

Silver Springs Opens Beach For Negroes

OCALA, May 18—(AP)—Ray & Davidson, operators of Silver Springs, will open Paradise Park, located on the south bank of Silver River about a mile downstream from the head of the springs, for colored people, Friday.

A swimming dock has been constructed, the grounds are landscaped and include a parking area, pavilion and bath house. Glass-bottomed boats will load colored passengers from this point for the regular sightseeing trip over the springs. A bathing beach has been provided and the grounds will be landscaped and beautified.

Members of the board of county commissioners and county officials were guests of Carl Ray at a preview of the new facility, and were taken on an inspection trip through the area.

Dutra Speech

(Continued From Page One) and order. Dutra said his government is proud of this and also of "its fidelity to the standards of international morality."

He said upon taking office, he arranged a political truce which enables Brazil to enjoy the benefit of internal harmony. It also makes possible an effort to cultivate peaceful relations with other nations, he said, and added:

"Those which exist between Brazil and the United States of America, perfect from the beginning, offer, through their development and continuity, a rare example to two peoples which have prevailed over a period of more than 120 years."

Dutra recalled the visit of President Truman to Brazil two years ago as a "memorable event in the relations between the two countries."

"The manifestations of regard which were tendered to him by the people and by the government of Brazil were an eloquent token of the great affection which we devote to you and to your great men."

"In the international field this friendship, through its practical manifestations and by virtue of its example, is the greatest guarantee of good understanding and comprehension among the other sister nations in this hemisphere."

Dutra said the Rio De Janeiro hemisphere Defense Agreement "established the reciprocity of the American republics in common bond against aggression."

The Brazilian chief of state said he will take back to his country an "unforgettable recollection" of the warm welcome he received here.

Chinese War

(Continued From Page One) Admiral Kwei Yung-Chin, from his flagship off Woosung reiterated his determination to defend greater Shanghai in conjunction with the airforce and infantry in the last.

He said this was his first chance the Navy had to show its ability. Always before, he said, it was limited by the narrow waters of the upper Yangtze.

At the same time the Central News Agency disclosed that General Tang En-Po, local commander, had visited the Chinese flagship and awarded the Navy 20,000 silver dollars for defense work.

Tang told Central News at the northwestern front that he believed Shanghai could be defended, that troop morale was high and that he felt the final victory would be the Nationalists.

Despite low rain clouds, the Chinese airforce was still flying off Kiangwan airfield against an enemy which in some directions was scarcely five miles away. Small arms fire could be heard in various sections along the lower Whangpoo. But that has been true for two days.

The Whangpoo contained numerous medium sized craft which could be used for military evacuation. The ships also are usable in shifting Nationalist forces from one part of the defense line to another across the river.

Vegetable Market

JACKSONVILLE, May 19—(AP)—Early New York market on Florida fruits and vegetables from the state here in bushels, Florida Beans few sales \$20. Lima beans bushels \$20-400, poorest \$20-100, large size \$20-250, outstanding \$20, poorer \$20-500, 4 dozen \$20, poorer \$20-100, few sales \$20-100, large size \$20-250, few sales \$20-100, poorer \$20-100.

Mine Pensions' Cost Exceeding Income Of Fund

Gap Is Placed At \$500,000 Weekly By U.M.W. Executive

WASHINGTON, May 19—(UPI)— The United Mine Workers welfare fund announced today that it has paid out a grand total of \$106,840,139 in benefits and the announcement showed—between the lines—that money now is flowing out of the fund a good deal faster than it is coming in.

So far this year, outgo has averaged \$2,265,000 a week, and it is probable that this exceeds weekly income by at least \$500,000.

The report, distributed by George Clegg, publicist who is advising John E. Lewis on public relations, said 344,169 persons have benefited from the \$106,840,139, including soft coal miners and members of their families. Benefits for anthracite miners are handled in a separate fund.

