

SANFORD SCHOOLS CLOSE THIS WEEK WITH GOOD PROGRAM

MUSICALS, RECEPTIONS, GRAMMAR SCHOOL COMMENCEMENT EXERCISES

Graduates Entertained
The graduating class of 1920 have been unusually gay and as the last day of school approaches, the fun grows fast and furious, each day adding a new pleasure to those already enjoyed. Monday night, twelve of the "sweet girl graduates" were charmingly entertained at the pretty home of Mrs. Sandy Anderson, with Mrs. Anderson and Mrs. T. O. Charles the gracious hostesses.

Each girl had the privilege of inviting a friend so twenty-four young people gathered for an evening of real delight and one of the happiest of the delight group of parties that have been given in their honor. The rooms were lovely with bongan villas and yellow nasturtiums, a simple and effective decoration carrying out the class colors of purple and gold. Cake and ice cream were served at the refreshment hour and dancing was enjoyed throughout the evening.

Junior-Senior Banquet
One of the most enjoyable events of commencement week was the Junior-Senior banquet held at the Valdez Hotel last night at which the Junior Class of the High School entertained the Seniors, the members of the school board and the county superintendent and the teachers. The beautiful Valdez Hotel lends itself admirably to affairs of this kind and the dining room never looked prettier than last night with the softly shaded lights in their night caps of gold and purple crepe paper. Streamers of the same kind were looped from the chandeliers to the ceiling and from the balcony which was also decorated with the class colors and ferns and flowers and all during the banquet Stumson's Orchestra rendered popular airs from their high position. The banquet table was lovely in its simplicity the class colors predominating and huge bowls of flowers and ferns, hand made nut bowls made from purple and gold paper, napkins dressed as Seniors in cap and gown and hand painted place cards in class colors and with miniature diplomas showed that the Junior class under the guidance of Miss Gordon had done themselves proud in these beautiful and most appropriate decorations. Miss Gordon of the High School staff planned the affair from the decorations to the menu and demonstrated that all of her knowledge is not confined to book lore but she has a practical education as well.

When all had been seated at the long banquet table the following menu was served as only the Valdez Hotel under the able management of Mr. and Mrs. Campbell and Steward Harvey know how: Sparkling Catawa Fruit Punch a la Valdez
Relishes
Stuffed Olives Mixed Pickles
Salted Almonds
Bisque of Tomato, Saltines
Turkey with Celery Dressing
New Potatoes Green Peas
Asparagus with butter sauce
Pineapple Salad with Marschino Cherries
Strawberry and Vanilla Ice Cream
Sponge Cake, a la Sanford
Demi Tasse Cafe Noir
After the last vestige of the feast had been taken away Hon. T. W. Lawton acting as toastmaster made the opening address in his usual humorous style and called upon the following Students and Teachers to respond to various toasts:

Curtis Barber, Adele Rines, Chas. Henderson, Miss Gordon, Edward Henderson, Henry McLaulin, Miss Vivian Crosby, Albert Smythe, Cora Lee Tillis and Prof. Claude Ogilvie.
The toasts and responses brought out the many events in school life and were exceptionally good and brought forth many a laugh from those present who have been associated together in school life for the past four years. Toastmaster Lawton was at his best and interspersed his bright remarks all through the even-

ing in his inimitable introductions and the affair was sparkling with wit and humor and the deeper emotions of friendship and loyalty and patriotism.

There being no members of the school board present R. J. Holly was called upon to make a few remarks upon the schools and school life. At a late hour the toastmaster called the banquet to a close and after an informal reception in the palm room of the hotel the merry party broke up with the thought that they had never spent a more pleasant or profitable evening and their thanks are due to the Junior Class for arranging such a delightful affair and staging it in such a charming manner.

East Side Primary School Exercise
Excellent arranged and skillfully executed to the smallest detail, the annual commencement program given on Wednesday by the pupils of the East Side Primary School was cleverly adapted to suit each child and the thought of the season was carried out with regard for the nicest detail in the lovely flower cantata which was presented by these little folks. A large audience of proud mothers and admiring friends gathered to enjoy the unusually fine program. Mrs. Arrington principal, gave an interesting, informal explanatory talk on the work of the children stating that the work of the year, centers around each month and that the songs and playlet embodied the months of April and May, in their usual course.

The cantata was wonderfully pretty, the sweet faces of the children vying in beauty with nature's own children of the flower kingdom. Sweet-peas, violets, buttercups and daisies; tulips, carnations and forget-me-nots crowned each little representative of Flora's garden. There was a dear Jack-kn-the-pulpit who declared that he "preached his sermons and nobody would listen." A group of cunning little gardeners who brought the most wonderful seed in the world to plant in their

gardens and mother Nature then took the situation in hand and called upon the flowers to waken. Falling in her efforts, through a trumpet flower telephone she sent a message to the sunshine fairy and later enlisted the help of the Raindrop fairy who came to her and after the second effort, when robin redbreast, the blue jay and cardinal flitted here and there about the garden enjoying their sweet songs of spring, lo! and behold those lovely flowers awoke, a long row of sweet peas and the other flowers of spring. Solos and duets and choruses filled the rooms with magic music, the childish voices blending in sweetest harmony.

Another success had crowned the efforts of Mrs. Arrington and her efficient corps of teachers, Mrs. B. A. Howard, Mrs. James Moughton and Miss Nettie Maine.

The work exhibited of the three grades was remarkably fine, showing all depth of care and thought on the part of the teachers in their training and splendid execution on the part of the pupils, as the work was unfolded by the teachers it was particularly interesting and became individual. The cut out work and coloring exhibited in the posters and borders of the various rooms done by the children was excellent and the sand table was a prolific source of wonder. The little booklets were wonderfully neat and attractive. The teachers have reason to be proud of their young charges and the splendid exhibit made by the school. A glimpse into the constant training and vigilant development of faculties as given in these annual exhibits but serves to prove an object lesson for the raising of teachers salaries.

