

Milk War Imminent In Georgia As Mob Dumps 450 Gallons

Action Seen As Being Taken To Bring More Profit To Producer; War Is Bloodless

DES MOINES, Sept. 23.—(A.P.)—Farmers at points as widely scattered as Atlanta and North Dakota moved today to join a milk strike under way in Iowa for more than a month. Milk producers in New York and parts of New Jersey, Vermont and Pennsylvania are reported to be considering holding their products for the metropolitan market, and at Atlanta, the Milk Producers' Federation has ordered its members in 26 counties to stop shipment to distributors in Atlanta. In Minnesota, North and South Dakota, Oklahoma, Nebraska, and Iowa, thousands of farmers aided the non-selling movement with action which ranged from peaceful talks with neighbors to violence in stopping trucks on highways, and removing their cargoes of farm products.

ATLANTA, Sept. 23.—(A.P.)—The Georgia Milk Producers Federation, Inc., yesterday ordered its members in 20 Georgia counties to stop shipments of milk to distributors in Atlanta. The order for the "holiday" was made effective at once.

H. H. Hardin, vice-president of the federation, said the decision was reached at a meeting here of officers and directors, and that headquarters would be established here to direct the fight for better prices.

Hardin said it was emphasized that the aim of the federation was not to increase the price of milk to the consumers, but to obtain a fair price for the farmer and dairyman and the pasteurizers who handle the distribution of milk shipped from Atlanta.

Hardin also said the federation "is not going" about in action of a group of unidentified men dumping out 450 gallons of milk near Griffin yesterday. He added that the federation "will countenance no act of violence, and we will not engage in, or condone, rough stuff."

Hardin said the gross price paid for standard grades of milk (Continued On Page Four)

Young Arkansan Is Held, Charged With Murder Of Stepson

HARRISBURG, Ark., Sept. 23.—(A.P.)—Herman Ledbetter, 31-year-old farmer, was captured today and charged with the murder of his two-year-old stepson who has been to death near here yesterday. He was arrested after a search of citizens joined officers in a search for him following the issuance of a first degree murder warrant on a complaint of his wife, whom he married a year ago.

Authorities said Ledbetter disappeared after taking to his home the mutilated body of his stepson, Lev Power. The farmer told his wife, officers said, that the boy fell from a wagon and was crushed by its wheels. Mrs. Ledbetter said her husband often mistreated her son, and on several occasions the child had been beaten unconscious. Ledbetter denied he killed the child.

GOLD DEATH PROBED

GREENSBORO, N. C., Sept. 23.—(A.P.)—A verdict of accidental death has been returned by a juror's jury in the case of Charles W. Gold, 55, president of the Fidelity Insurance Company of this city. Gold was killed Wednesday while hunting when his shotgun was accidentally discharged. He had long been identified in national insurance activities and in 1920 served as president of the American Life convention.

EDUCATORS TO MEET

TALLAHASSEE, Sept. 23.—(A.P.)—A meeting of the Florida Educational Association will be held here Oct. 1-2.

WILLIAM BEEBE DESCRIBES LIFE IN OCEAN DEPTHS

Scientist Goes Down To 2200 Feet, Radio Brings Description

NEW YORK, Sept. 23.—(A.P.)—From far below the Atlantic Ocean, 2200 feet in fact, came the voice of a man yesterday for a nation to hear.

It was Dr. William Beebe, New York scientist, telling what he saw in the dark, but often illuminated depths of the ocean seven miles off Nonsuch Island, Bermuda. Together with Otis Barton, inventor of the device in which the descent was made, they kept going down until the water pressure on the side of their steel-strong compartment, called a "bathysphere," was 4800 tons. Connection between the "bathysphere" and the outside world was by means of a special telephone line, with Miss Gloria Hollister, Dr. Beebe's stenographer (Continued on Page Three)

Meisch Calls Meeting Of Young Democrats

John Meisch, Jr., temporary chairman of the Seminole County League of Young Democrats has called a meeting of the organization, to be held at the Democratic Headquarters in the Palm Room of the Valdez Hotel tonight at 8:00 o'clock.

A special invitation has been extended to women members of the party who wish to affiliate with the League and further its announced plan of getting out the vote so that a record ballot will be cast in favor of the New York Governor in the November elections.

Among the matters to be disposed of tonight will be the final organization of the League, and a further study of local and county conditions with the view to recruit effective workers in every section of the county.

Mrs. Borah Critically Ill With Psittacosis

FOISE, Sept. 23.—(A.P.)—The illness of Mrs. William E. Borah, was diagnosed yesterday by her physician as psittacosis, or "parrot fever."

Dr. Ralph Falk said that the nature of the ailment was discovered after an earlier diagnosis had indicated she was suffering from influenza. Mrs. Borah has been in a local hospital for a week with a high fever. Her condition was reported daily as serious. "I was informed yesterday," said Dr. Falk, "that a parakeet belonging to Mrs. Borah had died. This bird was sent to Boise from California. Upon investigation I find that psittacosis has been reported in California parakeets. The conclusion has been reached that Mrs. Borah has psittacosis. "While the symptoms are very much the same as in influenza, certain differences have appeared which point toward this diagnosis."

