We give free deed in case of death as per contract.

TITLE BOND & GUARANTEE CO.

Volume 1

SANFORD, FLORIDA, OCTOBER 21, 1910

Number 38

Sanford Farms News Notes

Mr. Lingo, who purchased fifteen acres from Title Bond & Guarantee Company has arrived at Sanford for the purpose of improving his property. He will improve five acres at once, build a house and make all necessary improvements for a comfortable home.

Mr. R. C. Shaffer of Camden, Ohio, purchase of a five-acre tract in Sanford Farms, has made out a list of materials for the construction of a residence on his property. He is expected in Sanford in the near future.

The growers in the vicinity of Sanford Farms are now busy with their crops. Quite a large acreage of strawberries have been set. Those who have fall tomatoes will do well on them and the crop looks very fine. Preparation is being made for the usual acreage of celery. Mr. Vorce, who purchased fifteen acres from the Title Bond & Guarantee Co., has a fine bed of cauliflower plants ready to set and his cabbage plants are coming on in great shape.

Mr. J. E. Pace, the "Celery King," who has a nice truck garden at Sanford Farms is getting things in shape for his fall crops. He will have seventy-five acres in celery, thirty acres in lettuce and ten acres in cabbage this season. Mr. Pace began truck growing in the Sanford Celery Delta some years ago on less than one-eighth of an acre. He is now the largest grower of vegetables in the Celery Delta.

The store building erected by J. W. Bell is completed and ready for a tenant. Mr. Bell is anxious to get a wide-awake merchant to put in a general stock of goods and will lease the building very reasonable. Mr. Moffatt, an old resident of West Sanford, has opened a store and carries a nice stock of goods, but the old saying is, "Competition is the life of trade," even if it does occasionally kill the trader. Mr. Bell provided five commodious rooms over the store which is a two story building and is prepared to entertain purchasers in the latest approved fashion.

Mr. Vorce's house has arrived and this hustling gentleman is now busy getting it together. His family will be down shortly and will add much to the community.

Mr. Prather has in a crop of sweet potatoes on a portion of his improved five acres. The crop is looking very good. He has also tilled a portion of his farm, planted a nice area of strawberries and is making very good headway.

Mr. Gamble has had five acres cleared, plowed, harrowed and put in shape for a first crop of cabbage.

We have word from many purchasers of Sanford Farms that they will be down this fall and get busy with their development work. From all indications there will be at least 40 families living on Sanford Farms next spring.

If you have interests in Sanford and want a reliable firm to look after them write Title Bond & Guarantee Co.

Captain Smith, has rented the Oglesby property and will put in a two acre crop while clearing and improving Sanford Farm. He will have Mr. Richard Tingle of Greathamville, Ga., associated with him. These gentlemen brought a handsome pair of mules from Georgia with them and are prepared to do plowing, hauling, and all kinds of teaming. Orders may be left for them at the office of the Title Bond & Guarantee Co.

From the way Sanford Farms are moving there is little doubt but what every five acre tract will be sold by the first of January. If you want to locate in a progressive community, now is the time for you to let us make a selection for you.

Title Bond & Guarantee Co., will sell your property, will rent your property, and will do the square thing to you.

Notice

There will be a special meeting of the stockholders of the Title Bond & Guarantee Co., October 22nd, 1910, at 8 o'clock p. m., at the company's offices in Sanford, Florida.

THOMAS K. BATES,
Secretary.

\$25 down-that's all

SANFORD FARMS

\$10 monthly-That's Easy

Say, Mr. Man Away Up North

Do You Remember

How cold it was last winter, how the snow banked up against your front door and how you had to dig your way out?

Do You Remember

How the rheumatic pain did the Cake Walk up and down your spinal column, and how the chillblains Teased you about getting your feet frozen that time?

Do You Remember

That dear old friend of yours who caught a severe cold and passed into the Great Beyond via the pneumonia Route?

Do You Remember

How your wife had to lubricate your "jints" with pain killer before you could hobble out to the wood pile to gather enough slivers to kindle the fire for dinner?

Do You Remember

The suffering of the family of your old comrade for the actual necessities of life and sufficient fuel to warm their bodies?

Do You Remember

Of the high prices of food, and how the meat bill was doubled even though the number of pounds were the same?

Do You Remember

What a time your good friend had to secure enough warm clothing for his children from the winter?

Do You Remember

That we have been sending you literature about Sanford and our Farms at Monroe station?

NOW LISTEN! NOW THINK IT OVER! NOW ACT!

We Can Arrange

To protect you against severe cold and snow by having you live on one of our 5-acre farms.

We Can Arrange

To place you in a place where rheumatics and chillblains hang their painful heads in despair.

We Can Arrange

To have you live here with us where no one was ever known to die of colds or pneumonia.

We Can Arrange

So your wife will not have to lubricate your joints; so your old comrade will always have the necessities of life; so you can snap your fingers at the high prices of food; so you will never know the winter has been on you; so you will not have to spend all you make in the summer to keep warm during the winter; so you can live in happiness and contentment; so you can have A HOME IN GOOD OLD FLORIDA and make it pay for itself.

Read Our Terms. Read Our Literature. Take a Good Think for yourself. Then Send Us \$25 as the First Payment on One of Our Farms, and We Will Help You to Make the Best Home You Have Ever Owned.

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 11

SANFORD, FLORIDA, FRIDAY, OCTOBER 28, 1910

Volume III

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Following almost eighteen years of continuous service in the lucrative position of collector of customs at Pensacola, Hon. John E. Stillman, who was recently defeated for reappointment, reads himself out of the Republican party and presents the G. O. P. of the state and nation with a volley of verbal shrapnel that would cause the "elephant" to snort with fear and take to the jungles of political oblivion.

From the attitude held by the people of Florida it seems that the State Democratic Executive Committee regards the opinions of individual members, will be forced to hold a primary to select a successor to Senator Tallaferra.

Cigar manufacturers who have returned from Cuba declare that the damage done the tobacco crop has been enormous. The first storm which passed over this island exerted its greatest force in the Pinar del Rio province, in which are the largest plantations and in which the finest quality of tobacco is grown. Havana, they report, was severely damaged by the second storm, which flooded some of the streets and kept the city in darkness two nights.

Just before adjournment of the annual reunion of the Florida Brigade, U. C. V., ex-United States Senator Samuel Pasco, of Monticello, was chosen commander of the brigade, with the rank of general, succeeding J. C. Davant of Brooksville. Ben. W. Partridge was made adjutant general. The executive committee will select a place for the next reunion.

A chapter of the Order of the Eastern Star has been organized at Gainesville.

Throughout the state there is much rejoicing over the fact that the damage done the fruit crop by the West Indian storm was not as heavy as anticipated. Indications are that the crop will be very large and fine in quality, and that excellent prices will prevail.

Thomas J. L. Brown, the Tampa promoter, proposes an aeroplane flight between Tampa and Jacksonville during the winter.

The bodies of seven men, all victims of the recent hurricane, were washed up by the waves near Key West. Six of the seven were sailors on four Spanish fishing smacks which went to pieces near Boca Grande during the height of the storm. It is also believed that a seventh Spaniard was drowned but nothing has been seen of his body.

From Punta Russa, in the Ten Thousand Islands, comes news of great damage inflicted by the recent hurricane. The report says that the islands were swept by a tidal wave and that those residents who had escaped drowning were now in destitute circumstances. Crops were ruined, merchandise houses destroyed and many women and children were drowned. Seventeen bodies, supposedly those of sailors, who perished during the storm, washed ashore. A petition, signed by thirty-six survivors, asks the Board of Trade of Tampa for assistance.

Marion county's registration list shows a total of 6 000 voters.

Social at Cameron City
Halloween Social at Cameron City church Monday eve Oct. 31st.

A short literary program will be rendered, and Halloween games, ghosts and fortune telling will insure all a jolly good time.

Negro minstrels will furnish music during the entire evening. Refreshments of coffee, doughnuts and pumpkin pie will be served. Special cars will leave Sanford, 7:15 and 7:45 return 9:30 and 10:15.

Buy a car ticket of one of the 8th grade pupils or at L. R. Phillips Drug store.

New Barber Shop
G. W. Walters has leased the Sanford House Barber Shop from M. P. Lipe and will conduct a first class place. Satisfaction is guaranteed to the public and the shop is up to date in every respect. A share of the public patronage is respectfully solicited.

ENGINEER ELLIS KILLED

Engine Jumps the Track on McGirt's Creek Trestle

Train No. 80 from Tampa to Jacksonville jumped the trestle at McGirt's Creek on Monday morning about 6:30, drowning Engineer Joe Ellis and injuring the negro fireman. At the time of the accident the train was proceeding at a rate of about ten miles per hour, having stopped at the south end of the trestle as required, and after receiving the signal to go ahead, was just gaining momentum for its run into the city.

Just what caused the engine to leave the track is unknown. The engine jumped the trestle, dragging the tender along with it and landed in the deep water of the creek.

None of the passengers were injured, though many of them were severely shaken up by the sudden application of the emergency brakes before the ill-fated engine plunged into the creek.

The mail clerk stuck to his car, and by the relief train arrived, superintended the transfer of the pouches, the transfer being accomplished by a number of negroes brought to the scene on the wreck train.

Engineer Ellis, who lost his life in the accident, was one of the most popular engineers on the system. He was 45 years of age and leaves a wife, two sons and two daughters to mourn his loss. He resided in Jacksonville and had a room in Sanford where he stopped at the end of his run. He had a legion of friends in this city, who mourn his untimely end.

His body was recovered on Tuesday and the funeral was held in Jacksonville.

Quail Very Plentiful

Those in a position to know, who have been through the fields and woods recently since the young birds have large enough to fly, say that the crop of quail this season is the largest for several years, but for some reason is backward, the birds being much smaller than at this time last year. If the time at which quail may be shot could be put off another month a great many birds would be saved and many young birds, actually too small to kill, would be spared. It has been reported to the authorities that several hunters have already been killing birds, but they so far have escaped detect. Any honorable, law abiding citizen who sees a bird killed before the season is open and does not report the matter to the authorities, is just as guilty as the man who does the shooting. Keep your eyes open, and if the law is being broken report it. It's your duty.—Reporter Star.

Birthday Party

Last Tuesday afternoon Jamie Robson, the little son of Dr. and Mrs. J. N. Robson invited a few of his little friends to his home to assist in celebrating his sixth birthday. Dr. Robson's lovely new home on Markham Heights, with its spacious verandas and situated as it is in the midst of an orange grove, furnishes a most attractive place for entertaining; and the children who enjoyed their hospitality on this occasion will not soon forget the first party with the new residents on the Heights. Some of those present were Alfred Robson, Jamie Robson, Sam Murrel, Lila Murrel, Lionel Munroe, May Harry, Mildred Holly, Robert Holly, Clarence Fields, Mary Fields, Joe Cowan, George Cowan, Ruth Marshall, Addie Marshall and Lawrence McDaniel.

City Lot Sale

For the next thirty seven days the people of Sanford and the visitors and investors in Sanford and those who are not here will have an opportunity to invest in city property at a very low figure. Everyone knows that the Holden Real Estate Co., has some of the choicest city property in Sanford. This property has never been offered at such a price before and never will be again. The property is situated south and west and in sections of the city that should suit the ideas of the investor or home builders. This property will all double in value in the next twelve months because the city is growing that way. Read their page "ad" in today's Herald and then have them take you out in the car and inspect the property. You Will Buy It.

Election of Trustees

The election of school trustees for Sanford occurred last Thursday and was a very tame affair as everyone seemed satisfied with the present board and they were elected by a large majority. They are B. F. Whitner Jr., L. R. Phillips and C. R. Walker.

SITUATION IN SANFORD

Storm Results Are Now Being Investigated

LETTUCE CROP SUFFERED SOME

Early Stuff Will Be Retarded and Many Truckers Are Now Replanting Their Seed Beds

No matter how bad our lot may appear we can always look around and see some section that has suffered more. After the severe storm last week many of the growers were of the opinion that the entire lettuce crop had been ruined but further investigation this week reveals much of the lettuce in good shape, and while some of it will have to be replanted the entire crop is not a failure by any means and many a grower will have his usual Christmas money for the lettuce crop.

Compared with many other sections Sanford escaped with slight damage. The excellent drainage system did much toward saving the vegetable crop and without the drainage the entire section would have been flooded out and ruined. The celery being better able to stand the effects of rain and wind was not damaged and will come along as though the storm had never occurred.