The money was spent for \$100-a-month pensions, \$1,000 death benefits, monthly payments to injured or sick miners, monthly payments to miners' widows and medical care.

Concerning medical care, the report said this program "ultimately will provide a prepaid form of hospital and medical care for U.M.W. members and their families." It added that the medical care program needs to be developed and extended. When a reporter asked Mr. Clegg if this would require a higher coal tax, he replied, "Yes, you can draw that inference from it."

The figures cover the entire history of the fund, up to May 1. Here is the way the \$106,840,139 has been used, according to today's report:

\$19,074,037 for pensions to 19,182 retired miners.

\$12,320,624 for lump-sum death benefits to the survivors of 12,500 miners.

\$67,788,452 for disability and sick insurance, also monthly payments to miners' widows.

\$9,788,697 for medical care.

The report made these points, among others:

1. That "miners do not hasten to retire when they reach the eligible age."

2. That the reduction of the eligible age from sixty-two to sixty on April 7 has not resulted in "accelerated applications." In the four weeks after the reduction, only five applications were received from me miners years of age six and six from miners sixty-one years old.

3. That the fund has created other values "outside from the humanitarian." For example, "widows, orphans and dependents, lifted above beggary, are now self-respecting citizens with purchasing power."

4. That "the reforms made possible by the fund are inducing younger men to go down into the pits."

The report said the medical-care program has helped 12,500 persons so far in its "initial stages."

State Guard Radio Network Developed

ST. AUGUSTINE, May 19—(UPI)— Florida will have a state network of military amateur radio stations under a program now being developed by the Florida National Guard in cooperation with Army and Air Forces.

National Guard amateur operators would work their own sets at home and report into their local station director stationed at an army or air base. The station director would be in contact with a state net who in turn would be netted into the numbered Army or Air Forces Military Amateur Radio Stations. In the final check, headquarters MARS stations would be in contact with headquarters in Washington.

Membership in the National Guard MARS is open to any Guardsman or recruit who possesses an amateur radio operators license. According to National Guard officials, the program provides an unparalleled opportunity for radio "hams" to become part of the radio communications system that would play a vital part in the defense of the United States in case of emergency.

Florida Farm Bureau Honors Dr. Wilson

ORLANDO, May 19—(Special)— Dr. J. W. Wilson, of Seminole County, has been awarded to the honorary "Man of the Month Club" of the Florida Farm Bureau, according to that organization's monthly publication which comes off the press this week.

Dr. Wilson was nominated by Geo. W. Swartz, president of the Seminole County Farm Bureau. The group is composed of members throughout the State who have performed outstanding services to their community, to farming or to their profession.

U. N. Holds Fast To Spain Curb

THE UNITED NATIONS General Assembly meeting of foreign ministers in New York voted 26 to 15 against a resolution that would have committed the return of Andorra and Majorca to Spain while the Franco regime remains in power. President of the Economic Commission for Europe, representative of France, Spain's Foreign Minister of Defense and Alfonso del Vayo, Foreign Minister of the Spanish Republic, voted with Alfonso Alfonso, President of the Spanish Republic, in the center, and Dr. Luis de la Torre, Mexican delegate to the United Nations.

Parisians Urged Not To Stare At British Princess Civil Rights Plan

BY GODFREY ANDERSON, Paris, May 19—(UPI)— Parisians are being urged in advance to gather in crowds and stare at Britain's Princess Margaret when she pays her first visit to the French capital towards the end of this month.

King Edward VIII of England, who loved to stroll along the boulevards like a private citizen when he came to France, is supposed to have once remarked:

"Paris is the only city in the world people have the good breeding to not pay too much attention to those who are too well known."

Now, while Paris newspapers have been printing in detail accounts of how the Princess was bothered by too persistent cameras in Capri, the same papers are making a point she should not be noticed while here.

