Mid-Summer Race Is Slated July 27 At Daytona Beach

DAYTONA BEACH, July 24. (Special) All signs point toward the biggest event, the best Mid-Summer racing classic here in years this Sunday afternoon at 2:30 o'clock when the annual 150-mile stock car championship will be presented on the tricky beach-and-road track.

Virtually every champion driver in Dixie, and many from points north are going to post for the gold and glory at stake in the stock car grind.

The race will feature a clash between Lloyd Seay of Atlanta, St. Clark of Miami, Massey Atkins of Spartanburg and Harley Taylor of Atlanta, all hot from impressive victories on July 4. Seay crossed the finish line first in a July 4 stock car just at High Point, N. C., while Clark won at Richmond, Atlanta captured first at Spartanburg and Taylor scored at Charlotte, N. C.

However, repeating victory at Daytona Beach, may not be easy for the quartet of baby champions. Such daring drivers as Pepper Cunningham of Jersey City, N. J., Stu Joyce of Indianapolis, Buck Mathis, Roy Hall, Jap Brogren and Bob Flock of Atlanta, Smoky Purser and Bill France of Daytona Beach and many others are entered here July 27.

Time trials will be held Friday and Saturday and the climax comes Sunday when upwards of 10,000 racing fans are expected to witness this speed spectacle on the beach.

If beach conditions are favorable, a new record for the 150-mile distance is in prospect for the field is the most formidable to ever line up in a stock car event. The present mark is 77.01 miles per hour set by Smokey Purser of Adel, Ga., and Daytona Beach.

Thirteen Cases Are Listed For Court's Docket

Others Are Heard At Special Session Held Last Friday

Thirteen cases, only one of them against a white person, appeared on the docket for the regular session of Municipal Court at the Police Station Monday afternoon. D. H. Burgess, white, charged with making threats, was convicted and sentenced to 90 days, which was suspended.

Cases against negroes included: Rand Simpson, charged with blocking the sidewalk, estrated a \$10 bond. Vanater Moore, accused of disorderly conduct, estrated a bond of \$10. Ellar Moore, charged with disorderly conduct, was dismissed. P. J. Johnson, charged with drunkenness, was dismissed.

Steve Butler, charged with being drunk, estrated a \$5 bond. Willie Jeff, charged with driving a motor vehicle without a license, was found guilty and fined \$2 or 10 days. Which was suspended. Whitley Davis, accused of disorderly conduct, was dismissed. Wilbur Jackson, charged with reckless driving, was found guilty and fined \$10 or 30 days. J. T. Scott, charged with being drunk and disorderly, estrated a bond of \$10. Leadore Morgan, accused of driving while drunk, was convicted and fined \$200 or 90 days, of which \$150 was suspended. Ella Thomas, charged with driving while drunk, was found guilty and fined \$10 or 30 days. Pearly Mae Davis, charged with disorderly conduct, was found guilty and fined \$5 or 15 days.

At a special session of court on Friday, William H. Rogers, white, accused of driving while drunk, was dismissed.

Charges against negroes included the following: Gene Jackson, charged with disorderly conduct, was found guilty and fined \$10 or 30 days. Pearly Mae Davis, charged with disorderly conduct, was found guilty and fined \$5 or 15 days. At a special session of court on Friday, William H. Rogers, white, accused of driving while drunk, was dismissed.

Charges against negroes included the following: Gene Jackson, charged with disorderly conduct, was found guilty and fined \$10 or 30 days. Pearly Mae Davis, charged with disorderly conduct, was found guilty and fined \$5 or 15 days. At a special session of court on Friday, William H. Rogers, white, accused of driving while drunk, was dismissed.

Mulloy Scores Upset Win Over Kovacs In Tourney

SEABRIGHT, N. J., July 24.—(AP)—Gardner Mulloy, smooth-stroking stylist from Coral Gables, registered the first major upset in the men's singles of the 54th annual Seabright Invitation Tennis Tournament Wednesday when he eliminated Frank Kovacs of Oakland, Calif., seeded fourth, 3-6, 7-5, 6-4.

The victory put Mulloy in the quarter-final round, where he joined top-seeded Don McNeill of Oklahoma City, second-seeded Bobby Riggs of Chicago, third-seeded Frankie Parker of Altadena, Calif., and four others.

McNeill, national singles champion, defeated Seymour Greenberg of Chicago, 6-1, 4-6, 6-1; Riggs, defending tournament champion, conquered Billy Talbert of Cincinnati, 6-4, 8-6 and Parker polished off veteran Sydney B. Wood of New York, 6-0, 7-5.

Others who gained the round of eight were Ladislav Hecht of New York, Jack Kramer of Los Angeles, Ted Schroeder of Glendale, Calif., and Wayne Sabbin of Reno, Nev.

The women favorites—Mrs. Sara Palfrey Cooke of New York, Dorothy May Bundy of Santa Monica, Calif., Helen Jacobs of Berkeley, Calif., and Helen Bernhard of New York, all gained the semi-finals easily.

Schmidt Brings Home 3 Winners At Empire City

NEW YORK, July 24.—(AP)—Little Albert Schmidt, the 23-year-old Baltimore jockey who is riding in the hottest form of his career, stole the show at Empire City Wednesday by scoring a triple with three long shots on the seven-race card.

