED BY ILLINOIS BODY

Drastic Measures For Preventing Crime Expected To Result From Extensive Study On Which Millions Expended

CHICAGO, Oct. 11 (INS)—In a survey of Illinois crime by the Illinois Association for Criminal Justice 25,000 felonies committed in this state in 1926 are being studied to provide information as to the cause, it was disclosed here today.

The survey committee is the outcome of a resolution passed by the Illinois Association more than a year ago. A donation of \$100,000 was made by the Industrial club of Chicago for the survey, the results of which are expected to lead to some drastic measures of crime prevention.

Cost To Taxpayers
Furthermore, the committee is counting the cost of crime to the taxpayers, each crime levying, last year an average cost of \$1,000 on the public treasury. A preliminary report of the committee, to be ready early next year, is expected to show that a peak cost for crime must be reached when a desperate remedy will have to be applied.

Authorities have declared that this remedy may grow out of an aroused public sentiment, "Public sentiment" will ultimately settle this problem," one of the members of the committee declared.

Juvenile Delinquency
Juvenile delinquency is also being studied by a community research committee of the University of Chicago, the cost of the survey being borne jointly by the crime association and the Rockefeller Foundation. This work is receiving the co-operation of the Institute for juvenile research of Illinois.

A similar survey of criminal conditions made in Missouri shocked the public into an indignation that led to some salutary corrections. The Illinois Association for Criminal Justice promised a scientific study of organized crime, especially as it maintained in Chicago, which it believes will stagger the community.

HUNTER ACCIDENTALLY SHOT

CHARLESTON, S. C., Oct. 11.—The first fatality of the hunting season occurred here today when Harold Warner, 35, Charleston pharmacist, was accidentally shot when a gun fell in his boat while he was hunting marsh hen. The discharge lodged in his leg and he bled to death.

Watch Your Kidneys!

To Be Well See That They Function Properly.
YOUR kidneys! Do you realize what an important part they play in your health and length of life? Your kidneys are the blood filters. When they act sluggishly, waste poisons remain in the blood and make one tired and drowsy, with often nagging backache, annoying headache and dizzy spells. That the kidneys are not acting right is often shown by scanty or burning excretions. Assist the kidneys with a stimulant diuretic. Use Doan's Pills. Doan's are endorsed the country over. Ask your neighbor!

Enjoy your food—

as it nourishes your body.
If your appetite is not keen you owe it to yourself to take S.S.S. regularly before each meal. It will give you a good appetite.

In these days of fast competition, only full-blooded, robust healthy people can keep to the front, and success comes to those who have the snap, vigor and magnetism that go with a wholesome, healthy life.

Don't despair because others forge ahead of you. Start right now to regain the health which will help you progress. A hearty appetite will restore your energy. Build you up and give you "pep." Thousands have benefited themselves and kept their bodies in good repair by occasionally taking a course of S.S.S. It helps Nature build up red corpuscles and it improves the processes by which the body is nourished. S.S.S. is time tried and reliable. It is made from the roots of fresh herbs and plants and is prepared in a scientific way in a modern laboratory. S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

NOTICE

Notice is hereby given to all persons having claims of any kind or nature against the Seminole County Bank, Sanford, Florida, that unless such claims are presented to the Receiver of said bank within twelve months from the date of this notice, September 17, 1927, same will be forever barred under the provisions of Chapter 7355, Laws of Florida.

You will present all claims to Mr. E. H. Ashcraft, Receiver at Sanford, Florida.

The Herald is a member of the Audit Bureau of Circulation, an International Association of Publishers, Advertisers, and Advertising Agents which requires each publisher to submit to a thorough audit of subscription lists in order to verify absolutely all claims of circulation as well as honest business methods.

WEDNESDAY, OCT. 12, 1927

THE HERALD'S PROGRAM

- 1.—Security in city and county administration.
- 2.—Improvement water route to Jackson Villa.
- 3.—Construction of St. Johns Indian Mounds (local).
- 4.—Improvement of monthly "Farmers Week."
- 5.—Augmenting of building program—hotels, apartments, houses.
- 6.—A community chest.
- 7.—Improvement of city beautification.
- 8.—A new and modern hospital.

BIBLE VERSE FOR TODAY
GOD RAISETH UP:—Thou, which hast showed me great and sore troubles, shalt quicken me again, and shalt bring me up again from the depths of the earth. Psalm 71:20.

PRAYER: O God, be not far from me: O My God, hasten and help me.

TO AN OLD LADY

(From the House & Horn; a Harvard Miscellany)

As the plow turns a field that's run to daisies
And where were flowers once in red earth now
A square of sloping warmth the hillside raises
Among its green fields, lovelier for the plow;
As March sun melts the snow from pastures stubble
So that brown patches break the level white.
Write from the melting snow springs swell and bubble
And, ere it's gone, the brown turns green and bright;
As horse and buggy down a wood road going
Sleepy in the sun have worn three lanes;
For which we love the road still better, knowing
What goal is in the creaking carriage gains;
So, by years touched, your face, once smooth, grows lined
But lovelier yet for loveliness behind.

JOHN A. ABBOTT.

Henry Ford is receiving plenty advertising under the guise of news in connection with his new car.

Begins to look like Sanford poured \$917,928.13 into the Lake.—Tampa Times, Yeah, that's where the tub comes in.

In view of the wave of husband killing, it appears that it is high time for the men to band together and spend all of their time at the club.

Doyle Carlton's campaign has been formally inaugurated at Tampa. Some times a running start means everything and then again it doesn't.

Mr. Hathaway hasn't declared himself for governor, but it is to be presumed that he will be available until he declares that "he does not choose."

Corruption has been discovered in Indiana University elections. That would seem to be the natural consequence of corruption in city, county and state politics.

The presence of so much oil talk in Washington at the present time is not expected to have any effect in making Congress a more smooth running organization.

"Paris Chorus Girls Now Wearing Clothes," says a headline. This trend toward decency is commendable but we wonder if it will not materially affect the box office receipts.

Miss Elder hopped off in the face of adverse weather. If she makes it across she will be hailed by the world but if she falls there will be considerable criticism of the expedition.

