FRENCH TO REQUISITION SURFACE COAL MINES IN THE RUHR VALLEY

OPERATORS FIND THEMSELVES STILL IN POSSESSION OF THE MINES COURT MARTIAL

Faces the Operators Instead of Actual Arrest for Refusal to Comply With Demands

(By The Associated Press) ESSEN, Jan. 18.—Ruhr valley coal operators who thought for a time last night that the French were to take over the mines this morning found themselves still in possession of their property and learned that only coal mined above ground came under the revised requisitioning order of the French. The magnates also learned that they face court martial instead of actual arrest as the result of their refusal to deliver coal to France.

BERLIN, Jan. 18.—A general stiffening of German resistance in the face of the French ultimatum was indicated by Berlin newspaper correspondents in Russia. Mine operators as well as workers and labor leaders are represented as standing together in their decision to do their "duty to Germany." France and Belgium appear to be the only nations to which the Germans refuse to make reparations deliveries.

LONDON, Jan. 18.—Late last night the French announced their intention to seize all cargoes of coal now on the Rhine and the Herne canal destined for unoccupied Germany, says a dispatch to the Times from Essen.

ESSEN, Jan. 18.—The French economic mission has decided to content itself for the time being with the requisitioning of coal already mined and brought to the surface, diverting to France the cars already loaded and destined for the interior of Germany and postponing for the present the idea of requisitioning the mines themselves.

PARIS, Jan. 18.—The French, Belgian and Italian governments yesterday gave the order immediately to commence working the state forests on the left bank of the Rhine as a penalty for Germany's default in the delivery of timber, as established by the decision of the reparations commission December 26.

PARIS, Jan. 18.—The French government has begun its policy of requisitioning in the Ruhr. It was announced last evening. Five thousand eight hundred tons of coke and six hundred tons of coal, which the Germans had loaded in cars, were taken and re-routed for distribution among the allies.

DUSSELDORF, Jan. 18.—The plan of military operations for the occupation of the Ruhr valley, as prepared by Marshal Foch and executed by General Degoutte, has been completely carried out. It was officially announced at the French headquarters here yesterday.

The French troops in the Ruhr now number nearly 100,000 and the military authorities are prepared to take charge of every mine pit head in the valley today as a protection for the French economic commission, which has undertaken to operate the mines with German labor.

The limits of the occupational zone begin at Wesel at the confluence of the Rhine and Lippe rivers, the most northerly point in the hands of the Franco-Belgian forces. The line runs east along the Lippe to Dorsten, this part being held by the Belgians who make junction with the French at Dorsten.

The French hold the Lippe to Lunen the extreme northeast limit of the occupation. The line then turns south in a semi-circle around Dortmund to Herdecke and Witten, then southwest to Hattingen and thence, skirting Barmen and Elberfeld, joins the Dusseldorf bridgehead at Wulfrath.

General Degoutte issued an order of the day thanking both the French and Belgian armies "for the admirable manner in which you carried out the operations," and exhorting them to bear the inclement weather and the other hardships with fortitude. He added that the troops had shown great

SHIP LOST ALL HANDS DROWNED

ENTIRE CREW OF SCHOONER HELVETIA BELIEVED LOST

(By The Associated Press) NORFOLK, Jan. 18.—The entire crew of eleven men of the schooner Helvetia, believed by coast guard officials here to have lost their lives when the vessel capsized off Virginia coast during heavy storms last month, was stated upon completion of investigation which started Monday when a "detritus" sighted off winter quarter lightship proved to be the Helvetia.

NORFOLK, Jan. 18.—The schooner left New York December 13th for Charleston. It is being towed here by cutter Manning. Guard officials said it was almost impossible for crew to have escaped during the heavy gales that swept the coast. The schooner is reported badly damaged.

AUTOMOBILE TAGS REACH THE 100,000 MARK

TWELVE THOUSAND AHEAD OF DISTRIBUTION OF LAST YEAR

(By The Associated Press) TALLAHASSEE, Jan. 18.—Issuance of 1923 automobile tags by the state comptroller approached the 100,000 mark today, some 12,000 ahead of distribution at same date last year.

Grace Howell Escaped From Asylum, Charged With Brutal Treatment

Says She Escaped to Get Back to West Palm Beach

(By The Associated Press) FORT LAUDERDALE, Jan. 18.—Grace Howell, who arrived here last night with Sheriff Balger of West Palm Beach after her departure from the state asylum at Chattahoochee told her story today in which she denied she had been released from the asylum and charging brutal treatment of attendants. She says she escaped in order to make her way to West Palm Beach to obtain a sixth trial on a murder charge.

Physicians here treated a wound on her leg which she alleged was inflicted by attendants several weeks ago.

BANKS CLOSE TOMORROW

Tomorrow, January 19th, being the birthday anniversary of Robert E. Lee the banks of this city and county will close all day.

DEMANDS LEGION'S INTENTION

WASHINGTON—A demand that the American Legion affirm or deny whether the organization intends to enter the political field in favor of any candidate, was made in the house today by Representative Goadykuontz, Republican, West Virginia.

CONDEMNS "BLOC SYSTEM"

WASHINGTON—Representative Fess, of Ohio, condemned the "bloc system" in congress as dangerous in a speech before the Quill club, association of editors and editorial writers.

patience under provocation and also warned the Germans not to repeat the Buchum demonstrations as the repressive measures would be severe.

ESSEN, Jan. 18.—The French military authorities instituted a court-martial proceedings against six Ruhr coal miners today, whose names are withheld. They were charged with "refusing to obey orders of the military authorities in territory under siege." The magnates have not been taken into custody.

TESTIFIES TO THE IDENTITY OF THE BASTROP KU KLUX WHO HELD UP WATT DANIEL

Kidnaping and Murder Case in Louisiana Holds the Boards

(By The Associated Press) BASTROP, La., Jan. 18.—Newt Gray, the writer of that letter? Higginbotham was asked.

"I think it was those fellows ground Mer Rouge. Watt Daniel and Will Braddock had the reputation of being whiskey makers and sellers. And also James Norsworthy, but Norsworthy had said he had quit making it." The witness could give no further information as to any suspicion he might have.

Dr. McKoin, Higginbotham said, told how he had heard Leon Daniel, brother of Watt, had said Watt had planned to kill McKoin. An attempt to assassinate McKoin, now charged in an affidavit with murder, is alleged to have been made preceding the disappearance of Daniel and Richard. Higginbotham declared himself a member of the parish branch of the Ku Klux Klan and it was brought out that it was his understanding that black hoods and robes were part of the Klan regalia. He asserted, however, that he did not have the black disguise.

Higginbotham gave a vivid description of his opinion about the time of the hold-up on the Mer Rouge Bastrop highway, when the two men were kidnapped August 22nd. He, like other witnesses, however, could not name any of the black hooded men who took part.

"When did you see in the boat?" he was asked.

"Big Jim Norsworthy, with his hat in his hand and his hair standing straight."

"For the second time since the hearing began two days ago, defense counsel interrupted proceedings yesterday by objection to the testimony of the witness, Gray. G. W. Barnett, as counsel for Gray, in the course of his argument asserted that the question put in some instances had taken the form of a "third degree" and that further interrogation of the witness would be a violation of the constitution of Louisiana."

NEGOTIATIONS ON REFUNDING BRITISH WAR DEBT ON AND COMMISSION TO RETURN HOME

To London at End of Week it Was Announced in Washington Today

(By The Associated Press) WASHINGTON, Jan. 18.—Negotiations between American and British governments looking to refunding of Britain's war debt to the United States will be carried forward thru the British embassy here after the return of the British commission to London at the end of the week it was announced at the conclusion of the joint session of the American and British commissions.

The conversations which have been going on here for ten days will be suspended after today's joint session and the British will sail from New York Saturday.

In both British and American circles it was emphasized that there would be only a suspension of the negotiations; that a settlement of the debt, the greatest single international financial transaction in the history of the world must and would be reached. Both sides to the negotiations also were agreed that a speedy adjustment was desirable not only because of the effect that this would have upon the two countries, but upon world conditions generally.

Whether an agreement in principle—and so far as the authority of the American commission is concerned it can be no more than that—will come in time for formal action on by congress at the present session, which has only six weeks to run, cannot now be forecast. The Americans are extremely hopeful that it will, for otherwise the agreement could not become effective under a year as President Harding has often stated his determination not to call an extra session of the new congress. From the first the British have expressed a desire for an early settlement and they are fully cognizant of the situation here which might make for a long delay.

Just how far apart the commissions are at this time neither side will say, but in American quarters it was

declared that the difference in viewpoints was not great. The interest rate constitutes the chief point of debate, with the time the debt is to run and the minimum annual payments to which Great Britain is to bind herself lesser elements in the equation.

Both commissions find themselves in much the same position as regards the requirement of governmental sanction of any terms reached. The Americans must go directly to congress for approval of the refunding arrangement.

Likewise, the British mission must act in full accord with the desires of the London cabinet.