He clicked **Forever** at \$11.00 for \$3 in the third race and with **Teddy** at \$18.00 in the sixth and, in between these two, climaxed his performance by booting home **E. Sterling Clark's French-fred** Triple Pistoles in the featured hippo handicap for class "C" performers.

Triple Pistoles covered the mile and an eighth in the good time of 1:51 2-5 for his second triumph in three local tries. He returned \$15.40 for each \$2 ticket.

Deliver Naval Planes

SAN DIEGO, Calif., July 24.—(AP)—First mass delivery of primary training planes for the U. S. Navy was made Wednesday by the Ryan Aeronautical company. The craft will be ferried to Jacksonville, Fla.

Honduran Chemist Visits In Florida

GAINESVILLE, July 24.—(Special)—L. Richardson, specialist chemist with a large fruit company producing bananas in Honduras, visited the Agricultural Experiment Station here recently. Richardson, graduated from the University of Florida College of Agriculture in 1927, received his M. S. degree in 1929, and worked for the Experiment Station for a year before going to Honduras.

He is engaged in soil studies relating to fertility and disease control in the production of bananas, most of which are shipped to the United States.

Girl Scouts' Camp To Open August 11

NEW YORK, July 24.—(Special)—The Girl Scout Western Hemisphere Encampment will open Aug. 11 at Camp Bonnie Brae, near Springfield, Mass., with a capacity registration of 100 Girl Scouts from all parts of the United States, are official delegates from 14 Western Hemisphere countries. It was announced today at Girl Scout national headquarters.

Every section of the United States will be represented at the encampment, officials of the Girl Scout organization stated.

The foreign Girl Scouts, who are coming to this country as the guests of the Girl Scouts of the United States, are official delegates from the following countries: Argentina, Barbados, Bermuda, Brazil, British Guiana, British Honduras, Canada, Cuba, Guatemala, Jamaica, Mexico, New Foundland, Puerto Rico, Trinidad, and the Virgin Islands. Their expenses will be paid in part by the Juliette Low Memorial Fund to which Girl Scouts throughout the United States have contributed pennies to be spent in promoting international friendship and good will.

United States May Freeze Jap Credits

President Roosevelt Says That Action Of Some Kind Is Set For Tomorrow

Other Measures Left Undecided

Further Steps Will Depend On International Situation

HYDE PARK, N. Y., July 25.—(AP)—Word to President Roosevelt from Harry L. Hopkins on Monday indicated that everything is going all right. Roosevelt held a press conference today. It was not as at all when informed dispatches from London indicated some dissatisfaction with British-American relations on the program.

HYDE PARK, N. Y., July 25.—(AP)—President Roosevelt disclosed today the United States would retaliate with specific action tomorrow against Japan's occupation of naval and air bases in French Indo-China.

He declined to say exactly what action, but to members of the presidential party spending the weekend here, the most likely move appeared to be freezing of Japanese credits, and assets in the United States.

Whether the United States was ready to take additional measures appeared to be awaiting future determination, dependent on the international situation in the Pacific.

It has been understood that any details worked out at Hanoi would be referred to Vichy for a final understanding. It was emphasized that nothing had been signed yet and that the move in its present tentative form preserved French sovereignty in Indo-China.

An official spokesman declared at the press conference that Japan had taken the initiative in creating controversy on Indo-China and that the French had accepted the Japanese viewpoint.

That Japan is responsible for creating the issue of the Indo-China situation was also pointed out. It was stated that the French could not be held responsible for the situation.

The Japanese move, he said, threatened the security of the Pacific, including the Philippines Islands, and he said "directly on the vital position of our national security."

D. C. Commissioner

Guy Mason, 60, lawyer, and one-time newspaperman, has been named by President Roosevelt to succeed Melvin C. Hays as commissioner of the District of Columbia, which embraces Washington. Mason's predecessor died in office.

Japan's Program Claimed To Have Approval Of Axis

Gayda, Fascist Editor, Says Nippon Can Face America

ROME, July 24.—(AP)—Virginia Gayda, a pro-Fascist editor, asserted today Japan's program for occupation of French Indo-China was the "first episode" in Japan's "march toward the south" and was undertaken in full agreement with the other Axis powers.

He added that Japan is strong enough to face any United States reprisals and that the Japanese move has taken the initiative away from the United States and Britain in building up strategic Asiatic positions.

Well informed sources reported that Japan had asked for protection of Indo-China, the complete acceptance of her demands for new military concessions in the colony.

Although spokesmen for the Vichy government declared the French had asked for protection of Indo-China, the complete acceptance of her demands for new military concessions in the colony.

Well informed sources reported that Japan had asked for protection of Indo-China, the complete acceptance of her demands for new military concessions in the colony.

Japan Reported Mobilizing Army Of Million Men

Malaya Defense Is Reinforced, Secretary Eden States

SAIGON, FRENCH INDO-CHINA, July 25.—(AP)—The concessions gained by Japan in French Indo-China were reported authoritatively today to include the right to station warships in Camranch Bay and Saigon. Several air bases in Southern Indo-China, and permission to post troops at several coastal points.

