

COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS FOR THE HERALD

WEST GENEVA AVENUE
The heavy rains have knocked out the most of the fall gardens.
The Flu is still raging among the people, yet it seems like there is no end to it soon, but I truly hope it will leave us all soon.
Mrs. Tom Fortier is a little on the mend from a two weeks' spell of the Flu. People have got to take care of themselves if they want to get well.
There are some people running from Flu but I don't think it will be our whole world.
Mrs. J. E. Vaughn is awful worried about her brother and family in Tampa. They live in town and the Flu is had there.
Mrs. Will Robinson has just received a letter from Miami, saying her daughter is very sick with Flu. Mr. and Mrs. Neal Culp and family were pleasant callers at the home of Mrs. J. E. Vaughn Sunday afternoon.
I see the Germans have called their submarines to their own base now and are willing to have peace. May God send it at once.
I want peace, to get those poor starving souls from German prisons, for they are suffering in many ways.
Mrs. Niels is on the sick list this week and Mr. Tom Fortier's little baby girl is sick too.
I think if we could have some good clear cool weather everybody would soon get well, but it is so damp and rainy it makes people feel bad all the time.
When the Flu leaves and this war

ends we will all live happily again. May God send it soon.

GENEVA
Geneva went "Over the top" in Liberty Bond subscriptions, doubling the amount asked for. This is due to the spirit of patriotism prevailing here and the untiring efforts of Mrs. Endor Curlett.
The many friends of Paul Dooley will be glad to hear that he has been promoted to Corporal—somewhere in France.
So far there have been no cases of "Flu" in Geneva except among the colored people.
Miss Blanche Pattishall, who is filling a government position in Washington is sick with influenza, but her many friends here are glad to know she is recovering.
The friends of Mr. and Mrs. J. H. Huddleston rejoice with them that their daughter, Mrs. Baxter of Gainesville who was seriously ill with pneumonia is better.
The friends of Miss Clara Phillips of Sanford are glad to know that hers was not a severe case of influenza.
Work has commenced at the Geneva Citrus Growers packing house and a good season is expected.
Hilton Brown of Ft. Drum has accepted the position of foreman at the Exchange packing house.

EAST SANFORD
Mrs. L. A. Brumley is at Port Orange sanatorium recuperating from her recent long illness. Mr.

Brumley went with her in their car on Friday of last week.
Miss Ethel Hickson is expected home in a few days from several months stay in Philadelphia, Pa.
Horace Chorpenevich reached here Monday evening from Camp Eustis, Virginia, and gave his family a delightful surprise. He is leaving on Friday for his return to camp.
Peach and pear trees are in full bloom out here in the intensive growing gardens of East Sanford.

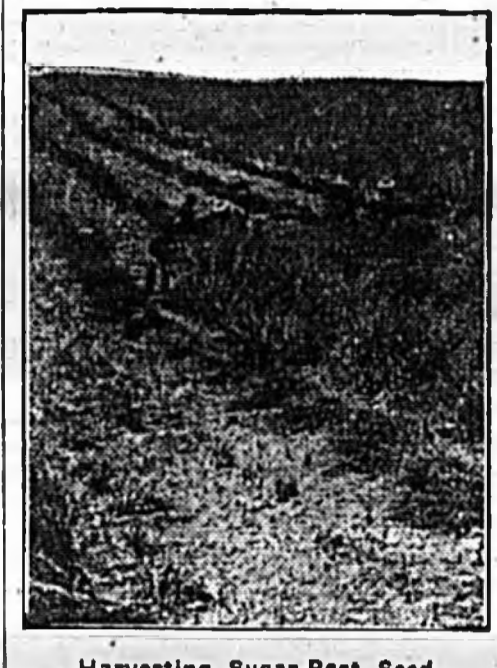

UPSALA AND GRAPEVILLE
Mr. and Mrs. Andrew Bertleson moved out from town last Friday on to the old home place. We welcome them to our community.
Miss Eva Malm, who is employed in the Ormond postoffice is spending her vacation in visiting her old friends in Orlando and Sanford, also visiting for a few days with Mrs. H. G. Lundquist and Mrs. Alfred Erickson.
Miss Edna Thompson has finished her business course in DeLand and accepted a government position in Jacksonville.
Hilmer Lundquist received a telegram that her brother, Garder and wife in Pensacola were very ill with the influenza.
Seems like we are having our rainy season in October this year. The mocking bird tries to cheer us up with his ever changing notes and we welcomed the first phoebe this week, so here's hoping for better weather.
H. G. Lundquist is adding on to his house and his old friends Price & Collier are doing the work.