He reported Mrs. Borah had shown some improvement yesterday. Mrs. Borah purchased her parrots from a local resident three weeks ago. They were small bluish colored birds commonly known as "love birds."

Another Film Union Ends In Separation

LOS ANGELES, Sept. 23.—(A.P.)—The call of troupers is blaring today for one of Hollywood's latest broken romances, that of Vivian Duncanson, portrayer of the role of Eva in the stage and screen version of "Topsy and Eva," and her husband, Nils Asther, Swedish born film director. Announcement that they had separated was followed by the revelation of a domestic split between Greta Nissen, blonde screen actress, and Walden Hayburn, actor, because they don't see things "in the same light."

UTILITY KING'S PROJECTS NOW IN BANKRUPTCY

Stockholders' Salvage Hopes Shattered In Action By Federal Receiver Lindley

CHICAGO, Sept. 23.—(A.P.)—A last slender hope of hundreds of stockholders that receivership proceedings might salvage a part of their \$300,000,000 investment in two of Samuel Insull's investment trusts apparently has been shattered today. Federal Judge Lindley who was appointed as receiver for Insull Utility Investments, Inc., and the Corporation Securities Company, the deposed utility king's most ambitious projects, decided that the best course open was to institute bankruptcy proceedings against both concerns. Both companies have been operating under equity receiverships since Apr. 16. Judge Lindley adjudged the two companies (Continued On Page Three)

Socialist Candidate Has No Illusion Over Chance For Victory

NEW YORK, Sept. 23.—Morris Hillquit, who is the Socialist candidate for Mayor in the November city election if one is held, has no illusions about his chances for the mayoralty or the chances of the Socialist party as a whole in America. Mr. Hillquit is a realist, and realists are seldom optimistic.

"A Socialist victory this year is within the bounds of probability," he said recently, "but for only one reason. In normal times the triumph of the Socialist party would be a long way off, but in these abnormal times, when the ineffectiveness of the present national administration to deal with the unemployment situation has disgusted so many people and the vague abstractions of Governor Roosevelt offer up alternative, the Socialist movement has received a tremendous impetus."

In the last two years, and more markedly during the last few months, Mr. Hillquit said, the Socialists have been gaining a large number of new adherents. "In this city and throughout the country," he said, "I expect that the largest vote ever registered by the party will be polled this year, and I think the result will surprise those of the uninitiated who have not been apprised of recent developments."

Unique Advertising Of Silver Springs Seen

C. L. Thomas, representing Silver Springs at Ocala, was a visitor to Sanford yesterday in a highly decorated Austin automobile in which has been placed one of Byron S. Stephens' dioramas of Silver Springs.

Mr. Thomas is now on what will eventually be a tour of the entire United States in the interests of Silver Springs. The dioramas will be electrically lighted at each stop made by Mr. Thomas and the car, and it is anticipated that before the car returns to Ocala again, that it will have carried the message of Silver Springs to more than a million persons.

New York Police Hold Man Wanted In Florida

NEW YORK, Sept. 23.—(A.P.)—Abraham Wyman, 35, jewelry salesman, was in the police lineup today as a fugitive from justice from Florida. He was arrested at the request of Florida authorities who said he is wanted as one of three men charged with the killing of Joseph Beal, former mayor of Lake Wales. Wyman denied any knowledge of the crime.

McCoy Says Gotham Is Strong For Roosevelt

NEW YORK, Sept. 23.—(A.P.)—After a conference with New York City Democratic leaders John McCoy, Brooklyn political leader said today that New York City will give the biggest plurality in history to Governor Franklin Roosevelt this fall. John Curry, Tammany Hall leader when asked if he agreed with McCoy's prediction replied, "Well, he's usually right."

Railroads Ask Relief From "Unsound And Destructive Policy Of Reducing Wages"

WASHINGTON, Sept. 23.—(A.P.)—Ranking railway labor executives yesterday proposed to President Hoover that as a condition to further governmental aid to the carriers they be prevented from participating in "the unsound and destructive policy of reducing wages."

The statement was presented to the President by the railway labor executives association, led by A. F. Whitney, after the group Tuesday had declined to meet with representatives of the roads to consider proposed wage reductions. Citing that railway workers are now working under a 10 per cent reduction agreement, which expires in February, the statement said that at present "when there are some hopeful signs that the depression may have run its course, when there is renewed hope of early economic recovery, the railway employees find themselves menaced by a threat of further reductions of wages."

NEGRO LABORERS BRUTALLY USED, NURSE TESTIFIES

NEW YORK, Sept. 23.—(A.P.)—A statement charging the War Department with an effort to hush up accusations that negro workers on a Mississippi flood control project "were treated like pigs and slaves" was issued today by Walker White, secretary of the National Association for the Advancement of Colored People, on his return from Washington. White, who accompanied the Association's investigator, Miss Helen Boardman, when she testified before Brigadier General Pillsbury, sharply scored the exclusion of the press from the hearing, and the tenor of Pillsbury's questions.