By Associated Press Japan's drive of conquest in the Pacific moved toward grim reality today with reported mobilization of 1,000,000 men, while at sea her ships blanketed out in silence and turned away from American shores.

In London, Foreign Secretary Anthony Eden told Parliament "certain defense measures in Malaya have already been enacted to counter a 'potential threat' of Japanese occupation of French Indo-China."

From Singapore came word that France's colony in the Orient ignored a recent offer of protection by Great Britain, the United States, China and the Dutch East Indies "against further encroachments from the outside."

Reading Japan's move in French Indo-China as a threat to American security and a step toward further conquest, the United States hinted at strong counter measures yesterday and urged Tokyo against a "drift toward the East Indies, East Africa and the Philippines."

From President Roosevelt came some plain-talking about why the United States had not before shut off all oil shipments to Japan—all in the past tense.

He told a civilian defense group bluntly that this policy was designed to make it unnecessary for Japan to go down to the East Indies for oil and the President said "I have worked for two years, thus keeping war out of the Pacific."

But from his past-tense discussion of American measures in seeking to keep peace in the South Pacific, some observers drew the inference that the President now might be ready to impose a full embargo on all shipments to Japan and take other strong economic measures.

His informal remarks followed a blistering attack on Japan by Sumner Welles, acting secretary of State, which also appeared to mark the end of American conciliation efforts and the adoption of a still firmer stand in the Pacific.

NAZIS CLAIM CAPTURE OF PREMIER STALIN'S SON

Jacob Stalin (hatless), son of Russian Premier Josef Stalin, is shown in a German prison camp, according to Berlin, which received this radiophoto. The Nazis claim that he was captured, along with a number of other officers and soldiers, in a battle near Ljano, Russia. German panzer forces under command of Gen. Rudolf Schmidt were credited with the coup.

Sanford Sergeant Mailed Anti-War Card By Wheeler

Opposition To Entry Of United States Into War Sought

At least one of Senator Herbert Hoover's post cards asking citizens and soldiers to write to President Roosevelt that they oppose U. S. entry into the European war had been received in Sanford, it was learned today.

The card was addressed to Philip M. Vickery, 306 West Third Street, who is a sergeant with the 124th Infantry at Camp Blount.

About the size of a long business envelope, the card was mailed postage free under the senator's frank. On the front of the card, in a box surrounded by stars, is printed the following: "Write today to President Roosevelt, at the White House, in Washington, that you are against our entry into the European war.—Senator Herbert Hoover."

On the reverse side of the card are printed statements from six persons—President Roosevelt, Herbert Hoover, Senator Wheeler, Joseph P. Kennedy, Col. Charles Lindbergh and Senator Gerald P. Nye—concerning the United States' position in the war.

Col. Lindbergh's statement occupies the largest space on the card. He declares: "We believe that the best way to defend our nation is to keep our armies on our own soil, and to let the government ask us to preserve democracy abroad by creating a dictatorship in our own country."

Secretary of War Stimson yesterday charged that Senator Wheeler's activity in mailing the card is tantamount to treason. The Montana senator countered by stating that the secretary's resignation on the grounds of unfitness, saying his advanced age made him unable to carry out his duties.

Sanford Sergeant Carrol Entertains Strange Visitor At His Service Station This Morning

E. M. Armitage's Nephew Reported Missing In Egypt

Robert McGibbon of the British army, nephew of Mr. and Mrs. E. M. Armitage of Sanford, who is being wounded and is missing, according to word received from Mr. Armitage's sister in Montreal, Canada.

The young soldier, who is the chief medical officer of District 4 in Montreal, was graduated from McGill University in Montreal, where he took an officers' course. In February, 1939, he joined the Montreal division of the Leicestershire regiment of England and was sent to Palestine.

He took part in the battle of Cydo, where three of his best friends were killed in action, and also served in Syria, Mr. Armitage said.

His family in Montreal last heard from E. M. McGibbon in Alexandria, Egypt. Later a cable said he had been wounded and was missing. Mr. Armitage said his sister had not learned whether her son had been wounded in Alexandria or in fighting in Syria. The family still has not given up hope of locating him.

Col. Lindbergh's statement occupies the largest space on the card. He declares: "We believe that the best way to defend our nation is to keep our armies on our own soil, and to let the government ask us to preserve democracy abroad by creating a dictatorship in our own country."

Secretary of War Stimson yesterday charged that Senator Wheeler's activity in mailing the card is tantamount to treason. The Montana senator countered by stating that the secretary's resignation on the grounds of unfitness, saying his advanced age made him unable to carry out his duties.

Slot Machines Added To Pile Of Aluminum

Housewives May Hurl Pots At Likeness Of Hitler In Bin

Two developments affecting the collection of cast-off aluminum for the government's defense effort occurred in Sanford today.

First, Chief of Police Roy Williams turned over to Harry Anderson, chairman of the drive, seven battered slot machines found in raids several years ago and since kept in storage at the Police Station.

Second, Ned Smith, secretary of the Sanford Gun Club, loaned a life-size target representing Adolf Hitler to be placed at one of the aluminum receiving bins. Those who wish to donate used aluminum now will have the added advantage of hurling their pots, pans or bottles at a striking likeness of the German leader, it was noted.