Baccalaureate Sermon at High School Auditorium.

An excellent sermon and good music marked the opening of commencement week when the baccalaureate sermon was delivered at the High School auditorium on Sunday by the Rev. Dr. Brownlee of Greenwood Miss., to a large audience composed of the faculty and pupils of the Sanford schools, and their many friends. The invocation was given by Dr. E. D. Brownlee and the scripture reading by Dr. Brower. A beautiful solo was rendered by Mrs. A. M. Phillips accompanied by the orchestra which included Mrs. Robert Herndon, cornet, Mrs. C. J. Marshall, violin Miss Julia Laing, pianist, Mr. Stumson and Mr. Ernest Gormly. The baccalaureate sermon invariably ushers in a week of good things and this year is no exception to the rule for fine programs in all the schools have been rendered,

characterized by thoughtful preparation and a spirit of enthusiasm.

Trotman Is Freed

Attorney A. K. Powers obtained a writ of habeas corpus for his client J. F. Trotman who was found guilty of having liquor in his possession and who was fined by Municipal Judge Maines on Tuesday morning. The case was heard before Judge Perkins at DeLand yesterday and the writ granted which means that Trotman will be freed unless some other charge is brought against him. It is the opinion of many that he will go slow about either having liquor in his possession or giving it to base ball players in the future.

Fred Bass Retires From Race

Fred Bass was here yesterday circulating among his many friends and in an interview stated that he had decided to retire from the race for State Senator as he had accepted a position that would require all his time and attention and to run for the office meant his declining a good paying position. He wishes to thank his friends in this county for their proffered support and their many kind words in his behalf and if he cannot become senator this time he can still be in the ball games.

Wight Tire Co. Has Franklins

The Wight Tire Co., make an announcement in this issue of the Herald that is important to those who are contemplating the purchase of a new car. They have taken the agency for the Franklin car, the air cooled car that eliminates the troubles of the water cooled car, that is light enough to save tires and that takes less gasoline and oil and is most economical in every way. See the new model Franklin at the Wight Tire Co., garage and ask for a demonstration.

Presbyterian Church

Rev. James Conway D. D. of Orange City will preach morning and night Sunday at the Presbyterian Church.

Wire Tappers Escape

Clearwater, May 18.— Sheriff Slott said today that he had no clue to the persons who are believed to have furnished saws and an automobile for O. Williams, under sentence of three years on conviction of wire-tapping, who escaped from jail here last night with two other men held for trial on similar charges. The other two men are George Waterman and W. F. Williams, while H. Danton held on a similar charge, was left behind.

CAMPBELL HAS THE VALDEZ

Sanford's New Hotel Is Under New Management For The Season.

Mr. and Mrs. C. H. Campbell have taken the management of the new Valdez Hotel as former manager MacNeale had other interest that took him north and the new management took effect last week. Mr. and Mrs. Campbell thought at first they would take the dining room but the directors of the hotel prevailed upon them to take over the entire management of this fine hotel and they are now giving the public service that made them famous while they were in charge of the Seminole Hotel. Mr. and Mrs. Campbell need no introduction to the public as they are well known to the trade and have the reputation of making the patrons of their hotel feel at home at all times and they believe in giving them the best that the market affords in the dining room and the best accommodations at all times. Charlie Campbell is one of the best known commercial men in the state and the news that he has taken the management of the Valdez will be good news to his many friends all over the state. The Valdez under the new management will maintain the same high standard that it has had since its opening day and this is saying much.

Living In Tents

Newark, N. J. May 07.—One hundred and ten families, evicted by landlords are comfortably housed in Vailsburgh Park today under tents loaned to the city of Newark by the war department. It is a real Tentville whose denizens although temporarily homeless, are as happy as could be expected in a community forced to live outdoors. It is expected that, before the end of summer, 200 more families will have joined the little colony.

Republicans Favor Bonus

Washington, May 19.—House Republicans in party caucus tonight came out squarely for enactment of soldier relief legislation as advocated by the American Legion.

Before deciding in favor of the legislation the Republicans refused 141 to 49, to postpone indefinitely all action of relief legislation. Several Republican leaders, including a majority of members of the steering committee, were said to have supported the motion, but there was no record vote.

The only record vote of the caucus was the defeat, 95 to 78, of a motion by Representative Wood of Indiana to strike out the provision to carry out the Lane-Mondell plan for settlement and reclamation of western lands.

CANDIDATES HAVE SPEAKING

Picnics at Ovidio and Chuluota Give Them a Chance to be Heard.

The county candidates have not wanted any big speaking events this year but they have participated in several small affairs and never lose an opportunity to mingle with the people wherever there is any likelihood of having a chance to talk to several hundred gathered together. Last week they attended the picnic of the Woman's Club at Ovidio and the majority of them spoke to those assembled after the eats had been assimilated.

Yesterday there was another picnic at Chuluota and a big crowd assembled to partake of the good things the people of Chuluota know how to get together and the candidates had a chance to speak and to do much quiet gum shoeing. The local politics is very quiet this year and but few gatherings have been arranged for the express purpose of hearing the candidates. Those who are seeking office are busy with their business affairs and most of the voters are too busy to take much time for a big gathering and there will probably be but little political gatherings in this county until they all meet in Sanford on Saturday night before election.

At this meeting all the county candidates will have an opportunity to speak and the two candidates for the State Senate, M. O. Overstreet and N. O. Bryan will also be here to set forth their claims for the suffrage of the people of Seminole county.

Legion Will Hold Re-Union At Tampa

Tampa, Fla., May 14.—The American Legion of Florida will have one of the largest war veteran reunions ever held in the State when the veterans of the recent World War meet at Tampa June 21 and 22. The U. S. S. Tampa Post No. 6 is making elaborate preparations to entertain the Legion members while they are here and plans are being made to take care of a record attendance.