WASHINGTON, Sept. 23.—(A.P.)—An account of "brutal beatings" and other cruelty in the handling of negro labor at contractors' camps on the Mississippi flood control project was laid yesterday before Gen. G. B. Pillsbury, assistant chief of army engineers, by a former Red Cross nurse. Helen Boardman, who made personal investigation in 22 contractors' camps, presented her testimony in a closed hearing but the national association for the advancement of colored people gave out a written statement of what she had to say. This quoted Miss Boardman as reporting "conditions amounting to virtual slavery," including beatings, given to men and women, commissary system abuses, amounting to extortion, and unsanitary living arrangements.

At conclusion of the hearing, General Pillsbury said the testimony would be sent immediately to Colonel Ferguson, president of the Mississippi River commission at Vicksburg. "He is making a thorough investigation down there," said General Pillsbury. Miss Boardman was quoted: "I saw negroes living in ragged, miserable and over-crowded tents, unscreened from mosquitoes and flies, surrounded in some cases by piles of garbage. "The men worked from 12 to 16 hours a day. On the outskirts of some of the camps there were (Continued on page Eight)

Florida Motor Lines' Bus Station Is Moved

Announcement was made today that the Florida Motor Lines' local bus station which has been in the Valdez Hotel for the past three years tomorrow will be moved to the Seminole Hotel on South Park Avenue. This change is seen as being one which will speed up service in and out of Sanford for it eliminates the necessity of several "switching" methods. Jack E. MacDonald, local agent for the Lines, also announced that until further notice, the Southbound buses will leave here at 1:00 o'clock and 5:15 o'clock in the afternoon and the northbound buses at 11:30 o'clock in the morning, and 5:15 o'clock in the afternoon.

Florida Court Rules That Kilgore Did Not Violate Spray Laws

TALLAHASSEE, Sept. 23.—(A.P.)—The Supreme Court yesterday held that Bernard Kilgore, Clearwater citrus grower, did not violate the state's anti-arsenic spray law in 1931.

Kilgore was charged with violating the law on June 20, 1931. An information was filed against him on Aug. 6, 1931. The Supreme Court held that placing of arsenic on groves prior to Dec. 6, 1931, did not violate the law. When the arsenic law was passed by the last legislature it was provided that the groves located within the Mediterranean fruit fly quarantine zones would be exempt from its provisions until Dec. 6, 1931. Attorneys in the case said the charges against Kilgore in Pinellas county already had been nolle prossed. The case went to the Supreme Court on Kilgore's appeal. Other decisions by the court: H. C. Reick vs. Central Farmers Trust Company, suit over mortgage foreclosure, Palm Beach Circuit Court, reversed. Wilson Cypress Company and Drew Lumber Company v. B. Stevens and P. A. Hutchison, suit over timber rights, Lafayette Circuit Court, reversed and companies granted five additional years time to cut timber from lands under lease. M. C. Fowler v. Josephine E. Lay and others, suit over promissory notes, Hillsborough Circuit Court, reversed.

DAVIS IS BORED OVER LOTTERY CASE HEARING

Senator Unmoved As Witnesses Relate Stories Intended To Intimidate Him

NEW YORK, Sept. 23.—(A.P.)—Trail of alleged lottery tickets in the federal court trial of Senator J. P. Davis was traced from printers to purchasers yesterday in a devious procession described on the witness stand. Starting from minor agents through whose hands passed packages said to contain Moose lodge charity ball and lottery tickets, government prosecution sought to establish that the path of a gigantic lottery plan led to the Pennsylvania senator's door. There was a slight stir in the courtroom when M. S. Ugan, route agent for the Railway Express agency of Philadelphia, testified the name of Edward McMahon appeared as shipper on some 100,000 packages. McMahon had been certified to the Railway Express Company, it was brought out in previous testimony, as authorized to enter a shipping agreement, by Malcolm R. Giles, supreme secretary of the Loyd Order of Moose. Giles testified Wednesday he did not know what the agreement was, but said he wrote the letter certifying McMahon as shipper (Continued on page Eight)

CONSPICUOUS DROP IN Loan Applications By Banks Reported

WASHINGTON, Sept. 23.—(A.P.)—A conspicuous drop in application for loans by banks, insurance companies and similar organizations since July 15, was interpreted at the Reconstruction Finance Corporation offices yesterday as indication of much improved bank conditions. Wilson McCarthy, director of the corporation, said "pressure" for bank credits had greatly lessened recently. The decline has continued steadily, he said. Not only has there been a decrease in applications for this form of loans, he said, but in Kansas City and Omaha especially, which are probably the largest centers for livestock feeder loans, some banks are advertising in an effort to obtain applications for loans from livestock men. The corporation now is organizing agricultural credit corporations throughout most of the country and especially the West, in an effort to get ready to make loans to livestock men. In furtherance of this plan, the corporation yesterday announced establishment of a branch office of the Salt Lake City Agricultural Credit Corporation at Los Angeles, Calif., and one of the Sioux City, Iowa corporation at Cheyenne, Wyo. It also announced that Harry G. Beale, banker, farmer and stock man, of Columbus, Ohio, had been named manager of the Columbus corporation which will serve the Fourth Land Bank District, and (Continued on page Eight)