The target, which shows the Nazi leader in a brown military uniform, was used Wednesday at the regular shoot of the Gun Club.

The slot machines were smashed and placed in the central receiving bin on Park Avenue opposite the City Hall and the Police Station. The aluminum they contain will be salvaged and turned over to the government.

Governor Holland yesterday urged law enforcement officials to give slot machines they had seized to the aluminum drive and this has been done in other cities in the state beside Sanford.

Nazi Invasion Force Renews Its Offensive

No Decisive Result Gained By Either Power Any Place, London Discloses

Naval Bases In Germany Raided

Rome Claims Italian Airplanes Sink 3 Of Britain's Ships

By Associated Press On the Russian-German war front, London reports said today the Nazi invasion armies had renewed their offensive along the entire line, but there was "no decisive result gained by either side as yet."

In the Channel air war, R. A. F. pilots reported they had left great fires raging in the German naval bases of Kiel and Emden and also had attacked Wilhelmshaven in Nazi-held Holland, and France.

Rome announced Italian planes sank three more British totalling 37,000 tons in a British convoy in the Mediterranean, after sinking five ships the day before.

Yesterday's Russo-German war bulletins indicated the German offensive was substantially stalled. The Germans officially claimed progress only in general terms—in spite of official roads and strong local resistance.

The Soviet command's day communique pictured the Red armies as standing in the same old unchanged areas—the Pulkovo-Nevel-Smolensk triangle on the quality of an epic.

The Red army was declared to be clinging yesterday to its braced battle position on the right, left and center after 23 days of unending German assault against the defenses, for the Russian people, was taking on the quality of an epic.

Soviet troops by official account still stood substantially where they had stood 10 days ago, and thus the second Nazi offensive was pictured as ending in failure.

Falling too, the Soviet government claimed, were the nightly Nazi air raids on Moscow. German airmen struck Wednesday night early Thursday in the third consecutive raid, but again it was declared there was no military damage.

The windows of the two sides of the embassy residence of the United States Ambassador Steinhardt were smashed by a bomb. The only occupants were four American newspapermen and all were unhurt.

Naval Plans
Upset

BRANFORTH, N. J., July 24.—The Navy Department today announced that it had decided to cancel the construction of a new fleet of battleships, a move which would upset the program of the United States Navy.

BIBLE VERSE FOR TODAY

IT IS THE FOOD WHO EATS IN HIS HEART THERE IS NO GOD: In the beginning God created the heavens and the earth.—Genesis 1:1.

COUNTRY ROADS

From The Lyric: THESE roads at cross with time, Bend out that hills may be, Or sleek with hordes where men have sought for company. Narrow is the bayfield, They wind under trees, For they are country roads, By wooded lines of ease. The way along the way, Have fern on which to lie, Twining their thoughts from fold to pasture for the eye. Would a traveler drowse Upon the broken bed, Or sleep with all come home, And peace be on his head.

HOWARD RAMSDEN

Many a man leads a dog's life who never gets a pat on the head. This summer we are seeing growth in the rubber industry and other shrubs in Florida. The United States is one of America's best customers. Many a man leads a dog's life who never gets a pat on the head.

War Aims

Calling Hitler an "Antichrist which it is our duty as Christians to fight with all our power," Lord Halifax, British Ambassador to the United States, specifically states Britain's war aims in a statement addressed to the American people and published recently in the Woman's Home Companion.

"Free men, not slaves; free nations, not German vassals; a community of nations, freely co-operating for the good of all these are the pillars of the new and better order that the British people wish to see," he writes in a statement having a strong religious undercurrent. It follows in full under the title "The Freedom We Fight For."

"What do we mean when we say that we are fighting for freedom? We want to be able to live our own lives as we like; and not have to look over our shoulders all the time to see if the Gestapo is listening. We want to worship God as we will not let go. For conscience is not something that you can hand over to anybody else. But in Germany they have given their consciences to Hitler, so that people have become machines, merely fulfilling orders without considering whether they are right or wrong."

"And what has been the effect on Hitler? When he first gained power he was at pains to explain that his aims were strictly limited. He was only concerned with the welfare of Germany. He had no claims against her neighbors. But steadily his appetite grew, until today he assumes the role of a supreme protector. Already we see him ruling through creatures, pale shadows of himself, that he has established in Central and Northern Europe. For Hitler, force has become the final rule of the destinies of men and of nations. Germany has the force; hence Germany alone must decide how the nations are to live together."

"What matter if they do not like it? Man in his view is a frail creature, fallible and made to obey, and will soon learn to obey his master. According to Hitler, old-fashioned respect for the pledged word is a sign of weak fibre and unworthy of robust masterminds. He would have no nonsense about equality before the law, which is an outrage against reason and the all-powerful state. Bad faith, cruelty, crime, become right by the fact that it is he, Hitler, who ordains them. That is the fundamental challenge of Antichrist, which it is our duty as Christians to fight with all our power."

