Co-operation Did It.

For several years everyone has realized the necessity of a modern high class tourist hotel in Sanford, if Sanford were ever to shake off those shackles which have bound her and vainly tried to hold her in the class of small towns. Everyone felt that all which Sanford needed to forge rapidly ahead was adequate tourist accommodations. Everyone has known of the matchless climate and the numerous alluring inducements to northern visitors, which Sanford possesses, and of the prosperity which would be Sanford's if only some means could be found for taking care of visitors daily passing through this city.

For several years efforts have been made almost continuously to interest outsiders in the proposition of constructing a hotel in Sanford, ever to meet with failure. Many have been interested. Some have even declared their intentions of constructing a hotel here and have capitalized on that, only to back out later with the simple statement that the inducements were not sufficiently attractive. But now we see organized in our midst a group of business and professional men, whom we all know personally and in all of whom we have the utmost confidence, whose declared intention is to GET located in this city a costly and adequate hotel.

The plan is simple and the wonder is that it was not thought of before. But it remained for a certain few far-sighted men with a perfect vision of what the future holds for this city to devise a system and work out the details of organization whereby stockholders are profited and a hotel is guaranteed. A corporation is formed in which every resident of Sanford is urged to become a stockholder. This corporation owns or controls all the property lying between Pump branch and Mellonville Avenue, and bounded on the north and south by Lake Monroe and Union Avenue respectively. The value of this property is certain to be materially enhanced by the immediate opening and construction of First Street, the lake front boulevard and other thoroughfares. The lots in this district will be resold for both business and residential purposes, and a valuable site will be excluded which will serve as an added inducement to the hotel company.

The men who have been working diligently on this proposition for months, and who have done a real service to the city which cannot be estimated in dollars and cents, are to be congratulated on both their business ability and their interest in Sanford. All that is now needed to make Sanford quickly grow into the largest tourist resort in central Florida is the continued co-operation between her business men and professional men, between city officials and private citizens, in short between every individual who resides in Sanford. Continue to work together, Sanfordites, and the future is yours to do with as you will.

Unpopular Because It is "Free"

Surgeon General Hugh S. Cummings is an optimist. As head of the nation's health department, and so in a position to "put over" his fine scheme if such an achievement is possible to any man in this day and time, Dr. Cummings has started a crusade to restore "the lost art of walking."

"The failure of walking to achieve wider popularity," the Surgeon General explains, "is due in large part to the lack of appreciation of the advantages accruing from this commonest form of exercise."

Dr. Cummings also thinks that one of the reasons people do not take to walking, as a means of recreation and exercise is because the pastime is "free". He is psychologist enough, and humorist enough, to see that the average person is incapable of finding enjoyment in anything that costs nothing.

It is true, too, that nobody seems to be taking much pains these days to point out the physical advantages of walking. The man on the golf-links whose health improves from day to day usually has the idea that it is the "game" that does it, when it is far more likely that it is the enforced walking, the miles of pleasant walking in the open air that is bringing new blood and new vigor to his body.

We have used the word "pleasant" advisedly. Dr. Cummings, or any other intelligent person who advises walking as an exercise, would insist that the walk be taken "for pleasure". The person who drags a weary frame long distances to and from his daily work seems to get nothing but harmful fatigue from his effort. He needs to walk with his head up, his lungs full of fresh air, his eyes taking in all the beauties along his path. Indeed he must learn to find beauty as he goes, whether it be a glimpse of fairy clouds, a wayside flower, or the kindly face of some passing neighbor.

For the so-called brain-workers, Dr. Cummings points out, since this class, by reason of sedentary or mental occupation, seldom secures the amount of exercise essential to well-being, walking is particularly beneficial.

"By the reason of the exercise involved," General Cummings explains, "systematic walking diverts a largely increased volume of blood to the muscular system and particularly to the lower extremities. As a result congestion in the internal organs is relieved. Many who have forgotten the pleasures of walking will be surprised when they rehabilitate this form of exercise. They will notice a sensation of buoyancy and well-being that will offer ample reward for the time and energy expended."

Just how far the Surgeon General's "crusade" will go is problematical, but his idea is all right. Here in Sanford there are hundreds of people who are in danger of losing the use of their feet entirely, judging from the absence of use accorded them. Here in Sanford, too, there are numbers of people who could derive a lot of pleasure, and incidentally build up health and strength, if they would do some systematic walking every day.

There should be more "golf-bugs" in Sanford.