Senator Watson, who is prohibited by law from running for governor, has not withdrawn from the race and we were wondering if he is going to be as hard-headed about this as he was about his race track bill.

Well, well, well even the City Auditor, after spending two months on the books couldn't find out what was done with the hospital money and they said Dave Thrasher ought to be able to tell that a few minutes work in the City Hall.

When some men sit down and reflect upon how they came to be married they become thoroughly convinced that women can keep secrets; they had no idea what was happening to them until she was dead and ready for it to happen.—Tampa Times.

Give Us Better Banking Laws

In the state of Nebraska there is a law which protects the depositors of a state bank. If a bank is closed because of failure, the depositor has no fear because he will receive his money dollar for dollar. By the provisions of a law which was enacted in 1912 this protection has been guaranteed by a fund that was created by a certain assessment made against each state financial institution.

Depositors of state banks in Nebraska have not lost a dollar since the law went into effect fifteen years ago. This fact is especially significant when we consider that during this period one hundred and sixty banks having deposits of over thirty-one million dollars have failed. Of the total amount of deposits some twelve million dollars were furnished by other state banks and the remainder was raised from assets of the defunct institutions.

"In other words," says Saturday Night, Hugh Sparkman's new weekly publication at Daytona Beach, "it has cost the eight hundred and ninety state banks in Nebraska only twelve million dollars in fifteen years to make all the state banks safe. That it was money well invested there cannot be any doubt. Confidence has remained at a high mark and so have deposits, upon which banks make money."

The Daytona newspaper points out that insurance for state banks has been the subject of considerable discussion but has never been seriously considered in Florida. It has, however, been found to be practicable and successful in Nebraska where the plan has progressed far beyond the experimental stage. Other states, we are informed, are considering similar laws and The Herald is of the opinion that Florida legislators would do well to consider such a protective measure for our own state.

The need for more adequate banking laws has been made more apparent in recent months with the failure of many institutions, most of which were state chartered banks, and under a law such as is in effect in Nebraska the depositors would not have lost their money. Not only does Florida need legislation which would protect the depositors but it needs statutes with teeth in them so that crooked bankers could be handled in no uncertain manner.

We thoroughly agree with Saturday Night when it says, "Florida needs a banking law that, if it does not protect the depositor's money could at least punish the man or men who rob the bank. And it needs men to see that such a law is enforced."

Ten Commandments For Wives

Every now and then some wise man or woman, inspired more by a desire for publicity than for rendering good to mankind, rises to offer husbands and wives a list of "don'ts" which are guaranteed to avert the traditional marital skirmishes. As far as advice is concerned, most of this expert counsel is not worth the paper it is written on, but it does make light reading out of which most of us can generally coax a laugh or two.

It was with some little amusement that we read several days ago about an occurrence in a little Massachusetts church whose male members banded together to draw up ten commandments for their wives. After much consideration of the subject, the men compiled the following decalogue which they immediately submitted to their wives and the public at large:

1. Thou shalt not talk all the time; for verily thy husband may wish to be heard at rare intervals.
2. Thou shalt love thy husband if it be possible and prepare for him such food as he provides, fit for the palate and at regular intervals.
3. Thou shalt not meddle in the purely masculine affairs of thy husband.
4. Thou shalt not spend hours at the telephone in useless gossip for verily there may be other parties on the line whose business may be of importance. Neither shalt thou delight in repeating unfounded rumors about thy neighbors.
5. Thou shalt not boast of thy husband before men, remembering that he desireth the good will of his brethren under the yoke.
6. When thou shalt quarrel with thy husband or when thou findest it necessary to scold him, make it snappy and forget it.
7. Thou shalt be patient with thy husband's short comings occasionally exaggerating his good qualities if he has any before his fellow man.
8. Thou shalt not make a maid servant of thy husband except in grave emergencies, remembering that thy husband was given to thee neither as a cook nor as a dishwasher but as a man.
9. Thou shalt not give thy thoughts wholly to dressing, neither shalt thou magnify the importance of thy social engagements for thy first duty is thy home and family.
10. Remember that at times it is good for thy husband to be alone. At such times thou shalt not disturb thy husband.

As an after thought it occurred to us that as a suitable beattitude for this occasion we might add, "blessed be the man who can enforce all these commandments in his household and get away with it."

SIGNS ARE PROMISING

PALM BEACH TIMES

The best news that has come out of Washington for some time, as far as the state of Florida goes, is that the treasury department will present a tax revision plan to congress shortly which will include, among other reductions, the dropping of the federal estate, or inheritance tax.

Here is one of the most striking instances of what the people can do when they start out in earnest when they get their minds on a matter and stay with it. In the last general elections the people of the state of Florida adopted an amendment prohibiting any tax from being levied on inheritances. Today it is one of the three states that does not have such a tax. Congress, however, practically nullified the effect of this Florida law by passing a rebating bill permitting inheritances to deduct from federal an amount up to 80 per cent of all such taxes paid to the state. In other words, by invasion of the state field for taxation, the government virtually offered the a bribe of 80 per cent for adopting or continuing the inheritance tax.

Started by the people of Florida, but joined in by a number of other states, the matter was laid before the supreme court of the United States, which held against the constitutionality of the inheritance tax yet remained in effect. The same Florida instrumentalities

As Brisbane Sees It

They Should Not. But Do. Iron And Schools. Safer Fuel Wanted. You Notice Him.

Copyright 1927 by Star Co.

HUMAN BEINGS SPEND their time reading of things that should and would not happen in real civilization.

Five men are burned alive trapped in a lodging house, known to be a fire trap. To make it safe would have cost money.

In one city three women are clubbed into insensibility, two girls badly beaten, two men stabbed, and in danger of death.

That is a small part of one day's crime record, putting big type above such news fails to interest the crowd in it.

THE FACT THAT so-called "fashionable" minnie crowd a restaurant in Paris, because it charges 50 francs a dozen for oysters, is more interesting.

Fools fighting boredom are more interesting than ordinary citizens fighting the well established nationwide crime wave.

R. A. GRADY, SECRETARY of the Kiwanis club of Duluth, invites you to see the western terminal of the Great Lakes to ocean waterways, and the vast open mines that supply iron for all parts of the world.