Deadly Toadstools May Prove Fatal To Orlando Woman

ORLANDO, Sept. 23.—Deadly toadstools, confused with edible mushrooms, were responsible last night for the critical condition of Mrs. Helen Cline, 61-year-old resident, who ate the fatal deadly cup variety of toadstools for luncheon Wednesday.

Dr. Paul T. Butler, Orlando physician, is in attendance upon Mrs. Cline. He stated at noon yesterday her pulse seemed strong and her general condition more favorable than could have been hoped.

However, death comes slowly to people who eat the fatal amanita phalloides, as it is scientifically known. Before the caps are open they are very similar to the caps of the lepida species, or delicious, edible mushroom.

Both Dr. Butler and Prof. Townsend of the senior high school, who is an expert mycologist, warned against gathering the mushrooms unless the person knows how to distinguish between the poisonous and the edible varieties. There is no antidote for the poison of the death cap. Dr. Butler stated that in Kalamazoo, Mich., he had been called to attend seven people who were so poisoned. Six of the seven died, although one of the patients lingered for three weeks. The seventh person ate sparingly and finally recovered.

Railroad Commission Aids Rail Rate Fight

DAYTONA BEACH, Sept. 23.—(A.P.)—The state railroad commission yesterday came to the aid of the Florida Shippers League in its fight for lower rates on vegetables moving out of the state, at a hearing before W. W. Archer, Interstate Commerce Commission examiner. Fred Pettjohn, the railroad commission's accountant, attacked the system of basing the Interstate rate on Florida vegetables on traffic density of this class of shipments south of the Seaboard Air Line junction in Jacksonville. He contended the rate should be based on the existing rates since he said, on the existing basis Florida shippers pay \$17.50 a car load more than the shippers of other parts of the South.

KILLED IN WRECK

MACON, Ga., Sept. 23.—(A.P.)—George Glosier was killed, his wife and mother, the latter Mrs. Clara Glosier of Lake Worth, Fla., were critically injured and two men suffered minor injuries in an automobile collision near here Wednesday night. The Glosier party was enroute from Florida to Ohio.

SLAYER BAPTIZED

ST. PETERSBURG, Sept. 23.—(A.P.)—Baptized in a creek where he had committed his body to "old man river" and his soul to his maker, Frank Johnson, negro, was ready yesterday to be taken to Balford to await execution next week.

Roosevelt Scores In California Talk On 'Forgotten Man'

GRID OFFICIALS, COACHES MEET TO TALK RULES

Celery Club Is Scene Of Gathering Held Here Last Night

Nearly 20 Central Florida football coaches and officials, headed by Coach H. R. McQuillan, of Stetson University, and Jack McDowell, of Rollins College, last night, in a Football Rules Interpretation Meeting held at the Celery Club with C. E. Rawson as principal speaker and Peter Schaal, local sportswriter presiding, decided that the six important changes in 1932 football rules will not affect the game as much as has been the general opinion. Opening the meeting by declaring that the announced purpose of gathering the coaches and officials was "to enter a thorough discussion of the new rules and how they shall be interpreted in this section this season, and also to take a forward step in the organization of a strong officials' association," Mr. Schaal introduced Mr. Rawson, who had recently attended the annual Southern Conference Football Rules Interpretation meeting in Atlanta. Mr. Rawson explained the reasons for the organization of the Southern Football Officials Association and how it has developed since 1926. He declared that where in previous years most of the changes in playing rules have been made for the purpose of opening up the game, broadening its strat-

(Continued on page Six)

Prominent Arcadian Is Found Dead On Road

ARCADIA, Sept. 23.—(A.P.)—Lying beside his automobile, his pockets rifled, the body of Lee Evans, Arcadia turpentine and lumber operator, was found shot to death yesterday on a side road 22 miles from here.

The body was located by George Whitlock, an employe, whom Mrs. Evans sent to look for her husband. She said Evans had about \$100 with him when he left home Wednesday to see N. A. Adkinson, lumber man, whose mill is located in the Belmont section near where Evans was killed. Evans also had planned to visit Punta Gorda.

Evans was shot once through the head. Authorities said the bullet apparently had been fired at close range.

Georgia Cucumber Shipments Under Way

THOMASVILLE, Ga., Sept. 23.—Shipments of the fall crop of cucumbers is expected to get under way next week in the Coolidge District of Thomas county. Approximately 1000 acres were planted in cucumbers in that locality this year. Although reduced by about 20 per cent by wet weather, the crop is said to be excellent.