BOYS AND GIRLS WORK HARD
Produced and Conserved Products Last Year Worth \$10,000,000—Many Were Enrolled.
(Prepared by the United States Department of Agriculture.)
More than 2,400,000 boys and girls were reached through club work last year, according to a compilation recently made by the United States department of agriculture, which supervises this work in co-operation with the state agricultural colleges. Of this number approximately 350,000 made complete reports, which show that they produced and conserved products amounting to \$10,000,000. In the 31 Northern and Western states 800,000 boys and girls were enrolled, of this number 160,025 made complete reports and produced and conserved products valued at \$3,700,000. In the South there were 115,745 boys enrolled in the regular work, who produced products valued at \$4,500,000 and 73,293 girls who produced and conserved products valued at \$1,500,000. In the emergency club work in the South the club leaders reached over 300,000 boys and approximately 1,000,000 girls who produced and conserved products valued at more than \$4,000,000.

FLIP OF COIN LEADS TO DEATH OVER THERE
Wheeling, W. Va.—Edward F. Bowman, interned, is dead in France as the result of a flip of a coin. Bowman enlisted in the army in May, 1917, after he and a friend had tossed a nickel to determine which one would enter the service. Bowman called the turn and was a soldier a few days later.

Electrics.
New York is estimated to have 2,500 commercial electric vehicles, Chicago 1,650, and Philadelphia 150.

SEED SUPPLY FOR NEXT YEAR
Importations From Europe Curtailed by War—Farmers Must Now Produce at Home.
(Prepared by the United States Department of Agriculture.)
War conditions have made it necessary for the United States to produce at home seed supplies that formerly were imported from Europe. Temporary seed shortages have developed under new economic conditions, and they may continue," says the United States department of agriculture in "The Seed Supply of the Nation," a new publication recently issued at Yearbook Separate 757, "but farmers and seedsmen are resourceful and they may be expected to find ways and means to meet not only the needs of this country, but also those of other countries which may be dependent upon us."
Although, as a matter of necessity seed production has increased in this country since the war, the experts of the department state that the possibil-

Harvesting Sugar-Beet Seed.
ities of commercial seed growing in the United States have only been slightly developed. The publication mentioned may be obtained by seedsmen and those especially interested, it discusses at length the various American farm crops, from a viewpoint of seed supply.
American farmers plant upwards of 7,000,000 tons of seed per year, most of this being the great staples, wheat, corn, cotton, etc., and practically all of these seed supplies are produced at home. Nevertheless we were accustomed before the war to import large quantities of seeds from Europe. For some vegetables, sugar beets, and other crops, we depended almost entirely upon the European seed supply. Seed importations from Europe were curtailed or entirely cut off by the war.

Make Manure Useful.
Let the manure pile go its usual way—via spreader.
There is a total of 25 club members in Bradford county now supplied with pigs. Owing to the fact that the pig club work was new in the county this year, its full importance was not realized. However, results secured by club members have been so marked in comparison with native pigs on the same farm that farmers as well as boys eligible for club membership are applying to the county agent for "pigs like you sent my neighbor boy." In one community where there were only two club members this year, more than 20 boys have expressed their intention of becoming members another year, and three farmers in the same community have already bought pure-bred boars and girls.

Washington county farmers continue to call for rape seed to be planted for winter hog pasture. All indications point to a large acreage of this crop. Over 3,700 head of cattle dipped in this county during September. The making of sorghum syrup well under way. Generally, it is being packed in gallon and half gallon cans, and there is a ready local market for it.
Orange packing will be more popular with the society women of Waukeela the coming season than bridge, many prominent women announcing that they intend to go into the packing house to do their bit when the season opens.