Minnesota, its great mines, growing cities and able citizens should be visited by everybody. And eastern cities, especially that think they have fine public schools, should see the public schools of Minnesota.

To say that three are no finer in the world, is putting it mildly, New York has the money, but western states, California, Minnesota and others, have the public schools. And those schools will transfer the balance of power, even as regards money, from the east to the west.

"THE GASOLINE TANK exploded, and the men were burned to death."

That describes a flying fatality. Which of the great industrial laboratories will develop a fuel to prevent such accidents? Germans are making Diesel engines, light enough for horsepower for dirigibles. They are still too heavy for lighter-than-air planes, but additional improvement may overcome that and in proportion to flying radius, their load of fuel is much lighter than the airplane's gasoline load.

RUSSELL SCOTT, murderer hanged himself in a Chicago jail and science demands the right to examine his brain. Others hang, shoot, drown and poison themselves, without attracting attention.

BUT MICHEL BILLIE, coal miner, a widower, in Pennsylvania, compels attention. He sat in his little parlor, tied two sticks of dynamite to his head, one on either side, set them off and blew his head and parlor out of shape.

Why should that interest us more than the lovelorn girl swallowing iodine, or the ruined gambler jumping from his hotel window. It does interest us more.

DR. CAMPBELL, ABLÉ astronomer, calls our earth, with its many fine real estate corners "just an insignificant oint in the universe of countless spheres," and adds it would be unthinkable that our world is the only planet that supports life.

FEW DO ASSURE IT, who know that life can exist wherever oxygen and water exist, and that the spectroscopic shows oxygen and hydrogen throughout other planets. Even on the moon, object nearest to us, nothing smaller than a big skyscraper would be visible through a modern telescope. But men no longer believe only what they see. They cannot see the radio, working through the ether, but they believe that it works.

SCIENCE WILL SOME DAY build a telescope, enabling us to see life on other planets, which will probably amaze us, as when we first saw microscopic life in a drop of stagnant water.

Alfred Russel Wallace, a great scientist, co-discoverer of evolution with Darwin, persuaded himself that human life and intelligence were a monopoly of this earth. But he was old and did not give the laws of nature credit for sufficient versatility.

THE SITUATION in the Balkans is described as "more acute." Jugoslavia and Bulgaria, for reasons that would seem trivial to us, far away, may decide on war at any time.

Let us hope it will not start anything expensive for us, as did the Sarajevo incident in 1914.

POLAND AND LITHUANIA contribute their complications to Europe's troubles. Fortunately Pilsudski, Polish dictator, seems able to take care of his situation with France and a huge army, back of him.

A dictator, in earnest, like Mussolini or Kemal Pasha, seems to be the best investment for the average European country, now that the world has been made safe for democracy.

The really nice thing about a gasoline war is that it has no horrors.—Fort Wayne Journal-Gazette.

Don't try to see how much you can pay out while waiting for your ship to come in.—Florida Times-Union.

Stones

In some European countries, weight is still measured in "stones." A peasant woman carries several "stones" of water in a day.

In America, electricity pumps, sweeps, does the wash—carries the "stones" of life, big and little.

Electrical facilities afforded American women surpass those available to the women of any other country. They are learning—as business men have already learned—that electricity is their cheapest servant.

Electrify your home. Our sales department will show you how.

 The social hour the hostess, Mrs. Benjamin Whitner Jr., Mrs. Raymond Phillips served sandwiches and cakes as usual.
 Those present were: Miss Mildred Jones, Mrs. Chris Matthews, Mrs. W. Warner, Mrs. H. C. Walker, Mrs. M. Minarik, Mrs. Mortimer Glover, Mrs. George McRoy, Mrs. Daiger, Mrs. Howard Overton, Mrs. Benjamin Whitner Jr., Mrs. Raymond Phillips, Mrs. W. H. H. R. W. Pearman, Mrs. C. C. Hutchison, Mrs. Braxton L. Perkins and Mr. D. W. Gilbert.

Year Old Baptist Boys Organize Club
 The sixteen year old boys of the First Baptist Sunday School organized and organized a club. Following officers were elected: President, Clifford Howell; vice president, Ernest Jowers, Secretary, Ernest Clellan; Treasurer, Paul Scholz.
 The club extends a challenge to organization in town to meet in a tennis tournament.
 Mrs. and Mrs. Charles Ryan and Mrs. Percy Eddie of Park Street Sunday School, as the guests of Mr. Ryan's sister, Mrs. E. Mahoney.

SANFORD BRIDE OF TUESDAY

Miss Sarah Evelyn Williams, whose marriage to Andrew F. Kelly of Richland, Ga., but formerly of this city, was an event of Tuesday afternoon at the home of the bride's parents.

MISS SARAH EVELYN WILLIAMS IS BRIDE OF ANDREW F. KELLY

Coming as a complete surprise to their many friends in this city was the marriage yesterday afternoon of Miss Sarah Evelyn Williams, prominent member of Sanford society, to Andrew Feagin Kelly. The bride has been spending several weeks visiting friends at Tallahassee and points in Georgia and Alabama and returned home on Sunday evening.
 The ceremony took place at 3:30 o'clock at the lovely country home of Mr. and Mrs. Fred T. Williams on Crystal Lake. Only a few of the most intimate friends of the couple were present. Rev. E. D. Brownlee, pastor of the First Presbyterian church, performed the impressive ceremony. The nuptial music was played by Mrs. Fannie Stombridge Munson.
 A beautiful setting was arranged in the spacious rooms by a rich background of numerous graceful palms, ferns and other potted plants, against which were placed tall flour baskets filled with pink Columbia roses. The mantles, doorways and arches were outlined with feathery garlands of asparagus ferns. Placed at one end of the living room was an improvised altar, where the solemn vows were spoken.
 The bride, who is a strikingly handsome beauty, is a picture of girlish loveliness in her traveling costume of wood brown gingham combined with ring velvet. Her smart hat and other accessories were also in brown. A touch of contrasting color was lent by her corsage of pink rose buds and lilies of the valley with sprigs of maiden hair ferns.
 Immediately following the ceremony, the young couple left in their car for an extended wedding trip and upon their return will make their home at Richland, Ga.
 Mrs. Kelly is the only daughter of Mr. and Mrs. Fred Thomas Williams, and has made Sanford her home since early childhood, coming here from Petoskey, Mich. She is a graduate of Sanford High School, later attending Florida State College for Women at Tallahassee where she was popular in all campus activities. She is a valued member of the Kappa Delta sorority. It is deeply regretted that her marriage takes her away from Sanford.
 The groom is the son of Mrs. J. H. Kelly of Richland, Ga., and is originally from Alabama. He is a graduate of Alabama Polytechnic Institute in architectural engineering. After finishing college he was connected with the Alabama highway department. He spent several years in Sanford and was connected with the City of Sanford Engineering Department. Mr. Kelly is a member of the Alpha Tau Omega Fraternity. For the past year he has been engaged in the automobile business at Richland, Ga.
 Their many friends here and throughout the state will join in wishing them every future happiness.