GETTING OUR TAX BENEFITS

PALM BEACH POST

The Florida Development Board has put out a leaflet under the title of a Florida invites You which tells briefly how to get the full advantage of this state's new tax amendment which prohibits Florida forever from levying any state income or any state inheritance taxes. It gives this wholesome advice to those who would escape fully these obnoxious taxes which apply to forty-six states as to inheritance taxes and eleven as to income taxes. Says the leaflet:

"To constitute a new residence, two things are indispensable: residence in the new locality and intention to remain there. This necessarily presupposes a definite abandonment of the former residence in another state. The circumstances usually relied on to establish such a new residence are:

"1. Establishing and maintaining a home in Florida in which the resident, and his family live, and where they stay at least a considerable portion of the year.

"2. Declaration of residence, such as letterheads, signatures on local registers, change of church and lodge membership, recitals in wills, etc., etc.

"3. Having a place of business in Florida.

"4. Paying poll taxes and personal taxes, if any, to Florida officials.

"5. Registration for and voting in primaries and elections in Florida.

"6. Reporting and paying federal income taxes through the proper office in Florida. It is also suggested that the new resident keep his bonds, mortgages, notes and other securities within the State of Florida.

"All of these circumstances are not essential in every case; but the facts must at least be such as to evince a clear and positive intention in good faith to become a permanent resident of Florida to the exclusion of any other state. In case of controversy a change of legal residence from one state to another must be established affirmatively by facts susceptible of proof and not merely by declarations of intention. It is essential to terminate previous residence in another state before a new residence can be established in Florida. If the evidence is equivocal, the courts are inclined to hold that there has been no change of residence.

As Brisbane Sees It

Three Dangerous Things. Two Wonderful Legs. Forty-three Pink Pearls. No 1925 Drop Yet.

BY ARTHUR BRISBANE (Copyright 1925)

TO AVOID TROUBLE, keep your hands off three things, a man's money, family and religion.

The Bolshevik Government, needing money, and receiving Communist complaints of certain Monks at Pecherski Monastery, arrests thirty of the Monks and seizes their gold treasure of \$400,000 hidden in the monastery bellfries. In addition to the money the Soviet Government got 300 big diamonds, sacred images studded with gold, much gold and silver plate.

FROM THE Soviet point of view, so far so good. But when the Monks were sentenced to long terms at hard labor and put to work on the roads in their canvas socks the peasants, deeply religious, started killing Communists and burning their buildings.

To fight any religious is dangerous for any government.

ONE OF Napoleon's first and wisest acts was to restore the status of the church and the salaries and dignities of the clergy, saying that he also needed a spiritual Gendarmerie.

All the world reads about the marvelous raising Finn. Nurmi. On Tuesday evening, in New York, he broke two world's indoor records. He's an iron man. He ran the mile in four minutes, 13-3-5 seconds, cutting a second off the world's record. Then he ran five thousand metres, in fourteen minutes, 44-3-5 seconds, again breaking the world's record. This man has wonderful legs.

BUT YOU can buy for a few hundred dollars an automobile that will do for civilization a thousand times what Nurmi could do.

Honor him, his legs, heart, lungs and courage, but honor still more highly such men as the late Steinmetz. A crippled hunchback, he could not have run five thousand metres in two hours. But his brain ran as well as Nurmi's legs ran. If, by the way, Steinmetz came to the United States today, a crippled Jewish boy, as he did forty or fifty years ago, he would be sent home.

WHY DOES the crowd pay to see fast legs and cars less for a thinking brain? Because the crowd can't run. Not all can think.

IF YOU want a string of pink pearls for your wife, or friend, apply to young Mr. Leeds, son of the late Princess Anastasia. The pearls cost \$340,000, not counting duty. Pearls have gone up, the price is a million dollars now.

FORTY-THREE beautiful pink pearls somebody will get them. The poor lady who wore them as the wife of the Tin Plate King and then a Prince, brother of the Greek King, has gone. She has disappeared as completely as the various divers that brought them up, "going all naked to the hungry shark," in their pearl diving.

So glory passes, and pearls remain.

NO SIGN of that "great 1925 drop in the stock market" yet. Stocks were up again yesterday, wheat up with them. And the interest rate on call money of speculation dropped to 2 1/2 per cent.

The value of English money keeps going up. The pound was worth yesterday \$4.77 1/4, almost its pre-war value.

Some European moneys are worth more than the American dollar. But they haven't so many dollars. That must be our consolation.

GERMANS, not allowed to build airships, have threatened to shoot down French planes flying above Bavaria and Saxony — on the French air lines, from Paris to Bucharest and from Paris to Prague.

The Germans won't do it, of for two reasons.

First, it is difficult to hit a swift machine in full flight.