Last year growers of that section planted 100 acres and netted good profits from their crops. This year the planting were increased tenfold. Shipping cucumbers in the fall of the year is a new industry in this county.

France Nation Not To Recognize Manchukuo

PARIS, Sept. 23.—(A.P.)—France has no intention of recognizing the new state of Manchukuo, it was said yesterday in a high official quarter, and the French view concerning the status of Manchukuo is the same as that of the American government. The attitude of France, this informant said, always has been that of supporting the viewpoint of the League of Nations—viewpoint adopted in accord with the United States—which developed during sessions of the League of Nations council last year both here and at Geneva. The French view is that Japan's action and its consequences have no binding force because changes resulting from the use of force cannot be recognized as binding. For France the state of Manchukuo has no legal existence. French consuls in Manchuria have not been permitted to negotiate either with Japanese officials or officials of the Manchukuo regime.

PLANT CITY—J. G. McCoy establishment on Collins St. is remodeled and enlarged.

Says Johnson's Record Indicates Breaking Down Of Party Lines Through America

By W. B. RAGSDALE
ABOARD ROOSEVELT
SPECIAL, SACRAMENTO,
Calif., Sept. 23.—(A.P.)—In a renewed appeal that voters of all parties declare for a "new deal" Franklin D. Roosevelt yesterday told a crowd that jammed the red brick station at Sacramento that Senator Hiram Johnson, independent Republican from California, had long been "a warrior in the ranks of American progress."

While the crowds that had swarmed into the state capital from several neighboring counties cheered, Mr. Roosevelt said: "I rejoice that he said Wednesday that a government that thinks only of a favored few and that forgets farmers whose homes are being taken away from them, and toilers whose wages have been decreased to the danger line is unworthy of the name and unfit to govern."

"I believe in this doctrine myself 100 percent."

The speech was made from the back platform of the private car during a hour's stop of the Democratic presidential candidate's train at the California State capital. (Continued On Page Four)

Building Activity Is On Increase In U. S. Says Labor Bureau

WASHINGTON, Sept. 23.—(A.P.)—An increase in building activities during August was announced yesterday by the labor department, which reported also that July employment gains were well sustained during the ensuing month.

Based on reports from 352 cities having populations of 25,000 or over, the department said, "there was an increase of 4.5 percent in the estimated cost of all building operations" in August over July.

The department said that building permits reported by the 352 cities indicated an aggregate cost of \$37,137,075 or building operations, while the number of operations increased 18.7 percent over July.

"Comparing August with July, 1932," it said, "there was an increase of 23.5 percent in the number and an increase of 20.6 percent in the estimated cost of new residential buildings. New non-residential buildings increased 23.6 percent in number but decreased 2.7 percent in estimated cost."

"Additions, alterations and repairs increased 16.8 percent in number and 10.1 percent in estimated cost. Family dwelling units were provided for 2290 families. This is an increase of 18 percent as compared with July."

France Nation Not To Recognize Manchukuo

PARIS, Sept. 23.—(A.P.)—France has no intention of recognizing the new state of Manchukuo, it was said yesterday in a high official quarter, and the French view concerning the status of Manchukuo is the same as that of the American government. The attitude of France, this informant said, always has been that of supporting the viewpoint of the League of Nations—viewpoint adopted in accord with the United States—which developed during sessions of the League of Nations council last year both here and at Geneva. The French view is that Japan's action and its consequences have no binding force because changes resulting from the use of force cannot be recognized as binding. For France the state of Manchukuo has no legal existence. French consuls in Manchuria have not been permitted to negotiate either with Japanese officials or officials of the Manchukuo regime.

PLANT CITY—J. G. McCoy establishment on Collins St. is remodeled and enlarged.

1932 GRID SEASON OPENS HERE TOMORROW

McLucas' Men Will Engage In Contest Against Red Devils

Winter Garden Eleven Rated As Powerful Team Of Youngsters

McLucas Hopeful Nine Seniors Comprise Local First Eleven

By PETER SCHAAL

One of the earliest football games in the annals of Sanford or Seminole High School tomorrow afternoon will mark the opening of the 1932 season locally when Coach Leonard McLucas' Seminole High School eleven will display the results of nearly one month's workout in an opening game against the usually powerful Red Devils of Lakeview High School at Winter Garden.

Not in years has a general view of a season appeared as rosy as that of the 1932 season despite the fact that before it is concluded eight strong teams as Andrew Jackson and Robert E. Lee High Schools of Jacksonville, Daytona Beach, Orlando, Leesburg, and Deland must be met. Coach McLucas has a wealth of strong material, most of it having had the benefits of McLucas training for the past three years for on the squad of nearly 45 players there are 16 seniors nine of whom have apparently won a place on the first eleven.

Coach McLucas, starting his third season at the head of Seminole High grid teams, is naturally confident over the chances his team possesses, yet he is willing to admit that he will win half of his games. He is hopeful of being able to rack up a total game score of 300 points, which will be one more than his first or 1930 eleven scored against 56 points by the opponents. He is also hopeful of competing at least one of the Jacksonville teams, Andrew Jackson is possible.