"The best way to let the French appreciate the true face of Paris will be not to bother her by staring curiously and to pace her the assembly of journalists and photographers which so spoilt her stay in Capri and Rome," commented the evening newspaper *Paris-Press*.

National Guard amateur operators would work their own sets at home and report into their local station director stationed at an army or air base. The station director would be in contact with a state net who in turn would be netted into the numbered Army or Air Forces Military Amateur Radio Stations. In the final check, headquarters MARS stations would be in contact with headquarters in Washington.

Membership in the National Guard MARS is open to any Guardsman or recruit who possesses an amateur radio operators license. According to National Guard officials, the program provides an unparalleled opportunity for radio "hams" to become part of the radio communications system that would play a vital part in the defense of the United States in case of emergency.

Atlanta Strike

ATLANTA, May 19—(UPI)— Striking AFL bus and trolley drivers were called into a special meeting today and prospects for settlement of Atlanta's transit tie-up brightened.

Union Chief Jess Walton declined to reveal what would be done before the 1,400 drivers. He would not confirm or deny reports that union representatives and the Georgia Power Company had reached a tentative agreement, subject to approval of the union's full membership.

Labor Troubles Cut Car Output Sharply In Week

Ford Strike Knocks Out Hopes Of Setting New Record

DETROIT, May 19—(UPI)— Motor vehicle production sagged again last week as labor troubles halted more assembly lines. The factories turned out 30,300 passenger cars and 10,772 trucks in the preceding week, the total not 101,133 cars and 22,290 trucks. Continuation of the Ford strike will cut further into the industry's output this week.

The auto makers built 639,129 units in April. That was the best monthly volume they had recorded since before the war. They expect no difficulty running the factory this month. But the number of assembly line interruptions caused by the Ford strike appears to be a revision of their planning.

Half way through May, the factories have built about 231,000 vehicles.

Most major carmaking is planned to bring the industry's output closer to the April post-war record figure.

In planning to make 1949 their biggest production year, the carmakers expected to build along to 90 million vehicles by July 1. They probably won't come quite up to that figure. However, Ford and Chrysler have no model changes over in the first half of the year and the changes of other manufacturers are limited to minor assembly-line interruptions.

Thus the first six months' volume could fall below the norm set last fall.

In some extent production of the latter months of the year will depend upon how consumer demand holds up. All experts estimate it is zooming for the heavy-piled models and holding steady for most of the popular medium-priced models.

Some manufacturers, with sizable field stocks on hand, may have to gauge their production closely to avoid demand. The makers facing this prospect, however, are few.

There is nothing to indicate Chevrolet, Ford and Plymouth will exceed their 1948 output this year. If and even if they can afford to pile up some reserve stock, perhaps they want to be prepared for a competitive battle.

In the following tabulation, Automobile Manufacturers' estimates of monthly production for the week ended May 13, and the period from Jan. 1 to May 14, inclusive.

According to informants at the United States consulate here, those who are trying to perpetuate permanently an Israel representation three to four groups.

1. The few who got good jobs in the government or federal services of the state. 2. Those who had joined Kibbutz, settled in America to become Israeli citizens. 3. Those who have started their American citizenhip by voting in Israel's first election. Altogether, that is only a small percentage of the total.

Some of them have even left to go home, but the majority know their instruments or devices against them for illegal export of arms or military equipment from the United States to the time they came to the Jewish state.

Some others, who know they have the opportunity, have indicated they expect to remain here until the imports from their country.

The report said that in 1948 there was a direct drop in the proportion of the annual budget allocated to the defense of the country from 30 per cent before the alliance under way.

The report said that the amount could possibly be even lower this year, as a result of the reorganization of the economy.

In the following tabulation, Automobile Manufacturers' estimates of monthly production for the week ended May 13, and the period from Jan. 1 to May 14, inclusive.

The United States government is taking this view.

There is nothing, really, to prevent an American boy from fighting for a cause overseas, provided he can get there. While he is in the service of a foreign army, his American citizenship may be regarded as "suspended" that is, he cannot claim any protection.