The second annual convention of the Department of Florida, American Legion, will be held in conjunction with the re-union. Delegates from sixty five posts of the Legion in the State are expected to attend the convention. All members coming for the re-union will be allowed to sit at the meetings of the convention but the voting must be done by delegates from the posts.

At the convention last year in Jacksonville no attempt was made to hold a re-union. Many of the soldiers and sailors had not returned from the service, and the interest in a state re-union was not as keen then as now. The sentiment over the State is so strongly in favor of a general gathering that the State Organization decided to hold a big re-union in connection with the annual state convention this year.

Charlie Lefler Here

Among the prominent visitors to the city this week is Charles D. Lefler of Miami who is the guest of his father C. H. Lefler and sister Mrs. Mary Strong. Mr. Lefler is here attending the commencement exercises his niece Miss Winnie Strong being one of the seniors. Charlie Lefler grew up in Sanford and from this city went to Miami in the early days where he proved a strong factor in the upbuilding of that city. Being a man absolutely on the square and standing for the best things in all that pertains to spiritual and moral welfare he has become a leader in his home city and is also one of the successful business men of Miami. His many friends here are giving him a warm welcome in his home city and take great pride in his success.

For Constable

I hereby announce my candidacy for re-election to the office of Constable of Justice of Peace District Number 1. Your vote and support will be appreciated.

N. C. WHITTEN

Express Embargo Lifted

Washington, May 19.—Senator Trammell was notified today by the American Express Company that the embargo on fruits and vegetables which has been on for about a fortnight was lifted today and gives clear shipments for Florida products to all points.

Wrecking Sale--Carnes Hotel

I am now wrecking the Sanford House, more recently operated as the Carnes Hotel and have for sale all kinds of building materials which offer a big saving over present day prices. Remember, the lumber in this building was cut from virgin timber and is practically all heart, and will last longer than most of the lumber which we are getting today.

All orders will be filled in the order in which they are received and will be filled as rapidly as the material is available. All orders booked subject to prior sale.

Here are the prices which will show you some real bargains in this excellent material.

Framing lumber, less than 5000 feet	\$40	Tripple Windows, complete with frame and inside trim, each	15
" " over 5000 feet	35	Single doors, complete with frame and inside trim	4
Flooring and Ceiling less than 5000 feet	50	Double " " " " " " " "	8
" " " over 5000 feet	45	Front doors, Special prices	
Siding, less than 5000 feet	45	Second hand brick not cleaned, per thousand	10
Windows, complete with frames and inside trim, each	5	Scrap Lumber per two horse load	5
Double Windows, complete with frames and inside trim, each	10	" " " one " " " "	3
Plate Glass windows, per square foot	1	Fire Wood, per two horse load	3
		" " " one " " " "	2

Place your orders early as this material will move rapidly at these prices and many applications are already in.

S. O. SHINHOLSER, Contractor

Seminole Bank Building

IN SOCIETY'S DOMAIN

(Continued from Page 5)

Mrs. A. B. Mahoney has returned from a visit with her brother, Mr. Chas. Ryan at Palatka.

Friends of Mrs. J. C. Cowan will regret to hear of the serious illness of her mother, Mrs. G. W. Peterson, who is here from Emporia.

Mr. and Mrs. Lyman and little son arrived from Sannibel Island on Tuesday.

Friends of Mrs. C. A. Raulerson of Geneva will regret to hear that she has seriously injured her foot which will confine her to the house for several weeks.

Mr. and Mrs. D. L. Thrasher spent several days of the week at Wauchula.

Mrs. Edwards has returned to her home in North Carolina after pleasant visit with Mrs. Edisop Freeman.

Mrs. G. B. Frank who has been spending several days in Orlando with Miss Nona Wylly has returned home.

Mrs. F. L. Chamberliss of Geneva is the guest of Mr. and Mrs. David Speer.

Mrs. W. E. Watson left on Thursday for an extended visit with her mother, Mrs. R. S. Keelor in her New York home.

Mrs. Hal Wight is leaving to-day (Friday) for Charleston, West Virginia. Little Miss Billy Bouchelle Wight will accompany her home.

Mr. Harry Ward, Mrs. R. C. Bower, Master Harry Bower and little Camilla Madge Deas are spending the week at Daytona Beach.

Christian Endeavor Social

The Christian Endeavor Society of the Congregational church was most delightfully entertained by Mrs. W. W. Van Ness and her young daughter, Miss Nelda Van Ness on Friday evening. Games and music furnished occasion for much merriment, the "gossip" being especially humorous. Orange punch and delicious cakes were served by the hostess.

Engagement Announced

Mr. and Mrs. Schelle Maines announces the approaching marriage of their sister, Miss Nettie Maines, to Mr. Thomas Moore of Milton, Florida. The wedding will take place Thursday, June the third, at the Baptist Temple, at nine o'clock in the evening. The announcement

will be received with cordial interest by the many friends of the young couple both here and elsewhere for the families are well known throughout the state.

Nut Party

Friday afternoon in honor of Mrs. C. L. Friel & Mrs. Hal Wight entertained with a "nut party" an original and unique affair in which nutty games, nutty eats and nutty conversation played a prominent part. Three tables of bridge was played during the afternoon at which the scores were kept in walnut shells. Refreshments whose chief ingredient were "nuts" were served on plates of cocoanut and the prize which was won by Mrs. Housholder was a loaf of nut-bread. The guest of honor was presented with a set of luncheon dainties. Mrs. Sam Younts assisted the hostess.