CANADIAN VISITOR DIES AT FT. MYERS

(By The Associated Press) FT. MYERS, Jan. 18.—The body of W. C. Kennedy, of Windsor, Canada, minister of railways and canals in Canada, who died at Naples last night, will leave soon after 4 o'clock this afternoon for Canada, accompanied by his widow and several friends.

Wauchole berry growers are shipping from ten to twenty refrigerators of strawberries daily. Prices are not so satisfactory owing to the holiday slump, and some growers are shipping instead of selling at the platform. Yesterday the buyers were offering 20 cents per quart at the platform.

According to the Tavares Citizen, ground has been broken for the new ice plant which is to be constructed near the railroad and packing houses. Charles H. Whorton, of New York state, is now in Tavares and will push the work of construction forward as rapidly as possible. The ice plant will be capable of handling a great amount of business, and is estimated to cost about \$30,000.

REAL ESTATE MEN MEETING IN JACKSONVILLE

RECOMMEND THAT TEXT BOOKS ON REAL ESTATE BE PREPARED

(By The Associated Press) JACKSONVILLE, Jan. 18.—Reports of committees featured this morning's session of mid-season convention of National Association of Real Estate boards. Recommendation by committee on education that text books on real estate business be prepared was referred to board of directors after favorable discussion.

Fres. Harding Is Better Says Report

HAS BEEN SUFFERING FOR SEVERAL DAYS FROM GRIPPE

(By The Associated Press) WASHINGTON, Jan. 18.—President Harding, who has been suffering for several days from grippe, is said by White House officials to be much improved. Although no indications of fever are present, he has again cancelled all engagements and remained in his room.

Florida Road Building Program Getting Larger

FROM ONE LONE HIGHWAY IT GROWS TO 27,518 MILES

(By The Associated Press) TALLAHASSEE, Jan. 18.—From a lone highway erected between Panama and St. Augustine, a distance of approximately 200 miles, here in the territorial days, Florida's road mileage has expanded to 27,518, according to figures made public by the state road department.

The first highway is a historical matter. It was prepared for the convenience of the pioneer politicians. Today's mileage reaches every nook and cranny of the state, though, admittedly some of it is rough going. Of the 27,518 miles over which vehicles may travel, 1,275 comprise the "good roads" and 1,928 "improved roads." By far the greatest number of miles of road is the rough kind known as state aid roads, which are maintained by the county with the aid of the state. They aggregate 24,095.

Whereas the initial highway was probably built largely with unpaid labor, the matter of road building and maintenance has now grown to be quite a public item. The state road department had available from all its sources during the year 1922, approximately \$3,000,000 or to be exact \$2,295,951.59. This included funds received from the federal government.

Criminal Court Docket Finished, Pet- it Cases Continued

The criminal cases have been finished in this term of court the last case being the case of the negro Gagner, charged with the killing of another negro named Lockhart. This was a personal encounter in which the Lockhart negro was running amuck and there was also family matters mixed up in it with the result that the jury thought it was self-defense and turned Gagner loose. The other cases were continued until the next term of court in May.

Have you lost or found anything? of printing. We have the equipment to do all kinds of job printing.

CHAMBER OF COMMERCE WILL HOLD MEETING TOMORROW NIGHT VALDEZ

LIQUOR SHIP TOWED TO TAMPA WAS BEACHED

BRINGS UP QUESTION OF INTOXICATING LIQUORS ON THE HIGH SEAS

(By The Associated Press) TAMPA, Jan. 18.—In charge of customs officials a cargo of liquor valuably estimated to be worth \$50,000 to \$100,000 arrived in port this morning aboard two masted schooner Charles H. Hyde in tow of motor ship I. W. Riggs which found the schooner beached twenty miles from here. It was said if the Hyde's papers show the ship bound for Tampico as the first mate said the liquor won't be molested. The mate said the captain fell sick and he brought the vessel in.

POLICE CHIEF OF DAYTONA IS REMOVED

BY THE CITY MANAGER FOR THE ALTERATION TUESDAY NIGHT

(By The Associated Press) DAYTONA, Fla., Jan. 18.—Chief of Police Osborne was removed from office this morning by City Manager Hodges as the result of the alteration Tuesday night when during the Klan parade Osborne shot former policeman Charles Peck after Peck and a companion had dissolved two Klansmen. Frank Plowman was appointed acting chief.

Cost of Operation State Government For the Year 1922 Was \$63,600 Over That of Preceding Year

(By The Associated Press) TALLAHASSEE, Jan. 18.—An increase of approximately \$65,000 in the cost of operating the state government in 1922 over the preceding year, according to the annual statement of State Treasurer J. C. Luning. Disbursements for the year were \$3,222,810.83, while those of the year 1921 were \$3,157,220.00. Receipts for the year, however, showed an increase of approximately ten times larger than the increase of disbursements. Receipts for the year 1922 totaled \$3,150,315.05 as compared with \$2,725,109.69 the year before.

The general revenue fund went into the new year with a balance of exactly \$270,235.26.

Of the disbursements from the general revenue fund more than one-third went for educational purposes. \$1,023,347.52 being spent in that way. This department of expenditures almost doubled over the year 1921 with an increase of \$683,032.02. In 1921, \$779,295.80 was disbursed.

More than \$50,000 increase over 1921 was expended in the judicial department of the state government. Expenditures for 1922 totaled \$420,533.57 as compared with \$263,501.13.

The state's military establishment lacked only about \$18,000 of doubling its expenditures in 1922 over 1921. In 1922 it expended \$75,000.45 while the previous year \$42,450.61 was disbursed, an increase of \$32,549.84.

The business of collecting the general revenue fund formed the second largest item of its expenditures. It totalled \$249,170.18, a slight increase over 1921 when the figures were \$234,356.07.

HERRIN RIOT CASE WILL BE MURDER AND NOTHING ELSE

(By The Associated Press) MARION, Ill., Jan. 18.—The fate of the five men charged with the murder of Howard Hoffman, one of the victims killed during the Herrin riots, went to the jury at 11:15 this morning after lengthy instructions read by Judge Hartwell. After the jury returned, the judge said "It is murder or nothing."

JUDGE BLAND OF ORLANDO WILL ADDRESS THE MEETING

That Will Begin Promptly at 7:30 and Meeting Will Be Most Interesting

Tomorrow evening, Jan. 19, the membership of the Sanford Chamber of Commerce will have the opportunity of becoming personally acquainted with Hon. W. T. Bland, ex-congressman from Missouri, and now a prominent banker of Orlando. Mr. Bland will be the principal speaker and guest of honor on the occasion of the monthly membership meeting of the Chamber of Commerce. Arrangements had been previously made to have the banquet Thursday of last week but due to conflict of dates it was necessary to postpone it until this Friday. Judge Bland, as has been previously stated, is perhaps better acquainted with the requirements necessary to bring to a successful close the long battle for improvement of the river and harbors of the mid-Atlantic during the time he represented that section in congress. Those who have had the privilege of hearing Judge Bland speak are agreed that he is both a speaker of merit and is thoroughly familiar with the subject of waterways.

The dinner begins promptly at 7:30 and an interesting musical program will also be arranged. The Kiwanis club will be present, having postponed their Monday meeting to Friday night as the majority of the Kiwanis club are members of the Chamber of Commerce. All indications point to a large meeting and the Board of Governors are urging the entire membership to avail themselves of the opportunity of being informed on the activities of the Chamber of Commerce, and becoming personally acquainted with each other and with the speakers.

Sanford Getting Greater Every Day in Every Way Says Sanford's Friend

The following from our old friend J. K. Mettinger, formerly one of Sanford's best citizens, and Sanford's greatest boosters, was not given to us for publication, but we are giving it to our readers because it is too good to keep:

Jacksonville, Fla., Jan. 17, 1923. Mr. R. J. Holly, Sanford, Fla. Dear Old Pal. Just a suggestion.

Spill into the minds of all Public School scholars, by repeating daily, in concert, at school opening and every inhabitant of Sanford, repeating individually (occasionally) daily.

—Conc's Proposition—

"Day by day, in every way, Sanford is getting greater and greater, growing and growing more beautiful and attractive."

Sentimental possibly, but positively assuring confidence in creating love for Sanford and undoubtedly resulting in greater prosperity.

A hand clasp, with a wish for two million building permits for Sanford for 1923.

Yours for your personal prosperity in 1923. J. K. M.

P. S. No, no, R. J., I'm not going nuts, that I know of, if so have been able to conceal it until this.

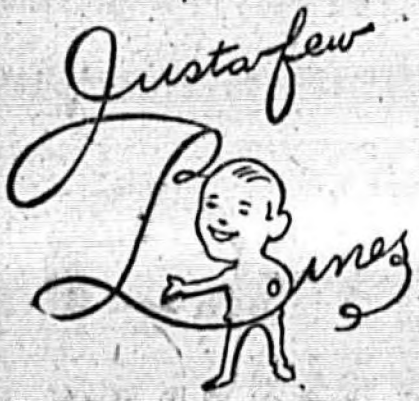

J. K. Mettinger, 2343 Oak St., Jacksonville, Fla.

PLEADED GUILTY OF SHOOTING BIRDS

(By The Associated Press) Ocala, Jan. 18.—Twenty men pleaded guilty in federal court today of shooting migrating birds out of season and were fined \$5 each.