The women's battered body found in the Fort Benning reservation, Collins said, the state had hoped to establish that she was killed in her home in Colombia.

Fort Benning authorities said Hakakal was found in a murder charge since May 2. Subsidiary General Hubert Calhoun said investigations had shown Hakakal's wife was killed in territory under control of the rebels.

It Is Fun To Be With Children And To Play With Them

By DAVID TAYLOR MARKE
AP Newsfeatures
It is fun to be with children and to play with them. Yet how often one hear the busy mother, say, "Go play, dear, I have too much work to do." Too often one hears the tired or apathetic dad say, "Go play" - period!

With all we have learned in the last few years about the importance of play, says Rowena Shoemaker, Assistant Director of the Play Schools Association, "parents might as well be saying go play with dynamite, my little ones!"

Says Mrs. Shoemaker:

"It is difficult for adults to differentiate between work and play of children. What better way than to include their youngsters in part of the work necessary in any home-dusting, shopping, washing, simple cooking, table setting, care of the garden, washing and polishing the family car. This is one approach to building better parent-child relations."

"Parents need to take a critical look around the home and ask themselves:

Is this truly 'our home'?

Does our home provide space and when necessary undisturbed and when necessary untroubled by the grownups?

Does our home give the children opportunities to share in its comforts, its responsibilities and its resources?

Does our home encourage self-reliance? For instance, have we low hooks for wraps and clothing, chairs which fit the children, low cupboards or shelves for toys and books?

Does our home provide opportunity for the children to have friends both indoors and out?

Does our home give our children a sense of security and a feeling of "belonging"—"we-ness"?

Have we in our home the toys and play equipment to meet the need of our children?

Does our home allow our children full scope to create without too many do's and don'ts?

All children must play to grow individually and with their contemporaries, says Mrs. Shoemaker. The need of children to play cannot be side-stepped by wise parents. Keeping a home with happy participating children in it need not be drudgery—it can be fun if we use good old-fashioned common sense.

Today, we are reinforced by years,

the great strides that have been made in our understanding of children. We are beginning to know them as people—little people who think, who feel. Wise parents accept the fact that today's children will be heard and must be seen if they are to learn to live in this complex world, she says. If we keep the home forces strongly knit—a home of work and play as a family group—we can face with confidence this emerging "one world." Parents must make absolutely sure that their children feel love and devotion in the home; it is the basis of their security."

Let's do things with our children. The following suggestions may help you think of many others:

1. Make a list of things which need to be done and decide who will do what. Have plans of the day but also have long range plans. Something to look forward to is always an exciting experience for the whole family.

2. Have two sets of toys (especially for the little ones) alternate them—they then become a novelty.

3. Plan museum visits. They are legitimate jaunts for rainy days.

4. The family mending box holds untold treasures for both boys and girls. Old trunks can yield bits of soft material, cotton batings, colored wool, old stockings, strings, etc. What better idea than to make a doll out of the scrap material?

5. Doll furniture can be made of small milk containers, or cardboard boxes. Dad can help here, too.

6. "Let's go for a walk" will almost always have an enthusiastic response. Your little ones will also appreciate a wagon made of boxes.

7. Children like to finger paint. For very young children, oil cloth can be used and washed after each paintingime.

8. Play interests can be encouraged by using discarded household utensils.

9. Children need climbing equipment. Some can be made out of boxes and an old ladder.

10. A sand box is a must for the younger children.

11. Holidays are fun for parents. Think of the magic of planning for the special festivities planning for and with your children.