"The peoples of the British Commonwealth, along with all those who love truth and justice and freedom, will never accept this new world of Hitler's. Free men, not slaves; free nations, not German vassals; a community of nations, freely cooperating for the good of all; these are the pillars of the new and better order that the British people wish to see. And I hope that my country, which leads the fight today to prevent the immeasurable human tragedy which Hitler's victory would mean, will be the one to point the way for all peoples to a better life."

"We can well be of good heart when we survey the prospect. Hitler may plant the swastika where he will, but unless he can sap the strength of Britain the foundations of his empire are built on sand. In their hearts the peoples that he has beaten down curse him and pray that his attacks may be broken on the defenses of our island fortress. They long for the day when we shall rally forth and return blow for blow. We shall assuredly not disappoint them. Then will come the day of final reckoning when Hitler's mad plans for Europe will be shattered by the unconquerable passion of man for freedom."

"The people of the United States did not build their new home in order to surrender it to this fanatic. They have judged his vision; they see that his gospel is a gospel of hate, his policy a policy of brute force, his message to mankind the enthralment of the human spirit under ruthless tyranny. We may take heart from the certain knowledge that great people pray for our victory over this wicked man and his ways as fervently as any of his present victims. The foundations of your country, as of ours, have been Christian teaching and belief in God."

A Hard Life

Ignace Jan Paderewski, the great Polish pianist, who died the other day at the age of 80, is quoted as saying "I love life" and you might well conclude that one who had been so eminently successful in all his endeavors ought to have been happy. And yet Paderewski had a sad life, undured more probably in sorrow and suffering than most people.

Declaring that Paderewski was able to give great comfort to the world despite much sorrow and personal suffering from earliest childhood, the St. Augustine Record lists some of the chief tragedies in his life, as follows: "Paderewski's mother was murdered; his father imprisoned and his grandfather killed during a futile rebellion for freedom when he was three years old."

"His country was divided, oppressed for 50 long struggling years. His country was fought over by two great opposing forces in the World War, devastated and stricken again and again. Its independence was declared four years later. Two years afterward came a bitter and terrible war with the new Soviet State."

"Then followed 20 years of effort to establish a republican government in the face of old, racial and political hatreds. Another war began and his country was overrun by Germany and Russia and partitioned in a few weeks, with frightful suffering for countless people."

"Now comes the struggle for complete freedom across the land and among the people again. Some make an effort to become great because of the stress he placed on it. They accept the things as a condition of their own lives."

OUR NATIONAL GENIUS FOR SAFETY

MAKING AMERICA STRONG

Flow subcontracting accelerates defense production...

700 Firms in 130 Cities in 30 States are helping QMC Corporation to make tanks

This is one of a series of illustrated articles designed to inform the public of the progress being made by American industry in providing the weapons for national defense. The facts presented have been gathered in surveys of leading defense industries and from other authoritative sources. The extent to which the "farming out" of orders contributes to the volume of American industry's defense effort is indicated in the above illustration. Thousands of firms—large and small—across the country, firms whose names do not appear in the list of defense contractors, are working night and day on defense production, making parts and sub-assemblies. One prime defense contractor, for example, produces tanks with the assistance of 700 subcontracted firms in 130 cities in 21 states. And those 700 firms in their turn are buying materials, supplies, and finished goods from hundreds of other Motors for these Army tanks are supplied by two sub-contractors Grinn and for the thousands of parts that go into these motors, the sub-contractors turn to numerous suppliers in all parts of the country. This is also the case in other branches of defense work. The Office of Production Management recently revealed more than 8,000 sub-contractors are making parts

Air Corps And Army Vacancies Said Unlimited

JACKSONVILLE, July 25.—(Special)—Col. Oscar Foley, recruiting officer for the regular Army in the States of Florida and Georgia, announced today that vacancies for the Air Corps and regular Army maintenance were unlimited. For the past week recruiting from among civilians has been closed and all applicants were directed to go to their draft boards and volunteer for immediate service.

"Now we have vacancies for any and all white applicants who desire to enlist for a three year period, who are qualified, including the following are the specialties: Broadly speaking, enlisted personnel followed by Air Corps enlisted technicians: aerial photography, airplane and airplane engine maintenance, instrument, machine shop work, radio operating and maintenance, sheet metalcraft and welding. The Air Corps also needs clerks, cooks and stewards. Besides the enlisted technicians, qualified enlisted men in the Air Corps have an opportunity to take an enlisted pilot course and also have a chance to prepare themselves for the examination for appointment as aviation cadets. Any applicant who has an eighth grade education or more who can pass the necessary intelligence test is eligible for enlistment in the Air Corps providing he is otherwise qualified for enlistment. Enlistments for the other branches of the regular Army are made unassigned, that is they are not assigned to any specific branch at time of enlistment but they can be transferred that they will be placed in the branch for which they are best suited, after they are classified at the reception center, Col. Foley said. Generally speaking applicants must meet the following requirements to enlist in the regular Army: Be not less than 18 and not more than 35 years of age, and if less than 21 must have the written consent of their parents. They must be at least five feet tall and weigh not less than 105 pounds, of good moral character and habits, be free from any organic disease, single and without dependents and be citizens of the United States. For further information call at the nearest army recruiting office: Columbus and Macon, Ga.; Jacksonville, Miami, Tampa, and Orlando, or write to the U. S. Army recruiting office, 1215 Power Office Building, Miami, Florida.