MYSTERIOUS PAINS, ACHES
Make Life Hard to Bear for Many Sanford Women
Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back, dizzy spells, headaches and irregular urinations. Kidney weakness becomes dangerous if neglected. Use a time-tried kidney remedy—Doan's Kidney Pills. Hosts of people testify to their merit. Read a Sanford testimonial.
Mrs. Geo. Smith, Route A, says: "It was about five years ago that I used Doan's Kidney Pills for backache and other symptoms of kidney trouble. They gave me great relief and helped me in every way. Other members of my family have taken Doan's Kidney Pills with wonderful results, too. I am glad to give this endorsement."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smith had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Ford
THE UNIVERSAL CAR
The Ford Model T one-ton truck is proving a splendid time and money-saver on the farm. It is very flexible in control, strong and dependable in service. It has really become one of the farmers' necessities. One Ford truck is equal to half a dozen teams and won't "eat its head off" when not working. The very low price makes it popular with shrewd farmers who analyze conditions on the farm. Let's talk it over. Mr. Farmer. Price, without-out body, \$550 f. o. b. Detroit.

The world seems full of sorrow and every one will be touched by the hand of destiny before the war is over.

Sanford, one of the healthiest cities in the world has been very fortunate in the late epidemic. But we should not relax our vigilance for one moment.

The Seminole Chapter Red Cross deserves great credit for the able and systematic manner in which they have handled the influenza cases here.

Don't forget that you are a member of the Sanford Board of Trade and that now and after the war this board is working and will be working for you and your county.

Sanford city council has taken up the question of having an aviation field here with their customary vigor and it will be ready for the flyers in a few days.

Now at the Liberty Loan is over a great drive for the War Work of the Y. M. C. A. the Y. W. C. A., the F. W. C. of Columbus, the Salvation Army, and the American Library.

Riding on Sunday
A party of gasoline was burned Sunday. Good patriots who have been observing the Sunday gasless order and many that their cars should be repaired along with other basic needs of war.

It seems that the available supply of motor gasoline was increased 184,000 barrels in the month previous to October 11.

The fact is that Thrift does not come natural to the American people. They have been such princely wasters. Their ideas of the

sources of supplies are on a scale that prevents their comprehension of the real need for conservation.

And somehow we cannot feel sad about this dereliction from the standards of Thrift as we ought to feel. The American people may be unthrifty but they are also magnificently generous.

CITY COUNCIL HOLD SEVERAL MEETINGS.

Sanford Men Start Business Near Tampa

A New Style Monogram for Table Cloths and Napkins to Interest Clever Needleworkers.

By KATHERINE MUTTERER.
There was never so great a demand for monograms as now, because of the growing appreciation of the value they add to household and personal linens.

For a table 48 inches in diameter, whether it is round or square, the cloth is marked with the monogram placed half way between the center and the edge of the table. When the cloth is 54 inches or more in diameter, two monograms are used, one at either end half way between the center and edge of the table.

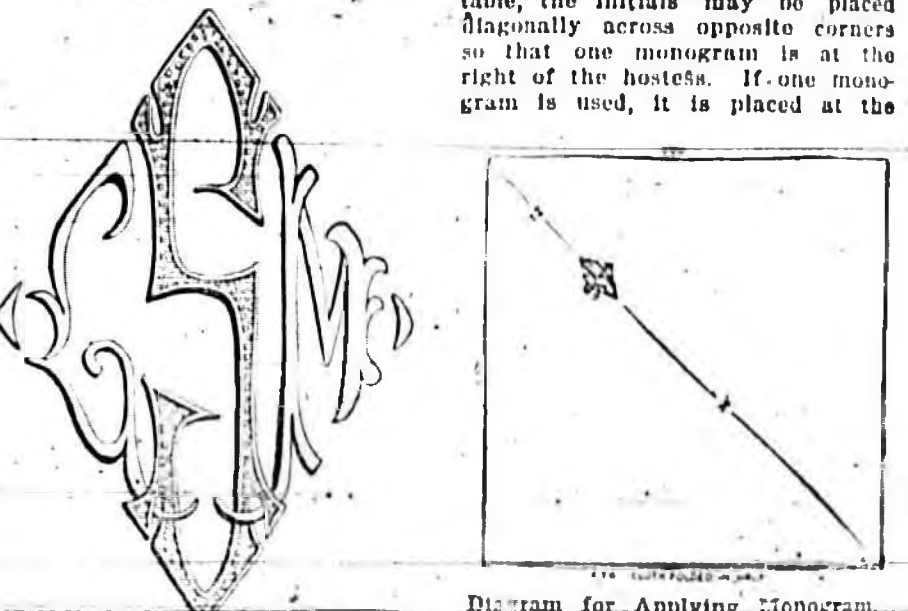

Diagram for Applying Monogram

Decorated Monogram No. 574, supplies, 1 1/2 to 2 inches square, 3 inches for 10 cents and 10 cents extra for 12 inch height.