Closing Meeting of Literature Department

The closing meeting of the Literature department last Wednesday afternoon was one of the most enjoyable and interesting of the year. Owing to the illness of Mrs. L. R. Phillips the chairman, Mrs. D. A. Kelly the newly elected chairman, who will go into office in October, ably presided. Many regrets were expressed over the absence of Mrs. Phillips who has filled the chair for three year with efficiency. The farewell address was read by Mrs. A. D. Key. Mrs. E. W. D. Dunn of Orlando, a former active member of the Woman's Club was an honored guest of the department and presented a very fine paper on the Irish topic of the meeting. Mrs. Dunn's annual paper is always anticipated with much pleasure and a cordial welcome invariably awaits her. A group of Irish songs were sweetly rendered by Mrs. A. M. Phillips. At the conclusion of the program a delightfully informal social hour was enjoyed and refreshments served.

T. N. T.'s Have A Delightful Meeting

The jolly little sewing club, the T. N. T.'s had an unusually attractive meeting last Friday when Mrs. Henry Purdon entertained the club and a few other friends in honor of her sister, Mrs. Jack Hewlitt from Georgia.

Garden flowers of every variety adorned the rooms and a refreshment course of salad and ices were served at the close of the afternoon.

Nutty Party Given By Circle D.

Circle D of the Presbyterian Missionary Society entertained last Friday evening with a "nutty party" for the benefit of the Pipe Organ fund, at the home of their chairman, Mrs. Harry Ward which brought out a big crowd of fan-makers and pleasure seekers for a nut party's is a novelty in entertainments that was exceptionally original. The nut suggestion was carried out in every detail, games, eats 'n everything and a goodly sum was netted for the treasury.

Charming Afternoon Luncheon

In honor of the eight graduates who are members of her Sunday School class, Mrs. W. S. Thornton entertained Wednesday afternoon with a beautiful luncheon at her home on the west side.

The dainty appointed table with its decorations of purple and gold, the senior colors, was centered by a lovely basket of Marchal Neil roses and sweet peas, a big bow of gold ribbon ornamented the handle from which long streamers reached to the guest places attached to the pretty little favors. A golden basket decorated with violets and filled with bonbons. A delicious five course luncheon was served. The hostess was assisted by Mrs. C. W. White.

Enjoying the happy affair, one of the most attractive with which the graduates have been entertained were Misses Anna Mason, Carolyn White, Carolyn Spencer, Ellen Chappell, Gladys Adams, Martha Brown and Cora Lee Tillis.

Prominent Club Woman In Town

Prominent among the visitors in Sanford this week was Mrs. Edgar Lewis, former president of The Florida Federation of Woman's Club. Mrs. Lewis arrived here from Gainesville and is making a tour of the clubs, in the interest of the University extension course in citizenship. She was accompanied by her daughter, Mrs. Rosenberg and together they are touring the state in their car, visiting clubs in passing.

Society Personals

Mrs. C. W. White of Ocala is here for commencement week, the guest of Mrs. W. S. Thornton.

Mr. and Mrs. Roy Symes and family are moving this week into their beautiful home at Winter Park.

Mrs. W. B. Clay and daughter, Miss Margery Clay are the guests of Mrs. Frank Miller.

FISK CORD TIRES

GOOD mileage, good looks, good traction—all to an extreme degree—are features of these tires. In their making and in their selling, the Fisk Ideal is a vital factor.

The Fisk Ideal: "To be the best concern in the world to work for, and the surest concern in existence to do business with."

Next Time—BUY FISK

Kent Vulcanizing Works
J. B. Lawson Motor Company

ADDITIONAL LOCALS

Mr. and Mrs. Froy Rousseau and family of Miami are in the city the guest of relatives.

Hon. Arthur Donegan of Kissimmee and Orlando was in the city yesterday enroute home from points on the east coast. He stopped over here to see some friends.

Fred Bass of Kissimmee was in the city yesterday circulating among his friends and talking automobile.

Manager Perry of the Southern Bell Telephone Co., is taking his vacation by going to the hospital at Savannah for an operation and

during his absence his office here is being held down by F. L. Tharp of the Orlando office. The many Sanford friends of Mr. Perry hope for his speedy recovery.

Dr. S. Puleston left yesterday for Miami where he will be absent for several days on business.

Mr. Arthur J. Smith of Savannah Ga., is the guest of his sister Mrs. R. A. Terhoun.

The Congregational Church

Morning: Memorial Day Celebration, topic "Brave Leaders and Brave Men."
Evening theme: "Jonah's Danger-

ous Sleep." You are invited to attend our services of worship at and seven thirty, with Sunday school at 9:45, and Christian Endeavor at 6:30.

For County Commissioner

I hereby announce my candidacy for the position of County Commissioner for District No. 1 subject to the decision of the Democratic primary to be held on June 8th. Being familiar with the needs of the county and with my years of experience in road work I believe I can serve the people of Seminole county satisfactorily.

A. F. BELL.

THE FRENCH SHOP

BERLIN SWEEP BY CRIME WAVE

Burglars, Holdup Men and "Aristocratic Swindlers" Are Reaping Harvest.

MURDERERS ALSO ARE BUSY

Cafes and American Bars Are Resorts for Pickpockets and Thieves—Smashed Skulls an Everyday Occurrence in German Capital.

Berlin.—Berlin is being swept by a crime wave such as perhaps no city in Europe has known in modern times. A German minister remarked a few days ago that profiteering now is hardly considered a crime, and that if it were possible to the every profiteer in Berlin to a lamp post there would not be enough lamp posts.

However, it is not alone the profiteer who holds Berlin in his iron grasp. Equally menacing is the daring burglar who will not stop even at murder; the outlaw who defies the law and all authority and who holds up men and women in the street or in the road; the so-called "aristocratic swindler," who, with an imposing title and a female companion, preys on the stranger and finds his victims in the expensive hotels and restaurants.

It has been remarked truthfully that it would be difficult to recall in modern history a happier hunting ground for cutthroats and rogues than is the German capital. Indeed, life here has degenerated such a state of insecurity that it now takes much to shock or even cause a thrill of interest among the people, so accustomed have they grown to murders and robberies and unnatural crimes.