Persons States U. S. To Have Best Army

CLEARWATER, July 25.—(Special)—The United States soon will have the best equipped and best trained army in the world, Maj. Gen. John G. Pease, commanding officer of the 81st Division at Camp Blanding, held 1,500 persons here Thursday at the Association program of

the mid-summer festival. The defense parade, which was to precede the program, was rained out. "Many of the nations of the world today are practically bankrupt," General Pease said. "Unless the United States has unlimited resources and is just starting to learn."

Alabama Coach Says Draft To Hit All Alike

MONTGOMERY, Ala., July 25.—(AP)—Coach Jack Meagher of Auburn predicted yesterday the draft would affect all Southeastern Conference teams "about the same" and asserted he was "sure" his members would have to call upon freshmen for variety duty.

Each would have to lose "a wholesale number of boys," Meagher said, to bring this about. He added, however, some of the smaller schools might have to play their first year men.

Meagher's observations were contained in a guest column written for Sam Adams, sports editor of the Alabama Journal.

"All teams in the Southeastern Conference carry large football squads," Meagher wrote, "and I know that all would have to lose a wholesale number of boys,

Abbe Pierre Takes First Win At New York Race

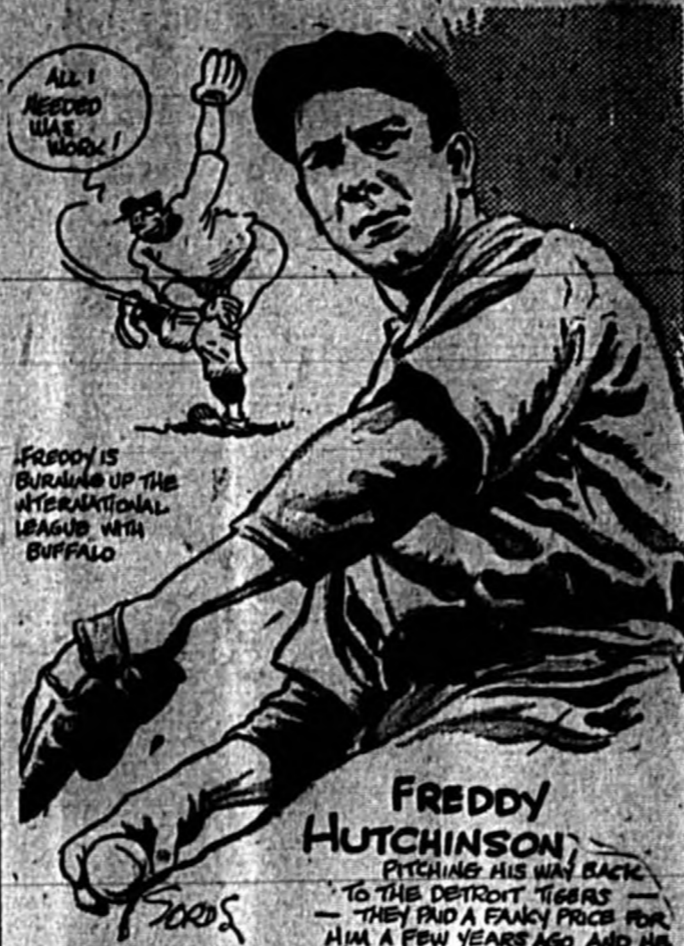

NEW YORK, July 25.—(AP)—Abbe Pierre, with a record of one second place in 14 starts covering last year and this, won the Grandstand purse at Empire City Thursday. The imported horse from the R. Sterling Clark stable took first money in a four-horse photo finish, with Mrs. Alice Sherman's Grey Wolf being second and the English-bred victor by a head.

A. C. Bostwick's Shipmate was third. The winner, ridden by Freddie Smith, paid \$10.40 for \$2 and was timed in 1:46 flat.

Suffering from pains in the stomach, Jockey Luis Torres, who escaped injury in the four-horse spill last Tuesday, fell from the saddle while he was trying to pull up Spring Away, his mount in the last race. Spring Away was far back in the race, which was won by Dr. Sticks. Porlet was second and Flying Mint Bird. Paul Keenan earned a double astride the winner.

The handle at Empire City today was \$713,205.

Destroyer Named After Floridian

CHARLESTON, S. C., July 25.—(Special)—The destroyer 463, designed by Secretary of the Navy Frank Knox as the USS Corry, will be launched in the waters of the Cooper River at Charleston, S. C., at noon Monday, July 23. Her hull completed she will be launched out "on time" then be towed alongside "fitting out" docks where her engines and the intricate instruments and machinery of the modern man-of-war will be installed.

The 463 has been named in honor of Lieut. Comm. William Merrill Corry, U. S. N. He is the second destroyer to bear the name of the famous naval aviator who met death in Hartford, Conn. on Oct. 7, 1920, while attempting to rescue a companion from an airplane which had crashed and burst into flames. Lieutenant-Commander Corry was a 1889.

He was born in Quincy, Florida Oct. 18, 1889.