ELABORATE FUNERAL

MEXICO CITY—Labor groups held an elaborate funeral for Eladio Flores Alcan, the Mexican labor leader who died during November while a prisoner at Leavenworth, Kan.

To advise you that we are now tuning up for the race of making our business a most wonderful success during the year 1923.

We invite the buying public to come and help us to win this race, and we will in turn reward them by giving them the best quality merchandise at lower prices. Special offerings Thursday, Friday and Saturday:

BOYS' \$2.75 SLIP-OVER SWEATERS \$2.30

Special 15 per cent reduction on all Men's Sweaters for

D. S. Babbitt is attending Grand Lodge in Jacksonville this week.

S. D. Zuber, Jr., of Lakeland spent the day here yesterday attending to business.

Mr. and Mrs. A. T. Sutton of Chest Springs, Pa., were among the arrivals here yesterday and are stopping at the Montezuma.

Miss Bertha Thompson of Atlanta, Ga., is visiting her brother and sister, Mr. and Mrs. A. V. McGuin, at their country home.

S. B. Davis and John McCollum of Atlanta, Ga., arrived in the city yesterday and are making their headquarters at the Montezuma while in the city on business.

Mr. and Mrs. W. S. Thornton and Mr. and Mrs. D. S. Babbitt spent Sunday in Winter Park, the guests of their mother and father, Mr. and Mrs. D. D. Hunter.

"Song of the Robin" Ethel Hickson. "The First Violin" (Behr) Julia Higgins. "School March" (Bilbro) William Morrison. "At the Fair," (Gurlett) Harriett Rossiter. "Cradle Song," "Dance Lightly" (Jeff L. Gaynor) Marjorie Hoskinn. "The Picnic," (Bilbro) Mary Elizabeth Tolar.

Miss Corine Mims of Charleston, S. C., and Miss Pansy Beacham, of Charlotte, N. C., sight-seeing through Florida, stopped over with Mrs. J. M. Hayes of this city for a few days. Mrs. M. Hayes is a relative of the two Misses.

MEETING OF METHODIST MISSIONARY WOMEN

The first Social Service meeting for the year 1923 of the Woman's Missionary Society of the Methodist Church, Sanford, was called to order by the Superintendent, Mrs. Walter Griffith at 3 p. m. in the church parlors.

The beautiful consecration hymn was impressively read by Mrs. Marsh. Mrs. Griffith appointed her committees for the year after which Mrs. Claude Herndon and Mrs. Roby Laing sang a duet. This was followed by the installation of officers by the state president, Mrs. J. M. Gross, who was here in the interest of the annual woman's missionary conference to be held in the Methodist church the third week in April.

The following are the officers for the year 1923:

- Mrs. D. A. Kelly, president. Mrs. Claude Herndon, Vice-Pres. Mrs. W. P. Fields, Treasurer. Mrs. Ben Monroe, Secretary. Mrs. A. D. Shoemaker, Cor. Sec. Mrs. B. J. Starling, Supt. Young Peoples' Work. Mrs. P. M. Boyd, Supt. Children's Work. Mrs. L. R. Phillips, Supt. Study and Publicity. Mrs. Walter Griffith, Supt. Social Service. Mrs. L. Allen, Supt. Supplies. Mrs. Robt. Thrasher, Local Treas. Mrs. W. S. Thornton, Local Supt. Mrs. McCauley, agent "Missionary Voice."

This part of the meeting was closed with a prayer by Mrs. Carpenter. Mrs. Griffith then introduced Mrs. Gross, who by her charming manner and pleasing personality immediately won the hearts of those present and in her brief talk inspiring them with higher and nobler impulses to a life of deeper consecration, closing with a short prayer. Refreshments of hot chocolate and wafers was served by the following hostesses: Mrs. H. H. Chappell, Mrs. P. M. Elder, Mrs. J. H. Parker.

Quality Guarded by Laboratory Experts

Oldsmobile Metallurgical Laboratory Conducts Careful Tests of Materials

The materials used in the making of Oldsmobiles are carefully tested by chemical and physical analysis in a modern and completely equipped laboratory under the direction of F. R. Nethaway, head of the Oldsmobile metallurgical laboratory. Nethaway formerly was in the General Motors Corporation laboratories and served as a government metallurgist.

Scientists have discovered that the various properties of steel and other materials entering into the manufacture of automobiles, as well as other products, depend to a large extent upon the chemical and physical combination of the natural elements contained in them. In order to be absolutely certain, therefore, that only those be chosen which are sure to render the service required of them, the Oldsmobile Works recently established a laboratory for the scientific analysis of materials as a definite aid in maintaining a high standard of quality in all Oldsmobiles.

Samples of materials are taken from each shipment received by the factory for the manufacture of motor cars, and are first submitted to the laboratory for careful test for the hidden, inner qualities which are an index to their success or failure in actual use. In this manner a close check is kept on quality, and the Oldsmobile owner is given added assurance that his car is sound clear thru.

Volte Williams invites the public to call around at his garage on Magnolia avenue and inspect the Oldsmobile car.

CARD OF THANKS We wish to thank those that were so kind and helping to us during the illness and death of our dear little boy, Harry Meadows. J. G. MEADOWS MARKHAM MRS. J. M. SHIVEY MARKHAM H. H. MEADOWS, Ocala, Fla.

TO THE PUBLIC We have just added the latest up-to-date welding outfit to our equipment and will appreciate your business. Sanford Machine Co., Phone 250-01e

LOCALS

Heavy frost this morning.

And nice cool, crisp weather today.

Means nice, cool crisp greenbacks coming into the city.

And the other new buildings in the city are progressing and will be ready for business some of these days.

O. G. Wolcott of Oviedo is in the city on court matters and attending to other business.

We note the cafeteria is getting in some elegant supplies in kitchen and dining room in the new Meisch building.

Hon. O. P. Swope of Oviedo was in the city today looking after his business interests and greeting his many friends.

The date of the Subscription Bridge Party at the Country Club next Monday night has been changed to Tuesday.

A fire in the fields beyond Thirteenth street this afternoon brought out the fire department and half the population of the city. Everyone disappointed because a house did not burn.

R. W. Pearman, secretary of the Chamber of Commerce has returned from a trip to Jacksonville where he went on important business for the city and county.

Edward Higgins has returned from Jacksonville bringing back the F. P. Forster Lincoln Sedan and also a Lincoln coupe for the trade. Mr. Higgins is selling Lincoln as well as Fords.

Col. J. C. Woodward of Atlanta was in the city today calling on his many friends. Col. Woodward is the head of the Georgia Military Academy and is one of the prominent educators of the south.

SOME FINE CAULIFLOWER

M. H. Spencer left some fine cauliflower on our front porch this morning before daylight and got away before we could thank him for the same and we greatly enjoyed the same for dinner. The heads were immense and were as clear and white as the driven snow. The cauliflower is fine this year and the Sanford growers have some nice stuff and we hope that Morris makes a fortune out of his crop for he has the kind that should bring the real money.

The Herald, 15c per week, delivered.

GETTING IN THE GLASS

The glass for the big show windows for the new Meisch building has arrived after a long and vexatious delay and the windows will be put in at once, thus giving the new drug store and the cafeteria the chance to get ready for business at once. This building will soon be ready for all of the tenants and then the Herald will bring out a special opening edition for the big event.

For quick results, try a want ad.

SUBSCRIPTION BRIDGE PARTY HAS BEEN POSTPONED FROM MONDAY TO TUESDAY

The Subscription Bridge Party scheduled for Monday night at the Country Club has been postponed until Tuesday night. This was done on account of the reception at the Presbyterian Manse on Monday night. All those intending to attend the bridge party will please take note. 252-31p

WELFARE MEETING

The meeting of the Welfare department of the Woman's Club will be held at the club house Wednesday afternoon at 3:15. A paper on Mental Hygiene prepared by Dr. Puleston will be read by Mrs. J. W. Deen. Everybody welcome to attend the meeting.

NOTICE, ENGINEERS!

Next Sunday is the regular meeting Sunday of the Engineers, but instead of meeting at the regular place, the meeting will be held at the K. of C. hall at the corner of Oak and 8th street. This temporary change was made in order to accommodate another order of the city, they needing a larger hall for this one occasion. Remember—K. of C. Hall, Oak and 8th, this coming Sunday.

SUBSCRIPTION BRIDGE PARTY

There will be a Subscription Bridge party at the Country Club Tuesday night, January 23 at eight o'clock. Seventy-five cents a person. Everyone is invited to spend a social evening. Phone Mrs. Deane Turner (309) for reservations. 250-1-15-17-10-22-e

THE WEATHER

For Florida: Fair tonight and Thursday except cloudy over extreme south portion; frost in North and Central portion tonight; warmer Thursday.