With the organization working and growing in power, with the many firms in the field this season who will buy f. o. b. Sanford, with renewed confidence among the growers and business men generally there is no real reason in the world why optimism should not relegate pessimism to the rear for good and all. The Sanford section has again demonstrated its ability to come through vicissitudes that would put others to rout and the people who reside here can be congratulated upon living in the best and greatest vegetable section in the world. Heretofore the only real question of success has been the markets. This season should show a remarkable change in marketing and growing, and those who stand in the furrow are bound to reap the reward of their labor and fortitude. Many new people are coming among us attracted by the name of Sanford.

Many new business enterprises are starting attracted by the business interests and locations of this city.

Thousands of dollars are being invested in new homes and stores and the effects of last week's storm have faded away as quickly as the clouds formed. Again it is Lucky Sanford and few have any cause for complaint.

Rev. Carpenter in Sanford

The Ladies Auxiliary to the Anti-Saloon league met in the Presbyterian church Tuesday afternoon, Mrs. Wight presiding. After disposing of a small amount of business the meeting was turned over to Rev. W. J. Carpenter of Tampa who came to address the ladies on this occasion. His speech was intensely practical advancing ideas and giving suggestions for work which will be very helpful to the ladies in the present movement. His talk was just what was needed and was appreciated accordingly. Mr. Carpenter spoke again at 7:30 at the Band stand in the park, notwithstanding the chilly evening a large crowd gathered to hear him. Mayor Lake made the introductory speech and in his remarks the fact was brought out that Mr. Carpenter was no stranger in Sanford, having rendered valuable assistance in a similar campaign three years ago. Mr. Carpenter is termed a "live wire" in this prohibition movement.

Some Nice Windows

The N. P. Yowell Co., believe in window displays and usually keep the passer-by interested in gazing at fine dress goods and furnishings. In the arrangement of the windows George Watson is now taking a leading part and shows rare taste and judgment in colors and position. Mr. Watson states that he has been handicapped by small windows but when he gets into the new store he will show the public some real window displays.

Catholic Church

The new pastor of the Catholic church here, Rev. P. J. Bresnahan wishes to announce that the regular services of that church will be as follows: Mass every morning, except Sunday, at 7 o'clock. Sunday mass at 10 a. m. and vespers Sunday evening at 7:30. A sermon will be delivered at each service on Sunday and everybody is invited.

Merchants' Opinion of Dry Sanford

We, who here undersign, Business Men of Sanford, bear testimony to the unprecedented prosperity that our town is now enjoying and under non-saloon conditions for the past three years has enjoyed, do present the fact as exposing conclusively the fallacy of the saloon element that stagnation of business and financial reverses follow the suppression of the sale of liquor as a business, and looking to a greater and better Sanford through continued prosperity in business, purified by moral growth, we earnestly urge that the good people of our city, county and state do work and vote for the amendment making prohibition a part of the state Constitution.

In the line of what we say above a showing from the mayor's court will be of value. Beginning October 1906, the last year of the open saloon in Sanford and ending with September of following year there were 418 arrests, of which 159 were for drunkenness with fines of \$2676.11. Whereas the year following, the dry town of Sanford for same period exhibited 363 with 48 drunks and fines 21681.25:

To Old Subscribers

Any of our subscribers who do not care to benefit by extending their subscription another full year in advance and thereby getting the three two-year old grape vines free as per our offer but would like to have some of these choice vines may do so by payment of sixty-five cents for the set of three—one Delaware, one Concord and one Niagara; or \$2.50 per dozen, assorted in any proportion desired. Payment and application must be made either to this office or to Mr. L. H. Temple by or before noon, Nov. 1st, 1910.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

Ether Clare Leneve, the faithful typist, charged with being an accessory after the fact in the murder of Belle Elmore, in London, the actress wife of Hawley Harvey Crippen, the American dentist, sentenced to hang on November 8th, was on Tuesday acquitted.

While the intention of inaugurating a nation-wide federal campaign against "white slave" traffickers, United States District Attorney Sims is at present in Washington conferring with Attorney General Wickersham regarding conditions disclosed by Department of Justice investigators.

President Fallieres and members of the French Cabinet are closely guarded constantly, precautions being regarded as necessary because of an anarchistic circular condemning the President and ministers to death on account of the conviction in the military court of leaders among the railway strikers.

"Grandma" Sarah Bernhardt has at last come to a realization that she is getting along in years, and with that realization has come the thought of death. Possibly it is because she has, just celebrated her 65th birthday, possibly because she has recently become a grand mother, possibly because she knows that the golden voice with she once thrilled her audiences is gone beyond recall—but the truth is that within the last few weeks the "divine" Sarah has aged rapidly. She is still a superb actress, and on the stage she continues to seem the impersonation of eternal youth.

For the first time at any trade show the Edison poured cement house is on exhibition to the public at the Real Estate and building show open in the Coliseum at St. Louis. The electrical wizard has given his consent to the project, as he believes his invention has now reached a practical stage. The Edison "poured houses," which are expected to solve the problem of congestion in large cities, have been widely discussed, but this is the first time the house has been demonstrated outside the laboratory. The Socialist City government of Milwaukee is said to be considering the erection of a number of the houses as model homes for workmen.

Up To Date Postoffice

The Sanford postoffice is not only one of the newest and neatest offices in the state but Postmaster Huskins is determined to have every facility for handling the mails and pleasing the patrons.

The latest improvement is a cancelling machine operated by electricity and this machine is a great assistance to the working force. The machine is almost human in its ingenuity and taking a pile of letters and cards cancels each one separately and at the rate of 635 per minute.

There are only a few of these machines in operation in the state and Postmaster Huskins is to be congratulated upon getting one for his new office. Sanford is always in the lead.

Carter is Growing

W. P. Carter & Co., of this city have recently purchased the large planing mill of the Edge-Dowling Lumber Co., of Taylorville and are now prepared to furnish the trade everything in rough and dressed lumber. W. P. Carter is a hustler and in a few years has built up a fine business here. He expects to transact all the business from the Sanford office and will greatly enlarge his working force and facilities in order to keep up with the orders. The many new buildings being erected in Sanford are almost sufficient to keep one mill busy but Carter & Co., furnish lumber for many points in South Florida and are now able to get out rush orders at short notice.

Congregational Church.

The pastor Rev. Geo. B. Waldron returns this week with his family, from the North and will preach morning and evening at the usual hours Oct. 30th, when he hopes to meet as many as possible of the church and congregation. Subject in morning "A Breeze from Boston", evening "A Man's Job".

Wealth for Me
Oh! the ever restless sea,
It has treasures hid from me;
One day with a rush and roar,
It may cast these gems ashore—
Restless sea!

Oh! the ever murmuring tide,
Stretching homeward, reaching wide,
It may wait some ship to sea,
That will bring my own to me—
Shifting tide!

Oh! the mountains deep and tall,
They may quiver yet and fall,
And from out their hearts of stone
Roll the treasures all my own—
Mountains tall!

Oh! the rivers swift and long,
Rushing on with laugh and song;
They may make their beds and lay
At my feet my lost some day—
Rivers long!

Oh! the rosebuds dewy, sweet,
Nodding in some wild retreat;
They may burst and, smiling, lay
Pearls in my bare palms one day—
Roses sweet!

Nay, my Lord! the earth and sky
Give not gems that satisfy;
Thou art holding back for me
Joys untold I yet shall see—
Riches true!

Though I seek on tireless wings
Treasures rare in earthly things,
Yet I know they can but be
Semblances of joys I'll see—
Wealth for me!

ROBERT PAINE HUDSON.

My good friends who are against good roads or rather against the bond issue for brick roads now have a chance to see an experimental road of the kind that will be made in the county. The road will be built on Celery avenue and extend from Sanford avenue to Mellonville avenue. It will be nine feet of brick and have the clay and marl sides and will be a most convincing argument for those who think a nine foot brick road is too narrow. There is a growing sentiment in favor of the bond issue and I am glad the commissioners have decided to give us an experimental road, for it will do more talking than all the literature that could be printed. It is always a difficult matter to explain something new in road building but the actual road speaks for itself. I hope that every voter in this part of Orange county will thoroughly inspect this sample road and then delve deeply into the question of whether Orange county should not advance in the matter of good roads or become a back number if the bonds do not carry.

There is nothing in the way of material to consider except brick. All other kinds have been thoroughly tried and tested and found wanting. Our commissioners, in order to build the most roads for the money have decided upon the nine foot roads flanked by marl and clay. The question naturally arose as to whether this was wide enough or not. The experimental road will explain this to your satisfaction and there you are. See it for yourself.

City politics seems to have taken a back seat while the amendment fight is on and you cannot hear a line on any one. I did hear the other day that G. R. Calhoun would certainly be a candidate for Mayor and Mayor Lake would also be a candidate but these rumors have not been verified. So far there has been no candidates for council as this job seems to be a hard proposition. After the 8th of November maybe the city election will warm up some.

My friends the ladies are still improving, still achieving and the city is looking better than ever before. Some of these days I want to interest them in the scheme to beautify the lake front and then Sanford will be beautiful, sure enough.

I notice that the Pink Sheet which should be called the Yellow Sheet has attempted to belittle the new manager of the Growers Association. From what I have seen of Mr. Smith I think he has wonderful executive ability, has thorough knowledge of the buying and selling end and is the very man for the place and all the Pink Sheets and Yellow Sheets that are supported by graft and greed could not change my opinion and will not change the opinion of the level headed growers who know that their only hope lies in the association. All of us expected a fight on the organization and knew the source from whence it would come so there is no one hurt except the Pink Sheet and Manager Smith has gained friends by the attack and the organization is moving right along.

I note in the Orlando Sentinel that my old friend William Holden is still raising a garden and has a fine crop of sweet potatoes. Mr. Holden is about eighty years old and yet seems hale and hearty and is an example of the longevity of people in Florida. Mr. Holden's son, W. D. Holden of this city is also a fine speci-

men of health and looks as though he would live to be a hundred.

The street cleaning department is making a noble effort to clean up the city streets and alleys and in this work should receive the aid of every citizen. You can hamper the work and make it more difficult by your attitude or do all you can toward making Sanford more beautiful.

—THE SAUNTERER.

Phillies The World Champion

The baseball championship of the world belongs to the Philadelphia club of the American League. They clinched the big pennant last Sunday with seven runs to two for the Chicago Nationals and there was none in the big overflow crowd to say that they had not won it fairly and squarely.

Five games were played and the eastern youngsters, took four of them by outbating, outfielding and outrushing the veteran Chicagoans. They "got the jump" at the start and although Chicago punctuated their progress with a defeat on Saturday, it really did not change the situation a bit.

The Philadelphia were due. They won the American League banner in 1902, but there was no world's series that year. Five years ago the New York Nationals were too strong for them. So, in this year of grace, it was in the cards that they were to be denied.

While the series was not the most profitable ever played, it helps to simplify the high cost of living problem confronting even such heroes as the Philadelphia to say nothing of the Chicagoans with winter coming on. The players' share of the money amounts to \$79,071.93. Of this, sixty per cent or \$47,443.15 goes to the winners and \$31,628.77 to the losers. As there are twenty-three players on each team eligible to participate each of the Philadelphia, is entitled in round numbers to \$2,062 and each Chicagoan to \$1,375.

The players shared in Sunday's receipts by courtesy of the managements of the two clubs who conceded that if the receipts should be larger than those of any previous day, the smallest receipts should be considered as accruing to the fifth game and the Sunday receipts accredited to the fourth contest, the last in which the players had a financial share.

The total receipts for the series were \$173,980. The two clubs' share \$39,755 apiece, while \$17,399 goes to the National Commission.

The total paid attendance was 125,219 persons.

Graustark Tonight

"Graustark", dramatized from the novel of the same title, (the book that made George Barr McCutcheon famous as an author) will be the attraction at the New Imperial Theatre, October the 28th.

The play retains all the heart interest and thrilling incidents of the charming story, and faithfully depicts the romantic adventure of a fearless American and a Princess of royal blood. It is in five acts and bristles with dramatic sensations, with a vein of humor interwoven in its marvelous plot, and is mounted with elaborate scenic effect and picturesque costumes.

"Graustark" leaves one with the fragrance of roses and an abiding memory of all that is beautiful. Miss Chrystal Benson is happily cast as "Princess Yevive" and Mr. Charles Barling interprets the role of Grenfall Lorry in a manner that recalls the heroic American to those who have read the book. The part of Baron Dangloss is in the hands of J. H. Lewis, and of him the author said recently "that man has stepped out of my book bag and baggage; he has grasped my conception of the Baron".

Others in whose hands various important characters are entrusted, all do their share in giving theatregoers a performance of romantic drama that sends a thrill of joy to one's heart.