McNeil, Parker Blasted Out Of Seabright Meet

SEABRIGHT, N. J., July 25.—(AP)—Don McNeill, whose lease on the national single tennis title is fast running out, and Frankie Parker, until now the man of the hour in amateur tennis, were blasted out of the 84th annual Seabright invitation tennis tournament Thursday in a pair of upsets that left the men's field with only one of its seeded stars.

McNeill, playing tennis that hardly befits a national champion, was relegated to the side lines by 20-year-old Ted Schroeder of Glendale, Calif., 6-3, 7-5, and Wayne Sabin of Reno, Nev., whipped Parker, 6-4, 6-4.

The other quarter-final round matches was true to form as second-seeded Bobby Riggs of Chicago, the defending champion, conquered Jack Kramer of Los Angeles, 8-6, 6-2, and Gardner Mulloy of Coral Gables, trounced

TO DISCONTINUE TRAINS

MONTGOMERY, Ala., July 25.—(AP)—The Southern railway system will be authorized to discontinue operations of six passenger trains serving north Alabama and adjacent sections in order to make equipment available for transporting soldiers and defense workers. Hugh H. White, president of the Alabama public service commission, said today.

Ladislav Hecht of New York, 6-2, 6-0, in the lower half of the draw.

McNeill's defeat was sealed when he had set point in the ninth game of the second set and lost it on one of the countless errors he committed.

Sabin was dynamic against the third-seeded Parker. The Altadena, Calif., ace made only one spirited stand—when he captured three straight games in the second set to cut Sabin's lead to 5-4.

Riggs, now a heavy favorite to win the tournament, title for the fourth time, encountered stiff opposition from Kramer in the first set of their match but was never in danger once he asserted himself.

Mulloy simply outclassed Hecht, the former Casch Davis cupper, who was the top-seeded foreigner. He won the last nine games in succession as he qualified to meet Riggs in tomorrow's semi-final round. The Schroeder-Sabin semi-final will also be played tomorrow.

F-M HORIZONTAL EJECTOR

Here's a new type of pump which fills a definite need by supplying an extra volume of water at low pressure and also provides an ample supply at normal tank pressure. Extremely quiet in operation, the F-M Horizontal Ejector pump has but one moving part. It produces greater water capacity for its motor size than any other design of pump. An ejector jet and tube, built into the suction side of the volute, increases the capacity of the pump and develops a high pressure discharge. A heavily constructed bronze impeller makes the pump less subject to wear from sandy water. Come in today—we will be glad to give you complete details on this F-M Horizontal Ejector Water System.

Warning System For Aircraft Is Set Up In Seminole County

Observer Posts Will Be Manned During Emergency To Spot Foreign Airplanes

Location Of 12 Posts Withheld

Co-operation Of Men And Women Aiding Council Is Praised

J. L. Ingley, chairman of the Seminole County Defense Council, reported today that Roy Williams, head of the civil protection division of the council, has completed the task of organizing posts for the aircraft warning service in this county, and that the names of nearly 200 observers will be submitted to state headquarters for approval.

Location of the 12 posts, which will be manned during emergency to spot enemy aircraft, will be kept secret. With the setting up of the aircraft warning system, Seminole County has completed the first step in its defense work as outlined by the State Defense Council, Mr. Ingley declared.

Some 100 men and women are working on the project, and the list of names will be submitted to state headquarters for approval. The names of the 12 posts will be withheld until the system is in operation.

Ingley said that the system will be in operation by August 1, and that the names of the 12 posts will be withheld until the system is in operation.

The organization of the observation posts was directed by the State Defense Council, which selected the 12 posts in Seminole County.

All of this has been made possible by the whole-hearted cooperation of the citizens of the county, Mr. Ingley stated.

Miss Dorothy Higgins, daughter of the late Dr. Higgins, and Mrs. L. C. DeWitt, formerly of Sanford, are helping in the work.

German Drive Said Stalled By Red Army

Moscow, Berlin Have Air Raid Alarms But Neither Capital Reports Bombs

WASHINGTON, July 26.—(AP)—Acting Secretary of State Sumner Welles planned to confer this morning with a series of military missions seeking to coordinate questions of obtaining military supplies from the United States.

In the European war theater, Moscow and Berlin had air raid alarms today—but neither capital reported any bombings.

The German High Command remained non-committal but spokesmen in Berlin hinted, as they have done frequently in the past two weeks—that a decisive stage is near and that Soviet resistance was crumbling.

What news there was yesterday from the front in Russia indicated that the Soviet lines still were substantially unchanged in every major theater.

The Naal High Command specifically acknowledged stiff Russian resistance and made only the familiar claim that the offensive was proceeding "according to plan."

Berlin military spokesmen asserted that 10,000 Red prisoners had been taken since the start of the offensive.

Peru-Ecuador Truce Is Expected Today

LIMA, July 26.—(AP)—Well-informed sources said a truce in the boundary hostilities between Peru and Ecuador would be agreed on today.

U.S. Credits In Japan Frozen

Roosevelt Calls Philippine Army To Active Duty

Step Further Indicates Displeasure At Japan's Move

HYDE PARK, N. Y., July 26.—President Roosevelt called into the armed service of the United States today all "organized military forces" of the Philippine government.