Fruit Growers and the New Banking System

The Federal Reserve Banking System, established by the government, stands back of the orchards, and enables us to help our farmers get better yields, better prices and better all round results.

The vast resources of this system assure us at all times of ample funds and currency for the legitimate needs of our fruit growers in picking and marketing their crops.

If you are not already one of our depositors come in and see if we can't help you.

OVER TWO MILLION American Soldiers are now Overseas in Service

Washington, Oct. 23. Embarkation of 2,068,331 American soldiers to participate in the war overseas was disclosed by correspondence between Secretary Baker and President Wilson given out at the White House tonight at the same time that the President's reply to the German note was made public by the state department.

"I am sure that this will be a matter of deep gratification and assurance to the country," said the President replying to a letter from Secretary Baker, reporting on the number of men who have sailed from American ports to October 21.

SHERM'S DOTS

THE DOTS SOMEWHERE IN FRANCE

Dear Folks:—Well, I have learned the military signs for map-making and learned how to estimate distance by a horse's step, and still I find I am just beginning to learn things about the army game. Today I learned, if I multiplied the diameter of a wheel by 3.1416 it would give me the circumference. And multiplying the circumference by the number of revolutions traveled by the wheel would give me the distance. Simple isn't it? And this afternoon the engineers are going to take us out and teach us how to build SAMMY.

To complete the picture, draw a line from dot 1 to dot 2, then from dot 2 to dot 3, and so on.

(Copyright, 1917, by The Bell Syndicate, Inc.)

SOUTHEAST HEROES IN FRANCE GET SUPPLIES AT LESS THAN WHOLESALE PRICES OVER HERE

RED TRIANGLE SHOULDERS EXPENSE OF TRANSPORTATION FROM MANUFACTURERS TO CANTEENS IN FRANCE—SYSTEM REDUCED TO FINAL BASIS AND RESULTS NOW ARE VERY GRATIFYING.

The Americans overseas with Pershing have facilities for combatting the high cost of living that are absolutely beyond the reach of civilians on this side of the Atlantic. Even their small luxuries, such as tobacco, biscuits, cakes and similar articles, are obtainable at prices that are considerably lower than those charged by retailers in American cities.

This is made possible because the Army and Navy Y. M. C. A. has taken over all post exchanges in France at the direct request of General Pershing, so that the Red Triangle is now conducting the greatest business enterprise in the world.

Tobacco and other "supplementary" supplies are distributed to the boys in khaki at exactly wholesale prices. The "Y" makes not a penny of profit and even shoulders the financial loss entailed by footing the bills for transportation from the manufacturer to the canteens at the front.

The American troops can buy Fatima cigarettes for 50 centimes, or about 8 cents; Camels, 35 centimes, or about 6 cents; Sweet Caporal, 20 centimes, or about 3 cents; Lucky Strikes, 30 centimes, or about 5 cents; Murads, 65 centimes, or about 11 cents; Bull Durham, 25 centimes, or about 4 cents; Prince Albert, 40 centimes, or about 7 cents; Velvet, 30 centimes, or about 5 cents; Star Chewing, 35 centimes, or about 6 cents.

Capt. George M. Lynch, former assistant commandant at the Florida Military College, Gainesville, Fla., but now in the Red Triangle Service, has made several trips overseas and has investigated thoroughly the conditions existing in the post exchanges under Y. M. C. A. management. He declares that while some difficulty was experienced at first, prices have been stabilized and the boys are getting their supplies at cost.

Designed Southeast Hostess Houses

TWO HOSTESS HOUSE ARCHITECTS OF THE Y. M. C. A.

