Coach alone provides them. It is exclusive to Hudson and Essex. Everyone knows it gives highest closed car value. And because no other type or car shares its position it is the largest selling 6-cylinder closed car in the world.

Genuine Balloon Tires Enhance World's Greatest Value

Naturally when balloon tires had established their superiority Hudson and Easen would adopt them. They are now standard equipment. They add an even greater measure of riding case, steadiness and good looks to the notable values of the Coach.

In workmanship, materials and design both Hudson and Eases are of one quality-built in the same factories, under the same patents. Your choice between them will rest solely on the price you want to pay.

You see the Coach everywhere in increasing numbers. Everyone wants closed car comforts. They will no longer, accept half-utility when all-year usefulness and comforts cost no more in the Coach.

Consider how the growing trend to closed cars affects retale values. The diminishing demand for open care. means far faster depreciation in that type. As the wanted type, the Coach maintains exceptionally high retails value. So Why Buy an Open Car I

Indifferent Physical Condition and Lack of Proper Spring Training Are Causes Mid-Season Collapse of Teams

The Word of Sport

CHICAGO, Aug. 14.—Indiffer-ent physical condition and lack of proper spring training causes the mid-season collapse of clubs, which at the start of the season seemed certain pennant contenders, is the belief of Han Johnson, president of the American League. President Johnson said the pres-ent day conditioning process is all wrong and that a return to the old-time system when players started to thoroughly harden themselves physically as early as the first of the year, would re-sult in better baseball: "In the old days players did not cinnati 5 to 0 Thursday, won his twentieth victory of the season and his eighth straight.