NOTICE

The annual meeting of the Sanford Library Association will be held on Thursday, Jan. 18, at 7:30 p. m. at the Library rooms of the Woman's Club building.

OUR STREET PAVING IS VERY IMPORTANT

The question of the street paving in the city of Sanford is one of the most important questions that confronts us today. This question will be settled in a short time by the City Commissioners who are spending much of their time in going over the situation carefully and wisely.

The Herald has entire confidence in the judgment of the city fathers. They are good business men and men of wide experience. They have all lived here for many years and have watched the growth of the city and the county from many angles. They have seen the clay streets and county roads give way to better paving and they have watched the paving of all kinds, have noted the different phases of wear and tear on city streets and county roads. They are men who have not only travelled the county roads of this county but they have seen other counties in the state and other states in the union and noted their paving. They will have the data at hand and they should have the sentiment of the people of Sanford at hand when they make their decision for they are representing the people and spending the people's money when they make a decision. If they will canvass the situation they will find the majority of the tax payers of this city and the majority in the county in favor of good brick paving—the kind that has lasted and will last and they will make no mistake if they will make the right kind of contract for brick paving and buy the best and then see that it is put down properly and if it is put on the sand foundation and properly curbed it will last as long as our generation and then some and if the time comes when the brick are to be pulled up and replaced, they can always be salvaged and made over as has been done in Orange county recently with good results. In fact the worst brick roads in this county today can be made over into good roads with but little expense, but if they are good brick roads they will need but very little maintenance if any and our experience in this city has shown that the brick streets have had no maintenance.

It is a big question to decide but it should be decided upon the merits of the materials to be used and our experience should be the deciding factor at all times. We paid for that experience in our county road building and we should profit by it.

PUNISHMENT FOR SPEEDERS "Suppose," says a San Francisco Judge, "the street cars were killing one person every three days. Just imagine, if you can, the telephone lines killing one every three days. What would happen?"

"Why, there would be such an upheaval that it would not be ended until those conditions stopped."

One human life every three days has been San Francisco's auto-killing record. Some other cities have worse records than that.

Is it any wonder that more rigid enforcement of traffic regulations is demanded wherever the automobile is

U BELL YOUR REAL ESTATE WHEN U LIST IT WITH US

Maxwell & Britt AGENTS REAL ESTATE Fire, Casualty, Auto Insurance 105 W. First St., SANFORD, FLA

used? Is it surprising that there is an increasing tendency among judges to impose severe sentences on the speeders and careless drivers?

Eventually, irresponsible persons will not be allowed to operate motor cars. In the meantime punishment for speeders is a good traffic court watchword.—Jacksonville Journal.

ORANGE COUNTY WILL TAKE BRICK

In an article from the Orlando Sentinel in this issue the statement is made that the road question down there has been re-opened and the clamor for a brick road to the east coast has been so insistent that new bids were called for in the endeavor to get brick roads if possible. Brick is the durable material and the people know it.

GOOD MANAGEMENT

All business success is due to good management first. All the success of a city, county, state or nation is due to good management. The Tampa Times truthfully asserts that the success of municipal ownership hinges upon good management. They are making plans down there for a water supply that will be the best and will not cost too much and will supply the city for many years to come. Municipal ownership always hinges on the management but the tax payers need not fear to tackle the proposition on that score for the same thing applies to the city management at present of every city in the United States. It is all due to good management and there is not a man in Sanford who would say that the Southern Utilities Company, are not making money on their plant at the present price of water, gas and electricity. Their success is also due to good management and if their management can make money there is no reason why the city managing their own utility plants could not make money. And it is not too early to think about a new water plant and the supply and other matters. Sanford must have better water before another year—that is we must have soft water. Our present water is the purest in the world and absolutely free from any contamination but the sulphur is bad on the plumbing and the visitors to the city do not like the sulphur gas. We must have soft water and our own water system just as soon as possible.

BUILDING PROSPECTS FOR 1923

At the start of this year of grace 1923 the people of the United States have reason to contemplate hopefully and thankfully the prospects it unfolds. From every side comes promise of individual and national prosperity. Carefully prepared official returns show that production in basic industries maintains the upward trend that has characterized it since July, 1921, at which date the low water mark of recent years was reached, and the trade journals with their exceptional opportunities for gaining accurate information, confirm this optimistic view. Unemployment, which showed itself so menacingly a twelve-month ago, has vanished so completely that labor shortages are actual existent in some localities, especially in steel and textile mills and among building contractors. Even the condition of the railroads, which looked at one time to be almost hopeless, has wonderfully improved. Building operations still maintain their phenomenal activities. Larger demand for bank credit, as vouchsafed for by the Federal reserve board, is a sure index to expanding manufacture, trade and distribution. One specially encouraging feature of the business situation is that the advance, while continuous, is so steady and gradual as to give no indication of frenzied price fluctuations. The absence of such erratic movements not only conduces to the carrying on of business without disturbance and to the lifting of it to higher and still higher levels, but also tends to the well-being and equanimity of the ultimate consumer, who is generally the first to feel the pinch when the prices go suddenly up and the last to get relief when they fall. All classes of citizens have therefore reason for confidence that, for them, 1923 will be a prosperous and happy new year.—Washington Post.

ARGUMENTS IN THE HERRIN TRIAL ENDS

MARION, Ill., Jan. 18.—All argument at the trial of five men charged with the murder of Howard Hoffman, one of the victims of the Herrerin riots, ended suddenly yesterday when Angus W. Kerr, chief counsel, announced that the defense waived its right to address the jury.

With this unexpected announcement Judge D. T. Hartwell immediately adjourned court until 10 a. m. today to permit him to prepare instructions to the jury.

BERNHARDT HAS RELAPSE PARIS—Sarah Bernhardt suffered a slight relapse but was reported as resting easy.

BONDED INDEBTEDNESS OF ESCAMBIA COUNTY OVER THE MILLION MARK

(By The Associated Press) PENSACOLA, Jan. 18.—The bonded indebtedness of Escambia county amounted to \$1,193,933.34, according to a report made by Circuit Clerk James MacGibbon. The total includes three bond issues as follows: Outstanding on county jail bonds \$87,500; Barrancas road bonds, \$40,000; road paving bonds \$95,000. Time warrants made up the balance of the indebtedness.

GIRL BURNED BY OIL STOVE IN CRITICAL CONDITION

(By The Associated Press) TAMPA, Jan. 18.—Cleo Dunn, clerk in a department store, is in the hospital here suffering from burns received when her dress ignited from an oil stove in the store. Physicians report the girl in a critical condition.

TO OFFER AMENDMENT WASHINGTON—Chairman Dempsey, of the house rivers and harbors committee, announced in the house he would offer an amendment increasing the waterways appropriation in the army bill from \$37,000,000 to \$56,589,910.

INTRODUCING BRIDE

(By The Associated Press) WASHINGTON, Jan. 18.—Alton B. Parker, Democratic presidential nominee in 1904, was busy at the opening session of the committee on foreign relations of the National Civic Federation here today introducing his bride of a day, formerly Miss Amelia Day Campbell. Mr. and Mrs. Parker will depart for Miami, Fla., at the conclusion of the two day conference over which Mr. Parker is presiding. Later they will spend several weeks on Mr. Parker's Florida plantation.

STATE CHARTERS ISSUED

(By The Associated Press) TALLAHASSEE, Fla., Jan. 18.—The Secretary of State has issued the following charters: Wilcox Bros. Inc., capitalization \$100,000, contractors and builders, West Palm Beach. Mortgage Securities Co., \$100,000, West Palm Beach. Semole Woodware Co., \$25,000, Jacksonville. E. P. Shaffer, Inc., \$25,000, real estate brokers, Quincy. The Corner Company, \$15,000, merchandiser, Callahan. The Carlton Co., \$10,000, mercantile, Waukegan. The Avon Park Hardware and Furniture Co., \$15,000, Avon Park. Farmers and Merchants Bank of Bonifay, \$25,000, Bonifay. McCormick-Hannah Lumber Company, \$25,000, Eustis. Schilling Properties, Inc., \$50,000, Miami. Peck's Sightseeing Boats, Inc., \$10,000, Jacksonville. Auto Service Company, \$12,000, Pensacola.

OCALA CHIEF POLICE AND THREE OFFICERS INDICTED FOR MURDER

(By The Associated Press) Ocala, Jan. 18.—The Marion grand jury in special session, Tuesday returned indictments charging murder in the first degree against Henry Gordon, chief of police; M. H. Bronson, C. P. Howell, policemen, and O. E. Wiggins, deputy sheriff. They are alleged to have taken part in the killing of Grady Reynolds on the night of December 21.

