Congratulation are in City Commission both for the manner in which it has started to solve the knotty problem of unifying the drive to attract industry and the spirit of willingness exhibited to break new trails.

Taking these two aspects of the commission's actions in order it is encouraging to see that the Greater Sanford Chamber of Commerce is being recognized as a tried and true instrument which has E shown its capacity to perform

Retaining much of the form of the first few and experimental years of the Sanford Industriai Commission, it was heartening to learn that the membership of SIC would now include a representative of the Chamber of Commerce, recommended by the

"Each of us, in the words of Charles Lamb is unconsciously a "bundle of prejudice". But it is within our power to rid ourselves of such a load . . . an unnecessary burden which only halts our personal progress as well as that of our fellow men.

Selection of Mr. Mercer is most welcome. Here is a profesional with experience in both the educational and banking fields and who has exhibited a knowledge of local affairs and a willingness to become involved that augurs well for his action as a SIC member.

For action is the need of the moment. Guy Garrett: A Rough Task

By GREY BOYLES Herald Sports Staff

Seminole High is fortunate to have a baseball coach with the experience of coach Guy Garrett at the helm. Garrett is a winner both as a man and a coach. His enthusiasm, dedication and knowledge of the game of baseball has got the young

Seminoles really bustling in their practices to please him. Garrett has coached baseball for 14 years and one of his greatest thrills was getting back in the game after a five year absence. He is a native of Winter Haven and started coaching at Sebring and went from there to Avon Park where he had his greatest success.

While at Avon Park he won state championships in 1955 and again in 1964. He also put together winning streaks of twenty-one and forty-eight games in a row.

Garrett-led teams were in the state finals six times, won six district titles and nine conference championships. Seminole poses a problem for the Stetson graduate as he feels that pitching is the "name of the game," and he and his able staff of Coach Darvin Boothe and Coach Bucky Irvin must start from scratch with a new pitching staff. The pitching must be furnished from the following candidates: Kip Braden, Randy Nobles, Andy Steele, Chuck Mahoney, Eddie Padgett, Tolley Franks, Paul Watson, Nick Brady and Eddie Adams, Ricky Harris and Tommy Gracey have been looking real good at shortstop and second base.

The coaches are looking for leadership and this should come from veteran catcher Dale Wagner, as he is the only regular starter back from a very fine 1969 team. Joe Potter was a regular the last half of the season and Tommy Gracey started some games. The Seminoles are looking to another fine season under the winning leadership of coach Garrett and

In fact, even the scene in "National Velvet" when Elizabeth Taylor's curls came streaming out of her jockey cap to reveal her sex, designed for shock value, wouldn't cause an eyebrow to lift today.

Walk into any jockey's room and you may find boys with a fair resemblance to a skinny Mickey Rooney, but there are many more who don't fit the pattern of what riders are supposed to look like. At Hialeah Park one of the finest jockey colonies ever assembled is in action daily, including Braulio Baeza, Bill Hart-

ack, Jorge Velasquez, Angel Cordero, Jr., and Walter Blum, each a national champion either in number of wins or money won in recent years. There are other distinctions than those titles in the Hialeah jockeys' room, however. For instance, Jerry Harrison would be

the envy of any woman going shopping at a shoe store, since he wears a size 2 boot. Harrison wins many rounds in size contests. He is the shortest Hialeah jockey at 4'7" and also the lightest, just 88

On The Trail

One of the wagon train stops along the wilderness trail at Florida's Weeki Wachee is the replica of a Seminole Indian village, authentic in every detail. So real is the wagon master's description of the thatched huts, ceremonial grounds, tribal customs and superstitions, shadows seem to move in the surrounding gloom. The crowd huddles closer. In imagination, Seminole apparitions step on the scene from out of the past.