Nails Children in Barrel.
Many of these crimes which are being committed in Berlin are unexplainable from human standpoints. For instance, a case was reported where two children remained away from their home too long on the occasion of their mother's birthday. When they returned home their mother dragged them to the garret, thrust them into a barrel and nailed down the cover. Another case was that of the murder of a feeble and aged fortune teller for the sake of a few coins which she had saved.

In the midst of the daily and nightly holdups and the murder wave which is sweeping Berlin there was one case which attracted wide attention because of its horror. It was known as the Falkenhagen Forest murders. The murderer when he was arrested was unable to remember all the murders he had committed or his outrages on innocent persons. In one instance he locked his victims in a house and set fire to it, meanwhile shooting into the house while it burned.

The exploits of the Strauss brothers was another case which attracted wide attention here. Before the war these two men were burglars. One of them interrupted his criminal career to fight for Germany. He won the Iron Cross, but as soon as hostilities ceased returned home and joined his brother in the old pursuits. Finally they were arrested, but one of them managed to escape from prison.

Frees Brother From Jail.
He soon returned to the jail, however, overcame all opposition and released his brother, with the result that they went back to the business of robbery. A nationwide hunt for them followed. When the police located them there was a battle in which two policemen were killed and two wounded, and the Strauss brothers again succeeded in escaping. Finally they were arrested in the east end of Berlin.

Almost daily one hears of somebody's skull having been smashed "only a few blocks from where I live" or that somebody was stunned and robbed "before my eyes." The police seem powerless to control the situation.

The so-called "aristocratic swindler" and robber is reaping a harvest. He finds his prey usually in an American bar, becomes acquainted with the man he intends to rob and offers him a "prepared" cigarette, which promptly

blinds the victim. The thief then proceeds to pick his victim's pocket in a leisurely and dignified way.

Street battles between robbers and persons whom they would rob are frequent occurrences. In one of these battles in the Wedding district recently two civil guards and a burglar were killed. On another occasion two parties searching for a thief fired on each other in the dark with fatal consequences.

Finds \$1,200,000 Order; Returns It; Reward of \$2

New York.—Harry Hahn, seventeen years old, stepped on a piece of paper on lower Broadway. He picked it up and found that it was an order on the Bank of Montreal to give the bearer \$1,200,000 in railroad bonds. The boy returned it to a brokerage firm and received a reward of \$2 and the information that he was an honest lad.

HELPING STARVING POLES

Mrs. Sophia Romorska, secretary of the American Red Cross in Warsaw, Poland, in her office in the Red Cross headquarters in that city from where relief among starving Poles is being administered.

ITALY SEEKS ORIENT'S TRADE

Gets Out to Develop Closer Relations With Japanese—Ready Demand for Products.

Rome.—Italy has turned her eyes to the Orient to find new fields of trade and to develop close relations with Japan.

Italian money is at a premium in

the far East and manufacturers say they find a readier demand for their products there than in western countries. Importations from the East are also sought for Italy can carry on this trade under the best financial conditions.

Demonstrations favorable to Japan have been held in many Italian cities recently, the one at Naples during the visit of a Japanese squadron to that port being most notable.

Decision to reestablish freedom of commerce soon, probably by June, has been reached by the council of ministers. Cereals, sugar and other foods in which the state holds monopolies will probably be excepted.

Says 'Spanking Machine' Makes Bad Boys Good

Bridgeton, N. J.—"Spare the rod and spoil the child" is no mere proverb at the Bridgeton city hall, where Mayor Arthur C. Whitaker has his famous "spanking machine" in operation.

More than a hundred boys and a few girls, too, have gone through the "spanking machine" in the seven years that Mayor Whitaker has been in office, so he declares that it is now well beyond the experimental stage.

The "spanking machine" savors in nowise of the old whipping post. It is not an implement of torture, but for beneficial chastisement, says Mayor Whitaker, who has a boy of his own.

Blind Man Knew It.

Knoxville, Tenn.—Government census takers were so surprised when Knoxville reported a population of 77,818, a gain of 14.1 per cent, that they sent investigators here, but W. F. Sanland, totally blind, knew the figures were correct. Following a school census, he announced that the city's population was 77,089. Sanland has perfected a census taking system which has been adopted by the public schools.

Boy Saves Three.

New York.—James Toussent, fifteen, was the hero of a fire at 828 Ninth avenue. He led his grandmother and two other women to safety, guiding them along a coping over a store and lifting them through the windows of an adjacent building.

Large Lemons.

Fresno, Cal.—A horticultural freak of more than usual interest has been discovered in Fresno county in a lemon tree whose fruit average 22 inches in length. The fruit is a cross between a lemon and a grapefruit having the flavor of the latter.

nel underwear. For weeks his wife had tried to serve a sur-nons on him to appear and pay back alimony. For months a stenographer had been trying to collect a judgment for breach of promise.

Hon. James Henry Smith was entitled to smile. At Stingen-by-the-Sea he was safe. Armed guards patrolled his grounds. Charged wires protected the entrances. Bloodhounds sniffed the pathways. There was a bronze padlock to the front door to which the Hon. James Henry held the key. A detective sat in the hallway with a shotgun in his lap. Just outside the drawing-room door a burglar alarm was concealed under a rug. Yes, take it all in all, it seemed safe.

As the Hon. James Henry mused, a little, smiling individual appeared at the front entrance. He jumped nimbly over the charged wire, slapped the captain of the guards on the back, put a duplicate key in the padlock, shoved a cigar in the detective's face, slipped nimbly over the burglar-alarm rug, and, pushing open the door to the drawing-room, stepped inside.

"Hello Jimmy!" he said affably. The banker rose heavily. "Who in h— are you?" he asked in a hoarse voice. The little, smiling individual chuckled his hat on a table and pulled out a wad of copy-paper and a pencil. "Who, me?" he chuckled. "I'm a reporter. Nice place you have."