The Sanford Irrigation System

Among the many good things that Thos. K. Bates has written for Sanford, one of the best is a comprehensive article about our irrigation system in the last issue of the National Irrigation Journal.

Mr. Bates is a man who thoroughly understands his subject and handles it in a most convincing way, clearly setting forth the many advantages of the Sanford system and the Sanford section. The National Journal, as the name implies, is a national organ and goes to thousands of readers who would otherwise never hear of Sanford.

Mr. Bates deserves the praise of the Sanford people for his good work in advertising our section throughout the United States.

The Journal in connection with this article gives several fine views of Sanford and the celery fields and the article is bound to attract the attention of people of a desirable class.

THE REASONS CLEARLY STATED

Views of Floridians on State Wide Prohibition

The following includes but few of the many thousand well known Floridians who are outspoken in preserving Article XIX of the State Constitution, thus maintaining for the people of this state local self government.

They tell you "Why" they are opposed to the clamor of fanatics, which if successful would prove disastrous to this proud and progressive commonwealth.

Read what they say:

P. A. Vans Agnew, city attorney of Kissimmee: "The coercion of the seaport counties by a combination of the inland counties is subversive of the principles of local liberty."

James E. Calkins, state senator, Fernandina: "Local option is local self government and Democratic doctrine."

W. E. Dennard, sheriff, Lake City: "Local option should be continued in force. It gives each county the right to settle the question of the sale of liquor."

H. H. McCreary, editor Gainesville Sun: "I favor home rule between the counties."

Wm. M. Bostwick, chairman Jacksonville board of bond trustees: "I am opposed to granting any other community the right to dictate the enforcement of the police power in the community in the community in which I reside."

A. Greenhut, president Pensacola city council: "If the state can dictate that one can't use beverages it might as well say that you can't or shall not smoke, chew or eat, and wear only such as we dictate."

Perry G. Wall, prominent hardware dealer of Tampa: "With our State resources still undeveloped it would be suicidal to experiment in drastic legislation."

M. F. Robinson, Sanford: "I believe in local option as being the most democratic way to settle the question in each county."

F. Fraser Hunter, Kissimmee: "Such legislation defeats its objects and tends to bring the law into disrepute."

W. D. Holden, Sanford: "The spirit that drove the Puritans from Great Britain into New England is the same that is now engaged in an effort to engraft upon our Constitution the Prohibitive Amendment."

R. H. Marks, Sanford: "I do not believe in outsiders interfering with our local affairs."

W. H. Norton, Cashier Citizen Bank, Kissimmee: "I have been over all of the large cities of the Southern States that have state-wide prohibition and in each case there are conditions existing much more disgraceful than high license."

Negro Fireman Killed

After escaping from one bad wreck, Jim Branch the negro fireman on Train No. 82 was killed at Winter Park last Saturday night. A car of brick which had been left on the side track juttied out too far or had slipped down the track and stood enough upon the main line to catch the side of the engine cab wrenching off the fireman side, killing instantly. One leg was jerked from his body, and he was mangled badly. The remains were shipped to this city and afterward to his home in Port Tampa.

DO YOU KNOW

That PAID SPEAKERS from OTHER STATES, realizing that they cannot consistently argue against the fundamental Democratic principles of HOME RULE, are attempting to hide the REAL ISSUE in this campaign behind the SALOON?

ASK SOME QUESTIONS

In order that you may know just what kind of a campaign has been conducted in the effort to rob you of the principle of Local Self Government, ask the Florida branch of the National Anti-Saloon League to tell you:-

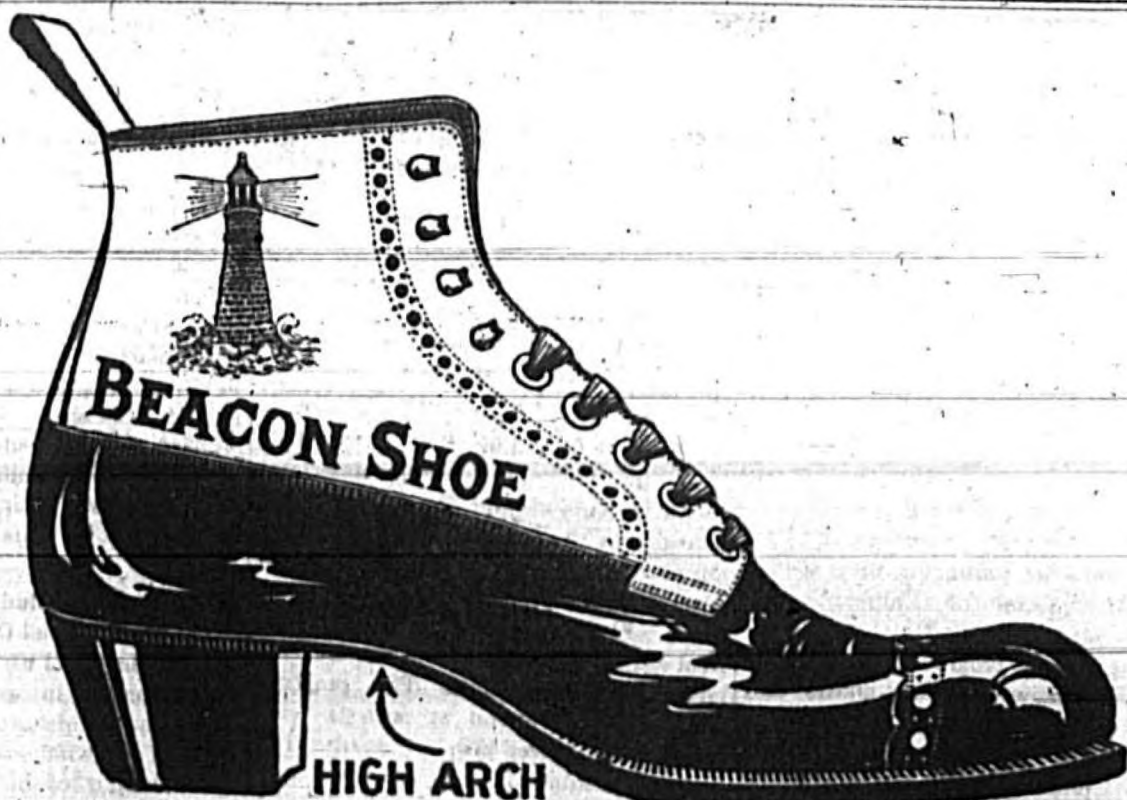

- 1.—Why it is interested in destroying HOME RULE in Florida?
- 2.—Why it EEVER WORKED FOR PROHIBITION in one of our Local Option campaigns?
- 3.—What it has done with the money your Pastor, your little children, and the good-women of the State have collected for its campaign fund?
- 4.—Why the necessity of raising that FIFTY THOUSAND DOLLARS additional last week?
- 5.—Why it is necessary to import FOREIGN men to tell FLORIDA men what is best for their wives and children?
- 6.—Why it deliberately charges that five thousand negroes were registered in Duval County by the Local Option Committee when the Supervisor of Registration has officially denied it?
- 7.—Why it persists in charging that the Local Option Committee had One Million Dollars campaign funds without giving any proof?
- 8.—Why it persists in charging that no liquors can be bought in "dry" States, when it is common knowledge that OPEN SALOONS are selling liquors every day in every city of these so-called "Dry" States?
- 9.—Why some of their advocates persist in charging that the defeat of the Amendment will force Saloons on the DRY Counties when they know that such is FALSE?
- 10.—Why it is necessary to resort to character assassination and personal abuse of some of Florida's most honorable and distinguished men to confuse on the REAL ISSUE?
- 11.—Why it persists in claiming that their remedy will stop liquors being shipped into DRY Counties in the face of a FEDERAL STATUTE which says that this CANNOT BE STOPPED?
- 12.—How much property its Superintendent owns in Florida, why he came here, how long he has been a citizen of Florida, and how much his NATIONAL ASSOCIATION is giving him to destroy the HOME RULE clause which honest Floridians wrote into YOUR Constitution twenty-five years ago, and under which the State has prospered and TEMPERANCE HAS MADE WONDERFUL STRIDES during that time?

If the Amendment Passes

State-wide Prohibition will be a part of your CONSTITUTION, and it will be almost impossible ever to repeal it; blind tigers will flourish in your DRY counties that now enforce PROHIBITION, but no blind tiger can be LEGALLY VOTED out of any county, there can be no regulation of UNLICENSED Saloons in any county, and there will be an INCREASE in your TAXES next year, or you will be denied some of the privileges you now enjoy.

If the Amendment is Defeated

The present law, which has been operating successfully for TWENTY-FIVE YEARS will remain unchanged; your Legislature or City Council can pass laws regulating these SALOONS and prescribing how they shall be conducted, or, by legal vote, EVERY SALOON in EVERY wet county can be voted out; NO SALOONS can be opened in counties that are now DRY, and there will be NO INCREASE in your taxes next year on account of State-wide Prohibition.

REGARDING WM. G. SMITH

The Packer Gives Reasons For Pink Sheet's Attack

Wm. G. Smith of Cape Charles, Va., has been elected manager of the Florida Vegetable Growers' Assn., and is now in active charge of the association here.

Mr. Smith was elected manager of the association after a very careful consideration by the board of directors, composed of the following well known business men of Sanford. W. D. Holden, G. R. Calhoun, B. A. Howard, Harry Ward, J. H. Mitchell, H. H. Chappell and A. T. Rossiter. These men had before them very strong letters of endorsement from leading dealers of the country and also of prominent business men from the Eastern shore. Among these endorsements were letters from John Nix & Co., New York; Albert Miller & Co., Chicago Farmers & Merchants' bank of Cape Charles, Va., the mayor of Cape Charles and others. Mr. Smith has had twenty years' experience as an f. o. b., sales specialist and is known as a hustler. There is a committee that will work in conjunction with Mr. Smith, composed of B. A. Howard, W. D. Holden and Harry Ward, all of whom are deeply interested in conserving the interest of growers and building up a great permanent future to Sanford as the truck center she is now and should always be. It will be the endeavor of the committee in cooperation with Mr. Smith to broaden the market field for consumption of Sanford products. It will also be part of the work to bring buyers here and to show them that Sanford gives first considerations to pack and quality. As further inducements to buyers a uniform pack of celery will be put in vogue as far as is possible. A twelve-inch crate has been adopted and the old lettuce hamper has been displaced and a new size crate measuring eight by twenty by twenty-four inches adopted. The announcement of the association is that it now has enrolled 150 members, controlling 800 tiled acres outside of the considerable acreage not tiled. It has been pointed out that the success of the Florida Vegetable Growers' Association mean a great deal for Sanford along all commercial lines as well as the prominent success to the growers individually. This is no time for knockers to made lucky Sanford their residence as it takes men that are willing to get behind the wheels and push and at the same time remain optimistic as to the great future of their industry. For Sanford to remain a great permanent center for the growing and distribution of Florida truck it is generally admitted that the growers have to resolve themselves into a strong working body with big men at the head of their organization for the purpose of getting buyers obtaining good prices and for a better system of distribution.

The article in the pink sheet of October 15 referring to Manager Wm. G. Smith of the Florida vegetable growers' association is purely a vent of personal spleen. It is looked upon here as a typical outbreak of a notorious sheet and those commenting on it dismissed it with a simple sneer. Telegraphic communications disclose the following facts which will explain the uncalled for attack upon Mr. Smith. Four years ago Mr. Smith made a business trip to New York and while in John Nix & Co's store Preston of the pink sheet came along and was introduced to Mr. Smith by Fred Hallock of Albert Miller & Co., Chicago, whereupon Mr. Smith refused to greet him until an apology was offered him for an insult printed in the pink sheet at about that time. Mr. Preston refused this apology, whereupon Mr. Smith gave a Jim Jeffrey's exhibition of the famous "soler plexus" punch, and as this didn't seem to satisfy him, he proceed to give him a genuine trouncing. It seems that his anatomy has not fully recovered from this trouncing up-to date. In short, this is responsible for the attitude of the pink sheet as to Mr. Smith and his good name.

Under the circumstances for the pink sheet to pursue this course is but a reflection upon these well known business men of Sanford and does not harm Mr. Smith's standing here nor elsewhere one iota. Reference was made to the news item in the Jacksonville Time-Union from Sanford as to the progress of the association of its selection of Mr. Smith and other general association news. In fact, this item was a very creditable summary of the situation here and spoke very highly of Mr. Smith. It would occur that the pink sheet wishes to impress some of its few readers at Sanford that the Times-Union looked upon Mr. Smith in a bad light. Exactly the same item was printed in the Sanford Herald and the Tampa Tribune and any detrimental construction placed upon any part of it is a misconstruction of the truth which is vouched for by the board of directors of the association.—N. Y. Packer.