Practice sessions have been underway at Municipal Park since Aug. 20, and this afternoon sees the end of what has been termed an unusually profitable series of easy lessons in the art of Notre Dame football as it must be played for victory. Only one serious injury has befallen the team during its entire practice season, and that brought the retirement from further play of young David Miller, a likely candidate, who ruptured a blood vessel in his arm.

The Winter Garden team that comes here is the eighth to represent that school since competition first began away back in 1925. In that year Sanford handed the Winter Garden boys a 12 to 0 defeat in the last game of the season. In 1926, Sanford won, 19 to 0. In 1927 came the worst rout of all, Sanford 63, Winter Garden 0. When Jim Stoinoff ran wild of an afternoon in 1928 it was Sanford 29, Winter Garden 6. In 1929 a scrappy Winter Garden team won the first and only game from Sanford, surprising that outfit by taking a 6 to 0 victory played in a drizzling rain at the local park. In 1930, Coach McLucas saw his boys score a 25 to 0 victory, while last year the McLucas Men opened the season with a 12 to 0 victory.

In the 1932 edition of McLucas' team will be out there tomorrow not only trying to win its opening game, but making it seem out of eight victories from Winter Garden, and keeping the same class of a score.

The game will start at 4:00 o'clock at Municipal Park. Admission this year will be 50 cents for adults and 25 for students and children. Coach McLucas requests that adults who attend games do their best to keep persons from smoking on the field during play, and that the baseball series, if it will be impossible to finish the game will be played, and that the roster of the team, which is all but about seven players, will be the first eleven named on the program what is commonly known as the first team, and the team that will start in the game.

Competition For Schaal Trophy Starts During Game Tomorrow

Winner To Be 5th Only Letter Men Will Be Eligible To Win

By PETER SCHAAL

Thirteen well-known Sanford men whose hobby is football and who have long been known as keen students of the game will tomorrow afternoon begin their fifth annual duties as members of the Advisory Board who will judge the style of play, temperament, ability, courage, and scholastic records of every member of Seminole High School football squad before announcing, after the last game of the year, the winner of the Peter Schaal trophy, awarded to the most valuable man on the team.

The 1932 winner will be the fifth so chosen, the others being Lofton Edenfield, scrappy right end who won the trophy in 1928 and again in 1929; George Moye, powerful fullback who is now considered as being one of the outstanding candidates for honors on Coach Charles Bachman's 1933 Gator machine, who won it in 1930, and Hendrix Lyles, popular member of Coach McLucas' 1931 eleven who was awarded the cup last year.

The requirements are few and are practically the same as those used in judging the letter men of the year.

Scholastic excellence is of course the first requirement, for players who fail in their studies do not make the team. Department in school is considered in this connection.

Department on the field before, during, and after any game or practice session also comes in for its share of observation for its temperament of any player is well reflected in his attitude while practicing and often being kept for a chance to be in a game.

Willingness to carry through to any conclusion any assignment; that type of courage which sees the player stick to the finish and smile when the odds are the greatest against him; that style of play which is at once slashing yet cautious, sensational yet heady, consistent but not sacrificing general team play for an attempt to "shine" on every occasion, all these things will be considered by the judges as they watch games and practice sessions during the coming season.

Above all, good sportsmanship must prevail. All players who are interested in the trophy and expect to make a bid for it, should remember how costly it was to one member of the 1931 eleven who, receding his last year with a fine performance saw his year's work practically ruined because of an unfortunate occurrence that has no place in the career of a real athlete. It is true, the player performed his act without thinking and in an apparent heat of feeling under an adverse decision, but the quality which makes champions of even the tiniest player asserts itself most when a tight spot arises out of which there appears to be no outlet except a reversion to poor sportsmanship.

Every member of Coach McLucas' 1932 squad, freshman, sophomore, junior or senior has an equal opportunity of winning the trophy.

Company D Springs Surprise In Beating Firestone Outfit

By E. H. CULLUM

Company D diamond ball team sprang the greatest surprise of the season Tuesday night when they handed the league leading Firestone team its first defeat of the second half, the score being Company D 16, Firestone 13.

Driggers pitched for the winners and although he was nicked for 13 hits, with the exception of the last inning, when Firestone bunched five hits, for four runs, he kept the blows pretty well scattered.

Tillis was on the mound for Firestone and while the records show that they yielded up 17 hits, ragged support and loose fielding on the part of his team mates accounted for most of them. Hit after hit that should have been easy outs either slipped through the infield or fell safe just short of an outfielder stretched hand.

The fielding feat of the game was the double play in the very first inning. Lloyd to Rines to Hester. Perry, first up in this inning, hit a line drive to right field good for three bases; Miles, substituting for Britt, who was late arriving on the field, sent a roller down to Lloyd at third, who whipped the ball to Rines at first to get Miles, Rines throwing to Hester in time to get Perry sliding in home.