And the interview was on . . . Cleveland Plain Dealer.

USE BASEBALL IN TEACHING

Novel Method of Teaching Spelling Adopted by School in Pennsylvania.

Kane, Pa.—Public schools here have adopted a new and novel method of teaching spelling.

On suggestion of the teachers, it is known as the "baseball system" which eliminates monotony from the study and creates an interest second only to that of outdoor sport. It is nothing more or less than playing baseball with words.

The schoolroom is the diamond, the corners being used for the bases and the teacher is the "pitcher." The pupils are the "players." A pupil "at bat" advances to the corner of the room designated as the "plate," and the teacher pronounces three words. If all are correctly spelled the "player" moves to first base, having made a "hit," each succeeding player who makes a "hit," advances him a base until he is scored.

As each succeeding player makes a "safe hit" he goes to first base and the run scored counts for the side the player represents. When a player fails to spell a word correctly he is declared "out" and goes to his seat, which is the "players' bench." The rules of the national game are adhered to as strictly as possible, there being three out. It requires several days to complete nine innings.

Big Men Who Are Unusually Bright Are in the Minority

It is generally accepted that great development of the powers of the brain is usually accompanied by only moderate animal or physical life. In those cases where high development of both is found, it is emphatically marred by shortness of existence or defective vitality in the structures of organic life and low organization. Mental celebrities of large stature have been in a noticeable minority, and the standard of health very low; in fact, according to John O'London's Weekly, from Alfred the Great to Schiller the physical defects have been painfully apparent, and the roll of deathless names seems to be the list of a gathering of invalids and cripples.

Made Study of Ocean Currents.

Admiral Pillsbury, who has just died at the age of seventy-three, never shirked a fight, yet in the development of his career he came to be known more as a scientist than as a fighter. He had made a more careful study of the Gulf stream and of ocean currents generally than any other naval officer; and in this field of research he had few rivals. Among those rivals was the prince of Monaco, who has also made a specialty of currents. Admiral Pillsbury's monographs contribute very largely to the world's stock of information. The ultimate destination of drifting mines gave particular value to this phase of oceanography, after the armistice.

Better Postage Stamps.

Whether or not one is interested in postage stamps, except as a very temporary possession, a lick and a promise, one might say, that the post office will deliver the letter, it is pleasant to know, on the word of a writer on philately, that the new stamps that come after the war are much finer artistically than those which formerly circulated. The subject offers itself to an essayist; and his study would perhaps show a steady improvement during the last few decades in the artistic quality of many everyday things, for example, that prepared the way for the artistry of the posters that played so large a part in the war, and now expresses itself in the design of the new postage stamps. Artists of distinction, in fact, have been called upon to design many of the new stamps, as during the war they designed many of the posters.—Christian Science Monitor.

He Didn't Care.

Pupils from Technical high school were making the usual afternoon trip to town on an overcrowded East Michigan street car. Mr. Flirt was also making the trip to town on this particular afternoon, and from an advantageous position was making eyes at the girls. "That fellow doesn't seem to care who he winks at," suggested one of the feminine members of the crowd. Then five seconds later: "Oh, heavens—he winked at me!"—Indianapolis News.

10,000 Tons Coal Daily. Alberta coal mines have a daily output of more than 10,000 tons.

A Warning to Property Owners

Building and Furniture Values Have More than Doubled. Note the Increase Between 1914 and 1920

	1914	1920
Framing Lumber, per 1000 feet	\$16.00	\$60.00
Flooring, per 1000 feet	27.00	92.00
Sillings, per 1000	3.50	9.50
Laths, per 1000	2.00	15.00
Nails, per keg	2.75	6.50
Bricks, per 1000	6.00	22.00
Sand, per load	.75	1.50
Ready Mixed Paint, per gal	1.75	3.75
Linseed Oil, per gal	.56	2.50
Cement, per barrel	1.75	4.00
Plaster, per ton	10.00	22.00
Lime, per barrel	.50	2.00
Tinting, per pound	.08	.25
Painters, per day	2.50	6.00
Carpenters, per day	3.00	6.80
Brick Masons, per day	4.50	8.00
Laborer, per day	1.50	3.60

Purchasing Power of Dollar Now as Compared With 1913 Is Shown.

EXPANSION OF CREDIT CAUSE

Man With Income of \$2,000 Is Actually Drawing \$870 Upon Basis of Dollar Value in 1913—Gold Minea Closing.

Washington.—The man with an income of \$2,000 is now actually drawing \$870, upon the basis of dollar value in 1913, according to a statement to congress by Harold N. Lawrie, economist for the American mining congress. The purchasing value of the ounce of gold, which under statute cannot bring more than \$20.67, has, Mr. Lawrie claims, shrunk through inflation of currency until it is no longer possible for gold to be profitably produced.

Lowers Purchasing Power. The expansion of the national credit has lowered the purchasing power of a dollar through increasing all commodity prices. Based upon the pre-war prices of 1913, these prices grad-

ually advanced from 100 per cent in 1913 to 223 in October, 1919. Each increase in credits has been absorbed by a corresponding increase in commodity prices and has resulted in placing the nation upon an artificial plane of living. The gold producer finds the purchasing power of his ounce of gold is now \$9 instead of \$20.67.

Gold mines of the United States are being closed down at an alarming rate. Many of these can never be reopened owing to the prohibitive costs of retubing and unwatering.

Cripple Creek, the greatest American gold camp, is taking on the appearance of a city of dead hopes. Whole cities are being deserted and thousands of skilled miners are being forced to seek new camps because gold—the basic monetary metal of the United States—cannot longer be produced at a profit.

Jewelers Make Millions.

The manufacturers of the United States used \$21,848,500 more gold last year than was produced in the United States. The gold producer lost millions during the year. The manufacturing jeweler made millions because, while his goods mounted in value, he secured the gold at cologne price of \$20.67 per ounce, less than the cost of production. Seventy-five years ago the world produced but \$30,000,000 in gold per year. In 1915 the world produced \$463,000,000.