Take a Few Days off this Winter, Make a Personal Inspection of FLORIDA'S VOLUSIA FARMS You'll Learn More in a 12-day Trip to Florida than You'll Ever Learn by Any Other Method.

1911 Excursions to Sanford and Volusia Farms January 3rd and 17th, February 1st and 15th, etc. Tourist Sleepers to Jacksonville from Chief Towns in Central West. Write for Further Information

WE prefer that you see what you are buying. We want you to consider yourself absolutely a free agent when you inspect Volusia Farms. You place yourself under no obligation to buy simply because we take you over the Farms at no expense to you. We know the value of these lands for diversified farming and believe that the majority shown over the tract will become purchasers on account of the unlimited resources of this land under intelligent cultivation.

A large number of people have already reserved tracts. Many have reserved sight unseen. Many have bought after personal inspection. Our headquarters in the Peoples Bank building, Sanford, is now a busy scene from early morning to night-fall and our automobiles are kept in action continually. Volusia Farms are selling fast. People in all sections of the country are realizing more than ever before, that one of the basic reasons for the high price of living is that there are not enough people left on farms to produce food at a price the people can afford to pay.

"Too few left on the farms," said the president of the National Conservation Congress speaking at Des Moines last September. "There is no danger from foreign wars, nor from the effects of popular agitation, nor is there any permanent danger from the 'disestablishment of credit'. So great has been the inducement to engage in manufacturing that there are no longer enough skilled farmers left on the land to produce the food at the prices that the people in the towns and cities can afford to pay.

Not Enough People Yet Know About the Resources of Volusia Farms

and Florida in general. Florida's diversified farming opportunities offer more inducements to the skilled laborer than any position in any factory can ever offer. A settler in Volusia Farms is not at the beck and call of any man—he is his own boss. He is a land owner instead of a rent payer. His domain is acres in extent in-

stead of a few feet of paving in front of his city home. His summers are long and comfortable; his winters are a delight—there can be no possible kind of contrast with the all year 'round weather in Florida and the all year 'round weather in other States.

Neither can there be any possible contrast with his position as an income-earner on Volusia Farms and his income as a pieceworker or a journeyman in any manufacturing city.

If any man is laboring on a weekly salary and under the belief that there is no money in Florida farming and that there are too many people already in Florida, he should write for our booklets and for copies of previous editions of "The Sub-Irrigator."

No section of Florida, and around our territory in particular, has yet raised enough produce to make the people at large—the consumers—cry "Halt." The demand is for more, and more can be raised at a profit which means more income to the grower than he ever drew when on a weekly salary basis.

The requirements are simple—merely intelligent cultivation of the land, readiness to accept pointers from successful farmers, and a little money and perseverance.

There must be hundreds of men in the country who are interested in bees and honey. For nearly half the year their hives are practically idle. In Volusia County last year there were over two thousand stands of bees. Volusia County produces more honey than any other county in Florida. The money value of Volusia County honey was over 60c a lb. Flowers bloom all the year in a lavish luxuriance, which makes bee keeping profitable as well as pleasant.

We want to hear from those interested in bees.

We want to hear from those interested in poultry. Some folks say that you can't raise chickens in Florida. The fact that some of the most profitable chicken farms in the country are located in Florida is the answer to this gossip. The value of common barnyard poultry raised in Volusia County last year was \$20,000 and the value of eggs sold and used, \$50,500.

To some, possibly, these figures do not look large when applied to an entire county, but they emphasize the point that there is room for you on Volusia Farms in Volusia county, to create more of this real wealth—greater opportunities for you out here in the open than way up yonder cooped up within four walls with a temperature which makes you huddle over the fire.

In general farming, too, Volusia Farms is your opportunity—sweet potatoes, white potatoes, corn, sugar cane, rice, velvet beans, onions, lettuce, cucumbers, beets, strawberries, peaches, pears, oranges, grapefruit, pecans, figs, and so forth, can be cultivated on these lands.

Don't wait until next spring or summer to take a look at Volusia Farms. Come now. Now is the time if you have any thought of establishing a home in a new country, take a look at Volusia Farms.

LOCATION:—Volusia Farms is just across the river from Sanford. The Florida East Coast railroad, Sanford and Titusville branch, runs through the property. The lands are only a short distance from the Indian River, where the finest oranges and grape fruit in the world are grown. DeLand, the county seat and University center, is only 20 miles away. A public road runs from Sanford through Osteen and numerous side roads make all parts of Volusia Farms easily accessible.

TOWNSITE:—New Volusia is the name of the town site in the center of the Farms. We chose this central location because it is on high land and close the new county roads running from Osteen to the Atlantic Ocean. Deep Creek, a fine stream, runs through the town and a park site has been set aside along this creek.

Volusia Farms will furnish the business for New Volusia which is destined to become a prosperous town of several hundred within a short time.

We also want to hear from people who are looking for new business locations. Very favorable terms are being made for sites at New Volusia.

If in any way interested in Volusia Farms, New Volusia or Florida in general write for our booklets. Address your envelop or postal plainly:

Florida's Volusia Farms at \$30 Per Acre and Sold on the Liberal Contract we are Issuing, are the Best "Buy" in Cheap Farm Lands in the Country Today

\$30.00 PER ACRE

\$5 per acre cash with application, balance \$1 per acre per month without taxes and without interest.

If you can pay all cash, 10 per cent discount from above price. Every Acre is sold on the guarantee that if, within one year from completion of payments, you decide you do not want your Volusia Farm, we will refund every cent you paid us for it, add 6 per cent to the amount by way of good measure, and take the land off your hands. We will write this in your contract.

Palm Hammock

NEWSLETS

In the Interest of Progress and Development

Palm Hammock. A farm on a street car line. Ingress and egress from your farm to Sanford as often as you want it. That is what we give you.

Transportation is the key that opens the treasure chest of Palm Hammock. No farm more than one-fourth mile from the street car tracks.

Mr. Reader of this Paper You are Going to Learn a Few Things About Palm Hammock

Palm Hammock, the Garden Spot of the Sanford Celery Delta

Is now being tapped by the extension of the Sanford Street Car Line. Not a farm in Palm Hammock will be more than one quarter mile from the Street Car line.

Those Who Reside in the Country

Are better able to appreciate the advantages of Rapid Transit. The facilities for getting in and out are now enabling the workers of the large cities to reside miles and miles away from their work, own their gardens and yet enjoy all the advantages of the advanced condition of things in the city.

You Will Be Able to Do the Same Thing Here

If you purchase a Palm Hammock Vegetable and Celery Farm. While enjoying the Peace, Happiness Comfort and Contentment of country life, you will at the same time be able to partake of the Educational, Commercial and Social life as developed in Sanford with ease and little expense and the transportation afforded you will be the cause of it.

The Round Trip Fare From Sanford to Palm Hammock

Is only twenty-five cents and commutation tickets will be sold at still more reasonable prices. Those building homes in Palm Hammock will enjoy all the advantages of city life. You will have no trouble in marketing your crops. Transportation right at your door and progress all about you.

It is Not Like Establishing a Home in the Wilderness

In Palm Hammock you will have neighbors on every side. You will live in the vicinity of cultivated farms. Your neighbors will be ready to give you the benefit of their experience in growing vegetables. You will live next door to information that less favored sections cannot purchase with money.

The Owners of Palm Hammock

Are old residents of the Sanford Celery Delta. They know where the best land lies and that is why they purchase the

Very Heart of the Garden of Eden

They were soon enough to take their choice of all the land in the Celery Delta. After looking the situation over carefully

They Selected Palm Hammock As Being Better Adapted

By nature to the growth of vegetables during the winter months than any other section of the Celery Delta. To make this land available a street car line is now being constructed through the property. As a result of their far reaching research they now offer vegetable farms

On Terms That Are So Reasonable That You Can Make

The land pay for itself if you have a small initial working capital to begin on. When this land has been placed in good tilth it will be easily worth Eight Hundred Dollars an acre.

E D G E W O O D

Sanford's most beautiful suburban addition
 Now being platted and made ready for the market
 Traction line runs through the center of Edgewood
 From Sanford Avenue to Mellonville Avenue
 Five cent fare to city. Five cent fare to your farm
 Live in the city and farm in the country
 The traction line will help you do the trick
 All our property lies along the traction line
 Do not buy a city lot until we have shown you
 Edgewood the beautiful, high, dry and accessible
 Terms reasonable enough to lift you out of the rent paying class
 Close to town. Close to high school. Right on traction line
 Wait for announcement of prices and terms of sale. You can pay the prices and meet the terms

We have some splendid ten acre farms in Palm Hammock
 We have some splendid five acre farms in Palm Hammock
 We have some splendid two acre farms in Palm Hammock
 We have some farms fronting the street car tracks
 We have some farms a tier or so back from the street cars
 We have the farm you have been looking for
 We have the farm that will enable you to make good
 Take our word for it. We have been here long enough to know
 Write us for terms of sale
 Write us for general information
 Write us about the successes that have been achieved here
 There is only one Sanford Celery Delta. We want to tell you about it.

You will be in direct touch with Sanford when you make a home in Palm Hammock. Your children can attend school in Sanford. A big advantage.

First Nat'l. Bank Building

Sanford, Florida

Palm Hammock is 15 minutes from Sanford by hard road. The Grower with a big crop can best appreciate good roads. Palm Hammock soil will make bumper crops.

THE SANFORD HERALD

Published Every Friday Morning at Sanford, Fla.
R. J. HOLLY, Editor and Proprietor

Subscription Price, \$2.00 a Year in Advance

Entered as second-class mail matter August 22nd, 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office First Floor in the Bishop Block, First Street
Telephone No. 148.

THE HERALD'S POSITION

The editor of The Herald has a mission to perform and has endeavored to conduct a clean newspaper in every respect. We cannot agree with all our readers in their views and do not expect them to agree with all our views. Such a state of affairs would be impossible with a real newspaper where the editor has an opinion of his own.

In the campaign now on for the defeat of the amendment, which means saloons or no saloons, the editor of The Herald has been fair and impartial. Believing that local option was the proper way to settle the question the editor took that stand and was honest about it. The Herald maintained at the time that when the question came up for a county election the paper would certainly be against the open saloon in the county.

Since that time the question has taken a different phase and the majority of the local option sentiment has been directed not only to a defeat of the amendment but efforts are being made to call a wet and dry election in Orange county, and we will be obliged to wage the fight all over again. This simply makes the position of a real local optionist untenable, for it now appears to be a question of saloons or no saloons not only for Florida but for our own county as well.

There has never been a good and sufficient reason for the editor of The Herald to line up with the saloons and we do not purpose to do it this late in the day.

Therefore The Herald is for the amendment and against the open saloon in whatever guise it may assume.

The Herald's mission is not only to up-build Sanford but to build up character, strive for the right and take the right side on every great moral question. We grant everyone the privilege to have their own opinion and shall not flaunt our opinion in the face of people who are honest in their convictions—only in passing we wish to state our position clearly and plainly, that The Herald under the present head will be for prohibition from this time forth for reasons too numerous to mention.

THE OUTSPOKEN PAPER

During the recent labor troubles at Tampa the Tribune has voiced its opinions freely and of course has suffered accordingly but goes ahead and preserves the same policy. The following clearly states the matter:

"A newspaper which is in the habit of taking a positive position on public questions must, in the very nature of things, encounter antagonisms and develop animosities. It is the penalty of plain speech. The newspaper which 'takes sides' like the man who 'takes sides' is never without enemies. It is never free from the malicious attacks of those institutions or individuals it has opposed.

A paper that is without an opinion, that 'straddles' every big issue, that frames its policy in the business office, that trims its sail to every breeze and that is so afraid of giving some one offense that it plays the clam on every question—that paper can never be a permanent success. The man who is habitually without opinions and who, if he has them, fears to express them, is a poor citizen and can never be counted upon to take part in movements for the public benefit or the general uplift; exactly so with the newspaper, though in a much more pronounced and conspicuous degree."

For the benefit of the candidates and those who would voice their sentiments on the question of state prohibition we will state that space in The Herald is not given away. Reading notices are five cents per line, display advertising fifteen cents per inch and any one can buy it, as no favoritism is shown to any side. Space in the editorial columns is not for sale, that privilege being reserved for the editor. The Herald has never been a stiff necked proposition and our columns are open to the public for advertising purposes, with the exception of whiskey "ads" which have never been taken at any price.