Marie Raffo Girls Meet Monday Night
 The Marie Raffo Girls of the Methodist Church met Monday evening for the regular session.
 Miss Rebecca Clarke, president, presided over the business session, when routine business was carried out. Under the head of new business, plans were discussed for ways and means of raising funds towards paying the pledges to the support of missions.
 Plans were also made for a hay ride, which will be given at an early date.
 On Thursday evening there will be a special meeting of this group called at 7 o'clock at the church annex, for the purpose of taking up a course in mission study. All members are urged to attend this meeting.
 Late in the evening the hostesses, Misses Mattie G. Chaman and Ethel Tillis served delicious fruit salad and rosettes.
 Members attending this meeting were: Miss Helen Chorpensing, Miss Joyce Chorpensing, Miss Rebecca Clarke, Miss Elizabeth Clarke, Miss Doris Holcombe, Miss Ethel Tillis, Miss Maude Carroway, Miss Mattie G. Chapman, Mrs. Burke Steele.

Camp Fire Girls Meet To Name New Officers
 The Weseleau group of Camp Fire Girls met Monday afternoon at the Junior High School for its regular meeting.
 Officers elected for the ensuing year were: president, Anna Marie Couch; vice-president, Marjorie Sleveking; corresponding secretary and treasurer, Marjorie Boniski; secretary, Helen Wilson; scribe, Mary Jane Preston and Paulina Crawford; guardian, Miss Margaret Young.
 The next meeting will be held at the home of Marjorie Boniski, on Monday afternoon at 4 o'clock.
 Mrs. A. F. Fanger of Jacksonville, State president of the Parent-Teachers Association will arrive here Thursday noon to attend the meeting Thursday afternoon at 3:30 o'clock at the Grammar School, Mrs. Fanger is enroute to Orlando where she will attend the district meeting of the parent-teachers Association, which will be held there on Friday at the Memorial High School.
 Mrs. W. H. Rawlins, Mrs. A. K. Shoemaker, and Mrs. O. W. Gilbert.

Local Primary School Celebrates Columbus Day With Exercises

"Columbus Day" was fittingly observed on Wednesday morning at the chapel exercises at the West Side Primary School. A most delightful program was arranged by the principal, Miss Love Turner. The program in full was as follows:
 Song, "America, the Beautiful."
 "Why We Celebrate Columbus Day," by Miss Love Turner.
 Story, "The Life of Columbus," by Louise Packard.
 Reading, "Columbus" (Frances Wright Turner), Mrs. Sarah Lawton.
 Reading "Columbus" (Joaquin Miller), Mrs. Helen Spethenson.
 Play, "Discovery of America," by pupils of the third grade, directed by Miss Aline Chapman.
 Characters: "Columbus," (Robert Miller), "King Ferdinand," (Chum Stanley), "Queen Isabella," (Dorothy Swann), "Herald," (Edward Wilson), "Courtiers," (Russell Hodges, Bobby Pearson, Richmond Carver, Herbert Thurston, Brailey Odham and Felix Anderson), "Sailors," (Pedro Grady Allen), "Sanchez," James Harden; "Rodrigo," Clyde Russell.
 Seamen, (Chester Muse and Sammy Waits).
 Song, "America."
 Reading, "Making Calls," Frances Johnson.
 Pledge to the Flag.
 Song, "Star Spangled Banner."

Methodist To Hold Interesting Study

Dr. W. P. Buhrman, pastor of the First Methodist Church, has announced that his subject for the mid-week prayer meeting this evening at 7:30 o'clock will be "The Seventh-Day Adventists in The Days of Paul."
 This is considered to be a subject of unusual interest and Dr. Buhrman states that he intends to follow this discussion with a series of popular subjects at the mid-week meetings.
 The prayer services are held every Wednesday at 7:30 P. M., and the public is cordially invited to all these meetings.

Story Hour Will Be Resumed On Saturday

The children's Story Hour at the Sanford Public Library will be resumed next Saturday morning at 10 o'clock, according to Miss Geneva Brock, Librarian.
 Miss Brock stated that there had been a number of requests that this feature be resumed and that the arrangements have now been perfected. The librarian also said that she planned to bulletin the subjects in the library and that she hoped that the attendance would be excellent.
 Miss Brock will have charge of the Story Hour and an enjoyable time is promised to the children who attend.

Cafeteria Luncheon Is Enjoyable Affair At Sanford Woman's Club

The first affair of the winter season of the Social Department of the Woman's Club was that of Tuesday afternoon when a cafeteria luncheon was served for members of the Department only. Mrs. June Roumillat, Mrs. Howard Long, Mrs. O. P. Herndon and Mrs. T. Emmett Wilson were hostesses.
 Decorating the spacious club room, were tall feathery bougias of bamboo as well as many wicker baskets filled with pink hibiscus and antigonon. The colors of pink and green were carried out in every detail. The interior of the auditorium had been arranged in true cafeteria style and at 1 o'clock a delicious luncheon was served.
 The guests were greeted upon arrival by Mrs. Walter S. Coleman, chairman of the department, Mrs. E. A. Douglass, president of the Woman's Club and Mrs. June Roumillat.
 Assisting in entertaining and serving the guests were Mrs. Harry Heeren, Mrs. A. C. Fort, Mrs. Wurt W. Warner and Mrs. Charles T. Vincent.
 Following the luncheon a most interesting game of bridge was played and after the fifth progression, scores were counted and the high score prize, a tall green vase was awarded Mrs. Clark Leonard, Mrs. A. W. Epps, who held lowest score, was consoled with a lovely green flower bowl.
 At the conclusion of the game, the year books of the club were distributed by Mrs. Frank Miller and Mrs. A. C. Fort.
 There were 18 tables of bridge in play and quite a number came for luncheon. Covers were laid for 85.