12. Children need climbing equipment. Some can be made out of boxes and an old ladder.

TAKING OFF FROM a wet runway, the Navy's first jet-powered patrol plane, the "Mercator," lifts into the air for a test flight at Baltimore, Md. The 40-ton ship looks and acts like a twin-engine fighter, hiding much of its power potential in two jet engines mounted behind the propeller-driven motors. Below, the U.S. Air Force high altitude interceptor fighters XF-81 leaves the ground on its initial test hop at Muroc, Calif. No performance data on the latter craft was released. (International)

Try and Stop Me

By BENNETT CERF

CAPE CODDERS are a hardy lot. Old Jeb Sawyer of Eastport, for instance, was still working eight hours a day at the fishing wharf when he reached his hundredth birthday. The company thought it high time he retired on a pension, but Sawyer didn't like the idea at all. "Ding bust it," he exploded, "when I took this job in 1870, the manager gave me his solemn word that it was PERMANENT."

Charles Boyer and Irving Hoffman crossed together

Israel Warriors

(Continued From Page 1 See, 2)
sial protection or rights under it.
But when he leaves that foreign army, unless he has otherwise contravened his American passport, it is still good.

What is being done here is this:
Americans who are coming into the consular offices to make sure

their papers are in order for return home are asked to make a statement, substantiated by the Israeli army, that they at no time took any oath of allegiance to any other state.

The Israeli army attests that this is so. At the time it gave its troops an oath of allegiance to Israel, a year ago, Americans who wished were excused from taking it.

But it is different with those Americans who voted in the Israeli election, as perhaps some dozens did. They are Israeli citizens now whether they like it or not. That is the American government view.

It says in an American's pass book he is not permitted to vote in foreign elections. Through advertisements in Israeli newspapers and pamphlets to the arms before the election, Americans were warned not to vote unless they wanted to lose citizenship.

Everyone here, including foreigners, has an identity card. Citizens have an identity card stamped by the Israeli election officials.

**British Princess**

(Continued From Page 1 See, 2)
Soir reproduced the same picture on page one, side by side with a Giles Cartoon from the Daily Express, showing two shirt-tailed city businessmen with bowler hats and umbrellas in deference to "the latest male fashion from the continent."

Before announcement was made that Princess Margaret would include the Paris visit in her trip, several French newspapers claimed there had been some criticism that she had gone to Italy, a former enemy country, before making her first visit to the Allied capital.

The Princess will stay as the guest of Sir Oliver Harvey, the British ambassador. The embassy said no plans have yet been made for her visit and the exact date of her arrival in Paris is not known.

UNMECHANIZED FARMS COUNCIL BLUFFS, Iowa, May 19—(UPI)—Fay Boyer, owner of an implement shop in Council Bluffs, says five per cent of the farmers in southwest Iowa still operate with horse-drawn equipment.

"And you are wasting your breath talking powered equipment to them," he says. "They have their own system of farming and reason 'why change'?"

He said there are two distinct types still using horses—the young man just starting out and the "old timer".

The lower Yangtze valley of China is one of the most densely populated areas in the world.

11 German States Outside Red Zones United In Republic

Constitution Ratification Is Completed By Eight Western Countries

McCarthy Walks Out Of Senate's Malmddy Probe

Republican Says Investigation Has Degenerated To Farce

WASHINGTON, May 20—(P)—

Senator McCarthy (R-Wis) today angrily quit the Senate group investigating the Malmddy trials and blasted it for "attempting to whitewash a shameful episode" in armed forces history.

McCarthy, himself a World War II Marine veteran, has constantly been at odds with Senator Baldwin (R-Conn), chairman of the group looking into the trial of Nazi soldiers charged with massacring American prisoners of war during the Battle of the Bulge.

The eight states voted "yes" by overwhelming margins, with virtually all the opposition coming from the Communists. Bavaria, the big state in the American occupation zone, voted "no," but reserved the right to enter the new government upon ratification by the others.

The ratification paves the way for setting of a federal republican government of West Germany by mid-July, with guarantees of democratic freedoms to all citizens.

It came just a few days before the opening in Paris of the four-power council of foreign ministers meeting on the German question and thus greatly strengthens the hand of the Western Powers in that meeting.