This explanation should suffice and save answering questions of many who desire to fill the paper with articles airing their own personal views of men and measures.

Every citizen of the Sanford section should inspect the experimental brick road being built on Celery avenue. Facts are good arguments and those who are opposed to the nine foot brick road should take a look at the real article before passing judgment.

An argument against Uncle Henry Long is not an argument for prohibition. If Uncle Henry can belong to the Methodist church and the Masons and conscientiously support the saloon element of Jacksonville, it is only a matter of his conscience and his obligations. The fight should not be made against individuals but against the liquor traffic itself.

ON THE SENATORIAL QUESTION

The Herald did not support Broward in the recent senatorial campaign but after he was elected this paper believed in upholding his hands and giving him a fair shake, when he should take his seat.

Senator-elect Broward was cut down by the hand of Death before his nomination could be ratified. Believing that N. P. Bryan could more fully carry out the policies of his life long friend than any candidate that had announced at the time, The Herald believed him to be the logical candidate.

The majority rule has always been the standard of The Herald and it seemed from the vote for Broward that the majority were for his principles.

We have nothing but praise for Mr. Stockton and Mr. Blount, but we pledged our support to Mr. Bryan in the very start and will continue along that line.

There is plenty of time to discuss the situation, but The Herald believes in coming out in the open on every question and The Herald is for N. P. Bryan for U' S Senator.

Primary Date Is Named

January 10 and 31 were the dates named by the State Democratic Executive Committee, in session in Jacksonville on Tuesday, for the first and second primaries to be held to nominate a successor to United States Senator James P. Talliaferro, a vacancy having been caused in the successorship to Senator Talliaferro through the death of nominee Napoleon B. Broward.

Messrs. W. A. Blount, of Pensacola, Nathan P. Bryan and John N. C. Stockton, of Jacksonville, have agreed to these dates for the primaries, and thus far these three are the only men to announce for the position.

At this meeting there were twenty-five members of the State committee represented, fifteen in person and ten by proxy. Twenty-two counties were without representation.

Chairman W. H. Price, of Marianna, attended the meeting, and stated that he had letters from seven counties declaring it impossible to hold a primary in these counties unless expenses for such primary are guaranteed. No provision was made at this meeting for bearing the expenses of the proposed primaries.

The meeting in Jacksonville was not called by Chairman Price, although he attended. As published in the Tribune several days ago, Mr. Price has called a meeting of the committee for November 11, to meet in Jacksonville, at the parlors of the Aragon Hotel.

Committeeman P. A. Dignan, of Jacksonville, representing Duval county is responsible for the meeting yesterday. He wrote every member of the committee, asking them to attend the unofficial meeting, and he says he received twenty-eight assurances that as many would be present.

Twenty-five kept their word, either in person or by proxy.

The situation thus created is a peculiar one in Democratic annals of this state. Mr. Dignan contends that the committee should meet before the time stated by Chairman Price, although the primary should be held some time before January 1, so that poll-taxes for 1910 will not have to be paid.

The general statutes say that no primary can be held within sixty days prior to a general election, but Mr. Dignan has stated that this cannot apply to his idea of holding a primary, since he plans to hold the primaries after, and not before, the general election.

The general election is to be held November 8. Chairman Price has issued a call for a meeting of the committee in Jacksonville three days later. The outcome of this call will be watched with interest.

Attorney John Hartridge, one of the best known lawyers of Jacksonville, has stated that, no matter when the primary is held, whether in November, December or January, that poll taxes must be paid.

The present situation is an interesting one to every Democrat in the state, no parallel case having been presented in Florida politics so far as the mind of the oldest politician runs.

Growing Rabbits

Upon going to his farm after the storm last week James Cowan found the place surrounded by water and countless rabbits who to escape the water had congregated there. Mr. Cowan picked up a few of them upon his return to town and the editor's family had several nice ones which materially reduced the cost of high living.

Do You Buy Shoes
on Their Looks Alone or
on Their Merit as
Well?

\$3.00 When you buy Beacons, you get both looks and merit. Let us tell you why. **\$3.50**

Beacon Shoes

FOR MEN

are shoes with a "conscience—honest all through." You don't have to take our word for this fact. You can find it out by actual experience. The Beacon appeals to you at sight, because it is really a swell shoe. It makes your feet grateful, because it gives perfect ease in any and all positions.

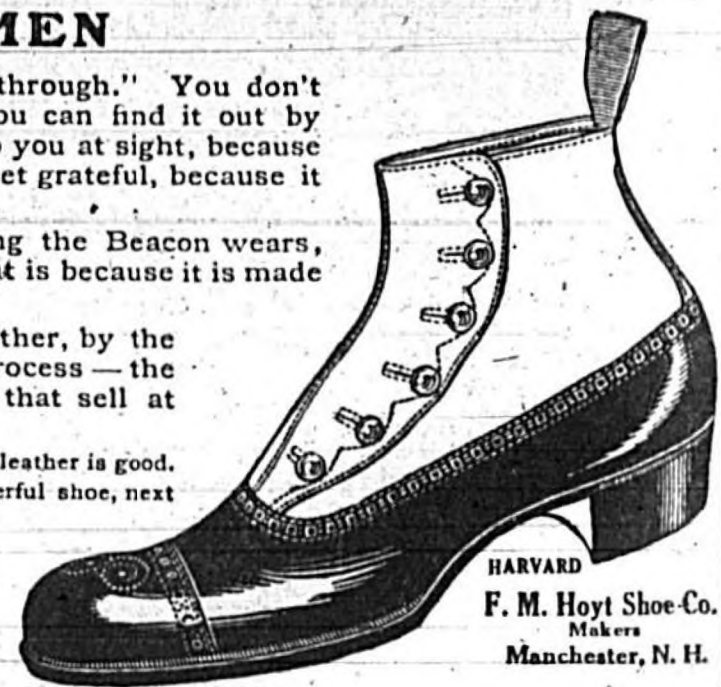

You will be surprised to learn how long the Beacon wears, and how many hard knocks it stands. That is because it is made as a good shoe ought to be made.

Union workmen put the Beacon together, by the genuine Goodyear Welt Hand-Sewed process—the very same process that is applied to shoes that sell at \$4.00 to \$8.00.

You only need to touch the Beacon to tell that the leather is good. Just step in at a Beacon dealers and see this wonderful shoe, next time you are passing. He won't urge you to buy. We only want you to know how good the Beacon really is.

THE EVENTS OF ORANGE COUNTY

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

GENEVA JOTTINGS

Special Correspondence to The Herald: Miss Leta Peters, who is employed in Jacksonville as stenographer by the Drew Book Co. is on a visit to her parents.

Capt. Moore, after spending the summer in New York, is again with his family at this place.

Mr. Duckhardt returned to Geneva last week from the pleasure resorts of the Adirondacks where he has been spending several months.

Miss Bobbie Nicholson returned Monday from Sanford, where she was called by the illness of her sister, Mrs. Tittis.

Mr. and Mrs. Fred Taylor are happy over the arrival of a bright baby boy in their home.

Mrs. Moran and little grandson, Jack, of Miami are visiting her son, A. A. Moran.

Mr. and Mrs. F. F. Sieg and baby from Americus, Ga., spent last week at the home of their relatives, Mr. and Mrs. D. Speer.

Mrs. Billy Raulerson, who has been very ill with fever, is reported some better.

The recent storm certainly did a great deal of damage to the fruit in this section and also to the truck farms.

W. L. Sieg has returned to Geneva from Jacksonville and will in future reside here.

Mr. and Mrs. P. L. Chambliss of Leslie, Ga., are in Geneva visiting the latter's brother, David Speer. They will remain during the winter months.

Miss Mildred Rhebinder is at home again after a month's stay near Fort Christmas.

The family of Geo. Geiger has moved to Pompano to reside. Mrs. Etheredge and brothers, who have recently purchased the Geiger home have moved into it.

Many friends here and elsewhere sympathize with Mrs. Geo. Peters in the death of her father, which occurred recently at his home in Jackson, Ga.

CAMERON CITY CLIPPINGS.

To the Editor of The Herald.

To many of the people of Cameron City the storm of last week was a first experience and one, we all hope, not soon to be repeated. The damage to seed beds and growing crops cannot be told but the people with their characteristic energy and push are rapidly recovering from the depression and are beginning again where it is necessary and soon all traces of the disastrous storm will be eradicated. Mr. Chamberlin was perhaps our heaviest loser having had seven acres of lettuce out. We are justly proud of our drainage, the storm was scarcely over until the surface water was all drained off. Lake Jessup is very high.

Mr and Mrs. Benjamin have arrived and are living on Beardall Avenue.

Mrs. Swartz and Mrs. Dutton are both expected some time next week.

Mr. Geo. Kinnehan will be at home soon after a business visit in Kansas.

Mrs. Duke, who has been visiting in Georgia, will soon be at home again.

Mr and Mrs. White have nearly recovered from their recent illness and are living in the Dice cottage on Michigan Ave.

Fred Schumann and family have moved from Wichita Kansas to Sanford. Mr. Schumann is a son-in-law of Mr. Jones on Beardall Ave.

Prof. and Mrs. Morris, after a delightful summer among friends and relatives in and out about Philadelphia have returned to their home on Silver Lake.

Miss Neva Gormly will be here in a few weeks and make her home with her father and bother.

Six car loads of fertilizer were unloaded at the warehouse last week and a large amount is being sold.

We have a flourishing interesting enjoyable Sunday School with Prof. Swartz as superintendent. A large bible class was organized last Sunday under the leadership of Prof. Morris. Chairs and song books have been ordered and we hope soon to have a piano. The keenest interest is manifested by officers and members of the school and they will work together to increase the attendance to one hundred in the near future.

A Halloween social will be given at the church Monday evening October, 31st., by the Sunday School. The committees are hard at work and jolly good time is in store for all who attend. Music and refreshments, look everywhere for program.

UPSHAW CAPTURES SANFORD

Noted Lecturer Speaks to Large Audiences on Prohibition

W. D. Upshaw, editor of the Golden Age and one of the best lecturers in the south is now touring Florida in the interest of state prohibition and spent Saturday and Sunday in the city. He addressed a large audience at the corner of Park Avenue and First street on Saturday night speaking from an automobile. On Sunday afternoon he lectured in the park and held the crowd for two hours in rare, good humor alternating fun, pathos and solid facts. In the evening he addressed a large audience in the Methodist church and afterward talked to the colored people at St. Pauls church in Georgetown.

Being a southerner, Mr. Upshaw knows how to present his arguments to the colored folks and he set forth the matter of prohibition in a new light and made many dry votes.

On Monday Mr. Upshaw rounded out his strenuous work by addressing the school children at the High School and primary schools and these talks were

said to be the finest ever delivered before the Sanford schools. Mr. Upshaw is thoroughly conversant with school matters having taught in Georgia colleges for several years.

He made a wonderful impression upon old and young in Sanford during his short stay and is a wonderful man in many ways. He is an invalid and was confined to his bed for seven years and is obliged to use crutches now while addressing the people alternates his posture by standing when he became emphatic or sitting down as he becomes too tired to stand. Nature, while slighting this wonderful man physically has endowed him mentally and few men have the sparkling mentality and intellectual powers of Will Upshaw. He is wedded to the work of uplifting mankind and his physical weakness does not deter him from a strenuous campaign against evil when duty calls him.

Mr. Upshaw was greatly impressed with Sanford and intends at an early date to give the city a large space in his paper embellished with views. He will always receive a warm welcome from the people here who admire him for his many good traits and lovable character.

Not For Local Optionists

To the Editor of The Herald:
You will pardon me for asking to make this contribution through the columns of The Herald, for whatever purpose it may serve in the present campaign, for or against, the adoption of the proposed constitutional amendment, now in question, before the people of Florida. The amendment is nothing over which to fall out or get excited, but is a matter that should be considered in the light of reason and common sense, and the best judgment of both sides should be applied to its solution. No man, in the meditation of this question, and the making up of his mind as to how he shall vote on the 8th day of November should allow himself to be swayed by any influence save the answer to the question: "Is it right and for the best interest of Sanford, Orange county, and the state of Florida?"