Mrs. F. E. Roumillat Hostess To Members Of Her Bridge Club

The members of the Evening Bridge Club were most delightfully entertained Tuesday evening as the guests of Mrs. F. E. Roumillat at her home on Palm Avenue.
 Numerous ghosts, goblins, black cats and witches were in evidence in the rooms where the card tables had been placed, suggesting of the approaching Halloween season. Bowls ofalamanders and yellow elder were also used to carry out the Halloween colors of black and orange.
 Pencils, score pads and tallies were done in novel Halloween ideas and after several games of progressive bridge had been played scores were compared and the prize for top score, a bottle of bath crystals done in black and orange, was won by Mrs. Samuel Puleston. Dr. Puleston scored the most points among the men, and received the prize, also bath salts.
 When the card tables had been cleared and laid with orange covers, the hostess served brick ice cream and home made cake.
 Playing bridge were Mr. and Mrs. Robert A. Newman, Mr. and Mrs. W. C. Hill, Mr. and Mrs. Ernest Honsholder, Dr. and Mrs. Samuel Puleston, Mrs. J. E. Brouse, D. L. Thrasher and Mr. and Mrs. Roumillat.
 Mr. and Mrs. H. W. Houk and little daughter of the Langley Apartments, have returned from the Lindbergh celebration at Jacksonville, and plan to leave Thursday for a sightseeing trip down the East Coast as far as Miami.

Williams-Kelly

MR. AND MRS. FRED THOMAS WILLIAMS announce the marriage of their daughter SARA EVELYN to ANDREW FEAGIN KELLY. The marriage taking place Tuesday afternoon at three thirty o'clock October eleventh, at the home of the bride's parents on Crystal Lake.

Chicago Mountains May Be Name Of Hills Where Gold Was 1st Found In Colorado

DENVER, Oct. 12.—(INS)—"Chicago Mountains" if the plans of the Denver Tourist Bureau materialize, will be the name of a territory 50 miles west of Denver where gold was first discovered in Colorado, that includes Mt. Evans, Chicago Gulch, Chicago Creek and Chicago Lake, all of which owe their name to the Illinois metropolis.
 Mt. Evans, named after John Evans, Colorado pioneer builder and financier, has an elevation of 14,260 feet above sea level. A motor road, now under construction, to the summit of the peak will reach an altitude of 12,239 feet, the highest motor road in all the world.
 The pioneer history of this section of Colorado's mining territory is closely connected with that of Chicago. Numberless Chicago men came here to seek their fortunes and through their efforts, mines, shafts and railroads were constructed and operated.
 Harry N. Burhans of the Denver Tourist Bureau, tested the idea of dedicating a portion of Colorado's abundant mountain scenery to Chicago and Illinois—a city and state that has none—a recent visit to Chicago when he presented the plan in presence of several railroad men, prominent business men and a number of representatives of the Chicago association of commerce, all of whom gave their enthusiastic affirmation.
 Preliminary plans were made with "Big Bill" Thompson, Mayor of Chicago to attempt a double celebration in Denver and Chicago when the Mt. Evans highway is completed in the near future.

Ocean Flights In Machines With One Engine Described As Stunts By Alan Cobham

MIAMI, Fla., Oct. 12.—(INS)—A legal battle of bathing beauties to settle a controversy arising over the title "Miss Florida" has been started in the courts of Los Angeles, Cal., according to information received here, and local persons are attempting to settle the wrangle.
 The battle is between Ada Williams, petite blonde, who won first prize in the recent Galveston pageant, and Myrtle Manon, also of this city, a striking brunette who acquired the disputed title in a state contest held in Miami.
 R. B. Crossland, local promoter who acted as Miss Williams' manager at Galveston, was also responsible for the later contest. He has asked to settle the dispute with depositions from Miami, both the embroiled beauties being in Los Angeles at present.
 Miss Williams was first selected as "Miss Coral Gables" in a contest here last May.
 Following Miss Williams' departure for the west coast, after she was said to have broken a contract with Crossland, the latter instigated the state contest for the selection of an "official" beauty. Miss Manon being victorious. Later appearing in Los Angeles, her title is said to have attacked by Miss Williams. Legal action has been set for Sept. 30 and according to Crossland, the depositions in question are being rushed across the continent by air mail to the aid of Miss Manon.
 The promoter declares that he awarded both titles, and that one is as good as the other. Miss Williams is 15 years old; Miss Manon is three years her senior.

New England Will Exhibit Goods Soon To The Japanese

BOSTON, Oct. 12, (INS)—Manufactured products of New England are to be exhibited in Tokyo, Japan, during the coming month, according to an announcement by Roswell E. Phelps, Director of Statistics, Massachusetts State Department of Labor and Industry.
 The exhibition of New England products will be made during a ten-week visit to Japan by Director Phelps to lecture at Japanese universities and to address groups of Japanese business men. The exhibition will be given at the Hotel Imperial, Tokio.
 "In connection with my addresses," said Mr. Phelps, "it is my purpose to discuss 'New England Industries' and the 'Exchange of New England and Japanese Products,' and I shall endeavor to represent, in so far as I can properly do so, the interests in New England manufacturers."
 Japan is now one of the leading foreign markets for goods manufactured in the United States. This trade with Japan has been very carefully nurtured by our manufacturers and selling agents, and the goal will be engendered in an open sesame for its future development.
 The Tokyo display will include samples of New England's manufactured products, and photographs, descriptive circulars and catalogues, many of which are to be translated into Japanese for distribution.
 Mrs. D. L. Thrasher motored Tuesday to Eustis where she will spend a few days with her mother Mrs. E. L. Ferran.