Second, Germany is at the mercy of France, for the reason that Germany has no flying machines and therefore she might as well have no men.

Her sixty-five millions of population would be utterly helpless against one hundred Frenchmen up in the air. If one French machine were shot down over German soil a half dozen German cities could be destroyed the same day.

This country ought to learn something from the helplessness of Germany, based entirely on the fact that she has no force in the air, although she has millions of highly trained fighting men. Let us also remember that in the air Germany is no more helpless than the United States at this moment.

ITALIAN Socialists and Communists demand a revolution to get rid of Mussolini. The crisis there, whatever it is to be, is not far off. Italy would have had a revolution five or six years ago had not Mussolini taken charge, is the belief of some that understand such matters.

SOMETHING new in radio. Norfolk, Virginia, tells of a man found wandering unable to tell who he is, a victim of aphasia. His language is strange, no way of identifying him apparently. He will talk over the radio. Friends, "listening" may recognize the tone of his voice, claim him and help him home. What else can you suggest for the radio to do?

JUST A LITTLE DEMONSTRATION OF STRENGTH

JUST IN PASSING

By R. J. HOLLY

After that big dinner at the Orange and Black Hotel in Longwood last night it is rather difficult to express our feelings over the event and to give Manager Clark and the good people of Longwood the real compliments they deserve.

Seminole county is getting in a way that will spell success and co-operation along all lines. Seminole county is one of the best counties in the state and as such should show the world what we have along the lines of industry, agriculture, winter homes and hotels. The fair at Longwood next Wednesday and Thursday will open the eyes of the visitors to our possibilities.

The Orlando Sentinel will start an airplane route to Titusville and Cocoa next Tuesday. People must have the news first hand these days and everything is speeding up. This may be jazz time but it is certainly high pressure along all lines and everyone on their toes.

Without going into detail about the wonderful proposition of the hotel and business on new First Street east of the city I would like to say that it is the biggest and best proposition that has ever been put before the people of Sanford and of Florida and as soon as it is on the way, Sanford's future is absolutely assured. Our best efforts should be expended on this proposition and not a single solitary person in Sanford should lay down on the job—otherwise you will not have any job.

The Senate has disapproved the government operation of Muscle Shoals. We are coming more and more into the belief that the government should be hands off on propositions that can be taken care of by private enterprise. Let the government operate the postoffice—that seems to be sufficient to keep them busy.

Officers of the New York Life Insurance Company meeting at the Clarendon Hotel at Seabreeze say that Florida is just entering into the greatest era of development and prosperity. And a few years ago the life insurance companies were afraid to loan money in Florida. Why, they even loan money in Sanford now.

Federal raids in Chicago the other day netted three thousand stills. It seems that the present day stills are not in the mountains or in the woods or all not in Florida. They get about as many in the heart of the big cities as they do in the country.

Clarence Darrow and two other attorneys who represented Leopold and Loeb in Chicago for the murder of the Franks boy have received their fees amounting to \$130,000. Rather cheap price for saving necks of two murderers.

Orlando officials are visiting other Florida cities taking notes on the manner in which said cities are governed and vote bonds and do other things. Such a trip over South Florida would be good for Sanford men to take—only we are all so busy just now in building up Sanford and so much is taking place that we are all afraid to leave for fear something will take place while we are gone and we will miss it.

Winter Park is considering the sale of the electric light plant to the Florida Public Service Company. In other words the big public service companies can furnish better service and cheaper current than the municipal plant and in growing cities today there is no money in the municipal plants that to constantly enlarge to keep up with the increasing demand. It costs money to enlarge plants and any city that can make money and cut out the expenses of bonds, higher taxes and higher prices for the services.

My old friend Bailey Magruder died in Orlando the other day and his death reminds me that I was his friend and adviser when he first contemplated his arcade and hotel and theatre in Orlando. When other folks laughed at his big ideas and his visionary plans I urged him to go ahead and put it over and he did and he lived to see Orlando what I told him it would be—a city of 25,000 people and all his dreams realized. He was a town builder for it takes dreamers and people with vision to build a town and not knockers.

Sanford is growing so fast and property is jumping so fast that some of my friends are getting scared that they will get their feet wet. Jump right in boys and get in over your head. We intend to make Sanford the biggest city in inland Florida and you can't go wrong in putting your money on a sure thing. Values are going higher and you will be sorry you did not get in the game earlier but you can make money even on the rise in the prices—with the difference that it will cost you more to get in later than it will today. Eventually, why not now?