Four states ratified today. Four others had ratified two days ago.

The state parliament of Schleswig-Holstein and the Danish border voted for the Bond constitution, 50 to 6 today, with only the Danish minority in opposition. Lower Saxony's parliamentary vote was 98 to 37, with the Communists and two minor parties against. Hesse approved 10 to 8, with the Communists op-

Five Schools Sign Up With Regional Education Council

ATLANTA, May 20—(P)—The South's plan for regional education was in effect today.

Contracts were signed by the Regional Council for education with the Medical College of Virginia, Louisiana State University, Emory University, and Vanderbilt University for medical and dental training.

In addition, Virginia Polytechnic Institute, acting for the Commonwealth of Virginia, signed a contract providing for veterinary medical training for Virginia students at the University of Georgia.

Approximately 226 white and 200 negro students are expected to enroll this fall under the contracts, and under ten new ones to be executed shortly.

Under the contracts, states which do not provide medical, dental, or veterinary training agree to pay the institutions \$1,500 a year for each medical or dental student, and \$1,000 a year for each veterinary medical student enrolled. In return, the states are assured that a set number of their qualified students will be admitted to the schools, so that the states can meet their needs without the expense of operating medical, dental, or veterinary schools.

Each state in the plan is as-

Fred N. Purdy Dies After Short Illness

Fred N. Purdy, 79, resident of Uptown section for the past 24 years, died yesterday afternoon in the local hospital following a brief illness.

Born in West Eaton, N. Y., Jan. 10, 1870, Mr. Purdy was Justice of the Peace at Eaton for nearly 4 years prior to moving to Sanford. He was a member of the First Methodist Church in Sanford and was a retired farmer and dairyman.

He is survived by the widow and two sisters, Mrs. Florence Walls, Sanford, and Mrs. Iva Atwood, of Bradley Junction, Fla.; also several nieces and nephews.

Funeral services will be held at the Eaton Funeral Home Saturday at 3:30 P. M. with Rev. J. E. McKinley officiating. Burial will be made in Evergreen Cemetery.

Rape Case Proves Montgomery, Ala., May 20
—A 25-year-old negro woman's charge that she was raped by two white policemen was being investigated today by the grand jury.

The thirty-odd witnesses in the Gadsden Police case began testifying yesterday. Included were 10 or more city policemen and detectives.

Archbishop Dies

ATHENS, May 20—(P)—Archbishop Damaskinos, former re-

gent of Greece, died suddenly today. He was 86.

The archbishop, who ruled

Greece as regent from 1944 to 1946, had been in poor health for the past several months. He suffered from heart trouble.

Senate Urged To Cut Rivers, Harbors Bill

Sen. Douglas Says This Is Change To Make Big Savings; Farm Plan Drafted

WASHINGTON, May 20—(P)—

Senator Douglas (D-Ill) today urged the Senate to slash a \$751,000,000 appropriation bill by 40 per cent.

"This is our chance to make big savings," he said of the Army civil functions bill carrying funds for scores of flood control and rivers and harbors projects.

"We are heading for a budgetary deficit of at least three to four billion dollars a year," Douglas told his colleagues. "I urge, therefore, that we cut these appropriations (in the pending bill) by 40 per cent or approximately \$300,000,000 to a total of \$450,000,000, and that we give the Secretary of the Army and the Director of the Budget the responsibility for making these cuts."

Douglas said that "in the old days" the civil functions bill was known as the rivers and harbors bill, and added:

"It was also commonly, if it is reverently referred to by the people as the 'pork barrel' was commonly believed that sufficient fat chunks of appropriations were passed around among the various districts and states

Seminole Jaycees Approve Terminal Project For City

The Seminole County Junior Chamber of Commerce yesterday went on record at the luncheon at the Tourist Center as approving the City Commission's action in presenting the bill for the terminal project in Sanford to the Seminole County delegation in the legislature, and further, recommended to the City Commission and the Chamber of Commerce that every effort be made to obtain contracts with shippers to assure financial soundness of the project before steps are taken to start construction on the buildings. Kurlie Householder offered the motion.