Young Co-Ed Elected College Cheer Leader

LAKELAND, Fla., Oct. 12.—(Special)—Southern College now enjoys the distinction of having a sweet, young co-ed to cheer her Moccasins on to football victory this season. Miss Kathryn Spivey was elected to fill this role at a meeting of the student body held Thursday morning.
 Miss Spivey and her assistant, Christie Summers, will not be able to cheer the boys on to victory in the Florida game, as the student body will accompany the team to Gainesville, but they will be very much in evidence at the Southern Centenary game to be staged at Lakeland Oct. 15.
 At the same election Kendall Tolle, a Junior, was named an editor-in-chief of the Southern, the Blue and White's weekly publication, and has already assumed his duties along this line.

MUST HERVE TERM

HARRIS, Ark., Oct. 12.—(INS)—John T. Harper, former postmaster at Huntville, must serve a term of 18 months in the federal prison for his embezzlement of \$1,048.56. He pleaded guilty yesterday and was sentenced.

ELIMINATION OF ENGLAND WANTS GRADE CROSSINGS CANADIAN COAL BIG TASK FOR AL TRADE FROM U. S.

Governor Of New York Calls Confidence After Becoming Dissatisfied With Progress Made In Grade Crossing Work

ALBANY, N. Y., Oct. 12.—(INS)—Elimination of New York State's 2,500 railroad grade crossings is proving to be one of Governor Al Smith's hardest problems. Dissatisfied with the progress that has been made in crossing elimination work since the voters approved the \$300,000,000 bond issue two years ago, the Governor has called a conference to be held at the Capitol shortly. From this conference the Governor hopes to devise new plans which will speed up the work.

The \$300,000,000 bond issue was the Governor's idea. He fought to get it through the Legislature against the protest of some of the Republican leaders. Finally when it was submitted to the voters, the Executive stamped the state for the proposal.

State To Aid Paying

Under the bond issue measure, the state was to pay 25 percent of the cost of eliminating crossings, the railroads 50 per cent, and the localities the remaining 25 percent. If the railroads could not afford their share of the cost they were to be permitted to borrow the money from the state.

Little, if any progress was made last year in the elimination of crossings. It was discovered early last year that change would have to be made in the plan of dividing the cost. Some of the smaller localities, in which there were as many as half a dozen crossings, would have been forced into bankruptcy under the original plan.

Governor Smith and Republican leaders of the Legislature, following a conference, decided that changes would have to be made as quickly as possible if the crossing elimination work was to go on. They decided to again amend the constitution so as to permit counties to assume the cost which would have fallen on the localities. This amendment will be submitted to the voters at this Fall's election. It has been estimated by experts in the public service commission that to eliminate all of the grade crossings in the state would cost upwards of \$600,000,000. Only a few of the more dangerous crossings have been eliminated in the last year.

Gov. Smith's View

Governor Smith has told friends he believed the work of eliminating the crossings would be speeded up if the railroads would agree to cooperate with the state. That is one of the chief reasons why the Governor has asked the presidents of the 443 roads operating in the state to confer with him next month.

The Executive would like to have the president of each road agree to set aside so much in the road's budget each year for the elimination of the crossings. "If the railroads will agree to do this I am sure the work can be speeded up," the Governor said.

Soil Used As Ship Ballasts Produces Garden In Jersey

NEWARK, N. J., Oct. 12.—(INS)—Soil used as ballast on transports during the World War, which was dumped on the Kearney meadow near here, has turned the industrial section which skirts the Lincoln highway between this city and Jersey City into a veritable garden.

Poppies from the fields of France and a genus of French sunflower have taken root in the ground and are spreading so rapidly that they may soon outnumber the "cat-tails" which formerly abounded almost exclusively in the meadows.

Food-laden ships which were sent to France during the war with provisions for the American dough-boys, had no return cargoes. The holds of the returning transports were filled with soil which was impregnated with flower seeds. This ballast was unloaded in drydocks near here and then spread over the marsh lands which were then being reclaimed.

The poppies first appeared in 1919, in the heart of the industrial section now occupied by plants of the Western Electric and Ford Motor companies. Being very prolific, they became more numerous each year.

The other flowers, the genus of which puzzled botanists, seem to resemble both the black-eyed susan and the sun-flower, according to local experts, they are agenes of *Hyllanthus*, a sun-flower indigenous to France only, but they thrive here.

British Coal Owners To Make Study Of Canadian Requirements In Effort To Wrest Huge Trade From This Nation

LONDON, Oct. 12.—An intensive campaign to capture the bulk of the Canadian coal trade from America by means of studying Canadian requirements and by the eventual cheapening of transportation, is being made by British coal owners, in order to restore pre-war prosperity to English mines.

At the present time, America is receiving 15,000,000 tons of trade a year from Canada, and an appeal, based on patriotic grounds, is being made to the manufacturers and transport firms of the dominion, urging them to transfer this to the British Isles.

Due to the fact that Canada borders on the United States, it is the general opinion that American products can be shipped to the dominion much less than from England and for this reason British coal would not stand any chance in competition.

Denounced In Britain

This is rightly denounced as a delusion, by British manufacturers who point out that most American coal has to stand a long and costly rail haul another fairly long water trip before reaching the principal cities in Canada. Therefore, as the majority of England's pits are almost within sight of ports, together with the reduction in shipping rates by British companies for the transportation of home goods to the dominions, the cost will be even less than that of American products.

The British manufacturers go on to say that the inclusive cost of transporting a ton of coal from a British pit to a Canadian city will be brought down to a little over two dollars and fifty cents while the minimum overland transport on United States coal from the nearest pits to the chief Canadian cities is nearly 5 dollars a ton, and the average about seven dollars.

New Combination

Coal owners, Merchants and shippers are also combining, preparing plants to screen, grade, and wash coal on the lines to which are exploring the possibilities of return cargoes of Newfoundland iron ore to feed blast furnaces in place of Spanish ore.