Declaring that there is just cause for investigation Judge W. S. Bullock today called together the grand jury of this county and directed it to inquire into the circumstances surrounding the death of Grady Reynolds, well known Ocala citizen, who was shot by a group of officers on December 21, when, it is alleged, he attempted to escape arrest for violating the city ordinance regulating the speed of motor cars. In his charge to the jury, Judge Bullock said it was unfortunate that the local officers had failed to hold an inquest.

Judge Bullock stated that the failure of the paid officers to hold an inquest has given rise to various rumors and charges some of which are of a serious character.

WINTER VISITOR KILLED AT ST. PETERSBURG

ST. PETERSBURG, Jan. 18.—Mrs. Chauncey E. Peck, 70, winter visitor from Wilbraham, Mass., who was run down by a street car on Central avenue yesterday at noon, died at 3:00 o'clock yesterday afternoon at a local hospital.

DEFENDS LABOR BOSTON—Congressman John G. Cooper, of Youngstown, Ohio, in a recent speech here, denied that the organized labor is behind the movement to legalize the sale of light wines and beer.

HERALD COLLECTIONS

The Herald carriers manage and control their routes, pay in advance for all papers drawn, and absolutely depend upon their collections for their running capital and profits. When subscribers neglect to pay them it is the CARRIER and not THE HERALD that stands the "brunt."

Subscribers who do not care to pay the carrier each week may pay the Herald two or more months in advance and they will pay the carrier each week from this fund.

This system of delivery is known as the INDEPENDENT CARRIER PLAN and is used by most of the larger newspapers of the country and has proven beyond doubt to be the very best plan of delivery. When a boy manages his own route, buys and sells at a profit he is in business for himself in exactly the same sense as any merchant. He knows he must give service to be successful and build up his business. He knows that every new customer he secures means more profit. In short, he knows he must conduct his business in a capable and efficient manner to be successful.

The Herald earnestly requests its subscribers not to discourage these boys in this, their first business venture, by refusing to pay promptly each week for their newspaper.

THE SANFORD DAILY HERALD.

Press Gang of Lake Co. Is Going to the Dogs—W. Powell Responsible

And He Seems to Take Pride in the Fact That Such is the Fact

"The Press Gang of Lake County is Going to the Dogs" says Willis Powell in an invitation to the editor of the Herald sent to us today. But Willis does not mean this literally except that in the big jamboree that he is giving the editors and their families at his house tomorrow night he will serve them "hot dogs" and the invitation has a "tint block" in pink ink drawn by Willis or Mrs. Powell of a big dog and a picture of an editor at the desk and the printed matter over all is as follows:

"The Press Gang of Lake County is Going to the Dogs"

BIG DINNERS
Powell's Roost,
South Center Street,
Eustis, Florida

Friday evening, January 19th, 1923

Secure seats early and avoid the rush—children and dogs not allowed. One price of admission to all shows. See Leach Crossing the Delaware on Paper Pulp Shows. RECOVERS FROM LA GRIPPE COUGH

"Was very bad with La Grippe and had a severe cough. Tried Foley's Honey and Tar and it stopped my cough and I got better," writes Mrs. Mary Kisby, Spokane, Washington. Coughs resulting from La Grippe, Influenza, Bronchitis, Whooping Cough, Asthma and Spasmodic Croup are quickly relieved with Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Largest selling cough medicine in the world. Refuse substitutes. Insist on Foley's Honey and Tar. Sold everywhere.—Adv.

MANY VISITORS IN THE CITY

Sanford is thronged with visitors every day now, many of them arriving by boat and remaining over a few days before going farther south. All of them are struck with the busy appearance of Sanford and they say they are coming back here for several weeks stay before going back home in the spring.

New Booklet Issued By Chamber of Commerce is Beautiful Brochure

The Publicity Committee of the Chamber of Commerce has just received the first shipment of the four page booklets from the press and these are a supplement to the regular booklet that was issued some time ago. The new pamphlet has the newest things in Sanford and since there are many improvements made each day every month to keep up to date for what was new last year is passe this year. This is especially true of the new golf links and the proposed boat basin and other big things listed in the new four page pamphlet that has fine half tone pictures of the golf links and the boat basin and pier and good snappy reading matter prepared with the idea of giving the folks interested in the whole truth, in a few minutes. The City Substantial was never so well advertised as it is now in magazines and booklets and all kinds of publicity stunts. The business men of the city and all the residents of the city and especially the members of the Chamber of Commerce should get some of these pamphlets that will just fit in a number 10 envelope and that can be mailed for one cent if left open. Mail them to your friends in the north. They are beautiful pamphlets and will not fail to get results. Get them from the secretary of the Chamber of Commerce.

TO THE PUBLIC

We have just added the latest up-to-date welding outfit to our equipment and will appreciate your business.—Sanford Machine Co., Phone 62. 250-6tc

SCHOONER ASHORE

(By The Associated Press) MANAGUAY, Nicaragua, Jan. 17.—The American schooner Louise M. Richard was driven ashore on Deer Island, near Bluefields, yesterday. It was believed that the vessel will be a wreck but that her crew would be saved. She registered 139 tons and is owned in Mobile.

GENEVA

Mrs. A. W. Sikes and daughter and Mrs. P. P. Seig and daughter of Americus, Ga., are here spending a few days with Mrs. M. E. Wicks who is a sister of Mr. Seig.

Mrs. Inez Geiger of Semoula, Fla., was visiting her daughter Mrs. Gilli Sykes last Saturday. She was accompanied by her son, Mr. Harvey Geiger.

Mr. and Mrs. P. T. Wakefield have purchased a new Oakland six.

Mr. and Mrs. Duoley and Miss Helen Moran were in Longwood Monday afternoon on business.

Mr. John Bethel of Greenville, Ky., has opened a large shop in Reed's Real Estate office, opposite Ryan's store.

Mr. Ed Sutton and Mr. Tommy McClain were in Sanford Monday attending court.

Mr. Walker Prevatt was in Sanford Tuesday, attending to business.

Mr. Oscar Nicholson of Daytona Beach is spending a few days with his mother Mrs. Nicholson. Mr. Nicholson is recuperating from a serious auto accident, and his many friends here are glad to hear he is able to be about again.

Mrs. T. W. Prevatt returned Sunday evening from a short visit to her parents, Mr. and Mrs. Luller of New Smyrna.

The young people of Geneva enjoyed a chicken purlieau at the hall on Saturday evening. The party was given by Miss Rosa Levy and Mr. Henry Levy in honor of their brother Mr. Sam Levy who returned to his home in New York on Monday.

Mrs. J. M. Prevatt was in Moon Station Sunday visiting her son Mr. Will Prevatt. Mr. Prevatt has been very seriously ill, due to a relapse of the influenza. His friends here are glad to learn he is recovering and is able to sit up.

Mrs. Fred McFarlane has purchased a part of the Marsh farm, which has been rented by Mr. and Mrs. Whitfield of Greenville, Ky. The old Elbert house where Mrs. McFarlane formerly resided has been purchased by Mrs. A. R. Dickerson of Orlando. Mrs. Dickerson seems well pleased with Geneva as a home and expects to build a modern bungalow on what is said to be the most delightful spot in Geneva.

Mr. and Mrs. K. B. Robinson have purchased a fine Hudson Six car.

Mrs. Elizabeth Braddock and her mother Mr. Roy Braddock have returned to their home in Georgia after a pleasant visit with their relatives, Mr. and Mrs. Josiah Hart.

Mrs. Jessie Prevatt and Mrs. Jacobs and Miss Verlie Prevatt of Chuluota spent Saturday with Mrs. J. M. Prevatt and Mrs. Mae Rivers.

Miss Fred McFarlane called on Mrs. Ballard Sunday evening.

Mr. Lang of Sanford and family spent Sunday with his sister, M. Ballard. Mr. Lang has purchased the Bertha Dand place next to Mrs. Ballard.

The Community Club of Geneva met at the Club park on Friday afternoon to decide on a spot to erect the new club house. Some of the ladies also brought some shrubs and planted them in the park.

Mr. and Mrs. Maria and little son were in town Saturday evening, and attended the chicken purlieau at the hall given by Miss Reva Levy and Mr. Henry Levy.

Have the Herald do your next job

PAWHUSKA, Jan. 18.—An automobile containing approximately \$9,000 in cash and bonds, identified by police as part of the loot taken by robbers late Tuesday from the bank Tuesday night, near a farm house 10 miles from here, where Ralph Klopston, who admitted that he participated in the holding, was captured, authorities have announced.

E. G. Van Hamilton, of Cambridge who was kidnapped by the bandits after being perhaps fatally wounded in a gun fight with the bandits just after the robbery, was left with Klopston, also wounded although not seriously. No trace has been found of the other bandits.

"EXIDE" Batteries. We can furnish for a limited time a Giant "EXIDE" Battery for Ford cars at \$16.50. Bring your old battery. RAY BROS. Sanford, Fla. We recharge and repair all makes of Batteries. 250-61p

UPSALA AND GRAPEVILLE

Rev. Paul Burhans was out from Sanford Tuesday calling at the home of Mrs. DeForest and Mr. and Mrs. Ballinger.