Lloyd and Dan McClelland shared batting honors, each being credited with three hits out of four times up. Thompson for Firestone also got three out of four—a double, a triple and a home run.

Tillis for Firestone and Weaver for Company D also hit for the circuit, Weaver's coming in the sixth and Tillis in the 7th.

There will be no game tonight. However, on Friday night Company D and Medical Detachment will hook up in what promises to be a good game.

Vocational School Beginning Its Fall Term Of Classes

Mrs. James Moughton's Sanford Vocational School in the Hill Hardware building is now commencing its Fall term, and is open to all vocations for boys and girls between the ages of 14 and 17 years.

Among the few requirements is the basic one that all boys and girls attending the free classes must be employed or anticipating employment. A program has been arranged so that Monday, Tuesday, and Wednesday, between the hours of 7:00 o'clock in the morning and 5:00 o'clock in the afternoon is open to students of the younger group.

Classes for those over 17 years of age or for those in any employment, whether clerk, stenographer, salesman or mechanic, and those desiring English or other academic subjects will be held on Thursday and Friday between the same hours. Special classes will be held on Saturday morning for other subjects.

According to Mrs. Moughton, Vocational Education, as contemplated in the National act, includes education and training of less than college grade, the specific purpose of which is to equip boys, girls, men and women for the effective pursuit of occupations. The National Vocational Education Act was passed by Congress in 1917 and at the present time 48 states and the Territory of Hawaii are co-operating with the federal board in operating these programs.

For a local community to receive reimbursement from Federal funds for a school or class under the National act it must be organized to meet the standards set forth in the plan, some of which are, according to Mrs. Moughton:

1. The school or class must be under public supervision and control.
2. Federal funds must be matched either by funds from the state, the local community, or both. The funds cannot be used for buildings or equipment, but only for salaries of instructors, who must be qualified.

detective department, has been working on the Beal case for a week.

Both Duncan and Beal were associates of Emmett Donnelly. Donnelly is charged with being an accessory to the killing of Beal. He was a former Milwaukee and Green Bay business man. Duncan died under what authorities described as mysterious circumstances.

Donnelly is alleged to have collected two 25,000-dollar life insurance policies and held a 20,000-dollar double indemnity policy on the life of Beal.

SEABURY HONORED

WASHINGTON, Sept. 22.—(AP)—Samuel Seabury, who conducted the investigation of the administration of former Mayor James J. Walker of New York City, yesterday was chosen an honorary vice president of the National Municipal League.

Progress Is Being Made In Probe Of Mystery Slaying

LAKELAND, Sept. 22.—(AP)—Further progress in the investigation of the ambush slaying of Joseph Beal, former mayor of Lake Wales, was revealed today by J. C. Rogers, state's attorney. He said Florida authorities requested that the death of Willard Duncan in Milwaukee in January of 1926 be fully investigated to determine its cause and that William Griffin, head of a Memphis

White Collar Jobs

Not all unemployed are listed in the figures of the American Federation of Labor. Not all facing starvation are to be found in the bread lines of the American Red Cross. There is in this depression, certainly if not in others before, a class known as white collar men who have been hit equally as hard and are suffering quite as much, with less being done for their relief, than any other group of our people.

Wild Duck Shooting in Florida is Predicted

Wild duck shooting in Florida is predicted to be welcome news to wild duck shooters in Florida as well as in other states to learn that the approaching season is as promising as the Mar. 4, 1932, outbreak. At the same time, the Florida Game and Fish Commission is predicting a bumper crop of wild ducks in Florida.

Mississippi Negro is Suspected of Killing

Meridian, Miss., Sept. 22.—(AP)—Traded by Moonshiners, a negro known as Rogers or Dudley Roberts was arrested today after the body of Miss Gerline McNeil, 40, was found in a ditch near her home. She had been stabbed in the breast and her body hidden in the brush. At Roberts' home officers said they found bloodstained clothing and a shotgun. He was spirited away to an unannounced jail for safe keeping.

FRIDAY, SEPTEMBER 23, 1932

BULL YERSE FOR TODAY

HOW TO GAIN ALL—Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.—Matt. 6:33.

An optimist is a person who has the nerve to look around that corner.

We gather from Gov. Roosevelt's Portland speech that he believes in publicity.

Stock markets again surge upward. The market is recovering from the shock which Maine gave it.

It is about the time of year when all young men who do not go to college begin hitchhiking to Florida.

When asked the other day what the initials R. F. C. stand for, a wisecracking Democrat replied, "Republicans Finance Campaign."

All Cyprian news items in the headlines, this time with a writ of habeas corpus. The "big fellow" will have to get tired of his Atlanta shoe factory.

Judging from the pictures in the newspaper John Garner and President Hoover would be willing to settle this presidential campaign with fishing poles.

Republicans are demanding a square deal for President Hoover. The big issue of the campaign seems to have resolved itself into a "new deal" or a "square deal."

Gov. Roosevelt's world wide all-ver conference is expected to be formally opened with all the delegates joining in the chorus of "Silver Threads Among the Gold."