We find those who claim that they are opposed to whiskey but are "in favor of Local Option." They say that we have no legal or constitutional right, as against other sections of the state, to say what they shall or shall not have. They are found in varying numbers throughout the state, but the greater number hail from Jacksonville and other cities that allow saloons in their midst. Let's reason a bit among ourselves and test the sincerity of this claim, and see if they have any ground in that, upon which they can stand. These Tampa and Jacksonville Local Optionists pretend to think it an outrage when the citizens of Orange and

other dry counties presume to vote for this amendment, but it is patriotism of the highest order in these Tampa and Jacksonville saloons to deny these dry counties the fruits of the victory of this exercised right of Local Option, as they please to call it. They have openly and persistently shipped into the dry counties their whiskeys for the support of blind tigers, and are doing so today, in defiance of the law, and in violation of these same rights of the dry counties, which they hold so precious when applied to themselves. It would seem that the only way to reconcile the position of these people is, that they have divided the term "Local Option," applying to the dry counties the local part, and appropriating unto themselves the "Option" on the whole state.

Let's go a step further and we find Jacksonville, the hot house for Local Option, a little less than two years ago fighting with vim and eagerness this same question, "Local Option," for which they now so strenuously contend. This was a question which effected Jacksonville alone, viz, the Jacksonville Charter Bill. When, in its wisdom, the Legislature proposed to pass this bill, making provision for referring the same back to the citizens of that city for ratification before becoming effective, the same Apostles of the doctrine of "Local Option" became exceedingly indignant, and forthwith rose up in their might and said: "WE WILL HAVE NONE OF IT," and they didn't either; for when the Senate inserted the Local Option clause in the bill, the House, which had already passed it, through the influence of these same Local Option people, refused to concur in the amendment but laid it on the table, and it is there today.

We want, next to turn our attention for a few moments to the legal side of the question involved, and which our Local Option friends enunciate with such seeming force and ability. These contentions vanish as chaff before the wind, when we recall how that clause, (I mean the local option clause), came to be in the constitution. When we re-

member the fact that that clause, as was every other clause, was made part and parcel of the constitution by the direct vote of the people of the whole state, how can any man dispute the right of the citizenship of the same state to take it out? Did not number of the counties give majorities against this local option clause, as they have done against every amendment that has ever been grafted into the constitution, when it was made part of the constitution, and yet we have never before heard of anyone having any conscientious scruples against making amendments to the constitution contrary to the wishes of a minority. Was provision made in the constitution by which it might be amend-

ed by a majority of the people of the state when they saw fit to do so, and was not this a compact to which all parties assented in its adoption? If so that compact still exists with as much force as it did on the day it was placed there. Never before, unless it was in the despotic days of Old Rome and her like, has the right of any state to amend her constitution been disputed. Many times and in many ways, in this and other states, has the constitution been amended, or sought to be amended, but never before has anyone questioned that right; why, in this instance, is the question raised and the right denied, unless perchance it be that we have all these years been groping in the dark with no

hand to guide, and that we have gone wide of the mark of constitutional rectitude. If this be so what assurance have we that we shall not again be led astray when under the leadership of men whose present argument is a repudiation of our state constitution and its provisions for its own amendment. Yes, the people have the right to amend their constitution, and will do so if so desired by a majority of the voters of the state; but there is one constitution that can never be amended; and that is the constitution of a man that has once been wrecked by the use of intoxicants.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurred Herald Readers.

Will Brooks of Sorrento was here last Monday.

C. W. Rose was in Palatka last Saturday.

G. H. Dowler of Sorrento was doing business in our burg last Friday.

C. H. Cole and family of Cincinnati, Ohio, took in the sights of Sanford last Thursday and Friday.

All goods on our bargain counter are spot cash. Williams & Milteer. 11-tf

Harry Hall and family who has been stopping at the Bye-Lo Hotel for several days have moved out to a celery farm near Lake Monroe, to be one with us.

Miss Carrie Abernathy, who has been spending the past few weeks in Tampa, the guest of her friend, Miss Murdock, arrived home Monday last.

All members of the S. I. A., are earnestly requested to be present at their regular meeting Thursday - November 3rd., in band stand at 3. p. m.

Dr. Kemp, the osteopath has fitted up a temporary office at his residence 519 Magnolia Ave., where he is receiving patients. He will have permanent office in the Woodruff-Garner Bldg., when completed.

Frank Cannon of the Cannon Extract Co., in Jacksonville visited Sanford on Tuesday, leaving for points further south. Mr. Cannon was accompanied to DeLand by Mrs. Cannon, who will visit there until his return from his South Florida trip.

No goods charged from our bargain counters. Williams & Milteer. 11-tf

Mrs. W. T. Johns returned to her home in this city Wednesday, after an absence of several months.

Now is the time to get your advertisement in The Herald and get ready for the fall trade.

The ladies of the Congregational church will hold their annual bazaar, Dec. 3rd.

Harry E. Polk editor of the Veblin Advance of Veblin, South Dakota is among the late arrivals in the city. Mr. Polk has celery land in Eureka Hammack and expects to remain here during the winter.

Mr. and Mrs. Bert Thayer of Veblin, South Dakota have arrived in the city. Mr. Thayer has a fine farm in Eureka Hammack and will make Sanford his future home.

R. L. Hughes has returned to Sanford after spending several months at his old home, in Dayton, Ohio. Mr. Hughes is glad to get back to his fine farm on Celery Avenue and predicts a fine crop and good prices on vegetables this season.

Marcus Endel of Jacksonville a prominent lodge man and well known Floridian was in the city this week in interests of Knights of Pythias insurance.

Mrs. E. H. Dickens, with Miss Belle Dickens, mother and sister of J. W. Dickens arrived in the city last Friday. Mrs. Dickens and Miss Belle spent the summer months in Chicago with Mrs. Powell, Mrs. Dickens' daughter and returning to Florida, stopped in Waycross, Ga., to visit her two sons, Robert and Jim Dickens. They left Wednesday afternoon for their home in Tampa.

After the storm the expected calm usually follows. When the debris which the wind scattered over the streets is cleared away, we hope the city beautiful will soon appear, to please both citizen and visitors.

The Welaka Club held their business meeting Tuesday afternoon, as their custom has been to combine business and pleasure the last Tuesday of every month. At the conclusion of the affairs of business the house committee served refreshments.

A look over the city of Sanford the other evening convinced us that the city is making wonderful strides. Everything denotes a wonderful degree of prosperity. The Sanford Herald office was closed, as we arrived late, but that successful paper has a substantial home. The new Yowell building, being erected by our townsman, N. P. Yowell is a fine modern red brick business house of splendid capacity and when completed will be one of the handsomest business houses in south Florida. We are proud of Sanford as our next door neighbor.—Orlando Citizen.

SANFORD

We Are Ready To Book Orders for Potato Barrels Made In Our Barrel Factory.

\$500 PER ACRE NET FROM EARLY POTATOES

SANFORD For some years past has rested content as the proud possessor of the heavy weight championship of the world in the science of **Celery Growing**. Many claimants have been heralded, "Just as good," but even with high-class trainers, prominent in Real Estate and Agricultural Circles at home and abroad, all these have failed to make good, although some sections have so closely followed our methods that great profits have been reaped, and lean bank accounts made fat. Having started the whole of **Florida** and a portion of **Georgia** to growing celery, **SANFORD** will now proceed to open the eyes of Florida Truckers to unheard of profits in other agricultural specialities. **Watch Our 1911 Early Potatoes.**

Now do we hear some one say: "What! Sanford surely must have the big head, going to show **HASTINGS**, with an unbroken record of 18 years, an acreage now totaling 5,000 with a coming crop of 200,000 barrels, going to show those farmers how to grow potatoes?" Now don't get excited, just wait, we are going to show them some stunts, yes sir, some **STUNTS**.

MAINE POTATOES GOOD

New York, Oct. 7.—In a letter to The Packer, from Presque Isle, Me., F. C. Hatch, manager of the R. T. Prentiss Co., a large potato shipping firm says:

"There is no truth to the report spread broadcast that Aroostook county potatoes are diseased. We do an extensive business all over the Union in seed and table stock, and I am daily in touch with growers here, buying thousands of barrels of potatoes for my customers, and have no hesitation in guaranteeing that they will go out free from disease and rot. The stock in Aroostook county was never better. The growing season was ideal and the weather for harvesting perfect. Aroostook has many hundreds of thousands of barrels of the finest potatoes of all varieties safely housed." This foolish report was started, no doubt, by some one stuck on contracts. It has had time to be proven untrue.

"In south Maine, about 200 miles down on the Maine Central, the season was late and potatoes did not mature. The land is lower there and it vastly differs from Aroostook county. The crop is reported somewhat diseased, but quite different from last year. In some instances avaricious dealers have encouraged farmers to dig in Aroostook county too early, with the result that green stock was shipped in the southern district, with hot weather prevailing. On our own seed farms we have had an unprecedented yield and have not seen one barrel of diseased potatoes."

The firm of R. T. Prentiss Company of Presque Isle, Maine, is one of the most reliable of the many high-class Eastern potato firms. They have for some years sold Hastings Farmers; but have done very little business elsewhere in this state, although their territory extends from the Atlantic to the Pacific. The undersigned has been recently appointed selling agent for Florida.

Ask the Fellow who Says, "They Have Blight in Maine This Year," What Potatoes He is Selling

The largest and most experienced potato growers of this state consider Maine grown seed the best, and the product of Aroostook County the best in Maine. We can supply this season, **Spaulding No. 4, Green Mountain, Irish Cobbler** and **Polaris**, all at the same price. We especially recommend the **Polaris**, it is a white potato of fine quality and shape, early, running uniformly large, and is a very heavy cropper. The season of 1909 one tilled acre at Hastings yielded 132 barrels, the past season a 5 acre tilled patch yielded 590 barrels. All our Sanford customers that planted it last year were delighted with the yield. With this **Polaris** potato planted and harvested early, \$500 per acre net profit may be realized here. We suggest shipping the seed from Maine about November 15th, landing here about December 1st, then put in barn until planting time, December 15th. Our warm climate will then have started the sprouts and growth will be immediate and rapid. I wish to book orders at once, this guarantees the price.

You Can Place Order by Telephone (255,) Mail or in Person

HENRY H. DEANE

Mgr. Sanford Produce Company

Ask our Customers of last year about our **SEED**.

Our **SEED** this year is extra fine, none better.

Resolutions

Orlando, Fla., October 13th, 1910.
Be it resolved by The Orange County
Local Option Executive Committee in
open session assembled, as follows:

1. That whereas, the good people of
Florida are called upon to determine
by their votes, in the next ensuing
general election, whether the principals
of local self government as now written
in our State Constitution, shall remain
inviolate forever, or whether those sacred
principals shall be repealed and an-
nihilated by voting for the proposed
state-wide prohibition amendment to
Article XIX of our Constitution, and
whereas, the National Prohibition
Party, The Women's Christian Tem-
perance Union, party, The Anti-Saloon
League of Florida and The Anti-Saloon
of America have united their forces,
their fortunes and their influence; have
purchased, established and subsidized
news papers have organized and are
now organizing whenever they can,
State, County and district committees;
have hired and are still hiring pleasing
singers and orators; have hired and are
still hiring revenue collectors and all for
the avowed and sole purpose of leading,
coaxing, persuading, enticing and other-
wise influencing the voters of our fair
State to vote for the said proposed Con-
stitutional amendment.

And whereas, the proposed State-wide
prohibition constitutional amendment
proposes to forever prohibit, in the State
of Florida, the manufacture, sale, barter
or exchange, of all liquors except certain
kinds therein mentioned, and the sale of
which said certain liquors shall be
regulated by the legislature of Florida
and that the legislature of Florida shall
enact suitable laws, (in the opinion of
the Legislature, without the consent of
the people) for the enforcement of said
proposed amendment if adopted.

Therefore be it resolved, that local self
government, in the opinion of our com-
mittee, is the best form of government
that was ever instituted upon earth for
the government of a free, enlightened
and liberty loving people.

That Article XIX as it is now written
in the State Constitution, is the very im-
bodiment of the principals of Democracy,
in that it gives to the people of each
County the exclusive privilege and right
of determining by their votes what law
shall, or shall not, govern the legal
manufacture and sale of liquors, that a
majority will of the people of the county,
when once ascertained, is as of right it
should be, the supreme law of that county
for the government of that people
and their affairs, that it is contrary to
reason, revolting to the time set pre-
cedents of the courts and juries of
America, to enforce a law that is
obnoxious to and not sustained by the
sentiment of a majority of the people.

We endorse County rights upon the
same grounds and upon the same
principals that the South believed in
State rights, that it would be unwise
impracticable and unpatriotic to let those
sacred principals of the people perish
from the face of the earth.