Sam Harsh was a welcome visitor at our Sunday school.

Mr. and Mrs. John Snow and Mr. and Mrs. Long were Sunday visitors at the home of Mrs. Jack Vaughn.

Mr. and Mrs. Charles Cramer were in Saturday to see Mrs. Carrie Collier who has been ill with the dengue or flu.

Mrs. Geo. Ballinger walked over on Thursday to see Mrs. Barney Beck and Mrs. Westerdick, the latter is just able to sit up, having had a relapse of the flu.

A little daughter who has been named Edith Marine, was born January 10th to Mr. and Mrs. Edwin Lundquist. Mother and child are doing nicely with Dr. Denton in attendance. A number of the many relatives here called in Sunday to see the little new comer.

Rev. J. S. Clark will be with us at the Presbyterian church next Sunday for services at 3:30 after the Sunday School at 2:30. All welcome to both services. Charles Cramer gave us a short study on the Holy Spirit last Sunday.

Rev. Wahlberg was also with us. We hear there were a good number out to the evening meetings as usual.

Mr. and Mrs. T. O. Tynes are having a very bad time just now as their children at home, Jim, Florence, Eleanor and Pearl are all down with the flu, only Pearl is able to be up. It makes it hard as he has been out of work so long.

While we still live in hope the strike will be settled right the soon our way will be busy at the row places. Tom Fortner is getting his place in good shape to garden. He is planning to till it. Will he be in planting and planting in an acre of sweet beans and egg plant. Waldo Paerson and Alfred Ericson are carrying for their orange groves while T. O. Tynes has taken down the hoagie on their old home and using the good lumber for partition and finish off their new home and culture the dining room.

One of the Vibley boys while driving their car skidded and ran into Mrs. DeForest's new car, breaking the bumper.

On Saturday morning while coming out of town after taking Gladys in to her work, Mrs. Will Robinson, had a head on collision with a large truck belonging to Volie Williams on French avenue and Tenth street. Her car was a wreck and the truck damaged but fortunately no one was killed, the little street car was with her, she had cut across the road by the side of the town wagon and Mr. Langley had to take eight stitches and the little chap was real brave. His knees also were cut and bruised. Mrs. Robinson was also bruised in the nose. Too bad, but it might have been worse. The truck was on its own side. The neighbors are kind and their brother-in-law and Mrs. Culp came out to take them in to the doctor.

Mr. and Mrs. Neil Swanson are entertaining his brothers, John and Ben, who arrived Friday from the west. John has not been here for 28 years and they have not seen Ben for over 40 years. August and Archie were with him in Denver three years ago. Ben took a bad cold on the train and they took him to the doctor Saturday.

A bunch of keys having our name on them, have been turned over to us but the keys are not ours, only the name plate. Owner can have them by describing.

A little ice Tuesday morning on the troughs.

Some good barred Rock roosters for sale, also year old Dorothy Perkins rose bushes.—Mrs. Ballinger, R. A. Box 241.

BANDITS' LOOT FOUND

(By The Associated Press) PAWHUSKA, Jan. 18.—An automobile containing approximately \$9,000 in cash and bonds, identified by police as part of the loot taken by robbers late Tuesday from the bank Tuesday night, near a farm house 10 miles from here, where Ralph Klopston, who admitted that he participated in the holding, was captured, authorities have announced.

LABORER IS BLOWN TO ATOMS IN EXPLOSION

TAMPA, Fla., Jan. 18.—W. Burns, saw mill laborer, was blown to atoms early yesterday morning when a boiler exploded at Ison Colding's saw mill, six miles from Wimmama, near here. Parts of the man's body were hurled more than 100 feet, one of his shoes being found here he was standing when the explosion occurred, while the other was found nearly 200 feet away. Burns was about 60 years of age, was from Eling, near London, Ont. He leaves a wife.

While we still live in hope the strike will be settled right the soon our way will be busy at the row places. Tom Fortner is getting his place in good shape to garden. He is planning to till it. Will he be in planting and planting in an acre of sweet beans and egg plant. Waldo Paerson and Alfred Ericson are carrying for their orange groves while T. O. Tynes has taken down the hoagie on their old home and using the good lumber for partition and finish off their new home and culture the dining room.

BANDITS' LOOT FOUND

(By The Associated Press) PAWHUSKA, Jan. 18.—An automobile containing approximately \$9,000 in cash and bonds, identified by police as part of the loot taken by robbers late Tuesday from the bank Tuesday night, near a farm house 10 miles from here, where Ralph Klopston, who admitted that he participated in the holding, was captured, authorities have announced.

E. G. Van Hamilton, of Cambridge who was kidnapped by the bandits after being perhaps fatally wounded in a gun fight with the bandits just after the robbery, was left with Klopston, also wounded although not seriously. No trace has been found of the other bandits.

PROMINENT CANADIAN DIES IN FLORIDA

NAPLES, Fla., Jan. 18.—W. C. Kennedy, Canadian minister of railways, who came here recently from Montreal to recuperate after an operation died suddenly last night of heart disease.

MUSSOLINI IS DOWN WITH THE "FLU"

ROME, Jan. 18.—Premier Mussolini is slightly ill with influenza and confined to his bed but continues his work, receiving visitors, dictating letters and telegrams and keeping in touch particularly with the international situation.

HEARING FOR THE BOAT BASIN

As announced yesterday the government engineers will be here Friday, January 26th, to have a public hearing about the granting of permission to the city of Sanford for the building of the boat basin and the big pier into the lake. This is one of the big strides forward and means much to the city of Sanford.

Elder Springs Water

is meeting the demand for good pure water and there are hundreds of bottles being distributed around the City at all times. Every family of Sanford should get the habit and

PHONE 311 FOR QUICK ACTION

And our truck will be at your back door with a bottle of that pure water that all the hotels, restaurants, drug stores and soda fountains are using.

And Be Sure it's Elder Springs Water You Use in That Battery

GANDY BRIDGE CONSTRUCTION ACROSS OLD TAMPA BAY PROCEEDS RAPIDLY

Rapid progress is being made toward the completion of the Gandy bridge across Old Tampa Bay, which was completed January 1, 1924, will make the distance between St. Petersburg and Tampa but 19 miles as compared with 57 miles by automobile, 65 miles by rail and 23 by boat. Officials of the company have announced that construction work has been progressing far beyond expectations, and that it will be a short time until the white sand bars of the causeways being filled in on both sides of the bay will be completely finished and the work of building them up started, for the most difficult part of the causeway construction work is over.

The first dredge was installed on September 25 and today after a little more than three months' work, a mile and a half of causeway has been filled in. During the last week a new road in the Tampa side running from the Old Port Tampa road to the water's edge, making the Tampa causeway easily accessible to Tampa citizens by automobile. A three thousand foot bridge has been built practically over night and on which Tampa visitors can walk from the shore to the Gandy-Tampa causeway.

Two dredges are at work at the present time day and night, one on the Tampa side and one on the St. Petersburg side, and officials of the company announced, that as soon as two additional dredges can be secured, they too will be added to help in the task of filling in some 17,000 feet required for the causeways. So Gandy bridge is fast becoming a reality.

The bridge will accommodate all travel between Tampa and St. Petersburg. It will set up new travel as a result. It will make it easy to take a dip in the waters of the gulf in the summer months. It will give the winter tourist an opportunity to visualize the country from the middle of the bay. It will set the time and expense of a long haul of freight and express shipments and save loss from breakage in handling. It will stimulate less traffic.

It is obvious that Gandy bridge will enjoy a heavy traffic the year around. Its earnings increase as time goes on, as the bridge is being constructed in such a way as to provide for future heavy traffic, and to withstand the action of the elements for all time to come.

Official reports of the Jacksonville-St. Johns river toll bridge, covering 15 months of operation (July 1, 1921, to September 30, 1922) show that a daily average of 2,387 vehicles and more than three times as many persons, crossed that bridge.

Upon a basis of 2,387 cars and 1,774 paying passengers, a revenue of \$42,162 is to be derived by Gandy bridge from tolls alone.

This estimate should prove very conservative. The Gandy bridge serves a much larger population. Jacksonville and Panama counties have a registration of 22 per cent more automobiles than Duval county.

Gandy bridge, under construction, crosses Old Tampa bay, under a grant from the state legislature, which deeds to the Gandy company in fee a strip of submerged land 400 feet wide from shore to shore. This grant is in perpetuity, and is approved by the U. S. war department.

The engineer in charge of construction is Mr. W. G. Thompson, formerly in charge of important concrete construction work under General Guthrie at the Panama Canal. Mr. Thompson's knowledge of construction in salt water is very broad. His surveys and soundings give assurance that the building of the bridge is a comparatively simple piece of engineering.

George S. Gandy, Sr., who conceived the idea of putting a bridge across the bay, has managed public utilities all his life.

The Gandy bridge is the natural result of the direct thinking of this man whose mind has been trained in terms of public utilities.