In the great Latin-American Republics—the Argentine, Brazil and Chile—where England lost a great deal of trade to the United States after the war and up to the 1923 strike, British representatives are striving to regain the pre-war position. Inclusive rail and boat costs from pits on this side to ports in South America are being reduced nearly to the level of the American rates.

This is only a part of a special drive which is being made by Britain to regain old markets and acquire new ones. In Italy she is fighting desperately against the competition of German, Polish, Czechoslovakian, and American markets.

OIL KING AT 88 DEVELOPS HOOK ON GOLF SHOTS

(Continued From Page 1)
It has no rough, trees are the only real hazard, except for the water hole on the fourth. "Augustine" handed John D. a brassie. He peered at the pin, 175 yards away, took his stance and shot. Another hook! He called for another ball, played the ball over, it was straighter, but still had a slight hook. He had the caddy drop another ball and this time drove it straight and almost to the green.

Tuding to where his original second shot lay, Mr. Rockefeller called for a jigger and clipped neatly, about 75 yards, to the pin twelve feet from the hole. His fourth shot, a putt, slid a foot past the cup and he was down in five.

"Even five—that's about how he plays this course," one of the foursome told us.

On the ninth green, after all four had holed out, Mr. Rockefeller had each put two balls at the far edge of the green and putt for the hole.

He won the special putting match. He always finished a match with a special putting duel of his kind.

I visited some of Mr. Rockefeller's neighbors and talked with a few of his golfing comrades and found that he is exceedingly well liked in Pocantico Hills and Tarrytown.

The Rev. Aloysius Dineen, past-

Miss Elder And Her Pilot May Now Be In Dangerous Zone

(Continued From Page 1)
time. Weather conditions were ideal.

The wireless company said the delay in receiving the message was due to heavy static which had interfered with all radio communications during the night.

The American Bankers reported that a light northwest breeze was blowing at the time the plane was sighted.

The position given by the vessel would place the "American Girl" directly south of Halifax and almost 500 miles on her course out of New York.

The report from the American banker indicated that the plane was making approximately 90 miles an hour. If no mishaps occurred after they were sighted by the steamer, the fliers should have traversed at least 1200 miles at 7 o'clock this morning, it was estimated.

The "American Girl," carrying the first American woman to attempt a trans-Atlantic crossing, left Roosevelt Field at 5:04 P. M. yesterday.

The plane carries a small radio sending set with a radius of about 25 miles. Miss Elder expects to reach the French Capitol after 40 hours of flying.

Miss Elder's co-pilot and navigator, Captain Haldeman, is a world war veteran who served with the American flying forces in France. He is also a navigator and radio operator.

After passing Montauk Point, on the eastern end of Long Island, the plane headed out to sea.

The pilots have planned their course so that they will head due east for 1244 miles, then veer toward the English Channel on the way to Le Bourget airfield in Paris. None of the previous trans-oceanic flights took the pilots over so great a stretch of ocean.

She was flying this course after the season was officially "closed" to such expeditions and with weather prophets wagging their heads in doubt.

She was flying the "American Girl" with a smile on her lips and a rag doll in her arms, flying it with a bible her mother gave her tucked under the seat, a Chinese good luck ring, the gift of a girl friend on her finger, and a rabbit's foot tucked in her helmet.

One of the last things, Miss Elder did before she stepped into the plane was to kiss H. B. Cornell, a wealthy orange grower of Florida, and T. D. McCordle, two of the backers of the flight. She kissed each one several times.

Miss Elder's principal backers are eight business men of Wheeling, W. Va., all the backers tried in vain to persuade Miss Elder and Captain Haldeman to give up their plans for a trans-oceanic flight this year because of the recent disastrous attempts of other fliers. Miss Elder and Haldeman took the responsibility of making the flight.

Financial Houses Observe Holiday

NEW YORK, Oct. 12.—(INS)—All financial institutions in New York state, as well as a majority of those throughout the nation were closed today in observance of Columbus Day.

Among those institutions closed in this state were the banks, the New York Stock Exchange, New York Curb Market, New York Cotton Exchange and the produce Exchange. The Chicago board of trade and the New Orleans Cotton Exchange also were closed. The Duluth and Minneapolis wheat markets remained open, however.

or of the Church of the Magdalene, a catholic spoke warmly of the rich old gentleman who lives in semi seclusion in his \$3,000,000 mansion set in among the beautiful surroundings of his 6,000 acre estate.

The priest said Mr. Rockefeller still makes it a habit to give away brand new dimes and nickels to men, women, and children, not merely souvenirs, but to inculcate the principles of saving and thrift, and to establish warmer personal relations. People fashion amulets and watch charms of these gifts and many have told him that his small gift has turned their thoughts toward thrift.

"Save your money, and you won't regret it," Rockefeller recently told 35 boys who came to Pocantico Hills from New York City as the guest of Father Dineen.

Mr. Rockefeller arises each morning at 7, takes a stroll through his estate has breakfast; dictates letters and reads his mail after breakfast goes on the links for nine holes promptly at 10 each morning, except Sunday; has luncheon at one; takes an automobile drive in the afternoon; has dinner at six and reads during the evening retiring about 9 P. M.

Setting Sons Of Rest Worried Over Removal Of Benches

(Continued From Page 1)
said the Captain, "but you have to look on the shady side if you want to find me."

The presiding officer stated that a suggestion had been made with reference to changing the name of the organization to the "Loyal Sons of Rest." The board is said to be considering this new title, since it would apply under any circumstances, whether the members of this organization sat or stood or lay.

"It is deplorable" said Captain Elder as he sat in the grass and hiting his feet over the curbstone, "that the benches which members of this club have used for so long should have been placed down near the hand shell. Since there is no hand at present, I don't see why anyone could be so misguided as to go there to sit on the seats. This society which has over 400 inactive members who have paid their dues feel that their rights have been grievously interfered with and hope that something will be done at an early date that will afford the necessary relief."

Some of the officials expressed themselves as being of the opinion that the delay is being caused by the inactivity of the inactive members, since when a member of the club becomes active, he is immediately suspended. The men of the club, however, feel that something should be done. The chief difficulty, according to the reports is that no member feels that he can risk sitting, or more properly his standing, by taking action.