That is the sense of this committee,
that we are demanding nothing, but
clear, distinct, well acknowledged prin-
ciples of right; rights older than the Pro-
hibition Party, the Anti-Saloon League of
America, and of all their subordinates
and auxiliaries; rights which are ground-
ed in the principles of natural and eternal
justice; rights which have been affirmed
by the good and wise since before and at
the time of the adoption of the Declara-
tion of Independence of the United States
of America, as well as by all countries
and or all centuries of departed time; that
we are not demanding any power to in-
jure any of the counties of our great
state, or any power or right to inter-
fere with any of the local affairs of our
sister counties and their properties
either by word or deed; we are demand-
ing no right or power to dictate to the
people of other counties as to what they
shall manufacture, grow make, use, sell,
barter or exchange or otherwise handle,
or what they shall eat, drink, wear or
use, we are demanding, simply, solely,
nothing else but to let our State Con-
stitution remain as it is, thereby secur-
ing to each citizen of Florida, irrespective
of wealth, poverty, class or kind, the
right and liberty to exercise his elective
franchise in determining what law shall
or shall not govern him, his property and
his county affairs.

But we do charge and arraign be-
fore all mankind the National Prohibition
Party and the Anti-Saloon League of
America, with straining their every nerve
and bending their every influence in an
insincere endeavor to misguide and mis-
direct the intelligent and sovereign citi-
zenship of this county and state to vote
for their said Amendments, which if
adopted would be detrimental to the
Christian, moral, social and business inter-
ests of Florida, shirking and evading the
issue of this campaign by proclaiming
that, "if you vote against their proposed
Amendment you vote for whiskey," and
this they know to be false and untrue, be-
cause there is no wet and dry election on
in this state. There is a governmental
question at issue, and that question is:
Shall local self government stand as it is
now written in our Constitution, or shall
the people be stripped of their vote direct-
ly at the polls on county affairs? If you
vote for the proposed Amendment you
centralize your right and power to the
state government and thereby practically
and forever place the right of local self
government beyond your voices again.

We appeal to every man in Orange
county to come out on November 8th next
and vote against the proposed state-wide
Prohibition Amendment, thereby preserv-
ing in the hands of the citizens the power
and right to shape the present and future
destinies of our county and state.

RALLY DAY

Excellent Exercises at the First Baptist Sunday School

Last Sunday morning was observed as Rally Day in the Baptist church, and the program rendered by the Sunday school of this progressive church was one of the best of the kind ever given in Sanford. The church was well filled with a very appreciative audience that enjoyed the well arranged and carefully carried out program. Much credit is due Sunday School Superintendent N. J. Perkins and his able associates who are doing such splendid work along this important line of church work.

Mrs. Deane Turner presided at the organ and rendered a beautiful opening voluntary. Supt. Perkins next made a few appropriate remarks and introduced two youthful speakers, Edna Williams and Joe Laling who made the addresses of welcome. Roll call of classes came next with a splendid showing in attendance; chorus by the choir; recitation by The Builders; song, "The King's Business," Careful Cleaners; chorus, "Jesus' Little One," Primary Department; duet by Edna Williams and Kathleen Brady.

W. D. Upshaw of Adams was next on the program and it is needless to say that his speech was the treat expected. In his inimitable style, mingling pathos and humor, tender, loving words of wisdom and advice were given and his audience was captivated from the start.

Two minute talks were made by N. J. Perkins, Home Department; Dr. J. T. Denton, Cradle Roll; Rev. J. W. Wildman, Normal Class, K. R. Murrell, Enlargement; C. W. Tuxbury, A Reminiscence. The latter proved to be an interesting bit of history about the Sanford Baptist church, going back to its organization twenty-six years ago; mentioning the fact that a few of the charter members were still with them, among whom was Mrs. E. E. Cox. A beautiful hymn brought this interesting program to a close.

Too much cannot be said in praise of the officers and teachers of this Sunday school, and under the able leadership of their excellent pastor, Rev. J. W. Wildman, the church will make advancements along all lines.

Death of Mrs. Nettleton

After a short illness, Mrs. Elizabeth Nettleton died at the home on the West End of Sanford last Thursday, at the ripe age of 71 years. Mrs. Nettleton had resided in Sanford for the past two years, and was highly esteemed by all those who knew her, as she was a lady of many noble traits of character, and much intelligence; remarkably active for one of her years. She leaves a husband in this city, a sister in Mt. Vernon, Ind., and two grandsons, Frank and Jesse Baker. Jesse Baker resides in Jacksonville, and is employed in the Plaxco Printing office, and Frank Baker in Madison, Ky. Funeral services were conducted by Rev. McKinnon, of the Presbyterian Church and the body was laid to rest in Lake View Cemetery.

Band Concert

Friday evening, a large number enjoyed a delightful open-air concert, rendered by the Sanford band in the park. All Sanfordites are justly proud of this band. It is composed entirely of home people, and they are musicians of ability, and the band enjoys the distinction of having a young lady director, Miss Jessie Stumon, who fills the part with skill and grace, besides having three other lady members.

ANNOUNCEMENTS

For Mayor.
At the earnest solicitation of my friends I have consented to announce my candidacy for the position of Mayor of Sanford at the primary to be held in November.
Respectfully,
W. H. UNDERWOOD

For City Clerk, Treasurer, Assessor.
I hereby announce my candidacy for the office of City Clerk, Treasurer and Assessor. Many years of experience with city affairs and clerical positions have made me familiar with the work of this office and having made Sanford my home, I ask the voters of Sanford to look up my record and fitness for this position of trust.
Respectfully,
M. W. LOVELL

Clerk, Treasurer and Assessor
I am urged by my friends to announce myself as a candidate for the office of Clerk, Treasurer and Assessor at the coming city election, to which place I was appointed to fill the unexpired term of Mark L. Scott. I solicit an inspection of the work done by me to convince you of my qualifications to fulfill the duties of the office.
Yours truly,
R. C. MAXWELL

For City Clerk, Treasurer and Assessor
I announce myself a candidate for the office of Clerk, Treasurer and Assessor. A citizen of Sanford continuously since 1880, I have been actively identified with her every interest. I am competent and can serve acceptably as Clerk, Treasurer and Assessor I have no misgivings. Intimate acquaintance with the history, progress and high aims of the Sanford of today give me goal form and fitness to be useful in substantial ways, along with and aside from the duties of office in pushing Sanford's car of progress.
C. H. LEFFLER

For Marshal.
I announce my candidacy for re-election as Marshal. I propose to make the race solely on my record. I am not the candidate of any clique. I solicit the support of the voters on my merits.
Respectfully,
GREEN W. SMITH

Marshal and Collector.
I hereby announce my candidacy for the office of Marshal and Collector for Sanford at the coming city election.
Respectfully,
W. A. TILLIS

Sanford Farms News Notes

Mr. Burke of Michigan who purchased ten acres of celery land in Sanford Farms last spring has arrived. Monroe and is now busy working out plans for the immediate erection of a nice residence. Mr. Burke will clear his land and place it in cultivation.

H. P. Lingo, formerly general auditor of the Tennessee railroad and who purchased fifteen acres of vegetable land in Sanford Farms has arrived here with his father and mother, built a residence and is now living on his property. He will clear his place and put it in cultivation this winter. Mr. Lingo's brother from the Canal Zone is here on a short visit.

Mr. Downer of Michigan, whose son purchased one of our five acre tracts last spring has arrived at Monroe and is preparing to erect a residence and have it ready when his son arrives in the fall.

L. R. Vorce has a crew of men working on his residence and will now have it ready for occupancy in about ten days. The seven and one-half acres Mr. Vorce has cleared looks splendid and there is no doubt but what he will soon be shipping bumper crops.

Sanford Farms were not injured by the recent storm. The bridge washed out over the county canal, but with the good help of the neighbors we had it restored in half a day.

Sanford Farms is undoubtedly the best drained piece of land in the Celery Delta. After the copious rain of last week there is not a sign of it left on the farms and those who have arrived here are going ahead with their work just as though no wind or rain ever blew this way from the tropics.

R. S. Barnes and wife of Oneida, Tenn., were here this week looking over 15 acres of land they purchased from this company. They were delighted with the location and prospects and left orders to have a well driven at once and 5 acres of their land placed in shape for cultivation.

If you need anything in the line of real estate Title Bond & Guarantee Co. is prepared to serve you to the best possible advantage. We have the property, business connections and facilities you are in need of.

Captain R. B. Smith and Richard Tingle, both of Georgia and who have purchased land in our division of Sanford farms are marooned at osten with a fine team of mules and wagon. The ferry boat is out of commission at the foot of Celery Ave., and these two are suffering much inconvenience therefrom. When they do get settled at Monroe, they will be prepared to a teaming plowing, harrowing and hauling of all kinds.

Mr. Brown of Connecticut who has large interests in the vicinity of Monroe has returned from the east and is preparing to plant crops in all the fields he represents, these are several of them.

Mr. Bell has completed his store house and is now looking for a tenant. There are five rooms over the store building which he proposes to keep for the accommodation of purchasers of Sanford Farms.

Mrs. W. O. Dyer, wife of the chief engineer of the Tennessee railway was here this week looking over ten acres vegetable farm purchased by Mr. Dyer last May. Mrs. Dyer was delighted with the selection and will return to Sanford in a short time to look after the erection of a residence and getting the farm ready for cultivation.

Every available acre in the vicinity of Monroe will be placed in cultivation this fall and from the hustling surface indications things out Monroe way will soon bloom out as the rose.

Those who contemplate coming to Florida this fall or winter will do well to correspond with Title Bond & Company in advance so we can make proper arrangements to look after their wants.

The Garden of Eden in the window of Title Bond & Guarantee Company attracts much attention; The crops are replanted often enough to keep them in a fine state of growth and all that is lacking is an Eve for the Garden.

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 12

SANFORD, FLORIDA, FRIDAY, NOVEMBER 4, 1910

Volume III

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

A general riot was narrowly averted Tampa on Monday when Alex Rawis, a railway car inspector, was shot accidentally in the leg during a street disturbance resulting from the cigar strike situation. An unknown man, supposed to be an American, furnished a pistol above his head and fired two shots, one in the air and the other taking effect on Rawis. The man escaped in the crowd.

With over two hundred delegates in attendance, the annual convention of the National Nut Growers' Association began in Monticello on Monday. Extensive preparations for the entertainment of the visitors had been made and Monticello is proving herself equal to the big undertaking.

Indications are that the new Clarendon Hotel at Daytona Beach will be completed by December 10th. Practically three train loads of furniture have arrived. All carpets will be laid, and all window shades, draperies and awnings will be put up by the makers. The Clarendon will be one of the finest hotels on the east when completed.

In case the prohibition amendment is lost, advocates of prohibition, it is said, will carry the fight to the Legislature with the intention of securing stringent prohibitory legislation in some form.

The experience of the Plant City militiamen, who have been for twelve days on duty at Fort Dade, under the instruction of officers of the regular army, calls attention again to the advisability of the coast artillery Reserve service for the militia companies of this state.

The Atlantic Coast Line railway will erect a new passenger station at Lakeland. Work will start on the new structure early in December.

The Florida Educational Association will meet in Pensacola during the Christmas holidays, December 27 to 30, inclusive.

Prayer Service on Tuesday

On next Tuesday November 8, the hearts of the praying people of Sanford will be uplifted in one accord, to Him in whose name they have given their efforts these weeks past. They earnestly believe that Dry Florida would mean a long step towards the coming of Christ's kingdom.

At 5:30 in the morning the bells will summon the people to a six o'clock prayer service, lasting an hour, in the Methodist church. After this the church bells will be rung every hour, as a signal to those at home and on the streets to lift their hearts in silent prayer.

At three o'clock in the afternoon the ladies of the city are urged to meet with the Woman's Auxiliary of the Anti-Saloon League, at the Methodist church for another devotional service.

"If the Lord is on our side, who will be against us?" Is it not a great thing to realize that we are in a cause upon which we can ask and expect God's help and guidance?

City Council Meets

Owing to weather conditions October 17th, the city councilmen met and adjourned. There being no business transacted.

The city council met in special session Nov. 1st. Members present—B. A. Howard, Pres pro tem; W. D. Holden, H. R. Stevens and H. P. Driver, those absent—D. L. Thrasher, A. T. Rossiter and G. R. Calhoun.

The following resolution was passed: Resolved, by the city council of Sanford, Fla., that the council shall advertise for sealed bids for the performance of the scavenger garbage and street cleaning and sweeping service of Sanford; and that bids may be received and contracts let for any part or all of this service.

Resolved, that the city clerk be instructed to advertise for these bids in the Sanford Herald in the three issues of that paper on the fourth, eleventh and eighteenth days of November, respectively.

Moved and second to adjourn, Council.