BIG ALIEN HAUL HAS BEEN FLOATED STRUCK A REEF

(By The Associated Press) TAMPA, Jan. 17.—Forty aliens, and probably more, were captured Tuesday at Sarasota, according to a report to Stephen B. Hopkins, United States immigrant inspector here, Tuesday morning. There were no details given of the capture nor were the nationality of the aliens given in the report. Inspector Griffin left early Tuesday afternoon for Sarasota to investigate the capture and to bring the aliens to Tampa.

(By The Associated Press) TAMPA, Jan. 17.—According to cables received by the Tampa Inter-Ocean Steamship Company, its steamer, Patrick Henry, which struck a reef off Sibay Island, two hundred miles south of Manila Monday has been floated.

D. A. R. CONVENTION COMES TO AN END

All Officers Were Re-Elected With The Exception of Three

The convention of the state association of the Daughters of the American Revolution, which has held its sessions at the Rosalind club in Orlando for the past two days, closed yesterday afternoon with a final message from the president general of the national society, Mrs. George Minor. The visiting daughters were high in their praises of this City Beautiful and its hospitality, and the short messages of appreciation delivered during the convention by the national and state officers were all expressions of gratitude for the reception they received in Orlando.

The morning session Tuesday was devoted to the election of officers, the adoption of resolutions and reports of chapter regents from chapters all over the state. All officers were re-elected, with the exception of three. The following officers were re-elected: State regent, Mrs. James Craig, Jacksonville; first vice president, Mrs. Thomas Strawn, Deland; second vice president, Mrs. Amos Norris, Tampa; corresponding secretary, Mrs. Brooke White, Jr., Jacksonville; treasurer, Mrs. Guy Williams, Miami. The following elections were made: Recording secretary, Mrs. H. V. Smith, St. Petersburg; historian, Mrs. Raynor Dayton; auditor, Mrs. A. Bradley, Titusville.

At noon a delicious luncheon was served the visiting delegates at the Presbyterian church parlors by the Young Matrons' Bible school. In the late afternoon the national officers motored to Daytona where they were entertained yesterday by the Daytona D. A. R. chapter and Friday they will be entertained at the Jacksonville by the chapter in that city.—Orlando Sentinel.

STAR IN "LIGHTNING" AVERTS NEAR PANIC AT FIRE IN ST. PETERSBURG

(By The Associated Press) ST. PETERSBURG, Jan. 18.—While theatre employees and firemen battled with a stubborn blaze in the boiler room of the Plaza theatre here last night, Milbon Noble, playing the lead in "Lightning," averted a near panic by stepping out of his part as smoke filled the stage and wafted over the audience, and informing 120 persons before him that there was no danger as the fire was a block away and under control.

Meanwhile every piece of fire apparatus was called out and police stationed at every fire exit to aid in emptying the theatre.

After delivering his short talk and quieting uneasiness evident in the filled house, the play was resumed. Back stage, performers had gathered to gather their belongings and were ready to make a hurried departure in the event the fire spread.

At the close of the second act the show curtain was dropped and the fans were started to clear the stage of smoke. The fire was under control shortly after the arrival of the firemen. Few persons had left the audience.

The fire was caused by an overheated furnace built in a fire building at the rear of the stage.

The Plaza blaze was Noble's sixth experience with theatre fires. He is a survivor of the Southern hotel fire in St. Louis in 1878 when sixty lives were lost.

CROP CONDITIONS VERY FAVORABLE

WASHINGTON, Jan. 18.—Conditions continued favorable for the growth of truck crops in the gulf and South Atlantic states, the Department of Agriculture's crop review issued yesterday stated.

Cabbage in the southern trucking districts of South Carolina was well advanced and turnips were being harvested. Satisfactory progress was made in seeding spring lettuce, tomatoes, beans and other truck made fair progress in the Everglades district of Florida and potatoes were coming up and doing well in the Hastings district.

TAMPA ROTARY MAY SUPPORT GUERNSEY FOR DIST. GOVERNOR

TAMPA, Jan. 18.—Ken Guernsey, of Orlando, sponsored by the Orlando Rotary club for election as district governor of Rotary, will probably be accorded the support of Tampa's Rotary delegation at the district convention in St. Petersburg.

While he was not formally endorsed, his name was acclaimed by local Rotarians when the action of the Orlando club was announced at their meeting Tuesday. President Russell Tarr did not bring the matter to a vote, but said "It looks like we are all in favor of Ken."

ASHDOWN, Ark.—John W. Owens, adjudged guilty of the murder of Hugh Throckmorton, November 21, was sentenced to die in the electric chair March 16.

HEALING "WOUNDS" IN STEEL

Frenchman Has Devised Machine Which is Really a Marvel of Inventive Ingenuity.

Very remarkable indeed is a machine set up in France for making repairs to airplanes, remarks the Washington Star. This machine is said to be the only one of its kind, and is due to the ingenuity of Gifaine Itabin. It may be described as a device for causing "wounded steel" to "heal" itself in something like the way that wounded flesh heals.

The device is almost automatic, is operated by electricity and is based upon the galvanic principle. It needs only one or two men to watch it, they being guided by a chart, showing in many colors the piece of metal to be repaired, the exact repairs necessary, the composition of the galvanic bath, the current needed, the diameter of the conducting wires and the time of immersion. All this is worked out mathematically to the minutest fraction.

The machine is employed to restore worn or broken parts of delicate nature, most of which are difficult to replace. When an American observer saw it there were lying on a table beside it parts it had just repaired which would have cost \$50,000 and much time to replace. In the week previous it had turned out 300 pieces, all of great importance, for nothing less is confided to it.

REFUSED TO BELIEVE HIM

Jury Foreman's Remarkable Explanation for Declining to Credit Defendant's Pica of Guilty.

Some years ago in a Western state, then a territory, a popular citizen became involved with an influential and overbearing character and killed him. Public sentiment leaned toward the defendant; but the law was against him, and when the day of trial came the defendant, his counsel and friends held a consultation, and, fearful of the consequences, they decided that the defendant should plead guilty and beg the court's mercy.

The jury was charged by the court and retired. Presently it returned, and the foreman said:

"We find the defendant not guilty."

The judge viewed the jury in surprise and said:

"Gentlemen of the jury, how be it? This defendant pleads guilty, and you find him not guilty?"

The foreman answered:

"Well, your honor, the defendant is such a liar we can't believe him under oath."—Progressive taxpayer.

Deppers' Trade Union.

A new terror has been added to continental traveling. A recent report from Constantinople states that the beggars of Stambul have formed themselves into a trade union, says London Answers.

The members go to work quite methodically. Each morning they hold a meeting in the open space in front of the Bayazid Mosque—they say to afford other officers, although some of the members are said to be rich—and here they discuss the business of the day. Then after the agenda has been read and approved, the brothers in beggary disperse, and set about the business of collecting alms.

Just as other trade unions teach their members to work for less than certain prescribed wages, so the beggars are not allowed to beg for any sum less than one hundred pence. Any smaller gift is spurned as detrimental to their dignity.

Clown.

Chew Chew, a health clown, makes the rounds of New York city schools, spreading the gospel of fresh air, proper food and cleanliness.

With him is his little dog, Creamo, whose stunts include passing his face as if washing when asked what he does in the morning.

The school children are going wild about Chew Chew and Creamo. They are absorbing health facts, because the presentation is made in an interesting way. And they will remember the health clown and what he taught, in their old age.

Making school interesting is the greatest problem of education. People in this horrid civilization remember interesting things, forget the uninteresting.

Fish Eradicates Scarlet Fever.

The Mexican version of "have you a little fairy in your home?" is "have you a little fish in your home?" This arises from the use of a peculiar fish, of the mammalian species, that eats the mosquitoes and "wigglers" in water, thus preventing the spread of yellow fever. All bodies of water in the city are stocked with the fish, which are provided by health authorities. In this way the mosquitoes are kept down and yellow fever almost eradicated.

World's Largest Boiler.

A boiler capable of heating 1,000 eight-room houses has just been placed in operation in Detroit. It measures 10 by 20 feet inside, and the height from the grate bars to the top of the pipe coils is 35 feet. It can turn 100,000 pounds of water into steam in a single hour, requiring 12 tons of coal to accomplish this feat.

Water Lilies as Food.

From the Iowa conservation board comes the suggestion that we grow water lilies as a staple article of food. It is claimed that the lily, when peeled and boiled, is as farinaceous and tasteless as the potato.

Red Snapper and Sea Bass Steak at Stone's Market, 327 Sanford Avenue, 251-41c.

NATURE KEEPS HER SECRET

Chemists Have Never Been Able to Satisfactorily Determine the Composition of Wood.

Wood, with which the ancient Britons used to stain themselves, is grown in that part of Lincolnshire, England, which abounds with dykes and windmills, and along the borders of Cambridgeshire. It allowed to go to seed the wood would often grow to three and four feet in height and has a pretty yellow flower.