A motion to approve the action of the City on the terminal project and making the construction of the shipping facilities contingent upon securing signed contracts with shippers before construction begins was made by City Commissioner W. H. Stamps, but the organization rejected the motion.

B. L. Perkins, Jr., reported that the annual membership drive would be started tonight at a "kick-off" party at the Seminole Country Club, and actual work on the campaign would begin Monday.

President Gordon Bradley reported on the recent state con-

Elks Members Return From State Meet

Jesse Lodge exalted ruler of the Sanford Lodge of Elks, reported today following his return from the three day state convention of the organization in Pensacola that the local lodge was well represented, the expected evacuation of troops has not developed.

The foreigner who visited the front said he walked three miles beyond Kaohsiung and saw no Com-

munist patrols, but he saw no large ships loading there.

The Communists have light ar-

tilery in the Pouting area. A few minutes before I visited Lung-hwa Airfield at 5:00 P. M. two Red Shells landed in that area.

One went int othe Whampoa at

the edge of the airfield and another fell on the far side of the river. There was no damage from either.

Lung-hwa Field was still operat-

ing. Waiting rooms were piled high

with baggage. Every departing

plane was jammed with passenger

The Chinese Airlines still overal-

were prepared to close at any in-

Mrs. W. A. McMullen Dies Early Today

Agnes Grace McMullen died early this morning in a nursing home after a brief illness. She was a member of the First Presbyterian Church.

In addition to the husband, W. A. McMullen of Sanford, she is survived by three sons, Doc H. Kimball of Mt. Dora, Edward Kimball of Caracas, Venezuela, and Thomas Kimball, Sanford; one daughter, Mrs. George E. Sims, Jacksonville; three brothers, R. E. Simpson, Groveland, Frank R. Simpson, Jacksonville and Leon Simpson, Winter Haven; three sisters, Mrs. M. A. Cameron and Mrs. E. C. Evans, Leesburg, and Miss Marjorie L. Simpson of Winter Haven. Funeral arrangements incomplete, will be announced later.

Rape Case Proves

MONTGOMERY, Ala., May 20

—A 25-year-old negro woman's charge that she was raped by two white policemen was being investigated today by the grand jury.

The thirty-odd witnesses in the Gadsden Police case began testifying yesterday. Included were 10 or more city policemen and detectives.

ATHENS, May 20—(P)—Arch-

bishop Damaskinos, former re-

gent of Greece, died suddenly today. He was 86.

The archbishop, who ruled

Greece as regent from 1944 to 1946, had been in poor health for the past several months. He suffered from heart trouble.

Churchill Blasts Labor Party Stand

U. S. Rejects Red Bid For Greek Parley

Russia Is Told To End Satellite Aid To Guerrillas, If Peace Is Desired

Washington, May 20—(P)—

United States has told Russia

that if it wants peace in Greece it

should give the Communists satellite states to stop aiding the Greek

guerrillas.

Until such help is ended the

government will not relax assist-

ance to non-Communist Greece.

These two points were disclosed

in a lengthy statement issued by

the State Department today.

The statement brought out that the

Department has rejected Soviet

efforts to get the Greek situation

out of the United Nations and into

the hands of the great powers for

what amounts to a compromise

settlement.

The statement declared: "we

are prepared to discuss any mat-

ter with the Soviet Union in the

proper forum in the case of the

Greek government it is the United

Nations."

The declaration on Greece was

released as a result of a Tax re-

port last night that Russia had

proposed informally at United

Nations headquarters that the

United States and Britain join in

a common effort to settle the

fighting.

The Soviet proposal, which the

Soviet news agency said had been

brought directly to U. S. repre-

sentatives, was that the settle-