There was no immediate official explanation of the step, but it was generally regarded as another indication of the United States displeasure at Japan's southward move.

The action followed freezing of Japanese credits in this country as a reply to Japan's occupation of southern China.

There was increasing indication today that the Tokyo government expects an extremely grave crisis during the weekend and is making last minute preparations to face a possible complete severance in financial and trade relations with the United States and the British commonwealth.

Freezing of Japanese funds in the United States and its possessions, all units of the British commonwealth, including India and the British colonies, and possible efforts to seize Japanese ships, were expected, but it was said all possible precautions to abandon her policy of a great East-Asian war.

Control of the press was virtually complete and it was therefore, significant that nearly all newspapers appeared in length today.

The general tenor of criticism was that President Roosevelt deliberately had forced Japan to abandon her policy of a great East-Asian war.

Townsend Clubs To Convene In Orlando

Airport Project Is Approved By CAA For Paved Runways

July 1 Draft Order Numbers To Be Published

Second Registrants May Be Used In September Call

Order numbers of men who registered for Selective Service on July 1 will be ready for publication in the Monday issue of The Sanford Herald.

The master list of the numbers drawn from the fishbowl in Washington and the key for inserting the names in the first draft list have been received by the board, Mr. Carter stated.

The number of registrants for the first registration divided by the number in the second gives a ratio of two to one, establishing the place the new names will be inserted in the first draft list.

It is probable that a number of men in the second registration will be used in the call for September as the board has announced through the first 1000 names on the list for the August call and those whose names are inserted in the first 1,600 of the list will be eligible for classification.

Two more questionnaires mailed to registrants have been returned to the draft board office because the men have not kept the board posted on change of address.

USO Drive In Sanford Leads Entire State

Kershaw Reports Increase Over Quota Exceeds Any City

Sanford exceeded its quota for the USO drive and at the same time exceeded the record of any other Florida community in percentage of increase of quota.

Mr. Kershaw declared that the new project should be completed by the end of the month.

The City Engineering Department has been instructed to proceed with the plans to develop this project immediately and the new plan should be in operation in five or six weeks.

"When the clearing, grading and draining has been done, the U. S. Engineering office in Jacksonville will furnish construction plans and put the building of the paved runways out to competitive bids.

The City Engineering Department has been instructed to prepare immediately the first project and submit to the government for approval.

Rome Reports Raid Causes 'Explosions'

ROME, July 26.—(AP)—The High Command today reported an Italian naval assault-raft raided the British naval base on Malta last night and caused eight "very violent explosions."

The assault of enemy vessels involved in these different projects is not to be made public, however, but we have been assured that the two paved runways, the taxi ways and the lighting and other things necessary to complete the airport will be furnished.

The City Engineering Department has been instructed to prepare immediately the first project and submit to the government for approval.

Nation Strikes Back At United States As New Economic Warfare Proceeds

British Assets Believed Next America's Supreme Weapon, Blockade, Still To Be Used

Britain struck back in the new economic war with the United States and the British Empire today by freezing United States assets in her own empire.

The supreme weapon of the United States' British economic blockade remained unused.

In a swift retaliation for Japan's push into French Indochina, President Roosevelt last night froze Japanese assets in the United States, including Japanese ships, and thereby tied up Chinese assets so that the Axis cannot get at them.

A White House statement, issued in Washington and at Hyde Park, declared the action was "designed among other things to prevent the use of the financial facilities of the United States and trade between Japan and the United States, in ways harmful to national defense and American interests."

It added that "this measure, in effect, brings all financial and import and export trade transactions in which Japanese interests are involved under the control of the government, and imposes criminal penalties for violation of the order."

Technically, the order prohibited the use of remittance from the United States of any Japanese-owned Chinese property without a specific license for each transaction from the Secretary of the Treasury.

Broader applying to cash, checks, drafts and a general list of other assets, the order had the effect of immobilizing, for the present at least, all Japanese ships in United States waters. Four were believed to have been caught by the order, and 40 more were reported hovering off the west coast of the United States, fearing to come into port.

Estimated by some sources that, aside from the ships, some \$131,000,000 of Japanese assets were involved, although others figured the sum was much higher. There are between 10,000 and 70,000 Japanese nationals in United States territory, it was estimated, and many of them are expected to be affected by the order.

If Japan should retaliate in kind, she might tie up some \$217,000,000 of American assets within her reach.

Technically, the order applied to all Chinese assets but it was made clear that it would be administered in such a fashion as to do no harm to the cause of Generalissimo Chiang Kai-Shek, who has been engaged in a four-year battle against Japanese invasion with the active sympathy of the United States.

WASHINGTON, July 26.—(AP)—The United States and Japanese governments clashed in open economic warfare today, each freezing all assets of the other's within reach.

Japan, denounced officially here as the aggressor first before the United States asked to handicap its expansionist efforts, followed the American lead in the freezing maneuver.

Also, the United States provided machinery for lighting down on exports which would be vitally needed for any Japanese aggression toward Singapore or the Dutch East Indies.

LOCAL WEATHER

Considerable cloudiness tonight, showers, mostly in the afternoon.