The gold stock of the United States suffered a loss in 1919 of \$292,700,000 by the excess gold exports over imports. The government has allowed vast shipments of gold for export. Meanwhile the production of the American mines has fallen from \$101,000,000 in 1915 to \$58,500,000 in 1919, a loss of 42 per cent.

At the beginning of the war, England arranged protection for all of the gold produced by British mines. This protection is still maintained and the gold reserves of England are being increased by imports from the United States, and their own heavy production of new gold.

45 Tons of Sardines Caught in One Haul
Monterey, Cal.—Catching 45 tons of sardines in a single haul, but forced to throw back into the water all but five tons "on account of shortage," is the experience of sardine fishermen of Monterey bay, according to a writer, who describes a trip taken with a party of fishermen. "If we could sell all the fish we catch we would soon all be rich," the captain is quoted as saying. The boat made its catch in about two hours and the writer remarked: "It is hard to believe that such quantities of food lie right at our door, and only a small part of it utilized."

HORSE HAS A CLOVEN FOOT
Thought That Its Two Toes Show a Reversion to Prehistoric Ancestors.
London.—A bay horse with a cloven foot is exciting much interest at the World's fair here. The horse is the offspring of a shire stallion and a Welsh mare, and it is suggested that his two toes indicate a reversion to his prehistoric ancestors. Prehistoric horses had three or more toes on each foot. One of the earliest members of the horse family, Phenacodus, is said to have had five toes on each foot.

600 Car Loads of Spuds
 St. Augustine, May 19.—The potato growers of the Hastings district closed a very satisfactory week of the shipping season last evening. It is estimated that approximately six hundred carloads of the spuds were shipped from the entire district during the week closing Saturday night. Reports from the leading growers and shippers show that the yield, while erratic and irregular, has been very good on the average thus far. Some of the growers are getting very high yields, some as high as sixty barrels to the acre, while other fields have fallen to a yield of but thirty-five barrels to the acre.

WATCH YOUR COSTS

Important Economy Features of Commercial Cars.

"A commercial car is judged on the basis of its operating costs—costs that can be figured in terms of money and time," says E. J. Taylor of the Taylor Motor Co., local dealer in Chevrolet passenger and commercial cars.

"One of the principle items of expense is gasoline. Another is tires. Economy in these therefore is important.

"In selecting a commercial car care should be taken to see that the motor, in addition to being mechanically dependable, is known for its economy in fuel consumption.

"The capacity of the truck should be so well proportioned to the power as to result in a further saving of fuel; and also in a saving of tires.

"Furthermore commercial cars should be equipped with electric starters. This is an important feature in saving both gasoline and time.

"The inconvenience of cranking the motor by hand is unpleasant to the average driver. It is a common practice, therefore, to let the motor

run while the car is being loaded or is standing at a delivery stop. This is a waste of gasoline and runs into considerable money in time.

"The electric starter eliminates this expense by eliminating the inconvenience which caused it.

"In addition the electric starter saves the time required to set the control levers, walk to the front of the car, crank a cold engine, and climb back to the seat.

"The combined saving of time and fuel effected in this way is a substantial item. It is a practical contribution to the greater economy of commercial-car transportation." (Advt.)

Oppose League of Nations

Atlanta, May 19.—Two delegates to San Francisco were elected by the Democratic state convention which closed its session here early today after going on record as refusing to endorse President Wilson's administration, the Versailles treaty and the league of nations covenant with reservations.

The majority, composed of supporters of United States Senator Smith and Thomas E. Watson, before the convention adjourned, elected delegates uninstructed as to candidates but ordered to vote only for a candidate favorable to the principles endorsed by the convention. The Palmer supporters after the convention itself had adjourned elected a delegation instructed to vote for A. Mitchell Palmer for president, as the winner of the Georgia presidential primary.

More Roads Bonds

Orlando, May 16.—By unanimous vote 250 tax payers of Orange county this morning at a mass meeting held in this city, expressed their approval of the calling by the county commissioners of an election for a \$150,000 bond issue for the purpose of building a sixteen-foot graded brick road from the eastern city limits of Orlando on a line due east through Fort Christmas to Indian River City to connect with a highway due west from Titusville already bonded for by the tax payers of Brevard county; to pave the route from Oakland west to the Lake county line; to widen Orange avenue north to the city limits of Winter Park, making one of the finest twenty-four-foot five-mile boulevards in the South, and to pave eastward from Winter Park to Gabriella.

Clothing Cheaper Now In City of Birmingham

Birmingham, Ala. May 16.—Local clothing merchants today issued a challenge to the overall club and the patch-em-and-wear-em club, woman's auxiliary, by offering to sell all cotton garments at cost. At the same time, Frank Spain, chairman of the fair price board, announced the merchants have agreed to confine their net profit to 15 per cent on men's and women's wear.

The action of Birmingham clothing Mr. Spain said, was taken at the request of the board, and a vigilance committee has been appointed to see that the 15 per cent profit agreement is carried out.

Slight reductions in the prices of clothing have been noted here since the organization of the overall club movement.

Men's suits can now be bought for \$35 to \$45. Women's clothing has shown a slight drop with the growing membership of the patch-em-and-wear-em club.

Pensacola Good To The Editor

June 15, 18 and 19 are the dates definitely selected for the annual meeting of the Florida Press association at Pensacola. The dates are satisfactory to the Pensacola committee and a program is being formulated for the occasion. The meeting was to have been held the first of the week but many of the weekly newspaper men protested and asked that it be changed to the latter end of the week so it will be held Thursday, Friday and Saturday. No special rates were obtained from the southern railroad passenger association but it is expected that there will be a large attendance from all over the state. Headquarters will be at the San Carlos hotel, Pensacola, the manager of which, C. D. Harvey, will tender accommodations complimentary to the editors. T. E. Fitzgerald, Daytona is president of the association and W. M. Haynes, Sanford, secretary.

