LOS ANGELES, July 15.—(AP)
Governor Dave Sholts of Florids, accepting election as grand exalted ruler of Elks, said yesterday the 500,000 members of the order should foin any necessary movement to preserve personal liberty in America.

"How deplorable it is that such numbers of our people apparently do not appreciate personal liberty, nor the blessings and inheritance that we in America are privileged to enjoy," he said.

"The dictator of Italy says that liberty is a middle-class vice; the head of the German government denounces personal liberty as an indication of national weakness; the Soviet government says that liberty must be suppressed in the interest of the proletariat.

"And in our own country, the appalling truth is that these dictators of Europe have many admirers."

Sholts's administration was something of a discount in the spirit was something of a discount in the presch freedom.

#### Gasoline Taxes

Although the state gas tax was the same last year it was the year before, gasoline users actually paid \$1,866,000 more to the State of Florida. Dana Brown, the secretary of the Florida Petroleum Industries Committee points out that with a tax rate of seven cents per gallon, gasoline users contributed \$17,865,732 to the State in 1935, and \$16,499,000 in 1934.

Mr. Brown explains that while this total represents

Mr. Brown explains that while this total represents the official cost as reported by the U. S. Bureau of Public Roads, his organization estimates that federal gasoline taxes cost consumers of this state an additional \$2,565,000 in 1935, making the grand total cost of gasoline taxes federal and state, \$20,430,732.

He says that the total national cost of state gasoline taxes in 1935 was \$616,852,000 as compared with \$565,027,000 in 1934, the 1935 revenue establishing an all-time high record. Federal gasoline taxes in 1935 cost. \$172,262,000 as against \$170,109,000 in 1934, making the total national gasoline tax bill \$789,114,000 as compared with \$785,136,000 in 1934. These levies, he added, make up the larger part of the national automotive tax bill, which in 1935 again exceeded \$1,000,000,000.

"The 1935 report on gasoline tax costs clearly shows the desirability of reducing tax rates to a reasonable level," said Mr. Brown. "This tax has been a good revenue-producer, has done a great deal to finance improved highways, and should not be made unpopular by excessive tax rates or the diversion of revenue to other

mational gasoline tax bill \$785,114,000 as compared with \$785,136,000 in 1934. These levies, he added make in the larger part of the national automotive tax bill, which in 1935 again exceeded \$1,000,000,000.

"The 1935 report on gasoline tax costs clearly shows the desirability of reducing tax rates to a reasonable level," said Mr. Brown. "This. tax has been a good revenue-producer, has done a great deal to finance improved highways, and should not be made unpopular by excessive tax rates or the diversion of revenue to other than highway purposes. There is growing opposition to high gasoline taxes, to diversion, and particularly to the duplicating federal levy, which should be repealed." The important thing for the motorist, merchant, and business man to remember is that if it had not been for this 20 million of larger mats and write it in their for this 20 million or more dollars in gasoline taxes paid in this state, last year, Florida motorists, would have broade and will be their God, and clothing at the stores.

Prospects For Youth

In spite of current economic conditions and the unemployment situation, young Americans now coming of age that and write it in their gradually getting under way.

Prospects For Youth

In spite of current economic conditions and the unemployment situation, young Americans now coming of age that any way, what has become it gradually getting under way.

Prospects For Youth

In spite of current economic conditions and the unemployment situation, young Americans now coming of age that any proposed in the lates, while direct, it density to show that the states is the states and way the the states are gradually getting under way.

Prospects For Youth

In spite of current economic conditions and the unemployment situation, young Americans now coming of age that the state is the state of the stat

ployment situation, young Americans now coming of age have an excellent chance of making money, and living happy, prosperous lives, according to Dr. Louis I. Dublin, famous statistician, who reports the results of a survey of millions of cases in The American Magazine. Dr. Dublin, vice president of the Metropolitan Life Insurance Company, bases his estimates on accountables showing the overall average for the American youth of today.

all average for the American youth of today.