FOUND BOOKS DEEP DOWN IN DUG-OUTS

American Library Association Books
Said Beach Soldiers, Says
Raymond Fosdick

"I found the books of the American Library Association everywhere in France," says Raymond Fosdick, chairman of the National Commission on Training Camp Activities, who has just returned from an extended tour covering some thirty camps, where a cover-to-cover investigation of the work being done by the various war work agencies.

"I found them in dugouts thirty or forty feet below ground, in cowbarns where shrapnel had blown parts of the roof away, as well as in the substantial huts and tents far back from the firing line.

"I have found them in hospitals and dressing stations; in scattered villages in the front area; in the remote parts of France where the forestry units are carrying out their lonely, but efficient and essential work. Your books are in continual demand from the time the soldiers arrive in camp in America until they come back home after service over there."

The A. L. A. library service has grown tremendously within the past few months and millions of books have been distributed wherever soldiers and sailors are quartered, on sea or land.

"NEED ONLY CREED" SAYS GIPSY SMITH

"Need is the only creed over there," declared Gipsy Smith, the famous evangelist, speaking to enormous audiences in southeastern cities, where mass meetings have been held in the interest of the United War Work campaign to open on November 11.

FLORIDA NEWSPAPERS PLEDGE ASSISTANCE

Representatives of Florida daily and weekly newspapers in attendance at a luncheon held in connection with a conference of United War Work campaign workers, pledged themselves to concentrate behind the big drive to open on November 11.

Their action puts the full strength of the Florida newspaper fraternity in the field and in every section of the state the public will be informed through the columns of the press just what the aims and objects of the seven great war work agencies are in this coming campaign to raise \$175,000,000.

SERVED LEMONADE TO CHATEAU-THIERRY VETS

Salvation Army Workers Face Death Threats, Says Active Red Cross Worker

Here hard-fought lemonade served to the American troops during the battle of Chateau-Thierry furnished only one instance of the service being rendered to the soldiers of Uncle Sam and his allies by the Salvation Army workers now engaged with the fighting units on the western front.

The troops had been hammering at the Germans day and all night and their strength had been put out of action during the terrific fighting, but although suffering from wounds made by shrapnel, rifle bullets, and hand grenades, most of the injured men were conscious and many of them able to get about with the aid of improvised crutches. The surgeons were busy in the dressing stations and the waiting soldiers wanted nothing so much as a good drink of something cold and refreshing.

Then it was that the Salvation Army workers came along with several barrels filled with sure enough lemonade. Where they got the lemons, or the sugar nobody knows, but the soldiers asked no questions as they dove for the tin cups that were piled alongside the barrels on a huge truck.

The surgeons said afterward that the lemonade served to keep down the temperature of many a lad whose wounds could not be dressed until the most serious cases had been attended to. And what that cupful of good old Yankee drink meant to those boys who had just come out of the inferno of Chateau-Thierry, will never be told.

It is just that kind of service that is making the Salvation Army organization with the military forces of the allies one of the most potent factors in welfare work. As one of the seven great war work organizations participating in the united war work fund drive in November, the Salvation Army will be enabled, through its share of the \$175,000,000 to continue its operations with the fighting men.

"Y" HUTS IN FOREST.

In the pine forests of Alabama, Georgia, Tennessee and other States of the Southeast, where men are hewing wood to be used in the war program, the Y. M. C. A. is locating huts and tents so that they may be of service to these loyal workers. In so doing the "Y" is building up the morale of the men who are aiding the shipbuilding program.

"Spokes"—and the Swift "Wheel"

What would you consumers think of a wheel without spokes?

What would you think of a man who would take any or all of the spokes out of a wheel to make it run better?

Swift & Company's business of getting fresh meat to you is a wheel, of which the packing plant is only the hub. Retail dealers are the rim—and Swift & Company Branch Houses are the spokes.

The hub wouldn't do the wheel much good and you wouldn't have much use for hub or rim if it weren't for the spokes that fit them all together to make a wheel of it.

Swift & Company Branch Houses are placed, after thorough investigation, in centers where they can be successfully operated and do the most good for the most people at the least possible cost.

Each "spoke" is in charge of a man who knows that he is there to keep you supplied at all times with meat, sweet and fresh; and who knows that if he doesn't do it, his competitor will.

How much good would the hub and the rim of the Swift "wheel" do you if the spokes were done away with?

Swift & Company, U. S. A.