Partisan newspapers throughout the country have been busy explaining for the past week or so as to the blame for the nation, or else that all that is a lot of boloney.

If the next governor of Florida is unable to carry out campaign promises toward cutting the cost of government in half, we suggest that he may have McKee, of New York as an assistant.

Franklin Roosevelt advocates city, state, and even federal ownership of public utilities. We dare say a good many of our privately owned utilities would be glad to sell their interests at the present time to the government or anyone else.

Norman Thomas, socialist candidate for president, is directing most of his campaign against Roosevelt, indicating that Mr. Thomas, at least, regards the New York governor as the leading candidate for the presidency.

Anyone who thinks there isn't something wrong in this treat of the world of government and politics should study the election in Wisconsin. There Paul La Follette, making a revolution was defeated by a Republican gubernatorial nomination by a more conservative Republican.

The La Follette has been so successful for public office in Wisconsin. The result is looking very promising for this year, even if it is not material.

It is interesting to note that in spite of high tariffs, world wide depression, and such, the United States in relation to her own people is in a very bad way.

A Closing-Out Sale

Although the first review of the Literary Digest's straw vote shows Hoover leading by a scant margin, the results in Maine, as well as the non-partisan survey of Collier's weekly, and the tacit admission of prominent Republicans themselves, indicate a Democratic victory far in the East where Roosevelt is swinging through the West in which he has already spoken at length on agriculture, railroads, and public utilities, is said to have gained many votes for him.

More important than anything Gov. Roosevelt has said or done in the downfall of Herbert Hoover, has been the prevailing impression that the Republican party is responsible for the depression and is actually plotting its continuance. As typical of the obstacles which President Hoover will have to overcome in his re-election, to which he will find this in the Summer. An Journal, advertising a closing-out sale of the G. O. P.

As our lease with Uncle Sam will expire on March 1, 1933, and our "rent" for the Jack Pot will be transferred to "Sons of the Wild Jackasses," we have decided to hold an Auction Sale on the White House Lawn in Washington.

And sell to the highest bidder, all of our political machinery and our entire stock of supplies now on hand, to-wit:

One mow grown platform with all its farm plank broken.

One Political machine, 1921 model, badly in need of repair. Can only be recognized by its whistle.

One large over-bearing Mellon vein with several small branches badly frost bitten. (Classified as frozen assets.)

One Billion Dollar Crime Wave, made to order. Old enough to wear. Shined by Volstead and Damsel by Everybody.

Fourteen million moonshine stills, all operating at full capacity.

Seven hundred rum running vessels, just learning to swim, but with all divers in place.

One million dinner pails (all empty).

Twenty-one thousand miles of bread lines without a vacant space.

One seat on the Board of Trade, good for any amount of wheat.

Should the present prosperity continue we reserve the right to sell to the Hoover Moral Reform Board. (Farmers must take pauper's oath to secure one.)

Don't miss it. (Extra Large Hole) will be served by the Farm Board. (Farmers must take pauper's oath to secure one.)

The Army, Navy, Coast Guard and all available stock places will be formed in insurance Dolly Gans of her rightful place at the table.

If the chief executive arrives in time to assist at the sale, it is requested that all present who still have a hat will bring it with them. The band leader will be censured in the chief executive's office.

See your bank before you sell. Post-Office for foreign bonds accepted, although they are blocked by the State Department. The boys just put the G. O. P. on them so that Country Club, Japan, Mexico and the other international bankers should be able to get their money out of the states. It really amounts to only four billion dollars, and as all of our Wall Street friends are rid of them, we are no longer interested.

50 MILLION PEOPLE

CAN'T BE WRONG

"Buy the advertised brand" seems to have become a national slogan. But after all the public—the great American public—has found through years of experience that an advertised product is the safest bet.

Doesn't it stand to reason that the manufacturer would not spend thousands of dollars advertising for advertising purposes if he were not trying to build "repeat" orders or sales? Of course, he would not.

Locally the most successful and progressive business people advertising cannot afford to spend very much toward advertising, nevertheless they are doing their part to convince you that they want your trade. Patronize them.

in order to have his case treated. Socialism is undoubtedly a growing issue in Florida and is attracting so much interest that it is the state's state stepping stone from their purely religious fanaticism to make it a matter of debate. The Rev. John B. Ley, of Ocala, has been discussing the subject in the Ocala Banner and his criticism of socialist doctrine has stirred the Rev. Frank Sullivan of Tampa to reply.

Half the population of Sanford have become members of the Amalita Club and to outsiders the club seems a slender of things left this morning for Orlando Beach where they will enjoy for a few days the sun and sea.

made for them at the Atlantic Hotel and they expect to have a good time. Among the number were Messrs. Williams, Davison, Elder, Perry, Trueman, and others.

Harry Ward arrived home yesterday from Daytona, Fla. where he has been on a business trip. He is very well and is very glad to be home.

R. G. Chen has returned from a trip to some time in West Florida. He is very well and is very glad to be home.