"The average white man of twenty years," he said, "now has an even chance to live to be sixty-nine. His chances of getting a job are excellent, so long as he continues to train himself in some particular field. It is true that there is a great deal of unemployment. The figures run into millions. Actually, however, the figures run into millions. tinues to frain himself in some particular lieu, it is true that there is a great deal of unemployment. The figures run into millions. Actually, however, the figures represent less than one-fifth of the employable population. His chances, then, are four out of five, even during the depression period. It is almost impossible to have talent, training and energy and not come out on top, even in an era of depression."

Dr. Dublin reports today's average youth will attain by any had arged his even som to be a fairly good "what is considered an income adequate to a fairly good "will."

"what is considered an income adequate to a fairly good standard of life—\$2,000." He adds that 23 youngsters in 1,000 will reach \$10,000, while 11 percent of all people living and working in cities will make \$5,000 a year. Thirtyone percent of the urban families will have \$3,000.

only one candidate qualified for Senator Fletcher's seat. The rest of them must have been afraid they'd get pepper in their syes.

It is about this time of year that the average father whose children have returned for their vacations from sollege, learns how much mars they know than he does.

Gev. Talmadge with all his faults, evidently has some virtues. He has reduced Georgia's property tax to three mills, its lowest rate is made of the urban families will make \$5,000 a year. Thirty-one percent of the urban families will have \$3,000.

Nine in ten of today's young men will marry, at an average age of twenty-five (girls 22), and they have a foundation of escaping divorce, although that rate is rapidly rising. The average couple will have three from each \$7, will have twins, one in each \$7, will have three will be 106 boys for every 100 girls.

Getting back to social economics, Dr. Dublin further says: "Only about one in three at present is decently provided for in his latter years. About 17 percent of the people over 65 are still earning their own living. About five percent are maintaining themselves on the income from property, investments, insurance and other such things, tried six cases, four of them for murder. In the latter he received two first decrease are into the says of them for murder. In the latter he received two first decrease are into the says of them for murder. CORPORATIONS HAVE no souls, so the legend runs. Granted. But those selected to manage their affairs must have to achieve success. Sometimes, however, With probable reference to the drought, retribution and one thing and another, Paul Mallon quotes ex-Seastor Brookhart as saying, "I thought that in controlling production you had to have a contract with God Almighty, and I have not yet heard that He has signed as the proper executive in a representative capacity, for he is sure so to conduct himself on all occasions as to refect credit upon himself, and the concern by which he is engaged as well.—F. W. Lafrents.

#### SANFORD TWENTY YEARS AGO

ASHEVILLE, N. C., July 16.—
Fear of a flood as bad as that of
chantown gripped the people of
aboville and the French Broad
liver valley today when the waers of the Swanannea rivers was
ifteen feet above their banks. Fiys
ersons are known to be dead, and
property damage is estimated at
110,000,000. As astimated rainall of from six to eight laches
was the primery dams of the
loods, and the conditions were
urther aggravated when the dams
colding back the waters of Laka
lessels, at Handersonylle and

#### Gracey Is Found Lon Guilty Of Death Is Fatal To Of Bumbalough

(3) That a serew jack hondle, which was said to have exceed Bumbalough's death, was used from the blunt and herry and instead of from the thinner and lighter end, as contuded by the defense.

Jack Hickson, a state's wit-ness, testified that he found the instrument and that a quantity of blood and heir was on the

had ample time, while Mrs. White and the only other sye witness. Hasel Smith, were in the house, to plant the knife on the Bumbelough hoy's body.

Defense Atturney G. W. Spencer vestered introduced feathers that Viegli Graces stationary had pleaded guilty to manufaughter in the case. However, Judge Millard B. Smith charved it was immediate the case of the case of

The Gracey jury, which deliber

circuit court. State Attorney Boyle tried six cases, four of them for murder. In the latter he received two first degree convictions and two manulaughter verdicts.

Judga Smith is expected to pass sentence tomorrow on Gracey and Fred Shannon, found guilty of an assault with an attempt to commit, manulaughter.

It is also expected that a motion for a new trial will be filed by Gracey's attorney.