The first crop of tender green shoots is picked in July or August, and during the largest men and women are to be seen creeping along the dykes on their hands and knees all day long.

The shoots are put into large wicker baskets and sent to a factory, of which there are three or four in that part of the country. When they arrive they are squashed into pulp and allowed to ferment. Later they are made into balls and dried.

These balls remain drying for several weeks and are then broken into pieces and stirred for a lengthy period. Eventually they produce a coarse, powdery substance, deep blue in color. Lastly the powder is damp, stored in vats and sold to dyers and manufacturers of wooleens and other articles of apparel.

The enduring blue of the policeman's uniform is obtained from wood, and, though it is an expensive dye at the outset, it is the cheapest in the long run.

Chemists have tried hard to fathom this secret of nature, but without success; and it is doubtful if the industry would continue to exist but for the official desire to procure uniforms that are durable and of fast color.

HAS RULED FROM BEGINNING

That Japanese Royal Family Has No Name Is Proof of Assertion Long Put Forward.

In the peaceful and isolated community it is probable that at first no family had any special line of occupation to follow. It was when the community had made some progress that division of labor was introduced. It is clear from many myths that family names in Japan were taken from the occupations followed. When many families came to follow the same occupation then the necessity arose of giving distinctive names to the different families. Of the ruling family, however, there was only one and as it had no occupation as other families did it had no name. Nor was there any occasion for giving it a distinctive name; it sufficed to call it by an ordinal name. It was and is only when a member of the imperial family sets up a branch family that a distinctive name is given.

Japan furnishes the solitary instance where the ruling family has no family name. In England, Italy, Holland and other countries those who already had family names acquired in thence and ascended to the throne. That the Japanese ruling family has no name is a clear proof of the contention that Japan has been ruled by the same family from the beginning. That there been any revolution at any time in the history of Japan—that is to say, had the first ruling family been supplanted by another—the present imperial house would have a name of its own. Chicago Journal.

Sea Lions Invade a Lighthouse.

The keeper of Bride's Island light, below Cape Flattery, has appealed to the federal authorities in Tacoma for weapons and help. No sooner does he open his door than sea lions force their way into the house and make free with his possessions. At night they surround the place barking for attention, and sleep is impossible. One big fellow amuses himself by climbing the exterior steps to the light, to plunge headlong into the sea. To kill one would only attract more for the smell of putrefying meat is an irresistible attraction.—Scientific American.

Invents "Ideal" Explosive.

A Minnesota inventor has compounded an explosive which has demonstrated remarkable qualities in recent experiments. While appearing to have great disruptive powers if closely confined, as in a shell or drill hole, it can be exploded only by means of a blasting cap or electric detonator. It is reported to give off no noxious fumes, that it will not explode when heated to 212 degrees Fahrenheit, that it will not freeze, and that it cannot be accidentally exploded by shock.

Early Crusaders Used Stills.

Few prohibitionists, says the Scientific American, are aware of the shocking fact that the vodka of the still in Europe was due to the original Crusaders, who took kindly to this eastern recreation and brought back with them recipes and methods that made the still as popular an institution as the royal jester—and doubtless helped along democracy by making it hard at times to distinguish the king from the clown.

Sequence and Consequence.

As showing how the combination of drink and driver works out, we give the terse report of Ben Quinn, an Indian of Kansas. He said: "First mile too slow took drink of booze; next mile faster, took another drink, last mile very fast, took another drink; then saw bridge in road, turned out for it."

Ben is now in the hospital with a broken arm.—Boston Evening Transcript.

The Herald, 15c per week, delivered.

"Citizens Court" Will Investigate Recent Outrages

General Exodus of Alleged Strikers Begun from Harrison, Ark.

(By The Associated Press) HARRISON, Ark., Jan. 18.—Altho the circuit court and the grand jury were in session here last night, interest centered in the activities of the "citizens court"—a self-styled tribunal of twelve men appointed yesterday by the "committee of 1,000" to investigate the recent burning of railroad bridges and destruction of other property along the line of the Missouri & North Arkansas railway, which resulted in an outbreak here Monday.

The "citizens court" announced late yesterday that it would give a complete statement of its "findings." Deputies have been dispatched for several persons, wanted for questioning by the "citizens court," according to Sheriff Maddox, who intimated some of his assistants were seeking persons indicted by the grand jury.

Little Rock authorities have been asked, according to an unconfirmed report, to take into custody Pete Venable, former employe of the railway, when it was reported he intended to return to his home here, from which he fled yesterday.

Two alleged strikers, "Red" Orr and Luther Wise, are said to have pleaded guilty to charges of arson in connection with the bridge burnings and sentenced to seven years each in the penitentiary. They were reported last night enroute to the prison at Little Rock.

Albert Stevens, a former railroad conductor, also charged with arson, failed to appear in court yesterday morning and his bond of \$10,000 was declared forfeited. His bond, it is said, was signed by George O'Neil, hotel owner, who was publicly whipped Tuesday.

Three members of the city council—W. G. Darity, Will Larimer and George Mimous—resigned and their resignations were accepted, but Mayor J. M. Cline refused to quit office at the request of the "citizens court." City Marshal Parr, who was reported to have fled from Tuesday, returned yesterday and declared he "is still" and won't resign.

Gertrude Branham, daughter of John Branham, former Missouri &

Inspiration Pictures Inc. Present Richard Barthelmess in "TOL'ABLE DAVID" Directed by HENRY KING A FIRST NATIONAL ATTRACTION

AT THE PRINCESS ONE DAY ONLY THURSDAY, JANUARY 18th

North Arkansas employe, created a stir when she fired into a group of committee investigators who went to the Branham home in search of help, wanted as a witness before the "citizens court." No one was injured.

The general exodus of alleged strikers, their families and strike sympathizers, begun Tuesday with the "arrest" of the clean-up campaign, continued last night despite the fact that Sheriff Maddox, of Boone county, had advised Governor McRae during the day he had the situation well in hand. Armed guards, numbering approximately 300, were on duty here last night. In addition more than fifty special deputy sheriffs had been assigned to places by the sheriff.

Annual Founder's Week at Rollins to Begin February 22

ROLLINS COLLEGE, Winter Park, Fla., Jan. 18.—Preliminary announcements of the plans for the 1923 Founder's Week celebration were made recently by the committee in charge of the arrangement of the affair. The event will occur from Thursday, Feb. 22, through Sunday, Feb. 26, and is being given in honor of the thirty-fifth anniversary of the founding of Rollins College and the forty-first anniversary of the founding of Winter Park, Fla.

Definite dates of the various sessions of the proposed program have not been definitely settled except that the committee has agreed upon February 22 as civic day, the city officials having entire charge of the day's doings. At the present the Winter Park authorities are preparing a program for civic day, which, it is rumored, may include an address by Governor Hardee.

Other events that will find a place on the Founder's Week program are: The Irving Bacheller prize essay contest for Florida high school boys and girls, including presentation of prizes by Mr. Bacheller; the thirty-first anniversary dinner of the Delphic Literary Society; debate—Rollins vs. Breman; twenty-fifth annual meeting of the Rollins College Alumni Association; annual alumni luncheon in honor of seniors; the twenty-fifth anniversary dinner of the "Rollins Sandlot"; junior prom in honor of seniors; program under auspices of Rollins College Chapel Association, Irving Bacheller, president of the body.

FLORIDA FACTS

Bank deposits in Florida have increased 200 per cent in the last five years. There are 2,141 elementary schools in Florida, 141 high schools, four state schools for higher education and 15 denominational schools. The average in this state under actual cultivation is less than 3,000,000. The total acreage of the state is 35,000,000. Florida's governor is not eligible to succeed himself. He serves a four year term. Florida's population in round numbers is 1,000,000.

TAILOR-MADE ADVERTISING One great fact must be remembered by those who have made the decision to advertise. The advertising plan must fit the business to which it is applied. There are no ready-to-wear advertising plans; each one must be tailor made. The purpose of advertising is to increase business and NOT to relieve any one of his arduous duties. The manufacturer's salesman who regards advertising as a substitute for his own efforts has missed the point. His efforts are needed more than ever to support the advertising and put it across. His reward is larger sales. Likewise, the merchant who chooses the advertised brands because they are "soft and easy" selling, has overlooked the essential idea. Certainly they sell easier; but this is not the big important truth. Rather, he should see that the manufacturer's advertising is an instrument put into his hands for increasing his volume and speeding up his turnover. Looking at the matter in this light, he will bend every effort to co-operate with the advertising and seek to make it pay him additional profits. Advertising is not a form of perpetual motion that goes on forever without human assistance. The biggest problem any man has to settle after he has determined to advertise, and decided HOW to advertise, is this: How can I use my advertising so as to get the most out of it? Without close-linked co-operation it dissipates its force into air. It must be hitched on to a business properly. Then it must be utilized with intelligence. When these conditions are fulfilled it does a type of work for which there is no efficient substitute. (Published by the Sanford Daily Herald in co-operation with the American Association of Advertising Agencies)