Mrs. Samuel Puleston Bridge Club Hostess

The Duplicate Luncheon Club was charmingly entertained Fri- day by Mrs. Samuel Puleston at her beautiful home in Rose Court. The color scheme of pink and lavender was beautifully carried out. The table was centered by a graceful basket filled with pink snap dragons and lavender lark- spur. The place cards were hand painted designs of spring flowers in the used colors.
 Following the delicious luncheon duplicate was played. For high scores Mrs. E. F. Housholder and Mrs. A. F. Connelly were present. Mrs. Puleston was the guest of honor. Covers were laid for the mem- bers who are: Mrs. Samuel Pule- ston, Mrs. A. P. Connelly, Mrs. R. A. Newman, Mrs. F. E. Roulmillat, Mrs. F. E. Gonzales, Mrs. E. F. Housholder, Mrs. E. M. Galloway and Mrs. Frank Miller.

Aged Postal Employee Dies After Operation

NEW YORK, Jan. 9.—Edward M. Morgan of Ohio, described by Postmaster General New as the "Best known postmaster in the world" died Friday as the result of an operation for appendicitis. He was more than 60 years of service and had been postmaster of this city seventeen years. He was 66 years old. He leaves a wife and three daughters.

Convicted Slayer For 8th Time Gets Reprieve

CHICAGO, Jan. 9.—Bernard Grant, convicted two years ago of slaying a policeman, for the eighth time is granted a reprieve a few days before the date set for execu- tion. Governor Len Small granted the stay of execution 90 days pend- ing a supreme court decision in the case of Walter Krauser sentenced with Grant to hang.

Confession Of Giant Players Made Public

CHICAGO, Jan. 10.—Confessions of "Cozy" Dolan and Jimmy O'Con- nell who were expelled from base- ball before the World Series were begun last autumn were made pub- lic today by Commissioner Landis. The documents total approximately two thousand words including not only confessions of the former Giant players but other testimony and evidence received by commis- sioner in connection with charges attempted bribery to aid the Giants to win the National League pen- nant.

Ku Klux Fighting For Existence In Kansas

TOPEKA, Kan., Jan. 10.—The State Supreme Court Friday will rule upon three questions of state and national interest. In one decision Ku Klux Klan either will be sanctioned or outlawed from activ- ity in Kansas. The state contends that the Klan must obtain a charter to operate in Kansas and Klans defense is that it is a benevolent society and is not organized for profit.

A Smart Outfit

Embroidery, iridescent beads and pink satin make this frock what it is, and you must admit it is pretty good. The narrow front panel and the wide side ones are applied so fluently that they contrib- ute to the general straightline silhouette while the wide band of embroidery horizontally placed gives the effect of a low girle. Wide band fringe makes an inter- esting hemline.

BRADENTON PERMITS HEAVY

BRADENTON, Jan. 10.—Build- ing permits issued here during 1924 called for expenditures totaling \$1,191,120, according to official records. Cost of structures outside the city limits bring the total to a much higher figure, is stated. A large increase was shown in the number of homes covered by the permits.

HYPNOTISM USED IN OPERATIONS

DORPAT, Lithuania, Jan. 8.—Prof. A. Wannach has recently performed a number of surgical operations at the Dorpat University Hospital which have attracted much attention because hypnosis was substituted for narcotics. The patients are alleged to have suffer- ing no pain.

Comparison with the Living Artist Reveals

On Thursday, at High School Auditor- ium, the New Edison proved that there is no difference between its Re-Creation of music and the original music. It was proof that would be good in any court of law.
 If you did not attend, take the trouble to find out exactly what happened. Inves- tigate all the details of this drastic test. It was given particularly for the music- lovers of Sanford—so that they might know, through their own personal expe- rience, that there is a phonograph which can give them the exact performance of the living artist.
 Elizabeth Spencer, famous soprano, made the test. She stood on the platform, besides the New Edison. She sang. In the midst of her song she stopped singing. The New Edison took up the song and continued it along. Thus, they alternated— singer and phonograph.
 The audience had to watch Miss Spencer's lips, in order to be certain which was singing. The New Edison's triumph was complete and spectacular.
 Remember that no other phonograph can sustain this test! Remember that you want a phonograph which does! And re- member that the New Edison did it—right here in Sanford.

The NEW EDISON PHONOGRAPH

You can have, in your own home, the exact kind of instrument used in the test. This was an Official Laboratory Model— loaned by Mr. and Mrs. L. H. Gibbs. Select and New Edison in our store, and we will guarantee it to sustain the test of direct comparison, and to do everything that was done in the test at High School Auditor- ium.
 Ask us about our Budget Plan. It brings you this new Edison for a small payment. Any man or woman, who loves music, can make a gentleman's agreement with us.