BUILDING & LOAN ASSOCIATION

Financial Condition is a Source of Gratification to Stockholders

Attention is called to the annual statement of the Sanford Building and Loan Association, on another page of this issue. This statement shows a very gratifying financial condition, and the officers and stock holders are to be congratulated.

The association began business two years ago this month with no assets and nearly \$500.00 in debt. This debt was the original cost of organization. The collections at that time were a little over \$500.00 per month.

In November 1909 the stock holders of the association, finding that the collections for monthly payments on common stock, did not meet the demands for loans to build houses, arranged for an issue of \$50,000. of 7 per cent cumulative preferred stock. Only a small portion of this stock has been sold, but it is confidently believed that negotiations now pending will result in the disposal of a large block of this preferred stock at an early date.

It required the Association nearly eighteen months to get on an earning basis. At the end of the last dividend period, six months ago, there were \$35.01 available for dividends on the common stock. For the period ending with the month of September the Association had a fund available for dividends on common stock amounting to \$578.00 representing an earning of a little over 9 per cent. This has been distributed in accordance with the by-laws of the institution.

It is confidently believed by the officers and large stock holders of the institution that from now on this stock will annually earn not less than 12 per cent and possibly 15 per cent. No better investment and no better method of saving money is possible.

An examination of the list of stock holders discloses the fact that only a small percentage of our business and professional men are stock holders. The institution is not receiving the support from the business men in our community which it should receive. In addition to the earnings on the investment itself, every business man is benefited by the activity in the building business.

There are applications now on file for loans to build houses amounting to more than \$20,000.00. Think what it would mean to the town if this money was immediately available. The money is here in the hands of our own people. The business men who have this money should invest a little each month in the common stock of this association. It will assist in the building up of our fair little city. It will stimulate business in every line and result in giving us accommodations for the hundreds of people who annually leave us because they cannot secure house room.

Haunted House in Florida

The following "haunted house" story from the DeLand correspondent of the Times-Union is doubtless the work of some wag, or inventive bad boy, savoring of "Huckleberry Fin" or "Tom Sawyer."

"At least 200 people visited the 'haunted' house near DeLand Landing Sunday, property of the late Moses Marsh, to witness some of the queer things that have taken place there, such as a heavy rock, weighing perhaps 20 or 30 pounds, that has been lying around the house for the past twenty or thirty years picked itself up, carried itself into an adjoining room and broke into two pieces. Four pairs of shoes, belonging to a few of the children, set on the floor, began to walk upstairs, while the family looked on and no feet (nor hands) touched them. A fishing rod, a heavy turned column, a sewing machine, and many other articles, came down stairs of their own accord. These stories excited no little interest in the 'haunted place,' and during the past week the road from DeLand to the house, about six miles away, has been worn to a frazzle. Some people who have visited the scene have experienced some of the strange and unaccountable phenomena."

Have Moved

The well known firm of D. A. Caldwell & Sons have just moved their large stock of dry goods, ladies and gents furnishings shoes and furniture to the DeForest building corner First street and Magnolia Ave. The spacious show rooms have been remodeled for them and they will there have one of the largest and handsomest stores in this section of the country.

LOOKING SANFORD WAY

Hundreds of Homeseekers Coming Into the Celery Delta

SETTLERS FROM EAST AND WEST

Superior Attractions of Sanford District Bring Many ExcurSIONISTS Here

Last week was not a good week in real estate circles and yet some \$20,000 worth of property changed hands near Cameron City and several other minor sales were reported. On account of the pleasant weather prevailing throughout the north very few of the real buyers have started southward as yet, preferring to wait until all their fall work is finished ere casting their eyes Sanford way.

The special edition of The Herald has been completed and many copies delivered throughout the north, which is also a great impetus in the winter travel this way.

This week the first of November excursions will start and several hundred new people are expected to come to Sanford, as fully that many have signified their intention of buying.

On account of the recent storm the lettuce crop will be later than usual and ideal conditions will not greet the newcomers, but celery and other crops are looking fine and every one is looking forward to a prosperous season. Already the houses in Sanford have been rented and apartment houses are filled to overflowing.

Good Roads For Orange County

No proposed public improvement in the history of Orange county has so signally marked our onward progress as the proposed million dollar bond issue for good roads.

Our county commissioners have shown to the people the wastefulness of the present expensive system of constant required by the dirt roads now in vogue. These roads surfaced with shuck or clay are appreciated by all old residents, who a generation ago journeyed to our county seat through deep and sand requiring four or five hours for the trip, but why not have the best? Experience in other sections of our state has set the stamp of approval on vitrified brick as the best and most economical material for road paving. The building of brick roads in our county is not a movement for the pleasure and comfort of the automobile owners, but will be an untold blessing to our fruit growers and truckers. Of course one million dollars will not build little branch roads to each man's farm or grove, but once we have the main brick paved thoroughfares, short roads may be easily made passable through concerted effort of a neighborhood, or by the labor of our county convicts.

Once published to the world that Orange county has spent one million dollars for good roads the interest of the homeseeker will be aroused, and he is inclined to consider favorably the advantages claimed and inducements offered to permanent settlers. Is it not the part of wisdom to cast our ballots for the good roads bond proposition?

H. H. DEANE.

Julian in the Race

Dr. A. P. Julian, Lake City, will announce within a few days for the nomination for United States senator, and prepare to conduct an active campaign throughout the state.

Dr. Julian is a prominent citizen of Lake City, has been identified with the progress of west Florida for many years, and his friends are certain that he will receive a very handsome support. He is preparing his platform and will make announcement of his plan of campaign in due time. With Dr. Julian in the arena the last of the candidates for the vacancy created by the death of the late N. B. Howard numbers four—W. A. Blount of Pensacola, N. P. Bryan and J. N. C. Stockton of Jacksonville and Dr. Julian of Lake City.

Barclay in England

E. H. Barclay, whose "mysterious" absence caused his friends so much anxiety, has been heard from. Frank Newport, postmaster at Eastlake, received a letter mailed at Liverpool, from him Friday, stating that he was on his way to his home in Scotland. Mr. Barclay evidently just took it into his head to cross the ocean without saying anything to anybody. The next time he is missing his friends won't worry.

PROFIT IN CUCUMBERS

Sanford Growers Made Good Money On Cucumbers Last Year

Mr. A. B. Cameron last season induced number of our planters to put in a crop of cucumbers. After the markets of the east had ceased to pay adequate price the western markets were invaded and the shipping continued until June.

Mr. Cameron and Mr. Pace jointly handled some forty-five cars, paying a f. o. b. price to the grower. This year probably seventy-five or a hundred cars will be bought. Some of our growers last season from their cucumbers, recouped their losses on other crops, as some expressed it, "pulled ourselves out of a hole."

This crop is easily grown on land from which celery or lettuce has been cut, without any additional fertilizer. Planting may be begun February 1st, putting in seed every ten days so that if there should be a hard frost and one planting cut back, the other coming along would furnish a sure stand.

One of the main requisites to a profitable crop is the proper seed, that is the right variety. The White Spine, under many different designations, has not proven satisfactory of late years owing to a failure in retaining a green color. The trade wants a dark green cucumber, one that will hold its color until sold to the consumer. Early Fortune and Long Green have been grown with satisfaction as the "New Davis Perfect", of this variety it is said, the new variety beats all others in points of beauty, quality and productiveness. It loads its vines so heavily that it seemed impossible for them to mature the fruit, at least 25 per cent more fruit can be cut from it than any other we ever tried in the greenhouse, while for out door growing they seem to yield even better than under glass, and even experts cannot tell the out-door fruits from the hot house products. The New Davis Perfect is a beautiful variety of dark green color, handsome and enormously productive. Mr. Cameron urges all who contemplate growing cucumbers to plant this variety. One of our merchants has arranged to handle to genuine seed.

Mrs Curtis in Sanford

Mrs. Nannie Curtis of Texas will address the people of Sanford, tonight at 8 o'clock from the Band stand in the Park.

Every one in Sanford should hear this wonderful woman.

The Bristol, Virginia, Herald says:

"Mrs. Nannie Curtis, a woman. Such an introduction was powerful enough to create a demonstration at the temperance meeting Monday night, the like of which has seldom, if ever been witnessed in Bristol. But it only partially describes this remarkable woman. Preeminently a woman, with the nobility and loftiness of character and the beauty of temperament which poetry has woven into the world, that alone would distinguish her. She is an orator with a true orator's power. She is of fine presence, with a pleasing voice. Her eloquence is of that spontaneous quality which carries conviction with masculine force. Her ability to play upon the emotions of an audience in a simple, undramatic way is marvelous. Leaving out of consideration entire the burst of enthusiasm which she found awaiting her, and all the dramatic setting into which she suddenly appeared, and judging the severest standard of intellectual and forensic capacity, she is an unusual woman. Her addresses were the climax of the temperance campaign. All honor to such a woman."

Apron Sale for Hospital

The growing popularity of the apron cannot be questioned. Nearly every paper or magazine devoted to women's doings are showing patterns of all sorts of aprons for all purposes, and surely nothing could make a more appropriate Christmas present than a dainty apron.

There will be an apron sale on the evening of November 22nd, at the home of Mrs. J. W. Dickins, corner Eighth street and Magnolia avenue, given by the Junior Auxiliary of the Holy Cross, for the benefit of the Church Home and Hospital in Orlando. Many varieties of aprons will be shown—sewing aprons, chafing dish aprons, every day aprons, children's aprons and kitchen aprons.

The Orlando hospital should be of interest to us all, for a number of our sick have been cared for and many have been nursed back to health and strength by the kind and tender care bestowed on patients of all denominations received within the hospital.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

By winning the prize of \$10,000 offered by Thomas Fortune Ryan for the fastest flight from Belmont around the Statue of Liberty and return, a distance of 34 miles in 34 minutes, 38 seconds and a fraction, John B. Moissant, the American aviator, has won more money at the international meet than any other flyer.

Sixty skilled cigarmakers, among them a number of women, left Pittsburg this week for Tampa, to work in factories where the manufacturers and workmen do not agree, and where a strike has been in progress for several months.

The new budget for New York City calls for \$171,503,787, an increase of eight millions over last year. It takes a mint of money to run a city of four or five millions, but the amount seems to be enormous even for that.

Three spaniels acted as bridesmaids in a society wedding in New York Wednesday. They were doubtless the nicest of the guests and a big improvement on the contracting parties.

The first airship line in the United States is in progress of organization and will connect Detroit and Cleveland. The company is composed of officials of the Detroit-Cleveland Steamship Company.

Here is another David B. Hill incident. He died leaving the United States owing him \$4,000. It is for salary due him as United States Senator, which he refused to accept. This \$4,000 was placed to his credit as salary as Senator, dating from his election. He did not resign his position as Governor of New York, however, until some time afterward, and on the ground that he could not receive two salaries, refused the money. It seems that the disbursing clerk of the Senate cannot cancel the debt, nor can it be paid to Mr. Hill's heirs. What the final disposition will be is problematical.

With the submission of the prohibition question to the voters of Missouri now only a few days distant, the "wets" and "drys" are lining up in battle array prepared for a fight to the finish. A great parade under the auspices of the Good Government League was held to-day as a means of arousing enthusiasm for the "dry" campaign. Men, women and children marched in the long procession, while other women and youngsters rode in carriages and on floats. Hundreds of banners emblazoned with "dry" sentiments and appeals to down the "rum demon" were carried in the parade.

Following an important conference between Assistant Attorney General O. E. Harrison, of Washington and United States District Attorney O. D. Street, regarding the dissolution suit now pending against the Southern Wholesale Grocers' Association, Mr. Harrison stated that appeals would immediately be taken to appoint a commission to take testimony in the important case. He said testimony would be taken in Birmingham, New York, Chicago, New Orleans and other cities.

"King" Cole, the phenomenal recruit of the pitching staff of the Chicago Nationals, announced that he had signed a three-year contract, and that his salary had been doubled. Cole bears the distinction of being the only club pitcher who could even temporarily stem the tide of victory against the Philadelphia Americans, in the championship games last week, winning the fourth game by a narrow margin of one run. He gives promise of becoming the premier pitcher of both leagues within a few years, his admirers say.

An ordinance to suppress giggling, gushing, garrulous girls and also young men who make themselves general obnoxious to others spectators at the theaters will be introduced in the Indianapolis City Council by Councilman George C. Rubens. His evening was spoiled at the theater last night and he says: "There ought to be a heavy fine for such frequent displays of bad breeding."

Mrs. Dr. King is visiting in Baltimore and expects to be away for several weeks.