Rumor says that there is a movement afoot to have cots instead of benches placed in the old meeting places. The report further says that the cots will be for the use of the grand exalted members of the order, only. The president would neither affirm nor deny this rumor.

Indicts Mothers For Many Petting Parties

DENVER, Co., Oct. 12.—Mothers are to blame when their daughters indulge in petting parties.

This indictment is hurled by Miss Louise Merrill, teacher at the Byers Junior High School of Denver. She emphasizes "to stop petting parties and like entertainment, mothers must provide pastimes more absorbing."

Her remarks were made at the closing session of the convention of the American Association of University Women of Colorado, recently in Denver.

Upholding youth as the most lovable thing in the world, Miss Merrill declared "adolescence is a burning question today. A mother's and in teacher's business is a twenty-four hour job."

"Every mother should get out the old music selections she used to play, even if she isn't a pianist at it. Get the children interested in music, astronomy, and such things, and they won't go out of the home for entertainment."

Mountaineer Found Guilty Of Slaying

LURAY, Va., Oct. 12.—(INS)—Tom Short, 38, Virginia mountaineer, was today found guilty of murder in the second degree for the slaying of his 19-year-old sweetheart, Essie Burucker, and sentenced to 20 years in the penitentiary. The jury was out seven hours.

Short, in the course of a spree, thrust a shotgun through a window of the Burucker home and fired a charge point blank at the girl. He hid in the mountains for several days before giving himself up.

Two Arrested For Showing Fight Film

LITTLE ROCK, Ark., Oct. 12.—(INS)—Bernard Bernebaum, manager of a local theater, and N. F. Wertheimer, Dallas, Texas, one of the owners of the theater, were released on bond by United States commissioners here today.

The two men are charged with violating the federal law prohibiting transportation fight films from one state to another. Recently the theater tried to show the Dempsey-Tunney fight. Bonds of \$1000 were furnished for each defendant.

GRANTED DIVORCE

LONDON, Oct. 12 (INS)—Mrs. Ovie Violent Dawkins of Huntington, West Virginia, was today granted a divorce from her husband, J. M. Dawkins, British consul at Adrianople.

STATE BREEDING GROUNDS

TALLAHASSEE, Fla., Oct. 12.—(INS)—The location and boundaries of 15 state breeding grounds for wild animals and birds was determined at the first meeting of the state wild life commission here today.

BAHAMA ISLANDS MAY BE CLEANED OF MANY CROOKS
English Government Expected To Co-Operate With United States In Ridding Nassau Of Many Crooks From Its
WASHINGTON, Oct. 12-A smashing drive by the British authorities to clean up probably the most notorious "port of wanted men" in the western hemisphere was anticipated today by federal officials, following a series of crimes laid to American fugitives in the Bahama Islands off Florida.
Infesting many of the small islets of the group hundreds of runmen from Chicago, New York and other large cities have been keeping the British colonial police and population in a constant turmoil since run running operations were transferred to that district it was said.
Officials here pointed out that the American government is not in a position to protest or demand a roundup of the criminals wanted for a wide variety of crimes in this country, but declared that the British apparently have reached an end of their endurance.
A series of crimes, including attacks on British officials and the kidnapping of a consul, has been eliminated by the arrest of Charles H. Nestle, American fugitive and widely known throughout the West Indies as "Pop," on a charge of larceny. Nestle is said to have been pilot on a coast guard craft which captured an American runner Sept. 9.
The British also have issued a warrant for Boatswain Christensen in command of the ship piloted by Nestle. He is charged with piracy. Officials here admitted that this action apparently indicates that the anti-smuggling agreement negotiated with the British by General L. C. Andrews, former dry chief, virtually has been nullified by the Colonial government.
Treasury officials, however, insisted that the agreement agents are permitted to visit the Bahamas and other British territorial waters to check smuggling. A number of American "undercover" men are to be in the islands watching elaborate preparations of the run runners of the Florida winter season.
Included in the crimes laid on the door of American fugitives is the looting of the treasury at Nassau. The vaults were donated by Washington state's American born entry "masked ruler" was the prime favorite at 7 to 1.
Bahamas protested to this government against run runners who fired on the British authorities when an effort was made to collect liquor clearance taxes. A Bahaman collector sought to reach an American gun boat, when the crew drove him back with gun fire.
On another occasion, the British consul, going aboard a smuggling craft to collect taxes was kidnapped and taken to New York. Liberated there he was furnished transportation back to Nassau by this government.
Most of the criminal fugitives have committed offenses in this country since they were arrested. Reports indicate that the fugitives are hiding in the sandy mosquito ridden isles of Gun Cay and other small refugees in the Bahama group have been received here. Smugglers nests abound in the islands. Headquarters are maintained by groups of international and narcotics runners, well equipped with men, arm, ammunition, and ships and warehouses.

Bigger Business
BYREUTH, Oct. 12, (INS)-Konnersreuth, small Bavarian village situated in the mountains near the Bohemian border, for the last two months has been the scene of a "miracle," which frequently recorded in medieval times, occurs seldom in these days: Therese Neumann, 20 year old village girl endowed with extraordinary healing power shows the crucifixion wounds of Jesus Christ on her hands, her feet, and her shoulders every Friday and has not taken a gram of food since many months, except some water and the holy communion water.
Thousands of people, by railway, automobile, or other vehicles, and other thousands on foot pilgrimage to this place to witness the "miracle," which neither scientific experts nor newspapermen so far have been able to explain fully.
For most experts the greater "miracle" seems to be Therese Neumann's complete lack of appetite and her failure to suffer from any pains in connection with hunger. She declares that she never feels hungry. As to the stigmata she actually shows, some experts are inclined to attribute them to her extraordinary power of feeling so intensely the character of Jesus Christ and his sufferings that she assumes the signs of his bodily experiences. Others consider her a typical case of pathological hysteria.
Police authorities, from time to time, were compelled to stem the flock of visitors to Konnersreuth in the interest of the corps of the rest of the villagers, which have been thrampled upon and partially devastated by visitors in their efforts to catch a glimpse of "Holy Therese."