No More Free Press

CHANDLER SIX
 Famous For Its Marvelous Motor

Why the Chandler Holds Its Leadership

THE Chandler car has attained and held its place of leadership among all sixes, by steadfast pursuance of worthy policies.

There is but one Chandler car, one Chandler chassis. To that chassis, for seven years, have been devoted the ambitions and the engineering ability and the sincere purposes of its builders.

Featuring this sturdy chassis is the famous Chandler motor, brought to a plane approximating perfection through these years of refinement and development.

Nearly eighty thousand Chandler owners know the excellence of this motor. They know its power, and the flexibility of its power. They know its endurance. They know its economy. They know it affords all the speed that any responsible driver would ever wish or dare to use. They know that on mountain roads it leads the way up.

On this one chassis are mounted six handsome and comfortable types of body, built by America's best body-builders and splendidly finished and cushioned.

You Will Be Delighted With a Chandler

deny the citizen, or newspaper, the right to criticize even the court bailiff, or the court room doorkeeper.

He did this when finding James L. Kilgallen, managing editor of the Indiana Daily Times, guilty of contempt of court (twice) and sentenced him to pay \$100 fine and serve two terms of ten days each in jail.

Editorials Demand Cleanup

The Times printed editorials demanding fair investigations of scandalous conditions in the county jail and illegal proceedings in the grand jury room. The Times held the court and its officials, judge, prosecutor and sheriff responsible for conditions complained of.

Suspended For Fighting

In pursuance of his plan to make a clean and gentlemanly sport of baseball in the Florida State League, President Walter W. Rose after an investigation of the charge of fighting on the ball field against players Ery of the Lakeland club and Bean of the Bradentown team on May 15th, ordered both players fined and suspended today.

Both players were assessed the sum of \$25 for rowdyism and remanded to the bench for a period of ten days.

President Rose stated today that he would suspend and fine any and all players, if the league rules as to behavior on the ball field were in any way violated, and the sooner the players becomes aware of this fact the more successful he will be financially. Players who are fined by their club for misconduct may also expect an added fine from the league.

Origin of the Hun.

The word "Hun" was first applied to a horde of savages, who, in the fourth century of the Christian era came into Europe from Central Asia, and under the command of Attila began to desolate the Roman empire, its colonies and dependencies. The word is an abbreviation of the Low Latin word "Hunni," meaning the Hiong-nu-Hungarian people, who, according to Chinese annals, constituted about the end of the third century B. C., a powerful empire in Central Asia.

Car Tracks Wear Tires.

The severest wear on solid tires is caused by driving on the car tracks, according to an official of a rubber company, quoted by the Scientific American. He says that when on the tracks most of the load is concentrated on a limited portion of the tread, so that it is overloaded and quickly worn away besides a sharp pointed frog may actually cut a piece off the tire just as a knife would.

Origin of Old Saying

If you will read up on the theological controversy between Arius and Athanasius over the nature of the second person in the Trinity you will get the plausible origin of the saying, "I don't care an iota."

greater part of his speech. Thus he paid tribute to the skill and industry of the men of the building trades which brought them compensation large enough to bring them into the ranks of the income-taxpayers.

Mr. Lake was well received by the audience. The amount of applause accorded him was as great as that which greeted Tom Campbell, candidate for the state senate.

Governor Requests Sheriff To Arrest Recruiters of Labor

Tallahassee, May 19. The governor has issued the following letter to the sheriffs of the several counties of the state: "To all sheriffs of the state of Florida. Dear Sirs:

Weather and Crop Conditions In Florida For The Week Ending May 16 1920.

Temperature: The week was mostly cooler than usual for the seasonal, midday temperature being only moderately high.

Precipitation: Except in the extreme west and extreme south, where some heavy local rains occurred, the week was somewhat drier than the normal. Showers occurred, however, in all districts, and the moderate rain was not needed on low lands over much of the section.

Condition of Crops: The absence of rain of moment over much of the section enabled farmers to make good progress chopping cotton, working corn, cane and peanuts, melon and truck. And the comparatively dry weather was especially favorable for the digging of Irish potatoes, and the work was pushed in the potato section; larger shipments were made from both the central and northern potato fields.

REPORT OF THE CONDITION OF THE FIRST NATIONAL BANK At Sanford in the State of Florida, at the Close of Business on May, 4th, 1920

Table with 2 columns: Resource and Amount. Includes Loans and Discounts, Acceptances of other banks, U.S. Bonds, etc.

Table with 2 columns: Liabilities and Amount. Includes Capital Stock Paid in, Surplus Fund, Undivided Profits, etc.

STATE OF FLORIDA, COUNTY OF SEMINOLE: I, B. F. WHITNELL, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

They used to call a man a "sport" when he bought an automobile

THAT was before the days when pretty nearly everybody owned one—or could, if he wanted to.

There was a lot of waste about motoring in those days. A man spent a lot of money on his car and never thought very much about what he was getting in return.

When a man buys a tire nowadays he has a pretty definite idea of what he expects to get out of it.

The dealer who sells him one that gives him less than he expects isn't likely to get any more of his business.

That's one of the reasons why we handle U. S. Tires—and recommend them to the

motorists of this community.

The U. S. reputation for quality is not built on any one tire.

There is not one standard for large U.S. Tires and another standard for small ones.

Every tire that bears the name "U. S." is built the best way its makers know how to build it. The oldest and largest rubber concern in the world cannot afford to play favorites in socking its public.

Come in and tell us what you are looking for in tires.

We can probably tell you whether you need a U. S. Nobby, Chain, Usco, Plain, or a Royal Cord.

Select your tires according to the roads they have to travel: In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco. For front wheels—The U. S. Plain. For best results—everywhere—U. S. Royal Cords.
